@@@@@@@@@@@@@@@@

At this time Councilman Creelman enters and takes his seat in the Council.

@@@@@@@@@@@@@@@@

A Message from the Mayor vetoing an ordinance fixing the salary of the City Clerk and Deputy Clerk, providing for the appointment of two additional deputies, and fixing their compensation is presented and read and ordered filed, viz:

"I hereby return without my approval this ordinance entitled, 'AN ORDINANCE FIXING THE SALARY OF THE CITY CLERK AND DEPUTY CITY CLERK, PROVIDING FOR THE APPOINTMENT OF TWO ADDITIONAL DEPUTIES, AND FIXING THEIR COMPENSATION.'

An effective enactment of the within measure would produce the following results:

1st. The monthly salaries paid the city clerk, deputy city clerk, and one additional deputy would be increased as follows: City Clerk from \$125.00 to \$150.00 per month; Deputy City Clerk from \$100.00 to \$125.00 per month; One additional deputy from \$75.00 to \$100.00 per month.

2nd. Positions for two additional deputies, now authorized temporarily by ordinance for periods of three months, would be continued for an indeterminate time.

The increased salaries proposed for the city clerk, deputy city clerk and one additional deputy are greatly in excess of the salaries paid in other departments of the municipal government for work of similar class and responsibility.

The Secretary of the Board of Public Works received \$100.00 per month, and his assistant \$75.00 per month. The deputy in the office of the auditor, and the deputy treasurer and tax collector, each receive \$100.00 per month. The salaries paid the clerks in the water department vary from \$60.00 to \$100.00 per month, only the chief clerk in that department receiving the latter sum.

I do not think such discrimination in favor of salaries to be paid in the city clerk's office over other departments of the municipal government is equitable, nor do I consider the labor involved in the performance of the duties of the city clerk's office requires or necessitates the payment of the increased salaries proposed.

The enactment of section 2 of the within instrument, whereby two additional dep-

uties are authorized for an indeterminate period, without the prior recommendation and approval of the mayor, contravenes the provisions of section 23, chapter 2, Article II, of the city charter, which reads as follows:

'Sec.23. When an officer, board, or department, provided for in this charter, shall require additional deputies, clerks, or employes, application shall be made to the Mayor therefor, and upon such application it shall be the duty of the Mayor to make investigation as to the necessity for such additional assistance, and if he find the same necessary, he may recommend to the Common Council the appointment of such additional assistance; and thereupon the Common Council, by an affirmative vote of two-thirds of all its members, may authorize such appointment, and provide for the compensation of such appointee, subject to the limitations of this charter.'

Such legislative action is therefore inoperative and void.

It might now appear that the service of these additional deputies would be desirable for an indefinite period, yet again at any time it might become perfectly feasible to transact all the business of the clerk's office with less clerical assistance. I am adverse to a policy of authorizing, for extended or indeterminate periods, the services of additional deputies, and think such authority should only be granted for fixed or definite reasonably brief periods, a renewal or extension of such authority to be lawfully authorized, as the occasion demands. The number of deputies to be employed in any department should be limited to the number actually required to transact city business by all of said deputies working throughout regular and habitual office hours.

Since legislative action was taken upon the within measure, it has come to my knowledge that one of the deputies, for whom an increase of salary is herein provided, has been excused for several days from attendance in the office during office hours, and during said several days was actually employed at another occupation; when his services for said time belonged to the city.

Such a practice is extremely reprehensible, and will not be permitted.

This incident would further indicate that any necessity heretofore existing for additional help in the city clerk's office does not exist to the same extent at the present time.

John L. Sehon,

Mayor of the City of San Diego, California.

San Diego, California, September 4th, 1906."

A Message from the Mayor vetoing an ordinance changing the grade of Ivy street, between 2nd and 4th streets, is presented, read and ordered filed, viz:

"I hereby return without my approval this ordinance entitled, 'AN ORDINANCE CHANGING AND ESTABLISHING THE GRADE OF IVY STREET FROM SECOND TO FOURTH STREETS, IN THE CITY

OF SAN DIEGO, CALIFORNIA.

On page 4 of the within ordinance, 7th line from bottom of page, the grade elevation of the intersection of Ivy street with Fourth street, at the northwest corner thereof, is erroneously stated as 205.00 feet, whereas the correct grade elevation at said northwest corner of said intersection should be 205.50 feet.

This error should be corrected before this ordinance becomes an approved official record.

The City attorney will prepare and submit a correct draft of the within ordinance.

Mayor of the City of San Diego,
California.

"San Diego, Calif., Nov. 2nd, 1906.

To The Honorable Common Council,

of the City of San Diego, California.

Gentlemen:

Your Street Committee, to whom was referred the petition of property owners, for the paving of 5th street from "A" to Upas streets, with asphalt pavement upon an asphalt concrete base, herewith reports and recommends as follows:

That 5th street from "A" street to University avenue, be paved with an asphaltic concrete pavement, five inches in thickness, composed of crushed rock, gravel, coarse sand and asphalt to be laid in a solid layer.

We further recommend that the City Engineer be authorized and directed to prepare and furnish specifications for the paving of said street between said points, in accordance with the recommendations set forth in the report of the Property Owners Committee, which report was adopted by your Street Committee and is transmitted herewith.

@@@@@@@@@@

A Message from the mayor vetoing a Resolution of Intention to close a portion
read
of Blaine avenue is presented, and ordered filed, viz:

"I hereby return, without my approval, this resolution of intention entitled,
Resolution of Intention to Close a Portion of Blaine Avenue in the City of San Diego."

"If Blaine avenue, lying east of the east line of Centre street and north of the
north line of University avenue, be closed, that portion of said street would become pri-
vate property and revert to the owners of the abutting property; such vacation and clos-
ing of said street would also close the south entrance of the alley running north and
south in Block No. 193, University Heights Addition, and render this alley impassable to
the public unless an exit be made across private property.

"A public sewer has been laid in this alley, which, crossing Centre street, con-
nects with the main sewer in University avenue.

"In my opinion, no street or alley carrying a public sewer should be closed.

"Any contemplated closing of Blaine avenue within the limits described should
provide for the continuation of this alley along the right of way of the public sewer to
its connection on University avenue.

John L. Sehon,

Mayor of the City of San Diego, Cal.

Dated, San Diego, California,

"San Diego, California, February '07.

To the Honorable Common Council.

Gentlemen:-

As a member of the street committee, I hereby submit the following minority report in the matter of the petition of Messrs. Kerckhoff-Kellar for a railway franchise and recommend the adoption of the same.

That said petition be granted, subject to any reasonable guarantee that Your Honorable Body may require.

It has only been a few months since Your Honorable Body was requested to take the necessary steps for the bonding of the city in the sum of \$5,000,000 to build a railroad, the building of which was to encourage some corporation to enter the city. Now, when a company wishes permission to construct a road without any expense to the city and asks Your Honorable Body to fix the guaranty, it seems the part of wisdom, to me, that we should do all in our power to encourage rather than discourage such an enterprise.

Respectfully,

Chas. Kelly."

The following message from the mayor vetoing an ordinance providing for the construction of cross-walks on H street, from 17th to 22nd streets, is presented, read and ordered filed, viz:

"I herewith return, without my approval, this ordinance entitled, "An Ordinance Providing for the Construction of Cross-walks on 'H' Street from the West Line of Seventeenth Street to the East Line of Twenty-second Street."

A Measure similar to this ordinance received the favorable consideration of the common council some months ago, but failed to obtain executive approval for the reason that I do not think such an improvement should be made at municipal expense, but consider that it belongs to that class of improvements the expense of which must be borne by the respective owners of the property benefited.

I have therefore been unable to reach any conclusion different from my views maintained at that time in withholding my approval of the former measure, which views were expressed in the following terms:

"The improvement hereby contemplated would be desirable, but I question the wisdom of adopting the policy herein presented, viz: that street improvements of this nature be made at the expense of the city.

"If this enactment be permitted to become an ordinance for the benefit of this particular locality at an estimated public expense of \$493.74, it is only reasonable to presume that the residents of other localities in all of the nine wards of the city would desire and expect their own respective sections cross-walked at public expense.

"The amount of money that can normally and reasonably be provided for the Street Fund would be entirely inadequate to permit such a policy to obtain.

"My interpretation of the laws of the state regarding street improvements is, that all work having in view the grading, sidewalking, paving, guttering, cross-walking, &c., of streets should be done at the expense of the property owners, until the street is fully improved and has been accepted by the city, then the responsibility of maintaining that street in repair devolves upon the city. In certain sections of the city the property owners have voluntarily put down these cross-walks at their own expense, and I would recommend that a similar method be followed in this instance.

"If this improvement be deemed essential and no concerted action be instituted by the property owners, then the common council, under the Vrooman Act, may take the necessary steps to have these cross-walks laid at the expense of the property owners."

John L. Sehon,

Mayor of the City of San Diego, California.

Dated San Diego, California,

The following message from the mayor, vetoing the resolution of intention to open and extend 'A' street from the west line of Pueblo lot 1148 to the present end of 'A' street at 14th street, is presented, read and ordered filed, viz:

"I hereby return, without my approval, this resolution entitled, 'Resolution of Intention to Open and Extend 'A' Street from the West Line of Pueblo Lot 1148 to the Present End of 'A' Street at Fourteenth Street.'

"The opening and extending of this particular block in 'A' street would necessitate the destruction or removal of a large dwelling and the acquisition by the city of valuable real property, which would involve an outlay of at least \$5,000 or \$6,000.

"This is a greater expense than the property immediately benefited could be reasonably expected to bear; to avoid which a district has been formed against which it is proposed to charge the said expense.

"Even if 'A' street in this block should be opened, the improvement would prove of restricted value only, as there is a very heavy and precipitous grade at this place; so that the greater part of the property within the proposed district would be charged with an improvement which was of no practical benefit to the district generally.

"In my opinion the advantages of opening this street are overbalanced by the impracticability of converting it into a thoroughfare for extensive general use, and the unusually heavy outlay of money required to obtain the property necessary therefor.

John L. Sehon,

Dated, San Diego, California,

Mayor of the City of San Diego, Cal.

February 14th, 1907."

The petition of Frank Johnson for a retail liquor license at the south-east corner of 2nd and H streets is presented and, same being recommended by the Health and Morals Committee, said petition is granted.

The following message from the mayor is presented and read and on motion ordered filed, viz:

"I hereby return, without my approval, this ordinance entitled, 'An Ordinance Fixing the salaries of the Members of the Common Council of the City of San Diego, California.'

"The Charter of the City of San Diego does not include members of the Common Council in the list of its salaried officers, neither does it seem to contain any express prohibition against members of the common council being paid for their services as such.

"A thoughtful and careful consideration of the principles upon which the city charter is based clearly sustains this conclusion, viz: That the Freeholders who prepared said charter contemplated that while the common council should constitute the legislative body and should shape and decide matters requiring the exercise of legislative discretion, the board of public works should be the administrative body, charged with the responsibility of conducting the business of the several operative departments, - engineer, street, sewer and water, - and that upon said board of public works should fall the responsibility of making necessary investigations, the preparation of accurate information and the submission of the same to the common council with appropriate recommendations, for legislative action where such action is necessary.

"In brief, whilst the common council possessed the legislative power, with some quasi-judicial functions, it was intended under the charter that upon the board of public works should devolve the duty and labor of attending to the details of the municipal operative departments, thereby imposing upon the members of said board of public works a resulting financial liability for the faithful discharge of their duties, for which an official bond is required.

"This ordinance provides a salary of \$100.00 per month for each of the nine members of the common council, to take effect May 6th, 1907, a total of \$10,800.00 per annum being required for that purpose.

"The members of the board of public works now receive \$75.00 per month, and until quite recently received only \$50.00 per month. The members of the board of public works are called upon to devote much more time to their public duties than members of the common council are required to give to their legitimate duties, and considering the matter for a moment from this standpoint solely, I think the salary proposed for members of the common council, viz, \$100.00 per month, is excessive and wholly out of proportion, not only to the salaries paid the board of public works, but to all other public officials.

"It is true the duties of the common council are increasing, and will increase with the growth of the city, and when the city attains a population of not less than fifty thousand, I think the members of the common council should justly receive a reasonable compensation.

"The present essential demands of the various municipal departments are heavy, and a wise discretion will be necessary to apportion to the different funds from this year's tax levy the requisite amounts to efficiently sustain these departments.

"In this connection, I think the amount proposed (\$10,800.00) for salaries for members of the common council should instead be added to the Street Fund, and I should consider that the city would thereby receive a much greater benefit.

"The municipal charter not having provided a salary for members of the common council,

a proper and dignified course for the common council to pursue would be to defer action up- on this matter for the present, and submit the question at the next charter amendment election, for determination by the people, who may be safely trusted to fairly decide wheth- er or not it is the public wish that members of the common council should receive a salary for their services, and to fix a time when such amendment should become operative.

John L. Sehon,

Mayor of the City of San Diego, California.

Dated, San Diego, California,

March 7th, 1907.

The following message from the mayor is presented, read and ordered filed, viz:

"I hereby return, without my approval, this ordinance entitled, 'An Ordinance authorizing the Board of Public Works to Contract for the Making of Blue Prints and Line Prints in the Engineer's Office.'

"This ordinance would authorize the letting of a contract for making blue prints and line prints for the city engineer's office at a price not to exceed three cents per foot for blue prints and eight cents per foot for line prints.

"This is an excessive price for this work and greatly in excess of the present cost to the city of such work now done in the engineer's office.

"At the present time the cost of making blue prints in the city engineer's office is ninety-six hundredths of a cent per foot for paper and one cent per foot for labor, or a total

of one and ninety-six hundredths cents per foot for blue prints - much less than the price proposed under this ordinance.

"The present cost of one and ninety-six hundredths cents per foot for blue prints can be further reduced to about one and seventy-five hundredths cents per foot by purchasing the proper paper in sufficient quantities by the roll when preparing the large number of blue prints necessary for the work contingent upon the new bond issues recently voted.

"In addition to my objections to this ordinance for economical reasons, I think the policy of removing such work from the engineer's office is wrong and decidedly injurious to the proper administration of that office.

"The office of city engineer, and the work performed therein, is of an exceptionally exact and technical nature, and in my opinion all work connected with making blue prints or other copies of maps, &c., should be executed in the engineer's office and under the control of the city engineer.

"If the preparation of blue prints be transferred to outside parties, much friction might follow and trouble ensue from the party receiving such contract attempting to make unauthorized copies of certain maps and tracings, which copies might be improperly disposed of.

John L. Sehon,

Mayor of the City of San Diego, Cal.

Dated San Diego, California,

April 11th, 1907.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be clearly documented and supported by appropriate evidence. This includes receipts, invoices, and other relevant documents that can be used to verify the information recorded.

In addition, the document highlights the need for regular audits and reviews. By conducting periodic checks, any discrepancies or errors can be identified and corrected promptly. This not only ensures the integrity of the data but also helps in preventing fraud and mismanagement of resources.

Furthermore, it is stressed that all personnel involved in the process should be properly trained and aware of their responsibilities. Clear communication and collaboration are essential for the successful implementation of any system or procedure. Regular training sessions and updates are necessary to keep everyone informed about the latest requirements and best practices.

Finally, the document concludes by stating that a strong foundation of reliable data and efficient processes is crucial for the long-term success of any organization. By adhering to these principles, businesses can make informed decisions, optimize their operations, and achieve their strategic goals.
