DTWF

DATASHEET / BROCHURE

This revolutionary 4-in-1 business inkjet printer provides predictable printing costs, with minimal user intervention to boost productivity.

Available exclusively through an Epson approved managed print service provider, this breakthrough business printer features Epson's Replaceable Ink Pack System (RIPS) to deliver super-high-yield printing. With this A4 workgroup printer, offices can benefit from the increased productivity of a local distributed print fleet that requires minimal intervention, while providing predictable print costs.

Print 75,000 pages uninterrupted

Print up to 75,000 pages in black or 50,000 pages in colour without replacing the ink¹ thanks to this printer's super-high-yield ink supply units.

Built for business

PrecisionCore technology powers the output quality that Epson is known for, at the speeds required for office, commercial and industrial printing. Prints dry fast thanks to the DURABrite Ultra ink. Scan-to functions, LDAP support and PDL emulations help this printer easily integrate into the business environment. Its intuitive large colour touch-screen makes functions readily available. Its Wi-Fi Direct[®] capability also lets you print from supported wireless devices without connecting to a router.

Energy efficient

The WF-R5690DTWF uses up to 80 percent less power than competitive colour lasers² thanks to its no heat technology. No ozone gas is emitted, and an improved quiet print mode and no fan noise during or after printing makes it ideal for the working environment. And there are fewer parts to replace than a laser.
