PUBLIC COMMENT: Edward Stevens, 4495 Burnt House Hill Rd., spoke to the Board about tree removal in front of his property and his understanding that the trees are in the right-of-way and are the Township's not his. He stated his monument shows they are not on his land. He also questioned the installation of utility poles when electric across the street in Summer Hill is underground.

PRESENTATION: Joe Price, one of the developers of the proposed Lantern Ridge Subdivision spoke to the Board, noting he and Marshal Granor are the equitable owners of the property. He reminded the Board the proposed subdivision received preliminary plan approval in 2003 for 103 homes and 16,000 SF of commercial space. He stated they have not changed the layout and basic style, including the stormwater basin and utilities. Mr. Price stated he understands it is important the general layout and details are retained. Sam Carlo, Vice-President of Land for Lennar Homes stated the mixed use is being eliminated per past discussions with the Board. He reviewed details of the site plan, stating there will be 22 ft. wide three-story townhomes, and 24 ft. wide stacked townhomes and single-family homes. He stated they have reduced the number of parking spaces and added green space. It was noted they now have confirmed sewer capacity for the site. Mr. Price stated he is looking for comments from the Board so they can submit an amended final plan, so they can move forward with development in the Plumsteadville Village. Mr. Hilferty expressed concern about walkability, pointing out past discussion about connecting to the Wawa property. Mr. Trymbiski asked about the marketability of the stacked townhomes, living space available on the first floor, price points of the various types of homes, and if the proposed architecture is being used in

any other Lennar development. Mr. Carroll asked about the ability to park within the development when snow is plowed, citing the Township ordinance which prohibits parking on the streets. Mr. Fulmer reminded the Board the Township's professionals will need to review the amended plan and can address details brought up by the Board. The Board discussed the process for the review with consensus for the sketch plan to be submitted, reviewed by the Township's professionals, brought before the Planning Commission for additional comments, and presented to the Board of Supervisors. It was suggested this could be placed on the April 18 Planning Commission agenda, and before the Board at their first meeting in May.

Board consensus was for Mr. Reiss to prepare the ordinance for consideration and adoption.

by Mr. Hilferty to appoint the Planning Commission to serve as the steering committee for the project. With no additional comment, all voted in favor 3-0.

OLD BUSINESS:

Hanusey Park Outfield Advertising: Ms. McCreary discussed the costs of signs, the recommended size (3'X6'), and the options of aluminum or vinyl. She noted it was recommended no signs be placed in centerfield, and signs only be placed on the lower portion of the fence. Mr. Carroll stated he believes vinyl signs will be better to reduce potential injuries. It was suggested the Board consider using the same color template for the signs as the one used for the Township parks. Board consensus was to table the discussion until the March 26 meeting to allow Mr. Lykon and Mr. Busillo to participate in the decision process.

EDU Reservation Policy: At the suggestion of the Chairman, this matter was tabled to the March 26 public meeting.

Fund Balance/Reserves Policy: Mr. Trymbiski stated this was previously discussed by the Board, and made a motion to adopt the policy. With no second, the motion failed. At the suggestion of the Chairman, this matter was tabled to the March 26 public meeting.

NEW BUSINESS:

Allocation of Tax Revenue to EMS: Mr. Trymbiski stated he asked for this to be placed on the agenda, and explained his rationale for adjusting the allocation of real estate tax millage to include Central Bucks EMS (CBEMS). He noted this has been discussed in the last couple of years, and recently it was confirmed that CBEMS covers about 14% of the Township. Mr. Hilferty stated additional studies should be done, and noted there are other options including assigning the whole Township to Point Pleasant/Plumsteadville EMS, or phase the reallocation in if this is what the Board desires. Mr. Carroll stated he cannot advocate giving the whole territory to one squad because distance and response time are the only metrics that count in emergency services. Board consensus was to table this matter to the March 26 public meeting.

PUBLIC COMMENT: Ed Clinton, 707 Dublin Road, sought more disclosure on the proposed EDU policy and how it would impact his property at Stump and German Roads.

ADJOURNMENT: Motion by Mr. Carroll, seconded by Mr. Hilferty to adjourn into Executive Session at 9:27p.m. With no additional comment, all voted in favor 3-0.

Respectfully submitted,

Carolyn McCreary, Township Manager
