## Introduction

Thank you for having the interest to use Redde Payment Services. Please read this document and all **Legal Policies** on our [Redde](#) website carefully before using and or integrating the Redde Service into your Application(s). All terms and conditions apply.

This Document is to outline the measure/procedures that onboarding clients need to know and or implement at their outfit, Before, During and After Wigal grants them access to an App on Redde, (**APP-ID** and **API-KEY**) for their Application(s) integration and the use of the **Bill Prompt Feature** without the **OTP verification process**.

## Product Description and Features

Redde is a payment system that allows merchants to receive payments for goods and services. You can use the Redde portal to sweep your money into your bank account as well as your preferred Mobile Money Wallet.

Redde provides a secure, easy, and convenient way of making online payments for products and services. Online users are often subjected to hours of traffic just to purchase their goods and make payments. That is a thing of the past. With this service, users will be able to comfortably make payments from anywhere in the world and receive payments for items and services.

After the drop-down, click on the **Account** and the **Overview**, your Account page will be displayed. Here the Total number of users will be displayed including the users that do have full and Limited Access. The picture below depicts this.

The screenshot shows the Redde account overview page. At the top, there are navigation tabs for Dashboard, Transactions, Cash Out, and Apps. The user's name 'Ani' is displayed in the top right corner. The main content area features three summary cards: 'TOTAL USERS' with a count of 5, 'FULL ACCESS' with a count of 4, and 'LIMITED ACCESS' with a count of 1. Below these cards is a table titled 'Existing Users' with columns for Name, Email, Mobile, Status, and Account Access. The table lists five users: Michael Asare, Abel Abil, Lawrence Amoah, Stephen Adjiei-Kyei, and Ani Offei Emmanuel. Each user has a 'Modify' button next to their entry. The table also includes a search bar and pagination controls at the bottom.

Now this Creation of user page gives you the privilege to create new users under your account with specific permissions you decide to explicitly grant.

Also note that you are not limited to the number of users you can create under your account. The below picture depicts this.

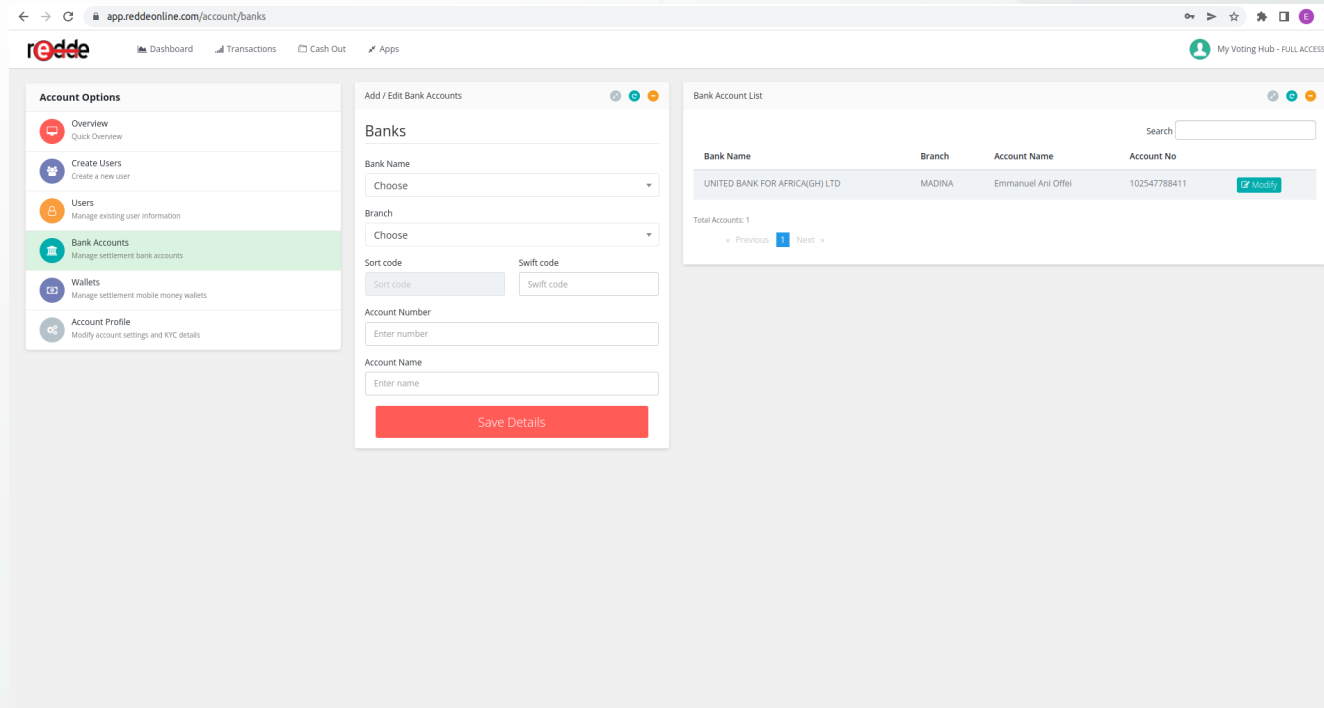

## Creating your Bank Account

DIGITAL ADDRESS  
GD-081-0292

With the Redde Platform, we make it very easy for client to sweep their Funds to their Bank Account(s) without any difficulties. And to be able to perform such transactions, it is mandatory that clients provide the accurate information in setting up their bank account. And there is no limit to the number of Bank Account they can create.

Moreover, on this same page one can edit the details of the Bank Account, thus if the need be. The below picture depicts the page where one can provide their Bank Account Details for Creation.

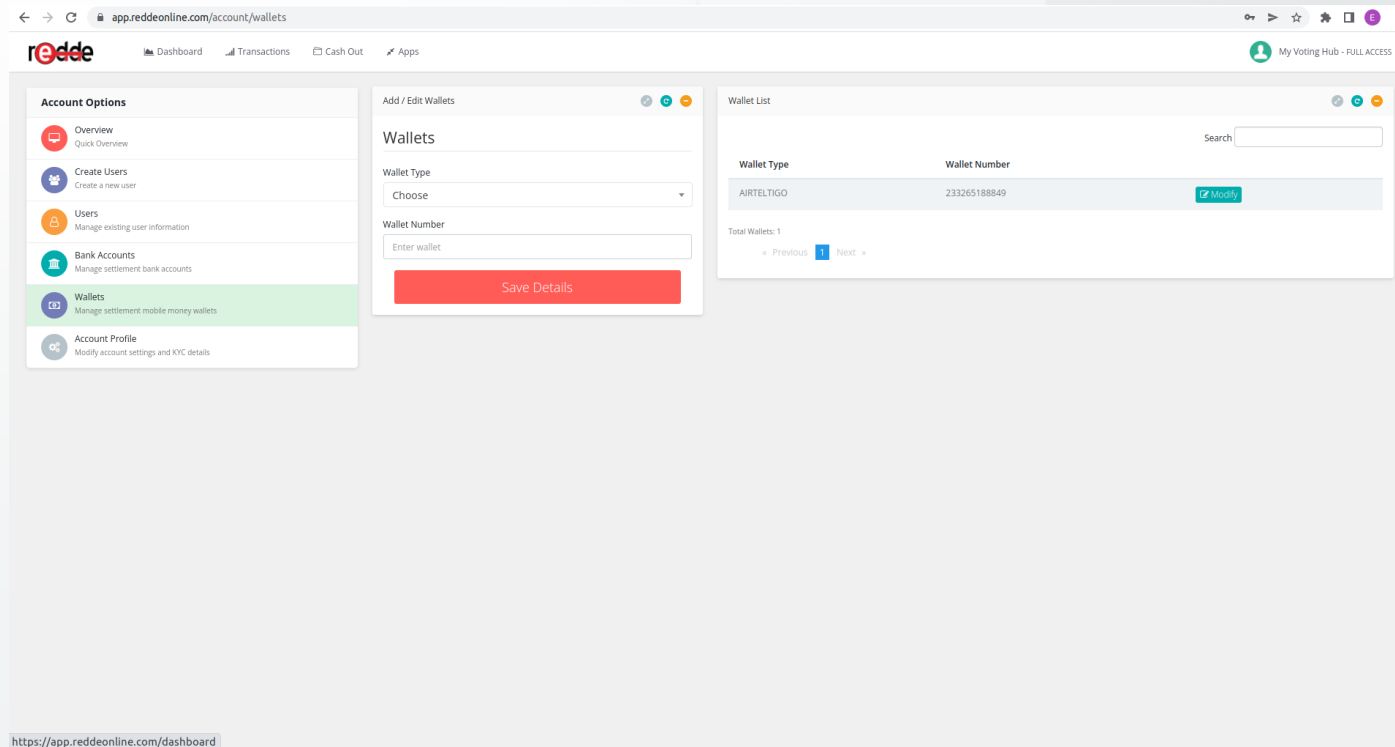

## Creating your Mobile Money Wallet

As funds are easily moved from Redde Account to clients respective Bank Account, this is the same way funds can also be moved to client's respective Mobile Money (MM) Wallets without a Hussle. You are therefore entitled to create as many MM Wallets as you can using the valid and correct information. And the best part is that, you can create for all Networks (ie. **AirtelTigo Money, MoMo and Vodafone Cash**) as many as you want.

Also, on this same page one can edit the details of the Mobile Money, if the need be. The below picture depicts the page where one can provide their Mobile Money Wallet Details.
