# Cardoon (*cynara cardunculus*)

Code	Variety	Description
RE 0902	<b>Bianco Avorio</b>	Light green, finely incised, smooth leaves; white, large and fleshy ribs.
RE 0901	<b>Large Smooth Gobbo di Nizza</b>	Broad, little notches leaves without spined. Very broad, white and fleshy ribs.
RE 0903	<b>Gigante di Romagna</b>	Large ribbed variety with fine notched leaves.

# Carrot (*daucus carota*)

Code	Variety	Maturity	Foliage	Length cm.	Shape	Colour
RE 1004	<b>Nantes</b>	Medium early	Vigorous	15 - 17	Cylindrical	Dark red-orange
RE 1007	<b>De Colmar</b>	Late	Strong	25 - 27	Conical	Deep orange
RE 1006	<b>New Kuroda</b>	Early	Medium	12 - 15	Conical	Deep orange 2 - 3
RE 1008	<b>Touchon</b>	Early	Cylindrical	18 - 22	Cylindrical	Orange - red
RE 1002	<b>Chantenay</b>	Medium early	Conical	13 - 15	Stump	Orange
RE 1002	<b>Flakke</b>	Medium late	Conical	20 - 24	Stump	Orange - red

# Celery (*apium graveolens*)

Code	Variety	Growing habit	Foliage	Stalk
RE 3804	<b>White Pascal</b>	Medium tall, erect	Light green	Thick, light green
RE 3802	<b>D'Elne</b>	Medium tall, erect	Dark green	Green, round and fleshy
RE 3806	<b>Tall Utah 52-70</b>	Medium tall, erect	Dark green	Thick, light green

# Celeriac (*apium graveolens*)

Code	Variety	Description
RE 3803	<b>Giant Prague</b>	Big sized, round rooted variety with white and tender flesh.

# Coriander (*coriandrum sativum*)

Code	Variety	Description
RE 1901	<b>Coriander Slow Bolting</b>	A vigorous and fast growing variety, with large stems and thick leaves. Slow bolting, it performs well in mild and subtropical climates.

# Chicory (*cichorium intybus*)

Code	Variety	Leaf Colour	Leaf Shape	Head Shape	Size
RE 1409	<b>Palla Rossa Precoce</b>	Light red	Concave, wrapping	Round with white and crisp ribs	Small
RE 1434	<b>Palla Rossa Semi Precoce</b>	Bright red	Concave, wrapping	Round with white and crisp ribs	Medium
RE 1433	<b>Palla Rossa Tardiva</b>	Dark red	Concave, wrapping	Round with white, marked and crisp ribs	Large
RE 1411	<b>Rossa di Verona</b>	Bright red	Rounded	Round with white wide ribs	Small
RE 1412	<b>Rossa di Verona a Palla</b>	Dark red	Round, concave	Round with white ribs	Medium
RE 1410	<b>Rossa di Treviso Precoce</b>	Wine red	Tight, long	Long with wide, white ribs	Medium
RE 1432	<b>Rossa di Treviso Tardiva</b>	Wine red	Tight, long	Long with large, crisp, white ribs	Small
RE 1419	<b>Variegata di Castelfranco</b>	Creamy with red stains	Rounded	Long with marked rib	Medium

# Chicory (*cichorium intybus*)

Code	Variety	Description
RE 1413	<b>Barba di Cappuccino</b>	Upright variety with long, notched, medium green coloured leaves.
RE 1414	<b>Selvatica da Campo Strisciante sel. Rustica</b>	Creeping variety; its leaves are long, laceolate, notched, dark green and red shaded. Thick, white reddish ribs, very resistant.
RE 1415	<b>Wild Chicory White Stem</b>	Creeping variety with long, notched, green coloured leaves with white ribs.
RE 1416	<b>Wild Chicory Red Stem</b>	Creeping variety with long, notched, green coloured leaves with red ribs.
RE 1428	<b>Bianca di Milano</b>	Large and wrapping, light green leaves with marked venations which create an elongated head.
RE 1429	<b>Pan di Zucchero</b>	Large, voluminous and firm head with large and wrapping, light green leaves.
RE 1418	<b>Spadona Verde</b>	Upright plant with long, narrow, bright green leaves with fine ribs.
RE 1420	<b>Zuccherina di Trieste</b>	Our very early, upright, fast growing selection with large and rounded leaves making a rosette. Ribs and venations are not very marked.

## Chicory (*cichorium intybus*)

Code	Variety
RE 1430	<b>Catalogna Gigante di Chioggia</b>
	Voluminous head, long, upright, serrate, dark green leaves. Very marked and fleshy leaves.
RE 1431	<b>Catalogna a Foglia Frastagliata</b>
	Upright head with long and serrate, medium green leaves with white ribs.
RE 1432	<b>Catalogna a Stelo Rosso</b>
	Upright head with serrate, medium green leaves with red ribs.

## Cima di rapa (brassica rapa cymosa)

Code	Variety	Description
RE 1502	<b>Quarantina</b>	
RE 1508	<b>Sessantina</b>	Dark green leaf, vigorous, very branched plant with erect growing. The inflorescence and the most tender leaves are used (maturity makes them different).
RE 1501	<b>Novantina</b>	
RE 1504	<b>Riccia San Marzano Quarantina</b>	
RE 1505	<b>Riccia San Marzano Cinquantina</b>	Dark green leaf, vigorous, very branched plant with erect growing. The inflorescence and the most tender leaves are used. The varieties "Riccia di San Marzano" stand out because of the uniformity and beauty of their inflorescence over the foliage (maturity makes them different).
RE 1506	<b>Riccia San Marzano Sessantina</b>	
RE 1507	<b>Riccia San Marzano Novantina</b>	
RE 1503	<b>Riccia San Marzano Centoventina</b>	
RE 1509	<b>Nabiça</b>	Used for leaf production. Leaves are big and of good quality.

## Corn salad (valerianella locusta)

Code	Variety	Maturity	Plant	Shape	Colour
RE 4001	<b>Large Leaved</b>	Mid-early	Full head	Erect, round	Deep green
RE 4005	<b>Verte de Cambrai</b>	Normal	Round	Round	Dark green
RE 4006	<b>Holland Seme Grosso</b>	Early	Large	Oblong	Medium green

# Cucumber (*cucumis sativus*)

Code	Variety	Maturity	Spines	Lenght cm.	Colour
RE 1303	Marketmore 70	Medium early	White	20 - 21	Dark green
RE 1304	Parisian Pickling	Early	Black	8 - 10	Light green

# Dill (*cichorium intybus*)

Code	Variety	Description
RE 0002	Plain	Rapid growing, very productive; rather large with smooth leaves.

# Egg plant (*solanum melongena*)

Code	Variety	Maturity	Shape	Lenght cm.	Colour
RE 2702	Early Long Purple	Mid - early	Cylindrical, elongated	20 - 22	Dark glossy violet
RE 2701	Black beauty	Mid - early	Oval to globe	10 - 12	Dark glossy violet
RE 2706	Bianca	Mid - early	Round	10 - 12	White
RE 2705	Sfumata Rosa	Mid - early	Oval to globe	10 - 12	Rose white shaded

## Endive (*chicorium endivia*)

Code	Variety	Head	Head colour	Leaf shape	Leaf colour	Rib colour
