Expect photos to be begin being uploaded within 48 hours of the session start date.' Below this is a paragraph: 'We appreciate your patience and understanding as the thousands of photos we take each week load. While we make every effort to organize images accurately into specific teams, we suggest you scan through all the images of your camp week to look for your camper. Be sure to select "yes" or "no" on the photos of your camper to improve the facial detection settings for future photos.' Another line of text states: 'Bunk notes are printed by 6 p.m. CT. Any bunk notes submitted after 6 p.m. will be delivered with the next day's notes.' At the bottom of the update, there is a section for adding a profile photo: 'Add a profile photo of Jordyn Jackson so that our facial recognition can detect possible matches. To maximize the reliability of our facial recognition software, please upload a high resolution, closeup photo that clearly shows one face.' Below this is an 'UPDATE PHOTO >' link.
