ROSSIGNOL

PREMIUM RANGE, 4 PILLARS

MANOEUVRABILITY, SPEED, PERFORMANCE AND PLEASURE X-IUM CARBON PREMIUM SKATE

In February 2015, on the eve of the World Championships in Falun, Rossignol invited its athletes to try out some new and thus unfamiliar equipment. So convincing was this first impression that the vast majority decided to use the equipment in the race, claiming places on the podium. A little anecdote, by no means insignificant, that says a great deal about the trust our champions place in our products, and by definition our expertise. As part of an ongoing quest to strengthen this unique bond, we have created the new Premium range, designed to play a pioneering role in the market. This comprehensive offering consisting of a ski, the X-IUM Skating Premium, and a boot, the X-IUM Carbon Premium Skate, is packed with technologies designed to

help our athletes achieve a level of performance never before envisaged. More performance, of course, but most importantly greater accessibility.

The boot, tipping the scales at under 450 grams, as well as being lighter the carbon boot is also more rigid and comfortable thanks to a new one-piece liner, paving the way for enhanced energy transmission.

The ski is built around the Edge Energy Sensor technology: with greater rigidity at the waist, more flexibility at tip and tail and a larger sliding surface to allow easier acceleration and to create and maintain speed.

ROSSIGNOL

THE R-SKIN RANGE

ULTIMATE ACCESSIBILITY TO EXPAND THE APPEAL OF NORDIC SKIING

In response to new and evolving disciplines, Rossignol has updated its offering with the R-SKIN range. The underlying concept remains the same, but with some enhanced features. It is designed to eliminate the constraints associated with traditional waxing by replacing this with small skins, inspired by touring skis but without in any way

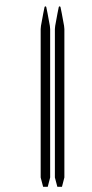

changing the sliding sensation. The two main advantages of the R-SKIN are therefore: firstly, their ease of use and accessibility, as they allow you to leave home wearing your skis; and secondly their ultimate versatility, guaranteeing skiers pleasure and genuine progress regardless

RACE EXPERT X-IUM

The X-IUM range accompanies our champions to the summits. This fusion of know-how and innovation has supported, supports and will continue to support our athletes on their quest for victory on all types of snow. Its historic commercial success has reaffirmed Rossignol's role as a major player in Nordic skiing. The two existing series, the X-IUM WCS and

X-IUM, are being complemented by a new arrival this year, the new X-IUM PREMIUM product family. Reflecting our aim of elevating the discipline to even greater heights, raising the bar still higher to bring you even more performance. To further assert our positioning as the benchmark for skiers in search of podium places.

RACE EXPERT X-IUM

In Nordic skiing, performance hinges on a perfect symbiosis between skier and equipment. Which explains the painstaking care Rossignol devotes to the quality of the boots worn by its athletes. On the feet of world-class athletes, the X-IUM PREMIUM, X-IUM WORLD CUP and X-IUM series promise high technology, lightness and speed.

OUTDOOR TOURING X-TOUR

The X-TOUR range has been designed for pleasure-seeking Nordic skiers who favour a more leisurely and relaxed approach to their sport. The skis offer reliability combined

with ease of use, while the boots provide comfort, warmth and stability.

OUTDOOR EVO

Shorter than traditional skis, equipped with innovative sidecuts and camber as well as a Rocker effect, the EVO range is the perfect solution for all-terrain Nordic skiing.

The emphasis is on pleasure, with both manoeuvrability and accessibility.

EXTERNAL CONSTRUCTION

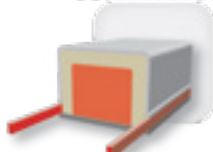

3DPROFILE

3D PROFILE

- More homogeneous structure
- Optimal ski control on the snow.

CONTROLEDGE

CONTROL EDGE

- Torsional rigidity
- Extra stability and ease
- More efficient kick;

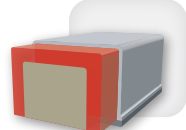

BI-EDGE CLASSIC

BI-EDGE CLASSIC

- Double sidewall in two different materials:
- Interacts perfectly with the camber
 - Torsional rigidity for a more stable ski.

ACTIV'CAP

ACTIVE CAP

- This construction radically changes the way the ski behaves by combining the characteristics of 2 materials:

Rossicap

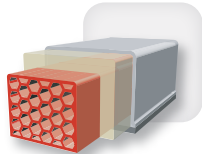

- Very flexible - influences the flexibility of the whole ski
- More freedom of movement at tip and tail
- Tip and tail float and glide freely over uneven terrain. It's "the snake effect".

Multi-directional fiberglass

- Torsional rigidity
- Enhanced directional stability.

INTERNAL CONSTRUCTION

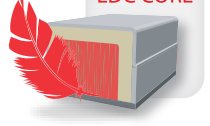

HONEYCOMB

HONEYCOMB STRUCTURE

- Very light material with excellent compression characteristics and strength
- Used on all Expert skis and some Performance skis.

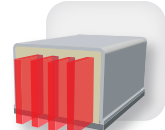

PREMIUM LDC CORE

LDC PREMIUM CORE

- A lighter construction, reinforced with basalt fiber.

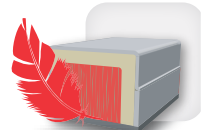

WOODAIR

WOOD AIR

- Wood construction with air channels.

LDC CORE

LDC CORE

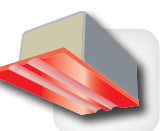

- Lighter structure.

SOLE

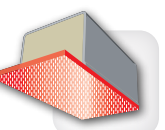

R-SKIN WAXLESS PATTERN

- Synthetic waxless pattern to create behaviour very close to a waxed ski.

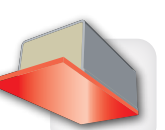

SKATING DOUBLE GUIDE GROOVE

- Stabilizes the ski and facilitates tracking whatever its position.

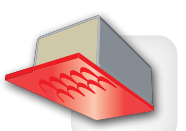

NUMERIC FINISH

- This base preparation technology offers a limitless range of ready-to-ski finishes that will improve glide. World Cup base finishes for everyone!

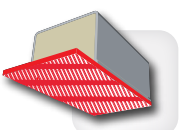

STONEFINISH

- Milled base finish.

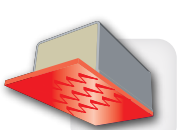

AR POSITRACK WAXLESS PATTERN

- Thermoformed waxless pattern delivering very pleasant glide and excellent grip.

R-GRIP WAXLESS PATTERN

- Progressive waxless pattern that performs at its best at 0°C.

AR PLUS WAXLESS PATTERN

- Cut into the base itself, this AR waxless pattern is the perfect compromise between retention and gliding. Perfect for rental use.

SIZE

RACING COBRA

COBRA RACING

- For extremely stable, fluid skating. Enables the skier to come back into the direction of travel faster at the end of the glide phase.

MEDIUM SIDECUT

SIDECUT MEDIUM

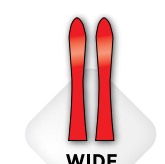

- This versatile sidecut enables you to ski both on and off track.

PARALLEL SIDECUT

SIDECUT PARALLEL

- A parallel sidecut is especially well suited to track skiing.

WIDE SIDECUT

SIDECUT WIDE

- A sidecut that's at ease in all conditions, on all terrain.

SHORT SIZE

SHORT SKI CONCEPT

- An exclusive Rossignol concept that guarantees maneuverability. Facilitates acceleration and makes skating movements more dynamic.

BOOTS CONSTRUCTION

SOFT TOUCH

SOFT TOUCH

- Ultra-comfortable control thanks to the interface membrane.
- Comfort
 - Control
 - Fit.

THERMO ADJUSTABLE

THERMO ADJUSTABLE FIT

- Thermoformable materials are heated so that boot volume can be changed. The boot adapts itself to the foot. Tailor-made!
- Comfort
 - Precision
 - Feel.

LOW VOLUME

LOW VOLUME FIT (LVF)

- A unisex alternative for more slender feet (Low Volume Fit). Personal attention!
- Easy foot entry and close fit
 - 100% feel
 - Total envelopment of the foot.

CARBON CUFF

CARBON CUFF

- 100% carbon cuff
- Optimal power transfer.

MOBILE CUFF

MOBILE CUFF

- Optimal freedom of fore/aft movement combined with torsional rigidity for total control.

ASYMMETRIC STIFFENER

ASYMMETRIC BACK STIFFENER

- Stiffener to suit every situation.
- Arch support
 - Torsional rigidity
 - Well-supported, stable platform.

DUAL DENSITY

DUAL DENSITY

- Injection-molding using different densities of material in the same mold.
- Precision of movement
 - Prevents energy wastage
 - Optimal contact.

CARBON CHASSIS

CARBON CHASSIS

- Combined with the stiffeners, creates a torsion box delivering best-possible stability.

WOMEN LINING

WOMEN LINING

- Soft liner
- Fleece for warmth and protection
- Ultimate comfort.

X-CELERATOR SOLE

X-CELERATOR SOLE

- Lighter weight, more torsional rigidity and closer to the ski.
- Performance
 - Stability
 - Control.

MICROMETRIC

MICROMETRIC CLIC

RATCHET ADJUSTER

- Adjusts the composite cuff detent by detent.
- Supports and holds the ankle
 - 100% foot/boot contact
 - Optimal power transfer.

ASYMMETRIC ZIP

ASYMMETRIC ZIP

- Frees the instep for more comfort.

ADJUSTING STRAP

ADJUSTABLE STRAP

- For more support and control.

DOUBLE LACING SYSTEM

DOUBLE LACING SYSTEM

- A single system provides independent control of mid and forefoot closure for more comfort and precision.

SPEEDLACE LOCK

SPEEDLACE LOCK

- Rapid, easy closure for better support of the foot and more precision.

POLES

Rossignol has developed a very comprehensive range of poles, ideally coordinated with the different ranges of skis to provide the perfect solution for all Nordic skiing styles. From shafts to grips, baskets and straps, nothing has been left to chance. Every detail has been studied

with painstaking care to ensure the same high level of satisfaction, pleasure and performance for all users, from World Cup racer to complete beginner.
