## FOREWORD

This user guide provides information about the Product Data Reporting and Evaluation Program - Automated Information System (PDREP-AIS) and is intended to assist users with the Product Quality Deficiency Report (PQDR) module functionality. This document does not cover specific policy or procedure and is designed to work in concurrence with existing processes. This guide does not replace or amend any Department of Defense (DoD) instructions, regulations, and/or policies. Revisions to this guide are made after application changes have been implemented. Date of last amendment is located on the title page.

Though this document is accessible to all users, its content is intended for those individuals with module access. Module access is granted on a case by case and need to know basis.

The Master Screener is responsible for the clarity and completeness of the PQDR. The Master Screener and Screening Point (if assigned) reviews the PQDR for proper categorization, validity, and correctness of data provided by the Originator. The Screener then forwards the PQDR to the proper Action Officer, maintains an audit trail for each PQDR, reviews the closing response from the Action Officer, and resolves differences with the Action Officer. To complete the PQDR process the Master Screener closes the PQDR.

**NOTE:** The data contained within this guide is NOT real data and is NOT to be used for business purposes. The material presented is intended to serve as an example only and was taken from a test system. All Controlled Unclassified Information (CUI) or For Official Use Only (FOUO) markings are intended for instructional use of the system to highlight features. No material within this document is CUI.

Refer to the appropriate PQDR instructions and manuals for information about DoD PQDR program requirements.

**NOTE:** *The data contained within this guide is NOT real data and it is NOT to be used for business purposes. The material presented is intended to serve as an example only.*

## INTRODUCTION

This document is intended to guide personnel in the use of Product Data Reporting and Evaluation Program – Automated Information System (PDREP-AIS) Product Quality Deficiency Report (PQDR) module.

The PDREP-AIS is accessible via the Product Data Reporting and Evaluation Program home page: <https://www.pdrep.csd.disa.mil/>

### Getting Access

- **First Time Users**

First time users will need to submit an on-line PDREP-AIS System Authorization Access Request (SAAR) form. Instructions are available on the PDREP home page as linked above. Click on the [Request Access](#) link for instructions on filling out an access request form. After following the directions and submitting the application, the PDREP team will then process access privileges accordingly. When requesting an account, ensure all fields indicated as mandatory are completely filled out. Mandatory fields are indicated by (M). The application will not be accepted if required information is missing.

- **Existing PDREP Users**

Existing PDREP users may request PQDR access by submitting a user access change request. To do this, log into the PDREP-AIS and hover over 'User Profile' in the upper right corner of the page and select 'Access Change Request'. Update access request as desired. Enter a narrative to describe requested changes, read & acknowledge User Agreement and click 'Sign and Submit Account Change Request' button to submit request. The PDREP team will then process additional access privileges accordingly.

## **NSLC Portsmouth Help Desk**

Contact us via submitting a help desk ticket either via the "Contact Help Desk" button in the lower right corner of our PDREP website or via the "Help" menu within the PDREP-AIS Application.

Additional contact information is below if you do not have an active PDREP-AIS account:

### **NSLC Portsmouth Help Desk**

Commercial Phone: (207) 438-1690 / DSN 684-1690

FAX: (207) 438-6535 / DSN 684-6535

E-Mail: WEBPTSMH@navy.mil

### **Mailing Address**

Naval Sea Logistics Center Portsmouth

Bldg. 153, 2nd Floor

Portsmouth Naval Shipyard

Portsmouth, NH 03804-5000

## **Additional Resources available on the NSLC Portsmouth Homepage**

In order to aid PDREP-AIS users, reference these additional resources as needed:

[FAQ](#) – On the PDREP website under References, the Frequently Asked Questions page gives quick answers to the most commonly received inquiries. Your question(s) may be easily answered there.

[Guides & Manuals](#) – This area of the PDREP website (under References) houses the PDREP-AIS' technical documents. These comprehensive guides serve to offer directive on operational tasks and enable users to pinpoint or problem solve without expert assistance. These manuals do not instruct on policy or process and are instead stepwise instructions on

using the PDREP-AIS application. Relevant process and policy are however referenced in the beginning of each of these manuals.

[Online Training](#) – Computer-based distance learning may be accessed through the Reference fly-out of the PDREP website. Instruction takes place remotely via instructor-led directive, module simulation, video-conferencing, application demonstration, or recorded lesson.

FAQ, User Guides, and Online Training are also accessible within PDREP-AIS by hovering over the 'Help' link located at the top left of each application page.

# 1 MAIN PDREP APPLICATION SCREEN

Once you have logged in, the PDREP Home page will display (see **Figure 1.1**). You may not see all of the options listed depending on your level of access.

*\* Please refer to PDREP User Access Request and Login Procedures or contact your PDREP Coordinator for further clarification.*

**Figure 1.1**

## 1.1 Finding the Fly-Outs

Hover your mouse pointer over any PDREP Application located on the upper left portion of the screen and a list of sub-links for that application will appear (see **Figure 1.2**).

The screenshot displays the PDREP (Product Data Reporting and Evaluation Program) web application interface. At the top, a green banner reads "This system contains CUI". Below this is the PDREP logo and the full name of the program. The main content area is divided into several sections: "APPLICATIONS", "SEARCHES", and "REPORTS". A "DB Stat" section is also visible on the right. A "Welcome" message and "Home • Help" links are in the top left, while the "Last Logon" date and time, along with "User Profile" and "Logout" links, are in the top right. A fly-out menu is shown over the "Search" option in the "SEARCHES" section, listing various search functions: Ad Hoc Reports, Clone PQDR, Create New PQDR, Search (with a sub-fly-out), and Worklist. The sub-fly-out for "Search" includes: RCN Search, Advanced QDR Search, DCMA Search, NIIN/Contract Search, End Item Search, MIR PQDR Search, and DCMA Exhibit/Suspense Search. At the bottom of the page, the version and build date are listed: "PDREP-AIS Version : 6.0.27.101, Build Date : 06/19/2023".

Figure 1.2

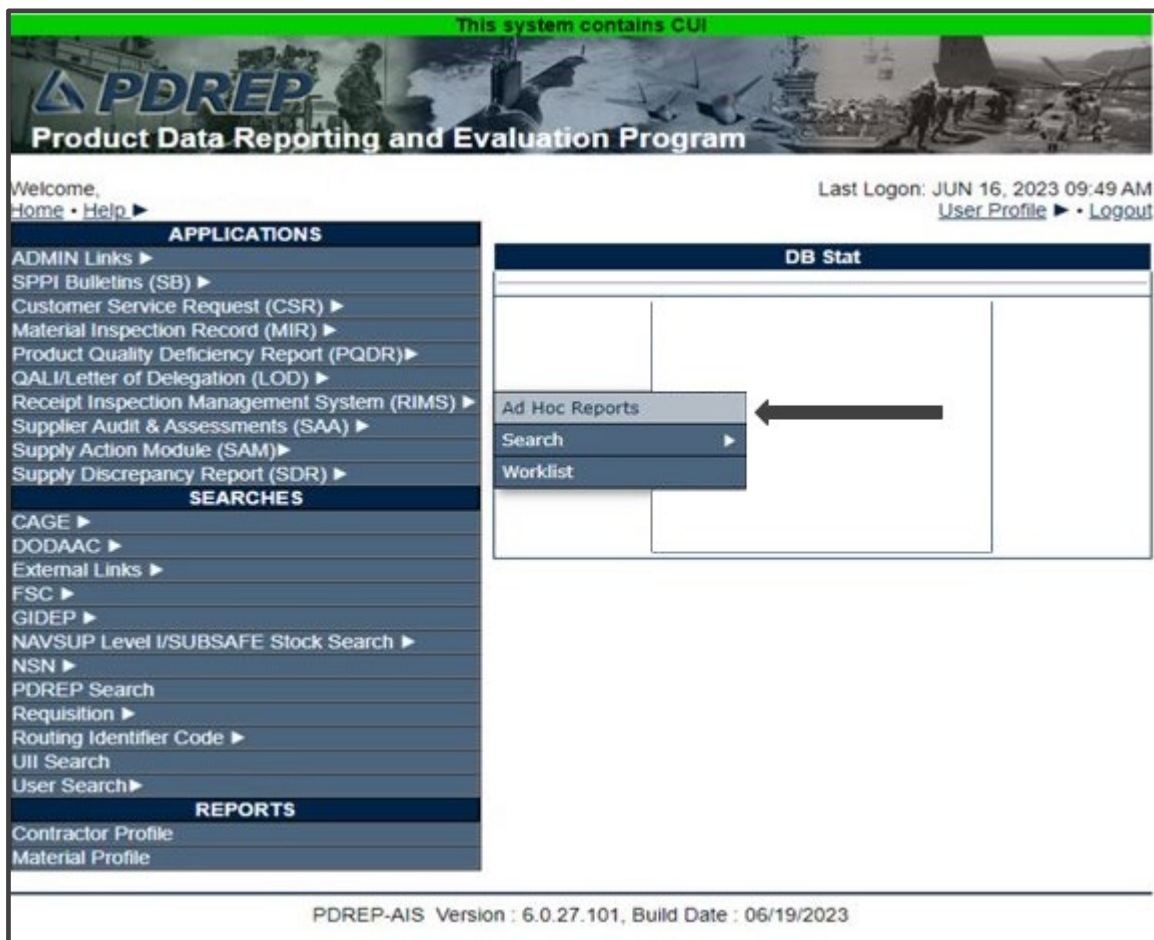

## 1.2 Selecting the Fly-Out

Selecting either of the sub-links will allow the user to go directly to that page within the application (see **Figure 1.2**).

## 2 PQDR AD HOC

### 2.1 Ad Hoc Tool

Please refer to the Product Data Reporting and Evaluation Program (PDREP) Ad Hoc Search Tool User Guide for detailed guidance on using the PQDR Ad Hoc Tool (see **Figure 2.1**).

**Figure 2.1**

## 2.2 Querying the Ad Hoc

The Ad Hoc query generator can be used to generate a variety of reports; all results are downloadable to Excel spreadsheets. On screen instructions are available as a reminder on how to create an Ad Hoc query. The webpage provides a method for users to choose a record type to query, select specific data elements from that record, and base the query on criteria like Date Range or Field Code used in the record to get results (see **Figure 2.2**).

Users can run the query and adjust it if it is not exactly what they are looking for by returning to the Ad Hoc report page after running a query.

The screenshot displays the 'PQDR Ad hoc Report' page. At the top, a green banner reads 'This system contains CUI'. Below it, a dark blue header contains 'PRODUCT DATA REPORTING AND EVALUATION PROGRAM (PDREP)'. The navigation bar includes 'Home • Help', 'User Profile', and a 'Logout' button. A menu bar shows 'PQDR Worklist', 'Create New PQDR', 'PQDR Search/Reports', 'PQDR Ad hoc Reports' (which is highlighted), and 'PQDR Clone'. The main content area is titled 'PQDR Ad hoc Report' and contains two sections of instructions. The first section, 'Instructions', provides steps for using a previously saved report. The second section, 'Please follow these steps to create new ad hoc report:', provides a six-step process for creating a new report. Below the instructions are two input fields: 'Select Data Record:' with a dropdown menu set to 'Product Quality Deficiency Reports' and a 'Get Data Elements' button; and 'Row Count:' with an unchecked checkbox. At the bottom, there is a 'maximum rowcount:' field with the value '20000' and a note '(Maximum size : 20,000)'. The footer of the page states 'PDREP-AIS Version : 6.0.27.101, Build Date : 06/19/2023'.

Figure 2.2

### 3 PQDR WORKLIST

The PQDR Worklist pages are used to filter the list of PQDRs based on Access Role, Status, DODAAC, and User Code.

#### 3.1 Accessing the PQDR Worklist

To access PQDR Worklist, select the *Worklist* link from the sub-links displayed in the PQDR fly-out under the PDREP Applications, and the PQDR Worklist page will display (see **Figure 3.1**).

Figure 3.1

PQDR Worklist	Create New PQDR	PQDR Search/Reports	PQDR Ad Hoc Reports	PQDR Clone
PQDR Worklist				
<p><b>Instructions</b></p> <ol style="list-style-type: none"> <li>1. Select Show Worklist for</li> <li>2. Select Status for the PQDR list</li> <li>3. Enter DODAAC and/or User Code.</li> <li>4. Add additional information as required to reduce the Worklist result set.</li> </ol> <p><a href="#">For additional help</a></p>

my Worklists	User Guide	Open my Worklist	Create New Worklist	Manage my Worklists

Figure 3.2

### 3.2 Worklist Settings

The Worklist settings will default as shown in **Figure 3.2**, with the Activity set to your primary DODAAC and the User Code set to your PDREP User ID. Under Show Worklist For, select the desired role; ORIGINATOR, SCREENING POINT, ACTION POINT, or SUPPORT POINT. If you want to see only PQDRs currently assigned directly to you, click Display Standard Worklist button. If you want to see all PQDRs assigned to your activity (DODAAC) then you may remove your User Code and then click Display Standard Worklist button.

- A. The Status setting of CURRENT WORKLIST will return only PQDRs currently assigned to the role selected in Show Worklist For. Other available statuses include:
1. **ALL:** Returns all PQDRs assigned to the designated activity and/or user code for investigation, whether the investigation is active or already completed and whether the PQDR is open or closed.
  2. **OPEN:** Returns all PQDRs assigned to the designated activity and/or user code for investigation, whether the investigation is active or already completed but where the PQDR has not yet been closed by the Screening Point. This includes PQDRs forwarded to a Support Point but not yet returned.
  3. **CLOSED:** Returns all PQDRs previously assigned to the designated activity and/or user code for investigation but where the PQDR has been closed by the Screening Point.

4. **EXHIBIT WORKLIST:** Returns data if the Exhibit Request Date is populated and the Exhibit Return Date is not, regardless of record status (Open, Closed).
- B. The date range for the Worklist defaults to the present date minus three years but can be changed if needed. The Worklist can also be sorted by a variety of criteria but defaults to listing PQDRs in ascending order by the date on which the PQDR was first entered into PDREP.
  - C. The Worklist can also be run for a specific team by entering the designator for that team in Organization Code. The results will include any PQDR currently assigned to a PDREP user for action whose user profile contains the exact Organization Code specified in the search.
  - D. When you have selected the criteria, click Display Standard Worklist to view all PQDRs matching the criteria entered. The Worklist results will appear as in **Figure 3.3**.

The screenshot shows the 'PRODUCT DATA REPORTING AND EVALUATION PROGRAM (PDREP)' interface. At the top, there is a navigation bar with 'Home • Help' and 'User Profile: [ ] • Logout'. Below this is a menu with 'PQDR Worklist', 'Create New PQDR', 'PQDR Search/Reports', 'PQDR Ad hoc Reports', and 'PQDR Clone'. The main content area is titled 'PQDR Worklist' and contains instructions for using the worklist. It features several search filters: 'Show Worklist For:' (dropdown set to 'ORIGINATOR'), 'Status:' (dropdown set to 'CURRENT WORKLIST'), 'From Date:' (06/20/2020), 'To Date:' (06/20/2023), 'DODAAC:' (text input), 'User Code:' (text input), and 'Sort:' (dropdown set to 'RECEIVED DATE - ASC'). There is an 'Organization Code:' text input and a 'Display Standard Worklist' button. Below these filters, there are instructions for using personalized worklists and buttons for 'my Worklists', 'Open my Worklist', 'Create New Worklist', and 'Manage my Worklists'. At the bottom of the main area, it says 'Result count: 2' and 'Worklist Download: Click here to download data in spreadsheet'. A table with 17 columns is displayed, showing two rows of data. The columns are: CAT, Received, History & Corresp., RCN, SF-368, Vendor Cage, Manufacture Cage, CSI, NSN, Nomenclature, Requisition No., Contact/Phone, Last Action, Last Corr Date, Last Corr From, Status, Days Overdue, and Delete. The first row has values: II, 06/02/2023, View, [ ], SF-368, [ ], [ ], YES, 9B 3120 009148671, BEARING,SLEEVE, [ ], [ ], ORIGINATOR, 06/05/2023, POREP, DRAFT, [ ], Delete. The second row has values: II, 06/02/2023, View, [ ], SF-368, [ ], [ ], NO, 9999, [ ], [ ], ORIGINATOR, 06/05/2023, POREP, DRAFT, [ ], Delete. At the very bottom, it says 'PDREP-AIS Version : 6.0.27.101, Build Date : 06/19/2023'.

CAT	Received	History & Corresp.	RCN	SF-368	Vendor Cage	Manufacture Cage	CSI	NSN	Nomenclature	Requisition No.	Contact/Phone	Last Action	Last Corr Date	Last Corr From	Status	Days Overdue	Delete
II	06/02/2023	<a href="#">View</a>		SF-368			YES	9B 3120 009148671	BEARING,SLEEVE			ORIGINATOR	06/05/2023	POREP	DRAFT		<a href="#">Delete</a>
II	06/02/2023	<a href="#">View</a>		SF-368			NO	9999				ORIGINATOR	06/05/2023	POREP	DRAFT		<a href="#">Delete</a>

**Figure 3.3**

The search results include the following fields.

1. **CAT (Category):** The category (I or II) of the PQDR. Category I PQDRs will be identified in red.
2. **Received:** The date when the PQDR was forwarded to the Master Screener level.
3. **History & Correspondence:** Click the View link in this column to open a new window containing correspondence and forwarding history for this PQDR.
4. **RCN (Report Control Number):** Click the RCN in this column to open the Master Screener page for the PQDR. This is the page from which most Master Screener tasks will be performed.
5. **SF-368:** Click SF-368 link in this column to view the Standard Form 368 for the subject RCN in a new window.
6. **CAGE (Vendor and Manufacture Entity):** The CAGE code of the contractor to whom the deficiency has been attributed to will appear here if one has been supplied. Clicking on the CAGE code in this column will redirect you to the NIIN/Contract Search page and allow you to search for other PQDRs attributed to this CAGE code (which will be filled in automatically on the search page) or by other criteria. Note on Vendor CAGE/Vendor Liability: Vendor CAGE code is the party held responsible contractually for supplying the deficient material. If the PQDR is Vendor Liable, the PQDR will affect the SPRS Score of the Vendor CAGE Code identified.
7. **CSI (Critical Safety Item):** Indicates whether the item reported deficient has been identified as a CSI. Investigations of CSI items should be expedited according to the policies of the investigating activities.
8. **NSN (National Stock Number):** The NSN for the item reported deficient. The NSN may have as many as four separate components:
  - i. **COG:** (Optional) Two-character Cognizance Symbol of the deficient item. When used, the COG identifies the inventory manager for the deficient item.
  - ii. **FSC:** (Required) Four-digit Federal Supply Class of the deficient item.
  - iii. **NIIN:** (Optional) Nine-digit National Item Identification Number of the deficient item.
  - iv. **SMIC:** (Optional) Two-character Special Material Identification Code for the deficient item. When used, the SMIC identifies items requiring stricter controls to ensure technical integrity (e.g. Navy Nuclear).
9. **Nomenclature:** Item description associated with the NIIN.

10. **Requisition Number:** This information is key for receiving activity refunds on DFAS items; typically found with deficient material paperwork or product packaging. It is most often made up of a 6 digit DODAAC, a single digit year, 3 digit Julian calendar date and a 4-digit serial number. (ex N45112/0/233/4567).
11. **Contact/Phone:** The name and telephone number (if provided) of the point of contact who forwarded the PQDR to the current Work List level.
12. **Last Action:** Displays the last forwarding, release or closure action performed on the PQDR.
13. **Last Corr Date:** Displays the date of the last correction was completed on the PQDR.
14. **Last Corr From:** Displays the User ID associated with who completed the last correction.
15. **Status:** Displays the current PQDR status.
16. **Days Overdue:** This value is based on the 'Show Worklist For' level selected. For the Master Screener level, this displays the relationship between the current date and the Master Screener Suspense Date. A negative number, e.g. -30 indicates the number of days remaining until the current suspense expires. A positive number, e.g. 10 indicates the number of days since the current suspense expired. A blank in this column indicates either that no suspense date has been set or that the current suspense expires today.
17. **Delete:** Any PQDRs that have not yet been released to Screening point are considered DRAFTs and can be removed by selecting the hyper-linked word DRAFT.

### 3.3 Personalized PQDR Worklist

Worklists may be created based on specific data elements that return specialized data.

The screenshot shows the 'PQDR Worklist' interface with a navigation bar at the top containing 'PQDR Worklist', 'Create New PQDR', 'PQDR Search/Reports', 'PQDR Ad Hoc Reports', and 'PQDR Clone'. The main content area is titled 'PQDR Worklist' and contains the following elements:

- Instructions:**
  1. Select **Show Worklist** for
  2. Select **Status** for the PQDR list
  3. Enter **DODAAC** and/or **User Code**.
  4. Add additional information as required to **reduce the Worklist result set**.

[For additional help](#)
- Search Filters:**
  - Show Worklist For: ARMY MASTER SCREENER (dropdown)
  - From Date: 09/02/2017 (calendar icon)
  - To Date: 09/02/2020 (calendar icon)
  - Status: OPEN (dropdown)
  - DODAAC: I (text input)
  - User Code: (text input)
  - Sort: RECEIVED DATE - ASC (dropdown)
  - Organization Code: (text input)
- Buttons:** 'Display Standard Worklist' and 'my Worklists' (with a dropdown arrow).
- Text:** 'or select from your personalized PQDR Worklists below' (in red).
- Second Instructions:**
  1. Select the worklist from **my Worklists**
  2. Click **Open my Worklist**
  3. To create a new worklist select **Create New Worklist**
  4. To delete previously saved worklist select **Manage my Worklists**
- Bottom Buttons:** 'User Guide' (dropdown), 'Open my Worklist', 'Create New Worklist', and 'Manage my Worklists'.

A large black arrow points from the 'or select from your personalized PQDR Worklists below' text down to the 'Create New Worklist' button.

Figure 3.4

- To create a personalized PQDR Worklist, click "Create New Worklist", see **Figure 3.4**.
- If it is advisable to know the number of rows before running the query for the first time, check the 'Get Row Count' check box. The initial query will return only the number of rows returned for the specified parameters. This is especially handy to check if there are more than 20,000 records that match your query. Remember to uncheck the 'Get Row Count' box when you're ready to retrieve the actual data set.
- After selecting "Create New Worklist", select the desired Data Elements for the Worklist (see **Figure 3.5**).

PQDR Worklist Create New PQDR PQDR Search/Reports PQDR Ad hoc Reports PQDR Clone

**PQDR Ad hoc Report**

**Instructions**  
 To use a previously saved Ad hoc report:  
 1. Select an ad hoc from **My Ad hocs**  
 2. Click **Open My Ad hoc** button  
 3. To share or delete a previously saved ad hoc, select **Manage My Ad hocs** button

Please follow these steps to create new ad hoc report:  
 1. Select one or more Data Elements  
 2. Click **Add Columns** and/or **Delete Columns** to set the Selected Data Elements List  
 3. Select Data Element and click the **Add Where** button, to set the "where" condition(s)  
 4. Enter the Expression and Value in the "where" clause  
 5. To add more than one "where" condition, select a Logical Expression  
 6. Click on **RUN QUERY**

**Select Data Record:** Product Quality Deficiency Reports ▼

**Row Count:**

**maximum rowcount:**  (Maximum size : 20,000)

**Select Columns:**

Data Elements	Selected Data Elements
*Report Control Number (RCN)	No columns selected
A9 Indicator

Action Point DODAAC	

**Data Element:** ▼

PDREP-AIS Version : 6.0.27.101, Build Date : 06/19/2023

**Figure 3.5**

D. Selecting of Data Elements:

1. Selecting one Data Element will give you only the results on that individual element.
2. Multiple Data Elements may be selected in the column together by using the CTRL or Shift key.
3. Once Data Elements have been selected, click Add Columns to move them to the Selected Data Elements box. Data Elements can be removed from the Selected Data Elements box by selecting them and clicking Delete Columns (see **Figure 3.6**).

4. Data Elements can be prioritized in the Selected Data Elements box by selecting data element and using the Up and Down arrows to the right of the box.
5. Data Elements can be prioritized in the drop down next to the 'Add Where' Button.
6. After Data Elements have been selected, click Add Where to go to the Worklist report query screen where values and expressions can be placed to retrieve desired report results (see **Figure 3.7**).
7. At Worklist report screen, values must be place in to run query. Once query has been run it can be saved to your profile as a personalized Worklist (see **Figure 3.7**).

## 4 MASTER SCREENER ACTIONS

### 4.1 Accessing the PQDR

The Screening Point can either enter the RCN directly on the PQDR Search > RCN Search page (see **Figure 4.1** and **Figure 4.2**) or look up the PQDR on the Worklist page (see **Figure 4.3** and **Figure 4.4**) and click on the subject RCN. Once the new PQDR has been selected by either method, the PQDR Base Page will display (see **Figure 4.5**).

## 4.2 Sending Acknowledgment

The Master Screener should acknowledge receipt of PQDR and begin to review, reassign or return immediately upon receipt of the PQDR.

- A. Click the Send Originator Acknowledgement of Receipt link (see **Figure 4.5**). The Send Message page will be displayed (see **Figure 4.6**).
- B. A message will be sent to inform the Originator of the PQDR acceptance. The Send Message form displays to provide the opportunity to add comments for the Originator (see **Figure 4.6**).

Figure 4.6

C. After sending the receipt message the Master Screener PQDR Base Page will display (see **Figure 4.7**).

**Figure 4.7**

**NOTE:** In many cases the only action required by the Master Screener may be to review the PQDR for correctness and to forward it to an Action Point for investigation, or to close the PQDR. The Master Screener may however add or edit information.

### 4.3 Screening Point – Editable Fields

#### A. Edit Blocks 1-21 Data

1. To enter or edit mandatory fields from the SF368 as entered by the Originator, click the Blocks 1-21 link from the Screening Point base page (see **Figure 4.7**).
2. The PQDR Originator Data Entry Blocks 1-21 will display. For detailed explanation of Blocks 1-21 please refer to the PQDR Originator instructions located on the PDREP Main Menu under Guides and Manuals.

## B. View/Edit Screening Point Data

1. To add or edit information, click the View/Edit Screening Point Data link from the Screening Point base page (see **Figure 4.7**).
2. The PQDR Screening Point Fields page displays (see **Figure 4.8** and **Figure 4.9**). This page allows the Master Screener to enter supplemental information about the PQDR such as Stock Screening or Alert Information, Control Numbers, Local Routing Codes, Suspension Codes and other information. Please consult local policy for detailed information regarding the use of these fields.

**PQDR Screening Point Fields**

**Instructions**  
(M) denotes a mandatory field  
1. Enter mandatory fields  
2. Enter optional fields, if information is known  
3. Correct format for Date Elements is MM/DD/YYYY or use Calendar  
4. To save the record, click **Save**  
5. To cancel the process, click **Cancel**

Note : All modifications to Originator data (SF-368 blocks) must be done in the Originator data entry pages

**Figure 4.9**

**C. Close this PQDR**

Refer to section 10 for closing actions.

**D. View/Add Notes or Reference Briefs**

The View/Add Notes and Reference Brief link from the Screening Point base page provides access to input or view additional information about the processing of the PQDR (see **Figure 4.7**). This information is internal to PDREP and will not appear on any report or correspondence. They are frequently used for things like workflow notes or documenting telephone conversations regarding a PQDR. Although they are not

visible outside of PDREP, the notes are visible to PDREP users at the originator's DODAAC, not just the user who entered the note.

1. To enter notes or reference briefs, click the View/Add Notes or Reference Briefs link on the Screening Point Data Entry base page. The form illustrated in **Figure 4.10** displays.

The screenshot shows a web application interface for the Product Data Reporting and Evaluation Program (PDREP). At the top, a green banner reads "This system contains CUI". Below this is a dark blue header with the text "PRODUCT DATA REPORTING AND EVALUATION PROGRAM (PDREP)". The navigation bar includes "Home • Help ▶" on the left and "User Profile: ▶ • Logout" on the right. A red warning message states: "Unclassified Naval Nuclear Propulsion Information (U-NNPI/NOFORN) is NOT authorized." The main content area displays "RCN: .0006" and "NSN: 9999", followed by "Location of PQDR: SCREENING POINT FROM ORIGINATOR" and a link "View: SF-368 (PDF)". A dark blue section header reads "View/Add Notes or Reference Briefs". Below this, "Instructions" are provided: "1. Click on Add Note/Brief to add Notes/Reference." and "2. Click on Cancel to return to the PQDR base page." A note states: "All Notes of type 'APPENDIX - PDREP NOTE' will cause a flag to appear on the PQDR Base page to alert the users." At the bottom of this section are two buttons: "Cancel" and "Add Note/Brief". The footer of the page reads "PDREP-AIS Version : 6.0.27.478, Build Date : 06/15/2023".

**Figure 4.10**

2. Click the Add Note/Brief button to complete this action.
3. The 'Add Note/Reference' section becomes visible and may be edited (see **Figure 4.11**).

**Figure 4.12**

- C. If no investigation will be conducted because the report does not meet PQDR criteria or because the deficient item is a GSA item, then the Screening Point will close the PQDR and inform the Originator of this action by using either the 'CLOSING ACTION ON PQDR' or the GSA letter as shown in **Figure 4.12**.
- D. If an investigation was conducted and stock screening is directed, then the Screening Point would send the 'SCREENING LETTER AND FISC NOTIFICATION'.

## 4.5 Release PQDR

### A. Re-Assign to other Master Screener

Use this function to either reassign a PQDR to a different Master Screener within your activity or to redirect to it to a different Army Screening activity as required.

1. From the Screening Point Data Entry base page (see **Figure 4.13**), click the Re-Assign to other Master Screener link. The 'Reassign PQDR from Screening Point to Screening Point' form will display (see **Figure 4.14**).

This system contains CUI

PDREP-AIS Version : 6.0.27.478, Build Date : 06/15/2023	

**Figure 4.14**

2. Choose the Screening Point Activity (DODAAC) of the individual Master Screener.
3. Once the Screening Point Activity has been selected, the 'Choose Screening Point E-mail Address' selection box will display beneath the Activity (see **Figure 4.15**).

**Figure 4.15**

4. The system will default to the primary Screening Point for each activity. If redirecting to another activity, it is usually best to accept the default rather than selecting an individual Screening Point. This is necessary so that the Screening Point for the activity can review and appropriately assign the PQDR.
5. Use one of the following two methods for adding a CC address.
  - i. Click the "Show Add CC List" button. The 'Choose CC Activity' selection box will display (see **Figure 4.16**).

**Figure 4.16**

- i. Select an Activity from the 'Choose CC Activity' list.
- ii. The Choose CC User selection box will display (see **Figure 4.17**).

The screenshot shows a web interface titled "Send Copy". At the top, there is a "CC:" field with an "Add CC" button and a "Hide Add CC List" button. Below this is a "Choose CC Activity:" dropdown menu with "0CPARS - CPARS TEST" selected, and a "Get CC User List" button. Underneath is a "Choose CC User:" dropdown menu with "<SELECT>" selected, and an "Add CC" button.

**Figure 4.17**

- iii. Click the user to CC from the 'Choose CC User' list to highlight the selection.
- iv. Click the "Add CC" button.
- v. The email address will be added to a 'Selected CC Addresses' table that displays after the selection has been made (see **Figure 5.18**).

The screenshot shows a search interface titled "DOD 411". It includes a "Select Service:" dropdown menu with "DOD" selected, an "Enter Partial or Full Name:" text input field, and a "Search DOD 411" button. Below the search area is a table with the following structure:

Selected CC Addresses	Delete
test.test.ctr@navy.mil	<input type="checkbox"/>

**Figure 4.18**

- ii. Alternatively, type the email address directly into the CC box.
    - i. Click the "Add CC" button.
6. Once you have chosen your recipients, enter any desired message into the Message box.
  7. Unless otherwise directed, accept the defaults for 'Attach PQDR Info' (defaults to Yes) and Send in format (defaults to SF368).
  8. Click "Forward PQDR" to complete the forwarding action and release the PQDR to the Screening Point.

9. Click the “Cancel” button to cancel this action.

B. Forward to Sub Screener

The Master Screener has the option to delegate the PQDR to a Sub Screener (Army Screening Point) within their activity.

1. Click the “Forward to Sub Screener” link from the Master Screener Data Entry base page (see **Figure 4.13**). The ‘Forward PQDR from Master Screener to Screening Point’ form displays (see **Figure 4.19**).

The screenshot shows a web application interface for the Product Data Reporting and Evaluation Program (PDREP). At the top, a green banner reads "This system contains CUI". Below it, a dark blue header contains the text "PRODUCT DATA REPORTING AND EVALUATION PROGRAM (PDREP)". The navigation bar includes "Home • Help", "User Profile:", and "Logout". A red warning message states: "Unclassified Naval Nuclear Propulsion Information (U-NNPI/NOFORN) is NOT authorized." The main content area displays "RCN:" and "NSN: 9999", with "Location of PQDR: SCREENING POINT FROM ORIGINATOR" below. A link "View: SF-368 (PDF)" is present. The form title is "Forward PQDR from Master Screener to Screening Point". It features two "Cancel" and "Forward PQDR" buttons. The "Send To" section has fields for "Choose Screening Point Activity:" and "Choose Screening Point E-mail Address:". The "Send Copy" section includes a "CC:" field, "Add CC", and "Show Add CC List" buttons. A "Message:" field is provided for a custom email message. An "Include Distribution List:" checkbox is located below the message field. At the bottom, there are two "Cancel" and "Forward PQDR" buttons. The footer indicates "PDREP-AIS Version : 6.0.27.478, Build Date : 06/15/2023".

**Figure 4.19**

2. Select the Screening Point Activity and a list of Subs-Screeners within the Master Screener's activity will display.
3. Additional addressing and forwarding are identical to that described in 'Reassign to other Master Screener'.

C. Re-Assign to Non Army Screening point.

The Master Screener has the option to redirect the PQDR to a Screening Point outside of Army if they determine that the PQDR is not under Army cognizance.

**NOTE:** If re-assigned, the Army Master Screener will have no further access to the PQDR.

1. Click the "Re-Assign to Non-Army Screening Point" link from the Master Screener Data Entry base page (see **Figure 4.13**). The 'Forward PQDR from Master Screener to Non-Army Screening Point' form displays (see **Figure 4.20**).
2. Select the Screening Point Activity from the Choose Screening Point Activity list. When the appropriate activity is selected, a list of Screening Points at that activity will display in a selection box.

The screenshot shows a web-based form titled "Reassign PQDR to Non Army Screening Point". At the top, there is a green banner with the text "This system contains CUI" and a blue header with "PRODUCT DATA REPORTING AND EVALUATION PROGRAM (PDREP)". Below the header, there are navigation links for "Home" and "Help", and a "User Profile" field with a "Logout" link. A red warning message states: "Unclassified Naval Nuclear Propulsion Information (U-NNPI/NOFORN) is NOT authorized." The form displays the following information: "RCN: [redacted]", "Location of PQDR: SCREENING POINT FROM ORIGINATOR", and "NSN: 9999". There is a link for "View: SF-368 (PDF)". The form contains several sections: "Send To" with a "Choose Screening Point Activity" dropdown and a "Choose Screening Point E-mail Address" text field; "Send Copy" with a "CC:" text field and "Add CC" and "Show Add CC List" buttons; and a "Message:" text area with a note: "(This message will appear in the email that is sent but will not be saved in the database)". There is also an "Include Distribution List:" checkbox and a vertical scroll bar. At the top and bottom of the form are "Cancel" and "Forward PQDR" buttons. The footer of the form reads "PDREP-AIS Version : 6.0.27.478, Build Date : 06/15/2023".

**Figure 4.20**

3. Additional addressing and forwarding are identical to that described in 'Reassign to other Master Screener'.

#### D. Forward To Action Officer

If the Master Screener determines that an investigation should be conducted by an Action Officer, then this function will complete the forwarding action.

1. Click the "Forward to Action Officer" link from the Master Screener Data Entry base page (see **Figure 4.13**).
2. Select the Action Point Activity and a list of Action Officers will display.
3. Additional addressing and forwarding are identical to that described in 'Reassign to other Master Screener'.

**NOTE:** *The Army Action Officer must be in the same activity as the Master Screener.*

#### E. Incorrect Recipient Activity- Return to Originator

This function should be used if the PQDR was forwarded to the wrong Screening activity and if you do not know the correct activity to which the PQDR should be reassigned. This function may also be used if the PQDR was unintentionally released to Screening and needs to be returned to the Originator's control. This functions in the same manner as the other forwarding actions but with the Originator's activity and e-mail address pre-populated and not editable.

## 4.6 Rebut PQDR

Rebut the Action Officer Decision - If a record has been forwarded to an Action Officer for investigation, and then returned to the Screener for closure, a link to Rebut is displayed. Selecting this option allows the Screener to return the PQDR to the Action Officer for further processing. This functions in the same manner as the other forwarding actions but with the Action Officer's activity and e-mail address pre-populated and not editable.

The screenshot displays the 'PRODUCT DATA REPORTING AND EVALUATION PROGRAM (PDREP)' interface. At the top, a green banner reads 'This system contains CUI'. Below it, a dark blue header contains the program name. A navigation bar includes 'Home • Help', 'User Profile:', and a 'Logout' link. A secondary navigation bar lists 'PQDR Worklist', 'Create New PQDR', 'PQDR Search/Reports', 'PQDR Ad hoc Reports', and 'PQDR Clone'. The main content area is titled 'Screening Point Data Entry' and shows details for a PQDR with RCN: CATEGORY II and NSN: STATUS: ACTIVE. It includes sections for 'Screening Point - Editable Fields', 'Correspondence', and 'Rebut PQDR'. The 'Rebut PQDR' section contains the link 'Rebut the Action Point Decision', which is highlighted with a black arrow. Other links include 'View/Edit Screening Point Data', 'Close this PQDR', 'View/Add Notes or Reference Briefs', and 'Re-Assign/Transfer to new POC within DoDAAC'. A 'Session Tracking:' section with a 'Back' button is at the bottom. A footer indicates 'PDREP-AIS Version : 6.0.27.4272, Build Date : 06/20/2023'.

Figure 4.21

- A. Click the Rebut the Action Officer Decision link (see **Figure 4.21**) and the Rebut Action Officer Decision form displays (see **Figure 4.22**). Select a proper Rebuttal code.

**Rebut Action Point Decision**

Forward PQDR Cancel

**Send To**

PQDR will be sent back to this Action Point:  
and to this E-mail Address:  
Rebuttal Code: <SELECT>

**Figure 4.22**

- B. The Rebut Action Officer Decision process follows functionality similar to the other correspondence actions previously described.

## 4.7 Rebut the Screening Point Decision

If a record has been forwarded to an Army Screening Point prior to routing to an Action Officer, and is then returned to the Master Screener for closure, a link to Rebut the Screening Point Decision is displayed (see **Figure 4.23**). Selecting this option allows the Master Screener to return the PQDR to the Screening Point for further processing. This functions in the same manner as the other forwarding actions but with the Screening Point's activity and e-mail address pre-populated and not editable.

The screenshot displays the 'UNCLASSIFIED/CONTROLLED UNCLASSIFIED INFORMATION' header for the 'PRODUCT DATA REPORTING AND EVALUATION PROGRAM (PDREP)'. The user profile is 'PQDR (BETA) USER GUIDE'. The page title is 'Master Screener Data Entry'. The main content area shows the following details:

- RCN:** [blank]
- Category:** CATEGORY II
- NSN:** 9999
- Status:** ACTIVE
- Location of PQDR:** SCREENING POINT FROM ACTION POINT

**Screening Point - Editable Fields**  
You may enter Screening Point data by selecting the links below

- Action Point
- Other

**ATTACHMENTS**

- View/Upload Files ( 0)

**EXHIBIT TRACKING**

- Exhibit Tracking
- Create DD-1348

**Session Tracking:**

Figure 4.23

## 4.8 Send Message To

The available recipients in this section will vary according to the level to which the PQDR has been previously forwarded. For example, upon receipt by the Screening Point the available links would be Originator for direct messages to the PQDR Originator or 'Other' for all other recipients. The page that displays is nearly identical to the forwarding page previously discussed and the same conventions should be followed. After forwarding, the available recipient links may include 'Action', 'Support', etc.

***NOTE:*** *The primary benefit of using the messaging features of PDREP is tracking of correspondence in PQDR History. All PQDR correspondence generated from within PDREP will be captured in history and therefore provides a comprehensive audit trail.*

## 5 NON-ARMY SCREENING POINT

The Master Screener may receive records that have other services as the Screening Point. These records will be received at the DoD Action Point level to the Master Screener.

### 5.1 Location of PQDR

The Data entry page will show the 'DoD Location of PQDR' and the 'Army Location of PQDR' (see **Figure 5.1**).

Master Screener Data Entry	
RCN:	NSN: <u>2222</u>
Category: CATEGORY II	Status: ACTIVE
Aviation PQDR: YES	
DOD Location of PQDR: SCREENING POINT FROM ACTION POINT	
Army Location of PQDR: MASTER SCREENER FROM SCREENING POINT	
[SCREENING PT CONTROL #]: 32323232323232	

**Figure 5.1**

- A. DoD Location of PQDR – describes the location in the DoD process, record is sent to the Army at the DoD Action Point level for investigation.
- B. Army Location of PQDR – describes the location within the Army process. This location will change as the record is moved in the Army process, example when Army Master Screener forwards record to Army Officer the 'Army location of PQDR' will change to 'Army Action Officer', the DoD location of PQDR will remain at 'Action Point from Screening Point' until the record is moved to a Support Point.

**NOTE:** Records received from Non- Army screening points cannot be sent to an Army Screener from the Army Master Screener. The Army Master Screener will need to forward the record to the Army Action Officer.

PDREP-AIS Version : 6.0.27.4282, Build Date : 06/26/2023

**Figure 6.2**

A. Close this PQDR

The Army Master Screener will not have the option to close non-Army originated records (see **Figure 6.1**). When the screening point is not Army, the Army Master Screener will return the record to the Non-Army Screening point for closure.

Other options under this heading remain unchanged (see **Figure 6.2**). Refer to Section 4 for details.

## B. Correspondence

These options do not differ. Refer to Section 4.4 for details.

## C. Release PQDR

The Army Master Screener does not have the 'Forward to Sub-Screener' and 'Re-Assign to Non Army Screening Point' options.

### 1. Reassign to other Master Screener:

Use this function to either reassign a PQDR to a different Master Screener within your activity or to redirect to it to a different Army Screening activity as required. Refer to Section 4 for details.

### 2. Forward to Action Officer:

If the Master Screener determines that an investigation should be conducted by an Action Officer, then this function will complete the forwarding action. Select the Action Point Activity and a list of Action Officers will display. Refer to Section 4 for details.

**NOTE:** *The Army Action Officer must be in the same activity as the Master Screener.*

### 3. Incorrect Recipient Activity – Return Non Army Screening Point:

This function should be used if the PQDR was forwarded to the wrong DoD Action Point activity and the correct activity to which the PQDR should be reassigned is not known. This function may also be used if the PQDR was unintentionally released to the DoD Action Point level and needs to be returned to the Non Army Screening Point's control. This functions in the same manner as the other forwarding actions but with the Non Army Screening Point's activity and e-mail address pre-populated and not editable.

## D. Rebut PQDR

1. This function will only be shown when the record has been returned from the Action Officer, once the investigation has been completed.
2. Rebut the Action Officer Decision - If a record has been forwarded to an Action Officer for investigation, and then returned to the Master Screener for closure, a link to Rebut is displayed. Selecting this option allows the Master Screener to return the PQDR to the Action Officer for further processing. This functions in the same manner as the other forwarding actions but with the Action Officer's activity and e-mail address pre-populated and not editable.
- 3.

E. Send Message To

This function remains unchanged. Refer to Section 4 for details.

## 7 OTHER PQDR BASE PAGE FEATURES

The PQDR Base Page (see **Figure 7.1**) is the primary working page for a PQDR after it has been entered into PDREP. Information may continue to be updated on a PQDR even after it has been released for screening and investigation. When the user updates a record that is at a different level (i.e. screening or action points), it is advised that correspondence be sent to the point of contact on the record informing them of the change. The base page also provides a method of reviewing PQDR status, sending relevant correspondence and identifying the investigating parties.

To access the Base Page, click on an *RCN number* from the Worklist or result of an RCN search. Actions available from the base page are described below.

The screenshot displays the PDREP- AIS Master Screener Data Entry interface. At the top, a green banner reads "This system contains CUI". Below it, a dark blue header contains "PRODUCT DATA REPORTING AND EVALUATION PROGRAM (PDREP)". The navigation bar includes "Home • Help", "User Profile:", and a "Logout" link. A secondary navigation bar contains "PQDR Worklist", "Create New PQDR", "PQDR Search/Reports", "PQDR Ad hoc Reports", and "PQDR Clone".

The main content area is titled "Master Screener Data Entry" and features a "CHOOSE LEVEL" dropdown menu. The dropdown menu is open, showing options: "Originator", "Screening Point", "Action Point", and "Support Point". Below this is a "QUICK VIEWS" section with links for "View SF-368 (PDF)", "View Exhibit Tag", "View Points of Contact", "History", "Army Credit", and "User Guides". Further down are "SEND MESSAGE TO" (Originator, Other), "ATTACHMENTS" (View/Upload Files ( 3)), and "EXHIBIT TRACKING" (Exhibit Tracking, Create DD-1348).

The background page shows fields for "RCN:", "Category:", "Aviation PQDR:", "Location of PQDR:", and "[SCREENING PT CONTROL #]:". On the right, there is a "SN: 9999" and "Status: ACTIVE". At the bottom, it says "Session Tracking:". The footer indicates "PDREP-AIS Version : 6.0.27.4282, Build Date : 06/26/2023".

Figure 7.1

## 7.1 Quick Views

The links in the Quick Views section of the PQDR Base Page provide a way to quickly review the various forms associated with a PQDR as follows:

- A. View SF-368 (HTML): Displays the SF-368 form in a new window as web-formatted text. This is the quickest way to retrieve an SF-368 for review but may not be suitable for printing.
- B. View SF-368 (PDF): Displays the SF-368 form in a new window as an Adobe Acrobat PDF document. This is the version most representative of the paper SF-368 form and is suitable for printing.
- C. View 1227 (HTML): This link is only available to non-SUPPORT POINT activities after a SUPPORT POINT investigation has been conducted and displays the DLA-1227 (Report of Investigation Results) form in a new window as web-formatted text. This is the quickest way to retrieve a 1227 for review but may not be suitable for printing. This form is visible to SUPPORT POINT users while the investigation is still in progress at the SUPPORT POINT level.
- D. View 1227 (PDF): This link is only available to non-SUPPORT POINT activities after a SUPPORT POINT investigation has been conducted and displays the DLA-1227 (Report of Investigation Results) form in a new window as an Adobe Acrobat PDF document. This is the version most representative of the paper 1227 form and is suitable for printing. This form is visible to SUPPORT POINT users while the investigation is still in progress at the SUPPORT POINT level.
- E. View Exhibit Tag: Displays a DD2332 exhibit tag form for attachment to an exhibit to the PQDR investigation if desired.
- F. View Points of Contact: Displays all points of contact assigned to date who may be participating in the PQDR investigation. This will include the Originator, Screening, Action and Support Point individuals as well as any Government, Contractor, Subcontractor and Shipper investigators assigned.
- G. History: Displays a comprehensive history of all forwarding actions and correspondence to date for the subject PQDR. The text of all e-mail messages will display on the History page, and a link is provided to any formal letter correspondence sent from PDREP so that the correspondence can be reviewed and reprinted if needed.
- H. Army Credit: Army only. For obtaining credit back for deficient material. See [Section 10](#) for Army Credit details.
- I. User Guides: Link takes you directly to the appropriate application user guide.

## 7.2 Attachments

Files of various types that support the PQDR or the investigation can be attached to a PQDR in PDREP.

- A. Click the View/Upload files link to see any files that have been attached to the PQDR to date (see **Figure 7.1**). The number of currently attached files will appear in parentheses.
- B. To attach new files, click the View/Upload Files link and then click Add Attachments and follow the instructions on the page.
- C. The maximum file size for any single attachment is 10 megabytes.
- D. To remove a selected attachment from the list of correspondence use control 'click of the mouse'.

## 7.3 Exhibit Tracking

The shipment and receipt of exhibits associated with the PQDR investigation can be tracked here.

- A. Click the Exhibit Tracking link (see **Figure 7.1**) and follow the instructions on the page if you wish to track exhibits.
- B. For ARMY: ADD/UPDATE SHIPMENT TRACKING link is only available to Action Point/Action Officer to the assigned user or Action Officer which has management access to the assigned Activity.
  1. DD Form 1348: A DD Form 1348 may be created for a PQDR by clicking the *Create DD-1348* link on the left side of the PQDR. If a 1348 was already created it can also be retrieved and edited or delete using the DD-1348 link.
  2. For ARMY: ADD/UPDATE SHIPMENT TRACKING link is only available to Action Point/Action Officer to the assigned user or Action Officer which has management access to the assigned Activity.

## 7.4 User Information

Hover your mouse pointer over the User Profile link located on the upper right portion of the screen and a list of sub-links for the User profile will appear. Selecting any of the sub-links will allow the user to go directly to that page within the User Profile.

## 7.5 Session Tracking

Session tracking maintains a record of all PQDRs viewed during the current login session. It also allows the User to quickly switch between records by selecting the linked RCN.

## 8 MASTER SCREENER CLOSING ACTIONS

Either upon receipt of investigation results from the Action Point or upon review of a PQDR that does not require investigation; the Screening Point will review and enter closing codes and investigation results and close the PQDR. If an Action Point investigation was conducted then the codes and investigation results narrative will be pre-populated for the Screening Point to review, edit or supplement as necessary.

### 8.1 Accessing the Closing Actions

- A. Click "Close this PQDR" (see **Figure 8.1**) and the Close PQDR page displays (see **Figure 8.2**).

**Figure 8.2**

**B. Figure 8.2: Data Fields. Mandatory fields marked as '(M)'.**

1. **(M) Status:** Select any applicable status code beginning with 'C' to close the PQDR.
2. **(M) Screening Point Comments:** Deficiency Responsibility Code: Identifies the party found responsible for the deficiency. Vendor or contractor liability is indicated solely by the code of 'A- PRIVATE CONTRACTOR'. All other codes indicate some degree of government liability or that the responsibility is unknown.
3. **(M) Severity of Defect Code:** Broad Cause Code: This code should correspond with the broad cause of the deficiency.
4. **Preventative Action Code:** Code used to indicate the preventive action taken to prevent recurrence.
5. **(M) Corrective Action Code:** Corrective action code taken as a result of the investigation.
6. **Final Exhibition Code:** Code representing the current disposition of the exhibit.

7. **(M) Cost Code:** This code should identify the party who will bear the cost of the deficiency.
8. **(M) Credit Code:** Identifies whether fiscal credit is granted to the Originator.
9. **(M) Defect Verified Ind.:** Was the defect verified by the government investigator?
10. **Preventive Answer Type:** If the contractor's response included preventive action, was the preventive action satisfactory to the government investigator?
11. **Corrective Action Taken:** Identifies the corrective action taken by the contractor and/or government investigators.
12. **(M) Weapon Systems Group:** Identifies the Army group of materials that best fits the item under investigation. Selecting the Group will cause a dropdown of applicable Weapon Systems Codes to display.
13. **(M) Weapon Systems Code:** More specifically identifies the item under investigation.
14. **Credit Memo:** This field is displayed for information purposes and will contain any credit memo reference entered by DLA.
15. **Case Reopened Date:** If a previously closed PQDR is reopened then the date on which it was last reopened will display here.
16. **Investigation Results:** The narrative here should provide a comprehensive set of findings from any investigation conducted. It is typically supplied by the Action Officer but can be edited by the Screener.
17. **Other fields:** The remainder of this page contains optional reference fields, as well as Activity fields and dates that indicate PQDR routing and processing. Once the Master Screener has reviewed the investigation results and chosen appropriate codes, the following options are available:
  - i. **(M) Closed Date:** The PQDR will not be 'closed' until a date is selected from the calendar.
  - ii. **Save:** will validate the mandatory entries and save the data, leaving the record at this page.
  - iii. **Close and Notify Originator:** will validate and close the record if a Closing Code has been chosen, and move to a messaging screen to allow the Master Screener to notify the Originator of the closing action.

**NOTE:** Master Screeners should consult Army and/or local policy for guidance regarding any additional closing requirements.

PDREP-AIS Version : 6.0.27.479, Build Date : 06/29/2023

Figure 9.1

### 9.1 Close PQDR

The Sub Screening Point has no option to close the PQDR. The record must be returned to the Master Screener for closure (see **Figure 9.1**).

## **9.2 Re-assign to Other Screening Point**

This function should be used if the PQDR was forwarded to the wrong Screening Point and you know the correct Screening Point within your activity to which the PQDR should be reassigned. Note that this link is not available if the PQDR has been forwarded to the Action Officer for investigation. This functions in the same manner as the other forwarding actions.

## **9.3 Incorrect Recipient – Return to Master Screener**

This function should be used if the PQDR was forwarded to the wrong Screening Point and you do not know the correct Screening Point to which the PQDR should be reassigned. This function may also be used if the PQDR was unintentionally released to the Screening Point and needs to be returned to the Master Screener. Note that this link is not available if the PQDR has been forwarded to the Action Officer for investigation. This functions in the same manner as the other forwarding actions but with the Master Screener's activity and e-mail address pre-populated and not editable.

## **9.4 Return to Master Screener for Closing**

If a record has been forwarded to an Action Officer for investigation, and then is returned to the Screening Point as part of the closing routing, a link to Return to Master Screener for Closing is displayed. Selecting this option allows the Screening Point to return the PQDR to the Master Screener for closure. This functions in the same manner as the other forwarding actions but with the Master Screener's activity and e-mail address pre-populated and not editable.

**NOTE:** *This link is not available if the PQDR has been forwarded to the Action Officer for investigation.*

Figure 10.1

- A. How it's populated
- The link to the Army Credit form is populated in Quick Views by forwarding the PQDR from originator point to screening point (see **Figure 10.1**).
  - Army Credit link is only visible to users who have management access and the same DODAAC as Master Screener/Action Officer POC for that record.
  - Originator cannot see Army Credit Link unless PQDR is forwarded to Screening Point with same DODAAC.

- q. Credit Reversal POC Phone
- r. Supplemental Activity
- s. Credit Comments
- t. Credit Reversal Comments

**E. Editable fields after PQDR is closed**

Once the PQDR is closed, the following fields on the Army Credit form will still be editable:

- a. Turn-in Number
- b. Credit Memo Bill Number
- c. Estimated Credit Issue Date
- d. Credit Issue Date
- e. Credit Reversal Date
- f. Quantity Credited
- g. Credit Amount
- h. Credit Amount Processed
- i. Credit Reversal Amount
- j. Credit POC Name
- k. Credit POC Email
- l. Credit POC Phone
- m. Credit Reversal POC Name
- n. Credit Reversal POC Email
- o. Credit Reversal POC Phone
- p. Supplemental Activity
- q. Credit Comments
- r. Credit Reversal Comments

## 11 GLOSSARY

PDREP ADHOC Display Name	Other Term(s) or Alias's possibly used in PDREP or other IT systems; Description
Action Office	DLA Field. Action Office responsible for the deficient material.
Action Officer Ack Date	Army Action Officers Acknowledgement Date: Date the Army Action Officer acknowledged receiving the PQDR.
Action Officer Major Command	Major Command related to the Action Officers DoDAAC.
Action Point Ack Date	Action Point Acknowledgement Date: Date the DoD Action Point acknowledged receiving the PQDR.
Action Point Control Number	DLA Case Control Number: A tracking number assigned a quality deficiency report by an Action Point. If DLA investigation, the tracking number will be the CDCS or BSM control number.
Action Point DODAAC	The Department of Defense Activity Address Code (DODAAC) of the activity responsible for the investigation and resolution of the deficiency in the PQDR. SF 368 Block 24a
Action Point DSN Number	7-digit Defense Switched Network phone number of the designated Action Point Investigator.
Action Point Due Date	Date by which a response is due from the Action Point to the Screening Point. Generated date based on the category of the PQDR.
Action Point EMAIL Address	Email of the designated Action Point individual.
Action Point Major Command	Major command of the DoD Action point
Action Point Name	Name of the individual at the Action Point that the PQDR is assigned to.
Action Point Phone Number	Phone number of the assigned Action Point individual.
Action Point Rebuttal Code	Reason for rebutting the PQDR.
Action Point Rebuttal Date	Date that the Action Point returns a PQDR to the Support Point for further investigation or review.
Action Point Rebuttal Literal	Action Point Rebuttal Code Literal: Literal describing the associated code.
Action Point User ID	PDREP UserID Login of the Action Point POC.

<b>PDREP ADHOC Display Name</b>	<b>Other Term(s) or Alias's possibly used in PDREP or other IT systems; Description</b>
Action PQDR RCN	When multiple PQDRs with identical deficiencies are reported, the Screening Point or Action Point references one as the primary/parent RCN for the investigation. This field contains the RCN DODAAC that reported the deficiency referenced as the parent RCN by the Screening Point or Action Point.
Action Pt to Army Act Off Dt	Action Point to Army Action Officer Date: Date the (non-Army) Action Point completes their portion of the investigation and returns the QDR to the Army Action Officer
Action Pt to Screening Pt Dt	Action Point to Screening Point Date: Date the investigation results and PQDR are submitted to the Screening Point from the Action Point for closure.
Action Pt to Support Pt Dt	Action Point to Support Point Date: Date the PQDR is forwarded by the Action Point to the designated Support Point (DCMA or Gov't Repair Facility) for investigation.
Action Requested	Indicates the action the Originator, has already taken or is requesting on the SF368 Block 21.
Added Activity	DODAAC or User Code of the Activity that added the record to the database.
Added Date	Computer generated date indicating the date the record was entered into PDREP.
AFP CAGE Code	Actual Failed Part CAGE Code: Manufacturers CAGE Code of the Actual Failed Part on the Deficient Item reported.
AFP COG	Actual Failed Part COG: Cognizance Code of the Actual Failed Part on the Deficient Item reported.
AFP FSC	Actual Failed Part FSC: Federal Supply Class of the Actual Failed Part on the Deficient Item reported.
AFP Hours	Actual Failed Part Hours: Number of hours a part was in use prior to failure.
AFP LRA Manufacturer	Actual Failed Part LRA Manufacturer: Last Repair of the Actual Failed Part on the Deficient Item reported.
AFP NIIN	Actual Failed Part NIIN: National Item Identification Number of the Actual Failed Part on the Deficient Item reported.
AFP Nomenclature	Actual Failed Part Nomenclature: Descriptive name of the Actual Failed Part on the Deficient Item reported.

<b>PDREP ADHOC Display Name</b>	<b>Other Term(s) or Alias's possibly used in PDREP or other IT systems; Description</b>
AFP Part Number	Actual Failed Part Number: Part Number of the Actual Failed Part on Deficient Item reported.
AFP Serial/Lot/Batch Number	Actual Failed Part Serial Number: Serial Number of the Actual Failed Part on Deficient Item reported.
AFP SMIC	Actual Failed Part SMIC: Special Material Identifier Code of the Actual Failed Part on Deficient Item reported.
Alert Narrative	Narrative information or instruction from the Action Point or Screening Point that explains action to be taken.
Alert Notification	Alert Indicator: Indicates that the Action Point or Screening Point has requested an action or is providing instruction. Alerts are only visible to Action and Screening Points.
AO Contractor Position	Army Action Officer Contractor Position: Part of Army Action Officer Investigation Completion
AO Corrective Action by Contr	Army Action Officer Corrective Action by Contr: Part of Army Action Officer Investigation Completion
AO Corrective Action by Gov't	Army Action Officer Corrective Action by Gov't: Part of Army Action Officer Investigation Completion
AO Description of Deficiency	Army Action Officer Description of Deficiency: Part of Army Action Officer Investigation Completion
AO Evaluation of Current Prod	Army Action Officer Evaluation of Current Prod: Part of Army Action Officer Investigation Completion
AO Remarks and Recommendations	Army Action Officer Remarks and Recommendations: Part of Army Action Officer Investigation Completion
AO Responsibility for Defect	Army Action Officer Responsibility for Defect: Part of Army Action Officer Investigation Completion
AO Root Cause	Army Action Officer Root Cause: Part of Army Action Officer Investigation Completion
Army Act Off Rebuttal Dt	Army Action Officer Rebuttal Date: If the Action Points rebuts the investigation to the Support Point the date is entered.
Army Act Off to Action Pt Dt	Army Action Officer to Action Point Date: The Action Officer has the option to redirect the PQDR to an Action Point outside of Army if they determine that the PQDR should be investigated by another Agency. This field reflects the date the QDR is redirected by the Action Officer

<b>PDREP ADHOC Display Name</b>	<b>Other Term(s) or Alias's possibly used in PDREP or other IT systems; Description</b>
Army Act Off to Mst Scr Dt	Army Action Officer to Master Screener Date: Date the Army Action Officer completes the investigation and returns the QDR to the Master Screener
Army Action Officer DODAAC	The Department of Defense Activity Address Code (DODAAC) of the Army Action Officer responsible for the investigation and resolution of the deficiency in the PQDR.
Army Action Officer Name	Name of the Army Action Officer.
Army Action Officer User ID	PDREP User ID Login of the Action Officer POC
Army CAI	Army Critical Application Item: Indicates whether the deficient Item reported is considered CAI to Army business process.
Army CSI	Army Critical Safety Item: Indicates whether the deficient Item reported is considered CSI to Army business process.
Army Malfunction Code	How Mal Code: Army How Malfunction Code.
Army Master Scr Major Command	Army Master Screener Major Command: Major Command of the Army master Screener
Army Master Screener Ack Date	Army Master Screener Acknowledge Date: Date the Army master Screener Acknowledged receipt of the PDQR to the originator.
Army Mst Scr Rebuttal Dt	Army Master Screener Rebuttal Date: Date that an Army Master Screener returns a PQDR to the Army Action Officer for further processing. If a record has been forwarded to an Action Officer for investigation, and then returned to the Master Screener for closure, a link to Rebut is displayed.
Army Mst Scr to SubScr Dt	Army Master Screener to Sub screener Date: Date forwarded (delegated) from Master Screener to a Sub Screener (Army Screening Point) within the same activity or to a Screening Point outside the Army.
Army Mstr Screener DoDAAC	Army Master Screener DODAAC: The Army Master Screener's Activity or DODAAC.
Army Mstr Screener UserID	Army Master Screener User ID: Activity or DODAAC of the Master Screener.
Army Mstr Scrn to Act Off Dt	Army Master Screener to Action Officer Date: Date forwarded from the Army Master Screener to an Army Action Officer. The Army Action Officer must be in the same Activity as the Master Screener.

<b>PDREP ADHOC Display Name</b>	<b>Other Term(s) or Alias's possibly used in PDREP or other IT systems; Description</b>
Army Product Type Code	This code is used to delineate which Army specific item the QDR represents.
Army Product Type Literal	Army Product Type Code Literal: Literal describing the associated code.
Army SubScr to Mstr Scr Dt	Army Subscreeener to Master Screener Date: Date a Screening Point returns the QDR to the Master Screener.
Audit Review Date	Date which a PQDR was reviewed or audited for accuracy by quality assurance or other authorized personnel by the screening point.
Aviation CBM Code	Aviation Conditioned Based Maintenance (CBM): Indicates whether a PQDR is related to Aviation Conditioned Based Maintenance (CBM).
Aviation Credit Recommendation	Credit recommendation provided on aviation and missile related PQDRs
Aviation MATCAT	Aviation Material Category: Describes the deficient items material category
Broad Cause Code	Cause Code: A code indicating the cause of the deficiency (Valid codes in QDR - Cause).
CAO Suspense Date	Contract Administration Suspense Date: Date by which the next Support Point action is due; data initiated by the Contract Mgmt. Office.
Case Reopened Date	Reopened Date: Date that a closed PQDR is reopened by the Screening Point, usually occurs at the request of the Originator.
CAT 1 Justification	Category 1 Justification: Narrative explaining justification for submitting a category 1 PQDR.
Category	A value of '1' or '2' designating the category of the PQDR. A category 1 PQDR is described as an item that could cause loss of life or catastrophic failure of a major weapon system. Category 2 PQDRs are all those which are not category 1. Category 3 is reserved for DLA use only.
Child PQDR RCN	If a PQDR is a parent, its children PQDRs are listed here.
Close Out Code	The Army Close Out Code.
Closed Date	The date the PQDR was closed by the Screening Point.

<b>PDREP ADHOC Display Name</b>	<b>Other Term(s) or Alias's possibly used in PDREP or other IT systems; Description</b>
CMO Suspense (Overall) Date	The Contract Management Office Overall Suspense Date.
COG	Cognizance Code: COG is a two character alphanumeric cognizant code of the deficient material that identifies and designates the Inventory Control Point office or agency. It is the first component of the NSN. Not used by the Marine Corps.
Company Name	Supplier Name, Vendor Name: The company name of the supplier that provided the deficient material.
Condition Code	Supply Condition Code: The DoD supply condition code.
Contract Delivery Order Number	The 4 character order number of the contract number under which the deficient material was procured or reworked. Last 4 characters of the contract number.
Contract Line Item Number	Identifies the specific Contract Line item number for the material acquired that contained the deficient item.
Contract Number	The identification number of the contract under which the defective/deficient item/commodity was purchased or reworked. The number is comprised of the 6 position Contract activity's Department of Defense Activity Address Code (DODAAC), seven position Contract Serial Number, and 4 digit Contract Order Number.
Corrective Action Taken Code	A code indicating the action taken by the Contractor and/or Government investigators to correct the discrepancy/deficiency reported in the PQDR.
Correspondence Code	Correspondence Code related in the history of PQDR related to the correspondence.
Correspondence Date	Correspondence date in the history of PQDR related to the correspondence narrative and correspondence code.
Correspondence From DODAAC	DODAAC of the organization sent a correspondence.
Correspondence From Email	Correspondence From Email Address: Email address related to a specific correspondence in the PQDRs history.
Correspondence Literal	Correspondence Code Literal: The literal related to the code of the same name
Correspondence Narrative	Narrative provided in the history of PQDR related to a specific correspondence date and correspondence code.

<b>PDREP ADHOC Display Name</b>	<b>Other Term(s) or Alias's possibly used in PDREP or other IT systems; Description</b>
Correspondence To DODAAC	DODAAC of the organization sending a correspondence.
Correspondence To Email	Correspondence To Email Address: Email address related to a specific correspondence in the PQDRs history.
Cost Avoidance Date	Date Cost avoidance value was realized.
Cost Avoidance Dollar Value	Cost avoidance as a result of the investigation. Quantity Post investigation x Unit value.
Cost Code	A code designating who bore the cost of the deficiency associated with the PQDR.
Credit Action	Credit action taken on the PQDR.
Credit Code	A code designating the type of restitution that will be authorized for the deficient material.
Credit Date	Material Credit Date: The date credit was issued.
Credited Dollar Value	Total dollar credit granted as a result of the PQDR.
Critical Safety Item	Indicates whether the deficient item is a critical safety item. Based on any service that considers deficient item to be a critical safety item.
Date (Submitted)	The date the SF368 was filled out and submitted to a screening point for processing
Date Deficiency was Discovered	Date indicating when the deficiency was discovered
Days Open	Measures time from the date submitted, to the date closed; if the record is not closed it measures to the time from the date submitted to the current date.
DCMA Process Code	Describes the DCMA process pertaining to the PQDR.
Defect Code	Code entered by the Support Point investigation reflective of the type of defect.
Defect Literal	Defect Code Literal:
Defect Responsibility	A code which indicates the party found responsible for the defect.
Defect Verified Indicator	Indicates whether the defect was verified by a party other than the Originator.

<b>PDREP ADHOC Display Name</b>	<b>Other Term(s) or Alias's possibly used in PDREP or other IT systems; Description</b>
Deficient Item Batch Lot Number	Deficient Item Batch or Lot Number: Batch or lot number associated with the deficient item.
Deficient Item Nomenclature	The name of the deficient item/commodity.
Deficient Item NSN	Nation Stock Number of the Deficient Item. Includes the Navy COG and navy SMIC, if present.
Deficient Item Part Number	The manufacturer's part number of the deficient item.
Deficient Item Serial Number	Serial number associated with the deficient item.
Description of Deficiency	A comprehensive description of the deficiency to include circumstances prior to the failure.
Detailed Cause Code	Defect Attribute Code, Action Point Detailed Cause Code: The Action Points Detailed Cause Code to report defect findings.
Detailed Cause Literal	Detailed Cause Code Literal: The literal related to the code of the same name
DLA Additional Information	DLA Field. Summary investigation results for transmission to CDCS (a DLA legacy system).
DLA Cause Code	DLA Field. Code selection that indicates the cause of the deficiency in the PQDR. Code values in QDR-Cause.
DLA Cause Narrative	DLA Field. Explanation of the cause code selected for the PQDR.
DLA Correction Code	DLA Field. First selected code indicating a correction to the cause of the deficiency in the PQDR. Code values in DLA_CORRECTION
DLA Correction Narrative	DLA Field. Explanation of the corrections to the cause of the deficiency.
DLA Credit Code	DLA Field. Code indicates the credit action to be taken by DLA if the deficient item was DLA managed (authorize or not authorize). Valid codes in QDR-Credit.
DLA Credit Memo Number	DLA Field. Credit memo number regarding the entered credit value.
DLA Credit Value	DLA field. Value of credit provided to the originator.
DLA Discrepancy Code	DLA Field. Code selection that indicates the nature of the deficiency in the PQDR. Code values in DLA_DISCREPANCY_DETAIL.

<b>PDREP ADHOC Display Name</b>	<b>Other Term(s) or Alias's possibly used in PDREP or other IT systems; Description</b>
DLA Discrepancy Narrative	DLA Field. Explanation of the discrepancy code selected for the PQDR.
DLA Disposition Code	DLA Field. Code selection that indicates the actions to be taken on the deficient material. Code values in DLA_DISPOSITION.
DLA Disposition Narrative	DLA Field. Explanation of the disposition code selected for the PQDR.
DLA Form 1227 Approved By	DCMA Field. Support Point official responsible for approving the 1227 investigation report for release.
DLA Form 1227 Block 12a	DCMA Field. Documents whether the reported deficiency was validated during the investigation or, if the deficiency was not validated, indicates the reason why the defect could not be validated.
DLA Form 1227 Block 12b	DCMA Field. Describes root cause of the deficiency as identified by the contractor or the reason why the root cause could not be determined.
DLA Form 1227 Block 12c	DCMA Field Documents who was found to be responsible for the deficiency e.g. the contractor, the government purchasing activity, the end user, etc. If responsibility could not be assigned or determined then this field indicates the reason.
DLA Form 1227 Block 13a	DCMA Field. Documents any corrective action taken or planned by the contractor to address the deficiency under investigation. This should include but not be limited to the contractor's position with regard to repair or replacement of the deficient item(s), which will also be documented in block 16A.
DLA Form 1227 Block 13b	DCMA Field Documents any actions that the contractor either has taken or will take to prevent future occurrences of this same deficiency
DLA Form 1227 Block 14a	DCMA Field Documents any corrective action taken or planned by the government investigating agency to address the deficiency under investigation.
DLA Form 1227 Block 14b	DCMA Field. Documents the actions that the government investigating agency either has taken or will take to prevent future occurrences of this same deficiency.
DLA Form 1227 Block 15	DCMA Field. Documents the contractor's evaluation of the impact of the reported deficiency on current production.

<b>PDREP ADHOC Display Name</b>	<b>Other Term(s) or Alias's possibly used in PDREP or other IT systems; Description</b>
DLA Form 1227 Block 16a	DCMA Field Documents the contractor's position specifically with regard to repair, replacement or other restitution to the government for the item(s) found deficient.
DLA Form 1227 Block 16b	DCMA Field Documents the contractor's actual or recommended final disposition of the deficient item(s).
DLA Form 1227 Block 17a	DCMA Field Documents whether potentially deficient quantities of the same item were shipped either previously or subsequent to the shipment in which the deficient item was delivered, destination and shipping dates of other shipments suspected to contain the same deficiency, and required disposition/shipping instructions.
DLA Form 1227 Block 17b	DCMA Field. Documents whether an alert should be sent to the government supply system(s) to alert them to the possibility of additional deficient items. Include notices or field bulletins, recommendations, or reason why stock screening actions are not necessary.
DLA Form 1227 Block 17c	DCMA Field Documents specific findings with regard to monetary credit for the deficient item, comments regarding any credit or no credit actions, and how that credit authorization will be processed (per the Military Standard Billing System).
DLA Form 1227 Block 17d	DCMA Field Documents any other general remarks or comments with regard to the investigation.
DLA Form 1227 Block 18	DCMA Field Documents any comments regarding distribution of the investigation results or of the supporting documents attached to the PQDR.
DLA Form 1227 Prepared By	DCMA Field Support Point individual that prepared the 1227 investigation report.
DLA Form 1227 Reviewed By	DCMA Field Support Point official that reviewed the 1227 investigation report.
DoD Unique Item Identifier	Government issued unique identification code for government material.
DODIC/NALC	Used to identify ammunition and ammunition components. Used by Army users.
DTL A PERS/MSN AFFECTED	Detail A: How safety personnel or activity mission is affected: Describes, "How safety personnel or activity mission is affected." of the originator for aviation and missile reported PQDRs.

<b>PDREP ADHOC Display Name</b>	<b>Other Term(s) or Alias's possibly used in PDREP or other IT systems; Description</b>
DTL B NO. SIMILAR DEFS	Detail B: Number of similar deficiencies in like items reported by the originating activity: Describes, "Number of similar deficiencies in like items reported by the originating activity." of the originator for aviation and missile reported PQDRs.
DTL C HOW DETECTED	Detail C: How deficiency was detected or confirmed: Describes, "How deficiency was detected or confirmed." of the originator for aviation and missile reported PQDRs.
DTL D STG & HNDLG INFO	Detail D: Storage and handling information: Describes, "Storage and handling information." of the originator for aviation and missile reported PQDRs.
DTL F RECOMMENDATIONS	Detail F: Recommendations: Describes, "Recommendations" of the originator for aviation and missile reported PQDRs.
DTL G AIRCRAFT MODEL	Detail G: Aircraft Model: Describes the Aircraft Model the deficient material was found on.
DTL H BUREAU/TAIL/HULL #	Detail H: Bureau/Tail/Hull Number: The Bureau/Tail/Hull Number of the ship or aircraft.
End Item CAGE	Currently undefined.
End Item EIC/WUC/TAMCN	Air Force Work Unit Code (WUC), Navy Equipment Item Code (EIC), or USMC Table of Authorized Materiel Control Number (TAMCN) code for the work unit or equipment where the deficient item would be used.
End Item Nomenclature	Item name/description of the End Item assembly where the deficient item is used.
End Item NSN	National Stock Number of the end item.
End Item Serial Number	The serial number from the equipment or system in which the deficient item was installed.
End Item Type/Model	TMS/MDS, Type Model Series: The type of major weapon system, item, or commodity the deficient item is used with or on. (e.g. M16A2 rifle, M1A1 Tank, Hawk Guided Missile System).
Engine Model	The Engine Model of an aircraft.
Engineering Activity	Used along with the LAR number to send/note the Cognizant Design Activity and are used in the CDA letter.

<b>PDREP ADHOC Display Name</b>	<b>Other Term(s) or Alias's possibly used in PDREP or other IT systems; Description</b>
Estimated Repair Cost	The estimated cost to repair the deficient item when it can be readily determined ((estimated repair costs + overhead costs) x quantity deficient).
Exhibit Action Marked For	Name and address supplied by the Action Point of the person to whose attention the exhibit should be shipped.
Exhibit Carrier Code	Code indicating the carrier used to ship the exhibit. Code values in QDR-Exhibit Carrier.
Exhibit Carrier Literal	Exhibit Carrier Code Literal: Literal describing the associated code.
Exhibit Condition Code	Code that identifies the condition of the exhibit. Values are pulled from the QDR_EXHIBIT_CONDITION table.
Exhibit Condition Literal	Exhibit Condition Code Literal: Literal describing the associated code.
Exhibit Disp Rcvd Instruct Dt	Exhibit Disposition Received Instructions Date: Date the disposition instructions for the exhibit are received by the Support Point.
Exhibit Disp Rqst Instruct Dt	Exhibit Disposition Requested Instructions Date: Date the exhibit request is made by the Support Point.
Exhibit Disposition Code	Exhibit Disposition Literal: Literal describing the associated code.
Exhibit Disposition Code	1) During the investigation, the current action on the exhibit. 2) Post-investigation, the Action's Point recommendation on how to dispose of the exhibit. Code values in QDR-Exhibit Disposition.
Exhibit Disposition Date	Date the exhibit disposition letter is sent by the Support Point.
Exhibit Marked For/Attention	Name supplied by the Support Point of the person to whose attention the exhibit should be shipped.
Exhibit Promised Date	Date when the Originator promises to ship the exhibit.
Exhibit Quantity Requested	Quantity of exhibits requested.
Exhibit Received Date	Date when the exhibit receipt letter is generated by the Support Point.
Exhibit Replace Serial Number	Exhibit Replacement Serial Number: Serial number of an item sent to the Originator as a replacement for a PQDR exhibit
Exhibit Request Date	Date when the Support Point sends an exhibit request letter.

<b>PDREP ADHOC Display Name</b>	<b>Other Term(s) or Alias's possibly used in PDREP or other IT systems; Description</b>
Exhibit Required Ship Date	Date the Action Point notifies the Originator to ship the deficient material (exhibit) for use in the investigation.
Exhibit Returned Date	Date on which the Support Point sends the exhibit return letter.
Exhibit Shipment Number	Exhibit tracking Number: Reference number supplied by the carrier used to ship the exhibit.
Exhibit Shipped Date	Date the requested exhibit was shipped.
Exhibit Shipping Doc Literal	Exhibit Shipping Document Code Literal:
Exhibit Shipping Document Code	Indicates the type of shipping document that accompanies the exhibit.
Exhibit Status Code	Current status of the exhibit. Valid entries Open, Closed, Unknown, Not required.
Exhibit Tendered Date	Date the exhibit is made available for delivery.
Findings Code	NAVICP code for the findings of the PQDR investigation.
FSC	Federal Supply Class: The four position Federal Supply Classification (FSC) of the deficient material. The FSC can be found in the Indexes Cataloging Handbook H2. Second Component of the National Stock Number (NSN).
GBL Number	Government Bill of Lading: The Government Bill of Lading (GBL) number from shipping paperwork if provided. Naval Shipyards only would enter the Job Order number and the designator for the operation (KEOP) if the material is designated for use in a specific job order. The Credit Card Buy Indicator should be checked if the material was acquired through a local credit card purchase.
Government Source Inspection	GSI Indicator: Indicates whether the item requires government inspection and acceptance at the contractor facility before the government takes possession of the material. Valid entries Yes, No, Unknown.
Hull Type	Describes the hull type or hull number associated with the PQDR submitter. Used by the Navy.
Investigation Results	Action points investigation results.
Invoice Number	Invoice Number of the deficient material from DD250.

<b>PDREP ADHOC Display Name</b>	<b>Other Term(s) or Alias's possibly used in PDREP or other IT systems; Description</b>
Item (New/Repaired/Overhauled)	Indicates whether or not the defective/deficient item/commodity is new, repaired, or overhauled.
Item Under Warranty	Indicates whether the item is covered by an established or formal warranty. (Y)es or (N)o or (U)nkown.
Job Order	Shipyard field only indicating the job order number if the deficient material is designated for use in a specific job order.
KEOP	Shipyard field only indicating the operation designator if the deficient material is designated for use in a specific job order.
Ktr/QAR Notified Date	Contractor Notified Date: Date which a contractor was notified that a defect was reported.
Ktr/QAR Suspense Date	Contractor Suspense date: Date which a contractor is expected to respond to support point.
LAR Number	Liaison Action Record number: Used along with the Engineering Activity to send/note the Cognizant Design Activity and are used in the CDA letter.
Last Rework Activity Name	Last Repair Activity name: Short name of the Last repair or Rework facilities organization as related to their DODAAC or CAGE.
Last Repair or Rework Facility	Last Repair Activity: The 5-digit CAGE or 6-digit DODAAC of the Activity or Company that last repaired or overhauled the deficient item (required if Support Point is Gov't Repair Facility).
Location of Deficient Material	The Department of Defense Activity Address Code (DODAAC) of the activity that has possession of the deficient material when the PQDR is released.
Location of Exhibit Narrative	Narrative that details where the deficient material exhibit is stored while held by the Originator.
Location of PQDR Code	Level: Describes whether the originator, screening point, action point, or support that is currently responsible for taking action on the PQDR and the direction of flow. (i.e. screening point from action point)
Location of PQDR Literal	Location of PQDR Code Literal: Literal describing the associated code.
LRC Code	Local Routing Code: Action Point field indicating the Local Routing Code to identify the item manager for action taken on the PQDR.

<b>PDREP ADHOC Display Name</b>	<b>Other Term(s) or Alias's possibly used in PDREP or other IT systems; Description</b>
Manufacture/Repair/Overhaul	Manufactured Repaired or Overhauled: Code indicating whether the date in Block 12b of the SF 368 applies to when the deficient material was received by the Originating Activity, manufactured, repaired or overhauled.
Manufacture/Repair/Overhaul Dt	Manufactured Repaired Overhauled Date: To the date the item was Manufactured, Repaired, or Overhauled and is the date that the processing entered in the Manufactured Item field occurred.
Manufacturers CAGE	Block 9a on the SF368: A five digit Contract and Government Entity (CAGE) Code of the manufacturer (of the deficient item) as listed in the DLA Cataloging Handbook H4.1 (Name to code), Federal Supply Code for manufacturer (United States and Canada). The CAGE Code may be taken from the markings on the deficient item.
Material Disposition Narrative	Disposition instructions provided by the action point.
Material Level Code	Code indicating the level of essentiality program on which the defective material was purchased (Navy/NAVSEA only).
Material Return Address	Address supplied by the Originator to which any exhibits should be returned or to which replacement materials should be shipped.
MIR Serial Number	Material inspection records record control number related to an associated PQDR.
NAVSUP Disposition Code	Where NAVICP is the Action Point, the code indicating the disposition of the deficient material.
NHA CAGE	Next Higher Assembly CAGE: CAGE Code of the manufacturer of the Next Higher Assembly.
NHA Nomenclature	Item name/description of the Next higher assembly where the deficient item is used.
NHA NSN	National Stock Number of the Next higher Assembly.
NHA Part Number	The part number assigned to the next higher assembly by the vendor.
NHA Serial Number	The serial number assigned to the next higher assembly where the deficient item will be used.
NIIN	National Item Identification Number: A nine-position National Item Identification Number (NIIN) of the deficient material; component of the National Stock Number (NSN).

<b>PDREP ADHOC Display Name</b>	<b>Other Term(s) or Alias's possibly used in PDREP or other IT systems; Description</b>
Notes and Reference Briefs	Notes, briefing, references, or any additional correspondence added to the PQDR.
Operating Time at Failure	Length of time the item was in operation when the deficiency was discovered. Also provide the performance unit (e.g. miles, hours, cycles, or "initial" if the time is 0).
Operating Time at Failure Code	Unit of measure for Operating Time at Failure
Original CAGE Code	Previous CAGE Code that may have been used by the Company listed as the current manufacturer or supplier in Block 7a of the SF368.
Originator DSN Number	7-digit Defense Switched Network phone number of the Originating Point POC.
Originator Email Address	Email address for the Originator of the PQDR.
Originator Name	Name of the POC for the Activity initiating/originating the PQDR.
Originator Phone Number	Phone Number for the Originator of the PQDR.
Originator Rebuttal Date	Date the Originator sends a rebuttal to the results of a PQDR investigation back to the Screening Point.
Originator UserID	PDREP UserID of the Originator of the PQDR.
Originator's Activity	Short name of the originator's organization as related to their DODAAC.
Originators DODAAC	The six position originating Activity DODAAC.
Other Federal Agency Affected	Y' or 'N' indicating if any other Fed Agency are affected by this QDR.
Parent PQDR RCN	If the PQDR is a child of another PQDR, its parent is listed here.
Past Performance Indicator	Indicates the QDR information will be reflected in the PPIRS system. This will ordinarily default to "Yes" and should only be set to "No" if the contractor is found liable but the Screening and Action Officers wish to exclude this finding from the contractor's profile in the DoD PPIRS program.
PLAS Code	DCMA field. 5-character code indicating the acquisition category program and agency liaison information supported by the deficient material. Code values in QDR_PLAS.

<b>PDREP ADHOC Display Name</b>	<b>Other Term(s) or Alias's possibly used in PDREP or other IT systems; Description</b>
Preventive Answer Type	Code indicates whether the Contractor's response with regard to future preventive action was satisfactory to the Government investigator. Valid codes in QDR-Preventive Action Type.
Previous Failure Count CAGE	Number of PQDRs previously reported in PDREP under the same FSC/CAGE.
Previous Failure Count NSN	Number of PQDRs previously reported in PDREP under the same NIIN.
Previous PQDR RCN	When a PQDR is reported with deficiencies identical to a previously closed PQDR, the Screening Point or Action Point references that closed PQDR as the primary/parent RCN for the investigation. This field contains the RCN number (year and serial number) of that closed PQDR referenced as the parent RCN.
Procurement Group Code	DLA Field. A Procurement Group Code (PGC) is an internal 5 digit numeric code used to group individual sizes of a standard generic item.
Purchase Order Number	The Purchase Order Number associated with the deficient item.
Quantity Credited	NAVICP field. Quantity actually credited to the Originator.
Quantity Deficient	The number of deficient items found during the inspection. Must be at least 1.
Quantity In Stock	The number of items in stock with the same manufacturer or contract number as the deficient item.
Quantity Inspected	The number of items that were inspected.
Quantity Post Investigation	Final quantity of material corrected or removed from stock as a result of the PQDR.
Quantity Received	The total number of items received in the same batch or lot as the deficient item. Must be at least 1, and greater than or equal to the number deficient.
Recovery Value	Recovery dollar value. Quantity deficient X Unit Cost.
Repair Facility Indicator	Indicates whether the Manufacturer's CAGE code entered for the deficient material refers to a Repair Facility.
Repairable Item	Indicates whether the deficient item can be repaired. Applies only if the originating activity falls within a Navy SYSCOM.

<b>PDREP ADHOC Display Name</b>	<b>Other Term(s) or Alias's possibly used in PDREP or other IT systems; Description</b>
Report Control Number (RCN)	The Report Control Number identifying the PQDR. It is comprised of the six position originating activity DODAAC, a two digit calendar year, a unique four position serial number.
Reporting SYSCOM	Reporting System Command: A code indicating the System Command/Service of the Origination Point that submitted the PQDR. The SYSCOM Field defaults to the SYSCOM value of the originating activity's DODAAC and can be edited.
Requisition/Document Number	Requisition Number, Document Number: Requisition Number under which the defective material was acquired.
Results of Depot Surveillance	A narrative describing the results of the depot surveillance, if supply depot stock was screened as result of the PQDR.
Screening Point Ack. date	Screening Point Acknowledgement date: Date the screening point acknowledged receipt of the PQDR.
Screening Point Assign Date	Date a PQDR is re-assigned to the Action Point.
Screening Point Comments	A general comments field for Screening Point use only.
Screening Point Control Number	DMN-Document Management Number, Screening Point Case Number: A generated control number assigned by the Screening Point to track the PQDR.
Screening Point DODAAC	DODAAC of the designated Screening Point activity.
Screening Point DSN Number	DoD Defense Network phone number of the designated Screening Point POC.
Screening Point EMAIL Address	Email of the designated Screening Point individual.
Screening Point Name	Name of the designated Screening Point individual.
Screening Point Phone Number	Phone of the designated Screening Point individual.
Screening Point Rebuttal Date	Field displays the date that Screening Point sends a rebuttal to Action Point decision regarding an investigation on PQDR.
Screening Point Receipt Date	Date the designated Screening Point receives the PQDR. Defaults to the date the Originator released the PQDR or Preparation date when initiated in PDREP.
Screening Point Release Date	Date the Screening Point forwards the deficiency report to the Action Point.

<b>PDREP ADHOC Display Name</b>	<b>Other Term(s) or Alias's possibly used in PDREP or other IT systems; Description</b>
Screening Point SYSCOM	Screening Point System Command: A code indicating the System Command/Service of the Screening Point which has cognizance over the PQDR. The SYSCOM Field defaults to the SYSCOM value of the originating activity's DODAAC and can be edited.
Screening Point UserID	PDREP USERID of the designated Screening Point individual.
Severity (of Defect) Code	Severity Code: Indicate the severity of the deficiency.
Shipment Number	Exhibit Tracking Number: The shipment number used to track the shipment of deficient material or PQDR exhibit.
Shipper's DODAAC/CAGE	Shipped From: DODAAC of the shipper that originally shipped the defective material
Signal Code	Used to identify the Signal Code.
SMIC	Special Material Identification Code: A two position Navy Special Material Identification Code from the Federal Supply Catalog ML Management Data List C1 Vol. 2) for the referenced material; usually for a special material application.
Source of Supply (RIC/ICP)	SOS-Source of Supply, RIC-Routing Identifier Code, ICP-Inventory Control Point: Inventory Control Point, Routing Identifier Code used to identify a source of supply for the deficient material reported.
Status	A code indicating the current status of the PQDR (Active, Closed, Follow up, etc.).
Stock Screening Action Code	Action codes are associated with stock screening actions and determine the status of the stock screening during the process.
Stock Screening Alert Type	Indicates the type of stock screening through which the deficiency was discovered. Valid entries in QDR-Stock Screening.
Stock Screening Completed Date	The date populated by Action Officer upon notification from the IM of completion of all screening actions.
Stock Screening Date	Date the stock screening was performed.
Stock Screening Decline Date	The date populated by Action Officer upon notification from IM that the request for stock screening is deemed not necessary.
Stock Screening Deficient	A running total of Stock Screening (Quantity Defective) information provided from IM (Item Manager).

<b>PDREP ADHOC Display Name</b>	<b>Other Term(s) or Alias's possibly used in PDREP or other IT systems; Description</b>
Stock Screening Initiated Date	Date the stock screening was performed.
Stock Screening Inspected	A running total of Stock Screening (Quantity Inspected) information provided from Item Manager.
Stock Screening Narrative	A narrative field populated by Action Officer with details related to each response as needed. This field also acts as a journal to indicate and monitor the progression of the screening actions taken.
Stock Screening Request Date	The date when the stock screening request letter is sent to the Item Manager.
Stock Screening Status Date	The date populated by the Action Officer when status or results of ongoing screening action is received from the Item Manager.
Store as Hazardous Material	Indicates whether the deficient material should be handled/stored as hazardous material.
Sub-Category	Describes the nature of a PQDR or other related Record Type.
Support Point Completed Date	Date the support point completed all actions related to the PQDR investigation.
Support Point Control Number	A user-generated control number entered by the Support Point to track the PQDR. The number is comprised of the Support Point DODAAC, the four digit year, and a four digit serial number.
Support Point DODAAC	The Department of Defense Activity Address Code (DODAAC) of the designated Support Point Activity.
Support Point DSN Number	DoD Defense Network phone number of the designated Support Point POC.
Support Point Due Date	Date by which a response is due from the Support Point. Date automatically calculated when forwarded and when interim replies and requests for exhibit are issued.
Support Point EMAIL Address	Email of the designated Support Point individual.
Support Point Name	Name of the designated Support Point individual.
Support Point Phone Number	Phone of the designated Support Point individual.
Support Point Receipt Date	Date the PQDR was forwarded to the Support Point from the Action Point.

<b>PDREP ADHOC Display Name</b>	<b>Other Term(s) or Alias's possibly used in PDREP or other IT systems; Description</b>
Support Point Release Date	Date when the Support Point sends the completed investigation and PQDR to Action Point.
Support Point Team	Support Point activity ultimately responsible for the PQDR or who manages the prime contractor responsible for the PQDR.
Support Point UserID	PDREP USERID of the designated Support Point individual.
Support Pt Acknowledge Dt	Support Point Acknowledgement Date: System-generated, editable date that the Deficiency Report acknowledgement message is sent from Support Point to Action Point.
Support Pt Detailed Cause Code	Code indicating the detailed cause of the deficiency after investigation.
Supporting Documentation	Supporting Documentation - Narrative describing the type of supporting documentation available such as drawings, specs, etc. to support the claim that a deficiency exists.
Time Since Last Overhaul	The amount of time that has passed since the deficient materials last overhaul or reworked.
Time Since Last Overhaul Code	Unit of measure for Time Since Last Overhaul
Time Since New	The amount of time that has passed since the deficient materials entered the stock system
Time Since New Code	Unit of measure for Time Since New
Total Dollar Value	Total Dollar value of deficient material listed on the PQDR
TYCOM Code	Type Command: NAVICP field that identifies the cognizant Type Command of the Originator. Defaults to the Command of the Originator.
UII Contract DODAAC	The Unique Item Identification Number's related Contract DODAAC
UII Contract Serial number	The Unique Item Identification Number related Contract Serial Number
Unique Item Identification Number	The Unique Item Identification Number.
Unit Cost	The dollar value of the defective material (includes dollar and cents). Unit cost x quantity deficient.
Unit of Issue	Code indicating the unit in which the deficient material is issued.

<b>PDREP ADHOC Display Name</b>	<b>Other Term(s) or Alias's possibly used in PDREP or other IT systems; Description</b>
Update Activity	DODAAC or User Code of the Activity that updating the record in the database.
Update Date	Computer generated date indicating the date of the most recent revision to the record.
Vendor CAGE Code	Supplier CAGE, CAGE Code: Use to identify CAGE Code related to the nonconforming materiel issue reported against the contract.
Warranty CAGE	Cage Code of the Warrantee provider.
Warranty Claim Type	Type of claim being made under the existing warrantee.
Warranty Expiration Date	Date the warranty expires on the deficient material.
Warranty Item FSC	Federal Supply Class of the material for which the warrantee claim is being made.
Warranty Item Name	Name of the material for which the warrantee claim is being made.
Warranty Item NIIN	National Item Identification Number of the material for which the warrantee claim is being made.
Warranty Item Serial number	Serial number of the material for which the warrantee claim is being made.
Warranty Part Number	Part number of the material for which the warrantee claim is being made.
Weapon Systems Code	Weapon System Code more specifically identifies an item within a Weapon System Group. It displays only when the record is returned from Action Point level. This is a mandatory field for the Army.
Weapon Systems Group	Weapons System Group the deficient material is assigned to.
Where Deficiency Discovered	Indicates where/when the deficiency was discovered.

NZ	Other truck multi-application parts
P1	Special Tool Sets
P2	Trailer, 400 gal water (M107, M149 series)
P3	Trailer, bed configurations
P4	Heavy expanded mobility ammunition trailer (HEMAT) M989, M989A1
P5	Dolly sets and trailer converters, 2 1/2 ton, M197, M197A1, M198, M198A1, M689, M707, M707A1, M720, M831, M832, M840
P6	Semitrailer bed configurations
P7	Trailer, Patriot missile (M860A1) support
P8	Dolly set, M1022

<b>CODE</b>	<b>DESCRIPTION</b>
P9	Semitrailer van, expandable, M313 and M447 series
PA	Semitrailer van, medium, greater than 6 ton, to include M348 series
PB	Semitrailer M871 and M127 series
PC	Trailer, utility and cargo configurations
PD	Trailer, 1/4 ton
PE	Trailer, special purpose, bakery
PF	Trailer, M200 series
PG	Trailer, special purpose, radar
PH	3/4-ton M101-series
PJ	Trailer, 1 1/2 ton, M105/M103/M310 series
PK	Semitrailer vans - light, equal to or less than 6 ton, to include MILVAN chassis
PL	Trailer, prime mover, 5-ton
PM	Miscellaneous combat/tactical common hardware/decals/data plates
PN	Combat/tactical multiuse repair parts (starters, regulators, generators, distributors, fuel pumps, spark plugs, and the like)
PP	Tires
PQ	Special tools (Components)
PR	Modification work order kits
PS	Basic issue items (BII)
PT	Miscellaneous vehicle components
PU	Batteries
PV	Semitrailer/tanker, M900/M131 series
PW	Semitrailer, lowbed, M172, M345, M870 and M872 series
PX	Trailer, bolster/pole hauling configuration
PY	Base-level commercial equipment (BCE)
PZ	Non-tactical wheeled vehicles
Q1	Survivability radios
Q2	AN/ARC-164 radio set
Q3	AN/ARC-186
Q4	Altimeter indicators
Q5	Dippler navigation systems
Q6	Auto direction finder systems
Q7	Apache ground test station support equipment
Q8	EH-60A QUICK FIX aircraft unique
Q9	Avionics shelters
QA	Avionics VHF/UHF/AM
QB	Avionics VHF/FM
QC	Avionics Intercoms
QD	Avionics HF/SSB-ICS-VS
QE	Other avionics
QF	Avionics very high frequency omnirange, marker beacon, glide slope (VOR/MB/GS)
QG	Avionics gyro compass (navigation)

<b>CODE</b>	<b>DESCRIPTION</b>
QH	Fixed wing unique avionics
QJ	Avionics identification equipment
QK	Air traffic control (ATC) support
QL	Avionics position fixing and ground support
QM	Avionics stabilization/instrumentation
QN	AN/ARC-114/114A radio set
QP	AN/ARC-115/115A
QQ	UH-60 unique avionics items
QR	Inertial navigation systems
QS	Tactical navigation (TACAN) Systems
QT	Fixed base system
QU	AH-64 unique avionics items
QV	AN/ARC-116 radio set
QW	CH-47 unique avionics items
QX	AHIP unique avionics items
QY	AH-1 unique avionics items
QZ	Single channel ground air radio system (SINCGARS), airborne radio
R1	Radio teletypewriters
R2	Vehicular installation unit components
R3	Intermediate forward test equipment
R4	Communications division cables
R5	AN/TSC-94A/100A
R6	Transportable Single Channel Transponder Receiver (TSCTR) Msc-64/GSC_40
R7	Other vehicular/portable FM equipment
R8	BECS
R9	Single channel ground air radio systems (SINCGARS), ground radio
RA	Portable frequency modulation radio communications equipment
RB	Vehicular frequency modulation radio equipment
RC	Amplitude modulation/single side band radio and radio teletypewriter equipment
RD	Watercraft communications equipment
RE	Special radio equipment
RF	Relay and transmission equipment
RG	FDM equipment
RH	Manual Switching
RJ	Tactical fire direction system/advanced field artillery tactical data systems (TACFIRE/AFATDS)
RK	Project code "CXC"
RL	Teletypewriters
RM	Decentralized automated service support system (DAS-3) (AN/MYQ-4/4A)
RN	Maneuver control system (MSC) (AN/UYQ-30/30A)
RP	Facsimiles

<b>CODE</b>	<b>DESCRIPTION</b>
RQ	AN/TTC/TYC/-39/39A/39D
RR	MICROFIX
RS	AN/PRC-77 radio family
RT	AN/VRC-12 radio family
RU	Vehicular installation units
RV	Tactical satellite (TACSAT) multichannel communication equipment
RW	Mobile subscriber equipment (MSE)
RX	Pulse code modulations (PCM)
RY	Digital group multiplexer (DGM) equipment
RZ	AN/TRC-170
S1	Command and Control Vehicle (C2V)
S2	Joint surveillance target attack radar systems (JOINT STARS)
S3	SINCGARS installation kits/components
S4	Tactical terminal adapter (TTA)
S5	Standard theater command and control system (STACCS)
S6	Integrated system control (ISYSCON)
S7	Special Operations Forces (SOF) equipment
S8	Airborne Mission Planning System (AMPS)
S9	AN/GSC-9
SA	Light and special division interim sensor (LSDIS)
SB	Anti-intrusion devices
SC	Airborne sensor systems
SD	Intergators
SE	Image intensification
SF	Battlefield illumination
SG	Infrared systems
SH	Ground photo systems, processing, and interpretation
SJ	Air defense systems support
SK	AN/TPQ-36/37 mortar and artillery radar locating
SL	Interrogator, AN/TPX46
SM	AN/UPD-7 radar system
SN	Manportable common thermal night sights
SP	Position location reporting systems (PLRS), adaptable surface interface terminal (ASIT), Joint tactical information distribution system (JTIDS)
SQ	Bottle cleaning and charging station (AN/TAM-4)
SR	AM/TMQ-31, meteorological
SS	Cable assemblies, electronics
ST	Ground Surveillance Radars
SU	Small Arms Optics
SV	Common modules
SW	Enhanced position location reporting system (EPLRS)
SX	Individual weapon night sights
SY	Crew-served night sights

<b>CODE</b>	<b>DESCRIPTION</b>
SZ	Night vision goggles
T0	UNKNOWN
T1	Satellite communications (SATCOM) cables
T2	AN/MSM-105 system
T3	Modular azimuth positioning system (MAPS)
T4	Television Audiovisual Support Activity audiovisual items
T5	Digital radio and multiplexer acquisition (DRAMA)
T6	Standard remote terminal (SRT)
T7	Lithium batteries
T8	All source analysis system (ASAS)
T9	Global positioning system (GPS)
TA	Tactical generic
TB	Aircraft survivability equipment less the AN/APR-39 family
TC	Atmospheric sounding, metrological stations and equipment wind measuring
TD	General-purpose test equipment
TE	General-purpose maintenance facility and miscellaneous
TF	General-purpose electrical power equipment
TG	Miscellaneous electrical warfare equipment
TH	Quicklook II
TJ	Batteries, dry
TK	Batteries, storage
TL	Guardrail V
TM	Communications systems support equipment
TN	Radiac detection systems
TP	Other commodity command systems
TQ	Rechargeable batteries
TR	Regency net system
TS	Communication security systems
TT	Tactical fire direction system (TACFIRE) cables
TU	Remotely monitored battlefield sensor system (REMBASS) / improved remotely monitored battlefield sensor system (I-REMBASS)
TV	VINSON
TW	Installation kit/component
TX	Armed Forces radio equipment
TY	Audiovisual (recorder, reproducer, and public address) and pictorial equipment (FSC 5830, 5835, 6700, and 7700)
TZ	AN/APR-39 family of countermeasure sets
U2	Route Clearance Vehicles.
U3	IED Detection.
U4	UNKNOWN
U5	IED Detection.
U6	UNKNOWN

<b>CODE</b>	<b>DESCRIPTION</b>
U7	UNKNOWN
U8	UNKNOWN
UA	Tactical POL distribution equipment
UB	Bulk POL distribution equipment
UC	POL storage equipment
UD	POL test equipment
UE	Erdlators and related equipment
UF	Water supply and water purification equipment
UG	Repair shop equipment
UH	Food services equipment
UJ	Hygiene/insect control equipment
UK	UNKNOWN
UL	Topographic and survey equipment
UM	Assault boat equipment
UN	Improved Position and Azimuth Determining System (IPADS)
UP	Position and azimuth determining system (PADS)
UQ	Force provider
UR	Countermine equipment
US	Counter intrusion equipment
UT	Counter surveillance equipment
UU	Deployable medical system
UV	Topographic support system
UW	UNKNOWN
UX	Special inspection equipment and gauges and Force Provider Power generation
UZ	Soldier Protective Equipment and Related Items
V4	Military standard engines and repair parts
VA	Generator sets and related power equipment: systems 60 Hz 15, 30 and 10 kw
VB	Advanced Medium Mobile Power System
VF	Generator sets and related power equipment 60 Hz 45, 60, 75, 150 and larger kw
VL	Generator sets and related power equipment: 60 Hz 0.15 to 3.0 kw
VM	Generator sets and related power equipment: 400 Hz, 0.3 kw and above
VN	UNKNOWN
VP	Patriot system support
VR	Generator sets and related power Equipment: 60 Hz 5 to 10 kw
VS	Generator sets and related power equipment: 28 V DC, 5 to 10 kw
VW	Light sets, generator sets and related power equipment 400 Hz 0.3 kw and above
W2	Gasoline engine driven materiel handling equipment
W3	Refrigerators/refrigerated van equipment
W4	Miscellaneous materiel transportation equipment

<b>CODE</b>	<b>DESCRIPTION</b>
W5	Air-conditioning and support equipment
W6	Heating systems and other related equipment
W8	Miscellaneous simplified test equipment
W9	Rough Terrain Forklifts/6KVR/ATLAS
WA	Port support and watercraft base equipment
WB	Bridge armored vehicle and support equipment
WC	Container equipment
WD	Diving equipment system
WE	Army functional component system
WF	Railway power and support equipment
WG	Firefighting and support equipment
WH	Lighter air cushion vehicle, base 30-ton (LACV-30)
WJ	Electric materiel handling
WK	Diesel engine driven materiel handling equipment
WL	Rough terrain materiel and container handling equipment
WM	Prefabricated structures equipment
WN	Fixed bridges and support equipment
WP	Floating bridges and support equipment
WQ	Rough Terrain Container Handlers
WR	Mobile assault/ribbon bridges and support equipment
WS	Air delivery equipment
WT	Watercraft and related sets, kits, and outfits
WU	Tool sets and miscellaneous sets, kits, and outfits
WW	Working/preservation and packaging and other base support equipment
WX	Cryogenic and support equipment
WY	Compressor and Support Equipment
WZ	Container express (CONEX)/ military-owned demountable container (MILVAN)
X1	Smoke pots
X2	Test and handling equipment atomic materiel
X3	Special weapons, repair parts
X4	Warhead section atomic, all types
X5	Warhead section chemical, all types
X6	Warhead atomic, all types
X7	Warhead selected
X8	Modification work order kits
X9	155MM atomic, field artillery projectile (AFAP) M785/XM785E1
XA	Adaption kits
XB	Atomic demolition materiel
XC	Atomic shells
XD	Bangalore torpedoes
XE	Blasting caps, detonating cord, and demolition firing devices
XF	Bombs, general purpose

<b>CODE</b>	<b>DESCRIPTION</b>
XG	Bulk propellant, explosives, and demolition charges
XH	Cluster bomb unit (CBU)/cluster dispenser unit (CDU), all types
XJ	Chemical and biological agents
XK	Flares, all types
XL	Flame and incendiary materials
XM	Firing devices for special weapon and advanced firing systems
XN	Grenades, hand, fragmentation and offensive
XP	Grenades, hand, riot control agents
XQ	Grenades, smoke and incendiary
XR	Grenades, all other types
XS	Mines and mine fuzes all types
XT	Powder-actuated devices
XU	Photoflash cartridges
XV	Riot control agents
XW	Rockets, 66MM, light antitank weapons (LAW), all types, including flame
XX	Rockets, ground, all other types
XY	Signals, all types
XZ	Simulators, all types
Y0	UNKNOWN
Y1	Other artillery ammunition not specifically listed above
Y2	Artillery/mortar fuses and primers, all types
Y3	Folding fin aircraft rocket, 2.75-inch all types
Y4	Recoilless rifle ammunition, all types
Y5	Propellant/cartridge-actuated devices
Y6	Components for conventional ammunition maintenance and renovation program
Y7	Packaging material for conventional ammunition maintenance and renovation program
Y8	Bulk explosives and propellants for other customer end-item loading
Y9	Ammunition peculiar equipment items
YA	Shell, shotgun, all types
YB	Cartridge, .22 caliber, all types
YC	Cartridge, 5.56MM, all types
YD	Cartridge, 7.62MM, all types
YE	Cartridge, .30 caliber, carbine, all types
YF	Cartridge, .30 caliber, all types
YG	Cartridge, .45 caliber, all types
YH	Cartridge, .50 caliber, all types
YJ	Cartridge, 20MM/30MM, all types
YK	Miscellaneous small arms ammunition
YL	Cartridge, 40MM, shoulder fired launcher (M79 type)
YM	Cartridge, 40MM, automated launcher (M75 type)
YN	Cartridge, 40MM (gun)

<b>CODE</b>	<b>DESCRIPTION</b>
YP	Cartridge, 60MM, mortar, all types
YQ	Cartridge, 81MM, mortar, all types
YR	Cartridge, 4.2-inch mortar, all types
YS	Cartridge, 90MM, tank, all types
YT	Cartridge, 105MM, all types
YU	Cartridge, 152MM, all types
YV	Other tank and armored vehicle gun ammunition
YW	Cartridge, 105MM, howitzer, all types
YX	Projectile, 155MM, all types, and propelling charges therefor
YY	Projectile, 175MM, all types, and propelling charges therefor
YZ	Projectile, 8-inch all types, and propelling charges therefor
Z0	UNKNOWN
Z1	Nuclear, biological, chemical reconnaissance system (FOX), XM93
Z2	Self contained toxic environment protective outfit (STEPO)
Z3	Improved toxicological agents protective (ITAP)
ZA	Smoke generators
ZB	Decontaminating equipment (CBR)
ZC	Flame-throwers and servicing units
ZD	Detection and alarm devices
ZE	Demolition equipment
ZF	Disperser equipment
ZG	CBR materiel
ZH	Shelter systems
ZJ	Gas masks
ZK	Collective protection equipment
ZL	Explosive ordnance disposal (EOC) sets and components
ZM	Ammunition gauges
ZN	Miscellaneous gauges
ZP	Modification work order kits
ZQ	Basic issue list items
ZR	CBU/CDU repair kits
ZS	Compressors
ZT	Filter units
ZU	Launcher rockets
ZV	Impregnating plants
ZW	Chemical lab
ZZ	Multi-application munitions/CBR components and parts
<b>WEAPON SYSTEMS SUMMARY</b>	
0	Medical materiel
2	Missile class V components (except SAFEGUARD)
3	Missile class V components (SAFEGUARD)

<b>CODE</b>	<b>DESCRIPTION</b>
4	Communications systems agency and satellite communications agency equipment
5	Communications systems equipment
6	Individual and crew-served weapons
7	Communications systems
8	Training devices, simulations, and simulators
9	Signal intelligence
A	Fixed-wing aircraft
B	Rotary-wing aircraft
C	Other aircraft categories
D	Surface to air missiles
E	Surface to surface missiles
F	Other missile-related materiel
G	Artillery
H	Individual and crew-served weapons
I	Construction equipment
J	Tanks
K	Combat vehicles
L	Other weapon categories
M	Armored carriers
N	Tactical vehicles
O	UNKNOWN
P	Other automotive categories
Q	Avionics
R	Tactical and strategic communications
S	Surveillance target acquisition and night observation
T	Other electronic equipment
U	Soldier and combat support systems
V	Power generation
W	Line of communication and support systems
X	Special ammunition
Y	Conventional ammunition
Z	Other munitions/chemical, biological, radiological (CBR) categories

## 12 SUMMARY

This concludes the PQDR submission instructions for PQDR Master Screener users.

Content provided within this document is maintained by the Product Data Reporting and Evaluation Program under the guidance of Naval Sea Logistics Center Portsmouth's Deputy Functional Manager and the Automated Information System Manager. The PQDR user guide is intended to be used as a technical reference document to assist users with system navigation and basic operational functionality within PDREP-AIS. Questions, comments or concerns regarding the PQDR module or this guide should be directed to the NSLC Portsmouth Help Desk. Contact information for the support desk is provided below.
