NEW

Q: How can I get ABEC 11's high performance and anti-flatspotting urethane in a smaller shortboard wheel?

A: The all new subLIME series of wheels is perfect for street, park, vert, and sliding. The profile of the SnotShots maximizes the contact patch for increased traction and control to go along with our unparalleled speed. In stores now.

Q: I have the need for speed and traction but I also want a long lasting wheel that drifts smoothly on demand. Can I have it all in one wheel?

A: The FreeRide is the best all around longboard wheel on the market today. The hub diameter is actually smaller so there's more urethane on our 72mm wheel than on a standard 75mm wheel. FreeRides have

great traction when carving but when push comes to shove, the FreeRide slides and drifts smoothly and predictably. FreeRides are poured in our three most popular durometers using our exclusive Reflex Formula. Start thrashing away on an asphalt jungle today. Available now!

Driven to Innovate

TURN

Unparalleled engineering... advanced control and superior rebound with precise steering. Four widths, two geometries (quick and stable), and eight spring strengths to get your comfort zone dialed.

ROLL

Black Ops urethane... the best, bar none. More grip and rebound together, with less rolling resistance, than any other formula ever. Industry-leading core technology for lightweight big wheels with supercharged inside edge rebound.

RIDE

Classic yet progressive shapes for every need: carving, cruising, racing and beyond. Cutting-edge materials and construction. Completes expertly tuned for superb carving performance right off the shelf.

OPENING SPREAD: Bud Watt skateboard collection. Photo: TJ Watt.

Printed in Canada
ISSN 1708-3338

Every effort has been made to insure the accuracy of products listed in this guide. However, mistakes can happen. We assume no liability for any errors or omissions.

WELCOME TO THE FINE PRINT: My trusty designer Markintosh tells me I have approximately 380 words to fit in this space — any more than that and I'll jeopardize the size of this very cool opening shot. And what an opener it is! This collection of decks borders on priceless. While there may be many buyers for these skateboards, I can tell you, there are very few sellers.

It's funny to think that 30 years from now, a photo may appear in this guide depicting much the same thing. The only difference is that the skateboards shown will be from this Buyer's Guide. The skateboards will not be pristine — they will have been ridden and each will have a story to tell.

Believe it or not, this is our sixth edition of the Guide. I'd like to think we've come a long way since that snowy day in December 2003 when I came up with the idea of doing something after the January issue while waiting for the snow to melt. This year we've decided to spruce things up a bit. No more staples — it's perfect-bound, just like the regular issue. We've also beefed up the paper stock. This way, you've got a perfect piece of memorabilia that should last at least 30 years.

A lot of times people ask me what is the best way to help Concrete Wave. We've got those folks who take the magazine and move it to the front of the rack at their local Barnes & Noble — a "noble" deed if there ever was one! We also have a number of readers who share their magazine with a friend. Of course, when I mistakenly send out doubles of an issue (as I seem prone to do), some people automatically give the extra copy to a skater in need. Then there are shops that, in an effort to really maximize people's focus on the magazine, leave it in their bathroom. I can think of no better place to absorb the message! But of all the things you can do help Concrete Wave, one stands out above all: If you see something in the magazine that interests you — contact the company and tell them you saw it in CW. It's not a huge task, but it is huge deal!

TIME FOR AN UPGRADE

Welcome to the sixth edition of the Concrete Wave Buyer's Guide. We are proud to publish the most comprehensive listing of skateboard products in the world. You'll note that we've made some changes this year. For one thing, we've decided to upgrade the paper. Yes, it's a little glossier and thicker. Also, we've moved to perfect binding from our traditional staples. We hope that these upgrades give the guide a little more durability and polish. We know many of you refer to the guide on numerous occasions throughout the year. Just be careful you don't drool too much on the guide — the paper, while an upgrade, is not waterproof!

As many of you are aware, 2009 is shaping up to be somewhat of a "trying" year. Since this is a skateboard magazine, I didn't want to discuss the economy. I'll let the experts deal with that. I do, however, want to address a few things from the perspective of what Concrete Wave stands for and where we are going in these turbulent times.

The first thing about Concrete Wave is that we will never waver on our focus of keeping things 100% skateboarding. Our goal is create a truly concentrated magazine that showcases the act of riding a skateboard. We know that the more information we can bring you about new products and new ideas, the more satisfied you'll be as a reader.

Second, we want to continue to expand our coverage of the global skate community. The more we can increase the connections and bonds between skaters worldwide, the more stoked you'll be. We know it's a blast opening up the magazine and identifying folks and companies you know personally.

Third, while 2009 might be a year of retrenching and slowing down for some, we fully intend to push forward. We are working with a number of companies to help spread the word on Concrete Wave. In fact, we are so serious about spreading the word, we even went out and bought a T-shirt press! More on that next issue.

It takes a staggering amount of time and dedication to compile this list of skate companies. I am grateful to my trusty designer Markintosh, who works tirelessly to bring it all together. Jonathan Harms is also taking his eagle eye to the copy this year. I also want to thank all those who help distribute the guide. Without their efforts, we wouldn't reach the 250,000 folks who read the guide annually. A huge thanks to all our advertisers who support Concrete Wave. Readers, be sure to contact these companies and tell them you saw them in CW. Last, but certainly not least, I want to thank you, our loyal readers, who have helped make Concrete Wave flourish.

Enjoy the Guide!

STOKED SKATEBOARDS

Here is what some of our customers had to say about us:

"Awesome site, great customer service, friendly and knowledgeable. The best longboard shop." — Jolie from Redondo Beach, California

"Everything was excellent. I got the best priced board... got FREE shipping... and I bought my board in just a couple minutes. Their customer service is excellent. ...contacting them is easy and fast, as I received a response in less than a day."

—Stoked Customer Review

"If you are living outside the USA and need to get great longboard equipment delivered to you, look no further than Stoked Skateboards. I bought a complete setup from them and it was the easiest thing I ever did."

— Fazrul from Singapore

"Fastest free shipping ever!!" — Woody from Camarillo, CA

"This is easily the best skateboard/longboard website I have ever ordered from. I will never order anywhere else after this encounter. Thanks again." — Wyatt from Gloucester, MA

"I love stokedskateboards.com. You guys already have some cred in my neighborhood! Who would have thought an e-commerce company could be full of so much love?" — Michael from Mundelein, IL

Photo: Kevin Mantei

We're the Hamborgs and we make the **BIGGEST SKATEBOARD** on the planet. We all want you to know that we just don't make Hamboards for their **SIZE**; we make them because how much **FUN** they are to ride!

But don't take our word for it — here's what other people are saying:

"... one of the most responsive and addictive skateboards ever produced"
— *Concrete Wave Magazine, Winter 2008*

"... mimics the feel of a surfboard on the water"
— *The Los Angeles Times, January 12th 2009*

"the board is amazing, it is hard to keep my feet off it!"
— *Matt Hendry, Beverly, New Jersey*

And..

"my husband, a violin maker for 30 years, is impressed with the craftsmanship of my Hamboard"
— *Melanie Lake*

The 187 Inc. is dedicated to quality and comfort. We have never stopped improving our product. Our pads are made with the best materials for the best fit and are double stitched for durability. They were designed by people that skate and understand what skaters need. Our Pro Knee pads feature Pro Core impact absorption technology and dual density interior foam. The elbow and fly knee pads have recessed grommets to decrease wear. We also offer two types of re-caps kits to fit almost any pad. The 187 pads work for everything from your hometown park to the mega-ramp. We recently launched an all new website with updated team information, helpful sizing charts, and so much more. the187.com. killerpads@cox.net or call 760-722-1455.

3dm is a legacy wheel brand under the management of Seismic Skate Systems, Inc. Born under the Turner brand, the line of three classic slalom shapes was renamed 3dm in 2003. Seismic assumed control of the line in 2004. For several years the 3dm Cambria, Avalon and Avila shapes utterly dominated international slalom racing. They're still used by elite racers around the world, as well as by cruisers and carvers of every stripe. Seismic continues to pour these three wheels, using the world's finest grip-oriented urethane. However, all new Seismic products are developed under the Seismic brand. The classic 3dm shapes helped inspire the development of the Seismic Hot Spot, Speed Vent and Blast Wave wheels. seismicskate.com

ABEC 11 is The Real Wheel. Designed for skateboarding by World Champion Skateboarder Chris Chaput. The wider contact patch provides superior traction at high speed. A variety of sizes and durometers precisely match every skating discipline. Use the softer (72a to 88a) wheels for rougher, porous surfaces like asphalt and the harder (92a to 98a) wheels for smooth and polished surfaces like concrete. Whether carving, cruising, tearing up the parks, pools and pipes or racing downhill, streetluge or slalom, our high-performance urethane will keep you in the game. Abec11.com

AIRFLOW SKATEBOARDS

Airflow Skateboards have been on the streets since 1989. They are well established and produce high-quality boards and axis whilst continuously expanding their assortment. Thanks to the successful Airflow Racing team all newly developed equipment is tested in practice, which enables continuous improvement. In addition to the standard boards, Airflow Skateboards and their team racers develop pro models, which are customized to the racers' requirements. Airflow Skateboards also developed the "C81" board with a foam core for Chris Hart (founder of Airflow Skateboards and team coach) — a board used especially for Giant Slalom. Airflow Skateboards stand for newest technology and old-school skating — for fun and performance, competition and easy cruising — always with enthusiasm. Feel the flow! airflow-skateboards.com

ALTERED electric skateboards

Altered Electric Skateboards by Exkate takes their 2009 product line to the next level. The new lineup features patented 2G digital wireless controllers, Dwindle epoxy decks and more models to suit all your riding needs! These boards will go up to 20 miles per hour and can even carve up hills. They take four hours to charge and the range is around 10 miles. Watch for a collaboration with both ABEC 11 and Hamboards. Also note: Chris Chaput is busy working on a new 107mm Flywheel. He's determined to make the best electric skateboard wheel on earth! alteredusa.com

American Sideshow

From the mind of skate artist Johnny Mojo comes American Sideshow — modern retro skate designs for the 21st century. If you're looking for an alternative to the endless parade of mass-produced decks out there, then you've come to the right place. All American Sideshow decks are limited editions and hand screened — not a heat transfer! Each board is laser numbered and hand signed by Johnny Mojo. Check out the Reaper pool & park deck and the Shield street cruiser — both out now. These boards offer no compromises, just quality that speaks for itself. Proudly made in the U.S.A. american-sideshow.com

ARBOR

THE ARBOR COLLECTIVE

Creating performance and design innovation since 1995 through a functional use of environmentally friendly materials, collaborations with the art community, and an unadulterated love for riding. Developing skateboards around certain truths... Time spent skating provides a direct understanding of what's at stake. Protecting the planet is not about some place on TV, it's about the environments we utilize everyday. We need clean air to skate, clean water to surf, and snow to ride. You can't just be green for the sake of being green. Customers expect quality, performance, and relevance, even when choosing a sustainable alternative. Draw on the collective. All the skates in Arbor's 2009 line are collaborations with artist we admire.

BADLANDS

In 1975 Royce and Tay Hunt produced the legendary Pool Tool

skateboard, a solid oak beveled board with a wedge tail. The history of the original Badlands skateboards is available at badlandsskateboards.com. Two new models, the Pro Hog and the Shredder, are now available at tayhuntskateboards.com. The Pro Hog is a similar shape as the original 1978 deck, with current state-of-the-art technology. The Shredder shape includes the original 1977 Shredder tail design with added, unique front canards, giving better foot surface stability for nose slides and excellent grips for air. It has met with rave reviews by skaters who have seen it. Both decks are 7-ply Canadian maple with several thinner internal layers creating a light, strong deck with excellent stability — the ultimate concave, double-kick decks for street and park riding. Tay Hunt Skateboards also features T-shirts, collectible 1978 Badlands skateboard posters as well as stickers and accessories. tayhuntskateboards@gmail.com

BAHNE SKATEBOARDS

Bahne Skateboards has been producing quality skateboards and wheels since 1974. We are proud to offer you our new line of decks. Designed for park skating, slalom, downhill speed and longboard cruising, all of our decks are made in Southern California. Bahne completes are fitted with the best components available: Bahne wheels, Bennett or Tracker trucks, Abec 7 or Swiss bearings, premium hardware and custom die-cut grip tape. Come join us doing what we have been enjoying for over 35 years. Bomb a Bahne! bahneskateboards.com

Said it before and we'll say it again, Beer + Skateboards = Fun. Really, it's OK, the sooner you come to grips with that the better we'll all be. So what we have here is "Thee Keggnaut". This thing was specifically designed for moving not just your fat ass but a keg. A keg? Yep! And next time some old fart tries to tell you how they grew up with an old apple box and 2 x 4 you can laugh straight in their face,

whip out your Keggnaut and offer'em a nice cold beer. From the party to the park this IS THEE KEG MOVER; others may try and claim their boards will help you DO something better, but who will actually help you MOVE something better? The One.The Only. Thee Keggnaut. Voted BEST NEW DECK SHAPE AT ASR JANUARY 2009 BY CONCRETE WAVE MAGAZINE. Best new deck shape at ASR January 2009 by Concrete Wave Magazine. Beerrunskateboards.com

Key to the city Circle star Beer Run Keggernaut

We are a French based company. Our Boards are all hand made by us using only high quality products with visible carbon fiber on the bottom of almost each board. Established in 1975, Bennett Trucks were the first trucks made specifically for a skateboard. Invented and designed by the iconic Mr. Bennett, the Bennett Pro and Vector models were

the choice of most amateur and professional skateboarders throughout the late 1970's. Today's Bennett Vector Trucks have been improved with high performance urethane bushings, an inverted kingpin and are poured with pure missile grade aluminum. Designed for hard carving and quick turns, Bennett Vectors continue to be on the cutting edge of performance for minis, slalom, long distance pumping and longboard carving. Available in Silver and Black and in 4.3, 5.0 and 6.0 inch hanger widths. bennetttrucks.com

Bones Bearings — the standard by which all other bearings are measured. Bones Bearings have the best reputation in the skateboard industry and have had this honor for the past 26 years because of their performance and quality. Everyone who rides Bones knows how fast they are, and most also comment on how long they last — typically several times as long as low-cost bearings. Skaters who use Bones Bearings do so because they want the very best equipment they can get, and they know the difference between ordinary and exceptional. bonesbearings.com

Although a fairly new company, some of the original team riders have skated together since the late '80s and early '90s. We have always been a crew-driven operation, so to start we built our local team riders a new ramp: Then we were off to make shirts for all Canadian and international team riders. We now have four boards to choose from, and “bro models” to be released as needed. We have always believed in making boards and product that all skaters can afford; and pride ourselves in keeping skateboarding raw and true. Check out new product as it comes out at myspace.com/oldshred.

CBCBC

At the California Bonzing Company, we are inspired by the intense elation of clearing stairs or mashing hills - the buoyant feeling of skateboarding that we call Bonzing. We design and ride boards made with the best quality wood and constructed to the California Bonzing Co.'s standards of perfection. "Stijl" is the CBC's premiere skateboard: 34 inches long by 8 1/2 wide and made to fly, it drifts perfectly on 180 trucks. Designed to be an all-mountain board that is still light enough to carry around. The unique convex design is responsive and flexible, resulting in a comfortable and pure experience even at gonzo downhill speeds. Bonz or die! What's your style? Enjoy the ride...CaliforniaBonzing.com

BUSTIN
BOARDS CO. NY

Bustin Boards was founded in 2001 by a group of friends who felt there was a creative void in the longboard market. Through seven years of research and development, the Bustin crew has created five ultra-refined models: Complex, Cigar, Strike, Sojourn, and Spliff. Along with their progressively-designed shapes, Bustin is known for its one-of-a-kind custom printing process. Online, the customer is offered a unique opportunity to create a stylistically individualized board, with thousands of graphic and color choices. Bustin also recently launched its Market Place, which includes a colossal array of options for trucks, wheels, and accessories, offering the best components from across the industry. For a completely custom configuration, you can even email their team manager for a setup recommendation based on your riding style and preferred discipline. www.bustinboards.com

Cadillac Wheels

Developed by Frank Nasworthy in 1973, the Cadillac Skateboard Wheel was the first urethane skateboard wheel. This wheel revolutionized skateboarding and has set the standards for all skateboard wheels to date. In recent years, Cadillac wheels have resurfaced as a staple longboard and cruising wheel. Like the original Cadillac wheels, these wheels have a square profile and a soft compound for maximum performance. Sizes available are 56mm, 65mm and 70mm and are available in multiple colors. Check them out at madridskateboards.com

There is nothing on the street that so closely emulates the feeling and “stoke” of surfing or snowboarding. There are just so many down days when you can’t get a surf or snowboard session and you’re just itching to get in some turns. With a little imagination and one of our boards, there is always a couple of feet of fresh powder or 6-8 foot glassy sets coming in right outside your door. Brad Gerlach and his father Joe came up with the idea for a Carveboard almost ten years ago. The main objective was to create a board which enabled beginners to pros, the ability to work on their surfing or snowboarding on the street. Experience the ride and you will understand that these boards are the ultimate carving machines. Carveboardsports.com

In 2004 I [Heiko Schöller] asked Michael Brooke if it was OK with him if I used the name Concretewave for a skateshop in Germany. He said OK. The name is perfect because I wanted to run a skateshop where you can get everything, not just 7.5" decks and shoes. In the beginning it was just a Web shop, but in 2005 the store in Cologne opened, and now we have the biggest old-school and long-board selection in all of Europe. Ninety percent of what we sell is hardware, and some shirts and accessories. It was always a dream to do my own skate shop and with Concretewave this dream became reality. concretewave.de Concretewave Skateshop — Venloer Strasse 502 — 50825 Cologne — Germany Tel.: 0049 (0) 221 3974669. E-mail: info@concretewave.de

Crail has been making superior quality trucks since 1990. Todd Schwartz, the owner of GardenSK8 indoor skatepark, established Crail America after traveling to Brazil last year. The Crail "Speed" downhill trucks have been tested to rave reviews and will be available in new limited color runs. The

entire line of street and park trucks were also tested to rave reviews at GardenSK8, which also hosts the largest indoor bowl on the East Coast. Crail America will now expand US distribution to include the entire line of trucks. Check with your favorite shop for availability. Distribution inquiries only call (973) 287-7626. crailamerica@me.com

DECKCRAFTERS

All Deckcrafters skateboards are hand made by Chuck Hults, the man behind such legendary skateboards as the "Rip Saw," "Chain Saw," "Yard Stix," "Danger Deck" and the "Double Vision" series. The craftsmanship and quality usually reserved for professional skateboarders, along with the function and style derived from years of shaping, designing and skating experience, are now available to you. Choose from one of the many models in the Deckcrafters line, or have a custom deck shaped to your exact specifications. Deckcrafters also offers OEM manufacturing for core brands looking for a superior-quality product. Deckcrafters skateboards are manufactured with top-quality maple, as well as in the new Monocoach composite construction. deckcrafters.tv

Dregs is still about the same things it's always been about. Having fun, riding hard, hauling ass and thrashing ruthlessly with no regard for personal safety. Only recently have we acquired a taste for the finer things, like the pristine peaks and coastlines featured on our 'water division' boards. We have included laser engraved boards in our line w/ clean natural aesthetics and textures as well as inlaid hardwood cruisers with die cut pinstriped griptape and engraved logos, top an bottom. New mid length boards like the Ditch and Teardrop rip on any terrain you throw at 'em. Old school, new school, high speed, just cruising, carving, sliding, you name it. If you just want to have fun get on a Dregs board. dregsskateboards.com

DURANGO BOARDS

DurangoBoards are born in the Colorado community of good times and creative people. We take pride in exposing local artists by showcasing their unique designs on our decks. Environment-friendly construction ensures that the only impact made is from the artwork. Our Canadian hard rock maple boards are cold-pressed at the source, then imprinted to create a true piece of art. Find them at your local skate shop or visit durangoboard.com.

Treads Bonneville Animas Dragon Humming Board

Eastside Longboards

Based on the Eastside of Portland, Oregon, our decks are a true testament to the large and diverse community of skaters here. Since 2003 we've been laying down functional designs made for urban-style transportation and riding a wide variety of hills and terrain. Through our weekly sessions at amazing inner-city parks like Mt. Tabor and Washington Park (Zoo Bomb) to our community events like the Portland Pusher Series, many revisions from rider feedback have been added to the Eastside lineup over the years. We are proud to release the latest for 2009. Check out the rest of them at eastsidelongboards.com.

Earthwing is a skateboard company from Brooklyn, N.Y. that has no specific direction, with no employees and no business plan. Brian Petrie just stares out into space and thinks about how to make skateboarding better. This year Earthwing has been playing with new wheel formulas that are much faster than normal, and high-performance unidirectional carbon speedboards that are stiffer, thinner, lighter and less expensive. The Internet said sliding was dead, but they are releasing the new Drifter anyway, along with a new line of softer freerider wheels, so don't listen to the Internet. They are out there on the hills slipping, sliding and bombing 4 life. KILL THE HILL! earthwingskateboards.com

Easy Rider opened its doors on Dec. 6, 1996 and is owned and managed by Warren Currie. Warren has been involved in the action sports industry in Edmonton since 1980, when as a school kid he ordered his first Burton Backhill snowboard from Jake Burton. He began skateboarding in 1969 on a clay wheeled "Surf King" board that he and his brother got at a garage sale. Easy Rider sells all types of skateboards — Longboards, Street decks, Minis, and Old School. We ride what we sell and have a blast doing it. Easy Rider, 4211-106 Street, Edmonton, AB, Canada 780.413.4554 theeasyrider.com

Factory13 experimental skateboard manufacturing is the future of skateboard design and production. Established in 1999, we make the most unique custom boards on the planet. Factory13 makes Pro model boards for J.F.A. and the infamous Godoy brothers, our F.13 stock model boards are killer. Our boards are handmade in Chardon, Ohio by skateboarders, all boards are silk screened by hand as well. Everything from the mold design to final product, all done in house. We offer the most diverse amount of construction options: different species of hardwoods, fiberglass, ruby red epoxies, and carbon fiber laminates. Factory13 records is open and stocking the best skate punk from all over the world. factory13.org / thelastofthebadmen.com

Foundation Equipment Corporation (FEC-NYSE) was started in 1989 by skateboarder, Tod Swank. The drive was freedom of creativity and individual expression as well as to free the binds of corporate tyranny on the skateboarding culture. Today Foundation Skateboards continues to push the envelope of creativity, the art of skateboard riding and the biomolecular engineering of interstellar space travel. Foundation enlists supreme Pro and Am team riders such as – Corey Duffel, Gareth Stehr, Don Nguyen, Angel Ramirez, David Reyes, Sierra Fellers Abdias Rivera and more. Recent epic releases are the Foundation Testament Keep On Rolling Box set and Cataclysmic Abyss DVDs. And the new Fiberlam Deck Technology is getting rave reviews and is highly sought after. Developed by pro skaters, Freshpark's durable line of weatherproof, foldable ramps are easy to assemble, easy to move, and easy to store. Used in the interactive villages of the top pro skate tours (X Games, AST Dew Tour, Etnies GvR), recreation departments, schools, backyards, community organizations, summer camps, churches, and military bases, Freshpark has established itself as the leading portable ramp brand. freshpark.com

Fullbag Skates offers today's skaters the "right tool" for the job — whether it is tearing up cones, screaming down a hill, cruising the city or flowing roundwall at your local park — we've got you covered! Our approach is to unify modern shapes, racer-proven designs and top-quality materials and workmanship while preserving an "old-school" flavor into every board we build. Manufactured in Quebec, Canada, using a combination of hard-rock Canadian maple and a range of high-pressure laminates, each deck produced comes with our guarantee of quality. Since their inception in 2007, Fullbag Skates have put racers on the podium across Canada, the United States and Europe. 2009 brings the introduction of a new line of decks, which will join our current line of proven favorites, taking our success to a higher level. We build function, quality and performance into every single deck. To learn more about Fullbag Skates and to watch for the release of our new models – visit our website: fullbagskates.com. For ordering and question – you can reach us at info@fullbagskates.com

Let's face it, times are tight and your money means more to you than ever. You can cut corners or cut out the bullshit. At Funhouse Skateboards, we've gone with the latter. Since 2006, we've been making premium quality, manure-free skateboards by skaters for skaters. Our formula is simple: take the sickly satisfying graphics of Owner/Artist/Janitor JJ Rudisill and add them to uniquely shaped maple decks made in the USA. The end result? Badass decks that are as fun to look at as they are to skate. funhouseskateboards.com

G&S Skateboards and Fibreflex Skateboards continue into 2008 with quality USA made decks. Original Gordon & Smith Skateboards were developed by surfers for surfers in 1964 from composite (Bo-tuff). Our first team in the 60's included Willie Phillips, Skip Frye, Mike Hynson, Sal Peluso, Sammy Jimenez and young Dennis Shufelt—Extremely innovative and ahead of their time. Recently, Skip Frye has re-discovered skateboarding and has rejoined us to create the new FibreFlex "Perpetual Motion Egg" model. Gordon & Smith continues to produce boards built with quality that perform. We've always built skateboards for Pros, or anyone who wants to be one. G&S Skateboards & Fibreflex Skateboards 4901 Morena Blvd. #1003 San Diego, CA 92117 Ph. 858-581-3045 Fax 858-581-9049 www.gordonandsmith.com

GLADIATOR GHOST

SkateDesigns not only offers a wide variety of skateboards, but their own line of knee gaskets known as the

Gladiator. Dale Smith's knee gasket design revolutionized the way skateboarders wear kneepads. The Gasket is designed to be worn underneath the skateboarding kneepad. The Gasket give the knee extra support while keeping the kneepad in position. The Gladiator Gasket is a neoprene knee support with a foam layer of padding around the patella. The Gladiator Ghost is the new generation of the Gasket. The Ghost offers the same support and protection as the Gasket does, but it features a plastic cap underneath the top layer of neoprene. skatedesignsinc.com

GPS designs and manufactures a three-piece modular racing wheel. This is the only modular wheel design in the world! The unique features are that we use two taper locking rims that hold the bearings snugly in the urethane wheel, thus making it easy to change wheel sizes from 55mm, 75mm, to 88mm. Multi-colored rims makes for a nice-looking wheel assembly. Check out the website at grandprixskateboards.com.

Bazooka 120mm Urethane Wheels are engineered for maximum asphalt performance. The wheel mates perfectly with the Vegas core offering a durable and light construction with the performance of high quality urethane. From super sticky to hard and fast this new technology sets a new standard for performance street wheels. These wheels are designed to work best with Bionic Trucks and GI Decks. The lightest wheel core Ground Industries has ever created, the Vegas introduces a whole new approach to high performance wheel design. Its three piece construction promotes a truer more durable ride by targeting key material properties needed to maximize performance in different zones of the wheels assembly. For the first time ever the material properties of the core are dialed in to maximize impact resistance while not interfering with the necessary rigidity of the outer rim. The Vegas also incorporates bite rite wheel security teeth that do just that, secure your Bazookas for an even truer ride at higher speeds and improved stickiness. groundindustries.com

This is what happens when a family of surfers from California, screw the expense and start experimenting with the best wheels trucks, bearings, and wood they can find from all over the world. The resulting boards feel so much like surfing and flat out rip that it would be just wrong to not paint and color them into works of wave riding art. So that's why each Hamboard is unique, has a bit of Love, a lot of Soul, a signature, a number, and a family in Huntington Beach, that hopes that whoever gets this next Hamboard is stoked to spend their days carving flowing turns and recreating the feel of their favorite surf spot. The 6' -8" Classics go into a paint oven 6 different times and the 4' -5" Fishes are colored by hand. The amazing two-part rubbery high tech glossy grippy compound results in an incredible looking board with a deck surface that is unique to the industry. Good for riding with shoes, sandals, or the Hamburg Family preference: Barefoot! Hamboard.com

Hawgs

Through countless hours of painful testing we've come up with designs that really work. Combine these designs with amazing urethane and you have Hawgs. For freeriding and general cruising the 76mm and 85mm L series can't be beat. They're sideset stance and rounded edges make them super predictable and butter smooth for drifting.

The monster line introduced in 2008 has many improvement for 09. Already the grippiest wheel on the market, we've made adjustments to our formula to make them faster and wear better. So for whatever type of riding you want to do, Hawgs has the perfect wheel for you. Call 778-785-6855.

Herron Trucks are bringing skateboarding up to speed. Weight is the enemy of speed and control. That's why Herron Trucks is introducing the lightest trucks available made out of Carbon Fiber.

100% made in the USA our trucks come with custom bushings and reversed low profile kingpins. You can purchase Herron Trucks in 3 different sizes 7", 8", and 9" each weighing in at 30% less than the industry average. All styles from street skaters to longboarders will benefit from riding Herron Trucks. Another breakthrough in truck technology! Herron is proud to release a great new addition to complement our truck line — the **Progressive Bushings**, which are made with dual hardness in one unit. By sandwiching a soft urethane between a harder top and bottom plastic, the trucks are able to remain stiff with the responsiveness of a softer bushing. The bushings feel firm and have great rebound, allowing you to go for it without the worry of the dreaded wheel bite. This combined with the lightness and grindability of the Herron carbon fiber trucks make for a great upgrade. Herron Progressive Bushings retail for \$5.00 a set and include bushings and shock caps. They are made for Herron trucks but will fit any truck brand. herrontrucks.com

H-Street Skateboards was founded in 1987 by Professional Skateboarder Tony Mag, visionary Mike Ternasky and Skateboard manufacturer and distributor George

Abuhamad. The trio set out to create an entirely new kind of skateboard company, where riders were in charge of all product design and marketing decisions, and had a governing hand in the structure of the business. After more than a dozen year hiatus, the H-Street company has been reformed by Tony Mag and George Abuhamad, to again offer quality skateboard equipment to all. Shackle Me Not and Hokus Pokus have been re-issued on DVD, and the other classic H-Street films will follow. The Company will release some classic re-issues and some newer boards to cater to kids and older bowl skaters alike. VK Skate, Eastern Skate Supply, S&J Sales.

Honey Skateboards has built a reputation of quality, both in ride and construction. We continue to build on this reputation with our new Rogue. Honored with "The Best New Board" at the January 2009 Surf Expo, the Rogue takes freeriding to the next level. All

of Honey's boards are made in Southern California by dedicated craftsmen. Our boards have the appearance of a solid wood board with the stringer patterns meticulously matched on top and bottom, but have the ride qualities of a laminated deck. By taking advantage of the latest in laminating technology we are able to design camber, concave and kicktails into the boards while giving us the flex patterns we like to power through a deep carve. Life is about the ride, not the destination. honeyskateboards.com

Illusion All Terrain Concepts, the small New Hampshire board shop, offers carbon-composite and wood-composite decks. The 43" carbon-composite G2 remains most popular with a 1.5" drop and 33" wheelbase. It's a stiff deck, lighter than 3 lbs., with threaded insert truck mounts. The Vengeancer optimizes grain direction of four wood species for a 4-lb. deck with the strength of 11 plies. This 41" deck has a 32" wheelbase and 10.5" width. Our 125mm Helix Slicks are designed for mountainboard trucks – like our 16.5" ATL Trucks – and mount onto Primo hubs. These 80A slicks are replaceable and 20% lighter than similar slicks. illusionatc.com

KHIRO KAHALANI # 018-9128

Not typical, not rich, not dead. Not selling skateboards as a fashion accessory. Not caring if other companies steel their ideas. Not trying to change the world but for some reason they have ended up doing so. KebbeK is the company most sought after brand by first time skateboarders who are planning to go fast instead of planning to skate rails. Why? Who knows... probably because they kick ass and the team riders are as polite and humble as they are talented on wheels. Go ahead and buy someone else's brand, you'll probably come around and get a KebbeK or PM later on. Conceited? Trying not to be, Proud? Certainly. Love skateboarding? This is getting dumb. Just go skate a big hill. kebbeK.com

Koastal is a high-end hardwood complete skateboard. Koastal has a balance of function with a very unique style. Koastal completes are primarily commuter skateboards but with the addition of Fiber-Lam on the bottom, these boards will function for the more aggressive skater who likes to step it up. Whether it's downhill, skatepark or just cruising, Koastal has a style that appeals to the younger crowd and shapes that bring the oldest skater back to the street. koastalboards.com

Launched in 2002 after 2 years of development, Loaded Boards is dedicated to growing skateboarding in all its disciplines. We are stoked on longboarding and believe that the growth of skateboarding (in general) is predicated on developing innovative and creative gear to enhance the riding experience. We build the boards that we want to ride, with an emphasis on performance and functionality as well as minimizing environmental impact.

LittlePaw® Skateboards proudly welcomes Enzo Cautela of Las Vegas, Nevada, Connor Smallwood of Gibsonville, North Carolina and Michael Wu of Elmhurst, New York to the team roster. LittlePaw introduces our new graphics for 2009 — Zodiac. Virgo designs are the inaugural launch, featuring a classic female image as well as an icon image design. In addition, "Year of Monkey" and "M Series" will have additional graphics throughout the year. Find our latest team photos, demos and travel updates at littlepawskateboards.com.

Longboard Living is a lifestyle brand developed in Toronto, Canada to spread the passion for street surfing. It's inspired by the spirit of the Toronto Board Meeting and the NYC Broadway Bomb. LBL is influenced by city traffic, street art and urban diversity, combining Charlie Dunnham's hand cut decks and collaborations with Orbital Arts and Dov Gray. Holding down the East Cost, Longboard Living has linked up with Theseus Williams of Rad Rodz NYC to spread the stoke of the street surfer lifestyle, from Toronto's Bloor & Spadina to New York's 1st St. & 1st Ave. longboardliving@gmail.com

Cosmic Frequency

LBL board

Psychedelic City

Once upon a time in Bend, Oregon, thelongboardstore.com was born. The townspeople whispered of a place teeming with longboards. Travelers flocked to Bend just to catch a glimpse of the fabled custom longboard builders. "Free shipping!" they sang in the streets. Longboarders stole into the night on freshly built completes they had ordered just days before. Captivated with the refreshing and informative site, customers left feeling warm and fuzzy. They spoke confidently of wheel durometers and board shapes while fetching water from the well the next day. Thanks to thelongboardstore.com everybody rode happily ever after. Pictured from left to right: Jon, Scott, Gordon, Grace, and Jennifer

LOTUS Lotus Skate Designs began around the fundamentals of why anyone does the same thing for 20+ years — because it is fun, doesn't cost much and never gets boring. We have combined designs inspired by the original long boards used on the big waves of Hawaii, quality craftsmanship, unique woods, along with an enjoyment of riding a long board no matter what your age. Lotus makes every effort to produce our boards with the environment in mind and resources within the borders of the USA. See and learn more at lotusskatedesigns.com.

Miramar Longboards was conceived in a dorm room in Southern California. Two college roommates would press and paint longboards for friends, and soon they couldn't produce them fast enough to meet the demand. Three years later, Miramar was born out of a shared love for longboarding and the arts. True to its humble beginnings, Miramar is a company of friends and family who are committed to delivering a quality longboard with the best art in the industry. Miramar is dedicated to artistic innovation and integrity while striving to be a refreshing source of creativity in longboarding. miramarlongboards.com

Not all bearings are created equal. NITRO bearings have proven to be among the world's most durable and fastest on the planet. Just ask 4 time Overall World Skateboard Racing Champion Jason Mitchell. He has ridden his NITRO bearings to World Championship titles on 3 continents, and pools, parks, pipes, bowls and schools! The full line of NITRO BEARINGS were designed specifically for skateboarders in mind. Skateboard bearings have to be designed and made to withstand extreme tensional loads caused by high speed directional changes, massive shocks due to hard landings and impacts from gaps or rail stunts, and more. Nitro's come in Abec 3's, 5's, 7's and The High Speed Ceramics for Racing Downhill or High Speed Slalom Racing. Experience the EXPLOSIVE FORCE AND SPEED OF NITRO BEARINGS!! Visit our website at nitrobearings.com for more info or to order now!

NiNjA Bearings don't use the antiquated industrial ABEC ratings, because those ratings are incapable of referencing the superior technical design and performance advantages built into NiNjA Bearings. NiNjA Bearings are specifically designed for skateboarding, providing superior speed, stability, strength and durability during the hardcore stress skateboarding puts your bearings through. NiNjA Z's are for skaters that want "Zero Maintenance" without compromising performance or longevity. NiNjA 9.3's are for skaters wanting speed, strength and durability. NiNjA 9.5's are for advanced or expert skaters. And the Ninja 9.7's are for skaters requiring optimum performance. NiNjA Bearings are now available at fundamentaldistribution.com.

NSI VIDEO

The NSI Video Collection from the 80's re-released on DVD has been deemed "The Encyclopedia of Skate History". These historical documents include Danny Way, Hosoi, Hawk, Bill Danforth and all the pros who pioneered skateboarding with their inspiration and their enthusiasm. The collection is a must for current skaters and for those who actually skated in the 80's. This compilation of footage (all 7 volumes: DUEL at DIABLO, STREETSTYLE in TEMPE, OHIO SKATEOUT, GOTCHA GRIND, SAVANNAH SLAMMA III, AND SQT.V. VOL I & II) captures the feeling of what skating was all about during the infancy of the sport. These historical documents captured the history of the NSA Pro/Am contests throughout the U.S. during the 80's. If you don't offer these DVD's in your store...you are not a real skate shop!! <http://stores.ebay.com/Native-Son-International>

Actual screen shots from Savannah Slamma, 1989.

Never Summer is proud to once again offer premium handcrafted Longboard skateboards built from start to finish in our Denver, Colorado factory. Our exclusive composite materials and construction methods have given our snowboards their undisputed reputation of quality, and our longboards are given that same attention to detail. Each longboard features composite construction, P-Tex tip and tail bumpers, advanced engineering and a 3-year warranty. We'll also continue to provide the best hardware available, as we refuse to cut any corners! With a deck for every type of rider and for all skill levels, NS is sure to have something for everyone. Octane Sport
Octane VIRAGE

The Octane "Virage" trucks come in front and rear (pictured) versions and are CNC'd in the UK. By using standard components for the kingpin and pivot cup, we have been able to add value in other areas. The axle system gives riders the choice of ordering custom 8mm axles with integrated speed ring, in left- and right-handed threads for peace of mind, or they can also

choose to use off-the-shelf bolts to save on cost. The rear truck features a shallow hanger angle for grip and reduces the need for stacks of risers, adding strength and stiffness. The Octane slalom decks are foam and fibreglass, shaped and made by surfers. Pictured is the Hybrid model, 33", concave, multiple wheelbases and tail lift. Clean lines and bright colors make these stand out from the crowd. Different lengths and widths are available. Octanesport.com

OIL CITY SKATEPARK

In its seventh year, Oil City Skatepark in Oceanside, Long Island is New York's only indoor skatepark. It is home to an array of ramps, halfpipes, boxes, stairs

and the 12-ft. vert ramp, "The Big Mother." The park is open seven days a week and has greatly expanded its offerings, including summer camp, weekend lessons and upcoming competitions. In 2008 the park hosted teams from 5Boro, Substance and Bodega and visits from Andy Macdonald and Kerry Getz. Stevie Williams also dropped by. The recently expanded shop has more than 150 decks and a large selection of wheels, trucks and accessories. Oil City is located at 3565 Maple Ct., Oceanside. oilcitysk8.com

Deviant Works Inc. presents the launch of OmniBoard, a line of advanced composite skate decks with performance as stunning as their style. Despite appearances, the interweaving composite rods form a board that is stronger than comparable wooden decks and is also much more durable and wears slower. Kevlar pads protect against razor tail while the unique architecture absorbs vibrations, maintains consistent pop and decreases air resistance. Ride OmniBoard and get higher ollies, faster spin and a smoother, more solid ride. Once you ride OmniBoard you'll never go back. Visit us on the web at rideomni.com to find out more.

OmniBoard

Have you checked out Original lately? New boards, a new website, and alliances with today's most progressive wheel manufactures have yielded literally thousands of customizable options that you can use to build your dream longboard, complete, the way you like it. Online. Today. Add to that Videos (with ride footage) of each and every board we design and Free Shipping on all longboard orders in the United States and Canada and you have a new destination for your next progressive, custom-built longboard complete. We ship to all countries, cheap and quick, so international ordering is always easy. Come see the difference an Original can make to your riding. originalskateboards.com or US(973) 579-1800

PAIN CHEATERS

After destroying countless knee pads, often using two or three together, I decided it was time to design knee pads that would better protect my now old (in skateboard years) knees and to offer my design to others. All skateboarders know the knees suffer the most abuse, especially since falling is part of the process. So, for fourteen years I have been producing PAINCHEATER KNEEPADS. Each pad is individually sewn in Massachusetts, USA; custom fit; has reinforced top straps; tripled-stitched seams; high quality (practically indestructible) Caps over Sorbothane Gel for better protection. More information: paincheaters.com Ordering: Please call (978) 657-7746.

Plank Skateboards is a small owner-operated company started in San Francisco, California. Old-school craftsmanship from the '70s is used to create beautiful and unique three-layered hardwood skateboards with a superior ride. Each deck is an individual work of art, designed and hand shaped in small batches from exotic and domestic hardwoods, all in their beautiful natural colors – no dyes or stains! Sizes include 48", 36" and 24" decks. Look out for our upcoming release of the new Classic Kick-tail. You've looked at the rest, now it's time for the best. It's Time to Walk the Plank. plankskateboards.com

Pleasure Tool Bearings offer standard 608 steel and ceramic bearings both in shielded and the most popular sealed version. Pleasure Tool bearings have been popular with professional skateboard racers and we sponsor many of them. Bearings are lubricated with long lasting synthetic lubrication. Pleasure Tool bearings have the reputation for long lasting, smooth running performance. Pleasure Tool also offers complete bearing cleaning kits, lubrication, tools, custom stickers and a website that provides instruction on the bearing cleaning process. We currently offer our products wholesale with optional custom packaging for shops and skateboard manufacturers. 360 921-2465 edsbearings.com

Pocket Pistols Skates is blazing into 2009 with an arsenal of killer new graphics and shapes unlike any other company out there. Pocket Pistols Skates has a unique lineup including legendary skaters like Ben Schroeder, Lee Ralph, Rick Blackhart, Tom Groholski, Claus Grabke and Remy Stratton as well as some of skateboarding's more interesting personalities such as Jake Phelps, Don Brown, Chuck Treece, Matt French and a handful of up-and-coming underground rippers that are always down to live fast and skate faster. For videos, photos, news and team info check out pocketpistolsskates.com. Shops can order at fundamentaldistribution.com.

Poolside Skateboards, based in Scappoose, Oregon USA is rolling into seven-plus years of producing the highest quality handmade pool decks available. Please note these boards are not mass-produced somewhere else and shipped to Poolside finished in shrink-wrap. Instead the boards are handcrafted in house with many features you won't find elsewhere, including real silk-screened graphics. Nine-ply Poolside Skaterods feature a honeycomb design inner chamber with an integrated rail system. Woven carbon fiber is utilized in the top sheet of the deck along with a metal reinforcement system to keep your hardware from starting premature deck breakdown. Finally, a poured resin nose/tail cap is included, helping keep wear and tear to a minimum. poolsideskateboards.com

Powell Skateboards will be releasing their first video in nine years this April. The video is titled FUN! It will have new young riders and an all-new team. New graphics, new team, new video, new FUN! and a new deck technology, LIGAMENT. The team says LIGAMENT adds confidence, has more pop and is stiffer and stronger. Check all of this out at powellskateboards.com.

POWELL PERALTA The Next Chapter: George Powell, the Godfather of skateboard manufacturing, and Stacy Peralta, skateboarding legend/film producer, have joined forces once again. Proudly satisfying the needs of skaters and skateboard collectors all over the world, Powell Peralta is re-issuing some of the most popular and classic skateboards of all time, along with wheels, soft goods and many more must-have collectibles. New for Spring: Stacy Peralta Hipster deck and Steve Caballero Happy Skull — the decks they are riding currently. powell-peralta.com

Pressure Drop Longboards is a grass roots, skater owned company dedicated to producing and offering top quality, functional longboards. We are excited about the expansion of our line up in 2008, which will include a downhill drop through deck and a giant slalom deck. The addition of these designs will bring our full line of decks to six in Spring '08, with three hardwood decks and three plywood/formica decks. PDL is committed to spreading the stoke by supporting skateboard racing and culture. We look forward to serving the skateboard community in the future. Rollin' since '05. pressuredroplongboards.com

The 2009 Pro-tec skateboard line features helmets and pads ridden by the world's top riders, including Bob Burnquist, Bucky Lasek, Omar Hassan, Lincoln Ueda, Brian Patch and skate legends Christian Hosoi and Steve Caballero. Pro-tec's patented SXP multiple-impact technology allows for unprecedented protection because the material has memory. SXP has built-in rebound control, with the foam regaining its original shape and maintaining its impact-absorbing qualities. SXP can be found in our B2, a classically styled helmet, as well as our popular Ace skate helmets. Pro-tec also offers a line of pads perfect for street, park or ramp, including the Drop-In and Double Down designed with Pro-tec team riders. pro-tec.net

Performance SK8 is a skateboard technology provider for skateboard brands and core retailers. We believe the biggest problem facing skateboarding is not blank or shop decks but the fact that standard decks wear out too quickly. Skateboarding is a lifestyle, P-Sk8 believes the best way to promote the skateboarding lifestyle is to produce products that keep kids stoked on skateboarding. P-Tip decks have more pop and they don't chip, when the tips are worn you can replace them. If you are a brand or a core retailer and you want to join the dozens of other companies that market their own P-Tip equipped decks contact us. performancesk8.com

Rainskates has been making custom old school decks for nearly six years, from the beginning of the "Old School revival", when only N.O.S. decks were around. Hundreds of decks later, we are still putting out original shapes on a variety of concaves, filling in the blanks where the re-issues have not yet gone. The Rainskates wheel line continues to grow and gain fans around the world, as word of the superior performance spreads. The 10th RS wheel, the 65mm/101a "Avalanche" has just been released. Look for them blazing around a Bowl near you, or sliding through a hairpin under a longboard. 907-617-2627 or rainskates.com

RocknRon's ROCKETS

SKATEBOARD BEARINGS

RocknRon Rockets makes the fastest skateboard bearings in the world. Five years ago, RocknRon Foster thought skaters needed a faster, better bearing. With 27 years as a bearing application and design professional, it was time a bearing pro stepped into the skateboarding world. Ron took his love for skateboarding and designed a better skateboard bearing. RocknRon's Rockets are not made in China and they exist to put to shame the ABEC fraud that resides in the skateboard industry. They are still building and testing bearing application theories daily and have added their Black Hole Wheel line. RocknRon's Rockets will be the fastest bearings and the best bearing value in your store and in skaters' wheels. skatetechnology.com

ROAROCKET SHATEBOARD COMPANY

Roarocket stocks Canadian maple veneer, foam for molds and Thin Air Press technology to laminate your own custom design. Complete kits come with pre-shaped Street Deck or pintail Long Board Decks, while the ProBuilder Kits have uncut material plus oversize vacuum bags for you to finally build the deck you've always wanted to make. The website has many online tutorials including Ted Hunter's brilliant idea to use rigid foam as a mold. The technology is simple but effective. Excellent for street decks to composite creations, for individuals and groups — it works. roarocket.com

RoeRacing Slalom Skateboards

roeslalom.com

High-performance skateboards for world champions, world record holders and you! Since early 2001, RoeRacing has been building high-performance skateboards for slalom racing. Although our heritage is firmly planted in the slalom racing realm, due to overwhelming demand we are now also building longboards. By building each and every board using a combination of CNC machining and the hand-crafted finishing process that RoeRacing has become known for, we have been able to increase our production and distribution capabilities significantly for 2009. RoeRacing uses the highest-quality aerospace carbon fiber composite materials, our own engineered cores and a specially formulated epoxy resin in every one of our decks. roeslalom.com

Roger skateboards is not the biggest skateboard company but it might be just be the worst. Founded by Stacy Lowery and Michael Sieben in the Summer of 2008, Roger has quickly become one of the least relevant skateboarding companies in the entire industry. Roger will most likely be out of business by the time this buyer's guide is printed but in the off chance that we are still around we'll continue to adhere to our commitment of barely trying. Party on. rogerskateboards.com

sasquatch wheels

Hello Concrete Wave readers, it's me Sasquatch! I don't normally do interviews, but I made an exception for Concrete Wave. Let me share with you some truths about the Sasquatch. It is my opinion that there is nothing on this earth tastier than a deep-fried penguin. Believe it or not, but Sean Connery based his accent on my voice. I understand that humans love to pop bubble wrap; I like to do the same thing, but with human heads. For the hip, young, budget conscious person on the go—Sasquatch is a fine choice. sasquatch-wheels.com

Here at Sector 9 we've gone underground. All we do is survive on past successes and bounce around internet chat-rooms planning and scheming unlimited subterfuge on other skate companies. Actual skateboarding is a thing of the past; um, not likely. In reality we've been working hard at broadening our manufacturing expertise (which takes place in San Diego, CA. USA) to make higher quality original skateboards and delving deeper into the chemistry books in the quest for better wheels. Helping to bring these things together in harmony is our thoroughly committed skate team which you can share a sesh or a ride with at many a grass roots event or secret pool (well lets not blow out the secret pools). So opt out of that forum and hop on a skateboard. (one of ours would be cool) sector9.com or 858-408-0083

Seismic Skate Systems is a 16-year-old company based in Boulder, Colorado. We design and manufacture high-performance trucks, wheels, decks and completes for carving, cruising, racing and beyond. Our patented spring-loaded truck technology brings advanced control and superior rebound with precise turning response. Seismic Black Ops urethane offers more grip and rebound together, with less rolling resistance, than any other formula in the history of skateboarding. Industry-leading core technology makes our larger wheels astoundingly lightweight, with super-charged inside edge rebound. Our classic yet progressive board shapes feature cutting-edge materials and construction, with completes expertly tuned for superb carving performance right off the shelf. Seismic is also the world's primary source for regulation slalom cones. seismicskate.com

SHUT Skates from NYC - To know it is to love it. To not know it leads one to learn about it. This iconic company was home grown by a group of hungry teens in 1986 with the desire to provide for their need of functional skateboards. The perception of how one starts a skateboard company was changed forever when SHUT first made its mark on the world and took the industry by storm. With their new flagship store in New York City's historical Lower East Side, SHUT continues to support the growth of NYC skateboarding. Stop by and see us sometime at 158 Orchard Street! SHUT skateboards are proudly made in the U.S.A. shutnyc.com

sKoSh SkaTeBoaRdS were made specifically to take a BIG beating from smaller, younger, lighter rippers. The term "SKOSH" means "A little Bit" so naturally, these high performance decks are made just for them!! SKOSH SKATES come in three (3) different sizes with different wheel bases; 1) The "Skosh Script" is our smallest deck at 6.75x26.75". The "Grin Reaper" measures 7x28.5" and has the same 12" wheel base as the Skosh Script. The "Skosh Royal" is the largest deck at 7.5x31" with a 14" wheel base. Made of 100% Canadian Hardrock Maple with superior glue, these decks may be small- But they GO BIG! Visit our website at skoshboards.com

Back in 2000, veteran Professional Skateboarder Lynn Cooper compiled years of his personal Skateboarding archives and produced his first video depicting legendary moments in Skateboarding History and released "Wheelin' in the Years". Lynn surprised everyone and decided to continue promoting all forms of Skateboarding History to the world, thus Skatelegends.com was born! Seven years later, Lynn has now produced four major movie releases and has provided historical footage and photography to many familiar movies, games, television programs, magazines and books. Skatelegends.com now has its own Skateboard product lines, Clothing, Distribution offerings and an awesome Pro/Am Skateboard demo and coaching team! Check out the SkateShop for articles, new movie productions and products often! skatelegends.com

SLINGZ is a unique, hands-free skateboard strap for skaters who face the universal problem... Whether it's a dirt field, walls, or the occasional in-shape security dude, we sometimes gotta pick up and go. "I like to think of it as a guitar strap for my skateboard!" says Dave "HACKMAN" Hackett. SLINGZ hit Action Sports Retailer (ASR) hard and created quite an undeniable buzz. It gathered a national/international crowd of shop owners and distributors, proving its worthiness amongst skaters across the globe. SLINGZ retails for \$9.95. Available in Black, Camo and Pink. Sold at skate shops and at slingzstore.com.

SMA this year has come up with a new line of limited, custom production decks. Each deck is hand stained and no two are the same. It's our belief that since skating is a personal moment, your deck should be yours alone. Also, I got tired of people biting my work. So game on. We will have guys with models come in to do their own take on the process, so a Bennett will be a Bennett; a Ngoho will be done by Pat, etc. Also I will push forward with our full line of composite decks. Like always, we try to do our best. smaskateboards.com

Slip Tape is a light-weight engineered polymer sheet that is 6X more abrasive resistant than steel. It acts like another laminate layer, drastically increasing the performance of your board. Slip Tape gives a consistent smooth slide that feels like a new deck that the paint just won't wear off. Slip Tape protects the bottom layer of wood from being cut. This prevents the board from losing response and preserves the strength for the life of the deck! Yatzy Spray Wax is regular paraffin skate wax put in a can! Spray it on instead of rubbing it on! Also amazing on snowboards – like hot wax in a can! Check out sliptape.net or call (888) 203-0011.

Speed-dealer Distribution – a worldwide distributor – is a skater-owned and operated company based in Calgary, Canada. Bennett Truks, Alligator wheels, Speed Lab Shiftfire wheels, RocknRon's Rockets bearings and Skate Technology Ballistech Missiles bearings, Old Man Army bags, Shivs and Shanks rails and Speed Shop precision skate products are our primary focus. Our retail arm, www.speed-dealer.ca, offers much the same product lines as its parent company but with the aim of serving skaters worldwide who do not have access to our lines via their local shops. At Speed-dealer, our credo is: If we don't rock it, we don't stock it! speed-dealer.ca

Soul ryde

New to the Soul Ryde line up this season, is the addition of these tricked out ply decks. While still offering the hardwood series, Soul

Ryde is now offering three different "ply" decks (only 2 shown below), to fill demand for a more versatile ride. In true Soul Ryde style, these ply decks are far from ordinary. Instead of using heat transfers or screen-printing for the graphics, they use different colored woods and inlay them all together to make one seamless image. Their signature laser etched graphics are then applied to finish off these truly unique rides. For more info or to customize your own ride, visit us at soulryde.com.

Stoked Skateboards is all about spreading the stoke of skateboarding.

Beginning with the support of Loaded Boards, Stoked thrives with great customer service, excellent products and the need to spread the stoked of boarding to as many people as possible. The Stoked Skate Team (also known as SST), an innovative new way to spread the love of boarding, was made just for this purpose and causes the sport to prosper by reaching out to more and more new skaters. Stoked is among the most recognized in specialty skate shops and appeals to customers through innovation and customization. Spread the Stoked! and check us out at stokedskateboards.com.

At Street Swell Inc. we are making exotic hardwood longboards for the rider that does not want to be just one in a crowd. Each board is meticulously crafted using beautiful, hand-selected hardwoods. A fiberglass top with integrated grip ensures years of pleasure without the risk of cracks. Choose from three shapes in six different wood configurations. If you are looking for something totally unique, look into our "one of a kind" custom boards. All of our boards are as much a pleasure to ride as look at. Don't be part of the masses; check us out at streetswell.com.

Founded in 2003 our goal was to create an online company with a proper live inventory and a passion for upfront, personal customer service. Our passion for skateboarding has led us to carry the most extensive, unique line up of products available in the industry. As the years passed more great companies with the same goals have emerged and set a strong foundation for the future of skateboarding. We are proud to be a part of this online community and to share space on these pages. StrangeHouse is skater owned/operated. Online at strange-house.net or call Frank at 703.869.2499.

surfRodz

Surf-Rodz is a U.S.-based company specializing in the design and manufacture of custom longboards and snowboards. Our durable, one-of-a-kind decks are hand- and machine-crafted from a variety of materials, but chiefly from natural woods such as organically grown teak, bamboo and birch. Our emphasis on collaboration and product integration allows us to work with individuals and companies who share our passion in not producing more products than the industry or the consumer needs. The Surf-Rodz deck offers riders a high-quality platform to which they can add their own choice of components for their riding pleasure. surf-rodz.com or call 203.530.2668

Indaba Distribution was first established as the vehicle to circulate Concrete Wave magazine. We choose the name Indaba because in the Zulu language the word Indaba means "a place where people with like minds get together to solve problems." Today Indaba not only distributes thousands of copies of Concrete Wave; we also offer many of the unique and well-designed brands featured in the pages of Concrete Wave. Bennett Truks, Alligator wheels, Tunnel products, 187 Safety equipment, S-one helmets, Pool King skateboards and many other brands can all be found at Indaba Distribution. If you own a shop, we welcome you to our "indaba" and would be happy to help grow your business with the brands we offer. From Boston to Berlin, Portland to Paris, we ship worldwide and offer every client outstanding service, backed with knowledge of product and more than 30 years of skateboarding experience. Call (760) 722-4111 or contact indabadist@yahoo.com.

Thank you! Edwin and I (Mark) want to pass on our sincerest "Thank You" for supporting Texas Longboards! You came to us from far-away places like Thailand, Belgium, Germany, England, Argentina, Australia and across the U.S.A. You gave us your opinions, shared your stories and helped us make decisions. Our philosophy is simple: we ride, sponsor events, watch your sessions as fans and talk to you. From these experiences we decide what to add to our growing list of the greatest longboard products on the planet. Thanks to our partners in business and to Concrete Wave. You rock! texaslongboards.com

TimeShip Racing designs and sells the most progressive safety gear for freeriding and racing. Tracer Slide Gloves are heavily armored with knuckle protection, fireproof Kevlar thumbs and rotatable pucks for palms and fingers. They are the Racer's Choice! New Pyro Pucks throw sparks! TSR Helmets are DOT-rated G-Max helmets fitted with a custom Lexan face shield, sizes Youth - XXL. TSR Pressure Suits offer fully armored protection for your arms, shoulders and spine and can be worn with or without leathers. TimeShip's Skate School is in Santa Fe, N.M. Check timeshipracing.com for upcoming Race Camps, or call (505)-474-0074.

Triple Eight is one of the fastest-growing action sports companies in the industry. Since 1995, Triple Eight has been developing the best protective gear for skate and snow sports. Professional athletes such as Anthony Furlong, Neal Hendrix, Elliot Sloan, Adam Taylor and Mitchie Brusco choose Triple Eight for all of their protective gear needs. The Sweatsaver liner helmet is made of a high-tech, highly absorbent terry cloth fabric that's fully wrapped around its foam insert to keep the sweat from dripping down into your eyes. Triple Eight Sliders are the newest edition to their innovative line of protective gear. These longboard slide gloves are a full top grain leather glove with tear-resistant Kevlar fingertips. We are proud to have Team Earthwing riding for us and using our Sliders! triple8.com

Since 1988, TSG has produced original helmets and pads for skateboarders. Technical Safety Gear designed by riders is what drives the company and brings new gear in 2008. The Evolution helmet with its low and snug fit, anatomically shaped all-around the head, comes with great new graphics. Our Superlight helmet with only 10.5oz is the lightest skate helmet on the market. A large collection of strong knee- and elbowpads offer the right choice for all terrains and levels. Color them up with our new graphic recaps! We have enlarged our skate glove collection for mega ramp enthusiasts. Check the whole collection at www.ridetsg.com.

Founded in 1975, Tunnel continues to build on its reputation with innovative, high-performance skateboard products. The new Tunnel STR (Speed Through Research) Tarantula wheels feature a racing urethane and brand new is the Tunnel "Comp" longboard. Based on an original Tunnel design, it has camber, concave and composite construction and rides as fast as it looks. We haven't forgotten our roots, either, and have a great line of cruisers such as the Marshall Coben, the '70s Retro and the hand-made Waldo Cloud. And the Tunnel Rocks rock! tunnelskateboards.com

VENOM BUSHINGS

ColorADO skater Zak Maytum started Venom Bushings in early 2008. Since then, Venom has stepped it up in a big way to bring you the highest-performance bushings available.

Bushing packs are available in four configurations: Downhill Pack, Super Carve Pack, Standard Pack and the New Eliminator Pack! With six durometers and off-the-chart rebound and stability, Venom Bushings were landed on countless podiums in both downhill and slalom racing in 2008. They can be found under the feet of just about anyone who wants their board to feel right. We're taking over the world – one kingpin at a time. venombushings.com

Woody's Halfpipe is your source for everything skateboarding — Longboards, Pool Decks, Street Boards, Slalom gear and Freestyle Decks and many hard to find skateboard items are all here in our Norcross, GA store. Located in a suburb of Atlanta, Woody's Halfpipe boardshop offers you a real store with real people and real service — we invite you to visit us. Open 7 days a week and conveniently located near Pickneyville and Brook Run Skatepark; Woodys Halfpipe has what you need to skateboard. Since this site is the work of a small number of hard working people, some items we carry are not on the site, so call us at 770-416-1475 and we might just have the hard to find skateboard item you need.

The legendary Zorlac skateboards is experiencing a resurgence. Zorlac, founded in Dallas, Texas in 1976 and originator of the iconic skate phrase "SHUT UP AND SKATE," is offering a complete range of products including T-shirts, stickers and reissue series boards. The reissue series are true to the original graphics, shape, concave and colors. Zorlac board graphics use the original art film whenever possible and feature the lost art of hand silk-screening. Zorlac also offers current street, pool and ramp boards. The complete Zorlac product range can be found by visiting zorlacsksates.com.

SKULLANDBONESKATEBOARDS.COM

Skullandboneskateboards.com was created in 2001 and has grown into one of the largest skateboard communities on the net with an ever-growing roster of 7,326 members. While the site was initially focused on collecting and skateboard history, it has grown to encompass all facets of skateboarding insofar as disciplines, equipment and all aspects of skateboard subcultures. We talk a lot about skateboarding when we're not out there skating. The latest industry news (releases and insider), hot discussions, the raddest skateboard collections you've ever seen, more skate luminaries than you can shake a stick at, list of people to watch out for on eBay, buying, trading, session hook-ups, session reports, rad skate pics and video – it's all here at S&B. skullandboneskateboards.com/forums/
