

**Pinaxia versicolor-11.3mm. HTF Hawaii Many
Colored Rock Shell-Hawaiian Shell**

**an excellent Hawaiian Many Colored
Rock Shell, Pinaxia versicolor, Gray, 1839.**

**This excellent, very hard to find shell
measures approximately 11.3mm. by digital
caliper and is in F++ condition with very nice
color and cool sculpture, but has some
faults. This shell is about average size for the
species and was collected on the Windward
Shore of Oahu in 6 feet of water in rubble.**
