HDD capacity	unlimited
Case Hot Plug	yes
Cooling fan	40x40 mm
Power supply	5V/2A, 12V/2A, 100V~240V
Power switch	yes
OTB	only Windows
Operations system	Windows, Mac, Linux

IB-3218StU-B! ICY BOX presents the brand new double HDD enclosure at the price of a single solution.

The proven JBOD and One Touch Backup technology, like you already know from the IB-3220 and the fresh and more compact Design offers the new double HDD enclosure of ICY BOX.

Whether you equip the enclosure with one or two HDDs, never mind, because as elegant expandability, without buying a second external enclosure, you found an interesting price alternative.

Connecting two HDDs by only one USB cable, finished with overcrowded USB ports and unclear cable tangle. The protection of your data will be made by only one finger tip after the provided software was installed.

In short, a small power station, that guarantees an appropriate working environment to your HDDs owing to full aluminium enclosure and additional fan.
