### Subscription option:

Get the same product with low monthly payments. Visit [www.adobe.com/go/cssubscription](http://www.adobe.com/go/cssubscription) to learn more.

Adobe Creative Suite 5.5 Master Collection software is a comprehensive set of professional creative tools for delivery of design across media. Make an impact with work for virtually any screen—mobile to tablet to HD display—all with one value-packed offering.

## Top reasons to upgrade to Adobe Creative Suite 5.5 Master Collection

**NEW Enhanced Multiscreen Preview panel**—View website designs as they would appear across desktops, smartphones, tablets, and televisions within the enhanced panel in Adobe Dreamweaver CS5.5 and experience better handling of custom media queries and multiple CSS files.

**NEW Robust jQuery Mobile support**—Build rich content for a variety of devices with support for the jQuery Mobile framework in Dreamweaver CS5.5. Take advantage of mobile templates, contextual code hinting, and the ability to quickly insert objects into a design.

**NEW Expanded platform and device support**—Create content in Adobe Flash Professional CS5.5, optimized for delivery across more devices thanks to support for Flash Player 10.2 and Adobe AIR® 2.6 and new platforms, including Android,<sup>†</sup> Apple iOS, RIM, webOS, and Adobe Digital Home.

**NEW More efficient video workflow**—Trim and edit with more efficiency and precision in Adobe Premiere Pro CS5.5. Use widely accepted NLE shortcuts, and easily sync separately recorded field audio with your video, thanks to new dual-system sound support.

**NEW Advanced audio-for-video editing in Adobe Audition CS5.5**—Record, edit, mix, master, and sweeten audio with Adobe Audition CS5.5—now available for Mac OS and Windows.<sup>†</sup> Roundtrip edit with Adobe Premiere Pro CS5.5, or use OMF and XML to speed up project exchange with Avid Pro Tools and other NLEs.

**NEW Warp Stabilizer effect in Adobe After Effects CS5.5**—Smooth a bumpy camera move, or lock a shot automatically. Warp Stabilizer removes jitter and compensates for motion-related irregularities.

**NEW Folio Producer tools in Adobe InDesign**—Create engaging digital magazines, newspapers, annual reports, manuals, and other documents that incorporate eye-catching elements such as 360° rotation and panoramas, all for playback on tablet devices, such as Apple iPad, RIM BlackBerry PlayBook, and a wide variety of Android tablets, including the Motorola Xoom. Upload them to the Adobe Digital Publishing Suite\* hosted solution for further production and distribution.

**NEW Enhanced eBook authoring<sup>†</sup> in InDesign**—Create more engaging eBooks with less need for developers. Enjoy a smoother workflow as you include refined typography and images that resize automatically to fit virtually any screen. You can even add video and audio for eBook reader applications that support HTML5 video and audio tags.

**NEW Adobe Flash Builder 4.5 Premium**—Leverage a single development platform to deliver expressive, easy-to-use applications on most popular mobile and web platforms and a multitude of devices. Collaborate intelligently with designers on shared projects thanks to a new bidirectional workflow with Adobe Flash Catalyst CS5.5.

\* Adobe Digital Publishing Suite requires a separate license and payment of associated fees. Visit [www.adobe.com/products/digitalpublishingsuite](http://www.adobe.com/products/digitalpublishingsuite) for more information.

<sup>†</sup> InDesign uses EPUB3 and HTML5 code to create eBooks with audio, video, and other advanced features. EPUB3 and HTML5 presentation, media playback, and double-byte character support (such as Chinese, Japanese, and Korean) might not be supported by all devices, browsers, or EPUB readers.
