DONIC®

	<p>CQ1100 - DONIC-SCHILDKRÖT APPELGREN LEVEL 100 TABLE TENNIS RACKET (ST)</p> <p>Level 100 control racket for basic play by players without special experience. Straight (ST) handle. Jade short-pips rubber without sponge. Five-ply Basic blade. Mikael Appelgren is one of the greatest players of all time and holds several World Championship Titles. The Appelgren line of rackets offers excellent quality for the price. The Level 300 to 500 rackets are best suited to school sports. These are basic rackets covered in pips-out rubber with no sponge (AKA, hard rubber). Designed for players just starting out who need control and slower speeds. Or those that don't care about those fancy sponge rackets. Or perhaps those who want to return to the roots of table tennis, when hard rubber ruled the roost during the first half of the 20th century. There's something magical about the sound these hard rubber rackets make when contacting the ball. It's said that Table Tennis' popular pseudonym, Ping Pong, came from the sound of the ball rebounding off the table (Ping) and then the hard rubber racket striking the ball (Pong). If you get a fast rally going with these rackets, there is something charming about the sound, that's missing from the game when played with those muted sponge rackets. If that sounds like your ideal racket SPECIFICATIONS Classification Control Plies 5 Handle Straight Rubber Jade ; pimples out ITTF-approved No Control 100 Speed 30 Spin 50 Indoor/Outdoor Indoor Material Wood Basic</p>
	<p>CQ1201 - DONIC-SCHILDKRÖT APPELGREN 200 TABLE TENNIS RACKET</p> <p>Speed: 40, Spin: 50, Control: 100 5 ply blade with anatomic shaped handle New plastic handle which is easy to clean Red and black Jade pimples out rubber with 1.5mm sponge Protective edging tape Half headed blister packaging for easy display Display packaging front and back Attractive yellow/grey front label with Mikael Appelgren Endorsed by Mikael Appelgren</p>

	<p>CQ8212 - DONIC-SCHILDKRÖT CARBOTEC 900 FL TABLE TENNIS RACKET</p> <p>An excellent allround racket and for the more competitive player most suitable for a more defensive game. (ALLROUND+). 20% carbon blade. Material : 20% Carbon Handle : concave Rubber : Champion-QRC Sponge: 1,9mm Speed: 100 Spin: 100 Control: 80</p>
	<p>CQ8214 - DONIC-SCHILDKRÖT CARBOTEC 3000 FL TABLE TENNIS RACKET</p> <p>For a controlled allround and still quite fast attacking game (ATTACK). 50% carbon blade. Material : 50% Carbon Handle : concave and anatomic Rubber : Energy-QRC Sponge: 2,1mm Speed: 110 Spin: 110 Control: 70</p>
	<p>CQ8216 - DONIC-SCHILDKRÖT CARBOTEC 7000 FL TABLE TENNIS RACKET</p> <p>Carbotec - the top line of performance rackets from Donic-Schildkröt. Awarded the coveted international RED DOT design award in 2009 and the Plus X Award in 2010 by two independent juries! These high performance rackets are a Schildkröt innovation that represent the top of the line from Donic-Schildkröt. Table tennis rackets with carbon (graphite) material allow for fast playing speeds with good control for players with experience and good techniques. Also allows for quick learning progress for less advanced players. Carbon rackets represent the ultimate quality in table tennis for the most demanding players that take their hobby seriously and who require the best material available. Carbon makes the blade stiffer and harder than all-wood blades. It enlarges the sweet spot of the blade, increases the return of energy, and reduces the weight. Carbon allows you to have a more dynamic and powerful game. The 7000 is the fastest of the three Carbotec models. Ideally suited for a fast allround or controlled attacking game. It is the only blade that is 100% carbon. Has a Flared handle. Comes with red/black, 2.3mm Liga rubber and features the QRC (Quick Rubber Change) system to make peeling off your old rubber and attaching your new rubber a piece of cake! Material : 100% Carbon Handle : concave and anatomic Rubber : Liga-QRC Sponge: 2,3mm</p>
	<p>CQ3401 - DONIC WALDNER 400 TABLE TENNIS RACKET</p> <p>Speed: 40, Spin: 40, Control: 80 Waldner 400 lowest price in the Donic line up! Allows a regular all-round game with an outstanding control. With concave handle and with 1.5 mm sponge rubber sheets.</p>

	<p>HQ9601 - STIGA PURE ADVANCE BLUE TABLE TENNIS RACKET</p> <p>A Performance-Level Racket with Added Flare Excellent Control with ACS Technology Increased Speed with Crystal Technology that Hardens the Blade 3 Star Rubber, Concave Handle, 1.5 mm Sponge, 5-ply Blade Speed: 75 Spin: 65 Control: 65 Stiga Pure Racket ! These recreational grade rackets come in your choice of four vivid colors! Green , Yellow , Blue, and Pink . Being so colorful, they are, of course, not permitted in sanctioned competitions, which are restricted to black on one side and red on the other. How bland! But hey, if you don't play in sanctioned tournaments, why not add some color and flare to your racket? These rackets are covered in 1.5 mm Stiga -star-star inverted rubber. This rubber incorporates Stiga's ACS Technology which allows very high speed to be combined with max springiness and elasticity in an ultralight rubber possessing outstanding control. The blade is 5-ply with a Flared handle and is covered in a special Crystal Technology lacquer that stiffens the blade and increases its speed. The crowning touch is the racket has an edge tape in matching color. Very sharp looking. No other racket looks like these!</p>
	<p>HQ9701 - STIGA PURE ADVANCE PINK TABLE TENNIS RACKET</p> <p>A Performance-Level Racket with Added Flare Excellent Control with ACS Technology Increased Speed with Crystal Technology that Hardens the Blade 3 Star Rubber, Concave Handle, 1.5 mm Sponge, 5-ply Blade Speed: 75 Spin: 65 Control: 65 Stiga Pure Racket ! 	<p>NQ3500 - CORNILLEAU EXCEL 3000 CARBON RACKET</p> <p>Cornilleau's Excell 3000 racket replaces the Impulse series and features new carbon technology, leading to more rigid bats, and as a result, a more powerful game. It is perfect for club level players looking to improve their style of play. This bat has been built for those with an offensive game. Light in weight, it is fitted with a very fast offensive blade and a 2mm fast sponge to really enhance your game. It features Cornilleau's Fast Sponge to provide greater speed and spin, and a Perforated Handle System (PHS) to add greater grip and a better performance. Its also features the Opti Feel Concept (OFC), which consists of wooden fibres in each ply wood providing a top of sensations and a direct increase in control and precision.</p>
	<p>NQ4401 - RACKET CORN SG DRIVE ALL+ FL</p> <p>The blade part of Cornilleau SIMON GAUZY QUEST ALL + is extremely suitable for players who are mainly looking for control and have a focus to impose their rhythm on the game with a lot of rotation. It is perfectly complemented with OFF + liners, thus providing precision and control in counter-attacks. Those who want to perfectly improve their game, however, combine this wooden piece with ALL / OFF linings.</p>

	<p>NQ1501 - RACKET CORN HC TARGET OFF+ FL</p> <p>Table tennis Cornilleau Calderano Target Pro GT is a racket designed for competitors and very good recreational players. NQ4626 - CORNILLEAU NEXEO GRAPHITE X200 RACKET

Cornilleau Nexeo Graphite X200 is the perfect combination of expertise in graphite technologies, that thus far has been reserved for the tennis world, and outdoor ping pong. This is the most high performance outdoor racket on the market. It took 3 years for this product to come to fruition and the results offer supreme qualities that one might assume are incompatible: outdoor weather resistance, incredibly high performance, ultra-durability (shock resistant), and extra light weight. Don't hesitate for even a second; you too can BOOST YOUR GAME! Cornilleau, the world leader and innovator in outdoor racket technology, has never before offered an outdoor racket with such high performance and it's worth every penny. They faced a conundrum! how do you combine the weather resistance and durability necessary for outdoor play with the light weight and high performance typical of normal indoor play blades and rubbers? Indoor table tennis rubbers offer high performance with great speed and spin and blades that are light and fast; whereas, outdoor rackets historically were much heavier and simply could not produce the same degree of spin and speed. On the other hand, outdoor rackets were tough and durable, unlike indoor rackets that were easy to break, not weather resistant, and with rubber surfaces that wore out quickly. The Nexeo X200 solved this conundrum of racket technologies by offering the best of both worlds! Nexeo's dynamic sponge offers unmatched speed and catapult effect similar to competition rubbers. The top elastomer layer grabs the ball tightly to apply lots of spin, and with familiar feel and control. By permanently mounting this covering on a 100% carbon fiber core, this racket is much lighter and faster than other outdoor rackets and comparable with weights of typical indoor rackets. The carbon fiber core also stiffens the blade, enhances feel, and increases speed. But unlike indoor rackets, Nexeo X200 easily withstands impact and bad weather. The covering can't be removed and never needs replacement, assuring years of high performance without the hassle of replacing rubbers to regain performance. Lastly, Nexeo's special elastomer handle is super comfortable, ergonomic, and provides optimal grip. Speed, Spin, Precision, Durability, Weather Resistance, Light Weight, Comfort, and No Maintenance! this racket has it all! Spin 9 Speed 9.5 Control 7 Rubber Foamed Elastomer Core Composite Concept Graphite Inside, Extra Light Foam color White

DONIC®

CJ8435 - DONIC-SCHILDKRÖT TABLE TENNIS MINI SET

Play ping pong just about anywhere with this terrific little set of net, paddle and ball. Fasten the two suction cups to almost any flat surface, stick the net posts in the suction cups, slip the net onto the posts, pick up the rackets, and start playing! Great fun and entertainment for the kids. See how long they can ping-pong the slow-bounce ball back and forth over the net. Set includes: 2 mini wood rackets with rubber faces. 5.5" tall by 3.5" wide (14 x 9 cm). 2 suction cup net bases 2 net posts that attach to the net bases 1 plastic net. 3.3" tall 25" wide (8.5 x 63 cm). 1 plastic ball (36 mm)

CJ8610 - DONIC-SCHILDKRÖT APPELGREN LEVEL 100 TWO-PLAYERS RACKET TABLE TENNIS SET

Straight (ST) handle. Jade short-pips rubber without sponge. Five-ply Basic blade. Mikael Appelgren is one of the greatest players of all time and holds several World Championship Titles. The Appelgren line of rackets offers excellent quality for the price. The Level 300 to 500 rackets are best suited to school sports. Comes with 2 Appelgren Level 100 Rackets and 3 ping pong balls, 2 white and 1 orange. These are basic rackets covered in pips-out rubber with no sponge (AKA, hard rubber). Designed for players just starting out who need control and slower speeds. Or those that don't care about those fancy sponge rackets. Or perhaps those who want to return to the roots of table tennis, when hard rubber ruled the roost during the first half of the 20th century. There's something magical about the sound these hard rubber rackets make when contacting the ball. It's said that Table Tennis' popular pseudonym, Ping Pong, came from the sound of the ball rebounding off the table (Ping) and then the hard rubber racket striking the ball (Pong). If you get a fast rally going with these rackets, there is something charming about the sound, that's missing from the game when played with those muted sponge rackets.

CJ8414 - DONIC-SCHILDKRÖT APPELGREN 300 TABLE TENNIS 2 PLAYERS SET

Mikael Appelgren was one of Sweden's all-time great players. He is a 4-time World Champion and 9-time European Champion. Teaming with Jan Ove Waldner and Jorgen Persson, they were the team that finally ended China's dominance as the #1 team in the world in the late eighties and early nineties, winning the World Team Championships 3 times in a row. This namesake racket set honors Appelgren's great accomplishments. The high quality set offers excellent quality for the price and consists of 2 Appelgren 300 Level Rackets and 3 Training Balls. The 5-ply rackets are ITTF-legal with red/black 1.0mm Jade inverted rubber and a flared ergonomic handle. These rackets offer high control, perfect for all-round players like Appelgren who excelled at strategically placed, controlled shots with sudden flashes of fast play. There are two 40mm white balls and one orange ball so you're sure to have the right one for best visibility in a variety of playing conditions. A very good 2-player set that gives you all the basic gear you need to enjoy playing ping pong with friends or family. Speed: 30, Spin: 40, Control: 90

CJ8641 - DONIC-SCHILDKRÖT APPELGREN 300 4-PLAYER TABLE TENNIS SET

Mikael Appelgren was one of Sweden's all-time great players. He is a 4-time World Champion and 9-time European Champion. Teaming with Jan Ove Waldner and Jorgen Persson, they were the team that finally ended China's dominance as the #1 team in the world in the late eighties and early nineties, winning the World Team Championships 3 times in a row. This namesake racket set honors Appelgren's great accomplishments. The high quality set offers excellent quality for the price and consists of 4 Appelgren 300 Level Rackets, a Classic Net Set, 3 Training Balls, and a handy carrying case for storage, transport, and keeping your set all in one place. The 5-ply rackets are ITTF-legal with red/black 1.5mm Jade inverted rubber and a flared ergonomic handle. These rackets offer high control, perfect for all-round players like Appelgren who excelled at strategically placed, controlled shots with sudden flashes of fast play. The net includes sturdy steel net posts and clamps and a green nylon net with steel ends. The steel ends slip easily over the posts and give rigid structure to the net ends. The posts can be pushed in or out to tension the net, or relieve tension between playing sessions. There are two 40mm white balls and one orange ball so you're sure to have the right one for best visibility in a variety of playing conditions. A very good 4-player set that gives you all the basic gear you need to enjoy playing singles or doubles with friends or family. Speed: 50, Spin: 50, Control: 90 -54.93-s-rs-

STIGA®

HE575 - STIGA TABLE TENNIS SINGLE RACKET COVER

Durable vinyl cover protects rackets and increases tack life of rubber Oversized design provides easy open and close

	<p>NE450 - CORNILLEAU SAFE RACKET CASE</p> <p>Storage for 1 bat + 3 balls. *balls not included</p>
	<p>NE659G - CORNILLEAU FITCARE CASE DOUBLE (DARK GREY)</p> <p>A polyester double racket case. Colors Grey - Black - Blue. Dimension 29 x 21 x 5 cm. Material Polyester 600D</p>
	<p>NA900 - TABLE COVER CORNILLEAU GREY</p> <p>This PVC table cover is designed to protect the table against dust and dirt so that it is always ready to play. It is only suitable for use on Cornilleau tables as the covers tapers so that it is 850mm wide at the bottom but only 250mm at the top of the table where the playing surfaces meet. The purpose of the cover is to protect against dust and dirt and for additional child safety. We do not recommend using this cover to protect indoor tables stored outside as some moisture will still get through the cover. The cover is supplied with fasteners but additional strapping may be required to keep the cover in place during high winds.</p>
	<p>NA901 - CORNILLEAU PREMIUM TABLE COVER (GREY)</p> <p>Light polyester cover to protect your table against dust and dirt. Cover attaches to the table so it won't get blown away. Helps ensure the safety of children. Grey.</p>
