

**Your Partner for seagoing
Vessels and Offshore**

We at WISKA

95 years experience as shipbuilding and industrial supplier makes us your partner when it comes to installation materials, lighting and camera surveillance. From cable glands and junction boxes, to searchlights, floodlights and reefer container sockets to CCTV camera systems, we offer you innovative products of highest quality.

WISKA – A success story

- 1919** Wilhelm Hoppmann and Hermann Mulsow produce ship installation material made of brass in their own foundry in Hamburg
- 1925** The first cable gland made of thermoset (ISOSTABIL)
- 1954** Peter Hoppmann takes over the business and in 1961 the Mulsow family leaves the company
- 1969** Relocation to Kaltenkirchen
- 1994** Market introduction of the first multiple reefer container socket
- 2000** Ronald and Tanja Hoppmann take over the management

- 2000** Foundation of WISKA UK Ltd.
- 2003** Foundation of WISKA CCTV GmbH
- 2007** Introduction of the world's first breathable cable gland VentGLAND®
- 2008** New logistics centre
- 2008** Introduction of SAP ERP software
- 2009** Foundation of WISKA India Pvt. Ltd.
- 2010** New premises for sales and product management
- 2010** New testing laboratory

- 2010** Extension of the maritime lighting range as a "single source"
- 2011** Foundation of WISKA Systems Ibérica, S. L.
- 2013** Foundation of WISKA America SRL in Asunción, Paraguay and WISKA Electric Systems (Shanghai) Co., Ltd., China
- 2014** 25 years of WISKA SPRINT cable gland system
- 2014** Expansion of the Kaltenkirchen site by the new logistics and assembly centre

We at WISKA

WISKA is your single source expert for maritime lighting and electrical equipment, as well as CCTV camera systems for industry and shipbuilding. Founded in 1919 in Hamburg, the family company now employs 220 people worldwide, including 190 in Germany. Our employees are our main asset. Whether technician,

engineer, craftsman or merchant, their technical know-how, initiative and innovative ideas are our recipe for success. They develop customised quality products for the shipping and offshore industries, transport technology, food industry, mechanical engineering, building services and energy sectors, among others.

Quality

Customer Service

Reliability

Flexibility

Innovation

Know-how "Made in Germany"

WISKA applies the highest quality standards. This is ensured by the professional competence of our employees, a thorough material selection, optimised production and logistic processes, strict testing procedures and the constant striving for becoming even better. In Kaltenkirchen, WISKA is equipped with the most modern manufacturing facilities and an own comprehensive research and development expertise. Major investments have also been made in the expansion of the site in Kaltenkirchen to include, amongst other things, plastic manufacturing

and a logistics and assembly centre. Considerable investments have taken place in a new testing laboratory, plastic production, a logistics centre and a lighting assembly.

WISKA has certified its quality management system according to ISO 9001:2008.

Sustainability

A sense of responsibility towards future generations is an important part of WISKA's corporate philosophy. The use of resource-saving material,

a closed cooling circuit and a power and office light management are just a few examples of our efforts of sustainability. Furthermore, in Kaltenkirchen, WISKA is equipped with a solar thermal plant to generate hot water. WISKA is certified according to the international environmental management standard ISO 14001:2009.

Maritime Lighting

For international shipping we offer high-performance searchlights, floodlights, external and internal lighting and explosion-proof products. Our lighting portfolio meets the comprehensive requirements for vessels.

Searchlight with xenon lamps

Protection class: IP 56
Material: Casing stainless steel with glass reflector
Operation area: Suitable for all kinds of seagoing vessels including navigation in ice conditions
Variations: Remote focus

Type	Power (W)	Range (m)	Weight (kg)
SX 450/1000	1,000	8,000	30.0
SX 450/1600	1,600	8,600	30.5
SX 450/2000	2,000	9,600	30.5

Searchlight with metal halide lamps

Protection class: IP 56
Material: Casing stainless steel with glass reflector
Operation area: Suitable for all kinds of seagoing vessels including navigation in ice conditions

Type	Power (W)	Range (m)	Weight (kg)
SH 450/1200	1,200	4,100	38.5
SH 400/575	575	3,460	25.5
SH 300/575	575	2,280	12.0

Searchlight for halogen lamps

Protection class: IP 56
Material: Casing stainless steel with glass reflector
Operation area: Suitable for all kinds of seagoing vessels
Variations: Aluminium parabolic mirror

Type	Power (W)	Range (m)	Weight (kg)
SW 450/2000	2,000	1,730	25.5
SW 400/1000	1,000	1,250	23.5
SW 300/250	250	1,140	10.0
SW 300/500	500	840	10.0
SW 300/650	650	890	10.0
SW 300/1000	1,000	1,000	10.0
SW 200/250	250	850	3.0

Power supply unit for searchlights

Protection class: IP 23 / 56
Material: Casing stainless steel
Operation area: Suitable for all kinds of seagoing vessels
Variations: Different voltages

Type	Power (W)	Voltage (V)	Weight (kg)	Remarks
PSUX	1,000 - 1,600	230	60	Xenon searchlight
PSUX-E	1,000 - 2,000	180 - 265	30	Xenon searchlight
PSUH	575 / 1,200	230	15	Metal halide searchlight

Mounting device for manual operation

Material: Stainless steel / aluminium
Operation area: Suitable for WISKA searchlights

Type	Mounting	Weight (kg)
D300	Deck	1.9
D400/450	Deck	8.2
DP300	Deck pedestal	9.3
DP400/450	Deck pedestal	18.5
C300	Cabin control	3.9
C400/450	Cabin control	10.8
CP300	Cabin control with pedestal	15.0
CP400/450	Cabin control with pedestal	21.5

Pan & tilt unit & control device for electric operation

Protection class: IP 56 / IP 23 (control device)
Operation area: Suitable for WISKA searchlights
Variations: Recessed and surface remote control devices

Type	Voltage (V)	Weight (kg)	Remark
FL20	24 / 230	13.6	For small / medium searchlight
FL51	230	29.8	For large searchlight

Suez Canal searchlight with metal halide lamps

Protection class: IP 56 / IP 68
Material: Casing stainless steel
Operation area: Suitable for all kinds of seagoing vessels, both below and above 30,000 GT, approved by Suez Canal Authority

Type	Power (W)	Range (m)	Weight (kg)
SKS 575	575	3,200	42.5

Daylight signalling searchlight with halogen lamps

Protection class: IP 56
Material: Casing polyester
Operation area: Suitable for all kinds of seagoing vessels acc. to SOLAS requirements

Type	Power (W)	Range (m) day/night	Weight (kg)	Remarks
HML-ISO 35 B	30	3,400 / 21,400	9.5	Packed in bag
HML-ISO 35 C	30	3,400 / 21,400	12.3	Packed in case

LED Multi-purpose luminaire
Protection class: IP 67 / 68
Material: Polycarbonate
Operation area: Engine room, cargo hold, weather exposed areas
Variations: 110 - 230 V, battery back-up, arctic range, light colour, power connection method

Type	Power (W)	Lampholder	Weight (kg)
4000 1x13	1x13	Module	0.4
4000 1x26	1x26	Module	0.8

LED Multi-purpose luminaire
Protection class: IP 67 / 68
Material: Polycarbonate
Operation area: Engine room, cargo hold, weather exposed areas
Variations: 110 - 230 V, battery back-up, arctic range, light colour, power connection method

Type	Power (W)	Lampholder	Weight (kg)
4000 2x13	2x13	Module	1.2
4000 2x26	2x26	Module	1.6

LED Multi-purpose luminaire
Protection class: IP 67 / 68
Material: Polycarbonate
Operation area: Engine room, cargo hold, weather exposed areas
Variations: 110 - 230 V, battery back-up, arctic range, light colour, power connection method

Type	Power (W)	Lampholder	Weight (kg)
4000 2x13	2x13	Module	1.2
4000 4x13	4x13	Module	2
4000 2x26	2x26	Module	2

Multi-purpose luminaire
Protection class: IP 67
Material: Casing steel / stainless steel, diffuser polycarbonate
Operation area: Engine room, workshop, store, cargo hold, weather exposed areas
Variations: 100 - 230 V, 50 or 60 Hz

Type	Power (W)	Lampholder	Weight (kg)
MPL 1x18	1x18	G13	2.7
MPL 2x18	2x18	G13	3.7
MPL 1x36	1x36	G13	3.9
MPL 2x36	2x36	G13	5.5

LED Multi-purpose luminaire
Protection class: IP 67
Material: Casing steel / stainless steel, diffuser polycarbonate
Operation area: Cold room
Variations: 100 - 230 V, 50 or 60 Hz

Type	Power (W)	Lampholder	Weight (kg)
MPL-LED 1x30	2x11	Module	4.2

Multi-purpose luminaire
Protection class: IP 55
Material: Casing and diffuser polycarbonate
Operation area: Indoor and outdoor areas
Variations: 100 - 230 V, 50 or 60 Hz

Type	Power (W)	Lampholder	Weight (kg)
MPL-P 1x18	1x18	G13	1.8
MPL-P 2x18	2x18	G13	2.3
MPL-P 1x36	1x36	G13	2.7
MPL-P 2x36	2x36	G13	4.2

Outside wall light
Protection class: IP 67
Material: Casing stainless steel, diffuser polycarbonate opal
Operation area: Outside areas
Variations: 220 / 230 V, 50 / 60 Hz, B15d emergency lampholder

Type	Power (W)	Lampholder	Weight (kg)
S98 1x18	1x18	G24s-2	1.8
S98 1x26	1x26	G24d-3	2.0

Multi-purpose light
Protection class: IP 68
Material: Casing PBT, globe polycarbonate
Operation area: Indoor and outdoor
Variations: Globe in various colours, electronic flash

Type	Voltage (V)	Lampholder	Weight (kg)	Remarks
2000-13	220 / 230	G24 d-1/2	0.9	13 W / 18 W
2000-18	220 - 240	G24 q-1/2	0.7	13 W / 18 W
2000-13	12 / 24	G24 q-1/2	0.7	13 W / 18 W
2000/B	12 / 24 / 220 / 230	-	0.6	-
2000/E27	230	E27	0.6	max. 75 W

HNA standard light
Protection class: IP 56
Material: Casing brass, globe polycarbonate
Operation area: Indoor and outdoor
Variations: Globe in various colours, options of cable glands

Type	Power (W)	Lampholder	Weight (kg)
1131/CR/1974	max. 60	E27	0.7
1131/CR/1975	max. 60	B22	0.7

HNA standard light
Protection class: IP 56
Material: Casing brass, globe glass
Operation area: Indoor and outdoor
Variations: Globe in various colours, options of cable glands

Type	Power (W)	Lampholder	Weight (kg)
1131/gK/1974	max. 100	E27	1.3
1131/gK/1975	max. 100	B22	1.3

HNA standard light
Protection class: IP 56
Material: Casing brass, globe glass
Operation area: Indoor and outdoor
Variations: Globe in various colours, options of cable glands

Type	Power (W)	Lampholder	Weight (kg)
1017/gK/1984	max. 25	E14	0.7
1017/gK/1985	max. 25	B15d	0.7

Flat ceiling light
Protection class: IP 56
Material: Casing brass, globe glass
Operation area: Indoor and outdoor

Type	Power (W)	Lampholder	Weight (kg)
1026/1974	max. 100	E27	4.9
1026/1975	max. 100	B22	4.9

Lower deck light
Protection class: IP 56
Material: Casing brass, globe glass
Operation area: Lower deck
Variations: Options of cable glands, globe in various colours

Type	Power (W)	Lampholder	Weight (kg)
1031/1974	max. 100	E27	1.5
1031/1975	max. 100	B22	1.5

Floodlight brass for halogen lamps
Protection class: IP 56
Material: Casing brass, bracket stainless steel
Operation area: Weather deck, cargo hold

Type	Power (W)	Lampholder	Weight (kg)	Remarks
MS500/24	max. 2x100	2xG6,35	6.0	24 V
MS500	max. 500	R7s	6.0	230 V
MS1000	max. 1,000	R7s	13.0	230 V

Floodlight brass for halogen and HPS lamps
Protection class: IP 68
Material: Casing brass, bracket stainless steel
Operation area: Floating dock, cargo hold

Type	Power (W)	Lampholder	Weight (kg)	Remarks
DoS400	max. 1,000	E40	15.4	Halogen lamp
DoS400/ZG	max. 400	E40	15.5	HPS lamp

Floodlight aluminium for halogen lamps
Protection class: IP 66
Material: Aluminium
Operation area: Weatherdeck, cargo hold, engine room

Type	Power (W)	Lampholder	Weight (kg)
WAL1000	max. 1,000	R7s	4.3

Floodlight aluminium for HPS lamps
Protection class: IP 66
Material: Aluminium
Operation area: Weatherdeck, cargo hold, engine room

Type	Power (W)	Lampholder	Weight (kg)
WAL 400	max. 400	E40	19.3

Swivelling floodlight brass
Protection class: IP 56
Material: Casing and bracket brass
Operation area: Weather exposed areas

Type	Power (W)	Lampholder	Weight (kg)	Remarks
1500/1974	max. 100	E27	4.2	Incandescent lamp
1500/1975	max. 100	B22	4.2	Incandescent lamp

Cargo cluster light
Protection class: IP 21
Material: Steel / brass
Operation area: Technical area, cargo hold

Type	Power (W)	Lampholder	Weight (kg)
1022/5/1953	max. 5x100	5xE27	3.4
1022/5/1956	max. 5x100	5xB22	3.4

Floodlight stainless steel for halogen lamps
Protection class: IP 67
Material: Casing stainless steel
Operation area: Engine room, cargo hold, weather exposed areas

Type	Power (W)	Lampholder	Weight (kg)
ES-HA 1x200	max. 200	R7s	3.7

Floodlight stainless steel for halogen lamps
Protection class: IP 67
Material: Casing stainless steel
Operation area: Engine room, cargo hold, weather exposed areas

Type	Power (W)	Lampholder	Weight (kg)
ES-HA 1x500	max. 500	R7s	5.5

Floodlight stainless steel for halogen lamps
Protection class: IP 67
Material: Casing stainless steel
Operation area: Engine room, cargo hold, weather exposed areas

Type	Power (W)	Lampholder	Weight (kg)	Remarks
ES-HA 1x1000 NB	max. 1,000	R7s	6.8	Narrow beam
ES-HA 1x1000 WB	max. 1,000	R7s	6.8	Wide beam

Floodlight stainless steel for MH lamps
Protection class: IP 67
Material: Casing stainless steel
Operation area: Engine room, cargo hold, weather exposed areas, lashing bridge

Type	Power (W)	Lampholder	Weight (kg)	Remarks
ES-DL-PU-1x70	1x70	R7sX	5	Integrated ballast unit

Floodlight stainless steel for HPS / MH lamps
Protection class: IP 67
Material: Casing stainless steel
Operation area: Engine room, cargo hold, weather exposed areas

Type	Power (W)	Lampholder	Weight (kg)	Remarks
ES-DL 1x400 NB	max. 400	E40	7.3	Narrow beam
ES-DL 1x400 WB	max. 400	E40	7.3	Wide beam

Floodlight stainless steel for HPS / MH lamps
Protection class: IP 67
Material: Casing stainless steel
Operation area: Engine room, cargo hold, weather exposed areas

Type	Power (W)	Lampholder	Weight (kg)	Remarks
ES-DL 2x400 NB	max. 2x400	E40	14.0	Narrow beam
ES-DL 2x400 WB	max. 2x400	E40	14.0	Wide beam

Floodlight stainless steel for HPS / MH lamps
Protection class: IP 67
Material: Casing stainless steel
Operation area: Engine room, cargo hold, weather exposed areas

Type	Power (W)	Lampholder	Weight (kg)	Remarks
ES-DL 1x1000 NB	max. 1,000	E40	12.2	Narrow beam
ES-DL 1x1000 WB	max. 1,000	E40	12.2	Wide beam

Floodlight stainless steel for HPS / MH lamps with incorporated ballast
Protection class: IP 67
Material: Casing stainless steel
Operation area: Engine room, cargo hold, weather exposed areas
Variations: 100 · 230 V, 50 or 60 Hz

Type	Power (W)	Lampholder	Weight (kg)	Remarks
ES-DL-PU-1x250 NB	max. 250	E40	18.8	Narrow beam
ES-DL-PU-1x250 WB	max. 250	E40	18.8	Wide beam
ES-DL-PU-1x400 NB	max. 400	E40	20.0	Narrow beam
ES-DL-PU-1x400 WB	max. 400	E40	20.0	Wide beam

Watertight ballast unit for HPS / MH floodlights
Protection class: IP 67
Material: Casing stainless steel
Operation area: Engine room, cargo hold, weather exposed areas
Variations: 100 · 230 V, 50 or 60 Hz

Type	Power (W)	Weight (kg)	Remarks
ES-PU 1x250	max. 250	10.6	50 or 60 Hz
ES-PU 1x400	max. 400	10.8	50 or 60 Hz
ES-PU 2x250	max. 2x250	18.8	50 or 60 Hz
ES-PU 2x400	max. 2x400	18.8	50 or 60 Hz
ES-PU 1x1000	max. 1,000	15.8	50 or 60 Hz

Portable hand lamp

Protection class: IP 56
Material: Casing polycarbonate, globe glass
Operation area: Workshop, engine room
Variations: Coloured glasses

Type	Power (W)	Lampholder	Weight (kg)
533/1/1974	max. 75	E27	0.9
533/1/1975	max. 75	B22	0.9

Navigation light, single tier in compliance with COLREG 1972

Protection class: IP 56
Material: Casing polyamide, screen stainless steel, lense PMMA
Operation area: For vessels > 50 m
Variations: 24, 115 and 230 V

Type	Power (W)	Lampholder	Weight (kg)	Remarks

Electrical Installation

Since 1919 WISKA have produced a comprehensive range of electrical installation products for vessels. From HNA to innovative cable glands or reefer container sockets. Our research and development of new products is based on many years experience in this area.

HNA Junction box
Protection class: IP 56
Material: Brass
Standard: DIN 89250

Type	Voltage (V)	Current (A)	Weight (kg)	Cable Entry
1150	500	16	0.7	0=
1151	500	16	0.6	-0-
1155	500	16	0.9	=0=
1156	500	16	0.8	-0=

Junction box
Protection class: IP 56
Material: Brass
Variations: With cable glands and terminals on request

Type	L x W x H internal (mm)	L x W x H mounting (mm)	Weight (kg)
693	90x90x58	142x112x77	1.5
694	119x99x62	170x145x88	2.9
696	246x196x95	288x255x121	9.5
696/H	232x182x133	288x255x148	9.8
697	340x240x169	413x313x175	18.0
MB-B4	174x174x81	200x188x89	4.7

HNA Switch
Protection class: IP 56
Material: Brass
Standard: DIN 89270
Variations: Change over switch, 1 pole and on-off switch 2-pole, multi-circuit switch, four-way switch, on-off switch, 2-pole, 16 A (not according to standards)

Type	Voltage (V)	Current (A)	Weight (kg)	Cable Entry
1133	250	10	0.8	0-
1133/2	250	10	0.9	0=
1133/D	250	10	0.9	-0-
1133/3	250	10	1.0	-0=

HNA Switch with control light
Protection class: IP 56
Material: Brass
Variations: Change over switch, 1 pole and on-off switch 2-pole, multi-circuit switch, four-way switch, on-off switch, 2-pole, 16 A (not according to standards), control lights green and red

Type	Voltage (V)	Current (A)	Weight (kg)	Cable Entry
1138	250	10	1.0	0=

Rotary on-off and change-over switch
Protection class: IP 56
Material: Brass
Variations: Options of cable glands

Type	Voltage (V AC)	Current (A)	Weight (kg)	Cable Entry	Remarks
2066	380	16	1.7	0-	On-off switch, 2 pole
2067	380	16	1.8	0-	Change-over switch, 2-pole, off-position
2068	380	16	1.8	0-	Change-over switch, 2-pole, without off-position
3066	380	16	1.7	0-	On-off switch, 3-pole
3067	380	16	1.8	0-	Change-over switch, 3-pole, with off-position

Rotary on-off and change-over switch with 3-pole switch
Protection class: IP 56
Material: Brass

Type	Voltage (V AC)	Current (A)	Weight (kg)	Cable Entry	Remarks
40/2/AE	380	40	3.6	0=	Also available for voltage up to 500 V

Push / signal button, 2-pole
Protection class: IP 56
Material: Brass
Variations: AR = 1 closing contact, 1 breaking contact, AA = 2 closing contacts, RR = 2 breaking contacts, black, red and green push buttons and 3rd switching level

Type	Voltage (V AC)	Current (A)	Weight (kg)	Cable Entry
720	230	16	0.9	0-
720/2	230	16	0.9	0=
720/D	230	16	0.9	-0-

Push / signal button with control light, 2-pole
Protection class: IP 56
Material: Brass
Variations: AR = 1 closing contact, 1 breaking contact, AA = 2 closing contacts, RR = 2 breaking contacts, black, red and green push buttons, red and green lights and 3rd switching level

Type	Voltage (V)	Current (A)	Weight (kg)	Cable Entry
721	230 AC	16	1.0	0=
721	24 DC			0=

Emergency-off push button, 2-pole

Protection class: IP 56
Material: Brass
Variations: AR = 1 closing contact, 1 breaking contact (10A), AA = 2 closing contacts, RR = 2 breaking contacts, 3rd switching level

Type	Voltage (V AC)	Current (A)	Weight (kg)	Cable Entry
722	230	16	1.0	0-
722/2	230	16	1.0	0=
722/D	230	16	1.0	-0-

Push and signal button 2- and 3-gang; 1- or 2-pole

Protection class: IP 56
Material: Brass
Variations: AR = 1 closing contact, 1 breaking contact, AA = 2 closing contacts, RR = 2 breaking contacts, black, red and green push buttons and 3rd switching level

Type	Voltage (V AC/DC)	Current (A)	Weight (kg)	Cable Entry

Morse key with setting device, 2-pole

Protection class: IP 56
Material: Brass

Type	Voltage (V AC)	Current (A)	Weight (kg)	Cable Entry
3010/F	230	6	1.2	0-

HNA-socket, 2-pole +E

Protection class: IP 56
Material: Brass
Standard: DIN 89262
Variations: Screw cap in brass and polyamide, 150 V

Type	Voltage (V AC)	Current (A)	Weight (kg)	Cable Entry
1141	250	16	0.9	-0
1141/R	250	16	0.9	0-
1141/2	250	16	1.1	=0
1141/2/R	250	16	1.1	0=
1141/D	250	16	1.0	-0-

HNA-socket box, 2-pole +E

Protection class: IP 56
Material: Brass
Standard: DIN 89262
Variations: Screw cap in brass and polyamide, 150 V, ../2=2 sockets, ../ 3=3 sockets

Type	Voltage (V AC)	Current (A)	Weight (kg)	Cable Entry
1143/2	250	16	2.5	-0-
1143/3	250	16	2.8	-0-

Socket for testing board, 2-pole +E

Protection class: IP 56
Material: Brass
Variations: Screw cap in brass and polyamide, 150 V

Type	Voltage (V AC)	Current (A)	Weight (kg)
1148	250	16	0.4

Concentric socket, 2-pole

Protection class: IP 56
Material: Brass
Variations: Screw cap in brass and polyamide

Type	Voltage (V DC)	Current (A)	Weight (kg)	Cable Entry
110	50	10	0.8	-0
110/R	50	10	0.8	0-
110/D	50	10	0.9	-0-

Concentric socket box, 2-pole

Protection class: IP 56
Material: Brass
Variations: Screw cap in brass and polyamide

Type	Voltage (V DC)	Current (A)	Weight (kg)	Cable Entry
1147	50	10	2.5	-0-

Concentric socket with central plug-in, 2-pole
Protection class: IP 56
Material: Brass
Variations: Screw cap in brass and polyamide, version DK104 for flush-mounting

Type	Voltage (V DC)	Current (A)	Weight (kg)	Cable Entry
104	50	10	0.8	0-
104/2	50	10	0.9	0=
104/D	50	10	0.9	-0-

HNA-socket with switch, 2-pole
Protection class: IP 56
Material: Brass
Standard: DIN 89263
Variations: Change over switch, 1 pole DIN 89322-6/1 and on-off switch 2-pole DIN 89322, on-off switch, 2-pole, 16 A (not according to standards), 150 V, screw cap in brass and polyamide

Type	Voltage (V AC)	Current (A)	Weight (kg)	Cable Entry
1144	250	10	1.2	-0
1144/R	250	10	1.2	0-

VARITAIN Reefer Container Sockets

Continuous product innovations and high quality since 1994 are the main reasons why WISKA VARITAIN nowadays is used as a synonym for reefer container sockets by many customers.

Reefer Container Sockets by WISKA

Since the market launch of the first WISKA multiple reefer container sockets in 1994, as one of the leading suppliers worldwide, WISKA has significantly determined their further development by numerous innovations and set new standards again and again.

VARITAIN PushIn Generation

The latest generation of WISKA VARITAIN simplifies the operation of the reefer sockets significantly and thus, enhances the OneTouch Principle in an innovative way. Besides the famous WISKA single-handed operation, VARITAIN PushIn cuts down a separate operation of the circuit breaker and makes replacing spare parts a child's game.

VARITAIN PushIn Principle

- **Unforgettable:** Just push in. The integrated circuit breaker is automatically switched on after plug-in. No separate turn on and off is needed anymore and therefore ensures power supply to the reefer container
- **Safe:** The PushIn technology ensures that voltage is only supplied after plug-in and automatically switched off after plug-out according to ISO 1496-2

VARITAIN PushIn

- Quick & easy: VARITAIN PushIn has one spare part module, which replaces formerly three single ones: Only one component, containing the MCCB circuit breaker, flange and socket insert, needs to be replaced. Replacing spare parts becomes a child's game, even in roughest sea conditions
- No external moving components
- High quality: Specially adjusted WISKA circuit breaker
- One circuit breaker per outlet featuring 10 – 100 kA short-circuit-breaking capacity
- High IP 67 quality
- Made in Germany
- Economic maintenance costs due to extraordinary long service life
- Easy: LED reports the current status
- Long-life: The WISKA VentPLUG pressure compensation unit ensures constant pressure equalization between the interior and exterior and thus, minimizes the risk of condensation water (optional)
- Patent pending
- GL approval

VARITAIN PushIn

Type	A (mm)	B (mm)	C (mm)	D (mm)	E (mm)	F (mm)	G (mm)	H (mm)	I (mm)	Cable Gland

PushIn Mobile Splitter

To maximize the capacity of existing reefer container sockets, WISKA offers a safe and easy-to-use mobile splitter. Compared to most conventional mobile solutions, PushIn Mobile Splitter makes sure that the socket is not under power when the plug is inserted or disconnected. It is an internationally standardized CEE socket device compliant with IEC 60309. To underline this product's safety, it has been approved by DNV GL.

Enlargement of reefer capacity at its safest

For your safety - DNV GL approved

PushIn technology from WISKA guarantees you highest safety standards – just like the VARITAIN PushIn reefer container socket from WISKA, the mobile splitter has been approved by DNV GL. Power is only supplied after plug-in and automatically switched off after plug-out – which means the plug cannot get connected or disconnected under power.

More capacity

Modern reefer containers have a reduced power consumption which allows to maximize capacity on container vessels by mobile splitters without changing electrical infrastructure at all.

Quick and easy

PushIn Mobile Splitter does not need any technical installation or material – no extra cables, no fixing material, no laborious setup operations – just a user-friendly installation and assembly set, included in delivery as standard.

Highly flexible

PushIn Mobile Splitter can be installed by the crew wherever you need it – it can easily be moved from one vessel to another.

Up-to-date technology

PushIn Mobile Splitter uses the PushIn technology of WISKA – proven successfully a thousands of times on board: Just PushIn.

PushIn Mobile Splitter

- Type:** 2 sockets 32 A, 3 poles +E, 3 h acc. to IEC 60309, both individually fused with a MCCB 25 kA and 20 A
- Operating voltage:** 440 V
- Frequency:** 50 - 60 Hz
- Protection class:** IP 66 / 67
- Temperature range:** -40 °C - 55 °C
- Material:** Casing of 1.4301 stainless steel, both sides powder-coated, colour pure white RAL 9010
- Impact resistance:** IK 10 acc. to EN 50102
- Scope of delivery:** 1 plug 32 A, 3 poles +E, 3 h acc. to IEC 60309-1 (DIN EN 60309-1; VDE 0623-1), IEC 60309-2 (DIN EN 60309-2; VDE 0623-2) cable 6 mm², 2 m cable gland with high strain relief carrier handle easy mountable fixture set

SPRINT Cable Glands

WISKA cable glands are known for their quality, innovative solutions and flexible application. Innovations such as the breathing cable gland VentGLAND® set new standards worldwide. WISKA products are utilised in diverse industrial applications throughout the world.

SPRINT Cable Glands

25 years of WISKA SPRINT

In 2014 WISKA's internationally successful SPRINT cable gland system is celebrating its 25th anniversary. What began with the first SPRINT cable gland a quarter of a century ago, is today a comprehensive system for a wide range of applications. All thanks to the fact that the SPRINT system has been continuously further developed by our in-house research department.

Main features

- Polyamide / EPDM (ESKV), Brass nickel-plated / EPDM (EMSKV), Stainless Steel (ESSKV; 1.4305, 1.4404)
- IP 69K, IP 68, strain relief, vibration-proof
- Standard: EN 50262, UL 514B
- Approvals: VDE, GL, UR-US, UR-CSA, GOST-R
- Only one assembly tool needed, whether using a metal or a polyamide gland
- No difference or reduction in clamping range between metal and polyamide
- All sealing inserts (reduction and multiple) suitable for metal and polyamide glands
- Variations:
 - ESKV and EMSKV series with external strain relief, bend protection, ATEX and IECEx glands, EMC solutions, pressure compensation (VentGLAND®)
 - Threads: metric, maritime metric (MMSKV, M16 - M56, DIN 89280), PG and NPT
 - Standard colours of polyamide RAL 7035, 9005 and 7001, others on request
 - Wide range of accessories

Pressure Equalization

The solution against condensation

With its venting products, WISKA has developed a solution, which follows nature by example. With the help of a breathable ePTFE membrane, which is air permeable and watertight at the same time, constant pressure equalization can occur between the interior and the exterior of the enclosure. Condensation is minimized.

Your advantages

- High-class venting devices for on-deck installations, e. g. multi-purpose luminaires
- Minimized condensation in weather exposed installations on-board, reduction of resulting operating failures and expensive repairs
- No expensive and high maintenance ventilation systems

CCTV Maritime Camera Surveillance

WISKA CCTV is specialized in maritime computer-controlled digital CCTV solutions for the roughest environmental conditions. Wherever a trouble-free, easy to use and long lasting safety & security system is requested, WISKA CCTV is setting new standards.

CCTV Systems for Maritime Applications

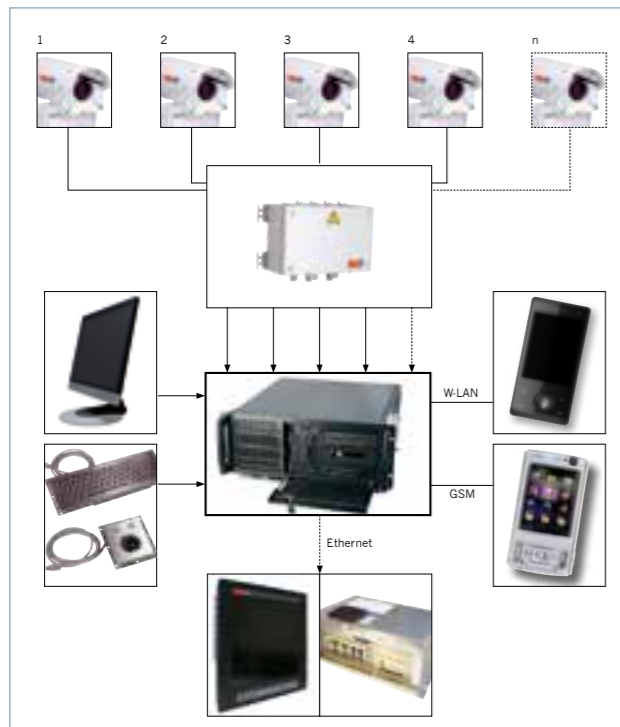

WISKA is one of the leading manufacturers of computer-controlled CCTV systems for commercial shipping and all maritime surroundings. Camera surveillance systems from WISKA have been developed for worldwide use on commercial vessels, passenger ships, offshore platforms as well as in offshore windparks. For every application, we offer custom-made solutions and this way, set new standards in maritime safety and security.

Our CCTV system guarantees extensive and continuous monitoring of safety-relevant areas. Network-based recording ensures that pictures from the cameras may be saved digitally in real time.

WISKA offers analogue, digital and hybrid camera surveillance systems with special functions such as pan & tilt units, wash & wipe and connection to external alarm management systems as well as controlling of our WISKA high-performance searchlights.

Wherever trouble-free, easy to operate and long-life security systems are needed – even under the most adverse conditions – CCTV products from WISKA suit best.

For bringing into service and after-sales service, we provide you with our own service staff. We own worldwide service stations, partly also operated by our subsidiaries, who guarantee you fast response times and uncomplicated processing.

Your advantages

- High-resolution digital CCTV system
- Analogue and hybrid system available on request
- Germanischer Lloyd (GL) certified cameras and system components
- Extreme operating temperatures from -60 °C to 75 °C
- Standard protection class for enclosures of up to IP 68 and IP 69K
- Surface-treated and sea-water resistant enclosures (stainless steel, for example)
- All components are vibration-proof (partly shock tested) and EMC-proven
- Intuitively-to-operate software (Windows-based)
- Alarm management system and motion detection
- Providing interfaces to third systems
- Usage of existing PC and network structures by client software

WISKA CCTV software

Our WISKA CCTV-server-client-mobile software is the heart of our modern CCTV solutions.

Key characteristics

- Hybrid use of analogue and network cameras
- Bus-controlled system components – wash & wipe, pan & tilt, zoom, focus, iris and different other camera function(according to product type)
- Real-time surveillance and recording (at the same time)
- Client software for Windows and iOS (stationary or mobile)
- Motion detection
- Alarm management system
- Integration of site plans (editable)
- Intuitive operation

The WISKA COM4SHIP® and CCTV-server-software is the digital video recording system for CCTV cameras. The software for administration of the CCTV systems consists of three independent applications. The CCTV server processes camera pictures, administers user accounts and controls cameras. The second component is used as a client application on laptops and PCs on board: These may be connected to the server and remote controlled within a local network. The mobile application has been developed for mobile devices such as cell phones and tablet PCs allowing to access camera pictures from around the globe using the CCTV mobile software.

Outdoor camera station for marine use - remote pan / tilt

Operation area: Gangway, mooring, navigation
Material: Stainless steel, powder coated
Components: Camera station w/ junction box 5 m pre-wired, remote pan / tilt FL20
Variations: Up-side-down mounting
Temperature range / IP: -30 °C - 55 °C, IP 68
Video resolution: All data at 25 fps

Type	Function	Video Resolution	Power Source
CH-SW260/Q1755/FL20P/WTC	Pan / Tilt / Zoom / Wash / Wipe / Preset	IP- HDTV 1080i	POE / WTC

Outdoor camera station full StSt for marine use - remote pan / tilt

Operation area: Gangway, mooring, navigation
Material: Stainless steel, powder coated
Components: Camera station w/ junction box, 5 m pre-wired, remote pan / tilt FL5 (stainless steel)
Temperature range: -30 °C - 55 °C, IP 68
Video resolution: All data at 25 fps

Type	Function	Video Resolution	Power Source
CH-S240/ZN-M2/FL5	Pan / Tilt / Zoom / Preset	IP - HDTV 1080p	POE / IBS2020

CH-S240/ZN-M2/D200AS	Swivel / Zoom	IP - HDTV 1080p	POE / IBS2020
CH-S240/980/D200AS	Swivel / Zoom	Analogue - SDTV	IBS4020

Outdoor compact camera station for marine use - manual adjustable

Operation area: Gangway, winch, work area
Material: Seawater resistant aluminium, anodized
Components: Camera station w/ junction box, 10 m pre-wired and stainless steel bracket
Variations: Magnetic base
Temperature range / IP: -60 °C - 75 °C, IP 68 / IP 69K
Video resolution: All data at 25 fps

Type	Angle of View (H)	Video Resolution	Power Source
MC3020A/OS1000	20 °, mono focal	Analogue 320K pixel	IBS1515

Dome camera for marine use - fix

Operation area: Gangway, mooring, navigation
Material: PCB / polycarbonate
Temperature range: -30 °C - 55 °C, IP 68
Video resolution: All data at 25 fps

Type	Angle of View (H)	Video Resolution	Power Source
D11/VC2MP/POE/IN	70 °	IP - HDTV 1080p	POE
D11/VC2MP/OUT	70 °	IP - HDTV 1080p	IBS1515
D11/1200TVL/IN	58 °	Analogue SDTV	IBS1515
D11/1200TVL/OUT	58 °	Analogue SDTV	IBS1515

Indoor dome camera for marine use - remote pan / tilt

Operation area: Accommodation, E/R, ECR
Material: Aluminium, powder coated
Components: Camera station w/ junction box, without junction box up to 200 m cable
Variations: Internal mounting
Temperature range / IP: 0 °C - 55 °C, IP 66
Video resolution: All data at 25 fps

Type	Function / Angle of View (H)	Video Resolution	Power Source
D16-2/PTZ/1515	Pan / Tilt / Zoom / Preset	Analogue - SDTV	IBS1515

Outdoor thermal full IP network camera station for marine use - remote pan / tilt

Operation area: Gangway, mooring, navigation
Material: Stainless steel, powder coated
Components: Uncooled micro bolometer
Variations: Up-side-down mounting
Temperature range / IP: -30 °C · 55 °C, IP 68

Type	Function	Detection Size: 2.3 x 2.3 m (m)	Lens (mm) / Angle of View (H)
CH-T260/Q19xx-10/FL20P/4020	Pan / Tilt / Zoom / Preset	515	10 / 55 °
CH-T260/Q19xx-19/FL20P/4020	Pan / Tilt / Zoom / Preset	950	19 / 29 °

CH-T260/Q19xx-35/4020	Swivel / Zoom	1,760	35 / 15 °
CH-S350/Q19xx-60/4020	Swivel / Zoom	3,020	60 / 9 °

Ex outdoor PTZ flame proof camera station Zone 1 (ATEX)

Operation area: Zone 1, flame proof "d"
Material: Stainless steel, powder coated
Temperature range / IP: -30 °C · 55 °C, IP 68
Option*: Wash

Type	Function	Video Resolution	Approval
CS-EXD/980/WIPE	Pan / Tilt / Zoom / Wipe / Preset	Analogue · SDTV	IECEX
CS-EXD/980	Pan / Tilt / Zoom / Preset	Analogue · SDTV	IECEX
CS-EXD/ZN-M2/WIPE	Pan / Tilt / Zoom / Wipe / Preset	IP · HDTV 1080p	IECEX
CS-EXD/ZN-M2	Pan / Tilt / Zoom / Preset	IP · HDTV 1080p	IECEX

Ex Outdoor flame proof camera station Zone 1 - manual pan / tilt

Operation area: Zone 1, flame proof, IP 6x (ATEX)
Material: Stainless steel, powder coated
Components: Camera station w/ wiper manual pan / tilt D300AS, 5 m pre-wired cable
Variations: Up-side-down mounting
Temperature range / IP: -30 °C · 55 °C, IP 66 / IP 68

Type	Function	Video Resolution	Approval
CH-EX260/xxx	Swivel / Zoom / Wipe	Analogue · SDTV	IECEX / ATEX
CH-EX260/w/D300AS	Swivel / Zoom	Analogue · SDTV	IECEX / ATEX
CH-EX260/Q1755/D300AS	Swivel / Zoom (opt. 12x) / Wipe	IP · HDTV 1080i	IECEX / ATEX
CH-EX260/ZN-M2/D300AS	Swivel / Zoom (opt. 5x)	IP · HDTV 1080i	IECEX / ATEX

Ex Outdoor compact camera station Zone 2 - manual adjustable

Operation area: Zone 2, II3G Ex nR II T6, II3D Ex tD A22 IP 65 T80°C
Material: Seawater resistant aluminium, anodized
Components: Stainless steel bracket, adjustable
Variations: Up-side-down mounting
Temperature range / IP: -60 °C · 75 °C, IP 69K
Video resolution: All data at 25 fps

Type	Angle of View (H)	Video Resolution	Cable (m)
MC3100A/OS20000	100 °, mono focal	Analogue 320K pixel	20 m w/plug
MC3100A/OS40000	100 °, mono focal	Analogue 320K pixel	40 m w/plug

Wash water tank & junction boxes for camera station

Operation area: All camera stations
Material: Stainless steel, powder coated
Variations: Integrated wash water tank
Temperature range / IP: -30 °C · 55 °C, IP 67
 IP for wash water housing: IP 56

Type	Function	For Camera Station
WTC	Combined junction box and 10 l wash water tank	CH-SW/xx
IBS4020	Junction box, 5 m cable pre-wired	CH-S/xx
IBS2020	Junction box, 5 m cable pre-wired	CH-S/xx
IBS1515	Junction box, 5 m cable pre-wired	CH-S/xx, D16, MCxx

CCTV Server and work station

Operation: Monitoring, recording, control, alarm
Brands: First choice industrial components
Video Components: 24/7 and automotive, shock and vibration protected
Operating System (OS): WINDOWS®
Temperature range / IP: 0 °C · 55 °C, IP 22

Type	Function	Type Approval
COM4SHIP II - server	Monitoring, recording, control, alarm, network	Acc. to GL
CLIENT4SHIP	Monitoring, recording, control, alarm, network	Acc. to GL
HP-client	Monitoring, recording, control, alarm, network	GL - IEC 60945

All Server and client computer with latest processor technology. Hard- and software project customized

CCTV TFT monitor

Brands: First choice industrial components
Mounting Variations: Console, desk-top-bolt, ceiling and wall mounting
Temperature range: 0 °C · 55 °C
Option: Touch screen

Type	Function	Type Approval
TFT17/HD/CONSOLE/IEC60945	17" TFT, VGA and DVI, zero dimming	GL - IEC 60945
TFT19/HD/CONSOLE/IEC60945	19" TFT, VGA and DVI, zero dimming	GL - IEC 60945
TFT24/HD/CONSOLE/IEC60945	24" TFT, VGA and DVI, zero dimming	GL - IEC 60945
TFT19/HP/DH/Desk	19" TFT VGA and DVI	none
TFT23/HP/DH/Desk	23" TFT VGA and DVI	none

Keyboard and trackball

Properties: Vandal-proof, IP 65
Mounting Variation: Console mounting only
Ports: USB or PS/2

Type	Function	Key / Ball diam. (mm)	Material
RCU/012/AL/TRACKBALL	Keyboard and trackball combination	12 / 38	Aluminium
RCU/009/AL/TRACKBALL	Keyboard and trackball combination	9 / 38	Aluminium
KEYBOARD/CONSOLE/BLACK/US/Trackball/USB	Keyboard and trackball combination	65 / 38	Stainless steel

Network-bus RS485/422 full duplex remote control unit

Operation: Searchlight, camera and its combination
Technology: Bus, VISCA PPP, RS485/422, Ethernet
Features: Joystick 8-way bi-direction control, device selection, presets, Illuminated keys, dimmable to zero, zoom, wash / wipe
Temperature range / IP: -20 °C · 55 °C

Type	Function	Devices	Mounting
RCU200	Full searchlight and camera control	up to 7 devices	Desk top

The WISKA range of products

CCTV: Maritime Camera Surveillance

Digital CCTV technology
 Safety and Security Systems

Maritime Lighting & Electrical Equipment

Searchlights and Signalling Searchlights
 Pan and tilt units
 Floodlights and lighting fixtures
 Installation material of plastic, aluminium, brass and stainless steel

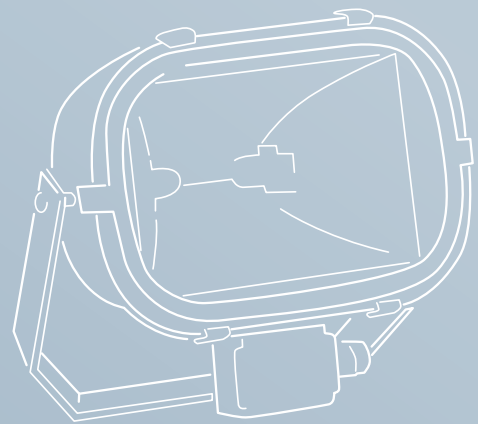

- HNA material
- Junction boxes, Switches, Sockets

 EX Lighting
 EX Junction Boxes, EX Switches, EX Sockets
 Reefer Container Sockets
 CEE devices

Cable Glands & Junction Boxes

Standard glands / accessories
 Special glands (EMC, EX, Pressure compensation, Hygienic Design) / accessories
 Maritime glands acc. to DIN 89280
 Boxes
