## Product Images

## Short Description

---

Phobya presents an innovative fan controller which fulfils both the high technological requirements of high-end cooling systems as well as the optical demands of ambitious PC modders. The Phobya "Touch 630" fan controller is an attractive option especially for water cooling users. Even price-conscious users will find the right controller in the Touch 630, as there are only few comparable controllers which bring such a level of performance at this price range.

## Description

---

Phobya presents an innovative fan controller which fulfils both the high technological requirements of high-end cooling systems as well as the optical demands of ambitious PC modders. The Phobya "Touch 630" fan controller is an attractive option especially for water cooling users. Even price-conscious users will find the right controller in the Touch 630, as there are only few comparable controllers which bring such a level of performance at this price range.

Easy configuration via the touch panel allows the speed for each channel to be set depending on the temperature. Either temperature or fan speed can be displayed at the touch of a finger! Up to 30W of power output per channel make the controller ideal for computers with water cooling. 30W per channel mean that even 9 fans (with a power consumption <3W per fan) can be controlled via one channel. Six temperature sensors, one 4-Pin connection cable as well as six 3-Pin extension cables are included with the Touch 630 fan controller.

## Features

---

The Phobya Touch 630 fan controller boasts the following features:

- Front made from anodized Aluminium
- Monitoring and display of fan speeds
- Monitoring and display of temperature data from the sensors (°C or °F display possible)
- Manual touch control
- Suitable for installation in a 5.25" drive bay
- With on/off feature

- 30W power per channel
- Power via system PSU, 4-Pin Molex
- Up to six fans can be connected via 4-Pin Molex

## Specifications

---

### Extent of delivery:

- 1x Phobya Touch 630
- 6x 60cm 4-Pin fan extension cables
- 6x temperature sensors with 60cm cable
- 1x 4-Pin Molex cable
- Mounting screws
- Illustrated English mounting manual

### Specifications:

Color:	Black
Design:	1x 5,25" Drive bay
Dimensions:	149 x 42,7 x 70mm
Display:	Yes
Manufacturer:	Phobya
Material front:	Aluminium
Number of outputs:	6x 4Pin PWM
Number of sensors:	6x 2Pin (10kOhm)
Output voltage:	5- 12V DC
Power supply:	4Pin Molex 5V/12V DC
max. power / channel:	30W

## Additional Information

---

Brand	Phobyia
SKU	PH-70226-D
Weight	1.5000
Color	Black
Bay Size	5.25" Bay
Vendor SKU/EAN	4049469169732
Special Price	\$29.99
