

# Appendices

## Appendix 3B

## Record of Monuments and Places

The monuments and places listed under this appendix relate to those that are protected under the National Monuments Acts. The Department of Arts, Heritage and the Gaeltacht is responsible for identifying and designating monuments and places and maintaining the relevant registers.

Each Recorded Monument and Place is denoted on the Development Plan maps in the form of a dashed circle symbol comprising an Area of Archaeological Potential together with the relevant map reference number. Groups of monuments and places located within an Area of Archaeological Potential such as around historic towns and villages are mapped and listed under one map reference number. Individual structures and places within grouped areas can be identified under the Record of Monuments and Places, Dúchas (1998)

Recorded Monuments and Places that are also designated as Protected Structures under this Development Plan are identified under the Record of Protected Structures (RPS) contained in Appendix 3A.

Sheet	Map Ref	Description	Address / Location	Recorded Monument and Places Ref
