

Energy StorM Workshop

Energy Storage for Manufacturing and Industrial Decarbonization

Industry Needs Panel

Perspectives on energy storage needs and opportunities for manufacturing and industrial decarbonization

Industries

-  Chemicals and Petrochemicals
-  Minerals Manufacturing
-  Transportation Manufacturing
-  Steel Production
-  Cement Production

Schedule

- 2:20: **Introduction**
- 2:25: **Panelist Presentations**
- 3:25: **Q&A Session**
- 3:50: **End**

Chairs

Prakash Rao
Scientist, Buildings &
Industrial Applications,
*Lawrence Berkeley National
Laboratory*

Nwike Iloeje
Scientist, Energy Systems
Division, *Argonne National
Laboratory*

Energy StorM Workshop

Energy Storage for Manufacturing and Industrial Decarbonization

Industry Needs Panel

Perspectives on energy storage needs and opportunities for manufacturing and industrial decarbonization

Elizabeth Endler
Shell

Principal Technology
Advisor & Senior Principal
Science Expert, Storage,
Electrification & Integration

Anne Williams
Washington Mills

President

Rob Threlkeld
General Motors

Global Manager –
Sustainable Energy,
Supply, and Reliability

Hélder Da Silva
ArcelorMittal

Group Expert for
Energy

Gianluca Ambrosetti
Synhelion SA

CEO and Founder
