### Maple Equipment and Syrup

656 Tower Drive Cadott, WI 54727  
(715) 289-3820 Fax: (715) 289-3821

Hello Fellow Sugarmakers,

Hopefully this catalog finds all of you happy and healthy and ready to MAKE SOME SYRUP! With the 2024 season almost upon us we here at CDL Wisconsin/Roth Sugarbush Inc. are ready to help you with all of your sugaring supplies.

We have closed our Luck, WI location but would like to thank John and Crystal Morley for all of their time and hard work with the store, we wish them nothing but the best.

We here at our Cadott location along with our sub-dealers throughout the state are here to help you get ready for this upcoming season. We have added a new sub-dealer to our CDL family. We welcome Scott & Erica Walter to our CDL Team! They are located in Viola, WI and are stocked and ready for the 2024 Maple Syrup Season, as are all of our other sub-dealers; Jim Adamski in Antigo, WI., Tony & Roger Bundy of Eau Galle, WI., Emanuel & Owen Hershberger in Caston, WI., Don Hansen in Taylor Falls, MN and Tim & Amber Woodrow in Aitkin, MN.

The maple industry still has a very high potential for growth. With energy costs, labor shortages and production costs on the rise technology is playing a large part in this growth. Our service technicians have made many trips to Canada for advanced training on all CDL equipment and the technology that goes along with it.

Although technology is more and more present in sugarbushes we never forget where it all started, tapping a few trees in the back yard. So, whether you are tapping those few trees, have a small family size operation, or a large-scale operation, you ALL are very important to us!

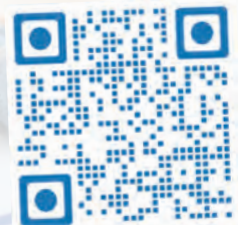

Our annual Open House will be held again this year the first full week in February. The dates are set for Wednesday February 7<sup>th</sup>, Thursday February 8<sup>th</sup>, Friday February 9<sup>th</sup> and Saturday February 10<sup>th</sup>. Coffee and donuts start at 8:00am and a complimentary lunch will be served daily. As always, we will be offering a 5% cash and carry discount. Please call ahead with any orders to help with your wait time. We will be having seminars and guest speakers during our open house, please watch our website and facebook page for updates on them.

We sincerely thank you for your continued support.

Peter & Dawn Roth

## THE SOLUTION TO PREVENT MICRO-LEAKS

### BETTER GRIP ON TUBING!

The line of 5/16" Maxflow fittings was specifically designed and developed for maple producers wanting to operate **over 25 in-hg (high vacuum)**. These fittings enable a perfect seal with a vacuum level beyond 25 in-hg and offers the following advantages:

- > No parting lines on the first barb.
- > Precision moulding.
- > Eliminates micro-leaks caused by molding lines.
- > Better grip on the tubing.

## MASTER-E!

GRANTS MAY  
BE AVAILABLE  
IN YOUR STATE  
OR PROVINCE

### NOW AVAILABLE IN IN 75 OR 100 HP

- ✓ **Produce up to 3 barrels\* of syrup per hour**  
\*with the 100 HP compressor and a 30 Brix concentrate
- ✓ **The energy production cost per barrel can be as low as \$2.75\*\* depending on the configuration!**

\*\*calculated at \$0.10/kW CAD

The Master-E evaporator is fully automated. It can operate with very little labor and supervision. Having the Master-E is the equivalent of having the maple syrup expertise of our entire team at your disposal, in addition to having daily peace of mind!

In fact, as long as there is concentrate in your tank, the master-E will .... alone. It can self-regulate and manage all the parameters in order for you to get syrup continuously.

When it reaches the end of your concentrate tank, it will be able to desugar, rinse and wash completely. It will be ready to start again when you have enough concentrate. The operation may seem complex, but it is simply a perfect synergy between a series of steps

**Note:** The evaporator will only hold 15 gallons of concentrate throughout the process.
