LS7000 SERIES NEXT LUXURY SAFE

LS7001FW

LS7002FO

LS7003FC

LS7001FB

THE PHOENIX NEXT SERIES is a masterpiece in Design, Security and Fire Protection. Available in a range of stylish modern Oak, Cherry, Black and White finishes. It also features a slide and hide lock panel for extra security. The safe is ideal for modern office and homes when the need for discrete protection is required.

- **SECURITY PROTECTION** – The safe is recommended for an overnight cash risk of £3,000.00 or £30,000.00 valuables*.
- **FIRE PROTECTION (PAPER)** – Tested to the International NT Fire 017 – 60 Paper standard, providing 60 minutes fire protection for paper documents.
- **LOCKING** – Fitted with an advanced high security fingerprint and touch panel lock. The lock can store up to 128 different fingerprints. The clear LED display also makes operating the lock extremely easy. To further enhance security the lock also features tamper lockout, internal alarm, dual control, hidden code and unlimited scrambled code as standard.
- **FIXING** – Ready prepared for floor fixing with fixing bolts for concrete supplied.
- **FITTINGS** – Each Next safe comes with luxury wooden drawers, with fully lined base to protect your valuables. Additional drawers available on request to suit your own requirements.
- **SECURITY CONSTRUCTION** – The safe is locked by 3 way live locking bolts, each bolt 32mm in diameter for extra strength. Strategic points like the lock and bolts are further protected by anti-drill plates.
- **DROP TEST** – Fire and impact tested from 9.1 metres for resistance to the impact of falling through the burning floors of a building.
- **COLOUR/FINISH** – Stylish door panels available in Oak, Cherry, Black & White, plus slide and hide lock panel. Body finished in a high gloss Black.

THE PHOENIX ARCHIVO FIRE FILE series offers unrivalled protection for documents and data in a stylish modern filing cabinet format. Ultra lightweight insulation materials also mean the cabinet can be used on most standard floors without the need for supporting.

- **FIRE PROTECTION (PAPER)** – Tested to the international NT Fire 017 – 60 paper standard, providing 60 minutes fire protection for paper documents.
- **FIRE PROTECTION (DATA)** – 60 minutes fire protection for Computer tapes and data when optional FSDPI08 is specified.
- **FIRE PROTECTION (DIGITAL MEDIA)** – Tested to MTC – DIP120 – 60DM fire test standard, providing 60 minutes fire protection for digital media, USB's, memory sticks and hard drives.
- **WATER RESISTANCE** – Water resistant seals prevent water damage to contents when cabinet is subjected to sprinklers systems or fire hoses.***
- **DROP TEST** – Fire and impact tested from 9.1 metres for resistance to the impact of falling through the burning floors of a building.
- **LOCKING** – Fitted with a high security plunger lock that operates independently on each drawer. This allows for any combination of open or locked drawers.
- **CAPACITY** – Able to accommodate Foolscap, A4 and A5 files on width adjustable rails. Each drawer also accommodates a filing depth of 505mm.

SS0100 SERIES RHEA ELECTRONIC SAFES

THE RHEA SECURITY SAFE RANGE is ideal for use at home, office or in hotel rooms for storage of cash and valuables. The SS0103E is suitable for a 17" Laptop.

- **SECURITY PROTECTION** – Recommended for £1,000 cash or £10,000 valuables storage*.
- **LOCKING** – Fitted with a high quality electronic lock programmable with user and master codes. An LCD display shows time, date and lock status. The lock can also display the last 45 openings of the safe for extra security in office or hotel use.
These safes are fitted with an override key-lock system should the user lock the safe out or forget the codes. The safe comes with two radial pin tumbler keys for the override system.
- **SPECIAL FEATURES** – Internal width of SS0103E makes it ideal for the storage of laptops up to 17".
- **LIGHTING** – Fitted with a bright LED interior light so that contents can easily be seen, even in the most dimly lit cupboards.
- **FIXING** – Ready prepared for floor or wall mounting (supplied with bolts suitable for brick walls or concrete floors).
- **FITTINGS** – Supplied with fitted shelf unit (except SS0101E) allowing you to better organise your contents.
- **COLOUR** – Finished in a high quality scratch resistant colour Graphite Grey.

PHOENIX SAFES ARE PROUD TO OFFER A COMPLETE RANGE OF PREFABRICATED STRONG-ROOMS. The vaults are designed to meet the exacting standards of the banking industry, pharmaceutical manufacturers and suppliers, safe deposit centres and any situation where tested and certified protection is required.

- Phoenix strong-rooms come in pre-constructed panels normally 500mm wide and prescribed length. These are welded or bolted together once on site to form a five or six sided construction. This enables the strong-room to be positioned often in confined areas, even on an upper floor or basement. Vaults can also be extended or moved as requirements change.
- The Phoenix range of vault doors are tested and certified to conform with EN 1143-1 european standards of burglary resistance. Available from grade III up to grade XI they provide the perfect partner for our demountable strong-rooms. They can also be supplied to fit into pre built or purposely constructed vault.
- The standard size allows a free opening of 1000mm wide by 2000mm high. However, bespoke sizes are available to accommodate large forklifts or wide pallets achieving heights in excess of four metres if required.
- To accompany our vault doors we supply grille gates to suit. Emergency doors are also available in smaller sizes.
- To obtain certification the vault must be a six-sided construction the exception to this is a controlled drugs

installation where a five sided construction is permissible with the correct anchoring system on the floor.

- The protection is completed by a strong-room door of commensurate quality to the vault. In larger installations a second or emergency door are often prescribed.
- Phoenix offer a complete design and build service to our customers, including guidance as to the correct locks to secure your strong-room.

PANDORA SERIES SAFETY DEPOSIT LOCKERS

PHOENIX SAFES MANUFACTURE AND INSTALL A COMPLETE RANGE OF SAFETY DEPOSIT BOXES TO SUIT OUR CLIENT'S REQUIREMENTS.

- The safe deposit boxes are available in a large number of different sizes and are designed to fit within our prefabricated strong rooms, ideally to a European grade of at least EN 1143-1 VIII EX CD they can also be used as an attractive stand-alone unit in hotel reception areas.
- Range includes tested and certified design with the stringent Swedish test SSF1048-2.
- Our range which includes both stainless steel or brushed aluminium lockers can be electronically controlled and monitored meaning you can provide a complete self-service facility for your customer without the need for staff presence within the vault.
- Lockers can be accessed via card, pin or biometric methods and customers details are stored on bespoke software that manages your database along Financial Conduct Authority (FCA) guidelines and can be connected to standard accounts packages enabling the simple management of annual billing and renewals.
- Phoenix safe have in-house expertise to help you design and build your safe deposit centre or extend your existing installations.

SS0800 SERIES VELA DEPOSIT HOME & OFFICE SAFES

THE PHOENIX VELA DEPOSIT SERIES is designed for use at home or in the office for storage of valuables, cash and important documents. With its high quality key-lock or user friendly electronic lock it is ideal for multiple applications.

- **SECURITY PROTECTION** – Recommended for overnight cash cover of £1,000 cash or £10,000 valuables.*
- **LOCKING** – **SS0800KD** fitted with a high quality key-lock and comes complete with two keys. **SS0800ED** has advanced ‘user friendly’ electronic locking with high security anti-tamper or bounce solenoid locking system. For added peace of mind these safes are fitted with a key override facility (2 keys supplied).
- **SPECIAL FEATURES** – Internal width of SS0803 makes it ideal for the storage of laptops up to 17”.
- **LIGHTING** – The electronic locking versions of the Vela range all come fitted with a bright LED interior light so that contents can easily be seen, even in the most dimly lit cupboards.
- **CONSTRUCTION** – Twin live locking bolts and concealed internal hinges for increased security.
- **DEPOSIT SLOT** – Fitted with a deposit slot with anti-fish baffle plate to ensure that the contents cannot be ‘fished out’. Dimension 150 x 12mm.
- **FIXING** – Ready prepared for fixing to the floor or wall, with fixing bolts supplied for brick walls or concrete floors.
- **COLOUR** – Finished in a high quality scratch resistant Metallic Graphite paint.

KC0600 SERIES COMMERCIAL KEY CABINETS

smart
LOCK

A series of high quality Key Cabinets ranging from 42 hooks up to 600 hook units.

- **LOCKING – KC0600K** – Manufactured with a high quality cylinder lock supplied with 2 keys.
KC0600E – Fitted with a high quality electronic code lock, programmable with users own 4 digit code which can easily be changed when required.
KC0600S – As KC0600E with added feature of Push shut latch mechanism (Not available on KC0606 & KC0607 double door units).
KC0600N – Fitted with the NetCode 1000 lock allowing temporary access to the cabinets via the web-based NetCode Portal. NetCode is activated prior to the lock owner shipping and installing at a remote site. The NetCode Portal allows you to register and set up your account, activate your locks and generate time-sensitive codes. Using time-sensitive codes is a more secure way to grant access as the code will not work outside a designated timeslot. Generated codes

can be sent by email or SMS to any email account or mobile phone.

KC0600P – Fitted with a Euro cylinder lock case. Optional (SP0600/Euro Lock) 35mm cylinder available separately, allowing you to add to your key system.

- **SPECIAL FEATURES** – Each unit comes with adjustable hook bars and number labels to suit. The 400 and 600-hook units are double door cabinets.
- **FIXING** – The cabinets have pre-drilled fixing holes for wall mounting.
- **FINISH** – Finished in a high quality durable powder coated finish.

KC0300 SERIES DEEP KEY CABINETS

KC0302K

KC0303K

KC0301K

THE KEYSURE DEEP KEY CABINETS have been designed to accommodate larger or more bulky keys, which make them ideal for the motor trade or estate agents, where larger keys or more than one key is used.

- **LOCKING – KC0300K** – Manufactured with a high quality cylinder lock supplied with 2 keys. **KC0300E** – An economical Electronic Code lock. A simple 10 digit keypad gives the owner the option of entering 4-digit codes, and is easy to use. **KC0300M** – A Mechanical push button combination code lock. The lock has over 8,000 combination differs, and comes with a push-shut latch operation. The lock also has a hold open facility for code free entry.
- **SPECIAL FEATURES** – Each unit comes complete with adjustable hook bars, key tabs, key rings, number labels to suit the hook bars and removable control indexes.
- **FIXING** – The cabinets have pre-drilled fixing holes for wall mounting.
