Why Swiss Chalet?

Internationally Renowned Ingredients

At Swiss Chalet, we have encompassed a selection of the finest quality, specialty food products from internationally recognized brands, covering the spectrum of savory and sweet specialties—everything from easy-to-prepare bases and sauces to delectable Swiss chocolates and pastry shells.

Our cutting-edge products offer not only a beautiful finish, but also ease of use and time-saving preparation. This equates to reduced waste, consistent, high quality results, and ultimately value-added costs savings and increased profits. Our products are versatile, practical and smart, catering to our largest chain and institutional customers, as well as our smaller specialty restaurants and bakeries. Many of our products also offer unique qualities, like being clean label, gluten free and sugar free.

Quality that is Tested and Guaranteed

Our promise of quality is by far our greatest asset. We stand behind our products because our inspection of quality goes far beyond a simple taste test.

Our staff runs our products through a multitude of trials, like checking how our pastry shells endure baking when they have been pre-filled and refrigerated, or how many ways our Haco Crème Brûlée Mix can be adapted to prepare anything from bread pudding to a filling cream. And through an open exchange of communication with our customers we continue to improve our products based on their day-to-day experiences. You can be sure that any product we offer has been carefully studied and held to the highest standard.

Sauces

Mother Sauces

The Mother Sauces, also called Grand Sauces, are the five most basic sauces that every cook should master. Antonin Careme, founding father of French grande cuisine, came up with the methodology early in the nineteenth century where hundreds of sauces could be categorized under five major sauce types. There are infinite possibilities for variation, since all sauces are based on the same basic formulas. Every great chef knows that sauces are one of the fundamentals that transform a meal into a creation.

Artisanal infused oils

Artisanal infused oils Villa Manodori Oils, produced by chef Massimo Bottura of Modena, Italy, are probably the finest oils on the market today. They can enhance your dishes to the fullest flavors, previously only possible if the chef took extreme care in preparing his/her own infused oils.

Unlike any other infused oils, Villa Manodori Oils are completely clear in appearance, with the exception of the Red Pepper Infused Oil, which is slightly red in color, but like the rest of the products, does not contain any particles. All of the oils are made with extra virgin olive oil.

Here are a few application ideas that are sure to enhance your dishes:

Ginger Infused Oil: Add to a delightful stir fry, at the very end to bring out all flavors, to fried rice, for salads or over a mild piece of fish such as pompano, corvine or congrio.

Rosemary Infused Oil: Serve with your favorite artisanal breads, chabattas or toast points, sparingly use on a free range chicken breast, or light colored meats such as tender veal cutlets or pork.

Red Pepper Infused Oil: Packing some serious heat, this oil delivers the full flavor of the red pepper initially and then subsides. Absolutely a must with curry dishes, and soups, for o salad of the daring kind or on croutons or pizza.

It begins with a layer of creamy milk chocolate and a buttery caramel center accented with the essence of vanilla beans.

New York Cheesecake
Rich and decadent New York-style cheesecake folded into white chocolate ganache and coated in a delicate white shell.

Passion Panna-Cotta
A light buttermilk ganache layered with passion fruit and vanilla jam covered in white chocolate.

Strawberry
A heavenly couverture saturated with fresh strawberries make a creamy filling ripe with temptation.

Vanilla Cupcake
Sweet cream and vanilla frosting ganache mixed with tiny cake pieces in a perfect little bite.

White Chocolate Raspberry
This popular flavor from our Valentine's Day collection has taken a permanent place in our hearts with its delicious combination of tart fresh raspberries swirled into sweet creamy white chocolate.

Felchlin
SWITZERLAND

Over 100 Years of Artisanship

A pinnacle of fine chocolate, the Grand Cru line is Felchlin's premium couverture brand. It has quickly become one of the most celebrated products in the industry. Created from the Criollo Bean, a rare, intensely flavorful bean produced only in a few areas of the world, Grand Cru varieties have naturally occurring aromas of coffee, roasted hazelnut, wild berries, orange blossom and cinnamon. It's no surprise some of the finest pastry chefs and confectioners choose Felchlin Couvertures as their main ingredient.

Ensuring Sustainability & Cacao Bean Origin

Felchlin Switzerland prides itself in setting strict guidelines that guarantee the sustainability of its cacao beans. These guidelines include the complete traceability of the cacao beans to their origin, and a working relationship with the farmers.

Felchlin knows, and works closely with, the farmers who cultivate the cacao beans. To ensure the high quality of the cacao beans, the company always pays prices above those recommended by Fairtrade.

Felchlin places a strong emphasis on the fact that cacao cultivation should be produced in harmony with nature as well as being financially beneficial for the farmers and their families.

Felchlin Switzerland only imports cacao beans with a clear designation of origin, and distinction between noble, fine flavor cacao and commodity cacao.

QUALITY AND PRACTICALITY

PONTHIER

LE FRUIT DEPUIS 1946

Fruit Purees

REFER / FROZEN FRUIT PUREES

REFER +36°F / +44°F
FROZEN 0°F

Based in South West France, the firm Ponthier has been passing on the love and craft of fruit growing from father to son, for more than 65 years. Ponthier created the first range of refer purees in 1998, with an approach based on tradition but with an eye to innovation.

USES

The puree is “fruit ready for use” which has infinite possibilities.

For example:

- In cocktails, fruit juices, smoothies
- In desserts (fruit mousse, round jellies, mousselines,...)
- In ice creams and sorbets
- In chocolates (fillings) and confectionery (fruit jellies, marshmallows...)
- In the creation of sweet sauces (coulis) or savory sauces

THE FRUIT PUREE

Or “fruit pulp”, is made up from fruits picked at maturity that are finely crushed and to which sugar is added to delay any oxidation once the puree has defrosted. Our purees are used as a substitute for fresh fruit, and offer practicality, time saving, food safety, cost control and consistent quality throughout the year.

OUR EXPERTISE

- The fruit is picked at full maturity, supplied by partner producers who meet the requirements of our exact specifications. The fruit is delivered to the Ponthier factory, where it is stored under optimal conditions to maintain its freshness. We have controlled storage for 5,700 pallets, which is equivalent to one year’s production.
- During production, the fruit is sorted, crushed, sugar is added and the pulp refined. It is then flash pasteurised to ensure that it is hygienic and safe, and immediately re-chilled to preserve the taste and color of the fresh fruit.

OUR SPECIFICITIES

- The fruits: selection of the best varieties and origins, no blending, **purchase once a year** at harvest time at a contractually agreed Brix level and comprehensive **analysis for pesticide residues on each batch**.
- The process: no additives (flavorings, colorings, thickeners...), control of the flash pasteurisation temperatures for each fruit.
- The finished product: tasting for each batch produced, guaranteeing a taste and a color identical to fresh fruit as well as a dense, smooth and homogeneous texture. The quality charter: commitment of the Management and all its teams to meet the requirements of the strictest IFS (higher level) and BRC (grade A) standards, and to guarantee food safety. Kosher/Halal certifications.
