Introducing the eSeries NV UPS

The E Series ® NV line interactive uninterruptible power system (UPS) provides affordable power protection for your personal computers, home, office and other electronic devices. While packed with valuable features such as plentiful power receptacles and USB communications the compact size is ideal for limited office and home working spaces.

Features:

- Automatic Voltage Regulation (AVR) stabilises fluctuating power sources
- Microprocessor control design ensures high reliability
- Up to four receptacles, allowing easy equipment connection
- User replaceable batteries allow easy maintenance
- Start-On-Battery provides portable power capability
- WINPOWER software monitors power conditions and gracefully shuts down computer applications prior to battery depletion
- Intuitive LED indicators display UPS status
