The following Message from the Mayor returning without his approval an ordinance providing for the construction of a sewer on "Golden Hill," is read and ordered filed, viz:

San Diego, California, January 13th, 1903.

To the Honorable Board of Delegates of the Common Council

of the City of San Diego, California,

Gentlemen:--

I return herewith without my approval an ordinance providing for the construction of a sewer on Golden Hill in the City of San Diego, California.

This ordinance provides for the construction of a sewer 1340 feet long at an estimated cost of \$1206. At the present time there is not a single house erected that would connect with this sewer, if the same be constructed. I am an ardent believer in sewers and sewer extensions all over the city, but there are at the present time numerous places where the sewers could be extended at one half the cost of this, and would accommodate ten residences all completed and occupied.

The estimates from all the departments of the city have not been filed for this year, and all ordinances providing for large expenditures of money should be laid over until

after the Ways and Means Committee meets and reports, and the Council fixes the tax rates for the year.

Last year the Ways and Means Committee was compelled to cut out an item for \$1250.00 from the Sewer department for the repair of the outfall sewer, a necessity, but lack of funds was the cause of their action. All of which was ratified by the Council.

Respectfully submitted,

FRANK P. FRARY,

Mayor of the City of San Diego.

The following report of the Joint Street Committee in the matter of putting 21st street between "C" and "E" streets, and 20th street between "D" and "E" streets to the official grade, is read and on motion of Delegate Burnell adopted, viz:

San Diego, Cal., Jan. 15th, 1903.

To the Common Council,

City,

Gentlemen:--

The Joint Street Committee, to whom was referred the estimates of the City Engineer for putting Twenty-first street between "C" and "E" streets, and Twentieth street between "D" and "E" streets to the official grade, herewith reports as follows:

The estimates of the City Engineer shows the following work to be done:

	CUT.	FILL.	COST.
Twenty-first st., "C" to "D", - - - - -	13.79 yards	1332.10 yards	\$ 466.24
Twenty-first st., "D" to "E", - - - - -	7.76 yards	1598.24 yards	559.38
Twentieth st., "D" to "E", - - - - -	44.81 yards	547.60 yards	191.66
Total - - - - -	66.36 yards	3477.94 yards	\$1217.28

The Committee thinks that the total cost of doing this work is too great to be done by contract at the present time. We therefore recommend that the Board of Public Works be authorized to have the street force do the same at such times as will not greatly interfere with other work, and that the dirt for making the fills required, as shown by the estimates of the Engineer, be taken from Seventeenth street between "D" and "G" streets.

We further recommend that the proceedings for sidewalking and curbing Twentieth street between "D" and "E" streets, and Twenty-first street between "C" and "E" streets, be postponed until such time as said Twentieth and Twenty-first streets shall be put to the official grade between said points.

Respectfully,

- F. C. Hyers,
- D. F. Jones,
- F. H. Briggs,
- R. P. Guinan,
- B. Burnell.

An Ordinance providing for the issuance of correction deeds to lots two and seven in block nineteen of La Playa in the City of San Diego, California.

WHEREAS, It appears from the records of the Board of Trustees of the City of San Diego, California, and from a deed dated September first, 1870, executed by the Trustees of said city to Otto H. Meyer, and filed for record in the office of the County Recorder of San Diego County, State of California, on the 15th day of March, 1871, and thereafter recorded in Book 12 of deeds at page 151 et seq.; that the said city sold to the said Otto H. Meyer the property hereinafter described, and received therefor the consideration expressed in said deed, which deed, however, does not correctly describe said property, in this, that said property was described therein as "Lot number two (2) in block No. one hundred and twenty-three (123). Situate and being in what is known as "La Playa" according to Chs. H. Poole's map of 1856", when in fact said block 123 is not subdivided into lots upon said map made by Chas. H. Poole; and

WHEREAS, It is apparent from the records of said Board of Trustees and from said deed, and from the maps of the said La Playa, that the said Board of Trustees intended to convey lot two in block "19" of La Playa, according to the map made by C. J. Coutts, as hereinafter described; and

WHEREAS, It appears from a deed, dated on the 18th day of March, 1856, executed by the City of San Diego to Thomas Whaley by the Board of Trustees of said city, (signed as individuals and not as Trustees), which deed was recorded in book one of Deeds at page 238 in the County Recorder's office of the said County of San Diego, and that the said city attempted to convey lot seven in block 123 "as designated and delineated in and on the official map of said City"; and

WHEREAS, From the said deed and the various records and maps of La Playa, it is apparent that said deed did not correctly describe said property, in this, that said property was described therein as lot seven in block 123 "as designated and delineated in and on the official map of said city," but that said city intended to convey lot seven in block nineteen of La Playa, according to the map thereof made by C. J. Coutts; and

WHEREAS, Said lot two and said lot seven have both been conveyed by mesne conveyances several times to various persons; and

WHEREAS, It appears that the said City of San Diego has no right, title, or interest in or to said lots, or either of them, or any portion thereof, except for delinquent taxes; and

WHEREAS, The Common Council of said city is desirous of correcting any and all errors in the said deeds, or either of them, or in any part of both, or either of said deeds, now, therefore,

BE IT ORDAINED, By the Common Council of the City of San Diego, as follows:

That said deed to said lot two shall contain a recital that it is made pursuant to this ordinance to correct a defect in the description in the said deed made by the said city to the said Otto H. Meyer, bearing date the first day of September, 1870, and recorded on the 28th day of March, 1871, in the office of the County Recorder of the said County of San Diego, State of California, and that the said City of San Diego does not convey any interest which said city has acquired in said property for delinquent taxes since said deed dated September first, 1870, was so executed. It being the intention of the said Common Council that said deed to said lot two, to be executed by the said Mayor of said city, shall correct any and all errors in the description and in the execution of said deed so executed in the said year 1870.

The following report of the Joint Finance Committee in the matter of the proposition to procure the old Fourth Street Power House site for a Park, is read and on motion of

Delegate Bradbury adopted, viz:

San Diego, Cal., Feb. 13th, 1903.

To the Common Council,

City,

Gentlemen:--

The Joint Finance Committee, to whom was referred the recommendation of the Joint Street Committee that the old Fourth street Power House site be purchased for a Park, "if the money necessary can be provided from this year's tax levy," herewith reports as follows:

The option assigned to the city by Geo. P. Hall for this property, is for the sum of \$1,000.00, and "subject to the taxes assessed and due against the said above described property." The Committee has ascertained that the City Tax liens against this property amounts to more than \$1,000.00, and the State and County tax liens against said property amounts to about \$1,500.00.

We are of the opinion that the amount necessary to purchase this property, in addition to cost of converting the same into a suitable Park, would be too great to be provided for in this year's tax levy. Furthermore we are of the opinion that any sum which can be raised for Park purposes can be expended to much better advantage in some portion of our present Park.

We therefore recommend that the proposition be rejected.

Respectfully,

- Chas. N. Clark,
- S. T. Johnson,
- J. P. M. Rainbow,
- D. L. Kretsinger,
- Geo. McNeill.

The following report of the Electric Light Committee in the matter of petitions to establish additional electric lights, and for changing the location of other lights, and also in the matter of lighting the streets with electricity for the year beginning April 1st, 1903, is read and on motion of Delegate Lewis adopted, viz:

San Diego, Cal., Feb. 9th, 1903.

To the Common Council,

City,

Gentlemen:--

The Joint Committee on Gas, Electric Lights and Telephones, to whom was referred various petitions for the establishment of electric lights, and for changing the location of other lights, herewith reports as follows:

We recommend that the Board of Public Works be directed to advertise for bids for lighting the streets of the city for the year beginning April 1st, 1903, and that certain changes and additions to the lights now furnished, be made in advertisement, viz:

Take a light from the mast at India and "A" streets, and one from the mast at State and Ash streets:

Add new lights as follows:

- One at the intersection of State and Hawthorne streets;
- One at the intersection of Union and "F" streets;
- One at the intersection of Union and Date streets;
- One at the intersection of First and Date streets;
- One at the intersection of Tenth and "A" streets;
- One at the intersection of Twelfth and "E" streets,
- One at the intersection of Twenty-third and "F" streets;
- One at the intersection of Twenty-fourth and "H" streets;
- One at the intersection of Julian avenue and Crosby street;
- One at the intersection of Kearney avenue and Sigsbee street.

The Committee believes that a light suspended from a wire over the center of the intersection of the streets is much preferable to a light extended from a pole on an arm. We have therefore provided that all new lights except the one at First and "H" streets be span lights, and recommend that arm lights be changed to span lights as fast as possible, where it is practicable so to do; or where trolley or other wires do not interfere.

We recommend that the petition for a light at Front and Date streets be denied. It is on the wrong corner, and the light provided for on Union and Date streets is only one block distant.

We also recommend that the application of Waldo S. Waterman, General Manager of the Cuyamaca Railroad Company, for a light at Tenth and "N" streets, be denied. The light maintained by the Electric Light Company at their power house is sufficient for that vicinity at present.

We also recommend that the application for a light at First and Juniper streets be denied. It is only two blocks from the mast at Third and Juniper streets.

We present herewith an ordinance in accordance with this report, and recommend that it be adopted.

Respectfully,

H. M. Landis,
Chas. N. Clark,
Barker Burnell,
H. Woolman,
D. L. Kretsinger.

Ordinance No. 1278.

An Ordinance Prescribing Certain Regulations for the Laying of Sidewalks and Curbs in the City of San Diego, California, and Repealing Ordinance No. 1120 of the Ordinances of Said City, Approved on the 6th Day of May, 1902.

Be it ordained, by the Common Council of the City of San Diego, as follows:

Section 1. That it shall be and is hereby declared to be unlawful for any person to lay or put in place any sidewalk or curb in or upon any street in the City of San Diego, California, without first obtaining permission so to do from the Board of Public Works of said City. Any person desiring to construct a sidewalk or curb upon any street in the said City of San Diego shall make application in writing to the said Board of Public Works for permission so to do; said application shall state the place where said sidewalk or curb is to be laid, and the number of feet of said sidewalk or curb to be constructed.

Said applicant shall deposit with the said Board of Public Works the sum of ten dollars (\$10.00) for each one hundred (100) feet of sidewalk and curb, or fractional part thereof where the applicant desires to construct both a sidewalk and curb at the same time in front of the same property, or ten dollars (\$10.00) for each one hundred (100) feet of sidewalk, or fractional part thereof, where the applicant desires to construct a sidewalk without constructing a curb at the same time in front of the same property, or ten dollars (\$10.00) for each one hundred (100) feet of curb, or fractional part thereof, where the applicant does not desire to construct a sidewalk at the same time in front of

the same property, as security for the removal of all debris and surplus material from the street in said City when said sidewalk or curb has been constructed, and also as security that said sidewalk and curb shall be laid to the official grade of said street; provided, that in lieu of the cash deposit above specified, any contractor regularly engaged in the business of laying cement or other sidewalks, or in constructing concrete, natural stone, or other curbs in the said City of San Diego, California, may furnish and deliver to the said Board of Public Works a bond payable to the said City of San Diego in the penal sum of two hundred dollars (\$200.00), with two sufficient sureties, to be approved by the said Board of Public Works, as security for the removal of all debris and surplus material from the street in said City when the said work shall have been constructed; and also as security that said sidewalk and curb shall be laid to the official grade of said street.

That in the event any person giving such bond, or his assigns, shall fail for a period of five days, after the completion of such work, to remove said debris or surplus material from said street, the said Board of Public Works shall cause said debris to be removed from said street, and said person giving said bond and the sureties thereon shall be liable to said City, in a civil action, upon said bond, for the expenses of so removing the same, and in the event that such person giving said bond shall fail to construct said sidewalk or curb to the official grade of said street, and shall fail or refuse for a period of ten days, after having been notified by the owner of the property, in front of which and for whom said work is being done, or his agent, to put and construct said sidewalk or curb to

the official grade of said street, then the said owner may put and construct, or cause to be put and constructed, said work to the official grade of said street, and said person giving said bond and the sureties thereon shall be liable upon said bond for all costs and expenses incurred by the owner of said property in putting and constructing said work to the official grade of said street, and also for all damages suffered by said owner on account thereof.

Every bond so executed under the provisions of this ordinance is in force and obligatory upon the principal and sureties therein, to and for the said City of San Diego, and to and for the use and benefit of all persons who may be injured or aggrieved by the person giving said bond failing to remove said debris and surplus material, or to construct said work to the official grade of said street; and any person so injured or aggrieved may bring suit upon such bond in his own name, without any assignment thereof; no such bond is void on the first recovery of a judgment thereon, but suit may be afterwards brought from time to time, and judgment recovered thereon by the said City of San Diego, or by any person to whom a right of action has accrued against the principal and the sureties of said bond, until the whole penalty of said bond is exhausted; whenever such bond does not contain the substantial matter or conditions required by this ordinance, or there are any defects in the approval or filing of said bond, it is not void so as to discharge such person giving such bond and his sureties, but they are equitably bound to the said City of San Diego or any party interested, and the said City or such party may, by a civil action in court, suggest the defect in such bond, approval, or filing, and recover the proper and equitable demand or damages from the principal of such bond and the persons who intended to become and were included as sureties in such bond. In the event any obligation of said bond has been violated, the said Board of Public Works shall not thereafter issue any permit to the person giving such bond for doing any other work, unless specifically authorized so to do by said Common Council.

Upon said application being made and said sum being so deposited with the said Board of Public Works, or said bond being so furnished, the said Board of Public Works shall issue a permit to the applicant for the construction of the work described in the application, and shall immediately notify the City Engineer of said City of the issuance of such permit, and thereafter the said City Engineer shall set the grade stakes for the construction of the said work, which stakes shall be to the official grade of said street; and thereafter said work shall be constructed according to the said grade stakes and according to the official grade of said street, and according to the specifications prescribed for doing such work by the ordinances of said City in force at the time such work is done, and not otherwise.

After said work shall have been so constructed, the said City Engineer shall survey the same for the purpose of ascertaining whether said work has been constructed to the official grade of said street; and according to the stakes set therefor. If the said City Engineer shall find that the said work has been constructed according to the official grade of said street, he shall issue, to the person for whom the said

work has been constructed, a certificate in writing certifying that fact, but he shall not issue any certificate if he finds that the said work has not been constructed according to the official grade of said street; when the said City Engineer issues such certificate, the said Board of Public Works shall thereafter return said deposit, provided, that said surplus material and debris have been removed from said street upon which said work has been so constructed. If the said City Engineer shall find that the said work has not been constructed according to the official grade of said street, he shall immediately notify the said Board of Public Works of that fact, and said deposit shall not be returned until said work has been constructed according to the official grade of said street, and a certificate issued to that effect by the said City Engineer.

Provided, however, that no permit shall be issued by the said Board of Public Works for the construction of bituminous rock or asphalt sidewalks or wooden curbs; nor shall a permit be issued by said Board of Public Works for the construction of a concrete or other sidewalk or curb after a resolution of intention has been passed by the Common Council of said City to sidewalk or curb that portion of the street upon which the applicant desires to construct such sidewalk or curb, without special permission having been first had and obtained from the Common Council of said City.

The said City Engineer shall charge the regular fees for making such survey and setting such stakes as prescribed by the ordinances of this City, except that no extra fees shall be charged for checking up work after the completion thereof. This ordinance shall not apply to work done under a contract by the Superintendent of Streets under the General Street Law of the State of California, where an assessment is to be levied therefor.

Section 2. That it shall be and it is hereby declared to be unlawful for any person, constructing any sidewalk or curb under any permit issued by the Board of Public Works of said City, as herein provided, to fail or refuse, for a period of five days after the completion of said work, to remove from said street upon which said work has been constructed, all debris or surplus material, or to lay or construct any sidewalk or curb other than to the official grade of the said street.

Section 3. That Ordinance No. 1120 of the ordinances of the said City of San Diego, California, approved on the 6th day of May, 1902, be and the same is hereby repealed.

Section 4. That any person who shall violate any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine not exceeding the sum of one hundred dollars (\$100.00), or by imprisonment in the city jail of said City for a period not exceeding fifty (50) days, or by both such fine and imprisonment.

Section 5. That this ordinance shall take effect and be in force from and after its passage and approval.

Section 6. That the City Clerk of the said City of San Diego, be, and he is hereby authorized and directed, immediately after the approval of this ordinance, to publish or cause the same to be published once in the city official newspaper of said City, to-wit, the San Diego Union and Daily Bee.

Your Special Bond Committee, to whom you referred the matter of arranging the details for the bond procedure, beg leave to report as follows:

In arranging the details for the procedure we would recommend that bonds be issued in the sum of five hundred thousand dollars as follows: One hundred and ninety-nine thousand dollars for improvements and extensions of the systems of water works; One hundred and forty thousand dollars for improvements and extensions of the system of sewers; Thirty-nine thousand dollars for the construction of street work, consisting of the building of the boulevards; Thirty-seven thousand dollars for the acquisition of land and the construction of buildings for the use of the fire department; Sixty-six thousand dollars for the construction of the B street bridges; fourteen thousand for the acquisition of the City Hall.

In making up these statements we have reduced the amount of the B street conduit from sixty-seven thousand dollars to sixty-six thousand dollars, on account of certain items contained therein which we did not consider could be legally considered as a charge for the construction of this conduit. We also added one thousand dollars to the street work estimate for putting oil upon the boulevards after they have been graded. We reduced the estimate for extensions to the system of water works to the sum of one hundred and ninety-nine thousand dollars. At the request of the Fire Department the location of Fire Engine House No. one and Fire Engine House No. 2 was changed so that Fire Engine House No. 1 would take the place of Fire Engine House No. two as described in our last report. After making an investigation and considering the matter, it was also deemed advisable to add one thousand dollars to the estimate of the cost of the lot to be acquired in the district bounded by D street on the north, Third street on the east, F street on the south, and Second street on the west, and also to add one thousand dollars to the estimated cost of the lot to be acquired in the district bounded by B street on the north, Eighth street on the east, D street on the south, and Seventh street on the west. We also deemed it advisable to change the District on Florence Heights so that the lot to be acquired and the building to be constructed thereon would be located between Palm street on the north, Nutmeg street on the south, Third street on the east, and Second street on the west. This change was deemed

desirable on account of the large canyon lying immediately north of Olive street.

We have had drafted a joint resolution determining and declaring that the public interest and necessity of the City of San Diego and the inhabitants thereof demand the acquisition and construction, as the case may be, of these respective improvements, and determining that bonds shall be issued by the City in said respective amounts for said purposes, and declaring the intention of the Common Council to take the necessary proceedings to that end, and we would recommend the adoption of said joint resolution.

All of which is respectfully submitted.

To the Common Council
City.

Gentlemen

The joint Committee on Gas, Electric Lights and Telephones, to whom was referred several petitions for the establishment of lights herewith reports as follows:

We recommend that the following petitions for the establishment of lights be granted, said lights to be suspended over the center of the intersections at least 20 feet from the ground:

One at the intersection of Nineteenth and "H" streets;

One at the intersection of Sixth and Beech streets;

One at the intersection of thirty-second street and Logan Avenue.

We recommend that the petition for a light at the intersection of Ninth and "B" streets be denied, for the reason that it is only three blocks from the mast at Twelfth and "B" streets.

We recommend that the action heretofore taken by the Council, upon the recommendation of this Committee, in ordering a new span light placed at the intersection of Julian Avenue and Crosby Street, be rescinded. Upon investigation we

find that the light should be located at the intersection of Irving Avenue and Crosby Street, as Originally petitioned for, and we recommend that it be so located.

We recommend that the action heretofore taken by the Council, upon the recommendation of this Committee, in denying the petition of residents for a new light at the intersection of Front and Date streets, for the reason that it is not the proper corner, be reconsidered. Upon careful examination we find that the intersection of front and Date streets is the proper corner, and we therefore recommend that a span light be placed at said intersection.

To The Honorable Board of Delegates:

Gentlemen:

Your Committee to whom was referred the Ordinance authorizing the Board of Public Works to purchase the field notes of the survey of La Jolla Park, beg leave to report thereon as follows:

We requested the City Engineer to examine the field notes and maps, and to make an inventory of everything which the owner thereof contemplated selling to the City. The City Engineer made an examination of the field notes, maps, etc. and while he finds the original field notes and tracings of the original field map of La Jolla Park, yet the original field map is not there. Consequently we are not satisfied that the City should pay five hundred dollars for these field notes and tracings, etc. unless the original field map can be found.

There are, however, many other maps of surveys which the owner contemplates including with the field notes and maps of La Jolla Park, which would be of value to the City.

All of which is respectfully submitted.

The Following Report of the joint Ways and means
Committee to whom was referred the estimates of the probable
Necessities for the various departments of the City for the
Fiscal year 1903, is read and on motion of Delegate Lambert
Adopted, viz:

San Diego, Cal., May 6th, 1903.

To the Common Council,
City,

Gentlemen:-

The joint Ways and Means Committee, to whom was
referred the estimates of the probable Necessities for the
various departments of the City for the fiscal year 1903,
upon which to base the rate for Municipal taxes for said year,
herewith reports and recommends as follows:

Upon the total assessment roll for the fiscal year
1903, viz: \$12,533,852, we estimate that there will be a small
percentage of delinquencies, and have therefore based our
estimates upon \$12,000,000 net valuation.

The investigation of the Committee in the matter of
the expenses of the City for the fiscal year 1903, shows conclu-
sively that the most rigid economy in Municipal finances
must be practiced by all departments in order to carry the City
through the year without a shortage. We earnestly recommend
that no appropriation bills be passed by the Common Council
unless the expenditures proposed to be made thereby are,
after careful investigation, found to be absolutely necessary
to properly carry on the work of the City Government.

We recommend that no levy be made for the Police Department fund, the legal fund, and the water fund, as the revenues derived from sources other than taxes will amply provide for these funds.

We recommend that your Honorable Body adopt a rate of \$1.40 upon the \$100 assessed valuation, and that the same be apportioned as follows:

Fire Department fund	.19
Salary fund	.20
Street fund	.19
Sewer and Drainage fund	.01
Street Light fund	.16
Park Improvement fund	.005
Public Health fund	.007
Library fund	.05
Public Building fund	.02
Office fund	.018
General fund	.05
School Bond Interest and sinking fund	.035
Refunding Bond Interest and sinking fund	.14
Water Bond Interest and sinking fund	.325
Total	\$1.40

We therefore recommend the adoption of the Ordinance presented herewith.

Respectfully Submitted,

Geo B. Chapman,
