

Ryohin Keikaku Co., Ltd.

Annual Report 1998

Year Ended February 28, 1998

無印良品

Since becoming independent from The Seiyu Ltd., in 1989, Ryohin Keikaku Co., Ltd., has promoted the reputation of the Muji brand by developing a range of apparel, household goods, and food featuring the functionality, simplicity, and quality that have become synonymous with the Muji name. The Company's products have received overwhelming support from consumers in Japan and overseas because they meet the needs associated with today's increasingly individual and diversified lifestyles.

Ryohin Keikaku will continue to emphasize the use of natural materials, simple product designs, and reasonable prices as it develops its manufacturing and retailing operations into the 21st century.

<A Message from the President>

Kaoru Ariga, Representative Director and President

DISTINGUISHING THE MUJIRUSHI RYOHIN NAME

During fiscal 1997, ended February 28, 1998, the economic environment in Japan remained severe. The retail industry was confronted with the extremely difficult challenge of expanding sales, as the uncertainty of business prospects dampened consumers' propensity to spend. Intense competition from new market entrants, including overseas retailers, is expected to exacerbate this harsh business climate.

Amid this operating environment, Ryohin Keikaku Co., Ltd., faithfully worked to meet customer needs while continuing to distinguish itself through the unique character of its products and stores.

PROMOTING A TOTAL LIFESTYLE CONCEPT

During the year under review, Ryohin Keikaku strove to strengthen its global store network by implementing numerous scrap-and-build projects, enlarging store sales space, and introducing various measures to improve efficiency and promote standardization of in-store management. Furthermore, the Company's efforts to present a diverse product lineup, distinctive store environments, and innovative advertising campaigns all reflected its marketing strategy of creating a total lifestyle concept.

In product development, we continued to respond to customer needs by offering high-quality products boasting solid materials, attractive prices, and original Muji design simplicity. These activities were supported by ongoing work to shift production bases overseas and expand overseas procurement. Since launching our Price Reduction Campaign in autumn 1995, we have reduced the price of 1,165 products, or one-third our entire product lineup.

In Japan, Ryohin Keikaku was the first retailer to receive ISO 9001 certification for product quality systems, in December 1997. As both a manufacturer and retailer, we

continually work to improve our technological infrastructure, accumulate know-how, and create systems that ensure the quality of products manufactured and sold in Japan and abroad. The ultimate aim of these activities is to establish the highest standards for our global operations, from product design and development through after-sales services.

PURSuing A THREE-YEAR MANAGEMENT PLAN

In fiscal 1998, Ryohin Keikaku will initiate a three-year management plan intended to strengthen and broaden its business base.

Regarding store development, while continuing to pursue standardization and increased efficiency, the Company plans to expand its total domestic sales floor space to 155,000 square meters by the end of fiscal 2000. This area is approximately double that of the level attained at the end of fiscal 1997. Furthermore, we are working to develop our product procurement activities as well as logistics and information systems to support more efficient global manufacturing and retailing operations.

On the international front, Ryohin Keikaku currently maintains a network comprising 12 stores: 5 in the United Kingdom, 4 in Hong Kong, and 3 in Singapore. The Company is preparing to open a store in France before the end of 1998 and another 3 stores in the United Kingdom by February 1999. We are also considering a plan to set up a retailing presence in North America. Our long-term overseas development plans call for the establishment of 10 stores in North America and 50 in Europe by 2003. In addition to increasing sales, our expansion policies emphasize localizing of all stages of operations. We believe this strategy will enable us to optimize procurement and production and develop products that respond to local consumer preferences.

Another priority on management's agenda is the rationalization of the Company's logistics system, which consists of many distribution centers throughout Japan. In 1996, we opened our first fully integrated regional inspection, repair, and logistics processing center, in Fukuoka. In 1998, similar centers in Kobe and Urayasu, in Chiba Prefecture, outfitted with advanced distribution equipment and systems, will commence operations. This distribution system will be linked to our overseas networks, starting with our operations in China, where the construction of an expansive production and warehouse network is under way. Integrated production centers covering southern, central, and northern China will be established in Guangdong, Shanghai, and Dalian, respectively. By February 2000, we aim to complete the installation and integration of a comprehensive logistics system that underpins efficient production, distribution, and sales on a global scale.

AIMING TO BECOME ONE OF THE TOP GLOBAL 10

Looking toward the next century, Ryohin Keikaku aims to become one of the top 10 global retailers. In pursuing this goal, we will continue to emphasize the importance of communicating with customers, stockholders, and employees, incorporating their input into plans to strengthen our corporate structure and improve profitability.

We look forward to your continued support and cooperation in fiscal 1998.

Kaoru Ariga
Representative Director and President

Understated Beauty There is a beauty in simplicity that transcends fashion, and the inherent simplicity of Muji brand products, demonstrated in their design and functionality, lends them this unique appeal. Creating this is the essence of the Company's product development activities.

MATERIALS

Tasty and healthy foods. Comfortable clothing. Household goods that are, above all, easy to use. For Ryohin Keikaku, the materials it uses to make such products are of the utmost importance; consequently, considerable attention is given to their selection. The Company searches worldwide for the most suitable raw materials. Ryohin Keikaku uses many industrial materials as well as materials discarded by others because of their appearance—items that can be acquired in bulk at low cost. The overriding selection criteria is always quality. These activities underpin the Company's ability to create low-priced, high-quality products.

PROCESSES

Ryohin Keikaku inspects all product processes comprehensively. Inspections are planned to optimize time and labor effectiveness, with processes that have no bearing on a product's quality. Items found to have no defects are sent out immediately for delivery, while those that do not meet size and appearance standards are recycled. The Company's emphasis on efficiency prevents material wastage and improves essential product quality.

PACKAGING

When packaging products, Ryohin Keikaku seeks not to adorn them but rather to highlight their natural colors and shapes. For this reason, we use bulk packaging and place products in plain, uniform containers. Faithful to our philosophy of simplicity, this approach also is in keeping with our policy of conserving resources and reducing waste. Thus, all Muji products appear on store shelves in simple packaging bearing only product-related information and a price tag.

Muji: The Company, Stores, and Products **The Muji brand** was first introduced in December 1980 as a private brand label of The Seiyu, Ltd. In June 1983, the first Muji store was opened in Aoyama, and in September 1985 an independent business division was established within the Seiyu corporate structure to manage Muji brand products. Marking its independence as a **nationwide retailer**, Ryohin Keikaku was officially incorporated as a subsidiary of Seiyu in June 1989. Subsequently, in 1990 Seiyu transferred all management responsibilities for the Muji brand and store network to Ryohin Keikaku. In August 1995, the Company went public by registering on the over-the-counter market. >On the **international front**, Ryohin Keikaku opened its first Muji store in London in July 1991 and another in Hong Kong in November of the same year. Both stores have enjoyed **significant customer support**, highlighting the possibilities for the Muji brand in overseas markets. >From its humble beginnings as an in-store brand offering only 40 items, Ryohin Keikaku has developed into a successful company that today boasts a **global network of stores** selling an impressive array of products.

1980 > 1981 > 1982 > 1983 >

Peanut Chocolate

PRODUCT DEVELOPMENT
> Seiyu eliminates the excesses associated with name-brand products to create a new line of inexpensive, high-quality products.

BUSINESS DEVELOPMENT
> Muji is established as a private brand of Seiyu, with an original lineup of 9 household products and 31 food items.
> Muji sales corners are established in the food and daily items sections of Seiyu stores.

PRODUCT DEVELOPMENT
> The importance of each product's fundamental design—in particular their functionality and simplicity—is re-emphasized. Apparel items make their debut in the Muji product lineup.

BUSINESS DEVELOPMENT
> Sales corners for apparel and undergarment sections are established in Seiyu stores.

Stationery

PRODUCT DEVELOPMENT
> Three new product series—the Unique, Natural, and Industrial-Use series—are introduced to promote Muji's total lifestyle concept.

BUSINESS DEVELOPMENT
> Wholesale selling of Muji brand products to Seiyu affiliate stores commences.

Mujirushi Ryohin Aoyama

PRODUCT DEVELOPMENT
> Individually assembled unit parts are introduced.

BUSINESS DEVELOPMENT
> The first Muji store, Mujirushi Ryohin Aoyama, is opened in Tokyo.
> Muji boutiques are opened in several department stores.

The Development of Muji Products

The name Muji, meaning “no brand” in Japanese, summarizes the **philosophy of simplicity** that is the hallmark of its product designs. Easily recognizable, the brand name has caught the attention of consumers since its introduction in 1980. The **original concept** of high-quality, reasonably priced products focused on paring down the gaudy decoration, fancy packaging, and other excesses that accompanied many products and **offering consumers value** for their money. While responding to the trends of the times, the Company has maintained a commitment to creating sound products, appealing because of their inornate style and functionality. This innovative development approach is manifest in a product lineup that encompasses such diverse items as apparel, household goods, and food. > To provide **top quality** at a reasonable price, Ryohin Keikaku turned to overseas markets to capitalize on excellent procurement opportunities. Today, the Company maintains 100 production bases in 25 countries, and 42% of its entire product lineup is **manufactured overseas**. Ryohin Keikaku intends to expand its overseas procurement and use its acquired know-how to further reduce operating costs.

1984 > 1985 > 1986 > 1987 >

PRODUCT DEVELOPMENT

> The Relaxation and Natural Color series, featuring ecru-color designs, are introduced.

BUSINESS DEVELOPMENT

> The Muji network of in-store boutiques is expanded, particularly within large Seiyu department stores.

Prewashed cotton madras shirt

BUSINESS DEVELOPMENT

> Ryohin Keikaku opens the first overseas Muji store in London in partnership with Liberty plc, of the United Kingdom.
 > A Muji store is opened in Hong Kong—a joint venture between Ryohin Keikaku and the Wing On Group, of Hong Kong.

The Ryohin Store Concept

In June 1983, the Company opened **Mujirushi Ryohin Aoyama**, the first Muji retail outlet. The subdued store design, which attracted much attention from the very beginning, was used as a model for the 155 stores opened in the following year. >Early Muji stores typically had a floor space of between 100 and 130 square meters and offered just 200 to 300 items. At the end of 1997, Ryohin Keikaku was selling **3,631 items** through its domestic network. The increase in the number of products reflects the Company's marketing strategy of presenting a total lifestyle concept based on a philosophy of simplicity and practicality. The makeup of its product lineup carried in each outlet as well as the store designs are intended to reinforce this concept and **cater to**

*Years ended February 28/29

The appeal of the total lifestyle concept embodied in Muji products has spread from Japan into the international arena. Following the success of the first overseas Muji store, opened in the West Soho district of London in July 1991, Ryohin Keikaku's international network has expanded to include 12 stores in the United Kingdom, Hong Kong, and Singapore.

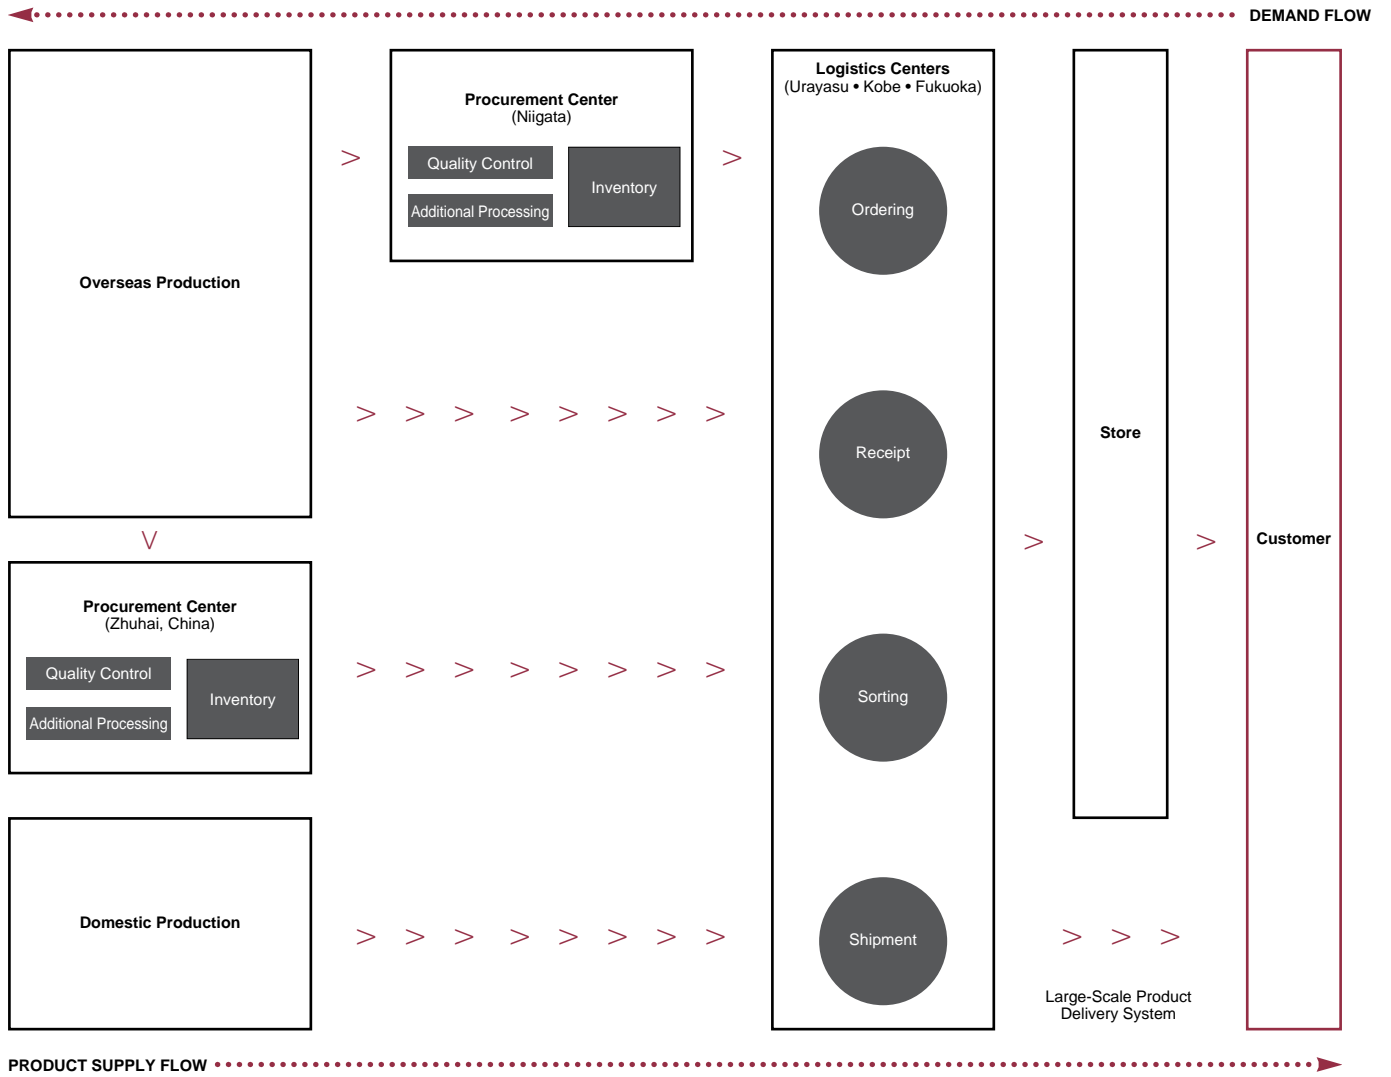

The United Kingdom was again the site of a great deal of activity in fiscal 1997. In May, Ryohin Keikaku Europe Ltd., a local subsidiary, was established to manage all aspects of our operations in the United Kingdom. Subsequently, in October 1997, the company opened a fifth store on Oxford Street, in London, with a sales floor twice the size of any other Muji store in the United Kingdom. In fiscal 1998, we plan to open three new stores in the United Kingdom and establish a presence in France. Looking further ahead, we are evaluating the possibility of opening stores in North America and, by 2003, aim to build an overseas network

comprising 10 stores there and 50 throughout Europe. These plans underscore the importance development abroad has in our long-term business strategy. In promoting this drive, Ryohin Keikaku will continue to adopt the policies of tailoring product designs to meet local consumer preferences and of localizing management.

In addition to increasing the number of Muji stores and expanding sales, our strategies aim to create product planning, procurement, and production activities that facilitate the development of products and supply structures most suitable for local markets. The Company has already begun shipping apparel and other products made for overseas markets directly from production bases, thereby lowering costs and shortening delivery times. Further measures to improve integrated management of logistics systems, including overseas warehouses and distribution routes, are also planned.

<Product Logistics>

DISTRIBUTION SYSTEM

Fukuoka Logistics Center

Kobe Logistics Center

Urayasu Logistics Center

As a manufacturer and retailer whose operations span from product planning through production and sales, Ryohin Keikaku has found that the construction of a flexible, speedy, and highly efficient distribution system is essential to the success and globalization of the Company. To this end, the Company is proceeding with the establishment of a global logistics network centered on distribution hubs.

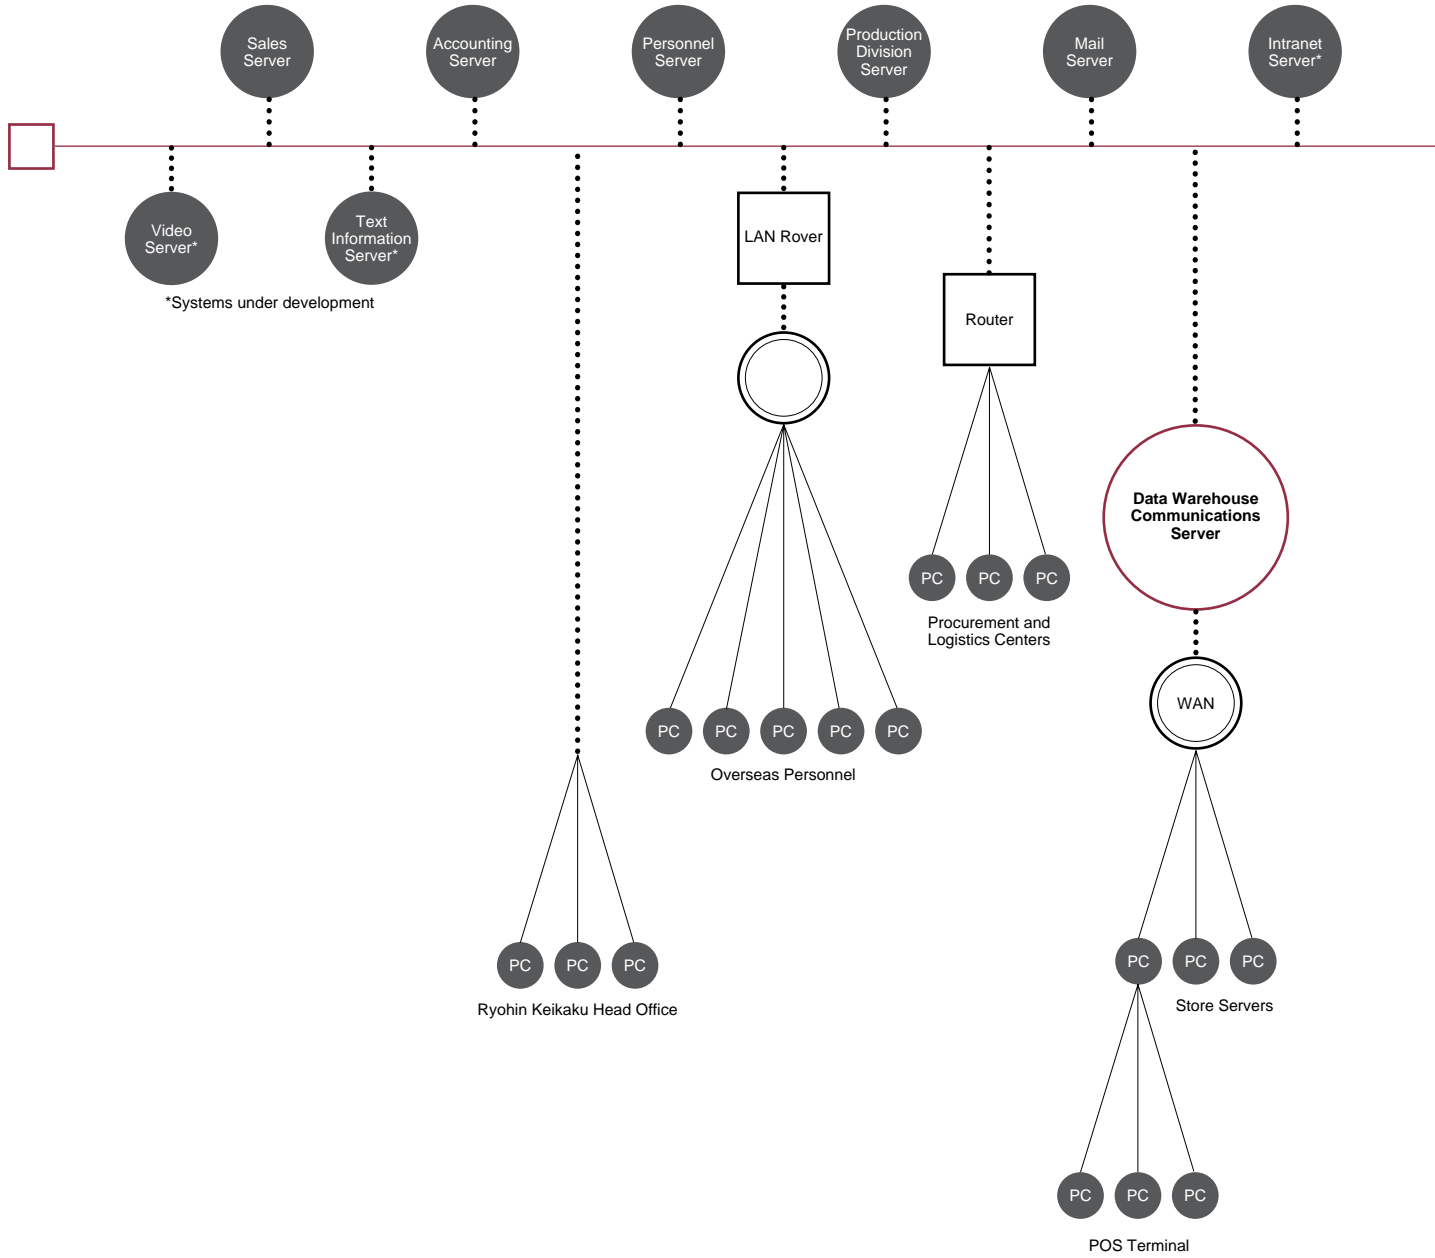

In 1994, the Company opened a distribution processing center in Niigata to handle product inspection and repair and, in 1996, established the Fukuoka Logistics Center. The Company will move closer to completing a totally independent infrastructure when operations commence at large-scale logistics centers in Kobe and Urayasu in 1998.

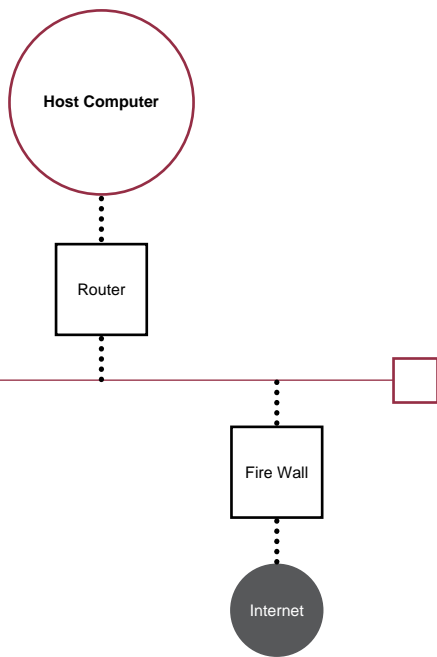

These centers will feature advanced distribution-related equipment. Other efforts to upgrade and integrate our 17 domestic distribution facilities will contribute to increased store productivity by providing comprehensive product information; lowering distribution costs; and supporting stable, efficient supplies.

Moreover, as part of a continuing effort to bolster its overseas production, the Company has constructed a storage warehouse and processing center in Zhuhai, China. By coordinating the operations of this facility with those of its domestic logistics centers, the Company will add flexibility to its overall infrastructure.

<Information Systems>

SYSTEM STRUCTURE

Muji POS system

Looking toward the 21st century, Ryohin Keikaku is making great strides in upgrading its information systems.

In 1990, just one year after setting up operations independent from those of Seiyu, the Company introduced a point-of-sale (POS) system—a highly accurate product management system capable of tracing individual items. In managing operations that straddle manufacturing and retailing activities, Ryohin Keikaku is constantly exposed to diverse risks, making close control of inventory, distribution, and profit margins essential.

Underpinning this system is a comprehensive information infrastructure. In 1995, a new POS system was installed in all directly managed stores, linking them to the Company's network database, and by 1996, it was in use at all Muji outlets in Japan. Having set out to develop a system that could track the movement of a single pencil from production through sale, Ryohin Keikaku has now accomplished its goal.

In an effort to strengthen its ability to reengineer business processes, making them suitable for a new era, the Company continues to enhance its information systems. The central pillar of these will be a data warehouse that stores comprehensive information on subjects ranging from product design to sales. This will facilitate faster and more accurate decision making by providing individuals responsible for product design, production, and procurement with access to detailed and up-to-date information. The Company aims to have the system up and running in fiscal 1999. Also, with a view to improving customer services, the Company is establishing a new customer information system that will allow customers to offer direct feedback.

To further integrate and promote the Muji global network, Ryohin Keikaku is currently constructing a three-layer information network—based on the Internet, extranet, and intranet—in which both domestic and overseas stores can freely access such information as specific product data and inventory levels at distribution centers around the world.

Human Communication

At Ryohin Keikaku, the importance we place on **human communication** is apparent in all our operations, for sharing and the accumulation of individual ideas have made the Company the success it is today. This communication will continue to be the **key to our success** in the 21st century. >As the Company pursues its business goals, it continually focuses on two important markets. The first is the **consumer market**—customers who purchase Mujirushi Ryohin products. The second is the **financial market**—stockholders who purchase the Company's shares. It is our goal at Ryohin Keikaku to earn the support of both markets by providing excellent products and services and **full disclosure of business dealings**. >At Ryohin Keikaku, product development efforts are based on customer needs and opinions gleaned through the open, two-way communication the Company maintains. Every month, more than **1,000 customer suggestions** for new products are received via

Understanding the View

Key to Our Success

letter, telephone, and E-mail. These suggestions are gathered and analyzed in the Customer Relations Office, which reports directly to the president, and valuable ideas are then passed along to appropriate departments within the Company. Replies are sent to all customers who offer suggestions. In fact, the Company actively **encourages customer feedback** and prominently display “Listening to Our Customers” posters throughout its stores. >From the very beginning, Ryohin Keikaku has focused its merchandising efforts on the use of **environment-friendly materials**. By examining the quality of our products and viewing the simplicity of displays in our stores, any visitor would soon understand that concern for the environment is the foundation of our business. >Placing considerable importance on communication with its customers, the Company continually strives to understand their viewpoint and **gain their trust**.

Customer's point

<Financial Review>

Net Sales by Channel (Millions of yen)

■ Directly managed stores ■ Saison Group outlets ■ Other licensed stores ■ Others

OPERATING REVENUE

In fiscal 1997, ended February 28, 1998, the moribund condition of the Japanese economy adversely affected consumer spending, resulting in a difficult environment for retailers. Against this background, Ryohin Keikaku increased the selling space of its store network and expanded its product lineup in response to diversifying consumer needs. Due to the effectiveness of these measures, non-consolidated net sales climbed to ¥72,573 million, up 19.8% from the previous fiscal year.

Ryohin Keikaku sells Muji brand products through the following channels: directly managed stores and wholesale supplies. In fiscal 1997, Ryohin Keikaku conducted scrap-and-build projects to increase the selling space of its store network and standardize the range of products offered at outlets of similar sizes. The Company opened 15 stores during the year, starting with the Mujirushi Ryohin Sagamiono More's store in Kanagawa Prefecture. On the other hand, after reviewing the relative performance of all stores, the Company closed three stores, including the Mujirushi Ryohin Yokohama Landmark store.

As a result of these activities, during fiscal 1997, the average floor space of directly managed stores increased 131 square meters, or 29.6%, to 573 square meters. In fiscal 1998, the Company intends to further strengthen its store network based on the themes of enlargement and standardization.

Operating Income (Millions of yen)

The following table shows the breakdown of net sales by sales channel for the last three fiscal years.

	(Millions of yen)				
	FY 96	97	98	% of net sales (98)	98/97 %
Directly managed stores.....	¥20,218	¥26,333	¥32,719	45.1%	124.3%
Wholesale.....	27,371	34,069	39,846	54.9	117.0
Others.....	17	172	8	0.0	4.7
Net sales.....	¥47,606	¥60,574	¥72,573	100.0%	119.8%

As illustrated in the table below, Ryohin Keikaku has responded to the diversifying needs of consumers by steadily expanding its product range during the last three fiscal years.

	(Number of items per category)		
	FY 96	97	98
Apparel.....	651	692	745
Household goods.....	1,813	2,148	2,394
Food.....	578	499	492
Total.....	3,042	3,339	3,631

As regards net sales by product category, sales of apparel jumped 23.5%, to ¥25,187 million, while sales of household goods leapt 22.9%, to ¥37,157 million. These two categories accounted for 97.6% of the total increase in net sales. Food sales rose 0.9%, to ¥9,602 million, with growth restricted by efforts to streamline the product lineup in line with a more focused marketing strategy. Sales of other items jumped 45.5%, to ¥627 million.

Net Income per Share (Yen)

Return on Average Stockholders' Equity (%)

(Millions of yen)

	FY 96	97	98	% of net sales (98)	98/97 %
Apparel	¥16,114	¥20,388	¥25,187	34.7%	123.5%
Household goods.....	22,390	30,241	37,157	51.2	122.9
Food	8,874	9,514	9,602	13.2	100.9
Others	228	431	627	0.9	145.5
Net sales	¥47,606	¥60,574	¥72,573	100.0%	119.8%

In October 1997, the Company's U.K. subsidiary, Ryohin Keikaku Europe Ltd., opened the biggest overseas Muji outlet, the Muji Oxford Street store, in London. The floor space of this store is more than twice as large as that of the Company's next largest store in the United Kingdom. At the fiscal year-end, Ryohin Keikaku's overseas network comprised 12 stores in the United Kingdom, Hong Kong, and Singapore.

COST OF SALES

The cost of sales increased ¥6,866 million, or 18.0%, to ¥45,036 million, reflecting higher sales of a greater range of products during the fiscal year. However, the continuing shift toward overseas manufacturing resulted in the overseas procurement ratio rising to 42%. Moreover, by increasing purchase lot sizes, Ryohin Keikaku reduced the unit purchase prices of 265 items and effectively responded to consumers' demand for greater value for their money. Consequently, the cost of sales ratio declined to 62.1%, 0.9 percentage point lower than that of the previous fiscal year.

OTHER OPERATING REVENUE

In fiscal 1997, the amount of other operating revenue increased ¥263 million, to ¥475 million.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Selling, general and administrative (SG&A) expenses rose ¥3,634 million, or 21.7%, to ¥20,413 million. Despite vigorous efforts to improve efficiency and to cut costs, this increase exceeded that of net sales by 1.9 percentage points. This increase was primarily attributable to higher personnel and distribution expenses as well as higher lease rentals for land and buildings, reflecting sales network expansion. Also, depreciation costs rose 28.0%, to ¥813 million, due to new store openings.

SG&A expenses as a percentage of net sales rose a marginal 0.4 percentage point, to 28.1%.

As a result, Ryohin Keikaku recorded operating income of ¥7,599 million, up ¥1,762 million, or 30.2%, from the amount recorded in fiscal 1996. As a percentage of net sales, operating income advanced from 9.6% to 10.5%.

OTHER REVENUE AND EXPENSES

Gain on sale of investment in securities amounted to ¥132 million. However, the closure of several smaller stores in the Company's network, combined with expenses associated with scrap-and-build projects, resulted in a ¥116 million loss on disposal of property, plant and equipment and a ¥63 million loss on cancellation of rent contracts of stores. Also, Ryohin Keikaku wound up its partnership in the United Kingdom with Liberty plc, and transferred management responsibility of its U.K. operations to a new subsidiary, Ryohin Keikaku Europe Ltd. A ¥215 million loss on cancellation of partnership was incurred.

Total Assets (Millions of yen)

Thus, Ryohin Keikaku recorded net income of ¥3,454 million, up ¥731 million, or 26.8%, from the figure posted in fiscal 1996. The Company's return on average stockholders' equity was 14.4%, down from 16.5% in the previous fiscal year. An increase in capital led to this decline.

The Company paid annual cash dividends of ¥35.0 per share, compared with ¥24.0 per share in the previous fiscal year. The payout ratio rose 2.2 percentage points, to 14.2%.

FINANCIAL POSITION

As of February 28, 1998, total assets amounted to ¥38,305 million, up ¥7,742 million, or 25.3% from the previous fiscal year-end.

Total current assets contracted ¥109 million, to ¥18,808 million. Although notes and accounts receivable increased in line with higher sales during the year, money management funds were sold and investment in securities declined as a part of the Company's plans to improve the profitability of its asset portfolio.

Property, plant and equipment grew ¥3,055 million during the year, to stand at ¥6,817 million at the fiscal year-end. The amount of construction in progress rose considerably, owing to work on the Company's large-scale logistics centers in Kobe and Urayasu, which are scheduled to come on line in fiscal 1998.

Total Stockholders' Equity (Millions of yen)

Total current liabilities advanced ¥4,709 million, to ¥12,655 million, reflecting increases in notes and accounts payable that accompanied robust selling activities, higher income taxes payable, and other factors.

Total stockholders' equity rose ¥3,026 million, to ¥25,440 million. However, as a result of the expansion in the Company's asset base to support business growth, the stockholders' equity ratio fell to 66.4%, from 73.3%.

CASH FLOWS

Net cash provided by operating activities amounted to ¥1,184 million, compared with ¥2,211 million in fiscal 1996. The main reason for this fall was increases in the amounts of receivables, inventories and supplies, and deferred charges and intangibles, which more than offset the ¥731 million rise in net income.

Net cash used for investing activities totaled ¥7,197 million. The majority of this amount was used to fund store network expansion. Net cash used for financing activities amounted to ¥262 million.

Therefore, cash and cash equivalents at the end of the fiscal year amounted to ¥3,182 million, down from ¥9,457 million in fiscal 1996. Working capital at the end of the year amounted to ¥6,153 million, and the current ratio fell to 148.6%.

<Notes to the Non-Consolidated Financial Statements>

Ryohin Keikaku Co., Ltd.

1. BASIS OF PRESENTING THE NON-CONSOLIDATED FINANCIAL STATEMENTS

(a) Accounting Principles

The accompanying non-consolidated financial statements have been prepared from accounts and records maintained by Ryohin Keikaku Co., Ltd. (the "Company") in accordance with the provisions set out in the Japanese Commercial Code and in conformity with accounting principles generally accepted in Japan.

Relevant notes have been added, and certain reclassifications of account balances, as disclosed in the non-consolidated financial statements in Japan, have been made so as to present them in a form which is more familiar to readers outside Japan.

(b) The Seiyu, Ltd. ("Seiyu")

The Company was a subsidiary of Seiyu, as Seiyu owned 7,268,800 shares of common stock of the Company at February 28, 1997, which represented 51.8% of the total outstanding shares at that date. On February 23, 1998, Seiyu sold 980,000 shares of common stock of the Company. Accordingly, the percentage of equity ownership owned by Seiyu was reduced to 44.79%.

(c) Accounting for the Consumption Tax

Consumption tax in Japan has been imposed at the flat rate of 5% since April 1, 1997 on all domestic consumption of goods and services (with certain exemptions). The consumption tax imposed on the Company's sales to customers is withheld by the Company at the time of sale and is paid to the national government subsequently. The consumption tax withheld upon sale is not included in the amount of "Net Sales" in the accompanying non-consolidated statements of income but is recorded as a liability, "Consumption tax withheld". The consumption tax paid by the Company on its purchases of goods and services is not included either in the amounts of costs and expenses in the accompanying non-consolidated statements of income, and the net balance is shown as "Consumption tax withheld" in the accompanying non-consolidated balance sheets. The consumption tax rate was 3% until March 31, 1997.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Inventory Valuation

Merchandise is stated at cost, determined by the individually identified cost method. Supplies are valued by the last purchase price method.

(b) Valuation of Securities

Securities listed on stock exchanges are valued at the lower of cost or market, cost being determined by the moving average method. All other securities are valued at cost determined by the moving average method.

(c) Investments in Subsidiaries and Affiliates

Investments in subsidiaries (majority-owned companies) and affiliates (20% to 50% owned companies) are valued at cost. The equity method is not applied to accounting for investments in common stock of the subsidiaries and affiliates in the accompanying non-consolidated financial statements. Accordingly, income from subsidiaries and affiliates is recognized only when the Company receives dividends therefrom.

(d) Property, Plant and Equipment

Property, plant and equipment are stated at cost. Depreciation is computed on the declining-balance method at rates based on the estimated useful lives of assets which are prescribed by the Japanese income tax laws.

Normal repairs and maintenance, including minor renewals and improvements, are charged to income as incurred.

(e) Accounting for Leases

Finance leases other than those which are deemed to transfer the ownership of the leased assets are accounted for by the method similar to that applicable to ordinary operating leases.

(f) New Share Issue Expenses

New share issue expenses of the Company are charged to income as incurred.

(g) Income Taxes

Income taxes are provided for based on the amounts required by the tax returns for the fiscal year. No tax effect is recorded for timing differences in the recognition of certain expenses between tax and financial reporting.

(h) Amortization

Amortization of deferred charges and intangibles is computed on the straight-line method.

(i) Allowance for Doubtful Accounts

The balance of allowance for doubtful accounts represents the amount of the limit established by Japanese tax laws for allowing deduction (a certain prescribed percentage is applied to the balance of receivables) plus an amount deemed necessary to cover possible losses estimated on an individual account basis.

(j) Accrued Bonuses to Employees

Accrued bonuses to employees are provided by the method prescribed by the tax laws under which the accrual of bonuses is made in an amount determined based on the actual amounts of semi-annual payments in the previous year and the semi-annual periods to which respective bonus payments twice a year relate.

(k) Appropriation of Retained Earnings

Under the Japanese Commercial Code and the Articles of Incorporation of the Company, the plan for appropriation of retained earnings (including cash dividend payments) proposed by the Board of Directors should be approved at the stockholders' meeting which must be held within 3 months after the end of each fiscal year. The appropriation of retained earnings reflected in the accompanying financial statements represents the results of such appropriations applicable to the immediately preceding fiscal year which was approved at the stockholders' meeting and disposed of during that year. Dividends are paid to stockholders on the stockholders' register at the end of each fiscal year. As it is a customary practice in Japan, the payment of bonuses to directors and statutory auditors is made out of retained earnings instead of being charged to income of the year, which constitute a part of the appropriations cited above.

The Japanese Commercial Code provides that interim cash dividends may be distributed upon approval of the Board of Directors.

(l) Net Income and Dividends per Share

Net income per share of common stock is based upon the weighted average number of shares outstanding during each year, appropriately adjusted for subsequent stock splits. Cash dividends per share shown for each period in the accompanying non-consolidated statements of income represent dividends declared as applicable to each year after retroactive adjustments for subsequent stock splits.

3. UNITED STATES DOLLAR AMOUNTS

The Company maintains its accounting records in yen. The U.S. dollar amounts included in the non-consolidated financial statements and notes thereto represent the arithmetical results of translating yen to U.S. dollars on a basis of ¥127=US\$1. The inclusion

of such dollar amounts is solely for convenience and is not intended to imply that yen amounts have been or could be readily converted, realized or settled in U.S. dollars at ¥127=US\$1 or at any other rate.

4. INVENTORIES

Inventories at February 28, 1997 and 1998 consisted of the following:

	Millions of yen		Thousands of
	1997	1998	U.S. dollars
Apparel	¥1,777	¥3,775	\$29,724

Unlisted corporate shares.....	307	182	1,433
	<u>¥ 426</u>	<u>¥ 424</u>	<u>\$3,339</u>

Market value information of listed corporate shares in the above table at February 28, 1997 and 1998 is as follows:

	Millions of yen			Thousands of U.S. dollars
	Book value	Market value	Unrealized gain	
	1997			
Marketable securities	¥145	¥275	¥130	
Treasury stock	131	116	(15)	
	¥276	¥391	¥115	
Investments in securities	¥119	¥149	¥30	
	1998			1998
Investments in securities	¥242	¥312	¥70	\$551

6. INVESTMENTS IN AND ADVANCES TO SUBSIDIARIES AND AFFILIATES

Investment in stock of subsidiaries at February 28, 1998 represents the Company's investment in R.K. Trucks Co., Ltd. and Ryohin Keikaku Europe Ltd., which are wholly owned by the Company.

Investment in the stock of an affiliate at February 28, 1998 represents the Company's investment in Mujirushi Ryohin (Bermuda) Ltd.

7. FIXED LEASEHOLD DEPOSITS

Fixed leasehold deposits as of February 28, 1997 and 1998 are those paid to the lessors in connection with the leases of buildings and facilities for office space, computers and related equipment. Lessors in Japan require large amounts of leasehold deposits equivalent to several months' lease rental payments. Such leasehold deposits do not bear interest and are generally returnable only when the lease is terminated.

8. INCOME TAXES

Income taxes in Japan applicable to the Company for each of the 3 years in the period ended February 28, 1998 consisted of corporate income tax (national), enterprise tax (local) and resident income tax (local) at the approximate rates indicated below:

	Rates on taxable income		
	1996	1997	1998
Corporate income tax.....	37.5%	37.5%	37.5%
Enterprise tax	12.6	12.6	12.6
Resident income tax.....	7.5	7.5	7.5
	57.6%	57.6%	57.6%
Statutory tax rate in effect to reflect the deductibility of enterprise tax when paid.....	51.2%	51.2%	51.2%

Unlike other income taxes, the enterprise tax is deductible for tax purposes when it is paid. Although the enterprise tax is presented as selling, general and administrative expenses in the basic financial statements disclosed in Japan, a reclassification has been made to present income taxes in their entirety in the accompanying non-consolidated financial statements.

Income tax rates shown in the accompanying non-consolidated statements of income are higher than the aforementioned statutory tax rate. The principal reason such differences arise is that no tax effects have been recognized on certain timing differences between financial accounting and tax reporting. Such differences primarily relate to accrued severance indemnities provided in excess of the limit established by the tax laws for allowable deductions and accrued enterprise tax not deductible until paid. In addition, the difference arises because essentially domestic dividend income earned is not taxable, and entertainment expenses are not allowable tax deductions.

9. RETIREMENT BENEFITS TO EMPLOYEES

The employees of the Company (excluding directors and statutory auditors) with more than 3 years but less than 5 years of service are generally covered by a retirement benefit plan under which the retiring employees are entitled to a lump-sum payment determined by reference to the current rate of pay, length of service and conditions under which the terminations occur.

The balance of accrued employees' retirement benefits in the accompanying non-consolidated balance sheets represents the amount equivalent to 100% of such retirement payments the Company would have been required to pay if all eligible employees had retired at the respective year-end dates.

The Company and other Saison Group companies (together, referred to as the "Group") have a non-contributory pension plan under which all employees of the Group with more than 5 years of service are covered. The plan provides for a lump-sum payment to retiring employees with less than 20 years of participation in the plan. The plan entitles the employees with 20 years or more participation to either a lump-sum payment or pension payments for life at the election of the retiring employee. The balance of accumulated fund assets of the Group at the most recent valuation date of March 31, 1997 aggregated ¥268,077 million.

At March 31, 1997, the number of eligible employees of the Company accounted for 0.094% of the total employees of the Group covered by the pension fund.

As it is customary in Japan, the Company pays lump-sum retirement benefits to directors and statutory auditors upon their retirement. The Company has provided for accrual for such retirement benefits. The balance of accrued retirement benefits to directors and statutory auditors in the non-consolidated balance sheets represents 100% of the benefits payable by the Company upon retirement of all directors and statutory auditors in an amount which is determined by the Company's internal rule.

10. LEASE TRANSACTIONS

Acquisition cost, accumulated depreciation, net book value at February 28, 1998 and depreciation expense of the leased assets for the year then ended, which included the portion of interest thereon, were summarized as follows:

	Millions of yen	Thousands of U.S. dollars
Acquisition cost.....	¥22	\$174
Accumulated depreciation.....	11	87
Net book value.....	<u>¥11</u>	<u>\$ 87</u>
Depreciation.....	¥ 4	\$ 31

Depreciation is based on the straight-line method over the lease term of the leased assets, and the residual values of which are zero. Lease rental expenses on finance lease contracts without transfer of ownership for the years ended February 28, 1997 and 1998 were summarized as follows:

	Millions of yen		Thousands of U.S. dollars
	1997	1998	1998
Lease rental expenses	¥9	¥5	\$39

The amounts of outstanding future lease payments under finance lease contracts due at February 28, 1997 and 1998, which included the portion of interest thereon, were summarized as follows:

	Millions of yen		Thousands of U.S. dollars
	1997	1998	1998
Future lease payments:			
Within one year	¥ 9	¥ 5	\$39
Over one year	14	6	48
Total.....	<u>¥23</u>	<u>¥11</u>	<u>\$87</u>

The amounts of outstanding future lease rental payments payable under operating lease contracts due at February 28, 1998 were summarized as follows:

	Millions of yen	Thousands of U.S. dollars
	Future lease rental payments payable:	
Within one year	¥3	\$24
Over one year	3	24
Total	<u>¥6</u>	<u>\$48</u>

The amount of outstanding future lease rental payments payable under operating lease contracts due at February 28, 1997 were included in those payments under finance lease contracts disclosed above, as a transitional treatment.

11. CONTINGENT LIABILITIES

The Company was contingently liable for guarantees of loans borrowed by Mujirushi Ryohin (Hong Kong) Ltd., Ryohin Keikaku Europe Ltd. and Mujirushi Ryohin (Singapore) Pte. Ltd. in the amounts of ¥112 million (\$882 thousand), ¥77 million (\$606 thousand) and ¥16 million (\$126 thousand), respectively, at February 28, 1998.

12. LEGAL RESERVE AND APPROPRIATION OF RETAINED EARNINGS

The Japanese Commercial Code provides that an amount equal to at least 10% of cash outlay from retained earnings being paid out by means of appropriations of retained earnings with respect to each fiscal period should be appropriated to the legal reserve until such reserve equals 25% of the common stock account. This reserve may be transferred to the common stock account by a resolution of the Board of Directors or used to reduce a deficit by a resolution at the stockholders' meeting, but is not available for dividend payments.

The Company's Board of Directors, with subsequent approval by stockholders, has made annual appropriations of retained earnings for various purposes, of which the accumulated balance is presented as "General reserve" in the accompanying non-consolidated financial statements. Any disposition of such appropriations shall be made at the discretion of the Board of Directors and stockholders.

13. RELATED PARTY TRANSACTIONS

The Company's transactions with its subsidiaries and affiliates during the years ended February 28, 1997 and 1998 were summarized as follows:

	Millions of yen		Thousands of
	1997	1998	U.S. dollars
Sales to Seiyu.....	¥7,466	¥8,625	\$67,913
Sales to subsidiaries.....	130	343	2,701
Purchases from Seiyu.....	6	1	8
Expenses paid to Seiyu.....	3,635	3,342	26,315
Expenses paid to subsidiaries.....	1,097	547	4,307

14. BREAKDOWN OF SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

The breakdown of selling, general and administrative expenses for each of the 3 years in the period ended February 28, 1998 was summarized as follows:

	Millions of yen			Thousands of
	1996	1997	1998	U.S. dollars
Advertising expenses.....	¥ 1,548	¥ 1,490	¥ 1,839	\$ 14,480
Salaries, bonuses and other payroll benefits.....	3,062	4,158	5,024	39,559
Lease rentals for leasing land and buildings.....	2,061	2,767	3,918	30,850
Depreciation.....	440	635	813	6,402
Transportation, distribution and delivery costs.....	3,020	4,131	4,639	36,527
Other.....	3,026	3,598	4,180	32,914
	<u>¥13,157</u>	<u>¥16,779</u>	<u>¥20,413</u>	<u>\$160,732</u>

15. SUBSEQUENT EVENT

The appropriations of retained earnings for the year ended February 28, 1998 approved at the stockholders' meeting held on May 20, 1998 are as follows:

	Millions of yen	Thousands of U.S. dollars
Retained earnings at February 28, 1998.....	¥3,496	\$27,527
Appropriations:		
Cash dividends		
(¥20.0 per share).....	(281)	(2,213)
Transfer to legal reserve.....	(32)	(252)
Directors' and statutory auditors' bonuses.....	(38)	(299)
Transfer to general reserve.....	<u>(2,500)</u>	<u>(19,685)</u>
Retained earnings to be carried forward.....	<u>¥ 645</u>	<u>\$ 5,078</u>

The accompanying notes are an integral part of the statements.

<Notes to the Consolidated Financial Statements>

Ryohin Keikaku Co., Ltd. and consolidated subsidiaries

1. BASIS OF PRESENTING THE CONSOLIDATED FINANCIAL STATEMENTS

The accompanying consolidated financial statements have been prepared from accounts and records maintained by Ryohin Keikaku Co., Ltd. (the "Company") and its consolidated subsidiaries in accordance with the provisions set out in the Japanese Commercial Code and in conformity with accounting principles generally accepted in Japan.

Relevant notes have been added and certain account balances, as disclosed in the basic consolidated financial statements in Japan, have been reclassified to the extent deemed necessary to enable presentation in a form which is more familiar to readers outside Japan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Scope of Consolidation

The Company had 2 wholly owned subsidiaries at February 28, 1998 (3 at February 28, 1997). The consolidated financial statements as at and for the years ended February 29/28, 1996, 1997 and 1998 include the accounts of the Company and 2 of its subsidiaries (together, referred to as the "Companies"), of which these 2 are listed below:

	Equity ownership percentage February 28, 1997 and 1998
R.K. Trucks Co., Ltd.	100%
Ryohin Keikaku Europe Ltd.	100%

The remaining unconsolidated subsidiary whose combined assets, net sales, net income and net assets in the aggregate are not significant compared to those of the consolidated financial statements of the Companies, therefore, has not been consolidated with the Company as at and for the year ended February 28, 1998.

(b) Consolidation Principles

R.K. Trucks Co., Ltd. uses a fiscal year ending February 28/29 of each year which is in agreement with the fiscal year of the Company. Ryohin Keikaku Europe Ltd. uses a fiscal year ending January 31 of each year. The consolidation of the subsidiary has been made by using the financial statements as of January 31 and for the period then ended. Necessary adjustments for consolidation have been made with regard to significant intercompany transactions which have taken place during the period between the closing dates of the fiscal years of the consolidated subsidiary and of the Company.

For the purposes of preparing the consolidated financial statements, all significant intercompany transactions, account balances and unrealized profits among the Companies have been eliminated, and the portion thereof attributable to minority interests is charged to minority interests.

Any differences which may arise in elimination of the cost of an investment in a subsidiary and the amount of underlying equity in net assets of the subsidiary, which may arise in connection with the elimination of an investment, are treated as an asset or a liability,

as the case may be, and amortized over a period of 5 years on a straight-line basis.

(c) Accounting for Investments in an Affiliate

The equity method is applied to the investment in an affiliate listed below.

Name of company	Equity ownership percentage	Capital stock (Thousands of yen)
Mujirushi Ryohin (Bermuda) Ltd.	20%	¥313

The affiliate uses a fiscal year ending on different dates from those of the Company. The equity method is applied by using the consolidated financial statements which include 2 consolidated subsidiaries for the fiscal years ending the closing date of the affiliate.

Loss on the investments is provided in respect to the liabilities in excess of assets of the affiliate, taking guarantees to the affiliate into consideration.

(d) Translation of Foreign Currency Financial Statements

The translation of foreign currency financial statements of an overseas subsidiary and an affiliate into yen for consolidation purposes is made by using the exchange rate prevailing at the balance sheet dates, as permitted by the statement issued by the Business Accounting Deliberation Council (BADC) of Japan.

The translation of assets and liabilities and revenues and expenses are made at the current rate, while the translation of capital stock is made by using the historical rates.

In this connection, a certain adjusting account has been set up for the reconciliation of the account balances. Such an adjusting account is shown as "Adjustment on Foreign Currency Statement Translation" in the accompanying consolidated financial statements.

(e) Income Taxes

The tax effects of items that are included in the determination of consolidated net income for the year, but are deductible or taxable in different years (timing differences), are not reflected in the accompanying consolidated financial statements.

(f) Other Accounting Principles and Practices Employed by the Companies

Accounting principles and practices employed by the Company and its consolidated subsidiaries in preparing the accompanying consolidated financial statements, which have significant effects thereon, are explained in Note 2 of the Notes to the Non-Consolidated Financial Statements. Therefore, the accompanying consolidated financial statements should be read in conjunction with such notes.

3. UNITED STATES DOLLAR AMOUNTS

The Company maintains its accounting records in yen. The U.S. dollar amounts included in the consolidated financial statements and notes thereto represent the arithmetical results of translating yen to U.S. dollars on a basis of ¥127=US\$1. The inclusion of such dollar amounts is solely for convenience and is not intended to imply that yen amounts have been or could be readily converted, realized or settled in U.S. dollars at ¥127=US\$1 or at any other rate.

4. RELATED PARTY TRANSACTIONS (UNAUDITED)

Material transactions of the Company with its related companies for the years ended February 28, 1997 and 1998 were as follows:

Name of related company or individual	Paid-in capital (Millions of yen)	Principal business	Percentage of equity ownership owned directly or indirectly (%)	Description of transactions	Millions of yen (Thousands of U.S. dollars)				
					Transaction		Outstanding Balance		
					For the years ended February 28,		As of February 28,		
				1997	1998	Account	1997	1998	
The Seiyu, Ltd.	¥11,705	Retail trade	46.20	Sales	¥7,466	¥8,625 (\$67,913)	Accounts receivable	¥305	¥624 (\$4,913)
				Commission of physical distribution	¥3,165	¥2,848 (\$22,425)	Accrued expenses	¥601	¥582 (\$4,583)
FamilyMart Co., Ltd.	¥16,538	Franchiser of convenience stores	1.85	Sales	¥6,096	¥4,408 (\$34,709)	Accounts receivable	¥579	¥— (\$—)
Smile Corp.	¥ 1,321	Import trading	1.33	Purchase	¥1,434	¥1,879 (\$14,795)	Accounts payable	¥195	¥336 (\$2,646)

5. SEGMENT INFORMATION

(a) Business Segment

The Companies operate in the following business segments: sale of own brand merchandise, logistics with final inspection and processing, and camping operations and sale of other merchandise. Segment information classified by business segment has not been prepared or disclosed, since consolidated net sales and operating income in business segments other than "sale of own brand merchandise" are not significant in relation to those of the Companies (less than 10%) pursuant to the accounting standards with respect to consolidated financial statements in Japan.

(b) Geographic Area

Segment information classified by geographic area has not been prepared or disclosed, since sales of the consolidated overseas subsidiaries in the aggregate are not significant in relation to those of the Companies (less than 10%) pursuant to the accounting standards with respect to consolidated financial statements in Japan.

(c) Net Sales to Overseas Customers

Net sales to overseas customers have not been prepared or disclosed, since sales to overseas customers are not significant in relation to those of the Companies (less than 10%) pursuant to the accounting standards with respect to consolidated financial statements in Japan.

**<Report of the Independent Certified Public Accountants
on the Non-Consolidated and Consolidated Financial Statements>**

To: The Board of Directors of
Ryohin Keikaku Co., Ltd.

We have audited the non-consolidated balance sheets of Ryohin Keikaku Co., Ltd. (the "Company") and consolidated balance sheets of Ryohin Keikaku Co., Ltd. and its consolidated subsidiaries (together, the "Companies") as of February 28, 1997 and 1998, and the related non-consolidated and consolidated statements of income, stockholders' equity and cash flows for each of the three years in the period ended February 28, 1998, all expressed in yen. These non-consolidated and consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these non-consolidated and consolidated financial statements based on our audit.

We conducted our audit in accordance with the auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the non-consolidated and consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the non-consolidated and consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall non-consolidated and consolidated financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the non-consolidated and consolidated financial statements referred to above present fairly, in all material respects, the non-consolidated financial position of Ryohin Keikaku Co., Ltd. and consolidated balance sheets of Ryohin Keikaku Co., Ltd. and its consolidated subsidiaries as of February 28, 1997 and 1998, and the non-consolidated and consolidated results of its operations and cash flows for each of the three years in the period ended February 28, 1998, in conformity with generally accepted accounting principles in Japan applied on a consistent basis.

PRIMARY BUSINESS

Operation of Muji retail outlets; product planning, development, manufacture, and sales

<The Ryohin Vision>

At Ryohin Keikaku, we believe that an open and inquisitive mind is essential to ensuring future success. It is in this spirit that we have developed The Ryohin Vision, a set of values and objectives designed to guide us in exploring the road ahead.

The Ryohin Vision

**CORPORATE
PHILOSOPHY**

A QUEST FOR VALUE To continuously strive to understand what true value means to our customers and to create products that embody this value in every detail

A QUEST FOR GROWTH To conduct our business in a transparent and socially responsible manner on a global scale, thereby creating an upward spiral of international growth

A QUEST FOR PARTNERSHIP To seek partners with whom we can build strong, lasting relationships based on trust, respect, and a shared commitment to growth

**ONGOING
OBJECTIVES**

- To strengthen customer response channels**
- To think and act on a global scale**
- To foster local community growth**
- To be honest and straightforward**
- To strive for improved communication at every level**

**MEDIUM-TERM
OBJECTIVE**

FROM SHOPS TO SHOPPING ENVIRONMENTS
As a medium-term growth objective, we will work to transform our retail outlets into shopping environments that take maximum advantage of chain-store-operation responsiveness and efficiency.
