**Agreed-upon Procedures Report
San Diego Gas & Electric Company
Southern California Gas Company
*Year ended December 31, 2011***

Report of Independent Accountants

**To the Board of Directors of
San Diego Gas & Electric Company
Southern California Gas Company
San Diego, CA 92101**

We have performed the procedures enumerated below, which were agreed to by management of San Diego Gas & Electric Company (SDG&E) and Southern California Gas Company (SoCalGas) (collectively the "Companies"), solely to assist you in evaluating the Companies' executive compensation disclosures as required by subsections (a) and (c) of the California Public Utilities Commission's General Order No. 77-M. Management is responsible for the Companies' compliance with those requirements. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in the report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures we performed are not intended to address legal issues as to whether an item is required to be disclosed nor are they designed to address compensation disclosures required by General Order No. 77-M that are not presented in the Companies' Executive Officers and Employees with a Base Salary of \$250,000 or More Per Annum and Executive Officers of the Utility's Holding Company Summary of Compensation Table, 2011 Options Exercised and Stock Vested Table, 2011 Change in Pension Value and Above-Market Interest Table, or 2011 All Other Compensation Table.

For purposes of performing these agreed-upon procedures, no exceptions were reported for differences of \$1,000 or less resulting solely from the rounding of amounts disclosed.

The following procedures have been performed in relation to the Companies' Executive Officers and Employees with a Base Salary of \$250,000 or More Per Annum and Executive Officers of the Utility's Holding Company. No exception was found as a result of applying the procedures.

I. Summary of Compensation

The table above provides a breakdown of the amounts included in All Other Compensation. Southern California Gas Company
Narrative Statement Describing Compensation Elements
For the Year Ended December 31, 2011

This narrative statement and the amounts reported herein generally follow the presentation included in the Sempra Energy proxy statement and Southern California Gas Company and San Diego Gas & Electric information statements prepared for their annual meetings of shareholders to be held on June 13, 2012 and June 7, 2012 respectively. In instances where amounts shown in this report differ from the proxy statement and information statement presentation, footnotes outlining the differences are provided.

1. Base Salaries

The executive compensation programs of Southern California Gas Company, San Diego Gas & Electric and Sempra Energy emphasize performance-based annual bonuses and equity-based long term incentive awards. However, base salaries remain a necessary and standard part of compensation for attracting and retaining outstanding employees at all levels.

Base salaries for executive officers are targeted at the median of those for the Fortune 500 companies with revenues between \$5 billion and \$15 billion ("general industry peer group"). Using national general industry comparisons helps attract and retain top-quality executive talent from a broad range of backgrounds.

Base salaries for executive officers are reviewed annually and the following factors are considered:

- Approximate mid-range of general industry peer group salary data
- Individual contribution and performance
- Labor market conditions
- Reporting relationships
- Company performance
- Retention needs
- Experience
- Complexity and importance of roles and responsibilities
- Succession planning
- Internal equity

2. Performance-Based Annual Bonuses

Each year, performance guidelines are established for annual bonuses. Consistent with the pay-for-performance philosophy, the guidelines do not provide for any bonus payment unless the threshold (minimum) performance level is attained. Bonus opportunities increase for performance above the threshold level. Performance at target is intended to result in bonuses at the mid-point of those for executives with comparable levels of responsibility at general industry peer group companies.

Potential bonuses at threshold, target and maximum company performance are expressed as a percentage of each executive officer's base salary. The target bonus potentials and percentages are consistent with the leverage typically found in bonus plans within general industry. Bonus payouts at maximum are intended to approximate the 75th percentile of bonus payouts among peer companies. Extraordinary company or individual performance may result in the payment of bonuses above the guidelines.

For a detailed description of individual bonus opportunities, performance measures and 2011 results, please refer to pages 39-41 of the Sempra Energy proxy statement, pages 13-15 of the SoCalGas information statement, and pages 13-14 of the SDG&E information statement.

3. Long Term Equity-Based Incentives

Long term equity-based incentives are the largest single component of each executive officer's compensation package. In 2011, the entire was in the form of performance-based Sempra Energy restricted stock units.

For the Year Ended December 31, 2011**

This award structure was determined after considering many variables. These included alignment with shareholder interests, plan expense, share usage and market trends.

The estimated grant date fair values of awards to executive officers have generally been between the median and the 75th percentile of market data.

Performance-based restricted stock units:

Each performance-based restricted stock unit represents the right to receive between zero and 1.5 shares of Sempra Energy common stock based on the company's four-year cumulative total shareholder return compared to the S&P Utilities Index as shown below:

If Sempra Energy's performance ranks at the 50th percentile or higher compared to the S&P 500 index, participants will receive a minimum of 1.0 shares for each restricted stock unit. If performance exceeds the 50th percentile of the S&P 500 Utilities index

Four Year Cumulative Total Shareholder Return Percentile Ranking	Number of Shares of Sempra Energy Common Stock Received For Each Restricted Stock Unit	
	Performance vs. S&P 500 Index*	Performance vs. S&P 500 Utilities Index
75th Percentile or Above	Not used for upside potential	1.5
50th Percentile	1.0	1.0
35th Percentile or Below	Not used for downside potential	0.0

Sempra Energy's relative total shareholder return from 2007 to 2010 met the 54th percentile of the S&P 500 Index and the 45th percentile of the S&P 500 Utilities Index. As a result, all of the performance-based restricted stock for the 2007-2010 Long Term Incentive Plan cycle was released to plan participants after the committee certified performance results.

Sempra Energy's performance was at the 41st percentile compared to the S&P 500 Utilities Index. Thus, participants did not realize any of the "upside" potential upon vesting of this award.

Benefit Plans

Executive officers also participate in other benefit programs including: 1) Health, Life Insurance and Disability Plans; 2) Retirement Plans; 3) Savings and Deferred Compensation Plans; and 4) Other Benefit Programs.

1. Health, Life Insurance and Disability Plans

Executive officers participate in life, disability, medical and dental insurance group plans that are available to virtually all employees. These are common benefits essential to attracting a high-quality workforce.

In addition to the basic group plans, certain executive officers also participate in the following:

- A Medical Insurance Plan providing up to \$20,000 (the annual aggregate maximum) in additional coverage for medically necessary care for the officer or covered dependents.
- A Life Insurance Plan providing additional life insurance death benefits (two times base salary and bonus for active employees and one times base salary and bonus for retired employees).

**Southern California Gas Company
Narrative Statement Describing Compensation Elements
For the Year Ended December 31, 2011**

- A Long Term Disability Plan providing additional protection upon disability (60% of base salary and average bonus) and restoring benefits otherwise capped under the company's basic Long Term Disability Plan.

When executive officers retire, they continue to participate in the health insurance plans generally provided to virtually all employees.

2. Retirement Plans

Executive officers participate in the Cash Balance and many participate in a Supplemental Executive Retirement Plan (SERP).

The Cash Balance Plan is a tax-qualified pension plan available to most employees. Executive officers who are not SERP participants also participate with numerous other employees in a Cash Balance Restoration Plan. This plan restores the benefits that would have been payable under the Cash Balance Plan but for Internal Revenue Code limitations on tax-qualified plans.

The Supplemental Executive Retirement Plan provides executive officers with retirement benefits based on the executive's final average pay, years of service, and age at retirement. SERP benefits are reduced by benefits payable under the broad-based Cash Balance Plan.

Each plan uses only base salary and annual incentive bonuses in calculating benefits. The value of long term incentive awards is not included.

Retirement, savings and deferred compensation plans, in general, and the SERP in particular, are important elements of an overall compensation package. This package is designed to recruit and retain executive talent, especially mid-career executives, and to retain longer term executive participants. Supplemental retirement plans, together with savings and deferred compensation plans, are prevalent benefits within Fortune 500 companies.

3. Savings and Deferred Compensation Plans

Executive officers, together with most other employees, also participate in a broad-based, tax-qualified 401(k) Savings Plan.

Employees may contribute a portion of their pay to the plan for investment on a tax-deferred basis. The companies match one-half of the first 6% of the employee's contributions. They also make an additional contribution of up to 1% of base pay if Sempra Energy meets or exceeds annual earnings targets. The Internal Revenue Code limits the amount of compensation eligible for deferral under tax-qualified plans.

Executive officers also may defer up to 85% of their base salary and bonus under a Deferred Compensation Plan. These deferrals may be directed into funds that mirror the investments available under the 401(k) Savings Plans, including a Sempra Energy phantom stock account, or into a fund providing interest at the greater of 110% of the Moody's Corporate Bond Yield or Moody's plus 1%. Deferred compensation plan participants receive company matching contributions that would have been provided under the 401(k) Savings Plan, but for maximum dollar limitations on amounts that may be deferred under tax-qualified plans.

All employee contributions, matching company contributions, and investment earnings in both the 401(k) Savings Plan and the deferred compensation plan vest immediately.

4. Other Executive Benefits Programs

Other typical benefits are provided to executive officers. The level and types of these benefits are reviewed each year to ensure that they are reasonable and important in attracting and retaining executive talent. These benefits include financial planning services and excess personal liability insurance.

5. Regular Employee Benefits

The SEC's proxy rules, for the most part, do not require reporting of broad-based employee benefit plans such as those providing medical, dental, life or disability coverage. However, amounts related to broad-based pension benefits and the 401(k) savings plan are discussed in the Compensation Discussion and Analysis and reported in the executive compensation tables.

The companies' flexible benefits plan allows employees to select the types and levels of benefits that best meet their needs and those of their families. Benefit options include:

- Medical plans (choice of three HMO's, a point-of-service plan, and an indemnity plan)
- Dental plans (choice of Delta Dental plan and dental HMO)
- Long-term disability coverage
- Life insurance
- Accident insurance
- Healthcare, Dependent day care and Transportation flexible spending accounts
- Vacation buy and Vacation sell

Each benefit option has a price tag reflecting the employee's cost for coverage. The amounts shown in the Regular Benefits column of the All Other Compensation table in this report reflect the portion of the benefit costs paid by the companies.

In addition to the flexible benefit plan, the companies also provide short-term counseling and referral services under the employee assistance plans and various wellness programs.
