

OREO DORY

Pseudocyttus Maculatus, Allocyttus Niger

In New Zealand the most common species of Dory are Smooth Oreo Dory and Black Dory. Both of these species have a firm, white flesh with a delicate flavour which is suitable for most cooking methods.

Wild Smooth Oreo Dory and Black Dory are a deep water fish caught all year round, with peak season from June to September. Sealord Dory comes from a sustainable and well managed fishery.

Block	Layered skinless fillet block, suitable for further industrial processing
Value Added Coated	Coated, seasoned, packaged and further processed products

SUSTAINABLE DEEPWATER SEAFOOD

We care about the future of fishing, so our fish comes from well-managed fisheries, some of which have a Fisheries Improvement Plan in place. We continue to evolve our processes and undertake research to ensure we manage fisheries with the best practices and quality of scientific information available. The Quota Management System (QMS) has been operating in New Zealand for over thirty years, solidifying New Zealand's reputation as a world leader in sustainable fisheries management. It ensures that our fisheries resources are not over-fished and that our seafood will be available for generations to come. It is one of the most extensive quota-based fisheries management systems in the world, with over 100 species or species complexes managed within this framework.

QUALITY YOU CAN TRUST

We deliver quality products to an exceptional standard of food safety and quality. Our uncompromising quality is why we are the number one retail seafood brand in New Zealand.
