THE COMMENCEMENT CEREMONY

A Perspective

Purdue University owes a substantial debt to its medieval predecessors for its commencement ceremony and academic attire. The academic heritage that evolved during the Middle Ages provided us with a teaching institution, the university; a method of measuring academic progress, degrees; and a structure for an appropriate ceremony recognizing the student's achievement, commencement. In June 1875, Purdue University held its first commencement outdoors on the Oval, awarding the Bachelor of Science degree to a class of one. In 1903, commencement was moved indoors to the newly-completed Eliza Fowler Hall. The steady growth of the size of the graduating class necessitated moving the exercises to larger and larger facilities: the Memorial Gymnasium, the Armory, the Field House, and in 1940, to the Edward C. Elliott Hall of Music. The 241st commencement at the West Lafayette campus is being held today for graduates who qualified for their degrees at the end of the current semester. The colorful ceremony, enacted each year on campuses throughout the world, is the formal climax and recognition of the graduates' years of study and preparation.

Academic Attire

Graduate candidates for degrees wear a black tassel on the left side of the square Oxford cap, or mortarboard, signifying receipt of a previous degree. At Purdue, the color of the trim on the hood identifies the areas of specialization.

Doctor of Philosophy (All areas)	Ph.D. Hood Color Dark Blue		
Areas of Specialization	Master Hood Colors	Areas of Specialization	Master Hood Colors

THE USE OF ACADEMIC EMBLEMS

The Seal

Seals are common to all corporate bodies and have been used since ancient times to authenticate documents. They constituted the official signatures of emperors, bishops, and corporations. University seals evolved from those of church corporations. In Europe, the early faculties and student nations possessed seals; in the United States, all colleges and universities have had seals since Colonial days. The current Purdue Seal was officially adopted in 1969 and retains elements of earlier versions, which evolved beginning in 1890. The seal features a stylized depiction of the griffin, the mythological beast with the head of an eagle and the body of a lion. In medieval heraldry, the griffin symbolized strength. The three-part shield represents Purdue's traditional aims: learning, discovery, and engagement. The seal combines these traditional elements with modern simplicity of design to form one of the most distinctive of university symbols.

The University Mace

The mace has an ancient history as a symbol of authority. Originally giant clubs made of iron and capable of breaking armor, maces were used chiefly by knights. They were also often borne by a royal bodyguard to protect the king in processions. In the course of time, by the 14th century, they assumed more ceremonial functions and lost their warlike appearance, as they began to be decorated with jewels and precious metals. In 1649, the English House of Commons obtained a mace. In 1756, a silver mace was made for the colony of South Carolina; it is still in use in the state capital at Columbia. In the United States House of Representatives, the mace is placed to the right of the speaker. As a symbol of order and authority, a mace is carried before the president and other dignitaries in the platform party in commencement processions. As a reflection of the modern vision of a truly American university, the design of the Purdue Mace embraces sweeping thrusts and counterthrusts to create a vital energy within an otherwise clean, linear aesthetic. The University seal is located in the center of the mace-head; bounding it are two sweeping silver wings.

The Presidential Medallion

Closely allied with maces and seals as symbols of authority are the collars of office worn by many officials, including chancellors and presidents of universities. Collars usually include a medallion inscribed with the seal of the institution and are worn over the academic gown on public occasions, particularly at commencements. Located in the center of Purdue's Presidential Medallion is the three-part "heraldic shield" and griffin, the symbol which has existed throughout Purdue's long history of University seals. The medallion, as well as the mace, was handcrafted from sterling silver, ebony, and gold, using the centuries-old techniques of swedging, forging, hollow-forming, and silver soldering.

The Banners

The banners, sometimes known as standards or gonfalons (a flag that hangs from a crosspiece or frame), originated in the medieval republics of Italy as an ensign of state or office. They have been adopted in many universities around the world as school or institutional insignias. The fourteen banners displayed represent the University, the Graduate School, and the twelve undergraduate colleges or schools at the West Lafayette campus. The colors of the University, old gold and black, are joined together in a pattern common to all the banners. The bands are the same colors as the tassels worn on the mortarboard of the college's or school's graduates.

Each college or school is represented on its banner by a symbol and two colored bands indicating its major academic discipline.

The Teaching Medallion

The medallion identifies members of the Purdue University Teaching Academy, a dedicated and dynamic network of scholar-teachers committed to the continual improvement of teaching and learning at Purdue University. Under the auspices of the Office of the Executive Vice President for Academic Affairs, the Teaching Academy works with the academic schools, the Center for Instructional Excellence, and others to enrich the educational experiences of the entire Purdue University community. The mission of the Teaching Academy is to provide leadership and serve as a catalyst to enhance and strengthen the quality of undergraduate, graduate, and outreach teaching and learning.

THE PURDUE UNIVERSITY SEAL

The Purdue seal is used as the University's formal signature — a confirmation of authenticity on all official documents.

The first Purdue seal was designed in 1890. The current seal, designed in 1968 by Al Gowan to retain elements of all eight previous versions, is used on official University documents such as diplomas, letters of acceptance and communication from the Board of Trustees and the president.

Today's seal features a stylized griffin, the mythological creature with an eagle's head and lion's body. In medieval heraldry, the griffin symbolized strength. The three-sectioned shield represents Purdue's traditional aims: education, research and service.

The purchase of the locomotive Schenectady and its subsequent testing in special laboratories brought international recognition to Purdue. When it was delivered in September 1891 to a site near the present airport, a university holiday was declared so that the student body could lift the locomotive from the rails, and assisted by three teams of horses, pull it across the wheat fields to the newly built Engineering Laboratory near the present site of Grissom Hall.

Doctor of Philosophy

Purdue's commencement exercises have been held in many different locations through the years, ranging from a large circus tent on the Oval in the 1880's to their present site in the Edward C. Elliott Hall of Music. Commencement in the early 1930's was held in the memorial Gymnasium, now Haas Hall. Limited space for guest seating soon necessitated a move to the larger facilities in the Armory.

Honorary Doctorates

Jack Calhoun
Senior Advisor
McKinsey & Company

Jack Calhoun is an esteemed consumer products and fashion executive with a proven record of producing top-tier financial results. Calhoun currently serves as senior advisor at McKinsey & Company, a global management consulting firm, where he advises clients in various areas, including consumer products, retail, beauty, fashion and luxury products.

Calhoun began his career at Procter & Gamble and advanced to greater responsibilities at well-known brands, such as Levi's and Charles Schwab. He later became global president of Banana Republic, during which time, he oversaw all aspects of the \$3 billion global business, including all brand, product and employee experiences for more than 700 stores and 22,000 employees across 25 countries.

In his 12 years at Banana Republic, Calhoun led the brand to historically high profitability and industry-leading operating margins. He expanded the business by introducing sub-branded product lines and new brand categories through licensing partnerships in eyewear, shoes and personal care. A pioneer of multiple complex partnerships, Calhoun was responsible for developing the first fashion brand integration with reality TV show "Project Runway." He also developed successful product lines with costume designers Colleen Atwood ("Memoirs of a Geisha") and Jacqueline Durran ("Anna Karenina") for their Academy Award-winning movies. Additionally, he led the prosperous brand partnership with the Golden Globe-winning TV series "Mad Men" and spearheaded numerous other substantial fashion, designer and branded partnerships.

Calhoun served on the board of directors of the Kimpton Group Holding Company, the largest boutique hotel operator in the U.S.; the board of Mitchell Gold + Bob Williams Inc. furniture company; and the national board of GLAAD (Gay and Lesbian Alliance Against Defamation). He currently is an executive board member of the San Francisco Opera, vice chair of the Fine Arts Museums of San Francisco, and chairman of the Australian fashion brand Lack of Color.

At Purdue University, Calhoun was president of the Purdue Student Union Board, chair of Iron Key, a member of Purdue Varsity Glee Club and was awarded the G.A. Ross Award as an outstanding senior male graduate. He graduated in 1987 with a bachelor's degree in technology. Calhoun lives in San Francisco, California, with his husband Trent Norris.

Greg Hayes
Chief Executive Officer
Raytheon Technologies Corporation

Greg Hayes is chief executive officer of Raytheon Technologies Corporation, responsible for leading an aerospace and defense company of 180,000 employees and \$64 billion in annual sales.

Also serving as a member of the company's board of directors, Hayes had a nearly 21-year career at United Technologies Corporation, holding several senior leadership roles across finance, corporate strategy and business development, culminating with his appointment to chief executive officer in 2014 and chairman in 2016. As CEO, Hayes led the reshaping of UTC from industrial conglomerate to focused aerospace company. Beginning with the divestiture of Sikorsky Aircraft in 2015 and the acquisition of Rockwell Collins in 2018, Hayes continued to focus the business with the spinoffs of Otis Elevator Company and Carrier Corporation in 2020. Hayes then led the merger of UTC's remaining aerospace businesses, Pratt & Whitney and Collins Aerospace Systems, with Raytheon Company, to form Raytheon Technologies in April 2020.

Hayes, who joined UTC in 1999 through its merger with the Sundstrand Corporation, also served as UTC's chief financial officer from 2008-2014.

A man of great compassion, Hayes had a military transport plane flown to Puerto Rico after Hurricane Maria hit the island in 2017, supplying generators, water and cash to employees and their families in that location. During the current pandemic, he has overseen the production of 3D printed masks for healthcare workers and the development of engineering solutions to help reduce viral spread in airports and aircraft.

Hayes is a board member of the Business Roundtable, a national association of CEOs who work to promote the U.S. economy. He also is a board member of the National Academy Foundation, a national network focused on solving challenges related to education and the economy; as well as a board member of the Smithsonian's National Air and Space Museum, which maintains the world's largest collection of aviation and space artifacts. Hayes was a former member of the Krannert Dean's Advisory Council.

Hayes earned a bachelor's degree in management from the Krannert School in 1982 and is a Certified Public Accountant. He lives with his wife, Renata, in Avon, Connecticut, and has four children: Kaitlin, Maiya, Spencer and Zachary.

PURDUE HONORS COLLEGE

The Purdue Honors College provides an interdisciplinary environment for undergraduate students from across all areas of study. Graduates of the Honors College are recognized with a medallion worn at graduation ceremonies, an honors designation on their diploma, and notation on their academic record. Students complete an honors enriched curriculum and conduct a scholarly research project. Honors College graduates are noted in the commencement program by the torch beside their name. The torch is the official symbol of the Honors College, reflecting the intent to ignite students' imaginations.

The Purdue Honors College was established in 2013 with pathways to honors across majors. The Honors College was built on a rich legacy of honors programs at the college and departmental levels. Recognition of students completing honors at the departmental level are recognized via a certificate and notation.

The following students in addition to being candidates for a bachelor's degree, are also candidates for special recognition for the satisfactory completion of the requirements for the University Honors College.

DISTINCTION AND HIGHEST DISTINCTION

Professional and Undergraduate Degrees

The outstanding scholastic achievement of selected professional and undergraduate degree recipients is recognized by awarding the degree "with distinction" or "with highest distinction." Eligible candidates with superior academic records who are expected to graduate in May are designated as potential candidates for this special recognition at the beginning of the spring semester and are so identified in the commencement program. The final determination of those who actually receive this recognition is made at the conclusion of the semester and is based upon the final graduation index.

A minimum of 65 credit hours included in the graduation index for the professional or baccalaureate degree and 35 credit hours included in the graduation index for the associate degree, with a minimum graduation index of 3.30 are required for a graduate to be eligible for consideration. The upper 10 percent of the May graduates in each of the various colleges or schools receive degrees "with distinction." Of the graduates who thus qualify, the upper three-tenths of the professional, baccalaureate and associate graduates receive their degrees "with highest distinction," regardless of the college or school from which they graduate. The minimum graduation indexes thus determined in May for each college or school are applied for graduation "with distinction" and "with highest distinction" for the subsequent summer session and fall semester. Recognition is evidenced by placing an appropriate seal on the diploma and entering an appropriate notation on the academic record. Graduates who are potential candidates for degrees "with highest distinction" wear special gold and black honor cords during the commencement ceremony; those who are potential candidates for degrees "with distinction" wear gold honor cords.

Built in 1872 as Boarding Hall, this was the first permanent building to be erected north of State Street. When Purdue opened in September of 1874, it housed the college dining room, living quarters for new faculty and their families, and the office for Purdue's second president, Abraham C. Shortridge. Also known for a time as Art Hall, when classes in that subject were taught in some of the rooms on the first floor, it was used for the major part of its existence as the women's residence hall, Ladies Hall. It faced State Street just a few steps east of where Matthews Hall now stands. Ladies Hall was torn down in 1927—one of the first major University buildings to disappear from campus.

The main gates to the campus were given to the University by the Class of 1897 in keeping with a long-standing tradition. Facing State Street and looking south to the ag campus beyond, they were wide enough to permit the bicycle and buggy traffic of their youth. But with the advent of fewer horses and more horsepower not too many years later, they were moved farther apart. The gateways were removed from their permanent location in 1956 before construction was begun on Stewart Center and now stand on the Memorial Mall near John Purdue's grave. In this photo, Heavilon Hall and the original Eliza Fowler Hall can be seen in the background.

The faculty and candidate procession passes across the Purdue Oval at the commencement in 1903, the first year commencement exercises were held in Eliza Fowler Hall. Participants dressed in regular clothes, since the use of caps and gowns for graduation was not to be adopted by the senior class until 1922.

PURDUE UNIVERSITY DRUM CREW

Brandon Bledsoe
Connor Dunn
Jarrett Fischer

Olivia McLaurin
Andrew Walke

An 18-foot, 5,400-pound bronze statue that celebrates the lore and legend of the Purdue Boilermakers now stands next to Ross-Ade Stadium with an inscription that reads; "The year was 1891. A college known for its proud heritage of educating the sons and daughters of the working class began to dominate opponents in football. After a 44-0 thrashing of Wabash College, a headline writer provided inspiration for a most unique nickname. 'Wabash Snowed Completely Under by the Burly Boiler Makers from Purdue' chronicled a victory by the 'Herculean wearers of the black and old gold.' Never intended as a compliment, the insult appealed to the students of the day. The indomitable spirit of the boilermaker is embodied in the tireless laborer you see before you."

*Designated as a Distinguished Military Graduate

The designation of "Distinguished Military Graduate" indicates selected individuals who have demonstrated a particularly high level of achievement while earning both an academic degree and a commission in the Armed Forces of the United States. Criteria used in making the selection include demonstrated performance and leadership in course work as well as in athletics and extracurricular functions. The candidate must also maintain at least a "B" average in all course work while ranking in the upper third of his or her contemporaries for the Army or Navy, or the upper tenth for the Air Force. Commissionees so designated receive an appropriately inscribed certificate from their respective service.

This program is not an official graduation list

While every effort is made to ensure accuracy in this commencement program, printing deadlines sometimes prevent inclusions of graduates' names, or may result in the use of names of persons not completing graduation requirements. This printed program, therefore, should not be used to determine a student's academic or degree status. The University's official registry for conferral of degrees is the student's permanent academic record, kept by the Office of the Registrar, 610 Purdue Mall, West Lafayette, IN 47907-2040.

PURDUE STUDENT ATHLETE

Graduates wearing the student athlete medallion are recognized for their hard work and dedication in balancing their equally demanding academic and athletic commitments. At Purdue, where student-athletes are real students, taking real courses, earning honest grades, this is no small accomplishment, and we applaud their achievement.

The following students in addition to being candidates for a bachelor's degree, are also candidates for special recognition.

Purdue Football team unveil the Old Oaken Bucket at the Purdue Men's Basketball game, November 28, 2017. In 1925, Dr. Clarence Jones, Indiana alum, and Russel Gray, Purdue alum, were given the task of finding a suitable trophy to represent the rivalry between the two schools. They traveled across the state in search of "the most typical Hoosier form of trophy". Jones and Gray came across Bruner Farm where a bucket hung from a well. They brought the bucket back with them and restored it. George Ade, representing Purdue, and Harry Kurrie, representing Indiana, presented the Old Oaken Bucket trophy to President Bryan, of Indiana, and Dr. Elliott, of Purdue at Ross Ade Stadium, in the 1925 game. Ironically, the 1925 game ended in a 0-0 tie. The bronze block "IP" was linked to the trophy to signify the tie. As of 2013, Purdue leads the series 72-38-6.

SPECIAL STUDENT AWARDS

The Charles O. McGaughey Leadership Awards

Anna M. Adamsson, College of Liberal Arts
Christine I. Bent, College of Science
Ogechukwu Blessing Ezenwa, College of Agriculture

Logan S. Faircloth, College of Liberal Arts
Jayla G. Langford, College of Science
Danielle M. Rothchild, College of Liberal Arts

Mr. McGaughey, a Purdue graduate from the Class of 1939, established the awards to honor students for leadership promise. To be eligible for these awards, students must have completed a minimum of two years full-time study at Purdue and achieved at least a 3.0 graduation index. Recipients are selected on the basis of their contributions to the University and the community. Each honoree receives \$3,345 as an acknowledgement of their superior leadership abilities, scholarship, and appreciation of basic American values, and a crystal paperweight commemorating the award.

The G. A. Ross Award

Zachary A. Marshall, College of Engineering

This award is presented annually to the outstanding man in the graduating class and is made possible through a gift from Mr. Ross, a devoted alumnus and benefactor of Purdue University from the Class of 1916. The recipient receives a \$2000 award, medallion and his name permanently inscribed on the award marker on the Purdue Engineering Mall.

The Flora Roberts Award

Alexandra (Sasha) F. Kipnis, College of Science

The award is presented annually to the outstanding senior woman to honor her scholarship, leadership, character and service to the University community. The award was made possible through a bequest of Miss Flora Roberts of the Purdue Class of 1887. The recipient receives a \$2,000 award, medallion, and her name permanently inscribed on the award marker on the Purdue Engineering Mall.

The Louis Sudler Prize in the Arts

Kasia Crain, College of Liberal Arts
Alexandra E. Davis, College of Liberal Arts

Isabella Matthews, College of Liberal Arts
Caroline Pomeroy, Polytechnic Institute

The prize is awarded to an outstanding senior who has demonstrated excellence and the highest standards of proficiency in the visual or performing arts. This award is endowed by the late Louis Sudler, a Chicago businessman and generous supporter of the arts. The recipient receives \$1,000 and a certificate

Martin C. Jischke Outstanding International Student of the Year Award

Kaustub Parvir Anand, College of Science

Established by President Emeritus Martin C. Jischke to honor an international Purdue student who has made special efforts to welcome and connect with people of all cultures. The award is granted to a graduating senior who has attained a minimum of 3.0 graduation index or higher; demonstrated leadership qualities and achieved academic accomplishments through further research, publications or presentations; and participated in service projects. The recipient receives a cash award along with their name inscribed on a plaque in Schleman Hall.

The France A. Córdova Award for Leadership in Action

Johnnie C. Cheng, College of Agriculture
Assata M. Gilmore, School of Management

Established by President France A. Córdova, the award honors a graduating student who has demonstrated exceptional leadership during his or her Purdue career. The award is granted to a student — graduate or undergraduate — who will graduate during the calendar year of the award with a cumulative grade point average of 3.0 or higher. The student must have held successful leadership roles at Purdue, working in partnership with staff and faculty to move the university forward. The recipient must have exhibited integrity, influence, vision and guidance in creating transformative change for current and future students. The award winner receives a certificate, a cash award, and his or her name is inscribed on a plaque.

The Amelia Earhart Scholarship

Jinan Masala Ayub, College of Science
Rebecca C. Slaughter, College of Engineering
Chyna Dahl Davis, College of Science

This scholarship was reinstated in 1999 after Doreen Buranich Simmons, a 1971 Purdue graduate, committed to see the scholarship return to Purdue after learning of its demise in the 1970s. Her gift became the catalyst for Joan Russell Dudding to honor the university and Amelia Earhart by funding the scholarship on an ongoing basis. The Amelia Earhart scholarship is awarded to a junior or senior with a grade point average of 3.20 or higher who demonstrates leadership, determination, ability and potential in academic and/or community activities.

On average there are 3-4 scholarship recipients each year and the scholarship amounts are \$1,000-\$1,500 each year. The scholarship is renewable one time as long as the student continues to meet the GPA requirement and continue in undergraduate studies.
