Create your own toys!

>>Cool monster tattoos<<

Whether with big bulging eyes, a broad grin or long, extendible probes: Not only do children have a lot of fun designing these funny monsters. At the same time their imagination and motor skills will also be promoted. Use your finished FIMO kids monster tattoos to decorate everything from children’s bedroom walls, windows, dressers, wardrobes to toy boxes.

1. Roll out each modelling clay colour into a big ball. Flatten the balls a little with your hands. Then use the roller from the FIMO kids work&play set to roll out the flattened balls. They should be approx. 2-3 mm thick. Then form each colour into different shapes: round, oval, pear or rectangular.

4. Now create the faces: For the mouths form thin strands of red FIMO kids and place them onto monsters in the desired shape. For every pair of eyes make two small balls out of the white FIMO kids. Press them on and place two tiny black balls on top for the pupils. Press to flatten with your fingers.

2. Now it is time to add the arms, legs and feet to your monsters: For every limb you need to form a small ball from one of the FIMO kids blocks. Flatten and shape them with your fingers. Position the limbs onto each monster. Be careful to overlap the edges of the body and the limbs.

5. Finally place your FIMO kids monsters onto baking paper and harden them in a preheated oven for approx. 30 min at 110 °C. Let cool completely.

3. Create a striped monster by forming several thin strands in one or more colours. Place the rolls onto the body and press gently. You can also make tiny balls out of the different FIMO kids blocks, place them onto the monsters and press them with your fingers to flatten. Then roll over the stripes and dots using the roller.

MATERIALS

- FIMO kids colour pack “basic” 8032 01

MADE BY YOU ♥

>>Trendy Tropical<<

Flamingo, pineapple and co... Let's bring the summer into our homes with tropical accessories and decorations made with FIMO. Bright pink, tropical green or radiant yellow – colourfully mixed, these exotic colour nuances will instantly lift your mood. As place card holders, for your garden party or as necklace pendants: This pretty pineapple is a real eye-catcher and gets you in the mood for summer.

1. Shape half the yellow FIMO soft block into a ball. Roll the ball until it forms into a cylindrical shape – the pineapple should be able to stand up well.

2. Then roll the pineapple diagonally across the vegetable cutter once to give it the right pattern.

3. Use the pliers to cut off a piece of wire, about 15 cm long. Twist the end of the wire with the jewellery pliers twice.

4. Push the wire into the top of the yellow pineapple.

5. Then roll out the green FIMO soft with the acrylic roller until it is flat. Use the knife to cut out three triangles. Now place the triangles around the wire on top of the yellow pineapple and bend them slightly.

6. Harden the pineapple in the oven at 110 °C for 30 min. Now you only need to add the name tag. Use the pigment liner to beautifully handletter the name.

level **Crafting Time** 110 °C

The art of expression.

>>Necklace made of FIMO and leaf metal<<

Small beads that impress by combining fresh, trendy colours and exquisite leaf gold metal. The larger beads are even more stunning: Not only do they wow with colourful surface patterns – you can even see the leaf gold metals sparkling through from the inside.

Find the full tutorial here:

 www.fimo.com  [@fimostaedtler](https://www.instagram.com/fimostaedtler)

1. Cut half a block of each the violet and the turquoise FIMO professional into four strips. Then divide these into four small, three medium-sized and three large pieces, as pictured. Roll these into balls. Flatten the smallest four balls of each colour.

4. Diagonally cut the violet and white FIMO professional in half. Join two halves each to create one two-coloured block. Using the roller roll out this block, fold in half (placing violet on violet, white on white) and repeat until you have a smooth transition of colours.

2. Carefully tear off small bits of the leaf gold metal and place on as many balls as you like. Using a knitting needle carefully make a hole into each bead. Harden them in the oven at 110 °C for 30 min. After cooling, varnish the beads with the gloss to prevent the leaf gold from rubbing off.

5. Roll up the flattened sheet, beginning with the light-coloured end. The darker colour will be on the outside.

3. Mix two strips of the transparent FIMO professional with a sheet of gold leaf. Knead together until fully intermixed. With the acrylic roller flatten the mixture, until it is approx. 1/2 mm thick. Then use it to wrap around the medium-sized beads: The thinner the gold mixture is, the more impressive the depth effect will be.

6. Cut the cane in half and add a strip of white FIMO professional. Repeat this process twice until your cane has a pattern with an eight-pointed star.

Find out how to create even more beads on the FIMO website!

FIMO® PROFESSIONAL – THE CLAY FOR THE HIGHEST OF DEMANDS

FIMO® professional

STANDARD BLOCK 8004-..

85 g, 55 x 55 x 24 mm, segmented into 8 portions, 24 brilliant colours, min. order quantity: 4

Product information

- Oven-hardening modelling clay
- Especially for professionals, artists and advanced users
- Firm consistency for particularly filigree items
- 24 brilliant colours, incl. 5 True Colour colours
- Practical division into 8 portions for easy blending
- Compatible with FIMO soft, FIMO effect and FIMO professional doll art
- Easy to open
- The long-established original modelling clay
- Consistent high level of quality for meeting the highest of demands
- Infinitely versatile: for jewellery, accessories and home deco items

Colour packs (p. 71):

- 2 different sets
- True Colours with the purest of pigments (with colour mixing system – for exact and brilliant blending results)
- Basic Colours

Mix quick (p. 71):

- Clay softener
- Extra soft material for kneading into firm FIMO
- For an easier and faster softening of firm FIMO

Colour display (p. 70):

- Comprising 4 feed trays
- 1 compartment for presentation of brochures, finished samples or give-aways
- Intelligent, modular snap-in design
- Up to 24 colours, 192 blocks à 85 g
- Display topper with 14 language versions
- Colour label

MODELLING TOOLS

Product information

- High-quality tools
- Designed to satisfy the needs of artists and advanced users
- For the creation of e.g. original pendants and brooches

Cutters:

- High-quality, multiple-sized metal shaped cutters
- Three different sizes per motif in each set: 4 cm, 5 cm, 6 cm
- Four different geometrical shapes: diamond, navette, pennant and teardrop
- Sharp-edged cutting side for precise results
- Rounded top edge to prevent injury
- Seams riveted on outside to ensure perfect contours
- Ideal for creating jewellery
- Easy to clean

Clay extruder:

- High-quality tool
- Suitable for all unhardened FIMO modelling clays
- Extra large diameter for little effort on crank
- Removable crank handle allows ergonomic, comfortable turning with little effort
- Moving feeder plate at the end of the tree rod minimises frictional forces and facilitates extrusion
- Hexagon plug-in head permits use with a cordless screwdriver
- 20 different motif discs for strings of clay in various diameters and shapes
- Easy to clean

Clay Extruder with detachable handle
(dimensions cylinder: length 127 mm, inside diameter: 20 mm),
20 different motif discs, spare rubber washers,
step-by-step instructions, storage box,
min. order quantity: 1

20 different motif discs!

MODELLING TOOLS

Product information

- High-quality tools
- Designed to meet the needs of artists and advanced users
- Different tools ideal for shaping, smoothing and accentuating as well as forming intricate details and patterns

Clay scraper set:

- High-class design
- 2 flexible scrapers (tooth scraper, smooth scraper)
- Made of stainless steel
- Ideal for embossing and scoring patterns
- For shaping, smoothing, measuring (cm / inch scale), and portioning
- Facilitates the removal from smooth surfaces
- Easy to clean

Modelling tools:

- High-quality modelling tool, each with two different modelling tips
- Shaft in maple wood with a matt lacquer finish
- Modelling tips made of stainless steel
- Overall length 20 cm
- For precise shaping and forming of modelling clay
- Easy to clean

FIMO® professional

CLAY SCRAPER SET 8700 15

Content: 2 extra flexible scrapers (tooth scraper, smooth scraper), dimensions: tooth scraper 128 x 54 mm, smooth scraper 130 x 65 mm, min. order quantity: 5

FIMO® professional

'DRILL & SMOOTHING TOOL' 8711 01 BK

Content: Drill (Ø 2.5 mm, 40 mm long), ideal for drilling through already hardened FIMO; ideal for smoothing, cutting off modelling clay and accentuating elevated details; min. order quantity: 5

FIMO® professional

'CLAY SHAPER' 8711 02 BK

Content: 2 extra strong silicon brush and flat-chisel tips, for a precise shaping and forming of modelling clay, min. order quantity: 5

FIMO® professional

'BALL TOOL' 8711 03 BK

Content: 2 different round heads (Ø 1.5 mm, Ø 8 mm), ideal for shaping unhardened modelling clay (hollows, bulges or eye sockets) and forming intricate details, min. order quantity: 5

FIMO® professional

'NEEDLE & V-TOOL' 8711 04 BK

Content: Needle tip, V-tool (V: 60° angle), 40 mm long, for drilling holes in beads, for smoothing and forming intricate details and patterns, picking up and attaching small small clay elements, perfect for carving and for creating uniform notches, min. order quantity: 5

FIMO® COLOUR DISPLAY

Air-drying modelling clays

>> Summer lanterns <<

These FIMOair light lanterns are quick and easy to make and ideal for adding a perfect finishing touch to any festive dinner table. Simply cover everyday preserve jars with a layer of FIMOair light, cut out motifs and leave to dry.

That's it – it takes little time to create these lovely lightweight summertime table decorations.

level	Crafting Time	110 °C
 easy	 ca. 20 min	 30 min

1. Cut an approx. 8 cm wide strip off the block of FIMOair light and roll it out to an approx. 4 mm thin sheet on a glass work surface using the acrylic roller.

Tip: Place a sheet of baking paper between the glass work surface and the FIMOair light. This will make it easier to remove the rolled out sheet of FIMOair light later on.

4. Cut off any excess FIMOair light at the join so that the sides meet but do not overlap. Smooth over the edges well to make the join invisible. Use the kitchen knife again to cut off any surplus FIMOair light from around the base of the jar. Level out any unevenness with a modelling stick and a little water.

2. Straighten the edges by cutting them with a sharp kitchen knife and create a large rectangle.

3. Carefully peel the sheet of FIMOair light off the glass work surface. Cover the jar with the sheet of FIMOair light. Position the long edge of the clay around the rim. Press on carefully as you do so.

5. Create a pattern by cutting out holes in the FIMOair light, using pen caps in different diameters. Remove the clay from the holes with a bead piercing needle to allow the candlelight to shine through later. Should any bits of FIMOair light remain stuck to the glass, carefully scratch them off with the bead piercing needle. For a different design, you could use FIMO shaped cutters. Finally leave the jars dry completely at room temperature overnight.

MATERIALS

- FIMOair light "white" 8131-0
- Acrylic roller 8700 05
- Bead piercing needles 8712 20
- Shaped cutters 8724 03
- Modelling tools 8711
- Kitchen knife
- Pen caps in different diameters

FIMO®AIR – AIR-DRYING MODELLING CLAYS

Product information

- Air-drying modelling clays
- At least 95 % natural substances
- Ideal for art, recreation and hobby as well as for educational purposes in schools, kindergartens and other similar facilities

FIMOair basic:

- Clay-like
- Ready to use
- Dimensionally stable, neutral smell
- Smooth consistency
- Foil packaging prevents the drying out of the modelling clay
- Hardened models can be modified (filed, sanded, drilled, painted, varnished)

FIMOair natural:

- Wood-like
- Ready to use
- Particularly break resistant after hardening
- Ideal for making dolls and puppets as well as sculpting
- Foil packaging prevents the drying out of the modelling clay
- Hardened models can be modified (filed, sawn, carved, drilled, painted, varnished)

FIMOair light:

- Dries when exposed to air or in the microwave for approx. 10 min
- Ready to use
- Extremely lightweight
- Dimensionally stable, neutral smell
- Pleasant feel, does not stick
- Foil packaging prevents the drying out of the modelling clay
- Hardened models can be modified (glued, painted, varnished)
