USING OUR CULTURAL GUIDE

SOIL MOISTURE

WET	Soggy or marshy most of the year.
WET-MESIC	Excessively wet in winter, spring and after heavy rain but often dries in summer.
MESIC	Medium. Water soaks in with no run-off.
DRY-MESIC	Well drained. Water is removed from soil readily but not rapidly.
DRY	Excessively drained.

Approximate plant height (HT) is given with standard foot (') and inch (") abbreviations. Height is for mature full-grown plants in flower. Actual height will vary considerably due to competition, sun exposure, soil conditions, and weather. In young native plantings (less than 10 years) plant heights may be greater than in older plantings when competition reduces height.

COMMENTS

ANNUAL	Completes its life cycle during one season
BIENNIAL	Grows vegetatively during the first year, completes its life cycle during the second
CALCAREOUS	Needs alkaline soil with a pH of 7 to 8
ACIDIC	Needs acid soil with a pH of 4 to 6
HEMIPARASITIC	Requires a host plant species. See Germ Code K
SAND	Thrive particularly well in sandy or well-drained soils
COOL	Actively grows during the spring and fall when soil temperatures are cool
WARM	Actively grows during the summer when soil temperatures are warm
AGGRESSIVE	May not be suited for small landscape plantings
RHIZOMATOUS	Fast-spreading root system
NEW!	New species in seed or plant for 2023
	Deer Resistant: (attn: deer may browse on any plant if food is scarce)
	Pollinator Favorites
	Bird Favorites
	Highly recommended for home landscaping
	Recommended for home landscaping, but potentially aggressive. Could overwhelm small landscapes

SUN EXPOSURE	SOIL	BLOOM	COLOR	HT	COMMENTS
FULL SUN	W-WM-M-DM-D	A · M · J · J · A · S · O			

SUN EXPOSURE

	FULL SUN	Plants require 6 or more hours of sun during the growing season.
	PART SHADE	Plants need 3-6 hours of direct sun. Sun reaches ground level at woodland edges or through openings between trees. Prairie species will often grow in larger openings, with shade-tolerant species growing under trees.
	SHADE	Plants require less than 3 hours of sunlight.

BLOOM TIME

April	A
May	M
June	J
July	J
August	A
September	S
October	O
