Features

Technical specifications

Features HDR-CX700VE

Full HD 1920x1080 50p recording - Full HD recording at very high bit rate with 50p progressive shooting mode for highest image quality and smoothness

25p progressive recording mode - Shoots Full HD images at 25 frames per second to achieve cinematic feel with your video footage

CinemaTone Gamma™ & CinemaTone Color™ - Adjusts image quality in conjunction with 25p shooting mode to create footage with warm, filmic quality

96GB internal memory - Records on internal 96GB memory plus additional recording on optional memory card (Memory Stick Pro Duo™ or SD/SDHC)

Wide angle G Lens with 10x optical zoom/14x extended zoom - Excellent optical performance: 26.3mm (video and photo) wide angle ideal for group shots, landscapes and more

Optical SteadyShot - With 3-Way Shake-Cancelling for stable images, even while walking. Now offers enhanced stabilization at all zoom settings

Super sensitive 1/2.8 type Exmor R™ CMOS Sensor - Highly efficient, large sensor captures detail-packed video and still images with reduced image noise, especially in low light

BIONZ processor - High-speed image processor for enhanced image quality and responsive performance

Up to 12.3 Megapixel still photo - Shoot high-quality still images, even while shooting video simultaneously

7.5cm/3" Xtra Fine LCD - 921k dot wide touchscreen with TruBlack technology for high-contrast images

Electronic Viewfinder - Clear, detail-packed viewfinder lets you frame shots with absolute confidence, even when you're shooting in bright sunlight

Connect and charge with built-in USB cable - USB cable stows neatly in camcorder's hand strap. Connect Handycam® to your computer and transfer videos or recharge battery

Hassle-free web sharing with PMB Portable - Connect Handycam® to any PC via built-in USB cable: built-in PMB Portable software launches automatically for easy web sharing

Easy new interface with Event Browse - Intuitive playback solution groups your camcorder footage and still photos by events: allows easy searching to favourites

Highlight Playback - Automatically edits together movie highlights and still photos with music and transitions: burn the results to DVD or share online

Enhanced Manual Control - Enjoy greater control over composing shots: with pro-style zebra/peaking display and expanded focus view for fine focus adjustment

Intelligent AUTO (iAUTO) mode - Recognizes up to 90 combinations of Face Detection, scene settings and handheld/tripod shooting: adjusts for best results

Tracking focus - Select an object on the touchscreen and keep autofocus locked on moving subjects, even if they're not people: ideal for pets

Quick AF - Autofocus locks onto subject at high speed for clear, sharply-focused images, even in low-light conditions

GPS Inside / Map Index - Automatic geotagging of clips and photos by GPS: see where video clips were shot with built-in map on LCD

High Quality 5.1ch surround sound - Sensitive new microphone design captures dialogue and surround sound with superb clarity

Wind noise reduction - New microphone design and digital signal processing reduces wind noise, for clearer dialogue and sounds when shooting outside

Stereo speaker with S-Master amplifier technology - High quality linear phase speaker system delivers clear, natural stereo sound when playing back your clips

Face Detection and Smile Shutter - Capture clear, natural portraits: automatically shoot still photos of smiling faces during video recording

Built-in flash - Illuminate still photo subjects when you're shooting indoors or in low light

Direct Copy - Transfer video footage direct to an external hard disk drive without PC: playback with fun camcorder features

DVDirect Express compatibility - PC-free burning to AVCHD or Standard Definition DVD discs with compatible Sony DVDirect Express writer

HDMI® output - Connect camcorder for viewing any HD Ready TV

BRAVIA Sync - Directly control camcorder playback functions via remote of connected BRAVIA® television

Golf Shot - Automatically captures a high-speed burst of images to freeze fast-moving action at exactly the right moment

Easy upload by PMB Software - Fun, easy to use PMB PC software for managing video and photos in calendar view and uploading to websites like YouTube™
