

Supplementary Figure S6A. Full colour images of *Leuctra inermis* group species: Terminalia of *L. alosi*. Upper row, male; lower row, female. From left to right: dorsal view, ventral view, lateral view.

Supplementary Figure S6B. Full colour images of *Leuctra inermis* group species: Terminalia of *L. ameliae*. Upper row, male; lower row, female. From left to right: dorsal view, ventral view, lateral view.

Supplementary Figure S6C. Full colour images of *Leuctra inermis* group species: Terminalia of *L. apenninicola*. Upper row, male; lower row, female. From left to right: dorsal view, ventral view, lateral view.

Supplementary Figure S6D. Full colour images of *Leuctra inermis* group species: Terminalia of *L. balcanica*, females. From left to right: dorsal view, ventral view, lateral view.

Supplementary Figure S6E. Full colour images of *Leuctra inermis* group species: Terminalia of *L. flavomaculata*. Upper row, male; lower row, female. From left to right: dorsal view, ventral view, lateral view.

Supplementary Figure S6F. Full colour images of *Leuctra inermis* group species: Terminalia of *L. fochettii*. Upper row, male; lower row, female. From left to right: dorsal view, ventral view, lateral view.

Supplementary Figure S6G. Full colour images of *Leuctra inermis* group species: Terminalia of *L. garumna*. Upper row, male; lower row, female. From left to right: dorsal view, ventral view, lateral view.

Supplementary Figure S6H. Full colour images of *Leuctra inermis* group species: Terminalia of *L. grafi*. Upper row, male; lower row, female. From left to right: dorsal view, ventral view, lateral view.

Supplementary Figure S6I. Full colour images of *Leuctra inermis* group species: Terminalia of *L. handlirschi*. Upper row, male; lower row, female. From left to right: dorsal view, ventral view, lateral view.

Supplementary Figure S6J. Full colour images of *Leuctra inermis* group species: Terminalia of *L. inermis*. Upper row, male; lower row, female. From left to right: dorsal view, ventral view, lateral view.

Supplementary Figure S6K. Full colour images of *Leuctra inermis* group species: Terminalia of *L. insubrica*. Upper row, male; lower row, female. From left to right: dorsal view, ventral view, lateral view.

Supplementary Figure S6L. Full colour images of *Leuctra inermis* group species: Terminalia of *L. kempnyi*. Upper row, male; lower row, female. From left to right: dorsal view, ventral view, lateral view.

Supplementary Figure S6M. Full colour images of *Leuctra inermis* group species: Terminalia of *L. metsovonica*. Upper row, male; lower row, female. From left to right: dorsal view, ventral view, lateral view.

Supplementary Figure S6N. Full colour images of *Leuctra inermis* group species: Terminalia of *L. pusilla*. Upper row, male; lower row, female. From left to right: dorsal view, ventral view, lateral view.

Supplementary Figure S6O. Full colour images of *Leuctra inermis* group species: Terminalia of *L. quadrimaculata*, male. From left to right: dorsal view, ventral view, lateral view.

Supplementary Figure S6P. Full colour images of *Leuctra inermis* group species: Terminalia of *L. rauscheri*. Upper row, male; lower row, female. From left to right: dorsal view, ventral view, lateral view.

Supplementary Figure S6Q. Full colour images of *Leuctra inermis* group species: Terminalia of *L. teriolensis*. Upper row, male; lower row, female. From left to right: dorsal view, ventral view, lateral view.

Supplementary Figure S6R. Full colour images of *Leuctra inermis* group species: Terminalia of *L. teriolensis*, male. From left to right: dorsal view, ventral view, lateral view.
