GAMESA CORPORACIÓN TECNOLÓGICA, S.A. AND SUBSIDIARIES COMPOSING THE GAMESA GROUP

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2008

1. Formation and description of the Group

Gamesa Corporación Tecnológica, S.A. ("GAMESA") was incorporated on 28 January 1976. Its registered office is currently located at Ramón y Cajal, 7-9, Vitoria (Álava).

Its company object is the promotion and development of companies through temporary ownership interests in their share capital, for which it can perform the following transactions:

- Subscription of shares or other equity investments in unlisted companies engaging in business activities.
- Acquisition of the shares or other equity investments mentioned in the preceding point.
- Subscription of fixed-income securities issued by the companies in which it has ownership interests or the grant of participating and other loans to these companies for a term exceeding five years.
- Direct provision to investees of counselling, technical assistance and other similar services related to the management of investees, to their financial structure or to their production or marketing processes.
- Grant of participating loans for the acquisition of newly-built vessels which are intended for commercial shipping or fishing and not for sports or recreational activities or other private use in general.

All the activities which make up the aforementioned company object may be carried on in Spain or abroad, and may be carried on either directly (totally or partially) by GAMESA, or through the ownership of shares or other equity investments in companies with an identical or a similar company object. The GAMESA Group may not engage in any activity for which legislation imposes specific conditions or limitations if it does not comply in full with these requirements.

The Company's bylaws and other public information on the Company may be consulted on the web site www.gamesacorp.com and at its registered office.

In addition to the operations carried on directly by it, Gamesa Corporación Tecnológica, S.A. is the head of a group of subsidiaries that engage in various business activities and which compose, together with the Company, the GAMESA Group ("the Group" or the "GAMESA Group"). Therefore, in addition to its own individual financial statements, Gamesa is obliged to present consolidated financial statements for the Group including its interests in joint ventures and investments in associates.

The GAMESA Group currently operates as a manufacturing group and principal supplier of leading-edge products, facilities and services in the renewable energy industry, structured in the following business units headed by the respective Group companies:

Company	Main line of business
Gamesa Eólica, S.L. Unipersonal	Manufacture of wind generators
Gamesa Energía, S.A. Unipersonal	Development, promotion and sale of wind farms

In 2008 the business relating to the manufacturing and sale of solar-power facilities was sold (see Note 8). Also, at 31 December 2008, the GAMESA Group presented the promotion, development and sale of wind farms business as a discontinued operation in its consolidated financial statements, by virtue of the strategic agreement with Iberdrola Renovables, S.A., as described in Note 8.

Information on the environment-

In view of the business activities carried on by the GAMESA Group, it does not have any environmental liability, expenses, assets, provisions or contingencies that might be material with respect to the Group's equity, financial position and results. Therefore, the directors did not include any specific disclosures relating to environmental issues in these notes to the consolidated financial statements.

2. Basis of presentation of the consolidated financial statements and basis of consolidation

a) Basis of presentation-

The consolidated financial statements for 2008 of the GAMESA Group have been prepared:

- By the directors of GAMESA, at the Board of Directors Meeting held on 25 February 2009.
- Since 2005, in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union, including the International Accounting Standards (IASs) and the interpretations issued by the International Financial Reporting Interpretations Committee (IFRIC) and by the Standing Interpretations Committee (SIC). Note 3 includes a summary of the principal accounting policies and measurement bases applied in preparing the GAMESA Group's consolidated financial statements for 2008.
- Taking into account all the mandatory accounting policies and rules and measurement bases with a material effect on the consolidated financial statements.
- So that they present fairly the consolidated equity and consolidated financial position of the GAMESA Group at 31 December 2008, and the results of its operations, the changes in equity and the cash flows at the Group in the year then ended.
- On the basis of the accounting records kept by GAMESA and by the other Group companies. However, since the accounting policies and measurement bases used in preparing the Group's consolidated financial statements for 2008 (IFRSs) could differ from those used by the Group companies (local standards), the required adjustments and reclassifications were made on consolidation to unify the policies and methods used and to make them compliant with International Financial Reporting Standards.

The consolidated financial statements of the GAMESA Group for 2007 were approved by the shareholders at the Annual General Meeting of GAMESA on 30 May 2008. The Group's 2008 consolidated financial statements have not yet been approved by the shareholders at the Annual General Meeting. However, the Board of Directors of GAMESA considers that these consolidated financial statements will be approved without any changes.

b) Adoption of new or revised International Financial Reporting Standards (IFRSs)-

-Standards and interpretations in force in 2008

IFRIC 11, IFRS 2-Group and Treasury Share Transactions and the amendment to IAS 39/IFRS 7 -Reclassification of Financial Assets became effective for the first time in 2008. The adoption of these new interpretations and amendments did not have any effect on the GAMESA Group's consolidated financial statements.

Note 36 provides a detail of the most significant standards, amendments and interpretations published by the IASB (International Accounting Standard Board), which at 31 December 2008 had not yet come into force.

c) Functional currency-

These consolidated financial statements are presented in thousands of euros, since the euro is the currency used in the main economic area in which the GAMESA Group operates. Foreign operations are recognised in accordance with the policies established in Note 3-f.

d) Responsibility for the information-

The information in these consolidated financial statements is the responsibility of GAMESA's Board of Directors.

e) Information relating to 2007-

As required by IAS 1, the information relating to 2007 contained in these notes to the consolidated financial statements is presented, for comparison purposes, with similar information relating to 2008 and, accordingly, it does not constitute the GAMESA Group's statutory consolidated financial statements for 2007.

As required by IFRS 5, and with the objective of improving the comparability of 2008 and 2007, the structure of the accompanying consolidated income statement for 2007 has been adjusted and the effect of the companies classified as discontinued operations in 2008 has been included therein. Therefore, each item in the accompanying 2007 consolidated income statement relates to the item disclosed in the 2007 consolidated financial statements, increased or decreased by the amount contributed in 2007 by the companies classified in 2008 as discontinued operations (see Note 8).

f) Basis of consolidation-

The subsidiaries over which the GAMESA Group has the capacity to exercise control were fully consolidated.

The GAMESA Group considers that it has the capacity to exercise control over a subsidiary when it has sufficient power to govern its financial and operating policies so as to obtain benefits from its activities. Such control is presumed to exist when GAMESA owns, either directly or indirectly, more than 50% of the voting power of the investees.

The associates over which the GAMESA Group is in a position to exercise significant influence, but not control, were accounted for in the consolidated balance sheet using the equity method. For the purpose of preparing these consolidated financial statements, it was considered that the GAMESA Group is in a position to exercise significant influence over companies in which it has an investment of 20% or more of the share capital, except in specific cases where, although the percentage of ownership is lower, the existence of significant influence can be clearly demonstrated.

A list of GAMESA's subsidiaries and associates, together with the consolidation or measurement bases used in preparing the accompanying consolidated financial statements, and other relevant information are disclosed in the Appendix.

The operations of GAMESA and of the consolidated subsidiaries were consolidated in accordance with the following basic principles:

- On acquisition of a subsidiary, its assets, liabilities and contingent liabilities are measured at their fair values. Any excess of the cost of acquisition of the subsidiary over the fair values of the aforementioned assets and liabilities relating to the Parent's ownership interest in the subsidiary is recognised as goodwill. Any deficiency of the cost of acquisition below the fair values of the assets and liabilities is credited to the consolidated income statement.
- Goodwill arising as described in the preceding paragraph has not been amortised since 1 January 2004, the date of transition to IFRSs, although it is reviewed at least once a year in order to ascertain whether any impairment loss should be recognised (see Note 9).
- Investments in the capital of companies other than subsidiaries in which investments of over 20% are owned are measured on the basis of the fraction of equity represented by these investments, after taking into account any dividends received therefrom and other equity eliminations (see Note 12).
- The value of the interest of minority shareholders in the equity and results of the fully consolidated subsidiaries is presented under "Equity - Of Minority Interests" in the consolidated balance sheet and "Profit or Loss for the Year - Attributable to: Minority Interests" in the consolidated income statement.
- The financial statements of foreign companies were translated to euros using the year-end exchange rate method. This method consists of translating to euros all the assets, rights and obligations at the exchange rates prevailing at the date of the consolidated financial statements, the consolidated income statement items at the average exchange rates for the year, and equity at the historical exchange rates at the date of acquisition (or in the case of retained earnings at the average exchange rates for the year in which they were generated), and the differences are recognised with a charge or a credit, as appropriate, to "Equity - Of the Parent - Translation Differences" in the consolidated balance sheet.
- The accompanying consolidated financial statements include certain adjustments to bring the accounting policies and procedures applied by the subsidiaries into line with those of GAMESA.
- All balances and transactions between fully or proportionately consolidated companies were eliminated on consolidation.
- The total amount of temporary differences associated with retained earnings of subsidiaries if no double taxation tax credits exist and for which the corresponding deferred tax liability was not recognised at 31 December 2008 and 2007 is not material.

g) Changes in the scope of consolidation-

The most significant inclusions in the scope of consolidation in 2008 and 2007 were as follows:

Incorporation of new companies

The detail of the main companies incorporated in 2008 is as follows:

Incorporated company	Incorporating company	Initial percentage of ownership

(*)Gamesa Eólica, S.L. (Sole-Shareholder Company) holds a 99% ownership interest in this company, whereas Gamesa Corporación Tecnológica, S.A. holds the remaining 1%.

The detail of the main companies incorporated in 2007 is as follows:

Barton Chapel Wind LLC	Gamesa Energy USA, Inc.	100%

Acquisition of new companies

In 2008 and 2007 the GAMESA Group did not make any significant acquisitions.

The assets and liabilities contributed by these companies are not material (see Notes 10 and 11), and at the date of their inclusion in the scope of consolidation their carrying amount coincided with their fair value.

Changes in the consolidation method and/or exclusions from the scope of consolidation

In 2008 the most significant exclusions from the scope of consolidation of the GAMESA Group are as follows (see Note 12):

Company	Percentage of direct and indirect ownership in 2007	Percentage of direct and indirect ownership in 2008
Gamesa Solar and subsidiaries	100%	100%
S.E. La Torrecilla, S.A.	100%	100%
S.E. De la Higuera, S.A.	100%	100%
S.E. La Linera, S.A.	100%	100%
S.E. Altamira, S.A.	100%	100%
Windfarm Eschweiler, GmbH	100%	100%
Windfarm Seehausen, GmbH	100%	100%
Windfarm Coswig, GmbH	100%	100%
Monroe Wind, LLC	100%	100%
White Wind Farm, LLC	100%	100%

In 2008 there were no changes in the consolidation method of the companies which form part of the GAMESA Group.

As a result of the disposal of the solar farm promotion, development and construction activities, Gamesa Solar, S.A. (Sole-Shareholder Company) and subsidiaries, and the subsidiaries of Gamesa Energía, S.A. (Sole-Shareholder Company), the company object of which was the promotion and development of solar farms were excluded from the scope of consolidation (see Note 8).

3. Accounting policies and measurement bases

a) Revenue recognition-

Revenue from sales is measured at the fair value of the assets or rights received as consideration for the goods and services provided in the normal course of the Group companies' business, net of discounts and applicable taxes. Sales of goods are recognised when the goods have been delivered and title thereto has been transferred. Revenue from construction contracts is recognised in accordance with the GAMESA Group's accounting policy described in Note 3-b.

Sales of wind farms whose non-current assets are classified as inventories (see Note 3-m) are recognised under "Revenue" in the consolidated income statement for the total price of the shares of the wind farm plus the amount of the net borrowings relating to the facility (total debt less current assets). At the same time, the related inventories are derecognised with a charge to "Changes in Inventories of Finished Goods and Work in Progress" in the consolidated income statement. The difference between the two amounts represents the operating profit or loss obtained from the sale.

Each wind farm adopts the legal structure of a corporation or limited liability company (see Appendix), the shares of which are fully consolidated in the accompanying consolidated financial statements. Wind turbine generating systems (WTGSs) constitute a wind farm's principal asset. As a general rule, a wind farm is effectively sold once it has entered into operation and has successfully completed the start-up period.

Interest income is accrued on a time proportion basis, by reference to the principal outstanding and the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts over the expected life of the financial asset to that asset's carrying amount.

Dividend income from investments is recognised when the shareholder's rights to receive payment have been established.

b) Stage of completion-

The GAMESA Group applies the percentage of completion method (see Note 17) to firm wind farm construction contracts and contracts for the sale of WTGSs to non-Group third parties that at 31 December of each year have the following characteristics:

- There is a firm obligation for the buyer.
- The total contract revenue can be measured reasonably reliably.
- Both the contract costs to complete the contract and the stage of contract completion at the end of the reporting period can be measured reliably.
- If the contract is unilaterally terminated by the buyer, the latter is obliged to compensate the GAMESA Group for at least the costs and profit margin accrued up to the date of termination.

This policy involves the recognition as revenue in the consolidated income statement of the result of applying to the estimated overall profit margin on each contract for the sale of wind farms the stage of completion of the wind farm at the end of the reporting period. The stage of completion of wind farm contracts is measured by reference to technical criteria in the case of wind farm development (location of sites, obtaining of permits and authorisation for the connection of the wind farm to the grid) and to economic criteria in the case of the construction of WTGSs.

In the case of the manufacture of WTGSs for third parties outside the GAMESA Group, the stage of completion is measured by reference to economic criteria, calculating the proportion that contract costs incurred for work performed to date bear to the estimated total contract costs.

The GAMESA Group recognises the total cost incurred in reaching the related stage of completion under "Trade and Other Receivables" and "Trade receivables from related companies" in the consolidated balance sheet with a credit to "Revenue" in the consolidated income statement. Also, the costs incurred in the manufacture of WTGSs are recognised with a charge to "Procurements" in the consolidated income statement, whereas those incurred in the construction of wind farms are recognised with a charge to "Changes in inventories of finished goods and work in progress" (see Note 17).

If the total estimated costs exceed the contract revenue, the related loss is recognised immediately in the consolidated income statement.

c) Goodwill-

Goodwill arising on consolidation represents the difference between the price paid in acquiring the fully consolidated subsidiaries and the portion corresponding to the Group's share of the market value of the items making up the net assets of those companies at the date of acquisition. Goodwill arising in the acquisition of companies with a functional currency other than the euro is translated to euros at the exchange rates prevailing at the date of the consolidated balance sheet.

Goodwill acquired on or after 1 January 2004 is measured at acquisition cost and that acquired earlier is recognised at the carrying amount at 31 December 2003 in accordance with the accounting policies applied until that date. In both cases, since 1 January 2004 goodwill has not been amortised and at the end of each reporting period it is reviewed for impairment (i.e. a reduction in its recoverable amount to below its carrying amount) and, if there is any impairment, the goodwill is written down accordingly (see Note 3-1).

d) Disposal groups, assets classified as held for sale and profit from discontinued operations-

Assets and disposal groups are classified as held for sale if their carrying amount will be recovered through a sale transaction rather than through continuing use, for which they must be available for immediate sale in their present condition and their sale must be highly probable.

For the sale of an asset or disposal group to be highly probable, the following conditions must be met:

- The GAMESA Group must be committed to a plan to sell the asset or disposal group.
- An active programme to locate a buyer and complete the plan must have been initiated.

- The asset or disposal group must be actively marketed for sale at a price that is reasonable in relation to its current fair value.
- The sale should be expected to qualify for recognition as a completed sale within one year from the date of classification as held for sale.
- It is unlikely that significant changes to the plan will be made.

Assets and disposal groups classified as held for sale are measured in the consolidated balance sheet at the lower of carrying amount and fair value less costs to sell (see Note 8). Also, non-current assets are not depreciated while they are classified as held for sale.

Conversely, a discontinued operation is a business that has been sold or disposed of by any other means, or that has been classified as held for sale whose assets, liabilities and net profit or loss can be distinguished physically, operationally and for financial reporting purposes

e) Leases-

The GAMESA Group classifies leases as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Assets held under finance leases are classified in the appropriate asset category in the consolidated balance sheet based on their nature and function at the lower of the fair value of the leased asset and the aggregate present values of the amounts payable to the lessor plus the price of exercising the purchase option, with a credit to "Bank Borrowings" in the consolidated balance sheet. These assets are depreciated using similar criteria to those applied to the assets owned by the GAMESA Group.

Lease payments under an operating lease are recognised as an expense on a straight-line basis over the lease term.

f) Foreign currency balances and transactions-

The functional currency of most of the GAMESA Group companies is the euro.

For all of the GAMESA Group's foreign subsidiaries with a functional currency other than the euro, the functional currency is the same as the local currency. Therefore, there are no functional currencies which are different from the local currencies in which each company pays its corresponding income tax. Consequently, changes in exchange rates do not give rise to any temporary differences which might lead to the recognition of a deferred tax asset or liability.

Transactions in a currency other than the functional currency of the GAMESA Group companies are translated to euros at the exchange rates prevailing on the date of the transaction. During the year, exchange differences between the exchange rate at which the transaction was translated and the exchange rate at which the collection or payment was translated are recognised with a charge or a credit to the consolidated income statement.

Also, foreign currency fixed-income securities and receivables and payables at 31 December of each year are translated to the functional currency at the exchange rates prevailing on the consolidated balance sheet date. Any exchange differences arising are recognised with a charge or a credit, as appropriate, to "Exchange Differences (Gains and losses)" in the consolidated income statement.

The hedges that the GAMESA Group uses to reduce foreign currency risk are described in Note 21.

The detail of the equivalent euro value of the monetary assets and liabilities denominated in currencies other than the euro of the GAMESA Group at 31 December 2008 and 2007 is as follows:

Currency	Equivalent value in thousands of euros			
	2008		2007	
	Assets	Liabilities	Assets	Liabilities
Pound sterling	216	70	1	307
US dollar	240,665	173,515	208,228	250,966

Other currencies	4,269	2,655	1	11,054
Total	300,903	189,182	353,321	366,521

The detail of the main foreign currency balances is as follows:

Nature of the balances	Equivalent value in thousands of euros			
	2008		2007	
	Assets	Liabilities	Assets	Liabilities
Accounts receivable	211,287	-	314,064	-

Bank borrowings (Note 19)	-	65,662	-	155,464
Total	300,903	189,182	353,321	366,521

The detail, by nature of the items that compose them, of the main foreign currency balances classified as held for sale and their associated liabilities (see Note 8), are as follows:

Nature of the balances	Equivalent value in thousands of euros	
	2007	
	Assets	Liabilities
Accounts receivable	40,286	-
Cash and cash equivalents	370	-
Accounts payable	-	15,390
Bank borrowings (Note 19)	-	743
Total	40,656	16,133

g) Government grants-

Government grants related to assets are deducted from the carrying amount of the assets financed by them and, therefore, they reduce the annual depreciation/amortisation charge relating to each asset over its useful life.

Grants related to income are allocated to income in the year in which the related expenses are incurred. "Other Operating Income" in the consolidated income statements for 2008 and 2007 includes EUR 230 thousand and EUR 32 thousand, respectively, in this connection (see Note 29-a). Also, the income in this connection relating to discontinued operations in 2008 and 2007 amounted to EUR 41 thousand and EUR 472 thousand, respectively and is recognised under "Profit for the Year from Discontinued Operations" in the accompanying consolidated income statement.

h) Current/Non-current classification-

Debts are classified as non-current or current on the basis of the projected period to maturity, disposal or settlement. Therefore, non-current debts are amounts due to be settled within more than twelve months from the date of the consolidated balance sheet, except as explained below.

Loans and credit facilities assigned to wind farms held for sale are classified at short or long term on the basis of the period in which the wind farm will foreseeably be sold, since such sale, which is carried out through the sale of the shares of the corporation/limited liability company in which these wind farms are legally structured, entails the exclusion from the scope of consolidation of all the assets and liabilities of the wind farms.

Accordingly, regardless of the repayment schedule contractually relating to this financing, the total amount of financing assigned to the wind farms that will foreseeably be sold within twelve months from year-end is classified at short term.

i) Income tax-

Since 2002 GAMESA and certain subsidiaries located in the Basque Country subject to Álava corporation tax legislation have filed income tax returns under the special consolidated tax regime pursuant to Álava Corporation Tax Regulation 24/1996, of 5 July. The Parent of the related tax group is Gamesa Corporación Tecnológica, S.A.

The income tax expense is accounted for using the balance sheet liability method. This method consists of determining deferred tax assets and liabilities on the basis of the differences between the carrying amounts of assets and liabilities and their tax base, using the tax rates that can objectively be expected to apply when the assets are realised and the liabilities are settled. Deferred tax assets and liabilities arising from direct charges or credits to equity accounts are also accounted for with a charge or credit to equity.

The GAMESA Group recognises deferred tax assets to the extent that it is expected that there will be taxable profits against which tax assets arising from temporary differences can be utilised.

Double taxation and other tax credits and tax relief earned as a result of economic events occurring in the year are deducted from the income tax expense, unless there are doubts as to whether they can be realised.

j) Property, plant and equipment-

Property, plant and equipment, which are all for own use, are stated in the balance sheet at acquisition cost less any accumulated depreciation and any recognised impairment losses. Prior to 1 January 2004, the GAMESA Group revalued certain items of property, plant and equipment as permitted by the applicable legislation. The GAMESA Group, in conformity with IFRSs, treated the amount of these revaluations as part of the cost of these assets.

The costs of expansion, modernisation or improvements leading to increased productivity, capacity or efficiency or to a lengthening of the useful lives of the assets are capitalised, together with the borrowing costs incurred during the construction period only. Repairs that do not lead to a lengthening of the useful lives of the assets and maintenance expenses are charged to the income statement for the year in which they are incurred.

In-house work performed by the GAMESA Group on non-current assets is recognised at accumulated cost (external costs plus in-house costs, determined on the basis of the hourly costs of the employees engaged therein, and is recognised with a credit to "Other Operating Income - Group Work on Non-Current Assets" in the consolidated income statement (see Note 29-a).

The GAMESA Group depreciates its property, plant and equipment using the straight-line method, distributing the cost of the assets over the following years of estimated useful life:

	Average years of estimated useful life
Buildings	20 - 33
Plant and machinery	5 - 10
Other items of property, plant and equipment	3 - 10

Since the GAMESA Group does not have to meet any significant costs in relation to the closure of its facilities, the accompanying consolidated balance sheet does not include any provisions in this connection.

k) Intangible assets-

Intangible assets are initially recognised at acquisition or production cost and are subsequently measured at cost less any accumulated amortisation and any accumulated impairment losses.

Internally generated intangible assets- Development expenditure

Expenditure on research activities is recognised as an expense in the year in which it is incurred.

In conformity with IFRSs, the GAMESA Group classifies as intangible assets the expenses incurred in the development of projects for which it can be demonstrated that the following conditions have been met:

- The expenditure is specifically identified and controlled by project and its distribution over time is clearly defined.
- They are feasible projects from the technical standpoint, it is intended to complete the projects and it is possible to use the results thereof.
- There are technical and financial resources to be able to complete the project.
- The project development expenditure can be measured reliably.
- Future economic benefits will foreseeably be generated through the sale or use of the project by the GAMESA Group.

If it cannot be demonstrated that these conditions have been met, development expenditure is recognised as an expense in the period in which it is incurred.

Amortisation of development expenditure begins when the projects are in the conditions necessary for them to be capable of operating in the manner initially intended by the GAMESA Group. The expenditure is amortised on a straight-line basis over the estimated period of time that the new product will generate economic benefits. These projects relate mainly to new models of WTGSs which the Group basically estimates to have a sale period of five years.

Concessions, patents, licences, trademarks and similar Items

The amounts recognised by the GAMESA Group in connection with concessions, patents, licences and similar items relate to the costs incurred in their acquisition, which are amortised on a straight-line basis over the estimated useful lives of the assets, which range from five to ten years.

Computer software

The acquisition and development costs incurred in relation to the basic computer systems used in the management of the GAMESA Group are recognised with a charge to "Other intangible assets" in the consolidated balance sheet. Computer system maintenance costs are recognised with a charge to the consolidated income statement for the year in which they are incurred.

Computer software is amortised on a straight-line basis over five years from the entry into service of each application.

l) Asset impairment-

At the end of each reporting period, the GAMESA Group reviews its non-current assets to determine whether there is any indication that those assets might have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where the asset itself does not generate cash flows that are independent from other assets, the GAMESA Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

At the end of each reporting period the GAMESA Group systematically analyses the recoverability of goodwill and other intangible assets with an indefinite useful life or which have not yet come into operation (see Notes 3-c and 9).

Recoverable amount is the higher of fair value less costs to sell and value in use, which is taken to be the present value of the estimated future cash flows. In assessing value in use, the assumptions used in making the estimates include pre-tax discount rates, growth rates and expected changes in selling prices and costs. The GAMESA Group estimate pre-tax

discount rates which reflect the time value of money and the risks specific to the cash-generating unit. The growth rates and the changes in selling prices and costs are based on in-house and industry forecasts and experience and future expectations, respectively.

The discount rates used by the GAMESA Group range from 7% to 10%, before tax, depending on the risks associated with each specific asset (see Note 9).

If the recoverable amount of an asset is less than its carrying amount, an impairment loss is recognised for the difference with a charge to the consolidated income statement. Impairment losses recognised for an asset in prior years are reversed when there is a change in the estimates concerning the recoverable amount of the asset, increasing the carrying amount of the asset, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised, except in the case of the impairment of goodwill, which must not be reversed in a subsequent period.

m) Inventories-

This line item in the consolidated balance sheet includes the assets that the GAMESA Group:

- Holds for sale in the ordinary course of its business,
- Has in process of production, construction or development to this end; or
- Expects to consume in the production process or in the provision of services.

Raw materials and supplies, work in progress and finished goods are stated at the lower of average acquisition or production cost and market value.

Goods held for resale are stated at the lower of acquisition cost and market value.

The non-current assets (basically WTGSs, fixtures and civil engineering work) of the wind farms that are included in the scope of consolidation and are held for sale are classified as inventories and are measured in the same way as other inventories, including the borrowing costs borne until they are ready for use.

If a wind farm held for sale has been in operation for over one year and has no related third-party purchase commitment or purchase option agreements etc., the non-current assets assigned thereto are transferred from "Inventories" to "Property, Plant and Equipment in use".

Obsolete, defective or slow-moving inventories have generally been reduced to realisable value.

n) Financial assets and liabilities-

Financial assets

Financial assets are initially recognised at acquisition cost, including transaction costs.

The GAMESA Group classifies its current and non-current financial assets in four categories:

- *Financial assets classified as at fair value through profit or loss.* These assets have certain of the following characteristics:

–The GAMESA Group intends to generate a profit from short-term fluctuations in their prices.

–They have been included in this asset category since initial recognition, provided that they are quoted on an active market or that their fair value can be estimated reliably.

The financial assets included in this category are stated in the consolidated balance sheet at fair value, and the changes in fair value are recognised under "Finance Costs" and "Finance Income", as appropriate, in the consolidated income statement.

The GAMESA Group recognised in this category derivative financial instruments which, although they are effective as hedges in accordance with the GAMESA Group's risk management policies, do not qualify for hedge accounting under IAS 39, Financial Instruments. At 31 December 2008 and 2007, the impact of these financial instruments on the accompanying consolidated financial statements is not material (see Note 21).

- *Held-to-maturity investments.* These are financial assets with fixed or determinable payments and fixed maturity that the GAMESA Group has the positive intention to hold until the date of maturity. The assets included in this category are valued at amortised cost, and the interest income is recognised in profit or loss on the basis of the effective interest rate. The amortised cost is understood to be the initial cost minus principal repayments, plus or minus the cumulative amortisation of any difference between that initial amount and the maturity amount, and minus any reduction for impairment or uncollectibility. The effective interest rate is the discount rate that, at the date of acquisition of the asset, exactly matches the initial amount of a financial instrument to all its estimated cash flows of all kinds through its residual life.

At 31 December 2008 and 2007, the GAMESA Group did not have any financial assets in this category.

- *Loans and receivables.* These are financial assets originated by the companies in exchange for supplying cash, goods or services directly to a debtor. The assets included in this category are also measured at amortised cost.
- *Available-for-sale financial assets.* These are financial assets not classified in any of the aforementioned three categories, nearly all of which relate to equity investments. These assets are presented in the consolidated balance sheet at fair value, which in the case of unlisted companies, is obtained using alternative methods, such as comparison with similar transactions or, if sufficient information is available, by discounting expected future cash flows. Changes in this market value are recognised with a charge or a credit to "Equity - of the Parent - Unrealised Asset and Liability Revaluation Reserve" in the consolidated balance sheet, until these investments are disposed of, when the accumulated balance of this heading relating to these investments is allocated in full to the consolidated income statement.

However, investments in the share capital of unlisted companies whose fair value cannot be measured reliably are measured at acquisition cost. This procedure was used for all the available-for-sale financial assets at 31 December 2008 and 2007 (see Note 13).

Management of the GAMESA Group decides on the most appropriate classification for each asset on acquisition and reviews the classification at the end of each reporting period.

Impairment of financial assets

Except for the financial assets classified as at fair value through profit or loss, the financial assets are analysed by GAMESA Group management in order to test them for impairment periodically and at least at the end of each reporting period. A financial asset is impaired if there is objective evidence that the estimated future cash flows of the asset have been affected as a result of one or more events that occurred after the initial recognition of the financial asset.

The GAMESA Group considers that a significant or prolonged decrease in fair value to below cost of unlisted shares classified as available for sale is objective evidence that the instrument has become impaired.

For the other financial assets, the GAMESA Group considers the following to be objective indicators of impairment:

- Financial difficulty of the issuer or significant counterparty.
- Default or delinquency in interest or principal repayments.
- It becoming probable that the borrowers will enter bankruptcy or other financial reorganisation.

Cash and cash equivalents

"Cash and Cash Equivalents" in the consolidated balance sheet includes cash on hand, demand deposits and other highly liquid short-term investments that can be readily realised in cash and are not subject to a risk of changes in value.

Bank borrowings and other financial liabilities

Loans, bonds and other interest-bearing items are initially recognised at the amount received, net of direct issue costs, under "Bank Borrowings" in the consolidated balance sheet. Borrowing costs are recognised on an accrual basis in the consolidated income statement using the effective interest rate method and they are aggregated to the carrying amount of the financial instrument to the extent that they are not settled in the year in which they arise. Also, obligations under finance leases are recognised at the present value of the lease payments under this consolidated balance sheet heading.

Trade payables

Trade payables are initially recognised at fair value and are subsequently measured at amortised cost using the effective interest method.

Derivative financial instruments and hedge accounting

Financial derivatives are initially recognised at acquisition cost in the consolidated balance sheet and the required valuation adjustments are subsequently made to reflect their fair value at all times. Gains and losses arising from these changes are recognised in the consolidated income statement, unless the derivative has been designated as a hedge which is highly effective, in which case it is recognised as follows:

- In the case of fair value hedges, changes in the fair value of the derivative financial instruments designated as hedges and changes in the fair value of a hedged item due to the hedged risk are recognised with a charge or credit, as appropriate, to the consolidated income statement.
- In the case of cash flow hedges and hedges of a net investment in a foreign operation, the changes in the fair value of the hedging derivatives are recognised, in respect of the ineffective portion of the hedges, in the consolidated income statement, and the effective portion is recognised under "Equity - Of the Parent - Unrealised Asset and Liability Revaluation Reserve" and "Equity - Of the Parent - Translation Differences", respectively, in the consolidated balance sheet.

If a hedge of a firm commitment or forecasted transaction results in the recognition of a non-financial asset or a non-financial liability, this balance is taken into account in the initial measurement of the asset or liability arising from the hedged transaction. If a hedge of a firm commitment or forecasted transaction does not result in the recognition of a non-financial asset or a non-financial liability, the amount recognised under "Equity - Of the Parent - Unrealised Asset and Liability Revaluation Reserve" in the consolidated balance sheet is recognised in the consolidated income statement in the same period as that in which the hedged item affects the net profit or loss.

The GAMESA Group periodically tests the effectiveness of its hedges, and the related tests are performed prospectively and retrospectively.

When hedge accounting is discontinued, any cumulative loss or gain at that date recognised under "Equity - Of the Parent - Unrealised Asset and Liability Revaluation Reserve" is retained under that heading until the hedged transaction occurs, at which time the loss or gain on the transaction will be adjusted. If a hedged transaction is no longer expected to occur, the gain or loss recognised under the aforementioned heading is transferred to the consolidated income statement.

Derivatives embedded in other financial instruments are treated as separate derivatives and in accordance with the policies described in this Note for the other derivatives when their characteristics and risks are not closely related to those of the host contracts and the host contracts are not stated at fair value, and the changes in value are recognised with a charge or a credit to the consolidated income statement.

The market value of the various financial instruments is calculated as follows:

- The market value of derivatives listed on an organised market is their market price at year-end.
- To measure derivatives not traded on an organised market, the GAMESA Group uses assumptions based on year-end market conditions. Specifically, the fair value of interest rate swaps is calculated by discounting at a market interest rate the difference between the swap rates, and the market value of foreign currency forward contracts is determined by discounting the estimated future cash flows using the forward rates existing at year-end. This procedure is also used, where appropriate, to determine the fair value of loans and receivables.

Financial liabilities and equity instruments

The financial liabilities and equity instruments issued by the GAMESA Group are classified on the basis of the nature of the issue as liabilities or equity instruments, as appropriate.

The GAMESA Group considers equity instruments to be any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

Derecognition of financial instruments

The GAMESA Group derecognises financial instruments only when the contractual rights on the cash flows from the assets expire, or the financial asset and substantially all the risks and rewards of ownership are transferred to another entity.

n) Treasury shares of the Parent-

The treasury shares held by the Parent of the GAMESA Group at year-end are recognised at cost of acquisition with a charge to "Equity - Of the Parent - Treasury Shares" in the consolidated balance sheet (see Note 18-d).

The gains and losses obtained by the GAMESA Group on disposals of treasury shares are recognised with a charge or a credit to the Group's equity.

o) Provisions-

A distinction is drawn between:

- Provisions: present obligations at the balance sheet date arising from past events which are uncertain as to their amount and/or timing.
- Contingent liabilities: possible obligations that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more future events beyond the control of the consolidated companies; or possible obligations, whose occurrence is unlikely or whose amount cannot be reliably estimated.

The Group's consolidated financial statements include all the material provisions with respect to matters for which it is considered that it is more likely than not that the obligation will have to be settled and whose amount can be measured reliably. Contingent liabilities are not recognised in the consolidated financial statements but rather are disclosed, except for those which arise in business combinations (see Note 22).

Provisions, which are quantified on the basis of the best information available on the consequences of the event giving rise to them and are reviewed and adjusted at the end of each year, are used to cater for the specific obligations for which they were originally recognised. Provisions are fully or partially reversed when such obligations cease to exist or are reduced.

Provisions are recognised when the liability or obligation arises with a charge to the relevant heading in the consolidated income statement based on the nature of the obligation, for the present value of the provision when the effect of discounting the obligation is material.

Provisions for warranty costs are recognised at the date of sale of the relevant products, at the best estimate of the expenditure required by the GAMESA Group to settle its liability, calculated on the basis of historical information and reports drawn up by the Technical Department.

Litigation and/or claims in process

At 31 December 2008, certain litigation and claims were in progress against the consolidated companies arising from the ordinary course of their operations. The Group's legal advisers and its directors consider that the provisions constituted for this purpose are sufficient and that the outcome of these proceedings and claims will not have an additional material effect on the financial statements for the years in which they are settled (see Note 22).

At 31 December 2008 and 2007, there were no unrecognised material contingent liabilities or provisions.

p) Termination benefits-

Under current labour legislation, the consolidated companies are required to pay termination benefits to employees terminated under certain conditions.

"Staff Costs" in the consolidated income statements for 2008 and 2007 includes EUR 2,481 thousand and EUR 2,574 thousand, respectively, relating to termination benefits (see Note 29-c). Also, the expenses in this connection relating to discontinued operations in 2008 and 2007 amounted to EUR 89 thousand and EUR 902 thousand, respectively and are recognised under "Profit for the Year from Discontinued Operations" in the accompanying consolidated income statement.

The GAMESA Group does not expect any significant dismissals or terminations to arise in the future and, accordingly, no provision was recorded in this connection in the accompanying consolidated balance sheet at 31 December 2008.

q) Share-based payment-

Equity-settled share-based payments are measured at the fair value of these liabilities at the date of grant. This fair value is expensed on a straight-line basis over the vesting period, based on the GAMESA Group's estimate of the shares that will eventually vest.

Fair value is measured using the market prices available on the measurement date, taking into account the characteristics of the related plan. If market prices are not available, generally accepted valuation techniques for measuring financial instruments of this nature are used.

For cash-settled share-based payments, a liability equal to their current fair value determined at each balance sheet date is recognised. In the case of equity-settled share-based payments, this fair value is charged to "Staff Costs" in the consolidated income statement with a credit to "Equity - of the Parent - other reserves" in the consolidated balance sheet.

Share option plan-

A number of share options were established for a maximum of 54 executives of the Group up to a maximum of 2,212,000 options. Exercise of the options was conditional upon fulfilment of the individual annual targets of the beneficiaries in the period from 2005 to 2007. Each option entitled its beneficiary to acquire title to one fully paid ordinary share for an exercise price of EUR 10.96 per share.

In general, the period for exercising these options commenced on 1 January 2008 and ends on 28 May 2011. During this period, provided that the market price of the shares is equal to or higher than EUR 14.58 per share, each beneficiary may acquire the shares corresponding to him by paying the related exercise price, plus the amount of the related personal income tax withholdings, of the social security contributions payable by the beneficiary and of such expenses as might be incurred in the transaction. The compensation in kind obtained by the beneficiary as a result of the exercise of the options will be determined as the difference between the market price of the shares and the exercise price.

In 2007 certain executives included in the share option plan exercised their right to acquire 157,480 GAMESA shares at the agreed price, for having reached the maximum price established for each one in their corresponding plan and because their share option plans enabled them to exercise their right before 1 January 2008.

The exercise period of the share option plan commenced on 1 January 2008 (see Note 18). In this respect, in 2008 most of the executives included in the plan exercised their options. The executives were paid in shares and in 2008 the Company delivered a total of 850,022 GAMESA shares at the agreed price.

At 31 December 2008, there were 65,000 options outstanding held by certain executives (2,054,520 options outstanding at 31 December 2007) under the plan, exercisable until 28 May 2011.

To measure this plan, GAMESA used the Black-Scholes option pricing model, which is widely used in the financial services industry to measure transactions, and deferred and recognised the value of the options implicit in the aforementioned plan over the term of the plan, with a charge to "Staff Costs" in the consolidated income statement with a credit to "Equity - Of the Parent - Other Reserves" in the accompanying consolidated balance sheet.

At 1 January 2008, the ultimate and definitive valuation of the plan, which amounted to EUR 2,136 thousand, was recognised under "Equity - Of the Parent - Other Reserves". In 2008 the Company recognised EUR 87 thousand with a credit to "Equity - Of the Parent - Other Reserves", due to the changes which arose during the aforementioned exercise of the options.

Share-based bonus plan-

A number of shares were established for a maximum of 70 executives of the Group up to a maximum of 210,000 shares. The beneficiaries of this plan may not be beneficiaries of the aforementioned share option plan. The requirements that had to be met in order for the beneficiaries to be able to receive shares were the same as those established for the receipt of the annual variable salary payment.

In the end, the GAMESA Group did not implement this share-based bonus plan. Therefore, these consolidated financial statements do not include any provision in this connection.

r) Other obligations to employees

Incentive plan -

At its meeting held on 28 March 2007, the Board of Directors of the GAMESA Group approved a new incentive plan awarded by GAMESA to 49 executives. The executives included in this plan are those who were appointed during the term of the 2006-2008 Business Plan and executives promoted to key management positions within the new organisational model.

The vesting period of the plan is from 1 January 2006 to 31 December 2008 and it will be determined and paid once the level of attainment of the strategic objectives has been verified and the Annual General Meeting has approved the 2008 financial statements.

In connection with this incentive plan, in 2008 a provision of EUR 1,748 thousand (2007:EUR 2,638 thousand) was recognised with a charge to "Staff Costs" in the accompanying consolidated income statement and with a credit to "Other Payables – Other Current Liabilities" in the accompanying consolidated balance sheet, relating to the portion of the plan vested until 31 December 2008.

s) Consolidated cash flow statement

The GAMESA Group presents the consolidated cash flow statement using the indirect method, whereby first the net profit or loss is presented, which is then corrected for the effects of non-monetary transactions, of all manner of deferred and accrued payment items resulting from collections and payments in the past or in the future, and of consolidated income statement items associated with cash flows from activities classified as investing or financing activities.

The following terms are used in the consolidated cash flow statements, which were prepared using the indirect method, with the meanings specified:

- Cash flows. Inflows and outflows of cash and cash equivalents, which are short-term, highly liquid investments that are subject to an insignificant risk of changes in value.
- Operating activities. The principal revenue-producing activities of the GAMESA Group companies and other activities that are not investing or financing activities.
- Investing activities. The acquisition and disposal of long-term assets and other investments not included in cash and cash equivalents.
- Financing activities. Activities that result in changes in the size and composition of the equity and borrowings that are not operating activities.

t) Earnings per share-

Basic earnings per share are calculated by dividing the net profit for the year by the weighted average number of ordinary shares outstanding during the year, excluding the average number of GAMESA shares held.

Diluted earnings per share are calculated by dividing the net profit for the year by the weighted average number of ordinary shares outstanding in the year, adjusted by the weighted average number of ordinary shares that would have been outstanding assuming the conversion of all the potential ordinary shares into ordinary shares of the Company. For these purposes, it is considered that the shares are converted at the beginning of the year or at the date of issue of the potential ordinary shares, if the latter were issued during the current period.

Basic earnings per share in 2008 and 2007 coincided with diluted earnings per share, since there were no potential shares outstanding in those years (see Note 35).

u) Dividends-

Any interim dividends approved by the Board of Directors are recognised as a deduction from "Equity - of the Parent" in the consolidated balance sheet. However, the final dividends proposed by the Board of Directors of GAMESA to the shareholders at the Annual General Meeting are not deducted from equity until they have been approved by the latter.

4. Financial risk management policies

The GAMESA Group is exposed to certain financial risks that it manages by grouping together risk identification, measurement, concentration limitation and oversight systems. The GAMESA Corporate Division and the business units coordinate the management and limitation of financial risks through the policies approved at the highest executive level, in accordance with the established rules, policies and procedures. The identification, assessment and hedging of financial risks are the responsibility of each business unit.

a) Market risk (foreign currency risk)-

This risk arises as a result of the international transactions carried out by the GAMESA Group in the ordinary course of its business. Certain items of income are denominated in US dollars, whereas the rest of its costs are denominated in euros. Therefore, if the GAMESA Group did not use financial instruments to hedge its net exposure to current and future foreign currency risk, its earnings could be affected by fluctuations in the euro/US dollar exchange rate.

In order to manage and minimise this risk, the GAMESA Group uses hedging strategies, since its objective is to generate profits only through its ordinary business, and not by speculating in relation to exchange rate fluctuations.

The GAMESA Group analyses foreign currency risk on the basis of its firm order book and the planned transactions that are highly probable on the basis of contractual evidence. Risk exposure limits are established each year for a time horizon, which is usually three years, although a time horizon of less than one year is also considered which enables the Group, where necessary, to adapt to market trends, always associated with its net cash flows.

The Group generally uses foreign currency hedges to hedge this risk (see Note 21).

b) Interest rate risk-

A characteristic common to all the GAMESA Group's activities is the need to make a significant volume of investments that requires an adequate financing structure. Accordingly, the GAMESA Group uses external financing to carry on certain of its operations and, therefore, it is exposed to the risk of an increase in interest rates.

The GAMESA Group has arranged substantially all of its borrowings at floating rates and uses hedging instruments, where appropriate, to minimise the risk, basically when the financing is at long term with the concomitant risk. The hedging instruments assigned specifically to debt instruments are limited to a maximum of the same nominal amounts and have the same established maturity as the hedged items (see Note 21).

The debt structure at 31 December 2008 and 2007, drawing a distinction between fixed and floating rate borrowings (see Note 19), is as follows:

	Thousands of euros			
	2008		2007	
	Excluding hedges	Including hedges	Excluding hedges	Including hedges
Fixed interest	-	350,000	-	605,000
Floating interest	465,608	115,608	833,095	228,095

The floating-rate debt is basically tied to the LIBOR or EURIBOR.

c) Liquidity risk-

The GAMESA Group holds cash and highly liquid non-speculative short-term instruments through leading banks in order to be able to meet its future obligations. Also, it attempts to maintain a financial debt structure that is in line with the nature of the obligations to be financed and, therefore, non-current assets are financed with long-term financing (equity and non-current borrowings), whereas working capital is financed with current borrowings.

Also, in 2008 the GAMESA Group has an average of unused credit facilities equal to approximately 87% of the bank financing drawn down (52% in 2007).

d) Credit risk-

The GAMESA Group is exposed to credit risk to the extent that a counterparty or customer does not meet its contractual obligations. Therefore, products and services are only sold to customers with an appropriate credit track record. In addition, since the GAMESA Group operates in the electricity industry, it has a customer base with a very good creditworthiness. However, basically in the case of international sales to non-recurring customers, mechanisms such as irrevocable letters of credit and insurance policies are used to ensure collection. Also, the financial solvency of customers is analysed and specific terms and conditions are included in contracts aimed at guaranteeing payment of the stipulated price (see Note 15).

Excluding the guarantees currently held by the GAMESA Group, the total credit risk, including discontinued operations (see Note 8) amounted to EUR 1,632,696 thousand at 31 December 2008 (EUR 1,810,506 thousand at 31 December 2007) (see Note 15).

5. Estimates and sources of uncertainty

The preparation of these consolidated financial statements made it necessary for the GAMESA Group to make assumptions and estimates. The estimates with a significant effect on the accompanying consolidated financial statements are as follows:

- The GAMESA Group recognises by reference to the stage of completion revenue from wind farm sale contracts that meet the requirements established in this connection (see Note 3-b). This requires that a reliable estimate must be made of the revenue from each contract and the total contract costs, as well as of the percentage of completion at year-end from the technical and economic standpoints.
- As indicated in Note 3-l, each year the GAMESA Group reviews its assets to determine whether there is any indication that an impairment loss has been suffered, including goodwill and intangible assets that have not yet come into service, and, therefore, it has to estimate their recoverable amount.
- At each year-end the GAMESA Group estimates the current provisions required for warranties for possible repairs and start-up costs that the Group will have to incur in connection with WTGSs (see Notes 3-o and 22).
- At year-end the GAMESA Group analyses its accounts receivable and, on the basis of its best estimates, quantifies the amount thereof that could be uncollectible (see Note 15).
- At each year-end the GAMESA Group estimates its contingent liabilities (see Notes 3-o and 22).
- At 2008 year-end, the GAMESA Group estimated the potential revision of the exchange ratio of the transaction performed in 2007 with the DANIEL ALONSO Group (see Note 12).
- The GAMESA Group recognises deferred tax assets, tax loss carryforwards and unused tax credits and tax relief to the extent that their future realisation or utilisation is sufficiently assured. In this respect, the GAMESA Group considers that the recoverability of certain tax assets recognised by the companies in the Basque Country tax group (see Note 27) is guaranteed by including in the tax group, where possible, companies with taxable profits or through other operating and commercial measures which are also available to the GAMESA Group and under its control.

Although these estimates were made on the basis of the best information available at 31 December 2008 on the events analysed, events that take place in the future might make it necessary to change these estimates (upwards or downwards) in coming years. Changes in accounting estimates would be applied prospectively in accordance with the requirements of IAS 8, recognising the effects of the change in estimates in the related consolidated income statements.

6. Distribution of profit

The distribution of the profit for 2008 that the Board of Directors of Gamesa Corporación Tecnológica, S.A. (the Parent of the GAMESA Group) will propose for approval by the shareholders at the Annual General Meeting is as follows:

	Thousands of euros
Distributable profit:	
Profit for the year	91,459
Distribution:	91,459
Dividend	48,660
To voluntary reserves	42,799
Total	91,459

7. Segment reporting

The main criteria applied when defining the segmented information of the GAMESA Group included in the accompanying consolidated financial statements are as follows:

The primary segments were taken to be business units, since the GAMESA Group is organisationally structured in this manner, and the internal information generated for the Board of Directors and senior management is also structured in this way.

The primary segments identified are as follows:

- Manufacture of wind generators and wind power components ("Manufacturing")
- Development, promotion and sale of wind farms ("Generation") This segment is presented in the 2008 consolidated financial statements as a discontinued operation, in accordance with IFRS 5 (see Notes 1, 3-d and 8).

The secondary segments are geographical segments, taken to be the main markets in which the GAMESA Group currently operates. Specifically, the secondary segments identified are as follows:

- Spain
- Rest of Europe
- USA
- China
- Rest of the world

Solar power business - Disposal

On 28 February 2008, GAMESA and Toler Inversiones 2007, S.L. (Sole-Shareholder Company) entered into a private purchase and sale agreement for the acquisition by the latter of the engineering, promotion and provision of turn-key services business relating to the installation of solar PV plants and to also engage in solar thermal activities. The execution of this agreement was conditional upon compliance with certain suspensive conditions.

Once these conditions had been met, on 24 April 2008, GAMESA executed this sale by transferring 100% of the shares of Gamesa Solar, S.A. (Sole-Shareholder Company) (see Notes 1 and 2-g) and of the other GAMESA companies engaged in this activity.

The detail of the carrying amount of the net asset disposals at the effective date of the transaction is as follows:

Concept	Thousands of euros
- Property, plant and equipment	2,065
- Other intangible assets	403
- Deferred taxes	(16)
- Receivables and other current assets	132,541
- Cash and cash equivalents	28,415
- Payables and other liabilities	(127,857)
- Other	13
Net asset disposals	35,564

The purchase and sale agreement was ultimately concluded for EUR 213,856 thousand. Of this sale price, EUR 20,000 thousand was subject to compliance by the companies disposed of, of certain gross margin levels in 2008, obtained from the financial statements of the companies which were sold. GAMESA's directors consider that these levels were not reached in 2008 and, accordingly, the final price of the transaction was decreased by the aforementioned amount. Consequently, after including all the expenses required for the sale and certain costs arising from the companies disposed of which were passed on to GAMESA, the consolidated profit from the transaction amounted to EUR 143,103 thousand and was recognised under "Profit for the Year from Discontinued Operations" in the accompanying consolidated income statement.

Of the total final selling price, EUR 117,186 thousand were collected on the date on which the purchase and sale agreement was signed. During the year, partial collections were made, at the rate of, and in accordance with the terms and conditions of the agreement. At 31 December 2008, GAMESA had an amount outstanding of EUR 61,400 thousand. Of this amount, EUR 60 million related to the loan granted by GAMESA to the buyer Toler Inversiones, S.L., as established in the agreement. This amount is recognised under "Non-Current Financial Assets – Other Non-Current Financial Assets" on the asset side of the accompanying consolidated balance sheet (see Note 13).

Generation business – Strategic agreement with Iberdrola Renovables, S.A.

On 13 June 2008, GAMESA and Iberdrola Renovables, S.A. (subsidiary of Iberdrola, S.A., see Notes 18 and 32) agreed:

–That Iberdrola Renovables would acquire the wind-power projects owned by the GAMESA Group in the UK, Mexico and the Dominican Republic with an overall capacity of more than 900 MW, and, as appropriate, the promotion, development and operation activities related to these projects.

–To pool the wind farm promotion, development and operation businesses of GAMESA and Iberdrola Renovables, S.A. in Spain and in certain European countries and the projects related thereto, irrespective of their stage of development, by contributing them to two or more vehicles which will be wholly owned by both parties. To begin with, two vehicles will foreseeably be created; one for the businesses in Spain and another for the businesses abroad. The ownership interest in the share capital of the vehicles was defined based on the estimate made by the parties relating to the entry into service of the projects included in the businesses as from 1 January 2008 (with the exception of certain projects which will be identified in the strategic agreement); and the value of these projects in accordance with, inter alia, the MW and estimated production of each one. GAMESA is initially expected to have a 23% ownership interest in the share capital of the company to which the businesses in Spain will be contributed (Iberdrola Renovables, S.A. will own the remaining 77%), with the possibility of increasing its ownership interest to 32% provided that certain conditions are met; and of 24% of the share capital of the company to which the businesses abroad will be contributed (Iberdrola Renovables will own the remaining 76%). The GAMESA Group considers that the materialisation of this agreement will lead to the loss of effective control over these projects. The aforementioned percentages of ownership initially established by GAMESA and Iberdrola Renovables, S.A. were subsequently ratified by an independent expert.

By virtue of the strategic agreement entered into, GAMESA and Iberdrola Renovables, S.A. undertake to maintain their ownership interests in the share capital of the vehicles until 31 December 2010, with the only exception being that prior, written consent is obtained from the other party. From 1 January 2011, Iberdrola Renovables will be free to transfer its ownership interest in the share capital of the vehicles, while GAMESA will have the tag-along right and the right of first refusal, as detailed below.

Conversely, from 1 January 2011, GAMESA will only be able to transfer its entire ownership interest in the share capital of the vehicles to Iberdrola Renovables, S.A., through exercising the options, as described below. However, GAMESA can only transfer its entire ownership interest in the share capital of the vehicles to a third-party provided that it has obtained the prior, written consent of Iberdrola Renovables, S.A., and the third party is subject to all the restrictions, terms and conditions applicable to GAMESA.

Tag-along right

In the event that, subsequent to 31 December 2010, Iberdrola Renovables, S.A. decided to:

- (a) transfer its entire ownership interest in any of the vehicles to a third-party; or
- (b) transfer a portion of its ownership interest in any of the vehicles to a third party and, as a result of this transfer, Iberdrola Renovables, S.A. reduced its ownership interest in the share capital of the vehicle concerned to less than fifty per cent,

GAMESA would be entitled to transfer its entire ownership interest in the vehicle concerned to this third party, under the same terms and conditions as those agreed between Iberdrola Renovables, S.A. and the acquiring third party.

Conversely, if Iberdrola Renovables, S.A. reaches an agreement with a third party in relation to the acquisition price of its ownership interest in certain of the vehicles and the following circumstances concur:

- (a) transfer its entire ownership interest in any of the vehicles to a third-party; or
- (b) transfer a portion of its ownership interest in any of the vehicles to a third party and, as a result of this transfer, Iberdrola Renovables, S.A. reduced its ownership interest in the share capital of the vehicle concerned to less than fifty per cent,

GAMESA would be entitled to transfer its entire ownership interest in the vehicle concerned to this third party, under the same terms and conditions as those agreed between Iberdrola Renovables, S.A. and the acquiring third party.

Conversely, if Iberdrola Renovables, S.A. reaches an agreement with a third party in relation to the acquisition price of its ownership interest in certain of the vehicles and the following circumstances concur:

- (a) that GAMESA demonstrates that this selling price is below market price, in accordance with the report issued by an independent expert appointed by GAMESA for this purpose; and
- (b) that GAMESA demonstrates that this difference in price compared to the market price is due to negotiations being held while negotiating with the third party the acquisition of the ownership interest of Iberdrola Renovables in the vehicle concerned, by virtue of which Iberdrola Renovables would obtain additional compensation from the third party.

GAMESA's right of first refusal

In the event that, subsequent to 31 December 2010, Iberdrola Renovables decided to:

- (a) transfer its entire ownership interest in any of the vehicles to a third party: or
- (b) transfer a portion of its ownership interest in any of the vehicles to a third party and, as a result of this transfer, Iberdrola Renovables reduced its ownership interest in the share capital of the vehicle concerned to less than fifty per cent,

Iberdrola Renovables must compensate GAMESA at the value of the additional compensation agreed with the third party.

Iberdrola Renovables must notify GAMESA of its intention in writing, identifying the vehicle whose ownership interest it wishes to transfer. In this case, GAMESA would be entitled to acquire the entire ownership interest in the vehicle concerned, provided that the price offered by GAMESA exceeded the highest price offered by the potential acquirers and that the rest of the terms and conditions of the purchase bid were adhered to. In this case, Iberdrola Renovables must accept GAMESA's bid and transfer the ownership interest in the vehicle concerned to GAMESA.

Call and put options on the vehicles

From 31 December 2010, call and put options will exist both for domestic and foreign vehicles, as follows:

–Iberdrola Renovables grants GAMESA two put options on the entire ownership interest held GAMESA, at all times, in the share capital of the domestic vehicle and the foreign vehicle (one put option per vehicle, both of which are independent). This option must be exercised in full and cannot be partially exercised. If GAMESA were to exercise its put option, Iberdrola Renovables would be obliged to purchase GAMESA's entire ownership interest in the corresponding vehicle.

–GAMESA grants Iberdrola Renovables, two call options on the entire ownership interest held by GAMESA, at all times, in the share capital of the domestic vehicle and the foreign vehicle (one call option per vehicle, both of which are independent). This option should be exercised in full and cannot be partially exercised. If Iberdrola Renovables were to exercise its call option, GAMESA would be obliged to sell to Iberdrola Renovables, its entire ownership interest in the corresponding vehicle.

These call and put options expire on 31 December 2011. If none of the options have been exercised by 31 December 2011, the term of the options shall be extended for an additional one-year period and successively, provided that the strategic agreement remains in force and that none of the options have been exercised.

The price of the options will be determined by the arithmetic mean of the valuations performed by investment banks appointed by the parties. The means of payment shall be determined by Iberdrola Renovables and may consist of the delivery of cash or of the delivery of shares of Iberdrola Renovables, or a combination of both.

The suspensive conditions of this strategic agreement concluded on 13 December 2008. At 31 December 2008, GAMESA and Iberdrola Renovables were finalising the definitive agreement. GAMESA's directors consider that the definitive agreement will be executed in full during the first few months of 2009.

Conversely, although the activities relating to the promotion, development and operation of wind farms carried out by GAMESA in the US and China are not included in the aforementioned strategic agreement with Iberdrola Renovables, S.A., in 2008 GAMESA's board of directors devised a plan to dispose of these lines of business which are expected to be sold in 2009. Consequently, given that they meet all of the requirements established in IFRS 5 described in Note 3-d, they have also been included as assets classified as held for sale within the Generation business.

At the date of authorisation for issue of these consolidated financial statements, the GAMESA Group considered that the fair value of the Generation business was higher than the carrying amount of the related net assets and, therefore, no impairment loss was recognised in this connection.

The structure of the transaction is currently being finalised by the various work teams which are developing the business plans and analysing in detail, inter alia, the legal, fiscal, accounting and financial terms thereof, and they expect to conclude their work in the next few days.

In this context, there will be changes relating to some of the previously described matters, although they are not considered to be material. In any case, they will be in compliance with and balanced with the essential principles established in the aforementioned strategic agreement.

As indicated in Note 3-b, at each balance sheet date the Group measures the impairment loss on goodwill. The recoverable amount of the cash-generating units associated with the aforementioned goodwill was measured with reference to the value in use. Value in use was determined on the basis of projected cash flows (approved by management) that represent the best estimates for a five-year period.

The assumptions used in the impairment tests performed by GAMESA are as follows:

- Five years were projected, calculating the residual value as the permanent income of a year that does not contain cyclical or seasonal information.
- The discount rates used would vary in accordance with the risk to which the goodwill is exposed, ranging between 7 % and 10%, before tax.
- The growth rate of this residual value is 0%.

For all the cash-generating units, the most relevant parameters are:

- Revenue
- Profit from operations
- Working capital
- Investments in non-current assets
- Expected growth

In 2008 the main addition to "Development Expenditure" was due to the development in the WTGS Manufacturing segment, (mainly at the subsidiary Gamesa Innovation and Technology, S.A.), of new WTGS models and to the optimisation of the performance of its various components amounting to approximately EUR 25,484 thousand (2007: approximately EUR 28,200 thousand).

The capitalised development expenditure will be recovered through marketing the wind generator models which include the developed technology.

Fully amortised intangible assets in use at 31 December 2008 and 2007 amounted to approximately EUR 57,296 thousand and EUR 33,815 thousand, respectively.

At 31 December 2008, the GAMESA group had intangible asset purchase commitments amounting to EUR 16,173 thousand (EUR 13,423 thousand at 31 December 2007).

The main additions in 2008 and 2007 were due the investment in non-current assets that the GAMESA Group is making at its subsidiaries in the US and China engaged in the manufacture of wind generators and to the investment in land purchases in Aoiz (Navarre) for the construction of the G10X blade manufacturing plant, which represent a significant portion of the additions to "Land and Buildings" and "Plant and Machinery". The additions to "Other Items of Property, Plant and Equipment" relate to the tools required for the transportation of items manufactured by the WTGS segment and additions of items related to the manufacture of the new G10 blade.

At 31 December 2008 and 2007, the GAMESA Group's property, plant and equipment included approximately EUR 3,338 thousand and EUR 4,207 thousand, respectively, relating to the value of various assets of the GAMESA Group under finance leases, which were classified under the corresponding heading in accordance with their nature (see Note 19).

Fully depreciated property, plant and equipment in use amounted to EUR 81,919 thousand at 31 December 2008 (2007: 66,356 thousand). At 31 December 2008, these items related mainly to moulds and tools for the manufacture of WTGSs.

At 31 December 2008, the GAMESA Group companies had property, plant and equipment purchase commitments amounting to approximately EUR 10,060 thousand (2007: EUR 17,750 thousand), relating mainly to production facilities and newly-developed WTGSs and their components.

The GAMESA Group takes out insurance policies to adequately insure its property, plant and equipment. Also, the GAMESA Group has taken out insurance policies to cover the WTGSs while they are being assembled and during their two-year warranty period.

On 11 June 2007, Gamesa Corporación Tecnológica, S.A. incorporated the subsidiary Windmill Towers, S.L. (Sole-Shareholder Company). (see Note 2-g).

On 25 June 2007, the GAMESA Group performed a complete spin-off of the subsidiary Apoyos y Estructuras Metálicas, S.A. (Sole-Shareholder Company) (AyEMSA), with the dissolution without liquidation of the latter. Of the assets and liabilities of this company at this date, the ownership interests in Compovent, S.A. (Sole-Shareholder Company), Apoyos Metálicos, (Sole-Shareholder Company) and Aemsa Santana, S.A. were contributed to Windmill Towers, S.L. (Sole-Shareholder Company). at the carrying amount thereof in the spin-off balance sheet of AyEMSA at 31 December 2006, and the rest of the assets and liabilities were contributed to Gamesa Eólica, S.L. (Sole-Shareholder Company).

At the same time, the GAMESA Group and the DANIEL ALONSO Group reached an agreement whereby the latter fully subscribed the capital increase at Windmill Towers, S.L. through the contribution of the ownership interest in Tadarsa Eólica, S.L. (Sole-Shareholder Company), thereby diluting the GAMESA Group's ownership interest in Windmill Towers, S.L. to 32%. As a result of this transaction, which the GAMESA Group considered a swap with commercial substance given its strategic and operational importance, the GAMESA Group recognised a gain of EUR 29,192 thousand, arising from the difference between the market value of the assets received and the carrying amount of the assets contributed to Windmill Towers, S.L., which was recognised in 2007 under "Gains (Losses) on Disposal of Non-Current Assets" in the accompanying consolidated income statement.

The GAMESA Group's loss of control over the contributed companies, receiving in exchange an equity investment in an associate, the configuration of which differs significantly from that of the pre-existing Windmill Towers S.L. (Sole-Shareholder Company), led GAMESA to consider the transaction as a swap with commercial substance.

The GAMESA Group and the DANIEL ALONSO Group agreed to adjust the exchange ratio agreed on if Windmill Towers, S.L. (Sole Shareholder Company) failed to meet the targets established in the business plan included in the agreement (this potential revision of the exchange ratio would be foreseeably performed at 31 December 2008 or alternatively at 30 June 2009). As appropriate, the value of the resulting adjustment would be payable in cash and would not modify the ownership interests held by the GAMESA Group and the DANIEL ALONSO Group in Windmill Towers, S.L.

Additionally, the GAMESA Group and Windmill Towers, S.L. reached an agreement for the supply of sections of WTGS towers stipulating a minimum volume of deliveries to be attained by Windmill Towers, S.L.

On 4 October 2007, Windmill Towers, S.L. changed its company name to Windar Renovables, S.L.

At 31 December 2008, the GAMESA Group had not reviewed the exchange ratio and considered remote the possibility that the amount of the recognised gain and therefore, the equity and the income statement at 31 December 2008 and 31 December 2007 would be affected by a potential adjustment to price according to the agreement governing the swap transaction. In any event, the GAMESA Group continuously reconsiders the performance thereof as regards the likelihood of occurrence.

In 2014, the DANIEL ALONSO Group should notify GAMESA in writing of its intention to fully or partially transfer its ownership interest in Windar Renovables, S.L. Whether the DANIEL ALONSO Group intends to transfer its ownership interest in Windar Renovables, S.L. or maintain it, mechanisms would be set in motion in order to facilitate GAMESA's sale of its ownership interest in Windar Renovables, S.L.

All the financial assets included under "Non-Current Financial Assets - Investment Securities" in the consolidated balance sheets at 31 December 2008 and 2007 were classified as available-for-sale financial assets (see Note 3-n) and are measured at cost of acquisition, since these companies' shares are not listed on organised markets and, therefore, their fair value cannot be reliably calculated. In any case, the GAMESA Group considers that any difference between the carrying amount and the fair value would not be material.

b) Other non-current financial assets

The detail of "Other Non-Current Financial Assets" in the consolidated balance sheet at 31 December 2008 and 2007 of the GAMESA Group is as follows:

	Thousands of euros		Interest rate	Maturity

Gamesa Energía, S.A. (Sole-Shareholder Company) on 24 April 2008. This loan matures on 24 April 2012, will be repaid in full at the maturity date and earns interest tied to EURIBOR plus a market spread. In 2008 this loan earned interest recognised under "Finance Income" in the accompanying consolidated income statement (see Note 29-f) amounting to EUR 2,174 thousand. At 31 December 2008, this entire amount was outstanding, recognised under "Other Current Financial Assets" (see Note 20) on the asset side of the accompanying consolidated balance sheet.

Conversely, this heading also includes EUR 1,400 thousand and EUR 1,210 thousand relating to loans granted to various executives of the former Gamesa Solar, S.A. (Sole-Shareholder Company) Group companies (sold in 2008, see Note 8) and Global Energy Services, S.A. (formerly Gamesa Energía Servicios, S.A. and sold in 2006), respectively. These loans, with fixed maturities in 2010 and 2011, respectively, will be repaid in full on expiry of the respective agreements. GAMESA recognised EUR 150 thousand (2008: EUR 64 thousand), relating to interest receivable on these loans at 31 December 2008, which will also be repaid in full upon maturity.

Total	1,196,265	1,552,792

All the aforementioned balances mature in less than 12 months and are interest-free. Therefore, their realisable value does not differ significantly from their carrying amount.

"Allowance for Doubtful Debts" includes the balances receivable in relation to which there are doubts as to their recoverability (see Note 3-n). At each reporting date, the GAMESA Group analyses the recoverability of uncollected past-due amounts and potential problems relating to the collection of unmatured items.

Legal reserve

Under the Consolidated Spanish Companies Law, Spanish companies that report profits must transfer 10% of the net profit for each year to the legal reserve until the balance of this reserve reaches at least 20% of the share capital. The legal reserve can be used to increase capital provided that the remaining reserve balance does not fall below 10% of the increased share capital amount.

Revaluation reserve Álava Regulation 4/1997

The "Revaluation Reserve" account reflects the net effect of the asset revaluation approved by Álava Regulation 4/1997, of 7 February, of which GAMESA availed itself. Since the period for reviewing this account by the tax authorities has ended, the balance of this reserve can be used to offset accounting losses (both prior years' accumulated losses and current year losses) or losses which might arise in the future, and to increase share capital. From 1 January 2007, the balance of this account can be taken to unrestricted reserves, provided that the monetary surplus has been realised. The surplus will be deemed to have been realised in respect of the portion on which depreciation has been taken for accounting purposes or when the revalued assets have been transferred or derecognised. If this balance were used in a manner other than that provided for in Álava Regulation 4/1997, of 7 February, it would be subject to tax.

Treasury shares

On 5 May 2005, the Board of Directors of GAMESA resolved to make use of the powers granted by the shareholders at the Annual General Meeting held on 28 May 2004 to implement a share option plan and a share-based bonus plan under the terms and conditions approved by the shareholders.

In this respect, on 10 August 2005, GAMESA arranged a swap and forward transaction with a bank to cover the aforementioned share option plan. Under the related agreement, GAMESA undertook to buy on maturity (set for 7 June 2011) a maximum of 2,212,000 shares. The acquisition price was set at EUR 11.019 per share.

As consideration, the bank receives interest on the notional amount of the transaction, which GAMESA recognises as finance costs on an accrual basis. In turn, GAMESA receives the dividends declared on the 2,212,000 shares.

Since the risks inherent to fluctuations (upwards or downwards) in the market price of these treasury shares with respect to the aforementioned price per share and the economic rights (dividends) thereon are still borne by GAMESA, this transaction was classified under "Equity – Treasury Shares" and "Non-Current Liabilities - Bank Borrowings" in the accompanying consolidated balance sheet. At 31 December 2008, the treasury shares held by the Company in this connection amounted to EUR 13,272 thousand. In 2008 the Company credited EUR 9,367 thousand to "Equity – Treasury Shares" as a result of the options exercised by various executives under the share option plan.

On 30 May 2008, as in prior years, the shareholders at the Annual General Meeting of GAMESA resolved to authorise the acquisition of shares issued by GAMESA by the Board of Directors, representing up to 5% of the share capital, which can be used by GAMESA, inter alia, for their delivery to the employees or directors of the Company, either directly or as a result of the exercise of options or other rights envisaged in the incentive plans held by them or of which they are beneficiaries in accordance with the law, the bylaws or the related regulations. In 2008 GAMESA made various acquisitions of treasury shares. At 31 December 2008, GAMESA held a total of 2,804,498 treasury shares.

The detail and movement of total treasury shares and of the heading "Equity – Treasury Shares" arising from the transactions performed in 2008 are as follows:

	No. of shares	Thousands of euros
Balance at 1 January 2007	2,212,000	(24,374)

Balance at 31 December 2008	2,804,498	(30,825)

At the date of authorisation for issue of these consolidated financial statements, the Board of Directors had not yet decided in relation to the ultimate destination of the aforementioned treasury shares.

19. Bank borrowings

The GAMESA Group manages its capital in order to guarantee the continuity of its operations and maximise the value thereof for its shareholders through the optimisation of debt and equity in the balance sheet.

The structure of the Group's capital includes financial debt, cash and cash equivalents (see Note 16) and the equity of the Parent, which includes capital and reserves as described in Note 18.

At 31 December 2008, the Gamesa Group was within the parameters set by management for the management of this risk, as the ratio of debt (net of cash) to equity attributable to the Parent was -4.21% (16.32% at 31 December 2007).

The detail, by maturity, of the outstanding bank borrowings at 31 December 2008 and 2007 is as follows:

	Thousands of euros									
	Balance at 31/12/07	Balance at 31/12/09	Borrowings at 31 december 2008						2014 and subsequent years	Total non current

At 31 December 2008, the GAMESA Group had been granted loans and undrawn credit facilities that accounted for 65.51% (31 December 2007: 87.5%) of the total financing granted to it, which mature between 2009 and 2015 and which bear weighted average interest at Euribor plus a market spread. The loans outstanding at 31 December 2008 and 2007 bore annual weighted average interest at approximately 4.60% and 4.57%, respectively.

Certain of the contracts for the loans arranged by the GAMESA Group companies provide for certain obligations including most notably the achievement of certain financial ratios that tie the capacity to generate operating cash flows to the level of indebtedness and the financial burden. Also, they establish certain limits on the arrangement of additional borrowings or obligations and on the distribution of dividends, as well as other additional conditions. Failure to meet these contractual conditions would enable the banks to demand early repayment of the related amounts. The GAMESA Group considers that these conditions are being met and will continue to be met in the future in the normal course of business.

At 31 December 2008, the GAMESA Group did not have any bank borrowings tied to fixed interest rates, except for the hedges described in Note 21.

The sensitivity of the market value of bank borrowings to interest rate changes and their position at 31 December 2008 and 2007 is as follows:

	Thousands of euros			
	Interest rate change			
	2008		2007	
	+ 0.25%	- 0.25%	+ 0.5%	- 0.25%
Change in the value of the borrowings	1,410	(1,410)	2,799	(2,799)

The sensitivity of the market value of foreign currency bank borrowings to exchange rate and interest rate changes and their position at 31 December 2008 and 2007 are as follows:

	Thousands of euros							
	2008				2007			
	Interest rate change (EUR)		Foreign exchange rate changes (EUR/USD)		Interest rate change (EUR)		Foreign exchange rate changes (EUR/USD)

Change in the value of the borrowings	129	(129)	3,127	(3,456)	-	-	3,886	(3,886)

The GAMESA Group hedges part of the risk associated with the volatility of cash flows relating to the interest payments on borrowings tied to floating interest rates through derivative financial instruments (see Notes 4 and 21).

20. Other current financial assets

The detail of "Other Current Financial Assets" in the accompanying consolidated balance sheets at 31 December 2008 and 2007 is as follows:

	Thousands of euros	
	31.12.08	31.12.07
Short-term investment securities	3	99
Other loans	68,372	11,109
Short-term deposits and guarantees	158	13,078
Total	68,533	24,286

"Other Loans" includes EUR 55,137 thousand relating to the balance drawn down on the loan granted in the form of a credit facility by GAMESA to Pasajesol, S.L. on 19 May 2008, amounting to a maximum of EUR 60,000 thousand, which earns interest at EURIBOR plus a spread of 0.80%, the purpose of which is to finance the construction of a photovoltaic farm. At 31 December 2008, the maturity date of the loan, the loan had not yet been repaid. In any event, the directors of GAMESA consider that this loan will be repaid to the Company during the first few months of 2009, and, accordingly, did not recognise any impairment losses in this connection. The interest earned on this loan in 2008 amounted to EUR 2,570 thousand (see Note 29-f), none of which had yet been collected at 31 December 2008.

Conversely, since 2007 interest has been generated on the deferred amount of the sale price of Gamesa Aeronáutica, S.A. which was sold in 2006. At 31 December 2008, the amount recognised by GAMESA under "Other Loans" in this connection amounted to EUR 2,836 thousand, of which EUR 1,265 thousand arose in 2008 and was recognised with a credit to "Finance Income" in the accompanying consolidated income statement (see Note 29-f).

Also, the Gamesa Aeronáutica, S.A. sales agreement entitled GAMESA to receive EUR 10,142 thousand from the purchaser before 31 December 2008, to consolidate the balances held by both companies for the consolidated tax regime. This amount did not give rise to a higher sale price or higher profit from the transaction. Of this amount, EUR 5,071 thousand

was collected by GAMESA in 2008. The directors of GAMESA estimate that the remaining amount will be paid during the first few months of 2009, and, accordingly, it did not recognise any impairment losses in this connection.

Other current financial assets earn interest at a rate between zero and Euribor plus a market spread.

The fair value of these financial instruments at 31 December 2008 and 2007 does not differ significantly from their carrying amount.

21. Derivative financial instruments

The GAMESA Group uses derivative financial instruments to hedge the risks to which its future activities, transactions and cash flows are exposed, mainly foreign currency and interest rate risk. The detail of the balances that represent the valuation of derivatives in the consolidated balance sheets at 31 December 2008 and 2007 is as follows:

	5,587	20,990	-	4,155	26,091	7,107	7,750	-

To offset the effect on the consolidated income statement of hedging transactions, the GAMESA Group credited EUR 6,364 thousand and EUR 6,132 thousand to "Finance Costs" in the consolidated income statements for 2008 and 2007, respectively (see Note 29-g), with a charge to "Equity - Of the Parent - Unrealised Asset and Liability Revaluation Reserve" (see Note 18) under which they had previously been classified.

The GAMESA Group uses derivatives as foreign currency hedges to mitigate the possible adverse effect of exchange rate fluctuations on future cash flows from transactions and loans in currencies other than the functional currency of the corresponding company. Also, the GAMESA Group designates hedges to cover the foreign currency risk associated with certain intra-Group monetary transactions between companies with different functional currencies, the results of which are not fully eliminated upon consolidation in accordance with applicable accounting regulations. These hedging transactions mature in 2009 and 2010. At 31 December 2008 and 2007, the total nominal value of the items on which foreign exchange hedges had been arranged was as follows:

Currency	Thousands of euros	
	2008	2007

Also, the GAMESA Group arranges interest rate hedges in order to mitigate the effect of interest rate fluctuations on future cash flows from loans tied to floating interest rates. At 31 December 2008 and 2007, the nominal value of the liabilities hedged by interest rate hedges amounted to EUR 350,000 thousand and EUR 605,000 thousand, respectively. All these hedging transactions mature in 2010.

The main features of the cash flow hedges are as follows:

	Estimated period of cash flows			
	2009	2010 and subsequent years	Charge/ credit to revaluation reserve (Nota 18.c)	Charge/credit to income (Nota 18.c)
Interest rate	50,000	300,000	(16,895)	(6,364)
Foreign currency	102,242	-	5,184	(8,254)

No ineffectiveness was disclosed in the hedges designated by the GAMESA Group.

The fair value of the derivative financial instruments was calculated by discounting future cash flows on the basis of the exchange rate curve obtained from independent information sources such as Bloomberg, or through the valuation furnished by counterparties.

The GAMESA Group recognises provisions for third-party liability arising from litigation in progress and from termination benefits, obligations, collateral and other similar guarantees for which the Company is legally liable. At each balance sheet date the GAMESA Group estimates the liabilities arising from litigation and similar events which require the recognition of provisions of a tax and legal nature. Although the Group considers that the cash outflows will take place in the coming years, it cannot predict when the litigation will end and, therefore, it does not make an estimate of the specific dates of the cash outflows, thereby considering the effect of a potential discount to present value to be immaterial.

The provision for warranties relates basically to the possible repair and start-up expenses which should be covered by the Group during the warranty period established in each WGTS sale agreement (generally two years). The increase in this provision arose mainly from the fact that the GAMESA Group broadened its product portfolio in the market and its increased presence in new continents. In this connection, "Provisions for Warranties" includes a provision for the repairs

required to correct certain defects in the manufacture of blades identified in 2008 which was charged to the accompanying consolidated income statement.

In 2008 the Company made a provision of EUR 21,332 thousand resulting from a claimed filed by a former Group customer. This dispute had a negative outcome for the Group which paid the aforementioned amount in January 2009.

23. Other non-current liabilities

“Other Non-Current Liabilities” on the liability side of the consolidated balance sheet at 31 December 2008 included basically refundable advances from the Gamesa Eólica, S.L. subgroup. These advances were granted by the Ministry of Science and Technology to finance its R&D projects. These advances are interest-free and are repayable over seven or ten years, following a three-year grace period. The non-current portion of these advances amounted to EUR 41,278 thousand at 31 December 2008 (31 December 2007: EUR 40,101 thousand).

Non-current borrowings arising from loans granted by the Ministry of Science and Technology are refundable advances to carry out R&D projects. Although the financial liability should be recognised at its present value and the difference up to its repayment value as an implicit aid should be recognised as income on a systematic basis, over the periods required to offset them with the related costs, it was not recognised in the aforementioned manner and, therefore, does not include the finance cost or the implicit aid, given that the carrying amount of the abovementioned borrowings which did not bear any interest at 31 December 2008 reasonably reflects the amortised cost using the effective interest rate, the difference of which is not material.

24. Minority interests

The detail of “Equity - Of Minority Interests” on the liability side of the accompanying consolidated balance sheet and of the changes therein in 2008 and 2007 is as follows:

(*) The additions to deferred tax assets credited to the consolidated income statement for 2008 for tax loss and tax credit carryforwards generated in previous years amount to EUR 1,012 thousand (2007: EUR 4,781 thousand).

The GAMESA Group recognises deferred tax assets, tax loss carryforwards and unused tax credits and tax relief to the extent that their future realisation or utilisation is sufficiently assured.

26. Tax receivables and payables

The detail of "Current Assets – Tax Receivables" and "Other Payables – Tax Payables" on the asset and liability sides, respectively, of the consolidated balance sheet at 31 December 2008 and 2007 is as follows:

27. Income tax expense

Since 2002 GAMESA and certain of its subsidiaries subject to Álava corporation tax legislation have filed their income tax returns under the special consolidated tax regime. GAMESA is the Parent of the tax group.

Since 2005 Gamesa Technology Corporation, Inc and its subsidiaries have filed consolidated tax returns in the US, with Gamesa Technology Corporation, Inc as the Parent of the Tax Group.

The other consolidated companies file individual tax returns.

In 2008 the GAMESA Group performed various corporate restructuring transactions under the special tax neutrality regime provided for in tax legislation, and the mandatory disclosures are included in the individual financial statements of the companies involved.

The difference between the tax charge for each year and the tax payable for that year, classified under "Deferred Tax Assets" and "Deferred Tax Liabilities" on the asset and liability sides, respectively, of the consolidated balance sheets at 31 December 2008 and 2007, arose as a result of the following:

- Temporary differences arising from the differences between the carrying amounts of certain assets and liabilities and their tax bases. The most significant of these temporary differences relate to the assets and liabilities arising from the measurement of derivatives, deductible goodwill and the different procedure for depreciating and amortising property, plant and equipment and intangible assets, respectively, under IFRSs described in Note 3.
- Temporary differences arising from the accelerated depreciation and amortisation tax benefit taken on certain assets assigned to research and development activities.
- The different accounting and tax methods for recognising certain provisions.

The breakdown of income tax between current tax and deferred taxes is as follows:

	Thousands of euros	
	2008	2007
Current tax	32,330	20,374
Deferred taxes	(30,129)	(45,852)
Total	2,201	(25,478)

The income tax expense for 2008 and 2007 was determined as follows:

	Thousands of euros	
	2008	2007
Consolidated profit before tax	159,140	96,834

Tax credits	(22,242)	(33,164)
2007 income tax settlement adjustment	(5,085)	-
Income tax expense	2,201	(25,478)

(*) The fully consolidated foreign subsidiaries calculate the income tax expense and the tax charges for the various taxes applicable to them in conformity with the legislation of, and at the tax rates in force in, their respective countries

The tax credits recognised in the year were earned by the Group as a result of the expenditure incurred and investments made in research and development and technological innovation, investments in non-current assets and job creation.

Under current legislation, tax losses can be carried forward for tax purposes for offset against the taxable profits that will foreseeably arise in future periods. In this connection, the various GAMESA Group companies have EUR 32,220 thousand of tax loss carryforwards available for offset in future years. They also have unused tax credits amounting to EUR 69,602 thousand (see Note 25).

At 31 December 2008, the GAMESA Group companies had unrecognised tax assets. Also, the Group has unrecognised tax losses amounting to approximately EUR 907 thousand and tax credits earned before they began filing tax returns under the special consolidated tax regime amounting to approximately EUR 6,765 thousand. These deferred tax assets were not recognised because the GAMESA Group considers that the conditions for considering them to be recoverable in future years were not met.

Under current legislation taxes cannot be considered to be definitively settled until the tax returns filed have been reviewed by the tax authorities or the four-year statute of limitation period has elapsed. At 2008 year-end the consolidated tax group of the GAMESA group had 2005 and subsequent years open for review for income tax. GAMESA also has 2005 and subsequent years open for review in relation to all other taxes applicable to it. The Company's directors consider that the aforementioned taxes have been appropriately settled. Consequently, even if there are discrepancies with respect to the interpretation of current legislation for the tax treatment given to the transactions, any potential resulting liabilities would not have a material impact on the accompanying consolidated financial statements.

The applicable legislation to the 2008 income tax settlement is Álava Regulation 24/1996, of 5 July, as amended by Álava Regulation 13/2007, of 26 March and Álava Regulation 21/2008, of 18 December which remain in force and establish, inter alia, a tax rate of 28%.

On 11 September 2008, the Court of Justice of the European Union handed down a decision in relation to the request for a preliminary ruling from the Basque Country High Court by orders of September 2006. With regard to this judgement from the Court of Justice of the European Union, in 2008 the Basque Country High Court dismissed various appeals against Álava corporation tax legislation. However, its decision has been appealed before the Supreme Court.

The Company's directors calculated the income tax for 2008 and for the years open for review pursuant to the Álava legislation in force at the end of each year, since they considered that the final outcome of the various court proceedings and appeals filed in this connection would not have a significant impact on the consolidated financial statements taken as a whole.

28. Obligations and guarantees to third parties

At 31 December 2008, the GAMESA Group had received guarantees from banks and insurance companies that were provided to third parties amounting to EUR 1,821,249 thousand (2007: EUR 1,603,511 thousand). The detail, by type, of the guarantees received by the GAMESA Group is as follows:

	Thousands of euros	
	2008	2007
Financing guarantees	54,533	905
Business contract guarantees	1,662,458	1,522,372
Guarantees provided to the government	104,258	80,234
Total	1,821,249	1,603,511

On 19 December 2008, Gamesa Eólica, S.L. (an indirectly wholly-owned investee of Gamesa Corporación Tecnológica, S.A. – Parent of the GAMESA Group) entered into a financing agreement with the European Investment Bank for a maximum of EUR 200 million, divided into two parts, EUR 140 million and EUR 60 million, respectively. Gamesa Corporación Tecnológica, S.A., together with other GAMESA Group companies, directly or indirectly 100% owned by it, are joint and several guarantors on first demand to the European Investment Bank with respect to the repayment of the principal, interest, commissions, expenses or any other items, in the event that Gamesa Eólica, S.L. is unable to meet the repayment thereof. At 31 December 2008, the GAMESA Group had not drawn down any amounts on this loan.

The GAMESA Group considers that the liabilities, if any, which might arise from the guarantees received, other than those for which provisions were recorded at 31 December 2008, would not be material.

In 2007 and 2006 the GAMESA Group disposed of a number of buildings owned by it at market price, recognising gains of EUR 1,313 thousand and EUR 9,753 thousand, respectively in the consolidated income statement. Leases were subsequently arranged on the same buildings which were considered to be operating leases, since they meet the requirements to be considered as such (see Note 3-e). The term of these leases was between 10 and 12 years. The monthly charge in 2008 to the accompanying consolidated income statement for the leases on these buildings amounted to approximately EUR 166 thousand (2007: EUR 161 thousand).

At 31 December 2008, the future minimum lease payments under non-cancellable operating leases arranged by the GAMESA Group totalled approximately EUR 41,765 thousand (31 December 2007: EUR 47,633 thousand). Of these payments, approximately EUR 10,515 thousand will be paid in 2009, EUR 13,120 thousand between 2010 and 2011, and the remainder between 2012 and 2017.

In 2008 the other Board members did not hold any ownership interests in the share capital of any companies engaging in an activity that is identical, similar or complementary to the activity that constitutes the company object of GAMESA. Also, the current or former directors have not performed and are not currently performing any activity, as independent professionals or as employees, which is identical, similar or complementary to the activity that constitutes the company object of GAMESA.

31. Remuneration of senior executives

The remuneration (salary, compensation in kind, social security contributions, etc.) relating to the Parent's General Managers and persons who perform similar functions - excluding those who were simultaneously members of the Board of Directors (whose remuneration is detailed above) - amounted to EUR 6,125 thousand in 2008 (2007: EUR 3,293 thousand).

In addition to the information furnished relating to the total remuneration earned in 2008 by the senior executives who are not executive directors, it should be noted that the indicated amount includes the full amount of EUR 2,945 thousand as a result of having exercised the share options in the 2005 - 2007 plan (see Notes 3-q and 18).

In 2008 there were no transactions with executives other than those carried out in the ordinary course of business.

32. Balances and transactions with related parties

All the significant balances at year-end between the consolidated companies and the effect of the transactions between them in 2008 were eliminated on consolidation. The detail of the transactions with associates that are related parties and which were not eliminated on consolidation in 2008 and 2007 is as follows:

(*) These amounts include balances receivable of EUR 211,398 thousand, balances payable of EUR 2,542 thousand, sales and services rendered amounting to EUR 128,667 thousand and services received of EUR 132 thousand relating to the Generation business (see Note 8).

Agreements relating to the Generation business (see Note 8):

On 26 October 2005, the GAMESA Group executed a framework agreement with Iberdrola Renovables, S.A. consisting of a commitment to acquire ownership interests in companies owning wind farms in Andalucía and Italy up to a total attributable capacity of 600 MW and 100 MW, respectively.

On 21 December 2007, GAMESA and Iberdrola Renovables, S.A. agreed to update this agreement, whereby Iberdrola Renovables, S.A. acquired the ownership interests in companies owning wind farms primarily located in Andalusia, with a total attributable capacity of 578 MW (which may be increased by the buyer to 594 MW) in accordance with the expected average gains established and guaranteed in the initial agreement, and the deadlines for the start-up of the wind farms (deadline for start-up in the second half of 2009). The projects were updated in accordance with the expected average

time periods and gains considered in the initial agreement. As a result, the GAMESA Group changed the estimated prices on the update made.

On that same date, and also for the period from 2007 to 2009, the GAMESA Group and Iberdrola entered into an agreement to develop 1,000 MW of capacity at wind farms in the US, of which 500 MW will be installed under turnkey arrangements (of which 300 MW relate to firm commitments and 200 MW are subject to a right of acquisition), and 500 MW relate to the acquisition of wind farm developments in progress. The price of this transaction was established on the basis of technical and timing variables and will be between USD 700 million and USD 1,100 million, depending on the final capacity acquired.

Agreements relating to the Manufacturing business:

On 3 October 2006, the GAMESA Group, through its subsidiary Gamesa Eólica, S.L., entered into an agreement with Iberdrola amounting to approximately EUR 2,300 million whereby it will supply WTGSs with a total capacity of 2,700 MW during the period from 2007 to 2009, which are being installed in wind farms in Spain, the rest of Europe, Mexico and the US.

As part of GAMESA's business plan to focus on strategic markets in order to position itself as the supplier of choice for its large customers, on 13 June 2008, Gamesa Eólica, S.L. (Sole-Shareholder Company) in which Gamesa Corporación Tecnológica, S.A. indirectly owns all of the shares, and Iberdrola Renovables, S.A. reached an agreement to supply 4,500 MW to wind farms in Europe, Mexico and the US between 2010 and 2012, both inclusive. This agreement includes the assembly and start-up of WTGSs, in addition to the related operation and maintenance services during the warranty period.

Lastly, on 13 June 2008, GAMESA and Iberdrola Renovables, S.A. entered into a strategic agreement under the terms and conditions described in Note 8.

Conversely, Corporación IBV, Servicios y Tecnologías, S.A. (an indirectly 50%-owned investee of the BBVA Group and the Iberdrola Group), sold its ownership interest in the GAMESA Group in 2008. At 31 December 2008, the GAMESA Group had been granted the following loans and credit lines by the BBVA Group:

Type of transaction	Carrying amount at 31/12/07	Interest rate	Maturity	Undrawn amount
Bank loans	79,395	Euribor + market spread	2010	35,604
Credit accounts	220	Euribor + market spread	2008-2010	64,782
Other financing agreements	2,129		2013	-
	81,744			100,386

33. Financial position and events after 31 December 2008

a) Financial position

The GAMESA Group does not deem it necessary to obtain additional new funding in order to finance its investment programme scheduled for 2009.

As indicated in Note 19, at 31 December 2008, the GAMESA Group had been granted loans and undrawn credit facilities that accounted for 65.51% of the total financing granted to it (87.5% at 31 December 2007). The GAMESA Group did not arrange any additional loans between the aforementioned date and the date of preparation of these consolidated financial statements, as it considers that the cash requirements for 2009 are fully covered.

b) Events after the balance sheet date

The updated strategic agreement between the GAMESA Group and Iberdrola Renovables, S.A. up to the date on which the accompanying consolidated financial statements were authorised for issue is described in Note 8.

34. Auditors' fees

The fees for financial audit services provided to the various GAMESA Group companies and subsidiaries by the principal auditor and by other entities related to the auditor in 2008 amounted to EUR 1,137 thousand (2007: EUR 1,119 thousand). Also, the fees paid in this connection to other auditors who participated in the audit of various Group companies amounted to EUR 116 thousand (2007: EUR 100 thousand).

In 2008 the principal auditor and other entities related to the auditor provided other review and audit-related services amounting to EUR 56 thousand (2007: EUR 37 thousand), in addition to other professional services to the various Group companies amounting to EUR 1,379 thousand (2007: 1,205 thousand). Also, the fees paid in this connection to other auditors who participated in the audit of various group companies amounted to EUR 1,045 thousand (2007: EUR 1,063 thousand).

35. Earnings per share

At 31 December 2008, the weighted average number of ordinary shares used in the calculation of earnings per share was 241,826,557 shares (31 December 2007: 243,299,904 shares) (see Note 18-a), because in 2008 GAMESA held an average of 1,473,347 treasury shares (see Note 18-d).

The basic earnings per share from continuing operations attributable to the Parent in 2008 and 2007 were as follows:

	2008	2007
Net profit from continuing operations attributable to the Parent (thousands of euros)	156,939	122,312
Average number of shares outstanding	241,826,557	243,299,904
Basic earnings per share from continuing operations (euros)	0.6490	0.5027

The basic earnings per share from continuing and discontinued operations attributable to the Parent in 2008 and 2007 were as follows:

	2008	2007
Net profit attributable to the Parent (thousands of euros)	320,224	220,050
Average number of shares outstanding	241,826,557	243,299,904
Basic earnings per share (euros)	1.3242	0.9044

At 31 December 2008 and 2007, Gamesa Corporación Tecnológica, S.A., the Parent of the GAMESA Group, had not issued financial instruments or other contracts that entitle the holder thereof to receive ordinary shares of the Company. Consequently, diluted earnings per share coincide with basic earnings per share.

36. Standards and interpretations

Standards and interpretations issued but not yet in force

At the date of preparation of these consolidated financial statements, the following are the most significant standards and interpretations that had been published by the IASB but had not yet come into force, either because their effective date is subsequent to the date of the consolidated financial statements or because they had not yet been adopted by the European Union:

(1) Standards and interpretations not yet adopted by the European Union at the date of preparation of these consolidated financial statements.

(2) Date of obligatory application based on approval in the Official Journal of the European Communities.

(3) This interpretation has not yet been adopted. As published by the Accounting Regulatory Committee (ARC) of the EU, the interpretation will foreseeably be approved for use in the EU with a new effective date which would defer the obligatory application thereof until 2010. (The initial date of entry into force established by the IASB was 1 January 2008).

The directors of the GAMESA Group have assessed the potential impact of the future application of these standards and consider that their entry into force will not have a material impact on the consolidated financial statements.

IFRS 8 Operating Segments.-

This standard replaces IAS 14. The main new development introduced by this new standard is that it requires an entity to adopt a management approach when reporting on the financial performance of its business segments. Generally, the information to be reported will be that used internally by management to assess segment performance and allocate resources to them. The impacts of this standard will basically be at presentation and disclosure level.

Revision of IAS 23 Borrowing Costs.-

The principal change in this new revised version of IAS 23 is the elimination of the option of immediate recognition as an expense of borrowing costs associated with an asset that takes a substantial period of time to get ready for its intended use or sale. This new standard may be applied prospectively.

The directors consider that its entry into force will not affect the consolidated financial statements, since it will not lead to a change in accounting policy, since the Group already capitalises such costs.

Revision of IAS 1 "Presentation of Financial Statements.-

The purpose of the new version of this standard is to improve the ability of users to analyse and compare the information provided in financial statements. These improvements will enable users of consolidated financial statements to analyse changes in equity arising from transactions with owners acting in their capacity as owners (e.g. dividends and share buy-backs) separately from non-owner changes (e.g. transactions with third parties or income and expenses recognised directly in equity). The revised standard provides the option of presenting income and expense items and components of other comprehensive income either in a single statement of comprehensive income with subtotals or in two separate statements (a separate income statement followed by a statement of comprehensive income).

IAS 1 also introduces new reporting requirements when the entity applies an accounting policy retrospectively, makes a restatement or reclassifies items in previously issued financial statements, as well as changes in the names of certain financial statements with a view to reflecting their function more clearly (e.g. the balance sheet will be called the statement of financial position).

Revision of IFRS 3 Business Combinations and amendments to IAS 27 Consolidated and Separate Financial Statements.-

These standards were issued as the result of the project for the convergence of the international standard relating to business combinations with US accounting standards. The revised IFRS 3 and the amendments to IAS 27 give rise to very significant changes in several matters relating to accounting for business combinations which, in general, place greater emphasis on the use of fair value. Since the changes are significant, set forth below are certain of these changes, merely for illustration purposes: acquisition costs, which will be taken to expenses rather than be considered to be an increase in the cost of the business combination as per the current accounting treatment; step acquisitions, in which the acquirer revalues the investment at fair value on the date control is obtained; or the option to measure at fair value the minority interests of the acquiree rather than measure them as the proportional part of the fair value of the net assets acquired as per the only current accounting treatment. Since this standard may be applied prospectively, in general, the directors do not expect any significant modifications to arise in connection with the business combinations performed.

Amendment of IFRS 2 Share-based Payment.-

The objective of the amendment to IFRS 2 is basically to clarify in the standard the concepts of vesting conditions and cancellations in share-based payments. The directors of the GAMESA Group consider that the entry into force of this amendment will not affect the consolidated financial statements.

Amendment to IAS 32 and IAS 1 Puttable financial instruments and obligations arising on liquidation.-

The amendments approved relate to the classification of certain financial instruments issued that, although their characteristics might suggest that they represent a residual interest in the entity, under the current IAS 32 they must be classified as financial liabilities since they are, inter alia, puttable. The amendments will allow certain of these financial instruments to be classified as equity provided that they meet certain requirements including that of being the most subordinate instrument and that they represent a residual interest in the net assets of the entity. The directors of the GAMESA Group

consider that the entry into force of this amendment will not affect the consolidated financial statements because the Company has not issued any financial instruments of this nature.

Amendment to IAS 39 Eligible hedged items

This amendment to IAS 39 aims to clarify two specific hedge accounting issues: (a) when inflation can be a hedged risk and (b) when purchase options can be designated as hedges. According to the amendment, inflation may only be hedged if it is a contractually specified portion of the cash flows to be hedged. Only the intrinsic risk and not the time value of an option may be hedged.

The directors consider that the entry into force of the amendment will not have a significant effect on the consolidated financial statements.

IFRIC 12 Service Concession Arrangements.-

Service concession arrangements are arrangements whereby a government or other public sector entity grants arrangements for the provision of public services, such as roads, airports, water and power supplies to private sector operators. The government retains control over the assets but the private operator is responsible for the construction, management and maintenance of the public infrastructure. IFRIC 12 establishes how the concession operators must apply the existing IFRSs when accounting for the rights and obligations assumed under arrangements of this type. The directors consider that the entry into force of this amendment will not have a significant effect on the consolidated financial statements.

IFRIC 13 Customer Loyalty Programmes.-

This interpretation addresses accounting by an entity that grants loyalty bonuses in the form of award credits (through "points", "kilometres", etc.) to customers that buy goods or services. Specifically, it explains how such an entity should account for its obligations to provide free or discounted goods or services (through "points", "kilometres", etc.) to customers who redeem those points.

The interpretation requires entities to allocate a portion of the revenue from the initial sale to award credits, recognising them as revenue only when they fulfil their obligations, supplying those awards or paying third parties to do so. The directors consider that the entry into force of this interpretation will not have a significant effect on the consolidated financial statements.

IFRIC 14 - IAS 19 The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction

IFRIC 14 provides general guidelines on how to check the limit provided for in IAS 19 "Employee Benefits" on the amount of the excess that can be recognised as an asset. It also explains how the pension plan assets or liabilities might be affected when there is a statutory or contractual minimum funding requirement, establishing the need to recognise an additional liability if the entity has a contractual obligation to make additional contributions to the plan and its capacity to recover them is restricted. The interpretation will standardise practices and ensure that entities recognise an asset in relation to an excess on a consistent basis. The directors consider that the entry into force of this interpretation will not have a significant effect on the consolidated financial statements.

IFRIC 15 Agreements for the Construction of Real Estate.-

This interpretation addresses the recognition of revenue and expenses associated with the construction of real estate, helping to clarify when an agreement for the construction of real estate falls under IAS 11 Construction Contracts or when it is within the scope of IAS 18 Revenue and, therefore, depending on the nature of the agreement, when and how they should be recognised.

The directors consider that the entry into force of this interpretation will not affect the consolidated financial statements since the Company applies criteria which is consistent with those currently established in the interpretation.

IFRIC 16 Hedges of a Net Investment in a Foreign Operation.-

This interpretation addresses three main issues: firstly, that the risk arising from the foreign exchange differences between the functional currency of the foreign operation and the presentation currency of the parent may not be hedged. Secondly, It clarifies that the hedging instrument used to hedge the net investment may be held by any group entity, not only by the parent of the foreign operation and, lastly it clarifies how the entity should determine the amounts to be reclassified from equity to profit or loss when the entity disposes of the investment.

The Company's accounting practice in transactions of this nature is in line with the interpretations issued and, therefore, the entry into force of the interpretation is not expected to have any impact on the consolidated financial statements.

IFRIC 17 Distribution of Non-cash Assets to Owners.-

This interpretation addresses the accounting treatment of distributions of assets other than cash to an entity's owners ("dividends in kind"), although the distribution of assets within the same group or between entities under common control is excluded from its scope. The interpretation establishes the recognition of the obligation at the fair value of the asset to be distributed and any difference between this value and the carrying amount of the asset is to be recognised in profit and loss.

This interpretation will have an impact in the future only to the extent that this type of transaction is performed with owners.

The GAMESA Group considers that the other standards and interpretations issued but not yet in force will not a significant effect on the consolidated financial statements.

37. Explanation added for translation to English

2008 DIRECTORS' REPORT

1. Company Performance in 2008 – Financial strength supporting sustainable and profitable growth

Gamesa Corporación Tecnológica FY 2008 after three years of sustained and profitable growth that culminated with historical record in earnings per share of EUR 1.32 and a sound financial strength that amounted to 0.1 times the EBITDA of the consolidated Group, including the debt of the Wind Farm Development and Sale unit, and far below the maximum established of 2.5 times for 2008.

Gamesa has followed the path of growing business activity, setting new annual performance objectives in the three business areas that made up the Gamesa Group in January 2008.

The Wind Turbine Generator Design and Manufacturing unit attained 3,684 MWe sold, considerably ahead of the objective of 3,600 MWe.

- Of particular note is the level of contribution of international sales (outside Spain) which amount to 61% of total sales, driven mainly by the contribution to growth of sales in Europe and the rest of the world.
- This new business target has been achieved as a result of the increase in in-house production of critical components, which increased by 12% (nacelles) and 25% (blades) with respect to 2007, and has enabled the Company to overcome the bottlenecks that occurred in 2008.
- Also, the growth in production and sales went hand-in-hand with a 12% increase in annual deliveries to 3,300 MW, achieving record delivery levels in the fourth quarter (1,375 MW) in which, for yet another year, 40% of the year's deliveries were concentrated.
- The increase in the contribution of the US was highly significant in 2008, achieving an annual rate of production of 900 MW, and more than 1,000 MW delivered.

In 2008 the Wind Farm Development and Sale unit initiated a new value creation plan culminating in 2011, while at no time losing focus on execution and achieving new levels of business activity.

- Gamesa's wind farm development team continued to generate value and make headway in its wind farm MW portfolio to achieve record figures with > 11,500 MW Probable, > 8,500 MW Likely and > 650 MW Highly Confident.
- The number of MW currently under construction also increased by 30% with respect to 2007, to 479 MW.
- MWe sold rose to 180 MWe, which is a considerable achievement if the strategic reorientation announced mid-2008 is taken into account, as a result of which the sale of new wind farms on Continental Europe was suspended.

Lastly, the management performed at the Solar unit, after the sale thereof to First Reserve Corporation for EUR 261 million in April 2008 should be noted. Gamesa fulfilled the commitment, arising from the related sales agreement, of handing over 19 solar PV projects in September 2008, with a capacity totalling 51.2 MWp, which represents 40% more business activity than in 2007, and which also marks the definitive cessation of Gamesa's participation in this branch of activity.

Culmination of the first transformation cycle (Business Plan 2006-2008)

In June 2006 Gamesa presented its 2006-2008 Business Plan, structured around three strategic objectives -Growth, Profitability and Financial Strength- and the route map set out to achieve such objectives, focusing on Gamesa's strengths and opportunities in 2006 (the wind energy industry) and on execution speed.

Three years having passed, Gamesa has shown its capacity for transformation within the deadlines set, culminating the three-year period orientated towards wind energy -with the Wind Turbine Generator unit as its main business activity and the driving force for growth- as well as having a medium-term wind farm value creation plan (announced in June 2008) in place. These two initiatives constitute the cornerstones of the new value creation plan.

2008 also saw the consolidation of Gamesa's international industrial bases. In 2008 Gamesa's production capacity in the US -a market in which Gamesa has operated since 2006- exceeded 900 MW annual local production. Also in China, where

Gamesa has operated since 2007, more than 500 MW annual production has been achieved. Lastly, in Europe Gamesa has been able to exceed 2,200 MW of production. These new business targets enabled Gamesa to close 2008 with an operating capacity in critical components functioning at an annual rate of 4,500 MW.

Since 2006 this development of the international industrial base has led to the inauguration of 11 production centres, the development of the supplier base and the hiring of 3,600 employees worldwide, in the Wind Turbine Generator unit alone.

Three years of growth based on enhanced competitiveness and productivity, a fact which is borne out by the following indicators:

Concept	Measure	2007	2008	% growth
Activity	MWe sold	1,783	3,684	x2
Productivity/employee	Sales / employee (EUR million)	0.4	0.5	+20%
Investment optimization	Material Capex/ Δ MWe sold (EUR million)	0.7	0.3	-40%

Note: data corresponding to the Wind Turbine Generator units

One of the most outstanding examples of growth through productivity is the start-up in 2008 of the integrated Generator, Gearbox and Nacelle Assembly plant in Tianjin (China), through the implementation of the synchronised production system that allows for a reduction in the cycle time.

Achieving strategic goals

The implementation of the strategic initiatives and the actions plans carried out by Gamesa in 2008 made it possible to achieve the goals of Growth and Financial Strength set out in the 2006-2008 Business Plan, with the concomitant generation of cumulative cash in the period 2006-2008 exceeding EUR 1,000 million.

The announcement of the strategic agreement on wind farms on Continental Europe in June 2008 and the postponement of its closure to 2009 impeded the achievement in accounting terms of the Profitability objective. However, the management performed at this unit in 2008 (as regards the progress made in the business) and the recognition for accounting purposes of the gains on sales of developments in the UK, Mexico and the Dominican Republic would have led to the obtainment of ROCE > 16% committed for 2008.

Strategic objectives	2008 Target (June 2006)	Gamesa Consolidated 2008 - pro forma including WF business	Gamesa consolidated 2008 - ongoing operations (WTGs + Holding)

Profitability	ROCE >16%	15%	25%

Note: see financial statements in the Appendices.

The achievement of the strategic objectives of the 2006-2008 BP has enabled Gamesa to meet the challenge of Growth with cash generation. Over the three-year period, Gamesa managed to double the volume of MWe sold, increase EBITDA by more than 60% and obtain more than EUR 1,000 million cash.

Thus, Gamesa ended 2008 with a solid position from which to tackle the second Gamesa transformation cycle: focused on the Wind Turbine Generator business as the driving force for growth and profitability, and with a medium-term wind farm value creation plan, based on becoming the shareholder of Continental Europe's leading wind energy generation company and the transfer of this European model to wind farms in the US.

Wind energy as the driving force behind economic and social growth

The backdrop of uncertainty in terms of access to financing created as a result of the financial crisis of the fourth quarter of 2008, placed in question the growth capacity and the political backing of alternative generation sources including, inter alia, wind generation.

However, the political events that have occurred since October 2008 confirm the political support for renewable energy sources in the main markets, as an alternative power supply method at local scale, with the capacity to generate both employment and economic growth.

Accordingly, on 17 February the US Government passed the anxiously-awaited Stimulus Bill that includes the commitment to develop an economic and social plan based on renewable energy sources. Measures such as the extension of production tax credits until 2012, the possibility of using investment tax credits or the creation of federal funds to finance wind energy projects guarantee the development of the wind energy industry in this market over the coming three years, and represent a clear fillip to wind energy in the market that accounted for 31% of global demand in 2008 (source: GWEC).

Also, on 27 November the Chinese Government, through the NDRC (National Development and Reform Commission), published the details of its China Stimulus Package with the objective of offsetting the slump in growth and employment in the export sector through basically internal investment. Noteworthy among the plan's ten areas for priority action is the package for the promotion of environmental industry and renewable energies, the package for the development of the electricity grid and the increase in the loans available to priority projects (which include those related to renewable energies). An economic and social plan that gives full backing to growth in the industry in the coming years, in a region that accounted for 23% of the installations in 2008 (source: GWEC).

2008 Results:

Ongoing transformation based on a sole objective, creating value

2008 witnessed the culmination of the process of transforming Gamesa, from an operational standpoint for the Wind Turbine Generator Manufacture unit, and strategic for the Wind Farm Development and Sale units, and the Solar unit.

Gamesa began 2008 with three business units:

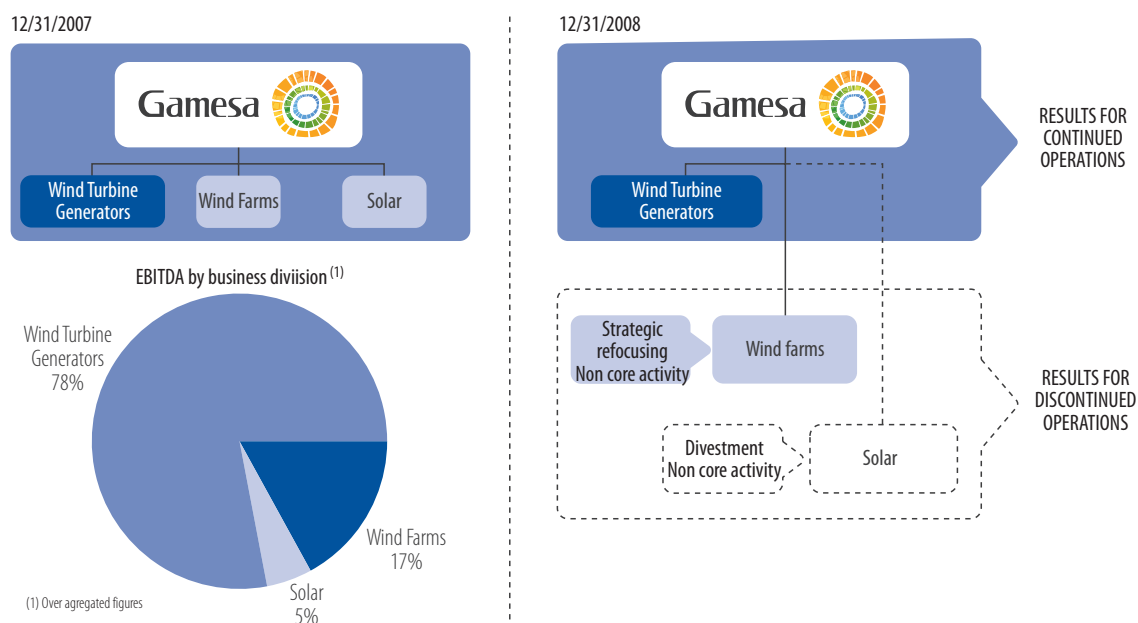

- Wind turbine generator design and manufacture, 78% of Group EBITDA in 2007,
- Wind farm development and sale, accounting for 17% of EBITDA,
- and component manufacture and solar farm development, with 5%

With the objective of focusing on sustainable and profitable growth activities in which the Company has a technological competitive advantage, on 28 February Gamesa announced the sale of its Solar division for EUR 261 million enterprise value. The transaction was effectively closed on 23 April, with the same terms and conditions under which it was announced.

Also, on 13 June Gamesa entered into an agreement with one of its key strategic customers, Iberdrola Renovables, to create a market leader in jointly developing and operating wind farms in Spain and on Continental Europe.

Thus, the Company concluded the strategic reorientation towards Wind Energy and focused on the link in the value chain where it holds the greatest competitive advantage which represents its growth sector, namely, the Wind Turbine Generator Design and Manufacture business. It is in this sector that Gamesa is positioned among the three leading companies worldwide.

This strategic reorientation has signified a change in the profile of the consolidated Group.

Wind Turbine Generators Unit: Consolidating the bases for Future Growth

In 2008, Gamesa concluded the process of operational transformation of its Wind Turbine Generator unit, which has enabled it to lay the foundations for the new management horizon.

The key factors of the period may be summarised as follows:

- Growing and sustained worldwide demand. 2008 was a record year for installations worldwide reaching 27,056 MW, up 35% on 2007, with notable growth in countries such as the US, with 8,358 MW installed (59%) and China, with 6,300 MW installed (+91%) (source: GWEC).
- Signing of the 4,500 MW supply Framework Agreement with Iberdrola Renovables, the largest purchase and sale of wind turbine generators in the history of the wind energy industry, which boosts the degree of visibility of portfolio of MW committed with customers for the coming years (2009-2012) to 11,700 MW.
- Fully operative business model at global level, which has led to reductions in response times to demand and suitable management of the supply chain, thereby overcoming the bottlenecks that occurred in 2008. Also, the make-to-order manufacturing business model, with a production system in line with the entrance of customer orders, and the introduction of synchronised component production (Synchronous Manufacturing System) led to all-time high production and delivery figures to respond to industry growth in 2008.
- Historical peak in raw material costs. Raw material prices peaked in the third quarter of 2008. The production cycle time, which stands at 4 to 6 months, signified that 4th-quarter margins were affected by these cost hikes. Even so, the EBITDA margin achieved the level of 16.4% in the fourth quarter of 2008.
- Changing industry conditions and fourth quarter trends, caused by the bankruptcy of top US banks in October which triggered the worldwide credit crunch. This new backdrop brought into question the levels of growth and investment in the wind energy industry, after a three-year cycle of strongly growing demand.
- Reduction of the business in the Spanish market, after 2007, which was a year in which the installations made in the Spanish wind energy industry amounted to more than 3,500 MW, 2008 has given rise to figures that point to a reduction in annual activity of at least 50% (1,609 MW) although still in line with the level of installations in 2006. Despite this scenario, in 2008 Spain continued to be a significantly high-volume market (the fourth largest market in the world in installation terms).

Surpassing the objective of 3,600 MWe sold, with improvements in the customer delivery cycle.

Gamesa closed 2008 with 3,684 MWe of wind turbine generators sold, above the 3,600 MWe objective set in the 2006-2008 Business Plan, and 12% above the level attained in 2007 (3,289 MWe).

In 2008 Gamesa also increased the reliability of meeting delivery deadlines to the customer, due to increased component-supply synchronisation and a reduced cycle time, which enabled it to significantly increase the number of MWe to achieve the ex works milestone.

Furthermore, in 2008 Gamesa achieved a record in MW delivered to wind farms, deliveries amounting to 3,303 MW, up 13% on 2007.

These two effects made it possible to reduce the stock of MW of finished goods unbilled to the customer by 488 MWe, and to increase working capital as a percentage of sales at year-end to 5% (as compared with 7% in 2007), thereby meeting the cash generation growth objective.

The breakdown of the activity in 2008 is as follows:

(MW)	2007	2008	% change	Status
MW Delivered to the Customers	2,919	3,303	+13%	Transfer of ownership to the customer at wind farm or ex works; billed
+ Variation in MWe Ex Works Available	+485	+869	79%	Change in WTG stock available for delivery to the customer; billed EXW
+ Variation in MWe Work in Progress	-115	-488	-	Change in WTG stock unavailable for delivery to the customer; unbilled
MWe sold	3,289	3,684	+12%	

Also, the geographical breakdown of sales in 2008 shows a higher degree of internationalisation, with sales outside Spain representing 61% of the total:

Geographical breakdown of MWe	% 2008
Spain	39%
EEUU	21%
China	13%
Rest of Europe	17%
Rest of World	10%

Of particular note was the increase in the relative weight of the Rest of Europe and the Rest of the World in wind turbine generator sales, representing 17% and 10%, respectively, as compared with 15% and 5% in 2007.

As regards the product mix, the 2 MW segment continued to represent more than two thirds of MWe sold, while the 0.85 MW turbine represented the remaining third.

The commencement of the contribution of MADE products to total Group sales should be noted, with two agreements announced in the second half of the year in Venezuela for 100 MW and in Tunisia for 120 MW.

2008 Results: Growth with cash generation

2008 earnings show record figures in the Wind Turbine Generator unit, which is a reflection of the sustainability of growth, a progressive recovery of the EBITDA margin, and suitable working capital management, the latter achieving historical minimum levels.

These results confirm the meeting of the challenge to grow while generating cash and the positive headway made by the unit.

(MM EUR)	2007	2008	% Var.
Sales	2,800	3,499	+25%
EBITDA	393	531	+35%
EBITDA / Sales (%)	14.0%	15.2%	
EBIT	178	243	+37%
EBIT / Sales (%)	6.3%	6.9%	
WC/Ventas	7%	5%	-2pp
Capex	120	156	+30%

Note: data presented in accordance with IFRSs

Sales in 2008 increased by 25% with respect to 2007, as a consequence of the 12% increase in the volume of MWe sold and the price rise that arose in the fourth quarter of the year with respect to 2007. This price rise came about as a result of the indexing of wind turbine generator prices to raw materials, the geographical mix and the effect of the exchange rate (China).

Mention should be made of the increase in the EBITDA margins achieved in the fourth quarter of 2008, which amounted to 16.4% during the last three months of the year, tied to the greater volume sold, enhanced productivity and the increase in prices as a result of the indexation, which partially offset the impact on raw material consumption costs during the high price cycle and the decreased volume of MWe reflected by sales due to the significant reduction in stock of unbilled finished goods.

Gamesa's warranty period is established at two years and the costs associated therewith represent between 3.5% (in Spain) and 4.5% (abroad) of the unit's sales, depending on the market in which the turbines are to be sold. In addition, in the fourth quarter Gamesa recognised certain non-recurring provisions equating to 1% of annual sales, associated mainly with the launch of the G90 wind turbine generator in the US and the concomitant industrial reorganisation of the supply base, which placed EBIT for the year at 7%.

Also, Gamesa managed to maintain working capital as a percentage of sales below 10% for the second successive year. The consolidation of the commercial conditions relating to sales (collection milestones) and the significant improvement in the customer delivery cycle that enables EXW billing (80% stock of billed finished goods) made it possible to improve the collection cycle and reduce the level of working capital as a percentage of the unit's sales to 5% (2 percentage points below the percentage achieved in 2007). In addition, work in progress (or stage-of-completion) stock was reduced by -488 MWe (elimination of unbilled stock).

Once again, in 2008, Gamesa achieved record manufacturing figures with 12% growth in in-house production of nacelles and 25% in blades. These levels were achieved with a volume of investment in property, plant and equipment and intangible assets amounting to EUR 156 million, as compared with EUR 120 million in 2007.

These results enabled Gamesa to close 2008 with EBITDA growth of 35% while achieving cash flows from operating activities of EUR +234 million, 2008 being the third consecutive year in which the Wind Turbine Generator unit demonstrated its growth capacity while generating cash.

Wind farms: Value Creation Plan

On 13 June Gamesa announced its new strategy to create value at the Wind Farm unit.

On the one hand, the assets associated with the Continental Europe region will be integrated in the two vehicle companies receiving contributions (joint ventures) created in conjunction with Iberdrola Renovables, one for the Spanish business and the other for the business of the Rest of Continental Europe. The joint ventures will develop and operate the projects brought into service from the beginning of 2008. A cross option structure will also be established that will allow the interest in the companies to be monetised from 2011 onwards.

On the other, Gamesa also announced the preparation of the value proposal for its US wind farm business, with the objective of transferring the European model to this market.

The two strategies are the result of the decision to centre the Company's endeavours on a core business line of wind turbine generator design and manufacture, and implement a plan to monetise the Wind Farm unit.

In the fourth quarter of 2008, progress was made in completing the strategic agreement in Continental Europe, the Anti-Trust approval being obtained in the first week of December.

The recognition of the gains of the development businesses in the UK and Latin America is subject to the completion of the transaction.

The new strategy announced for the Wind Farm unit suspended the signing of new sales commitments at this business unit from 13 July onwards. Therefore, in the second half of 2008 the development of wind farms continued to advance although the associated value has not been recognised for accounting purposes.

The results of the Wind Farm division in 2008 reflect the focus on the development of the current portfolio that increases the value of the work in progress (or stage-of-completion) wind farm stock, with no new sales agreements for Continental Europe having been entered into since June.

(EUR million)	2007	2008	% change.
EBITDA	88	38	-57%
EBIT	92	28	-72%
WC/Sales	90%	160%	+70pp

Note: data presented in accordance with IFRS.

The performance of the business activity is characterised by the significant improvements in the technical indicators, focused on the final phases of development. Thus, in 2008 the commencement of wind farm construction increased by +30% in comparison with 2007.

2. Outlook

The fulfilment of the 2006-2008 Business Plan makes it possible to begin 2009 with a focus on the consolidation of the main strategic objectives of the wind turbine generator manufacture and sale business.

Furthermore, GAMESA will centre efforts on integrating European wind farm development through the joint ventures created with Iberdrola Renovables, S.A. and the transfer of this model to US wind farms.

3. Main business risks

The Gamesa Group is exposed to certain financial risks that it manages by grouping together risk identification, measurement, concentration limitation and oversight systems. The Gamesa Corporate Division and the business units coordinate the management and limitation of financial risks through the policies approved at the highest executive level, in accordance with the established rules, policies and procedures. The identification, assessment and hedging of financial risks are the responsibility of each business unit.

The risk associated with fluctuations in exchanges rates inherent in Gamesa's transactions corresponds to purchases and sales of products and services in the various business lines in different currencies.

In order to counter this risk, Gamesa arranges hedging instruments with financial institutions.

4. Use of financial instruments

The Gamesa Group uses hedging instruments to mitigate foreign currency and interest rate risks, volatility in raw materials prices, and risks associated with share price volatilities that could affect the estimated results of the Company based on estimates of expected transactions in the various lines of business.

5. Events after the balance sheet date

See Notes 3-d and 8 to the consolidated financial statements and Note 17 to the individual financial statements.

In 2008 the main addition to "Intangible Assets - Research and Development Expenditure" related to the development at Gamesa Investigation and Technology, S.A. of new wind turbine generator models and to the optimisation of the performance of its various components amounting to approximately EUR 30,536 thousand (2007: approximately EUR 30,906 thousand).

7. Treasury share transactions

At 31 December 2008, Gamesa held a total of 2,804,498 treasury shares, representing 1.15% of share capital.

The total accost of the treasury shares amounted to EUR 30,825 thousand, at a unit cost of EUR 10.99 per share.

Likewise and after any legal requirements have been met, similar remuneration schemes may be set up for management and non-management staff of the Company and its subsidiaries".

Article 25 of the GAMESA CORPORACIÓN TECNOLÓGICA, S.A. bylaws additionally sets forth that the aforementioned kinds of remuneration "are compatible with and independent of salaries, remuneration, compensation, pensions, contributions to social welfare schemes, life insurance, the handover of shares or stock options, or any kind of general or individual compensation for any Board Members performing executive functions, whatever the nature of their relationship with the Company may be, whether it be an employment relationship –a normal or special senior management relationship–, a mercantile relationship or the provision of services. Description of amendments

By means of a resolution taken by GAMESA CORPORACIÓN TECNOLÓGICA, S.A.'s Board of Directors on January 24, 2008, after having received a report from the Audit and Compliance Committee, the Board of Directors Regulations was amended. The amendment of the Board of Directors Regulations was communicated as a Significant Event to the agency in charge of supervising and inspecting the Spanish Stock Markets and the activities of all the participants in those markets which is called the Comisión Nacional del Mercado de Valores (hereafter, CNMV) on January 24, 2008 (Significant Event nº 88523) and registered in the Corporate Register of Álava on March 26, 2008. The amendment of the articles of the Board of Directors Regulations is inspired by two principles:

- a) To incorporate the Recommendations contained in the Unified Codex of Good Governance (hereafter, CUBG), as a general criteria.
- b) To guarantee the necessary flexibility in the organization and operation of the Board of Directors.

The amendment of the Board of Directors Regulations that affected the Articles 1, 2, 3, 5, 6, 7, 9, 11, 13, 14, 15, 16, 17, 18, 20, 22, 26, 27, 34, 35, 38 and 42 is a consequence of the approval of the CUBG by the Board of Directors of the CNMV and the necessary coordination between the Board of Directors Regulations and the Bylaws of the company, amended by resolution taken by the General Shareholder's Meeting on May 25, 2007.

The significance of the amendments in the text of the Board of Directors Regulations of GAMESA CORPORACIÓN TECNOLÓGICA, S.A. is held in the Report about the modification of the mentioned Regulations that was at the shareholders disposal at the call of the General Shareholder's Meeting of May 30, 2008 and is available in the address <http://www.gamesacorp.com/en/investors/general-meetings/2008>

The Board of Directors is entitled to reject a proposal or report from the Appointment and Remuneration Committee, but shall set forth the reasons for its decision and certify same in the minutes.

Article 19 of the same Regulations additionally states that "the Board of Directors and the Appointments and Remuneration Committee shall make an effort within the sphere of their competencies to ensure that the proposal and appointment of candidates shall fall on individuals of renowned honorability, solvency, competence and experience. They shall take special care regarding the individuals called upon to fill the positions of Independent Directors.

B.1.21. State whether the role of the company's chief executive officer is linked to the office of Chairman of the Board. If so, state the measures that have been taken to limit the risks of accumulating too much power in the hands of a single person:

Yes No

Measures to limit risks

Several precautionary measures have been adopted by GAMESA CORPORACIÓN TECNOLÓGICA, S.A. in order to reduce the risks of concentrating too much power in the hands of a single person, measures that are described as follows:

1. Appointment of one of the Non-Executive Independent Directors of the Company as Deputy Chairman

In the meeting of the Board of Directors of July 27, 2006 it was approved, with a previous report from the Appointments and Remuneration Committee, the appointment as Deputy Chairman of the Board of Directors of Mr. Jorge Calvet Spinatsch, Non-Executive Independent Director of the company.

Pursuant to the provisions set forth in Article 10 of the Board of Directors Regulations, the Deputy Chairman shall replace the Chairman should he be unable to perform his functions or in his absence.

Likewise, pursuant to the provisions set forth in Article 6.2.c) of the Board of Directors Regulations, the Board shall adopt all the necessary measures to ensure that a single individual or a small group of people shall not hold decision-making powers that are not subject to checks and balances.

The Article 9.4 of the Board of Directors Regulations states that "should the Chairman of the Board also be the Company's CEO, the Board of Directors may empower the Deputy Chairman, should he/she be an Independent Director, or one of the Independent Directors, so that they may coordinate and reflect the concerns of External Directors and request the Chairman to call a Board of Directors meeting when they see fit, as well as to direct the Board's assessment of its Chairman."

Consequently, the presence of the Deputy Chairman, as being an Independent Director, means a limit to concentrate too much power in a single person.

2. Absence of the Chairman and CEO in the meetings of the delegated Committees of the Board of Directors

The Board of Directors Regulations states in the Articles 14.1 and 15.1 that the Audit and Compliance Committee and the Appointments and Remuneration Committee are comprised of three External Directors.

Consequently, because of the executive category of the CEO he can not be a member of any of the delegated Committees of the Board of Directors, as it is expressly prohibited in the Bylaws, the Board of Directors Regulations and in the Audit and Compliance Committee Regulations.

3. Functions reserved to the Board of Directors

Following the Article 5 of the Board of Directors Regulations is transcribed and from its content its section 6 is to be emphasized as it states that "any powers that may not be delegated pursuant to the Law, the Bylaws or expressly set forth in an internal rule as such shall be exclusively reserved for the Board of Directors' consideration."

The above mentioned Article states the following:

Should a Director not be able to attend the meetings to which he/she has been called for justifiable reasons, he/she shall issue instructions to the Director who shall represent him/her if at all possible, assuring that said representation and vote are left in the hands of a Director operating under the same conditions."*

It shall be remarked that regarding the previous text of the Board of Directors Regulations of April 28, 2004, in the current version of the text approved by the Board of Directors on January 24, 2008 it states the novelty that the Director shall assure that the delegation of representation and vote is made to a Director that poses his same category.

For these purposes, all documents calling the Board of Directors meetings include a specific proxy form for the meeting in question and, should it be necessary, voting instructions should the director granting the proxy wish to use them. B.1.32. Explain the mechanisms, if any, that the Board of Directors has set to avoid the annual individual and consolidated accounts drawn up by it from being brought before the General Shareholders’ Meeting with qualifications in the auditor’s report.

Article 22 of the Corporate Bylaws sets forth, among others, the following competencies for the Audit and Compliance Committee:

"d) Know the financial information process, revise the information which the Company must periodically and/or compulsorily supply to the markets and its supervision bodies, in sufficient detail to ensure it is correct, accurate, sufficient and clear, and know the Company’s internal control systems, as well as check their suitability and integrity, supervising the identification, measuring and control of risks.

e) Maintain relations with the External Auditors in order to receive information about issues that may put their independence at risk, and anything else relating to the development of the account auditing, as well as those other communications set out in the account audit legislation and in the auditing technical rules, and to serve as a communication channel between the Board of Administration and the auditors, assess the results of each audit and the replies from the management team and its recommendations and mediate in the cases of disagreement between them in relation to the principles and criteria applicable to the preparation of the financial balances.

f) Revise the content of the audit reports before they are issued, ensuring that the said content and the opinion about the annual accounts is drafted clearly and precisely, as well as supervising performance of the audit contract.

g) Monitor compliance with the legal requirements and the correct application of the generally accepted accounting principles, and inform the Board of any significant change in the accounting criteria and of the balance and other risks."

For its part, Article 14.5.e) of the Board of Directors Regulations sets forth that the Audit and Compliance Committee’s basic responsibilities include *"assessing the results of each audit and the responses of the management team to its recommendations, and mediating should there be discrepancies between them regarding the applicable criteria in the drawing up of the financial statements"*.

Along the same lines, Article 6 of the Audit and Compliance Committee Regulations, in his version approved on October 21, 2008 (hereafter, the Audit and Compliance Committee Regulations) sets forth among this Committee’s main functions regarding external audits:

"e) Serving as a communications channel between the Board of Directors and the External Auditor, evaluating the results of each audit as well as the management team’s responses to its recommendations. Mediating in cases of discrepancies between the External Auditor and the management team, in relation to the principles and criteria applicable to the preparation of the financial statements, independently of the Company financial management’s relation with the External Auditor, and of the direct interlocutory and reporting role that said management should maintain with the Committee as to issues mentioned in the present Article.

f) *Reviewing the audit reports before they are issued, making sure that the content and opinions concerning the annual accounts are expressed clearly, precisely, and without qualifications by the External Auditor.”*

In practice, such work is continuously performed by this Committee throughout the financial year by submitting reports to the Board of Directors concerning the Company’s economic and financial situation, which are filed on a quarterly basis to the National Securities Market Commission (Comisión Nacional del Mercado de Valores).

One of the main aims of the Audit and Compliance Committee’s reports, which are submitted before the Board of Directors in full prior to their approval, is to reveal any aspects that could lead to qualifications in the auditor’s report on GAMESA CORPORACIÓN TECNOLÓGICA, S.A. and its consolidated group. Should this be the case, any relevant recommendations are formulated to avoid such qualifications.

It also shall be remarked that the External Auditor has appeared in the Audit and Compliance Committee in three occasions during the financial year ending on December 31, 2008:

–appearance on February 27, 2008 related to the preparation of the annual accounts referring to the financial year ending on December 31, 2008.

–appearance on July 23, 2008 related to the procedures approved about the intermediate financial statements of June 30, 2008.

–appearance on December 17, 2008, related to the most relevant aspects, identified in its preliminary stage, about the annual accounts of the financial year ending in December 31, 2008.

Lastly, according to Article 43.5 of the Board of Directors Regulations, this body *“shall endeavor to definitively draw up the accounts in such a manner so as to ensure that there are no auditor’s qualifications. Nonetheless, should the Board see fit to maintain its criteria, it shall publicly explain the contents and scope of the discrepancy.”*

B.1.33 Does the Secretary to the Board also hold a directorship?

Yes No

See note (B.1.33) in section G contained herein.

B.1.34. Explain the procedures to appoint and relieve the Secretary to the Board of office, stating if a report on his/her appointment and relieving of office has been issued by the Appointments Committee and approved by the Board.

- a) Comply with the wording and spirit of the Law and its regulations, including those approved by regulatory bodies.
- b) Comply with all Company Bylaws and with the Board and General Shareholders' Regulations, along with any others the Company may have.
- c) Take into consideration any recommendations on good governance issued by regulatory authorities that the Company may have accepted in its Bylaws and/or Regulations."

B.1.35. State whether any mechanisms have been established by the company to ensure the independence of the auditor, financial analysts, investment banks and rating agencies.

Pursuant to the provisions set forth by Article 22 e) of the Bylaws, Article 14.5 e) of the Board of Directors Regulations and Article 6 of the Audit and Compliance Committee Regulations, one of this committee's functions is "*maintaining relationships with External Auditors to receive information on any matters that could place their independence at risk and regarding any other matters concerning the performance of the account auditing process, as well as of any other disclosures laid down by account auditing legislation and technical auditing standards, and serving as a channel of communications between the Board of Directors and the auditors, assessing the results of each audit and the management team's response to its recommendations, and mediating in the event of discrepancies between them regarding the principles and criteria applicable in the drawing up of financial statements*". As Article 6 e) of the Audit and Compliance Committee Regulations lays down, this should be construed "*independently of the Company financial management's relation with the External Auditor, and of the direct interlocutory and reporting role that said management should maintain with the Committee as to issues mentioned in the present Article.*"

In the functions previously detailed, that are entrusted to the Audit and Compliance Committee by the Board of Directors, is to "*assure*" the independence of the External Auditor and to that effect assure that the company and the External Auditor respect the current law about other services rendered than auditing work, the limits of concentration of the business of the External Auditor and, in general, others rules established to assure the independence of the External Auditors.

In this context the Audit and Compliance Committee requests the External Auditors a written statement of their independence for the performance of the auditing work of the annual accounts, as well as a complementary statement, if necessary, declaring that the performance of other services different than auditing the annual accounts did not mean a non-fulfillment related to their rules of independence.

Regarding the information provided to financial analysts and investment banks, the submission of results and other relevant documents issued by the Company is performed simultaneously for all of them after they are duly sent to the National Securities Market Commission (*Comisión Nacional del Mercado de Valores - CNMV*).

In particular, pursuant to the CNMV Recommendation of December 22, 2005, GAMESA CORPORACIÓN TECNOLÓGICA, S.A. gives seven days' prior notice of any meetings to be held with analysts and investors, indicating the date and time set for such meetings, in addition to the technical means (teleconference, webcast) through which any interested party may follow them live.

Any documents that will serve as support to the meetings are made available through the company's website (www.gamesacorp.com) shortly before the meeting begins.

In addition, a direct Spanish/English translation service is made available to participants.

Lastly, a recording of the meeting is made available to investors on the company's website (www.gamesacorp.com) for a month.

Road shows are also regularly conducted in the most important countries and financial centers. Individual meetings with all such market players are held during these events. Their independence is protected by the existence of a specific counterpart dedicated to dealing with them, thereby guaranteeing objective, fair and non-discriminatory treatment.

C.6. State the mechanisms put into place to detect, determine and resolve any possible conflicts of interest between the company and/or its group and its directors, executives and significant shareholders.

Competence:

As a general rule, the mechanisms of detection, determination and resolution of possible conflicts of interests between the company and/or its group and its Directors or significant shareholders are submitted to the rules of competence that are detailed as follows:

- a) The Board of Directors has, among its basic responsibilities, as is established in Article 5.4.ii).d) of the Board of Directors Regulations, the authorization of operations or transactions that may involve Conflicts of Interest (i) with the Company or the Group's companies, (ii) with Directors or their Related Parties, (iii) with shareholders owning significant stakes or represented on the Board and their Related Parties, (iv) with Senior Management and Executives, as well as (v) any other relevant transaction concerning the same, except when it is not necessary pursuant to the provisions set forth in Article 35.5 contained in the Board of Directors Regulations.
- b) The Audit and Compliance Committee has, among its basic responsibilities, as is established in Article 14.5.h) of the Board of Directors Regulations, to provide information about transactions that entail or could entail conflicts of interest or about transactions with shareholders owning a significant stake and, in general terms, concerning the matters set forth in Chapter IX of the Board of Directors Regulations.

Likewise, the Audit and Compliance Committee has assigned, according to the Article 14.5.j) of the Board of Directors Regulations, the basic responsibility of approving transactions entailing a conflict of interest or transactions with a shareholder owning a significant stake under the terms set forth in Articles 30.6 and 35.4 of the Board of Directors Regulations and in compliance with them, when it is so charged by the Board's Chairman.

It is also remarkable the content of the Article 11 b) and c) of the Audit and Compliance Committee Regulations that sets forth that the Committee has, among others, the following duties:

–providing information to the Board of Directors before it authorizes any transactions that could represent Conflicts of Interest (i) with the Company or with the Group's companies, (ii) with Board Members and their Related Parties, (iv) or with Senior Executive Management and company officers, as well as (v) any other transaction relevant to same, except when this is not necessary pursuant to Article 35.5 of the Board of Directors Regulations.

–approving the transactions mentioned in the previous section above when, for reasons of urgent need, such approval is entrusted by the Chairman of the Board. In such situations, the Audit and Compliance Committee must inform the Board of its decision as quickly as possible.

Information:

In accordance to Article 35.6 of the Board of Directors Regulations, the Company shall provide information concerning the operations it carries out with Directors, shareholders owning a significant stake and Related Persons, in its periodic financial reports, under the terms of prior notice set by the Law. Similarly, the Company shall include in its report information concerning Company (and Group company) operations with Directors and Related Persons, and those acting as proxies for them, when such operations fall outside the normal traffic of business, or that are not performed under habitual market conditions.

Mechanisms

a) Possible conflicts of interests between the company and/or its group, and its Directors

Article 30 of the Board of Directors Regulations sets forth that *"Conflict of Interest shall be construed to mean any situation in which any Director or party related to him/her has a personal interest in either direct or indirect conflict with the Company or with any other of the companies belonging to the Group."*

Likewise, the above mentioned Article considers *"Related Party"*, the following:

- a) *"The Director's spouse or anybody having an analogous personal relationship.*
- b) *Forebears, descendants and siblings of the Director or the Director's spouse (or people having an analogous personal relationship).*
- c) *Spouses of the Director's forebears, descendants and siblings.*

- d) Any companies in which the Director, either personally or through another individual, finds himself/herself in any of the situations put forth in Article 42 of the Commercial Code (Código de Comercio) concerning definitions of corporate groups.

Concerning Directors who are legal persons, the following shall be construed as Related Parties:

- a) Partners who may find themselves in any of the situations set forth in article 42 of the Commercial Code (Código de Comercio) concerning the definition of corporate groups, as regards the Director who is a legal person.
- b) Companies forming part of the same group, as set forth in article 42 of the Commercial Code (Código de Comercio) concerning the definition of corporate groups.
- c) The representative, the de facto or legal administrators, the liquidators and the holders of the general powers of attorney of the Director who is a legal person.
- d) Any individuals who can be considered as Related Parties of the representative of the Director who is a legal person, as per the previous paragraph on Directors who are individuals."

The Director or his/her Related Parties, as established in Article 30 of the Board of Directors Regulations, "may not directly or indirectly perform professional or commercial transactions with the Company unless the Board, following a favorable report from the Audit and Compliance Committee, approves the transaction without the interested Director taking part, pursuant to the provisions set forth in these Regulations and under the terms and conditions set forth therein.

Any Director finding himself/herself in a situation of conflict of interest or who notices the possibility thereof shall notify it to the Board of Directors through its Chairman and abstain from attending and intervening in the deliberations, voting, decision-making and execution of transactions affecting the matters in which he/she finds himself/herself in a situation of conflict of interests. The votes of Directors affected by conflicts of interest and who must abstain shall be subtracted for the purposes of calculating the majority of votes that may be necessary.

The Audit and Compliance Committee, when so requested by the Board of Directors, shall draw up a report on the transaction that may be subject to a possible conflict of interest. Said report shall contain a proposal for adopting a specific resolution.

The Board's Chairman must include the transaction and the Conflict of Interest in question on the agenda of the next Board of Directors Meeting so that it may adopt a resolution on it on the basis of the reports noted in sections 4 and 7. The Board of Directors, without the participation of the Director thus affected, shall decide as soon as possible whether or not to approve the transaction or the alternative that may have been put forward, as well as the specific measures that are to be adopted.

The Board's Chairman may commission the Audit and Compliance Committee to approve the transaction when there are reasons of urgent necessity, and the Committee shall inform the Board forthwith.

The Board of Directors or the Audit and Compliance Committee, in order to draw up its report under the circumstances set forth in section 4 above, may:

- a) obtain a report from the Chief Executive Officer containing (i) a justification for the transaction (ii), an alternative to the Director or Related Party bringing about the transaction; and
- b) should the assets or the transaction's complexity so require it, the Board may request the advice of outside professionals, in conformance with the procedure for this as set out in these Regulations.

The Board of Directors as well as the Audit and Compliance Committee shall use the following criteria when deliberating whether to approve the transaction in question or an alternative proposal:

- (i) the regular and ongoing nature of the operation, along with its economic importance and the amounts involved;
- (ii) the need to set up control mechanisms covering the operation, due to its characteristics or nature;
- (iii) criteria of equality, objectivity, confidentiality and transparency in the awarding and supply of information, when the alternative includes an offer directed at a group; and
- (iv) the transaction price and maximizing value for shareholders.

In all cases, any conflict of interest situations in which Directors or their Related Parties are involved shall be included in the Annual Corporate Governance Report.

The Company report shall include information about any operations carried out by Directors or their Related Parties that have been authorized by the Board of Directors pursuant to this article, that occur during the year to which the annual accounts refer."

b) Possible conflicts between the company and/or its group, and its executives:

The executive personnel and any other personnel of the Company and its group that, because of their activity (hereafter, Related Parties), are included by the Regulatory Compliance Unit, are submitted to the rules included in the Rules of Procedure in the Securities Market of GAMESA CORPORACIÓN TECNOLÓGICA, S.A., wording that was approved by the Board of Directors on July 22, 2003, and was modified by the Board of Directors on October 21, 2008.

The Rules of Procedure in the Securities Market states on Article 14 that the rest of Related Parties must immediately disclose any situations that could represent potential conflicts of interest to the Regulatory Compliance Unit, as well as continually updating such information. Such situations are those that may arise from a person's other activities outside the Company and/or group, family relations, personal assets or for any other reason. This all stands without prejudice to the application of the Company's Code of Conduct as well as all rules of conduct applying to group employees.

It is also remarkable the content of the Article 15 of the Rules of Procedure in the Securities Market that Related Parties who find themselves in a conflict of interest related to a certain transaction must abstain from intervening or influencing decisions concerning that transaction. They must also refrain from accessing privileged or relevant information concerning same. Should the Person Subject to the Rules have any doubt as to the existence of a conflict of interest, he or she should submit the issue for consideration by the Regulatory Compliance Unit. A conflict of interest shall be deemed to exist when, due to the Person's affiliations or for another reason or circumstance, an impartial observer would perceive such a conflict in relation to a specific action, service or transaction.

c) Possible conflicts of interests between the company and/or its group and the Significant Shareholders:

Shall a conflict of interests with a significant shareholder appear, the Article 35 of the Board of Directors Regulations states that "the Board of Directors formally reserves the knowledge of any Company transaction with a shareholder holding a significant stake, after receiving a report from the Audit and Compliance Committee, if this Director so requests – under the terms laid out in this article and pursuant to the criteria set out in article 6.2.d) of these Regulations – that no shareholder shall receive privileged treatment over others.

The Board of Directors, and the Audit and Compliance Committee if a report is issued, shall evaluate the operation from the standpoint of market conditions. They shall also take into consideration the criteria laid out in section 30.8 of these Regulations when examining the operations of said shareholders, always guided by the abovementioned principle of equality of treatment for shareholders. Towards these ends, they shall obtain the following:

- a) a report from the CEO containing (i) a justification for the operation and (ii) an alternative to said operation by the shareholder in question; and*
- b) the advisory services of external professionals, pursuant to the procedure laid out in these Regulations, when the assets involved or the complexity of the operation so require.*

Should the transactions fall under the ordinary course of company business, and are of a habitual or ongoing nature, normal authorization of the line of operations and their conditions of performance shall suffice.

In urgent situations, the Chairman of the Board may entrust the approval of the transaction to the Audit and Compliance Committee, which must inform the Board of same as quickly as possible.

Board authorization shall not be considered necessary for those related operations that comply with all of the following three conditions: (i) that are performed under contracts with standardized terms and that are applied en masse to many customers; (ii) that are performed at prices or fees that have been generally set for suppliers of the goods or services in question; and (iii) that involve an amount that does not exceed one percent (1%) of the Company's annual revenue."

In this sense, it is remarkable that the Director and member of the Audit and Compliance Committee of GAMESA CORPORACIÓN TECNOLÓGICA, S.A., Mr. Pedro Velasco Gómez, abstained in the meetings of April 14, May 12, June 12 and November 2005, 2008 from the debate and voting related to the operations with the significant shareholder of the company that he represents.

d) Relationships of the Directors and/or Significant Shareholders with companies belonging to the Group:

Article 36 of the Board of Directors Regulations states that the obligations set out in Chapter IX of these Regulations pertaining to Company Directors and shareholders owning a significant stake shall be understood as applying also to their possible relations with companies belonging to the Group.

The Board of Directors should not propose relieving any independent director of office before the term of office for which he/she has been appointed has elapsed, except when the Board sees a just reason for doing so after having received a report from the Appointments Committee. More particularly, it will be deemed that a just reason exists when the director has not fulfilled the duties inherent to the office or has been involved in any of the circumstances set forth in paragraph 5, section III of this Code's definitions.

Relieving independent directors of office may also be proposed as a result of takeover bids, mergers and other similar corporate operations that involve a change in the structure of the company's capital, whenever such changes in the Board arise from the criterion of proportionality set forth in Recommendation 12.

Should a director be brought to trial or if a court ruling on the initiation of a court hearing against him is issued for any of the offences set forth in Article 124 of the Corporations Law (Ley de Sociedades Anónimas), the Board should examine the case as soon as possible on the basis of specific circumstances and decide whether or not the director should continue in office. (B.1.3)

In order to complement the information supplied in Section B.1.3, it should be pointed out that it has been a variation of the status of Mr. Pascual Fernández Martínez according to the following reasons:

Mr. Pascual Fernández Martínez was appointed member of the Board of Directors of Gamesa, as "Other Non-Executive Directors", by approval of the General Shareholders Meeting on May 25, 2007.

The reason to be included in the above-mentioned status of Director was that until his appointment, he has been individual representative of a significant shareholder and member of the Board of Directors of Gamesa, the company Corporación IBV, Participaciones Empresariales, S.A.

On March 7, 2008, the above-mentioned company sold his total shareholding in the share capital of Gamesa, but the Company Corporación IBV, Servicios Y Tecnologías, S.A. in which Corporación IBV, Participaciones Empresariales, S.A. is a holder of shares, was still a member of the Board of Directors of Gamesa until June 26, 2008, date in which it was substituted by the company Iberdrola, S.A.

Consequently, the reasons that justified the status of Mr. Pascual Fernández Martínez as "Other Non-Executive Directors" have disappeared, being necessary to include him in any of the other status.

Looking at the definitions of the diverse types of Directors that is in the Article 7 of the Board of Directors regulations in accordance with the ones contained in the Unified Good Governance Codex (Código Unificado de Buen Gobierno) from May 22, 2006, it is remarkable that:

 - b. He has not been appointed for his condition of shareholder, although his shareholding does not reach that amount.
 - c. His appointment has not been proposed to the Company by shareholders from the ones mentioned in the above letter (a).
2. Mr. Pascual Fernández Martínez can not be included in the status of Executive Directors because:
 - a. He does not perform executive functions.
 - b. He is not an employee.
 - c. He does not perform management responsibilities or executive functions in the company or its group.
3. Mr. Pascual Fernández Martínez has to be included in the Non-Executive Directors status, because:
 - a. He has not been a an employee or executive director of the companies of the group.
 - b. He does not become, from the company or its group, any amount or benefit for a different item than remuneration as a Director.
 - c. He is not or has not been, during the last three (3) years, partner of the external auditor or those holding responsibility for the auditor's report, whether it be of the Company's audit or that of any other group company during the aforementioned period.
 - d. He is not an executive director or senior executive of another company in which some executive director or senior executive of the Company is an external director.
 - e. He does not maintain or has not maintained during the past year a significant business relationship with the Company or with any of the companies of its Group, be it on their own behalf or as a significant shareholder, director or senior executive of an organization that maintains or has maintained such a relationship.
 - f. He is not a significant shareholder, an executive director or a senior executive of an organization that receives or has received during the last three (3) years significant donations from the Company or its Group.
 - g. He is not spouse of or parties related through an analogous relationship to an executive director or senior executive of the Company, as well as their family members up to the second degree of kinship.
 - h. His appointment has been put forward by the Appointments and Remuneration Committee.
 - i. He does not find himself in any of the circumstances set forth in paragraphs a), e), f) or g), as regards a significant shareholder or a shareholder represented on the Board.
