O'NEILL CONSISTENTLY BUILDS THE HIGHEST QUALITY
WETSUITS IN THE WORLD

A CLAIM NO OTHER
WETSUIT BRAND CAN TRULY MAKE

O'NEILL 

O'Neill's Area 52 Exclusive R&D facility, staffed by full time engineering, design and prototyping teams who work closely with The World's Best Athletes to push the limits of wetsuit technology.

Area 52 allows us to hand-build and refine multiple rounds of prototypes in the same fashion that Jack himself pioneered over sixty years ago. Extensive prototyping, fit checks and testing in the frigid waters of Northern California provides unparalleled insight when creating the best fitting, most functional wetsuits on the planet. O'Neill Wetsuits is still located in Santa Cruz, California, the birthplace of modern cold water surfing and the proving ground for materials, features and benefits that keep you in the water longer. Over 60 years and countless industry firsts later, O'Neill's commitment to leading innovation continues stronger than ever.

Since The Beginning.

- Jack O'Neill -

Wetsuit Pioneer, Waterman, Board Chairman
"It's Always Summer On The Inside."

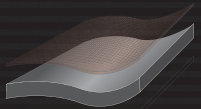

PSYCHO SERIES

TECHNOBUTTER 3 EXTERIOR JERSEY

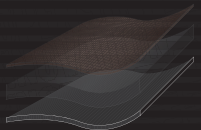

To create the best stretching, durable, soft, and hydrophobic material, we chose the finest technical yarns with permanent water resistant properties. Tough enough to withstand our rigorous testing standards, TechnoButter 3 stretches like crazy and has a buttery soft feel.

ENVY NEOPRENE FOAM RUBBER CORE

This breakthrough formula injects the maximum amount of microscopic air cells into the rubber core. These air cells make it warmer by increasing the insulation factor and lighter by decreasing mass. Envy Foam retains its structure after repeated impacts, stretches and deformities. These characteristics have never been offered in such a lightweight package.

TB3X INTERIOR JERSEY

The X-factor makes this the lightest, most stretchy neoprene ever. An exclusive form of TB3 is "pre-stretched" pulling the jersey just far enough to break the fibers apart but still hold its structure for maximum flexibility. TB3X also increases warmth with a low profile that sheds water while drying ultra fast. This new weightless tech feels so soft against your skin you'll swear you were surfing naked.

PSYCHO FREAK

The ultimate in wetsuit technology. Redesigned for 2017, the Psycho Freak gains additional heat retaining TB Firewall, and the lightest, driest neoprene ever: TechnoButter 3. Suit up with confidence in premium technology evolved from over 60 years of cold-water R&D experience.

KEY FEATURES & MATERIALS

	ZEN ZIP CLOSURE Patented system with free floating zipper panel and anti-flush barrier-2 with drain hole, keeps you warm and unrestricted. U.S. Patent #5,898,934
---	--

	F.U.Z.E. CLOSURE Front Upper Zip Entry uses the same technology as our Patented ZEN Zip closure with drain holes to keep you dry and feeling loose.
---	---

	TB-AIR FIREWALL SMOOTHSKIN The most advanced insulative neoprene available. Trapped air technology with quick dry properties. Psychotically warm.
---	---

	SUPER SEAM WELD Stitchless, 4mm silicone-based urethane seal applied to both the sides of a triple-glued seam. Lightweight, non-chafing, waterproof and flexible.
--	---

	SUPER SEAL HANDCUFFS Buttery soft premium neoprene stretches like crazy. Technical yarns and a revolutionary foam rubber core make it light & durable with quick-dry properties.
---	--

ADDITIONAL FEATURES

- RedZone water resistant zipper
- 360° Barrier with Drainholes (F.U.Z.E.)
- Anti-Flush Barrier (ZEN ZIP)
- 20% TB3
- 20% TB Air-Firewall Smoothskin
- 60% TB Firewall

MEN'S
PSYCHO TECH

Fresh for 2017 with all new TechnoButter 3 and added heat-generating TB Firewall. It's offered in a wide range of styles with the hi-tech features you need to stay warm and toasty in any condition. Psycho Tech is the hardest working wetsuit in the business.

KEY FEATURES & MATERIALS

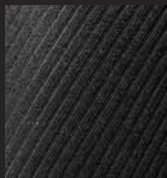

F.U.Z.E. CLOSURE

Front Upper Zip Entry (chest) uses the same technology as our Patented ZEN Zip closure with drain holes to keep you dry and feeling loose.

TB-AIR FIREWALL SMOOTHSKIN

The most advanced insulative neoprene available. Trapped air technology with quick dry properties. Psychotically warm.

TECHNOBUTTER 3

Buttery soft premium neoprene stretches like crazy. Technical yarns and a revolutionary foam rubber core make it light & durable with quick-dry properties.

FLUID SEAM WELD

8mm silicone-based urethane sealed exterior with a triple-glued and blind stitched interior. Watertight, durable, and ultra flexible seam.

ADDITIONAL FEATURES

- RedZone water resistant Zipper
- 360° Barrier with Drainholes (F.U.Z.E.)
- Double Seal Collar
- 50% TB3
- 20% TB Air-Firewall Smoothskin
- 30% TB Firewall

MEN'S
PSYCHO ONE

The team-rider favorite designed to flex. Lightweight and loaded with durable features, this suit is the ONE to have for high-performance surfing. Exceeds the rigorous testing standards of the world's best surfers and is built to last.

KEY FEATURES & MATERIALS

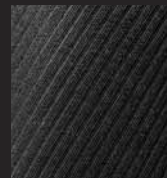

ZEN ZIP CLOSURE

Patented system with free floating zipper panel and anti-flush barrier-2 with drain hole, keeps you warm and unrestricted.
U.S. Patent #5,898,934

F.U.Z.E. CLOSURE

Front Upper Zip Entry uses the same technology as our Patented ZEN Zip closure with drain holes to keep you dry and feeling loose.

TECHNOBUTTER 3

Buttery soft premium neoprene stretches like crazy. Technical yarns and a revolutionary foam rubber core make it light & durable with quick-dry properties.

FLUID SEAM WELD

8mm silicone-based urethane sealed exterior with a triple-glued and blind stitched interior. Watertight, durable, and ultra flexible seam.

MINIMAL SEAM DESIGN

Insane flexibility, fit and durability using a unique design which utilizes larger panels and less seams.

ADDITIONAL FEATURES

- Anti-Flush Barrier (ZEN ZIP)
- 360° Barrier with Drainholes (F.U.Z.E.)
- Double Seal Collar
- 100% TechnoButter 3

 MODULAR CLOSURE

MEN'S
MUTANT

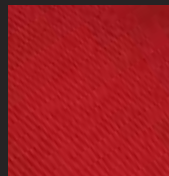

Accept no limitations. O'Neill's exclusive Modular Closure system with new dual cinch on the neck and hood closures sealing out water. This makes the Mutant the most versatile wetsuit in our line. The Mutant is constructed of UltraFlex neoprene and TechnoButter Firewall in the front and back, making it warmer and more flexible than ever before. Two suits in one, now go get some.

KEY FEATURES & MATERIALS

MODULAR CLOSURE

Modular Closure system with new dual cinch. Interchange the Neck and Hood depending upon the conditions.

TECHNOBUTTER FIREWALL

Most insulative, lightest weight, neoprene foam core ever. Water shedding exterior smooth skin with heat retaining thermal interior layer.

FLUID SEAM WELD

8mm silicone-based urethane sealed exterior with a triple-glued and blind stitched interior. Watertight, durable, and ultra flexible.

100% ULTRAFLEX

Ultra Stretch, Super soft and premium neoprene for superior feel, flexibility and high performance.

ADDITIONAL FEATURES

Single Seal Neck

Krypto Knee Padz

External Key Pocket with Loop

Plasma Wrist and Ankle Seals

Contortionist Seamless Shoulder

LSD: Lumbar Seamless Design

MEN'S HYPERFREAK COMP

All new, fully sealed, lightweight performance wetsuit featuring O'Neill's Zipless Entry Neck, New Superstretch TB3X Neoprene and O'Neill's exclusive TB3X Split Neoprene Tape. Crazy comfort, warmth and performance at an amazing value.

KEY FEATURES & MATERIALS

ZIPLESS
Lightweight Closure System Over a 360° Barrier with drain holes and Cinch Cord. Water tight seal with ease of entry and exit.

TB3X
TB3X is "pre-stretched" to maintain it's structure for premium, weightless flexibility. TB3X increases warmth with a low profile that sheds water and dries faster.

TB3X TAPE SEAM
The lightest, stretchiest neoprene seam tape ever. 0.5mm split-neoprene applied to triple-glued seams with water-based glue to keep you dry and loose.

MINIMAL SEAM DESIGN
Insane flexibility, fit and durability using a unique design which utilizes larger panels and less seams.

ADDITIONAL FEATURES

360° Barrier with Drain Holes

Double Seal Collar

60% TB3

40% TB3X

MEN'S HYPERFREAK F.U.Z.E.

The Hyperfreak F.U.Z.E. is constructed with super light TechnoButter 3 neoprene, clean graphics and modern color blocking. Featuring minimal seam design, unfinished cuffs, and durable Krypto Knee Padz, the lightweight, quality materials and attention to detail make this another team inspired favorite.

KEY FEATURES & MATERIALS

F.U.Z.E. CLOSURE
Front Upper Zip Entry (chest) uses the same technology as our Patented ZEN Zip closure with drain holes to keep you dry and feeling loose.

TB3X
TB3X is "pre-stretched" to maintain it's structure for premium, weightless flexibility. TB3X increases warmth with a low profile that sheds water and dries faster.

GBS SEAMS
Blind stitched and triple glued to create a watertight seam, for increased durability.

MINIMAL SEAM DESIGN
Insane flexibility, fit and durability using a unique design which utilizes larger panels and less seams.

MEN'S
O'ORIGINAL FULLSUIT

New for 2017, the fully sealed O'Original Fullsuit ticks all the right boxes. Classic style paired with modern technology and the best fit in the industry.

KEY FEATURES & MATERIALS

	F.U.Z.E. CLOSURE Front Upper Zip Entry (chest) uses the same technology as our Patented ZEN Zip closure with drain holes to keep you dry and feeling loose.
---	---

	SMOOTHSKIN CARBON-FIREWALL The interior thermal lining absorbs body heat in core areas and retains it due to the SmoothSkin exterior shedding water and reducing wind chill.
---	--

	ULTRAFLEX Ultra Stretch, Super soft and premium neoprene for superior feel, flexibility and high performance.
---	---

	ULTRAFLEX TAPED SEAMS Soft and durable neoprene seam tape. 0.5mm split-neoprene applied to triple-glued seams to seal out water keeping you dry and loose.

MEN'S LAYERING

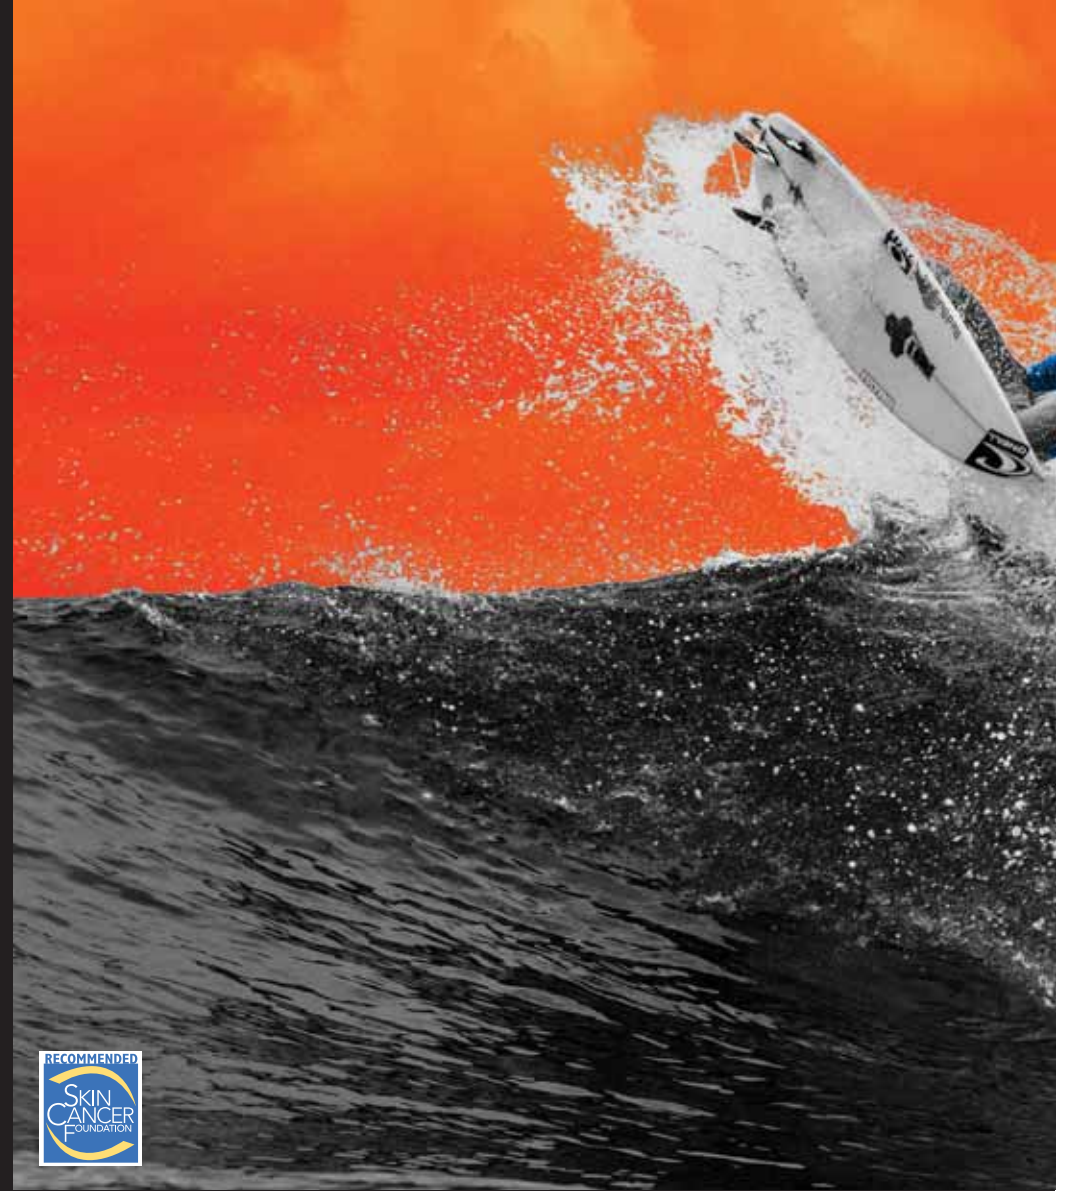

Thermo-X layering fabrics provide incredible insulation with low bulk and quick-dry properties and the redesigned Chill Killer Jacket helps you to battle the chills between surfs.

KEY FEATURE & MATERIAL

	THERMO-X HYPERDRY Max insulation with minimal water absorption and DWR Coating
	SEAMLESS PADDLE ZONES Flexible design which utilizes minimal seam placement for comfort
	ULTRAVIOLET PROTECTION 50+ U.P.F. Maximum Protection

ADDITIONAL FEATURES

- 220g Nylon/Spandex with HyperDry for maximum insulation and minimal water absorption
- Maximum core insulation
- Water repellency, odor resistance
- 4-Way stretch fabric
- Boardshort Connector
- Rash Protection
- Strategic Seamless Paddle Zones
- Super Low Neck: No interference with wetsuit neck

DON'T GET BURNED!

PROTECT YOURSELF FROM THE ELEMENTS

O'Neill's new Spring/Summer 2017 collection offers a wide array of superior quality UV protection products that keep you sheltered from the sun both in and out of the water.

The 24-7 Tech is our **Loose-Fit** series that is highly breathable and moisture wicking. The Hybrid Series is **Slim-Fit** with a very soft hand, protecting against sun fatigue during activity or relaxing between sessions. The versatile Skins and Basic Skins Series offer UV and rash protection in **Slim-Fit** and **Performance Fits**. Thinskins is perfect for the performance-minded athlete who needs added core warmth or extra rib protection.

 STAY COVERED WITH SUN PROTECTION

- Blocks over 99% of harmful UV Rays
- Protection lasts all day, unlike sunscreen
- Protection from the elements
- Ultimate in performance
- Premium quality
- Unparalleled comfort and fit
- Rider developed. Rider proven.

 O'NEILL MEN'S FIT SYSTEM

MODEL IS 180CM, 75KG WEARING A MEDIUM

The Skin Cancer Foundation recommends this fabric as an effective UV protectant.

MEN'S
ISO APPROVED VESTS

The O'Neill R&D process provides the best quality, fit and functionality in the industry. Our ISO vests continue to set new standards of excellence in design for all wake and waterski athletes.

ADDITIONAL FEATURES
Minimal Bulk Design
Strategic Armhole Size
Quick-Release Dual Safety Buckles
Mesh for Drainage
Overlock Stitched: Super-Strong Seam
Zipper Safety Tab

Low Density Polyethylene which is expanded using Nitrogen in an exclusive process which cannot be duplicated.

3x lighter than regular PVC foam

Closed cell foam structure absorbs 15-20% less water

Approximately 10% more buoyant than PVC meaning we can use less foam in each vest and it will still float the same.

MEN'S
COMPETITION VESTS*

The O'Neill 2017 Comp Vest lineup defies convention and sets a new industry standard for performance driven technology. The lightest vests in the water just got lighter, stronger and dry faster than ever.

WOMEN'S

PSYCHO TECH

Fresh for 2017 with all new TechnoButter 3 and added heat-generating TB Firewall. It's offered in a wide range of styles with the hi-tech features you need to stay warm and toasty in any condition. Psycho Tech is the hardest working wetsuit in the business.

KEY FEATURES & MATERIALS

	F.U.Z.E. CLOSURE Front Upper Zip Entry (chest) uses the same technology as our Patented ZEN Zip closure with drain holes to keep you dry and feeling loose.
	TB-AIR FIREWALL SMOOTHSKIN The most advanced insulative neoprene available. Trapped air technology with quick dry properties. Psychotically warm.
	TECHNOBUTTER 3 Buttery soft premium neoprene stretches like crazy. Technical yarns and a revolutionary foam rubber core make it light & durable with quick-dry properties.
	FLUID SEAM WELD 8mm silicone-based urethane sealed exterior with a triple-glued and blind stitched interior. Watertight, durable, and ultra flexible seam.

ADDITIONAL FEATURES

- RedZone water resistant Zipper
- 360° Barrier with Drainholes (F.U.Z.E.)
- Double Seal Collar
- 50% TB3
- 20% TB Air-Firewall Smoothskin
- 30% TB Firewall

WOMEN'S

FLAIR

The stylish Flair utilizes O'Neill's patented ZEN Zip Closure with an anti-flush barrier panel to provide a flexible, dry, user-friendly entry system. Super soft and gooey UltraFlex DS material constructed with watertight Single Fluid Seam Weld technology, coupled with FluidFlex™ Firewall, makes the Flair an amazing go-to suit for any surfer.

KEY FEATURES & MATERIALS

	ZEN ZIP CLOSURE Patented system with free floating zipper panel and anti-flush barrier-1 with drain hole, keeps you warm and unrestricted. U.S. Patent #5,898,934
	FLUIDFLEX FIREWALL The most advanced insulative neoprene available. Trapped air technology with quick dry properties. Psychotically warm.
	FLUID SEAM WELD 8mm silicone-based urethane sealed exterior with a triple-glued and blind stitched interior. Watertight, durable, and ultra flexible.
	ULTRAFLEX Ultra Stretch, Super gooey for superior feel and flexibility.

ADDITIONAL FEATURES

- Single Fluid Seam Weld (Watertight Technology)
- Plasma Wrist and Ankle Seals
- Krypto Knee Padz
- External Key Pocket with Loop
- Contortionist Seamless Shoulder

WOMEN'S
O'ORIGINAL FULLSUIT

New for 2017, the fully sealed O'Original Fullsuit ticks all the right boxes. Classic style paired with modern technology and the best fit in the industry.

 KEY FEATURES & MATERIALS

	F.U.Z.E. CLOSURE Front Upper Zip Entry (chest) uses the same technology as our Patented ZEN Zip closure with drain holes to keep you dry and feeling loose.
	SMOOTHSKIN CARBON-FIREWALL The interior thermal lining absorbs body heat in core areas and retains it due to the SmoothSkin exterior shedding water and reducing wind chill.
	ULTRAFLEX Ultra Stretch, Super soft and premium neoprene for superior feel, flexibility and high performance.
	ULTRAFLEX TAPED SEAMS Soft and durable neoprene seam tape. 0.5mm split-neoprene applied to triple-glued seams to seal out water keeping you dry and loose.

 ADDITIONAL FEATURES

- 360° Barrier w Drainholes
- Strategic Seamless Paddle Zones
- Single Seal Neck

WOMEN'S
SUPERTECH

The SuperTech F.U.Z.E. is constructed with super light TechnoButter 2 neoprene, clean graphics and insane color blocking. Featuring Lumbar Seamless Design (LSD), unfinished cuffs, and durable Krypto Knee Padz, the lightweight, quality materials and attention to detail make this another team inspired favorite.

KEY FEATURE & MATERIAL

F.U.Z.E. CLOSURE

Front Upper Zip Entry uses the same technology as our Patented ZEN Zip closure with drain holes to keep you dry and feeling loose.

TECHNOBUTTER 2

The most advanced super stretch neoprene available. 20% lighter, 30% less water absorption, improved durability with quick dry properties.

ADDITIONAL FEATURES

- GBS (Glued and Blindstitched Seam) Construction
- 360° Barrier with 3 Drainholes
- Critically Taped-Reinforced Seam Junctions
- External Key Pocket with Loop
- Strategic Seamless Paddle Zones
- Sidewinder S-Curve Seams
- Contortionist Seamless Shoulder

WOMEN'S
EPIC

The Epic has many of the same sick features as our high-end wetsuits, including 100% UltraFlex DS neoprene, double seal neck closure, LSD (lumbar seamless design) and re-engineered covert blackout zip. Clean graphics and sharp style lines make the Epic the best value in the industry.

KEY FEATURES & MATERIAL

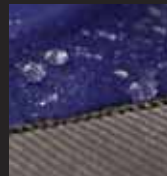

BACKZIP

Backzip entry system with Blackout zipper provides easy entry and exit with a water tight seal.

FLUIDFLEX FIREWALL

Measurably warmer, lighter and windproof exterior with water wicking interior thermal jersey layer.

GBS SEAMS

Blind stitched and triple glued to create a watertight seam, for increased durability.

ULTRAFLEX

Ultra Stretch, Super soft and premium neoprene for superior feel, flexibility and high performance.

ADDITIONAL FEATURES

PROTECT YOURSELF FROM THE ELEMENTS

O'Neill's new Spring/Summer 2017 collection offers a wide array of superior quality UV protection products that keep you sheltered from the sun both in and out of the water.

The Hybrid series is *Slim-Fit* with a very soft hand, protecting against sun fatigue during activity or relaxing between sessions. The L/S Print Hoody is our *Loose-Fit* series that is highly breathable and moisture wicking. The versatile Skins and Basic Skins Series offer UV and rash protection in *Slim-Fit* and *Performance Fits*. Thinskins is perfect for the performance-minded athlete who needs added core warmth or extra rib protection.

	STAY COVERED WITH SUN PROTECTION
	Blocks over 99% of harmful UV Rays
	Protection lasts all day, unlike sunscreen
	Protection from the elements
	Ultimate in performance
	Premium quality
	Unparalleled comfort and fit
	Rider developed. Rider proven.

FOR OVER 60 YEARS WE HAVE BEEN COMMITTED TO DEVELOPING AUTHENTIC FUNCTIONAL DIVE PRODUCTS WITHOUT EVER RESORTING TO GIMMICKS OR HYPE.

Fit is the cornerstone of wetsuit performance. A proper fit is the single most important factor in purchasing a dive suit, as a poor fit will nullify any other performance feature. Over sixty years of building wetsuits has allowed our engineering team to develop the most precise system of size grading in the industry. This technology is carefully guarded in the vaults of our Area 52 testing lab, but is now available to all by simply trying on one of our dive suits. We dare you to compare.

MEN'S & WOMEN'S
SECTOR

Minimalist Performance: the Sector has everything you need and nothing you don't. Engineered with Minimal Seam Design, 100% UltraFlex DS, Exterior Fluid Seam Weld, and Firewall Insulation, the Sector could be your new best friend and make your buddy green with envy.

ADDITIONAL FEATURES

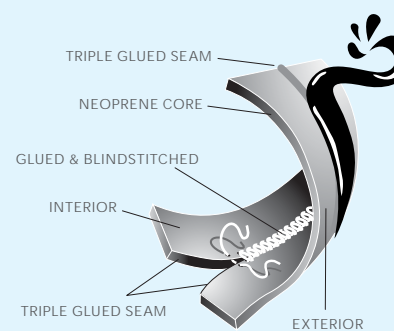

- Minimal Seam Design
- 100% UltraFlex DS
- Exterior Fluid Seam Weld-100% Sealed
- Firewall Torso Insulation Envelope
- #10 Zip with Interior Neoprene Shield
- Glideskin Face Seal
- Hidden Key Pocket
- Firewall: Chest, Back, and Center Hood
- UltraFlex DS: Shoulder, Side Panel, Sleeve, & Low Body

MNS SECTOR FSW FULL

THICKNESS	STYLE #
5mm	3995
7mm	3993
MATERIAL	UltraFlex DS

EXTERNAL SINGLE FLUID SEAM

The External Single Fluid Seam Weld is a seam seal utilizing high-grade, silicone based urethane. Applied in liquid form to the opposite side of a glued and blindstitched seam completely blocks out water without restricting flexibility.

WMS SECTOR FSW FULL

MEN'S & WOMEN'S
XPLORE

The Explore is the must-have piece for tropical dive expeditions. Featuring 100% UltraFlex DS, Firewall Chest, Glideskin O'Ring Seals, and a Utility Pocket, the Explore makes diving in a wetsuit easy by providing completely unrestricted movement, an engineered fit, lasting thermal insulation, and full body protection from the elements.

ADDITIONAL FEATURES

- UltraFlex DS and Firewall for warmth, fit and flexibility
- FLX Lumbar Flex Panel
- Strategic Flex Zones
- Plasma Padz
- Glideskin O'Ring Cuffs
- Super Seal Neck
- Expando Cuffs
- Heavy Duty #10 Zipper
- Hidden Key Pocket
- Flatloc Seams
- 3mm Firewall: Chest
- 3mm UltraFlex DS: Topsleeve, Uppersleeve & Lumbar
- 3mm Fluid Foam: Lower Body
- 1MM Glideskin: Cuffs

*HAND LENGTH: Measurement from the bottom of your palm (where it meets your wrist) to the top of your middle finger.

PALM WIDTH: Measurement of the circumference of your hand from the first knuckle line, not including the thumb.

O'NEILL WARRANTY

GENERAL WARRANTY INFORMATION AND POLICY

If the product is found to be defective under normal use and proper care, O'Neill will repair or replace the product at our sole discretion. The decision to replace or repair a product is made by the O'Neill Warranty Department after receipt of the defective product. At no time does O'Neill offer refunds. Defective product should be returned clean and dry, postage prepaid, with a completed O'Neill Warranty Repair Tag. The repair tag should include product description, product defects, requested action, return address (be sure to include postal code, especially for Canadian addresses), daytime phone number with area code, customer's name and a copy of the purchase receipt sent to the address below. Suits without a copy of the purchase receipt will **NOT BE COVERED UNDER WARRANTY**. O'Neill Warranty Repair Tags can be obtained from O'Neill by contacting Customer Service at +44 (0) 1730 811460.

THE FOLLOWING WILL NOT BE COVERED UNDER WARRANTY

- Products classified as seconds
- Fading from sunlight
- Exposure to harsh detergents/chemicals or fabric softeners.
- Alterations
- Materials over 1 year (from date of original purchase), or 90 days for accessories
- Repairs or alterations done by anyone other than O'Neill or an O'Neill authorized repair facility
- Warranty request without original receipt

PRODUCT WARRANTY

All flat-stitched products, glued and blindstitched products, and fluid seam weld products:

- Limited 1-year warranty (from date of original purchase) on workmanship and materials.

Neoprene Dry Suits, Waterproof Zipper Excluded:

- Limited 1-year warranty (from date of original purchase) on workmanship and materials.

Fabric Dry Suit, Waterproof Zipper and Latex Seals Excluded:

- Limited 1-year warranty (from date of original purchase) on workmanship and materials.

Accessories:

- Limited 90-day (from date of original purchase) warranty on workmanship and materials.

EXAMPLES OF SUITS THAT WILL BE REJECTED FOR REPAIR

The following suits will be rejected for repair and returned to the customer. Even if the customer is willing to pay for the repair, we will not accept the suit, as doing so will take away resources from valid repairs, jeopardizing their turnaround time.

Home repairs have been done, including but not limited to:

- Re-gluing of seams using Aqua Seal, or like product.
- Patching of seams using duct tape, rubber patches, or like product.
- Re-sewn seams with sewing machine or by hand using needle and thread. The suit is clearly worn and should be retired; some symptoms include but are not limited to:
- Cracked, dry neoprene
- Product has been misused or improperly cared for Generally, any excessive repairs considering the condition and age of the suit.

O'NEILL RETURNS

1. O'Neill does not accept Colour or size exchanges.
2. Any return will be charged a 20% restocking fee.
3. Product may not be returned without obtaining a Return Authorization ("RA") number from O'Neill. The RA number may be obtained by calling O'Neill Customer Service at +44 (0) 1730 811460. This RA number must be clearly visible on the outside of all returned packages. The issuance of RA's is subject to the sole discretion of O'Neill.
4. All return requests must be accompanied by the invoice/customer order number on which the goods were shipped.
5. All returned products must be shipped freight prepaid. Unauthorized and freight collect returns will be refused.
6. Authorized returns will be credited back to dealer including the discount terms after receipt of product Changes or additions to existing RA's must be approved by an O'Neill Sales Manager Unauthorized changes or additions will be returned.
7. O'Neill has the right to refuse any returned product that is damaged by any means including but not limited to improper packing or improper display methods at dealer's location, or damage caused by customers.
8. "Discounted," "Discontinued," "Seconds", and "Altered" suits are FINAL SALES ONLY. NO RETURNS FOR ANY REASON WHATSOEVER.
