

REPSOL INTERNATIONAL FINANCE B.V.

(A private company with limited liability incorporated under the laws of The Netherlands and having its statutory seat in The Hague)

EURO 10,000,000,000

Guaranteed Euro Medium Term Note Programme

Guaranteed by

REPSOL YPF, S.A.

(A sociedad anónima organised under the laws of the Kingdom of Spain)

This supplement (the *Supplement*) to the base prospectus (the *Base Prospectus*) dated 28 October 2008, which comprises a base prospectus, constitutes a supplement, for the purposes of Article 16 of the Prospectus Directive as implemented by Article 13 of Chapter 1 of Part II of the Luxembourg Act dated 10 July 2005 on prospectuses for securities (the *Luxembourg Law*), to the Base Prospectus and is prepared in connection with the euro 10,000,000,000 Guaranteed Euro Medium Term Note Programme established by Repsol International Finance B.V. (the *Issuer*) and guaranteed by Repsol YPF, S.A. (the *Guarantor*). Terms defined in the Base Prospectus have the same meaning when used in this Supplement.

This Supplement is supplemental to, and should be read in conjunction with, the Base Prospectus and any other supplements to the Base Prospectus issued by the Issuer and the Guarantor.

Each of the Issuer and the Guarantor accepts responsibility for the information contained in this Supplement and declares that, having taken all reasonable care to ensure that such is the case, the information contained in this Supplement is, to the best of its knowledge, in accordance with the facts and contains no omission likely to affect its import. The information incorporated by reference to the Base Prospectus by virtue of this Supplement has been translated from the original Spanish. Each such translation is a direct, complete and accurate translation of the Spanish language text and each of the Issuer and the Guarantor accepts responsibility for the accuracy of such translations.

The Dealers and the Arranger have not separately verified the information contained in the Base Prospectus, as supplemented by this Supplement. None of the Dealers or the Arranger makes any representation, express or implied, or accepts any responsibility, with respect to the accuracy or completeness of any of the information in the Base Prospectus, as supplemented by this Supplement.

On 27 February 2009, the Guarantor presented its audited consolidated annual accounts, together with the related notes, as of and for the year ended 31 December 2008 (the *2008 Audited Consolidated Annual Accounts*) to the Spanish National Securities Market Commission (*Comisión Nacional del Mercado de Valores*). An English-language translation of the 2008 Audited Consolidated Annual Accounts and the related audit report has been filed with the *Commission de Surveillance du Secteur Financier* and, by virtue of this Supplement, is incorporated in, and forms part of, the Base Prospectus. This Supplement also incorporates by reference certain regulatory announcements released by the Guarantor since the date of the Base Prospectus.

To the extent there is any inconsistency between (a) any statement in this Supplement or any statement incorporated by reference into the Base Prospectus by this Supplement, and (b) any other statement, pre-dating this Supplement, in, or incorporated by reference in, the Base Prospectus, the statements in (a) above shall prevail.

Documents incorporated by reference

For ease of reference, the table below sets out the relevant page references for the 2008 Audited Consolidated Annual Accounts and the regulatory announcements incorporated by reference in the Base Prospectus via this

Supplement. Any information contained in any of the documents incorporated by reference and not listed in the cross-reference table below is not incorporated by reference in the Base Prospectus.

As long as any of the Notes are outstanding, this Supplement and each document incorporated by reference into the Base Prospectus via this Supplement will be available for inspection, free of charge, at the offices of the Issuer at Koningskade 30, 2596 AA The Hague, The Netherlands during normal business hours and on the website of the Luxembourg Stock Exchange at www.bourse.lu. In addition, copies of the documents incorporated by reference referred to above can be obtained from the website of the Guarantor at “www.repsol.com”.

The second paragraph of paragraph 4 in the “General Information” section on page 115 of the Base Prospectus shall be deleted and replaced with the following text to take account of the publication and incorporation by reference of the 2008 Audited Consolidated Annual Accounts:

“There has been no material adverse change in the prospects of the Guarantor since 31 December 2008 (being the date of the last published audited financial statements) nor has there been any significant change in the financial or trading position of the Group since 31 December 2008.”

Save as disclosed in this Supplement, no other significant new factor, material mistake or inaccuracy relating to information included in the Base Prospectus has been noted or, to the best of the knowledge of the Issuer and the Guarantor, has arisen, as the case may be, since the publication of the Base Prospectus.

In accordance with paragraph 2 of Article 13 of the Luxembourg Law, investors who have already agreed to purchase or subscribe for relevant securities before this Supplement is published have the right, exercisable during the two Luxembourg working days immediately following publication of this Supplement, to withdraw their acceptances.

AUDITORS' REPORT ON CONSOLIDATED FINANCIAL STATEMENTS

To the Shareholders of
Repsol YPF, S.A.:

1. We have audited the consolidated financial statements of Repsol YPF, S.A. and Subsidiaries (the Repsol YPF Group) comprising the consolidated balance sheet at 31 December 2008 and the related consolidated income statement, consolidated statement of recognised income and expense, consolidated cash flow statement and notes to the consolidated financial statements for the year then ended. The preparation of these consolidated financial statements is the responsibility of the Parent's directors. Our responsibility is to express an opinion on the consolidated financial statements taken as a whole based on our audit work performed in accordance with generally accepted auditing standards in Spain, which require examination, by means of selective tests, of the evidence supporting the consolidated financial statements and evaluation of their presentation, of the accounting policies applied and of the estimates made. Our work did not include an examination of the consolidated financial statements of Gas Natural SDG, S.A. and subsidiaries, in which at 31 December 2008 the Group held a 30.85% ownership interest, and whose assets and net profit at that date represented 11.7% and 12%, respectively, of the corresponding consolidated figures of the Repsol YPF Group at that date. The consolidated financial statements of the aforementioned investee were audited by other auditors and our opinion as expressed in this report on the consolidated financial statements of Repsol YPF, S.A. and Subsidiaries is based, with respect to these investees, solely on the report of the other auditors.
2. As required by Spanish corporate and commercial law, for comparison purposes the Parent's directors present, in addition to the consolidated figures for 2008 for each item in the consolidated balance sheet, consolidated income statement, consolidated statement of recognised income and expense and consolidated cash flow statement, the figures for 2007 (see Note 1). Our opinion refers only to the consolidated financial statements for 2008. On 27 March 2008, we issued our auditors' report on the 2007 consolidated financial statements, in which we expressed an unqualified opinion.
3. In our opinion, based on our audit and on the report of the other auditors, the accompanying consolidated financial statements for 2008 present fairly, in all material respects, the consolidated equity and consolidated financial position of Repsol YPF, S.A. and Subsidiaries at 31 December 2008 and the consolidated results of their operations, the changes in the consolidated income and expenses and their consolidated cash flows for the year then ended, and contain the required information, sufficient for their proper interpretation and comprehension, in conformity with International Financial Reporting Standards as adopted by the European Union applied on a basis consistent with that used in the preparation of the figures for the preceding year, which are presented for comparison purposes.

4. The accompanying consolidated directors' report for 2008 contains the explanations which the Parent's directors consider appropriate about the Group's situation, the evolution of its business and other matters, but is not an integral part of the consolidated financial statements. We have checked that the accounting information in the consolidated directors' report is consistent with that contained in the consolidated financial statements for 2008. Our work as auditors was confined to checking the consolidated directors' report with the aforementioned scope, and did not include a review of any information other than that drawn from the accounting records of Repsol YPF, S.A. and Subsidiaries.

(1) **BASIS OF PRESENTATION**

Repsol YPF, S.A. and investees composing the Repsol YPF Group (hereinafter “Repsol YPF”, “the Repsol YPF Group” or “the Group”) constitute an integrated group of oil and gas companies which commenced operations in 1987 and engage in all the activities relating to the oil and gas industry, including exploration, development and production of crude oil and natural gas, the transportation of oil products, liquid petroleum gas (LPG) and natural gas, refining, the production of a wide range of oil products and the retailing of oil products, oil derivatives, petrochemicals, LPG and natural gas.

The corporate name of the parent of the corporate Group of companies that prepares and files these consolidated financial statements is Repsol YPF, S.A.

Repsol YPF, S.A. is registered at the Madrid Mercantile Registry in volume 3893, folio 175, sheet no. M-65289, entry no. 63^a. Its Employer Identification Number is A-78/374725 and its National Classification of Economic Activities Number is 742.

Its registered office is in Madrid, at Paseo de la Castellana, 278, where the Shareholder Service Office is also located, the telephone number of which is 900.100.100.

Repsol YPF is a private-law entity incorporated in accordance with Spanish legislation, which is subject to the Spanish Corporations Law of 22 December 1989, and, in particular, to the legislation governing listed corporations, whose activities, both in Spain and abroad, are subject to wide-reaching regulations.

The accompanying consolidated financial statements are presented in millions of euros and were prepared from the accounting records of Repsol YPF, S.A. and of its investees. The consolidated financial statements are presented in accordance with the International Financial Reporting Standards (IFRSs) as issued by the International Accounting Standards Board (IASB) and as approved by the European Union at 31 December 2008. The IFRS approved by the European Union differ in some aspects to the IFRS published by the International Accounting Standards Board; however these differences do not have a relevant impact on the

Group's consolidated financial statements for the years presented. Accordingly, they present fairly the Group's consolidated equity and financial position at 31 December 2008, the results of its operations, the changes in consolidated equity and the consolidated cash flows in the year then ended.

The presentation format of the accompanying financial statements has been amended with respect to 2007 in application of the disclosure requirements established in Circular 1/2008, of January 30, from the Spanish "Comisión Nacional del Mercado Valores" (CNMV). These mentioned amendments, although not relevant, have meant the implementation of new headings within the financial statements and changes in some disclosures in the notes to the financial statements (see mainly notes 15, 19 y 33). In addition, the Consolidated Statement of Recognised Income and Expense has been included for the first time. Necessary information, where appropriate, regarding the fiscal year 2007 has been amended and is shown for comparative purposes.

These consolidated financial statements for 2008, which were prepared by the Board of Directors of Repsol YPF, S.A. at its meeting, held on 25 February 2009, and the financial statements of the investees will be submitted for approval by the shareholders at the respective Annual General Meeting, and it is considered that they will be approved without any changes.

The preparation of the consolidated financial statements in accordance with IFRS, which is the responsibility of the Group's directors, makes it necessary to make certain accounting estimates and for the directors to use their judgment when applying the Standards. The most complex areas, the areas in which the directors' judgment is most required and the areas in which significant assumptions or estimates have to be made are detailed in Note 7 (Accounting Estimates and Judgments).

The consolidated financial statements for 2007 were approved by the shareholders at the Annual Meeting of Repsol YPF, S.A. held on 14 May 2008.

(2) **REGULATORY FRAMEWORK**

Spain

General

Spain currently has legislation to liberalize the oil industry, the most recent manifestation of which is Hydrocarbons Sector Law 34/1998, of October 7, 1998, which has been amended by several provisions, among them the Law 12/2007, of July 7, and implemented through numerous royal decrees and ministerial orders. The said Law establishes the criteria for allocating powers among the Spanish government and the central and regional administrations.

The Spanish National Energy Commission (“Comisión Nacional de Energía”) is the public agency attached to the Ministry of Industry, Tourism and Commerce, with power as regulatory authority, that is in charge of ensuring effective competition, objectivity and transparency in the electricity and liquid and gaseous hydrocarbons markets and to the benefit of all market participants, including consumers.

Royal Decree-Law 4/2006 expanded the functions of the Spanish National Energy Commission. Prior administrative authorization must be obtained for certain acquisitions or investments in companies that engage in regulated activities or activities that, although not regulated in the strict sense, are subject to significant oversight by administrative bodies in Spain. Notwithstanding this, on 28 July 2008, the European Court of Justice declared that the achievement of the aforementioned administrative authorization (regarding acquisitions carried out by Community Companies) is contrary to sections 43 and 56 of the EC.

Royal Decree-Law 5/2005, of March 11, 2005, contains provisions relating to the energy markets. Among these provisions, the definitions of “main operator” (a company that is among the five companies with greater market share in any of the different sectors at issue) and “dominant operator” (a company that has, as a group, a market share equal or superior to 10 percent of the market in which it is operating, that is, generation and supply electric energy sectors, production and supply of fuels; production and supply of LPG, production and supply of natural gas) are significant.

The definition of “main operator” is important because it affects the limitations on the exercise of voting rights and the appointment of members of the administrative body to the physical or legal persons which directly or indirectly have participations in the Capital or in the voting rights of two or more companies acting as main operators in aforementioned sectors.

Regarding the “dominant operator”, the Law, to date, has not established limitations in connection with the petroleum industry. To be defined as a “dominant operator” only implies certain limitation or additional liabilities in the electricity sector.

Pursuant to Law 55/1999 (amended by Law 62/2003), the acquisition by public entities, or by entities of any kind controlled by public entities or in which public entities hold a majority stake, of ownership stakes in energy companies of at least 3% of the capital stock, must be notified to the Government, to the effect that the Council of Ministers may, within two months, authorize, deny or set conditions on the exercise of political rights (the so-called energy “golden share”). The Decision of the Court of Justice of the European Communities of February 14, 2008 determined that Spain had not fulfilled the obligations incumbent upon it pursuant to article 56 CE, because it has retained measures such as the “golden energy share,” which limit the voting rights of shares held by public entities in Spanish companies operating in the energy industry.

Liquid Hydrocarbons, Oil and Petroleum Derivatives

In Spain, hydrocarbon deposits and underground storages existing on Spanish territory and in the territorial marine subsoil and ocean bottoms which are under Spanish sovereignty are considered public properties. Also some of the activities falling within the scope of Law 34/1998 may be subject to the required authorizations, permits and/or concessions. Other activities are liberalized.

Construction and operation of refining, transportation and fixed storage facilities are subject to prior authorization the granting of which is required to meet the relevant technical, safety, financial, environmental requirements.

Third parties may freely access transportation and fixed storage facilities of oil products, such as the facilities of Compañía Logística de Hidrocarburos S.A. (“CLH”), on conditions agreed on an objective, transparent and non-discriminatory

basis. Notwithstanding, the Spanish government has the discretion to establish access tolls for mainland territories and for those areas of the Spanish territory where alternative transport or storage facilities do not exist or are insufficient. As of the date of this annual report, the Spanish government has not exercised this discretion.

Pursuant to Royal Decree Law 6/2000, no physical or legal person may hold, directly or indirectly, ownership of more than 25% of the capital stock of CLH. This same Royal Decree further provides that the aggregate direct or indirect ownership interest in CLH of entities with refining capacity in Spain may not exceed 45% of CLH's capital.

Petroleum derivative prices have been liberalized, with the exception of LPG, which is subject, in some cases, to maximum retail prices. Prices of bulk LPG and LPG sold in bottles that are less than eight kilograms or more than 20 kilograms have been liberalized.

The quarterly maximum sale pricing, before taxes, of bottled liquefied gas petrol, and affecting the cans with the same or higher weight than 8 kg and lower than 20 kg, with the exception of the mixture cans for the use of the liquefied gas petrol as fuel, is updated by the Ministerial Order ITC/1858/2008 on 26 June. The Spanish Government, by the Ministerial Order ITC/2707/2008, on 26 September, temporarily adjourned the implementation of the maximum pricing formula for the fourth quarter of 2008, keeping for fourth quarter the maximum pricing fixed from the previous quarter.

The retail marketing of bottled liquefied gas petrol may be carried out freely by any physical or legal person.

Natural Gas System

Law 12/2007 of July 2, 2007 amended Law 34/1998 on the hydrocarbon sector, incorporating into Spanish Law European Parliament Directive 2003/55, and incorporates measures for achieving a completely liberalized market which will be the basis for greater competition, price reduction and improvement in the quality of service to the end-user.

This regulation establishes the extinction of the tariff system. The same Directive

includes the role of the supplier of last resort, who shall be liable to supply the consumers with deficient power of negotiation. Moreover, it shall be for a maximum price (“last resort tariff”) which shall be established by the Ministry of Industry, Tourism and Trade. The Ministerial Order ITC/2857/2008, on 10 October, regulates the supply tariff of last resort for the natural gas and sets its calculation.

The activities of different individuals involved in the gas system are redefined, establishing a legal and operational separation between the so-called “network activities” (transportation, distribution, regasification or storage), on the one hand, and production and supply activities, on the other. In addition, the Law eliminates possible competition between distributors and marketers in the supply sector by eliminating the tariff system and creating a last-resort tariff.

Regasification, basic storage, transportation and distribution activities are regulated activities. Companies that perform these activities may not perform commercialization activities. Royal Decree 949/2001 implemented criteria and principles related to compensation for regulated activities.

Commercialization activities are liberalized. Companies dedicated to natural gas commercialization may not have additional corporate objectives in the gas sector and may not perform regasification, basic storage, transport or distribution activities.

Since January 1, 2003, all consumers, regardless of their level of consumption, are qualified consumers and may choose between buying natural gas from distributors in the regulated market or from commercializers in the liberalized market.

The construction, operation, modification and closing of basic network and carrier network facilities require prior government authorizations.

The system’s technical manager is responsible for the technical management of the basic network and the secondary carrier network and guarantees the continuity and safety of the supply and appropriate coordination among access points, storage facilities, transportation and distribution. Enagas, S.A. is the system’s technical manager. Pursuant to Law 62/2003, no entity may own, directly or indirectly, more than 5% of the capital stock of Enagas, S.A.

As of January 1, 2003, no company or group of companies acting in the natural gas sector can collectively provide natural gas for consumption in Spain in an amount in excess of 70% of domestic consumption. The Spanish government is authorized to modify that percentage based on changes in the sector and the sector's business structure.

Minimum safety stock

Royal Decree 1766/2007, whereby the Royal Decree 1716/2004 is amended, regulates the minimum stock maintenance in the oil and natural gas sectors, the liability of diversification in the natural gas supply and the set up the Corporation of Strategic Reserves of Petroleum Products (CORES). The mentioned Royal Decree increases the number of minimum safety stock days from 90 to 92 compulsory days as of 1 January 2010.

The Competent Administrative Authority appointed for the inspection and control of the minimum safety stock and the diversification is the Corporation of Strategic Reserves of Petroleum Products (CORES).

Argentina

Exploration and Production

The Argentine oil and gas industry is regulated by Law No. 17,319 (the "Hydrocarbons Law,"). The Argentine government, through the Secretariat of Energy, issues regulations to complement the Law. The regulatory framework of this Law was established on the assumption that the reservoirs of hydrocarbons would be national properties and Yacimientos Petrolíferos Fiscales Sociedad del Estado, YPF's predecessor, was responsible for their operation under a different framework than private companies.

In 1992, Law No. 24,145, (referred to as the "YPF Privatization Law,") regulated the privatization of YPF and initiated a process for the transfer of hydrocarbon reservoirs from the Argentine government to Provinces, in whose territories they were located. The YPF Privatization Law established that the exploration licenses and exploration concessions in force at the time this Law was passed would be transferred on expiration of the corresponding legal and/or contractual terms.

The YPF Privatisation Law awarded YPF 24 exploration licenses and 50 exploration concessions. The Hydrocarbons Law limits the number and total surface area of the exploration licenses or exploration concessions which an entity may hold.

In October 2004, the Argentine Congress enacted Law No. 25,943 creating a new state-owned energy company, Energía Argentina S.A., (“ENARSA.”). The corporate purpose of ENARSA is the study, exploration and exploitation of hydrocarbons fields, the transport, storage, distribution and commercialization of these products and their derivatives products, as well as the transportation and distribution of natural gas, and the generation, transportation, distribution and sale of electricity. This Law granted to ENARSA all exploration concessions in respect of offshore areas that had not been awarded to other companies before the Law came into force.

In accordance with the current legal system (new Article 124 of the Argentine Constitution, Decree 546/2003, Law 26.197) oil and gas regulation (both legislative and regulatory) falls under the jurisdiction of the National Government, whereas the application of the Oil and Gas Law and its supplementary regulations will correspond to the provinces or to the State, depending on where the fields are located.

In October 2006, Law 26.154 created a special regime for oil and gas exploration and operation applicable to all the participating provinces in the Republic of Argentina and on the Argentine Continental Shelf. Interested parties must go into partnership with ENARSA in order to avail themselves of the numerous benefits of this regime.

In November 2008, by virtue of the Decree of the National Executive Power N° 2014/2008, the program “Petróleo Plus” was set up and aimed to increase the production and stocks through new prospecting and exploitation investments. To this goal, it establishes a system of tax incentives for those exploitation companies to increase their production and stocks within the provisions of the program.

Natural Gas

In June 1992, Law 24.076 was enacted, establishing the regulatory framework for

the transport and distribution of natural gas. It also stipulated that natural gas transport and distribution activities constituted a national public service.

The regulatory framework applicable to the transport and distribution of natural gas establishes an open access system under which producers such as YPF have open access to the transport capacity available in the transport and distribution systems on non-discriminatory bases.

Natural gas exports require the prior approval of the Ministry of Energy.

Refining

Crude oil refining activities are subject to authorisation by the Argentine government, and to compliance of national, provincial and municipal safety and environmental regulations. Oil companies must be registered in the registry of oil companies held by the Ministry of Energy

Market Regulation

The Hydrocarbons Law authorizes the executive branch of the Argentine government to regulate the Argentine oil and gas markets and prohibits the export of crude oil during any period in which the executive branch finds domestic production to be insufficient to satisfy domestic demand.

Through the Resolution N° 265/2004 of the Secretariat of Energy, the Argentinean Government set up a program of useful cut downs on natural gas exports and related transportation. Said program was replaced by the Program of Rationalisation of Gas Exports and the Use of Transportation Capacity (the “Program”) passed through Resolution N° 659/2004 of the Secretariat of Energy. Additionally, the Resolution SE N° 752/2005 made an arrangement for industrial users and thermal generators (who from that Resolution shall purchase directly the natural gas from the producer) who might also be supplied with natural gas from export cut downs, through the Constant Additional Injection set up by that Resolution. By means of the Program and/or the Constant Additional Injection, the Argentinean Government requires the natural gas export producers the delivery of additional amounts of the said product to the domestic market to meet the demand of some users in the Argentinean market (“Additional Injection Requirements”). Such additional volumes are not contracted by YPF and it is compelled to charge

the natural gas exports, whose execution has been conditioned. Additionally, the Argentinean Government by the mediation of instructions taught by different paths has regulated some restrictions to the natural gas exports (together with the Program and the “Constant Additional Injection”, called the “Restrictions”).

By the enactment of several rules, the Fuels Undersecretariat restored a record system for the hydrocarbons and derivatives exports and some obligations for supply to the local market were enforced, including the obligation to import some products as allowances for export, whether necessary to meet internal demand. On 11 October 2006, the Secretariat of Internal Commerce demanded to the refining companies and/or the wholesalers and/or the retailers to cover the fuel-oil demand in the whole territory of Argentina meeting the market growth.

The Resolution N. 394/07 of 16 November has increased the taxes to the crude and derivative exports in Argentina. The new scheme sets up that in the cases in which the export price is fixed over the reference price (60.9 dollars/barrel), the producer shall have the right to charge 42 dollars per barrel and the rest up to the benchmark price shall be withheld by the Government of Argentina as taxes to import. In the event that the export price is under the international benchmark price fixed, but over 45 dollars per barrel, 45% retention shall apply. In the event that the export price was under 45 dollars per barrel, the withholding percentage shall be fixed within 90 days' term. This same method shall apply to the exports of other oil products and lubricants using different benchmark prices, withholding prices and prices allowed for producers wherever the cases.

On 14 June 2007 the Decision N° 599/07 of the Secretariat of Energy passed a proposal in agreement with the natural gas producers concerning the supply of natural gas to the domestic market for the period 2007 to 2011 (“Agreement 2007-2011”). YPF signed the agreement.

In October 2008 the Resolution 1070/08 of the Secretariat of Energy ratified the “Supplementary Agreement with Natural Gas Producers” whose effective term is extended to 31 December 2009. YPF signed the Agreement whose goal is: (i) the restructuring of natural gas prices at wellhead; (ii) the segmentation of the residential demand and (iii) the setting up of the contribution of the natural gas producers sector to the Trust Fund created by Act 26,020 for the promotion of a lower differential price offer for the LPG bottles of ten, twelve and fifteen kilograms for those residential LPG low-income consumers.

By virtue of the Resolution SE 24/2008, amended by the Decision SE 1031/2008, the incentives program for the production of natural gas called "Gas Plus" is set up. The natural gas produced under this Gas Plus program shall not be included as part of the Agreement Volume with the Natural Gas Producers 2007-2011 and whose marketing value shall not be subject to the price conditions provided in the Agreement with the Natural Gas Producers 2007-2011.

Law N° 26,020 establishes the basic regulatory framework for the industry and marketing of the LPG (Liquefied Petroleum Gas). The authority established the volumes and sales prices of LPG through various resolutions.

Venezuela

The Basic Hydrocarbons Law (Ley Orgánica de Hidrocarburos, LOH) regulates migration from the former operating agreements to mixed-ownership enterprises. On 20 June 2006 the Energy and Petroleum Ministry approved the incorporation of the mixed oil company Petroquiriquire, S.A., in which Repsol YPF has a 40% interest and PDVSA a 60% stake. On the same date, the incorporation of the mixed company Quiriquire Gas, S.A. was also approved, in which Repsol YPF and PDVSA have an interest of 60% and 40%, respectively. The license was granted in March 2007.

Bolivia

On 1 May 2006 Supreme Decree 28,701 (the "Nationalization Decree") was published, which nationalised the country's oil and gas and transferred the ownership and control thereof to the Bolivian company Yacimientos Petrolíferos Fiscales Bolivianos (YPFB). Furthermore, the shares required to enable YPFB to control at least 50% plus one vote in different companies, among them Empresa Petrolera Andina, S.A.

As a result of the aforementioned, Empresa Petrolera Andina, S.A. entered with YPFB into a Purchase and Sales Agreement, and the corresponding Stockholders Agreement, by virtue thereof it was transferred to YPFB the 1.08% of the Share Capital of Empresa Petrolera Andina, S.A., a company which has changed its

corporate name to YPFB Andina, S.A.

Operating Contracts

According to the Hydrocarbons Act 3,058 dated 19 May 2005 and the Nationalisation Decree, on 28 October 2006, Repsol YPF E&P Bolivia S.A. and its affiliate Empresa Petrolera Andina, S.A., now YPFB Andina S.A., signed with YPFB the Exploitation Contracts establishing the conditions for the prospecting and production of hydrocarbons in Bolivia, effective as of 2 May 2007.

Regarding these contracts, on 9 April 2008, by means of Supreme Decree 29,504, the conditions and parameters were set up for the recognition, approval and publication by YPFB of the Recoverable Costs within the framework of the Exploitation Contracts entered into between the oil companies and YPFB. This Decree was carried out in accordance with Act 3,740 of Sustainable Development in the Hydrocarbons Sector.

Furthermore, by the Supreme Decree 29,528 of April 23rd 2008, that amends the Supreme Decree 28,222 of 27 June 2005, that rules the Regulation for the Settlement of Royalties and the Participation to the National Treasury for the production of hydrocarbons, and the Supreme Decree 28,223 of June 27th 2005, that rules the Regulation for the Settlement of Direct Taxes to Hydrocarbons. Both regulations were amended for the purpose of being in line with the Exploitation Contracts executed between the oil companies and YPFB.

As of the date of these consolidated financial statements there are some pending issues concerning the Exploitation Contracts and the compliance of previous liabilities, still not regulated. Among these pending aspects there is to be highlighted the process of settlement and reconciliation of accounts with YPFB and the placement of the method of payment of the VAT regarding the Holders Compensation which, on December 2008, was acknowledged and paid by YPFB with Tax Credit Notes (negotiable securities). Currently Repsol YPF, as other Holders, is in negotiations with YPFB with respect to the Delivery Agreements, and Methods of Payment, included in the final draft and, which, shall complement the contractual framework of the Exploitation Contract regarding the payment of the Holders Compensation and the delivery of hydrocarbons to YPFB.

Transition Period

The transition period, until the execution by YPFB of new transport and marketing agreements, that started on 13 May 2007 and was extended for several opportunities until finally the Supreme Decree 29,709 extended the transitional period until 30 November 2008. The Supreme Decree established that in the event that prior to the mentioned date the transport and marketing agreements of natural gas and liquid hydrocarbons had not been signed with YPFB, from 1 December 2008 onwards, YPFB shall apply the conditions agreed on contracts already executed with similar companies. It is worth to mention that YPFB has executed the natural gas and liquid hydrocarbons transport agreements with the carrier company Transredes S.A., and that Repsol YPF E&P Bolivia S.A. signed an agreement with Transredes S.A., now called YPFB Transporte S.A., the Termination Agreement of the corresponding natural gas transport agreement. To date the Termination Agreement of the Liquid Hydrocarbons transport agreement is still being negotiated.

Ecuador

On 29 March 2006, by the Law 2006-42, Ecuador demanded from the contractors of all the prospecting and exploitation joint contracts of hydrocarbons the payment of at least 50% of the so-called “surpluses of crude oil”, that is, of the difference between the participation value of each contractor, according to the oil price at the date of the execution of the contract (calculated on the basis of the monthly average of the sale price expressed in fixed values) and its value in accordance to the oil price at the date of sale by the contractors. Later on, the Executive Decree N° 662, on 4 October 2007, which amends the Executive Decree 1,672, increases the mentioned stake of the State over the oil surpluses up to 99%.

On 9 June 2008, the companies constituting the consortium of contractors of the Block 16 (Repsol YPF Ecuador S.A., Murphy Ecuador Oil Co., CRS Resources (Ecuador) LDC, and Overseas Petroleum and Investment Corporation), in disagreement with the application of this new encumbrance, filed to the CIADI an application for international arbitration pursuant to the Equity Contract. The total amount paid by the consortium of contractors under protest, until March 2008, regarding the application of the Act 2006-42, was 591.5 million dollars (EUR 425 million), amount whereby Repsol and the other members of the consortium of contractors claim compensation to Petroecuador and the Government of Ecuador

before the CIADI. Repsol YPF share in the consortium of the Block 16 is 35%.

The Decrees 1,402 and 1,448 of 5 November 2008 and 3 December 2008, respectively, and the Act 42 of 29 March 2006, published in the Official Registry on 25 April 2006, decrease the mentioned State equity claim on the referred “surpluses of crude oil price” down to 70 %, but only applied to these Equity Contracts with the Government for the prospecting and exploitation of Hydrocarbons –or its amendments- executed as of 1 August 2008. As of 31 December 2008 Repsol YPF Ecuador S.A. (Ecuador branch), as operator of the Block 16, has not executed or amended any Equity Contract after 1 August 2008. However, on 6 November 2008 Repsol and the majority of the partners in the Block 16 have signed a deed for the amendment of said Equity Contract with the Ecuadorian Government and Petroecuador. Petroecuador has claimed from the consortium of contractor the extraordinary earning not paid yet. Repsol has requested to the CIADI, as precautionary measure in the arbitration, to stop the above claim.

Other countries

Repsol YPF’s operations are also subject to an extensive variety of legislation and regulatory frameworks in the other countries in which it operates. All the aspects of the activities performed, including, inter alias, issues such as land occupancy, production rates, royalties, price-setting, environmental protection, export rates, exchange rates, etc., are covered by such legislation and regulatory frameworks. The terms of the concessions, licenses, permits and agreements governing the Group’s interests vary from one country to the next. These concessions, licenses, permits and agreements are generally awarded or jointly carried out with government bodies or state companies and occasionally with private sector organisations.

The directors consider that the accompanying consolidated financial statements reflect, at the date of their preparation, all the significant events and effects of the economic and regulatory situation prevailing in the countries in which the Group operates. Also, based on the progress that can reasonably be expected to be made in relation to the foregoing, the directors consider that the adoption of measures or the occurrence of events which might have a significant adverse impact on the Group's operations is unlikely.

(3) BASIS OF CONSOLIDATION

- 3.1) Repsol YPF's consolidated financial statements include the investments in all their subsidiaries, associates and joint ventures.

All the subsidiaries over which Repsol YPF exercises direct or indirect control were fully consolidated. Control is the power to govern the financial and operating policies of a company so as to obtain benefits from its activities. Control is, in general but not exclusively, presumed to exist when the Parent owns directly or indirectly more than half of the voting power of the investee.

The share of the minority interests in the equity and profit of the Repsol YPF Group's consolidated subsidiaries is detailed under the headings "Minority interests", in the consolidated balance sheet and "Net income Attributable to Minority Interests" in the consolidated income statements, respectively.

Joint ventures are proportionately consolidated and, accordingly, the consolidated financial statements include the assets, liabilities, expenses and income of these companies only in proportion to the Repsol YPF Group's ownership interest in their capital. Joint ventures are those over which there is shared control and exists only when the strategic financial and operating decisions relating to the activity require the unanimous consent of the parties sharing control.

The assets, liabilities, income and expenses corresponding to the joint ventures are presented in the consolidated balance sheet and consolidated income statement in accordance with their specific nature.

Associates are accounted for using the equity method. These are companies over which the investor has significant influence but does not exercise effective or joint control. Significant influence is the power to affect financial and operating decisions of a company and is presumed to exist when the investor holds an interest of 20% or more. The equity method involves consolidation based on the underlying carrying amount of the interest held in the company, as reflected in "Investments accounted for using the equity method". The net profit or loss obtained each year through these companies is reflected in the consolidated income statements as "Share of results of companies accounted for using the equity method".

Losses incurred by an associate attributable to the investor that exceed the latter's interest in the associate are not recognised, unless the Group is obliged to cover them.

Appendix I contains a list of the consolidated subsidiaries, associates and joint ventures in which Repsol YPF, S.A. has direct and indirect ownership interests, which were included in the scope of consolidation.

The balances, transactions and profits between the fully consolidated companies were eliminated on consolidation. All balances, transactions and profits derived from transactions between the proportionately consolidated companies and other Group companies were eliminated in proportion to Repsol YPF's ownership interest in the capital of these companies. The profit or loss on transactions between Group companies and associates was eliminated in proportion to the Group's percentage of ownership of these companies.

The accounting policies and procedures used by the Group companies were standardised with those of the Parent for the purpose of presenting the consolidated financial statements using uniform measurement bases.

The financial statements of the investees whose functional currency differs from the presentation currency (see note 4.3), are translated as follows:

- The assets and liabilities in each of the balance sheet presented are translated at the exchange rates prevailing on the balance sheet date.
- Income and expense items in each of the income statements are translated at the average exchange rates of the period.
- Any exchange differences arising as a result of the foregoing are recognised as a separate component of "Adjustments for changes in value" of equity called "Translation Differences".

On disposal of a company whose functional currency is not the euro, the exchange differences deferred as a component of equity relating to that company are recognised in the income statement on the same date as that on which the gain or loss on disposal is recognised.

The exchange rates against the euro of the main currencies used by the Group companies at 31 December 2008 and 2007 were as follows:

	<u>31 December 2008</u>		<u>31 December 2007</u>	
	<u>Year-End Rate</u>	<u>Cumulative Average Rate</u>	<u>Year-End Rate</u>	<u>Cumulative Average Rate</u>
Dollar	1.392	1.471	1.472	1.370
Argentinian Peso.....	4.778	4.615	4.606	4.244
Brazilian Real.....	3.252	2.675	2.608	2.664

3.2) Changes in the scope of consolidation

Appendix I includes the main changes in 2008 and 2007.

(4) ACCOUNTING POLICIES

The principal accounting policies used by Repsol YPF in preparing the consolidated financial statements, are as follows:

4.1) Current/Non-current classification

In the accompanying consolidated balance sheet, assets and liabilities maturing within 12 months are classified as current items and those maturing within more than 12 months as non-current items.

4.2) Offsetting

As a general rule, in the consolidated financial statements neither assets and liabilities nor income and expenses are offset, except when offsetting is required or permitted by a given Standard and this presentation reflects the substance of the transaction.

Income and expenses arising from transactions in which, contractually or by law, offsetting is permitted and the Group intends to settle them on a net basis, or to realise the asset and settle the liability simultaneously are presented at their net amount in the consolidated income statements.

4.3) Functional currency and foreign currency transactions

Functional currency

The items included in these consolidated financial statements relating to the Group companies are measured using their functional currency, which is the currency in the main economic environment in which they operate. The consolidated financial statements are presented in euros, which is the Repsol YPF Group's functional and presentation currency.

Foreign currency

Transactions in currencies other than the functional currency of an entity are deemed to be “foreign currency transactions” and are translated to the functional currency by applying the exchange rates prevailing at the date of the transaction. At each year end, the foreign currency monetary items on the balance sheet are measured at the exchange rate prevailing at that date and the exchange rate differences arising from such measurement, except for what is mentioned in the preceding paragraph, are recognised under financial result in the income statement during the period in which they occur.

4.4) Goodwill

Goodwill relates to the excess of the cost of acquisition of investees over the fair value of their identifiable assets, liabilities and contingent liabilities at the date of acquisition (see Note 8).

In the event of a deficiency, the value of the assets, liabilities and contingent liabilities acquired must be re-assessed. If after this re-assessment the deficiency continues to exist, it is recognised as income under “Other Operating Income” in the consolidated income statement.

Goodwill is not amortised and, in accordance with IFRS 3, is subsequently measured at cost less any accumulated impairment losses (see Note 4.9).

4.5) Other intangible assets

The Repsol YPF Group initially recognises intangible assets at acquisition or production cost, except in the case of the emission allowances described in section f). This cost is amortised on a straight-line basis over their useful lives. At each balance sheet date, these assets are measured at cost less any accumulated amortisation and any accumulated impairment losses.

The main intangible assets of the Repsol YPF Group are as follows:

a) Trademarks and similar intangible assets

Trademarks and similar intangible assets generated internally by the Group are not recognised as assets and the expenses incurred are allocated to income as incurred.

b) Research and development expenditure

The Group records incurred research expenses as expenses in the current period. Development expenses are capitalised if all the conditions required by the applicable accounting standard are fulfilled.

c) Leasehold assignment, surface and usufruct rights

This account includes the following:

- i. Costs relating to contracts for the purchase of service station management rights and of the usufruct and surface rights related to these assets. These costs are amortised over the related contract terms, which range from 9 to 50 years.
- ii. Exclusive rights to use gas transmission pipelines. These rights are amortised over the term of the related right (currently 25 years).

d) Reflagging rights and rights of publicity

This account relates to the cost of reflagging contracts for service stations owned by third parties, and the account balance is amortised on a straight-line basis over the related contract term.

e) Exclusive supply contracts

This account relates to the costs arising from exclusive supply contracts entered into with service station owners, distributors and direct consumers, which are amortised on a straight-line basis over the term of the contract (the average term is currently five years).

f) Emission allowances

Emission allowances are recognised as an intangible asset and are measured at acquisition cost.

Allowances received for no consideration under the National Emission Allowance Assignment Plan, are initially recognised at the market price prevailing at the beginning of the year in which they are issued, and a balancing item is recognised as a grant for the same amount under deferred income, which is charged against income as the corresponding tons of CO₂ are consumed.

These allowances are not depreciated as its book value equals the residual value and, therefore, its depreciable basis is zero, as these keep its value until delivery, meanwhile these may be sold anytime. The rights of emissions are subject to an annual analysis on impairment (see Note 4.9). The market value of the emissions allowances is measured according to the average price of the stock market of the European Union (European Union Allowances) provided by the ECX-European Climate Exchange.

As the emissions are released into the atmosphere, the Group records an expense on the heading “Other operating Expenses” in the consolidated income statement acknowledging a provision whose amount is based on the CO₂ tones emitted, measured, (i) at its book value, (ii) or by the quotation price at the closing in the case Repsol YPF does not have enough emission allowances available for the period.

In 2008 the net effect in the income statement of the Group due to the transactions related with the emissions allowances amounted to EUR 16 million, 2007 amounted to less than EUR 1 million.

When the emissions allowances for the CO₂ tons emitted are delivered to the authorities, the intangible assets as well as their corresponding provision are derecognised from the balance sheet without any effect on the income statement.

g) Other intangible assets

This account includes administrative concessions and other costs, such as those relating to computer software and intellectual property. These items are amortised on a straight-line basis over the useful lives of the assets; in the case of the administrative concessions, over the term of the related concession, and in the case of other assets over a period ranging between 3 and 20 years.

4.6) Tangible assets

The Repsol YPF Group uses the cost model by which items of tangible assets are measured initially at their acquisition cost.

a) Cost

The cost of tangible assets items includes their acquisition cost, all the costs directly related to the location of assets, making them operational and the present value of the expected disbursements necessary for any costs of dismantling and removing the item or restoring the site on which it is located, when such obligations are incurred under certain conditions. Subsequent changes to the estimates of the liabilities due to dismantling costs and related liabilities arising out of changes in the estimated cash flows or in the discount rate are added or deducted from the cost of the corresponding asset during the period in which they occur.

Borrowing costs that are directly attributable to the acquisition or construction of assets that require more than one year to become available for use are capitalised as part of the cost of these assets.

Personnel expenses and other operating expenses incurred in the construction of the asset are also capitalised.

The costs of expansion, modernisation or improvements leading to increased

productivity, capacity or efficiency or to a lengthening of the useful lives of the assets are capitalised.

Repair, upkeep and maintenance expenses are recognised in the income statement as incurred. Furthermore, certain of the Repsol YPF Group's facilities require periodic reviews. In this respect, a portion of the items requiring replacement are recognised specifically and are depreciated over the period until the next repairs are carried out.

This heading also includes investments relating to oil and gas exploration and production activities (see Note 4.6.c), and the cost of assets held under finance leases (see Note 4.19.a).

b) Depreciation

Tangible assets, other than those relating to oil and gas exploration and production activities (see Note 4.6.c), are depreciated, using the straight-line method, on the basis of the acquisition cost of the assets less their estimated residual value, over the years of estimated useful life of the assets, the detail being as follows:

	Years of Estimated Useful Life
Buildings and other structures	30-50
Machinery and fixtures:	
Machinery, fixtures and tools	8-15
Furniture	9-15
Refineries in service:	
Units	8-15
Storage tanks	20-30
Pipelines and networks.....	12-18
Gas infrastructure and distribution facilities	20-40
Transport equipment	5-25

The depreciation of these assets starts when the assets become available for use.

Land is classified separately from the buildings or facilities that might be located on it and is deemed to have an indefinite useful life. Therefore, it is not depreciated.

c) Recognition of oil and gas exploration and production transactions

Repsol YPF recognises oil and gas exploration and production transactions using the “successful-efforts” method, whereby the accounting treatment of the various costs incurred is as follows:

- i. The costs incurred in the acquisition of new interests in areas with proven and non-proven reserves (including bonds, legal costs, etc.) are capitalised as incurred to the account “Investments in Areas with Oil Reserves” associated with proven reserves or non-proven reserves, as appropriate.
- ii. The costs of acquiring interests on exploration permits for a given period of time are capitalised at their purchase price and registered in the caption “Other Exploration Costs”. If reserves are not found, the amounts previously capitalised are recognised as an expense in the consolidated income statement. If the exploration work yields positive results, giving rise to commercially exploitable wells, the costs are reclassified to “Investments in areas with reserves” at their carrying amount when the wells are determined to be commercially exploitable. Wells are classified as “commercially exploitable” only if they are expected to generate a volume of reserves that justifies their commercial development on the basis of the conditions prevailing when the costs are recognised (e.g. prices, costs, production techniques, regulatory framework, etc.).
- iii. Exploration costs (geological and geophysical expenditures, expenditures associated with the maintenance of non-proven reserves and other expenditures relating to the exploration activity), excluding exploratory drilling expenditures, are charged to income as incurred.
- iv. *Exploratory drilling costs*, including those relating to stratigraphic exploration wells, are recognised as assets under the heading “Other Exploration Costs” until it is determined whether proven reserves

justifying their commercial development have been found. If no proven reserves are found, the capitalised drilling costs are charged to income. However, if as a result of exploratory drilling, including stratigraphic exploratory wells, reserves are found that cannot be classified as proven, their recognition depends on the following:

- If the area requires additional investments before production can commence, the drilling costs remain capitalised only during the period in which the following conditions are met: (i) the amount of proven reserves found justifies the completion of a productive well if the required investment is made; and (ii) the drilling of additional exploratory or stratigraphic wells is underway or planned for the near future. If either of the aforementioned conditions is not met, the drilling costs or the cost of the stratigraphic wells are charged to income.
- In all other circumstances, the existence of reserves that can be classified as proven has to be determined within one year from the completion of the prospection work. Otherwise, the related drilling costs are charged to income.

Drilling costs that have given rise to a positive discovery of commercially exploitable reserves are reclassified to “Investments in Areas with Reserves”.

- v. Development expenditure incurred in lifting proven reserves and in processing and storing oil and gas (including costs incurred in drilling relating to productive wells and dry wells under development, oil rigs, recovery improvement systems, etc.) are recognised as assets under “Investments in Areas with Reserves”.
- vi. Future field abandonment and dismantling costs (environmental, safety, etc.) are estimated, on a field-by-field basis, and are capitalised at their present value when they are initially recognised under “Investments in Areas with Reserves” in the consolidated balance sheet, within “Non-Current Provisions”.

The investments capitalised as described above are depreciated as follows:

- i. Investments in the acquisition of proven reserves are depreciated over the estimated commercial life of the field on the basis of the production for the year as a proportion of the proven reserves of the field at the beginning of the depreciation period.
- ii. Investments relating to non-proven reserves or fields under evaluation are not depreciated. These investments reserves are assessed at least once a year or more frequently if there is any indication that they might have become impaired and, in the event of an impairment, the related loss is recognised with a charge to the net income for the year.
- iii. Cost incurred in drilling work and subsequent investments to develop and lift oil and gas reserves are depreciated over the estimated commercial life of the field on the basis of the production for the year as a proportion of the proven reserves of the field at the beginning of the depreciation period.

The changes in estimated reserves are considered on a prospective basis in calculating depreciation.

At each balance sheet date or whenever there are indications that the assets might have become impaired, their recoverable amount (see Note 4.9) is compared to their carrying amount. Any impairment loss or reversal arising as a result of this comparison is recognised under “Costs from impairment losses and losses on disposal of non-current assets” or “Income from reversal of impairment losses and gains on disposal of non-current assets” on the consolidated income statement (see notes 4.9, 10, 12 and 27).

d) Environmental tangible assets

Tangible assets of an environmental nature, the purpose of which is to minimise environmental impact and to protect and improve the environment, are identified on the basis of the nature of the business activities carried on by the Group, based on technical criteria in the guidelines relating to these matters

issued by the American Petroleum Institute (API).

Environmental tangible assets and the related accumulated depreciation are recognised in the consolidated balance sheet together with other tangible assets, classified by their nature.

Their cost, depreciation methods and the valuation adjustments to be performed are determined in accordance with the rules relating to these non-current asset items, as explained in Notes 4.6.a to 4.6.c

4.7) Investment property

Investment property relates to assets (buildings, land) held either to earn rentals from their leasing, or for capital appreciation. These assets are not used in the Group's business activities and are not for own use. Repsol YPF recognises investment property using the cost model, applying the same policies as those for items of tangible assets (see Note 4.6.a-b).

4.8) Non-current assets available for sale and linked liabilities

Non-current assets are classified as available for sale if their carrying amount will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset is available for immediate sale in its present condition. The sale should be expected to be completed within one year from the date of classification.

These assets are presented at the lower of carrying amount and fair value less costs to sell.

In the liabilities of the balance sheet, under the heading “Liabilities linked to non-current assets available for sale” include the liabilities related to assets which comply with the definition described in the previous paragraphs.

4.9) Impairment losses on tangible assets, intangible assets and goodwill

In order to ascertain whether its assets have become impaired, the Group compares their carrying amount with their recoverable amount at the balance sheet date, or

more frequently if there are indications that the assets might have become impaired. For that purpose, assets are grouped into cash-generating units as they generate cash flows which are independent from other units.

To perform this test, goodwill acquired on a business combination is allocated among the cash-generating units or groups of cash-generating units (CGUs) that benefit from the synergies of the business combination and the recoverable amount thereof is estimated by discounting the estimated future cash flows of each unit.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a rate that reflects the weighted average cost of capital employed, which is different for each country and business.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or the cash-generating unit) is reduced to its recoverable amount, and an impairment loss is recognised as an expense under “Costs from impairment losses and losses on disposal of non-current assets” in the consolidated income statement.

The basis for future depreciation or amortisation will take into account the reduction in the value of the asset as a result of any accumulated impairment losses.

On the occurrence of new events, or changes in existing circumstances, which prove that an impairment loss recognised on a prior date could have disappeared or decreased, a new estimate of the recoverable value of the corresponding asset is developed, to determine whether it is applicable to reverse the impairment losses recognised in previous periods. In the event of a reversal, the carrying amount of the asset (or the cash-generating unit) is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed the carrying amount that would have been determined in case no impairment loss had been recognised for the asset (or the cash-generating unit) in prior years. A reversal of an impairment loss is recognised under “Income from reversal of impairment losses and gains on disposal of non-current assets” in the consolidated income statement. An impairment loss recognised for goodwill can not be reversed in a subsequent period.

4.10) Current and non-current financial assets

The Group classifies its investments when they are initially recognised and reviews their classification at each balance sheet date. The assets are classified on the basis of the purpose for which they were acquired.

This category has, in turn, the following sub-categories:

a) Financial assets at fair value with changes in results

a.1) Financial assets held for trading: this category comprises derivatives not designated as hedging instruments.

a.2) Other financial assets at fair value with changes in profit and loss: this category comprises those financial assets acquired for trading or sale in the short-term which are not derivatives.

b) Financial assets available for sale

Financial assets available for sale are financial assets that have either been classified in this category or have not been classified in any other financial asset category.

c) Loans and receivables

Accounts receivable are financial assets with fixed or determinable payments that are not quoted on an active market. They arise when the Group provides money, goods or services directly to a debtor without any intention of negotiating the account receivable.

d) Held to maturity investments

Held to maturity investments are financial assets with fixed or determinable payments and fixed maturity that the Group has the positive intention and ability to hold from the date of purchase to the date of maturity.

A financial asset is initially recognised at fair value (see Note 4.22) plus, in the case of a financial asset which is not recognised at fair value through profit and loss, the transaction costs which are directly attributable to its acquisition or issue.

Subsequent to initial recognition, all financial assets, except for “Loans and receivables”, the “Held to maturity investments” and certain investments in company shares will be measured at fair value. “Loans and receivables” and “Held to maturity investments” are measured at amortised cost, and the accrued interest income is recognised in profit or loss on the basis of the effective interest rate. Investments in shares of companies that are not listed on an active market and whose fair value cannot be measured reliably will be measured at cost.

In the case of “Other financial assets at fair value with changes in profit and loss”, gains and losses from changes in fair value are recognised in the net profit or loss for the year. In the case of “Investments available for sale”, the gains and losses from changes in fair value are recognised directly in equity until the asset is disposed of or it is determined that it has become impaired, at which time the cumulative gains or losses previously recognised in equity are recognised in the net profit or loss for the year.

An impairment loss on financial assets at amortised cost is recognised when there is objective evidence that the Group will not be capable of collecting all the related amounts under the original terms of the accounts receivable.

The amount of the impairment loss is the difference between the carrying amount and the present value of the future cash flows discounted at the effective interest rate, and is recognised as expense in the consolidated income statement. The carrying amount of the asset is reduced through a correction account.

If, in later periods, a recovery in the value of the financial asset valued at depreciated cost occurs, the impairment loss recognised will be reversed once this does not give rise to a carrying amount for the financial asset that exceeds the carrying amount on the books that existed before the impairment loss was registered. The reversals of the amount will be recognised against the profits for the period.

Finally, a receivable account is considered as non-collectable when situations similar to the following occur: the company has been wound-up, there are no assets to be used in settling the debts or when a legal decision has been issued.

4.11) Inventories

Inventories acquired for our own use are stated at the lower of cost and net realisable value. Cost (basically the average cost) includes acquisition costs (less trade discounts, rebates and other similar items), transformation and other costs which have been incurred in bringing the inventories to their present location and condition.

In the case of refinery products, the costs are allocated to income in proportion to the selling price of the related products (isomargin method) due to the existing difficulty to recognize the conversion costs of every product.

The Group assesses the net realisable value of the inventories at the end of each period and recognises in income the appropriate valuation adjustment if the inventories are overstated. When the circumstances that previously caused inventories to be written down no longer exist or when there is clear evidence of an increase in net realisable value because of changed economic circumstances, the amount of the write-down is reversed.

Net realisable value is the estimated selling price at year-end less the estimated costs of completion and costs to be incurred in marketing, selling and distribution.

In the case of commodities and similar items, it shall not be necessary to decrease the book value under the cost provided the finished products to which these are hedged are expected to be sold above cost.

Commodities inventories acquired for trading are measured at fair value less costs to sell and changes in fair value are recognised in income. These inventories do not represent a significant volume of the Group's operations (see Note 16).

4.12) Cash and cash equivalents

Repsol YPF classifies under "Cash and cash equivalents" liquid financial assets, deposits or financial assets that can be converted into a known amount of cash within three months and that are subject to an insignificant risk of changes in value.

4.13) Net income per share

Basic net income per share is calculated by dividing the net income attributable to the Parent by the weighted average number of ordinary shares outstanding during the year taking into account, where appropriate, the treasury shares (see Notes 17.1 and 17.4).

4.14) Financial liabilities

Financial liabilities are initially recognised at fair value less the transaction costs incurred. Since the Group does not have any held-for-trading financial liabilities, except for derivative financial instruments, after initial recognition, financial liabilities are measured at amortised cost. Any difference between the financing received (net of transaction costs) and repayment value is recognised in the consolidated income statement over the life of the debt instrument in question, using the effective interest rate method.

Preference shares, the terms and conditions of which are detailed in Note 19 correspond to this liability category. They are initially recognised at fair value net of issue costs and are subsequently measured at amortised cost, unless they form part of a hedging transaction.

Trade debts and accounts payable are financial liabilities which do not explicitly bear interest and which are recognised at their face value.

The Group removes financial liabilities from the balance sheet when the obligations are cancelled or expire.

4.15) Provisions

In accordance with legislation, the Group makes a distinction between:

- a) Provisions: present obligations, either legal or assumed by the Group, arising from past events, the settlement of which is expected to give rise to an outflow of resources the amount and timing of which are uncertain; and
- b) Contingent liabilities: possible obligations that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more future events not wholly within the control of the Group, or present obligations arising from past events the amount of which cannot be estimated reliably or whose settlement is not likely to give rise to an outflow of resources.

These provisions are recognised when the liability or obligation giving rise to the indemnity or payment arises, to the extent that its amount can be reliably estimated and it is probable that the commitment will have to be settled.

When a contract qualifies as onerous, the related present liabilities are recognised in the consolidated financial statements as provisions.

Contingent liabilities are not recognised in the consolidated financial statements, but rather are disclosed, as required by IAS 37 (see Note 37).

4.16) Pensions and other similar obligations

a) Defined contribution plans

Repsol YPF has defined contribution plans for certain employees in Spain, which conform to current legislation. The main features of these plans are as follows:

- i. They are mixed plans to cover retirement, disability and death of the participants.
- ii. The sponsor (Repsol YPF) undertakes to make monthly contributions of certain percentages of serving employees' salaries to external pension funds.

YPF also has a defined contribution pension plan for the employees of its main companies, in which the company contributes basically the same amount as the participant up to a stipulated ceiling.

Also, the Gas Natural Group has defined contribution pension plans for certain employees.

The annual cost of these plans is recognised under “Personnel expenses” in the consolidated income statement.

- b) Executives’ welfare plan. Hybrid defined contribution plan with a specific guaranteed return.

As part of the strategy to transform the remuneration system of the executives of the Repsol YPF Group, with effect from 1 January 2006, a new social welfare system was implemented called the “Welfare Plan”, which, in the case of participating executives, extinguishes, replaces and absorbs the former “Long-Service Bonus”. This is a hybrid defined contribution retirement plan, supplementary to the occupational pension plan, which includes a specific guaranteed return equal to 125% of the general consumer price index of the previous year and is instrumented through group insurance of pension obligations.

The purpose of this system is to reward Repsol YPF’s executives’ loyalty, commitment and non-competition with Repsol’s activities in the two years following their retirement.

The directors (or their beneficiaries) will be entitled to receive the benefits of the plan in the following cases: (i) statutory retirement (65 years), (ii) early retirement (from 60 years), (iii) death, (iv) permanent total disability, absolute disability, or serious invalidity, or (v) serious illness or long-term unemployment on termination of the employment relationship while maintaining entitlement to the plan.

The participant will also be entitled to the balance of the plan at the date of termination of employment, if the employment relationship is terminated as a

result of any of the cases in which indemnities are applicable. In order to qualify for entitlement to the plan, the participant must comply with the non-competition agreement regarding activities in the two years following termination of the employment relationship.

The annual cost of these plans is recognised under the heading “Personnel expenses” in the consolidated income statement.

c) Defined benefit plans

The benefits to which the employees are entitled at the date of their retirement are recognised in the income statement as follows:

- i. The current service cost (the increase in the present value of the defined benefit obligation resulting from employee service in the current period), under “Personnel expenses”.
- ii. The interest cost (the increase during a period in the present value of a defined benefit obligation which arises because the benefits are one period closer to settlement), under “Financial expenses”.
- iii. The return on plan assets and changes in the value thereof, less any costs of administering the plan and less any tax payable by the plan itself, under “Financial expenses”.

4.17) Subsidies

a) Subsidies related to assets

Subsidies related to assets relate mainly to nonrefundable subsidies measured at the amount granted or nominal value or at the fair value of the assets received, if they have been transferred for no consideration, and are classified as deferred income when it is certain that they will be received.

These subsidies are allocated to income on a straight-line basis over the useful life of the assets whose costs they are financing. In the financial statements of Repsol YPF the amounts of the assets and of the subsidies received are presented separately on the asset and liability sides, respectively, of the

consolidated balance sheet.

b) Subsidies related to income

These are subsidies that become receivable by the Group as compensation for expenses or losses already incurred and are recognised as income for the period in which they become receivable.

4.18) Deferred income

Deferred income relates mainly to income from the assignment of gas transmission pipeline usage rights, the income relating to the natural gas distribution network relocation to be borne by third parties and the net amounts received each year for new connections and branch lines. This income is credited to income on a straight-line basis over the depreciation period of the related non-current assets, which ranges from 20 to 50 years.

In addition, in this heading there are also included as deferred income the CO₂ emission rights received for no consideration (see Note 4.5.f).

4.19) Leases

In this category, a distinction can be drawn between:

a) Finance leases

Leases are classified as finance leases whenever the lessor transfers substantially all the risks and rewards of ownership to the lessee. The ownership of the asset may or may not be transferred.

When the consolidated companies act as the lessee in finance leases, they present the cost of the leased assets in the consolidated balance sheet, based on the nature of the leased asset, and, simultaneously, recognise a liability for the same amount, which will be the lower of the fair value of the leased or the fair value of non-contingent amounts and not related to the provision of services payable to the lessor including, where appropriate, the price of exercising the purchase option, when the exercise thereof is expected with certainty at the

beginning of the lease. These assets are depreciated using similar criteria to those applied to the items of tangible assets that are owned or are depreciated over the lease term, whichever is shorter, provided there is no reasonable certainty that the lessee shall be granted the ownership at the end of the term of the lease date.

The finance costs derived from discounting to present value of the liability recognised are charged to “Financial result” in the consolidated income statement.

b) Operating Leases

Leases in which the ownership of the leased asset and substantially all the risks and rewards incidental to ownership of the leased assets remain with the lessor are classified as operating leases.

Lease income and lease costs are recognised under “Other operating income” or “Other operating expense”, respectively, in the consolidated income statement as incurred.

4.20) Income tax

Repsol YPF recognises in the income statement for the year the accrued tax on the companies' income, which is calculated taking into account the differences between the timing of recognition for accounting purposes and tax purposes of the transactions and other events in the current year recognised in the financial statements, giving rise to temporary differences and, therefore, to the recognition of certain deferred tax assets and liabilities in the balance sheet. These amounts are recognised by applying to the temporary differences the tax rate that is expected to apply in the period when the asset is realised or the liability is settled.

Deferred tax liabilities are recognised for all taxable temporary differences, unless the temporary difference arises from the initial recognition of goodwill for which amortisation is not deductible for tax purposes or unless the exception to the deferred tax liabilities is applicable in cases of taxable temporary differences related to investments in subsidiaries, branches and associates.

Deferred tax assets recognised for temporary differences and other deferred tax assets (tax losses and tax deductions carry forwards) are recognized when it is considered probable that the consolidated companies will have sufficient taxable profits in the future against which the deferred tax asset can be utilised. Additionally, deferred tax assets recognized for temporary differences can only be registered to the extent that they will reverse in the near future.

The accrued income tax expense includes both the deferred income tax expense and the current income tax expense, which is taken to be the amount payable (or refundable) in relation to the taxable net income for the year (see Note 25).

“Income tax” in the accompanying consolidated income statement includes both the accrued income tax expense and the net provisions recognised in the year for income tax contingencies.

4.21) Revenue and expense recognition

Revenue is measured at the fair value of the consideration received or receivable and represents the amounts receivable for the goods and services provided in the normal course of business, net of discounts, VAT and other sales-related taxes.

In order to minimise transport costs and optimise the Group's logistics chain, Repsol YPF carries out oil product swap transactions with other companies in different geographical locations. The related agreements include clauses to adjust through an amount of economic consideration the value of the products swapped on the basis of the technical specifications thereof and the delivery and receiving points for the goods. These transactions are not recognised in the income statement as separate purchases and sales. Similarly, the Group does not recognise as period sales transactions in which as a result of the clauses in the agreements signed the risks inherent to ownership are not transferred to the buyer.

Sales of goods are recognised when substantially all the risks and rewards have been transferred. Revenue associated with the rendering of services is also recognised by reference to the stage of completion of the transaction at the balance sheet date, provided the outcome of the transaction can be estimated reliably. Interest income is accrued on a time proportion basis, by reference to the principal outstanding and the effective interest rate applicable. Dividend income from

investments is recognised when the shareholders' rights to receive payment have been established.

An expense is recognised when there is a reduction of an asset, or an increase in a liability, which can be measured reliably.

As a result of the legislation on oil and gas retailing in force in the countries in which the Group operates, Repsol YPF reflects as both expenses and income the excise and similar taxes on oil and gas production and/or sales. This fact has supposed in the 2008 and 2007 consolidated income statements to increases in expenses of EUR 6,881 million and EUR 6,969 million, respectively, which were recognised under "Materials used", and to increases in income of similar amounts, which were recognised under "Sales" in the accompanying consolidated income statements.

Transactions between companies of the Repsol YPF Group and between segments are carried out on an arm's length basis. These transactions give rise to income, expenses and profits which are eliminated on consolidation.

Work relating to water management, atmospheric protection, waste management, remediation of soil and subsoil water and the development of environmental management systems are deemed to be environmental expenses and they are recognised for accounting purposes in accordance with the criteria indicated above.

4.22) Financial derivatives

The Group arranges derivatives to hedge financial and commercial risks due to interest rate and exchange rate fluctuations and to changes in the prices of certain commodities. All financial derivative instruments are initially recognised at fair value at the contract date and are subsequently measured at fair value. The derivatives are recognised as an asset when their fair value is positive and as a liability when it is negative. The differences in fair value are recognised in the income statement, except for specific hedge accounting treatment, where applicable.

For the assessment of financial derivative instruments, in case these are available, quotation market prices at the close of the balance sheet are used. This is the case of

the futures contracts.

In the absence of quotation market prices for financial derivative instruments contracted, their fair value is estimated discounting the associated future cash flows according to the interest, exchange rates, credit differentials, volatility, and forward price trends in force on the close of the balance sheet. This assessment method has been applied to the following instruments:

- Mixed currency and interest swaps
- Interest rate swaps
- Forward exchange rate contracts
- Swaps on crude oil and products
- Interest rate options

Although the Group applies common assessment market techniques, some changes in the measurement models or in the hypotheses applied therein could lead to different assessments of said instruments than these recognised in the balance sheet, income statement and/or equity.

The fair values of the derivative instruments used as hedge instruments are included in Note 38.

The Group designates certain derivatives as:

a) Fair value hedges

These are hedges of the exposure to changes in the fair value of an asset or a liability recognised for accounting purposes, an unrecognised firm commitment or an identified portion of the aforementioned asset, liability or firm commitment that can be attributed to a particular risk and might affect the profit for the period.

The fair value of derivatives that are designated and effective as fair value hedges is recognised in the income statement, together with any change in fair value of the hedged items.

b) Cash flow hedges

These are hedges of the exposure to changes in cash flows that: (i) are attributed to a particular risk associated with a recognised asset or liability (such as all or some future interest payments on variable rate debt) or a highly probable forecasted transaction and that (ii) could affect the result for the year.

The effective portion of changes in the fair value of hedging instruments is recognised in equity. The gain or loss relating to the ineffective portion is recognised in the income statement. The cumulative gains or losses recognised in equity are transferred to net profit or loss for the year, in the period in which the hedged items affect the income statement.

c) Hedges of net investments

These are hedges of the exposure to foreign exchange rate changes in relation to investments in the net assets of foreign operations.

Hedges of net investments in a foreign operation are accounted for in a similar way to cash flow hedges, although the exchange rate differences resulting from these transactions are recognised in “Translation differences” under equity in the accompanying consolidated balance sheet. Cumulative gains and losses recognised in equity are recognised in the consolidated income statement when the foreign operation is sold or disposed of in any other way.

The Group documents at the inception of the transaction the hedging relationship between the hedging instrument and the hedged items, and the risk management objective and strategy for undertaking the hedge. The Group also documents their assessment, both at the inception of the hedge and subsequently, in relation to whether the derivatives used in hedging transactions are highly effective.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated or exercised, or no longer qualifies for hedge accounting. At that time, any cumulative gain or loss on the hedging instrument recognised in equity is retained in equity until the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in equity is transferred to net result for the year.

Derivatives embedded in other financial instruments or other host contracts are treated as separate derivatives when their risks and characteristics are not closely related to those of the host contracts and the host contracts are not carried at fair value with unrealised gains or losses reported in the consolidated income statement.

Long-term sale and purchase commitments of gas and crude oil are analysed with the aim to determine whether these are in line with the provisions or marketing needs of the normal activity of the Group or whether, on the contrary, these are derivatives and should be recognised in accordance with the criteria set forth in IAS 39.

4.23) Methodology for estimating recoverable amount

The recoverable amount of assets is generally estimated on the basis of their value in use, calculated on the basis of future expected cash flows derived from the use of the assets, discounted at a rate that reflects the weighted average cost of capital.

In the assessment of the value in use, cash flow forecasts based on the best income and expense estimates available of the CGUs using sector forecasts, past results and future expectations of business evolution and market development are utilized. Among the most sensitive aspects included in the forecasts used in all the CGUs, the purchase and sale prices of hydrocarbons, inflation, personnel expenses and investments are highlighted.

The cash flows from the exploration and production assets are generally projected for a period that covers the economically productive useful lives of the oil and gas fields and is limited, for the proven reserves, by the contractual expiration of the operating permits, commitments or contracts. The estimated cash flows are based on production levels, commodity prices and estimates of the future investments that will have in relation to undeveloped oil and gas reserves, production costs, field decline rates, market supply and demand, contractual conditions and other factors. The non-proven reserves are weighted with risk factors, on the basis of the type of each one of the exploration and production assets.

The benchmark prices considered are based on a combination of market prices available in the financial community.

The cash flows of the refining and marketing businesses are estimated on the basis of the projected sales trends, unit contribution margins, fixed costs and investment or divestment flows, in line with the expectations considered in the specific strategic plans of each business. The cash flow projection period used in the assessment is five years, and in the following years a cash inflow equal to the perpetual return on the result from operations obtained in the previous year is assumed.

These estimated net future cash flows are discounted to their present value using a specific cost of capital for each asset based on the currency in which its cash flows are denominated and the risks associated with the cash flows, including country risk. The rates used in the years 2008 and 2007 for the different businesses are in the following ranges:

	2008	2007
E&P	7.8% - 19.3%	7.5% - 14.2%
R&M	5.8% - 16.6%	5.1% - 14.9%

4.24) New standards issued

At the time of the preparation of these consolidated financial statements, these are the standards and interpretations or amendments thereof, published by the IASB but not in force yet, either because their effective date is later than the date of these consolidated financial statements, or because they have not yet been enacted by the European Union:

Standard	Description	Compulsory Application Annual Periods starting from
Standards and Amendments		
IFRS 8	Operating Segments	1 January 2009
Review IAS 23	Borrowing Costs	1 January 2009
Review IAS 1	Presentation of Financial Statements	1 January 2009
Review IFRS 3 (1)	Business Combinations	1 July 2009
Amendment IAS 27 (1)	Consolidated and Separate Financial Statements	1 July 2009
Amendment IFRS 2	Conditions for the irrevocability	1 January 2009

	(or consolidation) of vesting conditions and cancellations	
Amendment IAS 32 and IAS 1	Financial Instruments with fair value purchase option and liabilities arising out of settlement	1 January 2009
Amendment IFRS 1 and IAS 27	Investment cost in a subsidiary, jointly controlled entity or associate	1 January 2009
Amendment IAS 39 (1)	Items capable of being hedged	1 July 2009
Improvements to IFRS	Improvements to IFRS	1 January 2009 (2)
Review IFRS 1 (1)	First-time Adoption of IFRS	1 July 2009
Interpretations:		
IFRIC 12 (3)	Service concession Arrangements	1 January 2008
IFRIC 13	Customer Loyalty Programs	1 July 2008
IFRIC 15 (1)	Sale of Real Estate Arrangements	1 January 2009
IFRIC 16 (1)	Net Investment Hedges of Foreign Transactions	1 October 2008
IFRIC 17 (1)	Allocation of Non-monetary Assets to Shareholders	1 July 2009
IFRIC 18 (1)	Transfer of Assets by Customers	1 July 2009 (4)

- (1) Standards and Interpretations not yet adopted by the European Union as of the preparation date of these consolidated financial statements.
- (2) The amendment to IFRS 5 applies on a prospective basis for annual periods starting from 1 July 2009.
- (3) At the time of the preparation of the present consolidated financial statements this interpretation is in force, although it has not been adopted by the European Union. The Group expects that the future implementation of this interpretation shall not have a relevant impact on the consolidated financial statements of the Group.
- (4) This interpretation refers to the transfers of assets received starting from 1 July 2009.

The Group has decided not to apply those Standards and Interpretations adopted by the European Union which are not yet in force. The impact that such Standards and Interpretations will have on the consolidated financial statements of the Group is currently being assessed.

In the present period, the Group has applied the amendment to IAS 39 “Financial Instruments: Recognition and Measurement” and the amendment to IFRS 7 “Financial Instruments: Information to be disclosed”. These amendments have been issued by the IASB and adopted by the European Union in 2008 and are effective from 1 July 2008. The adoption of these amendments to the Standards, has not had any impact on the consolidated financial statements

of the Group.

Two interpretations have also been implemented in this period: IFRIC 11 “IFRS 2 – Group and Treasury Share Transactions” and IFRIC 14 “IAS 19 – The limit on a defined benefit asset, minimum funding requirements and their interaction”. The implementation of these interpretations has had no impact on the consolidated financial statements of the Group.

(5) FINANCIAL RISK MANAGEMENT AND DEFINITION OF HEDGES

Repsol YPF has an organisation and systems that enable it to identify, measure and control the risks associated with the financial instruments to which the Group is exposed. Below is the breakdown of the information related to them and required by IFRS 7 “*Financial Instruments: Information to be disclosed*”.

The Group Managing Director of Finance is in charge of the liquidity risk management, control, coordination and tracking of the market and credit risk for the whole Group. The group operations comprise the following types of financial risks:

5.1 Market Risk

5.2 Liquidity Risk

5.3 Credit Risk

5.1) Market Risk

Market risk is the potential loss faced due to adverse movements in market variables. The Group is exposed to several types of market risks:

- **Exchange rate risk:** the results of the transactions are exposed to changes in the exchange rates, mainly the dollar against the euro and other currencies of the countries where we operate in. The Group raises its financing mainly in dollars, either directly or by the use of exchange rate derivatives.
- **Commodities price risk:** due to the development of commercial transactions and activities, the results of the group are exposed to the

volatility of the price of crude oil, natural gas and their derivative products. The Group occasionally contracts financial derivatives with the aim to decrease the exposure to the price risk. These derivatives offer an economic hedge of the results, even though these are not always designated as hedging instruments for accounting purposes.

- **Interest rate risk:** the market value of the net financing and the net interests of the Group may be affected due to fluctuations in interest rates. The Group occasionally contracts interest rate derivatives to decrease the risk of fluctuations in finance costs or in its debt market value. These derivatives are in general designated for accounting purposes as hedging derivatives.

The hedging instruments held by Repsol YPF at 31 December 2008 and 2007 are described in Note 38.

Measurement

The Company monitors the exposure to market risk in terms of sensitivities. These are complemented with some other risk measures when the nature of the risk positions so require.

Quantification of the Market Risk and the Analysis of Sensitivity

At 31 December 2008 and 2007, the net financing received from financial assets, excluding the accounts receivable (see Notes 15 and 19) and including derivative assets on financial transactions, at a fixed rate amounted to EUR 4,902 million and EUR 5,487 million, respectively. These amounts correspond to 69% and 76%, respectively, from the total amount.

As of 31 December 2008 and 2007, net financing received from financial assets, excluding accounts receivables and including derivatives on financial transaction, in dollars, was EUR 4,972 million and EUR 4,800 million, respectively. These amounts are 70% and 67%, respectively, of the total amount. The amounts in other currencies other than euro and dollar were EUR 292 million at 31 December 2008 and EUR 172 million at 31 December 2007. The amounts are, approximately 4% and 2% of the total amount in 2008 and 2007, respectively.

The following describes the sensitivity to the result and the equity for their effect in

the heading “Adjustments for changes in value” before changes in the main market risks caused by the financial instruments, pursuant to the requirements of the IFRS 7 “Financial instruments: information to be disclosed”. The estimates shown are representative both of favorable and unfavorable changes: the increases and decreases in risk factors in the same amount cause a similar and opposite impact. The analysis of sensitivity uses variations in risk factors representative of its historical behavior.

- a) **Exchange rate risk:** the funds obtained by Repsol YPF are mainly in dollars either directly or through exchange rate derivatives. Likewise, it keeps accounts receivable and payable in different currencies because of its business transactions. A 5% appraisal of the euro against the dollar would mean, for its effect in the financial instruments a decrease approximately from the net result of EUR 2 million in 2008 and an increase of EUR 57 million in 2007, respectively, and an increase of the “Adjustments for changes in value” of approximately EUR 299 million in 2008 and EUR 67 million in 2007, respectively. The exposures to risk of other currencies are not relevant for the Group.
- b) **Commodities risk price:** At 31 December 2008 and 2007, a 10% increase in the crude and oil products would imply, due to the impact on the financial instruments held by the Group at those dates, a decrease in the net profit of approximately EUR 27 million and EUR 24 million, respectively.
- c) **Interest rate risk:** At 31 December 2008 and 2007, an increase in 0.5% in the interest rates in all the terms of the financial instruments owned by the Group would near a decrease in the net profit by an amount of approximately EUR 4 million in 2008 and a increase in the net profit of EUR 22 million in 2007, as well as an increase in “Adjustments for changes in value” by an amount of approximately EUR 25 million and EUR 12 million in 2008 and 2007, respectively

5.2) Liquidity risk

Liquidity risk is associated to the ability of the Group to finance its obligations at reasonable market prices, as well as to carry out its business plans with stable financing sources.

Repsol YPF keeps a prudent protection policy facing liquidity risk. Accordingly, it

keeps enough cash resources and other liquid financial instruments and unused credit lines available to meet the loan maturities and finance debt foreseen in the next twelve months. In addition, the Group had available unused credit lines for an amount of EUR 3,916 million and EUR 4,132 million at 31 December 2008 and 2007, respectively.

The tables below present an analysis on the maturities of the financial liabilities existing at 31 December 2008 and 2007.

31 December 2008	Maturity Date						Subsequent years	Total
	2009	2010	2011	2012	2013			
	Millions of euros							
Trade payables	2,878	-	-	-	-	-	2,878	
Other payables	5,027	-	-	-	-	-	5,027	
Loans and others financial debts (1)	1,913	2,405	502	1,111	1,246	2,434	9,611	
Preference Shares (1) (2)	132	129	3,114	39	39	521	3,974	
Derivatives (1)	(27)	(93)	(29)	(1)	3	(88)	(235)	

31 December 2007	Maturity Date					Subsequent years	Total
	2008	2009	2010	2011	2012		
	Millions of euros						
Trade payables	4,491	-	-	-	-	-	4,491
Other payables	4,347	-	-	-	-	-	4,347
Loans and others financial debts (1)	1,714	782	2,224	407	1,113	3,785	10,025
Preference Shares (1) (2)	180	180	180	3,156	37	492	4,225
Derivatives (1)	58	20	23	19	18	178	316

NOTE: The amounts shown are the contractual undiscounted cash flows; therefore, they differ from the amounts included on the consolidated balance sheet.

- (1) Corresponding to future maturities of the amounts recognised under the headings “Non-Current financial liabilities” and “Current financial liabilities”.
- (2) The preference shares issued are perpetual, redeemable only at the choice of the issuer (see details in Note 19). Nevertheless, the preference shares issued in dollars (by a nominal amount of 725 million dollars) are redeemable since 2002; the figures shown in the tables assume that these are redeemed after 2013 thus in the period “Subsequent Years” the figures are equal to its face value. The assumptions made are conventional and must not be interpreted as forecasts of the decisions the Group shall take in the future.

5.3) Credit Risk

Credit risk is defined as the possibility of a third party not complying with his contractual obligations, thus creating losses for the Group.

Credit risk in the Group is measured and controlled in relation to the customer or individual third party. The Group has its own systems for the permanent credit evaluation of all its debtors and the determination of risk limits with respect to third parties.

Maximum exposure

The exposure of the Group to credit risk is mainly attributable to commercial debts from trading transactions, whose amounts are shown on the consolidated balance sheet net of allowances for doubtful accounts for an amount of EUR 5,758 million and EUR 7,103 million, respectively at 31 December 2008 and 2007. The allowances for doubtful accounts are measured by the following criteria:

- The seniority of the debt
- The existence of bankruptcy proceedings
- The analysis of the capacity of the customer to return the credit granted.

The allowances for doubtful accounts are shown at 31 December 2008 and 2007 in Note 15 about financial assets. These allowances represent the best estimates of the Group for the losses incurred in relation to the accounts receivable.

The maximum exposure to credit risk of the Group, according to the type of financial instruments and without excluding the amounts covered by guarantees and other arrangements mentioned below, is detailed below at 31 December 2008 and 2007:

Maximum exposure	Million of Euros	
	2008	2007
- Commercial debts	6,088	7,453
- Derivatives	403	757
- Cash and cash-equivalents	2,891	2,585

Credit risk of the liquid funds and derivative instruments is restricted because the counterparties are banking authorities to which the international rating agencies have assigned high qualifications. Likewise, the vast majority of the accounts receivable neither due nor provisioned have a high credit quality according to the valuations of the Group, based on the solvency analysis and the payment habits of each customer.

The Group does not have a significant concentration of credit risk. This exposure is distributed among a high number of customers and other counterparties. No customer represents more than 4% of the total amount of these accounts receivable.

Guarantee Policy

As a general rule, the Group establishes a bank guarantee issued by the Financial Entities as the most suitable instrument of protection from credit risk. In some cases, the Group has contracted insurance credit policies whereby this transfers to third parties the credit risk related to the business activity of some of their businesses.

At 31 December 2008, the Group has guarantees in force granted by third parties for an accumulated amount of EUR 2,460 million. At 31 December 2007, this figure was EUR 1,949 million. From this amount, the commercial debts at 31 December 2008 and 2007 that are covered by guarantees amount to EUR 701 million and EUR 792 million, respectively.

During 2008, the Group executed guarantees received for an amount of EUR 10 million. In 2007 this figure was EUR 19 million.

Non-impaired overdue financial assets

The following table discloses the aging of the non-provisioned due debt:

Due date	Millions of euros	
	2008	2007
- Non due debt	5,112	5,934
- Due debt 0-30 days	408	538
- Due debt 31-180 days	200	454
- Due debt for more than 180 days (1)	38	177
Total	5,758	7,103

(1) Mainly corresponds to guaranteed debt or debt with Official Organisms.

Impaired financial assets are disclosed in Note 15.

(6) CAPITAL MANAGEMENT

Repsol YPF, as an essential part of its strategy, has committed to keep a policy of financial prudence. The capital structure targeted is defined by this commitment of solvency and the aim to maximise the shareholders' profitability.

The quantification of the capital structure targeted is set as the relation between the net financing and the shareholders' equity, according to the ratio:

$$\frac{\text{Net financing}}{\text{Net financing} + \text{Shareholders' Equity}}$$

The criteria for the calculation of this ratio are the following:

- Net financing includes net financial debt and preference shares.
- Repsol YPF maintains a prudent protection policy facing liquidity risk. Thus, Repsol maintains enough cash resources and other liquid financial instruments to meet the loan maturities and finance debt foreseen in the next twelve months. Thus, this ratio shows more accurately the solvency of the Group, using the concept of net debt, instead of gross debt, where financial investments are deducted.
- Given the importance of preference shares in the financing of Repsol YPF, they are included in the net financing concept, even when its perpetuity nature bestow them with features close to Equity in a solvency and enforceability analysis of the debt.

The net financial debt includes the following items of the consolidated balance sheet at 31 December 2008 and 2007:

	Millions of euros	
	2008	2007
Non-current financial liabilities	10,315	10,065
Less: Preference shares (see Note 19)	(3,524)	(3,418)
Current financial liabilities	1,788	1,501
Non-current financial assets	(2,466)	(1,650)
Less: financial assets available for sale (see Note 15)	881	138
Other current financial assets	(494)	(266)
Cash and cash equivalents	(2,891)	(2,585)
Hedging derivatives instruments on interest rate (see Note 38)	(275)	(292)
Net Financial Debt	3,334	3,493
Preference Shares (see Note 19)	3,524	3,418
Net financing (*)	6,858	6,911

(*)In addition, at 31 December 2008 and 2007, the amounts of EUR 721 million and EUR 632 million are recognised under the heading “Other non-current liabilities” and EUR 31 million and EUR 61 million under the heading “Other Creditors” corresponding to financial leases measured at amortised cost (see Note 23).

The evolution and analysis of this ratio is made on a constant basis, also with future estimates as a key and restrictive factor in the strategy of investments and in the dividend policy of the group Repsol YPF. At 31 December 2008 and 2007, this ratio has been 24.4% and 26.5%, respectively.

(7) ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of financial statements in accordance with generally accepted accounting principles makes it necessary to make assumptions and estimates that affect the amounts of the assets and liabilities recognised, the presentation of contingent assets and liabilities at year-end and the income and expenses recognised during the year. The actual results could differ depending on the estimates made.

The accounting policies and areas which require the highest degree of judgment and estimates in the preparation of the consolidated financial statements are: (i) crude oil and natural gas reserves; (ii) provisions for litigation and other contingencies; (iii) the calculation of income tax and deferred tax assets; (iv) impairment test of assets (see Note 4.9), and (v) derivative financial instruments (see Note 4.22).

Crude oil and gas reserves

Estimating crude oil and gas reserves form an integral part of the Company’s decision making process. The volume of crude oil and gas reserves is used to calculate the depreciation using production unit ratios and to assess the recoverability of the

investments in exploration and production assets (see Notes 10 and 12).

Repsol YPF prepares its estimates and assumptions in relation to crude oil and gas reserves taking into account the rules and regulations established for oil and gas industry by the U.S. Securities and Exchange Commission (SEC).

Provisions for litigation and other contingencies

The final cost of settling claims and lawsuits could vary due to estimates based on differing interpretations of the rules, opinions and final assessments of the amount of the damages. Therefore, any change in circumstances relating to contingencies of this nature could have a material effect on the amount of the provision for contingencies recognised.

Repsol YPF makes judgments and estimates in recording costs and establishing provisions for environmental clean-up and remediation costs which are based on current information regarding costs and expected plans for remediation. For environmental provisions, costs can differ from estimates because of changes in laws and regulations, discovery and analysis of site conditions and changes in clean-up technology. Therefore, any change in the factors or circumstances related to provisions of this nature, as well as changes in laws and regulations could, as a consequence, have a significant effect on the provisions recognised for these costs (see Note 37).

Calculation of income tax and deferred tax assets

The appropriate assessment of the income tax expense is dependent on several factors, including estimates of the timing and realisation of deferred tax assets and the timing of income tax payments. Actual collections and payments may differ materially from these estimates as a result of changes in tax laws as well as unanticipated future transactions impacting the Company's tax balances.

(8) GOODWILL

The detail, by company, of the goodwill at 31 December 2008 and 2007, is as follows:

	Millions of euros	
	2008	2007
YPF, S.A.	1,730	1,927
Gas Natural SDG, S.A.	321	321
Refap, S.A.	-	254
Repsol Portuguesa, S.A.	154	154
Repsol Gas Portugal, S.A.	118	118
Empresas Lipigas, S.A.	66	80
EESS de Repsol Comercial P.P.	96	93
Buenergía Gas & Power, Ltd.	38	36
Grupo Dersa	29	29
Repsol Italia	28	28
Grupo Nettis	24	24
Grupo Generación México	27	26
Other companies	220	218
Balance at end of the year	<u>2,851</u>	<u>3,308</u>

The changes in 2008 and 2007 in this line item in the accompanying consolidated balance sheet were as follows:

	Millions of euros	
	2008	2007
Balance at beginning of year.....	3,308	3,422
Additions	-	41
Change in the scope of consolidation.....	(2)	-
Divestments.....	(292)	(1)
Translation differences	73	(229)
Write-downs	-	-
Reclasifications and others changes.....	(236)	75
Balance at end of year	<u>2,851</u>	<u>3,308</u>

The divestment registered in 2008 corresponds to the goodwill derecognised due to the sale of the 15% share in YPF (see Note 31).

In addition, in the year 2008 there is a decrease in this heading as a result of the classification of the participation of the Group in Alberto Pasqualini Refap, S.A. in this period as non-current assets available for sale (see Note 14).

The main acquisitions in 2007 were the Group Generación México (see Note 30), which resulted in the acquisition of goodwill amounting to EUR 26 million and the acquisition of additional shares in companies of the Group Gas Natural (mainly Gas Natural Argentina SDG, S.A., Invergas, S.A. Natural Energy, S.A. and Natural Servicios, S.A.) which generated goodwill of EUR 11 million.

The detail of the gross goodwill and accumulated impairment losses at 31 December 2008

and 2007 is as follows:

	Millions of euros	
	2008	2007
Gross goodwill	2,863	3,320
Accumulated impairment losses	(12)	(12)
Net goodwill	<u>2,851</u>	<u>3,308</u>

In 2008 and 2007 there was no write-down registered in goodwill.

Testing goodwill for impairment

The detail, by company, of the goodwill at 31 December 2008 and 2007, is as follows:

	Millions of euros	
	2008	2007
Upstream	86	81
Downstream	550	816
YPF	1,730	1,927
Upstream	1,181	1,316
Downstream	549	611
Gas Natural	485	484
TOTAL	<u>2,851</u>	<u>3,308</u>

Repsol YPF considers that, based on current knowledge, the reasonably possible changes in key assumptions for determining fair value, on which the determination of the recoverable amounts was based, will not cause the carrying amounts of the cash-generating units to exceed the recoverable amounts at 31 December 2008 and 2007.

In Argentina, in order to determine the fair values of the downstream business, a scenario was considered including the gradual recovery, over the next few years, of a similar economic situation to that which existed prior to the change in peso-US dollar convertibility. In any case, YPF's downstream business in Argentina is integrated with the company's upstream business to a considerable extent.

(9) OTHER INTANGIBLE ASSETS

The detail of the intangible assets and the related accumulated depreciation at 31 December 2008 and 2007, and of the changes therein is as follows:

Millions of Euros						
	Leasehold Assignment, Surface and Usufruct Rights	Emission Allowances	Flagging Costs	Exclusive Supply Contracts	Other Intangible Assets	Total
COST						
Balance at 1 January 2007	690	260	216	165	921	2,252
Additions (1)	9	2	10	18	106	145
Disposals and derecognitions	(15)	(5)	(13)	(2)	(18)	(53)
Translation differences	(28)	-	(5)	-	(16)	(49)
Change in the scope of consolidation	(27)	-	-	-	(12)	(39)
Reclassifications and other changes (2)	42	(190)	23	(16)	(53)	(194)
Balance at 31 December 2007	<u>671</u>	<u>67</u>	<u>231</u>	<u>165</u>	<u>928</u>	<u>2,062</u>
Additions (1)	3	44	7	18	98	170
Disposals and derecognitions	(12)	(18)	(18)	(1)	(28)	(77)
Translation differences	14	-	2	-	(22)	(6)
Change in the scope of consolidation	-	-	(11)	-	(12)	(23)
Reclassifications and other changes (2)	-	222	(1)	(4)	24	241
Balance at 31 December 2008	<u>676</u>	<u>315</u>	<u>210</u>	<u>178</u>	<u>988</u>	<u>2,367</u>
ACCUMULATED DEPRECIATION AND IMPAIRMENT LOSSES						
Balance at 1 January 2007	(254)	(181)	(165)	(134)	(363)	(1,096)
Depreciation charge for the year	(31)	-	(16)	(7)	(65)	(119)
Disposals and derecognitions	9	3	12	2	6	32
Impairment losses (recognised) / reversed	(10)	(67)	-	-	-	(77)
Translation differences	12	-	3	-	8	23
Change in the scope of consolidation	8	-	-	-	9	17
Reclassifications and other changes	29	181	(4)	6	(35)	177
Balance at 31 December 2007	<u>(237)</u>	<u>(64)</u>	<u>(170)</u>	<u>(133)</u>	<u>(440)</u>	<u>(1,043)</u>
Depreciation charge for the year	(27)	-	(15)	(6)	(69)	(117)
Disposals and derecognitions	8	-	16	1	28	53
Impairment losses (recognised) / reversed	-	(86)	-	-	-	(86)
Translation differences	(6)	-	(1)	-	3	(4)
Change in the scope of consolidation	-	-	7	-	11	18
Reclassifications and other changes	9	64	1	-	(34)	40
Balance at 31 December 2008	<u>(253)</u>	<u>(86)</u>	<u>(162)</u>	<u>(138)</u>	<u>(501)</u>	<u>(1,139)</u>
Carrying amount at 31 December 2007	<u>434</u>	<u>3</u>	<u>61</u>	<u>32</u>	<u>488</u>	<u>1,018</u>
Carrying amount at 31 December 2008	<u>423</u>	<u>229</u>	<u>48</u>	<u>40</u>	<u>487</u>	<u>1,228</u>

(1) Investments in 2008 y 2007 are from the direct acquisition of assets totaling of EUR 170 million and EUR 145 million, respectively.

(2) In 2008, the heading "Emission allowances" includes EUR 278 million from the rights of emissions of CO₂ freely assigned for no consideration pursuant to the national assignment plan and the derecognition of the corresponding emission allowances for 2007 by EUR 67 million. In 2007 "Emission allowances" included EUR 67 million from the CO₂ emission allowances assigned for no consideration pursuant to the national assignment plan and the derecognition of the corresponding rights by EUR 257 million in relation to 2006.

Repsol YPF does not own intangible assets with indefinite useful lives at 31 December 2008 and 2007.

In 2008 and 2007 the companies integrated in the consolidated Group have received for no consideration emission allowances equal to 12.2 and 11.6 million tons of CO₂, respectively, in accordance with the national assignment plan, valued in EUR 278 million and EUR 67 million. This plan, also established the assignments of emission allowances for no consideration for 2009 which amount to 12.3 million tonnes of CO₂.

In 2008 and 2007 the value of the emission allowances was impaired, which gave rise to the recognition of a charge of EUR 86 million and EUR 67 million, respectively, that has been offset, by an equal amount, of deferred income recognised in the income statement for allowances received for no consideration.

The net expense in the consolidated income statement in 2008 for the emission of CO₂ has been approximately EUR 16 million, while in 2007 it was less than EUR 1 million.

The research and development expense recognized in the consolidated income statement has amounted in 2008 and 2007 to EUR 83 million and EUR 77 million, respectively.

The leasehold assignment surface and usufruct, the reflagging costs and image rights, the exclusive supply contracts and the administrative concessions are legal rights whose ownership is conditioned to the terms of the originating contract as described in paragraph 4.5 of Note 4.

(10) TANGIBLE ASSETS

The detail of “Tangible assets” and of the related accumulated depreciation and accumulated impairment losses at 31 December 2008 and 2007, and of the changes therein is as follows:

	Millions of Euros							Total
	Land, Buildings and other structures	Machinery and Plant	Investments in Areas with Reserves	Other Exploration Costs	Transport Equipment	Other tangible assets	In the Course of Construction	
COST								
Balance at 1 January 2007	2,259	18,057	26,343	959	1,339	1,606	1,542	52,105

Carrying amount at 31 December 2008 ⁽⁵⁾	1,441	7,326	11,462	818	820	515	3,355	25,737

- (1) In 2008 the main additions were in Argentina (EUR 1,480 million), in the U.S. (EUR 415 million), the rest of Latin America (EUR 383 million), in Libya (EUR 230 million) in Canada (EUR 155 million) and in Spain (EUR 1,779 million). In 2007 the main additions to this account related to Argentina (EUR 1,311 million), U.S. (EUR 616 million), rest of Latin America (EUR 566 million), Canada (EUR 194 million) and Spain (EUR 1,326 million).
- (2) In 2008, reclassifications and other changes included (i) EUR 612 million in cost and EUR 136 million in depreciation and accumulated impairment loss corresponding to tangible assets of Alberto Pascualini Refap,S.A., company classified as non-current assets available for sale, and (ii) EUR 99 million concerning the acquisition of exploration rights in Libya pending payment. In 2007, these included (i) EUR 228 million net from a reclassification of assets available for sale and (ii) EUR 106 million from a ship acquired by financial leasing for transportation of LNG.
- (3) In 2007, from the sale of the lot described in the Note 27.
- (4) (See Note 12).
- (5) At 31 December 2008 and 2007, the amount of the provisions accumulated was EUR 492 million and EUR 651 million, respectively.

The amounts corresponding to non-depreciable assets, that is, land and assets in the course of construction, amount, respectively to EUR 719 million and EUR 3,355 million at 31 December 2008 and EUR 722 million and EUR 1,995 million at 31 December 2007, respectively. The amounts related to land are included within the heading "Land, buildings and other structures" on the previous table.

Tangible assets, included fully depreciated items for an amount of EUR 10,349 million

and EUR 9,734 million at 31 December 2008 and 2007, respectively.

Repsol YPF capitalises financial expenses as part of the cost of the assets as described in Note 4. In 2008 and 2007, the average borrowing cost has been 5.69% y 6.44% and the amount of such financial expenses that have been capitalised amounted to EUR 67 million and EUR 95 million, respectively. Such amounts are recorded under the “Financial expenses” line item in the consolidated income statement.

Within the heading “Tangible assets” there are some investments carried out by the Repsol YPF Group in public concessions, by an amount of EUR 135 million and EUR 117 million at 31 December 2008 and 2007, respectively; these concessions shall revert to the State within a term ranging from 2009 and 2054.

In 2008 and 2007 there are included EUR 730 million and EUR 696 million, respectively, of assets acquired under finance leases. Among the assets purchased under finance leases at the end of these periods we highlight the methane ships purchased for the transport of the LNG by an amount of EUR 641 million and EUR 673 million in 2008 and 2007, respectively.

In accordance with industry practices, Repsol YPF insures its assets and operations worldwide. Among the risks insured are damages to tangible assets, together with the subsequent interruptions in its business that such damages may cause. The Group believes that the current coverage level is, in general, appropriate for the risks inherent to its business.

(11) INVESTMENT PROPERTY

The changes in “Investment property” in 2008 and 2007 were as follows:

	Millions of Euros		
	Cost	Accumulated Depreciation and Impairment Losses	Total
Balance at 1 January 2007	38	(4)	34
Disposals and derecognitions	-	-	-
Depreciation charge for the year and other changes	-	-	-
Balance at 31 December 2007	38	(4)	34
Disposals and derecognitions	(4)	-	(4)
Depreciation charge for the year and other changes	3	(2)	1
Balance at 31 December 2008	<u>37</u>	<u>(6)</u>	<u>31</u>

The market value at 31 December 2008 and 2007 of the assets comprised in this line item amounts to EUR 112 million and EUR 101 million, respectively.

The income recognised in 2008 and 2007 from investment properties amounted to less than EUR 1 million in each period.

(12) ASSET IMPAIRMENT

At least once a year or whenever there is any indication that an impairment loss has been suffered, the Repsol YPF Group reviews the carrying amounts of intangible assets, tangible assets and other non-current assets, including goodwill, to determine whether those assets have suffered an impairment loss. These reviews are performed in accordance with the general principles established in Note 4.

In 2008 the net impairment losses recorded in relation to non-current assets were EUR 50 million, of which EUR 86 million were from the impairment of emission allowances (see Note 9) which was offset by the equivalent revenue from the deferred income recognised in the income statement in relation to emission allowances assigned for no consideration received under the National Assignment Plan for 2008.

The remaining registrations in 2008, a net reversal of EUR 36 million, correspond mainly to the recovery in the value of the exploration and production assets in Ecuador for an amount of EUR 42 million, due to the positive evolution of business benchmarks.

In 2007, losses in net value relating to non-current assets amounted to EUR 70 million, of which EUR 67 million correspond to the impairment of emission rights (see Note 9), the

effect of which was offset by an equal amount of income arising from the transfer to profits from deferred income of emission rights received under the National Assignment Plan relating to 2007.

The remaining net impairment losses amounted to a net provision of EUR 3 million and related mainly to:

- Impairment losses of EUR 56 million and EUR 29 million recognised in Ecuador and Argentina, respectively, mainly due to the unfavourable development of business benchmarks.
- Revenues of EUR 49 million and EUR 33 million related to the reversal of provisions recognised in previous periods in Trinidad and Tobago and Portugal, respectively, due to the positive evolution of the business benchmarks.

(13) INVESTMENTS ACCOUNTED FOR USING THE EQUITY METHOD

The most significant investments in associates, which were accounted for using the equity method, at 31 December 2008 and 2007, were as follows:

	Millions of euros	
	2008	2007
Peru LNG Company Llc.....	232	144
Compañía Logística de Hidrocarburos CLH, S.A.	37	56
West Siberian Resources.....	-	51
Atlantic LNG Company of Trinidad & Tobago	53	51
Transportadora de Gas del Perú, S.A.	38	35
Transierra, S.A.	19	35
Dynasol Elastómeros, S.A. de CV	25	27
Atlantic LNG 4	26	21
Oleoductos del Valle, S.A.	14	16
Oleoducto de Crudos Pesados (OCP), Ltd	23	22
Terminales Marítimos Patagónicos, S.A. (Termap)	10	10
Enirepsa Gas Limited	2	28
Other entities accounted for using the equity method	46	41
	<u>525</u>	<u>537</u>

Appendix I contains a list of the consolidated Group companies.

The changes in 2008 and 2007 in this heading in the accompanying consolidated balance sheet were as follows:

	Millions of euros	
	2008	2007
Balance at beginning of year	537	521
Additions (1)	99	158
Disposals (2).....	(1)	(38)
Changes in the scope of consolidation	(18)	-
Result of companies accounted for using the equity method (3)	66	109
Dividends distributed	(110)	(179)
Translation differences.....	22	(48)
Reclassifications and other changes (4).....	(70)	14
Balance at end of year	<u>525</u>	<u>537</u>

(1) In 2008 and 2007 additions were mainly due to the contributions or acquisitions of Perú LNG y ENIREPSA. Additions in 2007 also included the acquisition of West Siberian Resources.

(2) In 2007 included the sale of a 10% stake of CLH carried out by Repsol YPF, SA.

(3) In 2008 the most relevant results are the earnings from Atlantic LNG (EUR 62 million), CLH (EUR 23 million) partially compensated due to losses in Enirepsa (EUR 49 million). In 2007 the most relevant results corresponded to Atlantic LNG (EUR 63 million) and CLH (EUR 59 million).

(4) In 2008 the share in West Siberian was reclassified to financial assets available for sale due to the share dilution of the Group in this company.

The following companies over which the Group has significant management influence, given that the Group has sufficient representation on the Board of Directors, despite holding an interest of less than 20%, were accounted for using the equity method:

<u>Company</u>	<u>% of Ownership</u>
Sistemas Energéticos Mas Garullo, S.A.(1)	18.00%
Gasoducto Oriental, S.A.	16.66%
Compañía Logística de Hidrocarburos (CLH), S.A.	15.00%
Transportadora de Gas de Perú - TGP	10.00%
Gasoducto del Pacífico (Argentina), S.A.	10.00%

(1) A company in the Gas Natural Group, which is proportionately consolidated in the consolidated financial statements of the Repsol YPF Group.

The the following table shows the main aggregates of the Repsol YPF Group's associates measured according to the share percentage owned, at 31 December 2008 and 2007 (see Appendix I) is as follows:

	Millions of euros	
	2008	2007
Total Assets	1,627	1,730
Total Equity.....	525	537
Revenue.....	525	776
Result for the year.....	66	109

(14) NON-CURRENT ASSETS AVAILABLE FOR SALE AND LINKED LIABILITIES

At 31 December 2008, Repsol YPF had non-current assets available for sale amounting to EUR 1,251 million and liabilities linked to these assets for an amount of EUR 601 million, which mainly correspond to assets and liabilities related to its participation in Alberto Pasqualini Refap S.A. for an amount of EUR 1,088 million and EUR 589 million, respectively.

At 31 December 2008 Repsol YPF owned non-current assets available for sale for an amount of EUR 80 million mainly corresponding to assets for electric energy production in Venezuela.

The main balance sheet items classified as assets available for sale and linked liabilities at 31 December 2008 and 2007 were as follows:

	Millions of euros	
	2008	2007
Goodwill	269	-
Tangible assets and other intangible assets	692	67
Other non-current Assets	15	2
Current Assets	275	11
	<u>1,251</u>	<u>80</u>
Non-Current Liabilities	174	-
Current Liabilities	427	-
	<u>601</u>	<u>-</u>
	<u>650</u>	<u>80</u>

(15) CURRENT AND NON-CURRENT FINANCIAL ASSETS

The detail of the different concepts that are included on the balance sheet, is as follows:

	Millions of euros	
	2008	2007
Non-current financial assets	2,466	1,650
Non-current derivatives on trading transactions (1)	9	4
Other current financial assets	494	266
Current derivatives on trading transactions (2)	49	54
Cash and cash equivalents	2,891	2,585
	5,909	4,559

(1) Classified under the heading “Other non-current assets”.

(2) Classified under the heading “Other receivables”

The detail, by type and maturity, of the Group's financial assets at 31 December 2008 and 2007, is as follows:

**FINANCIAL ASSETS:
NATURE / CATEGORY**

31 December 2008

	Financial assets held for trading	Other financial assets at fair value through profit or loss	Financial assets available for sale	Loans and receivables (3)	Held to maturity investments	Hedging derivatives	Total
Equity instruments	-	-	881	-	-	-	881
Derivatives	15	-	-	-	-	131	146
Other financial assets	-	81	-	1,295	72	-	1,448
Long term / Non-current	15	81	881	1,295	72	131	2,475
Derivatives	108	-	-	-	-	149	257
Other financial assets (1)	-	203	-	125	2,849	-	3,177
Short term / Current	108	203	-	125	2,849	149	3,434
TOTAL	123	284	881	1,420	2,921	280	5,909

**FINANCIAL ASSETS:
NATURE / CATEGORY**

31 December 2007

	Financial assets held for trading	Other financial assets at fair value through profit or loss	Financial assets available for sale	Loans and receivables (3)	Held to maturity investments	Hedging derivatives	Total
Equity instruments	-	-	138	-	-	-	138
Derivatives	-	-	-	-	-	704	704
Other financial assets	-	116	-	464	232	-	812
Long term / Non-current	-	116	138	464	232	704	1,654
Derivatives	5	-	-	-	-	52	57
Other financial assets (1)	-	70	-	98	2,680	-	2,848
Short term / Current	5	70	-	98	2,680	52	2,905
TOTAL	5	186	138	562	2,912	756	4,559

(1) Under the headings “Sales and Services customers” and “Other receivables” from the balance sheet there is an amount of EUR 6,340 million and EUR 7,707 million in 2008 y 2007, respectively, arising out of receivables not included in the breakdown of the financial assets in the previous table (these amounts include the assets for current derivatives on trading transactions described in the Note 2 above).

Following is a description of the current and non-current financial assets classified by nature:

15.1) Financial assets held for trading

Derivatives not designated as hedging instruments are included within this category.

15.2) Other financial assets at fair value through profit or loss

Financial assets measure at fair value through profit or loss in the years 2008 and 2007 mainly correspond to collective mutual funds.

15.3) Financial assets available for sale

Mainly correspond to minority interests in certain companies over whose management the Group does not hold any influence.

The movement of the assets available for sale at 31 December 2008 and 2007 is the following:

	Millions of euros	
	2008	2007
Balance at beginning of year	138	160
Additions (1)	531	1
Disposals	(4)	(14)
Adjustments to fair value (2)	(72)	(10)
Raclassifications and other changes (3)	288	1
Balance at end of year (4)	<u>881</u>	<u>138</u>

(1) In 2008 it includes EUR 517 million corresponding to the purchase of the 9.99% of Unión Fenosa carried out by Gas Natural (company proportionately consolidated in the Group's financial statements).

(2) In 2008 corresponds mainly to the measurement at fair value of West Siberian Resources (EUR 36 million), Unión Fenosa (EUR 22 million) and Enagás (EUR 16 million). In 2007 corresponded mainly to the measurement at fair value of Enagás.

(3) In 2008 it includes the acquisition of an additional 4.72% of Unión Fenosa carried out by Gas Natural for an amount of EUR 239 million, by deferred payment.

(4) In 2008 it corresponds mainly to the stake in Unión Fenosa (EUR 736 million) and Enagás (EUR 58 million). In 2007 the most relevant stake was in Enagás, assessed for an amount of EUR 74 million.

In the year 2007 the stake in Naturgas Energía Grupo S.A., (through Gas Natural) was sold, creating a net profit of EUR 20 million in the income statement, and reducing the adjustments for change in value of net equity.

15.4) Loans and receivables

These include the following items:

	Millions of euros	
	2008	2007
Loans and receivables (1)	1,420	562
Sales and service customers	4,209	5,767
Other receivables	2,180	1,993
(Less: current derivatives on trading transactions)	(49)	(54)
Total	7,760	8,268

(1) In agreement with the schedule at the beginning of this Note.

The fair value of the loans and receivables of the Group is detailed in the following table:

	Millions of euros			
	Carrying amount		Fair value	
	2008	2007	2008	2007
a) Financial assets (1) (2):				
Other non-current financial assets	1,295	464	1,254	525
Other current financial assets	125	98	125	98
	1,420	562	1,379	623
b) Current commercial accounts:				
Sales and services customers	4,209	5,767	4,209	5,767
Accounts receivable	4,539	6,117	4,539	6,117
(Less: allowance for doubtful accounts)	(330)	(350)	(330)	(350)
Other receivables	2,131	1,939	2,131	1,939
	6,340	7,706	6,340	7,706
Total	7,760	8,268	7,719	8,329

(1) Among the current and non-current financial investments there are loans to non-consolidated companies and the portion of loans to consolidated companies not eliminated in the process of consolidation for an amount of EUR 376 million and EUR 345 million in 2008 and 2007, respectively. In addition, in 2008 it includes the loan granted to Petersen, due to the sale of a stake in YPF (see Note 31).

(2) The profitability accrued by the financial assets detailed in the above table corresponds to an average interest of 8.30% and 9.35% in 2008 and 2007.

The maturity of the investments included under the heading of non-current loans and receivables is the following:

Due date	Millions of euros	
	2008	2007
2009	-	-
2010	3	-
2011	1	-
2012	-	-
2013	117	-
Subsequent years	<u>1,173</u>	<u>464</u>
	<u>1,295</u>	<u>464</u>

The changes in 2008 and 2007 in the allowance for doubtful accounts were as follows

	Millions of Euros	
	2008	2007
Balance at beginning of the year	350	381
Impairment losses recognised/(reversed)	57	2
Variations in the consolidation scope	(31)	(8)
Derecognitions	(50)	(7)
Traslation differences	4	(18)
Balance at end of the year	<u>330</u>	<u>350</u>

15.5) Held to maturity investments

The detail of the held to maturity investments at 31 December 2008 and 2007 is as follows:

	Millions of euros			
	Carrying Amount		Fair Value	
	2008	2007	2008	2007
Non Current Financial assets.....	72	232	72	232
Current Financial Assets.....	55	105	55	105
Cash Equivalents	1,492	1,891	1,492	1,891
Cash on hand and at banks.....	1,302	684	1,302	684
	<u>2,921</u>	<u>2,912</u>	<u>2,921</u>	<u>2,912</u>

Financial investments amount to EUR 2,921 million and EUR 2,912 million at 31 December 2008 and 2007, respectively, and are mainly from placements in banks and collateral deposits. These financial investments have accrued an average interest of 4.31% and 4.27% in 2008 and 2007, respectively.

The non-current financial assets held-to-maturity mature as follows:

Maturity	Millions of euros	
	2008	2007
2009	-	11
2010	40	43
2011	9	4
2012	23	16
2013 (1)	-	25
Subsequent years (1)	-	133
	<u>72</u>	<u>232</u>

(1) In 2008 collaterals associated to net investment hedge discontinued operations, described in the paragraph 38.4 of the Note 38, have been cancelled.

(16) INVENTORIES

The detail of “Inventories” at 31 December 2008 and 2007 is as follows:

	Millions of euros		
	Cost	Provision of Allowance	Net
At 31 December 2008			
Crude oil and natural gas	982	-	982
Finished and semi-finished goods	2,429	(253)	2,176
Supplies and other inventories	449	(23)	426
	<u>3,860</u>	<u>(276)</u>	<u>3,584</u>
At 31 December 2007			
Crude oil and natural gas	1,543	-	1,543
Finished and semi-finished goods	2,302	(2)	2,300
Supplies and other inventories	863	(31)	832
	<u>4,708</u>	<u>(33)</u>	<u>4,675</u>

In 2008 a net expense of EUR 239 million has been recognised under the heading “Changes in inventory of finished goods and work-in-process inventories” due to the assessment of the stock of finished products at their productions cost.

At 31 December 2008 the amount of the stocked assets at fair value less the necessary costs for their sale amounted to EUR 93 million and the impact on the income statements by the market valuation thereof was a profit of EUR 2 million. At 31 December 2007 these stocked assets amounted to EUR 144 million and the impact in the consolidated income statement due to the market valuation thereof was a loss of EUR 3 million.

The Repsol YPF Group complies, both at 31 December 2008 and at 31 December 2007,

with the requirements regarding minimum safety stocks established by the applicable laws (see Note 2), through the Spanish companies integrating the Group.

(17) EQUITY

Changes in equity for the periods 2008 and 2007 are as follows:

Millions of euros	Net equity attributable to the parent company							
	Equity				Adjustments for changes in value	Total net equity attributable to the parent company	Minority interests	Total net equity
	Share capital	Share premium and reserves	Treasury shares	Results attributable to the parent company				
Final balance at 31/12/2006	1,221	13,457	-	3,124	(369)	17,433	609	18,042
Adjustments	-	-	-	-	-	-	-	-

17.1) Share Capital

The share capital at 31 December 2008 and 2007 consisted of 1,220,863,463 fully subscribed and paid up shares of 1 euro par value each, all listed on the continuous Spanish, New York Stock Exchanges and Buenos Aires stock exchange.

Repsol YPF's bylaws limit the maximum number of votes that any single shareholder or companies belonging to the same group may cast at the General Meeting at 10% of the voting stock.

Per the most recent information available to Repsol YPF the company's most significant

shareholders were the following:

Shareholder	% total over share equity
Sacyr Vallehermoso, S.A. (1)	20.01
Criteria Caixa Corp. (2)	14.31
Petróleos Mexicanos (3)	4.81

- (1) Sacyr Vallehermoso, S.A. holds its stake through Sacyr Vallehermoso Participaciones Mobiliarias, S.L.
- (2) Criteria Caixa Corp. owns 9.28% directly and 5.02% indirectly through Repinves, S.A. (a company where Criteria Caixa Corp. holds a 67.60%)
- (3) Petróleos Mexicanos (Pemex) holds its stake through Pemex Internacional España, S.A. and through several swap instruments (equity swaps) with certain financial entities which established certain mechanisms that enable Pemex to exercise the economic and political rights of a percentage of up to 4.81% of the share capital of the Company.

Additionally, the companies Barclays Global Investors, NA, Barclays Global Investors, Ltd. Barclays Global Fund Advisors and Barclays Global Investors (Deutschland) AG notified the CNMV on 18 January 2008 of the existence of a shareholders' voting agreement with respect to shares representing a 3.22% stake in Repsol YPF. According to the information provided to the CNMV, the Barclays entities are fund management companies to which their parent company (Barclays Global Investors UK Holdings, Ltd.) does not give direct or indirect instructions in respect of the exercise of the voting rights by fund management companies.

At 31 December 2008, the following Group companies' shares were publicly listed:

Company	Number of listed shares	% of share capital listed	Stock exchanges	Year-end market price	Average last quarter	Currency
Repsol YPF, S.A.	1,220,863,463	100%	Spanish stock exchange (Madrid, Barcelona, Bilbao, Valencia)	15.10	15.52	euros
			Buenos Aires stock exchange	72.90	73.03	pesos
			New York stock exchange	21.51	20.51	dollars
Gas Natural SDG, S.A.	447,776,028	100%	Spanish stock exchange (Madrid, Barcelona, Bilbao, Valencia)	19.29	22.28	euros
YPF	393,312,793	100%	Buenos Aires stock exchange	160.00	156.96	pesos
			New York stock exchange	46.00	46.11	dollars
Refinería La Pampilla, S.A.	36,063,999	100%	Lima stock exchange	11.00	13.02	Soles
YPFB Andina, S.A. (formerly, Empresa Petrolera Andina, S.A.) (1)	13,439,520	100%	Bolivian stock exchange			
Compañía Logística de Hidrocarburos, CLH	1,779,049	2.54%				
Series A	90,000	100.00%	Spanish stock exchange	49.00	41.46	euros
Series D	1,689,049	100.00%	(Madrid, Barcelona, Bilbao, Valencia)			

(1) YPFB Andina, S.A. has not had any movement during 2008.

17.2) Share Premium

The share premium at 31 December 2008 and 2007 amounted to EUR 6,428 million. The Consolidated Companies Law expressly permits the use of the share premium account balance to increase capital and does not establish any specific restrictions as to its use.

17.3) Reserves

Legal Reserve

Under the Limited Company Law, 10% of net income for each year must be transferred to the legal reserve until the balance of this reserve reaches at least 20% of the share capital. The legal reserve can be used to increase capital provided that the remaining reserve balance does not fall below 10% of the increased share capital amount. Otherwise, until the legal reserve exceeds 20% of share capital, it can only be used to offset losses, provided that sufficient other reserves are not available for this purpose.

Revaluation Reserve

The balance of “Revaluation Reserve” (Royal Decree-Law 7/1996) can be used, free of tax, to offset losses (both prior years' accumulated losses, current year losses or losses which might arise in the future), and to increase capital. From 1 January 2007, the balance of this account can be taken to unrestricted reserves, provided that the monetary

surplus has been realised. The surplus will be deemed to have been realised in respect of the portion on which depreciation has been taken for accounting purposes or when the revalued assets have been transferred or derecognised. The distribution of these reserves would give rise to entitlement to a dividend double taxation tax credit. If this balance were used in a manner other than as provided for in Royal Decree-Law 7/1996, it would be subject to taxation.

Others reserves

It includes (i) the transition to IFRS reserve, which comprises the adjustments related to the differences between the previous accounting principles and the IFRS, from events and transactions before the transition date to IFRS (1 January 2004) and (ii) all the results created and not distributed as dividends, which had not been recognised in any of the different reserves previously mentioned.

17.4) Treasury shares

The Ordinary Shareholders Meeting, held on 14 May 2008, authorised the Board of Directors, for a period of eighteen months, to pursue the acquisition of Repsol YPF shares, directly or through controlled companies, up to a maximum of shares that, added to the ones already owned by Repsol YPF, S.A. and any of its subsidiaries, do not exceed 5% of the share capital and for a consideration price or value neither minor than the par value nor higher than its market quotation. This agreement rendered set aside the authorisation in the same terms and for the same period passed by in the previous Ordinary Shareholders Meeting held on 9 May 2007.

By virtue of the aforementioned authorisations Repsol YPF has acquired during 2008 12,924,428 Treasury shares, representing 1.06% of the share capital, for an amount of EUR 261.73 million, with a par value of EUR 12.92 million. Likewise, Repsol YPF has disposed of in the period 695,000 shares, for an amount of EUR 17.5 million whose par value amounted to EUR 0.69 million. The gains realized in these transactions were EUR 0.6 million recorded under the heading “Treasury shares” in Equity. At 31 December 2008 the Group held 12,229,428 shares of the parent company, whose acquisition cost amounted to EUR 244.79 million.

During the year 2007, and under the previous authorisations granted by the Ordinary Shareholders Meeting, 4,462,665 Treasury shares were purchased, which represented

0.366% of the share capital, for an amount of EUR 110.69 million, with a par value of EUR 4.46 million. Likewise, the same number of shares (4,462,665 shares) was disposed of for an amount of EUR 114.30 million. The resulting figure of these transactions was EUR 3.61 million recognised in the heading “Treasury shares” in Equity.

17.5) Adjustments for change in value

This heading includes:

Financial assets available for sale

It comprises the profits and losses, net of the related tax effect, corresponding to changes in the fair value of non-monetary assets classified within the category of Financial assets available for sale.

Hedge transactions

It comprises the effective part, net of the related tax effect, of changes in the fair value of derivative instruments defined as cash flow hedges (see heading 4.22 of the Note 4 and Note 38).

Translation differences

These relate to exchange differences recognised in equity as a result of the consolidation process described in Note 3, and the measurement at fair value of the financial instruments assigned as net investment hedges in foreign transactions in accordance to the method described under the heading 4.22 of the Note 4 (see Note 38).

17.6) Minority interests

The equity attributable to minority interests at 31 December 2008 and 2007 relates to the following companies:

	Millions of euros	
	2008	2007
Refinería La Pampilla, S.A.	69	107
Empresa Petrolera Andina	-	228
Petronor, S.A.	85	97
YPF, S.A. (1)	879	61
CEG y CEG Río	40	47
Repsol Comercial de P.P., S.A.	27	28
Gas Natural ESP	27	26
Gas Natural México, S.A. de CV	13	14
EMPL	11	9
Others companies	19	34
Total	1,170	651

(1) The change is due to the sale of a stake in this company in the period (see Note 31).

(18) DIVIDENDS

The details of the dividend payments in 2008 and 2007 are as follows:

	31/12/2008			31/12/2007		
	Nominal %	Euros per share	Amount	Nominal %	Euros per share	Amount
Ordinary shares	100%	1.00	1,220	72%	0.72	880
Remaining shares (without vote, recovery, etc.)	-	-	-	-	-	-
Total dividends paid						
a) Dividends charged to results (1)	100%	1.00	1,220	72%	0.72	880
b) Dividends charges to reserves or share premium	-	-	-	-	-	-
c) Dividends in kind	-	-	-	-	-	-

(1) This amount includes EUR 3 million in dividends corresponding to Treasury shares.

The interim dividend for 2008 and 2007 gather the gross dividend per share distributed by Repsol YPF, S.A. on account of the profits of each year. In 2008 the amount accrued by Repsol YPF, S.A. amounted to EUR 641 million, however the amount reflected in the present consolidated balance sheet is EUR 634 million (0.525 gross euros per share multiplied by the number of shares not held by Repsol YPF at 31 December 2008) and in 2007 to EUR 610 million (0.50 gross euros per share).

The final dividend subject to the period 2007, approved by the General Shareholders Meeting of Repsol YPF, S.A. held on 14 May 2008, amounted to EUR 610 million (0.50 gross euros per share). From this amount, EUR 3 million correspond to Treasury shares owned on the payment date thereof.

The proposal for distribution of results for the 2008, which will be subject to approval in the next General Meeting, proposes the distribution of a final dividend corresponding to 2008 payable as of 9 July 2009 and amounting to EUR 641 million (0.525 gross euros per share).

Based on the present balance sheet and the undrawn credit lines available, at the date of approval of the dividend, Repsol YPF, S.A. had sufficient liquidity for payment of the dividend pursuant to Articles 194.3 and 216 of the Joint Stock Companies Act.

(19) FINANCIAL LIABILITIES

Following is a breakdown of the items included in the consolidated balance sheet corresponding to financial liabilities:

	<u>Millions of euros</u>	
	<u>2008</u>	<u>2007</u>
Non-current financial liabilities	10,315	10,065
Non-current derivatives on trading transactions (1)	5	-
Current financial liabilities	1,788	1,501
Current derivatives on trading transactions (2)	23	17
	<u>12,131</u>	<u>11,583</u>

(1) Recorded under the item "Other non-current liabilities" in the consolidated balance sheet.

(2) Recorded under the item "Other creditors" in the consolidated balance sheet.

Following is a breakdown of the financial liabilities acquired, most with personal guarantee, at 31 December 2008 and 2007:

31 December 2008					
Carrying value					
	Financial liabilities held for trading	Debts and payable items	Derivatives for hedging	Total	Fair value
Debts with credit entities	-	1,845	-	1,845	1,845
Obligations and other negotiable securities (1)	-	8,156	-	8,156	7,914
Derivatives	34	-	285	319	319
Long-term debts / Non-current financial liabilities	34	10,001	285	10,320	10,078
Debts with credit entities	-	1,491	-	1,491	1,492
Obligations and other negotiable securities	-	251	-	251	245
Derivatives	54	-	15	69	69
Short-term debts / Current financial liabilities	54	1,742	15	1,811	1,806
TOTAL	88	11,743	300	12,131	11,884

31 December 2007					
Carrying value					
	Financial liabilities held for trading	Debts and payable items	Derivatives for hedging	Total	Fair value
Debts with credit entities	-	1,700	-	1,700	1,693
Obligations and other negotiable securities (1)	-	8,183	-	8,183	8,184
Derivatives	170	-	12	182	182
Long-term debts / Non-current financial liabilities	170	9,883	12	10,065	10,059
Debts with credit entities	-	1,284	-	1,284	1,284
Obligations and other negotiable securities	-	199	-	199	199
Derivatives	11	-	24	35	35
Short-term debts / Current financial liabilities	11	1,483	24	1,518	1,518
TOTAL	181	11,366	36	11,583	11,577

(1) Includes preference shares amounting to EUR 3,524 million and EUR 3,418 million at 31 December 2008 and 2007, respectively.

Note: At 31 December 2008 and 2007, the amounts of EUR 721 million and EUR 632 million were shown under the caption "Other non-current liabilities" and EUR 31 million and EUR 61 million under "Other creditors", corresponding to capital leasing recorded under the amortized cost method (see Note 23).

Disclosure of currency and maturities relevant to Repsol YPF's funding at 31 December 2008 and 2007 is provided in paragraph 5.2 of the Note 5, concerning liquidity risk.

Repsol YPF obtains financing mainly in dollars, either directly or by exchange rate derivatives (see Note 38.3 Net investment hedges).

The detail of the average financing and the cost thereof by instrument is as follows:

	2008		2007	
	Average volume	Average cost	Average volume	Average cost
Debts with credit entities	3,363	5.61%	2,950	6.62%
Preference shares	3,423	6.02%	3,433	5.48%
Obligations	4,809	5.28%	4,844	5.30%
	<u>11,595</u>	<u>5.59%</u>	<u>11,227</u>	<u>5.70%</u>

In general, the financial debt agreements include the early maturity clauses customary in agreements of this nature.

Bond issues, representing ordinary debt, of Repsol International Finance, BV and guaranteed by Repsol YPF, S.A., totaling EUR 4,416 million (relating to a face value of EUR 4,425 million), contain certain so-called “cross-default” clauses whereby in the event of default, the custodian-trustee bank, at its sole discretion or at the request of the holders of at least one-fifth of the debentures, or by means of an extraordinary resolution, can declare all the aforementioned debentures issues due and payable.

Additionally, in relation to certain negotiable debenture issues totaling EUR 118 million (relating to a face value of EUR 119 million), YPF, S.A. agreed to certain clauses, including among others, “cross-default” clauses, and not to create any liens or charges on its assets in excess of 15% of the total consolidated assets. In the event of default where to occur, the trustee or the holders of at least 25% of the total principal of the debentures may declare due and immediately payable the principal and accrued interest on all the debentures.

Following is a breakdown of issuances, repurchases and reimbursements of debt securities (recorded under the caption “Obligations and other negotiable securities”) taken place during 2008 and 2007:

	Balance at 31/12/2007	(+) Issuances	(-) Repurchases or reimbursements	(+/-) Exchange- rate and other adjustments	Balance at 31/12/2008
Bonds and other debt securities issued by the European Union with prospectus	7,682	186	(186)	74	7,756
Bonds and other debt securities issued outside the European Union	700	-	(77)	28	651
TOTAL	8,382	186	(263)	102	8,407

	Balance at 31/12/2006	(+) Issuances	(-) Repurchases and reimbursements	(+/-) Exchange- rate and other adjustments	Balance at 31/12/2007
Bonds and other debt securities issued by the European Union with prospectus (1)	6,391	1,250	1	40	7,682
Bonds and other debt instruments issued by the European Union without prospectus	1	-	(1)	-	-
Bonds and other debt securities issued outside the European Union	1,140	40	(381)	(99)	700
TOTAL	7,532	1,290	(381)	(59)	8,382

(1) On 16 February 2007, Repsol YPF, through its subsidiary, Repsol International Finance, B.V. (The Netherlands) issued guaranteed bonds in the amount of EUR 750 million, maturing in 2012, at a variable interest rate of 3 months Euribor + 0.25% and EUR 500 million maturing in 2017 at a fixed rate of 4.75%. The outstanding balance at 31 December 2008 amounts to EUR 1,247 million and the credit rating of this issuance is Fitch BBB+, Moody's Baa1 and S&P BBB.

Issues guaranteed by Repsol YPF conducted by its Group affiliates during 2008 and 2007 are as follows:

	Balance at 31/12/2007	(+) Granted	(-) Cancelled	(+/-) Exchange- rate and other adjustments	Balance at 31/12/2008
Issues of securities representing debt guaranteed by the Group (guaranteed amount)	4,425	-	-	-	4,425

	Balance at 31/12/2006	(+) Granted	(-) Cancelled	(+/-) Exchange- rate and other adjustments	Balance at 31/12/2007
Issues of securities representing debt guaranteed by the Group (guaranteed amount)	3,175	1,250	-	-	4,425

Preference Shares

In October 1997 the Repsol YPF Group, through its subsidiary Repsol International Capital, issued preference shares of this company amounting to 725 million dollars under the following terms:

- Annual dividend: 7.45%, payable quarterly.
- Term: perpetual, with the option for the issuer of early redemption from the fifth year onwards at face value.
- Guarantee: subordinated Repsol YPF, S.A. guarantee.
- Remuneration: payment of preference dividends is conditional upon the obtainment of a consolidated profit or upon the payment of dividends on common shares. If no dividend accrues, there is no subsequent obligation to pay it.

In May and December 2001 Repsol International Capital launched two new issues of preference shares amounting to EUR 1,000 million and EUR 2,000 million, respectively, under the following terms:

- Dividend: variable at a rate of 3-month Euribor with a minimum of 4% APR and a maximum of 7% APR for the first 10 years, and Euribor plus 3.5% from the tenth year onwards. The dividend is payable quarterly.
- Term: perpetual, with the option for the issuer of early redemption from the tenth year onwards at face value.
- Guarantee: subordinated Repsol YPF, S.A. guarantee.
- Remuneration: preference, non-cumulative dividends, conditional upon the obtainment of a consolidated profit or upon the payment of dividends on common shares.

The carrying amount of these instruments at 31 December 2008 and 2007 amounted to EUR 3,524 million and EUR 3,418 million, respectively, recorded under the item “Debts with credit entities” and “Obligations and other negotiable securities” in the accompanying consolidated balance sheet in Preference shares.

(20) PROVISIONS FOR CONTINGENCIES AND EXPENSES

The detail of provisions for contingencies and expenses at 31 December 2008 and 2007,

and of the changes therein in 2008 and 2007 is as follows:

	Millions of Euros						
	Long-Term Provisions				Short-Term Provisions		
	Provision for Pensions (1)	Provision for Field Dismantling Costs	Other Provisions	Total	Provision for Pensions (1)	Other Provisions	Total
Balance at 1 January 2007	75	855	1,730	2,660	11	286	297
Period provisions charged to income (2)	10	62	443	515	2	85	87
Reversals of provisions with a credit to income (3)	(4)	(2)	(122)	(128)	(1)	(3)	(4)
Provisions released due to payment	(3)	(15)	(139)	(157)	(13)	(130)	(143)
Changes in the scope of consolidation	-	-	-	-	-	(2)	(2)
Translation differences	(7)	(84)	(102)	(193)	-	(15)	(15)
Reclassifications and other changes (4)	(5)	115	(242)	(132)	4	62	66
Balance at 31 December 2007	66	931	1,568	2,565	3	283	286
Period provisions charged to income (2)	2	82	627	711	2	39	41
Reversals of provisions with a credit to income (3)	(2)	(1)	(160)	(163)	-	(7)	(7)
Provisions released due to payment	(9)	(19)	(98)	(126)	-	(233)	(233)
Changes in the scope of consolidation	(10)	(9)	(7)	(26)	(1)	(1)	(2)
Translation differences	-	49	51	100	-	10	10
Reclassifications and other changes (4)	1	68	(420)	(351)	5	337	342
Balance at 31 December 2008	48	1,101	1,561	2,710	9	428	437

(1) See Note 21.

(2) In 2007, “Other provisions” relates mainly to (i) personnel restructuring plans (EUR 22 million), (ii) environmental contingencies (EUR 90 million) and (iii) litigation (EUR 246 million). It also included EUR 144 million related to the discount to present value of the provisions. In 2008, “Other provisions” includes (i) a provision of EUR 208 million for the CO₂ emissions made during the year, (ii) a provision of EUR 133 million for environmental contingencies, and (iii) EUR 82 million for litigation. It also comprises EUR 151 million for financial updates in the provisions.

(3) Includes the write-off of provisions for certain items recognised by the Group companies in several countries, due to changes in the circumstances under which the provision had been previously recognised.

(4) “Provision for field dismantling costs” includes EUR 68 million and EUR 54 million in 2008 and 2007, respectively, corresponding to tangible assets additions and the provision made during these years due to the dismantling of fields.

(21) PROVISION FOR PENSIONS AND SIMILAR OBLIGATIONS

a) Defined contribution plans

Repsol YPF has defined contribution plans for certain employees, the main features of which are described in Note 4.16.

The annual cost charged to “Personnel expenses” in the consolidated income statement in relation to these pension plans amounted to EUR 41 million and EUR 37 million in 2008 and 2007, respectively.

With respect to the defined contribution plans for management with guaranteed determined profitability, the cost charged in 2008 and 2007 amounted to EUR 6 million and EUR 9 million, respectively, and is recorded in the income statement under “Personnel expenses”.

b) Defined benefit plans

- b.1) An YPF subsidiary grants pension plans, medical insurance plans, life insurance and other employee benefits and benefits for health and risk of death

At 31 December 2007, such company had non-contributory pension plans managed by third parties for its full-time employees. The benefits provided by these plans were based on years of service and the remuneration earned during years of employment.

The liability recognised for pension plans at 31 December 2007 amounted to EUR 11 million. These amounts arose mainly from employee benefit obligations (EUR 76 million) less the fair value of the plan assets and net of unrecognised actuarial losses, amounting to EUR 65 million.

During March 2008, this subsidiary entered into a number of agreements with Prudential Insurance Company to cancel the obligations assumed in connection with two of the non-contributory pension plans, paying a premium of 115 million dollars (EUR 83 million). Prudential assumed the obligations under these plans on 20 March 2008.

At 31 December 2008, the company maintains a non-contributory pension plan which has not been cancelled, for executives, key management personnel, as well as former employees, who worked at some of the Group companies of this subsidiary. The amount recorded in the 2008 consolidated income statements for this plan arises to EUR 1 million. The related liability recorded at 31 December 2008 amounts to EUR 3 million, corresponding to employee benefit obligations.

Also, this company provides medical insurance benefits, life insurance benefits and other employee benefits to certain of its employees who retire early; the company also pays benefits for health and risk of death to disabled employees and benefits for risk of death to retired executives. The benefit recorded in the 2008 consolidated income statement corresponding to these plans amounts to EUR 4 million (which includes a benefit in the amount of EUR 6 million corresponding to amounts recovered due to plan changes). The expense recorded in the 2007 consolidated income statement account amounted to EUR 2 million.

- b.2) The Gas Natural Group also has pension plans for employees in Spain, Brazil and Italy. The amounts recognised under " Non-Current provisions" in the consolidated balance sheet to cover these obligations totalled EUR 21 million and EUR 20 million at 31 December 2008 and 2007, respectively.
- b.3) Additionally, USA Holdings, Inc., an affiliate, grants medical service benefits, life insurance and other welfare benefits to some of its retired employees. The liability recorded to this effect in the consolidated financial statements amounts to EUR 1 million at 31 December 2008 and 2007. This plan does not have any related assets at 31 December 2008. Actuarial losses unrecognized at that date are less than EUR 1 million.

(22) SUBSIDIES AND OTHER NON-CURRENT LIABILITIES

The subsidies recorded in the consolidated balance sheet amount to EUR 108 million and EUR 109 million in 2008 and 2007, respectively, and correspond mainly to subsidies for the construction of gas infrastructure (EUR 87 million and EUR 73 million in 2008 and 2007, respectively).

The consolidated income statement includes income EUR 13 million and EUR 8 million in 2008 and 2007, respectively, relating to the subsidies recognised in profit. Also, subsidies related to income recognised in profit amounted to EUR 5 million in 2008 and 2007.

The caption "Other non-current liabilities" includes the items listed below:

	Millions of euros	
	2008	2007
Obligations under finance leases (see Note 23)	721	632
Guarantees and deposits (1)	241	221
Other deferred income	140	169
Other	349	413
Total	1,451	1,435

(1) The heading "Guarantees and Deposits" mainly relates to the deposits collected by Repsol Butano, S.A. from the users of gas bottles in accordance with the applicable legal regulations. These amounts are refundable when the corresponding contracts are cancelled.

(23) OBLIGATIONS UNDER FINANCE LEASES

The detail of the amounts payable under finance leases at 31 December 2008 and 2007 is as follows:

	Lease Payments		Present Value of Minimum Lease Payments	
	2008	2007	2008	2007
Within one year	66	63	31	61
Between two and five years	292	248	145	205
After five years	1,003	902	576	427
	1,361	1,213	752	693
Less:				
Future finance costs	(609)	(520)		
	752	693		
Recognised as:				
Non-current obligations under finance leases			721	632
Current obligations under finance leases			31	61
			752	693

The finance leases relate mainly to methane vessels for the transportation of LNG, maturing in the period from 2022 to 2032.

(24) TRADE DEBTS AND ACCOUNTS PAYABLE

In 2008 and 2007 Repsol YPF had the following accounts payable classified under "Trade debts and accounts payable":

	Millions of euros	
	2008	2007
Suppliers	2,878	4,491
Other creditors		
Obligations under finance leases (Note 23)	31	61
Tax Payables	840	934
Hedged items and derivatives on trading transactions at fair value	23	67
Other	4,133	3,285
Income tax liabilities	290	730
Total	<u>8,195</u>	<u>9,568</u>

The fair value of these current items does not differ significantly from their carrying amount.

(25) TAX MATTERS

Income tax

In view of the geographical dispersion and markedly international nature of the business activities carried on by the companies comprising the Repsol YPF Group, the Group is subject to various different tax and income tax jurisdictions.

a) In Spain

Most of the entities resident in Spain pay income tax under the special consolidation regime. Under this regime, the companies in the Consolidated Tax Group jointly determine the Group's taxable profit and tax charge, which is allocated among the companies in the Tax Group in accordance with the criteria established by the Spanish Accounting and Audit Institute (ICAC) for the recognition and determination of the individual tax charge.

Repsol YPF, S.A. is the Parent of Consolidated Tax Group 6/80, which includes all the companies resident in Spain that are directly or indirectly at least 75% owned by the Parent and that meet certain requirements. This Group consisted of 48 companies in 2008, of which the main companies in terms of volume of business were as follows: Repsol YPF, S.A., Repsol Petróleo, S.A., Repsol YPF Trading y Transporte, S.A., Repsol Química, S.A., Repsol Butano, S.A., Repsol Exploración, S.A. and Repsol Comercial de Productos Petrolíferos, S.A.

Petróleos del Norte, S.A. is the Parent of Consolidated Tax Group 02/01/B, which includes another company that pays income tax under the Vizcaya Corporation Tax regulations.

Also, the consolidated financial statements include, through proportional consolidation, all the corporation tax items of the Gas Natural Group. This Group is also taxed for corporation tax purposes under the special consolidated tax regime in Consolidated Tax Group 59/93, of which Gas Natural SDG, S.A. is the Parent. The main companies of this Tax Group, in terms of volume of business, were as follows: Gas Natural SDG, S.A., Gas Natural Castilla León, S.A., Gas Natural Distribución SDG, S.A., Gas Comercial Comercializadora, S.A. and Gas Natural Aprovisionamientos, S.A.

Lastly, the other companies resident in Spain and not included in either of the aforementioned Tax Groups file individual corporation tax returns.

The Spanish companies, whether they pay tax on an individual or consolidated basis, apply the standard rate of 30%, with the exception of Repsol Investigaciones Petrolíferas, S.A., which is taxed individually at a rate of 35% under the Special Oil and Gas Regime, and Petróleos del Norte, S.A., which pays tax at 28% under the Vizcaya Corporation Tax regulations.

b) In Argentina

The Group companies resident in Argentina file individual tax returns at a rate of 35%. Also, they calculate the Presumed minimum income tax by applying the current tax rate of 1% of the computable assets at the balance sheet date, which may supplement the regular income tax. The tax obligation for each year will coincide with the higher of the two taxes. However, if the Presumed minimum income tax exceeds the regular income tax, this excess can be computed as a prepayment of the amount by which the regular income tax exceeds the Presumed minimum income tax in the following ten years.

c) In the other countries

The other Group companies are taxed in each of the countries in which they operate by applying the prevailing income tax rate to their profit or loss for the year. In

addition, presumed minimum income taxes supplementing the regular income tax are recognised in certain countries.

Also, it should be noted that the Group companies resident in Spain and Argentina that carry on a portion of their business activities in other countries are subject to the income tax in force in those countries on the portion of their profit or loss obtained there. This is the case of the branches of the Spanish companies that carry on oil and gas exploration and production activities in other companies (such as Libya, Algeria, Peru or Ecuador).

The (nominal) income tax rates applicable in the main jurisdictions where the Group operates are as follows:

- Libya: 65%
- Algeria: 38% plus the Tax on Extraordinary Income (TPE)
- Trinidad and Tobago: 35%, 55% y 57.25%
- United States: 35%
- Brazil: 34%
- Ecuador: 25%
- Peru: 30%
- Bolivia: 25%
- Venezuela: 34% y 50%
- The Netherlands: 25.5%
- Portugal: 26.5%

Income tax expense for accounting purposes

The detail of the income tax expense for accounting purposes in 2008 and 2007, calculated on the basis of the criteria indicated in Note 3, is as follows:

	Millions of Euros			
	2008			
	Spanish Companies	Argentine Companies	Other Companies	TOTAL
Accounting profit before tax	2,554	1,239	918	4,711
<u>Adjustment to accounting profit:</u>				
Non-temporary differences	1,600	280	(17)	1,863
Temporary differences	(829)	(45)	(53)	(927)
Taxable profit	3,325	1,474	848	5,647
Tax charge	994	516	476	1,986
Tax credits	(996)	-	-	(996)
Current tax payable	(2)	516	476	990
Ajustments to current tax and foreign taxes	751	10	128	889
Total current income tax expense	749	526	604	1,879
Deferred tax for the year	(89)	39	49	(1)
Other adjustments to the income tax expense	209	(23)	(124)	62
Total deferred tax expense	120	16	(75)	61
Total income tax expense	869	542	529	1,940

	Millions of Euros			
	2007			
	Spanish Companies	Argentine Companies	Other Companies	TOTAL
Accounting profit before tax	3,118	1,289	1,177	5,584
<u>Adjustment to accounting profit:</u>				
Non-temporary differences	(1,050)	99	(68)	(1,019)
Temporary differences	204	575	(219)	560
Taxable profit	2,272	1,963	890	5,125
Tax charge	714	687	476	1,877
Tax credits	(299)	-	(1)	(300)
Current tax payable	415	687	475	1,577
Ajustments to current tax and foreign taxes	1,001	(18)	29	1,012
Total current income tax expense	1,416	669	504	2,589
Deferred tax for the year	(67)	(201)	(5)	(273)
Other adjustments to the income tax expense	66	19	(63)	22
Total deferred tax expense	(1)	(182)	(68)	(251)
Total income tax expense	1,415	487	436	2,338

The detail of the deferred tax assets and liabilities recognised in the consolidated balance sheet is as follows:

	Millions of euros		
	2008	2007	Variation
<u>Deferred tax assets:</u>			
Provisions for doubtful accounts	37	34	3
Provisions for staff costs	44	58	(14)
Provision for contingencies	167	146	21
Other provisions	326	254	72
Tax assets	486	194	292
Other deferred tax assets	403	334	69
	<u>1,463</u>	<u>1,020</u>	<u>443</u>
<u>Deferred tax liabilities:</u>			
Tax incentives	(49)	(25)	(24)
Deferred gains	(61)	(139)	78
Difference in amortisation/depreciation	(679)	(620)	(59)
Functional currency	(704)	(548)	(156)
Goodwill acquired in business combinations	(788)	(890)	102
Other deferred tax liabilities	(273)	(251)	(22)
	<u>(2,554)</u>	<u>(2,473)</u>	<u>(81)</u>

The Group did not recognised deferred tax assets in the amount of EUR 415 million and EUR 472 million in 2008 and 2007, respectively, corresponding mainly to tax losses carried forward and unused deductions, as these did not fulfill the criteria for registration in accordance with IFRS.

In 2008, the Group has not recorded deferred tax liabilities in the amount of EUR 91 million, as it corresponds to taxable temporary differences related to investments in subsidiaries, branches and associated companies that meet the requirements established in IFRS to apply the recognition exception.

Other tax-related disclosures

Deductions taken in 2008 amount to EUR 996 million, arising mainly from the mechanics to avoid double taxation, both domestically and internationally, and to a lesser degree, from investments made.

Judicial and administrative decisions have been taken both in this period and in previous periods, leading to tax consequences contrary to the Group's expectations.

Repsol YPF considers that it has acted lawfully in these matters at all times and that its actions are based on reasonable interpretations of the applicable legislation and, therefore, it has filed the appropriate appeals to defend its interests and those of its shareholders.

However, in view of the uncertainty concerning the materialisation of the existing tax contingencies, at year-end the Group had recognised provisions under "Other Provisions"

(see Note 20) that were considered adequate to cover those tax contingencies. The amount recorded in the balance sheet at 31 December 2008 and 2007 for this item amounted to EUR 520 million and EUR 524 million respectively. Such provision relates to the vast number of actions, none of which, individually, represents a significant percentage of such provision.

(26) JOINT VENTURES

The main joint ventures owned by the Group at 31 December 2008 in the detailed Appendix I are the following:

Company	% of Ownership
Atlantic LNG 2/3 Company of Trinidad & Tobago	25.00%
Bahía de Bizkaia Electricidad, S.L.	25.00%
Bahía de Bizkaia Gas, S.L.	25.00%
BPRY Caribbean Ventures LLC	30.00%
Compañía Mega	38.00%
Empresas Lipigas, S.A.	45.00%
YPFB Andina, S.A. (formerly, Empresa Petrolera Andina)	48.92%
Grupo Gas Natural SDG, S.A.	30.85%
Petroquiriquire, S.A.	40.00%
Pluspetrol Energy, S.A.	45.00%
Profertil, S.A.	50.00%
Quiriquire Gas, S.A.	60.00%
Refinería del Norte, S.A. (Refinor)	50.00%
Repsol Gas Natural LNG, S.L.	50.00%
Repsol Occidental Corporation	25.00%

The detail of the amounts included under the main headings in the consolidated financial statements as a result of the proportionate consolidation of the joint ventures at 31 December 2008 and 2007, is as follows:

	Millions of euros	
	2008	2007
Current Assets.....	2,482	2,079
Non-Current Assets.....	6,047	5,557
Current Liabilities	2,376	2,253
Non-Current Liabilities.....	3,305	2,724
Income.....	7,659	6,883
Expenses.....	(6,674)	(6,046)

Also, at 31 December 2008 and 2007, the Group had interests in the jointly controlled

assets and operations indicated in Appendix II, as a result of which it obtains income and incurs expenses on the basis of its percentage of ownership.

(27) INCOME AND EXPENSES FROM CONTINUING OPERATIONS

The detail of income and expenses from operations in the periods 2008 and 2007 is as follows:

	Millions of Euros	
	2008	2007
<u>Revenue</u>		
Sales	57,740	52,098
Services rendered and other income	1,892	1,767
Change in inventories of finished goods and work in progress inventories	(274)	387
Income from reversal of impairment losses (1)	57	150
Gains on disposal of non-current assets (2)	126	694
Allocation of subsidies on non-financial assets and other subsidies	18	13
Other operating income	1,416	814
	<u>60,975</u>	<u>55,923</u>
<u>Expenses</u>		
Procurements	(40,101)	(36,699)
Changes in inventories	(760)	405
Personnel expenses	(2,016)	(1,855)
Taxes other than income tax	(2,501)	(1,915)
Outside services (3)	(5,204)	(4,932)
Transport and freight costs	(1,198)	(1,140)
Depreciation and amortisation charge (3)	(3,091)	(3,141)
Impairment losses recognised (1)	(107)	(220)
Losses on disposal of non-current assets	(28)	(25)
Other operating expense	(886)	(593)
	<u>(55,892)</u>	<u>(50,115)</u>

(1) See Note 12.

(2) In 2007 relating mainly to the gains described in the following paragraph and to the profits of the sale of 10% stake of CLH (EUR 315 million).

(3) Exploration costs totaled EUR 571 million and EUR 592 million in 2008 and 2007, respectively, recorded as amortization and external services.

On 30 July 2007 Repsol YPF, S.A. entered into an agreement whereby it sold to Caja Madrid the lot where an office building is under construction in Madrid, as well as the finished works on it, for EUR 815 million. In the same agreement Repsol YPF, S.A. undertook to continue the promotion and development of the pending construction works, with the aim of completing the cited office building. Because of the sale of the lot there was a surplus of EUR 211 million recorded under the item "Gains on disposal of non-current assets".

(28) FINANCE INCOME AND COSTS

The detail of the finance income and costs recognised in 2008 and 2007 is as follows:

	Millions of Euros	
	2008	2007
Interest income	228	168
Borrowing costs	(521)	(470)
Expenses relating to preference shares	(209)	(191)
Financing interest (Note 7)	67	95
Update of provisions	(144)	(144)
Net exchange differences	212	266
Dividend income	17	5
Revenues / (expenses) due to valuation of derivatives and other financial assets at fair value (see Note 38)	(19)	68
Other income/(expenses)	(3)	(21)
	<u>(372)</u>	<u>(224)</u>

(29) SEGMENT REPORTING

In 2007, the Board of Directors approved a new structure intended to support the company's growth projects, as well as to establish the basis for future developments. The main lines of this structure are as follows:

- Three integrated strategic businesses:
 - Upstream, corresponding to the exploration and the development operations of crude oil and natural gas reserves, except in YPF;
 - LNG corresponding to the Liquid Natural Gas business, except in YPF; and
 - Downstream, corresponding to refining, sales activities for oil products, chemicals and LPG, except in YPF.

- Two participations in strategic companies:
 - YPF, which includes the operations of YPF, S.A. and its group companies in all the businesses mentioned above; and
 - Gas Natural SDG, corresponding to the sales activities for natural gas and power generation.

As a result of this change, the segment information of the Repsol YPF Group starting on 1 January 2008, were published according to this new organization. To facilitate a comparison of change in such financial information with the data corresponding to 2007 these are presented using the same criteria as the data corresponding to 2008.

All financial and business-related information prior to 1 January 2008 was published according to the segment structure previously in effect, given the fact that the new organizational structure and related information systems were not completely developed at that time.

The detail of the main aggregates in Repsol YPF's income statement on the basis of this new classification is as follows:

<u>Operating revenue</u>	Millions of euros					
	Operating revenue external		Operating revenue inter-segment		Total operating revenue	
	31/12/2008	31/12/2007	31/12/2008	31/12/2007	31/12/2008	31/12/2007
<u>Segments</u>

Result of companies accounted for using the equity method	(13)	58	63	(1)	2	-	109

- (1) Includes investments accounted for using the equity method.
- (2) Includes “Subsidies”, “Current and non-current provisions”, “Other non-current liabilities”, “Liabilities linked to non-current assets available for sale” and “Suppliers and other creditors” lines in the consolidated balance sheet.
- (3) Includes those income/(expenses) that do not entail cash outflows other than changes in depreciation/amortisation or net impairment losses.

The detail of the main aggregates by geographical area is as follows:

	Millions of euros					
	Operating income		Investments		Assets	
	2008	2007	2008	2007	2008	2007
Upstream	2,258	1,882	1,184	1,439	8,801	8,475
North America and Brazil	40	(25)	478	610	3,067	2,642
North Africa	1,202	1,234	376	199	1,388	978

c) Other Countries	20,214	18,344
TOTAL	59,632	53,865

(30) BUSINESS COMBINATIONS AND CHANGES IN COMPOSITION OF THE GROUP

Repsol YPF prepared its consolidated financial statements to include its investments

in all its subsidiaries, affiliated companies and joint ventures. Appendix I of the consolidated financial statements at 31 December 2008 details the subsidiaries, affiliated companies and joint ventures, held directly or indirectly by Repsol YPF, S.A., which were included in the scope of consolidation at that date.

The principal changes in the scope of consolidation that have taken place in 2008 are detailed below:

<u>2008</u>	Name of the entity (and line of business) acquired or merged	Category	Effective date of the operation	Net cost of the combination (thousands of euros)		% of voiting rights acquired	% of voiting rights in the entity after the acquisition
				Amount (net) paid in the acquisition + other costs directly attributable to the combination	Fair value of the net equity instruments issued to acquired the entity		
	Biogas Doña Juana S.A. E.S.P (1)	Inclusion in the scope of consolidation	05/02/2008	176	-	15.36	15.36

- 1) Companies acquired through Gas Natural Group, in which Repsol YPF holds 30.847%. The amounts and percentages correspond to 30.847% of those acquired by Gas Natural Group.

On 3 July 2008, the Group acquired through Gas Natural, a 100% of the equity capital of Pitta Construzioni, S.p.A., in Italy. If the Group had consolidated the acquired business in the financial statements of the Repsol YPF Group as of 1 January 2008, its contribution to the operating revenue would have been amounted to EUR 1 million, while its contribution to the operating income would have not been material. The cost of this acquisition amounted to EUR 8 million, and a goodwill of approximately EUR 1 million was recognised, attributable to the high profitability and synergies expected to arise from Gas Natural operations.

The main business combinations that took place in 2007 are as follows:

In December 2007 the Group had acquired the 100%, through Gas Natural, of the equity capital of the Group Generación México (mainly consisting in the following companies: Controladora del Golfo S.A. de C.V., Central Anahuac S.A. de C.V., Central Saltillo S.A. de C.V., Central Lomas del Real S.A. de C.V., Central Vallehermoso S.A. de C.V., Electricidad Águila de Altamira S.A. de C.V., Gasoducto del Río S.A. de C.V. and Compañía Mexicana de Gerencia y Operación S.A. de C.V.), engaged in the electric combined cycle-generation. The cost of these acquisitions had amounted to EUR 311 million, and goodwill relating to the business combination was EUR 26 million.

In 2007 there was no consolidated result due to this transaction as the acquisition took place in December. If the Group had consolidated the acquired business in the financial statements of the Repsol YPF Group as of 1 January 2007, its contribution to the operating revenues and net result would have amounted to EUR 193 million and EUR 9 million, respectively.

The detail of the assets, liabilities and contingent liabilities acquired, classified on the basis of the main consolidated balance sheet headings at the date of acquisition is as follows:

	<u>Millions of Euros</u>	
	<u>Carrying Amount</u>	<u>Fair Value</u>
Tangible assets	249	318
Deferred tax assets	6	7
Other non-current assets	13	13
Trade and other receivables	34	34
Other current financial assets	1	1
Cash and cash equivalents	21	21
TOTAL ASSETS	<i>324</i>	<i>394</i>
Deferred tax liabilities	18	37
Non-current financial liabilities	4	4
Other non-current liabilities	37	37
Trade debts and other accounts payable	30	31
TOTAL LIABILITIES	<i>89</i>	<i>109</i>
Total net assets	235	285
Goodwill		26
Total investment		<u>311</u>

In June 2007, Repsol acquired, through Gas Natural, a 28% participation in the share capital of Inversas, S.A., Gas Natural Argentina SDG, S.A., Natural Energy S.A. and Natural Servicios S.A., at a purchase price of EUR 13 million. The goodwill acquired amounted to EUR 9 million.

In December 2007, the Group fully incorporated, through Gas Natural, the 30.8% of the share capital of the Group ITAL.ME.CO, an Italian group dedicated principally to the distributions and commercialisation of gas, which operates in four regions in the centre and the south of Italy. The cost of this acquisition amounted to EUR 8 million and no goodwill was registered from the operation.

(31) DIVESTMENTS

The following table provides a breakdown of divestments recorded in 2008 and 2007:

	<u>Millions of euros</u>	
	2008	2007
Group companies, associated companies and business units	920	522
Tangible and intangible assets, and investment properties	102	548
Other financial assets	23	209
Total investment disposals.....	<u>1,045</u>	<u>1,279</u>

Group companies, associated companies and business units

Sales of equity in Group companies and associated companies in 2008 were as follows:

Name of the entity (or line of business) sold, divested or eliminated	Category	Effective date of the transaction	% of voting rights sold or eliminated	% of total voting rights in the entity after the transaction	Income / (Loss) generated (Millions of euros)
YPF, S.A. (1)	Subsidiary	21/02/2008	15.00%	84.14%	86
		01/11/2008	0.10%	84.04%	2
Empresa Petrolera Andina, S.A. (1)	Joint venture	05/05/2008	1.08%	48.92%	(4)
Repsol Bronderslev (1)	Subsidiary	29/02/2008	100%	-	1
Repsol Polivar SPA (1) (2)	Subsidiary	29/02/2008	100%	-	0
Operadora de Postos de serviços, LTD (1)	Subsidiary	02/05/2008	100%	-	2
West Siberian Resources (3)	Other	01/04/2008	6%	4%	0
Repsol YPF Comercial del Ecuador (1)	Subsidiary	01/09/2008	100%	-	0
Repsol YPF Gas Bolivia (1)	Subsidiary	28/11/2008	50.91%	-	0
Refineria de Petroleos Manguinhos S.A. (1)	Joint venture	16/12/2008	31.13%	-	0
Repsol YPF Distribuidora S.A.(1)	Subsidiary	19/12/2008	100%	-	14

(1) Sale of the percentages indicated

(2) Company 100% held by Repsol Bronderslev.

(3) Dilution of the percentage interest after the capital increase undertaken by the company. This company had been reclassified into financial investments.

On 21 February 2008, Repsol YPF sold a 14.9% of the capital stock of YPF, S.A. to Petersen Energía in the amount of US\$ 2,235 million, arranging a loan for the buyer in the amount of US\$ 1,015 million. Collections related to this transaction amounted to US\$ 1,220 million (EUR 827 million). In addition, in November 2008, Petersen Energía

exercised an option to buy an additional 0.10%, in the amount of US\$ 13 million (EUR 10 million). These sales led to a consolidated profit before taxes of EUR 88 million, recorded under the line “Income from reversal of impairment losses and gain on disposal of non-current assets” of the attached consolidated income statement. The main effects of this transaction in the Group’s consolidated balance sheet were a EUR 987 million increase in “Minority interest”, and a EUR 292 million decrease in goodwill.

According to the terms of the sale agreement itself, Petersen Energía has an option to buy an additional 10% of YPF stock. At 31 December 2008, the Group holds 84.04% of YPF shares.

On 30 April 2008, Repsol YPF and YPFB entered into an agreement for the transfer of 1.08% of Empresa Petrolera Andina, S.A. shares in the amount of EUR 4 million. This agreement took full force on 5 May 2008 through the registry of the corresponding public document. The loss arising from this transaction, recorded under the “Impairment losses recognised and losses on disposal of non current assets” line in the attached consolidated income statements amounted to EUR 4 million. The percentage of the Group’s interest in the company after the transfer of shares is 48.92%.

As of 1 May 2008, according to the new capital structure and the management agreements of Empresa Petrolera Andina S.A. (now YPFB Andina, S.A.), it is consolidated using the proportional integration method. The main effects on the Group’s consolidated financial statements at that date, as a result of this change in the consolidation method used, have been a EUR 431 million, EUR 259 million and EUR 164 million reduction in assets, minority interest and liabilities, respectively.

In September 2008, Repsol YPF sold to Primax the service stations, and lubricant and aviation activities in Ecuador managed by Repsol YPF Comercial de Ecuador, S.A. and Combustibles Industriales Oiltrader, S.A. for an amount of EUR 32 million.

On 16 December 2008, the Group sold its interest in Refinaria de Petroleos de Manguinhos. The result of the sale was below EUR 1 million.

On 19 December 2008, Repsol YPF sold to the Brazilian group, AleSat Combustíveis, its fuel commercialization activities in Brazil, managed through Repsol YPF Distribuidora, consisting of a network of 327 service stations, as well as the commercial and logistic infrastructure and other complementary businesses, in the amount of EUR 17 million. The result generated by this operation amounts to EUR 14 million, recorded under

“Income from reversal of impairment losses and gain on disposal of non-current assets” in the accompanying consolidated income statement. Following is a breakdown of net assets disposed of as a result of this sale:

Item	Millions of euros
Non-current assets	22
Current assets	47
Non-current liabilities	(9)
Current liabilities	(57)
Total net assets	3

In 2007, Repsol YPF sold a 10% stake in Compañía Logística de Hidrocarburos (CLH), for an amount of EUR 353 million, generating a surplus of EUR 315 million.

Also in 2007 Repsol YPF Chile S.A. (before Repsol YPF Chile LTDA) sold its stake in Petr6leos Transandinos YPF S.A. and in Operaciones y Servicios YPF Ltda, by an amount of EUR 145 million, generating a surplus of EUR 49 million. Net assets as of the date of the sale of the companies sold in Chile were the following:

Item	Net assets
Non-current assets	84
Current assets	34
Non-current liabilities	(22)
Total net assets	96

Other investment disposals

In 2008, there have been no other significant investment disposals.

In 2007, the main investment disposal corresponded to the sale of the lot where an office building is under construction in Madrid, generating a cash inflow of EUR 571 million (see Note 27).

(32) MEDIUM- AND LONG-TERM INCENTIVE PLANS

The company has implemented a loyalty building programs aimed at senior executives and other persons occupying positions of responsibility in the Group, consisting of

medium/long-term incentives as part of their benefit package. The purpose of these programs are to strengthen the identification of executives and managers with shareholders' interests, while at the same time facilitating the retention by the Group of key personnel in an increasingly competitive labour market.

The President of the Company is not a recipient of the incentives available to date, although in his current compensation package, the level of success of each program at expiration serves as reference to determine the multi-annual compensation corresponding to each period, which is credited in the following period.

At the end of the period there are in force the incentive plans 2005-2008, 2006-2009, 2007-2010 and 2008-2011, although it is important to point out that the first of the plans shown (2005-2008) has been closed, in accordance to its provisions, at 31 December 2008 and its recipients shall receive any corresponding variable retribution in the first quarter of 2009.

The four plans of this type in force (2005-2008, 2006-2009, 2007-2010 and 2008-2011 incentive plans), are independent of each other but their main characteristics are the same. All four are specific multi-annual remuneration plans covering the stated years. Each plan is tied to the Group attaining a series of strategic objectives. Fulfillment of the respective objectives entitles the beneficiaries of each plan to receive an amount of variable remuneration at medium term in the first quarter of the year following the last year of the plan. However, in each case, receipt of this incentive payment is tied to the beneficiary remaining in the Group's employ until 31 December of the last year of the plan, except in the special cases envisaged in the terms and conditions of the related plan.

In all cases, the pluri-annual incentive payment, if received, will consist of an amount determined at the time the incentive is granted, to which a first variable coefficient will be applied on the basis of the extent to which the objectives set are achieved, which will be multiplied by a second variable coefficient tied to the beneficiary's performance over the period covered by the plan.

None of these plans involves the delivery of shares or options and the incentive payments are not tied to the value of Repsol YPF shares.

Provisions of EUR 11 million and EUR 11 million were charged to income in 2008 and 2007, respectively, to meet the obligations arising from these plans. At 31 December

2008 and 2007, the Group has recorded a provision of EUR 28 million and EUR 27 million, respectively, to meet the obligations of the aforementioned plans.

(33) INFORMATION ON RELATED PARTY TRANSACTIONS

Repsol YPF has undertaken transactions with related parties under general market conditions.

For the purposes of presenting this information, the following are considered to be related parties:

- a. Major Shareholders: according to the most recent information available, the major shareholders in the company that are considered related parties of Repsol YPF are:
 - Sacyr Vallehermoso, S.A. owns 20.01% of the share capital.
 - Criteria Caixa Corp. S.A. (member of Caixa Group) holds, directly and indirectly, 14.31% of the share capital of Repsol YPF, S.A.
 - Petróleos de México (Pemex) has an ownership interest of 4.806% through its subsidiaries Pemex International España, S.A. and various financial instruments (see Note 17.1).
- b. Managers and Directors: includes members of the Board of Directors and of the Executive Committee.
- c. Group companies for the part not owned by the Group: includes transactions with Group companies or entities for the part not eliminated in the consolidation process (corresponding to the non-owned portion in the proportionately consolidated companies and transactions undertaken with companies accounted for using the equity method).

Income and expenses recorded during the year for transactions with related parties were as follows:

31 December 2008

	Major shareholders	Managers and Directors	Group companies or entities	Total

- (2) Includes credit lines of EUR 488 million contracted with La Caixa.
- (3) Corresponds to purchase commitments presently outstanding, net of sales commitments.
- (4) Dividends distributed to Management and Directors amount to less than EUR 1 million.
- (5) Includes short-term investments of EUR 520 million, exchange rate hedging transactions of EUR 216 million and interest rate hedging transaction of EUR 557 million contracted with La Caixa.

The transactions performed by Repsol YPF, S.A. with its Group companies, and by the Group companies among themselves, form part of the Company's ordinary business activities in terms of their purpose and conditions. Sales to related parties are performed in accordance with the policies described in Note 4.21

(34) INFORMATION ON THE MEMBERS OF THE BOARD OF DIRECTORS

AND EXECUTIVES

34.1) Remuneration of directors

The contributions received by the members of the Board of Directors, as detailed under the paragraphs a, b and c of this note, amount to EUR 6.165 million, which means 0.22% of the net income attributed to the parent company

a) Due to membership of the Board

In accordance with Article 45 of the bylaws, the Company may pay remuneration equal to 1.5% of its net income to its Board members each year, but this amount can only be paid once the appropriations to the legal reserve and other obligatory appropriations have been made and a dividend of at least 4% has been declared.

Under the system established and approved by the Nomination and Compensation Committee, the amounts of the annual remuneration earned in 2008 and 2007 by virtue of membership of each of the Group's managing bodies are as follows:

Managing Body	Euros	
	2008	2007
Board of Directors	172,287	165,661
Delegate Committee	172,287	165,661
Audit and Control Committee	86,144	82,830
Strategy, Investment and Corporate Social Responsibility Committee	43,072	41,415
Nomination and Compensation Committee	43,072	41,415

The remuneration earned in 2008 by the members of the Board of Directors in their capacity as Board members in connection with the above-mentioned bylaw-stipulated directors' emoluments amounted to EUR 4.824 million, the detail being as follows:

	Remuneration for Membership of Managing Bodies (in Euros)					TOTAL
	Board	Stand C.	Audit C.	Appointments C.	Strategy C..	
Antonio Brufau	172,287	172,287	-	-	-	344,574
Luis Suárez de Lezo	172,287	172,287	-	-	-	344,574
Antonio Hernández-Gil	172,287	172,287	-	43,072	-	387,646
Carmelo de las Morenas	172,287	-	86,144	-	-	258,431
Henri Philippe Reichstul	172,287	172,287	-	-	-	344,574
Paulina Beato	172,287	-	86,144	-	-	258,431
Javier Echenique	172,287	172,287	86,144	-	-	430,718
Artur Carulla	172,287	-	-	43,072	-	215,359
Luis del Rivero	172,287	172,287	-	-	-	344,574
Juan Abelló	172,287	-	-	-	43,072	215,359
Pemex Intern. España	172,287	172,287	-	-	43,072	387,646
José Manuel Loureda	172,287	-	-	-	43,072	215,359
Luis Carlos Croissier	172,287	-	-	-	43,072	215,359
Isidro Fainé	172,287	172,287	-	-	-	344,574
Juan María Nin	172,287	-	-	43,072	43,072	258,431
Ángel Durández	172,287	-	86,144	-	-	258,431

Additionally, the following should be noted:

- The members of the Parent's Board of Directors have not been granted any loans or advances by any Group company, jointly controlled entity or associate.
- No Group company, jointly controlled entity or associate has pension or life insurance obligations to any former or current member of the Parent's Board of Directors, except in the case of the Executive Chairman, and of the General Counsel, who, as Executive Directors, are subject to the commitments set forth in their respective service agreements, which consider defined contribution systems.

b) Due to the holding of executive posts and the discharge of executive duties

The annual monetary fixed and variable remuneration and in kind (housing and miscellanea) received in 2008 by the members of the Board of Directors who, during that period had employment relationships or had performed executive tasks at the Group, have amounted to a total EUR 4.013 million, of which EUR 2.691 was earned by Mr. Antonio Brufau and EUR 1.322 million by Mr. Luís Suárez de Lezo.

In addition, the multi-annual variable compensation paid to Mr. Antonio Brufau, determined on the basis of the level of success with respect to the objectives of the Medium-term Incentives Program for directors corresponding to the 2004-2007 period, totalled EUR 0.850 million. The multi-annual variable compensation paid to Mr. Luis Suárez de Lezo under the program totaled EUR 0.148 million.

These figures do not include the amounts reflected in the following paragraph e).

c) Due to membership to the Boards of Directors of subsidiaries

The remuneration earned in 2008 by the members of the Parent's Board of Directors in their capacity as directors of other Group companies, jointly controlled entities and associates amounted to EUR 0.464 million, the detail being as follows:

	Euros			
	YPF	Gas Natural	CLH	TOTAL
Antonio Brufau	94,833	265,650	-	360,483
Luis Suarez de Lezo	67,914	-	36,481	104,395

d) Due to third-party liability insurance premiums

The Board members are covered by the same third-party liability insurance policy as that covering all the directors and executives of the Repsol YPF Group.

e) Due to life insurance and retirement policies, contributions to pension plans and long-service bonuses

The cost of the retirement, disability and death insurance policies and the contributions to pension plans and long-service bonuses including, if applicable, the related payments on account, incurred by the Company on behalf of the members of the Board of Directors with executive functions at the Group amounted to EUR 2.680 million in 2008. Of this amount, EUR 2.423 million correspond to Mr. Antonio Brufau and EUR 0.257 million to Mr. Luís Suárez de Lezo.

f) Incentives

With respect to the multi-annual variable contribution of the Members of the Board of Directors conducting executive duties, in 2008, the company recorded a reserve of EUR 0.866 million corresponding to Mr. Antonio Brufau and EUR 0.309 million corresponding to D. Luis Suárez de Lezo.

Director not holding executive positions at the Company have not been paid multi-

annual variable compensation.

34.2) Indemnity payments to members of the Board of Directors

No director received any indemnity payment from Repsol YPF in 2008.

34.3) Transactions with directors

Following is a disclosure of the transactions performed with directors, as required by Law 26/2003, of 17 July, which amended Securities Market Law 24/1988, of 28 July, and the Limited Company Law, in order to reinforce the transparency of listed corporations.

Except for the remuneration earned, the dividends received from the shares held by them and, in the case of institutional outside directors, the transactions described in Note 33 (“Information on Related Party Transactions – Significant Shareholders”), the directors of Repsol YPF did not perform any material related-party transactions with the Company or Repsol YPF Group companies outside of ordinary business or under conditions other than market conditions.

Except as detailed in Appendix III, none of the directors have ownership interests or hold positions in companies engaging in an activity that is identical, similar or complementary to the activity constituting the company object of Repsol YPF, and none of them have performed, as independent professionals or as employees, activities that are identical, similar or complementary to the activity that constitutes the corporate purpose of Repsol YPF.

34.4) Remuneration of executives

a) Scope

The information included in this Note relates to the nine persons who have been members of the Executive Committee of the Group in 2008, excluding, unless stated otherwise, those who are also members of the Parent's Board of Directors, since the information relating to them is disclosed in the paragraph 1).

b) Wages and salaries

Executives receive fixed and variable remuneration. The latter consists of an annual

bonus calculated as a given percentage of the fixed remuneration earned on the basis of the degree to which certain targets are met and, where appropriate, the payment relating to the multi-annual incentive plan.

The total remuneration earned in 2008 by executives who form or formed part of the Executive Committee, during the period in which they belonged to the Committee, amounted to EUR 12.288 million, the detail being as follows:

<u>Description</u>	<u>Millions of Euros</u>
Salary	7.012
Attendance fees	0.480
Variable remuneration	4.284
Compensation in kind	0.512

c) Incentive plans

Regarding executives, in 2008 Repsol YPF recorded provisions of EUR 2.170 million in connection with the four incentive plans in force

d) Executive welfare plan and long service bonus

The contributions made by the Group to its management personnel in both instruments amounted to EUR 1.925 million.

e) Pension fund and insurance premiums

The contributions made by the Group in 2008 to the hybrid defined contribution plans for executives adapted to the Pension Plans and Funds Law (see Note 4.16) plus the life and accident insurance premiums paid totaled EUR 0.414 million (this amount is included in the disclosures reported in section b) above).

Executives are covered by the same civil liability insurance policy as that covering all the directors and executives of the Repsol YPF Group.

f) Advances and loans

At 31 December 2008, the Company had granted loans to its executives amounting to EUR 0.316 million, which earned average interest of 3.85%. All these loans were granted before 2003.

34.5) Indemnity payments to executives

In 2008, the Company's directors have received no such compensation.

34.6) Transactions with executives

Except for the information disclosed in sections 4 and 5 of this Note and the dividends pertaining to the shares of the Company held by them, the executives of Repsol YPF did not perform any material related-party transactions with the Company or Repsol YPF Group companies outside of ordinary business or under conditions other than market conditions.

In addition, the members of the Top Management have, in their respective contracts, the right to receive a compensation in the event of termination of relationship with the company, provided that the termination was not due to a breach of obligations of the Senior Management member, due to retirement, handicap or the employee's voluntary withdrawal not founded in some of the compensable assumptions gathered in the mentioned contracts.

Said remunerations shall be recognised as a provision for pensions and as a staff expense only when the termination of the relationship between the Senior Management member and the group is due to a qualifying ground. The Group has a collective insurance contracted which aims to guarantee the Remuneration of Top Management, including the General Counsel and Secretary of the Board of Directors.

(35) **HEADCOUNT**

At 31 December 2008, the Group had 36,302 employees and the average headcount in 2008 was 37,371 employees. The total headcount at 2008 and 2007 year-end, by professional category, was as follows:

	Number of employees			
	2008		2007	
	Men	Women	Men	Women
Managers	317	35	292	25
Senior line personnel	1,985	422	2,024	385
Other line personnel	11,966	3,754	11,563	3,350
Clerical Staff	863	1,349	884	1,426

(36) OPERATING LEASES

36.1) The Group as lessee

The expenses recognised as period operating lease costs at 31 December 2008 and 2007, amounted to EUR 471 million and EUR 339 million, respectively.

At 31 December 2008, the Group had the following long-term payment commitments under non-cancelable operating leases in which the Group is the lessee:

	Millions of euros						
	2009	2010	2011	2012	2013	Subsequent years	Total
Sea transport-time charter (1)	137	79	60	49	41	574	940
Leases (2)	155	138	128	89	83	214	807
	<u>292</u>	<u>217</u>	<u>188</u>	<u>138</u>	<u>124</u>	<u>788</u>	<u>1,747</u>

(1) Repsol YPF has chartered under “time charter” arrangements 22 ships (5 of them through the subsidiary Gas Natural SDG, S.A.) for the transportation of crude oil, oil products and liquefied natural gas, whose freights end along the period 2009 – 2012. The leasing amount to be paid by the petrol ships amounts to EUR 114 million in 2009. In addition, it includes the operational part of the freight policies in the financial leasing regime, by an amount of EUR 23 million.

(2) Relating mainly to leasing of petrol service stations amounting to EUR 214 million.

36.2) The Group as lessor

At 31 December 2008, the Group was entitled to receive the long-term commitments detailed below with respect to the lease agreements in which the Group is the lessor:

	Millions of euros						
	2009	2010	2011	2012	2013	Subsequent years	Total
Leases (1)	53	18	18	16	16	17	138
	53	18	18	16	16	17	138

- (1) Relating mainly to optic fiber assets, amounting to EUR 52 million and to gas storage facilities, amounting to EUR 33 million.

(37) CONTINGENT LIABILITIES AND OBLIGATIONS

Guarantees

At 31 December 2008 the companies of the Repsol YPF Group have granted the following guarantees to third parties or to companies of the Group whose assets, liabilities and results are not incorporated to the consolidated financial statements (companies consolidated in the proportion not owned by the Group and companies consolidated under the equity method):

- The Group provided guarantees for the financing activities of the Central Dock Sud, S.A. amounting to EUR 16 million.
- The Group provided guarantees for the financing activities of EniRepSa Gas Limited, in which the Group has 30% stake, amounting to EUR 4 million.
- The Group provided guarantees for the financing activities of Atlantic LNG Company of T&T, in which the Group has 20% stake, amounting to EUR 32 million.
- The Group provided guarantees for its stake in Oleoducto de Crudos Pesados de Ecuador, S.A. (OCP) which covers construction, abandonment of construction, and the environmental risks related to this operation, up to, approximately, EUR 11 million together with the operative risks of approximately, EUR 11 million. The Group has pledged all its shares in OCP.
- The Group has provided guarantees for the financing activities of Petersen Group related to the acquisition of a YPF interest in the amount of EUR 74 million.

Contractual commitments

At 31 December 2008, the main long-term purchase, sale or investment commitments of the Repsol YPF Group were as follows

Millions of euros							
Buy	2009	2010	2011	2012	2013	Subsequent years	Total
Purchase commitments	4,653	4,057	5,288	5,545	5,437	67,358	92,338
Crude oil and other	898	541	309	263	163	487	2,661
Natural Gas	3,755	3,516	4,979	5,282	5,274	66,871	89,677 ⁽¹⁾
Investment commitments	811	216	60	33	13	2,962	4,095
Transport/transmission commitments	286	374	399	402	360	5,869	7,690 ⁽²⁾
Services	1,284	1,173	492	264	730	2,091	6,034
TOTAL	7,034	5,820	6,239	6,244	6,540	78,280	110,157

Sell	2009	2010	2011	2012	2013	Subsequent years	Total
Sale commitments	7,534	4,445	4,389	4,730	5,043	47,500	73,641
Crude oil and other	4,399	1,620	1,599	1,456	1,326	7,856	18,256
Natural Gas	3,135	2,825	2,790	3,274	3,717	39,644	55,385 ⁽³⁾
Transport/transmission commitments	20	20	21	21	21	92	195
Services	362	336	427	373	479	2,939	4,916
TOTAL	7,916	4,801	4,837	5,124	5,543	50,531	78,752

Note: The commitments detailed in the foregoing table are commercial agreements in which fixed total amounts are not stipulated. These commitments were quantified using Repsol YPF's best estimates.

(1) Mainly includes the corresponding portion of the Repsol YPF Group of the Gas Natural Group's long-term natural gas purchase commitments by an amount of EUR 24,689 million, and commitments of the Repsol YPF Group to purchase gas from Trinidad and Tobago amounting to EUR 16,486 million and in Peru for EUR 39,214 million

(2) This amount includes commitments for long-term transportation acquired by the Repsol YPF Group mainly in the U.S.A. amounting to EUR 2,783 million, in Canada amounting to EUR 1,181 million and in Argentina amounting to EUR 572 million. Additionally, it comprises EUR 1,876 million for the future delivery of 4 ships for LNG transportation in Peru.

This amount also includes EUR 568 million relating to the agreement executed by Repsol YPF Ecuador, S.A. on 30 January 2001, with Oleoducto de Crudos Pesados (OCP) Ecuador, S.A., owner of a heavy crude oil pipeline in Ecuador, pursuant to which it undertook to transport the quantity of 100,000 barrels/day of crude oil (36.5 million of barrels/year) for a 15 years term, from the date of the setting up, in September 2003, at a floating rate agreed under the contract.

- (3) It includes mainly the gas natural sale commitments in Argentina by an amount of EUR 14,249 million, in Spain amounting to EUR 4,927 million, in México amounting to EUR 22,854 million, in Trinidad and Tobago for an amount of EUR 7,390 million and the corresponding portion to the Group Repsol YPF of the commitments of long-term natural gas sale of the Gas Natural Group amounting to EUR 3, 693 million.

Contingencies

Company management considers that there are currently no lawsuits, disputes or criminal, civil or administrative proceedings involving the Company, the companies in its Group or anyone holding administrative or management posts (the latter, to the extent that they could involve the Company or its Group) which, given their amount, could have a material impact on the consolidated financial statements and/or the financial position or profitability of the Group.

The most relevant litigations (in addition to the matters mentioned in Note 25) affecting the Repsol YPF Group are as follows:

United States of America

In 1986, Occidental Petroleum Corporation (“Occidental”) acquired (Diamond Shamrock Chemical Company (“Chemicals”) from Diamond Shamrock Corporation (later called Maxus Energy Corporation), and the sale contemplated certain indemnity clauses that have affected Maxus Energy Corp. (a company later acquired by YPF, S.A. in 1995 before this was acquired by Repsol YPF). The company Tierra Solutions Inc. (Tierra), a subsidiary of the North American company YPF Holdings, has assumed the actions of Maxus in environmental matters

The main litigation is as follows:

- *Passaic river/Bay of Newark, New Jersey*: In December 2005, the Department of Environmental Protection and Energy (DEP) filed a lawsuit (New Jersey or The Passaic River Litigation) against YPF Holding Inc., Tierra, Maxus and other affiliates, as well as Occidental, for alleged pollution, with dioxides emitted by the old Chemicals plant in Newark, of the last seventeen-mile length of the Passaic River, Newark Bay, and other water and air currents nearby. The defendants have responded to said allegations; however, their defense arguing the lack of jurisprudence was disregarded in September

2008. During February 2009, a number of statements were filed in response to each party's allegations. Also in February 2009, Maxus and Tierra have called to the process more than two hundred and fifty new parties as being responsible for the pollution in question.

- *Hudson County, New Jersey.* Chemicals operated a chromium ore processing plant in Kearny, New Jersey, until 1972. According to the Department of Environmental Protection and Energy of New Jersey ("DEP"), waste from the processing of this mineral was used as fill material in various sites. In May 2005, the DEP filed a complaint against Occidental and two other companies, requesting, among other matters, remediation of a number of sites polluted with ferrous chromate, and the recovery of costs incurred by the State. In this regard, an agreement was reached in the amount of 7.1 million dollars (EUR 5 million).

Dallas Occidental vs. Maxus litigation. In 2002, Occidental filed a lawsuit against Maxus and Tierra in the Dallas District Courts, in the State of Texas, seeking a declaration that Maxus and Tierra have the obligation under the agreement pursuant to which Maxus sold Chemicals to Occidental to defend and indemnify Occidental from and against certain historical obligations of chemicals, including claims related to Agent Orange and vinyl chloride monomer (VCM), notwithstanding the fact that the said agreement contains a 12-year cut-off defense and indemnity obligation with respect to most litigation. The court ruled against Maxus. Maxus filed an appeal at the Court of Appeals and the Supreme Court of Texas; however, both appeals were overruled. This judgment requires Maxus to accept responsibility for various matters, for which it previously refused indemnification since 1998 and accordingly it may result in additional cost in excess of the current provisions of YPF Holdings Inc. for matters of this nature. Notwithstanding the above, Maxus considers that its current provisions, as per the information available at the date of the consolidated financial statements are adequate to cover the costs in question.

In relation to the above, approximately 33 claims have been brought against Occidental by individuals who have allegedly suffered ill-effects from Agent Orange. In February 2008, the United States Second Circuit Court of Appeals dismissed these claims and although it is likely that these plaintiffs will appeal to the Supreme Court, YPF Holdings does not expect those appeals to be successful.

Claims have also been brought against Occidental claiming damages for exposure to

vinyl chloride monomer (VCM), asbestos, and other chemical products, as well as alleged for environmental damage. Occidental has informed Maxus that in the aggregate, these claims should not exceed US\$ 7 million (EUR 5 million).

Argentina

- *Liabilities and contingencies assumed by the Argentine State.* By virtue of the YPF Privatisation Law, the Argentine State took on certain obligations of YPF's predecessor at 31 December 1990. In certain decisions relating to acts or events prior to 31 December 1990, YPF has been required to advance the payment of the amounts stipulated in certain court decisions. YPF is entitled to claim reimbursement of the amounts paid in accordance with the aforementioned indemnity payments. At 31 December 2008, the Argentine government had been or was being notified of all the claims received by YPF in connection with its predecessor.

- *Comisión Nacional de Defensa de la Competencia (CNDC)- Liquefied Petroleum Gas Market.* Resolution No. 189/99 from the former Department of Industry, Commerce and Mining of Argentina imposed on YPF a fine based on the interpretation that YPF had purportedly abused its dominant position in the bulk LPG market due to the existence of different prices between the exports of LPG and the sales to the domestic market from 1993 through 1997. The "Comisión Nacional de Defensa de la Competencia" has commenced an investigation in order to prove, among other things, whether the abuse of dominant position behavior already penalized for the period between 1993 and 1997, already settle, continued from October 1997 to March 1999. On 19 December 19 2003, the CNDC charged YPF with abuse of dominant market position during this period. In January 2004, YPF presented evidence for its defense, opposing, among other matters, the prescription defense, which was rejected by the CNDC and the object to the appeal filed by YPF. In August 2008, The Chamber of appeals rejected the argument presented by YPF. This decision was contested by YPF at the National Court of Cassation. Subsequently, YPF has filed appeals against said adverse resolutions.

- *Natural gas market.* Within the export area, as a result of the Restrictions (see Note 2 "Market Regulation - Argentina") during the years 2004, 2005, 2006, 2007 and 2008, YPF was forced to suspend, partially or totally, its deliveries of natural gas to export customers with which it had assumed firm commitments to deliver certain volumes of natural gas. YPF has challenged the Gas Export Rationalisation Programme and Use of transport capacity, as well as the Additional Permanent Injection and the Additional

Injection Requirements as being arbitrary and illegitimate and has alleged, with the respective customers affected by the cuts, that the Restrictions constitute a fortuitous case or force majeure which relieves the Company of any responsibility and/or punishment derived from the lack of delivery of the contractually stipulated volumes.

A number of customers of YPF, including Innergy Soluciones Energéticas S.A., Electroandina S.A. y Empresa Eléctrica del Norte Grande S.A. have rejected by letter the assertion of a force majeure event, claiming for the payment of compensations and/or penalties for a breach of firm delivery commitments, and/or making a reservation for future claims on the same matter. In 2007, Innergy Soluciones Energéticas S.A. made a claim of US\$ 88 million (EUR 63 million) against YPF, plus interest, reserving the right to increase this amount to accumulate additional penalties with respect to unmade deliveries. YPF has filed a counterclaim for expiration of the agreement. “Innergy” notified YPF of the onset of arbitration proceedings. YPF contested the arbitration proceedings and has filed a counterclaim, invoking the theory of unpredictability. In December 2008, Innergy filed a counterclaim pursuant to the resolution handed down by the Court (including those set out in the arbitration proceedings), which must be included in the final documents to be signed by the parties. On 9 February 2009, the parties deferred the arbitration to 13 March 2009.

In addition, Electroandina S.A. y Empresa Eléctrica del Norte Grande S.A. have proceeded to settle the penalty for non delivery up to September 2007 in the amount of US\$ 93 million (EUR 67 million). YPF has rejected the settlement. In addition, denying liability, Electroandina S.A. y Empresa Eléctrica del Norte Grande S.A. have notified the formal commencement of a period of negotiations prior to the start of arbitration proceedings. Although the term has expired, to date, YPF has not received any notification of arbitration proceeding commenced by said companies.

In addition, AES Uruguaiana de Emprendimientos S.A. has also filed claims on the basis of non delivery and, in June 2008, and invoiced an amount of US\$ 28 million (EUR 20 million) corresponding to penalties for non delivery of natural gas during the period from 16 September 2007 to 25 June 2008. YPF has rejected the invoiced amount and denied the liability claims. Subsequently, in June 2008, the amount of US\$ 3 million (EUR 2 million) corresponding to the penalty for non delivery of natural gas during the period from 18 January 2006 to 1 December 2006 was claimed. YPF has rejected both settlements. In addition, AES Uruguaiana Emprendimientos S.A. notified YPF its intention of retain compliance with its obligations, arguing late payment and

noncompliance on the part of YPF. YPF rejected the arguments presented by AES, considering them void of legal support.

- *Local Argentine Market*, Central Puerto S.A. filed two claims against YPF with regard to the agreement for the supply of natural gas, with the parties having settled the claim in connection with the supply of natural to the plant of Central Puerto in Loma La Lata. Notwithstanding the above, Central Puerto S.A. has sent notice to YPF their decision to submit to arbitration in accordance with the rules set forth by the International Chamber of Commerce (ICC), the controversies arising out of the combined-cycle natural gas supply located in the Autonomous City of Buenos Aires. YPF has filed a counterclaim suit against the plaintiff in which it claims, among others, that the Court may terminate the contract or subsidiary that the Court proceeds to the contract restructuration. The counterclaim has been replied by Central Puerto in December 2007

In February 2008 the Arbitration Tribunal held a hearing in which the “Acta de Misión” was subscribed and several questions have arisen about the amounts involved and being declared by Central Puerto, S.A. that it was unable to determine the amount of its claim until such time as the experts’ studies were concluded. YPF estimated US\$ 11 million (EUR 8 million) to be the approximate sum payable in the counterclaim filed, plus interest and other costs, notwithstanding the results of the experts’ studies.

Compañía Mega S.A has also brought a claim against YPF due to gas supply cuts under the related natural gas purchase and sale contract. YPF stated that deliveries to Mega for natural gas volumes related to the contract, were affected by the obstacles by the National Government

- *La Plata refinery environmental disputes*. Since 1999 and in connection with the refinery that YPF has in La Plata several claims have been brought requesting damages and losses for environmental pollution, damage compensation and damages both individual and collective (health, psychological damages, moral damages, property deterioration) all them arising from the alleged environmental pollution arising from the operation of the refinery, and requesting also the remediation of alleged environmental damage in the water channels to the west of the refinery, as well as demanding the specific performance by YPF of different works and installation of equipments, technology and execution of work necessary to stop any environmental damage. In 2006,

the Company presented to the Department of Environmental Policy of Buenos Aires Province its plan to conduct a study of the nature of the risks associated with the aforementioned pollution. As indicated above, YPF is entitled to be held harmless by the Argentine State with respect to liabilities and contingencies existing prior to 1 January 1991.

- *Sales of Electricidad Argentina S.A. and Empresa Distribuidora y Comercializadora del Norte S.A. to EDF International S.A. (“EDF”).* In July 2002, EDF initiated international arbitration proceedings against YPF, among others, subject to the Arbitration Regulation of the International Chamber of Commerce (CCI), claiming that in accordance with the 30 March 2001 agreement, entitling EDF to a review of the price, as a result of variations in the exchange rates of the Argentinean peso, that took place, according to EDF, prior to 31 December 2001. The 22 October 2007 arbitration decision estimated the claim made by EDF; however, accepting the counterclaim filed by YPF. In the event that the finding stands, the amount payable by YPF would amount to US\$ 28 million dollars (EUR 21 million). Against this decision, YPF has filed an extraordinary appeal before the Federal Supreme Court and the Federal Court of Appeals in Commercial Matters, which, in April 2008, declared the appeal filed by YPF to have suspensive effect over the arbitration decision. However, EDF has filed action before the District Court of the State of Delaware, USA, with the intention to enforce the arbitration decision. In addition, YPF has received notification of the action filed by EDF in Paris.

- *Availability of foreign currency from exports.* A dispute has arisen in relation to the free availability of currencies in connection with the proceeds of exports realized by YPF during 2002 as a consequence of the currency exchange regime established by Decree 1606/2001 which, according to certain interpretations, this Decree impliedly repealed the special regime of free availability of currencies deriving from the export of hydrocarbons and its derivatives set forth in article 5 of Decree 1589/89. This latter established the free availability of the percentage of foreign currency generated from exports of freely available crude petroleum, natural gas and/or liquefied gases, established in the tenders and /or renegotiations or agreed in the corresponding contracts. In all cases the maximum percentage of freely available currency could not exceed 70% of each operation.

On 31 December 2002, Decree 2703/2002 came into force which confirmed the position, stipulating that producers of crude oil, natural gas and liquefied gases must deposit a minimum of 30% of the currencies deriving from the exportation of crude oil (or its derivatives), with the remaining 70% being freely available. The question of which

regime applied in relation to currencies deriving from exports realized by YPF in 2002 during the period between the coming into force of Decree 1.606/2001 and Decree N° 2703/2002 was left open, however.

In October 2007 the notice for the commencement of an administrative proceeding for an alleged delay in the repatriation of currencies and in the lack for the remaining 70% concerning certain hydrocarbon exports made in 2002 (for the period comprised in the publication of the mentioned Decrees).

- *CNDC investigation.* In November 2003, within the framework of an official investigation pursuant to Article 29 of the Antitrust Act, the CNDC issued a request for explanations from a group of approximately 30 natural gas production companies, including YPF, with respect the inclusion of clauses purportedly restraining trade in natural gas purchase/sale contracts; and gas imports from Bolivia, in particular (a) the old and expired contract signed between the then state-owned YPF and YPFB (the Bolivian state-owned oil company), under which, according to CNDC, YPF allegedly sold Bolivian gas in Argentina at prices below the purchase price and (b) the unsuccessful attempts in 2001 by Duke and Distribuidora de Gas del Centro to import gas into Argentina from Bolivia. In January 2006, YPF received a notification of the CNDC ordering that preliminary proceedings be undertaken. In January 2007, the CNDC charged YPF together with eight other producers with violation of Law 25.156. YPF presented evidence for its defense. In June 2007 without acknowledging any conduct in violation of the Antitrust Act, YPF filed with the CNDC a commitment pursuant to Article 36 of the Antitrust Act in which YPF committed not to include the challenged clauses in future sales contracts of natural gas and requested that the CNDC approve the commitment, suspend the investigation and dismiss the proceedings. In December 2007, the CNDC decided to take the matter to the Court of Appeals, in light of the recourse filed by YPF against rejection of its allegation of expiry of the statute of limitations.

- *Bulk LPG contract clauses.* The CNDC has commenced proceedings to investigate YPF for the alleged use of a clause in LPG wholesale contracts that, according to CNDC, prevents buyers from reselling the product to third parties, thereby restricting competition. YPF has asserted that the contracts do not contain a prohibition against resale to third parties and has offered evidence in support of its position. In April 2007, YPF filed with the CNDC, without acknowledging any conduct in violation of the Antitrust Act, a commitment pursuant to Article 36 of the Antitrust Act not to include

such clauses in future LPG wholesale contracts and requesting that the CNDC to approve the commitment, suspend the investigation and terminate the proceedings. In November 2008, the Interior Commerce Secretary notified YPF of acceptance of the commitment made by YPF and ordered the suspension of the proceedings for a period of three years.

- *Noroeste basin reserves review.* The effectiveness of natural gas export authorizations related to production in the Noroeste basin granted to YPF pursuant to Resolution SE Nos. 165/99, 576/99, 629/99 and 168/00, issued by the Secretariat of Energy, is subject to an analysis by the Secretariat of Energy to determine whether sufficient additional natural gas reserves have been discovered or developed by YPF in the Noroeste basin. The result of this ongoing review is uncertain and may have an adverse impact upon the execution of the export gas sales agreements related to such export authorizations, and may imply significant costs and liabilities for YPF. The Company has submitted to the Secretariat of Energy documentation in order to allow for the continuation of the authorized exports in accordance with Resolutions SE No. 629/1999, 565/1999, and 576/1999 from the Noroeste basin. These export permits relate to the long-term natural gas export contracts with Gas Atacama Generación, Edelnor and Electroandina, involving volumes of 900,000 m³/day, 600,000 m³/day and 1,750,000 m³/day, respectively.

On August 11, 2006, YPF received Note SE No. 1009 (the “Note”) from the Secretariat of Energy, which reviewed the progress of reserves in the Ramos Area in the Noroeste basin, in relation to the export authorization granted by Resolution SE No. 167/97 (the “Export Authorization”). The Export Authorization concerns the long-term natural gas export contract between YPF and Gas Atacama Generación for a maximum daily volume of 530,000 m³/day. The Note stated that as a result of the decrease in natural gas reserves supporting the Export Authorization, the domestic market supply was at risk. The Note preventively provided that the maximum natural gas daily volumes authorized to be exported under the Export Authorization were to be reduced by 20%, affecting the export contract.

- *Patagonian Association of Landowners (ASSUPA) claims.* In August 2003, ASSUPA filed suit against 18 concession holders of the operation and permit holders of the exploration of the Neuquén River Basin, including YPF, S.A. requesting that those companies be required to remedy the collective environmental damage allegedly done and to take the necessary measures to prevent future environmental damage. The amount claimed is US\$ 548 million (EUR 394 million). YPF is contesting the suit and intends to

present a summons to the Argentine State due to its obligation to hold YPF harmless with respect to events and claims prior to 1 January 1991. YPF has replied to the suit and has set forth elements of proof.

- *Dock Sud Environmental claims* filed residence of the area against several respondents including YPF requesting individual damages to the health of the plaintiffs and environmental remediation in the area of Dock Sud as well as collective environmental damage to the Matanza and Riachuelo Rivers. This proceeding is being conducted at the Supreme Court. Another group of residents of the Dock Sud area has filed two other environmental claims, one of them already desisted with regard to YPF, requesting a number of companies based in that zone, including YPF, the Province of Buenos Aires and different municipalities, to provide remediation of and, subsidiary, compensation for the collective environmental damage done to Dock Sud and the particular patrimonial damage alleged to have been suffered. YPF is entitled to be held harmless by the Argentine State with respect to liabilities and contingencies caused prior to 1 January 1991.

By sentence dated 8 July 2008, the Supreme Court ruled that the Cuenca Authorities (Law 26.168) must oversee compliance with the program for environmental remediation in the basin, being the responsible entities for ensuring that said remediation is accomplished the Federal Government, the Province of Buenos Aires and the Autonomous City of Buenos Aires. Furthermore, it was decided that the Supreme Court would continue to determine the responsibilities for past conduct pertaining to the remediation of environmental damage.

In addition, citizens claiming to be residents living near Quilmes, in the province of Buenos Aires, have filed a lawsuit in which they have requested the remediation of environmental damages and the payment of 51 million of pesos as compensation for alleged personal damages, plus interest. The plaintiffs base their claim mainly on a fuel leak that occurred in 1988 in a poliduct running from La Plata to Dock Sud that was operated by YPF. The leaked fuel became perceptible in November 2002, resulting in remediation that is now being performed by YPF in the affected area, supervised by the environmental authority of the province of Buenos Aires. YPF has also notified the Argentine government that it will implead the government when YPF answers the complaint in order to request that it indemnify YPF against any liability and hold YPF harmless in connection with this lawsuit, as provided by Law No. 24,145. The Argentine

government has denied any responsibility for holding YPF harmless in this case, and a lawsuit has been filed requesting the annulment of that decision.

- *Requirement for information on the possible assumptions of underinvestment concerning specific concessions in the province of Neuquén* issued by Notes to the Secretary of Energy and Mining of said province, under summons to apply the caducity or prescription of the concessions. YPF believes that it has made the investments required by the investments and operation program for the areas in which it participates and operates. Subsequent to the YPF reply to the charge, by means of Resolution No. 178/08 issued by the Department of State for Natural Resources for the Province of Neuquén, the Province of Neuquén acknowledged that the investments reported for 2006 and 2007 correct the differences for the first period, and certify that YPF has complied with its obligations.

- *Note number 245/08 issued by the Under-Secretariat of Mining and Hydrocarbons for the Province of Río Negro.* On 15 may 2008, YPF was notified via note 245/08, of Resolution 433/08 with reference to control of compliance with YPF obligations as a concessionaire of a number of hydrocarbon fields located in the Province of Río Negro. The Resolution claims that those exploitation concessions would be unattended and disinvested, with drops in production or no production and a high level of environmental compromise. In view of the foregoing, YPF is urged to reply to those claims. Said resolution has been contested in view of the fact that said administrative act denies YPF the right granted in Article 80 of the 17.319 Law, i.e. the right to rectify or correct alleged cases of noncompliance. Furthermore, the respective reply has been issued. On November 12, 2008, Resolution 1143/08 ordered commencement of the time allowed for producing evidence, and established different types of expert testing.

Ecuador

Petroecuador, the national oil company in Ecuador, has refused to abide by a binding decision against it, issued by a technical consultant, in accordance with the dispute solving mechanism established in the Participation Agreement in respect of Block 16 oil reserve. The dispute was related with inapplicability of an adjustment to the participation calculation due to a reduction in the SOTE transport fees. In order to avoid such decision

to apply, the Ecuadorian authorities, specifically, the State General Comptroller, intervened by undertaking a special examination of Petroecuador, which affected the same items of the technical arbitration, and which has resulted in an administrative settlement or marginal note (Glosa No. 7279) by which Petroecuador claimed from Repsol YPF 2.5 million barrels. In February 2008, Petroecuador sent Repsol YPF an invoice for USD 191 million (EUR 130 million) in relation to this administrative settlement. Finally, on 20 August 2008, an agreement was reached and “Acta de Compensación de Cuentas” was signed by Petroecuador and Repsol YPF Ecuador S.A, whereby reciprocal outstanding credits and outstanding oil barrels debts of the Block 16 and of Campo Unificado Bogi-Capirón, were offset, including those pertaining to said Glosa No. 7279, thus putting an end to the controversy.

On 9 June 2008, the companies comprising the contracting consortium of the Block 16 (Repsol YPF Ecuador S.A., Murphy Ecuador Oil Co., CRS Resources (Ecuador) LDC, and Overseas Petroleum and Investment Corporation), in disagreement with application of the new tax on extraordinary profits, presented the CIADI with a request for international arbitration pursuant to the Participation Contract. The arbitration Board was established in early February 2009, and on 16 February, Repsol reiterated to that Board its request for precautionary measures. On 19 February 2009, Petroecuador filed a claim for the contracting consortium to cover the unpaid portion of the participation in extraordinary profits, prior to which, Repsol had requested CIADI to suspend the procedures as a preventive measure.

Algeria

Sonatrach has brought an international arbitration proceeding concerning the integrated Gassi Touil seeking validation for its decision to rescind the Gassi Touil project agreement entered into with Repsol YPF and Gas Natural and claiming damages. The arbitration Court has agreed on the terms of the provisional transfer of activities to Sonatrach, as requested by the three companies, attaching the respective economic consequences to the decision of the arbitration. Sonatrach, Repsol YPF and Gas Natural have filled their respective claims, with Sonatrach requesting compensation of approximately 800 million dollars, while Repsol YPF and Gas Natural claim approximately US\$ 2,400 million (EUR 1,724 million). The final result of the procedure is not expected to have a significant negative effect on these consolidated financial statements.

European Union

- *Rubber markets*: The European Commission launched an investigation into several markets related to tire manufacturing. Towards the end 2002, General Química S.A., Repsol YPF's subsidiary which produces rubber chemicals and rubber additives, together with other companies in Europe and the United States, were investigated in the context of an antitrust investigation. This investigation resulted in a decision pursuant to which a EUR 3 million fine was imposed on General Química, S.A, holding Repsol Química, S.A. and Repsol YPF jointly and severally liable. An appeal was filed against that decision at the First Instance Court of the European Union, which in its 18 December 2008 sentence, overruled the appeal. Repsol YPF and Repsol Química will file an appeal for annulment of that decision.

- *Asphalts markets*: Around the same date, Repsol YPF Lubricantes and Especialidades S.A. ("RYLESA"), Repsol YPF's subsidiary engaged in producing asphalt and other products, was together with other companies, investigated by the European Union as part of an antitrust investigation. As a result of that investigation, the European Commission imposed a fine of EUR 80.5 million on RYLESA, also holding Repsol Petróleo and Repsol YPF jointly liable. That decision is also being appealed at the First Instance Court of the European Union. No resolution has been issued yet.

- *Paraffins*: Likewise, the European Commission initiated administrative proceedings to penalize certain companies within the Repsol YPF group for certain alleged collusive practices in the paraffins market. On October 2008, a decision imposed a fine of EUR 19.8 million on such group companies. An appeal has been filed against that sanction at the First Instance Court of the European Union.

The Group Repsol YPF has other contingent liabilities related to the environmental obligations linked to its everyday activity (see Note 39).

The consolidated balance sheet at December 31, 2008 and 2007 shows EUR 468 million and EUR 586 million, respectively, under the non-current and current provision captions to cover risks in connection with those contingencies (this does not include the provisions for tax risks described in Note 25).

Concerning those contingencies, company management believes that the provisions

recorded adequately cover the related risks.

(38) DERIVATIVES TRANSACTIONS

In 2008 the Repsol YPF Group arranged derivatives transactions to hedge the following situations:

1. Fair value hedges of assets and liabilities
2. Cash flow hedges
3. Hedges of net investments in foreign operations

In addition, the Repsol YPF Group performed other transactions with derivative instruments in 2008 and 2007 that do not qualify as accounting hedges.

The effect in the balance of derivative instruments is detailed at 31 December 2008 and 2007:

Million of Euros

31 December 2008

Classification	Non-current Assets	Current Assets	Non-current Liability	Current Liability	Fair Value
1. Hedge derivative instruments	131	149	(285)	(15)	(20)

2. Other derivative instruments	-	5	(170)	(12)	(177)
TOTAL	700	57	(181)	(36)	540

(1) Includes derivative instruments whose valuation with respect to interest rate amounts to a negative value of EUR 292 million.

38.1) Fair value hedges of assets and liabilities

These are hedges of the exposure to changes in the fair value of an asset or a liability recognised for accounting purposes, an unrecognised firm commitment or an identified portion of the aforementioned asset, liability or firm commitment that can be attributed to a particular risk and might affect the net income for the period. The most significant transactions are detailed below:

Swaps on crude oil prices

Through its holding in YPF, S.A., Repsol YPF had arranged a swap contract on crude oil prices in order to hedge fluctuations in the current value of deliveries under a forward sale agreement. By virtue of this swap, the Company will receive floating market prices and pay fixed prices. At 31 December 2007, the contract hedged approximately 1 million barrels of crude oil. In May 2008 that “swap” has been covered as a result of the expiration of forward contract.

This swap was defined as a fair value hedge related to the price of a barrel of crude oil. At 31 December 2007, the fair value of this swap was EUR 49 million.

The change in the fair value of these hedge instruments net of the changes in the fair value of the hedged item has a null impact in the consolidated income statements in 2008 and 2007, due to the absence of ineffectiveness.

Interest rate options

In May 2001 Repsol YPF arranged a zero-cost interest rate swap option on a notional amount of EUR 1,000 million, tied to the preference shares issued on that date (see Note 19).

The characteristics of these options are as follows:

- Repsol YPF sold a right by virtue of which, if the counterparty exercised the right, it would pay 3-month Euribor and receive 7% APR on the aforementioned notional amount, with quarterly settlement periods beginning on 30 June 2001, the first maturity being on 1 October 2001, and the last on 30 June 2011.
- Repsol YPF purchased a right by virtue of which, if it exercised the right, Repsol YPF would pay 3-month EURIBOR and receive 4% APR on the aforementioned notional amount, with the same quarterly settlement periods and maturity dates as those mentioned in the previous paragraph.

By virtue of these interest rate swap options, the final cost for Repsol YPF of this preference share issue in the first ten years was established at a floating interest rate of 3-month EURIBOR.

Also, in April 2002, effective 30 June 2002, Repsol YPF arranged a zero-cost interest rate swap option on a notional amount of EUR 1,000 million tied to the EUR 2,000 million preference share issue issued in December 2001 (see Note 19).

The characteristics of these options are as follows:

- Repsol YPF sold a right by virtue of which, if the counterparty exercised the right, Repsol YPF would pay 3-month EURIBOR and receive 7% APR on the aforementioned notional amount, with quarterly settlement periods beginning on 30 June 2002, the first maturity being on 30 September 2002, and the last on 31 December 2011.

- Repsol YPF purchased a right by virtue of which, if it exercised the right, Repsol YPF would pay 3-month EURIBOR and receive 4% APR on the aforementioned notional amount, with the same quarterly settlement periods and maturity dates as those mentioned in the previous paragraph.

By these purchase and sale transactions on interest options, of the total sum of the EUR 2,000 million corresponding to the issue of preference shares in December 2001, EUR 1,000 million have been at a floating rate of 3 months EURIBOR, for the period from 30 September 2002 and 31 December 2011.

At 31 December 2008 and 2007, the fair value of these purchase and sale transaction of interest rate options of EUR 64 million and EUR 9 million, respectively, have been recorded in the assets of the consolidated balance sheet attached.

The effect on the income statement concerning the hedging instrument, as well as the hedge item, has amounted to EUR 55 million and EUR 17 million in 2008 and 2007 respectively, recorded with a null impact under the heading “Financial result” due to the absence of ineffectiveness.

Cross-currency IRS

At 31 December 2008 and 2007 Repsol YPF through its stake in Gas Natural, has trading transactions of mixed currency and interest swaps to cover the fair value in the financial transactions traded. The detail of said transactions at 31 December 2008 and 2007 is the following:

31 December 2008	Maturity							Fair Value
	2009	2010	2011	2012	2013	Subsequent	Total	
	(million of euros)							
Floating to Fixed								
Contract amount/notional (BRL)	1	1	1	1	-	-	4	1
			101.90%					
Average rate payable (BRL)	CDI + 4.97%	101.90% CDI 129% CDI	CDI 129% CDI	101.90% CDI	-	-		
		LIBOR a.t + 0.60% a.a	LIBOR a.t + 0.60% a.a					
Average rate receivable (USD)	USD + 8.30%	US\$ + 10.59% a.a	US\$ + 10.59% a.a	LIBOR a.t + 0.60% a.a	-	-		
Floating to Fixed								
Contract amount/notional (BRL)	5	-	-	-	-	-	5	(3)
	101.90% CDI							
Average rate payable (BRL)	113.04% CDI	-	-	-	-	-	-	-
	LIBOR a.t + 0.60% a.a							
Average rate receivable (USD)	7.66% a.a	-	-	-	-	-	-	-

31 December 2007	Maturity							Fair Value
	2008	2009	2010	2011	2012	Subsequent years	Total	
	(Millions of Euros)							
Floating to Fixed								
Contract amount/notional (MXN)	308	-	-	-	-	-	308	2
Average rate payable (EUR)	8%	-	-	-	-	-	-	-
Average rate receivable (EUR)	Euribor+20.5pb	-	-	-	-	-	-	-

The effect recorded in the consolidated income statements concerning these cross currency interest rate swaps in the periods 2008 and 2007 has amounted to EUR 11 million and EUR 6 million, respectively, recorded with a null impact under the heading "Financial result" due to the absence of ineffectiveness.

Foreign exchange rate transactions

Forward Contracts

At 31 December 2008, Repsol YPF, through its stake in Gas Natural, had arranged forward cash flow hedging transactions to hedge its exposure to foreign exchange risk. The detail of these contracts is as follows:

31 December 2008	Maturity						Total	Fair Value (1)
	2009	2010	2011	2012	2013	Subsequents		
	(millions of euros)							
USD/EUR (2)								
Contract amount (USD)	136	-	-	-	-	-	136	6
Contract average exchange rate	1.4359							
MAD/EUR (2)								
Contract amount (USD)	2	-	-	-	-	-	2	-
Contract average exchange rate	8.13							

(1) In millions of equivalent euros.

(2) Repsol YPF buys the first currency mentioned and sells the second.

The effect recorded in the consolidated income statement concerning these term currency purchase and sale contracts amounts to EUR 2 million in the 2008 period, with no effect on the consolidated income statement, since there is no type of ineffectiveness.

38.2) Cash flow hedges

These are hedges of the exposure to variability in cash flows that: (i) is attributed to a particular risk associated with a recognised asset or liability (such as all or some future interest payments on variable rate debt) or a highly probable forecasted transaction; and (ii) could affect profit or loss. The detail of the most significant transactions is as follows:

Raw material price hedging transactions

At 31 December 2008 Repsol YPF, through its stake in Gas Natural, had traded some hedging instruments on the prices of natural gas and electricity: (i) EUR-denominated swaps for a nominal amount of EUR 27 million, and at a positive net fair value of EUR 4 million.

At 31 December 2007 Repsol YPF, through its stake in Gas Natural, had traded some hedging instruments on the prices of natural gas and electricity: (i) USD-denominated swaps for a nominal amount of US\$ 27 million, and at a negative net fair value of EUR 2 million, and (ii) EURO-denominated swaps for a net face value of EUR 45 million and with a negative net fair value of EUR 3 million.

Interest rate transactions

i. Interest rate swaps

At 31 December 2008 and 2007, the Repsol YPF Group held the following interest rate

swaps as hedges:

31 December 2008	Maturity						Total	Fair Value
	2009	2010	2011	2012	2013	Subsequent years		
	(millions of euros)

iii. Cross currency IRS

At 31 December 2008 and 2007, Repsol YPF, through its stake in Gas Natural, had arranged cross-currency IRS transactions. The detail of these hedging transactions is as follows:

31 December 2008	Maturity						Total	Fair Value
	2009	2010	2011	2012	2013	Subsequent years		
	(millions of euros)							
Floating to Fixed

Foreign exchange rate transactions

Forward contracts

At 31 December 2008 and 2007, Repsol YPF, through its investment in Bahía de Bizkaia Electricidad, S.L. and Gas Natural and other affiliates had arranged forward cash flow hedging transactions to hedge its exposure to foreign exchange risk. The detail of these contracts is as follows:

31 December 2008	Maturity						Total	Fair Value (1)
	2009	2010	2011	2012	2013	Subsequent years		
	(Million of euros)							
USD/Euro (2)								
Contract amount (USD)	165	2	2	2	2	4	177	(5)
Contract average exchange rate	1.3883							
USD/Euro (2)								
Contract amount (USD)	37	3	-	-	-	-	40	-
Contract average exchange rate	1.3823	1.3752						
JPY/Euro (2)								
Contract amount (JPY)	21	-	-	-	-	-	21	5

31 December 2007	Maturity						Total	Fair Value(1)
	2008	2009	2010	2011	2012	Subsequent years		
	(Million of Euros)							
USD/Euro (2)								
Contract amount (USD)	199	3	3	3	3	8	219	(3)
Contract average exchange rate	1.48	1.27	1.28	1.29	1.30	1.32		

(1) In millions of equivalent euros.

(2) Repsol YPF buys the first currency mentioned and sells the second.

38.3) Hedges of net investment in foreign operation

These are hedges of the foreign currency exposure relating to the Group's interest in the net assets of the foreign operations.

Repsol YPF arranges forward foreign currency purchase and sale contracts as part of its overall strategy to manage its exposure to foreign exchange risk on investments.

The detail of the most significant transactions with financial derivatives in force at 31 December 2008 and 2007 is as follows:

i) Forward Contracts

The nominal value, maturity and fair value of these financial instruments, as of 31 December 2008 and 2007, were as follows:

31 December 2008	Maturity							Fair
	2009	2010	2011	2012	2013	Subsequent years	Total	Value (1)
Eur/USD (2)								
Contract amount (EUR)	1,678	-	-	-	-	-	1,678	124
Contract average exchange rate	1.2846							

31 December 2007	Maturity						Fair	
	2008	2009	2010	2011	2012	Subsequent years	Total	Value (1)
Eur/USD (2)								
Contract amount (EUR)	179	-	-	-	-	-	179	(14)
Contract average exchange rate	1.59							

(1) In millions of equivalents euros.

(2) Repsol YPF buys the first currency mentioned and sells the second

ii) Cross-currency IRS

The nominal value, maturity and fair value of these financial instruments, at 31 December 2008, were as follows:

31 December 2008	Maturity							Fair
	2009	2010	2011	2012	2013	Subsequent years	Total	Value
(millions of euros)								
Fixed to Fixed								
Contract amount/notional (Eur)	-	342	-	750	700	658	2,450	(195)
Average rate payable (USD)	-	3.02%	-	4.97%	5.25%	4.95%		
Average rate receivable (Eur)	-	4.42%	-	4.22%	4.41%	4.41%		

In addition to the financial instruments detailed in the preceding graph, the Group has contracted CCIRS for a notional amount of EUR 300 million, maturing in 2010, which were discontinued as hedging instruments on 21 February 2008 and have since been considered speculative (see caption 38.4ii in this note). At the time they were discontinued, their fair values were EUR 130 million, and have been recorded as assets on the consolidated balance sheet as net investment coverage financial derivatives.

The nominal value, maturity and fair value of those financial instruments recorded in the consolidated balance sheet at 31 December 2007 was as follows:

31 December 2007	Maturity						Total	Fair Value
	2008	2009	2010	2011	2012	Subsequent years		
	(Million of Euros)							
Floating to Fixed								
Contract amount/notional (Eur)	-	-	1,175	-	750	2,200	4,125	677
Average rate payable (Usd)	-	-	7.16%	-	4.97%	5.26%	-	-
Average rate receivable (Eur)	-	-	6.00%	-	4.22%	4.52%	-	-

38.4) Other derivatives transactions

Repsol YPF has also arranged certain derivatives to manage its exposure to interest rate risk, foreign exchange risk and price risk that do not qualify for hedge accounting.

In 2008 and 2007, the effect recorded in the consolidated income statement, both for active instruments at year end and for instruments paid off during the period, is an income of EUR 86 million and EUR 63 million, respectively, recorded in “Financial result”, and an income of EUR 36 million and expense of EUR 50 million, respectively, recorded in the “Operating cost” line of the consolidated income statement.

The detail of the most significant transactions is as follows:

i) Interest rate swap

- During 2007 hedging relation for two interest rate swaps for a notional amount of EUR 674 million designated as cash flows hedge for the issue of preference shares has been discontinued as these lack efficiency. The fair value of those instruments at 31 December 2007 was EUR 170 million, and was recorded as a liability. These financial swaps were paid in the 2008 period and the result of the payment was an expense of EUR 0.2 million.

The recorded accumulated loss under the heading “Adjustments for changes in value” at 31 December 2008 and 2007 amounts to EUR 43 million and EUR 47 million, respectively, and shall be depreciated along the life of the preference shares these were hedging. The related amount reflected in “Adjustments for changes in value” in 2008 and 2007 amounts to an expense of EUR 4 million.

- Additionally, the Group has contracted interest rate swaps to economically cover interest rate risk that do not qualify as accounting hedges at 31 December 2008 noted in the following table:

31 December 2008	Maturity						Total	Fair Value
	2009	2010	2011	2012	2013	Subsequent years		
	(millions of euros)							
1.) Floating to Fixed								
Contract amount/notional (EUR)	-	300	-	-	-	-	300	(18)
Average rate payable (EUR)		6.00%						
Average rate receivable (EUR)		Euribor 3m + 0.51%						

ii) Cross currency IRS

In 2008, mixed swap operations totalling EUR 2,175 million used as net investment coverage have been discontinued, of which, operations amounting to EUR 1,875 million were cancelled throughout the year.

Following are currency and interest rate financial swaps corresponding to discontinued coverage not cancelled in 2008 and remaining in the Group's consolidated financial statements as speculative derivatives not considered to qualify as accounting hedges:

31 December 2008	Maturity						Total	Fair Value
	2009	2010	2011	2012	2013	Subsequent years		
	(millions of euros)							
Fixed to Fixed								
Contract amount/notional (EUR)	-	300	-	-	-	-	300	121
Average rate payable (USD)		6.94%						
Average rate receivable (EUR)		6.00%						

Valuation to market of those financial instruments at the date the coverage was discontinued was EUR 130 million (see caption 38.3 ii of this note). The variation in the fair value of those instruments from the date on which coverage was discontinued to 31 December 2008 (EUR 9 million) has been recorded as a liability for derivative instruments not considered to qualify as an accounting hedge.

iii) Other forward contracts

Repsol YPF has entered into other forward contracts as part of its overall strategy to manage its exposure to foreign exchange risk. The nominal value, maturity and fair value of these financial instruments recognised as an asset on the consolidated balance sheet at 31 December 2008 and 2007 were as follows:

31 December 2008	Maturity						Total	Fair Value (1)
	2009	2010	2011	2012	2013	Subsequent years		
	(millions of euros)							
EUR/USD								
Contract amount (EUR)	2,106	-	-	-	-	-	2,106	48
Contract average exchange rate	1.3585							
USD/EUR								
Contract amount (USD)	1,275	-	-	-	-	-	1,079	(27)
Contract average exchange rate	1.3618							
CLP/USD								
Contract amount (CLP)	47	-	-	-	-	-	47	-
Contract average exchange rate	643.49							
USD/PEN								
Contract amount (USD)	18	-	-	-	-	-	18	-
Contract average exchange rate	3.12							

31 December 2007	Maturity					Subsequent years	Total	Fair Value (1)
	2008	2009	2010	2011	2012			
EUR/USD								
Contract amount (EUR)	625	-	-	-	-	-	625	2
Contract average exchange rate	1.47	-	-	-	-	-		
USD/EUR								
Contract amount (USD)	213	-	-	-	-	-	213	(3)
Contract average exchange rate	1.44	-	-	-	-	-		
EUR/BRL								
Contract amount (BRL)	11	-	-	-	-	-	11	-
Contract average exchange rate	3.00	-	-	-	-	-		

(1) In millions of equivalent euros.

(2) Repsol YPF buys the first currency mentioned and sells the second

iv) Equity Swaps

Gas Natural has signed equity swap contracts with UBS Limited, ING Belgium and Société Générale representing 9.40% of the capital stock, on a total of 85,886,762 Unión Fenosa, S.A. shares as the underlying securities, which has allowed Gas Natural to finance its operations, either as a result of differences (cash payments) or by means of acquiring said shares (physical liquidation) as from the date on which the necessary permits are awarded. Each agreement establishes a price ceiling (from 17.13 to 17.57

euros per share, on the basis of the agreement). Fair value recorded in the consolidated balance sheet for those operations at 31 December 2008 was EUR 11 million.

v) Future contracts on commodities

The risk associated with future physical crude oil and other oil product purchase or sale transactions is hedged through the arrangement of derivative instruments, basically futures and swaps.

At 31 December 2008 and 2007, the open positions were as follows:

31 December 2008	Thousand of barrels except (*)	Maturity						Total	Fair Value

Furthermore, the “Other receivables” caption includes EUR 7 million corresponding to the valuation to market of commodity purchase/sale contracts valued as per IAS 39, as described in section 4.22 of Note 4.

(39) ENVIRONMENTAL INFORMATION

The Repsol YPF Environmental Management System includes a methodology for identifying relevant matters to enable the Company to prepare the annual environmental budget that forms part of the Group’s general strategic planning. They include the measures required to respond to new legislative requirements, Repsol YPF's strategic focus, plans for corrective measures arising from environmental audits performed, etc., together with the investments and expenses required to implement all these measures, which will be addressed in the Company’s general budget.

The criteria used to measure environmental costs are established in the “Repsol YPF Environmental Costs Guide”, which adapts the American Petroleum Institute guidelines to the Group’s operations and technical approach. It is important to note in this regard that the traditional “bottom-line” solutions for reducing environmental impact are gradually giving way to preventive measures built into processes right from the time the facilities are designed. This sometimes requires the identification of environmental assets through a system of coefficients applied to investment projects and the related tangible assets, per the guidelines expressed in the aforementioned Guide.

39.1) Environmental Assets

At 31 December 2008, the breakdown of the cost of the environmental assets identified and the related accumulated depreciation is as follows:

	Millions of euros		
	Cost	Accumulated Depreciation	Net
Atmospheric emissions	403	(205)	198
Water	623	(368)	255
Product quality	1,348	(614)	734
Soil	238	(69)	169
Energy saving and efficiency	284	(144)	140
Waste	43	(13)	30
Other	451	(287)	164
	<u>3,390</u>	<u>(1,700)</u>	<u>1,690</u>

The cost includes EUR 310 million relating to tangible assets in the course of construction.

As in prior years, the main environmental investments made in 2008 include those required to reach the environmental quality of the oil products demanded in the new Spanish and Argentine regulations for a total amount of EUR 56 million. Outstanding projects in this area include the continuation of the project to improve the quality of gasoline and gas oils in the refinery of Cartagena (Spain), with an environmental investment of EUR 12 million.

Investments aimed at the control, reduction and/or avoidance of pollutant emissions have been also relevant, especially, those concerning the protection of the atmosphere, the water means, soil and the subterranean waters. Among them, we highlight the ongoing development of the plant OHP (oxidation per Hydro peroxide) for the treatment of effluents in the petrochemical plant, both in Tarragona (Spain) representing an investment of EUR 3 million in 2008.

39.2) Environmental Provisions

Repsol YPF recognises the provisions required to cover the measures aimed at preventing and repairing environmental impact. These provisions are estimated on the basis of technical and economic criteria and are classified under "Other Provisions".

The changes in the environmental provisions in 2008 were as follows:

	<u>Millions of euros</u>
Balance at 1 January 2008	178
Period provisions charged to income	133
Provisions released with a credit to income	(2)
Payment	(69)
Reversals and other	(3)
Balance at 31 December 2008	<u><u>237</u></u>

Additionally, Repsol YPF's Environmental Cost Guide classifies as environmental provisions 75% of the amounts recognised under the caption "Provision for Field Dismantling Costs", totaling EUR 826 million at 31 December 2008 (see Note 20).

The balance of the environmental provisions at 31 December 2008, included most notably approximately EUR 110 million to cover the environmental risks relating to the operations carried out in the past by the former chemicals subsidiary of Maxus Energy Corporation, Diamond Shamrock Chemicals Company, prior to its sale in 1986 to Occidental Petroleum Corporation (also included in the provisions detailed in Note 37).

The corporate insurance policies cover third-party liability for pollution caused by accidental and sudden events, in keeping with standard practice in the industry.

39.3) Environmental expenses

In 2008 environmental expenses amounted to EUR 363 million and were classified as "Materials used" and "Other operating expense".

This amount includes EUR 208 million of expense for the rights necessary to cover CO₂ emissions during 2008 (although according to Note 9, the net expense pertaining to CO₂ emissions amounted to approximately EUR 16 million in 2008; see Notes 9 and 20) and measures in connection with atmospheric protection, soil and underground water remediation, waste management and water management, amounting to EUR 31 million, EUR 29 million, EUR 41 million and EUR 22 million, respectively.

39.4) Future projects

Some of the most important issues that might affect Repsol YPF's operations and

investments in the future are climate change and renewable energies, Law 26093 in Argentina, Resolution SE 785/2005 in Argentina, the change in Directive 96/61/EC on Integrated Pollution Prevention and Control (IPPC), together with the Law 26/2007 on environmental liability and the new regulations that will further develop such law.

In the area of climate change, on 12 December 2008, the European Parliament reached an agreement approving the Emissions Trading Directive as from 2013, the principal points of which are as follows:

- The number of rights to be assigned during the 2013-2020 periods will be reduced by 21% from 2005 emissions. Annual ceilings will be reduced gradually by 1.74%.
- Allowable levels will be based on benchmarking and will be gradually replaced by auctioned rights. The number of rights to be auctioned will increase linearly from 20% in 2013 to 70% in 2020. This will affect all industrial sectors, except from the electric one. The 50% of income arising from those auctions will be invested in financing mitigation and adaptation plans and measures.
- Up to 2015, more than 300 million rights pertaining to the reserve for new entrants will be used to finance projects for capturing and isolating carbon and for renewable energy projects.
- Industrial sectors determined by the European Commission to be susceptible to loss of competitiveness as a result of fuel consumption may opt to have 100% rights assigned to them. Those sectors must be identified prior to December 2009.

On the other hand, in 2006 was approved in Argentina the Law 26093, which contemplates incorporating biofuel into gasoline and fuel oil. These regulations are compulsory from the fourth year in which they go into effect and are directed basically to obtaining biofuel, incorporation of biofuel into petroleum derivatives, and logistical distribution. Since mid-2007, the Company has been marketing the so-called gasoilbio (a mixture of gasoil and bio-combustibles) at a growing number of service stations. The percentage of bio-combustibles, which is currently 1%, will gradually rise in order to meet the 5% established in that Law.

In addition, Resolution SE 785/2005 went into effect in Argentina in 2005, which deals with elevated hydrocarbon storage tanks. This Law requires a number of audits to ensure that the tanks are hermetically sealed and to determine possible contamination attributable

to those tanks. It also establishes obligations concerning tank repair and reclaiming of contaminated sites.

In late 2007 the European Commission submitted a proposal for revision of Directive IPPC (Integrated Prevention Pollution Control), which continues to be discussed. It now includes other areas of contamination, such as the installation of medium-sized combustion devices (from 20 to 50 MW), establishes stricter emissions ceilings for a large combustion facilities not previously included in this Directive, and proposes annual inspections of industrial sectors to compare emission levels to those established in Best Available Technologies. On the other hand, BREF (Best Available Technologies Reference) for refining is being reviewed, which calls for renewal of the Integrated Environmental Authorisation every four years.

In Spain, in October 2007 Law 26/2007 was enacted, transposing the Directive 35/2004 relating to environmental responsibility. The corresponding regulation was published on 23 December 2008, and establishes methodologies for determining risk scenarios and calculating repair costs making it possible to determine coverage for financial environmental liability guarantees. The requirement to provide such financial guarantee will be established in an order issued by the Department of the Environment (Rural and Marine), after 30 April 2010.

(40) FEES PAID TO THE AUDITORS

The fees earned by the auditors and their organisation for the audit services provided to Repsol YPF, S.A. and the Group companies in 2008 amounted to EUR 7.6 million. Also, the fees earned by the auditors and their organization for audit-related services and other services amounted to EUR 0.8 million and EUR 0.03 million, respectively.

The sum of these amounts does not represent more than 10% of the total volume of business of the auditors and their organisation.

(41) SUBSEQUENT EVENTS

At the date of formulation of these consolidated financial statements, there are no subsequent events to be noted.

(42) EXPLANATION ADDED FOR TRANSLATION TO ENGLISH

These consolidated financial statements are prepared on the basis of IFRSs, as issued by the International Accounting Standard Board and as adopted by the European Union, and certain accounting practices applied by the Group that conform with IFRSs may not conform with other generally accepted accounting principles.

APPENDIX I - PRINCIPAL COMPANIES OF THE REPSOL YPF GROUP AT 31 DECEMBER 2008

(1) Other companies of the Group have ownership in the share capital of the company, but inferior to the ownership of the parent company.

(2) The data corresponding to this company are incorporated by full consolidation in the parent. The parent consolidates proportionally in the Repsol YPF Group.

(3) The data corresponding to this company are incorporated by full consolidation in the parent. The parent integrates by the equity method in the Repsol YPF Group.

(4) Consolidation Method:

F.C.: Full consolidation

P.C.: Proportionate consolidation

E.M.: Equity Method

(5) Percentage of the Parent shareholding over the Shareholder

Nota: The equity of the companies whose functional currency is not the Euro has been converted to the Euro at the closing date.

(1) Other companies of the Group have ownership in the share capital of the company, but inferior to the ownership of the parent company.

(2) The data corresponding to this company are incorporated by full consolidation in the parent. The parent consolidates proportionally in the Repsol YPF Group.

(3) The data corresponding to this company are incorporated by full consolidation in the parent. The parent integrates by the equity method in the Repsol YPF Group.

(4) Consolidation Method:

F.C.: Full consolidation

P.C.: Proportionate consolidation

E.M.: Equity Method

(5) Percentage of the Parent shareholding over the Shareholder

(6) The variations in the line items of the consolidated balance sheet generated by this variation is recorded in the line "Reclassification and others" of the movements presented in the different notes.

APPENDIX I - CHANGES IN THE SCOPE OF CONSOLIDATION FOR THE YEAR ENDED 31 DECEMBER 2007

ECONOMIC-FINANCIAL INFORMATION

MACROECONOMIC ENVIRONMENT

The year ended 31 December 2008 was marked by the global economic crisis and uncertainties. Economic growth had started to slow down in the first quarter of 2007 due to turbulence in the financial system, which, at first, affected structured credit markets and their funding requirements, intensifying subsequently and generating tensions in the credit market beyond the issue of subprime mortgages. The financial crisis became more toxic in 2008 and markets entered a vicious cycle of deleveraging and declining asset values, affecting the real economy because of

the significant loss of confidence, leading to a recession in major advanced economies.

In its January 2009 report, the International Monetary Fund (IMF) estimated that global growth in 2008 had declined to 3.4% in comparison with the 5% growth recorded in recent years. Growth in advanced economies was weaker in 2008, approximately 1% (2.7% in 2007), and emerging and developing economies grew 6.3%, showing strong performance albeit lower than the 8.3% growth recorded in 2007. These figures show that the impact of the financial crisis on mature markets was more intense than on emerging ones which demonstrated great resistance until the last quarter of the year when financial tensions peaked as Lehman Brothers, the U.S. investment bank, declared bankruptcy.

Another important factor in the context of the 2008 macroeconomic scenario was the sharp rise in inflation up until the third quarter, whereafter it fell sharply, principally as a consequence of the evolution of raw materials, oil, and cereals prices. Oil prices in 2008 continued the upward trend that began in 2002. The average price of Brent was US\$ 97 vs. 72 recorded in 2007; although it was highly volatile reaching a maximum of US\$ 133 in July 2008 and then plunging to a monthly average US\$ 40 in December because of the slump in global economic activity.

The oil market in 2008 was extremely volatile. Prices in the first part of the year followed the upward trend in place since the start of 2007, continuing to climb from the average US\$ 92/barrel in January reaching a record high, in nominal and actual terms, in early July when, in the specific case of West Texas Intermediate (WTI) prices peaked at more than US\$ 145/barrel. Various factors were responsible for this rise, such as: inelastic demand, particularly in countries not members of the Organization for Economic Co-operation and Development (OECD); the uncertainty on whether supply would be able to meet demand in the short, medium, and long term; and the development of a financial market that was

significantly commodity-leveraged. The turning point came in August when the financial crisis spread to oil markets through: reduced demand in view of the macroeconomic outlook; and deleveraging in the financial market. Oil prices fell to levels not seen since 2004, averaging US\$ 99.45/barrel at the end of 2008.

The moderation in inflation, registered as of August 2008, because of weak demand and lower commodity prices, enabled central banks to take coordinated action, drastically reducing interest rates and injecting liquidity. Governments intervened providing public funds to recapitalise banking entities and to purchase so-called toxic assets, also coordinating major tax stimulus measures to mitigate the adverse impact of the financial crisis and its effects on the real economy.

In the United States, GDP in 2008 grew 1.1%, down from the 2% recorded in 2007. The crisis, which was initially concentrated in the housing sector, spread to the manufacturing industry and is intensely affecting private spending.

The Euro zone, which showed positive performance in the first half of 2008, was also severely affected by the financial crisis in the second part of the year, and average growth fell from 2.6% in 2007 to 1%.

In Spain, the international financial crisis aggravated the real estate market correction that started in 2007. This scenario adversely affected domestic demand and, as a consequence, GDP at year-end 2008 stood at 1.2% compared to 3.7% in the last decade, following two quarters of an economic downturn, something which had not happened in 15 years.

Latin America in 2008 benefitted from high raw materials prices in the first half of the year and greater macroeconomic stability, recording nearly 4.6% economic growth, one percentage point less than in 2007. Nevertheless, the financial crisis also affected the last part of 2008 because of the deleveraging process, against a backdrop of growing uncertainties.

RESULTS

At €2,711 million, Repsol YPF's net income in 2008 was 15% below the record figure posted in 2007. Operating income was €5,083 million in comparison with the €5,808 million posted a year earlier. Earnings per share were €2.23.

The year 2008 was marked by high oil price volatility and the average depreciation of the dollar during the year. The price of Brent oil peaked at US\$ 145 per barrel in July and then started to decline until reaching US\$ 41 by the end of the year.

Operating income in the Upstream business (Exploration and Production) was up 20% to €2,258 million reflecting higher oil benchmark prices.

Liquefied Natural Gas (LNG) revenues rose 17% to €125 million driven by increased activity and higher prices of the main commodities and in the Spanish electricity pool.

Income in the Downstream area (Refining, Marketing, Liquefied Petroleum Gas, and Chemicals) once again showed Repsol YPF's leadership in this business. Operating income in the year reflected the year-on-year improvement in refining margins although this business was negatively affected by the sharp contraction of the Chemical business in 2008 because of the global economic slump.

Operating income in Repsol YPF associates was €1,159 million, 5.6% less than in 2007. Higher prices in the Argentinean market offset the rise in costs, the drop in exports and in the chemical business, and the depreciation of the peso. At €555 million, operating income in Gas Natural SDG increased 7.6%. This growth is attributable to higher year-on-year average electricity prices in Spain, the increase in electricity generation, the incorporation of the power business in Mexico, and enhanced performance in the gas business, particularly in regulated distribution in Brazil and in gas procurement and marketing in deregulated markets.

Repsol YPF Group's financial result in 2008 amounted to €372 million and income tax accrued in 2008 totalled €1,940 million, with the effective tax rate at 41.2%.

FINANCIAL OVERVIEW

Despite the difficult macroeconomic scenario, Repsol YPF'S financial position remained strong at the end of 2008. Financial debt stood at €3,334 million, €159 million less than at the end of 2007. This debt reduction was achieved notwithstanding the proportionate consolidation of Gas Natural SDG's net debt which increased during the year mainly because of the partial acquisition of the electric utility Unión Fenosa.

Excluding Gas Natural, net debt fell by €488 million thanks to the volume of generated EBITDA, which exceeded the amount of net investments, dividend payments, and tax liabilities.

The year-on-year appreciation of the dollar in 2008 increased the nominal amount of net debt, most of which is denominated in this currency, by €179 million.

The Strategic Plan 2008-2012, approved by Repsol at the beginning of the year, served as the guideline for the investments made in the year. The company invested €5,586 million in 2008, most of which amount was spent in developing the Shenzi exploration well in the United States, the construction of the Canaport (Canada) regasification plant, the Peru LNG project, and exploration activity. Expenditures include €517 million for the partial acquisition of Unión Fenosa by Gas Natural in July 2008. Other expenditures were earmarked for ongoing refining projects, for upgrading operations and installations, safety and the environment, fuel quality, and conversion. The Final Investment Decision (FID) for the Cartagena (Spain) refinery enlargement project was made in 2008.

Divestments in the year totalled €1,721 million. On 21 February 2008, Repsol sold a 14.9% stake in YPF to the Petersen Group for US\$ 2,235 M, providing the purchaser with a vendor loan in the amount of US\$ 1,015 M. The Petersen Group will be able to increase its stake in YPF by an additional 10.1% through a call option within a maximum period of four years. This Group already exercised an option for an additional 0.1% stake.

In 2008 and as part of its non-core asset divestment strategy, the Company sold its service station network in Ecuador and Brazil and its interest in the Manguinhos refinery, also in Brazil.

In 2008, Repsol paid its shareholders €1,608 million in dividends, of which amount €1,221 million were charged to 2007 results (39% higher than the previous year's remuneration). The remaining sum relates to dividends paid to minority shareholders of subsidiary companies, principally to the Petersen Group.

With regards to transactions involving own shares, the Annual General Meeting, on 14 May 2008, resolved to grant authorization to the Board of Directors “for the derivative acquisition of shares of Repsol YPF, S.A. by purchase, exchange, or any other onerous legal business modality, directly or through controlled companies, up to a maximum number of shares that, added to those already held by Repsol YPF, S.A. and its subsidiaries, do not exceed 5% of share capital and for a price or equivalent value that may not be lower than the nominal value of shares nor exceed the quoted price on the stock market.”

This authorization is valid for 18 months reckoned from the date of the Annual General Meeting, rendering null and void the authorization granted by the previous Ordinary Annual General Meeting held on 9 May 2007.

Accordingly, in 2008, Repsol acquired 12,924,428 own shares representing 1.06% of the Company’s share capital for a total sum of €261.73 million and a nominal value of €12.92 million. In addition, Repsol sold 695,000 own shares with a nominal value of €0.69 million and an effective sum of €17.50 million. At 31 December 2008, Repsol held 12,229,428 own shares.

Financial prudence

In keeping with its prudent financial policy, Repsol YPF holds a significant volume of financial investments included in the captions listed under Note 15 of the Annual Report as “Other financial assets at fair value through profits or loss”, “Loans and accounts receivables” and “Held to maturity investments” for an amount of €4,625 million of which, €4,452 million correspond to Repsol, excluding Gas Natural. The Group also has undrawn credit facilities amounting to €3,916 million, of which €3,496 million correspond to Repsol, excluding Gas Natural.

Consequently, net debt and the net debt/capital employed ratio, in which capital employed refers to net debt plus net equity, provides a true and fair view of the

volume of necessary borrowings and their relative weighting in the funding of capital employed in operations.

At 31 December 2007, the net debt to capital employed ratio stood at 11.9%, 2.9 points lower than at year-end 2007. Taking preferred shares into account, the variation in this ratio was from 26.4% at 31 December 2007 to 24.4% at the close of 2008.

(1) The divestment figure includes €690 million in connection with the loan granted to the Petersen Group as part of the sale of a 14.9% stake in YPF on 21 February 2008. Moreover, it does not reflect divestments of long-term financial investments (€14 million) since this does not affect the variation in net debt.

The following table describes the calculation of reported net debt on the basis of balance sheet information contained in the consolidated financial statements.

	€million	
	2008	2007
Non-current financial liabilities	10.315	10.065
Less: preference shares (See Note 19)	(3.524)	(3.418)
Current financial liabilities	1.788	1.501
Non-current financial assets	(2.466)	(1.650)
Less: financial assets available for sale (See Note 15)	881	138
Other current financial assets	(494)	(266)
Cash and cash equivalents	(2.891)	(2.585)
Hedging derivative instruments on interest rate (See Note 38)	(275)	(292)
Net financial debt	3.334	3.493
Preference Shares (See Note 19)	3.524	3.418
Net financing (*)	6.858	6.911

(*) In addition, €721 million and €632 million are recorded at 31 December 2008 and 2007 under the heading "Other non-current liabilities" and €31 million and €61 million under the heading "Other creditors" relating to financial leases measured at amortized cost (See Note 23).

Notes to the 2008 consolidated financial statements.

Management of financial risks and definition of hedging

The organization and systems at Repsol YPF enable the Company to identify, measure, and control the risks associated with the financial instruments to which the Group is exposed. The Group's activities involve several types of financial risks:

Liquidity risk

The liquidity risk is associated with the Group's ability to finance its commitments at reasonable market prices and to execute its business plans with stable funding sources.

Repsol YPF applies a prudent policy with respect to liquidity risk, keeping sufficient resources available in cash and other liquid financial instruments and undrawn credit facilities to meet the maturities of debt falling due within a twelve-month

horizon. The Group had undrawn credit facilities totalling €3,916 million and €4,132 million at 31 December 2008 and 2007, respectively.

Credit risk

The Group's credit risk exposure mainly relates to commercial debts from trading transactions. These amounts, which totalled €5,758 million and €7,103 million at 31 December 2008 and 2007, respectively, are recorded in the balance sheet net of allowances for doubtful accounts and are measured and controlled per client or per individual third party. To this purpose, the Group has its own systems, aligned to best practices, for constantly monitoring the creditworthiness of all its debtors and for determining the risk limits per third parties. None of the clients account for more than 4% of the total of these accounts payable and as such, exposure is spread over a large number of clients and other counterparties.

On a general basis, the Group considers bank guarantees issued by financial entities as the most suitable instrument for credit risk protection. In certain cases, the Group has taken out credit insurance policies through which it transfers to third parties the risks associated with the trade activities conducted by some of its business units.

At 31 December 2008, the Group's guarantees in force granted by third parties totalled €2,460 million, having executed €10 million of such guarantees. At 31 December 2007, this figure stood at €1,949 million, with €19 million worth of guarantees having been executed.

Note 5 of the consolidated financial statements provides additional details on the risks associated with the financial instruments used by the Group and Note 38 describes hedging financial instruments.

BUSINESS RISK FACTORS

Risks related to factors that affect the Group exclusively or external factors affecting all companies in the industry are part of the environment in which the Repsol YPF Group conducts its activities. These risks could have an impact on the Company's business, operations, results and financial situation. Future risks, unknown at present or not considered relevant, could also affect the Company's business.

Currency risk

Income from operations is exposed to currency exchange fluctuations, mainly the dollar against the euro, since most of the Group's revenues and part of its expenses are denominated in dollars or are dollar-indexed. In order to mitigate the risk of the dollar component, Repsol YPF hedges this risk by taking out currency options.

The company is also exposed to currency risk affecting the value of its assets or financial investments in dollars. Most of Repsol YPF'S financing is in dollars, either directly or synthetically through currency derivatives.

Commodity price risk

In the normal course of operations and trading activities, Repsol YPF Group earnings are exposed to volatility in the price of oil, natural gas, and related derivative products.

Interest rate risk

The market value of the Group's net financing and net interest expenses could be affected by interest rate fluctuations.

Regulatory risks

The oil and gas industry is subject to widespread government regulation and intervention such as those related to exploration and production permits, specific contractual obligations for drilling and exploration activities, production restrictions, price controls, asset divestments, currency controls, and nationalization, expropriation, or the cancellation of contractual rights. These regulations and laws apply virtually to all Repsol YPF operations in the countries where it conducts its activities. Furthermore, these laws and regulations could change in the future.

Furthermore, the Repsol YPF Group is subject to increasingly stringent environmental requisites in practically all the countries where it operates. These affect the company's operations in relation to issues such as the environmental quality of its products, emissions to air, climate change, discharges into water, and management of underground water resources, as well as in relation to the generation, storage, transport, treatment, and final destination of waste. These requisites have and will continue to have a substantial impact on Repsol YPF's business, its financials, and income from operations. Consequently, the company has made and will continue to make the necessary investments to comply with these requisites.

BUSINESS AREAS

UPSTREAM (EXPLORATION AND PRODUCTION)

Results

Operating income in the Upstream division in 2008 was €2,258 million, 20% higher in comparison with the €1,882 million posted a year earlier. EBITDA amounted to € 2,864 and €2,631 in 2008 and 2007, respectively. Enhanced earnings performance was mainly driven by revenue growth on the back of higher realization prices.

The average retail price of the Repsol oil product mix was US\$ 87.3/barrel (€59.3 /barrel) versus US\$ 61.5/barrel (€44.8/barrel) in 2007. The average price of gas was US\$ 4.2 per thousand cubic feet, 37% higher year-on-year. These increases were driven by higher oil benchmark prices in international markets. Oil played a major role in the 2008 economic scenario. After starting the year at high levels, the price of oil continued to climb until reaching a record US\$ 147/barrel, falling sharply thereafter until it reached less than US\$ 40/barrel in December.

The lifting cost was US\$ 2.24/barrel, 1.8% higher than US\$ 2.20/barrel in 2007. Decreased production largely because of the deconsolidation of Andina in Bolivia and the cessation of operations in Dubai were behind this drop. Finding costs of proved reserves averaged US\$ 10.9/barrel in the 2003-2008 period.

Main activities by countries

Major strides were made in 2008 in the consolidation process of the Upstream business in key regions for the Company, such as the Gulf of Mexico (United States), Brazil, Peru, North Africa, and Trinidad and Tobago. To bolster Repsol's defined diversification and growth strategy for OECD countries, the first steps were taken in 2008 towards the start of operations in Canada and Norway. The

objective is to ensure organic growth by maximising asset profitability and boosting production and reserves over the 2008-2012 period.

United States

Over the past three years, Repsol has significantly strengthened its presence in deep waters in the U.S. **Gulf of Mexico**, participating in the major Shenzi oil development project and securing a large number of exploration blocks. This region is considered one of the most profitable and offers the greatest deepwater exploration potential in the world.

The Company holds a 28% interest in the Shenzi field, one of the largest deepwater discoveries made to date in the Gulf of Mexico, currently in the final development phase. The project is progressing as scheduled and production is expected to come on stream in second quarter 2009.

In early 2008, Repsol was awarded 32 new exploration blocks in Exploration Round 206 in the Gulf of Mexico, which, together with others awarded in recent years, comprise a very solid exploration project portfolio. The Company's participation in these rounds is part of its strategy for diversification and growth in OECD countries.

Africa

Repsol has a significant presence in **North Africa**, mainly concentrated in Libya and Algeria, countries where it has two major ongoing projects that ensure sustained and profitable growth over the coming years.

In **Libya**, in June 2008 the "I/R" field in the prolific Murzuq basin in Blocks NC186 and NC115 came on stream. Repsol participates in both of these blocks. Discovered in 2006, the "I/R" field is one of the Company's most important exploration discoveries in its history and the most important one in Libya in the last decade. With a production potential of 90,000 barrels/day, development of this

field will give a major boost to the Company's reserves and production in this country. The "I/R" field is one of the 10 key projects defined in Repsol's Strategic Plan 2008-2012.

At the end of 2008, the Libyan National Oil Company (NOC) authorized the development plans submitted for the "J" and "K" fields in block NC186 (Repsol, Total, OMV, and StatoilHydro). The development plan for field "E" in block NC-200 (Repsol and OMV) should be approved in the first half of 2009, thereby enabling the start of production of these three new fields. In addition, a new exploration discovery was made in 2008 in block NC186 with the Y1 exploration well.

On 17 July, Repsol and NOC, the Libyan national oil company, executed an agreement that extends the term of the oil exploration and production contracts in this country until 2032. The new agreement extends the term of the contracts for blocks NC115 and NC186 in the prolific Murzuq basin, until 2032. This implies a 15-year extension of the term of the Block NC115 contract and another five to nine years, depending on the fields, of the contract for Block NC186. The agreement ensures Repsol's exploitation of the abundant resources discovered in both blocks, which exploration licenses were also extended for an additional five years.

Two new gas discoveries were made in **Algeria** in 2008 in the Reggane basin in block 351c-352c operated by Repsol. These discoveries are in addition to those made in the same block in previous years. Sonnatrach's "Declaration of Commerciality" (DoC), expected to be secured in 2009, will make it possible to start the development of this major gas project. Two other discoveries were made in this country in the M'Sari Akabli block in which Repsol is also the operator.

Latin America

Brazil is one of the principal areas for Repsol's future growth. With 21 exploration blocks (operator in 11 of these) Repsol is the leading private company in offshore mining rights in the Santos, Campos, and Espíritu Santo basins.

Repsol holds a 10% interest in the Albacora Leste field (Santos basin), which has been producing since April 2006. Output in this major deepwater field in Brazil reached approximately 140,000 barrels/day in 2008. It has more than 400 million barrels of proved and probable oil reserves.

A new major discovery was made in second quarter 2008 in Brazilian deep waters in block BM-S-9 in the Santos basin with the Guará prospect. This finding is in addition to the one made in the Carioca field, situated in the same block, at the end of 2007. According to preliminary appraisals, both fields offer enormous potential of high quality oil resources. This Brazilian offshore area is considered one of the most promising and offers the greatest potential in the world.

The exploration discoveries in block BM-S-9 bolster the company's strategy in offshore Brazil and represent one of the key growth projects in Upstream. Two additional wells will be drilled in this block in 2009.

In **Bolivia**, an agreement was executed in May 2008 with the Bolivian company YPF B for the sale of a 1.08% stake in Andina. Following this transaction, the shareholder structure of Andina is broken down into YPF B (51.08%) and Repsol E&P Bolivia (48.92%). In addition, a Shareholders' Agreement was executed in October 2008 that will govern the operations and management of this company. This agreement came into force in November 2008.

In **Trinidad and Tobago**, Repsol is one of the leading private companies in terms of oil and gas production and reserves, jointly with BP, with which it shares ownership of bpTT. This company, in which Repsol holds a 30% stake, operates a large oil and gas production area in the country's offshore. Its output in 2008 averaged more than 460,000 barrels of oil equivalent.

The Teak Blow Down gas compression project, for domestic sales, was completed in fourth quarter 2008, boosting gas production by 700.000 m³/day as of January 2009.

The bpTT fields, Mango and Cashima, which started production in fourth quarter 2008, contributed to increasing output in 2008, supplying gas to train 4 at the Atlantic LNG liquefaction plant in which Repsol holds a 22.22% stake.

In **Peru**, the work for the complete development of the Camisea field (blocks 56 and 88), in which Repsol holds a 10% interest, was ongoing. These blocks will supply natural gas to the future Peru LNG project liquefied natural gas facility that is expected to come on stream in 2010 and in which Repsol holds a 20% stake. Two fields are being developed in block 88, San Martín (producing since 2004) and Cashiriari, and production in the Pagoreni field in block 56 came on stream in September 2008.

Also in Peru, in January 2008 Repsol made a major exploration discovery at the Kinteroni well in block 57, located in the Ucayali-Madre de Dios basin in the country's central forest, 50 km from the Camisea gas and condensate field. The presence of gas and condensate in the Kinteroni field was confirmed and its significant resource potential is currently being appraised. Repsol, with a 53.84% stake, is the operator of this block.

In **Colombia**, the Capachos Sur field, in the Capachos block, started producing in April 2008. Repsol holds a 100% stake in this 259 km² block situated in the Llanos basin.

Alaska and Canada

In first quarter 2008, Repsol was awarded 93 blocks in **Alaska** in exploration round 193. These offshore blocks, in the Chukchi Sea, extend over an area of 2,139 km². The company's objective is to create a large project portfolio in this almost

unexplored area with huge potential of undiscovered resources. To this end, in July 2007 the Repsol had reached an agreement with Shell Offshore Inc. and Eni Petroleum US LLC to explore 71 adjacent offshore blocks in Beaufort Sea, north of the prolific Prudhoe basin and the Kuparuk oil fields. Repsol holds a 20% stake in these blocks.

In **Canada**, at the end of 2008 Repsol successfully bid for exploration rights in three blocks in the Newfoundland (Terranova) and Labrador offshore areas. Two of these blocks are in the Central Ridge/Flemish Pass area and the other one in Jeanne d'Arc Basin. Repsol's partners in these blocks, with a total surface area of 4,000 km², are the Canadian companies Husky Oil and Petro-Canada. The awarded mining rights mark another step forward in the company's plans to increase its presence in oil and gas exploration and production activities in OECD countries.

Europe

In **Norway**, and in keeping with the diversification and growth strategy in OECD countries, an agreement was executed in September 2008 with Norway's Det Norske Oljeselskap ASA (Det Norske) for jointly studying the areas put out to tender in Exploration Round 20. Repsol holds a 40% interest in this project with Det Norske holding the remaining 60%. In November, the companies submitted a joint bid for four blocks. Repsol also submitted a bid for 100% of another three blocks. The results of this round will be announced in 2009.

In October 2008, also in Norway, Repsol, jointly with Det Norske, Bayerngas, and Svenska, bid for four blocks situated between the Njord and Draugen (Norway Sea) fields, in Round APA 2008 (Award of Predefined Areas). The outcome will be announced in 2009.

Discoveries

Repsol made 10 new exploration discoveries in Brazil, Peru, Algeria, Colombia, and Libya in 2008.

In June 2008, Repsol discovered a second deepwater oilfield in the Santos basin, **Brazil**. The new field, known as Guar, is situated in block BM-S-9 and is adjacent to the Carioca field, also in this block, discovered at the end of 2007. Both fields could contain enormous high-quality oil resources, according to preliminary appraisals, and confirm this basin as one of the deep water areas with the greatest potential worldwide.

The presence of light oil with a density of approximately 28° API was found in the new field, discovered by a consortium formed by Petrobras (45% and the operator), BG (30%), and Repsol (25%) at 310 km off the coast of the State of Sao Paulo at a depth of 5,000 metres in more than 2,000 metres of water.

Repsol and its partners in the block will continue carrying out the activities and making the necessary investments in 2009 in order to determine the size of the Carioca and Guar oilfields with greater precision and to define the future development plan. Two additional wells will be drilled in 2009 and production tests will be conducted in the Guar well. Development of these deepwater projects in the Santos basin is one of the ten key initiatives contemplated by Repsol in its Strategic Plan 2008-2012.

In Brazil, two other major deepwater gas discoveries were made at the beginning of 2009 in the Pialamba and Panoramix fields in Santos basin.

In **Peru**, a significant exploration discovery was made in January 2008 in block 57 in Cuzco province at the Kinteroni exploration well. Repsol, with a 53.84% stake, is the operator in the consortium that will exploit the field (Petrobras holds the remaining 46.16% stake). Preliminary production tests yielded flows of one million

cubic metres of gas per day (0.365 bcm/year) and 198 cubic metres per day of associated hydrocarbon liquids (72,270 m³/year). In order to define a commercial and development plan for this discovery, a 3D seismic campaign will be conducted at the Kinteroni structure and several appraisal and exploration wells will be drilled in the block. This should enable a more precise assessment of the discovered resources, which have been preliminarily estimated at approximately 2TCF (56 bcm).

Kinteroni, next to the Camisea gas field in blocks 56 and 88 and in which Repsol has a 10% stake, will supply gas to one of the company's major Liquefied Natural Gas (LNG) projects: Peru LNG.

In **Algeria**, two new exploration discoveries were made with the AZSE-2 (Azrafil SE) and KLS-1 (Kahlouche S) wells in block 351c-352c (Reggane Nord), in the Reggane basin. Repsol, with a 33.75% stake, is the operator of the consortium jointly with Algeria's state-owned Sonatrach (25%), Germany's RWE Dea (22.5%) and Italy's Edison (18.75%). Situated in the central-southern part of the Algerian Sahara Desert, the block extends over a large 4,682 km² area. This discovery is in addition to another four made in the same block in early 2005 (with the Reggane 5), 2006 (with the Sali 1 and Kahlouche-2 wells) and the last discovery made in 2007 (with the Reggane 6 well).

In this North African Country, two other exploration discoveries were made in the M'Sari Akabli block with the TGFO-1 and OTLH-2 (Oued Talha) wells. Repsol holds a 33.75% stake and is the operator of this 8,103 km² block.

In early 2009, a discovery was announced in Gassi Chergui, Berkine basin, with well AL-2.

In **Colombia**, three discoveries were announced. Two of these were made with the Cosecha Z and Cosecha Y Norte wells in the Cosecha block in the Llanos

Orientales basin, in which Repsol holds a 25% stake and Oxy, the operator, holds the remaining 75%. The Cosecha block has a surface area of 2,856 km². The third discovery was made with the Capachos Sur 1 well in the Capachos block, in which Repsol is the operator with a 100% stake.

At the beginning of 2008, a new exploration discovery was made in **Libya's** prolific block NC186 with well Y1. With a 32% stake, Repsol is the operator of this 4,295 km² block in the Murzuq basin.

In deep waters off the **U.S. Gulf of Mexico**, a major oil discovery was made in early 2009 at the Buckskin prospect in Keathley Canyon, 300 kilometres offshore from Houston. Repsol is the operator in the exploration work at this new field where a 100-metre hydrocarbon column has been discovered that could be even higher at the top of the structure. The new well is 10,000 metres deep in 2,000 metres of water.

Production

Repsol's oil and gas production in 2008 was 333,721 barrels of oil equivalent per day (boepd), 14.6% less than in 2007. Excluding contractual variations in Dubai (5,000 boepd), Venezuela (2,300 boepd) and Bolivia (47,700 boepd), production was similar year-on-year. Production increased, particularly in the United States (1,200 boepd), thanks to the start of production of the new wells in the Shenzi field; in Trinidad and Tobago (3,800 boepd); and in Peru (1,900 boepd), where the Pagoreni field in block 56 started production.

Investments

The investments of the Upstream business in 2008 amounted to €1,184 million, 18% less than the €1,439 invested in 2007. These expenditures were mainly earmarked for the development of the Shenzi field, in the United States, and in exploration activities in North Africa, Brazil, and the Gulf of Mexico.

LIQUEFIED NATURAL GAS (LNG)

Results

Operating income in the LNG activity in 2008 was €125 million versus €107 million a year earlier, up 17%. EBITDA was €173 million in comparison with €146 million posted in 2007.

Prices for the principal commodities were higher in the first half of 2008, and then started to decline in the second half of the year. Throughout 2007 and the first part of 2008, natural gas prices were higher in all markets on the back of record oil prices, growing demand in new and in established markets, and significant delays in investments. Despite steep prices during this period, demand in large importing markets, such as Spain and Asian countries, did not decline, showing a sharp upward trend in the first half of the year. In the second half of the year, however, the global financial crisis and shrinking demand contributed to reversing this trend, with prices falling back to the levels of recent years.

In the first half of 2008, the average price of Henry Hub, the primary natural gas benchmark, was 10.1 \$/MBtu, 36.5% higher than in the same year-ago period. The average for the full-year was lower, 8.9 \$/MBtu, 25.3% more than in previous year. In addition to the high prices during the first half of the year, Asian markets, unlike the European and North American markets, were paying a premium on top of oil-product prices throughout 2008. As a consequence of this, the industry diverted shipments from the Pacific and Atlantic basins to this market since it was more profitable.

With regards to the power generation market, the average Spanish electricity pool price in 2008 was 64.4 €/MWh, 63.9% higher than in 2007. This increase is attributable to, among other factors, greater demand, higher international commodity prices, and the higher cost of CO² emission rights. The trading volume

in the Spanish electricity system daily market was much higher: 232 TWh in 2008 vs. 200 TWh in 2007.

Results of the businesses comprising the LNG area are generally in U.S. dollars. The year-on-year 7.4% depreciation of this currency against the euro had a negative impact on 2008 earnings.

Projects

In the LNG area, Repsol has been developing a policy to bolster its competitive position in this business, key to its medium and long term growth.

Repsol is present in the Trinidad and Tobago integrated LNG project, in which it participates jointly with BP and BG, and other companies, in the Atlantic LNG liquefaction plant. The strategic geographical location of this plant enables it to supply markets in the Atlantic Basin (Europe, United States, and the Caribbean) at very advantageous economic conditions.

This plant has four liquefaction trains with a combined capacity of 15 million tons a year. Repsol holds a 20% stake in train 1, 25% in trains 2 and 3, and 22.22% in train 4. Production capacity of train 4, one of the largest in the world, is 5.4 million tons per year. In addition to its participation in the liquefaction trains, Repsol is a leading player in gas supply and one of the main buyers of LNG (approximately 3.2 million tons per year).

Repsol, in a partnership with Irving Oil, holds a stake in the Canaport project for the construction and operations of the first LNG regasification plant on Canada's eastern shore. Located in Saint John (New Brunswick) and with an initial send-out capacity of 10 bcm/year (1,000 million cubic feet per day, which could be expanded to 2,000 million cubic feet per day), the Canaport terminal is one of the largest in North America and will supply markets on the eastern coast of Canada and north-eastern United States. Holding a 75% stake, Repsol will operate the plant and

supply the LNG that will feed the terminal, and will be entitled to the entire regasification capacity. This plant is scheduled to start operations in the first half 2009.

Construction work at the plant in 2008 went as scheduled. The onshore part of the project for the two tanks contemplated in the initial project is 92% complete.

Work on the third tank, which was approved subsequently by the consortium and which will make it possible to receive supplies from the largest methane tankers built to date, is 72% complete. Construction of the offshore terminal is practically finished. In addition, the New Brunswick (Canada) and Maine (United States) gas pipelines are ready to transport natural gas delivered to the Canaport plant to markets in the north-eastern part of North America.

In 2008, Repsol began marketing activities in New England and in other parts of north-eastern United States. These markets will grow significantly in 2009 after the Canaport terminal starts operations. Gas from Repsol's exploration and production activities in the Gulf of Mexico will also be marketed.

In **Peru**, the integrated liquefied natural gas project, **Peru LNG**, is currently being developed. Together with the Canaport project, Peru LNG is one of the major initiatives envisioned in the Strategic Plan 2008-2012 and a key project for the Company's growth. Since 2005, Repsol has been involved in this project, in which it holds a 20% stake, in partnership with Hunt Oil (50%), SK (20%), and Marubeni (10%).

The Peru LNG project contemplates the construction and operation of a liquefaction plant in Pampa Melchorita, in which Repsol holds a 20% interest, and a gas pipeline linking up with the existing one in Ayacucho. The Camisea consortium, in which Repsol also has a stake, will deliver natural gas supplies to this plant.

Additionally, the project contemplates Repsol's exclusive marketing of the liquefaction plant's entire production, estimated at more than 4.5 million tons per year. The term of the gas purchase agreement entered into with Peru LNG is 18 years as of the start of commercial operations. In terms of volume, it is the largest LNG acquisition ever made by Repsol.

In September 2007, Repsol won a contract in an international tender sponsored by Comisión Federal de Electricidad (CFE) for the supply of LNG to the natural gas terminal in the port of Manzanillo on Mexico's Pacific coast. The contract contemplates the supply of more than 67 bcm of LNG to the Mexican plant over a 15-year period. The Manzanillo plant, which will deliver gas to CFE's power plants in the central-western part of Mexico, will be fed with gas from the LNG Peru project.

At year-end 2008, construction work on the onshore part of the liquefaction plant was 68% complete, after advancing 41% over the course of the year. The offshore installations were 72% complete, and the gas pipeline 62% complete. This plant is expected to start operations in mid-2010. The finance agreements for this project were established in December 2007 and concluded on 26 June 2008. The first financing instalment was made in November 2008.

In **Spain**, Repsol holds a 25% stake in Bahía Bizkaia Gas, S.L. (BBG). This company owns a regasification plant with unloading facilities for methane tankers of up to 140,000 m³, two 150,000 m³ LNG storage tanks, and a vaporisation capacity of 800,000 Nm³/hour. BBG is the operator of this plant which has a regasification capacity of 7 bcma, is part of the Spanish gas system, and is remunerated by Comisión Nacional de la Energía (CNE) by means of tariffs, tolls, and fees. The terminal, located in the Bilbao harbour, has another three partners (BP, EVE, and Iberdrola) each holding a 25% stake. The enlargement of this facility is currently being appraised. This would involve the construction of a third tank, also with 150,000 m³ capacity, and the addition of another 400,000 Nm³/hour

regasification capacity. In 2008, the regasification plant had an availability rate of 96% and a load factor of more than 68%, both parameters higher than in 2007 and the average in Spain, where the average load factor is 52%.

Repsol also holds a 25% stake in Bahía de Bizkaia Electricidad, S.L. (BBE), a company which owns a combined cycle power plant with 800 MWe installed capacity. The plant uses natural gas delivered by BBG as its main feedstock. Electricity generated at this plant is fed to the grid for residential, commercial, and industrial consumption. Situated in the Bilbao harbour, this facility has the same partners as BBG. In 2008, the availability rate of the plant was 97% and the load factor more than 66%, both parameters higher than in 2007.

In Iran, Repsol and Shell, jointly with NIOC, continued to work on the integrated **Persian LNG** project. The final investment decision on the liquefaction plant has not been taken yet.

In December 2007 Repsol and Gas Natural executed a shareholders' agreement with Sonangol Gas Natural (SONAGAS) with the aim of starting work on developing an integrated gas project in **Angola**. This initiative involves the appraisal of gas reserves to determine the investments that would be required for their development and, if such is the case, export these reserves in the form of liquefied natural gas. The service contract and the law decree for the concession of the areas of interest, approved by Angola's Council of Ministers in July 2008, are pending ratification by the National Assembly. Seismic tests and other procedures were carried out in 2008 and the plans are to drill a well in 2009.

LNG transport and marketing

The Repsol-Gas Natural LNG (Stream) 50-50% joint venture is one of the leading LNG marketing and transport companies in the world and one of the most important operators in the Atlantic Basin. One of the missions of this company is the optimization of both partners' fleet, which comprises a total of 11 methane

tankers. In 2008, Repsol, with management support from Stream, marketed 4.7 bcm of LNG and managed 65 cargoes, most of which were from Trinidad and Tobago with Spain as the main destination.

At year-end 2008, Repsol had three methane tankers under time charter agreements, with a total capacity of 416,700 m³. The company also had another fourth tanker, the Sestao-Knutsen, which can carry up to 138,000 m³ of gas and belongs 50-50% to Repsol and Gas Natural. In the beginning of the second half of 2009, the fleet will be increased with the addition of the new Ibérica Knutsen Tanker, which Repsol and Gas Natural will share on a 50-50% basis.

Additionally, in early 2007, Repsol executed time charter agreements for four new LNG transport vessels, one from Naviera Elcano and three from Knutsen OAS. The four vessels, featuring the latest technology, scheduled to start operations in 2010, will have a nominal capacity of 173,000 m³ of LNG. The vessels will be used mainly for transporting supplies associated with the Repsol and Peru LNG agreement.

Investments

Investments in the LNG business in 2008 totalled €242 million, 37% less than the €387 million invested in 2007. These investments were mainly applied in the construction of the Canaport regasification plant (Canada) and the Peru LNG liquefaction project. This last project was financed with capital contributions from the partners until November 2008, at which time the first external financing disbursement was made.

OPERATING HIGHLIGHTS	2006	2007	2008	2008 / 2007 % variation
-----------------------------	-------------	-------------	-------------	------------------------------------

Net LNG production (*) (Bcma)

Trinidad and Tobago	3.0	3.3	3.5	4.7
---------------------	-----	-----	-----	-----

(*) Equity gas: does not include the LNG production of companies carried by the equity method in the consolidated Group accounts.

LNG Marketing

Volume sold (Bcma)	3.2	4.5	4.7	4.2

Conversion factor: 1 Bcma = 39.68 TBtu.

DOWNSTREAM (REFINING, MARKETING, LPG, AND CHEMICALS)

Results

Operating income in the Downstream business was €1,111 million, down 49.6% in comparison with €2,204 million in 2007. The following factors were behind this drop:

- a) €329 million less in non-recurrent income, most of which is explained by the capital gains (€315 million) realised on the sale of a 10% stake in CLH booked in 2007.
- b) Inventory losses (- €495 million) in relation to raw materials and products in comparison with inventory gains recorded in 2007 (€234 million).
- c) Lower income in the Chemical business (-€352 million) in comparison with 2007 (€100 million). This drop was principally the outcome of lower sales (16.4%) due to shrinking demand and reduced inventories in the transformation and distribution chain; and narrower margins, affected by high naphtha prices in the first half of the year and by the sale and depreciation of stocks in the second half of the year.

Excluding the impact on earnings of non-recurring items and inventory valuations in the last two fiscal years, the drop would have been 2.1%, from €1,656 million in 2007 to €1,622 million in 2008.

If the contribution of the chemical business in both years is excluded, income would have increased by 22.7%, from €1,565 million in 2007 to €1,920 million in 2008, underscoring the positive performance of the other Downstream activities (Refining, Marketing, LPG and Trading) compared to 2007 (on a like-for-like basis, excluding the impact of non-recurrent items and inventories).

Refining

The capacity of Repsol's five refineries in Spain (Cartagena, A Coruña, Petronor, Puertollano, and Tarragona) increased by 30,000 barrels per day in 2008 thanks to the investments made to boost capacity. This has made it possible for installed capacity in Spain to increase from 740,000 to 770,000 barrels per day. Installed capacity at La Pampilla refinery (Peru) in which Repsol holds a 51.03% stake and is the operator, is 102,000 barrels per day.

In 2008, Repsol sold its stake (31.13%) in the Brazilian Maguinhos refinery, maintaining its holding (30%) in the Refap refinery, also in Brazil.

In 2008, Repsol refineries in the Downstream division processed 39 million tons of oil, slightly less than the figure in 2007.

The refining margin in Spain in 2008 was 7.4 \$/bbl, 15% higher year-on-year, as a result of the strength of medium distillates and fuel oil and despite weaker gasoline performance. The higher dollar/euro exchange curtailed this improvement and, consequently, the euro/barrel margin in 2008 was quite similar to the one in 2007.

The new European specifications for locomotive gasoline and diesel fuel came into force on 1 January 2009. These new specifications reduce sulphur content from 50 ppm to 10 ppm. Repsol's Spanish refineries completed the necessary investments and are prepared to manufacture according to these new specifications.

With the aim of bolstering its leadership in Spain, Repsol is currently implementing an ambitious investment plan to increase refining capacity and conversion, while also enhancing safety, the environment, and the efficiency of its facilities. The projects for enlarging the Cartagena refinery and for conversion at the Petronor refinery in Bilbao are key aspects of this plan. Progress was made in 2008 towards developing these projects according to plan.

CARTAGENA: A WEALTH AND EMPLOYMENT GENERATING PROJECT

The enlargement of the Cartagena refinery is a key initiative of the Strategic Plan 2008-2012. The €3,262 million investment will make this one of the most modern facilities of its kind in the World and will double its capacity to 220,000 barrels/day. A hydrocracker, a coker, atmospheric and vacuum distillation units, and desulphurisation and hydrogen plants are among the main units contemplated in this Project.

In 2008, the necessary administrative permits for the enlargement project were secured. The local community and regional governments are in favour of this initiative which will boost growth in the region of Murcia. About 1,000 people are already working on the project expected to be completed in 2011, with all the work in preparing the land completed according to the timetable. This project makes it possible to maximise the production of clean fuels for the transport segment and will employ more than 6,000 during the construction phase. Nearly 700 jobs will be created once the project comes on stream. More than 50% of the products to be manufactured at this facility will be medium distillates, significantly contributing to address the shortage of these products in Spain.

Marketing

Repsol markets its oil products through a large network of service stations under a multi-brand strategy; Repsol, Campsa, and Petronor in Spain, and Repsol in other countries where the Downstream business operates. In addition, marketing activity includes other sales channels and the marketing of a wide range of products such as lubricants, asphalt, coke, and derivatives.

Total oil product sales (excluding LPG) amounted to 42.86 million tons, 7.7% less than in the previous year. This drop was due to weaker demand and to the

disposal of the marketing business in Ecuador and Brazil and the sale of marketing activities in Chile in 2007. Sales in Europe were down 2.4% and 29.3% in the rest of the world. With regards to sales to the Company's network, light product sales in Spain fell 5.8% because of shrinking demand, and in other countries, sales were 22.7% lower mainly because of the above-mentioned divestments.

At year-end 2008, Repsol had a network of 4,399 service stations in countries where the Downstream business operates. The network in Spain consisted of 3,590 sales outlets, of which, 75% had a strong concessionary link to the network, and 946 were company-owned and operated. Service stations in other countries were located in Portugal (441), Italy (133), and Peru (235).

In June 2008, as part of its non-core asset divestment strategy, Repsol sold its liquid fuel marketing business in Ecuador to Primax for US\$ 47 million. The sale included the 123 service station network, and the industrial sales business, commercial and logistics infrastructure, and the aviation and lubricant activities.

Along these lines, in December 2008, Repsol sold its liquid fuel marketing business in Brazil for US\$ 55 million to the Brazilian AleSat Group. The sale agreement included the 327 service station network, in addition to the commercial and logistics infrastructure, convenience stores, direct sales, and asphalt.

Throughout 2008, Repsol continued with its policy aimed at improving service quality, particularly in company-owned and operated service stations. By the end of the year, 243 facilities had been adapted to the Sprint store concept, with more than 60m² of commercial floor space, more than 1,300 product references, and annual sales per store of over €300,000.

Customer loyalty programs, through the use of specific cards, are an essential part of Repsol's marketing strategy. At the end of 2007, the company launched a new card, Solred MÁXIMA, offering clients 5% discounts on all services and products at

the shops, and a 1% discount on fuel. This card can also be used for payment at repair shops, motorways, and offers many other advantages. Solred MÁXIMA is accepted at more than 4,000 Repsol, Campsa, and Petronor service stations in Spain and Portugal.

Respect for the environment is part of company's policy and strategy, focusing all efforts in developing environmentally-friendly and advanced technology products. Repsol sells a wide range of latest generation fuels that comply with the strictest quality standards: Efitec 95 and 98 petrol, Diesel e+, and Diesel e +10.

In keeping with its commitment to the community, Repsol continued to promote projects for the integration of those with different capabilities, 230 of whom were employed by the Marketing division at the end of 2008, more than 3% of its workforce.

Liquefied Petroleum Gas (LPG)

Repsol is one of the leading retail distributors of LPG in the world and ranks first in Spain and Latin America. The company operates in ten countries in Europe, North Africa, and Latin America.

LPG sales in 2008 totalled 3.22 million tons, 5.3% down year-on-year. In Peru, LPG sales were 93% up on the back of market growth. Sales in Spain fell 1.9% compared to the previous year.

Repsol distributes bottled, bulk, and piped LPG in Spain through collective distribution networks and has more than 10 million bottled LPG customers supplied through a network of 522 distribution agencies. Bulk LPG sales accounted for 39% of total retail LPG sales in 2008.

To strengthen its leadership in the Spanish market, improve service quality, and guarantee supply, the company implemented a factory efficiency plan for the 2007-2009 period.

In Portugal, Repsol distributes bottled and bulk LPG to end customers and supplies other operators. Sales in 2008 reached 184.199 tons, making the company the third operator with a 21% market share.

In Latin America, Repsol is the leading LPG distributor in Argentina, Ecuador, Peru, and Chile. It markets bottled and bulk LPG in Argentina to the residential, commercial, and industrial segments, with sales totalling 325,836 tons.

In November 2008, the company sold its 51% stake in Repsol YPF Gas de Bolivia S.A., abandoning the bottling and bulk marketing activities in this country.

OPERATING HIGHLIGHTS (Refining, Marketing, and LPG)	2007	2008⁽¹⁾	2008/2007 % variation
Feedstock processed			
<i>(Million tons)</i>

(1) Refab not included as of July

Chemicals

The Chemicals activity, part of the Downstream business, incurred an operating loss of €352 million compared to an operating profit of €100 million a year earlier. This was principally the outcome of lower sales because of shrinking global demand and reduced inventories in the entire transformation and distribution chain,

as well as narrower margins due to high naphtha prices in the first half of the year, and inventory depreciation in the second half of the year.

Sales to third parties in 2008 were 2.60 million tons, 16.4% less than the 3.11 million tons sold in 2007.

The project for the enlargement of the Sines (Portugal) complex, which aims to double output and increase competitiveness through greater integration and energy efficiency, was approved in June 2008. The project contemplates three new plants – lineal polyethylene, polypropylene, and cogeneration – in addition to enlarging cracker capacity by more than 570,000 tons/year. The new linear polyethylene and polypropylene plants will be very competitive thanks to their size and latest generation technology.

OPERATING HIGHLIGHTS (Chemicals)	2007	2008	2008/2007 % variation

Investments

Investments in Downstream increased 64%, totalling €1,534 million versus €936 million the year before. Most of this amount was spent on ongoing refining projects, particularly in Spain, upgrading operations, installations, and fuel quality, and on safety and the environment.

YPF

YPF posted €1,159 million in operating income in 2008, 5.6% less than in 2007. This drop was due to the international crisis, which intensified in the last few months of the year and triggered a drop in demand in the Argentinean market, and a reduction in exports.

On 21 February 2008, Repsol concluded the sale of a 14.9% stake in YPF to the Petersen Group for US\$ 2,235 million. This transaction, which values YPF at US\$ 15 billion, obeys the company's strategy of improving the geographical distribution of its assets and of implementing a global management approach with a local accent. The agreement also contemplates that the Petersen Group can increase its YPF holding to 25% through call options for an additional 10.1%. The Petersen Group already exercised an option for an additional 0.1% stake.

In 2008, YPF investments were €1,508 million compared to €1,374 million a year before. Nearly 80% of these expenditures were earmarked for oil and gas development and exploration projects, including the agreement for extending the concession in the Neuquén province.

Average annual production fell 3% to 617,100 barrels of oil equivalent per day (boepd) versus 636,400 boepd in 2007. Output was affected by labour strikes in Santa Cruz, without which, average annual production would have reached 628,300 boepd.

Operating costs increased in 2008, mainly because of taxes which increased from €179 million to €685 million in 2008 because of withholdings, depreciation, purchases from third-parties, environmental and legal contingencies, and severance pay, and compensation.

International prices were higher year-on-year, falling sharply, however, in the last quarter of 2008. These higher prices had an impact on the domestic and foreign markets, although in relation to the latter, this was curtailed by withholdings, which were higher than in 2007 following the implementation of Resolution 394 that affects oil and oil product exports, and Resolution 127, which affects natural gas and liquefied natural gas.

Demand fell in 2008, except for gasoline for the domestic market, mainly because of the international crisis and other factors, such as the farmers' strike and the drought.

In the internal market, the company collaborated with the Government of Argentina on the Total Energy Plan (PET), participating in the programs relating to diesel supply and the substitution of natural gas for liquid fuels.

The contribution from YPF associates was lower than in the previous years because of the following factors:

- Mega was affected by the impact of the resolutions on gasoline and LPG export prices and by lower ethane prices.

- The drop in the price of urea in the last quarter, which had an impact on Profertil's retail prices and diminished the value of its stocks.

- Refinor posted lower income because of the application of Resolution 394 which affected the price of its exports.

- YPF Holding's earnings were affected by higher provisions for environmental contingencies, although this was partly offset by the start of production of Neptuno.

Operating income in YPF's Exploration and Production business was €441 million, 55% down year-on-year due to higher costs in the industry, the effect of regulated oil prices in the Argentinean market and strikes.

In 2008, YPF's oil and gas production was 226 million barrels of oil equivalent, 4.9% less than in 2007, of which 114 million were liquids and gas accounting for the remainder. Strikes and weaker demand for gas in the third part of the year diminished output by 4.8 million boe.

YPF made five oil discoveries and one gas find in 2008 out of the 17 wells that were drilled. Of the six wells that yielded positive results, four are in the Neuquén basin (El Orejano x-1, Borde Sur del Payún e-4, Puesto Cacho x-1, and Los Reyes Norte x-1), the fifth one is in the Austral basin (Las Flechas x-2001), and the sixth one in Golfo de San Jorge (El Balcón x-1). The amount of total investments in exploration was €122 million.

Seismic activity was concentrated in the Río Barrancas block in Neuquén province, and also in the Tamberías block in the province of San Juan. The provinces did not organize any bidding rounds for new mining acreage in 2008.

Regarding field development activities, 612 development wells were drilled, which, jointly with secondary, repair, and infrastructure activities involved an investment of €868 million.

As part of the global €1,215 million investment plan, €55 million were spent in revitalizing mature fields according to the *Plan de Desarrollo de Activos* (Asset Development Plan) (PLADA). Launched in 2007, this initiative is part of the company's strategy aimed at becoming the leader in the exploitation of mature fields and basins. The objective is to define comprehensive development and revitalizing plans for all YPF fields based on current technology and focusing efforts on acquiring greater knowledge of the subsoil. Supported by a portfolio of

1,400 defined projects and generating more than 1.6 billion barrels of oil to date, the PLADA plan augurs a 10-year stable outlook for oil production and activity.

Thanks to the work carried out in recent years within the framework of PLADA, YPF was able to incorporate proved reserves totalling 75 million barrels of oil equivalent in 2008, mostly oil. In addition, for the first time ever it was possible to achieve a 120% oil replacement rate in Chubut and Santa Cruz, situated in the southern basin of Argentina.

The results obtained in mature fields, such as Perales, Barranca Baya, and Manantiales Berth, are worth mentioning. Together with the activity in the Maurek area and in the Cañadon Yatel field, in particular, enabled the incorporation of reserves in this region.

Pilot tests were conducted in the Neuquén basin to assess the technical and economic viability of developing tight gas fields. The results of these studies are currently pending.

The 10-year extension (2017-2027) of the concessions in Neuquén province is also worth mentioning. Jointly with the extension of Loma la Lata in 2002, 50% of YPF's reserves concessions in Argentina have been extended.

Another milestone was the Ibero-American Quality Gold Prize in the category of "Medium Private Company" awarded by the panel of judges to Mega.

YPF's natural gas sales in 2008 totalled 16.4 billion m³, growing particularly in the distribution, industry, and manufacturing segments. YPF's market share in this Argentinean market was 40% and the average price of natural gas sold by the company climbed 32% in 2008, enabling the gradual alignment of prices in the domestic market.

The first liquefied natural gas (LNG) regasification operations began in June 2008 at the Bahía Blanca harbour with the *Excelsior* regasification tanker contracted for this purpose to meet the country's demand. This project was carried out for the Argentinean Government and was completed successfully in record time, incorporating an average 5.5 m³/day in the winter season. This operation, the transfer from vessel to vessel, from the *Excelsior* to the *Excelerate*, was the first of its kind in the world

Additionally, within the framework of the program for supporting the Government of Argentina, in the winter of 2008 YPF built the largest propane-air plant in Buenos Aires, the largest in the world. The plant, with a supply capacity of 1.5 million m³/day, will be used to meet peak winter demand in Argentina's capital.

In the Refining, Logistics, and Marketing activity, YPF refineries processed 18.7 million m³ of oil, 1% less than in 2007.

The utilization rate of refining installed capacity throughout 2008 remained stable thanks to the operating reliability plans underway which make it possible to extend the maintenance cycles of the units, increasing effective processing capacity and enabling the maximum use of assets to meet growing fuel demand in Argentina.

Gasoline production for the domestic market was 3 million m³, 14% higher than in 2007 and a new record in recent years. This also implied an improvement in the quality of gasoline production and made it possible to meet increasing demand in the Argentinean market.

YPF completed the upgrading of the catalytic cracker (FCCB) at the La Plata refinery, contributing to increasing the production of medium distillates and gasoline and setting a new record in diesel and Jet A1 aviation fuel production at this facility, reaching an average of 13,625 m³/day. For the second consecutive

month and for the fourth time in its history, the refinery beat the 400,000 m³/month record in medium distillate production.

At 2 million cubic metres, fuel oil production was 5% higher year-on-year. Domestic demand from the manufacturing sector remained stable and the Total Energy Plan (PET) requisites were met, delivering more than 290,000 m³ of fuel oil.

The chartered fleet for sea and river transport was renewed with the incorporation of two double-hull new vessels and one barge. The newly-built *María Victoria* and *Caleta Rosario* vessels, as well as the Argentina V barge, comply with the latest safety standards as required by the Group. A sixth barge is under construction and is scheduled for launch in 2009.

Throughout 2008, YPF's liquid fuel supply was in line with the growth recorded in Argentina, ensuring permanent and high quality supply to all its clients. This supply, particularly fuel oil, a key consumable for supporting growth, was made from the company's refineries, or was imported to meet the exceptional levels of demand.

At the end of 2008, YPF had 1,642 service stations, 166 of which were company-managed. The company began to revamp the image of its sales outlets, seeking a more modern image and bringing it line with the slogan "Let's invent the future".

Prices in the domestic market gradually adapted to international prices and those of bordering countries. Diesel prices increased approximately 23% and super gasoline prices were 37% higher.

At the close of 2008, YPF unveiled a new fuel, YPF D. Eurodiesel, the first low sulphur fuel (less than 50 ppm) launched by the company, which is recommended for all high-performance EURO IV engines.

The Refining, Logistics, and Marketing business posted €743 million operating income in 2008. Investments in this area totalled €167 million.

With regards to YPF's chemicals business, income was up 20%, reaching an all-time-high of €158 million thanks to wider margins in all lines and the integration of the refining, exploration, and production activities. This was achieved despite the drop in international prices in fourth quarter 2008 and declining demand for fertilizers because of the farmers' strike in Argentina. Enhanced earnings performance was shored up by high international prices in the first three quarters of the year, the implementation of a cost savings and expense-curtailement plan, and a policy aligned to prices in the local market which bolstered the Argentinean industry's growth. Investments in the year amounted to €25 million.

In 2008, the subsidiary Profertil won the National Quality Prize in the large company category, also renewing the customs duty exemption for methanol exported to the United States.

YPF's workforce at the end of 2008 comprised 11,038 employees, 1.3% less than in the previous year. The Exploration and Production division hired 271 employees, 16% more than in 2007. At Astra Evangelista (AESAs), the headcount was cut by 540 workers.

The Repsol YPF Group started to implement a teleworking pilot project. In Argentina, the project was launched with the collaboration of the Ministry of Labour. YPF is the first company in the country to implement this new work arrangement, adopted by several of its employees, and winner of the Meta 4 Prize for Innovation in Human Resources.

Three labour agreements govern the working conditions of YPF's refinery, field, service, station and LNG employees. In 2008, several salary agreements were executed with labour union representatives.

Regarding Research and Development (R+D), in the context of PLADA, YPF began to assess and develop technologies for the exploitation of heavy oil fields, for improving the recovery factor at mature fields, and for recycling water used in production processes for irrigation and other purposes. The Chemicals business unveiled a new fertilizer made with liquid sulphur generated by the hydrocarbons processed at the refinery. As to environmental issues, the company continued to develop soil recovery technologies.

GAS NATURAL SDG

Gas Natural SDG's operating income increased 7.6% to €555 million. This growth was largely the result of the positive performance of the power business in Spain on the back of higher electricity pool prices, the incorporation of the Mexican power business in 2008, and growth in distribution activities in Latin America.

At €894 million, investments increased 37% in 2008 mainly because of the financial investment required for the acquisition of a percentage stake in Unión Fenosa.

Through its 30.9% stake in Gas Natural SDG, Repsol participates in the entire gas value chain, from supply, to distribution, and marketing.

Through the Repsol-Gas Natural LNG (Stream) joint venture, the company was the world's third-ranking company in terms of transported LNG volumes. Founded in 2005, the objective of this company is to maximise the value of its partners' agreements through efficient management and marketing, also facilitating access to LNG supply sources and strategic markets.

Gas distribution in Spain contributed 34.6% of Gas Natural's results, with sales to the regulated market amounting to 270,073 GWh. The total number of supply points increased to 5,842,000 and the gas pipeline network grew 6.9% to 48,578 kilometres. Sales in Latin America climbed 16.2% to 208,408 GWh and the number of supply points reached 5,253,000. The distribution network increased 2.8% to 61,196 kilometres.

In 2008, Gas Natural SDG consolidated its presence in the Italian market with the acquisition, worth €30 million, of the Pitta Costruzioni Group which operates in the Puglia region in southern Italy. This acquisition, jointly with the incorporation of Italmeco at the end of 2007, will allow Gas Natural SDG to increase its distribution

area in Italy, which now comprises 187 cities and towns in eight regions: Molise, Abruzzo, Puglia, Calabria, Sicily, Basilicata, Campania, and Lazio. In 2008, gas sales in Italy reached 2,933 GWh, there were 397,000 supply points, and the distribution network stretched over 5,521 kilometres.

In the power business, the company operates a total 6,495 MW of installed electricity generation capacity in Spain, Puerto Rico, and Mexico.

In Spain, Gas Natural SDG has 3,600 MW in combined cycle power generation plants. A group of 400 MW is currently in the construction phase in Malaga and another two, totalling 800 MW, in Barcelona's harbour. In addition, two 400 MW groups in Lantarón (Álava) are currently in the processing stage. In generation, the total of combined cycle plants jointly with installed cogeneration capacity and wind generators produced 18,130 GWh at year-end 2008, that is, 6.8% more than in the previous year.

Petroleum Oil & Gas Spain (100% held by Gas Natural) is participating, jointly with Repsol, in the offshore well to be drilled in 2009 at the Montanazo concession off the coast of Tarragona, with preparatory work carried out in relation to this project during fourth quarter 2008.

Repsol and Gas Natural, in a consortium with other companies, have executed a shareholders' agreement to develop an integrated gas project in Angola. The company Gas Natural West Africa (60% Repsol-40% Gas Natural), which will manage this project, has been incorporated. In a first phase, an appraisal will be made of these gas reserves before making the necessary investments for development and subsequent export as LNG. Progress has been made defining the seismic exploration and drilling work that will be carried out in 2009.

With regards to the Gassi Touil project and following Sonatrach's decision in 2007 to rescind the agreement unilaterally, an arbitration process is currently ongoing in

which Repsol and Gas Natural will defend their rights and which will decide on the validity of such decision and on damages for wrongful termination of the contract. The arbitration court's decision is expected to be announced in 2009.

Unión Fenosa Acquisition Process

On 30 July 2008, Gas Natural SDG reached an agreement with ACS on the acquisition of its total 45.3% stake in Unión Fenosa at an effective price of €18.33 per share, which implies a valuation of 100% of the electric utility's share capital of €16,757 million. In accordance with the terms and conditions of the agreement, in early August, Gas Natural acquired from ACS a 9.9% stake in Unión Fenosa for €1,675 million.

Under the terms and conditions of the agreement entered into with ACS, the purchase price was adjusted, deducting the €0.28 per share dividend paid by Unión Fenosa on 2 January 2008. The resulting adjusted price is €18.05 per share.

On 12 December 2008, Gas Natural acquired from Caixanova its 4.7% stake in the share capital of Unión Fenosa. At 31 December 2008 Gas Natural's ownership interest in Unión Fenosa was therefore 14.7%. After exceeding 30% voting rights in Unión Fenosa, Gas Natural must launch a bid, within one month, for the remaining shares in the electrical utility and, therefore, in September 2008 the company initiated the process for securing the corresponding permits from competent authorities.

The acquisition of Unión Fenosa marks a major step in the development of Gas Natural, fulfilling its goal of becoming the leading integrated gas and power company. This will be achieved thanks to the complementarities of both companies' activities in the entire value chain of these two business lines. This acquisition also accelerates the fulfilment of Gas Natural's Strategic Plan 2008-12.

In July 2008, Gas Natural executed an agreement with 10 banking entities for financing the acquisition of 100% of Unión Fenosa, including the stakes held by ACS and Caixanova in Unión Fenosa, as well as the subsequent tender offer. Nineteen entities will participate in the syndication process that is currently underway.

Criteria and Repsol, in order to ensure a sound and flexible financial structure, have agreed to make contributions to Gas Natural's share capital, in the necessary amount and manner, for a maximum sum of €1,903 million and €1,600 million, respectively, to ensure that the company obtains a consolidated rating immediately after settlement of the tender offer of at least BBB (stable) and Baa2 (stable) from S&P and Moody's, respectively.

Gas Natural has started the process for carrying out the contemplated rights issue for the sum of €3.5 billion in the context of the Unión Fenosa acquisition transaction. On 30 January 2009, its Board of Directors agreed to convene an Extraordinary General Meeting to authorize the issue of new shares with pre-emptive subscription rights.

CORPORATE AREAS

HUMAN RESOURCES

At 31 December 2008, Repsol's comprised 36,302 employees working in more than 30 countries, mainly in Spain (50%) and in Argentina (33%), with employees in Portugal (4%), Brazil (2%), Peru (2%), Ecuador (2%), and Trinidad and Tobago (2%). Of these employees, 6% work in the Upstream area, 48% in Downstream, 30% in YPF, 6% in Gas Natural, and 0.5% in the LNG division. The breakdown by professional categories is: 1% executive personnel; 6% technical managers; 43% technicians; 5% administrative staff; and, 45% operators. Permanent work contracts account for 91% of the total and women represent one third of the total workforce.

Renewal of the Executive Team

In February 2008, coinciding with the presentation of the Strategic Plan 2008-2012, the Company announced the new make up of the company's executive team, 21% of whom are new members. Throughout 2008, there were 157 changes, including changes in management positions and new appointments (63). The most important traits required of executives in charge of managing the company were defined in accordance with the business requirements contemplated in the Strategic Plan. These traits are as follows:

- Global and diverse leaders, with a vision on the different functions and geographical environments; leaders who are flexible and able to adapt to the company's different needs and priorities.
- Strongly committed to achieving results.
- Excellence in people management.

Following these managerial changes, the profile of Repsol's executive team is more global and more diverse in relation to gender and nationalities (the percentage of women holding executive jobs and nationality diversity increased from 8% and 10% to 17% and 19%, respectively).

The Repsol Executive Convention was organized in May 2008 for the purpose of disseminating the new management style and for promoting the leadership of the Executive Committee and fostering a sense of pride in being part of the company. Over 250 executives from 16 countries participated in this event.

Diversity and balance

Professionals of more than 70 nationalities work at Repsol. Of these employees, some 900 work in countries other than the ones in which they were hired, comprising the group of expatriates. This is mostly the case in the Upstream business area (79%).

The company continued to work in 2008 in the analysis and implementation of new measures to encourage diversity and balance, promoted by the Diversity and Balance Committee created in 2007. This committee continued to work on an in-depth study of the objectives and core priorities in relation to this issue for the 2009-2012 period. One of the measures implemented in 2008 was the teleworking pilot project, with the participation of more than 130 people from various business areas in Spain and Argentina. The results of this initiative have been very positive and will be gradually extended to include more workers and departments.

Another initiative worth mentioning is the pilot project to provide support to employees through an external company that offers a wide range of services, from legal and financial counselling to the recruitment of domestic staff.

In addition, in the first half of 2008, the Working Day Reduction Protocol was signed. This initiative is designed for employees who work in shifts and establishes flexible measures for reducing the specific working day of these employees.

In 2008, Repsol incorporated 422 people with disabilities in its workforce (365 through direct hiring and 57 through alternative measures), increasing the percentage of personnel with disabilities to 2.29% after a more than 10% increase in the previous year. Through an advertising campaign with the slogan “At Repsol, we work towards making integration a reality”, the Company made known its stance, vocation, and commitment to the social and work integration of people with disabilities. Repsol carries out different projects to foster equality and opportunities and the social integration of all groups, particularly with respect to those who encounter greater difficulty in joining the job market.

REPSOL, THE COMPANY CREATING THE MOST JOBS FOR THE DISABLED

Repsol won the *Fundación Empresa y Sociedad* Award for its active work in favour of the disabled. This award is a recognition of the best corporate actions for the integration of the disabled, always within the framework of promoting corporate competitiveness and social cohesion. Repsol was selected among 27 candidates.

The company continued to improve accessibility standards at its service stations and offices, becoming a benchmark among Spanish companies. In 2008, Repsol inaugurated the first service station where the entire staff comprises people with different capabilities.

According to the *Observatorio de Empresa and Sociedad*, Repsol is the company that generates the most direct jobs in absolute terms for people with different capabilities.

The company also conducted an audit on remuneration and promotion of personnel not included in the bargaining agreement in order to guarantee that this group of employees enjoys equal opportunities.

Hiring the best professionals

In 2008, an important change was made in the recruitment strategy for professionals who wish to join the company, which is based on acquiring knowledge with regards to their motivation and on the optimal use of available

resources. Recruitment techniques and processes were redesigned and the concept of “brand as an employer” was introduced to encourage job marketing.

The objective of these improvements is to project Repsol’s values with regards to quality jobs, seeking a closer relationship with the academic world, and promoting professional training based on various initiatives. These initiatives included: publication of the “SOY” campaign in university newspapers, stressing the company’s five values in relation to jobs: career development, diversity, teamwork, global scope, and commitment to society; the redesigning and updating of Employment Channel contents, which can be accessed through the corporate web; promoting attendance in employment forums; and, the sponsorship of various seminars and reports. Repsol was included in the select group of Top Companies in which to Work.

The “Impulsa” scholarship program was launched in 2008. This program provides students in their last years of university with an offer that goes beyond in-house work experience. It provides training in languages, generic skills and competencies, and the possibility of joining the company through the New Professionals Program.

More than 1,850 people joined the company in 2008. Over 120 of these new incorporations are related to *Plan de Choque*, a 5-year program that aims to incorporate professionals in the Upstream area in order to meet the needs envisaged in the growth plan for this activity. In addition, 280 people joined the Refining Spain area in the Downstream division to fill the vacancies in the facilities enlargement projects and to ensure a suitable generational shift.

Talent management

With the help of the “People Review” system – a tool for identifying and developing talent in Repsol – and through 58 work sessions organized in 2008, it was possible

obtain a map of talent in each of the company's areas and to design a specific development plan to offer greater opportunities to professionals.

In keeping with the company's interest in continuing to identify, year after year, the talent of its workers, 16 sessions of the "Development Center" program were conducted in 2008. Nearly 150 professionals were evaluated in these sessions, 72% of them women, a clear example of the project's potential for detecting talent in this group.

Executive coaching was also introduced as a tool for career development. This experience was launched in the Marketing and Chemicals divisions, drafting a procedure which will be applied in other areas over the coming years. In addition, a personal interview process for employees who show great potential was also implemented in order to learn more about this group of employees.

Technical knowledge is a key factor for the growth of Repsol's activities. Towards this end, the Executive Committee decided to launch a project for the review of technical competencies, standard jobs, and training courses which will make it possible to manage technical talent in a standard and efficient fashion from a platform of common knowledge for all employees.

After identifying technical competency requirements, the defined learning "road map" will make it possible to:

- Provide orientation to employees for their development, offering a structured training plan for each stage of their career focused on acquiring critical competencies.
- Promote technical training with a wider global scope integrated and shared by the various company areas.

- Optimize planning, management, and training.

Repsol's corporate university

The Centro Superior de Formación (CSF), Repsol's corporate university project, was launched in the second half of 2008. This project combines all the resources earmarked for training activities in the same organizational unit and comprises the Leadership and Management School and the Technical Exploration and Production, Industrial, Marketing, and Corporate Processes Schools. The creation of this centre will contribute to optimising training investment, which, in 2008, totalled €27 million for the entire company.

Entrepreneurial spirit and excellence

The variable remuneration system for Repsol professionals, known as Management by Commitments (MxC) has been in force for three years and is part of the common language of the organization. The objective of this system is for employees to focus their efforts on achieving established targets and also for these professionals to be committed to their development and that of those reporting to them, not only assessing results objectively, but also knowing how to achieve results. It also emphasises monitoring day-to-day behaviour, promoting preferably those that the company considers essential: responsibility and results-focused, entrepreneurial spirit and excellence, cooperation, people development, and merit-based recognition.

The analysis of 2007 results showed that progress was made in merit-based differentiation, providing incentives and awarding actions that contribute to the organization's success in the long term.

Work Climate in 2008

A follow-up survey was conducted in November 2008 with the participation of more than 8,000 company employees, to evaluate the progress made in relation to the

actions outlined on the basis of the work climate study carried out in 2006. The results of this survey, with the participation of 77% of employees, showed that progress had been made in most of the identified areas subject to improvement.

Labour relations

The term of the Fourth Framework Agreement for Spain expired in 2008 without any labour conflicts taking place while it was in force. Negotiations on the Fifth Framework Agreement began in November with the creation of a bargaining roundtable and the presentation of the negotiation platforms.

The Harassment Protocol was executed in the first half of 2008. This protocol outlines the steps that must be taken in the event that any employee suffers any harassment at the workplace.

Health and safety at the workplace

Since the approval of the Management Standards for Health and Safety at the Workplace at Repsol in October 2007, the Workplace Health and Safety Technical Committee has been working on drafting a set of uniform standards on an international scale. In this context, the following procedures are worth mentioning:

- Safety and health requirements when travelling to risk countries.
- Individual health monitoring, jointly with periodical vigilance guidelines.
- The provision of medical services.
- Safety and hygiene in food preparation.

In addition, a health data and indicators procedure was approved that will contribute to improving current monitoring systems.

INNOVATION AND TECHNOLOGY

Repsol considers its Research and Development (R+D) investments and activities as essential tools that enable it to have competitive technology for manufacturing the best products by means of efficient and environmentally-friendly processes that have the minimum impact on the environment, thereby fulfilling market needs and its clients' expectations. By doing this, the company's value increases to the benefit of its stakeholders, and the company behaves in a socially responsible manner.

Resources are applied in R+D programs to identify and incorporate the best commercially available technology while, at the same time, work is carried out to develop the company's own technology to enable it to achieve a stronger competitive positioning. Additionally, the company conducts research on emerging technologies that can change business outlook and constantly monitors technological areas identified as being of critical importance for the company.

The Group's technology centres in Spain (Móstoles) and Argentina (La Plata) employ 450 researchers who develop an intensive project program covering all of the company's business lines: oil and gas exploration and production, the natural gas value chain, oil refining and petrochemicals, without ignoring future diversification opportunities such as biofuels. In 2008, €74 million were invested to carry out all of these activities, plus another €6 million for projects undertaken at the business units.

Repsol collaborates with its social surroundings, aware of the increasing importance for scientific and technological development for strengthening the bonds between the company and the community. To achieve this, the company has an active collaboration policy through agreements with universities, companies, and other public and private technology centres. The 2008 budget earmarked for these types of agreements totalled more than €12 million, much higher than in recent years. The areas of cooperation spanned from preliminary

viability studies for starting new projects to undertaking specific stages in R+D initiatives according to specific knowledge and/or specific facilities available at these centres. In addition, there was an increase in the company's involvement in consortiums with other companies for the pre-competitive development of new technologies.

Furthermore, Repsol participates in R+D projects sponsored by different administrations (regional, national, and European). In 2008 it took part in 24 different types of projects promoted by the Spanish Government and in seven European Union projects.

R+D projects and programs involve the entire value chain of the various business units, from exploration of new oil and gas fields, to lifting and preparation for transport, including transformation and manufacturing of products in industrial complexes and distribution to the end client. The following significant lines and actions in the various Repsol business areas are worth mentioning:

- **Upstream.** Repsol applies the most advanced technologies in the exploration of new oil and gas fields, developing new seismic processing technologies jointly with other leading companies and universities to improve the possibilities of analysing and interpreting seismic images, the first step in the oil and gas exploration process. This technology bolsters competitive advantage since it increases the possibilities of finding deepwater oil and gas reserves – a scenario that, until now, was characterised by geological formations that were complex or invisible when using traditional techniques – and significantly reduces exploration risks and associated costs.

Another of the main lines of technological development at Repsol involves improved recovery technologies for extracting more oil and gas from mature reservoirs. The company also develops and adapts technologies to enhance non-conventional hydrocarbon production, such as heavy oil and low-permeability gas

resources, in addition to technologies and methodologies to improve production in offshore fields.

- **LNG.** In this business, in which Repsol is a leading international player, liquefaction technologies are being developed to use floating systems, which will make it possible to capitalise gas reserves that cannot be exploited in an economically viable manner at present.

- **Downstream.** Specialised technological support for refineries makes it possible to produce better quality gasoline and diesel fuel. By making progress in this field, Repsol can keep ahead of international regulatory requirements, consistently maximising its operating margin, ensuring compliance with environmental requirements, and promoting energy savings and efficiency. New products are being developed as part of this strategy, such as plant-based biofuels and improved performance lubricants and asphalts adapted to comply with new environmental standards.

Several fleet trials and field tests have been conducted to ensure that these new bio-products reach the market with full guarantees, including the following: a trial using a fleet of buses running on bio-diesel made with recycled frying oil; the tests performed on 200 vehicles using a biofuel with a high content of renewables (30%); field tests using a new enhanced safety oil as a biodegradable electrical transformer; and the test on a road surface using asphalt that can be spread at a low temperature that provides environmental advantages and cost savings.

As part of its commitment to research and sustainable development, Repsol has launched several innovative projects, such as the study of new crops for producing biofuels, the development of CO² capture systems using reusable bio-algae, biomass, products made with vegetable oils for treating crops affected by plagues, and the application of spreadable oils to treat wood to prevent attacks by xylophagous organisms..

Competition fuels developed at the Repsol Technology Centre are used in major sports competitions. In 2008, for the fourth consecutive year, Honda HRC rated Repsol's CTR-54 competition fuel the best performer compared to several others manufactured by competitors. Repsol's technology department also developed the first competition diesel fuel for Mitsubishi's new Lancer, which competed in the last Dakar race held from 3 to 18 January 2009 in Argentina and Chile. Knowledge acquired in these cutting-edge technologies is subsequently used to improve the company's products that reach end users.

In LPG, new end-to-end air-conditioning applications for the residential, tertiary, and industrial sectors are being implemented gradually. These applications, jointly with the use of autogas (LPG used to power vehicles) and in coastal fishing vessels (Peixe Verde project), open a wide range of environmentally- friendly business opportunities.

Research in petrochemicals focuses on optimising existing processes, many of which are proprietary technology, and in developing products adapted to new market requirements in increasingly competitive scenarios. It is in these types of products, particularly those for mass consumption, in which performance excellence and the balance between properties and the price of raw materials and energy required for production mark the difference in efficiency and sustainability between processes and producers.

The projects developed throughout 2008 made it possible to redesign polyol production units, increasing capacity while at the same time improving the quality of the composition and properties of these products.

More efficient procedures were defined for the production of polyolefin and alternative uses for traditional monomers were developed by introducing more efficient catalysts in the processes.

Through the involvement in Dynasol, the company continues to develop new synthetic rubber, the applications of which are very appreciated in the automotive industry and in the manufacturing of adhesives and compounds.

SAFETY AND THE ENVIRONMENT

For Repsol, paying attention to safety and the environment is an essential aspect in managing its activities. This principle is part of the company's strategic vision and its commitment to "contribute to sustainable development and improvement of the social environment, and to respect human rights, the environment, and safety". This commitment is complemented by the following ethical value: "we demand a high degree of safety in processes, facilities, and services, stressing the protection of employees, contractors, customers, and the local surroundings, and we convey this principle to the entire organization".

These are the commitments and values underpinning Repsol's Safety, Health, and the Environment Policy that, through the management system, applies to all the company's activities. Its main support is the Safety and Environment Manual, which is supplemented by a large set of standards, procedures, and technical guides, constantly updated to adapt them to the best practices in the industry.

The most important actions carried out recently to improve safety and the protection and conservation of the environment and the evolution of the most relevant indicators are detailed in the Repsol 2008 Corporate Responsibility Report and on its website (www.repsol.com).

Safety

Repsol's objective is to have accident-free operations. To achieve this, management improvement measures and investments are defined each year to maintain the facilities in accordance with the best standards in the sector. To improve safety, the management system is constantly being evaluated.

The rate of accidents at Repsol decreased once again in 2008. The frequency of time lost due to accidents affecting integrated personnel (company employees plus contractors), fell 25% in comparison with the previous year, thereby meeting the

annual target and making progress in achieving the strategic goals defined by the company for 2012.

Unfortunately, however, despite all the steps taken and the progress made in this respect, nine fatal accidents occurred, with eleven deaths, three of whom were company employees and eight were employed by contractors. Five of these deaths occurred in road accidents.

Environment

In compliance with Repsol's strategic lines, protection and conservation of the environment are key elements in the company's activities. Significant environmental investments were made in 2008. Key among these, as in previous years, were the improvements achieved in the refining business to meet environmental oil product quality standards. Also significant were the measures implemented to minimise emissions to air, the optimisation of water consumption, the reduction of contamination in landfills, proper management of waste, and the improvement of systems to prevent spillages based on the best available practices and technological innovation. Great efforts were made in identifying, assessing, and addressing possible contamination episodes in the past.

Note 39 of the Repsol YPF Group Consolidated Annual Report provides detailed information on the assets, expenses and investments, contingencies, provisions, and future actions in relation to the environment.

Climate Change

In 2008, the European Commission, under the French presidency, approved a package of measures to fight climate change and promote renewable energies. The document establishes a 20% greenhouse gas reduction target by 2020 and an increase in the use of renewable energies. European Union committees will be meeting in 2009 to define the specific measures to be implemented in order to fulfil these targets.

Additionally, the parties to the United Nations Framework Convention on Climate Change, meeting in Poznan (Poland), in December 2008, reached agreements on the Kyoto Protocol Adaptation Fund and on the transparency measures for handling Clean Development Mechanisms (CDM) projects. The countries included in Annex I of the Kyoto Protocol tried to advance in the negotiations on the commitments to reduce greenhouse gas emissions and those not included in Annex I on the possibility of including carbon dioxide capture and storage as part of the CDMs and also sought clarification on the rules for technology transfer. At the major gathering to be held at the end of 2009 in Copenhagen (Denmark), the parties will seek to conclude these actions.

At the in-house level, Repsol continued in 2008 to implement its Carbon Plan in all the business lines that produce greenhouse gas (GHG) emissions, principally by seeking emission reduction opportunities, assessing its viability as a CDM project, the improvement of GHG inventories, and investment in Carbon Funds.

In 2005, Repsol outlined its objective of reducing emissions by one million tons of CO₂ equivalent over the 2005-2012 period in respect of a business as usual scenario. Thanks to the efficiency measures implemented in recent years, the company was able to meet this target in 2008. Consequently, Repsol has revised this target and has set a more ambitious goal: an additional 1.5 million ton reduction of CO₂ equivalent during the 2009-2013 in respect of the business as usual scenario.

One of the linchpins of the Carbon Plan is the development of a potent in-house program to detect reduction opportunities. Thanks to this initiative, known as CORE (Reduction Opportunity Catalogue), 94 projects had been identified by year-end 2008.

Repsol continued to work throughout year towards ensuring the consistency, transparency, and credibility of greenhouse gas emission quantification, monitoring, and reporting processes, applying the program introduced in 2007 for verifying the inventory of this type of gas and measures for its reduction in accordance with ISO Standard 14064.

Investment in Carbon Funds continued as established in recent years. These funds are used to develop CDM projects in developing countries, including investing in energy efficiency initiatives, renewable energies, waste management, and fuel change projects. In 2008, the company participated in two initiatives carried out in China through the Natsource Carbon Fund "Greenhouse Gas Credit Aggregation Pool (GG-CAP)", an industrial cogeneration project in Chaochuan and another hydro generation project in the province of Hunan which is powered by the current of the Chenshui River.

Biodiversity

Repsol respects biodiversity when planning and developing its projects and operations, preventing and minimising the possible negative impacts on ecosystems. In 2008, Repsol YPF developed a set of regulations that define the biodiversity criteria and guidelines for all the company's operations, including the commitment to implement the Biodiversity Action Plans in projects developed in sensitive areas.

Along these lines, in 2008 the company continued developing the two Biodiversity Action Plan (BAP) undertaken in 2006 in relation to exploration activities in block 39 (Peru) in collaboration with the prestigious Smithsonian Institution, and in 2007 for offshore operations in Trinidad and Tobago.

ACKNOWLEDGEMENT IN SAFETY AND THE ENVIRONMENT

For the third consecutive year, Repsol was included in the selective Dow Jones Sustainability World Index, the Dow Jones Euro Stoxx Sustainability Index, and the Climate Leadership Index.

The Dow Jones Sustainability Index comprises several market indices whose members must prove that they have implemented advanced practices in relation to various corporate responsibility facets. On an annual basis, these indices assess several aspects, including companies' management of safety and environmental issues. In 2008, for the first time, Repsol obtained the maximum rating in its sector with respect to environmental policy and management, protection of biodiversity, and on-the-job health and safety. In addition, for the second consecutive time, the company received top ratings for its management of climate change.

For the third consecutive year, Repsol remained in the Climate Leadership Index which includes the 30 best Financial Times 500 companies in issues such as strategy and transparency policy in relation to climate change. The company was rated one of the best three in the oil and gas sector and was the only one that has ranked among the top three over the past three years.

For its inclusion in this index, Repsol successfully passed an evaluation of ten key criteria related to its activity, such as investment in new technologies to reduce emission, emission inventory management and reporting, and investment in energy savings and efficiency.

Since 2003, Repsol has been a member of the FTSE4Good (Financial Times Stock Exchange Index) in the London Stock Exchange.

KNOWLEDGE MANAGEMENT

Repsol is currently immersed in a moment of change to adapt itself to the needs of a competitive market that demands constant innovation. To this end, the company plans to contribute to this adaptation by creating value and innovative capabilities in the organization through the use of knowledge management techniques and tools.

General Mission

Knowledge management initiatives at Repsol must contribute to business results, efficiency improvement, and commitment management through the design and deployment of a capabilities development and transfer model among all the business units and the organization's transversal areas. The objective is to create a common framework for generating innovative capabilities, constantly aligned to strategic objectives and the results of which can be quantified to ensure sustainable improvement.

Corporate Vision

Repsol wants knowledge management to become an undifferentiated and intrinsic part of the day-to-day activity of its employees and of its work processes and evaluation systems, contributing to a constant improvement and innovation framework and an environment that encourages the participation, implication, and development of company employees. Through knowledge management, Repsol aims for its employees to feel professionally enriched and motivated and encouraged, on a personal level, to participate actively in the company's progress.

Strategic Objective

Repsol employees, no matter where they are or in which unit or functional area they carry out their activities, will have access to all available knowledge (contents, people, and processes) to enable them to find, whenever they need it, the pertinent knowledge and the constant identification and transfer of good practices in all key

areas and processes, contributing to creating a favourable environment for innovation.

Deployment and actions carried out

As part of the strategic knowledge management plan, new practice communities have been created which, together with those already in existence, comprise approximately 20,000 people throughout the entire company. In 2008, projects for retaining employees' knowledge and its transfer to others, (due to retirement, turnover, changes, the incorporation of new professionals, training material, etc.) remained in place. Applied methodology is mainly supported by compiling personal histories and experiences which are recorded in audiovisual support.

The Moebius Project was launched in order to bring the company's knowledge closer to its employees. Its objective is to make available to all employees the knowledge existing within Repsol. To accomplish this, a prototype of the desired final system has been made. In collaboration with the Systems Division, a preliminary version was made that is currently being used to show the achievable functionalities to all business units and to have a trial environment to optimise performance and ensure its proper use by end users.

Acknowledgements

In 2008, Repsol received the European MAKE-2008 award in recognition for the measures implemented by the company and the results achieved in knowledge management through the evaluation of more than 500 professionals, thanks to which, Repsol was selected as one of the ten best European companies in this field.

QUALITY: MANAGEMENT EXCELLENCE

Repsol perceives quality as the constant pursuit of excellence by managing the company's resources in an appropriate manner to generate value for its stakeholders over the course of time.

In 2001, in order to make progress on the road to excellence, Repsol adopted the European Foundation for Quality Management (EFQM) and the Ibero-American Foundation for Quality (FUNDIBEQ) models, implementing these models by performing periodic self-assessments that enable the company's units to identify, prioritize, implement, and assess its improvement plans.

Repsol is a member of the two international foundations (EFQM and FUNDIBEQ) and actively participates in the leading quality associations in the geographical regions where it operates.

Updating the Strategic Quality Plan

Each year, the Quality Committee, comprising senior management representatives from core business areas and corporate directors, approves the company's Strategic Quality Plan which sets out the priority objectives and the actions contemplated for developing the quality policy. The current plan envisages several strategic lines that recognise and promote as one of Repsol's core professional values, a customer-driven policy guided by knowing and satisfying customers' needs with speed and flexibility, and by anticipating their expectations. The basic premise of the plan is to foster creativity and innovation as a means of ensuring sustainable competitive advantage.

In 2008, the company continued to develop the key Strategic Quality Plan programs. As part of the consolidation and improvement of the self-assessment process, the company's different business units define and implement their

improvement plans and programs based on the self-assessments that they perform.

Since the program was first implemented in 2001, more than 120 self-assessments have been performed. This implies that at 31 December 2008, 100% of the organization had completed at least two self-assessments, and 30% had performed three or more.

The self-assessment methodology, designed in 2007, was reviewed in depth in 2008 for the purpose of improving its alignment with the business strategy and ensuring the integration of all improvement initiatives and the monitoring of action plans, also with the objective of having the quality function act as a catalyst for change management. All this is supported by ambitious value-accretion objectives and underpinned by a system of indicators for monitoring and bolstering the constant improvement processes and enhanced efficiency.

Repsol also worked on implementing a process-focused management system throughout the entire company. The decision-making process and implementation of improvements to ensure fulfilment of objectives are supported by establishing processes and identifying performance indicators and metrics.

Repsol promotes the use of benchmarking as the basis for establishing improvement objectives according to the environment and disseminating knowledge of best practice within the organization.

Innovation and the use of quality training

Repsol also promotes innovation as an essential management value as reflected in its quality policy. In 2007, the company approved the implementation of an innovation framework promoted by Club Excelencia en Gestión (Management Excellence Club) and the COTEC Foundation as a reference for boosting the organization's capacity for innovation.

A new training curriculum on quality was developed in 2008 for all company personnel. This curriculum covers all quality-related aspects: excellence and self-assessment models; process-driven management; quality certifications; and basic tools and methodologies for improvement and their implementation.

On 8 October 2008, an open-door seminar was organized at Repsol's headquarters, in collaboration with the Management Excellence Club, under the slogan "Let's invent the future". At this event, in which 150 people from 60 companies from different sectors participated, information was provided on some of the relevant initiatives that the Group is implementing in its quest for achieving excellence. To shed light on Repsol's quality policy commitments, the day's agenda included subjects related to the transformation of the organization, human capital, innovation, the environment, and the company's constant commitment to the community. These themes coincide with the core values promoted by the Management Excellence Club and excellence principles promoted by the EFQM and FUNDIBEQ models applied at Repsol.

Certifications

Repsol promotes the implementation of quality management systems based on international standards in order to progress on the road to excellence, developing a culture and commitment to quality, and complying with market requirements.

The company has approximately 60 quality certifications based on standards such as ISO 9001:2000, TS 16949, and ISO 17025, which are available at the company's website (www.repsol.com).

CORPORATE RESPONSIBILITY

Commitment to society

Repsol works in a large variety of social, cultural and financial environments. A concern for local sensitivities helps the company understand and respond to the particular needs of the communities with which it comes into contact in the different phases of its business. Devoting attention to local issues gives Repsol a closer feel for the concerns of the people living in the vicinity of the company's operations.

Repsol's efficient and modern energy management is framed in the context of a firm commitment to the well-being, development and prosperity of the societies in which it is present and to the principles of sustainable development. The company sees social commitment as an inherent part of its activity. Between them, protecting the natural and social environment, good relations with the communities in which it works, people's safety and respect for human rights define its management model.

During 2008, Repsol made progress in putting into action the six strategic strands of the 2007-2009 Corporate Responsibility Master Plan. As of 31 December 2008, fifty of the 65 steps set out in the Plan had been implemented, amounting to a progress rate of 80%.

A closer and ongoing relationship with the different groups of interest to the company is one of the basic premises of the **Community Commitment Scheme**, which is framed in the context of one of the strategic strands of the Master Plan aimed at promoting dialogue and cooperation with the community.

This scheme focuses on analysing, organising and steering the company's social commitment activities, aligning them with the objectives and strategy of the business and with the real needs of the communities and societies in which Repsol operates.

One of the key milestones this year was the preparation and approval of the **policy for relations with the community and the policy for relations with indigenous communities**, which from that point on govern the practices of Repsol and of its contractors and suppliers.

Social stakeholders played a part in drawing up the policies. To be precise, more than 24 national and international organisations were contacted when the policy for relations with indigenous communities was drawn up.

This policy represents Repsol's support for the recognition of indigenous peoples as set out in Convention 169 of the International Labour Organization (ILO) and in the Declaration on the Rights of Indigenous Peoples of the United Nations General Assembly. It acknowledges the differential nature of these communities, the duty to respect and promote their human rights and fundamental freedoms and, particularly, their organisational, economic and social structures. Likewise, in the framework of the approved policies mentioned above, Repsol undertakes to consult those communities beforehand and knowledgeably and to let them share, whenever possible, the benefits afforded by business activities to exploit the hydrocarbon resources that exist in their soil, among others.

These policies make it possible to strengthen the approach that Repsol has sought to promote in the dialogue with and understanding of the communities in the vicinity of its business operations, and to respond to their specific needs by drawing up plans for relations with the community.

The company's approach to corporate responsibility and sustainable development won recognition once more in 2008. Repsol was included again in the selective **Dow Jones Sustainability Indexes**. In terms of the social criteria assessed in the analysis, Repsol stood out for its solid social commitment and scored top marks in human capital development, health and safety in the workplace and social impact

on communities. Likewise, by continuing to be included in the **FTSE4Good** index, Repsol's commitment to long-term value creation is endorsed for another year.

In 2009, and taking the expectations of groups of interest into account, the foundations for the company's new Corporate Responsibility strategy will be established around the new **2010-2012 Master Plan**.

As a result of Repsol's voluntary commitment to the sustained enhancement of society, the **Repsol Foundation** embarked on a new phase in 2008 in which it set itself new goals.

The Foundation is considered to be the maximum expression of the company's pledge for social responsibility. Its aim is to work in fields in which it can make more of a contribution, which have a clear impact on the enhancement and progress of society and which contribute to people's well-being. Its areas of activity revolve around social action, energy and the environment, responsible mobility and education and culture. The Foundation will also provide debate on and analysis of trends and sensitive areas of concern in the social, energy and environmental field, creating meeting places and discussion forums.

The new Foundation is responsible for running cultural, social, scientific and educational schemes and activities as well as those for promoting research, a function hitherto scattered across the Repsol Group, thus giving continuity to the initiatives that the company was putting in practice from its Corporate Responsibility unit.

More than 1,200 schemes

One of Repsol's strands of activity in terms of social commitment responds to needs identified in the communities from a lasting power viewpoint. As a rule, the company, in conjunction with the communities or their representatives, decides

which priority projects should to be undertaken in order to help address the needs identified.

The activities that the company has carried out can be summarised in the following strands of activity: education and training, community development, health, social integration, the environment, art and culture.

In 2008, Repsol YPF and its foundations put €30 million towards social investment altogether. All in all, during the year, more than 1,200 social and cultural schemes were undertaken.

INVESTMENT IN SOCIAL AND CULTURAL SCHEMES	Thousands of euros				
	2004	2005	2006	2007	2008

- (1) Higher Institute for Energy (Instituto Superior de Energía, ISE) involvement in 2008 amounted to nearly €5 million.
(2) Calculated on earnings before tax and from associated companies.

COMMUNICATIONS

Transparency and having close relations with society's different stakeholders are the mainstay of Repsol's communications strategy. These days, society wants accessible information and Repsol does not hesitate to cater for this need in the smoothest and most reliable way possible, through a number of different tools.

Shareholders and investors

These groups have access to all sorts of resources that enable them to find out about the day-to-day business of the company. Since its flotation in 1989, Repsol has had a Shareholder's Information Office (*Oficina de información al Accionista*, OIA) and an Investor Relations Office, and through them both it deals with the needs of its shareholders, institutional investors and stock market analysts.

Shareholders can ask for any information they need at the OIA, by going to the office themselves, calling the **900 100 100** freephone or by post or e-mail. In 2008, the OIA dealt with over 62,000 calls (an average of 238 a day) and nearly 300 e-mails from shareholders asking for information. Most of the enquiries in 2008 had to do with the share price, the General Meeting of Shareholders, the policy for and dates of payment of dividends and the material facts of the company.

Added to that, the corporate web site (www.repsol.com) provides access to all the relevant information about the company, as well as specific contents in the section on "Information for shareholders and investors", which in 2008 had more than 200,000 visits. The portal also has an e-mail address (infoaccionistas@repsolypf.com) where enquiries can be sent and publications requested. In 2008, more than 500 e-mails were sent to this mailbox, mainly asking for information about Repsol.

The Investor Relations Office provides smooth communication with institutional investors and stock market analysts. One of the highlights of its activities in 2008

was the presentation of the 2008-2012 Strategic Plan to investors and to the international financial community. During the year, 12 global roadshows were held (meetings by company executives with international institutional investors) and more than 120 one-on-one interviews (personal interviews with investors and financial analysts). Repsol also organised a number of sector-based conferences in Europe and the United States which were attended by a large number of institutional investors. In 2008, the Investor Relations Office also arranged a field trip for financial analysts to Repsol's Houston offices to present the Upstream projects that the company is carrying out in the area, as well as the company's deepwater exploration strategy.

News media

Repsol's policy for news media relations is based on the principles of the transparency, accuracy and reliability of the information conveyed. The company endeavours to ensure that requests for information from journalists are answered as quickly as possible, keeping up a free-flowing and ongoing contact with the media which is regarded as vital for conveying developments in, the business activity and management of a company present in some 30 countries.

Repsol's Communications Office deals daily with general and specialised media at international, national, regional and local level, providing them with information about everything that the professionals from this sector need to know. In addition, it works closely with the local media in the places where the company's industrial complexes are located.

All the news media are informed of any activity and initiative carried out by Repsol by means of press releases. In 2008, Repsol distributed more than 80 press releases in Spain alone, as well as others disseminated by industrial complexes at local level, and those issued in the countries where the company operates.

To strengthen the relationship with journalists, press conferences and specific informative meetings with the heads of news media are arranged. Particular mention should be made of those held in 2008 to mark the General Meeting of Shareholders and the presentation of the 2008-2012 Strategic Plan.

The company's website has a specific space, the press room, that provides immediate access to information about the Group. From this space, the press releases issued by Repsol, and publications, pictures and all kinds of relevant information about the company are made available to the news media and the public in general. It also contains useful tools, such as a glossary of terms.

Repsol has a press mailbox (prensa@repsol.com) that operates 24 hours a day which facilitates the relationship with the different news media. Near on 4,000 enquiries and requests for information were dealt with in 2008 through this channel.

The repsol.com portal is an important communications tool. Its monthly average of visits and of pages viewed, five million and eighty million respectively, endorse it as one of portals most visited among all the companies that make up the IBEX-35, the principal benchmark index of the Spanish stock exchange. The repsol.com site includes new features constantly that enhance the appeal, accessibility, security and speed of the information. The portal, which among other services provides the company's customers with the possibility of operating online, can be consulted in Spanish, English, Portuguese, Catalan, Gallego and Basque.

In 2008, the international consultancy, Hallvarsson&Hallvarsson, credited Repsol with being the top Spanish company in terms of its transparency and best practices in the contents of its corporate web site, standing sixth in the global ranking of companies with the highest market capitalisation in Europe.

That same year, the company's portal won the IMA Outstanding Achievement Award for its Service Stations' channel, a recognition of the effort made to disseminate its business activities and to forge a closer relationship between the brand and its products and customers in an innovative and accessible way.

BRANDING POLICY

In 2008, considerable progress was made in consolidating the brand strategy, and major milestones were achieving in marketing and communication, the cornerstones for value creation for the company.

Communicating Repsol's expertise and technological innovation at the service of society. The communications campaign "*Inventemos el futuro*" (Let's invent the future) summarises the positioning of an expert company in the energy sector and one that is, at the same time, responsible and people-oriented, committed to society and the future.

To give tangible proof of the progress made by Repsol along these lines, the communications campaign was based on four of its most innovative projects:

- **Microalgae.** Repsol develops second-generation biofuels from microalgae and other cultures not suitable for food purposes.
- **Kaleidoscope.** Cutting-edge science and technology join forces to discover oil and gas fields in the depths of the sea, respecting the natural environment.
- **Asphalts.** By recycling tyres, Repsol produces asphalts that reduce environmental and acoustic pollution and improve road safety.
- **Plastics.** Repsol is developing a new generation of environment-friendly plastics for greenhouses, which achieve more efficient crops by making optimum use of the sun and less use of water.

Rationalisation of the architecture of company brands. Repsol's brands policy is focused on building and boosting the YPF brand in Argentina and the Repsol brand elsewhere in the world. The key steps taken involved conducting a

company-wide review of the main brand applications, prioritising those with most visual impact. To give a striking example of this approach, the name of the guidebook “Guía Campsa” was changed to “Guía Repsol”, after providing information about gastronomy and tourism in Spain for more than 30 years. The product-brands have been redefined, as well, using the Repsol brand for all of them so that the link is never lost. The company’s new product-brands are designed in the frame of a graphic family that facilitates selective recall, albeit always meeting the specific needs of each business area.

The correct monitoring and application of brand identity objectives is a key piece in the coherent positioning of the Repsol brand and its trade brands; it enables its renown to grow in a sustained way, guarantees knowledge of and conveyance of the values that identify it and acts as support for increasing its financial value.

The strategic priority in building and managing the brand is reflected in the documents on the guidelines that should underpin our communication, both at external and internal level. To guarantee the correct application of the brand and its identity, the key communications managers are provided with identity handbooks, which strictly define the most noteworthy aspects of the use of the brand at their different contact points, whether it be a service station, a butane gas distributor agency or a fuel transport lorry. In this way, a process for renewing the visual identity handbooks has commenced, in which efforts are focused on interactivity, simplification, ease of use and the possibility of downloading printed forms.

In the period 2006-2007 and in the framework of an internal strategic reflection based on the results of the brand assessment project and other studies, a wide range of initiatives were undertaken to optimise brand management and create financial value in the medium and long term. To gauge the impact of these initiatives on the company’s brands and on customers, a new appraisal of the company’s principal brands has been made which analyses trends in their positioning, the impact of communications and sponsorship actions, and the

changes in the competitive context. This helps gauge the variation in customer drivers and the brand role and strength since the last appraisal and up to the present day. This assessment will make it possible to support strategic decision-making in this context and strengthen recognition of the brand and of other intangible assets as key assets of the company vis-à-vis its employees and society in general.

SPORTS SPONSORSHIP

In 2008, and for another year running, Repsol took part in competitions such as the World Motorcycle Championship which represent the best test benches for its fuels and lubricants by exposing them to the most extreme situations. Thanks specifically to this experience, gained in developing specific products for top-level competitions, Repsol is able to maintain its lead position in the research and development of products capable of living up to the expectations of its customers.

2008 was an outstanding season in terms of the world titles secured by the Repsol drivers who took part in top notch international competitions. Between them they won the outdoor World Trial Championship in the women's category, and the same title and that of the indoor World Trial Championship in the men's category. They also secured first place in the GP2 Series –the threshold to Formula 1– and the title of world champions, individual and by teams, in the World Touring Car Championship, which adds up to six world medals to add to Repsol's record.

Of note in 2008 was Repsol's participation in the World Touring Car Championship (WTCC). In its fifth year, this competition has positioned itself as the second most important automobile event, only surpassed by Formula 1. Yvan Muller's victory and the team victory secured with Seat were a great international showcase for the Repsol brand, another of the attributes, together with the development of fuels and lubricants, through which the company pledges commitment to sports sponsorship.

In the World Motorcycle Championship, Repsol rider Marc Marquez, aged 16, stood to form part of the elite in this discipline, demonstrating his qualities, both sporting and human, features which Repsol always views positively in its sports representatives, in addition to rigorous standards and professional expertise. In MotoGP, the maximum category, Dani Pedrosa held onto his position as leader for the first half of the championship, and, although good luck then deserted him, he ended the season with a well-deserved third place in the overall classification.

In trial, Toni Bou proved to be the indisputable new leader in this speciality, by regaining his two world titles, while Laia Sanz remained at the top in the women's category, achieving her eighth world crown.

2009 could not have started off better for Repsol. Once again, Marc Coma proved that nobody can overshadow him in offroad motorcycles by winning the Dakar 2009, which was held for the first time in Argentina and Chile. He is the first Spaniard to be two-times champion in this mythical event and the first win by a Repsol rider this year, which marks the 40th anniversary of the company's presence in the motor world.

SUPPLEMENTARY CONTENT OF THE MANAGEMENT REPORT

(Pursuant to section 116 (B)

of the Securities Market Act (Ley del Mercado de Valores))

A. Capital structure, including securities not traded on a European Community regulated market, indicating, where appropriate, the different classes of shares and, for each class of shares, the rights and obligations that it confers and the percentage of capital that it represents.

The Share Capital of Repsol YPF, S.A. is currently €1,220,863,463, represented by 1,220,863,463 shares, each with a par value of 1 euro, fully subscribed and paid up, belonging to a single class and, consequently, having the same rights and obligations.

The shares of Repsol YPF, S.A. are represented by book entries and have all been admitted to listing on the continuous market of the Spanish securities markets (Madrid, Barcelona, Bilbao and Valencia), the New York Stock Exchange and the Buenos Aires exchange (Bolsa de Comercio de Buenos Aires).

B. Any restriction on the transferability of securities.

As laid down in the 11th Additional Provision of Act 34/1998 on the hydrocarbons sector, in the wording thereof given by Royal Decree-Law 4/2006, 24 February, administrative authorisation must be sought from the National Energy Commission for certain holding acquisitions that involve companies that carry on regulated activities or activities that are subject to administrative intervention which entails a special binding relationship.

The Ruling of the Court of Justice of the European Communities (CJEC) of 28 July 2008 laid down that, by enforcing this requirement, the Kingdom of Spain has

breached the obligations incumbent upon it under articles 43 (freedom of establishment) and 56 (freedom of movement of capital) of the European Community Constitutional Treaty.

C. Significant direct or indirect holdings in the capital.

As of the last date available, the following were the most significant holdings in the share capital of Repsol YPF:

Shareholder	Total % of the share capital
Sacyr Vallehermoso, S.A. ⁽¹⁾	20.01
Criteria Caixa Corp. ⁽²⁾	14.31
Petróleos Mexicanos ⁽³⁾	4.81

(1) Sacyr Vallehermoso, S.A. holds its stake through Sacyr Vallehermoso Participaciones Mobiliarias, S.L.

(2) Criteria Caixa Corp. owns 9.28% directly and 5.02% indirectly through Repinves, S.A. (a company in which Criteria Caixa Corp. holds 67.60% stake).

(3) Petróleos Mexicanos (Pemex) holds its stake through Pemex Internacional España, S.A. and through several equity swap instruments which enable Pemex to exercise the economic and the political rights of a percentage of up to 4.81% of the Company's share capital.

Furthermore, on 18 January 2008 the entities Barclays Global Investors, NA, Barclays Global Investors, Ltd., Barclays Global Fund Advisors and Barclays Global Investors (Deutschland) AG notified the Securities Market Commission (*Comisión Nacional del Mercado de Valores*, CNMV) of the existence of an agreement for the concerted exercise of voting rights in Repsol YPF for a 3.22% holding. According to the information submitted to the CNMV, such entities are management companies of collective investment institutions, without their controlling entity (Barclays Global Investors UK Holdings, Ltd.) giving direct or indirect instructions for the exercise of the corresponding voting rights held by such management firms.

D. Any restriction on voting rights.

- Article 27 of the Corporate Articles of Association of Repsol YPF, S.A. lays down that the maximum number of votes that an individual shareholder, or companies belonging to the same Group, may cast at the General Meeting of Shareholders shall be 10% of the Share Capital with voting rights.
- Pursuant to Act 55/1999 (amended by Act 62/2003), the Administration must be notified of holdings acquired by state-owned entities, or entities of any kind in which state-owned entities have a majority or controlling interest of, at least, 3% in the share capital of energy companies, in order that the Council of Ministers, within a period of two months, may authorise, deny or place conditions on the exercise of the voting rights (the so called “golden energy share”).

With regard to that provision, the Ruling of the Court of Justice of the European Communities (CJEC) of 14 February 2008 laid down that the Kingdom of Spain has breached the obligations incumbent upon it under article 56 EC (freedom of movement of capital), by keeping in force measures such as the “golden energy share” which restrict the voting rights attached to shares held by state-owned entities in Spanish firms operating in the energy sector.

- Furthermore, article 34 of Royal Decree-Law 6/2000 lays down certain constraints on the exercise of voting rights in more than one principal operator in the same market or sector. Among others, it lists the markets for the production and distribution of fuels, the production and supply of liquid petroleum gases and the production and supply of natural gas, principal operator being understood to be the entities that hold the five largest shares in the market in question.

Such constraints are specified as follows:

- Natural or legal persons who have a direct or indirect holding of over 3% in the Share Capital or the voting rights of two or more principal operators in the same market may not exercise the voting rights attached to the excess over and above such percentage in more than one of those companies.

- A principal operator may not exercise voting rights in a holding of more than 3% of the Share Capital of another principal operator in the same market.

These prohibitions shall not apply to parent companies which have the status of principal operator with respect to their controlled companies that have the same status, provided that such structure is imposed by the legal system or is the consequence of a mere redistribution of securities or assets among companies in the same Group.

The National Energy Commission, as the energy market regulatory body, may authorise the exercise of the voting rights attached to the excess, provided that this does not favour the exchange of strategic information or entail risks of coordination in their strategic activities.

E. Shareholders' Agreements.

Repsol YPF, S.A. has not been informed of any shareholders' agreement that includes the regulation of the exercise of voting rights at its general meetings or that restricts or places conditions on the free transfer of Repsol YPF, S.A. shares.

F. Rules applicable to the appointment and replacement of members of the board of directors and to the amendment of the corporate Articles of Association.

- *Appointment*

The General Meeting of Shareholders is entrusted with nominating the members of the Board of Directors, notwithstanding the powers of the Board to nominate persons from among the shareholders to fill vacancies that arise until the next General Meeting is held.

Persons to whom the prohibitions under section 124 of the Companies Act (*Ley de Sociedades Anónimas*) apply and those who are incompatible according to the law in force may not be appointed as directors.

Persons and entities that are in a situation of permanent conflict of interest with the Company, including rival entities, their directors, executives or employees and the persons linked with or proposed by them may not be directors of the Company either.

Nominees shall be persons who, in addition to fulfilling the requirements for the post stipulated in the law and Articles of Association, have acknowledged prestige and possess the appropriate professional knowledge and expertise for performing their duties.

The proposals for the appointment of Directors that the Board submits to the General Meeting, and appointments made by co-option, shall be approved by the Board (i) at the proposal of the Nomination and Compensation Committee, in the case of Independent External Directors, or (ii) subject to a prior report by that Committee in the case of the other directors.

- *Re-election*

The Nomination and Compensation Committee is responsible for assessing the quality of work and dedication to the office during the preceding term of office of directors proposed for re-election.

The proposals for the re-election of Directors that the Board submits to the General Meeting shall be approved by the Board (i) at the proposal of the Nomination and Compensation Committee, in the case of Independent External Directors, or (ii) subject to a prior report by that Committee, in the case of the other directors.

- *Withdrawal or resignation*

Directors shall cease to hold office when the term for which they were appointed expires (unless they are re-elected) and in the other circumstances provided for in the Law, the Corporate Articles of Association and the by-laws of the Board of Directors.

Furthermore, directors must submit their resignation to the Board of Directors in any of the following circumstances:

- a) When any of the instances of incompatibility or prohibition provided for by law, the Company's Articles of Association or the regulations apply to them.
- b) When they have been seriously cautioned by the Nomination and Compensation Committee or the Audit and Control Committee for having breached their obligations as Directors.
- c) When, in the opinion of the Board, subject to a prior report by the Nomination and Compensation Committee:

1. Their continued presence on the Board may jeopardise the interests of the Company or impair the functioning of the Board itself or the standing and reputation of the Company; or

2. When the reasons for which they were appointed disappear. This includes, in particular:

- The External Institutional Directors when the shareholder that they represent or that had proposed their appointment transfers the whole of its shareholding. They must also surrender their post to the Board and, if the Board deems it fitting, tender the respective formal resignation, in the corresponding proportion, when such shareholder reduces its shareholding to a level that requires the reduction in number of its External Institutional Directors.

- The Executive Directors, when they cease to hold the executive posts outside the Board to which their appointment as Director was linked.

The Board of Directors shall not propose the withdrawal from office of any Independent External Director before the statutory period for which he/she had been appointed comes to an end, except when there are proper grounds for doing so, in the opinion of the Board subject to a prior report by the Nomination and Compensation Committee. In particular, proper grounds shall be deemed to exist when the Director (i) had breached the duties inherent in his/her office; (ii) were in any of the situations described in the previous paragraphs; or (iii) were in any of the circumstances described in the Rules and Regulations of the Board as a result of which he/she cannot be classified as an Independent External Director.

Proposals for the withdrawal from office of Independent External Directors may also be made as a result of takeover bids, mergers or other similar corporate operations that entail a change in the Company's capital structure, to the extent

necessary to establish a reasonable balance between External Institutional Directors and Independent External Directors according to the relationship between the capital represented by the former and the remainder of the capital.

- *Amendment of the Articles of Association*

The Articles of Association of Repsol YPF, S.A., which are available on its website (www.repsol.com), do not lay down different conditions from those contained in the Joint Stock Companies Act (*Ley de Sociedades Anónimas*) for their amendment, with the exception of the amendment of the last paragraph of section 27, regarding the maximum number of votes that a shareholder or companies belonging to the same Group may cast at the General Meeting. Said resolution, as well as the resolution to amend this special rule contained in the last paragraph of section 22 of the Articles of Association, require, both in the first and in the second convening, the favourable vote of 75% of the share capital with voting rights attending the General Meeting.

G. Powers of the members of the Board of Directors and, in particular, those concerning the possibility of issuing or buying back shares.

The Annual General Meeting of Shareholders of the company, held on 31 May 2005 agreed to authorise the Board of Directors to increase the Share Capital, once or several times, during a period of 5 years, by the maximum amount of €610,431,731 (approximately half the current Share Capital), by issuing new shares the countervalue of which shall consist of cash contributions.

Likewise, the Annual General Meeting of Shareholders of the company, held on 14 May 2008, authorised the Board of Directors to make the derivative acquisition of own shares, under the terms indicated above in the “Financial overview” section of this Management Report.

Finally, in addition to the powers recognised in the Company's Articles of Association and the Board Regulations as being conferred upon the Chairman and Deputy Chairman of the Board, the Executive Directors have each been granted general powers of attorney to represent the Company, conferred by the Board of Directors, and which are duly recorded in the Madrid Companies Register.

H. Significant agreements to which the company is party and that take effect, alter or terminate upon a change of control at the company as a result of a takeover bid, and their effects, except when disclosure thereof would be seriously detrimental to the company. This exception shall not apply when the company is under the legal obligation to make this information public.

The Company participates in exploring for and exploiting hydrocarbons through consortiums or joint ventures with other oil companies, both private and state-owned. In the contracts that govern relations between the members of the consortium the other partners are usually granted a right of first refusal over the holding of the partner on which a change of control takes place when the value of said holding is significant in relation to the overall assets of the transaction or when other conditions set out in the contracts occur.

Likewise, according to the rules regulating the oil and gas industry in the different countries in which the Company operates, the transfer, total or partial, of research permits and exploitation concessions as well as, on occasions, the change of control in the concessionaire entity or entities and in particular in the entity that has the status of mining area operator, are subject to prior authorisation by the competent administrative authority.

In addition, the agreements entered into by and between Repsol YPF and Caja de Ahorros y Pensiones de Barcelona ("la Caixa") relating to Gas Natural SDG. S.A., reported as relevant facts through the Securities Market Commission, as well as the Agreement for Industrial Activity between Repsol YPF and Gas Natural SDG,

S.A. provided for in them and notified as a relevant fact on 29 April 2005 and the Partnership Agreement between Repsol YPF and Gas Natural SDG relating to Repsol–Gas Natural LNG, S.L. consider the change in the control structure of either of the parties to be cause for termination.

I. Agreements between the company and its directors and executives or employees providing for compensation when they resign or are unfairly dismissed or if the employment relationship comes to an end because of a takeover bid.

- *Executive Directors*

The Chairman and the General Secretary and Member of the Board are entitled to a Deferred Financial Compensation in the event of the termination of their relationship with the company, provided that said termination does not take place as a result of a breach of their obligations or of their own free will, without there being grounds for it, among those provided for in the contract itself. The amount of the indemnity for termination of the relationship shall be three years' total monetary remuneration.

- *Executives*

The Repsol YPF Group has established a sole legal rule for executive staff, which is specified in the Executive Contract, in which the compensation system applicable in circumstances involving termination of the employment relationship is regulated and in which the causes provided for under the law in force are considered as causes for compensation.

In the case of senior executives, they include the resignation of the executive following corporate succession or a major change in its ownership, resulting in a

replacement of its governing bodies or of the content and approach of its core business activity.

The amount of the indemnity payments is calculated according to the age, length of service and salary of the executive, except in one case, in which it is established as three years' total monetary remuneration.

Further information about this matter can be found in Note 34 of the consolidated financial statements of the Repsol YPF Group.

NEW REPSOL HEADQUARTERS

On November 3rd last, after having secured the permits and authorizations granted by the Town Hall of Madrid, the construction works for new head office of Repsol located in Méndez Álvaro commenced at the plots belonging to the former site of Compañía Logística de Hidrocarburos (CLH). This project has been commissioned to the prestigious architects' firm Rafael de la Hoz.

The future corporate headquarters of Repsol will boast of an aggregate 66,000 sqm overhead built surface spanning between ground level and its four floors of offices and facilities. Below ground level, the 56,000 sqm available will be distributed in two basement floors for general installations and parking lots for 2,000 vehicles. The project contemplates the allocation of more than 8,000 sqm. committed to an ambitious facilities' plan for the employees.

The closed ring layout of the buildings will provide a garden enclosure of more than 9,500 sqm designed by the architectural and landscape firm Latz & Partner. This area based on a sustainable growth concept will avail itself of a rainfall reutilization system and of native species and/or adapted to the Madrid climate. Moreover, within the perimeter of the business park a new green area will be created of 2,700 sqm which ties in with the existing ones in the area.

During the design stage of the project, Repsol is fully committed to sustainability, which will enable it to obtain the prestigious Leadership in Energy & Environmental Design (LEED®) Certification awarded by the U.S. Green Building Council. This prestigious institution has developed a system which takes into account the full life cycle of the building (design, construction, operation and maintenance). The main variables will be location of the plot chosen, the water and energy consumption

efficiency, the environmental quality within the building and the source of the materials used during the construction process.

ANNEX I

ANNUAL REPORT ON CORPORATE GOVERNANCE

LISTED COMPANIES

ISSUER

YEAR 2008

TAX REGISTRATION NUMBER: A78374725

Name: REPSOL YPF, S.A.

MODEL FORM OF ANNUAL REPORT ON CORPORATE GOVERNANCE OF LISTED COMPANIES

Read the instructions for completion at the end of this report for a better understanding of the model form and assistance for completion.

A OWNERSHIP STRUCTURE

A.1 Complete the following table on the capital of the company:

Date latest modification	Capital (€)	Number of shares	Number of voting rights
15-12-2000	1,220,863,463.00	1,220,863,463	1,220,863,463

State whether there are different classes of shares with different associated rights:

Yes No

A.2 Give details on the direct and indirect holders of significant interests in your company at year-end, excluding directors:

Name of shareholder	Number of direct voting rights	Number of indirect voting rights (*)	% total voting rights
Sacyr Vallehermoso, S.A.	0	244,294,779	20.010
Caja de Ahorros y Pensiones de Barcelona.	17,988	174,645,246	14.307
Petróleos Mexicanos	0	58,679,800	4.806

Name of direct holder of the stake	Through: Name of the direct holder of the stake	Number of direct voting rights	% total voting rights
Sacyr Vallehermoso, S.A.	Sacyr Vallehermoso Participaciones Mobiliarias, S.L.	244,294,779	20.010
Caja de Ahorros y Pensiones de Barcelona	Criteria CaixaCorp, S.A	113,329,831	9.283
Caja de Ahorros y Pensiones de Barcelona	Repinves, S.A.	61,315,415	5.022
Petroleos Mexicanos	Financial Entities	58,679,799	4.806
Petroleos Mexicanos	Pemex Internacional España, S.A.	1	0.000

Indicate the principal movements in the shareholding structure during the year:

Name of shareholder	Date of transaction	Description of transaction
Axa, S.A.	13/11/2008	Falling below 3% of the capital

A.3 Complete the following tables on directors' shareholding interests in the company:

Name of Director	Number of direct voting rights	Number of indirect voting rights (*)	% total voting rights
Antonio Brufau Niubó	205,621		0.017
Luis Fernando del Rivero Asensio	1,000		0.000
Isidro Fainé Casas	242		0.000
Juan Abelló Gallo	1,000	81,926	0.007
Paulina Beato Blanco	100		0.000
Artur Carulla Font	12,718		0.001
Carmelo de las Morenas López	7,376		0.001
Ángel Duráñez Adeva	5,950		0.000
Javier Echenique Landiribar		17,200	0.001
José Manuel Loureda Mantiñán	2,300	42,000	0.004
Juan María Nin Génova	242		0.000
Pemex Internacional España, S.A.	1		0.000
Henri Philippe Reichstul	50		0.000
Luis Suárez de Lezo Mantilla	1,665		0.000

Name of indirect holder of the interest	Through: Name of direct holder of the interest	Number of direct voting rights	% total voting rights
D. Juan Abelló Gallo	Arbarin Sicav, S.A.	81,926	0.007
D. Javier Echenique Landiribar	Bilbao Orbieta, S.L.	17,200	0.001
D. Jose Manuel Loureda Mantiñán	Loupri Inversiones Sicav S.A.	21,000	0.002
D. Jose Manuel Loureda Mantiñán	Prilou, S.L.	21,000	0.002

Total % of voting rights held by the Board of Directors	0.031
--	-------

Complete the following tables on directors with stock options in the company:

A.4 Indicate family, commercial, contractual or corporate relationships among significant shareholders known to the company, if any, except any that are insignificant and those deriving from ordinary commercial business:

A.5 Indicate commercial, contractual or corporate relationships between significant shareholders and the company and/or its group, if any, except any that are insignificant and those deriving from ordinary commercial business:

Names of related persons or companies	Type of relationship	Brief description
Caja de Ahorros y Pensiones de Barcelona	Corporate	Repsol YPF and Caja de Ahorros y Pensiones de Barcelona (controlling shareholders of Criteria CaixaCorp, S.A.) participate in Gas Natural SDG, S.A., which has as business purpose, among other activities, supply, production, piping and distribution of any type of combustible gas. Repsol YPF and Caja de Ahorros y Pensiones de Barcelona have also signed an agreement relative to Gas Natural SDG, S.A., of which the <i>Comisión Nacional del Mercado de Valores</i> (CNMV) has been duly notified.

A.6 Indicate any shareholders' agreements of which the company has been notified in pursuance of Art. 112 of the Securities Market Act. Describe briefly, if any, indicating the shareholders bound by the agreement:

Yes No

Indicate any concerted actions among company shareholders of which the company is aware:

Yes No

Participants in concerted action	% of capital affected	Brief description of the agreement
Barclays Global Investors, Na, Barclays Global Investors, Ltd, Barclays Global Fund Advisors and Barclays Global Investors (Deutschland)	3.219	The companies exercising voting rights in concert are all managers of UCIs and the parent company (Barclays Global Investors UK Holdings LTD) does not issue direct or indirect instructions for exercising the corresponding voting rights held by those managers.

Expressly indicate any change or break-up of those agreements or concerted actions, if any, that has taken place during the year:

- A.7 Indicate any individuals or entities that exercise or may exercise control over the company in pursuance of Article 4 of the Securities Market Act:

Yes No

- A.8 Complete the following tables on the company's treasury stock:

At year-end:

Number of direct shares	Number of indirect shares (*)	Treasury stock/capital (%)
0	12,229,428	1.002

(*) Through:

Name of direct holder of the interest	Number of direct shares
Repsol YPF Tesorería y Gestión Financiera, S.A.	12,229,428
Total:	12,229,428

Give details on any significant variations during the year, according to the provisions of Royal Decree 1362/2007:

Date of communication	Total direct shares acquired	Total indirect shares acquired	Treasury stock/capital (%)
26/08/2008	5,157,665	7,051,406	1.000

Gain/(loss) obtained during the year on trading in own shares (thousand euro)	568
---	-----

- A.9. Indicate the terms and conditions of the authorisation granted by the General Meeting to the Board to buy or sell own shares.

The Annual General Meeting of Shareholders of Repsol YPF, S.A. held on second call on 14 May 2008, adopted the following resolution under item five on the Agenda:

“To authorize the Board of Directors for the derivative acquisition of shares of Repsol YPF, S.A., by sale, purchase, exchange or any other onerous legal business modality, directly or through controlled companies, up to a maximum number of shares, that added to those already own by Repsol YPF, S.A. and its subsidiaries, not exceeding 5% of the share capital and for a price or equivalent value that may not be lower than the nominal value of the shares nor exceed the quoted price on the stock market.

The shares so acquired may be disbursed among the employees and directors of the Company and its Group or, if appropriate, used to satisfy the exercise of option rights that such persons may hold.

This authorisation, which is subject to the compliance of all other applicable legal requirements, shall be valid for 18 months, counted as from the date of the present General Shareholders Meeting, and leaves without effect the authorisation granted by the last Ordinary General Shareholders Meeting held on the 9th May 2007.”

A.10 Indicate any constraints established in law or the Articles of Association on the exercise of voting rights and legal restrictions on the acquisition and disposal of shares in the capital.

Indicate whether there are any legal constraints on the exercise of voting rights:

Yes No

Maximum percentage of voting rights that may be exercised by one shareholder by legal constraint	3%
---	----

Indicate whether the Articles of Association establish any constraints on the exercise of voting rights:

Yes No

Maximum percentage of voting rights that may be exercised by one shareholder by a constraint under the Articles of Association	10%
---	-----

Description of the constraints established in law or the Articles of Association on the exercise of voting rights
<p>Under Act 55/1999 (amended by Act 62/2003), the government must be informed whenever any public corporation, or entities of whatsoever nature in which public corporations have a majority or controlling interest, acquire a stake of 3% or more in the capital of energy companies. The Council of Ministers has a period of two months to recognise or reject exercise of the voting rights corresponding to those shares, or to submit such exercise to certain conditions (the “energy golden share”).</p> <p>In this regard, a Judgment passed by the European Court of Justice (ECJ) on 14 February 2008 ruled that Spain has breached its obligations under Article 56 EC by maintaining in place measures such as the “energy golden share”, which limit the voting rights corresponding to shares held by public entities in Spanish companies operating in the energy sector.</p> <p>Furthermore, Article 34 of Royal Decree-Law 6/2000 establishes certain constraints on the exercising of voting rights in more than one principal operator in any one market or sector. Among others, it lists the fuel production and distribution, liquefied petroleum gas production and supply and natural gas production and supply markets. The principal operators are the entities holding the five largest shares of the market in question.</p> <p>These constraints are as follows:</p> <ul style="list-style-type: none"> - Individuals or entities directly or indirectly holding more than 3% of the capital or voting rights of two or more principal operators on the same market may not exercise the voting rights corresponding to the excess over that percentage in more than one of such operators. - No principal operator may exercise the voting rights corresponding to an interest of more than 3% in the capital of another principal operator on the same market. <p>These constraints shall not be applicable to parent companies that are principal operators in respect of their subsidiaries that are in the same position, provided this structure is imposed by law or the result of a mere redistribution of securities or assets among group companies.</p> <p>The <i>Comisión Nacional de Energía</i> (CNE), regulator of the energy market, may authorise exercise of the voting rights corresponding to the excess provided this does not favour the exchanging of strategic information or imply any risks of coordination of their strategic actions.</p> <p>Furthermore, Article 27 of the Repsol YPF, S.A. Articles of Association stipulates that no one shareholder, or companies belonging to the same Group, may cast votes at general meetings in excess of the number corresponding to 10% of the voting capital.</p>

Indicate whether there are any legal restrictions on the acquisition and disposal of shares in the capital:

Yes No

A.11 Indicate whether the General Shareholders' Meeting has resolved to take measures to neutralise a takeover bid under Act 6/2007.

Yes No

If so, explain the measures approved and the terms on which the constraints would become ineffective:

B MANAGEMENT STRUCTURE OF THE COMPANY

B.1 Board of Directors

B.1.1 State the maximum and minimum numbers of Directors stipulated in the Articles of Association:

Maximum number of directors:	16
Minimum number of directors:	9

B.1.2 Complete the following table with details of the members of the Board:

Name of Director	Representative	Position	Date first appointment	Date last appointment	Election procedure
Antonio Brufau Niubó		Chairman	23-07-1996	09-05-2007	Cooptation
Luis Fernando del Rivero Asensio		First Vice-Chairman	29-11-2006	09-05-2007	Cooptation
Isidro Fainé Casas		Second Vice-Chairman	19-12-2007	14-05-2008	Cooptation

Total number of independent directors	8
Independent directors / total directors (%)	50

OTHER OUTSIDE DIRECTORS

State reasons why they cannot be considered institutional outside or independent outside directors:

Indicate any variations during the year in the type of each director:

B.1.4 Explain why institutional directors have been appointed at the proposal of shareholders with less than a 5% interest in the company, if appropriate:

Name of shareholder	Justification
Petroleos Mexicanos	Pemex Internacional España, S.A. was appointed director of Repsol YPF, S.A., as an Institutional Outside Director, at the proposal of the significant shareholder Petróleos Mexicanos, which currently holds 4.8% of total voting rights of the Company. Petróleos Mexicanos has held a stable interest in the company since 1990, when it proposed the appointment of its subsidiary PMI Holdings, B.V. as director of Repsol YPF, S.A..

Indicate whether any formal requests for presence on the Board have not been met from shareholders with an interest equal to or greater than that of others at whose request institutional directors have been appointed. If so, explain why such requests have not been met:

Yes No

B.1.5 Indicate whether any director has retired from office before the end of his/her term, whether he/she explained the reasons for such retirement to the Board, and how, and if done in a letter addressed to the entire Board, explain at least the reasons stated therein:

Yes No

B.1.6 Indicate the powers delegated to the Managing Director(s), if any:

B.1.7 Name the Board members, if any, who are also directors or executives of other companies in the same group as the listed company:

Name of director	Name of group company	Position
Antonio Brufau Niubó	YPF, S.A.	Chairman
Luis Suárez de Lezo Mantilla	YPF, S.A.	Director

B.1.8 Name the company directors, if any, who are on the Boards of non-group companies listed on Spanish stock exchanges, insofar as the company has been notified:

Name of Director	Listed Company	Position
Antonio Brufau Niubó	Gas Natural SDG, S.A.	Vice-Chairman
Luis Fernando del Rivero Asensio	Sacyr Vallehermoso, S.A.	Chairman
Luis Fernando del Rivero Asensio	Testa Inmuebles en Renta, S.A.	Director
Luis Fernando del Rivero Asensio	Itínere Infraestructuras, S.A.	Director
Isidro Fainé Casas	Abertis Infraestructuras, S.A.	Chairman
Isidro Fainé Casas	Telefónica, S.A.	Vice-Chairman
Isidro Fainé Casas	Criteria CaixaCorp, S.A.	Director
Luis Carlos Croissier Batista	Adolfo Domínguez, S.A.	Director
Luis Carlos Croissier Batista	Testa Inmuebles en Renta, S.A.	Director
Carmelo de las Morenas López	Faes Farma, S.A.	Director
Ángel Durández Adeva	Gestevisión Telecinco, S.A.	Director
Javier Echenique Landiríbar	Actividades de Construcción y Servicios (ACS), S.A.	Director
Javier Echenique Landiríbar	Abertis Infraestructuras, S.A.	Director
Javier Echenique Landiríbar	Grupo Empresarial ENCE, S.A.	Director
José Manuel Loureda Mantiñán	Sacyr Vallehermoso, S.A.	Director
José Manuel Loureda Mantiñán	Testa Inmuebles en Renta, S.A.	Director
José Manuel Loureda Mantiñán	Itínere Infraestructuras, S.A.	Director
Juan María Nin Génova	Criteria CaixaCorp, S.A.	Director
Juan María Nin Génova	Gas Natural SDG, S.A.	Director
Luis Suárez de Lezo Mantilla	Compañía Logística de Hidrocarburos, S.A. (CLH)	Director

B.1.9 Indicate and, if appropriate, explain whether the company has established rules on the number of boards on which its directors may sit:

Yes No

B.1.10 With regard to recommendation number 8 of the Unified Code, indicate the general policies and strategies of the company reserved for approval by the full board:

Investment and financing policy	YES
Definition of the structure of the group of companies	NO
Corporate governance policy	YES
Corporate social responsibility policy	YES
Strategic or business plan, management objectives and annual budget	YES

Pay policy and senior executive performance assessment	YES
Risk management and control policy and regular monitoring of the internal information and control systems	NO
Dividend policy, treasury stock policy, especially limits	YES

B.1.11 Complete the following tables on the aggregate directors' remuneration accrued during the year:

a) In the reporting company:

Remuneration	Thousand euro
Fixed remuneration	8,093
Variable remuneration	1,687
Attendance fees	0
Statutory payments	0
Stock options and/or other financial instruments	0
Others	56
TOTAL:	9,836

Other Benefits	Thousand euro
Advances	0
Loans granted	0
Pension Plans and Funds: Contributions	2,437
Pension Plans and Funds: Obligations contracted	0
Life assurance premiums	243
Guarantees furnished by the company for directors	0

b) For company directors who are on other Boards and/or in the top management of group companies:

Remuneration	Thousand euro
Fixed remuneration	465
Variable remuneration	0
Attendance fees	0
Statutory payments	0
Stock options and/or other financial instruments	0
Others	0
TOTAL:	465

Other Benefits	Thousand euro
Advances	0
Loans granted	0
Pension Plans and Funds: Contributions	0
Pension Plans and Funds: Obligations contracted	0
Life assurance premiums	0

Guarantees furnished by the company for directors	0
---	---

c) Total remuneration by type of director:

Types of directors	By company (thousand euro)	By group (thousand euro)
Executive	5,701	465
Institutional outside directors	1,766	0
Independent outside directors	2,369	0
Other outside directors	0	0
TOTAL:	9,836	465

d) Regarding profit attributed to the controlling company:

Total directors' remuneration (thousand euro)	10,301
Total directors' remuneration / profit attributed to parent company (%)	0.4

B.1.12 Name the members of top management who are not executive directors and indicate the aggregate remuneration accrued in their favour during the year:

Name	Position
Pedro Fernández Frial	Executive Managing Director Downstream
Nemesio Fernández-Cuesta Luca de Tena	Executive Managing Director Upstream
Jaume Giró Ribas	Group Managing Director of Communication and Head of the Chairman's Office
Enrique Locutura Rupérez	Group Managing Director GNL
Miguel Martínez San Martín	Chief Operating Officer (C.O.O.)
Fernando Ramírez Mazarredo	Chief Financial Officer (C.F.O.)
Cristina Sanz Mendiola	Group Managing Director of Resources
Antonio Gomis Sáez	Executive Managing Director Operating YPF (COO)
Francisco Javier Macián Pérez	Group Managing Director of Human Resources
Isidoro Mansilla Barreiro	Audit and Control Director
Miguel Ángel Devesa del Barrio	Corporate Director Strategy and Corporate Development
María Patricia Mantel	Corporate Director Executive Development

Total remuneration top management (thousand euro)	12,926
--	--------

B.1.13 Indicate globally whether any golden handshake clauses have been established for the top management, including Executive Directors, of the company or its group in the event of dismissal or change of ownership. State whether these contracts have to be notified to and/or approved by the governing bodies of the company/group companies:

Number of beneficiaries	14
-------------------------	----

	Board of Directors	General Meeting
Body authorising the clauses	YES	NO

Is the General Meeting informed on the clauses?	NO
---	----

B.1.14 Explain the process for establishing the remuneration of the Board members and the relevant articles of the Articles of Association:

Processes for establishing the remuneration of the Board members and articles of the Articles of Association
<p>Article 45 of the Repsol YPF, S.A. Articles of Association provides as follows:</p> <p><i>“Directors, in their position as members of the Board of Directors and due to their carrying out the function of supervision and group decision as befits this body, shall be entitled to receive from the Company an amount equivalent to 1.5% of the clear profit, which may only be allocated after attending to the requirements of the legal reserve and others that may be compulsory, and of providing the shareholders with a dividend of at least 4%. The Board of Directors is responsible for fixing the exact amount to be paid within this limit, as well as its distribution among the various Directors, taking into account the positions held by each Director on the Board and its committees. The Company is authorised to make advance payments on account of future participation in profits.</i></p> <p><i>Directors may be additionally remunerated by means of granting company shares, share options or other securities giving the right to obtain shares, or through remunerative systems linked to the stock market value of the shares. The application of these systems must be approved by the General Shareholders' Meeting, which shall determine the value of the shares to be taken as a reference, the number of shares to be given to each Director, the exercise price of any option rights, the period the agreed system should last and as many conditions as deemed appropriate.</i></p> <p><i>The payments established by this article shall be compatible with and independent of the salary, remuneration, termination compensation, pension or compensation of any kind established for those members of the Board of Directors who carry out executive functions, whatever the nature of their relationship with the Company, be it employment (common or special of top management), commercial or for the provision of services. Information regarding these remunerations shall be disclosed in the Annual Report and in the Annual Report on Corporate Governance.</i></p> <p><i>The Company may take out an insurance policy covering civil liability for the Directors and members of the management team.”</i></p> <p>With regard to the Directors' compensation, Article 5.3.c of the Regulations of the Board of Directors reserves to the full Board of Directors the decision to approve Directors' compensation and, in the case of Executive Directors, any additional consideration for their management duties and other contract conditions.</p> <p>Article 24 of the Regulations of the Board of Directors of Repsol YPF, S.A. provides as follows:</p> <p><i>“Article 24. Directors' Compensation</i></p> <p>1. The position of Director of Repsol YPF, S.A. shall be compensated as provided for in the Articles of Association.</p> <p>The Nomination and Compensation Committee shall propose the criteria it considers appropriate to achieve the purposes of this article to the Board of Directors, and it is the Board's responsibility to approve said proposal and determine the final distribution of the overall sum, within the limits stipulated in the Articles of Association to that end. Within each term of office the Board may order payments, at the intervals it sees fit, to be credited to the amounts owed to each Director for the work done in said period.</p> <p>2. Directors' compensation shall be transparent. The Annual Report shall provide an individual breakdown of the compensation received by each Director for the performance of his functions as such during the period, showing the different categories of compensation.</p>

3. Outside Directors shall in all cases be excluded from the Company-funded benefit systems providing assistance in the event of termination of employment, death, or any other circumstances, as well as from long-term incentive programs such as stock purchase options.”

Finally, Article 33 of the Regulations of the Board of Directors provides that the Nomination and Compensation Committee shall propose to the Board its compensation policy, assessing the responsibility, dedication, and incompatibilities demanded of the Directors; and, in the case of the Executive Directors, propose to the Board the additional consideration for their management duties and other contract conditions.

Indicate whether approvals of the following decisions are reserved to the full Board:

Upon recommendation by the chief executive, the appointment and possible removal of senior executives and their compensation clauses.	NO
Directors’ compensation and, in the case of executive directors, the additional consideration for their management duties and other contract conditions.	YES

B.1.15 Indicate whether the Board of Directors approves a detailed compensation policy and specify the aspects it regulates:

Yes No

Amount of fixed remuneration, indicating the details of attendance fees for Board and Committee meetings and an estimate of the fixed annual remuneration	YES
Variable compensation	YES
Principal features of the welfare systems, estimating the annual cost or equivalent amount	YES
Conditions to be respected in the contracts of those performing top management duties and executive directors	YES

B.1.16 Indicate whether the Board submits to voting at the General Meeting, as a separate item on the agenda and with advisory nature, a report on the director compensation policy. If so, explain the aspects of the report on the compensation policy approved by the Board for future years, the most significant changes in those policies in respect of the policy applied during the year and an overall summary of how the compensation policy was applied during the period. Describe the role played by the Compensation Committee and whether external counselling has been used, and if so, the identity of the external advisers:

Yes No

Has external counselling been used?	
-------------------------------------	--

Identity of the external counsels

B.1.17 Name any Board members who are also directors or executives of companies holding significant interests in the listed company and/or companies in its group:

Name of director	Name of significant shareholder	Position
Luis Fernando del Rivero Asensio	Testa Inmuebles en Renta, S.A. (Sacyr Vallehermoso Group)	Director
Luis Fernando del Rivero Asensio	Sacyr Vallehermoso, S.A.	Chairman
Luis Fernando del Rivero Asensio	Itínere Infraestructuras, S.A. (Sacyr Vallehermoso Group)	Director
Luis Fernando del Rivero Asensio	Sacyr Vallehermoso Participaciones Mobiliarias, S.L. (Sacyr Vallehermoso Group)	Joint & Several Director
Luis Fernando del Rivero Asensio	Vallehermoso División Promoción, S.A.U. (Sacyr Vallehermoso Group)	Director
Luis Fernando del Rivero Asensio	Aeropuerto de la Región de Murcia, S.A. (Sacyr Vallehermoso Group)	Director
Luis Fernando del Rivero Asensio	Sacyr Vallehermoso Participaciones, S.A.U. (Sacyr Vallehermoso Group)	Joint & Several Director
Luis Fernando del Rivero Asensio	Somague S.G.P.S. (Sacyr Vallehermoso Group)	Director
Luis Fernando del Rivero Asensio	Autopista Vasco Aragonesa Concesionaria Española, S.A. (Sacyr Vallehermoso Group)	Vice-Chairman
Luis Fernando del Rivero Asensio	Tesfran, S.A. (Sacyr Vallehermoso Group)	Chairman
Luis Fernando del Rivero Asensio	Sacyr, S.A.U. (Sacyr Vallehermoso Group)	Director
Luis Fernando del Rivero Asensio	Autopista del Atlántico Concesionaria Española, S.A. (Sacyr Vallehermoso Group)	Director
Luis Fernando del Rivero Asensio	Sociedad Concesionaria Aeropuerto de Murcia, S.A. (Sacyr Vallehermoso Group)	Director
Luis Fernando del Rivero Asensio	Autovía del Barbanza Concesionaria de la Xunta de Galicia, S.A. (Sacyr Vallehermoso Group)	Director
Luis Fernando del Rivero Asensio	Valoriza Gestión, S.A.U. (Sacyr Vallehermoso Group)	Director
Isidro Fainé Casas	Caja de Ahorros y Pensiones de Barcelona	Chairman
Isidro Fainé Casas	Criteria CaixaCorp, S.A.	Vice-Chairman
José Manuel Loureda Mantiñán	Sacyr, S.A.U. (Sacyr Vallehermoso Group)	Director
José Manuel Loureda Mantiñán	Somague S.G.P.S., S.A. (Sacyr Vallehermoso Group)	Director
José Manuel Loureda Mantiñán	Itínere Infraestructuras, S.A. (Sacyr Vallehermoso Group)	Director
José Manuel Loureda Mantiñán	Autopista Vasco Aragonesa Concesionaria Española, S.A. (Sacyr Vallehermoso Group)	Director
José Manuel Loureda Mantiñán	Testa Inmuebles en Renta, S.A. (Sacyr Vallehermoso Group)	Director
José Manuel Loureda Mantiñán	Valoriza Gestión, S.A.U. (Sacyr Vallehermoso Group)	Chairman
José Manuel Loureda Mantiñán	Vallehermoso División Promoción, S.A.U. (Sacyr Vallehermoso Group)	Director
Juan María Nin Génova	Criteria CaixaCorp, S.A.	Director
Juan María Nin Génova	Caja de Ahorros y Pensiones de Barcelona	General Manager

Describe any significant relationships other than those contemplated in the previous section between board members and significant shareholders and/or companies in their group:

Name of director	Name of significant shareholder	Description of relationship
Luis Fernando del Rivero Asensio	Sacyr Vallehermoso, S.A.	Indirect holder of 13.747% of the capital of Sacyr Vallehermoso, S.A. through Actividades Inmobiliarias y Agrícolas, S.A. and Rimefor Nuevo Milenio, S.A.
José Manuel Loureda Mantiñán	Sacyr Vallehermoso, S.A.	Indirect holder of 13.50% of the capital of Sacyr Vallehermoso, S.A. through Prilou, S.L. and Prilomi, S.L.
José Manuel Loureda Mantiñán	Sacyr Vallehermoso, S.A.	Representative of Prilou, S.L. in the position of Director of Sacyr Vallehermoso, S.A.
Juan Abelló Gallo	Sacyr Vallehermoso, S.A.	Indirect holder of 10.152% of the capital of Sacyr Vallehermoso, S.A.
Juan Abelló Gallo	Sacyr Vallehermoso, S.A.	Representative of Nueva Compañía de Inversiones, S.A. in the position of Vice-Chairman of Sacyr Vallehermoso, S.A.
Luis Carlos Croissier Batista	Sacyr Vallehermoso, S.A.	Director of Testa Inmuebles en Renta, S.A.

B.1.18 Indicate whether any modifications have been made during the year to the Regulations of the Board of Directors:

Yes No

Description of modifications

B.1.19 Describe the procedures for appointment, re-election, assessment and removal of directors. Indicate the competent bodies, the formalities and the criteria to be followed in each of these procedures.

Appointment

Board members are appointed by the General Meeting, without prejudice to the right of the Board to nominate shareholders to fill any vacancies that arise, up to the next succeeding General Meeting.

No-one who is affected by the prohibitions established in section 124 of the Joint Stock Companies Act or who is incompatible under prevailing legislation, particularly under the Senior Central Government Positions (Incompatibilities) Act 5/2006 of 10 April and the Senior Positions in the Madrid Regional Government (Incompatibilities) Act 14/1995 of 21 April, may be a director or hold any senior position in the company.

Directors shall be persons who, apart from meeting the requirements stipulated for the position in the law and the Articles of Association, have recognised prestige and sufficient professional experience and expertise to perform their duties as such.

Within its powers of proposal to the General Meeting or appointment by cooptation, the Board may not propose as candidates or appoint as Directors any persons affected by any of the incompatibilities or prohibitions established in law, the Articles of Association or regulations or any persons, companies or entities in a situation of permanent conflict of interest with the company, including competitors of the company or their directors, executives or employees, or any persons related to or proposed by them.

Furthermore, persons may not be nominated or appointed as Independent outside directors if they:

- a) Have been employees or Executive Directors of Group companies, unless 3 or 5 years, respectively, have passed since the end of that relationship.
- b) Receive from the company, or its Group, any sum of money or benefit whatsoever other than Directors' compensation, unless such sum or benefit is insignificant.

Dividends and pension supplements received by Directors by virtue of a former professional or employment relationship shall not be counted for the purpose of this section, provided such supplements are unconditional and, therefore, the company paying them cannot suspend, modify or revoke them at its own discretion, unless the director in question has defaulted his obligations.

- c) Be or have been in the past 3 years a partner of the External Auditor or person responsible for the auditors' report during that time, of the Company or any other company in its Group.
- d) Be Executive Directors or Senior Executive of any other company in which any Executive Director or Senior Executive of the Company is an Outside Director.
- e) Have or have had in the past year any significant business relationship with the Company or with any company in its Group, directly or as a significant shareholder, Director or Senior Executive of an entity having or that has had such a relationship.

Business relationships shall be those of suppliers of goods or services, including financial services, or of advisers or consultants.

- f) Be significant shareholders, Executive Directors or Senior Executives of a company that receives, or has received in the past 3 years, significant donations from the Company or its Group.

Those who are mere sponsors or trustees of a Foundation receiving donations shall not be considered included in this group.

- g) Be the spouse, persons having equivalent emotional ties or relatives up to the second degree of an Executive Director or Senior Executive of the Company.
- h) Not have been proposed for appointment or re-election by the Nomination and Compensation Committee.
- i) Be in any of the cases contemplated in paragraphs a), e), f) or g) above in respect of any significant shareholder or shareholder represented on the Board. For the blood relationship contemplated in g), the limitation shall be applicable not only to the shareholder, but also to its Institutional Outside Directors in the Company.

Institutional Outside Directors who lose this status when the shareholder they represent sells its shares in the Company may only be re-elected as Independent Outside Directors when the shareholder they represented up to that time has sold all of its shares in the Company.

A Director who holds a shareholding interest in the Company may be appointed Independent Outside Director, provided he meets all the conditions established in this article and does not hold a significant interest.

The Nomination and Compensation Committee, consisting exclusively of Outside Directors, shall assess candidates' adequate knowledge, experience and expertise to sit on the Board; define, in consequence, the duties and qualifications required of candidates to fill any vacancy and assess the time and dedication required to adequately perform their duties

This Committee shall also ensure that whenever new vacancies are foreseen or on appointing new directors, the selection procedures are not affected by implicit bias that could entail some kind of discrimination and that women who meet the professional profile sought are deliberately sought and included among the potential candidates, informing the board on the initiatives taken in this respect and the results thereof.

Nominations for the appointment of directors submitted by the Board to the General Meeting and appointments made by cooptation must be approved by the Board (i) upon proposal of the Nomination and Compensation Committee, in the case of Independent Outside Directors, or (ii) subject to a report by said Committee for other directors.

Any Director affected by proposals for appointment, re-election or retirement shall abstain from participating in the discussions and voting of such matters. Voting on proposals for appointment, re-election or retirement shall be by secret ballot.

Re-election

Directors shall hold office for a maximum of four years, after which they shall be eligible for re-election for one or several periods with an equal maximum duration. Directors appointed by cooptation shall hold office up to the first General Meeting following their appointment, at which their appointment shall be subject to ratification.

The Nomination and Compensation Committee shall be responsible for assessing the quality of their work and dedication of the directors proposed during their previous term in office.

Proposals to the General Meeting for the re-election of Directors shall be approved by the Board (i) upon proposal of the Nomination and Compensation Committee, in the case of Independent Outside Directors, or (ii) subject to a report by said Committee for other directors.

Assessment

At least once a year, the Board of Directors shall assess its functioning and the quality and efficiency of its work. It shall also annually assess the work of its Committees, based on the reports they submit to it.

The Chairman shall organise and coordinate this regular assessment of the Board with the Chairmen of the Committees.

Retirement

Directors shall retire from office upon expiry of the term for which they were appointed and in all other cases stipulated in law, the Articles of Association and the Regulations of the Board of Directors.

The Board shall not propose the removal of any Independent Outside Director before the end of the period for which he was appointed, unless it has justified reasons for doing so, based on a report by the Nomination and Compensation Committee. In particular, such a proposal shall be justified if the Director (i) has defaulted the duties corresponding to his position; (ii) is in any of the situations described in section B.1.20 below; or (iii) falls into any of the circumstances described above, by virtue of which he may no longer be considered an Independent Outside Director.

The removal of Independent Outside Directors may also be proposed following takeover bids, mergers or other similar corporate operations causing a change in the capital structure of the Company, insofar as may be necessary to establish a reasonable balance between Institutional Outside Directors and Independent

Outside Directors, according to the ratio of capital represented by the former to the rest of the capital.

Directors shall also tender their resignations in any of the circumstances defined in the following section.

B.1.20 Indicate the events in which directors are obliged to retire.

Directors shall tender their resignations and step down from the Board, should the latter consider this appropriate, in the following events:

- a) If they fall into circumstances of incompatibility or prohibition contemplated in law, the Articles of Association or applicable regulations.
- b) If they receive a serious warning from the Nomination and Compensation Committee or the Audit and Control Committee for defaulting their obligations as directors.
- c) If, in the opinion of the board, in view of a report by the Nomination and Compensation Committee:
 - (i) Their remaining on the Board could jeopardise the interests of the company or adversely affect the functioning of the Board or the standing and reputation of the Company; or
 - (ii) If the reasons why they were appointed disappear. Directors shall find themselves in this position, particularly in the following cases:
 - Institutional Outside Directors, when the shareholder they represent or that nominated them directors transfers its entire shareholding interest. They shall also offer their resignation and, should the Board deem fit, step down from the Board, in the corresponding proportion, if the shareholder reduces its shareholding interest to a level requiring a reduction in the number of its Institutional Outside Directors.
 - Executive directors, when they cease to hold the executive positions outside the board to which their appointment as director was linked.

B.1.21 Explain whether the Chairman of the Board is the Chief Executive Officer of the company. If so, state what measures have been adopted to limit the risks of one single person accumulating powers:

Yes No

Measures for limiting risks
According to Article 25 of the Regulations of the Board of Directors of Repsol YPF, S.A., the Chairman of the Board shall be the Chief Executive Officer of the Company.
This article also stipulates that the Chairman of the Board shall act at all times in accordance with the decisions and criteria established by the General Shareholders' Meeting and the Board of Directors.

Article 4 of the Regulations of the Board of Directors reserves the following duties and powers to this corporate body:

“The Board shall approve the company strategy and the organisation needed to put it into practice, and oversee and ensure that Management meets the targets set and respects the company’s objects and social interest; approve acquisitions and disposals of assets which are, for whatsoever reason, considered especially important for the company or its subsidiaries; establish its own organisation and procedures and those of the Top Management and, in particular, amend these Regulations; exercise any powers that the General Meeting has granted to the Board -which the Board may delegate solely if expressly so indicated in the resolution adopted by the General Meeting- and any other powers granted to it in these regulations.”

Similarly, Article 5 of the Regulations of the Board reserves to the Board in full the following issues:

1. Submission of the Annual Accounts and Management Report of Repsol YPF, S.A. and consolidated companies, as well as any other proposals which must legally originate with the Company's administrators, to the Ordinary Shareholders Meeting.
2. The general strategies and policies of the Company, such as:
 - a) The Strategic Plan of the Group, management objectives and Annual Budgets;
 - b) The investment and financing policy;
 - c) The corporate governance policy;
 - d) The corporate social responsibility policy;
 - e) Top Management pay policy;
 - f) Risk management and control policy; and
 - g) Dividend policy, treasury stock policy and, especially, the limits thereon.
3. The following decisions:
 - a) Appointment of Directors in the event of vacancies, up to the next succeeding General Meeting, and acceptance of resignations tendered by Directors;
 - b) Appointment and removal of the Chairman, Vice-Chairmen, Secretary and Vice-Secretary of the Board and the Directors who are to sit on the different Committees contemplated in the Regulations of the Board, and the delegation of powers to any of the Board members, on the terms stipulated in the law and Articles of Association, and revocation of such powers;
 - c) Directors’ compensation and, in the case of executive directors, additional consideration for their management duties and other contract conditions.
4. The annual and half-year financial reports, which Repsol YPF, being a listed company, is obliged to publish.
5. The following investments and transactions, save when approval corresponds to the general meeting:
 - a) Incorporation of new companies and entities or initial acquisition of stakes in existing companies and entities whenever they entail a long-standing investment of more than six million euro for the Repsol YPF Group or are unrelated to the main activity of the company.

In other cases, the first paragraph of e) below will be applicable. By exception, decisions on investments in the incorporation of new companies and entities or initial acquisition of stakes in existing companies or entities provided for in sufficient detail in the Group’s annual budgets and strategic plan shall be left up to the Chairman.
 - b) Creation or acquisition of shares in special purpose vehicles whenever they go beyond the ordinary administration of the company.
 - c) Mergers, takeovers, spin-offs or concentrations of strategic importance of

interest for any of the major subsidiaries or investees in which any of the companies in the Repsol YPF group has a direct interest.

- d) Sale of shares in companies or other fixed assets with a value of over thirty million euro; the Delegate Committee shall approve such sales valued at between fifteen and thirty million euro, informing the board at the next meeting of all sales authorised.
- e) Approval of investment projects with a value of over thirty million euro; the Delegate Committee shall approve projects valued at between fifteen and thirty million euro, informing the Board at the next meeting of all investments approved.

By exception, the Chairman shall decide, after discussion by the management committee if necessary, whether to approve the following investment projects

- Those involving the prospecting or working of oil fields in fulfilment of commitments deriving from the corresponding contracts, concessions or licences.
- Those performed in fulfilment of legal provisions binding on the company concerned, concerning environmental protection, safety of installations, product specifications or similar.
- Those provided for in sufficient detail in the group's annual budgets and strategic plan.

In these cases, the Chairman shall report on the approval of these investments to the Board or Delegate Committee, depending on their values and as established in the first paragraph of this point e), wherever possible before commencement of the respective projects.

- f) Notes, debentures or other issues made by Repsol YPF, S.A. or its majority-owned or controlled subsidiaries.
- g) Granting of guarantees to secure the obligations of entities not controlled by the group.
- h) Assignment of rights over the trade name and trade marks, and over any other patents, technology and any form of industrial or intellectual property of economic importance belonging to Repsol YPF, S.A. or group companies.
- i) Creation, investment and supervision of the management of employee pension schemes and any other commitments to employees involving long-term financial responsibilities for the Company.
- j) Signing of long-term commercial, industrial or financial agreements of strategic importance for the Repsol YPF Group.

- 6. Any other business or matter reserved in these Regulations for approval by the full Board.

The chairman, or otherwise the vice-chairmen, shall implement the resolutions adopted by the board in accordance with this article, report on any authorisation or approval given where appropriate or issue instructions to carry out the actions required by the resolutions adopted.

Should circumstances so require, the powers of the Board contemplated in 3c), 4 and 5 above may be exercised by the Delegate Committee and subsequently ratified by the full Board.

Apart from all this, the Chairman of the Board of Directors shall receive reports and proposals from the Audit and Control Committee, the Nomination and Compensation Committee and the Strategy, Investment and Corporate Social Responsibility Committee, on matters within their respective competence. For greater guarantee, all the members of these

Committees shall be outside directors.
--

Indicate and, if appropriate, explain whether rules have been established to enable one of the independent directors to request the calling of the Board or the inclusion of new items on the agenda, to coordinate and echo the concerns of outside directors and to direct the assessment by the Board of Directors:

Yes No

B.1.22 Are special majorities differing from those stipulated in law required for any type of decision?:

Yes No

Explain how resolutions are adopted on the Board, indicating at least the quorum and the majorities required for adopting resolutions:

B.1.23 Are there any specific requirements, other than those established for directors, to be appointed Chairman?

Yes No

B.1.24 Indicate whether the Chairman has casting vote:

Yes No

Matters in which there is a casting vote

According to Article 36 of the Articles of Association, save where greater majorities have been specifically established, resolutions of the Board shall be approved by the absolute majority of directors attending, and in the event of a tie, the Chairman or acting chairman shall have the casting vote.

B.1.25 Indicate whether the Articles of Association or the board regulations establish any age limit for directors:

Yes No

Age limit Chairman

Age limit managing director Age limit director

B.1.26 Indicate whether the Articles of Association or the board regulations establish any limit on the term of office for independent directors:

Yes No

Maximum term of office	<input type="text" value="0"/>
------------------------	--------------------------------

B.1.27 If there are few or no female directors, explain why and what actions have been taken to remedy this situation.

Explanation of reasons and actions
<p>The appointment of all the Board members has been made objectively, taking account the prestige, expertise and professional experience required to perform their duties, and without any kind of discrimination.</p> <p>Additionally, on 19 December 2007, the Board of Directors of Repsol YPF, S.A. approved a new consolidated text of its Regulations, which, among other matters, assigned to the Nomination and Compensation Committee the duty of assessing the necessary knowledge, expertise and experience of the Board, defining in consequence the duties and qualifications required of the candidates for filling each vacancy and assessing the time and dedication required to adequately perform their duties.</p> <p>Furthermore, Article 33 of the Regulations of the Board of Directors expressly provides that the Nomination and Compensation Committee ensure that whenever new vacancies are foreseen or on appointing new directors, the selection procedures are not affected by implicit bias that could entail some kind of discrimination and that women who meet the professional profile sought are deliberately sought and included among the potential candidates, informing the board on the initiatives taken in this respect and the results thereof.</p>

In particular, state whether the Nomination and Compensation Committee has established procedures to ensure that the selection procedures are not affected by implicit bias that could hamper the selection of female directors and that women with the required profile are deliberately included among the candidates:

Yes No

Principal procedures

B.1.28 Indicate whether there are any formal processes for proxy voting in the board of directors. If so, briefly describe these.

Without prejudice to the directors' duty to attend the meetings of the bodies they belong to or, if they are unable for justified reasons to attend the meetings to which they have been called, to issue the appropriate instructions to the director who is to represent them, if any, each Board member may grant a proxy to another member, with no limit on the number of proxies that may be held by any director for attendance of Board meetings.

Absent directors may grant proxies by any written means, including telegram, telex or telefax addressed to the Chairman or Secretary of the Board.

B.1.29 State the number of meetings held by the Board of Directors during the year, indicating, if appropriate, how many times the Board has met without the Chairman:

Number of Board meetings	11
Number of Board meetings held without the Chairman	0

Number of meetings held by the different Committees of the Board:

Number of meetings of the Delegate Committee	5
Number of meetings of the Audit Committee	9

Number of meetings of the Nomination and Compensation Committee	3
---	---

B.1.30 Indicate the number of meetings held by the Board of Directors during the year without the attendance of all its members, counting as non-attendance any proxies made without specific instructions:

Number of non-attendances by directors during the year	1
Non-attendances / total votes during the year (%)	0,568

B.1.31 Indicate whether the individual and consolidated annual accounts presented for Board for approval are previously certified:

Yes No

If appropriate, name the person(s) who certify the individual or consolidated annual accounts of the company before they are approved by the Board:

Name	Position
Antonio Brufau Niubó	Chairman
Fernando Ramírez Mazarredo	Chief Financial Officer

B.1.32 Explain the mechanisms, if any, established by the Board to avoid a qualified auditors' report on the individual and consolidated accounts laid before the General Meeting.

The Audit and Control Committee, set up on 27 February 1995, is intended to support the Board in its supervisory duties, through regular checking of the preparation of economic and financial reporting, executive controls and the independence of the external auditors, as well as supervising the internal audit department, and checking compliance with all the legal provisions and internal regulations applicable to the company.

This Committee has the following duties, among others:

- Supervise the integrity and process of preparing the financial information on the company and its group, ensuring compliance with all requirements, adequate definition of the consolidated group and correct application of the accounting principles.
- Regularly check the internal control and risk management systems, ensuring that the principal risks are identified, handled and reported on adequately.
- Prior to their submission to the board, analyse the financial statements of the company and its consolidated group included in the annual, half-year and quarterly reports and any other financial information that the company is obliged to publish regularly by virtue of being a listed company, with the necessary requirements to ensure that they are correct, reliable, adequate and clear. For this purpose it shall have all the necessary information and such degree of aggregation as it may deem fit, assisted as necessary by the top management of the group, particularly its financial management and the company's auditor. It shall, in particular, see that the annual accounts that are to be submitted to the board are certified by the Chairman, the Managing Director(s), if any, and the Chief Finance Officer (CFO) pursuant to the

internal or external regulations applicable from time to time.

- Regularly receive information from the external auditors on the audit plan and results of their work, and check that the executives heed their recommendations.
- Regularly require the auditors, at least one a year, to assess the quality of the group's internal control procedures.
- Be informed of any situations requiring adjustments that may be detected during the work of the external auditors whenever they are significant, considering this to mean any situations which, per se or in combination with others, may cause a material impact or damage to the net worth, results or reputation of the group. This consideration shall be left to the discretion of the external auditors, who shall, in case of doubt, opt for notification. The Chairman of the Committee shall be notified accordingly as soon as the auditors become aware of the situation in question.
- Oversee the degree of fulfilment by the audited units of the corrective measures recommended by the internal audit department in previous audits.

The committee shall be informed of any significant irregularities, anomalies or defaults detected by the internal audit department in the course of its work.

For this purpose, the members of this Committee shall have the necessary experience, capacity and dedication to perform their duties. Moreover, the Chairman shall have experience in business management and a working knowledge of accounting procedures, and at least one of the members shall have the financial experience that may be required by the regulatory bodies of the stock markets on which the stocks or shares of the company are listed.

B.1.33 Is the Secretary of the Board a Director?

Yes No

B.1.34 Explain the procedures for appointment and removal of the Secretary of the Board, indicating whether a report is issued by the Nomination Committee and whether they are approved by the full Board.

Procedure for appointment and removal	
As established in Article 42 of the Articles of Association, the Board chooses its Secretary and Vice-Secretary, if any, who may or may not be Directors.	
Moreover, pursuant to Articles 5 and 33 of the Regulations of the Board of Directors, the Board shall appoint or remove its Secretary and Vice-Secretary, subject to a report by the Nomination and Compensation Committee.	

Does the Nomination Committee issue a report on the appointment?	YES
Does the Nomination Committee issue a report on the removal?	YES
Does the full Board approve the appointment?	YES
Does the full Board approve the removal?	YES

Is the Secretary of the Board commissioned especially to see that the good governance recommendations are heeded?

Yes No

Remarks
Article 42 of the Articles of Association establishes that the Secretary will ensure that the Board actions comply in form and substance with the law and that the company's procedures and rules of governance are respected.
Furthermore, in pursuance of Article 27 of the Regulations of the Board of Directors, the Secretary of the Board is commissioned to ensure compliance with any provisions issued by regulatory bodies and heeding of their recommendations, if any, and to ensure that the corporate governance principles of the company are observed.

B.1.35 Describe any mechanisms established by the company to preserve the independence of the auditor, financial analysts, investment banks and rating agencies.

One of the powers of the Audit and Control Committee contemplated in Article 39 of the Articles of Association is that of receiving information on any issues that may jeopardise the independence of the external auditors.

In development of this provision of the Articles of Association, the Regulations of the Audit and Control Committee establish, as one of its duties, ensuring the independence of the External Auditors, in two ways:

- a) Avoiding any factors that may compromise the warnings, opinions and recommendations of the Auditors, and
- b) Establishing and overseeing any incompatibilities between auditing and consultancy services and any others, the limits on concentration of the auditor's business and, in general, all other rules established to guarantee the independence of the auditor.

According to these duties, in 2003 the Audit and Control Committee agreed on a procedure to approve previously all the services, auditing or otherwise, provided by the External Auditor, whatever their extent, scope and nature. This procedure is regulated in an Internal Rule mandatory for the whole of the Repsol YPF Group.

Furthermore, Repsol YPF Group has the Investor Relations Division, framed within the Chief Financial Officer, whose responsibilities include ensuring that the information supplied by the Company to the market (financial analysts and investment banks, amount other) is transmitted fairly, commensurate and in useful time and, according with the Repsol YPF Group Internal Conduct Regulations Regarding the Securities Market, that such information is accurate, clear, complete and, when required by the nature of the information, quantified, and shall by no means be misleading or confusing.

B.1.36 State whether the Company has changed its external auditor during the year. If so, name the outgoing and incoming auditors:

Yes No

Outgoing auditor	Incoming auditor

Did the Company have any disagreements with the outgoing auditor? If so, explain what they consisted of:

Yes No

B.1.37 State whether the firm of auditors does any work for the Company and/or its Group other than standard audit work and if so, declare the amount of the fees received for such work and the percentage it represents of the fees invoiced to the company and/or its group:

Yes No

	Company	Group	Total
Cost of work other than auditing (thousands of euro)	292	515	807
Cost of work other than auditing / Total amount invoiced by the auditors (%)	8.630	10.240	9.590

B.1.38 State whether the auditors' report on the Annual Accounts of the previous year contains any qualifications. If so, indicate the reasons given by the Chairman of the Audit Committee to explain the contents and scope of those qualifications.

Yes No

B.1.39 State the number of years in succession that the current firm of auditors has been auditing the annual accounts of the company and/or its group. Indicate the ratio of the number of years audited by the current auditors to the total number of years that the annual accounts have been audited:

	Company	Group
Number of years in succession	18	18

	Company	Group
Number of years audited by current auditors / No. years that the company has been audited (%)	100	100

B.1.40 Indicate the company board members' shareholdings, reported to the company, in companies engaging in the same or similar activities as those within the company's or group's scope of business. Indicate their positions or duties in these companies:

Name of director	Name of company	% stake	Position or duties
Antonio Brufau Niubó	Gas Natural SDG, S.A.	0.007	Vice-Chairman
Juan María Nin Génova	Gas Natural SDG, S.A.	0.000	Director

Henri Philippe Reichstul	Ashmore Energy International - Houston	0.000	Director
Henri Philippe Reichstul	Brenco - Companhia Brasileira de Energia Renovável	0.000	Chairman
Luis Suárez de Lezo Mantilla	Gas Natural SDG, S.A.	0.002	-
Luis Suárez de Lezo Mantilla	Compañía Logística de Hidrocarburos, S.A. (CLH)	0.000	Director
Luis Suárez de Lezo Mantilla	Repsol - Gas Natural LNG, S.L.	0.000	Director

B.1.41 Indicate, with details if appropriate, whether there is an established procedure for directors to receive external advice:

Yes No

Details of procedure
<p>The Regulations of the Board of Repsol YPF, S.A. expressly recognise the directors' right to advisory services. Article 23 provides as follows:</p> <ul style="list-style-type: none"> - The Directors shall likewise have the power to propose to the Board, by majority vote, the contracting at the Company's expense of legal advisers, accountants, technical, financial, and commercial experts, and experts of any other kind they consider necessary to the Company's interests, to provide assistance in the performance of the Directors' functions in regard to concrete problems of some magnitude and complexity relating to their positions. - Said proposals must be submitted to the Chairman of the Company through the Secretary of the Board. The Board of Directors may veto their approval on the grounds that they are unnecessary to the performance of the assigned functions, or that the number is disproportionate to the importance of the problem and to the Company's assets and income, or that the technical assistance in question could be adequately provided by experts within the Company. <p>Furthermore, the Regulations of the Board of Directors establish that the Audit and Control Committee, the Nomination and Compensation Committee and the Strategy, Investment and Corporate Social Responsibility Committee may obtain counselling from lawyers or other independent professionals, in which case the Secretary of the Board shall, at the request of the Chairman of the Committee, take whatever action may be necessary to engage the services of such lawyers or other professionals, which shall be provided directly to the corresponding Committee.</p>

B.1.42 Indicate, with details if appropriate, whether there is an established procedure for directors to obtain sufficiently in advance any information they may need to prepare the meetings of the governing bodies:

Yes No

Details of procedure
<p>The Regulations of the Board of Directors of Repsol YPF, S.A. establish that the notice of call to Board meetings shall be sent to each director at least 48 hours prior to the date specified for the meeting, and shall include the agenda. The minutes of the previous meeting shall be enclosed, regardless of whether they have been approved, and any information considered necessary and that is available.</p>

The Regulations of the Board of Directors of Repsol YPF, S.A. contemplate procedures to ensure that directors have the necessary information sufficiently in advance to prepare Board meetings. In this regard, Article 23 provides as follows:

- The Directors shall have access to all the Company's services and may obtain, with the broadest possible powers, the information and advising they need on any aspect of the Company provided they request it in connection with the performance of their functions. The right to information extends to the subsidiaries, whether national or foreign, and shall be channelled through the Chairman or the Secretary of the Board of Directors or of the appropriate Board Committee, who shall respond to Directors' requests and directly furnish them the information, offering them access to appropriate sources or taking all necessary measures to answer questions.

B.1.43 Indicate, with details if appropriate, whether the company has established rules obliging directors to report and, if necessary, resign in any cases that could be detrimental to the company's reputation:

Yes No

Explain the rules
<p>According to Article 16 of the Regulations of the Board of Directors, Directors shall offer their resignation and, should the board deem fit, step down as directors if, in the opinion of the Board, in view of a report by the Nomination and Compensation Committee, their remaining on the board could jeopardise the interests of the company or adversely affect the functioning of the board or the standing and reputation of the company.</p> <p>In this regard, Article 17 of the Regulations of the Board of Directors provides that Directors shall notify the board as soon as possible and keep it up to date on any situations in which they may be involved and that could be detrimental to the standing and reputation of the company, to enable the board to assess the circumstances, particularly in pursuance of the preceding paragraph.</p>

B.1.44 Indicate whether the Company has been notified by any Board member that he has been sued or is being tried for any of the offences contemplated in Article 124 of the Joint Stock Companies Act:

Yes No

Indicate whether the Board has studied the case. If so, give a reasoned explanation of the decision made as to whether or not the director in question should remain in office.

Yes No

Decision made	Reasoned explanation

B.2. Board of Directors Committees

B.2.1 List all the committees of the Board of Directors and their members:

DELEGATE COMMITTEE

Name	Position	Type
Antonio Brufau Niubó	Chairman	Executive

Luis Fernando del Rivero Asensio	Member	Institutional Outside
Isidro Fainé Casas	Member	Institutional Outside
Javier Echenique Landiribar	Member	Independent Outside
Antonio Hernández-Gil Álvarez Cienfuegos	Member	Independent Outside
Pemex Internacional España, S.A.,	Member	Institutional Outside
Henri Philippe Reichstul	Member	Independent Outside
Luis Suárez de Lezo Mantilla	Member & Secretary	Executive

Pemex Internacional España, S.A.	Chairman	Institutional Outside
Juan Abelló Gallo	Member	Institutional Outside
Luis Carlos Croissier Batista	Member	Independent Outside
José Manuel Loureda Mantiñán	Member	Institutional Outside
Juan María Nin Génova	Member	Institutional Outside

B.2.2 Indicate whether the following duties correspond to the Audit Committee:

Supervise the integrity and process of preparing the financial information on the company and its group, ensuring compliance with all requirements, adequate definition of the consolidated group and correct application of the accounting principles	YES
Regularly check the internal control and risk management systems, ensuring that the principal risks are identified, handled and reported on adequately	YES

Guarantee the independence and efficiency of the internal audit department; propose the selection, appointment, re-election and removal of the chief audit officer; propose the budget for this department; receive regular information on its activities; and check that the top management heeds the conclusions and recommendations of its reports	YES
Establish and oversee a mechanism whereby employees may report, confidentially and, if appropriate, anonymously, any potentially important irregularities, especially financial and accounting irregularities, that they may detect within the company	YES
Submit proposals to the Board for the selection, appointment, re-election and replacement of the external auditors and the terms and conditions of their engagement	YES
Regularly receive information from the external auditors on the audit plan and results of their work, and check that the executives heed their recommendations	YES
Guarantee the independence of the external auditors	YES
In the case of groups, encouraging the group auditors to audit the group companies.	YES

B.2.3 Describe the rules of organisation and procedure and the responsibilities attributed to each Committee.

Delegate Committee

The Delegate Committee consists of the Chairman of the Board and up to a maximum of seven directors from the three existing categories (executive, institutional and independent), endeavouring to maintain a similar proportion to that existing on the Board of Directors. Its members shall be appointed with a majority of at least two-thirds of the current Board members

All the powers of the Board are permanently delegated to the Delegate Committee, except those that may not be lawfully delegated and those considered as such by the Regulations of the Board of Directors.

The Chairman of the Delegate Committee shall be the Chairman of the Board and the Secretary shall be the Secretary of the Board, who may be assisted by the Vice-Secretary.

Whenever the business is sufficiently important, in the opinion of the Chairman or three members of the Delegate Committee, the resolutions adopted by the Delegate Committee shall be submitted to the full Board for ratification. The same shall be applicable in any business referred by the Board to be studied by the Delegate Committee, while reserving the ultimate decision thereon. In all other cases, the resolutions adopted by the Delegate Committee shall be valid and binding with no need for subsequent ratification by the Board.

At the end of the meeting, the Secretary issues the minutes of the resolutions adopted, that will be reported to the Board at the following full Board meeting, and makes available to the Board members a copy of the minutes. Five meetings

were held in 2008.

Audit and Control Committee

The Audit and Control Committee consists of at least three directors appointed by the Board for four years on the basis of their experience and expertise in accounting, auditing or risk management. Executive directors may not sit on this Committee.

This Committee, set up on 27 February 1995, supports the Board in its supervisory duties, through regular checking of the preparation of economic and financial reporting, executive controls, supervision of the systems for recording and controlling the company's hydrocarbon reserves, the internal audit department and the independence of the external auditors, as well as checking compliance with all the legal provisions and internal regulations applicable to the company. This Committee is competent to submit proposals to the Board regarding the appointment of external auditors, extension of their appointment, their removal and the terms of their engagement. It shall also inform the General Meeting, through its Chairman, on any issues raised by shareholders regarding matters within its competence.

Its duties shall also include knowing and guiding the company's environmental and safety policies and objectives and drawing up an Annual Report on its activities, on which it shall report to the Board.

The Committee shall appoint one of its members to be Chairman, who shall necessarily be an Independent Outside Director; the Secretary shall be the Secretary of the Board.

The Committee shall meet as often as necessary, in the opinion of the Chairman, to perform the duties commissioned to it, although an annual calendar of meetings shall be drawn up before the end of each year for the following year, as well as an Action Plan for each year, informing the Board accordingly. Meetings shall be called whenever so requested by any two of its members. Nine meetings were held in 2008.

The Chairman of the Committee shall regularly report to the Board on the actions taken by the Committee.

At least once a year, the Committee shall assess its functioning and the quality and efficiency of its work, reporting to the full Board.

The Secretary of the Committee shall issue minutes of the resolutions adopted at each meeting, which shall be made available to Board members.

Nomination and Compensation Committee

This Committee consists of no fewer than three directors appointed by the board for four years, taking account of the expertise, skills and experience of the directors and the duties of the committee.

This Committee, which was set up on 27 February 1995, has the duties of proposing and reporting to the Board on the selection, appointment, re-election and removal of Directors, Managing Director, Chairman, Vice-Chairman, Secretary, Vice-Secretary and the Directors who are to sit on the different Committees of the Board; proposing the Board compensation policy and, in the case of Executive Directors, the additional consideration for their management duties and other contract conditions; reporting on the appointment of Senior Executives of the Company and their general pay policy and incentives; reporting on the compliance by Directors of the corporate governance principles or the obligations established in the Articles of Association or the Regulations of the Board; and, in general, proposing and informing on any other business related with the above at the request of the Chairman or the Board of Directors.

The Chairman of this Committee shall be one of its members, who shall necessarily be an Independent Outside Director, and the Secretary shall be the Secretary of the Board.

The Committee shall meet whenever the Board or Chairman of the Board requests reports or proposals within the scope of its duties, and whenever called by the Chairman of the Committee, requested by two Committee members or when reports are required to be able to adopt the corresponding resolutions. Three meetings were held in 2008.

The Chairman of the Committee shall regularly report to the Board on the actions taken by the Committee.

At least once a year, the Committee shall assess its functioning and the quality and efficiency of its work, reporting to the full Board.

The Secretary of the Committee shall issue minutes of the resolutions adopted at each meeting, which shall be made available to Board members.

Strategy, Investment and Corporate Social Responsibility Committee

On December 2007, the Board of Directors of Repsol YPF, S.A. resolved, within the modification of its Regulations, to change the name of the Strategy, Investment and Competition Committee, set up on 25 September 2002, to Strategy, Investment and Corporate Social Responsibility Committee.

The strategy, investment and corporate social responsibility committee consists of no fewer than three directors appointed by the board, taking account of the expertise, skills and experience of the directors and the duties of the committee. The members of this Committee shall retire four years after their appointment.

This Committee has the duties of reporting on the principal highlights, landmarks and reviews of the group's strategic plan; major strategic decisions for the Repsol YPF Group; and investments or divestments in assets which, by virtue of their value or strategic nature, the Executive Chairman believes should be first considered by the Committee.

It must also be familiar with and steer the policy, objectives and guidelines of the Repsol YPF Group on Corporate Social Responsibility and inform the Board thereon; check and report on the Corporate Responsibility Report of the Repsol YPF Group before it is submitted to the Board; and, in general, perform any other duties related with the matters within its competence and requested by the Board or its Chairman.

One of the members of this Committee shall be appointed Chairman and the secretary shall be the Secretary of the Board.

The Committee shall meet with the established frequency or whenever called by its Chairman or requested by two of its members. Two meetings were held in 2008.

The Chairman of the Committee shall regularly report to the Board on the actions taken by the Committee.

At least once a year, the Committee shall assess its functioning and the quality and efficiency of its work, reporting to the full Board.

The Secretary of the Committee shall issue minutes of the resolutions adopted at each meeting, which shall be made available to Board members.

B.2.4 Indicate, where appropriate, the powers of advising, consultation and, where appropriate, delegations of each Committee:

Committee	Brief description
Delegate Committee	See B.2.3
Audit and Control Committee	See B.2.3
Nomination and Compensation Committee	See B.2.3
Strategy, Investment and Corporate Social Responsibility Committee	See B.2.3

B.2.5 Indicate the existence, if appropriate, of regulations of the board committees, where they are available for consultation and any modifications made during the year. State whether an annual report has been issued voluntarily on the activities of each Committee.

Audit and Control Committee

The internal regulation of the Audit and Control Committee is currently set out in the Articles of Association and the Regulations of the Board of Directors.

The Articles of Association and the Regulations of the Board of Directors are entered in the Madrid Trade Registry and accessible to the public through the company's web site (www.repsol.com).

The Audit and Control Committee has drawn up a Report of its activities during 2008.

Strategy, Investment and Corporate Social Responsibility Committee

The internal regulation of the Strategy, Investment and Corporate Social Responsibility Committee is currently set out in the Regulations of the Board of Directors.

The Regulations of the Board of Directors are entered in the Madrid Trade Registry and accessible to the public through the company's web site (www.repsol.com).

Nomination and Compensation Committee

The internal regulation of the Compensation Committee is currently set out in the Regulations of the Board of Directors.

The Regulations of the Board of Directors are entered in the Madrid Trade Registry and accessible to the public through the company's web site (www.repsol.com).

Delegate Committee

The internal regulation of the Delegate Committee is currently set out in the Articles of Association and the Regulations of the Board of Directors.

The Articles of Association and the Regulations of the Board of Directors are entered in the Madrid Trade Registry and accessible to the public through the company's web site (www.repsol.com).

B.2.6 Does the composition of the Delegate Committee reflect the participation on the Board of the different types of Director?

Yes No

C RELATED PARTY TRANSACTIONS

C.1 Indicate whether the full Board has reserved approval, subject to a favourable report by the Audit Committee or any other committee commissioned this task, of any transactions that the company may enter into with directors, significant shareholders or shareholders represented on the Board, or with persons related to them:

Yes No

C.2 List any significant transactions involving a transfer of resources or obligations between the company and/or companies in its group and significant shareholders of the company:

Name of significant shareholder	Name of company or group company	Nature of the relationship	Type of transaction	Amount (thousand euro)
Sacyr Vallehermoso, S.A.	Repsol YPF Group	Commercial	Services received	6,000

Sacyr Vallehermoso, S.A.	Repsol YPF Group	Commercial	Purchase of tangible assets, intangible or other assets	9,000
Sacyr Vallehermoso, S.A.	Repsol YPF Group	Contractual	Leases	1,000
Sacyr Vallehermoso, S.A.	Repsol YPF Group	Corporate	Dividends and other distributed profits	244,000
Sacyr Vallehermoso, S.A.	Repsol YPF Group	Commercial	Services provided	2,000
Sacyr Vallehermoso, S.A.	Repsol YPF Group	Commercial	Other expenses	3,000
Sacyr Vallehermoso, S.A.	Repsol YPF Group	Commercial	Purchase of goods (finished or outstanding)	23,000
Caja de Ahorros y Pensiones de Barcelona	Repsol YPF Group	Commercial	Other incomes	1,000
Caja de Ahorros y Pensiones de Barcelona	Repsol YPF Group	Contractual	Leases	1,000
Caja de Ahorros y Pensiones de Barcelona	Repsol YPF Group	Contractual	Financing agreements: loans and capital contributions (borrower)	521,000
Caja de Ahorros y Pensiones de Barcelona	Repsol YPF Group	Commercial	Financial expenses	6,000
Caja de Ahorros y Pensiones de Barcelona	Repsol YPF Group	Contractual	Financing agreements: credits and capital contributions (lender)	59,000

Caja de Ahorros y Pensiones de Barcelona	Repsol YPF Group	Commercial	Financial incomes	4,000
Caja de Ahorros y Pensiones de Barcelona	Repsol YPF Group	Commercial	Services received	2,000
Caja de Ahorros y Pensiones de Barcelona	Repsol YPF Group	Contractual	Bonds and guarantees received	91,000
Caja de Ahorros y Pensiones de Barcelona	Repsol YPF Group	Contractual	Bonds and guarantees provided	12,000
Caja de Ahorros y	Repsol YPF	Commercial	Services provided	4,000

Pensiones de Barcelona	Group			
Petroleos Mexicanos	Repsol YPF Group	Commercial	Purchase of goods (finish or outstanding)	2,109,000
Petroleos Mexicanos	Repsol YPF Group	Contractual	Commitments acquired	95,000
Petroleos Mexicanos	Repsol YPF Group	Commercial	Other expenses	1,000
Petroleos Mexicanos	Repsol YPF Group	Commercial	Financial incomes	6,000
Petroleos Mexicanos	Repsol YPF Group	Commercial	Services provided	26,000
Petroleos Mexicanos	Repsol YPF Group	Corporate	Dividends and other distributed profits	51,000
Petroleos Mexicanos	Repsol YPF Group	Commercial	Other incomes	4,000
Petroleos Mexicanos	Repsol YPF Group	Commercial	Sale of goods (finish or outstanding)	443,000

- C.3 List any significant transactions involving a transfer of resources or obligations between the company and/or companies in its group and the directors or executives of the company:**

Name of director or executive	Name of company or group company	Nature of the transaction	Type of transaction	Amount (thousand euro)
Company Executives	Repsol YPF Group	Contractual	Financing Agreements : credits and capital contributions (lender)	931

- C.4 List any significant transactions with other companies in the group that are not eliminated in the consolidated financial statements and which do not, by virtue of their object or terms, correspond to the normal business of the Company:**

- C.5 Indicate whether any company directors have been in any conflicts of interest during the year, pursuant to Article 127 ter of the Joint Stock Companies Act.**

Yes No

- C.6 Explain the mechanisms established to detect and resolve possible conflicts of interests between the company and/or its group, and its directors, executives or significant shareholders.**

The Regulations of the Board require directors to avoid any direct or indirect conflicts of interest with the Company's interests, notifying the Board whenever any such conflicts inevitably exist. In the event of a conflict, the director affected shall abstain in the discussion and decision dealing with the issues giving rise to the conflict.

Any directors affected by proposals for appointment, re-election or removal shall abstain in the discussions and votings dealing with those matters. Ballots shall be secret.

Directors shall inform the Nomination and Compensation Committee of any other professional obligations they may have and any material change in their professional situation, as well as any affecting the nature or condition by virtue of which they have been appointed Director.

Finally, directors shall tender their resignations and step down from the Board, should the latter deem fit, whenever they incur in any of the events of incompatibility or disqualification established in law, the Articles of Association or Regulations.

In this regard, Articles 19-22 of the Regulations of the Board of Directors set out the obligations to be met by Directors in respect of non-competition, use of corporate information and assets and taking advantage of business opportunities, and the requirements established in respect of related party transactions between the Company and the Directors, significant shareholders represented on the Board or persons related to them.

Similarly, the Repsol YPF Group Internal Conduct Regulations regarding the Securities Market, applicable to directors, top management and the executives of certain departments and divisions with access to privileged information of the company or its group and who carry out tasks related with the Securities Market, contemplate the preclusion and solving of conflicts of interest in Articles 8.3. and 8.4., as follows:

"To control potential conflicts of interest, the executives and employees of Repsol YPF Group must inform the person responsible for their respective Area, sufficiently in advance for timely decisions to be made and before conducting the transaction or concluding the business in question, of any situation which may potentially involve, and in each concrete circumstance that actually involves, the appearance of a conflict of interest with Repsol YPF, S.A. or any company of its Group.

If the person affected is a member of the Board of Directors, the conflict must be reported to the Board of Directors, which, if it considers fit, will apply for the opinion of the Audit and Control Committee.

In case of a doubt about the existence of a conflict of interest, the executives and employees of Repsol YPF Group must act prudently and inform the person responsible for their respective Area or the Board of Directors, as the case may be, about the specific circumstances of the case, for the appropriate consideration of the situation by the latter.

The general principle to be considered in the resolution of all kind of conflicts of interest is abstention. Therefore, persons subject to conflicts of interest must refrain from making decisions that could affect the individuals or legal entities with which said conflict is posed. They must likewise refrain from exerting any influence on said decision-making and must act with full loyalty to the Repsol YPF Group in all cases. In any situation of conflict of interest between the executives and employees of Repsol YPF Group and Repsol YPF or any company within the Group, the former must act in all moments with loyalty to the Repsol YPF Group, giving preference to the interest of the Repsol YPF Group over its own interests."

Finally, the Ethics and Conduct Regulation for Repsol YPF Employees stipulates in Article 6.4., with regard to executives, that "Repsol YPF recognizes and respects the financial

and business activities of its employees that are not directly related to the activities carried out for the Company provided that these are legal and do not represent a conflict of interests with their responsibilities as Repsol YPF employees.

Repsol YPF employees should avoid any situation that could give rise to any conflict between their personal interests and those of the Company and will abstain from representing the Company, taking part in or influencing decisions in any situation in which, the employee or any close relative has a personal interest. Employees should always act in accordance with their responsibilities, loyally and defending the interests of Repsol YPF.

Furthermore, employees may not undertake any tasks, jobs, or render any services in the benefit of companies in the sector or those that engage in activities that may, directly or indirectly, compete, or could compete, with those of Repsol YPF.

Repsol YPF employees, who could be affected by a conflict of interests, will inform the head of their Area before undertaking any transaction or closing any business deal, in order to make the appropriate decisions in each specific case thereby avoiding compromising their impartial job performance."

C.7 Are more than one of the Group companies listed in Spain?

Yes No

Name the subsidiaries listed in Spain:

D RISK CONTROL SYSTEMS

D.1 General description of the risk policy of the company and/or its group, including details and assessment of the risks covered by the system, together with justification that those systems adapt to the profile of each type of risk.

Repsol YPF operates in numerous countries, under numerous regulatory frameworks and in all areas of the oil and gas business. Consequently, Repsol YPF is exposed to:

- market risks, deriving from the price volatility of oil, natural gas and by-products, exchange rates and interest rates,
- counterparty risks, deriving from financial arrangements and commercial commitments with suppliers and clients,
- liquidity and solvency risks,
- legal and regulatory risks (including risks of changes in the tax regimes, sectorial and environmental regulations, exchange legislation, production constraints, limits on exports, etc.),

The company considers the most important risks to be those that could hamper it in achieving the goals established in its Strategic Plan, particularly the goal of maintaining its financial flexibility and long-term solvency. Repsol YPF manages its assets and businesses prudently. Nevertheless, many of the risks mentioned above are inherent in the activities it performs, are beyond the control of the company and cannot be entirely eliminated.

Repsol YPF has an organisation, procedures and systems that enable it to identify measure, assess, prioritize and control the risks to which the group is exposed, and decide to what extent those risks are to be assumed, managed, reduced or avoided. Risk analysis is an integral element in the group's decision-making processes, both in the centralised governing bodies and in the management of the different businesses, paying special attention in all cases to the existence of several risks at the same time or the effects of diversification that may occur on an aggregate level.

The following independent analysis, supervision and control units specialise in different areas of risk management exist:

- * Internal Audit Unit, focusing on the permanent assessment and improvement of existing controls to ensure that potential risks of whatsoever nature (control, business, reputation, etc...) that could hamper achievement of the strategic goals of the Repsol YPF Group are identified, measured and controlled at all times.
- * Credit Risk Management Unit, responsible for:
 - monitoring and controlling the Group's credit risk,
 - developing the corporate risk policy, consisting of structural rules and procedures linked to the Group's financial and business strategy,
 - coordinating the development of specific rules and regulations concerning market and credit risks of the different business units and corporate areas of the Group and establishing methods for measuring and assessing such risks according to the best practices,
 - analysing and controlling the credit risk generated by the Group's activities, establishing individual third-party credit risk limits,
 - defining the criteria regarding the funding and use of provisions for insolvency, refinancing and judicial claiming of debts.
- * Market Middle Office Unit, responsible for:
 - calculating, monitoring, controlling and assessing at market the liquidity positions, foreign exchange and interest rate risk positions,
 - measuring of the risk position and analysis of sensitivity of the result and the value of products and instruments traded for different risk factors,
 - developing and validation of the methodology for measuring and assessing instruments and positions according to best market practices.
- * Risk Monitoring Unit, responsible for:
 - coordinating the development of specific rules and regulations concerning commodities price risk of the different business units and corporate areas of the Group, and establishing methods for measuring and assessing these risks according to best practices,
 - monitoring and controlling Group's commodities price risk.
- * Insurance Unit, responsible for:

- analysing and assessing any accidental risks that could affect the assets and activities of the Group,
 - defining the most efficient financing policy for these risks, through an optimum combination of self-insurance and risk transfer measures,
 - taking out such insurance cover as may be considered convenient in each case,
 - negotiating the compensations deriving from insured accidents.
- * Safety and Environment Unit, responsible for:
- defining and monitoring the company's safety and environmental strategic policies and objectives,
 - establishing the corporate rules and regulations (policy, rules, procedures, manuals and guidelines) on safety and environment throughout the company worldwide and the mechanisms required to publicise them,
 - identifying and leading corporate safety and environment projects, counselling business units in their implementation and monitoring the progress,
 - establishing key indicators of performance, monitoring the company's performance in safety and environmental matters and proposing actions for improvement,
 - promoting the creation of working groups and exchanging of the best practices in safety and the environment,
 - coordinating safety and environmental audits and following them up.
- * Corporate Responsibility Unit, within the Corporate Responsibility and Institutional Affairs Division, responsible for directing and coordinating with the relevant organisational units the management and assessment of corporate reputation risks and values, according to the guidelines and policies of the Corporate Reputation Committee and the Corporate Division Communication and Head of the Chairman's Office, to guarantee application of the Repsol YPF corporate responsibility and reputation model and strategy.
- * Financial Reporting Internal Control Unit, responsible for monitoring and management of the internal economic and financial reporting control system, introduced to comply with the requirements of section 404 of the Sarbanes-Oxley Act.

The system applied by Repsol YPF is based on the conceptual framework defined in the COSO model.

- * Reserves Control Unit, which aims to make sure that the estimates of Repsol YPF proved reserves comply with prevailing legislation on the different Securities Markets on which the company is listed. It also makes internal audits of reserves, coordinates certification of reserves by external auditors and assesses the quality controls on reserve reporting, making the appropriate suggestions within a process of continuous improvement and application of best practices.

There are also several functional and business committees responsible for the oversight of the risk management activities performed within their respective areas of responsibility.

D.2 Indicate whether any of the risks (operating, technological, financial, legal, reputational, tax...) affecting the company and/or its group have actually materialised during the year:

Yes No

If so, indicate the underlying circumstances and whether the established control systems worked adequately.

D.3 Is there a Committee or other governing body responsible for establishing and supervising the control systems?

Yes No

If so, state its duties.

Name of Committee or governing body	Description of duties
Audit and Control Committee	<p>The main duty of the Audit and Control Committee, as advisory body to the Board of Directors, is to support the Board in its oversight duties, among other actions by regularly checking the risk management and internal control systems, to ensure that the principal risks are identified, managed and adequately publicised.</p> <p>With this aim, the Audit and Control Committee monitors the development of the Annual Corporate Audit Plan, drawn up to assess and oversee the correct functioning and adequacy of the established control systems, to ensure that they are sufficient to identify, manage and/or mitigate the operating, financial and reputation risks of the Repsol YPF Group. The Corporate Audit Department informs the Committee on any material irregularities, anomalies or defaults of the audited units reporting to the Board whenever they are considered to represent a significant risk for the Group.</p> <p>Moreover, the Audit and Control Committee ensures that the procedures and systems for recording and internal control of the measuring, assessment, classification and entering in the accounts of the Group's hydrocarbon reserves are sufficient, adequate and efficient.</p> <p>Finally, the Committee is informed by the corresponding divisions of the company and steers the environmental and safety policies, guidelines and objectives of the Repsol YPF Group.</p>

D.4 Identification and description of processes for compliance with the different regulations affecting the company and/or its group.

The Audit and Control Committee supports the Board in its oversight duties, watching over the compliance with all legal and internal laws and regulations applicable to the company. It oversees compliance with applicable national and international rules and regulations on market conduct and data protection and ensures that the Internal Codes of Conduct and Professional Ethics and of Market Conduct applicable to Group employees meet all the legal requirements and are adequate for the company.

The Audit and Control Committee also supervises the preparation and integrity of the financial information on the Company and the Group, checking compliance with the applicable legal requirements and correct application of the accounting principles.

E GENERAL MEETING

E.1 Indicate whether there are any differences between the quorums for General Meetings and the minimums stipulated in the Joint Stock Companies Act and, if appropriate, explain.

Yes No

	% quorum different from that established in Art. 102 Joint Stock Companies Act for general cases	% quorum different from that established in Art. 103 Joint Stock Companies Act for the special cases of Art. 103
Quorum required on first call	0	0
Quorum required on second call	0	0

E.2 Explain whether there are any differences between the system used for adopting corporate resolutions and the system stipulated in the Joint Stock Companies Act, and if so give details:

Yes No

Describe how it differs from the system contemplated in the Joint Stock Companies Act.

Describe the differences
As an exception to the provisions of the Joint Stock Companies Act, the maximum number of votes that may be cast at a general meeting by any one shareholder, or by companies belonging to the same Group, is 10% of the subscribed voting capital. Any resolution to change that limit shall require a majority of 75% of the voting capital attending or represented at the general meeting, on first or second call, and the same majority will be required to modify the majority stipulated to amend that limit.

E.3 Describe any shareholders' rights in respect of General Meetings differing from those established in the Joint Stock Companies Act.

According to Article 23 of the Articles of Association, general meetings may be attended by shareholders holding any number of shares, provided they have been recorded in the corresponding accounting record five days prior to the date of the meeting and the shareholder has obtained the attendance card proving that the above requirements have

been met. Attendance cards shall be issued by the institutions indicated in law and shall be non-transferable.

The Regulations of the Board of Directors of Repsol YPF S.A. provide as follows regarding shareholders' right to participate and information:

"6.3. The Board of Directors shall take all the measures it sees fit to ensure that the Shareholders Meeting performs its proper functions. To that end it shall place all the legally demandable information, as well as information which is not legally required but is of interest to the Shareholders and can reasonably be furnished, at the Shareholders' disposal prior to the Shareholders Meeting. It shall likewise respond with the greatest possible diligence to information requests and questions from shareholders prior to the Shareholders Meetings or while they are underway.

6.4. The information given to Shareholders and other financial market participants by the Company shall be complete, accurate, fair, symmetrical, and timely.

To achieve maximum transparency and immediacy in the dissemination of information, the Company shall make use of the generally available procedures and technologies to which companies and private citizens have access. To that end, the Board of Directors shall intensify the use of the Company's Web page and determine the contents to be transmitted through that medium, which shall include among other documents the Articles of Association, the Board of Directors' Regulations, the quarterly and annual reports, the notices of Shareholders Meetings, their regulations and the resolutions or decisions adopted at the previous meeting, and any other information considered of interest."

Furthermore, pursuant to Article 5 of the Regulations of the General Shareholders Meeting, concerning shareholders' right to information and participation, the notice of call to General Meetings shall state *"the place and times at which shareholders may consult the documents to be laid before the general meeting and such other reports as may be required by law or decided by the board, without prejudice to the right of shareholders to request and receive, free of charge, copies of all the above-mentioned documents"*.

Article 5 of the Regulations of the General Shareholders Meeting also provides that *"in addition to the requirements stipulated in law or the Articles of Association, as from the date of publication of the notice of call to the general meeting, the company shall publish on its web site the text of all proposed resolutions submitted by the board in connection with the items on the agenda, including, with regard to proposals for the appointment of directors, the information contemplated in Article 47.13 of the Articles of Association ((i) professional and biographic profile, (ii) list of other boards they are on, (iii) indication of the type of director, indicating, in the case of institutional directors, the shareholder they represent or with which they have ties, (iv) date of first appointment as company directors, and subsequent appointments, and (v) company shares and options they hold).*

An exception may be made to this rule for proposals which the law and Articles of Association do not require to be made available to shareholders as from the notice of call, if the board considers there are just grounds for not doing so.

If a supplementary notice of call is published, the company shall thereafter publish on its web site the text of the proposals contained in that supplementary notice, provided they have been sent to the company."

Article 6.1. of the Regulations for the General Shareholders Meeting further provides that:

“Through the Shareholders’ Information Office of the Company’s web page, shareholders may at any time, upon entering proof of identification as such, raise any questions or make suggestions relating to the activities and interests of the Company and which they consider should be discussed at a General Shareholders’ Meeting.

Once a General Shareholders’ Meeting has been called and up to seven consecutive days before the date set for the meeting on first call, shareholders may utilize the same means to comment upon or make suggestions in writing regarding the proposals included on the Agenda thereof.

The Company's Departments will examine the shareholders’ questions, suggestions and comments, and the responses will be disclosed, grouped together as pertinent, on the Company web page or, if the Board of Directors considers it appropriate, they will be considered at the General Shareholders’ Meeting, even if they are not included on the Agenda.”

Apart from the foregoing and with a view to facilitating access by shareholders to the information on the company, Repsol set up the Shareholders’ Information Office mentioned above, offering shareholders a free call service and an e-mail address at which they may request whatever information they may require. Shareholders may also visit the Office, where they will receive personal attention.

E.4 Describe the measures adopted, if any, to encourage the participation of shareholders at General Meetings.

To encourage shareholders to participate in general meetings, Article 6 of the Regulations of the General Shareholders Meeting, establishes shareholders’ right to information and participation, indicating that they may raise any questions or make any suggestions in connection with the company’s activities or interests which they consider ought to be discussed by the General Meeting, through the Shareholders’ Information Office or the company’s web site (www.repsol.com).

Apart from these measures, which are expressly contemplated in the Repsol YPF, S.A. Rules of Corporate Governance, the company also encourages shareholders to participate in general meetings with the following measures:

- Publication of the notice of call sufficiently in advance in the media with the widest distribution, inserting a copy on the company’s web site (www.repsol.com) and sending copies to the stock exchanges on which its shares are listed and to the depositaries of its shares, so that they can issue the necessary attendance cards.
- Warning in the notice of call that the general meeting will be held on second call.
- Practices to encourage attendance, by delivering gifts and even, if appropriate, paying attendance premiums.
- Holding general meetings at a large-capacity location with ideal conditions for the procedure and following of the meeting, providing transport.
- Possibility of exercising or delegating the vote through distance means (post or electronic means), providing for shareholders:

- * A form prepared for postal votes on the company's web site and at the Shareholders' Information Office.
- * An application on the web site to exercise or delegate the vote by electronic means, for all shareholders having a recognised or advanced electronic signature based on a recognised, valid electronic certificate issued by the Spanish Public Certification Entity (CERES).
- Possibility of fractioning votes through the voting platform and delegation by post and electronic means.
- Assistance and personalized guidance for all shareholders who wish to participate through staff of the Shareholders' Information Office.
- Possibility of connecting to a live broadcast of the meeting through the company's web site (www.repsol.com).
- Publication through the company's web site (www.repsol.com) of the proposed resolutions corresponding to the items on the Agenda and the Board's report on each of the proposed resolutions to be laid before the General Meeting.

E.5 Indicate if the Chairman of the Board chairs the General Meeting. List any measures adopted to ensure the independence and correct operation of the General Meeting:

Yes No

Details of measures
<p>The Board traditionally requests, on its own initiative, the presence of a Notary to attend the General Meeting and issue minutes thereof.</p> <p>Consequently, neither the Chairman nor the Secretary of the General Meeting participate in the preparation of the minutes, for which a notary or other public attesting officer is engaged, with the consequent guarantee of neutrality for the shareholders.</p>

E.6 Indicate any modifications made during the year to the Regulations of the General Shareholders Meeting.

The Regulations of the General Shareholders Meeting, approved by the General Shareholders Meeting of Repsol YPF, S.A. on 4 April 2003, and amended by this governing body on 31 March 2004, 16 June 2006 and 9 May 2007, haven't been amended during the fiscal year 2008.

The Regulations of the General Shareholders Meeting may be consulted on the company's web site (www.repsol.com).

E.7 Give details of attendance of General Meetings held during the year:

Date General Meeting	Details of attendance				Total
	% attending in person	% attending by proxy	% Distance voting		
			Electronic vote	Others	
14-05-2008	0.045	69.413	0.006	0.120	69.584

E.8 Give a brief account of the resolutions adopted at the General Meetings held during the year and percentage of votes with which each resolution was approved.

Only one General Shareholders Meeting of Repsol YPF, S.A., the Annual General Meeting, was held during 2008, on 14 May 2008, at which the following resolutions were adopted with the majorities indicated below:

1. To approve the Annual Financial Statements and the Management Report of Repsol YPF, S.A., the Consolidated Annual Financial Statements and the Consolidated Management Report, for the fiscal year ended 31st December 2007, the proposal of application of its earnings and the management by the Board of Directors during said year.

Votes for 674,512,657 shares, votes against 20,024 shares, abstentions 220,068 shares.

2. To amend the second paragraph of Article 49 (Annual Accounts) of the Articles of Association.

The resulting text of the Articles of Association can be consulted on the company's web site (www.repsol.com).

Votes for 674,627,489 shares, votes against 33,615 shares, abstentions 91,645 shares.

- 3.1. To ratify the appointment carried out by the Board of Directors for co-opting in order to cover a vacancy arising since the last Ordinary General Shareholders' Meeting, of Mr. Isidre Fainé Casas, appointing him as Director of the Company.

Votes for 674,510,388 shares, votes against 156,925 shares, abstentions 85,436 shares.

- 3.2. To ratify the appointment carried out by the Board of Directors for co-opting in order to cover a vacancy arising since the last Ordinary General Shareholders' Meeting, of Mr. Juan María Nin Génova, appointing him as Director of the Company.

Votes for 674,298,211 shares, votes against 373,446 shares, abstentions 81,092 shares.

4. To re-elect as the Accounts Auditor of Repsol YPF, S.A. and of its Consolidated Group the company Deloitte, S.L. for the legally established period of one year. It is also entrusted with carrying out the other Audit services required by Law and needed by the Company until the next Ordinary General Shareholders' Meeting is held.

Votes for 674,534,112 shares, votes against 24,533 shares, abstentions 194,104 shares.

5. To authorize the Board of Directors for the derivative acquisition of shares of Repsol YPF, S.A., by sale, purchase, exchange or any other onerous legal business modality, directly or through controlled companies, up to a maximum number of shares, that added to those already own by Repsol YPF, S.A. and its subsidiaries, not exceeding 5% of the share capital and for a price or equivalent value that may

not be lower than the nominal value of the shares nor exceed the quoted price on the stock market.

The shares so acquired may be disbursed among the employees and directors of the Company and its Group or, if appropriate, used to satisfy the exercise of option rights that such persons may hold.

This authorisation, which is subject to the compliance of all other applicable legal requirements, shall be valid for 18 months, counted as from the date of the present General Shareholders Meeting, and leaves without effect the authorisation granted by the last Ordinary General Shareholders Meeting held on the 9th May 2007.

Votes for 674,548,664 shares, votes against 34,552 shares, abstentions 169,533 shares.

6. To delegate to the Board of Directors, as amply as required, including the power of delegating the powers received, all or in part, to the Delegate Committee, as many powers as required to supplement, develop, execute and rectify any of the resolutions adopted by the General Shareholders' Meeting. The power of rectification shall include the power to make as many amendments, modifications and additions as necessary or convenient as a consequence of objections or observations raised by the regulatory bodies of the securities markets, Stock Markets, Commercial Registry and any other public authority with powers concerning the resolutions adopted.

To delegate indistinctly to the Chairman of the Board of Directors and to the Secretary and Vice-Secretary of the Board those powers required to formalize the resolutions adopted by the General Shareholders' Meeting, and to register those subject to this requirement, in whole or in part, being able to draw up all kinds of public or private documents to this end, including those to supplement or rectify such resolutions.

Votes for 674,631,791 shares, votes against 24,786 shares, abstentions 96,172 shares.

E.9 State whether any restrictions are established in the Articles of Association requiring a minimum number of shares to attend General Meetings:

Yes No

Number of shares required to attend General Meetings	
--	--

E.10 Describe and justify the company's policies on proxy votes at General Meetings.

According to Article 8 of the Regulations of the General Shareholders Meeting, all shareholders entitled to attend may be represented at general meetings by another person, who need not be a shareholder. Proxies shall be granted in writing or by distance communication, especially for each general meeting.

For this purpose, apart from the possibility of sending proxies for attendance and voting at general meetings through the members of "Sociedad de Gestión de Sistemas de Registro, Compensación y Liquidación de Valores S.A." (Iberclear), shareholders

also have the Shareholders' Information Office, where they may deliver proxies by post or by hand, and another office opened exclusively for this purpose at the registered office, Paseo de la Castellana no. 278, where attendance cards may be received and the corresponding gifts are handed out.

An application is made available on the web site for electronic proxies, available for shareholders who have a recognised or advanced electronic signature based on a recognised, valid electronic certificate issued by the *Entidad Pública de Certificación Española* (CERES).

- E.11 Indicate whether the company is aware of the policies of institutional investors regarding their participation or otherwise in company decisions:**

Yes No

- E.12 Indicate the address and access to the corporate governance contents on the company's web site.**

The information on corporate governance, regulated in Act 26/2003 of 17 July, Order ECO/3722/2003 of 26 December, and the *Comisión Nacional del Mercado de Valores* (CNMV) Circular 1/2004 of 17 March, is published in the section "Shareholders and investors" on the company's web site (www.repsolypf.com).

F EXTENT OF COMPLIANCE WITH THE CORPORATE GOVERNANCE RECOMMENDATIONS

Indicate the degree of compliance by the company with the recommendations of the Unified Good Governance Code.

In the event of non-compliance with any recommendations, explain the recommendations, standards, practices or principles applied by the company.

- 1. The bylaws of listed companies should not place an upper limit on the votes that can be cast by a single shareholder, or impose other obstacles to the takeover of the company by means of share purchases on the market.**

See sections: A.9, B.1.22, B.1.23 and E.1, E.2.

Explain

Art. 27 of the Articles of Association and Art. 13.6 of the Regulations of the General Shareholders Meeting of Company stipulate that the maximum number of votes that may be cast at a General Meeting by one shareholder or companies belonging to the same group shall be 10% of the total voting capital.

This limit was approved, according to the provision of article 105 of the Joint Stock Companies Act, at the Extraordinary General Meeting held in 1999 by 95% of the capital attending.

- 2. When a dominant and a subsidiary company are stock market listed, the two should provide detailed disclosure on:**

- a) The type of activity they engage in, and any business dealings between them, as well as between the subsidiary and other group companies;**

- b) The mechanisms in place to resolve possible conflicts of interest.**

See sections: C.4 and C.7

Not applicable

3. Even when not expressly required under company law, any decisions involving a fundamental corporate change should be submitted to the General Shareholders' Meeting for approval or ratification. In particular:
- a) The transformation of listed companies into holding companies through the process of subsidiarisation, i.e. reallocating core activities to subsidiaries that were previously carried out by the originating firm, even though the latter retains full control of the former;
 - b) Any acquisition or disposal of key operating assets that would effectively alter the company's corporate purpose;
 - c) Operations that effectively add up to the company's liquidation.

Comply

4. Detailed proposals of the resolutions to be adopted at the General Shareholders' Meeting, including the information stated in Recommendation 28, should be made available at the same time as the publication of the Meeting notice.

Comply

5. Separate votes should be taken at the General Shareholders' Meeting on materially separate items, so shareholders can express their preferences in each case. This rule shall apply in particular to:
- a) The appointment or ratification of directors, with separate voting on each candidate;
 - b) Amendments to the bylaws, with votes taken on all articles or groups of articles that are materially different.

See section: E.8

Comply

6. Companies should allow split votes, so financial intermediaries acting as nominees on behalf of different clients can issue their votes according to instructions.

See section: E.4

Comply

7. The Board of Directors should perform its duties with unity of purpose and independent judgement, according all shareholders the same treatment. It should be guided at all times by the company's best interest and, as such, strive to maximise its value over time.

It should likewise ensure that the company abides by the laws and regulations in its dealings with stakeholders; fulfils its obligations and contracts in good faith; respects the customs and good practices of the sectors and territories where it does business; and upholds any additional social responsibility principles it has subscribed to voluntarily.

Comply

8. The board should see the core components of its mission as to approve the company's strategy and authorise the organisational resources to carry it forward, and to ensure that management meets the objectives set while pursuing the company's interests and corporate purpose. As such, the board in full should reserve the right to approve:

a) The company's general policies and strategies, and in particular:

- i) The strategic or business plan, management targets and annual budgets;
- ii) Investment and financing policy;
- iii) Design of the structure of the corporate group;
- iv) Corporate governance policy;
- v) Corporate social responsibility policy;
- vi) Remuneration and evaluation of senior officers;
- vii) Risk control and management, and the periodic monitoring of internal information and control systems;
- viii) Dividend policy, as well as the policies and limits applying to treasury stock.

See sections: B.1.10, B.1.13, B.1.14 and D.3

b) The following decisions:

- i) On the proposal of the company's chief executive, the appointment and removal of senior officers, and their compensation clauses.

See section: B.1.14.

- ii) Directors' remuneration and, in the case of executive directors, the additional consideration for their management duties and other contract conditions.

See section: B.1.14.

- iii) The financial information listed companies must periodically disclose.
- iv) Investments or operations considered strategic by virtue of their amount or special characteristics, unless their approval corresponds to the General Shareholders' Meeting;
- v) The creation or acquisition of shares in special purpose entities resident in jurisdictions considered tax havens, and any other transactions or operations of a comparable nature whose complexity might impair the transparency of the group.

c) Transactions which the company conducts with directors, significant shareholders, shareholders with board representation or other persons related thereto ("related-party transactions").

However, board authorisation need not be required for related-party transactions that simultaneously meet the following three conditions:

- 1. They are governed by standard form agreements applied on an across-the-board basis to a large number of clients;

2. They go through at market rates, generally set by the person supplying the goods or services;

3. Their amount is no more than 1% of the company's annual revenues.

It is advisable that related-party transactions should only be approved on the basis of a favourable report from the Audit Committee or committee handling the same function; and that the directors involved should neither exercise nor delegate their votes, and should withdraw from the meeting room while the board deliberates and votes.

Ideally the above powers should not be delegated with the exception of those mentioned in b) and c), which may be delegated to the Delegate Committee in urgent cases and later ratified by the full board.

See sections: C.1 and C.6

Partial compliance

The company complies with this recommendation, except for the following sections:

- a.iii) Owing to the complexity and large number of companies in the Repsol YPF Group at present, it has not been considered convenient to expressly include the contents of this recommendation in the company's internal regulations.
- a.vii) The Company complies with this recommendation, except regarding the periodic monitoring of internal information and control systems. In this regard, since recommendation 50.1 of the Unified Code assigns duties to the Audit and Control Committee involving supervision of the information, internal control and risk management systems, and Repsol YPF is subject to the US Sarbanes-Oxley Act (Section 404), according to which the Audit Committee must oversee and control the functioning of the Internal Financial Reporting Control system, the Company has considered it convenient to assign that Committee the duty of supervising the risk management, internal control and information systems of the company, without prejudice to reporting to the Board on these matters.
- b.i) The Company complies with this recommendation, except regarding the removal of senior officers, and their compensation clauses. The Company considers that this power over the top management should be reserved for the chief executive, since these positions come under his trust and responsibility, without prejudice to reporting to the Board. Nevertheless, the Board of Directors reserves the power to approve any guarantee or golden parachute clauses for senior executives of the company in cases of dismissals or changes of ownership, when the conditions exceed those normally established on the market.
- b.v) The Company complies with this recommendation, except regarding the creation or acquisition of shares in companies domiciled in countries or territories considered tax havens. In this regard, the Company has opted for the Audit and Control Committee to receive information on these matters and ensure that these transactions correspond to appropriate purposes, and for the Top Management to take the appropriate measures to identify and adequately manage them, without prejudice to reporting to the Board on these matters.

Furthermore, this recommendation includes a vague concept (transactions which might impair the transparency of the Group), which the company has not considered

it convenient to include in its internal regulations, owing to the uncertainty that could arise in its application.

- 9. In the interests of maximum effectiveness and participation, the Board of Directors should ideally comprise no fewer than five and no more than fifteen members.**

See section: B.1.1

Explain

The Board of Directors considered it convenient for the company, taking account of the structure of its capital and shareholders' representation on the Board, to incorporate persons with an outstanding professional prestige, from the auditing, financial/accounting, industrial and stock market sectors, who could increase the decision-making capacity of the Board and enhance its points of view.

For this purpose, the Board of Directors proposed to the General Shareholders Meeting in 2007, within the maximum and minimum limits established in the Articles of Association (9 - 16), to set the number of directors at 16. This proposal was approved at the aforesaid General Meeting.

- 10. External directors, proprietary and independent, should occupy an ample majority of board places, while the number of executive directors should be the minimum practical bearing in mind the complexity of the corporate group and the ownership interests they control.**

See sections: A.2, A.3, B.1.3 and B.1.14.

Comply

- 11. In the event that some external director can be deemed neither proprietary nor independent, the company should disclose this circumstance and the links that person maintains with the company or its senior officers, or its shareholders.**

See section: B.1.3

Not applicable

- 12. That among external directors, the relation between proprietary members and independents should match the proportion between the capital represented on the board by proprietary directors and the remainder of the company's capital.**

This proportional criterion can be relaxed so the weight of proprietary directors is greater than would strictly correspond to the total percentage of capital they represent:

- 1. In large cap companies where few or no equity stakes attain the legal threshold for significant shareholdings, despite the considerable sums actually invested.**
- 2. In companies with a plurality of shareholders represented on the board but not otherwise related.**

See sections: B.1.3, A.2 and A.3

Comply

- 13. The number of independent directors should represent at least one third of all board members.**

See section: B.1.3

Comply

- 14. The nature of each director should be explained to the General Meeting of Shareholders, which will make or ratify his or her appointment. Such determination should subsequently be confirmed or reviewed in each year's Annual Corporate Governance Report, after verification by the Nomination Committee. The said Report should also disclose the reasons for the appointment of proprietary directors at the urging of shareholders controlling less than 5% of capital; and explain any rejection of a formal request for a board place from shareholders whose equity stake is equal to or greater than that of others applying successfully for a proprietary directorship.**

See sections: B.1.3 and B.1.4

Comply

- 15. When women directors are few or non-existent, the board should state the reasons for this situation and the measures taken to correct it; in particular, the Nomination Committee should take steps to ensure that:**
- a) The process of filling board vacancies has no implicit bias against women candidates;**
 - b) The company makes a conscious effort to include women with the target profile among the candidates for board places.**

See sections: B.1.2, B.1.27 and B.2.3.

Comply

- 16. The Chairman, as the person responsible for the proper operation of the Board of Directors, should ensure that directors are supplied with sufficient information in advance of board meetings, and work to procure a good level of debate and the active involvement of all members, safeguarding their rights to freely express and adopt positions; he or she should organise and coordinate regular evaluations of the board and, where appropriate, the company's chief executive, along with the chairmen of the relevant board committees.**

See section: B.1.42

Comply

- 17. When a company's Chairman is also its chief executive, an independent director should be empowered to request the calling of board meetings or the inclusion of new business on the agenda; to coordinate and give voice to the concerns of external directors; and to lead the board's evaluation of the Chairman.**

See section: B.1.21

Partial compliance

The calling of board meetings can currently be requested by 1/4 of the directors (Art. 9.3 Board Regulations). Therefore, since Independent Directors represent half of the total Board members, they can, alone, request the calling of a board meeting.

In this regard, the Board of Directors shall endeavour to ensure that the number of non-executive independent directors represents at least one-third of the total number of directors (Article 3.2 Regulations of the Board of Directors).

Moreover, any of the Directors may, prior to the call, request the inclusion on the agenda of any business which they consider ought to be transacted at the Board meeting (Article 9.3 Regulations of the Board of Directors).

18. The Secretary should take care to ensure that the Board's actions:

- a) Adhere to the spirit and letter of laws and their implementing regulations, including those issued by regulatory agencies;**
- b) Comply with the company bylaws and the regulations of the General Shareholders' Meeting, the Board of Directors and others;**
- c) Are informed by those good governance recommendations of the Unified Code that the company has subscribed to.**

In order to safeguard the independence, impartiality and professionalism of the Secretary, his or her appointment and removal should be proposed by the Nomination Committee and approved by a full board meeting, the relevant appointment and removal procedures being spelled out in the board's regulations.

See section: B.1.34

Comply

19. The Board should meet with the necessary frequency to properly perform its functions, in accordance with a calendar and agendas set at the beginning of the year, to which each director may propose the addition of other items.

See section: B.1.29

Comply

20. Director absences should be kept to the bare minimum and quantified in the Annual Corporate Governance Report. When directors have no choice but to delegate their vote, they should do so with instructions.

See sections: B.1.28 and B.1.30

Comply

21. When directors or the Secretary express concerns about some proposal or, in the case of directors, about the company's performance, and such concerns are not resolved at the meeting, the person expressing them can request that they be recorded in the minute book.

Not applicable

22. The board in full should evaluate the following points on a yearly basis:

- a) The quality and efficiency of the board's operation;**
- b) Starting from a report submitted by the Nomination Committee, how well the Chairman and chief executive have carried out their duties;**
- c) The performance of its committees on the basis of the reports furnished by the same.**

See section: B.1.19

Comply

23. All directors should be able to exercise their right to receive any additional information they require on matters within the board's competence. Unless the

bylaws or board regulations indicate otherwise, such requests should be addressed to the Chairman or Secretary.

See section: B.1.42

Comply

24. All directors should be entitled to call on the company for the advice and guidance they need to carry out their duties. The company should provide suitable channels for the exercise of this right, extending in special circumstances to external assistance at the company's expense.

See section: B.1.41

Comply

25. Companies should organise induction programmes for new directors to acquaint them rapidly with the workings of the company and its corporate governance rules. Directors should also be offered refresher programmes when circumstances so advise.

Comply

26. Companies should require their directors to devote sufficient time and effort to perform their duties effectively, and, as such:

- a) Directors should apprise the Nomination Committee of any other professional obligations, in case they might detract from the necessary dedication;**
- b) Companies should lay down rules about the number of directorships their board members can hold.**

See sections: B.1.8, B.1.9 and B.1.17

Partial compliance

The Company complies with this recommendation, except regarding the rules on the number of directorships its directors may hold. It considers the obligations that Directors are to meet by virtue of their office, as stipulated in Article 17 of the Regulations of the Board of Directors, sufficient to guarantee the efficient performance by directors of their duties:

- Constantly devote such time and efforts as may be necessary to regularly oversee the issues concerning administration of the company.
- Be informed and adequately prepare meetings of the board and any other delegated and advisory committees to which they belong, obtaining sufficient information and such collaboration or assistance as they may deem fit.
- Attend meetings of all committees they are on and participate actively in the debates, such that their opinions may contribute effectively to the decision-making process. If they are justifiably unable to attend any meetings to which they have been called, they shall duly instruct another director to represent them.
- Carry out any specific task commissioned by the board that is reasonably within his dedication commitment.
- Inform the Nomination and Compensation Committee of any other professional obligations they may have and any material changes in their professional situation, as well as any that may affect the nature or condition by virtue of which they have been

appointed director.

The Nomination and Compensation Committee shall inform the Board on directors' performance of these obligations.

27. The proposal for the appointment or renewal of directors which the board submits to the General Shareholders' Meeting, as well as provisional appointments by the method of co-option, should be approved by the board:

- a) On the proposal of the Nomination Committee, in the case of independent directors.**
- b) Subject to a report from the Nomination Committee in all other cases.**

See section: B.1.2

Comply

28. Companies should post the following director particulars on their websites and keep them permanently updated:

- a) Professional experience and background;**
- b) Directorships held in other companies, listed or otherwise;**
- c) An indication of the director's classification as executive, proprietary or independent; in the case of proprietary directors, stating the shareholder they represent or have links with.**
- d) The date of their first and subsequent appointments as a company director, and;**
- e) Shares held in the company and any options on the same.**

Comply

29. Independent directors should not stay on as such for a continuous period of more than 12 years.

See section: B.1.2

Comply

30. Proprietary directors should resign when the shareholders they represent dispose of their ownership interest in its entirety. If such shareholders reduce their stakes, thereby losing some of their entitlement to proprietary directors, the latter's number should be reduced accordingly.

See sections: A.2, A.3 and B.1.2

Comply

31. The Board of Directors should not propose the removal of independent directors before the expiry of their tenure as mandated by the bylaws, except where just cause is found by the board, based on a proposal from the Nomination Committee. In particular, just cause will be presumed when a director is in breach of his or her fiduciary duties or comes under one of the disqualifying grounds enumerated in section III.5 (Definitions) of this Code.

The removal of independents may also be proposed when a takeover bid, merger or

similar corporate operation produces changes in the company's capital structure, in order to meet the proportionality criterion set out in Recommendation 12.

See sections: B.1.2, B.1.5 and B.1.26

Comply

32. Companies should establish rules obliging directors to inform the board of any circumstance that might harm the organisation's name or reputation, tendering their resignation as the case may be, with particular mention of any criminal charges brought against them and the progress of any subsequent trial.

The moment a director is indicted or tried for any of the crimes stated in article 124 of the Public Limited Companies Law, the board should examine the matter and, in view of the particular circumstances and potential harm to the company's name and reputation, decide whether or not he or she should be called on to resign. The board should also disclose all such determinations in the Annual Corporate Governance Report.

See sections: B.1.43, B.1.44

Comply

33. All directors should express clear opposition when they feel a proposal submitted for the board's approval might damage the corporate interest. In particular, independents and other directors unaffected by the conflict of interest should challenge any decision that could go against the interests of shareholders lacking board representation.

When the board makes material or reiterated decisions about which a director has expressed serious reservations, then he or she must draw the pertinent conclusions. Directors resigning for such causes should set out their reasons in the letter referred to in the next Recommendation.

The terms of this Recommendation should also apply to the Secretary of the board; director or otherwise.

Not applicable

34. Directors who give up their place before their tenure expires, through resignation or otherwise, should state their reasons in a letter to be sent to all members of the board. Irrespective of whether such resignation is filed as a significant event, the motive for the same must be explained in the Annual Corporate Governance Report.

See section: B.1.5

Not applicable

35. The company's remuneration policy, as approved by its Board of Directors, should specify at least the following points:

a) The amount of the fixed components, itemised where necessary, of board and board committee attendance fees, with an estimate of the fixed annual payment they give rise to;

b) Variable components, in particular:

i) The types of directors they apply to, with an explanation of the relative weight of variable to fixed remuneration items;

- ii) Performance evaluation criteria used to calculate entitlement to the award of shares or share options or any performance-related remuneration;
 - iii) The main parameters and grounds for any system of annual bonuses or other, non cash benefits; and
 - iv) An estimate of the sum total of variable payments arising from the remuneration policy proposed, as a function of degree of compliance with pre-set targets or benchmarks.
- c) The main characteristics of pension systems (for example, supplementary pensions, life insurance and similar arrangements), with an estimate of their amount or annual equivalent cost.
- d) The conditions to apply to the contracts of executive directors exercising senior management functions. Among them:
- i) Duration;
 - ii) Notice periods; and
 - iii) Any other clauses covering hiring bonuses, as well as indemnities or 'golden parachutes' in the event of early termination of the contractual relation between company and executive director.

See section: B.1.15

Comply

36. Remuneration comprising the delivery of shares in the company or other companies in the group, share options or other share-based instruments, payments linked to the company's performance or membership of pension schemes should be confined to executive directors.

The delivery of shares is excluded from this limitation when directors are obliged to retain them until the end of their tenure.

See sections: A.3, B.1.3

Comply

37. External directors' remuneration should sufficiently compensate them for the dedication, abilities and responsibilities that the post entails, but should not be so high as to compromise their independence.

Comply

38. In the case of remuneration linked to company earnings, deductions should be computed for any qualifications stated in the external auditor's report.

Comply

39. In the case of variable awards, remuneration policies should include technical safeguards to ensure they reflect the professional performance of the beneficiaries and not simply the general progress of the markets or the company's sector, atypical or exceptional transactions or circumstances of this kind.

Comply

40. The board should submit a report on the directors' remuneration policy to the advisory vote of the General Shareholders' Meeting, as a separate point on the agenda. This report can be supplied to shareholders separately or in the manner each company sees fit.

The report will focus on the remuneration policy the board has approved for the current year with reference, as the case may be, to the policy planned for future years. It will address all the points referred to in Recommendation 34, except those potentially entailing the disclosure of commercially sensitive information. It will also identify and explain the most significant changes in remuneration policy with respect to the previous year, with a global summary of how the policy was applied over the period in question.

The role of the Remuneration Committee in designing the policy should be reported to the Meeting, along with the identity of any external advisors engaged.

See section: B.1.16

Partial compliance

The company prepared the Report on the Directors' Remuneration Policy, which is made available to shareholders, for their information, at the Ordinary General Shareholders Meeting.

41. The notes to the annual accounts should list individual directors' remuneration in the year, including:

- a) A breakdown of the compensation obtained by each company director, to include where appropriate:
- i) Participation and attendance fees and other fixed director payments;
 - ii) Additional compensation for acting as chairman or member of a board committee;
 - iii) Any payments made under profit-sharing or bonus schemes, and the reason for their accrual;
 - iv) Contributions on the director's behalf to defined-contribution pension plans, or any increase in the director's vested rights in the case of contributions to defined-benefit schemes;
 - v) Any severance packages agreed or paid;
 - vi) Any compensation they receive as directors of other companies in the group;
 - vii) The remuneration executive directors receive in respect of their senior management posts;
 - viii) Any kind of compensation other than those listed above, of whatever nature and provenance within the group, especially when it may be accounted as a related-party transaction or when its omission would detract from a true and fair view of the total remuneration received by the director.
- b) An individual breakdown of deliveries to directors of shares, share options or other share-based instruments, itemised by:
- i) Number of shares or options awarded in the year, and the terms set for their execution;

- ii) Number of options exercised in the year, specifying the number of shares involved and the exercise price;
 - iii) Number of options outstanding at the annual close, specifying their price, date and other exercise conditions;
 - iv) Any change in the year in the exercise terms of previously awarded options.
- c) Information on the relation in the year between the remuneration obtained by executive directors and the company's profits, or some other measure of enterprise results.

Comply

42. When the company has a Delegate Committee, the breakdown of its members by director category should be similar to that of the board itself. The Secretary of the board should also act as secretary to the Delegate Committee.

See sections: B.2.1 and B.2.6

Comply

43. The board should be kept fully informed of the business transacted and decisions made by the Delegate Committee. To this end, all board members should receive a copy of the Committee's minutes.

Comply

44. In addition to the Audit Committee mandatory under the Securities Market Law, the Board of Directors should form a committee, or two separate committees, of Nomination and Remuneration.

The rules governing the make-up and operation of the Audit Committee and the committee or committees of Nomination and Remuneration should be set forth in the board regulations, and include the following:

- a) The Board of Directors should appoint the members of such committees with regard to the knowledge, aptitudes and experience of its directors and the terms of reference of each committee; discuss their proposals and reports; and be responsible for overseeing and evaluating their work, which should be reported to the first board plenary following each meeting;
- b) These committees should be formed exclusively of external directors and have a minimum of three members. Executive directors or senior officers may also attend meetings, for information purposes, at the Committees' invitation.
- c) Committees should be chaired by an independent director.
- d) They may engage external advisors, when they feel this is necessary for the discharge of their duties.
- e) Meeting proceedings should be minuted and a copy sent to all board members.

See sections: B.2.1 and B.2.3

Comply

45. The job of supervising compliance with internal codes of conduct and corporate governance rules should be entrusted to the Audit Committee, the Nomination Committee or, as the case may be, separate Compliance or Corporate Governance

committees.

Comply

46. All members of the Audit Committee, particularly its chairman, should be appointed with regard to their knowledge and background in accounting, auditing and risk management matters.

Comply

47. Listed companies should have an internal audit function, under the supervision of the Audit Committee, to ensure the proper operation of internal reporting and control systems.

Comply

48. The head of internal audit should present an annual work programme to the Audit Committee; report to it directly on any incidents arising during its implementation; and submit an activities report at the end of each year.

Comply

49. Control and risk management policy should specify at least:

- a) **The different types of risk (operational, technological, financial, legal, reputational...) the company is exposed to, with the inclusion under financial or economic risks of contingent liabilities and other off-balance-sheet risks;**
- b) **The determination of the risk level the company sees as acceptable;**
- c) **Measures in place to mitigate the impact of risk events should they occur;**
- d) **The internal reporting and control systems to be used to control and manage the above risks, including contingent liabilities and off-balance-sheet risks.**

See section: D

Comply

50. The Audit Committee's role should be:

1. With respect to internal control and reporting systems:

- a) **Monitor the preparation and the integrity of the financial information prepared on the company and, where appropriate, the group, checking for compliance with legal provisions, the accurate demarcation of the consolidation perimeter, and the correct application of accounting principles.**
- b) **Review internal control and risk management systems on a regular basis, so main risks are properly identified, managed and disclosed.**
- c) **Monitor the independence and efficacy of the internal audit function; propose the selection, appointment, reappointment and removal of the head of internal audit; propose the department's budget; receive regular report-backs on its activities; and verify that senior management are acting on the findings and recommendations of its reports.**
- d) **Establish and supervise a mechanism whereby staff can report confidentially and, if necessary, anonymously, any irregularities they detect in the course of their duties, in particular financial or accounting irregularities, with potentially**

serious implications for the firm.

2. With respect to the external auditor:

- a) Make recommendations to the board for the selection, appointment, reappointment and removal of the external auditor, and the terms and conditions of his engagement.
- b) Receive regular information from the external auditor on the progress and findings of the audit programme, and check that senior management are acting on its recommendations.
- c) Monitor the independence of the external auditor, to which end:
 - i) The company should notify any change of auditor to the CNMV as a significant event, accompanied by a statement of any disagreements arising with the outgoing auditor and the reasons for the same.
 - ii) The Committee should ensure that the company and the auditor adhere to current regulations on the provision of non-audit services, the limits on the concentration of the auditor's business and, in general, other requirements designed to safeguard auditors' independence;
 - iii) The Committee should investigate the issues giving rise to the resignation of any external auditor.
- d) In the case of groups, the Committee should urge the group auditor to take on the auditing of all component companies.

See sections: B.1.35, B.2.2, B.2.3 and D.3

Comply

- 51. The Audit Committee should be empowered to meet with any company employee or manager, even ordering their appearance without the presence of another senior officer.**

Comply

- 52. The Audit Committee should prepare information on the following points from Recommendation 8 for input to board decision-making:**

- a) The financial information that all listed companies must periodically disclose. The Committee should ensure that interim statements are drawn up under the same accounting principles as the annual statements and, to this end, may ask the external auditor to conduct a limited review.
- b) The creation or acquisition of shares in special purpose vehicles or entities resident in countries or territories considered tax havens, and any other transactions or operations of a comparable nature whose complexity might impair the transparency of the group.
- c) Related-party transactions, except where their scrutiny has been entrusted to some other supervision and control committee.

See sections: B.2.2 and B.2.3

Partial compliance

The Company complies with this recommendation, except for paragraph b on entities resident in tax havens and transactions that might impair the transparency of the group.

In this respect, Article 32 of the Regulations of the Board of Directors establishes that the Audit and Control Committee shall be informed on the creation or acquisition of shares in companies domiciled in countries or territories considered tax havens. The Committee shall also see that these transactions correspond to appropriate purposes and that top management takes the necessary measures to identify and adequately handle them.

Furthermore, this recommendation includes a vague concept (transactions which might impair the transparency of the Group), which the company has not considered it convenient to include in its internal regulations, owing to the uncertainty that could arise in its application.

- 53. The Board of Directors should seek to present the annual accounts to the General Shareholders' Meeting without reservations or qualifications in the audit report. Should such reservations or qualifications exist, both the Chairman of the Audit Committee and the auditors should give a clear account to shareholders of their scope and content.**

See section: B.1.38

Comply

- 54. The majority of Nomination Committee members - or Nomination and Remuneration Committee members as the case may be - should be independent directors.**

See section: B.2.1

Comply

- 55. The Nomination Committee should have the following functions in addition to those stated in earlier recommendations:**

- a) Evaluate the balance of skills, knowledge and experience on the board, define the roles and capabilities required of the candidates to fill each vacancy, and decide the time and dedication necessary for them to properly perform their duties.**
- b) Examine or organise, in appropriate form, the succession of the chairman and the chief executive, making recommendations to the board so the handover proceeds in a planned and orderly manner.**
- c) Report on the senior officer appointments and removals which the chief executive proposes to the board.**
- d) Report to the board on the gender diversity issues discussed in Recommendation 14 of this Code.**

See section: B.2.3

Partial compliance

The Company complies with this recommendation, except for the report on senior officer removals which the chief executive proposes to the Board. As mentioned in respect of Recommendation 8 above, the Company considers that the power to remove senior officers of the company should be reserved to the chief executive, since they are positions within his trust and responsibility.

56. The Nomination Committee should consult with the company's Chairman and chief executive, especially on matters relating to executive directors.

Any board member may suggest directorship candidates to the Nomination Committee for its consideration.

Comply

57. The Remuneration Committee should have the following functions in addition to those stated in earlier recommendations:

a) Make proposals to the Board of Directors regarding:

- i) The remuneration policy for directors and senior officers;
- ii) The individual remuneration and other contractual conditions of executive directors.
- iii) The standard conditions for senior officer employment contracts.

b) Oversee compliance with the remuneration policy set by the company.

See sections: B.1.14, B.2.3

Comply

58. The Remuneration Committee should consult with the Chairman and chief executive, especially on matters relating to executive directors and senior officers.

G OTHER INFORMATION OF INTEREST

If you consider there to be an important principle or aspect regarding the corporate governance practices applied by your company that have not been mentioned in this report, indicate them below and explain the contents.

This section may be used to include any other information, clarification or qualification relating to the previous sections of the report.

In particular, state whether the company is subject to any laws other than the laws of Spain on corporate governance and, if this is the case, include whatever information the company may be obliged to supply that differs from the information included in this report.

1. Note on section A.2.

Due to the fact the company's shares are issued in book-entry form, the company does not have up-to-date information on the identity of its shareholders or details of their stakes. Therefore, the details set out in this section are obtained from the information supplied by *Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, Sociedad Anónima Unipersonal* (IBERCLEAR) for the Annual General Meeting of 14 May 2009, and from the information sent by shareholders to *Comisión Nacional del Mercado de Valores* (CNMV) and to the Company.

Moreover, for economic purposes, the Criteria CaixaCorp Group holds a 12.68% stake in Repsol YPF, S.A. and Criteria CaixaCorp, S.A. holds a 67.60% stake in the capital of Repinves, S.A.

2. Note on section A.10

With regard to the legal restrictions on the purchase or sale of shares in the capital, under Supplementary Provision 11 to the Hydrocarbons Act 34/1998, as drafted in Royal Decree-Law 4/2006 of 24 February, prior administrative authorisation by the *Comisión Nacional de Energía* must be sought for certain acquisitions or investments in companies that engage in regulated activities or activities subject to significant oversight by administrative bodies that implies special regulation.

On July 2008, the European Court of Justice determined that Spain had, through the imposition of this requirement of administrative authorisation by the *Comisión Nacional de Energía*, failed to fulfil its obligations under Articles 43 and 56 of the EC Treaty.

3. Note on section B.1.11.

Following the former practice of Repsol YPF, S.A. and to supplement the information supplied in section B.1.11., the sums accrued by members of the Board during 2008, individually and by types of remuneration, or other benefits, are set out in this Annual Report on Corporate Governance.

a) Due to membership of the Board

Under the system established and approved by the Nomination and Compensation Committee, the amounts of the annual remunerations earned in 2008 and 2007 by virtue of membership of each of the Group's managing bodies are as follows:

Governing Body	Euro	
	2008	2007
Board of Directors	172,287	165,661
Delegate Committee	172,287	165,661
Audit and Control Committee	86,144	82,830
Strategy, Investment and Corporate Social Responsibility C	43,072	41,415
Nomination and Compensation Committee	43,072	41,415

The amount of the remunerations earned by the members of the Board of Directors for belonging to same in 2008 and payable against the aforesaid assignment in the Articles of Association was EUR 4.824 million, itemised as follows:

	Remuneration for belonging to the Governing Bodies (euro)					TOTAL
	Board	Deleg. C.	Audit C.	Nominat. C.	Strat. C	
Antonio Brufau	172,287	172,287	-	-	-	344,574
Luis Suárez de Lezo	172,287	172,287	-	-	-	344,574
Antonio Hernández-Gil	172,287	172,287	-	43,072	-	387,646
Carmelo de las Morenas	172,287	-	86,144	-	-	258,431
Henri Philippe Reichstul	172,287	172,287	-	-	-	344,574
Paulina Beato	172,287	-	86,144	-	-	258,431
Javier Echenique	172,287	172,287	86,144	-	-	430,718
Artur Carulla	172,287	-	-	43,072	-	215,359
Luis del Rivero	172,287	172,287	-	-	-	344,574
Juan Abelló	172,287	-	-	-	43,072	215,359
Pemex Intern. España	172,287	172,287	-	-	43,072	387,646
José Manuel Loureda	172,287	-	-	-	43,072	215,359
Luis Carlos Croissier	172,287	-	-	-	43,072	215,359
Isidro Fainé	172,287	172,287	-	-	-	344,574
Juan María Nin	172,287	-	-	43,072	43,072	258,431
Ángel Duráñez	172,287	-	86,144	-	-	258,431

It should also be noted that:

- The members of the Board of Directors of Repsol YPF, S.A. have not been granted any loans or advances by any Group company, jointly controlled entity or associate.
- No Group company, jointly controlled entity or associate has pension or life insurance obligations to any former or current member of the Board of Directors of Repsol YPF, S.A., except in the case of the Executive Chairman and the General Counsel whose remunerations, as Executive Directors, are governed by the obligations provided for in their contracts for services, which envisage a defined contribution system.

b) Due to the holding of executive posts and the discharge of executive duties

The monetary remuneration, fixed and variable, and compensation in kind (housing, etc.) earned in 2008 by the Board members who had an employment relationship with or discharged executive duties in the Group during the year totalled EUR 4.013 million, EUR 2.691 million corresponding to Antonio Brufau and EUR 1.322 million to Luis Suárez de Lezo.

Additionally, the pluriannual variable remuneration earned by Antonio Brufau, calculated on the basis of the degree to which targets of the Medium Term Incentives Program 2004-2007 for Executives are met, totalled EUR 0.850 million. The pluriannual variable remuneration earned by Luis Suárez de Lezo, as a participant of this program, totalled EUR 0.148 million.

These amounts do not include those indicated in the section “Due to retirement and disability insurance policies and contributions to pension plans and permanency awards” below.

c) Due to membership of the Boards of Directors of subsidiaries

The remuneration earned in 2008 by the members of the Board of Directors of Repsol YPF, S.A. in their capacity as directors of other Group companies, jointly controlled entities and associates amounted to EUR 0.464 million, according to the following details:

	Euro			
	YPF	Gas Natural	CLH	TOTAL
Antonio Brufau	94,833	265,650	-	360,483
Luis Suárez de Lezo	67,914	-	36,481	104,395

d) Due to third-party liability insurance premiums

The Board members are covered by the same third-party liability insurance policy as that covering all the directors and executives of the Repsol YPF Group.

e) Due to retirement and disability insurance policies and contributions to pension plans and permanency awards

The cost of retirement, disability and death insurance policies, and contributions to pension plan and the permanency awards, including the corresponding on account payments, if any, incurred by the Company in relation to Board members who discharged executive duties at the Group during 2008 totalled EUR 2.680 million, of which EUR 2.423 million corresponded to Antonio Brufau and EUR 0.257 million to Luis Suárez de Lezo.

f) Incentives

In connection with the pluriannual variable remuneration for Board Members who hold executive duties, provisions were founded in 2008 amounted to EUR 0.866 million for Antonio Brufau and EUR 0.309 million for Luis Suárez de Lezo.

Board Members who not hold executive duties haven't received pluriannual variable remuneration.

g) Indemnity payments to members of the Board of Directors

No director received any indemnity payment from Repsol YPF in 2008.

h) Transactions with Directors

Apart from the remuneration earned, the dividends corresponding to the shares they hold and, in the case of institutional outside directors, the transactions with significant shareholders, the directors of Repsol YPF did not perform any transaction other than in the normal course of business or other than on an arm's-length basis with the Company or with Group companies in 2008.

i) Related with Company's profit

Remuneration received by Executive Board Members, as detailed under sections a, b and c of this note, amounted to EUR 6.165 million, 0.22% of net profit of the parent company.

4. Note on section B.1.12.

The sum of EUR 12.926 million corresponding to the total remuneration of the top management includes the sums paid to executives indicated in section B.1.12.

The total remuneration indicated is not that accrued, but the sum actually received. This amount does not include the cost of contributions to pension plans, life insurance, contingent plans and award for permanency, which totalled EUR 2.523 million.

5. Note on section C.2.

Commitments acquired correspond to sales commitments in force to date, net of purchases commitments.

Additionally to the related party transactions mentioned above, at close of the 2008 fiscal year the Group has another transactions with la Caixa Group, totalled EUR 1,686 million, which include short term investments in a sum of EUR 520 million, exchange rate hedging tools in a sum of EUR 216 million and interest rate hedging tools in a sum of 557 million.

Binding definition of independent director:

Indicate whether any of the independent directors have or have had any relationship with the company, its significant shareholders or its executives, which, if sufficiently significant or important, would have meant that the director could no longer be considered independent, pursuant to the definition set out in section 5 of the Unified Good Governance Code:

Yes No

This annual report on corporate governance was approved by the Board of Directors of the Company on 25 February 2009.

Indicate whether any Directors have voted against or abstained in connection with the approval of this Report.

Yes No

SIMPLIFYING AND CONCENTRATING THE COMPANY'S MANAGEMENT

REPSOL MAKES CHANGES TO ITS MANAGEMENT STRUCTURE

- **Improves the organization of the company to simplify management processes.**
- **The number of General Directors is reduced by three.**
- **The development of directors is focused on achieving the company's objectives.**

Repsol's board of directors yesterday approved a proposal by Chairman Antonio Brufau to make changes to the company's management structure aimed at simplifying and concentrating the management team.

The new structure reduces by three the number of business units and is a rationalisation and simplification of Repsol's management structure, reinforcing multidisciplinary business profiles with a global vision and ability to adapt to change.

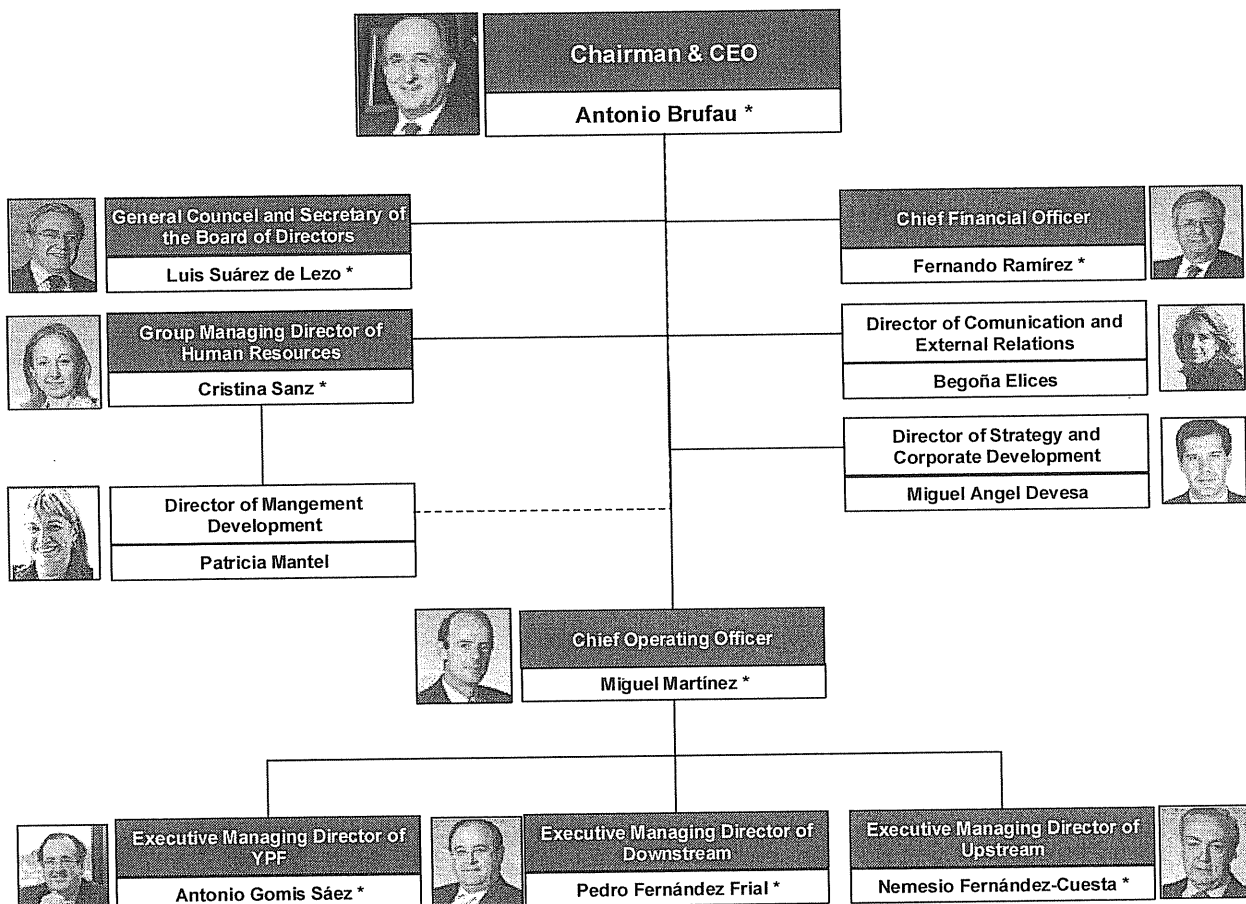

Amongst the general directors who will leave the company are Javier Macian, responsible for Human Resources, who will take early retirement. Enrique Locutura, who was in charge of the LNG business, will become the Vice-chairman of the Repsol Foundation.

Jaume Giro, who was General Director of Communications and the Chairman's office, will move to La Caixa as Executive Director at the savings bank responsible for communication, institutional relations and corporate responsibility.

The new management structure aims to boost the human structure, improve management processes and focus on the development of staff to maximise value creation as a key element to achieving the company's goals.

REPSOL REACHES A PRELIMINARY AGREEMENT WITH THE ECUADORIAN GOVERNMENT ON THE TERMS OF ITS CONTINUED PRESENCE IN THE COUNTRY

- The agreement is an important step in regulating the relationship between Repsol and the government of Ecuador.
- The value of the assets and investments increases.
- The windfall tax is reduced from 99% to 70%.

Repsol has reached an agreement with the government of Ecuador that will allow the establishment of a stable contractual framework within a year.

Through the agreement, the license to operate Block 16 has been extended by six years from 2012 to 2018, and a provisional one-year term has been established during which the Ecuadorian government will reduce taxes on extraordinary benefits from 99% to 70%. Over the next year, a long-term service contract will be negotiated to definitively regulate Repsol's activities in Ecuador.

This agreement, that represents for Repsol an investment commitment of an estimated 173,5 million dollars through 2018, is a positive development for the company since it means a step forward in the establishment by the Ecuadorian Government of a new regulatory scheme for Repsol's activities in that country until 2018. The extension of the concession implies an increase in the value of Repsol's assets and investments in the country.

As part of the agreement, Repsol will pay 244.6 million dollars in taxes as a member of the operating consortium. The payment won't negatively affect the company's accounts, as the amount was fully provisioned in 2008.

The consortium operating Ecuador's block 16 is made up of Repsol, as operator with a 55% stake after the acquisition of Murphy Oil's share, OPIC of Taiwan (31%) and Sinochem of China (14%), producing a total of 48.000 barrels/day.

Repsol has always maintained an open dialogue with the Ecuadorian authorities, who have commended Repsol's responsible attitude towards extraction and its commitment to local communities and the environment in its operations in Block 16 in the Bogui and Capiron fields.

**REPSOL YPF, S.A.
AND COMPANIES COMPOSING REPSOL YPF GROUP**

**REPORT EXPLAINING THE ADDITIONAL INFORMATION OF THE MANAGEMENT
REPORT FOR THE FISCAL YEAR
ENDED ON DECEMBER 31ST, 2008**

In accordance with Section 116.bis of the Securities Market Act, the present report, regarding the additional information required by said provision to be included in the Management Report, is formulated for its presentation at the Ordinary General Shareholders' Meeting of the Company.

A. Capital structure, including any securities not traded on a EU regulated market, indicating the different classes of shares, if any, the rights and obligations granted by each class and the percentage of capital it represents.

Repsol YPF, S.A. currently has a capital of 1,220,863,463 euros, divided into 1,220,863,463 shares with a par value of 1 euro each, fully subscribed and paid up, all in the same class and, consequently, with the same rights and obligations.

The Repsol YPF, S.A. shares are issued in book-entry form and were admitted in their entirety for listing in the continuous trading system of the Spanish stock exchanges (Madrid, Barcelona, Bilbao and Valencia), New York (New York Stock Exchange) and Buenos Aires (Bolsa de Comercio de Buenos Aires).

B. Any restriction on the transferability of shares

By virtue of Supplementary Provision 11 of the Hydrocarbons Act 34/1998, as amended by Royal Decree-Law 4/2006 of 24 February, administrative authorisation of the Energy National Commission ("*Comisión Nacional de Energía*") must be sought for certain acquisitions in companies that engage in regulated activities or activities subject to administrative intervention entailing a special relationship.

On 28 July 2008, the European Court of Justice determined that Spain had, through the imposition of this requirement, failed to fulfil its obligations under Articles 43 (freedom establishment) and 56 (free movement of capital) of the EC Treaty.

C. Direct or indirect significant interest in the share capital

Up to the latest available date, the most significant holdings in the capital of Repsol YPF were:

Shareholder	% of total capital
Sacyr Vallehermoso, S.A. ⁽¹⁾	20.01
Criteria Caixa Corp. ⁽²⁾	14.31
Petróleos Mexicanos ⁽³⁾	4.81

- (1) Sacyr Vallehermoso, S.A. holds its interest through Sacyr Vallehermoso Participaciones Mobiliarias, S.L.
- (2) Criteria Caixa Corp. holds 9.28% directly and 5.02% indirectly through Repinves, S.A. (67.60% owned by Criteria Caixa Corp.).
- (3) Petróleos Mexicanos, S.A. (Pemex) holds its interest through Pemex International España, S.A. and through some equity swaps with financial entities granting Pemex the economic rights and the exercise of the political rights of a percentage up to 4.81% of the share capital of the Company.

Additionally, Barclays Global Investors, NA, Barclays Global Investors, Ltd., Barclays Global Fund Advisors and Barclays Global Investors (Deutschland) AG, informed CNMV on 18 January 2008 of an agreement concerning the concerted exercise of their voting rights in Repsol YPF for an interest of 3.22%. According to the information registered with the CNMV, these entities are managers of collective investment funds and the controlling company (Barclays Global Investors UK Holdings, Ltd.) does not issue any direct or indirect instructions for exercise of the corresponding voting rights held by said managers.

D. Any restriction on voting rights

- Article 27 of the Repsol YPF, S.A. Bylaws stipulates that no individual shareholder, or companies belonging to the same Group, may cast votes at a General Meeting of Shareholders in excess of 10% of the voting capital.
- Pursuant to Act 55/1999 (amended by Act 62/2003), the administrative authorities must be notified if any state-owned entities, or entities of whatsoever nature majority-owned or controlled by state-owned entities, acquire 3% or more of the share capital of energy companies, whereupon the Council of Ministers shall, within a period of two months, authorise, deny authorisation or establish conditions for exercising voting rights (known as the "energy golden share").

In this regard, a Judgment passed by the European Court of Justice (ECJ) on 14 February 2008 ruled that Spain has breached its obligations under Article 56 EC by maintaining in place measures such as the "energy golden share", which limit the voting rights corresponding to shares held by state-owned entities in Spanish companies operating in the energy sector.

- Furthermore, Article 34 of Royal Decree-Law 6/2000 establishes certain constraints on the exercising of voting rights in more than one *principal operator* of the same market or sector. Among others, it lists the markets of fuel production and distribution, liquefied petroleum gas production and supply and natural gas production and supply. The principal operators are considered to be the companies holding the five largest shares of the market in question.

These constraints are as follows:

- Individuals or entities directly or indirectly holding more than 3% of the capital or voting rights of two or more principal operators on the same market may not exercise the voting rights corresponding to the excess over that percentage in more than one of such companies.
- A principal operator may not exercise voting rights corresponding to an interest of more than 3% of the capital of another principal operator on the same market.

These prohibitions will not be applicable to parent companies that are principal operators in respect of any of their subsidiaries that are also principal operators, provided this structure is imposed by law or is the consequence of a mere redistribution of shares or assets among group companies.

The Energy National Commission, regulator of the energy market, may authorise exercising of the voting rights corresponding to the excess, provided this does not favour an exchange of strategic information or entail risks of coordination in strategic actions.

E. Shareholders' agreements

Repsol YPF, S.A. has not been notified of any shareholders' agreements regulating the exercising of voting rights at its general meetings or limiting or establishing conditions for the free transferability of the Repsol YPF, S.A. shares.

F. Rules applicable to the appointment and replacement of directors and to the amendment of the bylaws

- *Appointment*

Members of the board are appointed by the General Meeting of Shareholders, without prejudice to the power of the Board to appoint shareholders to fill any vacancies that may arise, up to the next general meeting.

No-one affected by the prohibitions established in section 124 of the Joint Stock Companies Act or any other incompatibilities established in current laws may be appointed director of the company.

Nor may persons or entities that are in a permanent conflict of interest with the company be directors, including competing companies, their directors, executives or employees, or any persons related to or proposed by such companies.

Directors must be persons who, as well as meeting the requirements stipulated in law and the bylaws, have recognised prestige and adequate knowledge and professional experience and expertise to perform their duties.

Nominations for the appointment of directors submitted by the Board to the General Meeting and appointments made by cooptation must be approved by the Board (i) upon proposal of the Nomination and Compensation Committee, in the case of Independent Outside Directors, or (ii) subject to a report by said Committee for other directors.

- *Re-election*

The Nomination and Compensation Committee assesses the quality of work and dedication to office during the preceding term in office of any directors proposed for re-election.

The proposals for re-election of directors submitted by the Board to the General Meeting must be approved by the Board (i) upon proposal of the Nomination and Compensation Committee, in the case of Independent Outside Directors, or (ii) subject to a report by said Committee for other directors.

- *Retirement*

Directors shall retire from office upon expiry of the term for which they were appointed (unless they are re-elected) and in the other cases contemplated in law, the Bylaws and the Regulations of the Board.

Additionally, Directors must also tender their resignations to the board in any of the following circumstances:

- a) When they are affected by any of the cases of incompatibility or prohibition established in law, the bylaws or regulations.
- b) If they are seriously reprimanded by the Nomination and Compensation Committee or the Audit and Control Committee for defaulting their obligations as directors.
- c) When, in the opinion of the Board, subject to a previous report by the Nomination and Compensation Committee:
 - (i) Their remaining on the Board could jeopardise the interests of the company or adversely affect the functioning of the board or the reputation of the company; or

(ii) The reasons for their appointment have disappeared. This includes, in particular:

- Institutional Outside Directors, if the shareholder they represent or that proposed their appointment disposes of all their shares. They shall also tender their resignations and resign, should the board so deem fit, in the corresponding proportion, if the shareholder in question disposes of part of its shareholding interest, to an extent requiring a reduction in the number of its institutional outside directors.
- Executive Directors, if they cease to hold the executive positions outside the Board to which their appointment as director was linked.

The Board will not propose the removal of any Independent Outside Director before the end of the statutory term for which he/she has been appointed, unless there are just grounds for doing so, in the opinion of the Board, subject to a previous report by the Nomination and Compensation Committee. In particular, there shall be deemed to be just grounds when the director (i) has defaulted the duties corresponding to his/her office; (ii) is in any of the situations described in the preceding paragraphs; or (iii) falls into any of the circumstances described in the Regulations of the Board, whereby he/she can no longer be classified as a Independent Outside Director.

The retirement of Independent Outside Directors may also be proposed as a result of takeover bids, mergers or other similar corporate operations entailing a change in the ownership structure of the company, insofar as this may make it necessary to establish a reasonable balance between Institutional and Independent Outside Directors, in accordance with the ratio of capital represented by the former and the rest of the capital.

- *Amendment of the Bylaws*

The Bylaws of Repsol YPF, S.A., available on its web site (www.repsol.com), do not establish any conditions differing from those set out in the Joint Stock Companies Act for their amendment, except for the amendment of the last paragraph of Article 27, concerning the maximum number of votes that may be cast at General Meetings by any one shareholder or the companies belonging to the same group. This resolution, and the resolution to amend this special provision contained in the final paragraph of Article 22 of the Bylaws, must be adopted with the favourable vote, on first and second call, of 75% of the voting capital attending or represented at the general meeting.

G. Powers of the Board, particularly those concerning the issuing or repurchasing of shares

The Annual General Meeting of Shareholders held on 31 May 2005 resolved to authorise the Board to increase the capital on one or several occasions over a period of 5 years by a sum not exceeding 610,431,731 euro (approximately half of the current capital), through the issuing of new shares paid up in monetary contributions.

Likewise, at the Annual General Meeting held on 14 May 2008 the Board was authorised for the derivative acquisition of own shares, in the terms mentioned in the section above "financial overview" of this management report.

Finally, in addition to the powers vested in the Chairman and Vice-Chairmen of the Board in the Bylaws and Regulations of the Board, the Executive Directors are granted general powers of attorney of the company by the Board of Directors, which are duly registered with the Commercial Register of Madrid.

H. Significant agreements entered into by the company, which are to become effective, be amended or terminate upon a change in the control of the company following a takeover bid, and the effects thereof, unless disclosure may be seriously detrimental to the company. This exception will not be applicable when the company is legally obliged to disclose this information

The Company participates in the exploration and exploitation of hydrocarbons through joint ventures with other oil companies, either private or state-owned companies. The agreements governing the *joint ventures* usually confers its members a right of first refusal over the participation of the partner in which a change of control occurs when the value of such participation is significant in relation with the set of assets of the whole transaction or when other conditions mentioned in the agreements are met.

Likewise, the regulation of the oil and gas industry in different countries in which the company operates, requires previous administrative authorisation for the total or partial transmission of investigation licences and exploitation concessions and, in certain occasions, for the change of control of any licensee and specially of such holding the condition of operator in the exploration and production acreage.

Additionally, the agreements between Repsol YPF and Caja de Ahorros y Pensiones de Barcelona ("la Caixa") in respect of Gas Natural SDG. S.A., disclosed as significant events through the CNMV, the Agreement for Industrial Activity between Repsol YPF and Gas Natural SDG, S.A., contemplated in the afore-mentioned agreements and notified as a significant event on 29 April 2005, and the Shareholders' Agreement between Repsol YPF and Gas Natural SDG concerning Repsol-Gas Natural LNG, S.L. contemplate, as grounds for termination, a change in the controlling structure of any of the parties.

I. Agreements between the company and its directors, executives or employees contemplating compensations when the latter resign or are dismissed without cause, or if their employment relationship is terminated as a result of a takeover bid

- *Executive Directors*

The Chairman and the Secretary and General Counsel are entitled to a Deferred Economic Compensation in the event of termination of their relation with the company, provided such termination is not due to any default of their obligations or at their own desire, without any of the justifying causes contemplated in the contract. The amount of the compensation for termination of the relation is three years' total monetary remuneration.

- *Executives*

The Repsol YPF Group has established a single legal statute for its executives, set out in the Executive Contract, which regulates the compensations applicable in cases of termination of the employment relationship, contemplating as grounds for compensation those stipulated in current legislation.

For Executive Officers, these grounds include resignation by the executive following a business succession or major change in the ownership of the company, resulting in a material change in the members of the governing bodies or in the contents and approach of the principal activity of the company.

The amount of these compensations is calculated according to the age, seniority and salary of the executive, except in one case, for which compensation has been established at the equivalent of three years' total monetary remuneration.

Additional information of these matters is detailed in Note 34 to the consolidated financial statements of Repsol YPF Group.
