This recommendation recognizes the need for both ship-building plants and for a recreation spot on the water front for the Logan Heights area. It is furthermore recommended that your Honorable Body proceed to secure from the State of California a new title to the seven acres of tidelands now held in that area under a lease for recreation purposes, in order that the city title in this section may be identical to that of other city tidelands, and that when this is accomplished, the Playgrounds Commission shall be allocated the section of approximately eighteen acres shown on the attached blueprint for exclusive use as recreation area. It is further recommended and made a part and condition of this agreement that the Playgrounds Commission shall be given temporary lease of the approximately seven acres at the foot of 28th Street which they now hold under the State lease, until such time as the proposed recreation site shown on the attached blueprint shall be made accessible and available or be made as suitable for boating, swimming and other aquatic sports as the old seven acre site."

Gentlemen:

I am returning herewith document #223439 being an ordinance amending Sections 8 and 22 of Ordinance 11435 of the Ordinances of the City of San Diego, with my veto for the following reasons.

First, said ordinance has not been certified by the Auditor of the City of San Diego.

Second, said ordinance raises the salaries of certain employees in the Operating Department which would make an increase for the balance of the year of approximately \$30,000.

A Message from the Mayor vetoing the ordinance amending Ordinance No. 8210 relative to water rates, was presented and read as follows, to-wit:

July 14th, 1928

To The Honorable Common Council,
Of The City of San Diego, California.
Gentlemen:

I am returning herewith amending Ordinance #8210 relative to water rates, which is document #227216, passed by your Honorable Body on July 9th, 1928, with my veto for the following reasons.

First, that section 1, paragraph 3 of the ordinance provides that wherever water is furnished outside the corporate limits of the City of San Diego that the rate be 25¢ per 100 cubic feet. We have certain contracts now existing under which we are obligated to furnish water outside the corporate limits of San Diego in which the agreements themselves provide for methods by which water rates may be raised and this ordinance appears to conflict with these contracts and although in all probability the contracts would prevail over the ordinance I do not feel that we should place an ordinance on record which would at least appear to raise such a conflict.

I would suggest that a provision be added to said paragraph providing that nothing in the ordinance should be construed to impair or effect any existing legal contract with any municipality, subdivision of the City of San Diego, Company, or individual. With this provision added to the ordinance I should be pleased to sign same not suggesting any other changes in the ordinance.

Respectfully submitted,
Harry C. Clark."

REGULAR ADJOURNED MEETING.

Present--Councilmen Bruschi, Maire, McMullen and Seifert, and President Clark.

Clerk----Wright.

Absent---Councilman Dowell.

The hour of 10:00 o'clock A.M. having arrived, the time set for hearing all objections and protests to the doing of the thing or things proposed to be done in The Matter of Acquisition and Improvement District No. 1, under Resolution of Intention No. 46894, the Clerk announced that various protests in writing had been filed making objection to the doing of the thing or things proposed to be done in their entirety, and to the ordering of the same. Mrs H.C. Gardner appeared as attorney for the protestants.

The first matter to be considered was to whether or not the said objections were signed by the owners of more than one-half of the area of the property included within the entire assessment district, as proposed.

Upon inquiry by the Mayor, Attorney Gardner, stated that the protests were signed by only eight thousand out of the thirty thousand lots in the assessment district, assuming that all of the district were divided into lots 50 by 100 feet in size.

Thereupon, the Council found the fact to be that the owners of more than one-half of the area of the property included within the entire district as proposed, have not so in writing, made objection going to the ordering of the thing or things proposed to be done.

Thereupon, the Council proceeded to hear all objections offered against the doing of the thing or things proposed to be done, whether the said objections were in writing, or otherwise, and fully heard any and all persons who desired to be heard against the said work and improvement and against the Acquisitions proposed to be made. After the matter had been fully heard, and no other persons desiring to be heard, a motion duly made, seconded and carried that all of the said objections be overruled and denied.

The hour of 12:00 o'clock M. having arrived at this time, on motion Council took a recess until the hour of 2:00 o'clock P.M.

Upon reassembling the roll call showed the following, to-wit:

Present--Councilmen Bruschi, Maire, McMullen and Seifert, and President Clark.

Clerk----Sick.

Absent---Councilman Dowell.

The Council next heard any and all objections that were made or offered to the extent of the district, and to the zones into which said district is divided, and to the percentages to be raised therefrom as set forth in Resolution of Intention, and to the grade or grades to which the improvement is proposed to be constructed. After a full hearing thereon, and no other persons desiring to be heard thereon, upon motion duly made, seconded and carried, the Council adopted its Resolution No. 47223, recorded in Book 51 of Resolutions, finding that the Owners of more than one-half of the area of the property included in the assessment district have not made written objection going to the entirety of the things proposed to be done; overruling all objections; determining the extent and boundaries of the assessment district, the zones thereof, and the percentages to be raised therefrom; and determining the grades for the improvement, which said resolution carried the following vote, to-wit: Ayes--Councilmen Bruschi, McMullen and Seifert. Noes--Councilman Maire. Absent--Councilman Dowell.

That the following statements embody the sentiments of this Common Council with regard to the division of the gasoline tax between counties and cities:

The gasoline tax division as between counties and cities is a very much discussed problem of today, and while we are quarreling about it, forces are at work constantly to decide the law unconstitutional, which would handicap the completion of many worthy contemplated necessary highways.

It seems the proper steps to take therefore, to quiet this feeling is an agreement whereby a certain percentage of the amount raised in this manner be allocated to main trunk arteries of public use where same come within city limits.

This seems the proper step for the reason that many of the above mentioned roads are really state or county highways, and should not be assessed against the property direct, which in many cases could not and should not bear the burden. Then again it is unfair to bond the cities for this, because the bulk of gasoline tax is being paid by the cities themselves.

This is particularly true of San Diego County which has many miles of main trunk highways within the city limits.

Some counties have a good understanding between City Council and Supervisors, and the money is used to the satisfaction of all concerned. However, this is not the case in San Diego County and it is our earnest desire that the State Legislature take the necessary steps to allocate enough out of this fund to help surface and maintain the main trunk arteries leading in and out of our city.

It is not the intention of the Common Council of the City of San Diego to use this fund in maintaining city streets but only on trunk highways some of which have been declared secondary highways by the State Highway Commissioners."

Thereupon, on motion said resolution was adopted.

Cossart, ~~was~~ was presented, read and on motion adopted.

"February 9, 1929.

To The Honorable Common Council,
Of The City of San Diego, California.

Gentlemen:

I am returning here-with Documents number, 237777 and 237778, with my veto, for the following reasons:

First; As has been here-to-fore laid before the Members of This bond in making estimates of incomes from sources other than taxes, it was necessary to boost the amounts, above well considered sums to balance the Budget which you felt called upon to pass. The Auditor's report to date shows that this income is running considerably below the estimates and that as a matter of fact you haven't the money available, called for by the Budget and in face of this shortage it is not good business to raise salaries.

Second; In raising salaries of Charter Officers they should all, be considered and it should be done at the time of making the Annual Budget.

Third; The Chief of Police has not as yet served a full term as Chief and I do not think it advisable to raise his salary, until at least, he has served as Chief for a full two year period.

Fourth; There is no necessity of transferring funds from the Police Department and Fire Department, Items to that of the Administration Department Fund unless the salaries of the two Chiefs are to be raised.

Respectfully,
Harry C. Clark, Mayor"

Thereupon, Ordinance No. 12184, recorded in Book 40 of Ordinances, amending section 2 of Ordinance No. 11895 of the ordinances of the City of San Diego, entitled, "An Ordinance fixing and declaring the budget allowances of the City of San Diego and the various departments thereof for the fiscal year beginning July 1st, 1928, and creating and establishing offices and employments in said departments, and fixing compensations appurtenant thereto," approved August 27th, 1928, was adopted, notwithstanding the Mayor's Veto, by the following vote, to-wit: Ayes--Councilmen Bruschi, Maire, McMullen and Seifert.
