Missouri Voting and Elections

Who registers to vote in Missouri?

Citizens of the U.S. living in Missouri must register in order to vote. Any U.S. citizen 17 years and 6 months of age or older, if a Missouri resident, may register and may vote after reaching age 18 except:

- A person who is adjudged incapacitated.

Those who may be eligible to register, but are not eligible to vote are:

- A person who is confined under sentence of imprisonment.
- A person who is on probation or parole after conviction of a felony until finally discharged.
- A person who has been convicted of a felony or misdemeanor connected with the right of suffrage. (RSMo 115.133, 115.135)

How do Missourians register?

Qualified citizens may register in person at the office of their local election authority, by mail, at the driver's license fee office, participating state agencies and other public locations. Registration in person is accomplished by filling out registration forms with information on identity, residence, and qualifications, which are signed and sworn to, then witnessed by the election authority or a designee. The voter must present appropriate identification such as a birth certificate, a Native American tribal document, other proof of United States citizenship, a valid Missouri driver's license, or other form of personal identification. (RSMo 115.151, 115.155, 115.159, 115.160, 115.161, 115.162)

Registration by mail, at the driver's license fee office, or at the participating state agencies requires submission of an application with information on identity, residence, and qualifications, which are signed and sworn to. If mailed, this form must be postmarked by the fourth Wednesday preceding an election for the voter to be eligible to vote in that election. The voter must include a **copy** of appropriate identification (see above). If the voter does not submit such information, the voter will be required to vote in person, after presenting additional identification, for the first time. The election authority must send a

verification of acceptance or rejection of registration within seven working days. (RSMo 115.155, 115.160, 115.162)

When and where do Missourians register?

An unregistered citizen may register to vote in person during local election officials' regular business hours, when renewing a Missouri driver's license or receiving services from a participating state agency, or by mailing the local election authority. Special registration sites may be available prior to major elections. (RSMo 115.145, 115.151)

The deadline for registration is the fourth Wednesday prior to an election. (RSMo 115.135)

When do Missourians vote?

In general, the statutes require that public elections be held on the general election day, the primary election day, the general municipal election day, the first Tuesday after the first Monday in February or November, or on another day expressly provided by city or county charter, the first Tuesday after the first Monday in June and in nonprimary years on the first Tuesday after the first Monday in August. (RSMo 115.123.1)

The general election day is the first Tuesday after the first Monday in November in even-numbered years. The primary election day is the first Tuesday after the first Monday in August in even-numbered years. (RSMo 115.121 (1 & 2))

Elections for cities, towns, villages, school boards and special district officers are held the first Tuesday after the first Monday in April each year, known as general municipal election day. (RSMo 115.121.3)

A statewide presidential preference primary is held on the first Tuesday after the first Monday in February of each presidential election year. (RSMo 115.755)

Elections may be held on other Tuesdays for bond elections necessitated by fire, vandalism, or natural disaster, where ownership of real property is required by law for voting, and for special elections to fill vacancies. (RSMo 115.123.2)

Who conducts registration and elections?

Voter registration and the conduct of elections are the responsibilities of Missouri's 116 local election authorities (election boards and county clerks). Boards of election commissioners administer elections in the counties of Clay, Jackson, Platte and St. Louis, and in the cities of Kansas City and St. Louis. The county clerk serves as the election authority in all other counties of the state. In 2005, legislation was passed giving Cass County the option of setting up a board of election commissioners. (RSMo 115.015, 115.017)

Special voting provisions

Voters with disabilities and voters who are unable to vote because of absence or illness may vote absentee. Persons with permanent disabilities may apply for permanent absentee ballot status by applying with the local election authority (RSMo 115.284). Voters with disabilities may vote their ballots from their vehicles at curbside, or they may be reassigned to a more accessible polling place. Voters should contact local election officials about absentee federal service balloting or "new resident" absentee ballots.

When voting, Missourians must show an approved form of personal identification (RSMo 115.427). Approved identification includes:

1. Identification issued by the state of Missouri, an agency of the state, or a local election authority of the state;
2. Identification issued by the United States government or agency thereof;
3. Identification issued by an institution of higher education, including a university, college, vocational, or technical school, located within the state of Missouri;
4. A copy of a current utility bill, bank statement, paycheck, government check, or other government document that contains the name and address of the voter;
5. Driver's license or state identification card issued by another state.

If you do not possess any of these forms of identification, you may still cast a ballot if two supervising election judges, one from each major political party, attest they know you.

Elections and political parties

Missourians do not register under party affiliation. Hence, at primary elections, voters may choose which "established party" ballot they vote (RSMo 115.397). Party nominees—and independent candidates—are then listed on the general election ballot.

There are presently four "established political parties" statewide—the Democratic, Republican, Libertarian, and Constitution parties. Persons may seek the nomination of these parties for any elective office from the county level and above. In order to become "established," a party must have received more than two percent of the votes cast statewide for at least one of its candidates. New

parties are formed by petition and may exist on the county, district or state level. They must meet the same standard as any other party to remain established (RSMo 115.317).

At the time of primary elections, voters select county committee members of established parties in Missouri. Those committee people have certain duties and responsibilities. They serve, as appropriate, as members of legislative, senatorial, judicial, and congressional district committees (RSMo 115.609, 115.613, 115.619). County, district, or state committee members may be called on to fill candidate vacancies on party ballots or to select nominees for special elections as needed. The state committees are selected, indirectly, by local committee persons.

Poll Workers in Missouri

Missouri's local election authorities are charged with staffing their polling places on Election Day. There are certain qualifications one must have in order to work at the polls – you must be a registered voter; you must be able to speak, read, and write English; you must not have a close relative that appears on the current ballot; and you must not hold elective office at the time of service. Poll workers are compensated for their service on Election Day and are required to attend at least one training prior to Election Day for which they are compensated as well.

Over 20,000 poll workers are needed across Missouri to conduct a statewide election. As federal legislation implemented new changes to the nation's polling places, the Secretary of State's Office implemented a first-ever statewide recruitment effort to enlist new volunteers to work at the polls. Through partnerships with businesses, universities, and civic organizations across the state, the Secretary of State's Office has directed more than 5,000 volunteers to local election authorities to work at the polls on Election Day.

Poll workers are truly on the front lines of democracy. Their work is critical to protecting the integrity of our elections and ensuring that the voting process is fair and accurate. Individuals that are interested in signing up to be a poll worker or would like more information are encouraged to visit the Secretary of State's website at www.sos.mo.gov/pollworker or contact their local election authority. (RSMo 115.079, 115.085, 115.101, 115.103)

Constitutional Amendment 1

[Proposed by the 94th General Assembly (First Regular Session) HJR 7]

Shall the Missouri Constitution be amended to add a statement that English shall be the language of all governmental meetings at which any public business is discussed, decided, or public policy is formulated whether conducted in person or by communication equipment including conference calls, video conferences, or Internet chat or message board?

It is estimated this proposal will have no costs or savings to state or local governmental entities.

Constitutional Amendment 4

[Proposed by the 94th General Assembly (Second Regular Session) SJR 45]

Shall the Missouri Constitution be amended to change provisions relating to the financing of stormwater control projects by:

- limiting availability of grants and loans to public water and sewer districts only;
- removing the cap on available funding and existing restrictions on disbursements;
- requiring loan repayments to be used only for stormwater control projects?

It is estimated the cost to state governmental entities is \$0 to \$236,000 annually. It is estimated state governmental entities will save approximately \$7,500 for each bond issuance. It is estimated local governmental entities participating in this program may experience savings, however the amount is unknown.

Proposition A

[Proposed by Initiative Petition]

Shall Missouri law be amended to:

- repeal the current individual maximum loss limit for gambling;
- prohibit any future loss limits;
- require identification to enter the gambling area only if necessary to establish that an individual is at least 21 years old;
- restrict the number of casinos to those already built or being built;
- increase the casino gambling tax from 20% to 21%;
- create a new specific education fund from gambling tax proceeds generated as a result of this measure called the "Schools First Elementary and Secondary Education Improvement Fund"; and
- require annual audits of this new fund?

State governmental entities will receive an estimated \$105.1 to \$130.0 million annually for elementary and secondary education, and \$5.0 to \$7.0 million annually for higher education, early childhood development, veterans, and other programs. Local governmental entities receiving gambling boat tax and fee revenues will receive an estimated \$18.1 to \$19.0 million annually.

Proposition B

[Proposed by Initiative Petition]

Shall Missouri law be amended to enable the elderly and Missourians with disabilities to continue living independently in their homes by creating the Missouri Quality Homecare Council to ensure the availability of quality home care services under the Medicaid program by recruiting, training, and stabilizing the home care workforce?

The exact cost of this proposal to state governmental entities is unknown, but is estimated to exceed \$510,560 annually. Additional costs for training are possible. Matching federal funds, if available, could reduce state costs. It is estimated there would be no costs or savings to local governmental entities.

Proposition C

[Proposed by Initiative Petition]

Shall Missouri law be amended to require investor-owned electric utilities to generate or purchase electricity from renewable energy sources such as solar, wind, biomass and hydropower with the renewable energy sources equaling at least 2% of retail sales by 2011 increasing incrementally to at least 15% by 2021, including at least 2% from solar energy; and restricting to no more than 1% any rate increase to consumers for this renewable energy?

The estimated direct cost to state governmental entities is \$395,183. It is estimated there are no direct costs or savings to local governmental entities. However, indirect costs may be incurred by state and local governmental entities if the proposal results in increased electricity retail rates.
