

WIRELESS SMARTPHONE CONNECTIVITY

The Wi-Fi CERTIFIED™ Logo is a certification mark of Wi-Fi Alliance®

Touch operation is smartphone dependant

Accelerate toward the next generation of completely connected car entertainment.

Connect wirelessly to an ever-expanding array of apps and content stored on your smartphone – all instantly accessible and convenient to operate on our new navigation receivers.

With built-in Wi-Fi®, you can use Apple CarPlay via wireless connection – the best means of operating a smartphone through a car entertainment system – without connection cable, for greater freedom from clutter and complication.

Additionally, the new Wireless Mirroring function (for compatible Android smartphones) displays a wirelessly connected smartphone which is compatible with the function on the receiver display, and touch operation of this display makes it easy to share various content stored in the smartphone with other passengers.

Apple CarPlay™ is a smarter, safer way to use your iPhone® in the car that allows you to stay focused on the road and get directions, make calls, send and receive messages, and listen to music. Just connect your iPhone and go.

Apple CarPlay is available on iPhone 5 or later. For compatibility and available features, please check www.pioneer-car.eu/carplay

Android Auto™ automatically brings you useful information and organizes it into simple cards that appear just when they're needed. It's designed to minimize distraction so you can stay focused on the road ahead.

For more information about availability in your country, please check www.pioneer-car.eu/androidauto

Android Auto and AppRadio Mode+ are compatible with Waze.

Waze, a social GPS driving/navigation app that offers maps, real-time traffic, and various other information for you to access on the large display of a compatible AV receiver.

For more information about Waze in your country, please check www.pioneer-car.eu/eur/waze

Stream music from your smartphone and make handsfree phone calls – even connect two Bluetooth phones simultaneously on compatible Pioneer devices! You can wirelessly browse your music library and phonebook contacts. Wide band speech enables a clearer voice and enhanced voice recognition.

Enjoy the convenience and crystal-clear audio quality of noise-free Digital Radio with a built-in Digital Radio tuner. You get access to a wide range of DAB/DAB+ Digital Radio stations while you drive. All Pioneer Digital Radio products (include DAB, DAB+ and FM) are Digital Radio Tick Mark approved: these have undergone independent rigorous testing.

With Spotify in your car, the music you love is never far away. Several Pioneer headunits work with Spotify. Just connect your smartphone via USB or Bluetooth to comfortably browse your favourite playlists, albums, tracks and artists using your headunit controls.

Pioneer dash camera

The new ND-DVR100 full HD dash camera has a video resolution of 1920 x 1080 pixels, with a rate of 27.5 frames per second. It has a 111° viewing angle and adaptive installation angle (5° – 80°) for easy installation onto the windscreen of your vehicle.

This dashcam saves the data automatically when an incident is detected, and utilises GPS location data when recording. The data is saved on the supplied 8 GB Micro SD Card.

80th
Anniversary

80 years of innovation

In 2018 we celebrate the 80th anniversary of Pioneer. Nozumo Matsumoto, our founder, created the first Hi-Fi speaker in 1938. Find out which products made us famous and where we are heading to.

SPEAKERS

STEP 1: ADD

Enhance your current system by adding an easy to install Pioneer active subwoofer or hide away amplifier.

STEP 2: REPLACE

Pioneer speakers offer you high power and deep bass with reliability.

STEP 3: UPGRADE

Pioneer's high end series ensures sensational audio reproduction.

Bring out the best of your vehicle by upgrading to Pioneer speakers. Pioneer has a full range of speaker systems to complement your setup, whether you're going for a full-blown installation or easy to install. With Pioneer's proven track record as a speaker designer – since 1938 – you can be sure that all your car audio performances are reproduced with the highest quality. **To find speakers that match your vehicle please visit www.pioneer-car.eu/cip.**

Z-SERIES / D-SERIES

During Pioneer's remarkable 80-year history, our loudspeaker technology has achieved the limits of quality sound reproduction, with an uncompromised design that only Pioneer can provide. Pioneer designs, engineers and manufactures each Pioneer loudspeaker in-house to Pioneer's exact performance and quality standards. That is why we are proud to call our latest Z and D series 'High Performance' automotive loudspeakers. Pioneer has a team of expert professionals across Europe who have the knowledge, experience and passion to be able to install Pioneer's Z and D series, giving you the best audio experience possible. These Pioneer partners can sell and install the Pioneer Z and D series. For details of where you can find these Pioneer partners, **please visit www.pioneer-car.eu.** Don't just listen to your music, HEAR MORE.

A-SERIES

The edgy look of TS-A speakers complements their performance – high power handling and deep bass with attitude. They're tough enough to be pushed to the extreme, thanks to the rigid Multilayer Mica Matrix cone and new tweeter design enhancing sound quality and dynamic playback of the latest bass-heavy music.

R-SERIES

Cool looking TS-R speakers aim to provide loud and clear output for any type of music. Their sound quality results from a Multilayer Mica Matrix woofer cone, with improved midrange frequencies ensuring more accurate sound with full-bodied bass.

G-SERIES

Slim designed TS-G speakers can be easily installed by yourself into any car, quickly transforming it into a quality audio experience. Featuring Pioneer's strong and lightweight IMPP composite cone woofers, they can reproduce natural vocals with powerful impressive bass. With a comprehensive line-up, these speakers can't be beaten.

CUSTOM-FIT

Pioneer custom-fit speakers are synonymous with easy installation and quality sound. TS-Q speakers, with separate component speakers designed for certain car models, offer impressive, full range audio. Custom-fit speakers with Easy Connectors give a quick boost to your setup – solid sound at an outstanding value.
