## WHERE DEMANDING AUDIO MEETS RUGGED POWER

This completely redesigned amplifier assortment has been engineered for the car audio enthusiast. Each amplifier uses a MOSFET power supply and low noise circuitry for the highest performance capabilities. Boasting 0-12 dBA variable 45Hz bass boost, high and low level inputs, and five-way protection circuitry (thermal, short circuit, impedance, voltage, and reverse polarity) EFX Amps provide rock solid dependability

Shown: 1974 Ford Bronco show vehicle with EFX 1200-watt Max Power, 4-channel amplifier (#6004) and 2000-watt mono EFX Max Power amplifier (#1000c1)
