## SAFETY TRAINING SEMINARS

### The Training Never Stops!

At Safety Systems and Signs Hawaii Inc., we've been helping companies like yours increase safety awareness and satisfy HIOSH, DOT, OSHA, ADA, MUTCD and other government regulations since 1973.

Put our safety and regulatory knowledge to work for you to

- Protect the safety of your employees
- Satisfy complex government regulations, and
- Avoid costly fines for non-compliance

### Several Training Methods

Seminars, classroom work, or tool box sessions on a job site. To register for **Safety Training and Certification** give us a call at 808-847-4017 to arrange training for your employees at your site or ours. Minumun attendees may be required.

# VISIT US ONLINE

**Easy to use! Simple to Search!**  
**Check Out Our Online Warehouse**

- Choosing & installing fall protection anchor points

## First Aid, CPR & AED

### Topics Covered:

- Set Up & Site Evaluation
- Primary Assessment
- Rescue Breathing
- CPR Techniques
- Choking Management
- Control of Bleeding
- Shock Management
- Auto External Defibrillator hands-on training

### 12 Person Limit

Classes at your site for 8+ students.

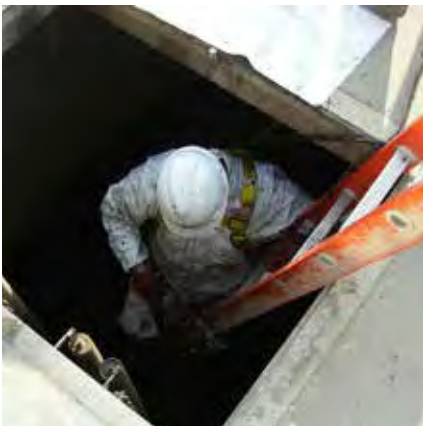

Call to schedule.

## Confined Space

### In This Class Attendees Will Learn:

- Understanding the rules and regulations to become a competent person.
- Duties of the supervisor, entrant & attendee.
- Recognition of a permit required and a non-permit required confined space.
- Hands-on safety equipment use.
- Using air monitors to test the atmosphere.
- Confined space ventilation.
- Entry permits and hot work permits.
- How to set up a Permit Required Confined Space Safety Program.
- OSHA and HIOSH standards explained.

## Trenching & Shoring

### In This Class Attendees Will Learn:

- Understanding the rules and regulations to become a competent person.
- OSHA & HIOSH standards explained
- Competent Person duties
- Soil classification
- Hazards and laws of nature
- Demonstrate knowledge Of 29 CFR 1926 Subpart P - Excavations
- Demonstrate the ability to conduct visual and manual soil tests
- Demonstrate knowledge of proper sloping, shoring and shielding

## Scaffolding Erection

### In This Class Attendees Will Learn:

- Understanding the rules and regulations to become a competent person.
- Erecting, moving, dismantling procedures per 29 CFR 1926.32 (f)
- Determining dimensions, clearances, and maximum loads
- Rules for guardrails, planking, ties, securing scaffolds, warning signs
- Tube & clamp scaffolding procedures
- Scaffold inspection standards
- Duties & scope of the supervisor, competent, and qualified person

## EQUIPMENT RENTAL

### Traffic Control Equipment

- Message Boards / Portable Changeable Signs
- Arrow Boards
- Scorpion Truck-Mounted Attenuator - protects worksite employees from vehicles (includes truck and our driver or yours)
- Portable Flood Lights
- Steel Road Plates
- Barriers and Crash Cushions
- Water filled crash barriers
- Sand barrels
- Traffic Channeling Devices
- Cones - 18" or 28"; regular or reflective
- Rebounding delineator tube posts
- Barricades - Type I, Type II, Type III With or without flashing or steady-burn lights
- No Parking Barricades (customized signs attached)
- Construction Warning Signs and Stands
- Flashing lights for barriers or vehicles

### Fall Protection

- Confined Space Systems
- Retractable
- Guardrails
- Anchor Points

### Respiratory Protection & Confined Space

- SCBAs & Cylinders
- Supplied Air Pumps
- Dewatering Pumps
- Gas Detection Monitors / Sniffers
- Tripods and Retractable
- Blowers & Ducting - electric or gas powered
- Manhole Guards
- Manhole Cover Lifters

### Construction Warning Signs

Most orange construction warning signs seen on our website and in our catalog are available for immediate rental. Rental signs are fabricated of aluminum unless otherwise stated.

- Sign Stands
- No Parking signs (barricade mounted)
- U-channel Post and Drive Caps
- Flags for signstands
- Message Boards & Arrow Boards

Rental by day, week, or month. Includes programming the messages. Message boards are solar powered. If the backup battery requires charging, call our office for service.

### Jobsite Equipment

- Crowd Control Barriers
- Fencing, Post, and Drive Caps
- Pipe and Cable Locator
- Ground Breaker - Hydraulic Jackhammer/post pounder
- Portable Floodlights
- Steel Plates

### Construction

- Trench Shoring - Vertical Shores, Walers, Trench Boxes, Manhole Shields, Release Tools, and Shoring Fluid Pumps. Our staff will visit your jobsite to help you order the correct equipment.
- Steel Plates - Regular and anti-skid
- AlturnaMats - Ground protection mats used to eliminating ruts in turf, protecting lawns, preventing vehicles from getting stuck in the mud, used as temporary road and walkways, removing trees without damage to lawns.
- Nightwarrior Floodlights

### Pavement Marking

- Propane Torch - heat asphalt for thermoplastics
- Thermometer Gun measures asphalt temperatures
- Stencils for paint and thermoplastics

### Traffic Signs

Call for details.

## TRAFFIC CONTROL SERVICES

**Traffic Planning:** Certified traffic plans (mandatory to receive a permit from DOT and/or building department). Plans show location of each piece of equipment and signage.

**Delivery/Pickup:** We deliver your traffic control cones, barricades, signs, etc. to one location at your yard or job site. We pick up the same from one site when you call, or at a pre-determined time scheduled by you.

**Delivery/Setup:** We program message boards, check the batteries and lights on the barricades, refuel work flood lights, and make sure your barricade lights are in good working order for the duration of your job. We set up the equipment according to your instructions on the job site.

**Detour Services:** We deliver and set up all signs, cones and other devices each day of the job, and remove or reposition them for the evening.

**Maintaining a Mobile Job Site:** We stay on site during the job hours, and move the lane closures to keep a secure work site as your crew travels down the road while paving, striping or performing utility work.

## Traffic Control Planning

When planning a construction job, street repairs, heavy equipment movement, a parade, block party, utility work, a race, etc. on any public street, a Traffic Plan in conformance with the Manual of Uniform Traffic Control Devices (MUTCD) is mandatory to receive a permit from DOT and/or the building department. Failure to have traffic control plans on file can delay projects and/ or result in fines.

Safety Systems and Signs Hawaii has a full crew of ATSSA (American Traffic Safety Services Association) certified worksite traffic supervisors to examine your jobsite or drawings. We create a traffic control plan to keep traffic moving as safely and efficiently around your work zone. We provide signs and signstands, cones, barricades, flags, message- and arrow-boards for your use.

If you prefer, we will set up, monitor, maintain and remove detour equipment if you do not have trained employees available.

## Traffic Control 24/7

Traffic Control Equipment and Services are available 24 hours a day, seven days a week. Call us at 808-847-4017 to schedule equipment rentals.

## FIRE EXTINGUISHER SERVICES

### Fire Extinguisher Inspection, Refill & Repair Service (Oahu only)

Safety System and Signs Hawaii's service technicians are thoroughly trained, licensed professionals. With employees extinguishing many of the fires in commercial facilities with hand operated portable fire extinguishers, don't leave your business or employees at risk; have your life safety equipment professionally serviced at the very least, annually.

Annual Fire Extinguisher Inspection includes: Visual inspection, locking pin pull test, tamper seal replacement and annual inspection tags.

### Recharging

Recharging of portable fire extinguishers includes: Replacement of agent, visual cylinder inspection, replace valve stem and control valve o-ring as needed, install service verification collar, tamper seal replacement.

On-site recharging eliminates extinguisher down time and inconvenience that can occur when extinguishers are taken off site for a few days. Or save money by dropping off your fire extinguishers at our office.

## FIT-TESTING

Compliance made easy...Your place or ours!

Come and visit us for an in-store fit-test or if you have five people or more to fit test, call us to arrange a fit-testing session at your office or job site.

Note: end user must have a medical evaluation from a registered health care professional before being fit-tested and wearing a respirator. Appointments required please. Ask for details.

## SCBA AIR TANK REFILL

Safety Systems and Signs Hawaii rents respiratory safety equipment for all your hazmat and confined space needs, including monitors, blowers, SCBAs, EEBAs, airline respirators, filtration panels, cylinder carts, and non-entry retrieval systems and sludge pumps.

We inspect, hydrotest and refill your tanks with grade E air after job use or training sessions.

# Personal Protective Equipment

## HARDHATS

### A - Bullard Standard Series Hardhat

Meets or exceeds ANSI/ISEA Z89.1, Type 1 impact requirements and class G and E electrical.

You'll find comfort and protection with style in the Standard Series. Featuring a four-point suspension, these hats are lightweight, low profile and have a low center of gravity, providing exceptional balance.

Features accessory slots in cap styles accept a wide variety of attachments, 4-point suspension, pillowed brow pad, 3/4" wide seamless nylon crown straps, front and rear vertical height adjustments.

### B, C - Bullard Classic Series Hardhat

Meets or exceeds ANSI/ISEA Z89.1, Type 1 impact requirements and class G and E electrical.

The Classic is all about comfort, without sacrificing safety. Featuring a comfortable six-point suspension.

Features accessory slots in cap styles accept a wide variety of attachments, 6-point suspension, pillowed brow pad, 1" wide seamless nylon crown straps, front and rear vertical height adjustments.

## HARDHATS

### A, B - MSA V-Gard Hardhat

The MSA V-Gard Cap-style hard hat comes with either the Staz-On (pin-lock) suspension or the Fas-Trac™ (ratchet). The suspension and hat combination provides excellent protection from overhead blows. The V-Gard cap is designed with an accessories slot for add-on features. Meets or exceeds the applicable requirements for a Type 1 helmet (top impact) as outlined in ANSI Z89.1-2014, Class E & G.

### C - MSA V-Gard® 500 Vented Protective Cap

The MSA V-Gard protective headgear features cooling vents along the crown for improved air circulation, helping lower the risk of heat-stroke in warm climates. A lightweight design for added comfort with lateral contours above the ears for easy integration of hearing protection. Comes with FasTrac™ (ratchet) suspension. Meets requirements for a Type 1 helmet (top impact) as outlined in ANSI Z89.1-2003, Class C.

### D, E - MSA Skullgard® Fiberglass Heavy Duty

This low-profile, smooth finish hat provides excellent protection for the worker in heated areas. A favorite of welders, the heavy-duty fiberglass construction is excellent for use in steel mills and other heavy industries where elevated temperatures are common. Comes with FasTrac™ (ratchet) suspension. SEI Certified. Meets or exceeds the applicable requirements for a Type 1 helmet (top impact) as in ANSI Z89.1 2014, Class G (electrical-low voltage).

### A - Chill-Its® 6670CT Evaporative Hard Hat Neck Shade

Keeps the sun off while delivering cool comfort to your neck. Advanced PVA material activates easily and quickly when run under water for one minute. Super-evaporative cooling process helps keep you cool. Hook and Loop straps for easy attachment.

### B - Squids® 3155 Clamp Hard Hat Lanyard

Comfortable high stretch elastic material secures a hard hat to a worker to prevent the item from falling. Easy release clamp attaches securely to just about anything.

### C - Chill-Its® 6717 FR Evaporative Hard Hat Pad w/ Neck Shade

Pad with long shade to provide ultimate cooling relief along with FR protection. Conveniently attaches to hard hat suspension headband. Meets ASTM F2302 for flame resistance. Classified CAT1 per NFPA 70E.

KEY SKU	MFG#	DESCRIPTION
A..... C01025 ..12523 .....		Chill-Its 6670CT Hard Hat Sun Shade, Hi-Vis Lime
B..... P01151 ...19155 .....		Squids® 3155 Clamp Hard Hat Lanyard, Hi-Vis Lime
C..... C01028 ..12657 .....		Chill-Its 6717 FR Hard Hat Pad w/ Neck Shade, Blue

### D - EZ-Cool® Hi-Vis Hard Hat Visor

Extended visor at front to block sun from worker's eyes. Features drape at back to shade the neck, elastic at back for secure fit and high visibility fabric and silver reflective tape. Shields eyes and neck from the sun and helps alleviate heat stress. Fits most hard hats.

KEY SKU	MFG#	DESCRIPTION
D..... P01306...396-800 .....		EZ-Cool Hi-Vis Hard Hat Visor, Hi-Vis Lime

### E - Full Brim Sun Shield

100% polyester shade with breathable mesh nape protector. Designed to fit over full brim hard hats. Easy to fold and put away. Brilliant trim reflective material edging improves low light visibility. 1/2" reflective stripe with contrasting color.

### F - Lime Hard Hat Sun Shield w/ Elastic Band

Keeps your neck well shaded. Elastic band to fit over most hard hats. Ultra-Cool™ 100% Polyester lime mesh with contrasting trim. 5/8" silver reflective material w/ contrasting color.

### G - Lime Hard Hat Sun Shield w/ Velcro Tabs

Protects your neck from the sun while wearing your hard hat. Self-adhesive velcro tabs allow you to attach to the inside or outside of any hard hat. 2" wide reflective material.

KEY SKU	MFG#	DESCRIPTION
E..... P01308...2873 .....		Full Brim Sun Shield, Lime
E..... P01309...2874 .....		Full Brim Sun Shield, Orange
F..... C04136 ..2810 .....		Lime Hard Hat Sun Shield, elastic band
G..... C04346 ..2808 .....		Lime Hard Hat Sun Shield, self adhesive velcro

### H, I - Cooling Neck Shade

Lightweight and easy to use, this water activated shade can re-hydrate thousands of times. Just soak in water 5-9 minutes, and it's ready to use. Two nylon straps with hook-and-loop closure wraps around hard hat harness and allow workers to attach easily to the back of the hat. 100% cotton, hand washable.

### J - Hard Hat Cooling Liner

Simply soak this liner for 5 to 9 minutes in cold water and feel instant relief that lasts all day. Attaches to the hard hat harness with an easy elastic/Velcro® closure. One size fits all. Liner is 100% cotton and comes in royal blue. Hand washable.

KEY SKU	MFG#	DESCRIPTION

## HARDHAT EXTRAS

### A - Ventilated Mesh Helmet

Ventilated mesh helmets are cool and lightweight, with an additional coating to increase its durability when wet. Ventilated helmets also come with a built in sweatband to increase comfort. Not ANSI approved.

### B - Round Bee Veil

The round bee veil is available with string or elastic. There are no seams to inhibit vision. Requires full brim helmet. Veil with pull string has the long string coming out the front. Veil with elastic has a long string coming out in the back and a loop in the front.

### C - Hardhat Sun Shields

Sun Shield extends hardhat brims to help protect face, ears and neck from UV and sunburn. Fits full brim hat or cap for maximum protection.

### D - Hardhat Suspension Liner

100% washable cotton terry material absorbs oils and perspiration during wear. For hard hats, bump caps, face shield assemblies, and welding hoods.

### E - SIPCO Hardhat Racks

Car seat mounted or wall-mounted nickel-plated rack keeps industrial headgear secure, and away from damaging sunlight. Wall-mounted unit can be attached to inside of vans, trucks or on office walls.

### F - HEADLINE IT! Hard Hat Liner

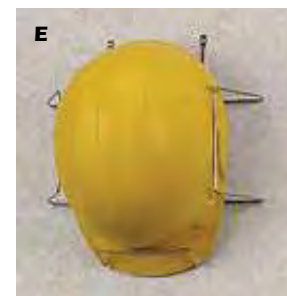

A thin, disposable liner made from high tech wick wear, designed to fit into any hat, helmet, wig or headwear item helping to increase safety, hygiene & comfort.

## FACESHIELDS & HEADGEAR

# Honeywell

## NORTH

### A - Protecto-Shield Prolok® Headgear

- Impact Splash Protection
- Constructed of tough thermoplastic
- Ratchet or positive snap headband adjustment and sweatband
- Easy sizing and tension adjustment for individual visor positioning
- Visors attach with no snaps, posts or levers
- Headgear is specially designed with a chemical splash drip edge to prevent fluids from splashing down inside the visor

### B - Kwik-Klip® Visor Mounting Brackets

Accessories that allow secure attachment to Honeywell or competitive hard hats using simple spring tension.

### C, D, E - Protecto-Shield® Replacement Visors

Meets ANSI Z87+ and CSA Z94.3 safety standards

- Available in propionate, polycarbonate and acetate for a variety of environments
- Attachment without snaps, posts or levers
- Universal hole pattern allows use of visors with other popular manufacturers' headgear
- Shaded visors do not offer protection against harmful ultraviolet and infrared radiation, such as arc welding. Such devices shall be worn over suitable basic eye protection.

## A, B - Bionic® Shield

- Full shield design provides built-in chin protection and extended top-of-head coverage for enhanced protection from airborne debris
- Perfect for workers exposed to falling or flying objects, impact, chemical splash, and airborne debris
- Excellent optics provide increased visibility
- 100% dielectric — no metal parts
- Dual position headgear provides a customizable fit
- Comfortable cell foam on back of headgear
- Breathable, removable, washable headband
- Comfortably worn with most goggles and respirators
- Hard hat accessory (dielectric) expands face shield use and is compatible with multiple hard hats, including Sperian® brand and most other major manufacturers' styles
- Meets ANSI Z87.1 (High Impact) and CSA Z94.3 standards

KEY SKU	MFG#	DESCRIPTION
A.....	P02019..	S8500.....Bionic Shield w/ clear visor and ratchet suspension
B.....	P02020..	S8505.....Bionic Shield w/ clear uncoated visor and hardhat adapter

## INDUSTRIAL & ARC FLASH SHIELDS

# PAULSON

### E - Industrial Hat Bracket HB2-HD

Rated for dielectric and high temperature utility and industrial applications. A low profile hat bracket with adjustable pivots and secure elastomeric attachment. Five cam locks provide secure face shield window retention. Fits full brim helmets. Meets ANSI Z87.1 specifications.

### F - ArcShield

ArcShield is used in association with dielectric head protection and accessories to provide protection from the hazards of arc flash. Arc flash is a common hazard in electric utility operations. Fits non-slotted and slotted caps. Do not use an ArcShield for electric arc welding exposures. 10 Cal/cm<sup>2</sup> ARC Rating. Meets NFPA 70E-2004; ANSI Z87.1

## ARC FLASH SHIELDS

A

B

C

D

### A - AS1200-SPL Arc Flash Face Shield with PrismShield™ & North Zone Hard Hat

A 12 cal/cm<sup>2</sup> Weight Balancing face shield with PrismShield™ with North Zone hard hat. PrismShield™ provides full color recognition, making sure workers will set similarly-colored objects apart at all times. It also increases general visibility, especially when working indoors in poorly-lit rooms. Our anti-scratch and anti-fog coatings are a guarantee for lens longevity, and our exclusive weight-balancing frame elevates comfort by reducing neck strain for users.

A reliable solution from Honeywell to improve color recognition and visibility – with all colors in sight and full safety on site

### B - AS Storage Bag

Cotton canvas storage bag w/ drawstring closure & fleece interior, for AS1000 series products.

### C - AFHOOD20 Arc Flash Hood

360 degree° head and neck protection from arc flash dangers when used with a AS1000 Series Faceshield/Hard Hat/Chin Cup Unit. Made from two layers of rib knit material and has an elastic face opening that maintains its shape and size. The AFHOOD20 has an ATPV rating of 20 cal/cm<sup>2</sup>. AFHOOD20 can be used with AS1000, AS1200, and AS2000 face shields.

**CAUTION:** Arc Flash Hoods must be worn in combination with a faceshield in order to comply with the requirements of NFPA 70E and will protect 360° inside the arc flash boundary.

### D - SKA20-SPL Arc Flash Kit

Make your Personal Protective Equipment purchasing even easier. This convenient kit contains a 20 cal/cm<sup>2</sup> AFHOOD with 20 cal/cm<sup>2</sup> AS2000HAT and face shield with PrismShield™, ANSI rated safety glasses and ASBAG.

## GOGGLES

E

F

G

### E - V90 Shield Splash Goggles

Meets ANSI Z87.1+ Impact Standard

- Features Monoggle XTR with full face protection
- Full face protection detaches from goggle
- Curved faceshield conforms to shape of face offering better protection
- Polycarbonate shield for added protection
- Fits over most prescription eyewear
- Chemical and impact protector

### F - Capstone Goggles w/ Removable Shield

Meets ANSI Z87.1+ Impact Standard

- Capstone goggle incorporated with removable shield for full face protection.
- The shield with ratchet allows user to open or close in 3 positions for adjustment; 4 ventilation holes provide appropriate airflow.
- The polycarbonate shield conforms to the face offering increased impact and dust protection.
- Includes 2 disposable tear off visors, which can be replaced as they become dirty or scratched.

### G - Capstone Dual Lens Goggles

Exceeds The ANSI Z87.1 High Velocity Impact Standards.

- Dual lens ensures ultimate anti-fog performance. Ideal for use over long periods of time.
- Indirect-vent frame provides protection against splash and dust.
- Double lens consists of polycarbonate lens on the outer side with acetate anti-fog lens on inner side.
- Adjustable quick release elastic band for easy on/off
- Soft vinyl body conforms to facial contours for a comfortable, custom fit.
- Fits over prescription eyewear.

## A - I-Force Safety Goggles

Sporty, lightweight design eliminates the bulkiness and weight of a goggle. Quick release interchangeable temples and an elastic strap. Indirect vented foam carriage provides maximum dust protection, as well as a sufficient airflow outlet for heat. The thermal system provides anti-fog protection in the worst weather conditions or extreme-temperature working environments. Dual pane lens provides the ultimate anti-fog performance. Exceeds ANSI Z87.1 High Impact Requirements.

## B - V2G Safety Goggles

Foam padding keeps out dust and airborne particles. Lenses are treated to prevent fogging and provides 99% protection against UV rays. Interchangeable temples/headband included with each pair of V2G. Headband features quick fit retainer. Exceeds ANSI Z87.1 High Impact Requirements.

## C - V2G Plus Safety Goggles

TPU frame features excellent resistance to cold and heat and provides a perfect facial seal. Special indirect ventilation system allow air flow & heat release. Includes an adjustable elastic strap with quick release system for secure fit. Optional rx-insert frame secures in the inner side of frame. Dual pane lens provides the ultimate anti-fog performance. Exceeds ANSI Z87.1 High Impact Requirements.

## D - G700 Series Goggle

Low profile, modern sport design with anti-glare frame. Indirect vent provides chemical splash protection. Adjustable elastic band and soft PVC frame. Scratch resistant polycarbonate lens provides 99% UVA/B/C protection.

## E - Uvex Flex Seal®

Meets ANSI Z87.1 (High Impact) and CSA Z94.3 standards

- Lightweight, silicone body conforms to assure the highest level of comfort and eye protection from impacts and chemical splashes
- Uvextreme® anti-fog coating and indirect venting system
- Fits over most prescription eyewear
- Pivoting clips permit the wearer to position the goggle on a hard hat or position the headband above the ears

## F - Uvex Classic™

Meets ANSI Z87.1 (High Impact) and CSA Z94.3 standards

- Goggle body made of a soft flexible PVC for increased comfort
- Fits over most Rx spectacles

## G - Uvex Stealth®

Meets ANSI Z87.1 (High Impact) and CSA Z94.3 standards

- Indirect venting system for chemical splash and impact protection
- Provide greater than 99.9% protection from harmful UV rays
- Indirect ventilation system minimize fogging

## H - V-Maxx® Goggle

Meets ANSI Z87.1 (High Impact) and CSA Z94.3 standards

- Sleek wrap-around styling
- Direct & indirect ventilation styles available for impact or splash apps
- Adjustable and pivoting headband
- Peel-off goggle covers available to extend useful life of the lens
- Coated with Uvextra anti-fog coating

## I - A600 Goggle

Meets ANSI Z87.1 (High Impact) and CSA Z94.3 standards

- Economical impact or splash goggle options
- Fits over most prescription eyewear

All Pyramex safety glasses meet ANSI Z87.1 High Impact requirements and provide 99% UV protection

## A - Avante™

- Vented frame to prevent fogging
- Straight back flexible temples provide an outstanding fit
- Built in rubber nose pads provide comfort fit and protect against slipping

## B - Azera™

- Built in rubber flange nose piece for comfort
- Flexible temples provide outstanding fit

## C - Fortress™

- Adjustable nose pad for a broad range of bridge sizes
- Anti-Scratch lenses
- Vented lens to prevent fogging

## D - PMXTREME

- Rubber temple tips and nose piece provides all day comfort.
- 9.0 Base curve polycarbonate lens provides maximum vision protection

## E - Rendezvous®

- Align the angle of the lens to the proper position for your work application with ratcheting lens pitch adjustment
- Adjustable nose pad conforms to a broad range of bridge sizes
- Temples adjust to four different lengths

## F - Pacifica®

- Flexible, soft nose piece and temple tips
- Temples feature length and pitch adjustments for a perfect fit
- Frame is vented to allow the free flow of air to prevent fogging
- Durable frame and cushioned brow protection

## G - Mayan®

- Dual focus lens for the highest optical clarity
- In-line ratchet adjustable temples
- Soft rubber straight back temples

## H - Solara™

- Built in nose pads elevate frame for precision fit and weightless wear
- Extended lens provides complete coverage
- Straight back temples with rubber insert provides comfort fit

## SAFETY GLASSES

Honeywell Uvex safety glasses meet ANSI Z87.1-2010 High Impact requirements and provide 99% UV protection.

A

B

C

D

E

F

G

H

### A - Millennia™

- Superior side and brow protection with High impact dual 9-base wraparound unilens
- Includes adjustable break-away FlexiCord for added security and convenience
- Comfortable universal nose bridge

### B - Protege™

Meets Military V<sub>0</sub> ballistic test for impact (protection against impact energies 7x higher than ANSI and CSA require)

- Proprietary Floating Lens™ design offers increased flexibility for better fit
- Soft, clear nose pads prevent slipping

### C - Astro OTG® 3001

- Same features as the Uvex Astrospec 3000 with attractive over-the-glass styling. Fits over prescription glasses.

### D - Polysafe®

- Safety eyewear for visitors. Wide viewing area with excellent coverage. Fits over most prescription eyewear

### E - Ambient™ OTG

Meets Military V<sub>0</sub> ballistic test for impact (protection against impact energies 7x higher than ANSI and CSA require)

- Over-the-glass coverage, offering your workers full protection while wearing their own prescription eyewear
- Soft, flexible nasal fingers conform to a variety of facial profiles.
- Adjustable and bendable, wire-core temples offer customized fit.
- Offered in two lens sizes (medium and large) to fit a variety of users.

### F - Tomcat®

- Soft, flexible rubber temple grips for a customized fit
- Adjustable saddle nose pads provide a snug, comfortable fit.

### G - Ignite™

Meets Military V<sub>0</sub> ballistic test for impact (protection against impact energies 7x higher than ANSI and CSA require)

- Soft temple tip pads ensure a fit that is both comfortable and secure
- 180 degrees of distortion-free, unobstructed vision

### H - Seismic® Sealed Eyewear

Contemporary style that can be worn with temples or headband. Provides protection against impact, sun, wind, and debris. Ideal for high-particulate environments such as grinding, chipping and sanding.

## SAFETY GLASSES

### A - Hypershock™

Lightweight, wrap-around frame is engineered to fit a wide range of workers, providing increased coverage, side protection and superior peripheral vision. 100% dielectric. Can be worn in environments where accidental exposure to electrical charge is possible. Features Uvextreme Plus® anti-fog lens coating for superior, long-lasting fog free vision that lasts up to 10X longer and provides 2X better scratch resistance than competitive anti-fog coated products.

### B - Instinct™

Ratcheting temples, flexible nosepiece and padded temple tips provide a comfortable, tension free fit. Features Uvextreme® Plus anti-fog lens coating for superior fog-free vision that lasts up to 10X longer and provides 2X better scratch-resistance than competitive anti-fog coated products.

### C - A700 Series

- Lightweight design with sport temples and soft temple tip pads provide a secure, wrap-around fit and all-day comfort
- Molded universal nose bridge provides a comfortable fit
- 9-base polycarbonate hardcoated lenses provide a 180° field of distortion-free vision

### D - A800 Series

- Sporty styling provides a fashionable fit
- Temples feature aggressive sports styling and soft, padded inserts with extra flex built in for more comfort
- 9-base polycarbonate hardcoated lenses provide a 180° field of distortion-free vision
- Soft nosepiece conforms to various nose bridge shapes for added comfort and a non-slip fit
- Does not meet CSA standards

### E - A900 Reader/Magnifiers Series

- Sporty, wrap-around design delivers style and excellent side coverage
- Soft, padded temple tips and non-slip nose bridge provide a secure, comfortable fit
- Available with Clear or TSR® Gray lenses in 1.5, 2.0 and 2.5 magnification/diopter strengths

### F - W200 Series for Women (discontinued)

- Designed specifically to fit women - smaller sizing, modern designs and updated styles for comfortable, all-day protection
- Traditional styling - Temple with optical curve
- Molded to shape nosepieces - Comfortable fit
- Available with scratch-resistant hardcoat or Fog-Ban anti-fog coating
- Does not meet CSA standards

## SAFETY GLASSES

All safety glasses on this page meet ANSI Z87.1-2010 High Impact requirements and provide 99% UV protection

### JACKSON

A

B

C

D

### A - Nemesis

- Sporty, flexible, lightweight design
- Soft-touch temples for added comfort
- Single-lens wrap-around protection
- Neck cord included
- Provides 99.9% UV protection and meets ANSI Z87.1+ standard

### B - Nemesis IR 3.0 & 5.0

- Sporty, flexible, lightweight design
- Soft-touch temples for added comfort
- Single-lens wraparound protection
- Includes free neck cord.
- Lens Color: IR 3.0 & 5.0 - Protects against harmful UV and IR radiation in welding, brazing, cutting, and soldering environments; 3.0 provides medium protection, 5.0 provides heavy protection.
- Provides 99.9% UV protection and meets ANSI Z87.1+ standard

### C - V30 Nemesis Polarized

- Superior polarized lens technology reduces eye stress & fatigue
- Wraparound lens with an 8 base curve for greater all-round protection
- Soft-touch temples for ultimate comfort in extended use situations
- Superior anti-scratch performance
- Provides 99.9% UV protection and meets ANSI Z87.1+ standard

### D - V60 Safety Eyewear with RX Inserts

- A convenient way to get prescription eyewear into your workplace
- Prescription grade lens, no side shields
- Rx Prescription insert included
- Lightweight safety glass with adjustable temples for a custom fit
- Provides 99.9% UV protection

### E - Badge Holder Lanyards

Perfect for identification tags, security keys or anything that needs to be kept accessible, but out of the way. Works well with various styles of detachable clips and vinyl ID sleeves. Cotton knit or braided synthetic.

### Badge Holder Clips

- F - YKK® Detachable™** This detachable clip allows user to remove the badge for scanning without having to lean into the scanner.
- G - Gator-Clip with Snap™** clip for veteran badge user who can't stand innovation. Attached strap snaps around any style badge lanyard.

KEY	SKU	MFG#	DESCRIPTION
E.....	P05006...	11090100.....	Badge Holder Lanyard, cotton knit, breakaway
E.....	P05024...	11125100.....	Badge Holder Lanyard, synthetic, breakaway
F.....	P05018...	RHOOK2.....	YKK Detachable 2 part badge holder clip
G.....	P05019...	RHOOK4.....	Gator-Clip and clear vinyl strap

### H, I - Retractor ID Holders

Enables you to use your ID badges without having to unclip them. Retractable reel clips to belts, straps and most anything else. New high strength braided nylon cord. Vinyl strap clip holds id or pass securely.

KEY	SKU	MFG#	DESCRIPTION
H.....	P05041...	30023100.....	Retractor ID Holder, large, retractable reel (22") with snap hook clips to your jacket, pants
I.....	P05042...	30030100.....	Retractor ID Holder, small, reel clips to your belt or else

### J - Secure Entry Breakaway Lanyard

Reconnecting breakaway lanyard. High resistance to abrasion and rot and working conditions containing solvents, alkalis and acids. Detachable side release buckle. Includes Dual Sided Plastic Card Holder (Item# 30068) fits smart cards, CAC cards, TWIC cards, or credit cards. Includes Vertical Vinyl Zipper Sleeve (Item# 30066) for other badges

KEY	SKU	MFG#	DESCRIPTION

J.....	P05051...	11702.....	Breakaway Lanyard w/ detachable side release buck only, black
J.....	P05052...	30066.....	Vertical Vinyl Zipper Sleeve only, clear
J.....	P05053...	30068.....	Dual-Sided Plastic Card Holder only, black

## EYE PROTECTION CLEANING & ACCESORIES

### A - Large Disposable Eyewear Cleaning Station

For busy work sites, this disposable station features a 16 oz. anti-static, anti-fog, non-silicone lens cleaner dispenser and 1200 non-abrasive, low-lint 3" x 8" tissues in a heavy-duty, recyclable cardboard tabletop or wall-mounted dispenser. Dimensions: 8 3/4" w x 12 3/4" h x 5" d.

### B - Small Disposable Eyewear Cleaning Station

Features 600 easy-dispensing non-abrasive, low-lint 3" x 8" lens tissues and an 8 oz. anti-static, anti-fog, non-silicone lens cleaner that removes dirt and oil from glasses and lenses. The heavy-duty, recyclable cardboard dispenser may be mounted to the wall or used as a tabletop dispenser. Dimensions: 7" w x 8 1/4" h x 5 1/8" d.

### C - Eyewear Cleaning Wipes

Perfect for cleaning eyewear, these 100 individually wrapped pre-moistened wipes feature anti-fog, anti-static, silicone-free cleaning. Excellent on glass or polycarbonate lenses, the large 5" x 8" wipes are stored in a wall-mounted cardboard dispenser. Dimensions: 4 3/4" w x 9" h x 2 5/8" d.

### D, E, F - Lens Cleaning Solutions

Anti-static, anti-fog solutions, contain no silicone and are safe on glass, plastic, and polycarbonate surfaces. Tissues are non-abrasive, low-lint, and are interfolded to pop-up.

KEY SKU	MFG#	DESCRIPTION
A .....	P03004...0355	.....Large Disposable Station
B .....	P03005...0355-01	.....Small Disposable Station
C .....	P03003...0350	.....Eyewear Cleaning Wipes, 100/box
D .....	P03007...0357-01	.....16 oz. Liquid Cleaner

F .....	P03009...0358-01	.....Lens Cleaning Tissues, 4" x 5", 300/box

### F - Uvex® Fog Eliminator Cloths

Formulated to effectively protect lenses from all types of fogging caused by cold, high humidity or sudden temperature changes. Safe for all surfaces, including polycarbonate and glass and provide multiple uses. Streak, film, alcohol and silicone free and non-toxic and non-flammable.

### G - Uvex Clear® Lens Cleaning Solution

Specifically formulated for anti-fog and scratch resistant hardcoats. Does not contain silicone

KEY SKU	MFG#	DESCRIPTION
F .....	P03289...S477	.....Uvex Fog Eliminator Cloths, sold individually
G .....	P03288...S463	.....Uvex Clear Lens Cleaning Solution, 16oz. spray bottle

### H - Lens Cleaning Towelettes

Lens cleaning wipes for safety glasses, goggles and visors in a convenient, dispensing tub. These pre-moistened towelettes contain an anti fog, anti static cleaning solution for cleaning glass, plastic and polycarbonate. Eliminates the waste of individually wrapped lens cleaning wipes. Each dispensing tub contains 100, 5x8" towelettes.

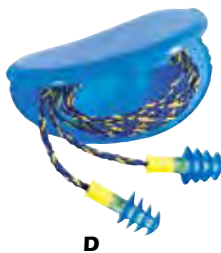

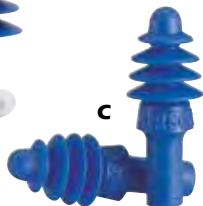

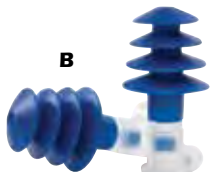

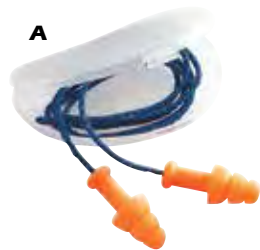

- For plastic, glass, and polycarbonate lenses
- Ideal for glasses, goggles and visors
- Anti-fog, anti-static formula
- Contains 100 5 x 8 towelettes

KEY SKU	MFG#	DESCRIPTION
H .....	P03375...LCC100	.....Lens Cleaning Towelettes, 100/canister

## MULTIPLE-USE EARPLUGS

**Honeywell**  
HOWARD  
LEIGHT

### A - SmartFit®

- Patented Conforming Material Technology™ uses body heat to adapt to shape of ear canal
- Superior comfort and truly individual fit
- Detachable cord and HearPack® storage case

### B - Clarity®

- Patented Sound Management Technology™ (SMT) enhances communication by blocking low and medium frequencies while higher frequencies (voice, signals, alarms) can be heard
- Ideal for noise environments of 95dB or lower

### C - Airsoft®

- Advanced air pocket design
- Maintains superior comfort for extended wear
- Highest NRR available in Honeywell reusable earplugs

### D - Fusion®

- Patented dual material design
- FlexiFirm stem for easy grip
- SoftFlange design for superior comfort and fit
- Unique detachable nylon cord system
- Two sizes fine-tune fit for personal comfort and safety

### E - Fusion® Detectable

- Metalized cord and shaft ring easily detected by automated equipment
- Cleans with soap and water, lasts between 2 - 4 weeks
- Comes with HearPack® storage case

### F - QB2®HYG

- Soft pads rest partially in the ear for a balance of protection and comfort
- Patented band design prevents ear pads from touching dirty or contaminated surfaces
- Lightweight and portable designed especially for environments with intermittent noise hazards

## EARPLUGS

### A - 3M™ E-A-R® UltraFit®

Patented flange design gives the most comfortable fit of any reusables. Washable, promotes worker hygiene. No rolling or touching plug portion during insertion. Includes protective carry case.

### B - 3M™ E-A-R® Classic®

Will not absorb moisture and swell. Foam will maintain its comfort, fit and critical recovery characteristics. Shape equalizes pressure, prevents shifting and keeps noise seal constant. Dermatologically safe.

### C - 3M™ E-A-Rsoft™ Yellow Neons™

The world's softest earplugs. Self-adjusting foam provides low pressure with excellent attenuation. Dermatologically safe foam is not irritating.

### D - 3M™ E-A-R® Push-Ins

Easy fit with no roll down required. EARform™ yellow foam tip for ultimate comfort. Stem allows for hygienic insertion & removal.

### E - 3M™ E-A-R™ Skull Screws™

3M™ E-A-R™ Skull Screws™ push-to fit corded foam earplugs sport the tough look of threaded metal, but feel of soft foam, while offering push-to-fit convenience and noise attenuation with attitude. Effective hearing protection and compliance with a clean, easy twist.

### F - 3M™ Foam Earplug

Soft cloth cord for worker convenience and helps prevent loss. Cord drapes without twisting or binding. Smooth foam seals the ear comfortably. Reduced noise transmission through cord.

### G - 3M™ Noise Indicator NI-100

Innovative and durable noise detection, the NI-100 noise indicator alerts you when noises in an area reach potentially hazardous levels. The noise indicator's small size and lightweight design make it ideal for workers in a variety of industries. With a rechargeable battery that operates for up to 200 hours between charges, it's an economical investment in your hearing conservation program.

## Honeywell

HOWARD LEIGHT

### NOISE-BLOCKING EAR MUFFS

For Maximum Protection

#### A, B, C, D, E, Leightning®

Leightning series' steel-wire construction provides high performance and robust durability. Leightning stands up to daily use and abuse without compromising comfort. Howard Leight has optimized the Leightning series to deliver the highest level of comfort available, featuring an exclusive padded foam headband and super-soft ear cushions that eliminate that "squeezing" pressure on the head. The Leightning series also features patented Air Flow Control™ technology for optimal attenuation across all frequencies and snap-in ear cushions for easy maintenance.

#### F, G - Thunder®

Thunder series earmuffs are designed with all-day comfort in mind. Thunder headband earmuffs feature a unique dual headband for better positioning and breathability, and a non-deforming outer headband that minimizes pressure on the head. Plus, its dielectric construction withstands use and abuse, while protecting workers in electrical environments. The Thunder series features patented Air Flow Control™ technology for optimal attenuation across all frequencies and also snap-in ear cushions for easy maintenance.

#### H, I - Viking®

Viking series multiple-position earmuffs give workers the flexibility to wear their earmuffs over-the-head, behind-the-head or under-the-chin. Viking earmuffs can be worn with other PPE, including hard hats, visors, face shields, respirators and welding shields. Plus, Viking's robust non-deforming dielectric construction withstands use and abuse while protecting your workers in electrical environments. The Viking series features patented Air Flow Control™ technology for optimal attenuation across all frequencies and also snap-in ear cushions for easy maintenance.

#### J - Earmuff Hygiene Kit

For extended earmuff performance and improved hygiene. Includes one pair of snap-in ear cushions and one pair of foam earcup inserts for Leightning L3s/L3H/L3N/L3HV and Viking V3 only.

Extends performance and lifetime of earmuff. Recommended replacement every 6 months with general use. Snap-in ear cushions for quick and easy replacement.

## SOUND MANAGEMENT EAR MUFFS For Clarity and Protection

**Honeywell**  
HOWARD  
LEIGHT

### A - Clarity®

Using patented Sound Management™ Technology, Clarity Series earmuffs improve worker safety by blocking noise, while voice and signal frequencies can be heard more naturally. Clarity earmuffs provide uniform attenuation that allows speech frequencies to be heard with less distortion – combating worker isolation and overprotection on the job. Plus, Clarity's robust non-deforming dielectric design withstands use and abuse while protecting workers in electrical environments.

### B - Impact®

Impact enhances user awareness of their environment through advanced sound amplification technology. Impact allows wearers to hear important communication – other co-workers, alarms and warning signals – at a safely amplified level. Positioned microphones provide more natural, directional hearing. Through an advanced response technology, Impact reverts to passive earmuff mode when noise reaches 82 dB or above. Impact is ideal for hearing-impaired workers and can help prevent isolation on the job.

### C - Impact® Sport

As safety on the range and in the field is most important, Impact Sport keeps wearers both protected from hazardous noise and connected to their environment. Impact Sport employs built-in directional microphones that amplify range commands and other ambient sounds to a safe 82 dB, providing more natural listening and enhances communication. For protection, Impact Sport actively listens and automatically shuts off amplification when ambient sound reaches 82 dB, effectively blocking out hazardous noise.

## DISPOSABLE RESPIRATORS

### 3M™ TEKK Protection™ Painting Respirators

Recommended for sanding, preparation and painting. Advanced filter material allows easier breathing. NIOSH approved.

#### A - 8210PA1-A - N95 TEKK Protection Respirator

- Provides at least 95% filtration efficiency against solid and liquid aerosols that do not contain oil.

#### B - 8511PA-2A - N95 TEKK Protection Valved Respirator

- The patented Cool Flow™ valve allows for easy exhalation and heat reduction for cool, dry comfort.
- Provides at least 95% filtration efficiency against solid and liquid aerosols that do not contain oil.

#### C - 8577PA1-A - P95 TEKK Protection Paint Odor Valved Respirator

- Helps relieve annoying odors from latex and aerosol spray paints and some solvent based strippers, stains and varnishes.
- The patented Cool Flow™ valve allows for easy exhalation and heat reduction for cool, dry comfort.
- Provides at least 95% filtration efficiency against solid and liquid aerosols and is strongly resistant to oils

D	.....	P09622	...8515HA1-A .....8515HA1-A N95 3M TEKK Welding Respirator, 1/pk

### 3M™ TEKK Protection™ Bleach Odor Respirator

Helps relieve annoying odors from latex and aerosol spray paints. NIOSH approved: R95.

#### E - 8246HA1-A - R95 TEKK Protection Respirator

- Provides at least 95% filtration efficiency against solid and liquid aerosols and is somewhat resistant to oils
- Carbon layer for nuisance levels of acid gas

KEY	SKU	MFG#	DESCRIPTION
E	.....	P09623	...8246HA1-A .....8246HA1-A R95 3M TEKK Bleach Odor Respirator, 1/pk

## Respirator Filter Definitions

### 3M 42 CFR 84 Filters

#### N-Series Filters (Not resistant to oil)

These filters are restricted to use in those atmospheres free of oil aerosols. They may be used for any solid or liquid airborne particulate hazard that does not contain oil. Generally these filters should be used and reused subject only to considerations of hygiene, damage, and increased breathing resistance.

**N95 Particulate Filter** - At least 95% filter efficient when tested with ~0.3 µm NaCl aerosol. 3M has replaceable filters and filtering facepiece respirators in this category.

**N100 Particulate Filter** - At least 99.97% filter efficient when tested with ~0.3 µm NaCl aerosol. 3M has a filtering facepiece respirator in this category.

#### R-Series Filters (Resistant to oil)

A filter intended for removal of any particle including oil-based liquid aerosol. They may be used for any solid or liquid airborne particulate hazard. If the atmosphere contains oil, the R-series filter should be used only for a single shift (or for 8 hours of continuous or intermittent use).

**R95 Particulate Filter** -At least 95% filter efficient when tested with ~0.3 µm DOP (Diocetyl Phthalate) aerosol. 3M makes filtering facepiece respirators in this category.

#### P-Series Filters (oil Proof)

A filter intended for removal of any particle including oil-based liquid aerosols. They may be used for any solid or liquid particulate airborne hazard. NIOSH requires that respirator manufacturers establish time-use limitations for all P-series filters. 3M recommends that P-series filters should be used and reused for no more than 40 hours of use or 30 days, whichever occurs first, in atmospheres that contain only oil aerosols, unless the filter needs to be changed for hygiene reasons, is damaged, or becomes difficult to breathe through before the time limit is reached. When used in atmospheres containing non-oil aerosol, 3M P-series filters should be used and reused subject to conditions of hygiene, damage and increased breathing resistance.

**P95 Particulate Filter** - At least 95% filter efficient when tested with ~0.3 µm DOP (Diocetyl Phthalate) aerosol. 3M makes replaceable filters and filtering facepiece respirators in this category.

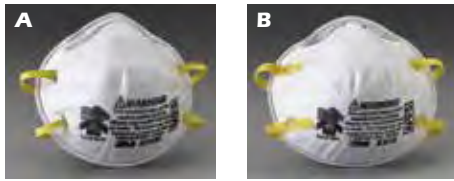

**P100 Particulate Filter** - At least 99.97% filter efficient when tested with ~0.3 µm DOP (Diocetyl Phthalate) aerosol. 3M makes replaceable filters and filtering facepieces in this category.

**Oil:** Any of numerous mineral, vegetable and synthetic substances and animal and vegetable fats that are generally slippery, combustible, viscous, liquid or liquefiable at room temperatures, soluble in various organic solvents such as ether but not in water.

## DISPOSABLE RESPIRATORS

3M™

### 3M™ Dust Respirators

#### A - 8110S & B - 8210 - N95 Particulate Respirator

- 8110S is designed for smaller faces
- Workplace applications include grinding, sanding, sweeping, bagging and other dusty operations.

#### C - 8233 - N100 Particulate Respirator

- This respirator is an excellent choice for lead abatement, pharmaceutical manufacturing, welding, metal pouring and work involving OSHA substance specific particle exposures in concentrations up to 10 x the OSHA PEL, excluding asbestos. It features the 3M™ Cool Flow™ Exhalation Valve, comfortable foam face seal, adjustable straps, and lightweight construction.

#### D - 8293 - P100 Particulate Respirator

- Workplace applications includes OSHA substance specific particle exposure in concentrations up to 10x the OSHA PEL (Lead, Cadmium, Arsenic, MDA, excluding asbestos). This respirator features the 3M™ Cool Flow™ Exhalation Valve, comfortable foam face seal and adjustable straps.

#### E - 8511 - N95 Particulate Respirator

- It is ideally suited for work settings that involve heat, humidity, or long periods of wear.
- Workplace applications include grinding, sanding, sweeping, bagging and other dusty/hot operations. It features the 3M™ Cool Flow™ Exhalation Valve, braided headbands, soft inner materials, and adjustable M-noseclip to help provide a custom fit and secure seal.

#### F - 9210+ - N95 Particulate Respirator

- This three-panel respirator with innovative design is uniquely designed to help provide comfortable, reliable worker protection against non-oil based particles.
- Suggested applications include grinding, sanding, sweeping, bagging, and other operations that create dust. Uses would also include solids such as those from textile operations, dry chemical handling, surface preparation, food preparation and handling, woodworking, grain handling and milling, processing of minerals, and certain other substances.

#### G - 9211+ - N95 Particulate Respirator

- This three-panel respirator with innovative design is ideally suited for work settings that involve heat, humidity, or long periods of wear.
- Suggested applications include grinding, sanding, sweeping, bagging, and other operations that create dust. Uses would also include solids such as those from textile operations, dry chemical handling, surface preparation, food preparation and handling, woodworking, grain handling and milling, processing of minerals, and certain other substances. It features a low profile collapse resistant design, 3M™ Cool Flow™ Exhalation Valve, and a soft nose foam pad.

3M™

### 3M™ Nuisance Odor Respirators

Designed to help provide comfortable protection against certain oil and non-oil based particles including those present with nuisance levels of organic vapors, such as solvents, degreasers, and resins.

Suggested applications include foundry operations, lab settings, agriculture, petrochemical manufacturing and undercoating where particles and nuisance levels of organic vapors may be present.

#### H - 8247 - R95 Particulate Respirator with Nuisance Level Organic Vapor Relief

- Lightweight construction promotes greater worker comfort and contributes to increased wear time.

#### I - 8577 - P95 Particulate Respirator with Nuisance Level Organic Vapor Relief

- An excellent choice for work settings that involve heat, humidity and long wear periods.
- Features the 3M™ Cool Flow™ Exhalation Valve for cool, dry comfort, and M-noseclip to help provide a custom fit and secure seal.

KEY	SKU	MFG#	DESCRIPTION
H	.....	P09086...8247	.....8247 R95 disp respirator, organic vapor relief, 20/box
I	.....	P09091...8577	.....8577 P95 disp respirator, organic vapor, w/ valve, 10/box

## 3M™ Welding Fume Respirators

For welding and metal fabrication, workers need respirators which are as comfortable as possible. When worn during welding, they deliver the safety and security you're looking for with a deep loading, cake resistant, long life, flame retardant filter.

Designed for applications such as welding, brazing, soldering, torch cutting, metal pouring and other operations where metal fumes may be present. It can also be used in grinding, sanding, sweeping, bagging and other dusty/hot operations.

### A - 8212 - N95 Welding Respirator with Faceseal

- Features the 3M™ Cool Flow™ Exhalation Valve, a cake-resistant media, a comfortable faceseal and fully adjustable straps.

### B - 8214 - N95 Welding Respirator with Faceseal and Nuisance Level Organic Vapor Relief

- 3M recommended for relief against nuisance levels of organic vapors and ozone protection up to 10 times the OSHA PEL or applicable government occupational exposure limits, whichever is lower.
- It is especially well-suited for foundry operations, lab settings, undercoating and petrochemical operations.
- Features the 3M™ Cool Flow™ Exhalation Valve, a cake-resistant media, a comfortable faceseal and fully adjustable straps.

## 3M™ Nuisance Level Acid Gas Respirators

Suggested applications include glass etching, chemical processing, paper processing, aluminum smelting and brewing operations where particles present with nuisance levels of acid gases such as sulphur dioxide, hydrogen fluoride, and/or chlorine.

### C - 8246 - R95 Particulate Respirator with Nuisance Level Acid Gas Relief

- Its lightweight construction promotes greater worker comfort and contributes to increased wear time

### D - 8516 - N95 Particulate Respirator with Nuisance Level Acid Gas Relief

- An excellent choice for work settings that involve heat, humidity and long wear periods. It features the 3M™ Cool Flow™ Exhalation Valve and the M-noseclip for greater comfort.

### E - 8576 - P95 Particulate Respirator with Nuisance Level Acid Gas Relief

- Its lightweight construction promotes greater worker comfort and contributes to increased wear time. It features the 3M™ Cool Flow™ Exhalation Valve and the M-noseclip for greater comfort.

### F - SAS Nuisance Dust Mask

Adjustable metal nose piece shapes easily to face. Single strap elastic head band. Reduces the irritating effects from non-toxic particles such as pollen, common household dust and cut grass. Does not provide NIOSH approved respiratory protection.

### G - SAS N95 Particulate Respirator

95% filter efficiency level effective against particulate aerosols free of oil; time use restrictions may apply. Maintenance-free construction with an adjustable nose bridge with foam strip to reduce the potential for eyewear to fog and latex-free stapled fixed head strap.

KEY SKU	MFG#	DESCRIPTION

## DISPOSABLE RESPIRATORS

# Honeywell

### A - Nuisance Disposable Dust Mask

The disposable Nuisance Dust Mask provides basic protection against non-toxic dust, pollen, mold and dander. Adjustable nose bridge clip offers a secure fit. Special order.

### B, C - North ONE-Fit N95 Respirators

An exclusive design and shape. One size respirator designed to fit most face sizes and shapes. The NBW95 and the NBW95V (with valve) are designed to be an economical choice for effective single-use respiratory protection while meeting NIOSH standards for N95 protection.

- 95% filtration efficiency against solid particulates and non-petroleum based liquid aerosols.
- Meets CDC guidelines for M. tuberculosis exposure control.
- Recommended for protection against many substances including pandemic diseases such as H5N1 Avian Flu and SARs.

KEY SKU	MFG#	DESCRIPTION

# Honeywell

### SAF-T-FIT® Plus Disposable Respirators

Three sizes, color-coded for a better fit on a wider range of facial features. Lightweight, humidity resistant, hypoallergenic filter media maximizes wearer comfort and respirator service life. Models with boomerang nose seal or full sealing flange provide user with added comfort and increased protection.

### D - N1105 - Economical (N95)

### E - N1115 - Standard (N95)

- With Boomerang Nose Seal

### F - N1125 - Premium (N95)

- With Boomerang Nose Seal and Exhalation Valve

### G - N1125-OV - Nuisance Organic Vapor (N95)

- With Boomerang Nose Seal, Exhalation Valve & Nuisance Organic Vapor (OV) filtration

### H - N1139 (N99)

- With exhalation valve, adjustable straps, and a full sealing flange for superior fit and protection.

## AIR PURIFYING RESPIRATORS (APR)

### Honeywell NORTH

### A - Honeywell North 5500 Series Half Mask Respirator

The 5500 is the economical choice for the occasional user, contractors or as a "visitor's mask". The North 5500 has many of the same features as the 7700 mask, but made with an elastomeric material.

- Made of an extremely soft non-allergenic elastomer for comfort and fit. Contoured sealing flange eliminates discomfort caused by pressure points on facial nerves.
- Direct cartridge to facepiece seal minimizes replacement parts and simplifies maintenance.
- Compatible with all North cartridges, filters and accessories.

### B - Honeywell North 7700 Series Premium Half Mask Respirator

The Honeywell North 7700 half mask is the industry standard for comfort, fit and reliability. The 7700 has many of the same features as the 5500 mask, but made with medical grade silicone material.

- Silicone facepiece material conforms to facial features and doesn't harden with age. Silicone is easy to clean, extremely durable and resists distortion ensuring a better fit, time after time.
- Contoured sealing flange and cradle suspension system eliminates discomfort caused by pressure points on facial nerves.
- Compatible with all North cartridges, filters and accessories.

### C - Honeywell North 7600 Series Full Facepiece Respirator

- Silicone facepiece material conforms to facial features and doesn't harden with age
- Silicone is easy to clean, extremely durable and resists distortion
- Oral nasal cup reduces fogging and lessens dead air space, limiting re-breathing of exhaled air
- Speech diaphragm for better speech clarity
- 5-strap harness provides effective and comfortable facepiece-to-face seal
- Chin cup helps to position facepiece properly
- Neck strap allows wearer to park respirator when not in use
- Hard coated polycarbonate lens provides an over 200° field of vision, protects the wearer's eyes and face against irritants, and has excellent optics. Meets ANSI standards for impact and penetration resistance.

### D - North 5400 Series Full Facepiece Respirator

North innovation, quality and attention to detail come together in an economically priced mask with many standard features. Cartridges and filters sold separately. North Full Facepieces can be adapted to PAPR or Continuous Flow Supplied Air.

- Oral nasal cup reduces fogging and lessens dead air space to improve worker comfort by limiting re-breathing of exhaled air.
- Chin cup helps to position the facepiece properly.
- Hard-coated polycarbonate lens affords an over 200° field of vision, provides excellent optics, is scratch resistant and meets ANSI standards for impact and penetration resistance.
- Two overlapping sizes, small and medium/large, will comfortably fit most users.
- Compatible with all Honeywell North cartridges, filters and accessories.

## Fit Test Service

We perform certified fit testing for 3M, Honeywell, North, and Drager respirators at our store or at your job site.

To comply with Appendix A to § 1910.134: Fit Testing Procedures, the following conditions must be met:

- Workers must be clean shaven to allow good respirator seal. People with beards cannot be tested.
- Medical Respirator Evaluation Notification: OSHA specifies that respirator fit testing must occur only after a person has completed a Respirator Medical Evaluation Questionnaire and is cleared to wear a respirator by a health care professional.

## SAFETY TRAINING SEMINARS

## The Training Never Stops!

At Safety Systems and Signs Hawaii Inc., we've been helping companies like yours increase safety awareness and satisfy HIOSH, DOT, OSHA, ADA, MUTCD and other government regulations since 1973.

Put our safety and regulatory knowledge to work for you to

- Protect the safety of your employees
- Satisfy complex government regulations, and
- Avoid costly fines for non-compliance

## Several Training Methods

Seminars, classroom work, or tool box sessions on a job site. To register for **Safety Training and Certification** give us a call at 808-847-4017 to arrange training for your employees at your site or ours. Minimum attendees may be required.

See page 5 for more information!

## AIR PURIFYING RESPIRATORS (APR)

### A - 6000 Series Half Facepiece Reusable Respirator

Offers the user comfort and convenience coupled with the cost savings of a reusable respirator. Available in 3 sizes (small, medium, large) to comfortably fit many faces. The swept back design of the cartridges helps improve balance and visibility. Use with 2000 Series Filters or 6000 Series Cartridges and P100 Filter/Cartridges.

### B - 7500 Series Half Facepiece Reusable Respirator

This half facepiece was designed with the wearer in mind. Its soft sealing surface, along with a uniquely designed, 3M™ Cool Flow™ Exhalation Valve, enhances wearer comfort and face fit. It's made from a durable silicone and can be used with any of the 3M™ Filters and Cartridges, Series 2000, 5000, 6000 and 7093.

I .....	P09611...502	Cartridge adapter to hold 3M series 2000 and 7093 filters

Cartridges attach to Half and Full Face Respirators to provide protection from gas and vapor.

**Vapor** - Any substance in the gaseous condition.

Filters attach to Half and Full Face Respirators to provide protection from particulates and fumes.

**Particulate** - Very small fragments of solid materials or liquid droplets suspended in air.

**Fumes** - A cloud of fine particles suspended in a gas. (synonym: smoke)

## AIR PURIFYING RESPIRATORS (APR)

### A, B - 6000 Series Full Facepiece Respirator

#### A - Models 6700, 6800 & 6900

Offers the user comfort and convenience coupled with the cost savings of a reusable respirator. Available in 3 sizes (small, medium, large) to comfortably fit many faces. The swept back design of the cartridges helps improve balance and visibility. Use with 2000 Series Filters or 6000 Series Cartridges and P100 Filter/Cartridges.

#### B - Models 6700DIN, 6800DIN & 6900DIN

This respirator is a 6000 series full facepiece with a single DIN thread port on the front of the facepiece. It is NIOSH approved for use with the 3M™ Cartridge FR-C2A1 or 3M™ Cartridge FR-64 for acid gases (including chlorine), CN, CS, and particulates (P100 filter). The FR-C2A1 cartridge meets military specifications MIL-C-51560 and EA-C-1704.

Use with 3M™ Filters 2000 Series, 3M™ Filter 7093, P100, 3M™ Cartridges 6000 Series and powered or supplied air systems against a variety of gases, vapors and particulate hazards according to NIOSH approvals.

The 3M Full Facepiece 6000 Series meets the requirements of the ANSI Z87.1-2003 standard, high impact level, for face and eye protection.

### C - 7000 Series Full Facepiece Respirator

These durable elastomeric facepieces are designed for a wide range of applications. The full facepiece is made of silicone. The facepiece has a soft double-flap face seal made of hypo-allergenic silicone and adjustable straps for comfortable fit. It also has nose cup, a speaking diaphragm for clear communication and a scratch-resistant polycarbonate lens.

Use with 3M™ Filters 2000 Series, 3M™ Cartridges 6000 Series, 3M™ Cartridges and Filters 7000 Series and powered and supplied air systems against a variety of gases, vapors and particulates.

The 3M Full Facepiece 7000 Series meets the requirements of the ANSI Z87.1-2003 standard, high impact level, for face and eye protection.

### D - 3M™ Ultimate FX FF-400 Full Facepiece Respirator

Engineered for maximum comfort, durability and visibility, the Ultimate FX FF-400 is the only respirator with Scotchgard™ Protector coating which causes some paints and stains to bead up on the surface so they can be wiped off easily and helps lens stay clearer during spray applications. This respirator features soft yet durable, silicone material and a large lens for superior peripheral vision.

The 3M™ Ultimate FX Full Facepiece Reusable Respirator FF-400 Series is 3M's most rugged facepiece, providing flexibility in X-treme environments while still delivering superior comfort and an exceptional field of view. This facepiece offers an ergonomic, streamlined design – for lightweight, balanced comfort.

## POWERED AIR PURIFYING RESPIRATORS (PAPR)

### A - GVP Series Belt-Mounted PAPR

The GVP PAPR System, used with a 6000 or 7800S Series full facepiece or L series helmet, hose and cartridge provides high level protection and exceptional performance. Can be used in: petrochemical processing, smelting, abatement, paint spray and pesticides, pharmaceutical, haz-waste, nuclear, aluminum, grain handling and welding. Special order.

### B - Powerflow™ Face-Mounted PAPR

Protects against dusts, fumes, mists and radionuclides. Ideal for asbestos, lead, and other hazardous particles. The 3M™ Powerflow™ System delivers a minimum of 4cfm when used with the filter. It uses the popular 6000 Series facepiece and its face shield meets impact and penetration requirements of ANSI Z87.1-2003. Special order.

The complete system includes the full facepiece, 6800DIN, motor blower unit, rechargeable NiCd battery pack, flow meter and high efficiency filter.

### C - L-705 Hardhat w/ Welding Shield & Faceshield

This hardhat can be used with 3M™ Powered Air Purifying Respirator (PAPR) or Supplied Air Respirator Systems. Meets ANSI Type I, II requirements for industrial protective headgear. It has an assigned protection factor of 25 x PEL.

### D - 3M™ Adflo™ Powered Air Purifying Respirator (PAPR) High Efficiency Particulate Filter.

Replacement high efficiency particulate filter for 3M™ Adflo Powered Air Purifying Respirator (PAPR).

## SUPPLIED AIR RESPIRATORY SYSTEMS

### Ambient Air Breathing Pumps

Cost effective pumps supply clean, breathable air. Portable and oil-less, they produce no carbon monoxide, oil vapor or oil mist, thus eliminating the need for carbon monoxide monitoring and alarm systems. Fully assembled including all filters, fittings, and couplers.

**A** - 9200-01: One-Worker System offers portable air source for a single worker. Comes with full facepiece respirator, a 1/4 hp ambient air pump and 50 feet of breathing air hose.

**B** - 9200-02: The 2-Worker System provides a portable air source for one or two respirator users. Includes two full facepiece respirators, 3/4 hp ambient air pump and two 50' hoses.

**C** - 9220-01: One-Worker System offers portable air source for a single worker. Comes with a disposable and lightweight Tyvek hood, a 3/4 hp ambient air pump and 50 feet of breathing air hose.

**D** - 9832: Portable air source for up to three full or half face respirator users, or two hood users. Solid performance in multi-worker applications, cleaning, sanding or chemical handling operations. Includes 1.5 hp ambient air pump only.

### E - Universal Inlet Hose Extension Kit

Allows the users to source clean air from a remote area. Includes a 1 inch by 50 foot heavy-duty hose plus all the various fittings that will insure a proper fit to whichever Allegro Ambient Air Pump you use. Can be connected up to five kits total to achieve an inlet hose that can pull clean air from up to 250 feet away.

### F - Supplied Airline Cascade System

Reduce high pressure through a series of tee and flexible pigtail connectors with the Low Pressure Airline Cascade Kit. Inline check valves on both the tee and flexible pigtail allow uninterrupted air flow while replacing depleted cylinders. Cascade kits and components standard with Foster/Hansen couplers. Other couplers by Special Order.

## SUPPLIED AIR RESPIRATORY

### ALLEGRO INDUSTRIAL

### A - Full Mask Supplied Air Respirator

Made of silicone rubber for durability and will hold its shape even in extreme heat and cold. The double sealing flange provides an improved face-to-mask seal and a deep chin pocket provides a better, more comfortable fit. The replaceable polycarbonate lens offers a wider, distortion-free viewing area with an anti-fog, anti-scratch coating. A removable hairnet means greater comfort and fits easily under a hard hat. The unique "over the shoulder" hose design clips at the collar and an adjustable belt holds the air hose out of the way of work. Comes with OBAC quick connects. NIOSH approved.

### B - Tyvek™ Supplied Air Respirator Hood

Especially comfortable for bearded workers, the hood style respirator is lightweight and loose-fitting, to fit comfortably over the head. A large clear window offers a wide view and complete protection in dirty environments such as spray painting or asbestos abatement. The convenient disposable design is perfect where respirator cleaning or decontamination is difficult, just remove the down tube and clamp before disposal. Includes OBAC quick connects. For convenience, each replacement hood comes complete with a hood harness. NIOSH approved.

### C - Nova 2000 Abrasive Blasting Helmet™

Lightweight pillow foam padding ensures the helmet always sits comfortably on your head. The padding is Velcro® mounted and easily removed for hygienic cleaning. The large wrap around double lens allows optimum vision without irritating side glare. Optional tear-off lenses are also available. The inner lens complies with ANSI standards for impact resistance, providing a high level of protection for the worker. Air duct distribution diffuses an even flow of breathing air throughout the helmet to cool the head and face, and prevents the lens from fogging. Multi-layered sound deadening foam makes this helmet the quietest on the market. NIOSH approved.

### D - Carry-Air™ Filtration Panels

Convert shop air used for pneumatic tools and equipment to clean breathable air. Three-stage filtration system purifies the compressed air removing water, oil and particulate contaminants. Carbon monoxide monitor, pressure regulator, adjustable pressure relief valve protects the CO monitor and respirators in the event of regulator failure.

### E - Multi-Regulator Air Filtration Panel

The unique design of this panel allows each regulator to be individually adjusted at different pressure settings, allowing as well, separate outlets for air tools. The viewing window on the case allows monitoring of pressure gauges. A 16 gauge steel stand for support is included as well as all brass plumbing with quick-disconnect Hansen couplers.

### F - CO Monitor Calibration Test Kit

Used to check and calibrate the CO Monitor on Allegro's Carry-Air, Wall-Air or Oil-Less Compressor. Kit includes a 17 liter cylinder each of Span Gas and Zero Gas, a constant flow pressure regulator with gauge and tubing in a plastic carrying case.

## SUPPLIED AIR & EMERGENCY ESCAPE RESPIRATORS

### A - PAS Micro Emergency Escape Respirator

Draeger's PAS Micro is a NIOSH approved 15 minute SCBA for emergency entry or escape. The PAS Micro is among the most technologically advanced short duration emergency escape units available using a Supplied Airline Respirator (Combination Pressure Demand type "C"), configured for up to 300 feet or 12 hose lengths sections, from the air source, which ever is greater.

A back-mounted unit uses a similar carrying system configuration as traditional SCBA harness designs. The PAS Micro is ergonomically designed to follow the natural contours of the back, increasing wearer comfort and stability during use.

The hose and pressure reducer have been integrated into the backplate, reducing the risk of snagging, protecting the pressure reducer and adding to the streamlined shape of the set.

### B - PAS Colt Dual Function Respirator

Flexible and user-friendly. Depending on the requirements of the operation, the Draeger PAS Colt has been fully approved for use in applications requiring either; short duration entry units, airline emergency escape breathing apparatus, or dual function.

The PAS Colt is a hip-mounted unit with a distinctive, sophisticated harness design which retains its form, making it easy for the wearer to don the apparatus simply and quickly. The procedure for donning the apparatus is evident at first glance, even to the inexperienced user.

Equipped, as an option, a unique 'drop down' feature, whereby the cylinder can be un-clipped from the waistbelt, makes the Draeger PAS Colt ideal for use in confined space entry applications.

The harness has been constructed using an anti-static material inert to chemicals and oil, and impervious to most acids and alkalis. Benefiting from a high resistance to abrasion and heat, this new harness meets the requirements of EN137 heat and flame resistant and is machine washable.

### C - Quick-Air™

5 or 10 minutes of compressed air for escape purposes. Unlimited cylinder life and easy-to-follow picture instructions printed on orange carry case. NIOSH-approved for self-rescue in laboratories, manufacturing plants, other job sites. Reusable anti-fogging hood can be worn with glasses. Not for confined space work, or SCBA backup.

### D - Pent-Air Continuous Flow w/ Panorama Mask

Continuous flow respirator with fixed flow valve can be quick disconnected from the PentAir™ without conversion and used with cartridges, filters or PAPRs.

- Anti-static, non-kink breathing tube
- Adjustable shoulder/waistbelt
- Quick disconnect for supplied air hose

KEY	SKU	MFG#	DESCRIPTION

## SCBA SYSTEMS

# Dräger

### A - Dräger Panorama Nova P EPDM Mask

Designed for the highest demands and a secure fit and comfort. Mask body is made of EPDM rubber with double sealing frame for tight and comfortable fit. Inner mask with control valves. Excellent field of vision through 180° panoramic window made of very flexible, impact and heat resistant polycarbonate, clamped in a robust stainless steel frame. No fogging due to optimum ventilation. Proven stainless steel speech diaphragm for excellent speech understanding.

If the oxygen content drops below 17% by volume during hazardous duties, the Panorama Nova P mask, e.g. in connection with our compressed-air breathing apparatus, supplies its carrier quickly and safely with vital breathing air.

KEY SKU	MFG#	DESCRIPTION

### PosiChek3™ Computerized Dynamic SCBA Test

PosiChek3 computerized SCBA test bench has been the industry standard for thousands of fire departments, refineries, chemical plants and nuclear power stations worldwide since it was first introduced in 1988. A number of upgrades have been incorporated to keep pace with increasingly rigorous testing criteria. Firefighters and other first responders can only work as well as the equipment they use. That is why NFPA 1852 mandates that all compliant SCBA be tested on a calibrated breathing machine before being put into service, and at least once per year thereafter. PosiChek3 meets these stringent NFPA standards.

KEY SKU	MFG#	DESCRIPTION

# Personal Protective Equipment

## A, B - Allegro PPE Cleaning Pads

Large 5" x 8", individually foil-packaged towelettes contain 70% Isopropanol and are designed specifically for rubber respirator facepieces. Non-alcohol wipes are designed for other personal safety equipment or respirator facepieces when recommended by the manufacturer. 100 towelettes per box.

## C - Allegro Respirator Cleaning Kit

Contains ninety ½ oz. packets of water-soluble cleaner, air bulb, bucket, brush, and 100 each sterile storage bags and seals, and large 17 quart, two-sided bucket. Kit meets OSHA recommendations.

## D - 3M™ Respirator Cleaning Wipes

Used to clean 3M™ Elastomeric Facepiece Respirators. Individually packed 8 in x 10 in towelettes are alcohol free and will not damage the facepiece materials.

KEY SKU	MFG#	DESCRIPTION

D.....	P09612...504	3M Respirator Cleaning Wipes, 100/box

## RESPIRATOR FIT-TESTING

## E - Allegro Bitrex Fit Test Kit

The Bitrex™ Fit Test Kit offers qualitative OSHA-compliant fit testing for disposable and reusable dust and mist respirators. Bitrex creates an unmistakable bitter taste that indicates break through in the respirator fit. Bitrex has been found safer than saccharin tests while producing identical results. Disposable glass ampules make pouring solution into nebulizers easier and reduces the chance of contamination.

## F - Allegro Standard Banana Oil Kit

For quick fit testing the standard kit contains two 1 oz. bottles of test agent, vinyl test enclosure, measuring pipette, and paper towels in a handy carry bag.

## H - Allegro Irritant Smoke Test Kit

For qualitative fit testing of air purifying respirators, this Smoke Test Kit offers everything needed for meeting OSHA's protocol for fit testing with smoke. Includes irritant smoke tubes, aspirator assembly, and record form in a protective carry pouch. **Do not use with a tent or hood. 29 CFR 1910.134 Appendix A.**

KEY SKU	MFG#	DESCRIPTION
E.....	P09126...2041	Bitrex fit test kit. Comes with solution, hood, pump
E.....	P09127...2041-11K	Bitrex sensitivity solution only, 6 ampules/box

G.....	P09129...2050	Irritant smoke fit test kit, 6 tubes
G.....	P09130...2050-01	Irritant smoke replacement tubes, 6/box

## H - 3M Qualitative Fit Test Kits

Test kits and accessories designed to help your organization meet OSHA fit testing requirements for respirators. The products can be used to check face-to-respirator seal on any particulate respirator or gas/vapor respirator with a particulate prefilter. Kits contain sensitivity solution, fit test solution, two nebulizers, hood, collar assembly, two sets of replacement nebulizer inserts & instruction booklet. Choose sweet (saccharin) or bitter taste kit.

KEY SKU	MFG#	DESCRIPTION
H.....	P09098...FT-10	3M™ Fit Test Kit, (sweet)
H.....	P09102...FT-30	3M™ Fit Test Kit (bitter)

## COOLING PRODUCTS

### A - Chill-Its® 6550 Head Sweatband

Thick soft terry keeps perspiration away from eyes and face for safety & productivity. Elastic maintains snug fit.

### B, C - Chill-Its® 6605 High-Performance Headband

Hi Cool® moisture management performance fabric transports moisture away from body for fast evaporation. Elasticized back for a great fit.

### D, E - Chill-Its® 6602 Evaporative Cooling Towel

Dampen this synthetic space age towel to create a cooling aid significantly colder than ambient air. Activates fast and easy - run under water for one minute and wear for hours or for quick relief. Simply re-wet to reactivate.

### F - Chill-Its® 6603 Evaporative Cooling Band

1/3 the size of the Chill-Its® 6602 with the same cooling power. Use as a neck wrap by pulling end of wrap through slit. Dampen this synthetic space age wrap to create a cooling aid significantly colder than ambient air.

KEY	SKU	MFG#	DESCRIPTION
A	C01022	12450	Chill-Its 6550 Head Sweatband, White
B	C01019	12422	Chill-Its 6605 High Performance Headband, Camo
C	C01020	12431	Chill-Its 6605 High Performance Headband, Lime
D	C01016	12439	Chill-Its 6602 Evaporative Cooling Towel, 13" x 29.5", Lime
E	C01017	12441	Chill-Its 6602 Evaporative Cooling Towel, 13" x 29.5", Orange
F	C01015	12420	Chill-Its 6602 Evaporative Cooling Towel, 13" x 29.5", Blue
F	C01018	12418	Chill-Its 6603 Evaporative Cooling Band, 4" x 29.5"

### G, H - Chill-Its® 6615 High-Performance Dew Rag

Hi Cool® moisture management performance fabric transports moisture away. Comfortable to wear under hats, helmets or alone. Elastic band for secure, good lookin' fit!

### I, J - Chill-Its® 6710 Evaporative Cooling Triangle Hat

Activated polymers bring cooling power where you need it most. Activate by soaking in cold water for 2-5 minutes. Tie closure.

### K - Chill-Its® 6670CT Evaporative Hard Hat Neck Shade

Keeps the sun off while delivering cool comfort to your neck. Advanced PVA material activates easily and quickly when run under water for one minute. Hook and Loop straps for easy attachment

### L - Chill-Its® 6717 FR Evaporative Hard Hat Pad w/ Neck Shade

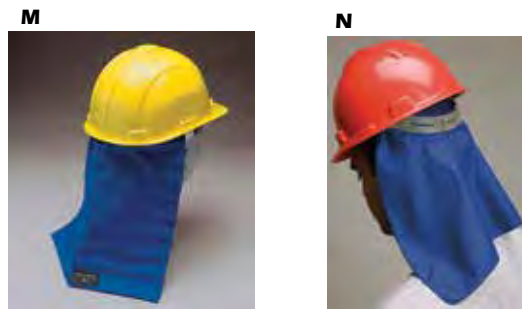

Pad with long shade to provide ultimate cooling relief along with FR protection. Conveniently attaches to hard hat suspension headband. Meets ASTM F2302 for flame resistance. Classified CAT1 per NFPA 70E.

KEY	SKU	MFG#	DESCRIPTION
G	C01024	12485	Chill-Its 6615 High Performance Dew Rag, Flame
H	C01023	12476	Chill-Its 6615 High Performance Dew Rag, Lime

L	C01028	12657	Chill-Its 6717 FR Hard Hat Pad w/ Neck Shade, Blue

### M, N - Cooling Neck Shield

Lightweight and easy to use, this water activated shade can re-hydrate thousands of times. Just soak in water 5-9 minutes, and it's ready to use. Attaches easily to the back of the hard hat harness and can be used as a sun barrier. Available in royal blue, 100% cotton, hand washable. Ideal for welding or other high heat environments.

### O - Headband

Stay extra cool by soaking wrap in the cooler or chill in the freezer. Water activated wrap can be tied around the neck or around forehead for all day cooling comfort. Wrap is lightweight, comfortable and low profile. 3" wide band size increases cooling effect. Velcro closures keep band in place. 100% cotton. Hand wash.

### P - Cooling Beanie

Keep cool in intense heat. Beanie can be worn alone or under a hat. Great for road and utility crews. Adjustable elastic and Velcro® closure for one size fits all. Hand wash, 100% cotton with poly/cotton inner.

### Q - Hard Hat Cooling Liner

Simply soak this liner for 5 to 9 minutes in cold water and feel instant relief that lasts all day. Attaches to the hard hat harness with an easy elastic/Velcro® closure. One size fits all. Liner is 100% cotton and comes in royal blue. Hand washable.

## FLOTATION VESTS

Stearns, Inc.

A

B

### A - The Work Master™ I222

Comfortable closed cell foam and encircling body belt with snag-resistant buckle for quick adjustment. Flotation collar for added protection and 62 sq in. of SOLAS grade reflective tape. Maximum comfort in a work vest. *Approval: USCG Type III/ Work Vest.*

### B - Welder's Vest I405

Economical heavy-duty flotation welding vest with tough fiberglass shell and Vislon® zipper. Aquafoam™ flotation foam, roomy armholes and side adjusts for a secure fit. *Approval: USCG Type III/ Work Vest.*

C

### C - The Versatile™ I465

Tough nylon shell with seven-piece foam design for all-day comfort. Four roomy pockets with Velcro® closures and rustproof zipper. Quick-adjust side tabs for secure fit and comfort, reflective panels, eyelets for lights and badges. *Approval: USCG Type III/ Work Vest.*

D

### D - The Work Boat™ I460

Heavy-duty flotation vest features two adjustable belts for secure and comfortable fit, leg straps for added safety and improved in-water performance. Nylon shell, marine mesh lining, oversize armholes for working freedom and 62 sq in. of SOLAS grade reflective tape. *Approval: USCG Type III/ Work Vest.*

E

### E - Work Zone Gear I424 Flotation Vest

Designed with soft, lightweight mesh on the upper half for comfort and ventilation and a tough ANSI approved polyester outershell. Two 1" encircling body straps with zipper front closure, two pockets with Velcro® closure, lightweight, durable Crosstech® flotation foam, D-rings for attaching gear and Solas-grade reflective tape on shoulders. *Approval: USCG Type III.*

### F, G - ANSI Work Zone Gear I424 Flotation Vest

Same features as Comfort Series Utility Vest but with 3M™ Scotchlite™ Reflective Material SOLAS-grade 6187 on panels. *ANSI/USCG III Compliant.*

### H - Deluxe Merchant Mate II™ I600

Designed to turn most unconscious wearers face up. Offshore PFD with encircling body belt and hinged back panel with a foam-filled collar for additional head support. Two chest adjusters for improving flotation angle and a special opening on back to accommodate most brands of fall protection harnesses. Features a USCG approved whistle, with pocket for whistle and light storage and 62 sq. in. (400 sq. cm.) of 3M™ Scotchlite™ Reflective Material SOLAS grade 6755 on panels and collar. *USCG Approved Type I.*

## FLOTATION DEVICES

### A, B - Type IV 30" Industrial Ring Buoy

Molded from high impact linear low density polyethylene for superior life expectancy in the most severe environmental conditions. The encircling rope attached to the outside of the ring provides an extra non-slip gripping surface and is replaceable, so the buoy can remain on active duty longer. USCG Approved Type IV.

### C - Rescue Mate Water Rescue Rope Throw Bag I021

The Throw Bag is an essential part of any vessel's safety equipment inventory, providing an easily controlled heaving line to assist in overboard emergencies. Throwing instructions, stenciled on the back of the bag, are easy to follow and will quickly help you attain surprising accuracy and distance with a bit of practice. For re-throws, the bag can be quickly filled with water. 70 ft. floatable woven polypropylene rope feeds smoothly out of bag when thrown. Attached to high-visibility orange nylon storage bag.

### C - Ring Buoy Rope With Bag

Helps you prepare for the unexpected. Attach the throw line to a ring buoy for quick deployment. Storage bag features weather-resistant Cordura® fabric, cinch and grab straps and contains 90 ft. of highly visible 3/8-in. polypropylene floating rope.

## CLASS 2 COMPLIANT VESTS

Premium  
**Black Series®**

# ML KISHIGO®

### A, B - Premium Black Series® Black Bottom Vest

1515 Lime / 1516 Orange

Because even when you're covered from head to toe in dust and dirt, your clothes can still do the talking. So when you wear an item from the Black Series you'll know that you're getting the visibility you need, but with the style you want. Made with high quality materials to increase durability, Black Series gear also gives you enhanced visibility with reflective trim and piping and added functionality via cargo and expansive utility pockets. So go ahead, we're giving you permission to be the best-dressed guy on site. Performance, meet style

Ultra-Cool™ 100% polyester mesh with heavy duty black bottom and trim to keep vest appearance clean and professional. Zipper front closure with durable webbing reinforcement. 2" wide silver laminated reflective material with 3" breathable contrasting color. Reflective trim around arms and piping down sides for added low light visibility. Left and right chest mic tabs. Two lower outside expandable cargo pockets with adjustable flaps and grommets. Right chest 2-tier, 4-division pencil pocket. Left chest heavy duty gusseted radio/utility pocket with reflective piping. Inside lower left heavy duty tablet (iPad) pocket with load-bearing strap. Inside lower right patch pocket. ANSI 107 Type R | Class 2 Compliant.

### C, D - Professional Surveyors Vest

S5000 Lime / S5001 Orange

Solid polyester front with mesh back and zipper front closure reinforced with durable webbing. 2" wide silver reflective material laminated to 3" contrasting color with left & right mic tabs and 2 lapel grommets. Left chest 2-tier pocket with dual function flap that can be held open by hook & loop, large right gusseted pocket with flap, outside lower front pockets with flaps, left and right stake pockets, left and right elastic spray paint can pockets, lower inside left and right full length zipper pockets with load-bearing straps, hidden back pouch with left and right zipper access. ANSI 107 Type R | Class 2 Compliant.

### E - Fall Protection Vest

T341 Lime

100% polyester solid front with Ultra-Cool™ mesh back and 2" wide silver reflective material on 3" contrasting material. Features a snap front closure with back and side openings for harness rings and left and right chest mic tabs. Left chest radio pocket with flap, right chest 2-tier pencil pocket, two lower front expandable-flap closure pockets, and two lower inside patch pockets. ANSI 107 Type R | Class 2 Compliant.

## HI-VIS CLOTHING ACCESSORIES

# ML KISHIGO®

### A - Lime Hard Hat Sun Shield w/ Elastic Band

Elastic band to fit over most hard hats. Ultra-Cool 100% polyester lime mesh with contrasting trim. 5/8" silver reflective material w/ contrasting color.

### B - Lime Hard Hat Nap Protector w/ Hook & Loop Tabs

Self-adhesive vhook & loop tabs allow you to attach to the inside or outside of any hard hat. 2" wide reflective material.

### C - Orange Reflective Neck Shield

5/8" silver reflective with contrasting color. Self-adhesive velcro tabs allow you to attach to the inside or outside of any hard hat.

### D, E - Full Brim Sun Shield

100% polyester shade with breathable mesh nape protector. Designed to fit over full brim hard hats. Easy to fold and put away. Brilliant trim reflective material edging improves low light visibility. 1/2" reflective stripe with contrasting color.

### F - Multi-Wear Climate Shield

Multiple configurations to fit any style or weather condition. Lightweight 100% polyester jersey knit material. Two 1" strips of silver reflective material ensures nighttime or low light visibility in any configuration. One size fits most. Not ANSI/ISEA Compliant.

### G, H - Full Brim Safari Hat

Mesh around the crown keeps you cool and ventilated. 1" wide silver reflective material with 2" contrasting color stripes 360 degrees around the hat. Dark grey under brim reduces glare. Silver reflective piping around brim and top of hat. Drawstring keeps the hat securely on your head.

### I, J - Baseball Cap with Snaps

Stylish high visibility baseball cap. 100% polyester material with 1/2" wide silver reflective material. Two mesh panels on cap for breathability. Dark grey under brim reduces glare. ANSI 107 Accessory Compliant.

### J, K - Reflective Waist Bands

2" wide reflective material belt. Adjustable up to 54". Plastic clasp closure.

### K, L - Reflective Arm & Ankle Bands

2" wide elastic arm/ankle band for added visibility. 5/8" silver reflective material. Hook & loop adjustability.

**ML KISHIGO®**

**HIGH VISIBILITY RAINWEAR**

**A, B - Premium Black Series Soft Shell Jacket**

JS137 Lime / JS138 Orange ANSI 107 Type R | Class 3 Compliant

Crafted with durable water-resistant soft shell material with 2" wide high performance reflective material. Cuffs feature durable rubber pull tabs for easy adjustments. Reflective piping accents add better visibility in low light. Black areas offer contrast, style, and durability. Convenient underarm vents for breathability. Waist cinches are hidden in front pockets.

**C, D - Premium Black Series Heavy Duty Parka**

JS140 Lime / JS141 Orange ANSI 107 Type R | Class 3 Compliant

Durable ripstop material with waterproof seam sealed construction and quilted liner with thermal insulation. 2" wide high performance reflective material. Zipper front closure with storm flap and storm cuff (powder barrier) waist and sleeve liners keeps wind and snow out of critical areas. Black areas provide contrast, style, and durability. Detachable lined hood can be stored in pocket. Cuffs with durable rubber pull tabs make for easy adjustments while wearing gloves. Reflective piping accents on back, sides, and pockets.

## PROTECTIVE RAINWEAR

### I - Chem Splash 96

Meets Flame Resistant: ASTM D6413 & Liquid Penetration: ASTM F903

A heavyweight garment of 13oz. PVC / Polyester that is coated on both sides. It is ideal for wear in situations that require protection from incidental chemical splash and contact. It has strong double welded seams for durability and reinforcement. Tested to ASTM D6413: Flame Resistance and ASTM F903: Resistance To Penetration By Liquids.

KEY SKU	MFG#	DESCRIPTION
I.....C05275	...96-ACA-S	.....Chem Splash 96 Coverall, attached hood, size Small

### A, B, C - Economy 1600 Series Rain Suit

Made of durable water resistant PVC over polyester with electronically welded seams. Jacket features side entry pockets, storm flap, vinyl, non-conductive snaps on front and sleeves, ventilated back, underarm vents, and detachable hood. Bib style trousers feature safety fly and take-up snaps on ankle.

### D - Cool Wear 375 Jacket

Meets Flame Resistant: ASTM D6413

Offers strong nylon with a polyurethane coating that gives superior abrasion and snag resistance in many working environments. It is also cool, lightweight, durable, and comfortable to wear in warm weather. Features non-conductive snap front closure with storm flap and attached hood with drawstring closure.

### E, F, G, H - Universal 35 Rainwear

Meets Flame Resistant: ASTM D6413 & Liquid Penetration: ASTM F903

The go-to suit when you need it all. That's why we call it the Universal. The PVC / Nylon / PVC material offers tough, lightweight protection which will not crack or peel in temperatures of -30°F to 120°F. It gives excellent abrasion, tear, and snag resistance. The material is also flame resistant and meets NFPA-701, ASTM D6413 standards and ASTM F903 for liquid penetration. Features strong double stitched and tape sealed seams for maximum protection when and where you really need it.

## Dupont® Tyvek® Disposable Coveralls

Tyvek® garments are composed of flash spun high density polyethylene which creates a unique, nonwoven material available only from DuPont. Tyvek® provides an ideal balance of protection, durability and comfort of any limited use fabric technology. Tyvek® fabric offers an inherent barrier to particles down to 1 micron in size. Protection is built into the fabric itself; there are no films or laminates to abrade or wear away. Tyvek® fabric's durability advantage over microporous film fabrics delivers consistently better barrier, even after wear and abrasion. Applications include: lead and asbestos abatement/remediation, general maintenance/operations, spray painting, general clean-up.

### A - Tyvek Coverall Style TY120S

Laydown collar, open wrists and ankles, elastic waist, serged seams.

### B - Tyvek Coverall Style TY122S

Respirator fit hood, elastic wrists, attached skid-resistant boots, elastic waist, serged seams.

### C - Tyvek Coverall Style TY125S

Laydown collar, elastic wrists and ankles, elastic waist, serged seams.

### D - Tyvek Coverall Style TY127S

Respirator fit hood, elastic wrists and ankles, elastic waist, serged seams.

## DuPont™ Tychem® SL Coveralls

DuPont™ Tychem® SL delivers effective protection against a range of chemical environments. Tychem® SL, utilizes Saranex™ 23-P film laminated to Tyvek® fabric to provide a rugged and durable fabric that resists abrasion. Tychem® SL fabric provides at least 30 minutes of protection against >124 chemical challenges. Typical applications: chemical mixing, hazardous remediation, emergency medical response, paint spraying, and nuclear environments.

### E - Tychem SL Coverall Style SL122B

Standard fit hood, elastic wrists, attached boots, storm flap with adhesive closure, bound seams.

### F - Gen-Nex Chemical Hood

Better protection against isocyanates. Elastic face opening. Lint-free and static-free. One size fits all.

### Lakeland Pyrolon® Plus 2 Coverall

Pyrolon® Plus 2 offers wet or dry strength superior to that provided by other traditional Flame Resistant disposables. Specifically treated to be oil and water repellant. Pyrolon® Plus 2 is breathable, making this a cool and comfortable garment to wear. Pyrolon® Plus 2 can be used in work environments where hazardous or non-hazardous contaminants may be present. Pyrolon® Plus 2 quality standards meet ANSI/ISEA 101. Can be worn over primary FRC's and meets the NFPA 2113 requirements for section 5.1.9.

Do not use for fire protection. Avoid open flame or intense heat. Pyrolon® Plus 2 garments are not washable. Washing removes the special finishes, thereby removing the flame retardancy, water and oil repellent characteristics.

#### A - Pyrolon® Plus 2 Coverall Style 07412

Laydown collar, open wrists and ankles, zipper closure.

### Lakeland Zone Gard® Coverall

Lakeland's line of breathable Zone Gard® protective wear are appropriate for use in work environments where hazardous or non-hazardous contaminants may be present. Their porous construction accounts for a "breathability" that makes them cool and comfortable while offering protection to those who must work around constant dirt and grime.

#### B - Zone Gard® Coverall Style C2412

Laydown collar, open wrists and ankles, zipper closure.

### Lakeland ChemMax 1 Coverall

ChemMax® is constructed with a unique polyethylene barrier film and a continuous filament polypropylene nonwoven. ChemMax® 1 garments bar many harmful contaminants from penetrating to inner clothing.

#### C - ChemMax 1 Coverall Style C5428

Attached hood, elastic wrists and ankles, zipper closure. Serged seams.

### Lakeland SafeGard® Economy SMS Coverall

SafeGard® Economy SMS garments can be used in work environments where hazardous or non-hazardous contaminants may be present. With a fabric weight of 45 grams, these garments are lighter and offer better breathability and increased comfort, meeting ANSI/ISEA 101-1996 sizing requirements.

#### D - SafeGard® Economy SMS Coverall Style E8412

Laydown collar, open wrists and ankles, zipper closure.

## DISPOSABLE PROTECTIVE CLOTHING

### Lakeland MicroMax® NS Coveralls

MicroMAX® NS can be used in work environments where hazardous or nonhazardous contaminants may be present. Very economical and lightweight, MicroMAX® NS features high MVTR and is breathable for worker comfort. MicroMAX® NS is strong, wet or dry, perfect for work environments where dirt, grime, splashes and spills are present.

#### A - MicroMax® NS Coverall Style CTL412

Laydown collar, open wrists and ankles, zipper closure.

#### B - MicroMax® NS Coverall Style CTL414

Attached hood, boots, elastic wrists, zipper closure.

#### C - MicroMax® NS Coverall Style CTL428

Attached hood, elastic wrists and ankles, zipper closure.

### Lakeland MicroMax® NS Cool Suit Coverall

Like the MicroMAX® NS coverall, the MicroMAX NS Cool Suit™ protects against dirt, grease, spills and contaminants but features increased breathability with an added spunbond polypropylene back panel. A superb pattern design and an elastic back waist offer improved comfort and fit. Front and sides made of microporous film on a polypropylene substrate provide barrier protection and a flap cover over the zipper protects against splashes. The breathable back panel offers only a light particulate barrier.

#### D - MicroMax® NS Cool Suit Coverall Style COL428

Attached hood, elastic wrists and ankles, zipper closure.

## FLAME RESISTANT COVERALLS

### Nomex IIIA Garments

Nomex® is an aramid fiber manufactured by DuPont. Nomex® IIIA is a blend of 93% Nomex, 5% Kevlar and 2% static dissipative fiber.

**Applications** - Petrochemicals, utilities, military applications, auto racing, volunteer and professional fire fighters. Not Recommended for use around molten substances, welding, or in critical static control application.

**Unaffected by most acids**, except for some strength loss after long exposure to hydrochloric, nitric and sulfuric. It has generally good resistance to alkalis.

The fiber is **unaffected by most bleaches and solvents**, except for slight strength loss from exposure to sodium chlorite bleach. However, the fabric does not provide personal chemical protection to the wearer. Where chemical exposure is a hazard, appropriate specialized barrier garments should be selected.

**Good thermal stability and does not melt.** The fiber decomposes between 700°-800°F. Do not use for welding. Hot molten contact will stick to the fiber, forming holes.

### A - NOMEX® IIIA Deluxe Coverall CNB6RB

Two-way concealed NOMEX® taped brass breakaway zipper, concealed snap at top of zipper and at neck, mandarin style, stand up, two-way safety collar, concealed snap closure on cuff, two front swing pockets, two patch chest pockets w/ flaps and concealed snap closure, two patch hip pockets, left sleeve pocket, rule pocket, deep pleated action back, side vent openings w/ snap closure. This flame resistant garment meets the requirements of NFPA 2112, Standard on Flame-resistant Garments for Protection of Industrial Personnel Against Flash Fire, 2001 Edition. Arc Rating ATPV 5.6 calories/cm²

## CHAINSAW PROTECTION

The unique explosive action of Prolar works by jamming the chain against the bar and sprocket.

### F - ProVest™ II

ProVest™ II has Prolar™ padding to protect the sawyer's upper chest and shoulder area from dangerous saw kickbacks. Breathable, water-resistant 65/35 poly-cotton blend helps keep you cool and dry all-day. Open side design with mesh back panel for cooling in hot weather — side buckles are adjustable so jackets can be worn underneath in winter. Six handy pockets: 4 outside-front, 2 inside. Carry gear and personal items to save time, improve productivity. Multi-point adjustments and over/under sizing Great fit, comfort and maneuverability for workers with thin/wide girths, with/without coats. Water resistant.

### G - ProChaps™

Tested and certified by Underwriter Laboratories in accordance with ASTM F-1414 and meets ASTM Standard F-1897-2008 that requires an upgraded level of protection to 2,750 feet per minute. Apron-style design with quick-release buckles for waist and legs. Easy to put on and take off. Buckles are durable acetate nylon. Includes zippered front pocket with large pull tab. Water resistant. Applications: for workers using chain saws and power equipment – clearing roadways, removing debris, trimming, logging, farming, utilities, public works and vegetation management.

### What is Prolar™ Protective Pad Technology?

Prolar's performance secret is its unique "explosive" action which effectively jams the chain against the bar and the sprocket — quickly and safely stopping the cutting action in milliseconds. This ELVEX® exclusive design combines a unique fiber composition with special, multi-layer weaving process to create one of the most effective chain saw protective pads on the market. It is the culmination of years of ELVEX® R&D experience and continuous improvement and is the foundation of all our chainsaw protective clothing.

## APRONS

### A - PVC Apron

Heavy-Duty PVC with superior resistance to chemicals, fats, oils, greases, punctures and abrasions. Raw edge and premium sewn edge styles provide flexibility.

### B - Hycar Heavyweight Apron

Heavyweight 18 ounce hycar apron is a tough nitrile blend, ideal for grease and animal fats. Economy priced and made to last with four metal grommets, reinforced bib and turned and hemmed edges.

### C - Vinyl Apron

High quality virgin vinyl, providing protection from acids, alkalis, solvents, chemicals, oils, fats, greases, salts and abrasion. Sewn edges.

### D - Denim Apron

Ideal for industrial maintenance, construction, manufacturing and carpentry. Serged seams and pre-shrunk for good launderability. Two pockets.

### E - Disposable Apron

Disposable polyethylene anti-static apron unlike embossed disposables which create high and low areas where food can collect, allowing bacteria to grow. Affordable so that it is practical for workers to change aprons between products or functions.

### F - Cut, Puncture & Needle Resistant Apron

Made with SuperFabric® brand material for the highest cut-resistance available on the market- Innovative industrial puncture protection on enhanced areas from wires, metal, wood, and glass. Heavy duty (double layer) and lightweight compared to alternatives.

## PROTECTIVE SLEEVES

# SLEEFS™

### A - Compression Arm Sleeves

- Proper Circulation - Compression sleeves can help an athlete or worker get better circulation to a given area.
- Protection - They act as a layer of protection for your skin. From small scratches and bumps, to sun protection.
- Body Temperature - Works as a layer that will moderate your temperature more regularly.
- Recovery - They help muscles that are sore after work or exercise to recover faster. This enables the de-oxygenated blood to circulate back quicker to the heart aiding recovery.
- Improves performance and reduces soreness.
- Prevents muscles from tightening up.

*Fashion styles update semi annually. Stop by and visit our store or call for more information.*

## CHEMICAL RESISTANT GLOVES

F

### BUTYL GLOVES

#### F - Best® Butyl

Butyl/Butyl II rubber provides superior resistance to highly corrosive acids and is excellent for handling ketones and esters. This synthetic rubber also provides the highest permeation resistance to gases and water vapors of any protective material used to make gloves. It does not offer the physical strength of Natural Rubber. Butyl II provides the ultimate combination of protection and dexterity.

KEY SKU	MFG#	DESCRIPTION
F.....C11631.....	878-09	Best Butyl Glove, 25-mil, 14" long, rolled cuff, Large
F.....C11632.....	878-10	Best Butyl Glove, 25-mil, 14" long, rolled cuff, XL
F.....C11633.....	878-11	Best Butyl Glove, 25-mil, 14" long, rolled cuff, 2X

## CHEMICAL RESISTANT GLOVES

### NITRILE GLOVES

A, B, C, D, E

F

G

#### A, B, C, D, E - Nitri-Solve®

Provides excellent protection against abrasion, puncture, cut and snag and resistance to a broad range of solvents, oils, animal fats and other chemicals. A bisque finish grip makes wet work easier, safer, and Nitri-Solve's ergonomic design maximizes comfort.

#### F - Nitrile-Solve Knit

A Super Flexible, watertight knit-lined nitrile glove that provides excellent protection from a wide array of solvents, oils and acids. A rough-finish texture delivers a sure grip in even the most oily and wet applications while providing flexibility and dexterity not found in a heavier-mil glove.

#### G - Showa Atlas Nitrile 772

A 26" long glove, made from dipped nitrile over a cotton liner. Showa 772 gloves protect the hand and arm, as well as providing comfort and touch sensitivity. The rough textured finish ensures excellent grip. An elastic band and grommet holds the sleeve up on the arm. Launder at 40C (104F) using a neutral detergent.

### NEOPRENE GLOVES

I

J

K

#### I - Neo Grab™

This recyclable glove is multidipped in premium-grade neoprene for superior quality and durability and provides protection against acids, caustics, oils, greases and many solvents. It provides excellent all-around protection against physical hazards such as abrasion and cut. The rough finish is excellent for applications where a good wet grip is required.

#### J - Best® Chem Master™

Good resistance to a broad range of chemicals, Chem Master® features a Neoprene-over-Natural Rubber construction that provides excellent abrasion, tear and puncture resistance. Has a self-flushing tractor-tread grip that encourages run off of fluids. 100% cotton flock lining. Meets 21CFR, 170-199.

#### K - Chloroflex

Featuring 24-mils of case hardened, chemically resistant, premium-quality Neoprene, Chloroflex delivers excellent protection from a wide range of oils and chemicals that degrade Natural Rubber, resists the effects of heat, sunlight, ozone and aging and provides good protection against abrasion, cut and puncture. Its tractor-tread finish assures a firm grip, wet or dry, and its flock lining absorbs perspiration, allowing for easier donning and doffing. Chloroflex's ergonomically designed form maximizes worker productivity and comfort.

KEY SKU	MFG#	DESCRIPTION

## GENERAL PURPOSE GLOVES

### A - MaxiFlex® (34-874)

Breathable micro-foam nitrile dipped nylon/lycra gloves. Breathable coating keeps hands cool and dry. Used in applications which require a high degree of dexterity and sensitivity, especially where grip is important, such as handling small oily parts and components, general assembly, machining, micro-engineering, automotive components, painting, and horticulture.

### B - MaxiFlex® Ultimate™ (34-874FY)

Hi-vis seamless knit nylon / lycra glove with nitrile coated microfoam grip on palm & fingers. Designed and developed as a breathable glove, MaxiFlex® Ultimate™ has become the benchmark for precision handling in dry environments. MicroFoam Nitrile coatings are compatible with light oils and will provide a good grip and excellent abrasion resistance. Complies with FDA food handling requirements 21 CFR, Part 177.

### C - MaxiFlex® Ultimate™ (34-875)

Seamless Knit Nylon / Lycra Glove with Nitrile Coated MicroFoam Grip on Palm, Fingers & Knuckles. Designed and developed as a breathable glove, MaxiFlex® Ultimate™ has become the benchmark for precision handling in dry environments. Made from component material which comply with Federal regulations for food contact, 21CFR, 170-199.

### D - MaxiFlex® Endurance by ATG® (34-845)

Micro Dots on palm for excellent grip. Ultra cool and very comfortable to wear, breathable coating keeps hands cool and dry. Excellent dexterity, sensitivity and tactility. Designed to produce minimal lint and dust. Minimal penetration (strike through) keeps the liner soft on the inside of the glove.

### E - MaxiFlex® Endurance™ (34-8745)

Seamless knit nylon / lycra glove with nitrile coated microfoam grip on full hand. Designed and developed as a breathable glove, MaxiFlex® Endurance™ incorporates raised micro dots to increase durability and offer more cushioning in highly repetitive applications requiring precision handling. Made from component material which comply with Federal regulations for food contact, 21CFR, 170-199.

### F - MaxiFlex® Elite™ (34-274)

Ultra Light Weight Seamless Knit Nylon Glove With Nitrile Coated Microfoam Grip On Palm & Fingers. Designed and developed to be the lightest fully breathable coated glove. Comfort is further enhanced through its additional increased breathability which is up to 40% more than similar gloves.

### G - MaxiFlex® Comfort™ (34-9025)

Seamless knit cotton / nylon / lycra glove with nitrile coated microfoam grip on palm, fingers & knuckles. Designed and developed as a breathable glove, MaxiFlex® Comfort™ has an inner plated liner made from high grade soft cotton.

### H - G-Tek® Touch (33-GT125)

Static wired thumb, index finger and middle finger allows user to operate touch screen phone or device without removing gloves. Seamless knit polyester for great dexterity. Offers great puncture and abrasion resistance while offering excellent tactile sensitivity. Breathable back for comfort.

### I - G-Tek® Lite (55-AG317)

ActivGrip Lite latex dipped coated grip, seamless wooly polyester liner with MicroFinish® grip, hi-vis yellow liner. Ideal for assembly, construction, inspection, material handling, refuse handling, landscaping and gardening.

### J - G-Tek® FORCE (39-C1300)

Latex rubber coated palm and finger tips, fully coated thumb. Seamless gray premium cotton/polyester liner. Superior grip in wet and dry applications. Ideal for assembly, construction, inspection, material handling, refuse handling, landscaping and gardening.

### K - G-Tek® NPG (33-G125)

Polyurethane coated palm and fingers for abrasion resistance and a breathable back for comfort. Used in Electronic & Computer Assembly, Quality Control, Inspection and General Assembly.

## GENERAL PURPOSE GLOVES

# Honeywell

THE POWER OF **CONNECTED**

### A, B - Pure Fit™ General Purpose Gloves

Pure Fit gloves are made of low-linting nylon filament fibers. Available in nitrile and polyurethane coatings for increased grip and abrasion resistance.

**A - PF550 Pure Fit Glove** - 13 cut, lightweight black nylon shell, gray polyurethane palm coating.

**B - PF560 Pure Fit Glove** - 13 cut, lightweight black nylon shell with black polyurethane coating – 3/4 dipped to extend over knuckles.

### C - Pure Fit™ Cut-Resistant Gloves

Pure Fit cut-resistant gloves offer protection and dexterity for applications requiring precision. HPPE liners offer lightweight comfort and dexterity while protecting hands from cuts, slash and abrasion.

**PF541 Pure Fit Glove** - 13 cut, lightweight charcoal HPPE liner with gray polyurethane palm and fingertip coating. ANSI cut level 2, EN388 cut level 3.

### D - Tuff-Coat® Gloves

Tuff-Coat, general purpose series feature seamless knit liners and durable quality coatings. Tuff-Coat liners are soft and comfortable, with no seams to rub and chafe - like cut & sewn gloves can. Tuff-Coat quality dip coatings add extra protection and inhibiting liquid penetration and increase grip and abrasion resistance.

**125 Tuff-Coat Glove** - 13 cut white nylon with blue natural rubber crinkle palm and fingertip coating.

### G - Nitri-Pro®

For handling rough, abrasive materials, Nitri-Pro® features our exclusive, tough, yet flexible, nitrile (NBR) coating that provides superior cut, puncture, snag and abrasion resistance and excellent resistance to oil and grease. Available fully coated or palm coated. Nitri-Pro® is an economical replacement for medium to heavy-duty leather palm work gloves. Nitri-Pro® is available rough finished for a good wet grip and extra wear or smooth finished for a good dry grip and more flexibility.

KEY SKU	MFG#	DESCRIPTION
G.....C11595	7199NC-10	Nitri-Pro, full-coated, smooth finish, 5" gauntlet, Large
G.....C11596	7199NCR-10	Nitri-Pro, full-coated, rough finish, 5" gauntlet, Large

## GENERAL PURPOSE GLOVES

### A - Heavy Utility™

Great for any kind of demolition, material handling, and rough labor. Featuring a hook & loop cuff closure, reinforced saddle, smooth fingertip seams, double stitched synthetic leather palm pads & reinforcements armorflex™ finger sidewalls and a terry cloth sweat wipe.

### B - Framer™

New and improved, the Framer™ offers open finger dexterity while providing outstanding protection and durability for the rest of your hand. Called the Framer™ for its ability to swing a hammer yet easily pick up a finishing nail, this glove is ideal for every situation where you want all the protection you can get but need those fingertips free.

Use for framing/carpentry, electrical set-up, rigging, tire mounting and trigger control for power tools/weapons.

### C - Box Handler®

A favorite of package delivery professionals around the world, this is the original all purpose package-handling glove. Super-Tacky grip combined with high dexterity made this glove so popular for so many people.

Featuring super tacky DiamondClad™ palm and fingertips. Low profile airprene knuckle protection. One piece synthetic leather palm and terry cloth sweat wipe. Use for drywall, hand & power tool use, gardening, warehouse work and motocross/ATV.

### J - Glove Clip

Heavy duty glove clip keeps your gloves close at hand and ready for use. Large basket 6061 carabiner clips to utility belts, harness straps, tool boxes and equipment bags. Never loose your gloves again!

KEY SKU	MFG#	DESCRIPTION
J.....P05017	30044	Glove Clip with carabiner, heavy duty

## LEATHER DRIVERS' GLOVES

### Top Grain Cowhide Drivers'

Features all leather top grain cowhide construction. Excellent dexterity & abrasion resistance. Used in construction, machine operation, light duty welding, utility work, farming, roping and many other general applications.

- A - Quality grade, straight thumb, elastic back.
- B - Quality grade, straight thumb, pull strap back.
- C - Regular grade, straight thumb, pull strap back.
- D - Regular grade, keystone thumb, elastic back.
- E - Economy grade, keystone thumb, elastic back.

### Split Cowhide Drivers'

All leather split cowhide construction. A lower cost alternative to top grain cowhide styles while still providing excellent dexterity and abrasion resistance.

Used in construction, machine operation, utility work, farming, roping and many other general applications.

- F - Premium grade, keystone thumb, elastic back.

### Anti Vibration Drivers'

Ergonomic gloves with shock absorbing palms for use in demanding applications where specialized protection in the palm and wrist is required. Ideal for lifting, material handling and use with pneumatic and electric tools.

- G - Top grain palm, split leather back, elastic back.

### Top Grain Pigskin Drivers'

All leather top grain pigskin construction. More porous than cowhide and returns to original pliability after being soaked in water. Elastic back closure for a snug fit. Available in economy or premium grades. Ideal for construction, machine operation, utility work and many other general applications.

- H - Premium grade, keystone thumb, elastic back.

### Top Grain Goatskin Drivers'

Provides excellent abrasion resistance. Goatskin's natural lanolin soothes hands. Goatskin is softer, has greater tactile sensitivity and outwears other leathers of the same weight. Consistent grading and superior workmanship. All leather top grain goatskin construction.

Ideal for use where all-leather gloves are desired, extended wear is expected and superior worker satisfaction is demanded.

- I - Premium grade, keystone thumb, elastic back.

## WELDING GLOVES

### J - 7085 Welders Glove

Men's shoulder grade cowhide split leather welder glove, cotton foam lining, wing thumb, reinforced thumb crotch, one piece back, brown leather welting, self hemmed, Kevlar® stitched. Ideal for welding and hot, heavy material handling.

### K - 75-320 Mig Tig Welders

Mens A/B grade pigskin grain leather mig tig welder glove, straight thumb, 4" cowhide split leather cuff, unlined palm, Kevlar stitched, no inside linings. Ideal for mig tig welding and automotive assembly.

### L - 1200 Welder Premium Grade

Premium cowhide shoulder split, reinforced wing thumb, fully welted, Kevlar sewn, russet color, hem cuff, double reinforced thumb crotch.

## LOW VOLTAGE LINEMEN'S GLOVES

### A - Novax Rubber Electrical Insulating Gloves

Novax Rubber Electrical Insulating Gloves, class 0, black, 11-inch. Meets ANSI/ASTM D120 standard and NFPA 70E for use around electrical hazards and arc flash protection.

Applications: Used exclusively for electrical purposes, such as power generation, electrical contractors, hybrid automotive repair/service, hybrid automobile manufacturing, industrial plant maintenance, utilities.

### B - Top Grain Goatskin Leather Protector

Driver glove with fourchettes and set-in thumb, unlined, keystone thumb, zig zag elastic sewn inside on the back.

Applications: Cover glove to be used only for mechanical protection for rubber insulating gloves. Not to be used for electrical protection per ASTM F696-02.

### C, D - Class 00 and 0 Electrical Insulating Rubber Gloves

Type I natural rubber, 11" length. Gloves are extremely flexible to make working with small parts easy. The gloves meet or exceed ASTM D120 and IEC EN60903 Standards.

### E - ILP Series Cowhide Leather Protector Gloves

ILP Series is manufactured from top grain cowhide, these protectors provide excellent protection for rubber insulating gloves at a very economical price. Meets ASTM F696 standards.

### F, G - Class 00 & 0 Glove Kits

Salisbury's insulating rubber gloves are necessary for every electrical worker's complete safety. And to insure your safety, Salisbury's leather protectors provide needed protection from cuts, abrasions, and punctures. To keep these safety items in top condition, proper storage is very important. Includes insulated rubber gloves, leather protectors and glove bag.

## ACCESSORIES FOR VOLTAGE GLOVES

### H - Portable Glove Inflator

The G99 is a simple, easy to use, portable glove inflator. The G99 provides a quality means of inspecting gloves in the field. The glove is secured to the inflator using a nylon strap and fastened with a hook and pile closure. Inflation is accomplished by pumping the bellows of the inflator against any surface. NOTE: gloves should be expanded no more than 1.5 times their normal size for Type I, and 1.25 times normal for Type II SALCOR®.

### I - Bags for Linemens Gloves

Salisbury bags are constructed of heavy duty canvas duck and are double stitched at stress for extra durability. Canvas bags feature a snap hook for hanging on work belts, and tapered gussets with wide opening tops for easy insertion.

### J - Glove Dust Ten-Four™

Glove dust is a cooling, frictionless powder that absorbs moisture and perspiration when wearing rubber gloves. Provides extra comfort while preventing gloves from getting stuck. The 5oz. bottle easily fits in a pocket or glove bag.

### K - Rub-Out™ Hand Cleaner

Rub-Out™ is a non-petroleum-based hand cleaner. Dissolves and removes grease, oil, ink, tar, pipe, dope, creosote, paint and more without harming rubber or SALCOR® rubber. Product cleans with or without water and contains skin conditioners that leave a fresh citrus scent.

## PROTECTIVE FOOT WEAR

### A, B - Icon 2295 Steel Toe Ex Wide

The Icon 2295 EW is an iconic wellington pull-on boot. This version has a wider comfort fit. This industrial boot has a steel toe cap, slip resistant sole and has additional insulation that will help protect the wearer against accidental contact with an electrical charge. Rich, tumbled, water-resistant leather uppers on a welted construction foot bed that offer exceptional stability and durability. Constructed with our durable air-cushioned PVC sole and fitted with an EVA foot bed and padded ankle support. These features ensure total comfort and supreme fit for your work boot. The iconic Dr. Martens air-cushioned sole is resistant to oil, fat, petrol and alkali.

### E - Rush Waterproof

The Rush is a fully waterproof, pull-on boot engineered for the most demanding workplace. A highly breathable waterproof upper and a BreatheRight® wicking lining pulls sweat away from the skin—keeping you dry—while a removable smart foam footbed serves up all-day comfort. A high-performance safety toecap and a heat-resistant rubber compound sole keep you safe—and round this boot out as the ultimate work boot. The Rush EH is fully waterproof, and is all about keeping you safe and comfortable on the job. The Rush comes with safety composite toe cap and static dissipation properties. It's non-metallic, slip resistant and has a heat resistant rubber compound sole.

### F - Calamus Safety Toe

Unparalleled protection minus the weight of traditional work boots: that's the Calamus. A new chapter in Dr. Martens non-metallic footwear, the Calamus serves up unique and lightweight shell molding, antimicrobial, breathable linings and a removable smart foam footbed — keeping feet dry and comfortable. The high traction rubber compound sole is engineered to be heat-and-slip-resistant. An external rubber toe bumper adds more durability and worksite protection.

## PROTECTIVE FOOT WEAR

### A, B - Ironbridge Steel Toe

The legendary Ironbridge ST, 8-tie lace-to-toe is a true, rugged work boot. This industrial boot has a steel toe cap, slip resistant sole and has additional insulation that will help protect the wearer against accidental contact with an electrical charge. Rich, water resistant tumbled leather uppers on a welded construction foot bed that offer exceptional stability and durability. The padded collar and tongue provide great comfort and fit, while the moisture wicking lining and anti-bacterial Smartmask® insole keep your feet dry and safe. The iconic Dr. Martens classic PVC air-cushioned sole is resistant to oil, fat, petrol and alkali.

### C, D - Winch Steel Toe Ex Wide

Winch ST is 7-eye lace-up boot with a steel-toe on a flexible PVC outsole. The padded collar and tongue provide great comfort and fit, while the moisture wicking lining and removable EVA comfort insole provides cushioning. The slip resistant sole reduces the risk of slips and falls on hazardous surfaces. Also offers additional insulation and protects the wearer against accidental contact with an electric charge.

### E, F - Deluge Safety Toe

The Deluge EH men's boot is engineered for today's heavy industry sector. Fully waterproof with a hiker cut, the Deluge EH's lining wicks moisture away from the skin—so you stay dry on the worksite. A removable smart foam footbed keeps you extra comfortable, and a safety cap protects your feet. The Deluge EH has BreatheRight® wicking lining, wicking moisture away from the skin. Protection comes from a composite material safety toe cap. The industrial men's boot also has a cushioning PU midsole and a heat resistant rubber compound sole. The slip resistant sole reduces the risk of slips and falls on hazardous surfaces. Also offers additional insulation and protects the wearer against accidental contact with an electric charge.

B.....C13518	...888-1008-L	.....Postal Certified Mini Crew Socks, 3/pk, black, large

### C - SuperPoly® 85324

Designed for use where high chemical resistance is required the SuperPoly boot is made of a scientifically formulated urethane PVC compound. Features include a cut off band for height adjustment, replaceable cushion insoles, heel and toe bumpers, kick off lug for easy on and off, steel toe and hardened steel ladder shank for added safety and comfort (men's sizes only). Excellent for use in slaughter houses, red meat processing, canneries, breweries, dairies, oil rigs and chemical plants.

### D - The Hazmax® Kneeboot 87102

Made for hazardous material handling, this 16" boot height is constructed of a high viscosity and flexible PVC alloy and a non-absorbent polyester lining for easy cleaning and quick drying. Features a steel toe, steel shank, steel midsole and replaceable cushioned insoles. Use in situations involving dangerous chemicals, gasses or biological hazards and waste.

*Steel toe complies with ASTM F2413-05 and CSA Z195. Exceeds CSA standards for Dielectric Footwear. Certified by S.E.I. to meet the requirements of NFPA 1991 Standard on Vapor-protective Ensembles for Hazardous materials Emergencies, 2005 edition, and additional requirements for chemical and biological agents.*

### E, F - Goliath® 89680(PT)/89682(ST)

The Goliath is made of a polyblend compound providing moderate chemical protection. Superior resistance to animal fats (especially poultry), acids oils, greases and chemicals. Has a high abrasive wear, removable insole and a steel shank for firm arch support. Excellent for use in food processing, chemical plants, lawn care, canneries, poultry processing, fish processing, breweries and mining.

### G, H - Buffalo® 87401(PT)/87801(ST)

The Buffalo is an economy grade boot for waterproof protection. Made from a 100% waterproof, black PVC compound and features a self-cleaning lug outsole for traction in wet, muddy conditions, V-bar molded shank for complete arch support and kick-off lugs for easy removal. Excellent for use in construction, farming, agriculture, commercial fishing and aquaculture.

## PROTECTIVE FOOT WEAR

A, B

E

C

D

F

### A, B - Monarch® Economy Boots

Durable yet economic foot protection designed for uses where chemical resistance is not a factor. Features replaceable cushion insoles, pull-up and kick off lugs for easy on and off, cut off band for height adjustment, and reinforced shank. Excellent in wet, muddy conditions, orchards, vegetable fields, citrus groves, agriculture, meat/food processing, water, commercial fishing, and construction.

### C - Hazmat Boot Covers

The .60mm latex rubber Hazmat Boot Cover provides an extra layer of protection from hazardous chemicals. Ribbed and textured sole for traction, 100% waterproof and disposable. Excellent for use in spill clean-ups, municipalities, and utilities.

### D - Chest Waders

The injected molded seamless boot construction offers superior, waterproof protection to the chest. Made of a durable, heavy duty PVC upper with polyester backing the Chest Waders are resistant to oil, grease, gasoline, saltwater and ozone. Features steel toe and steel midsole, adjustable polyester nylon strap, non-corrosive, reinforced suspender buttons, built-in belt loops with adjustable belt, non-absorbent lining and replaceable cushion insoles. Excellent for use in utilities, municipalities, aquaculture and commercial fishing.

### E - DuraPro® Boot

High performance compounds provide the perfect chemical resistance in the upper and superior abrasion and slip resistance in the outsole. Honeycomb design molded inside the heel to reduce impact when walking. Sloped comfort top rim prevents chafing and reduces discomfort when walking, bending and kneeling.

### F - Economy Steel Toe Hip Boot

The rugged Economy Hip Boot provides great protection in muddy, grimy jobsites. They are made of 100% waterproof, abrasion-resistant rubber and has a steel toe that meets or exceeds ASTM F2413-05 M I/75 C/75 EH. A slip-resistant Diamond Bar outsole provides excellent traction and a lower inner thigh boot height provides greater walking mobility and comfort. Features durable canvas lining for easy on and off, cushion insole for all-day comfort and a steel shank for firm arch support.

## FOOT PROTECTION INSOLES, SUPPORTS AND ACCESSORIES

### A, B - Soft Arch Supports

Combines the cushioning of Spenco RX Comfort Insole with a soft arch "cookie" that contours with each step to provide support for tired arches.

### C - Orthotic Arch Supports

Firm customizable support for casual and athletic shoes. Helps control, stabilize and balance the foot. Heat moldable for a custom fit. Spenco® Material absorbs shock and reduces friction to improve overall foot comfort.

### D - Comfort Insoles

Lightweight cushioning protects against impact and reduced friction helps prevent blisters. Fits in any shoe or boot and over custom orthotics.

### E - Rhino Tuff Puncture Resistant Insoles

Stainless steel plate provides protection against puncture wounds to the feet caused by sharp objects such as nails, scrap metal, iron shards, and rocks. Designed to meet and exceed ASTM requirements for puncture force. Does not create rigid sole.

### ELLWOOD SAFETY

### F - Metal Foot Guards

Foot guards are lightweight aircraft quality aluminum alloy shields worn over shoes for maximum protection to the entire foot.

- Withstand an impact of 75+ foot pounds
- Fits any average or wide shoe. Light enough to be worn all day
- Rubber toe clip, crossbar, and rubber strap with a tension buckle keep guard properly positioned

### G - Deluxe Scrusher® Boot Cleaner

Ideal for heavy duty cleaning of boots and footwear. Great for garages, barns, ranches and shop areas. Even the thickest mud doesn't stand a chance against the three sets of brushes on the bottom of the Deluxe Scrusher.

### H - Deluxe Scrusher® Portable Steel Base

Keeps the Deluxe Scrusher in place when cleaning footwear.

## KNEEPADS

### A - Contour Knee Pad

This soft 1/2" foam rubber pad is contoured to the shape of the knee. It's designed to allow easy side to side movement on hard surfaces and can be used in wet environments. The contoured shape allows the 1-1/2" Velcro straps to be worn more loosely for greater comfort. Perfect for laying brick and other masonry work.

### B - Standard Knee Pad

One piece molded construction offers greater comfort at low cost. Adjustable Velcro® straps for secure fit. The surface grid provides skid resistance even in wet areas and hard surfaces such as home and garden use.

### C - MaxKnee

Perfect for kneeling on rough abrasive surfaces, MaxKnee is excellent for any application that demands maximum performance. It is designed with a hard poly knee cap that resists abrasion and works with an extra long pad for optimum comfort. Available with two comfortable, fully adjustable elastic straps connecting with Velcro closures or with quick release buckles.

### D - FlexKnee

Grueling deep knee work requires tough protection. Designed with lightweight pads capped by large abrasion-resistant rubber caps for long-lasting wear. The wrap around rubber cap design allows maximum flexibility while maintaining a secure fit. Excellent for non-slip, hard surface work environments. Designed with Velcro closures or quick release buckles.

### E - Non-Marking FlexKnee

A non-marking polyurethane cap is used on our FlexKnee to allow workers to move around the work area without marking or damaging a delicate surface such as tiling. Velcro straps allow for a custom fit and make donning quick and easy.

### F - SoftKnee

A tough blend of cloth and EVA foam make these pads extra comfortable and easy to wear in non-abrasive environments. They slip on and off quickly without straps or buckle attachments. Easy to wear over or under trousers, they are lightweight and durable.

KEY	SKU	MFG#	DESCRIPTION
A	C14007	7100	Contour Knee Pad, 1/2" foam rubber, velcro straps
B	C14033	7101	Standard Knee Pad, one piece molded, velcro straps
C	C14034	7102	MaxKnee with poly cap, velcro straps
C	C14035	7102-GEL	MaxKnee with gel pad, velcro straps
C	C14036	7102-Q	MaxKnee with quick release buckles
D	C14037	7103	FlexKnee, abrasion resistant rubber cap, velcro straps
D	C14039	7103-Q	FlexKnee, abrasion resistant rubber cap, quick release
E	C14038	7103-01	Non-Marking FlexKnee, PE cap, velcro straps
F	C14041	7105	SoftKnee, noabrasive, slip on/off

### G - Gel Knee

Made of Neoprene with a soft, unique, abrasion-resistant, flexible poly cap with rivets for added durability and Silica gel pad insert for maximum comfort. A 2" wide strap features a Velcro closure for a snug fit.

### H - Ultra FlexKnee

Ultra durable, ultra flexible, ultra comfortable, the lightweight Ultra FlexKnee is ribbed across the knee for easy flexing, and maximum comfort above the knee. The flexible PVC material kneeling surface is grooved for non-slip stability. It is designed to hold its shape better, and is constructed with inner foam rubber for greater comfort, and water resistance. Unique, easy to adjust rubber straps offer a comfortable, custom fit.

### I - Deluxe QuickFlex

Offering the most protection available, our Deluxe QuickFlex is a completely unique knee pad. The large, 3/4" thick pad has a hinge design that provides protection and ease of movement above and below the cap, and a wrap-around design for greater side protection. The large poly cap conforms to the shape of the knee for maximum protection. The double strap system uses 1-1/2" straps with deluxe quick release buckles, and allows for easy adjustment and a snug fit while ensuring greater stability and side protection.

### J - Leather Knee Pad

Tough abrasion-resistant leather for maximum protection and soft cushion back for comfort. Elastic straps with Velcro closures ensure a secure fit. Because of its resistance to heat and fire this is ideal for welders or any construction application such as concrete work.

### K - Welding Knee Pad

Tough heat-resistant leather that wraps over the top and down the back of the pad offering maximum protection from flying sparks. Soft cushioning ensures comfort. Elastic straps maintain a secure fit with the convenient quick release buckle. Non-marking poly knee cap increases protection. Because of its resistance to heat, this knee pad is ideal for welders, or any construction application such as concrete or flooring work.

### L - Deluxe SoftKnee

An extra wide foam pad makes this knee pad the most comfortable in the industry. Designed with a tough water-resistant cover and no kneecaps, it is perfect for jobs where protecting the work surface is a primary concern. 1 1/2" elastic straps are adjustable and are equipped with Velcro closures. Blue.

## WRIST & ELBOW SUPPORT

### C - Rist-Rap

Elastic wrapping for the wrist that helps support it while lifting or during other activities. Velcro closure. One size fits all. Sold in pairs. Black.

### D - Dual-Flex™

For firm support, the Dual-Flex contains four stays on the front and back of the wrist to limit flexion (downward) and extension (upward) movement and encourage neutral wrist position. The straps wrap completely around the wrist for added support. Easy to put on, it is lined to keep hands dry and fits both right and left hands.

### E - Deluxe Elbow Pad

This strong support offers abrasion resistant flexible caps backed by soft foam padding. Elastic sleeve and fully adjustable Velcro closures for a comfortable, custom fit. Pair.

KEY SKU	MFG#	DESCRIPTION
C..... C12044	...7211	.....Rist-Rap, black, one size fits all

### F - Soft Knees® No-Strap Knee Pads

For workers who frequently kneel for short periods of time. The sturdy, light weight Soft Knees® molded pad is barely noticeable to the worker when standing and walking. Simply roll Soft Knees® into a tight roll and insert into the opening in the bottom of the double knee of most double knee workwear.

### G, H, I - ErgoKneel® Handy Mats

Made of thick 1" heavy, resilient, closed-cell foam rubber, not plastic. Will not absorb liquids and are impervious to petroleum products. Clean easy. Use soap and water, pressure wash, or steam clean; even most solvents and thinners. Silicone free.

### J - Gardener's Kneeling Strip

Lay between the rows of your garden or in front of your flower bed. Provides 84" of comfortable kneeling. Velcro strap provided for easy storage.

### K - Pak-A-Ladder®

Stops channel from biting shoulders. Compresses to fit most step ladders. Also fits under step to carry vertically. No screws, no glue

## BACK SUPPORT BELTS

### A - Flexbak®

Allegra's top-of-the-line three part belt. Two internal support panels above and below the waist surrounded by an elastic third panel that produce maximum bracing without pinching or riding up. Washable. Suspenders included. Black. 2-year Hard Work Warranty.

### B - BodyBelt

9" wide back support with elastic back and non-elastic side panels. Single front closure. Sewn-in, adjustable suspenders. Black.

### C - Economy Back Belt

Economical support with 8" elastic back panel, positive Velcro® material front panels and 4" elastic side pulls. Sewn-in suspenders. Black.

### D - Economy Hi-Viz

This economical support is designed with an eight-inch elastic back panel, positive Velcro™ material front panels. It offers the added safety of high-visibility green suspenders and 3 inch wide elastic V-shaped side pulls. Excellent for road work.

### E - Spanbak™

Rubber grip webbing prevents ride-up. Plastic coated carbon steel stays for maximum support & strength. Washable. Break-away suspenders.

### F - Deluxe Spanbak

Heavy duty spandex materials with four coated steel stays lined with rubber grippers. Removable suspenders.

## CLASS A & B FIRST AID KITS

### Class A & B First Aid Kits

The newest ANSI/ISEA standard introduces two classes of first aid kits: Class A and Class B. Class A kits are designed to deal with the most common types of workplace injuries. Class B kits are designed with a broader range and quantity of supplies to deal with injuries in more complex or high-risk environments.

These kits meet the ANSI/ISEA Z308.1-2015 standard as sold, it contains first aid products which meet performance specifications detailed in the standard at the required minimum fill. It will continue to be compliant only when maintained with products that meet the standard at specified quantities.

## BANDAGES, TAPES & WRAPS

### A, B, C - Certi-Strip Adhesive Bandages

**A - WOVEN** - Woven Certi-Strips stretch for more comfort. Adhesive that sticks and won't hurt when removed. Medium weight with extra-strength adhesive.

**B - PLASTIC** - Designed with adhesive that sticks and won't hurt when removed. Protect minor cuts and scrapes.

**C - BMD (Blue Metal Detectable)** - Flexible heavy duty fabric that is easily visible in case of loss. Inside foil makes detection possible with most metal detectors.

### TRIANGULAR BANDAGE

**D - TRIANGULAR BANDAGE** - Use for arm sling or head dressing. Fold in ways to fit almost any part of body.

### TAPES AND WRAPS

**E - CERTI-RIP** - Easy to tear to the exact length desired. Sticks in wet or dry conditions. No need for clips - adheres to itself. For sprains and holding gauze in place.

**F - ELASTIC BANDAGE** - For compression support of strains and sprains. Secured with metal clips. Compare to Ace® Bandages.

**G - CERTI-TAPE** - Easy to tear - no scissors required. Great adhesive.

### H - Wire Splint

Lightweight solution for temporary setting of fractures. Shape to conform to injury.

### I - SAM® SPLINT

Built from a thin core of aluminum alloy and sandwiched between two layers of closed-cell foam, the SAM Splint can be bent into any of three simple curves, becoming extremely strong and supportive for any fractured or injured limb. Incredibly lightweight (only 4.0 oz.), no other device offers so many variations for the treatment of orthopedic emergencies.

## DRESSINGS, PADS, COLD PACKS & INSTRUMENTS

### DRESSINGS & PADS

**A - SAM® CHEST SEAL** - Engineered to treat, seal, and reseal open chest wounds under most circumstances. After simple and quick application, SAM® Chest Seal sticks relentlessly – through extreme heat or cold, no matter the elements. Meets CoTCCC-preferred features.

**B - ABSORBENT COMPRESS** - Aids in the control of bleeding. Provides a sterile cover over wounds.

**C - CERTI-GAUZE COMPRESS** - Aids in the control of bleeding. Provides a sterile cover over wounds.

**D - CERTI-GAUZE PAD** - Non-woven Certi-Gauze that is more absorbent and less abrasive. Won't stick to the wound and is extremely breathable. No fraying or loose threads. Cost effective and outperforms traditional gauze products.

**E - CERTI-GAUZE ROLL** - Helps control bleeding. Use when moderate compression is needed.

**F - CERTI-STOPPER** - Pressure compress for severe or deep wounds. Extremely effective on heavy bleeding. Extra gauze compress in pocket on back of compress adds extra pressure to the wound to help stop bleeding. Features a 5" x 7" heavy, non-stick pad to cover the wound connected to a 4" x 60" Certi-Gauze roll.

### G - EYE PADS & TAPE

**H - FINGER COTS** - Good for covering cuts on fingers. Keeps bandages in place. Helps prevent infection.

### COLD PACKS

**I - COLD PACKS** - No refrigeration needed. Remains cold for a minimum of 15 minutes. Instant action by impact, then shake gently.

## WOUND CARE

### SPRAYS

**A - ANTISEPTIC BZK SPRAY** - Pump sprays allow for ease of use and environmentally safe disposal. Effective for minor cuts & scrapes. Provides bactericidal & cleansing action.

**B - COLD SPRAY** - Topical coolant. Eases pain and reduces heat of minor burns. Helps reduce swelling of bruises and sprains. Deadens pain for splinter removal.

**C - ALCOHOL SPRAY** - Topical antiseptic cleaner for cuts & abrasions. Pump sprays allow for ease of use and environmentally safe disposal.

**D - BLOOD CLOTTER** - Topical analgesic. Aids in control of superficial bleeding. Protects and eases pain of minor cuts and abrasions. Helps prevent infection.

**E - CERTI-BURN SPRAY** - External analgesic. Temporary relief for minor burns, cuts and scrapes. All CSM burn products are water soluble and contain the soothing power of Aloe Vera. Helps relieve pain, cools and helps prevent infections.

### HYDROGEN PEROXIDE

**F - HYDROGEN PEROXIDE** - Used for cleaning wounds, removing dead tissue, and as an oral debriding agent. Peroxide stops slow (small vessel) wound bleeding and oozing, as well.

### PETROLEUM JELLY

**G - PETROLEUM JELLY** - Used for sealing cuts and burns, which inhibits germs from getting into the wound and keeps the injured area supple by preventing the skin's moisture from evaporating.

KEY SKU	MFG#	DESCRIPTION
A	P17482...R512-043	Antiseptic BZK Spray, Non-Aerosol, 2 oz.
B	P17308...R280-020	Cold Spray, Aerosol Can, 4 oz.
C	P17354...R221-036	Alcohol Spray - 70%, 2 oz.
D	P17391...R280-021	Blood Clotter - Aerosol Can, 3 oz.

F	P17405...R221-034	Hydrogen peroxide, 16 oz bottle
G	P17404...R510-029	Petroleum Jelly, 13 oz jar

### CREAMS & OINTMENTS

**H - FIRST AID CREAM** - Helps heal minor cuts, scrapes and burns.

**I - HYDROCORTISONE CREAM** - Temporary relief for itches and rashes from dermatitis, poison ivy, detergents and insect bites.

**J - CERTI-SPORYN ANTIBIOTIC CREAM** - Topical antibiotic. For use on small cuts and abrasions.

**K - ALCOHOL GEL SANITIZER** - Use when soap and water are not available. Helps kill germs.

**K - BIOFREEZE PROFESSIONAL** - Alleviates pain from backaches, arthritis, sore muscles and joints, sprains, strains, and bruises.

### BURN TREATMENT

**M - WATER JEL BURN DRESSING** - Stops the burning process. Cools the burn and relieves pain. Helps prevent contamination. Non-adherent dressing.

**N - CERTI-BURN CREAM & GEL** - External analgesic. Temporary relief for minor burns, cuts and scrapes. Water soluble and contain the soothing power of Aloe Vera. Helps relieve pain, cools and helps prevent infections.

**O - BURNFREE GEL** - Apply to the affected area and it immediately begins to cool the burn and ease the pain. No lidocaine or benzocaine that can cause allergic reactions.

.....	P17245....71556	.....Sun X 30, 500 mL Replacement Bladder

### G-I - Bug X 30 Insect Repellent w/ Deet

EPA registered formula follows the suggestion from CDC to reduce the amount of DEET concentration in insect repellents. This newly approved EPA formula allows the DEET to be released in a more controlled and measured manner, permitting longer lasting performance once obtained only by high concentrations of DEET.

This new water base formula is Non-Greasy, Non-Staining, Low Odor, Water and Sweat Resistant.

It has all the claims necessary for a compliant skin care program plus the packaging that makes it affordable (towelettes, sprays and lotions) to meet every application. Bug X 30 is EPA registered in all 50 states plus Health Canada and Mexico. It's "Your insect repellent skin care solution".

Bug X 30 Insect Repellent with DEET is effective for 7+ hours against: Mosquitoes, ticks, chiggers, fleas, gnats, red bugs, no-see-ums, sand fleas, biting flies, deer flies, stable flies, and black flies.

KEY SKU	MFG#	DESCRIPTION
G.....	P17399....12641	.....Bug X 30, Single Use Towelette
H.....	P17400....12644	.....Bug X 30, Dispenser Box, Single Use Towelette, 50/Box
I.....	P17418....12650	.....Bug X 30, 2oz Pump Spray Bottle

### J - Bug X FREE Deet

Naturally derived, plant-based repellent, finally an industrial DEET FREE insect repellent that works! Bug X FREE is an all natural, DEET FREE insect repellent providing protection against mosquitoes, ticks, flies, gnats, no-see-ums and fleas.

BugX FREE formula is Safe to use on FR clothing, Non-flammable, Naturally Derived, Plant-based Geraniol, Easy to Apply and Convenient.

Bug X FREE is the perfect answer when Fire Retardant (FR) clothing is being worn, environmental conditions prefer "All Natural" products to be used, and /or face and neck protection is needed.

Bug X FREE Insect Repellent without DEET is effective for up to 120 hours (wrist band) of protection against: Mosquitoes, ticks, chiggers, fleas, gnats, red bugs, no-see-ums, sand fleas, biting flies, deer flies, stable flies, and black flies.

## PEST CONTROL

A

B

### A, B - RESCUE!@ Reusable Yellowjacket Trap

What it catches: Roughly a dozen species of yellowjackets throughout North America are known to bite and sting people. RESCUE!@'s Reusable Yellowjacket Trap is designed to lure them all.

How it works: Our exclusive attractant draws them in through holes in the bottom of the plastic cylinder where they become trapped and eventually die of dehydration. Our scientifically formulated attractant lasts for weeks without daily maintenance. The trap's durable construction holds up in sunlight for many seasons of use and its clear plastic walls allow the user to see the yellowjacket "body count" so they can empty the trap as required.

Unique features and benefits:

- Catches multiple species.
- Attractant lasts for weeks without daily maintenance.
- Attractant refills available, including the RESCUE!@ 10-week Attractant Cartridge for even longer lasting performance.
- Won't trap beneficial honeybees.
- Double-chambered design prevents yellowjackets from escaping.
- Durable plastic holds up in sunlight for seasons of use.
- Used and recommended by the United States Department of Agriculture as well as major U.S. zoos, parks, campgrounds, resorts and school districts.
- Clear plastic tube allows the user to see the yellowjacket "body count".

KEY	SKU	MFG#	DESCRIPTION
A	G18007	YJTR-SF4	Reusable Yellowjacket Trap, yellow
B	G18008	YJTC-DB9	Replacement attractant cartridge for Yellowjacket Trap

C

D

### C - RESCUE!@ Reusable Fly Trap

What it catches: This trap catches hundreds of species of common nuisance or filth flies. The trap is baited for the most prevalent species including house flies, false stable flies, blow flies, blue and green bottle flies, flesh flies, face flies and many others.

How it works: The trap comes with a water-soluble pouch of powder attractant. When the jar is filled with warm water and the trap is placed outside, the attractant dissolves and activates quickly. Simply replace the used attractant with a refill packet to allow this trap to be reused again and again.

What kills the insects?: Once lured inside, the flies drown in the water added to the trap.

Unique features and benefits:

- Fast-acting attractant
- Just add water
- Simple and economical to reuse
- Durable plastic container holds up in sunlight for seasons of use
- Refills available

KEY	SKU	MFG#	DESCRIPTION
C	G18004	FTR-DT12	Reusable Fly Trap, fly trap jar with lid and attractant
C	G18005	FTA-DB18	Replacement attractant for Rescue Fly Trap, 3/pkg

### D - Rid-Max Flytrap

The Rid-Max Fly Trap is a patented, environmentally safe insect trap. The Rid-Max Fly Trap is manufactured using recycled materials and considered a "Green" product. It traps flies and other insects without the use of toxic pesticides or chemicals, or messy and expensive liquid lures. You provide your own choice of safe and natural baits.

KEY	SKU	MFG#	DESCRIPTION
D	G18002	FLYTRAP	Rid-Max Fly Trap, 7" x 7.5"; legs extend 3"

## ELECTROLYTE REPLENISHING

### J-M - Squincer Coolers & Accessories

Features air-tight seal, high-visibility color, quick-flow spigot, high-density polyurethane foam construction and universal mounting bracket for cup holder. The 7 gallon double cooler features center 2 gallon chamber which holds ice to chill drink with no dilution and provides chilled water at tap as ice melts.

### N, O - Squincer's The Bubba Kegs'

The Bubba Kegs' dual-wall foam insulation ensures cold beverages stay cold and hot beverages stay hot. Stainless steel outer casing ensures that your cooler can stand up to a beating.

### A, B, C, D - Squincer Powder Pack™

Squincer Powder Pack™ gives workers the electrolytes required to stay hydrated. Great-tasting powder mixes are scientifically formulated to return all those important minerals and fluids lost in the line of duty. The Fast Pack® pouch doubles as a cup! All you have to do is add water to the mix and you're good to go.

### E - Squincer Squeeze Pops

Even the toughest of the toughest will enjoy Squincer Squeeze Pops. This 3 oz. electrolyte-replenishing treat does the trick in a variety flavors with just the right amount of performance boosting electrolytes. Squeeze Pops are perfect for those on site locations that aren't water accessible.

### F - Squincer Qwik Stik™ Tube

Qwik Stik ZERO is a one-man hydration solution without the sugar or calories. Simply rip open a pack, pour into a bottle of water and let the hydration hit the spot.

### G - Squincer QwikServ™

Perfect for people who want to keep it simple. Just pour the portable powder into a 1/2 liter bottle of water whenever you get the urge.

### H - Squincer Ready To Drink Widemouth

When you're really thirsty, an ice cold bottle of Squincer beats soda or water any day of the week.

### I - Squincer FastPack®

The pouch that doubles as a cup! All you have to do is add water to the mix and you're good to go.

## DEFIBRILLATOR

**AED PLUS**  
Automated External Defibrillator

### A-C - ZOLL AED Plus Defibrillator *Special Order*

ZOLL believes an AED should not just deliver a shock. It should also help the rescuer provide high-quality cardiopulmonary resuscitation (CPR). That's why you need ZOLL's AED Plus with Real CPR Help.

- A user-friendly interface uses a combination of graphics and voice prompts to instill confidence and reinforce training. High intensity LEDs with voice prompt lead the rescuer through the resuscitation process quickly.
- A blend of audio and visual cues ensure that users don't administer the incorrect rate and pressure of chest compression - one of the most common errors that occur during CPR
- A one-piece, replaceable pad simplifies positioning, eliminates delays, and makes it hard for incorrect placement to occur
- The only AED to use inexpensive, consumer batteries that are easy to replace and last at least five years in stand-by mode. These lithium camera batteries are available at most department and electronics stores.
- In the frenzied confusion of an emergency situation, the AED Plus makes users comfortable and gives the confidence to successfully complete every aspect of an SCA rescue

## CPR MASKS

### D-I - CPRotector®

With concerns over HIV and Hepatitis, the CPRotector makes sense in all first aid kits. Disposable and economical mouth-to-mouth barrier between the rescuer and the victim with a one-way valve.

Cross-section on bottom of stem prevents tongue blockage. Stem length complies with new FDA Standard and serves as a bite stick if needed. Patented free floating valve allows better air-flow to the victim. Helps protect the rescuer from unsafe mouth-to-mouth contact. All parts are ultrasonic welded. Compatible with most CPR training mannequins. Single use. Micro Pouch comes complete with key ring and belt loops.

KEY SKU	MFG#	DESCRIPTION
D	P17312	.....R270-011 .....CPRotector® w/ Orange Micro Pouch
E	P17401	.....R270-030 .....CPRotector® w/ Gloves and Orange Mini Pouch

J	P17173	.....LIFE-612 .....LIFE® OxygenPac, 6 & 12 LPM - "NORM" & "HIGH" (2 settings) allows high setting for 100% inspired O2

## PORTABLE EYEWASH UNITS

**A - Haws Portable Eyewash Model 7602.10** *Special Order*  
 Hazardous chemical spills occur in isolated areas all over the world everyday and, Haws is working to position models like the pressurized 10-gallon 7602.10 personal portable eyewash in these areas, providing a reliable source of safety for the irrigation process.

- Features a 10-gallon stainless steel tank.
- Protective measures include: air pressure gauge, pressure relief valve, tire-type air fill valve, and bacteriostatic additive that permits storage of water for up to six months.
- Measurements: 43" high, 12 1/4" diameter.
- Fill tank with water to an inside height of 17-1/4", and pressurize tank to 90 psi.

### B - SAS Portable Emergency Eyewash Station

- One-hand operation
- Gravity-fed, no plumbing required
- Holds 9 gallons of water
- 15-minute flow time
- Portable unit measures 9.5" x 16.5" x 20.15"
- Locking cap
- Mounting bracket, inspection tag and preservative included
- Change water every 90 days
- Meets ANSI Z358.1

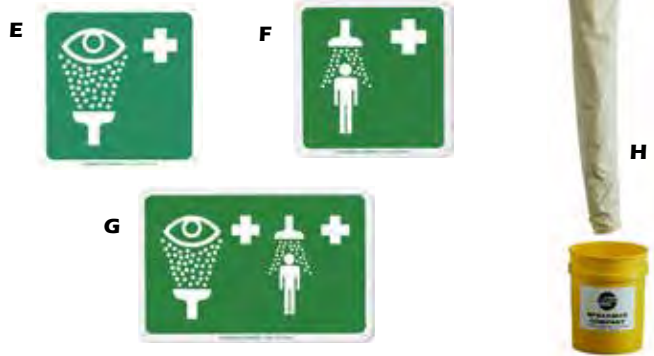

### Preservative for Eyewash Station

- Portable water preservative
- Add one bottle for each 15 gallons of water
- 8 oz. bottle
- Shelf life: 2-years from date of manufacture

KEY SKU	MFG#	DESCRIPTION

B	P07067	5134-00.....SAS Portable Emergency Eyewash Station, 9 minute
	P07062	5136.....Preservative for Eyewash Station, 8 oz.

## SPEAKMAN®

### C - GravityFlo® Portable Eyewash SE-4300

15 minute portable eyewash unit includes detachable side fitting drench hose for spot body washing and a 20 gallon capacity tank. Integral drain allows flushing fluids to be contained avoiding slip hazards. Simple pull of an elastomeric strap activates the unit to provide hands free operation. Includes a bottle of water preservative. Meets ANSI Z328.1. 3 year limited warranty.

### D - GravityFlo® Portable Eyewash SE-4400

Portable Eyewash has a 9 gallon tank and is designed to provide the ultimate solution to locations in need of an eyewash that have no access to a potable water source. Providing continuous flow for the ANSI Z358.1 required 15 min. Shelf, table, or wall-mounted and can be placed practically anywhere within a worksite. Highly visible yellow activator instantly delivers relieving streams, allowing hands free operation. 3 year limited warranty.

### E, F, G - Emergency Eyewash & Shower Signs

- Sign comes complete with ties allowing the user to prominently signal the location of an emergency eyewash station.
- Sign is high visibility green with white lettering.
- Made from durable plastic.

### H - Shower & Eyewash Test Kit

- Includes 5 gallon bucket and lid, shower tester funnel with holder and eyewash test gauge.
- Designed to allow the testing of emergency safety showers and eyewashes to validate that the equipment meets ANSI Z358.1 requirements.

## PORTABLE EYEWASH UNITS

# Honeywell

THE POWER OF **CONNECTED**

### A - Fendall Pureflow 1000® Eyewash Unit

- Delivers Eyesaline Solution; purified, contaminant-free and physiologically correct from a sealed, integrated delivery module
- Integral drain valve allows easy draining of reservoir after use
- Integral fluid reservoir captures waste fluid, eliminating potential safety hazards and simplifying fluid disposal
- Low Maintenance Saves Money.
- No special plumbing is needed and mounts easily with one bracket.
- Constant flow rate permits thorough flushing
- Twenty-four month cartridge life, at least four times longer than any other primary, self-contained eye wash station.

SEI certified to meet ANSI Z358.1

### Fendall Porta-Stream® Eyewash Units

**B - Porta-Stream I - Secondary/Personal Device** - Porta Stream I - Same as below except it provides 6-minutes of flushing. Intended as support to primary eyewash units.

**C - Porta-Stream II - Primary Eyewash Device** - Porta Stream II offers versatile portability and 15-minutes of uninterrupted flushing — without costly plumbing. Self-contained, each model features a nozzle strap that is easily removed to activate flushing, leaving hands free to hold eyelids open. Meets ANSI Z358.1.

**Honeywell**  
THE POWER OF CONNECTED

#### D - Bio Med Wash®

Bio Med Wash® is a sterile, heavy mist containing 100% Bio-Logic Aqua®, an all-natural, pH correct, pure tissue-culture grade of water. The application is helpful in removing particulate matter and crusted exudate from cuts and abrasions, and in removing irritating chemicals from skin and eyes.

With Bio Med Wash, Bio-Logic Aqua Technologies introduces the concept of an all-natural sterile wash for wound management and emergency professionals. For agencies that handle or sell irritating chemicals such as pepper spray or tear gas, BIO MED WASH could reduce liability and expand the capacity to cope with emergency situations.

#### E - Honeywell Eyesaline® Eyewash

Contain a buffered, saline solution that is sterile and superior to tap water for emergency. Perfect for flushing nuisance particles such as pollen, dust, saw dust, smoke, etc., as well as for immediate treatment en route to primary eyewash unit or continued irrigation en route to medical care after a 15-minute eyewash.

#### F - Honeywell Personal Eyewash

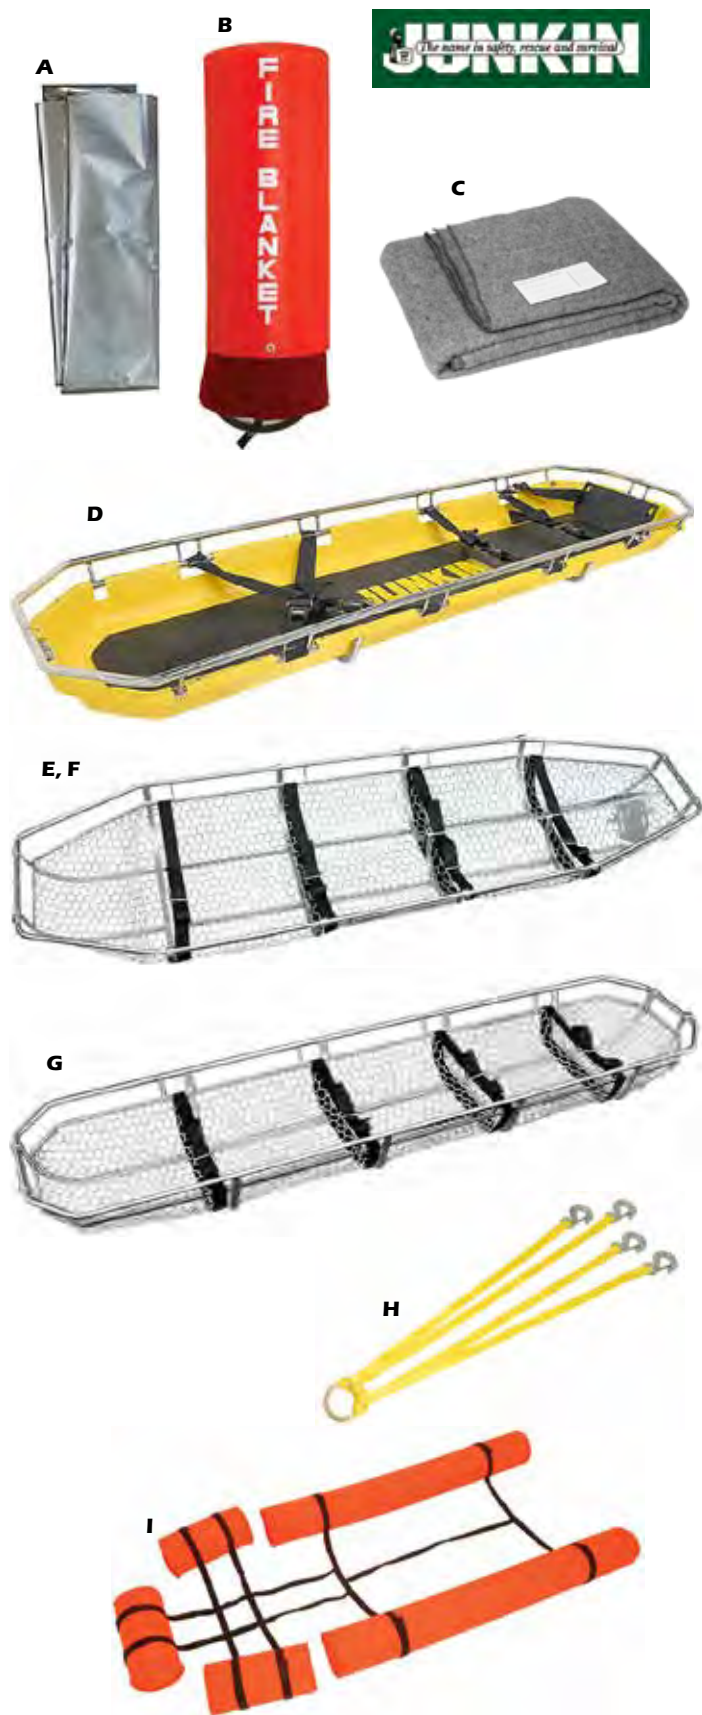

Personal Eye Wash rinses any particle or dirt from eye. Used to help relieve irritation, burning, stinging, itching or contaminants by flushing away the foreign material.

## RESCUE EQUIPMENT

### A - Rescue Blanket

Provides emergency protection in all weather conditions. Retains and reflects back body heat. Reflects sun and heat for cooling in hot climates.

### B - Rust Proof Fire Blanket Kit

Kit consists of JSA-1002 Fire Blanket and PVC Plastic Canister complete with mounting brackets. Finished bright red and white lettering. Blanket ejects at bottom when opened. Rust and dust proof. Designed for use where corrosion and dust are a problem. The JSA-1002 Fire Blanket is 80% wool and 20% Man-made Fiber—Treated with fire-resistant chemical. Machine washable. Conforms to Federal Flammable Fabrics Act CS-191-53.

### C - First Aid Blanket

This warm utility blanket is machine washable. Excellent for indoor and outdoor general utility purposes. Made of 70% Wool - 30% man-made fibers.

### D - Plastic Stretcher

Yellow high-density polyethylene shell, supported by a stainless steel outer rail, permanently attached with stainless steel semi-tubular rivets. Features molded runners, fully exposed outer rail, non-absorbent foam pad secured to stretcher and four patient restraint straps. Ideal for unusually rugged rescue situations such as industrial, mining or construction. 80 1/2" Length; 8" Height; Chest 22 1/2"; Thigh 21 1/2"; Calf 20 1/2".

### E - Lightweight Basket Type Stretcher

Nylon web straps at chest, abdomen, thigh, and calf. Adjustable footrests for vertical lifting. Frame is 5/8" steel tubing; cross braces and runners 3/16" x 3/4" flat steel. Basket is 18 gauge, 1" hexagon mesh netting. 82" Length; 8 1/2" Height; Chest 24 1/2"; Abdomen 24"; Thigh 23 1/2"; Calf 23".

### F - Plastisol Coated Splint Stretcher

Same as the JSA-300 with gray plastisol coating to make it rust proof. Straps are included. No leg divider.

### G - Confined Space Stretcher

The new 19" width Confined Space Splint Rescue Stretcher has been designed for rescues where space is confined. With steel, all-welded rigid construction, which does not rely on the injured person to attain form or rigidity. Light in weight and ample in size. The basket is 18 gauge, 1" hexagon mesh netting. Nylon web straps for securing at chest, abdomen, thigh and calf. Supplemental accessories to facilitate special handling needs are available. 80 1/2" Length; 7 3/4" Height; 18-3/8" Width.

### H - Stretcher Bridle Sling

The JSA-300-X Stretcher Bridle Sling provides horizontal or vertical lifting capacity of up to 2,500 lbs. Made of 1" nylon webbing resistant to moisture and fungus rot with forged snap hooks and 3" ID forged steel suspension ring. 35-1/4" H x 18-7/8" W x 22-3/8" D

### I - Flotation Stretcher Collar

For use with all Junkin JSA-300 series Splint Stretchers to provide flotation during patient handling in water. Easily attached with hook and loop type fasteners to any Stokes type stretcher. Flotation bats are Dow Etha Foam® and covered in orange colored nylon.

## FIRE EXTINGUISHER SERVICES

### Fire Extinguisher Inspection, Refill & Repair Service (Oahu only)

Safety System and Signs Hawaii's service technicians are thoroughly trained, licensed professionals. With employees extinguishing many of the fires in commercial facilities with hand operated portable fire extinguishers, don't leave your business or employees at risk; have your life safety equipment professionally serviced at the very least, annually.

Annual Fire Extinguisher Inspection includes: Visual inspection, locking pin pull test, tamper seal replacement, annual inspection tag.

### Hydrostatic Testing

We provide low and high pressure hydrostatic testing. In addition, we provide testing on SCBA & SCUBA tanks.

### Recharging

Recharging of portable fire extinguishers includes: Replacement of agent, visual cylinder inspection, replace valve stem and control valve o-ring as needed, install service verification collar, tamper seal replacement.

On-site recharging eliminates extinguisher down time and inconvenience that can occur when extinguishers are taken off site for a few days. Or save money by dropping off your fire extinguishers at our office.

## MOBILE SERVICING AVAILABLE

**Bring in your fire extinguishers for annual or after-use inspection and recharging. Or call us at 847-4017 to set up an appointment for on-site service.**

## Fire Extinguisher Safety Tips

Everybody has seen fire extinguishers. Many people have them in their car, at home or at work. But not everyone knows how to work them.

Fire extinguishers are not designed to fight a large or spreading fire. Even against small fires, they are useful only under the right conditions.

An extinguisher must be large enough for the fire at hand. It must be available and in working order, fully charged. The operator should be familiar with the extinguisher, so it won't be necessary to read directions during an emergency.

### Buying A Fire Extinguisher

A fire extinguisher should be "listed" and "labeled" by an independent testing laboratory such as FM (Factory Mutual) or UL (Underwriters Laboratories).

Warning, extinguishers with plastic control heads may be dangerous! The pressure inside an extinguisher can be as high as 200 psi. When a plastic control head fractures, the pressure can make the bottle rocket hard enough to do real damage. The powder would also be discharged all at once. For this reason, many fire extinguisher service companies will not sell, service or refill the plastic head type.

The higher the rating number on a Class A or B fire extinguisher, the more fire it can put out, but high-rated units are often heavier. Make sure you can hold and operate the extinguisher you are buying.

Extinguishers need care and must be recharged after every use. Ask the dealer about the extinguisher and how it should be serviced and inspected. A partially used unit might as well be empty.

You may need more than one extinguisher in your home. For example, you may want an extinguisher in the kitchen as well as one in the garage or work shop. Each extinguisher should be installed in plain view near an escape route and away from potential fire hazards such as heating appliances.

Fire extinguishers are labeled according to the type of fire on which they may be used. Fire involving wood or cloth, flammable liquids, electrical or metal sources react differently to extinguishers. Using one type of extinguisher on the wrong type of fire could be dangerous and make matters even worse.

Labels A, B, C, D or K are generally used to indicate the type of fire on which an extinguisher is to be used.

**Class A** - Ordinary combustible such as wood, cloth, paper, rubber and many plastics.

**Class B** - Flammable liquids such as gasoline, oil, grease, tar, oil-based paint, lacquer and flammable gas.

**Class C** - Energized electrical equipment including wiring, fuse boxes, circuit breakers, machinery and appliances.

**Class D** - Combustible metal such as magnesium.

**Class K** - Combustible cooking vegetable or animal fats in commercial cooking equipment.

### Using A Fire Extinguisher

There is a simple acronym to remember to operate most fire extinguishers - P.A.S.S.

#### P.A.S.S. - Pull, Aim, Squeeze, Sweep

To use your fire extinguisher:

- Pull the pin at the top of the cylinder.
- Aim the nozzle at the base of the fire.
- Squeeze the lever, or press the handle.
- Sweep the contents from side to side at the base of the fire until the fire is out.

Always be sure the Fire Department inspects the fire site, even if you think you've extinguished the fire.

#### When to use a Fire Extinguisher

You should fight a fire with a fire extinguisher only when all the following are true:

- Everyone has left or is leaving the building.
- An alarm has been called into the Fire Department.
- The fire is small and confined to the immediate areas where it started such as in a wastebasket, cushion, small appliance, stove, etc.
- You can fight the fire with your back to a safe escape route.
- Your extinguisher is rated for the type of fire you are fighting and is in good working order.
- You have had training in the use of the extinguisher and are confident that you can operate it effectively.

## FIRE EXTINGUISHERS

### SENTRY® DRY CHEMICAL EXTINGUISHERS

SENTRY® dry chemical extinguishers are designed for protection of light and ordinary hazards. These compact and portable extinguishers are suited for both industrial and commercial fire protection needs.

Meets or exceeds requirements of ANSI/UL 299 and 711. DOT and USCG approved with proper bracket.

#### A - FORAY® (ABC) Fire Extinguishers

Used to combat fires in ordinary combustible materials such as wood, cloth, paper, rubber and many plastics (Class A) as well as fires in flammable liquids, gases and greases (Class B) and fires involving energized electrical equipment (Class C). FORAY is of particular value on combination fires (Class A and B together) and on Class A fires at temperatures which would freeze water.

#### B - PLUS-FIFTY® C (BC) Fire Extinguishers

Used to combat fires in flammable liquids, gases and greases (Class B) including such fires when involved with energized electrical equipment (Class C).

#### C - Carbon Dioxide Fire Extinguishers

Designed to protect areas where Class B (flammable liquids and gases) or Class C (energized electrical equipment) fires could occur. They may be used indoors where winds and drafts do not affect discharge or where a clean extinguishing agent is required. Typical applications include: laboratories, electronic equipment, and low voltage electrical equipment.

#### D - Water Extinguisher

Utilized in many Class A hazards such as office environments and industrial locations, as well as warehouse and oxidizing chemical storage areas. The unit features a stainless shell and chrome plated valve. The nameplate features easy to read step-by-step instructions for operating the extinguisher. The Schrader valve allows for easy recharge in the field.

#### E - K-GUARD® Kitchen-Class Fire Extinguisher

The K-GUARD liquid agent fire extinguisher is specifically designed for use on fires that involve combustible cooking vegetable or animal fats in commercial cooking equipment. Typical appliances include: fryers; griddles and range tops; upright, natural charcoal, or chain-type broilers; electric, lava rock, mesquite or gas-radiant char-broilers; and woks.

Newer, more efficient cooking appliances, plus the use of non-saturated cooking oils, require a fire extinguishing agent which will not only smother a fire but provide a cooling effect.

The extinguisher is ideally suitable for use in restaurants, hospitals, nursing homes, hotels, schools, airports, and other similar facilities.

#### F - CLEANGUARD® Fire Extinguisher

CLEANGUARD clean agent fire extinguishers are designed for the protection of commercial and industrial facilities that typically contain sensitive or irreplaceable equipment and materials. They are ideal for computer centers, data/document storage areas, communications facilities, control rooms, electronics manufacturing, laboratories, museums, art galleries, and more.

#### G - RED LINE Cartridge-Operated ABC Extinguisher

RED LINE cartridge-operated fire extinguishers are the premium firefighting units preferred by safety directors worldwide in high fire-risk industries such as chemical, petro-chemical, oil and gas, mining, aviation, and power generation. Cartridge-operated means increased reliability, on-the-spot recharge, ease of service, and superior firefighting performance.

Tough, carbon steel shells resist impact, vibration and corrosion; quality components stand up to years of service; and special polyester powder paints provide superior protection against cracking and chipping.

## FIRE EXTINGUISHERS & ACCESSORIES

A

B

### A - Amerex Dry Chemical Extinguishers

ABC or multi-purpose extinguishers utilize a specially fluidized and siliconized mono ammonium phosphate dry chemical. It chemically insulates Class A fires by melting at approximately 350° F and coats surface to which it is applied. It smothers and breaks the chain reaction of Class B fires and will not conduct electricity back to the operator.

BC extinguishers contain a siliconized sodium bicarbonate based dry chemical with free flowing and non-caking additives. Economical Class B & C protection with lower initial cost and recharging. This chemical smothers fires in flammable liquids and pressurized gases and will not conduct electricity back to the operator.

### B - Amerex Halotron I "Clean Agent" Extinguishers

HALOTRON I is a "Clean Agent" HydroChloroFluoroCarbon (HCFC) discharged as a rapidly evaporating liquid which leaves no residue. It effectively extinguishes Class A and B fires by cooling and smothering and it will not conduct electricity back to the operator. Suitable for use on Class A, B and C fires. Halotron is intended for use in areas such as computer rooms, telecommunications facilities, clean rooms, data storage areas, offices (for protection of sensitive electronic equipment), boats and vehicles.

## FIRE EXTINGUISHER CABINETS

### A, B, C - Potter Roemer Alta Series Cabinets

Alta Series fire extinguisher cabinets offer an impressive variety of door styles, glazing materials, lettering, finishes and mounting configurations. In addition to their exceptional versatility, Alta Series designs also feature durable, unitized construction for an economical solution that complements virtually any type of construction.

#### Metal Door and Frame Materials:

**STEEL** - Cold rolled steel with electrostatically applied, thermally-fused polyester coating with recoatable white finish.

**ALUMINUM** - Satin finish, clear polyester coated.

**STAINLESS STEEL** - No. 304 stainless with No. 4 finish.

### D, E, F, G - Brooks Fire Extinguisher Cabinets

MARK II, Mark II Jr. and Mark I Jr. Series Fire Extinguisher Cabinets better fit today's extinguisher sizes. Cabinets feature injection molded ABS plastic construction, so they're dent-, rust- and corrosion-proof. Each cabinet comes with a brass lock, a plastic cover and a screen-printed pictogram on the side.

**Mark I Jr.** cabinets for extinguishers with a maximum height of 16.75".  
Dimensions: 18.25"H X 8.5"W X 5.375"D

**Mark II Jr.** cabinets for extinguishers with a maximum height of 20".  
Dimensions: 21.75"H X 9.625"W X 6.375"D.

**Mark II** cabinets for extinguishers with a maximum height of 24".  
Dimensions: 25.75"h x 9.625"w x 6.375"d.

### H - Allegro Fire Extinguisher Wall Case

Designed to protect fire extinguishers from dust and harsh workplace environments. Made of high impact, corrosion resistant ABS. High visibility red case make locating easy. Holds all major extinguishers up to 30 lb size.

## FIRE SAFETY ACCESSORIES

### A - Mini Theft Stopper Cabinet Alarm

Protect a cabinet holding a fire extinguisher, fire hose, sprinkler shut-off valve, guns, etc. A switch/magnet unit is mounted so that when the door opens, a 120 dB warning horn sounds. A deactivation pin for authorized staff included.

- 3.25" diameter X 1" deep w/battery
- 3 minute automatic reset upon activation
- Extremely cost-effective and easy to install
- Lifetime housing warranty, 1 year warranty on electronics

### B - Stopper II® with Horn Flush Mount

Helps stop false fire alarms without restricting legitimate alarms in schools, hospitals, retirement homes, warehouses, stores, hotels and public buildings.

A clear, tamper-proof, polycarbonate shield and frame fits over a manual pull station. When lifted to gain access to the actual alarm, it sounds a piercing warning horn. Immediate attention is drawn to the area and a prankster will either run or be caught.

### C - 3-Story Kidde Escape Ladder

Someone in the U.S. dies in a home fire every three hours, according to the The National Fire Protection Association, which recommends one ladder in every occupied room on floors above the main level. The Kidde Escape Ladder provides a means of escape from a fire if you live in a two or three story home. It stores easily under the bed or near a window, and is quick and easy to use.

### D - Inspecta-Shield™ Fire Retardant

Inspecta-Shield™ Fire Retardant, by N.Y. Fire Shield, is a Class A fire retardant for fibers, lumber and wood materials. Premixed, easy to apply, non-toxic, non-allergenic, colorless, odorless (when dried), durable and UV stable. UL classified and approved by the CA State Fire Marshal. Works by slowing horizontal and vertical flame spread. Does not prevent charring, but treated items will not support ignition. Directions are included. Not recommended for outdoor use.

## Fall Protection Awareness and Competent Person Training

### Creating a Fall Protection Program

Every business should create an individualized safety program to protect itself and its workers, considering the following factors:

1. **Understanding OSHA Regulations** – Regulations will vary, depending on the workplace, the job being performed and other factors. Know which regulations cover your job and comply at all times.
2. **Hazard Identification** – As a general rule, any time a worker is at a height greater than four feet, a fall hazard exists. Wherever possible, the hazard should be eliminated. Otherwise, personnel should be provided with and trained to use personal protective equipment.
3. **Written Fall Protection Plan** – Your program should outline specifics for dealing with each hazard. The plan should encompass proper work procedures, products to be used, training responsibilities, supervision and rescue procedures.
4. **Product Selection** – You should review the types of fall protection products available and determine those that provide maximum benefit for each job.
5. **Training** – All workers should be trained in the proper use of fall protection equipment. They should be trained to select the proper product, identify anchor points, and observe proper tie off procedures. They should also be trained to identify fall hazards and learn equipment inspection and maintenance practices. Proper rescue procedures are also a key element of a comprehensive training program.

### Elements of Fall Protection

In order for a worker to receive maximum protection during a fall, three key components must be used:

1. **Anchoring Devices** – An area that supports the entire weight of the system. Commonly called a tie-off point, the anchorage must be capable of supporting 5,000 pounds per attached worker. Eye bolts, overhead beams and integral parts of building structures are all forms of anchorage points.
2. **Body Wear** – Personal protective gear worn by worker's performing the job. Safety Systems stocks a wide variety of full body harnesses to meet specific job requirements.
3. **Connecting Devices** – Devices that attach to the worker's protective gear. Lanyards, rope grabs, retractable lifelines and rebar chain assemblies all fit into this category.

Individually, none of these components will provide protection from a fall. Used properly with each other, they become a critically important part of the total fall protection system.

### Equipment Preferences

If there are any doubts about which fall protection product to use, choose the following basic system:

1. **Full-Body Harness with Sliding Back D-Ring** Should a fall occur, the body harnesses will distribute the load throughout the body instead of concentrating the forces on the abdomen, as is the case with body belts. The back D-Ring will keep the worker in an upright position in the event of a fall, which allows the worker to remain as comfortable as possible while awaiting a rescue.
2. **Shock-Absorbing Lanyards with Locking Snap Hooks.** Lanyards with built-in shock absorbers reduce fall arresting forces by 65-80% compared to forces generated by traditional lanyards. Locking snaps feature self-closing, self-locking keepers which remain closed until unlocked and pressed open for connection or disconnection. This feature of locking snaps significantly reduces the possibility of accidental disengagement or "rollout." Retractable lanyards limit fall distances and forces even more.
3. **Reliable Anchorage Points** Anchor points or attachments must be capable of supporting 5000 lbs. per worker. If there is any doubt about the strength of the attachment point – DO NOT ATTACH. Search for an alternative anchor point.

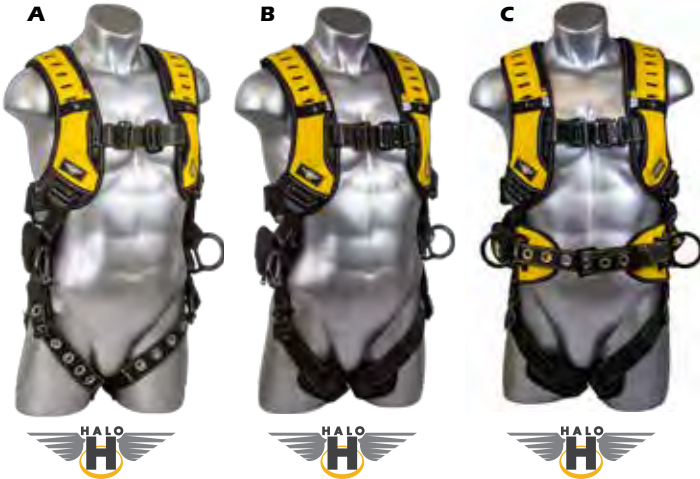

For fall protection class description and to register your crew, visit our web site at [SafetySystemsHawaii.com](http://SafetySystemsHawaii.com) or call 847-4017

## The Training Never Stops!

## GUARDIAN BODY HARNESSES

### A, B, C - Halo Harness

Guardian Fall Protection's revolutionary Halo Harness represents the best possible harness option on the market. Based on our award winning Edge Series, the Halo Harness incorporates even more features and benefits, and is truly the only choice for those looking for a harness that combines comfort, durability, performance, and utility. From its black powder-coated hardware, included Trauma Straps, improved adjustment buckles, and more, every component of the Halo Harness is meticulously designed and manufactured. When it comes down to it, the Halo Harness just can't be beat.

KEY	SKU	MFG#	DESCRIPTION
A	F01820	482160	Halo Harness, chest pass-thru buckle & leg tongue buckles, side D-rings, size S
A	F01821	482161	Halo Harness, chest pass-thru buckle & leg tongue buckles, side D-rings, size M-L
A	F01822	482162	Halo Harness, chest pass-thru buckle & leg tongue buckles, side D-rings, size XL-2X
B	F01823	482360	Halo Harness, QC chest and leg buckles, side D-rings, size S
B	F01824	482361	Halo Harness, QC chest and leg buckles, side D-rings, size M-L
B	F01825	482362	Halo Harness, QC chest and leg buckles, side D-rings, size XL-2X
C	F01826	483260	Halo Construction Harness, quick-connect chest and leg buckles, waist tongue buckle, side D-rings, size S
C	F01827	483261	Halo Construction Harness, quick-connect chest and leg buckles, waist tongue buckle, side D-rings, size M-L
C	F01828	483262	Halo Construction Harness, quick-connect chest and leg buckles, waist tongue buckle, side D-rings, size XL-2X

### D, E, F - Velocity Harness

Best entry level harness on the market! The Velocity harness features 5 points of adjustment, sub-pelvic strap, contrasting core webbing to indicate wear and aid in inspection, duel lanyard keepers, and a durable padded back placard for extra comfort.

### G - Velocity Harness w/ Surfacetech Webbing

Many of the same features of the Velocity harness, but sewn with Surfacetech webbing which increases resistance to contamination. The webbing repels water, is extremely resistant to dirt, mold, and other contaminants.

KEY	SKU	MFG#	DESCRIPTION
D	F01654	01700	Velocity, Chest & Leg Pass-Thru Buckles, size S-L
E	F01656	01702	Velocity, Chest & Leg Pass-Thru Buckles, side D-Rings, size S-L
F	F01655	01703	Velocity, Chest Pass-Thru Buckle & Leg Tongue Buckles, size S-L
G	F01714	01751	Velocity w/ Surfacetech Webbing, Chest Pass-Thru Buckle & Leg Tongue Buckles, Side D-rings, size S-L

### H - Go PRO Girl Fall Arrest Harness

Go PRO Girl Fall Arrest Harness utilizes a 1-3/4" polyester webbing that is supremely strong and durable. This harness incorporates a dorsal D-ring certified for fall arrest, 5 independent points of adjustment, and is compliant with all CSA, OSHA, and ANSI regulations. Functioning to provide increased protection and comfort especially for women, it is uniquely designed and styled with the woman worker in mind. Features reflective webbing and quick connect buckles for easy donning.

KEY	SKU	MFG#	DESCRIPTION
H	F01727	NPH-28-GPG	Go PRO Girl Fall Arrest Harness, QC buckles, pink, size Universal

### I - Trauma Strap

The Trauma Strap is an indispensable item for anyone working at height, and helps to mitigate the effects of suspension trauma (which can occur in as little as 15 minutes) in the event of a fall. By allowing the fallen worker to assume a standing position and relieve pressure on the lower extremities, the Trauma Strap allows better blood flow and reduces fatigue. Compatible with all Guardian full-body harnesses, the Trauma Strap is easy to adjust, and its low profile keeps it out of the way during work.

KEY	SKU	MFG#	DESCRIPTION
I	F01712	10733	Trauma Strap, 1 pod

## A, B, C - Cyclone Harness

The Cyclone Harness offers superior comfort, styling, and safety. Design engineers took the basics of what makes a harness effective and safe, and made holistic improvements to allow workers to do their jobs more comfortably and with added versatility, all without breaking the bank. The Cyclone features superior flexibility and comfort with ultra-flow padding that helps keep moisture away from the body.

## D - Cyclone Tower Construction Harness

The Cyclone Tower Harness offers an exceptional combination of durability, comfort, versatility, and value. It is ideal for high elevation and wind turbine combinations, including construction, maintenance, rescue, and evacuation. Features 1 dorsal & 1 sternal D-ring for fall arrest, 1 ventral D-ring at waist level in front of rope access, fully adjustable shoulder, leg, & chest straps, several attachment elements, ideally positioned elasticized straps for extended comfort, specially cushioned mesh for improved shock absorption and superior flexibility and comfort, this harness truly has it all.

KEY	SKU	MFG#	DESCRIPTION
D	F01719	21083	Cyclone Tower Construction Harness, quick-connect chest and leg buckles, combo waist buckle, size XL

## E, F - Cyclone Construction Harness

The Cyclone Construction Harness offers superior comfort, styling and safety. Our design engineers took the basics of what makes a harness effective and safe, and made holistic improvements to allow workers to do their jobs more comfortably and with added versatility, all without breaking the bank. This harness features ultra-flow padding that helps keep moisture away from the body, and the double-grommeted tool belt provides the ultimate support when combined with the Velcro waist belt. A variety of buckle configurations are also available.

KEY	SKU	MFG#	DESCRIPTION

## F-G - Seraph Harness

The Seraph Harness expands upon the features offered by the Velocity. Designed with a durable back placard with removable and replaceable padding, quick adjust torso buckles, and features lightweight superior flexibility and comfort.

## H - Seraph Construction Harness

This top selling construction style harness comes in multiple configurations, is extremely lightweight, and features a reinforced tool belt which won't sag or fold under heavy tool bags, as well as a heavy duty comfortable waist pad for added lumbar support.

## FALLTECH BODY HARNESSSES

### A - Contractor 7016 Harness

Back D-ring, tongue buckle legs and mating chest buckle. 5 points of adjustment (chest, legs and torso). Torso keeper for stowing idle lanyard connector. Paired mating buckle adjusters on front torso.

### B - Contractor 7017 Harness

Back and side D-rings, mating leg and chest buckles, 5 points of adjustment (chest, legs and torso). Paired mating buckle adjusters on front torso. Torso keeper for stowing idle lanyard connector.

### C - Contractor+ 7017B Harness

Back and side D-rings, mating leg and chest buckles, 5 points of adjustment and breathable padded air mesh shoulder yoke with non-slip Dorsal D-ring adjustment. Chest slides integrated lanyard keepers provide a lower profile and easier attachment points for lanyard connectors. Increased padding with internal reinforcement for improved comfort and usability. Low-profile spring-tension Torso Adjusters for a fast secure fit.

### D - Contractor+ Belted 7073B Harness

Same as the Contractor+ but with waist pad included. Stiffer waist belt improves longevity and also supports heavy tool bag loads. The waist pad includes belt loops and is sewn into the torso straps keeping the waist pad from slipping.

### E - Journeyman 7021QC Harness

Back D-ring, quick connect leg and chest buckles. Premium breathable padded air mesh shoulder yoke with integral non-slip dorsal D-ring adjustment. 18" contoured stitched-down leg pads. Twin torso keepers for stowing idle lanyard connectors. Low-profile spring-tension Torso Adjusters. Forged alloy steel hardware.

### F - ComforTech® 7082 Harness

Back and side D-rings, quick connect leg chest buckles. Shoulder, leg and waist pad assemblies for extreme comfort. Durable ballistic nylon pad exteriors. Twin torso keepers for stowing idle lanyard connectors.

### G - Advanced ComforTech Gel 7080B Harness

Back D-ring, tongue buckle legs and quick-connect chest buckle. The endoskeleton frame offers a polymer gel into the shoulder and waist pads for added support and cushioning at key impact areas. An advanced polymer Gel provides energy absorption reducing fatigue aiding in the prevention of work related injuries. Removable and adjustable leg pads offer a durable air mesh, a ventilated gel and ventilated foam for all day comfort. Pliable air mesh adapts to your movements for a customized fit.

### H - FlowTech® LTE 7087B Harness

Back D-ring, quick-connect chest & leg buckles. FlowTech® Full Body Harnesses are extremely lightweight and feature FlowScape® technology, which provides the user with unsurpassed all-day breathability and comfort. Premium perforated shoulder yoke and leg pads with advanced breathability. Exclusive Aluminum Alloy CamLock torso adjusters. Proprietary Dorsal D-ring keeper with integrated SRD attachment sleeve.

## FALLTECH ARC FLASH BODY HARNESSES

### A - Arc Flash 8087R Harness

Web loop D-ring, nylon webbing, quick connect Leg and chest buckles with leather insulators, mating buckle torso adjusters w/ leather insulators, paired front torso rescue loops.

Features:

- Arc Flash resistant nylon webbing.
- Twin torso keepers for stowing idle lanyard connectors.
- Coated or leather insulated hardware throughout.
- 5 points of adjustment (chest, legs and torso).

KEY	SKU	MFG#	DESCRIPTION
A	F01760	8087R	Arc Flash 8087R Harness, UniFit

## MILLER HARNESSES

### A - Miller Revolution® Arc-Rated Harness

Miller® Arc-Rated Products are designed to protect workers from falls caused by electric arc-flash and arc-blast exposure when working at heights or in confined space applications near energized electrical sources.

**Kevlar®/Nomex® Miller DualTech™ Webbing** Patent-pending 10,000 lb. (44 kN) tensile strength webbing is engineered with permanent fire retardant (FR) properties. The webbing offers the durability and FR properties of Kevlar on the outer side, with softer FR Nomex on the inside of the webbing for greater comfort. The webbing assures arc protection and durability that eclipses any nylon webbing.

### B-F - Miller Revolution® Harness

A totally-new concept in full-body harness design. The Miller Revolution Harness reinvents harness safety and functionality with features developed to meet key, user-identified needs, while exceeding worker expectations in comfort, fit, ease-of-use, style, durability, compliance, flexibility and convenience.

Webbing Options Include:

**DuraFlex® Webbing** - Patented, elastomer webbing specially-formulated to stretch.

**DualTech™ Webbing** - Patent-pending DualTech webbing offers a soft, textured inside and a durable, chemical-resistant polyester outer material. Tested to 7,000 lbs. minimum tensile strength (40 percent stronger than ANSI requirements) for greater safety and longer service life.

### G - Miller AirCore® Harness w/ Aluminum Hardware

The new Miller AirCore™ Harness is now available with lightweight, corrosion-resistant aluminum hardware. This new line of AirCore harnesses with aluminum components provides the ultimate in performance and comfort. ALL Miller AirCore Harnesses are the most unique and innovative full-body harness available and are designed for:

**COMFORT** – breathable, open-core padding technology provides optimal air flow, while reducing heat and moisture entrapment, keeping a worker drier and cooler. Up to 16% less surface area than other padding used on the market. AirCore harnesses are designed with patented Miller DuraFlex® stretchable webbing that provides greater flexibility and increased comfort.

**Lightweight** - Aluminum materials and components selected to reduce fatigue for all-day endurance and increased productivity.

- 16% lighter in weight than competitive harnesses with aluminum hardware
- 20% lighter than harnesses with steel hardware

**Extended Service Life** - Corrosion-resistant aluminum hardware

- lasts longer, reducing replacement costs

## MILLER HARNESS

### A, B - Miller DuraFlex Python® Harness

The Python Harness is the next generation of the patented DuraFlex Harness series. The shoulder straps are constructed of soft, cushioned tubular webbing; the lower torso straps of specially-formulated DuraFlex stretchable webbing; and the leg straps of lightweight, non-stretch webbing. In this combination, the Python Harness not only increases overall comfort, but holds its shape for ease of donning.

KEY SKU	MFG#	DESCRIPTION
<b>Python Harness w/ Mating Straps</b>

## MILLER HARNESS ACCESSORIES

1 - Pull tab to deploy

2 - Insert foot into loop step and adjust

3 - Ability to stand allowing improved circulation

4 - Two relief steps provide added support, balance and comfort

### A - Miller Relief Step™

The Miller Relief Step Safety Device alleviates the effects of orthostatic intolerance, also known as suspension trauma. If a fall occurs, a person becomes suspended in a harness and remains both vertical and sedentary for a period of time, causing blood to “pool” in the veins of the legs. Subsequently, blood is restricted to the brain and other major organs that may initially result in unconsciousness. If not rescued promptly, serious injury or death may occur. The Miller Relief Step is designed to provide a short-term solution for alleviating suspension trauma.

KEY SKU	MFG#	DESCRIPTION
A..... F01418	.....9099/36BULK	.....Miller Relief Step that prevents suspension trauma

### B - Bandit™ Tool Lanyard

A tool lanyard to be attached to a worker's waist belt to prevent workers from accidentally dropping their tools as well as possibly injuring other workers below, while still allowing enough freedom of movement to perform the task at hand. The cord stretches from 26" to 43".

### C - Miller 8928-Z7 D-Ring Extension

Miller D-Ring Extension, 18" web extension with a snap hook and D-ring, black.

### D - Miller 8927 O-Ring Extension

Miller O-Ring Extension, 8" nylon web O-ring extension, green.

KEY SKU	MFG#	DESCRIPTION

C..... F02380	.....8928-Z7/18INBK	.....18" web extension with a snap hook and D-ring
D..... F02378	.....8927/BINGN	.....8" nylon web O-ring extension, green

## MILLER POSITIONING BODY BELTS

### For Work Positioning Only

As of January 1, 1998, OSHA requires full-body harnesses for fall protection in the construction industry. Body belts should be used for work positioning only or be used in conjunction with a full-body harness to provide fall protection.

### E - 2NA Positioning Body Belt

1.75" wide nylon belt w/ tongue buckle, two side D-rings and 3" back pad.

### F - 3NA Positioning Body Belt

1.75" wide nylon belt w/ tongue buckle, single D-ring and 3" back pad.

## D - ExoFit™ XP Harness

ExoFit XP™ is a new generation harness providing all day comfort in a harness you can trust. The industry's first "truly washable" harness with removable padding. State-of-the-art 3-D mesh lining wicks moisture keeping you cool and delivering all-day comfort. Unique spring loaded "stand-up" dorsal D-ring ensures fast, easy and safe connections Superior "X" design padding wraps around the wearer for the ultimate in no-tangle donning. Ergonomic design incorporates shoulder, hip and leg padding that always stays in place enhancing comfort and worker satisfaction.

## E - ExoFit™ Positioning Harness

Features a single piece of material that wraps around you in the shape of an X, built-in shoulder, back and leg comfort padding, loops for body belt, anti-tear ballistic nylon, and built-in reflective piping.

## F, G - ExoFit NEX™ Arc Flash Harness

Arc flash rated resistant up to 40 cal/cm2 making it ideal for use where high voltage electricity is a concern. Tech-Lite™ stand-up PVC coated aluminum back D-ring, non-conductive spring-loaded design automatically stands-up ensuring fast, easy and safe connections to your fall arrest system. Duo-Lok™ quick connect chest and leg straps feature lightweight one-handed use with memory fit web-lock ensures fast, non-slipping connections. Nomex®/Kevlar® fiber webbing provides ultimate flame resistance. Built-in lanyard keepers hold your unused snap hooks and break away to avoid trip hazards.

## 6 Easy Steps That Could Save Your Life: How to Put on a Harness

1. Hold harness by back D-ring. Shake harness to allow all straps to fall in place.

2. If chest, leg and/or waist straps are buckled, release straps and unbuckle at this time.

3. Slip straps over shoulders so D-ring is located in middle of back between shoulder blades.

4. Pull leg strap between legs and connect to opposite end. Repeat with second leg strap. If belted harness, connect waist strap after legs.

5. Connect chest strap and position in midchest area. Tighten to keep shoulder straps taut.

6. After all straps have been buckled, tighten all buckles so that harness fits snug but allows full range of movement. Pass excess strap through loop keepers.

## LANYARDS

### A, B, C, D - Internal Shock Absorbing Lanyards

Internal shock absorbing lanyards are an effective, lightweight alternative to traditional pack lanyards. Internal lanyards are constructed using a tubular web integrated with a continuous length polyester web shock absorber. In the event of a fall, the compressed lanyard expands and the tubular web acts as a fail-safe to dissipate the forces and arrest the fall.

KEY SKU	MFG#	DESCRIPTION
A..... F02475	.... 8259L	..... Internal Lanyard, single leg w/ loop and snap hook, 6'
A..... F02501	.... 8259	..... Internal Lanyard, single leg w/ two snap hooks, 6'
C..... F02477	.... 8259YL	..... Internal Lanyard, Y-leg w/ loop and two snap hooks, 6'
C..... F02476	.... 8259Y3L	..... Internal Lanyard, Y-leg w/ loop and two rebar hooks, 6'

### E - ElasTech® Shock Absorbing Lanyards

ElasTech® Shock-Absorbing Lanyards have all of the advantages of our popular Internal lanyards, plus the added benefit of elasticity to enhance worker mobility and reduce the potential for lanyard entanglement. Heavy duty tubular polyester outer jacket web resists abrasion and UV. Internal high modulus elastic won't soften from frequent.

KEY SKU	MFG#	DESCRIPTION
E..... F02505	.... 8240Y3	..... ElasTech® Lanyard, Y-leg w/ snap hook and two rebar hooks, 4.5'-6'

### F, G - FTBasic® Lanyards

FTBasic® lanyards are compliance-grade without compromising performance or safety. Rugged 1" polyester webbing provides extreme UV resistance. Soft Pack cover protects tear-away energy absorbing web which limits fall forces to 900 lbs or less.

KEY SKU	MFG#	DESCRIPTION
F..... F02506	.... 8256LT	..... FTBasic® Lanyard, single leg w/ two snap hooks, 6'
G..... F02507	.... 8256LTY	..... FTBasic® Lanyard, Y-leg w/ three snap hooks, 6'

### H, I, J - Restraint Lanyards

Rugged 1" polyester webbing provides extreme UV resistance. 3,600 lbs gate strength on all steel connectors. Polyester label cover protects warning and inspection labels

KEY SKU	MFG#	DESCRIPTION
H..... F02502	.... 82033	..... Restraint Lanyard, single leg w/ snap hook and rebar hook, 3'
I..... F02503	.... 8206	..... Restraint Lanyard, single leg w/ two snap hooks, 6'
J..... F02504	.... 8209	..... Restraint Lanyard, adjustable, single leg w/ two snap hooks, 4'-6'

### K, L - D-Ring Extender Lanyards

18" extension web lanyard reduces the user's reach needed for connection of the energy absorbing lanyard or self-retracting device.

KEY SKU	MFG#	DESCRIPTION
K..... F01765	.... 8366L	..... D-Ring Extender w/ loop and D-ring, 18"
K..... F02508	.... 8366	..... D-Ring Extender w/ snap hook and D-ring, 18"

Fall Protection

### M - 3M™ DBI-SALA® Shockwave™2 Tubular Shock Absorbing Lanyard

ShockWave™2 shock absorbing lanyards are stretchable for complete freedom of movement. Incorporates a unique inner core that immediately begins to extend and absorb energy during a fall, limiting arresting forces to no more than 900 lbs. Meets or exceeds all applicable industry standards including OSHA, ANSI and the stringent ANSI Z359.

KEY SKU	MFG#	DESCRIPTION
M..... F02480	.... 1244306	..... ShockWave2 Lanyard, single leg w/ two snap hooks, 4.5'-6'

### N - 3M™ DBI-SALA® Shock Absorbing Lanyard w/ Retractable Web & Snap Hooks

Stays close to the body, reducing trip falls, dragging and snagging. Unique spring technology retracts and expands from 2 1/2-Feet to 6-Feet for complete freedom of movement, added productivity and ultimate safety.

KEY SKU	MFG#	DESCRIPTION
N..... F02481	.... 1241460	..... Shock Absorbing Lanyard w/ Retractable, two snap hooks
N..... F02482	.... 1241461	..... Shock Absorbing Lanyard w/ Retractable, one snap hook, one rebar hook

## LANYARDS & ACCESSORIES

All Guardian lanyards come with high strength hooks that meet ANSI Z359 standards.

**GUARDIAN**  
FALL PROTECTION

PERFORMANCE SAFETY GEAR

### A - Non-Shock Absorbing Adjustable Lanyard

The Guardian Fall Protection "Adjustable Lanyard" is ideal for positioning and restraint situations. This lanyard can be quickly adjusted from 4 feet to 6 feet in length. This version of the product does not come with a shock absorber.

### B-E - Internal Shock Lanyards

Made with a heavy-duty outer polyester webbing and a polyester core specially sewn in to reduce impact forces. Available in multiple lengths.

### F - Stretch Lanyard

The Guardian Fall Protection Stretch Lanyard is ideal for work in tight spaces or around machinery, since its stretching capability helps reduce hazards of tripping or catching on moving parts. This lanyard stretches from between 4 1/2 to 6 feet and is supremely lightweight. Its unique design eliminates the need for an external shock absorber. Multiple options available by special order, single leg, double leg with either snap hooks or rebar hooks.

### G, H - External Shock Absorbing Lanyards

1" Nylon webbing with 3,600 lb. connector gate and clear shock absorber pack for easy inspection.

### I - Big Boss Extended Free Fall Lanyard

The Guardian Fall Protection Big Boss Extended Free Fall Lanyard is the new heavy duty lanyard option in the Guardian line of products. For workers within the worker capacity range of 130-310 pounds, the Big Boss can be used as an extended free fall lanyard for free falls up to 12 feet. And for workers between the capacity range of 310-420 pounds, it can be used as a standard shock absorbing lanyard for free falls up to 6 feet. Both single leg and double leg configurations available by special order with either snap hooks or rebar hooks.

### J - 4 in 1 Lanyard

The 4 in 1 Lanyard is designed to provide workers with maximum protection and multi-functionality. Falls frequently occur on job sites when workers climb down to access the equipment needed. This versatile lanyard allows for a retractable to be connected without needing to attach two snap hooks to a single D-ring. It's "Y" configuration allows workers to maintain 100% tie-off at all times. And, with its 5,000 lb. rated D-ring extender, triple-locking tie-back leg, and 12,000 lb. rated webbing, it can be used in nearly any application.

### K, L, M - Extension Lanyards

Attached to the harnesses D-ring for workers who cannot comfortably reach the dorsal D-ring.

### N - Tool Lanyard

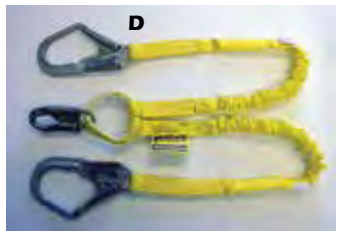

Helps reduce falling object related injuries. Securely attach tools to wrist or tool belt. Comes with mini twist locking carabiner connection.

## POSITIONING LANYARDS & ASSEMBLIES

### A, B - Rebar Positioning Device

Perfect for Work Positioning applications on rebar structures. Its double legs allow workers to lean away from walls, while keeping their hands free to perform any necessary work.

- A ..... F02304 .....01603 .....Rebar Positioning Device, double locking snap hooks w/ clevis pin, 24"
- B ..... F02458 .....01609 .....Rebar Positioning Device, aluminum snap hooks, 24"

### C, D - Positioning Rope Lanyards

Positioning and restraint lanyards (non-shock-absorbing lanyards), shall be used for work positioning and restraint only.

- C - 201RLS-2-Z7 - 5/8" nylon rope lanyard with two locking snap hooks.
- D - 201RLS-8-Z7 - 1/2" nylon rope lanyard with two locking snap hooks.

### E, F - Positioning Web Lanyards

Economical and abrasion-resistant non-stretch (non shock-absorbing) webbing lanyards, should be used for work positioning and restraint only.

- E - 210TWLS-Z7 - Adjustable webbing lanyard with two locking snaps hooks.
- F - 213WLS-Z7 - Polyester webbing lanyard with two locking snaps hooks.

### G - Positioning Steel Lanyards

Super-strong, heat-resistant and abrasion resistant. For positioning only.

- G - 207NLS-Z7 - Vinyl-coated steel rope lanyard with two locking snap hooks.

## ARC-RATED & WELDING LANYARDS

### A, B - Miller™ Arc-Rated Shock-Absorbing Lanyards

Designed to protect workers from electric arc-flash and arc-blast exposure. Meets all applicable OSHA, ANSI and CSA standards as well as the very stringent ASTM F887-05 Arc-Flash Standards.

**A - 933K-Z7** - Lanyard w/SofStop shock absorber, Kevlar webbing with choke-off loop and locking snap hook

**B - 933KR-Z7** - Lanyard w/SofStop shock absorber, Kevlar webbing with choke-off loop and locking rebar hook

KEY SKU	MFG#	DESCRIPTION
A..... F02464	.....933K-Z7/6FTBK	..... 933K-Z7 Arc-Rated Shock-Absorbing Lanyard, 6'
B..... F02461	.....933KR-Z7/6FTBK	..... 933KR-Z7 Arc-Rated Shock-Absorbing Lanyard, 6'

### C - Arc Flash Lanyard w/Soft Pack

Single Leg Lanyard with 1 Loop and 1 Snap Hook. Made of Kevlar® and Nomex® Webbing. Complies with ANSI Z359 and ASTM F887 Standards and OSHA Regulations.

KEY SKU	MFG#	DESCRIPTION
C..... F02478	.....8242L	.....Arc Flash Lanyard w/ Soft Pack, 6'

### D - Arc Flash Y-leg Lanyard w/Soft Pack

Y-leg for 100% Tie-off with 1 Loop and 2 Rebar Hooks. Made of Kevlar® and Nomex® Webbing. Complies with ANSI Z359 and ASTM F887 Standards and OSHA Regulations.

KEY SKU	MFG#	DESCRIPTION
D..... F02479	.....8242Y3L	.....Arc Flash Y-leg Lanyard w/ Soft Pack, 6'

### E - Arc Flash Choker

Arc Flash Nomex® Choker with PVC coated steel D-ring to reduce Arc Flash hazards. Heavy-duty 1-3/4" Nomex® webbing resists cuts and abrasions. Tested to meet ASTM F887 requirements.

KEY SKU	MFG#	DESCRIPTION
E..... F05142	.....72493FT	.....Arch Flash Nomex Choker w/ D-Ring 3'
E..... F05143	.....72494FT	.....Arch Flash Nomex Choker w/ D-Ring 4'
E..... F05144	.....72496FT	.....Arch Flash Nomex Choker w/ D-Ring 6'

### F, G - 3M™ DBI-SALA® ShockWave™2 - Nomex® / Kevlar® Arc Flash Shock Absorbing Lanyard

Shockwave2 lanyard that meets Arc Flash Standard ASTM F887-05. Great for welding applications and with the ExoFit XP Arc Flash and Delta II Arc Flash harnesses. Nomex/Kevlar tubular webbing outer jacket. Expands to 6 ft. and contracts to 4-1/2 ft. in reaction to your movements. Reduces trip fall hazards, dragging and snagging for complete freedom of movement. Easy to use self locking snap hook. Web Loop for attachment to dorsal D Ring. Impact indicator allows user to visually inspect unit for a fall. 6 ft. in length. Limits arresting forces to 900 lbs. or less. Electric arc tested to 40 cal/cm2. Meets or exceeds all applicable industry standards including OSHA and ASTM F887-05.

KEY SKU	MFG#	DESCRIPTION
F..... F02483	.....1244611	.....ShockWave2, single leg w/ loop and snap hook, 6'
G..... F02484	.....1244631	.....ShockWave2, double leg w/ loop and snap hook, 6'

Fall Protection

## RETRACTABLE LIFELINES

### A, B - Velocity SRL

These powerhouse entry level SRLs are ANSI Class B rated, feature lengths from 10' - 100', lightweight glass-filled nylon housing, durable galvanized cable to resist cutting and abrasion, includes a carabiner, swivel top and ANSI Z359.12 compliant swivel snap hook.

### C - Velocity SRL-LE

The Guardian Fall Protection Velocity SRL-LE is designed specifically for LE work. It includes an integrated shock absorbing component that helps refocus forces away from the portion of the cable that comes into contact with the edge. While the ideal position for any attachment point is overhead, LE retractables play an important role in the construction industry because, frequently, the only viable attachment point is at foot level.

### D - Diablo Big Block Cable SRL-LE

The Guardian Fall Protection Diablo Big Block Cable SRL, formerly the Daytona Big Block SRL, is ANSI Class B rated and available in both 50' and 65' models, as well as with a variety of connector options. Rated for use in Leading Edge (LE) applications, the entire Diablo Big Block is built with quality and care, from its special coated and heat treated brake pawl bolts, to its lightweight and heavy duty housing. From functionality, to durability, to affordability, the Diablo Big Block is truly one of the highest-quality SRLs on the market.

### E, F - 33' Diablo Grande SRL

Built to last, this ANSI Class A powerhouse features an extremely durable & lightweight ABS housing with a convenient carrying handle. Available in the standard or Leading Edge (ANSI L.E. incorporated shock pack) models with or without nylon coated cable. All units have swiveling tops and snap hooks and come with a carabiner.

### G, H, I - Diablo Web SRL

The Diablo Self-Retracting Lifeline (SRL) is the premier mini retractable on the market. Weighing in at only a few pounds, the Diablo is supremely portable, and can be used either in mobile or stationary applications. Available with a variety of connector configurations, the Diablo can be purchased either as a single unit, or in a kit of two. True, most devils will try and steal your soul, but the Diablo will save your life.

### J - Armadillo SRL Cradle

Designed to facilitate the proper use of SRLs. Its unique carriage and locking mechanisms function to keep SRLs upright and stable to eliminate risk of brake malfunction due to improper positioning. Also, its lightweight, 360° casters ensure that the SRL will be able to move smoothly along the work surface should a worker need to extend their angle of work away from their anchorage connector.

## RETRACTABLE LIFELINES

### A - Halo Big Block Cable SRL

The Halo Big Block Cable SRL ANSI Class B unit is both lightweight and supremely durable, and incorporates corrosion-resistant stainless steel and aluminum components to ensure superior functionality throughout the product lifetime. This SRL also includes an ergonomic handle. Available in 50' & 65" lengths as well as an ANSI L.E. (leading edge) version and comes with a carabiner.

### B, C, D - Halo Series Web SRL

The Guardian Fall Protection Halo Series Web Self-Retracting Lifeline (SRL), formerly the Edge Series Web SRL, is designed with a specialized quick-action braking system, and is manufactured from non-corrosive, lightweight components. Extremely durable and compact, Halo SRLs will stand up to even the harshest working conditions. This 11' unit features Dyneema webbing for increased abrasion resistance, is ANSI Class B rated, and comes with a swivel top and carabiner.

### E - Halo Series Cable SRL

The Guardian Fall Protection Halo Series Self-Retracting Lifeline (SRL), formerly the Edge Series, is designed with a specialized quick-action braking system, and is manufactured from non-corrosive, lightweight components. Extremely durable and available with a variety of connector options, Halo SRLs will stand up to even the harshest working conditions. ANSI Class B rated, comes with swivel tops and swivel snap hooks as well as a carabiner.

### G - FallTech Contractor Cable SRL

SRL with Glass-filled Nylon Housing; 1 Connecting Carabiner and 1 Load-indicating Swivel Carabiner. Rugged construction for superior wear and reliability. 3/16" galvanized steel cable. Load-indicating swivel carabiner clearly shows when a fall event has occurred indicating the device should be remove.

### H - FallTech DuraTech® Compact Web SRL

10' Compact Web SRL; Aluminum Carabiner w/Captive Pin; and Aluminum Snap Hook Leg-end Connector. Average arrest forces under 900lbs; 44" stopping distance. Internal brake eliminates need for bulky external shock pack. Impact-resistant over molded side-walls. Integral Visual Load Impact indicator. Cycle-tested high-performance main spring.

KEY SKU	MFG#	DESCRIPTION
H.....	F03131.....82710SG4	.....DuraTech Compact Web SRL, 10'
G.....	F03130.....727620	.....Contractor Cable SRL, 20'

### I - 3M™ DBI-SALA® Ultra-Lok™ Arc Flash SRL

The 11 ft Arc Flash self retracting lifelines (SRLs) were designed to provide a safe and reliable fall protection connector for markets such as Utility and also ideal for welding, cutting and torching applications. The SRL's lifeline is made of Kevlar/Nomex offering the ultimate in spark and fire resistance. These units are all rigorously tested both by an Arc Flash laboratory and drop tested to meet OSHA standards and the test requirements of ANSI Z359.1, once they have been arced.

KEY SKU	MFG#	DESCRIPTION
I.....	F03125.....3103176	.....Ultra-Lok Arc Flash SRL, 11'

### F - Halo Cable SRL-LE

The Guardian Fall Protection Halo SRL for Leading Edge (LE), formerly the Edge Angel SRL, is designed specifically for LE work. It includes an integrated shock absorbing component that helps refocus forces away from the portion of the cable that comes into contact with the edge. While the ideal position for any attachment point is overhead, LE retractables play an important role in the construction industry because, frequently, the only viable attachment point is at foot level. Most SRLs on the marketplace are not certified for such applications, but the Halo SRL-LE is no common SRL, and holds up against even the toughest use. ANSI Class B rated, come with swivel tops and swivel snap hooks as well as a carabiner.

## RETRACTABLE LIFELINES

**Honeywell**  
**MILLER**

### A-G - TurboLite™ Personal Fall Limiters

The compact and lightweight TurboLite PFL makes shock-absorbing lanyards obsolete on the job site. Workers will no longer need to “switch-out” equipment to maintain a safe fall distance.

- Extremely compact and lightweight; unit attaches directly to the harness back D-ring for greater mobility and versatility
- Engineered webbing for greater abrasion resistance and long service life
- Built-in swivel prevents lifeline from twisting
- Rated for up to a 400 lb. (181.4kg) user
- No annual factory recertification required
- Meets requirements of OSHA, ANSI Z359.14 Class A & B and CSA Z259.2.2
- Includes connectors with 3,600-lb. gate-strength

### H, I - Twin Turbo™ Fall Protection Systems w/ G2 Connector

Miller Twin Turbo™ G2 Connector easily adapts two lightweight Miller TurboLite™ Personal Fall Limiters (PFLs) for continuous 100% tie-off fall protection.

KEY SKU	MFG#	DESCRIPTION

### J - Turbo T-BAK™ Personal Fall Limiter

Designed to tie-back anywhere along the lifeline. Provides more tie-off anchorage locations with a greater variety of beam-size options. Features the Miller 5K® locking snap hook designed specifically for tie-back use, 5,000 lbs. (22 kN) gate load capacity from any angle. Rated for up to 400 lb. worker. Meets all applicable OSHA, ANSI, and CSA standards. Connectors meet or exceed 3,600-lb. gate-strength.

KEY SKU	MFG#	DESCRIPTION
J .....	F03099	.....MFLT-2/7.5FT ..... Turbo T-BAK PFL w/ steel carabiner & locking snap hook, 7.5'

### K-N - TurboLite™ Edge Personal Fall Limiter

Designed for performance in sharp and smooth edge applications, the TurboLite Edge offers versatility, enhanced user mobility and maximum safety. The TurboLite Edge ensures workers are safe in applications requiring foot-level tie-off or working near edges.

With a 420-lb (189 kg) weight capacity for all connections down to foot-level, the TurboLite™ Edge is compatible with all Miller harnesses, without any add-ons. No cumbersome straps to attach to the harness or special connectors are required for different harness sizes or configurations.

KEY SKU	MFG#	DESCRIPTION
K .....	F03140	.....MFLEC-3/6FT.....Single TurboLite Edge w/ steel locking snap hook, 6ft

### O, P, Q - MiniLite™ Fall Limiter

The Miller MiniLite Fall Limiter is an 11 ft. self-retracting web lanyard with a quick-activating braking system that limits free falls. In contrast to shock-absorbing lanyards, a Fall Limiter eliminates the need for extended fall distance clearance, minimizing the risk of injuries and making rescue easier.

- Lightweight, compact design, 2.5 lbs for mobility & increased productivity
- Rated for up to a 310-lb. worker
- Corrosion-resistant interior, frame and components, high-impact protective cover
- No annual factory recertification required
- Meets all applicable OSHA, ANSI, and CSA standards
- Includes connectors with 3,600-lb. gate-strength

KEY SKU	MFG#	DESCRIPTION
O .....	F03035	.....FL11-1-Z7/11FT ...MiniLite w/ steel double-lock carabiner & locking snap hook
P .....	F03037	.....FL11-3-Z7/11FT ...MiniLite w/ carabiner/swivel shackle & locking snap hook
Q .....	F03075	.....FL11-4-Z7/11FT ...MiniLite w/ attached 3' cross-arm strap & locking snap hook

Safety Systems is not responsible for errors or omissions. Pictures may not represent advertised item. Check current pricing, availability and promotions at [SafetySystemsHawaii.com](http://SafetySystemsHawaii.com).

## A, B, C - Scorpion Personal Fall Limiters

The lightweight, compact design of the 9 ft. Miller Scorpion Personal Fall Limiter and its dual operation lets you attach directly to the harness D-ring for use as a personal fall limiter or use as a traditional retractable lifeline. No annual factory recertification required. Constructed of corrosion-resistant internal parts and stainless steel & aluminum encased in a high-impact polymer cover. Rated for up to a 310-lb. user. Meets all applicable OSHA, ANSI, and CSA standards

KEY	SKU	MFG#	DESCRIPTION
A	F03112	PFL-2-Z7/9FT	Scorpion w/ steel carabiner & locking snap hook
B	F03063	PFL-4-Z7/9FT	Scorpion w/ carabiner/swivel shackle & locking snap hook lanyard
C	F03121	PFL-6-Z7/9FT	Scorpion w/ rebar hook swivel shackle & locking rebar hook

## D - Titan Fall Limiter

The Titan Fall Limiter offers increased safety over a shock-absorbing lanyard by requiring less fall clearance, making rescue easier and reducing trip hazards. It also increases productivity over a shock-absorbing lanyard by increasing a worker's mobility. Rated for up to a 310-lb. user. Includes 3,600-lb. gate strength connectors.

KEY	SKU	MFG#	DESCRIPTION
D	F03122	TFL-1-Z7/11FT	Titan Fall Limiter w/ steel carabiner, 11'

## E - Black Rhino Cable Self-Retracting Lifeline

Lightweight, repairable, and no annual certification is required, lowering cost of ownership. Designed with stainless steel wire rope to endure the daily rigors of harsh environments. Ideal for concrete construction, welding, steel erection, food processing and warehouse applications. Meets all applicable OSHA, ANSI, and CSA standards. Rated for up to a 310-lb. user. Includes 3,600-lb. gate strength connectors.

KEY	SKU	MFG#	DESCRIPTION
E	F03032	CFL-4-Z7/9FT	Black Rhino SRL, stainless steel swivel & steel double-lock carabiner, swivel snap hook, 9'

## F, G, H - Falcon Self-Retracting Lifelines

Nearly indestructible, the high impact-resistant nylon housing withstands the harsh rigors of the toughest applications. The lightest, most rugged line of composite retractables are designed with smooth, round edges to increase durability. Pound for pound the strongest, most durable retractable.

With corrosion-resistant stainless steel and aluminum internal components, extend service life and reduce replacement costs. Dual swivels (unit top and snap hook) included on all models and a load indicator on the snap hook identifies when the unit needs to be removed from service. No annual factory recertification required. Meets all applicable OSHA, ANSI, and CSA standards. Models with web lifeline rated for up to a 400-lb. user. Models with cable lifeline rated for up to a 310-lb. user. Includes 3,600-lb. gate strength connectors.

KEY	SKU	MFG#	DESCRIPTION
F	F03052	MP16P-Z7/16FT	Falcon 16-ft. web lifeline w/ stainless steel swivel, aluminum carabiner & aluminum snap hook
F	F03056	MP20P-Z7/20FT	Falcon 20-ft. web lifeline w/ stainless steel swivel, aluminum carabiner & aluminum snap hook
G	F03054	MP20G-Z7/20FT	Falcon 20' (6m) galvanized cable lifeline (3/16" [5mm]) with tagline and carabiner
G	F03079	MP30G-Z7/30FT	Falcon 30' (10m) galvanized cable lifeline (3/16" [5mm]) with tagline and carabiner
H	F03059	MP50G-Z7/50FT	Falcon 50' (15m) galvanized cable lifeline (3/16" [5mm]) with tagline and carabiner

## I - MightyLite Self-Retracting Lifelines

Up to 30% lighter than competitive models in their class. They can be permanently mounted for repeated use. Corrosion-resistant stainless steel and aluminum housing and components extend service life. No annual factory recertification required. Carabiner and tagline included. Meets all applicable OSHA, ANSI, and CSA standards. Rated for up to a 310-lb. user. Includes 3,600-lb. gate strength connectors.

## J - MightyLite SRL Swivel Bracket

Reduces wear and increases mobility when using a MightyLite Self-Retracting Lifeline. For applications that include leading edge deck construction, warehouse pickers, bridge construction, steel erection and industrial.

KEY	SKU	MFG#	DESCRIPTION
I	F03077	RL20G-Z7/20FT	MightyLite SRL w/ 20' 3/16" galvanized cable lifeline

## LIFELINE SYSTEMS

### A - TechLine Temporary Horizontal Lifeline System Kit

Introducing premium temporary horizontal rope lifeline (HLL) systems for two workers. The abrasion resistant, low-stretch lifeline provides ultimate durability for tough environments while reducing fall clearance requirements. An in-line system shock absorber reduces forces while O-ring connections allow for ease of mobility. The systems are quick and easy to install, lightweight and portable.

Kit contains: Durable, low-stretch 5/8-in. fluorescent green rope lifeline, lifeline adjuster (prevents overtensioning of system), two heavy-duty cross-arm anchorage straps, shock absorber pack, two connecting O-rings, and waterproof bucket.

### B - SkyGrip™ Wire Rope Lifeline Kit *Special Order*

Miller SkyGrip™ Wire Rope Lifeline may be used in conjunction with approved Miller brand anchorage connectors to provide a temporary horizontal lifeline system that is quick and easy to install.

Miller D-Bolt Anchors may be installed to approve structures to provide a temporary or permanent anchorage. It may be used in concrete substrate or mining friction bolts to provide secure points of attachment.

Kit contains an energy absorber, combo-clamp-thimble, turnbuckle cable, wire rope clip and two anchorage connectors.

### C, D, E - Nylon and Polyester Rope Vertical Lifelines

**C - 198RLS-2-Z7** - 5/8" nylon rope lanyard with one locking snap hook and one choke off loop.

**D - 201RLS-2-Z7** - 5/8" nylon rope lanyard with two locking snap hooks.

**E - 204RLS-2-Z7** - 5/8" nylon rope lanyard with one locking snap hook and one thimble for attaching a carabiner.

### F - Poly Blend Vertical Lifelines

5/8" (16mm) diameter blue polyester/polypropylene blend rope. Standard lifeline lengths are 25 feet (7.6m), 50 feet (15m), 75 feet (23m), and 100 feet (30m); additional lengths are also available.

**F - 300L-Z7** - 5/8" Poly Blend rope lanyard with one locking snap hook and one choke off loop.

KEY SKU	MFG#	DESCRIPTION

### G-K - Miller Rope Grabs

Miller Rope Grabs move easily up and down vertical lifelines to provide continuous fall protection, and lock instantly when activated by a fall.

Miller synthetic rope grabs are designed for use with synthetic rope lifelines with a minimum tensile strength of 5,000 lbs. (22kN), secured to an anchorage independent of the worker's platform.

Trailing models offer complete hands-free operation for increased productivity. Corrosion-resistant stainless steel construction.

KEY SKU	MFG#	DESCRIPTION
G	F04045	8172/U ..... Stainless steel manual rope grab, for use with 5/16" wire rope
G	F04046	8173 ..... Compact stainless steel trailing rope grab for 5/8" synthetic ropes
H	F04051	8175 ..... Stainless steel trailing rope grab for 5/8" synthetic ropes

#### Manual Synthetic Rope Grabs

I	F04050	8174/U ..... Stainless steel manual rope grab, for use with 5/8" or 3/4" synthetic rope
J	F04088	8174MLS4-Z/4FTYL..8174 with attached 4' Manyard shock-absorbing lanyard w/ locking snap hook, for use with 5/8" rope
J	F04067	8174MLS6-Z/6F .....8174 with attached 6' Manyard shock-absorbing lanyard w/ locking snap hook, for use with 5/8" rope
K	F04079	8174RLS-Z/2FTWH..8174 w/ attached 2' rope lanyard with locking snap hook, for use with 5/8" rope

## LIFELINE SYSTEMS

### A, B - Poly Steel Rope

Ideal for high-moisture environments. Nylon rope, when wet, will typically reduce in strength by between 10% to 15%, but unlike Nylon, Poly Steel Rope does not absorb water, so will not diminish in strength. This rope is also particularly strong when it comes to resisting damage from ultraviolet light, and its synthetic composition makes it especially resistant to cuts and abrasion, thereby increasing equipment lifetime.

### C, D - Wire Rope & Drop Forged Clamp

The Wire Rope is 3/8 inch thick aircraft cable that possesses a 14,400 pound tensile strength. Must be used with Drop Forged Clamps in horizontal lifeline applications in accordance with system instructions and the judgment of a Qualified Person. The Drop Forged Clamp is made from drop forged steel, and are used to secure cable ends in horizontal lifeline systems. Compatible only with 3/8 inch cable. Wire Rope and Clamp sold separately.

### E - Kernmantle Rope Horizontal Lifeline System

A temporary, reusable, two-person system designed for Fall Arrest applications. It includes (1) Kernmantle Rope, (1) Ultra-Sack storage bag, (2) O-rings, (2) cross arm straps, (1) rope tensioner, and (2) self-closing and self-locking carabiners. The Ultra-Sack is convenient, durable, and ideal for transporting equipment around the jobsite, and also offers protection from contaminants. The two cross arm straps function as durable anchorage connectors that can be reused in multiple applications.

### F - Big Boss Horizontal Lifeline System

A temporary, reusable lifeline system that can be used by up to 4 workers simultaneously in Fall Arrest applications. It may span up to a maximum 82', and includes a rope bag for easy transportation and storage. This system can be easily set-up by just one person.

### G - Horizontal Lifeline Absorbinator Attachment System

The ultimate in horizontal lifeline systems. The Absorbinator is an energy absorber, used in combination with two anchorage connectors, which functions to absorb and reduce impact forces resulting from the energy generated by a fall. This kit includes a variety of equipment configuration options, including cross arm straps, CB Anchors, column and ceiling mounting functionality, and more. The maximum length of any Absorbinator horizontal lifeline system is 100 feet. 2 Absorbinators are required for any system between 60 to 100 feet in length. Each Absorbinator system is designed for use by up to 2 workers in Fall Arrest.

## GUARDIAN COMMERCIAL ANCHOR POINTS

### A - CB-1-W Weld-On Anchor

Forged steel D-ring temporary anchor point. Permanent application permissible if user applies appropriate finish. Weld on steel application.

KEY SKU	MFG#	DESCRIPTION
A.....	F05060.....00610	.....CB-1-W Anchor point

### B - CB-1-B Bolt-On Wall Anchor

Permanent or temporary anchor point. Can facilitate a horizontal lifeline system. Galvanized for corrosion protection. Available with a backer plate for use on a beam or structure capable of withstanding 5,000lbs. Intended for vertical structures only. Cannot be installed in a waterproof manner. Fasteners not included.

KEY SKU	MFG#	DESCRIPTION
B.....	F05055.....00601	.....CB-1-B Anchor, bolt-on flat anchor, galvanized

### C, D - CB-12 & CB-18 Anchors

For use on wood, steel or concrete. Fasteners provided for either wood or steel. Post extends past roofing substrate to keep attachment point high enough that it is still accessible after the roof is complete. Round post works with most off-the-shelf flashing kits. Great for use with retractable or horizontal lifeline systems. Durable galvanized finish. CB-18 is for concrete or special application only. Not suitable for suspension.

KEY SKU	MFG#	DESCRIPTION
C.....	F05047.....00645	.....CB-12 Anchor, raised anchor, 12"
D.....	F05054.....00656	.....CB-18 Anchor, raised anchor for concrete, 18"
D.....	F05122.....00657	.....CB-18 Anchor, raised anchor for metal of wood, 18"

### E - D-Ring Anchor Plate

Bolt or weld to structure. Two 1/2" attachment holes. Stainless steel. Plate size 1/4" x 2" x 4 1/4"

### F - 5K Concrete Anchor

For use in 12" thick cured concrete. Max capacity of 400 lbs. and ultimate breaking strength of 5,000 lbs. Fits 3/4" dia. X 3" deep holes.

### G - 10K Concrete Anchor

For use in 10" thick cured concrete. Max capacity of 400 lbs. and ultimate breaking strength of 10,000 lbs. Fits 1" dia. X 4.5" deep holes.

### H - G-Bolt Precast Hollow Core Concrete Anchor

Designed for safely tying off to precast concrete. May be installed in both concrete and steel substrates, and allows for a single user to tie-off in Fall Arrest, Restraint, and Work Positioning applications. Certified for use by workers of up to 420 lbs and is capable of withstanding loads of up to 5,000 lbs.

### I - Bolt Hole Anchor

A reusable 5,000 lb. certified anchorage connector that can be used in either horizontal or vertical applications. Simply squeeze to release its locking mechanism, inserted into a compatible hole ranging from 3/4" to 1—1/4" in width, and then released to reengage the locking mechanism.

### J - Concrete Anchor Strap

Sheathed in heavy-duty nylon webbing to protect the inner core webbing from abrasion and wear. Good for one use, cut off when the job is complete.

### K - Premium Cross Arm Straps

Twice as durable with dual enforced webbing and heavy duty stitching. The heavy duty wear pad protects the structural webbing against abrasion and snags.

### L - Cross Arm Straps

To use, loop over a steel support beam or other compatible anchor, and pull the small D-ring through the pass-through loop (or second, larger D-ring). Connect to a compatible lanyard or SRL, and you are ready to work.

## GUARDIAN COMMERCIAL ANCHOR POINTS

### A - Skyhook™ Anchors

The Guardian Fall Protection Skyhook line of anchorage connectors are made from powder-coated steel for increased durability and weatherproofing, and fit roof pitches from flat to 12/12. Skyhook Anchors can be installed on wood (3/4 inch CDX plywood or better) and metal (20 gauge or thicker) substrates, and are perfectly suited for a variety of fall protection applications.

### B - Swivel Top for Skyhook™

The Skyhook™ Swivel Top is great for the first-worker up system. The swivel top is easy to install as it mounts on top of the Skyhook™ anchor point via its removable and reusable bolt-on application. This product allows for a self-retracting lifeline to swivel a complete 360 degrees. This product does not include a Skyhook™ or retractable lifeline.

### C - Screw-Down Metal Roof Anchor

Reusable temporary anchor point designed for use with retractable life lines. Mounts to flat wood or metal roofs. Fits most retractable lifelines up to 50'. Allows retractable to rotate 360. Wood/Metal Fasteners provided.

### D - 2-Way Universal Standing Seam Roof Clamp

The Guardian Fall Protection 2-Way Universal Standing Seam Clamp is lightweight, reusable and easy-to-use. This product possesses an all steel construction with zinc electroplate finish making it very durable. The clamp also features a unique, reversible design that allows for seams up to 1-inch wide. The MR-24, VSR or similar profiles can be covered with one clamp.

### E - Standing Seam Roof Clamp

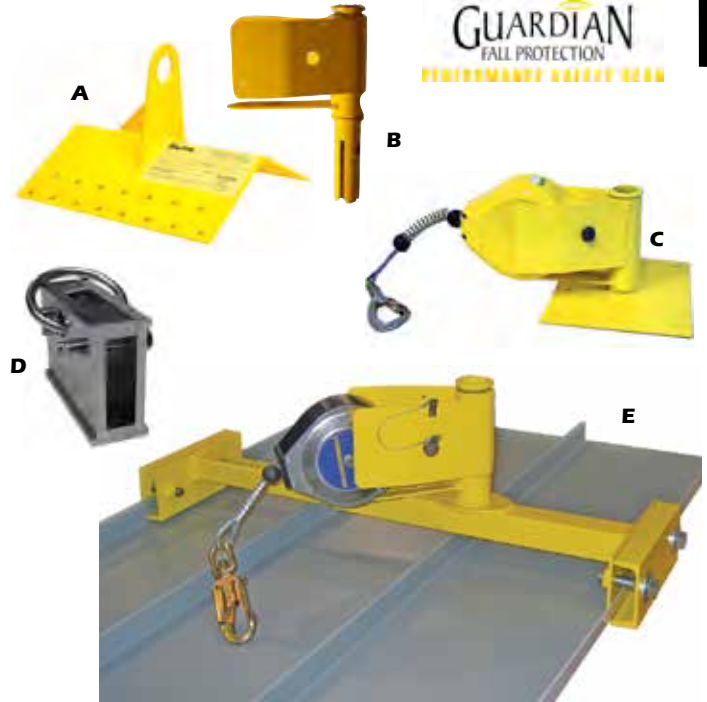

Reusable temporary anchor point designed for use with retractable lifelines. Pinch mounts to standing seams. Legs adjust 24"- 36" to fit seam spacing. Fits most retractable lifelines up to 50'. Allows retractable to rotate 360°.

### F - Swivel Concrete Anchor Kit

Specially designed to include a visual indicator that allows the user to clearly see when it is installed correctly. This anchorage connector is composed of high strength steel and stainless steel to make it capable of functioning in a variety of rough environments, and functions to rotate 180° to allow for increased mobility.

### G - 10K Mega Swivel Anchor

Rated for four men horizontal lifeline systems. This particular anchor rotates 360 degrees and flips 180 degrees. The MEGA swivel anchor can be used on steel flanges or concrete substrates. The safe working load for this product is 2,000 pounds and has an ultimate breaking strength of 10,000 pounds. This anchor is composed of drop forged alloy steel.

## Beamer Series

Beamer Series™ provides quick, easy-to-use, cost-effective way to attach to an I or H beam flange.

### H - Beamer 2000+

Drawing from the already superior features of the Beamer 2000, the Beamer 2000+ offers a D-ring that both pivots and swivels, adjustment levers at the top of the anchor instead of the side to reduce the likelihood of accidental impact adjusters, and even eliminates a few ounces of weight (now weighing just 3.2 lbs.!) Perfect for a wide range of fall protection needs when working with structural steel I-beams.

### I - Beamer BMR 18-2

BMR 18-2 features a ratcheting end piece for simple installation. Fits beams 8"-18" wide and flanges up to 2". Top flange only.

KEY	SKU	MFG#	DESCRIPTION
H	F05056	....00102	.....Beamer 2000+, sliding anchor for beams to 3.5"-14" wide
I	F05057	....00120	.....Beamer BMR 18-2 Anchor, for beams to 8"-18" wide

*Safety Systems is not responsible for errors or omissions. Pictures may not represent advertised item. Check current pricing, availability and promotions at SafetySystemsHawaii.com.*

## GUARDIAN COMMERCIAL ANCHOR POINTS

### A - Rope Anchor

Convenient lifeline connection point that's safer than tying a knot. Reusable lightweight aluminum. Easy instructions for tie off. Stays taut, but simple to untie. Attach carabiner to top hole for attachment to anchor point.

KEY SKU	MFG#	DESCRIPTION
A..... F05040	.....01300	.....Rope Anchor

### B - EcoAnchor

In direct partnership with CHECKMATE, an industry leading fall protection manufacturer in the UK, Guardian is excited to offer the EcoAnchor, a water filled neoprene counterweight fall arrest anchor system. This anchor has been tested and approved on a wide variety of low slope roofs, weighs less than 17 pounds when empty, and comes with a specialized carrying case for stowing. It requires no holes to be drilled in the substrate, and without any heavy weights having to be lifted to the working surface.

KEY SKU	MFG#	DESCRIPTION
B..... F05014	.....30801	.....EcoAnchor Water Filled Anchor, 4'4" x 4'4" when full

### C - Angel Anchor Non-Penetrating System

The Angel Anchor provides an ideal solution when you need a versatile and single tie-off point on a roof top where penetration is not an option.

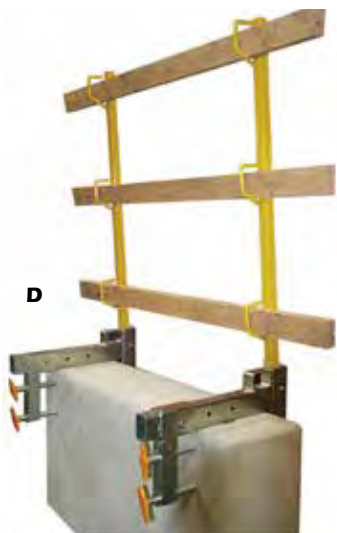

The Angel Anchor System is designed for use by persons with the combined weight (tools, clothing, etc.) of no more than 310lbs.

You can span two Angel Anchors with our 60ft. HLL rope system (part #04628) and have 2 workers in restraint or fall arrest.

- Non-penetrating, free standing unit with rubber anti-skid pads on bottom of base plates
- Each plate weighs 45lbs. Total unit weighs 575lbs
- Actual units measure 6'7" long and 5'2" wide
- Plated, galvanized and painted options available
- SRL swivel attachment option
- You can span two Angel Anchors with our 60ft. HLL rope system (part #04628) and have 2 workers in restraint or fall arrest.

\* Does not include Skyhook Swivel Top or Leading Edge Retractable.

KEY SKU	MFG#	DESCRIPTION
C..... F01007	.....00260	.....Angel Anchor System, single tie off, non-penetrating
C..... F05013	.....15501	.....Angel Anchor/C-Slab Grabber Replacement Pins
C..... F05015	.....999900	.....Angel Anchor Pin Platform to Spine
C..... F11252	.....999999	.....Angel Anchor Replacement Anti-Skid Pad
C..... F05031	.....00380	.....Skyhook Swivel Top

large easy-to-grip adjustment handles for quick set-up and proper securement

Used it for the placement of guardrail uprights, single point tie-off, or in conjunction with our Horizontal Rope Lifeline

### D - Parapet Anchor System

The Parapet Anchor system has two unique features in that you can use it for the placement of guardrail uprights or use as an anchorage connector for personal fall arrest, restraint, work positioning or suspension

#### PRODUCT FEATURES:

- Single point tie-off rated for 5000 lbs.
- Costs 20% less than other comparable brands
- Durable, reusable and versatile system
- Works with 52" Guardrail Post (61133)
- Integrated safety pin for secure set up
- Use w/ shock absorbing lanyards & retractables
- Meets OSHA standards for guardrail and an anchor point
- Only one option in use at a time. For example: You cannot use the guardrail system while using the single point tie-off.

KEY SKU	MFG#	DESCRIPTION
D..... F05050	.....15171	..... Parapet Anchor System, use w/ guardrails, anchorage or horizontal lifeline

## GUARDIAN RESIDENTIAL ANCHOR POINTS

### A, B - Ridge-It Anchors

Stainless steel, easy-to-install tie-off point on each side of the roof for one worker. Two workers cannot be attached to the same unit. Install into a truss every 10 ft. of roofline. Low profile design make only the D-rings visible after installation. Seal and cover with ridge cap for permanent installation. Nails included. The 00510 comes with Butyl strips and stainless steel fasteners.

### C - Snappy Disposable Anchor

Disposable roof anchor for the ridge line. Fits any pitch. No removal necessary, just hammer tab over to flatten after use. Wood fasteners included.

### D - Temper Reusable Anchor

Reusable anchor for wood residential construction. Provides protection for one worker. Temper anchors are tough, long lasting, reusable and fits up to 12/12 pitch roofs. Anchor can be removed easily and taken to the next job. Meets all applicable OSHA and ANSI standards.

### E - Truss Boss Kit

Provides everything required for the set-up of a premium roof truss anchor. In addition to a non-corrosive Truss Boss Anchor, this kit also includes waterproof flashing for both composite and tile roofs, and also an anchor cap specially designed to protect the Truss Boss from weather, as well as to not blow off in high winds. Can be installed on the truss while the truss is still on the ground for additional safety, and the entire kit can be installed without penetrating roof sheathing. This kit is ideal for Fall Arrest and Restraint applications, and is supplied with all necessary fasteners.

### F - Halo Anchor

Removable and reusable 1/4" thick steel roof anchor. Complete with zinc plated forged alloy steel O-ring. Nail or bolt into the roof member. Designed to be removable, it may be used again after an inspection.

### G - HitchClip®

The HitchClip® is the most revolutionary residential fall protection roof anchor ever made. Made from lightweight and durable powder-coated aluminum, the HitchClip® is easy to install, and functions as a permanent rooftop anchor. Thanks to its patent pending "key-hole" design, the HitchClip® can be used in combination with a large variety of accessories, allowing it to be used to set up guardrail systems, staging areas, and more.

### H - Bull Ring Anchor

Perfectly suited for personal fall arrest, restraint, or work positioning applications. For all applications, the worker weight capacity range (including all clothing, tools, and equipment) is 130 to 420 pounds. Substrate must be roof truss or support beam that is minimum of 3" thick CDX or better. All fasteners (use either six 16d, 3" long 8 gauge nails or three 1/4" x 3" zinc-plated steel hex head lag screws) must be fully embedded in the substrate.

### I - Window Gap Anchor

The Guardian Fall Protection Gap Anchor is an ideal anchorage connector for tie-offs in the interior of a building or a window opening. The Gap Anchor is composed of lightweight aluminum and fits openings from 24" to 48" wide. The entire system is lightweight and durable, and helps create an anchor point that enables even the most difficult job to get done safely. Use with optional SRL cradle part # 00380 (sold separately) for use in combination with SRLs. Must be used with and ANSI L.E. (leading edge) SRL.

KEY	SKU	MFG#	DESCRIPTION

## MILLER ANCHORAGE CONNECTORS

### A - D-Bolt Anchors

1/2-inch (13mm) diameter D-bolt; 1-1/4 inch (32mm) long; one-piece unit with lock washer and nut. Accommodates working thicknesses up to 3/4".

### B - Concrete D-Bolt

Concrete D-Bolt Anchorage Connector includes a 5/8-inch stud-type expansion anchor that is ideal for applications with concrete and lightweight concrete that meet required specifications (min. 2,000 psi). Can be installed on a vertical wall or overhead for versatility.

### C - Push-Thru Eye Bolt

Spring-action anchorage connector offers simple one-hand installation and can be used for a wide range of applications. Fits 3/4 inches dia. holes and includes the integral SofStop Shock Absorber. 400 lbs. maximum capacity.

### D - Wire Hook

Stainless steel Wire Hook connects to various approved anchorages including railings, small I-beams, angle iron and scaffolding. 400 lbs. maximum capacity.

### E - Shadow Beam Anchors

Miller Shadow Beam Anchors connect horizontally to a wide range of I and H beam flanges. Once attached, the units slide along the beam with the worker to provide increased safety, mobility and productivity.

### F - Cross-Arm Straps

Wraps around I-beams and other structures and attaches with a 2-inch D-ring that slips through a 3-inch D-ring to form a secure attachment point. 400 lbs. maximum capacity.

### G - Grip Reusable Concrete Anchorage Connectors

Used for concrete vertical or overhead/ceiling surfaces with a compression strength of at least 3,000 psi. When job is complete, remove and reuse in next location. 400 lb. max capacity.

### H - RA15-1 Reusable Roof Anchor

Reusable roof anchor installs on various pitch roofs and offers a D-ring for connecting device attachment. 10/box

### I - RA35-1 Reusable Roof Anchor

Single person anchor for flat roofs, with swivel D-ring. w/16D nail hardware. 5000 lbs tensile strength.

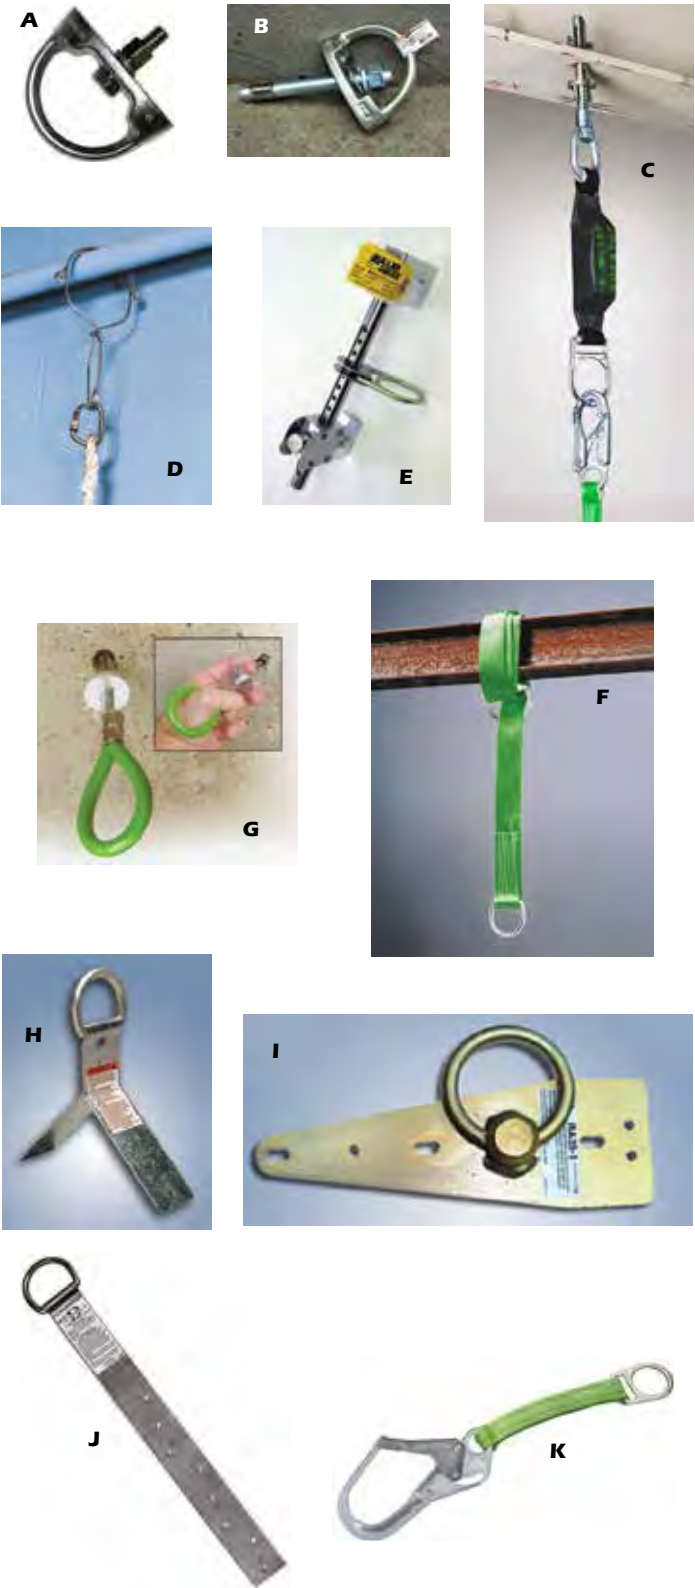

### J - Single D™ Permanent Roof Anchor

The Single D permanent roof anchor is designed to provide one (1) D-ring anchorage point when securely installed on a wood roof sub-surface or vertical wall. Stainless steel construction; plated steel D-ring. Accommodates single user for fall protection.

### K - Rebar Hook Anchor

Designed to facilitate anchoring to scaffolding, pipe or angle iron. 310 lbs.

maximum capacity.	KEY	SKU	MFG#	DESCRIPTION

## ESCAPE AND RESCUE

### A - SkyORB Overhead Rotational Boom Anchor

*Special Order*

The new Miller SkyORB™ Overhead Rotational Boom Anchor provides a safe overhead anchorage that is designed specifically for use around vehicles, utilizing the vehicle weight to secure the anchor for proper fall arrest, eliminating the need for heavy and bulky counter weights. The SkyORB™ Anchor is a pre-engineered system that replaces the need for very expensive, custom engineered, fixed overhead anchor systems. Provides the worker with an easy and quick connection with their fall arrest system while working at height.

KEY	SKU	MFG#	DESCRIPTION
A.....	F05134	.....	SORBSYS.....SkyORB Overhead Rotational Boom Anchor, special order

### B - Hurt Man Bucket Truck Rescue System

This system is ideal for easily lifting an injured victim out of an aerial basket. The water resistant bag is designed to be mounted on the boom where it can be easily accessed in the event of a rescue. A specially designed deployment strap allows the bag to be mounted higher on the boom, ensuring the victims feet will clear the lip of the basket, while still providing easy accessibility to the rescuer, allowing them to deploy the components of the system from the bag. Pulleys are made of marine grade stainless steel and provide a 4 to 1 mechanical advantage. A 7/16" diameter braided rope allows for up to a 20' lift and reduces twisting of the pulleys. The larger diameter rope also provides the rescuer a better grip while lifting, even when wearing gloves.

B.....	F10047	.....	3813.....Hurt Man Bucket Truck Rescue System

Safety Systems is not responsible for errors or omissions. Pictures may not represent advertised item. Check current pricing, availability and promotions at SafetySystemsHawaii.com.

### C - 3M™ DBI-SALA® Rollgliss™ R550 Rescue and Descent Device

The Rollgliss™ R550 offers the choice of controlled descent rescue, evacuation or the versatility of assisted rescue with lifting capabilities. This state-of-the-art, fully automatic controlled descent device can be used for rescue and evacuation from heights up to 1,640 ft. for one user 310 lbs. or 575 ft. for two users totaling 620 lbs. It features 3/8 in. super static kernmantle rope, and is configured with connecting hardware at each end of the lifeline to operate in both directions. During assisted-rescue scenarios, a fallen worker can be attached to the R550 device, raised to a point that allows their fall arrest device to be removed, then lowered to the ground safely. Kit contains 100 ft. rescue and descent kit with rescue wheel, 4 ft. anchor sling, 2 carabiners and carrying bag.

## ESCAPE AND RESCUE

**GUARDIAN**  
FALL PROTECTION  
PERFORMANCE SAFETY GEAR

### A - Rapid Deployment Rescue Ladder *Special Order*

Specially designed to facilitate the rescue of fallen workers at significant heights, and is thus particularly applicable for the wind energy industry. This durable ladder system is manufactured with unique ladder standoffs to make footholds easier and self-rescue more likely. It is also capable of supporting up to 2 worker at once (maximum 310 pounds each, including all equipment), thereby allowing a rescuer to climb down to assist a fallen worker.

### B - Aerial Lift Self Rescue Ladder

A portable 14' nylon web ladder to assist with self-rescue for applications such as aerial lifts, bucket trucks, and elevated work surfaces. A twist-lock carabiner attaches to an anchorage point, a 1/8" nylon rope tagline drawstring with swivel bolt snap is attached to the user's harness, and to a lightweight, durable bag. In the event of a fall, the user releases the ladder by pulling on the drawstring and then climbs back to the cherry picker or work surface.

### C - Gotcha Rescue Kit *Special Order*

Most rescue equipment available on the market is designed for falls at extreme heights or specialized situations, the Gotcha Kit is designed for workers who use more common fall protection equipment. This kit works effectively with either conscious or unconscious victims, allows a single rescuer to carry out the rescue from a point of safety, and provides the option of either lowering the fallen worker to the next lowest level, or raising them back up to the nearest point of safety. It is suitable for the rescue of workers using either lanyards or self-retracting lifelines. To perform a rescue, the rescuer must have specific rescue training.

### D - Gotcha Shark Kit

Ideal for those for whom heights are a central part of their job, such as those who consistently work from towers or masts. This kit is suitable to perform rescues of workers using lanyards, vertical arrest systems, and web retractable lifelines. The Shark Kit functions by first attaching a descent kit to the full-body harness of the victim, then cutting their primary attachment with a unique, bladeless cutter. The rescuer then descends down to the victim, collects them, and assists them in descending to safety. Rated for maximum loads of up to 660 pounds. To perform a rescue, the rescuer must have specific rescue training.

### E - Gotcha Fire & Rescue Kit

Designed for professionals of the fire and rescue industry. This kit provides a flexible solution to rescues involving vertical, horizontal, and tensioned lines. It allows victims to be recovered without the need to cut them free due to its unique raising and lowering functionality, and can be used in numerous applications in combination with a second kit. When two kits are used, the added functionality is added of being able to raise and lower the victim without the need to reconfigure the system, as well as allowing the rescuer to lower themselves down to the victim and assist them in reaching a point of safety. To perform a rescue, the rescuer must have specific rescue training.

### F - Gotcha Constant Rate Descent Kit

Specially designed constant rate descent device suitable for both rescue and evacuation. It allows for a rescuer to raise or lower the fall victim to the nearest point of safety, or for a single user to descend to safety at a rate controlled by the equipment. No assembly is required by the user, and the kit is rated for maximum loads of up to 495 pounds. To perform a rescue, the rescuer must have specific rescue training.

## GUARDRAIL SYSTEMS

### A - Guardian G-Rail

The Guardian Fall Protection Guardrail is part of the ultimate free-standing fall prevention system—the G-Rail. An often overlooked option in the world of fall protection, guardrails and warning lines function to block workers from exposure to fall hazards, often entirely eliminating the need for other types of fall protection equipment. The Guardrail component of the G-Rail System is made from powder-coated steel for supreme durability and weather resistance, and is compatible with both the QuickSet Multi-Directional Baseplate and standard Guardrail Baseplate.

### B - Guardrail Baseplate

The Guardian Baseplate is the standard option for the attachment and anchorage of Guardian Guardrails, and is one of the two baseplate options for the ultimate free-standing fall prevention system—the G-Rail. It is composed of hot dipped, galvanized steel for superior durability and weather resistance, and will never contribute to rooftop stain or rust. It is skid resistant and requires no rooftop attachment.

### C - QuickSet Multi-Directional Baseplate

The Guardian Fall Protection QuickSet Multi-Directional Baseplate is part of the ultimate free-standing fall prevention system—the G-Rail. It requires no penetration of the substrate, offers four toeboard attachment points, and is composed of powder-coated steel for superior durability and weather resistance. Fast and easy to install, the QuickSet Multi-Directional Baseplate is perfect for almost any fall prevention application.

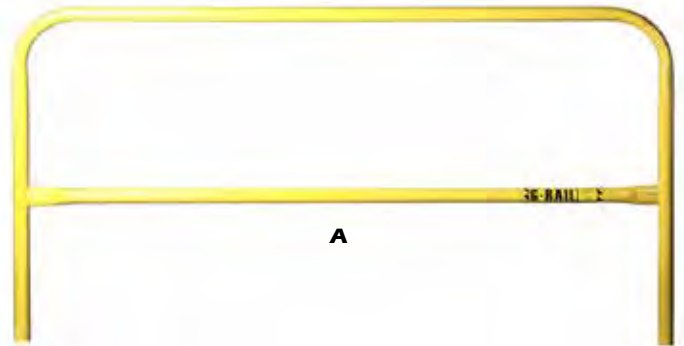

### D - Guardrail Toeboard Attachment

Intended for use with the standard Guardrail Baseplate part # 15180. It requires no penetration of the substrate, and is composed of hot dipped galvanized steel for increased durability and weather resistance. This attachment provides easy adaptability of guardrail systems, and complies with both OSHA and ANSI standards. Toeboards are required if any risk exists for tools, equipment, or materials to fall down from the working surface, and on all roofs with slopes greater than 4/12 (vertical/horizontal).

### E - Guardrail Safety Swing Gate

Perfect for jobsites with controlled access areas. Compatible with all Guardian G-rails, simply install the Safety Swing Gate at the location where workers will transition to an unprotected area, then continue the G-rail system as normal. With the Safety Swing Gate workers can work safely and securely protected by a fall prevention system, while still able to access fall hazards as necessary.

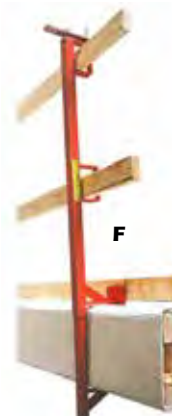

KEY	SKU	MFG#	DESCRIPTION

E	F06036	15110	Guardrail Safety Swing Gate, 24"
E	F06037	15111	Guardrail Safety Swing Gate, 36"

### F - Slab Grabber

The Guardian Fall Protection C-Slab Grabber is the perfect solution for installing guardrail systems on concrete decking. This specially designed guardrail system includes an anti-slip grip, a quick adjust handle, and a back-up safety pin that functions to ensure complete system integrity, all of which serve to meet or exceed compliance with all applicable OSHA regulations. The C-Slab Grabber is fast and easy to install, and adjusts to fit concrete slabs of up to 36 inches thick. It is compatible with 2x4" and 2x6" boards, as well as cable or snap-on metal railings, is very affordable, and its rugged construction makes it extremely resistant to corrosion and damage.

KEY	SKU	MFG#	DESCRIPTION
F	F06045	15500	C-Slab Grabber, compatible with 2" x 4" and 2" x 6" boards

## GUARDRAIL SYSTEMS

### A - Parapet Clamp Guardrail

The Guardian Fall Protection Parapet Clamp Guardrail is an economical and easy to use system. An often overlooked option in the world of fall protection, guardrails and warning lines function to block workers from exposure to fall hazards, often entirely eliminating the need for other types of fall protection equipment. Each clamp is provided with a corresponding guardrail post, which is compatible with both 2x4" boards and snap-on metal rails. This system can fit any parapet from 4 to 24 inches in width, and an entire system can be easily installed by one person, frequently without the need for ladders or scaffolding.

KEY	SKU	MFG#	DESCRIPTION
A	F06038	15170	Parapet Clamp Guardrail

### B - Guardrail Post

Compatible with our residential guardrail system and parapet clamp guardrail system. It is compatible with 2x4" boards and snap-on metal rails, is incredibly lightweight (only 4 pounds), and is 42 inches tall, keeping it exactly in line with current OSHA regulations. Guardrail Posts must be spaced at a maximum of 8 feet apart.

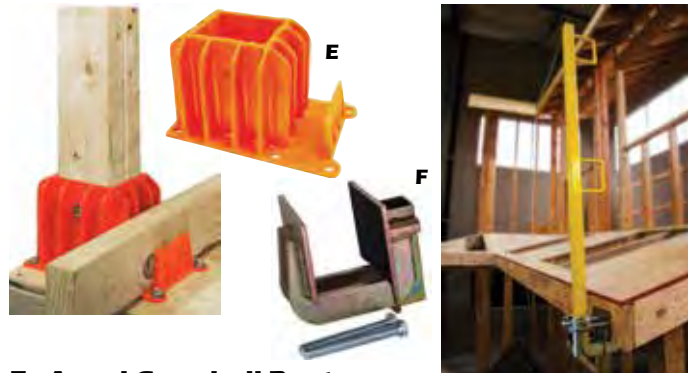

### C - Guardrail Post Receiver

Compatible with the Guardian Guardrail Post, and allows for the installation of guardrail systems flush against outside walls. It may be installed in both wood and concrete substrates, and is composed of powder-coated steel for superior durability and weather resistance. The Guardrail Receiver is reusable for multiple installations.

### D - Guardrail Gusset Mount

Gusset mounts bring guardrail posts flush with outside walls. Made of galvanized steel and mounts with screws or nails. Saves 40% of installation labor. Reusable.

KEY	SKU	MFG#	DESCRIPTION
B	F06016	61133	Guardrail Post, 52" height
B	F06060	15175	Guardrail Post, 42" height
C	F06041	15158	Guardrail Mounting Receiver
D	F06024	61027	Guardrail Gusset Mount

### E - Angel Guardrail Boot

The Guardian Fall Protection Angel Boot functions to increase the support of a guardrail system through its durable, high-strength plastic design and reinforced gussets, letting it withstand even the harshest of work environments. It is easy to install, can be attached to both wood and concrete, and is reusable for multiple installation applications (always use new fasteners for each new installation). Colored safety orange for high visibility, the Angel Boot also incorporates a simple to use toeboard slot. It is an inexpensive option for both residential and commercial applications.

### F - Friction Fit Bracket for Guardrail Posts

Specifically designed to protect the gable end of the roof, this bracket fits securely onto fascia boards to create an easy to install perimeter guardrail system. Made from zinc plated steel, this bracket is supremely durable, and the friction tape applied to both clamp faces further enhances its attachment to the fascia board. The Friction Fit may be used in combination with guardrail posts of 52, 65, and 74 inches high, all of which are compatible with both 2x4" boards and snap-on metal railings.

KEY	SKU	MFG#	DESCRIPTION

## WARNING LINES & SAFETY NETTING

### D - Goose Warning Line Stanchion

The Guardian Fall Protection Goose Single Stanchion is specially designed for use with a reusable warning line. An often overlooked option in the world of fall protection, warning lines and guardrail systems function to block workers from exposure to fall hazards, often entirely eliminating the need for other types of fall protection equipment. The spring loaded legs of the Goose Single Stanchion allow for a quick and easy installation, and its convenient handle facilitates simple transportation. It can be used in both temporary and permanent applications, and is a cost effective way to ensure worker safety.

### E - Warning Line Stanchion

The Guardian Fall Protection Single Stanchion is specially designed for use with a reusable warning line. An often overlooked option in the world of fall protection, warning lines and guardrail systems function to block worker from exposure to fall hazards, often entirely eliminating the need for other types of fall protection equipment. The Single Stanchion weighs only 23 pounds, is 39 inches tall, and is composed of powder-coated steel for superior durability and weather resistance. It is easy to install, and its convenient handle facilitates simple transportation.

### F - Warning Flag Line

The Guardian Fall Protection Replacement Flag Line is compliant with the Guardian Goose and Single Stanchions, as well as the Permanent Warning Line Mast, and is a component of a complete and OSHA compliant warning line system. Its heavy duty nylon cord is supremely durable, and its large, heat-sealed flags are spaced every two feet for extra visibility.

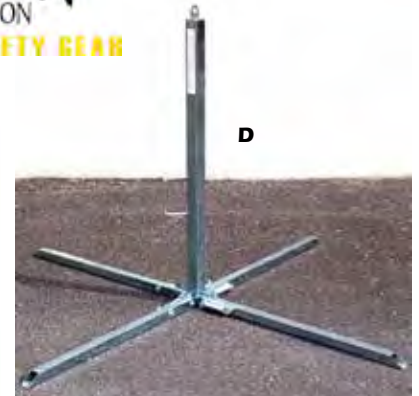

### G - Orange Fire Retardant Debris Netting

Manufactured with a specialized double-strand configuration, as well as both fire retardant and ultraviolet protective coatings. It is also designed to withstand wind, rain, sun, and other potentially hazardous environmental conditions, and is compliant with all applicable OSHA 1926 Subpart M regulations.

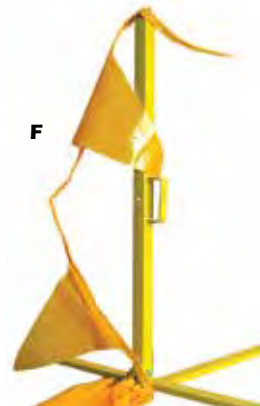

KEY	SKU	MFG#	DESCRIPTION

## ARBORISTS' & LINEMEN'S EQUIPMENT

### A - Classic Master Saddle – 1290

A Classic Master ArborMaster® saddle that features a step in waist belt with individual interlocking buckle leg straps. Features two side mounted friction buckles and a suspension system with a medium dee ring and six connection loops.

### B - Arborist Saddle

Standard four D-ring saddle with grommet belt strap without leg straps.

Made of high tensile strength nylon, the 3" wide pad section is lined for long wear and comfort. Work positioning D-rings are attached by metal clips to prevent the rings from exceeding a 45° swing. Accessory snap and ring to suspend equipment.

### C - Pinnacle Saddle

A traditional style saddle with added features.

- The batten seat provides comfort when suspending from an overhead line
- Adjustable friction buckles on the seat strap for perfect center of balance
- Firm back pad for superior support when aloft
- Loop for chainsaw carabiner, positioning Dees, snaps for handsaw
- Small suspension D-rings, elastic keepers for excess strap material

### D - Full Float Body Belt – 2000M *Special Order*

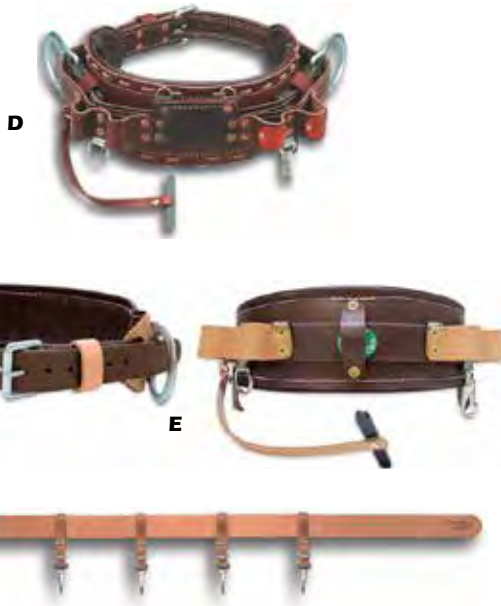

This is the finest belt available and is hand crafted of the highest quality leather. It features a full float body belt with a 5 1/2" foam cushioned pad reinforced with rawhide lace. The belt strap is leather with a nylon center to provide strength and longer life. The floating dees provide 4" lateral movement to reduce the wear on the pole strap.

### E - Semi Float Body Belt – 1902

The 1902 is an economy model of the typical linemen's belt using quality leathers with a 6-ply neoprene impregnated nylon 1 3/4" waist strap. The rounded edge and 5" pad make this a favorite body belt among fixed dee ring, semi-float body belt users.

### F - Gut Strap Belt Supporter

A heavy duty 1 3/4" leather waist belt with 4 buckles and snaps designed to help support the tool belt and it's contents. Not intended to solely support belt without the help of a body belt waist strap.

## ARBORISTS' & LINEMEN'S EQUIPMENT

BUCKINGHAM  
**BUCK**  
1896

### A - Pole Climber

Complete set includes: Pole climber with 1.75" length gaff and 4.5" wide offset stirrup with sleeves, fasteners and replaceable gaff; nylon foot strap, nylon leg strap, leather pads, sleeves, fasteners and replaceable gaff.

Standard length sleeve allows adjustment from 15.75" to 18.75". Climber legs iron are draw-forged high strength aircraft quality steel.

### B - Steel Tree Climbers

Contoured shank with offset stirrup. Dowel & screw style replaceable gaff and 21391 nylon foot straps.

Includes standard length sleeves [9204] adjusting from 16 1/4" to 18 3/4". Long sleeves, adjusting from 19 1/4" to 21 3/4", may be ordered [9202].

### C, D, E - Leather Climbing Pads

**C - 3122 'L' Pad** - A quality leather pad with 3 loops and a tunnel design to keep climber stationary. All leather construction with 3/4" padding.

**D - 3124 'T' Pad** - The 'T' pad has a thick felt liner and a tunnel design to stabilize the climber shank. All leather construction with 3/4" padding.

**E - 35032 & 35032KL 'C' Pad** - Leather 'C' pad designed with a metal insert and oversized felt liner for additional comfort. 35032 fits Buckingham climbers. The 35032KL is for Klein. Requires a 26" strap.

### F - Velcro Climbing Pads

A velcro pad that features continuous wrap and 3/4" padding. Comes without a metal insert and without cinch.

### G - Climber Straps

4-ply neoprene impregnated nylon that is extremely durable and weather resistant.

Single-piece straps are used for top straps and bottom straps on loop style climbers. Minimum length for bottom strap is 24".

Two-piece strap is permanently attached to stirrup ring.

### H - Gaff Guard - 60092

Climber footplates compatible with any steel or titanium climber. Provide added comfort when standing on a pole. Two plates, one with a rubber sole that faces down, fasten together on the climber stirrup with two screws. Not for use with aluminum climbers.

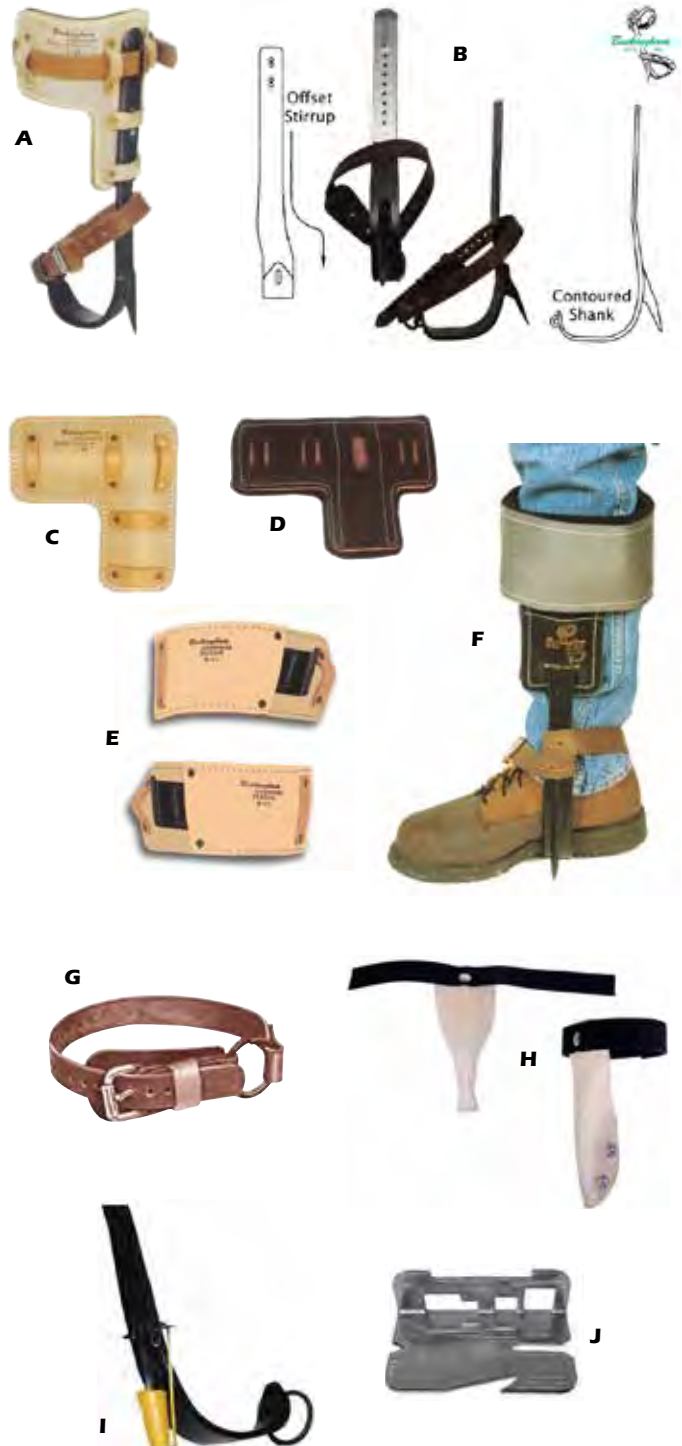

### I - Universal Gaff Guard - 6909U

Universal coated wire pole gaff guard made to fit all Buckingham, Bashlin, Klein and Stringer Brooks pole climbers.

### J - Pole Gaff Gauge - 6303

New and improved Pole gaff gauge that can also gauge CCA Gaffs; includes instructions.

## ARBORISTS' & LINEMEN'S EQUIPMENT

### A, B - SuperSqueeze™ Wood Pole Fall Restriction

The lightweight design of the SuperSqueeze™ offers superb Wood Pole Fall Restriction and easy one handed outer strap adjustment by incorporating Buckingham's WebGrab™ which allows adjustment with just a flick of the wrist. With numerous configurations the SuperSqueeze™ fits many climbing styles and needs, and its modular design makes it easy to change out worn or damaged components or straps out in the field. Features the same easy one handed adjustment on the inner strap with the BuckGrab™ and can easily be configured to use a rope or web strap based on users preference. Only one disconnect point when climbing over an obstruction. All straps feature 3600 lb gate rated hardware. Rope inner strap with carabiners. Meets ASTM F887-11.

### C - Positioning Strap 346099E

A neoprene impregnated nylon with a slide buckle. Length-6'.

### D - Positioning Strap 386099E

Neoprene impregnated nylon with tongue buckle. Length-6' or 7'.

### E - Web Slings

Web slings can be chocked around limbs or small brush piles and used as a handle and can also be used as a foot hold. Works great as a redirect and great for light rigging applications. 1" polyester webbing with a 8,900 lb. tensile strength.

### F - Micro Ascender

Used to attach block and tackle to rigging line. 6,000 tensile. For use with 1/2" diameter rope only.

### G - Rigging Block

Rigging blocks combine the convenience of a spring loaded upper pin with a captive bushing, and a lightweight aluminum design. Features a 3/4" line 9" x 5" 5 lbs. Tensile tested to 22,500 lbs. Safe working load is 4,496 lbs.

### H, I - Rappel Rigging

Figure 8 with or without ears. Tree climbers rigging hardware used for descent rappelling or rescue operations. 5,000 lb. breaking strength.

### J - Throw Bag & Slickline

Buckingham Throwbags have a tighter, aerodynamic design. All seams are reinforced with two loops of stitching, and the steel ring is fastened with five rows of stitching for added durability.

### K - Wire Core Flip Line

Manufactured from our trademark Hi-Vee cover with plied strands for greater abrasion resistance and sure grip of adjusters. Size and construction permit use of most ascenders/adjusters. Unique eye termination helps alleviate pivot point stress for increased service life.

## ARBORISTS' & LINEMEN'S EQUIPMENT

### A - OX BLOCK™ – 50061

The OX BLOCK™ rope snatch block with an integrated friction bar is used for hurtman rescue, lowering loads, snubbing loads, and raising loads. Allows the rigging professional to handle loads with greater control and when lowering loads, tension is transferred from worker to the OX BLOCK™.

### B - BuckBully™ Pulley For 5/8" Rope – 5007B1

The BuckBully™ is a high strength aluminum pulley designed to be used in conjunction with the popular OX Block™ for 5/8" synthetic rope. It features a maintenance free sealed bearing, delivering effortless pulling and, side plates that are hard coat anodized and laser etched for long lasting durability.

### C - Double Back Holster

A double back holster that remains rigid and prevents tight fitting tools from bending and buckling the back of the pouch when removing tools. Double back holsters also protect tools from wearing through the back of pouch as they are inserted or removed over the years. This model features 5 pockets and a 2 way knife snap.

### D - Leather Tape Thong – 6107

A tape thong that connects to belt of holster by a rivet or barrel fastener..

### E, F, G - Bucket Hooks

Easy to install non-conductive hooks for attaching baskets and equipment to aerials bucket lifts. Polymer hooks are molded from a mixture of plastics and nylon that give them high breaking strength and excellent cold resistance.

### H - Lineman's Tool Bucket & Bag

Made from Millerhyde, a double-laminated, heavy duty, nylon synthetic and/or canvas. Lightweight, tear and abrasion resistant.

## HAND TOOL LANYARDS

### A - Squids® Wrist Tool Lanyard

Adjustable wrist lanyard tethers tools limiting the distance of a dropped tool and reduces snag hazards.

Features: Polyester webbing cuff secures to wrist, energy absorbing ribbed pull cord, adjustable loop with barrel lock for tool attachment, and short length improves the drop clearance needed. Tether length 7.5". 2lb maximum safe working capacity. Tool not included.

KEY	SKU	MFG#	DESCRIPTION
A	F02467	19042	Squids 3115 Wrist Tool Lanyard, size S/M
A	F02468	19052	Squids 3115 Wrist Tool Lanyard, size L/XL

### B, C - Squids® Retractable Dual SS Carabiner

Retractable tool lanyard with stainless steel carabiner attachment on both ends. Plated swiveling ring for 360 degree rotation and modular connecting buckle for exchanging tools. Locks into place at desired length preventing tangles and work under tension while securing tools. Extendable length up to 48in. 1lb maximum safe working capacity.

KEY	SKU	MFG#	DESCRIPTION
B	F03104	19300	Squids 3000 Retractable Dual SS Carabiner
C	F03105	19325	Squids 3025 Modular Connecting Buckles, 3/pkg

### D, E, F, G - Squids® Tool Carabiner Lanyards

Shock absorbing tool lanyard designed and tested to prevent falling objects and reduce the force your body sees if a drop occurs by absorbing the energy transmitted through the tool lanyard. By reducing the shock load this design prevents the tool from pulling the user down with it protecting those above as well as those below.

Features: durable 1680 denier polyester elastic blended webbing extends from 38" to 70", anodized aluminum alloy carabiner with captive eye, and high strength 3-ply nylon stitching secures connecting ends. Tool not included.

KEY	SKU	MFG#	DESCRIPTION
D	F02600	19802	Squids 3100F(x) Lanyard, aluminum alloy carabiner and loop ends, 10 lb max capacity, extends from 38" to 70"
E	F02601	19822	Squids 3110F(x) Lanyard, aluminum alloy carabiner on both ends, 10 lb max capacity, extends from 38" to 70"
F	F02602	19808	Squids 3108F(x) Lanyard, aluminum alloy carabiner and loop ends, 15 lb max capacity, extends from 38" to 70"
G	F02603	19828	Squids 3110F(x) Lanyard, aluminum alloy carabiner on both ends, 15 lb max capacity, extends from 38" to 70"

### H, I, J - Squids® Single Carabiner Tool Lanyard

Tool Lanyard-Single Carabiner: Tethers tools to help worker prevent injury, damage and lost productivity from dropped tools.

Features: energy absorbing cord with tubular nylon webbing, single action aluminum carabiner, captive eye carabiner, reflective accent for higher visibility and lock stitching at both ends for extra security. Extendeds 42"-54". Tool not included.

KEY	SKU	MFG#	DESCRIPTION
H	F02465	19013	Squids 3100 Lanyard, aluminum carabiner and loop ends, 10 lb max capacity, extends from 42" to 54"
I	F02466	19065	Squids 3102 Lanyard with Detachable Loop, aluminum carabiner and loop ends, 5 lb max capacity, extends from 42" to 54"
J	F02469	19068	Squids 3103 Accessory Kit - Detachable Loops 3-Pack

### K, L - Squids® Coiled Cable Lanyards

Coiled cable lanyard keeps the length of the lanyard close to the anchoring point, reducing snag hazards of traditional lanyards while preventing dropped objects. The patent pending swiveling design prevents tangles and headaches the coiled design can cause and reduces recoil force preventing aggressive snap back. Tool and trap not included.

KEY	SKU	MFG#	DESCRIPTION
K	F02604	19130	Squids 3130S Coiled Cable Lanyard, stainless steel carabiners, 2 lb max capacity, extends from 6.5" to 50", lime color
L	F02605	19131	Squids 3130M Coiled Cable Lanyard, stainless steel carabiners, 5 lb max capacity, extends from 6.5" to 50", orange color

## HAND TOOL TAILS & TRAPS

### A - Squids® Web Tool Tails™ 5-Pack

Web Tool Tails™ provide retrofit attachment points to a variety of tools and equipment up to 2lbs (0.90kg) using Squids® Tape Traps. Tool not included.

KEY	SKU	MFG#	DESCRIPTION
A	F02700	19701	Squids 3700 Web Tool Tails, variety sizes, 5/pk

### B - Squids® Elastic Loop Tool Tails™ 3-Pack

Elastic loop Tool Tails™ provide retrofit attachment points to a variety of tools and equipment up to 15lbs (6.8kg) using tape trap or cold shrink. Tool not included.

KEY	SKU	MFG#	DESCRIPTION
B	F02701	19767	Squids 3703 Elastic Loop Tool Tails, 18", 3/pk

### C - Squids® Cold Shrink Trap™

Cold Shrink Traps capture Squids® Elastic Tool Tails™ creating a retrofit connection point for tethering. Tool not included.

KEY	SKU	MFG#	DESCRIPTION
C	F02720	19723	Squids 3723 Cold Shrink 3" Trap, tool diameter range of 0.75" to 1.50", maximum capacity up to 5lbs depending on tool, tail and lanyard used
C	F02721	19724	Squids 3724 Cold Shrink 4" Trap, tool diameter range of 1.25" to 1.75", maximum capacity up to 10lbs depending on tool, tail and lanyard used
C	F02722	19726	Squids 3726 Cold Shrink 6" Trap, tool diameter range of 1.75" to 2.5", maximum capacity up to 15lbs depending on tool, tail and lanyard used

### D - Squids® Self-Adhering Tape Trap

Captures Squids® Tool Tails™ to secure a safe connection to tools, and doesn't require heat to adhere the tape. Provides security and extra grip by quickly wrapping on a variety of hand tools, power tools, and other equipment. Tool not included.

KEY	SKU	MFG#	DESCRIPTION
D	F02725	19755	Squids 3755 Self-Adhering Tape Trap, 12' x 1", 10lb capacity

### E - Squids® Tape Measure Trap™

Tape Measure Trap™ securely wraps around most standard tape measures. D-Ring connection point attaches to a lanyard to prevent drops. Tool not included.

KEY	SKU	MFG#	DESCRIPTION
E	F02726	19770	Squids 3770 Tape Measure Trap, 2lb capacity

### F - Squids® 3780 Power Tool Trap™

The Power Tool Trap™ securely wraps around the battery portion of drills, impact drivers and other cordless power tools. D-Ring connection point attaches to a lanyard to prevent drops. Tool not included.

KEY	SKU	MFG#	DESCRIPTION
F	F02727	19782	Squids 3780S Power Tool Trap, size small-fits cordless power tool batteries up to: 3.5" L x 2.75" W x 2.5" H, 6lb capacity
F	F02728	19784	Squids 3780L Power Tool Trap, size large-fits cordless power tool batteries up to: 5" L x 3.5" W x 3.5" H, 6lb capacity

### G - Squids® Tool Shackles 2-Pack

Stainless steel U shaped shackles connect to waisted tools (tapered mid sections) or tools with captive holes, creating clean, secure attachment points for tethering. Maximum safe working capacity: 15lbs. Tool not included.

KEY	SKU	MFG#	DESCRIPTION
G	F02730	19792	Squids 3790S Tool Shackle, size small, 15lb capacity
G	F02731	19793	Squids 3790M Tool Shackle, size medium, 15lb capacity
G	F02732	19794	Squids 3790L Tool Shackle, size large, 15lb capacity
H	F02733	19795	Squids 3790XL Tool Shackle, size extra large, 15lb capacity

## LADDER SAFETY

A

C

B

C

### A - Safe-T Ladder™ Extension System

“According to the U.S. Bureau of Labor Statistics, 80% of all falls from ladders occur at the top of the ladder and 50% of falls from ladders occur during the transition from the ladder to a second surface.”

Designed to attach over the top of the ladder and provide a safe and easy transition from the ladder to a second surface, the Safe-T Ladder™ requires no tools, drilling or bolting to hold it securely in place. Once installed, the unit provides two offsetting handrails that can be used to walk through and step on or off the ladder and helps workers comply with OSHA standard 1926.1053(b)(1) which states: “When portable ladders are used for access to an upper landing surface, the ladder side rails shall extend at least 3 feet (.9 m) above the upper landing surface to which the ladder is used to gain access.”

Meets OSHA standard 1926.502(b)(3) and OSHA standard 1926.1053(b)(1) as well as ANSI standard a14.2 section 8.3.3.

### B - Safety Ladder Gate

The Safety Ladder Gate, designed for use in combination with the Safe-T Ladder Extension, is perfect for providing additional protection when climbing off or onto a ladder. It includes a self-closing mechanism, is both lightweight and durable, and is compliant with all applicable OSHA regulations.

### C - Basemaster Ladder Stabilizer

Cuts the risk of falls by allowing ladders to remain stable on uneven ground. Designed for both professionals and do-it-yourselfers, it easily attaches to the bottom of any standard ladder, keeping the ladder stable and level, providing it with an extra-wide adjustable base.

The Basemaster's ingenious design utilizes an arc of hardened steel. As the opposing locks on each side of the arc are released, the arc slides over until its rubber tread feet are firmly on the ground while the ladder stays plumb. Simply lean your ladder, tap-release the lock with your foot, and start climbing!

### D - Corner Buddy Ladder Stabilizer

For use on corners, flat, round, & multi-dimensional construction surfaces. Easier access to gutters, downspouts & soffits. Adds stability & safety.

D

E

### E - Ladder Stability Anchor

Complies with OSHA 1926.1053(b)(1)....."ladder shall be secured at its top to a rigid support that will not deflect." The device is made of lightweight aluminum and allows for secure attachment, without penetration, of the fascia board or to rafters.

### F - Aluminum Ladder Jack

Will accommodate up to an 18" wide plank. Use inside or outside ladder face. Welded and riveted construction for strength & durability. Adjustable to fit round or D-rung ladders. Available assembled or knockdown. Capacity: 2 workers plus 75 lbs between 2 ladders.

F

G

### G - Ladder Rung Step

Designed to reduce worker fatigue by expanding the foot support of the ladder rung to which it is attached. Compatible with nearly any ladder, the Ladder Rung Step is made from durable and lightweight aluminum, and its patented design allows it to be installed quickly and easily without any tools.

KEY	SKU	MFG#	DESCRIPTION
A	F09001	10804	Safe-T Ladder Extension System, orange
B	F09046	10798	Safety Ladder Gate, for use with Safe-T Ladder Extension

G	F09041	2477	Ladder Rung Step

## CONFINED SPACE RETRIEVAL SYSTEMS

### A, B, C - Miller MightEvac Retrieval System

The Miller MightEvac combines the superior performance and reliability of the best-selling MightyLite Self-Retracting Lifeline Series with a quick-activating retrieval mechanism for emergency evacuation. Equipped with 50' galvanized self retracting lifeline with emergency retrieval hoist and safety chain. Provides quick and easy rescue with a 4:1 mechanical advantage [25 feet per minute]. Durable, field-tested construction, corrosion-resistant components and convenient heavy-duty carrying handle. MightEvac System includes MightEvac w/ 50' galvanized cable, 7' tripod, mounting bracket, bag & video.

### D - Miller Manhandler® Hoist/Winch

For confined space entry, rescue, positioning and personnel handling. Compact, durable steel construction. Smooth, controlled winding action. Effortless lifting and lowering with 5:1 gear ratio. Anti-backlash crank handle braking system prevents freewheeling. Built-in mounting bracket. 350 lb. working capacity. Galvanized wire rope.

### E - Miller Adjustable Tripods

	F01378	8287H/YL..... Carry bag for Miller Tripods

### F - Guardian Arc-O-Pod Rescue & Retrieval System Kit

The Guardian Fall Protection Arc-O-Pod is an affordable, high quality Rescue and Retrieval system. The Arc-O-Pod is a 90-inches aluminum tripod that is lightweight, portable, and easily set up by just one worker. It also includes a 3-way SRL and storage bag for easy transportation between jobsites. Its adjustable, locking legs can be sized in 2 inch increments to best fit the layout of a given work area, and are kept in position with locking push pins. The tripod can be sized to fit a maximum 5—1/2 foot diameter hole, and is specially designed to eliminate all risk of slippage or movement when in use. Its heat-treated cast aluminum head incorporates a built-in pulley system to facilitate the proper use of mechanical lifeline equipment, and is also equipped with drop forged steel eyebolts for use as an anchorage point for a secondary or back-up system. The Arc-O-Pod also comes complete with a quick-mount bracket compatible with the Guardian 3-Way SRL. This system is certified to withstand a load of up to 5,000 pounds, and is compliant with all applicable ANSI Z359.1-2007, ANSI A10.14-2004, and OSHA regulations.

### G, H, I - Guardian 60' Man-Rated Winch

The Guardian Fall Protection 60' Man-Rated Winch is specially designed for use with the Guardian Arc-O-Pod. For personnel or equipment hoisting, this winch is easy to install and use, and is a premium piece of Confined Space and Retrieval equipment with excellent range.

KEY SKU	MFG#	DESCRIPTION
F	F08007	20001..... Guardian Arc-O-Pod Rescue & Retrieval System Kit w/ 50' SRL

## CENTRIFUGAL BLOWERS

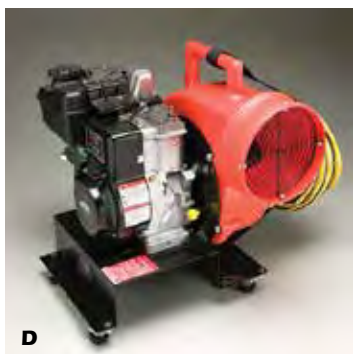

**A**

**B**

**C**

**D**

**E**

**F**

### A - 8 inch Heavy Duty Centrifugal Blower

High performance and durability are built into this Heavy Duty Blower. Its large 1 1/2 hp motor and 8" ports deliver high CFM allowing workers to draw out or push air in. It is designed with a large metal base with locking wheel casters and three carry handles for easy maneuverability. The electric motor is totally enclosed and the high impact polyethylene housing offers greater durability.

Free Air: 1700, One 90° Bend: 1200, Two 90° Bends: 960. 61 lbs., 1.5 hp, 16A/115/230V

### B - 8 inch High Output Centrifugal Blower

For environments that require faster purge time or larger confined spaces, this High Output Blower offers the same features as the Standard Blower, with a cage-enclosed 3/4 hp motor for higher CFM output. Tough polyethylene housing offers lightweight durability, and the metal safeguards and steel fan offer greater safety.

Free Air: 1570, One 90° Bend: 1100, Two 90° Bends: 900. 45 lbs., 3/4 hp, 12A/115/230V

### C - 8 inch Standard Centrifugal Electric Blower

Excellent for most ventilating needs, especially confined space. Designed with tough polyethylene housing, metal safeguards and a steel fan for durability. Two 8" ports offer positive ventilation or fume extraction, and the metal base with feet offers greater stability. The electric motor is cage-enclosed for protection. Comes with an on/off switch and built-in carry handle for increased portability. Works great with generators. Air delivery certified CEESI.

Free air: 1066, 90° bend: 839, two 90° bends: 475. 3.6A/115V. 1/3 hp

### D - 8 inch High Powered Centrifugal Gas Blower

New Briggs & Stratton Motor. Perfect for remote locations where electricity is unavailable, this gasoline-powered, 5 hp blower offers high flow rates. The 8" ports and steel guards provide safety and the polyethylene housing with built-in handle offers durability and convenience. It is designed with a sturdy metal base that minimize blower rocking and offers greater stability. 3.2 quarts of gasoline will power 3-4 hours of running time. Blower includes 6 foot inlet hose extension.

Free air: 1390, 90° bend: 1152, Two 90° bends: 11079. 5 hp four stroke.

### E - 16 Inch Standard Blower

For very large confined spaces this large, 16" axial blower delivers high output for drawing or pushing air. The durable and tough metal housing holds a 6 blade impeller. It is designed for easy stacking for multiple blower use.

Free air: 3400, 90° bend: 2800, two 90° bends: 2300. 7.2A/115V.

### F - Heavy Duty Explosion-Proof Blower

Electric, explosion-proof motor is UL/CSA listed. Single-phase motor includes Hazardous Location NEMA rated 115V plug (included). ABS housing provides non-sparking safety. Meets Class I, Divisions 1 and 2, Group D and Class II, Divisions 1 and 2, Groups F and G Hazardous Location Requirements.

Free air: 1570, 90° bend: 1100, two 90° bends: 900. 11A/115/230V. 3/4 hp

#### KEY SKU MFG# DESCRIPTION

F	B02014	...9503	Heavy Duty Explosion-Proof Blower, 3/4HP

## COM-PAX-IAL & AXIAL BLOWERS

### A - 8 inch Axial AC Plastic Blower w/ Compact Canister

This versatile system features the 8" AXIAL AC Plastic blower with compact canister and 15' or 25' of ducting. This lightweight unit is designed with the quick-connect clipping system which allows workers to attach the compact canister, tools-free, to the input side for powerful extraction or output side for ventilation. The 15' or 25' ducting stores conveniently within the compact canister. Special design features include blower and canister built-in carry handles, built-in On/Off switch and "Safety" orange coloration.

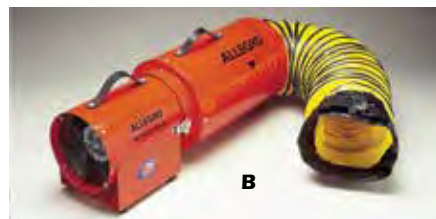

Free Air: 831, One 90° Bend: 709, Two 90° Bends: 586.

### B - 8 inch AC Metal COM-PAX-IAL Blower w/Canister

Lightweight and compact Com-pax-ial blower can be an all-in-one ventilation system. Comes with quick-connect 15' ducting canister which attaches quickly without tools with Cam-lock latches. Super compact blower body is only 12" long. 1/3 HP, 115 V, 3 amp.

Free Air: 778, One 90° Bend: 645, Two 90° Bends: 496.

### C - 8 inch Axial AC Metal Blower w/ Canister

Engineered for convenience, this 8" axial blower is an all-in-one ventilation system. The design allows ducting to collapse into a built-in canister for easy storage. The unit can also be stored vertically to use a minimum amount of space. Includes blower, built-in storage canister and 15 feet of ducting. Certified to CSA STD C22.2 No 113. Air delivery certified CEESI.

Free Air: 1275, One 90° Bend: 661, Two 90° Bends: 582. 3A/115V. 1/3 hp

KEY	SKU	MFG#	DESCRIPTION

B	B02037	9534-15	AC COM-PAX-IAL Blower w/ canister, 15' Ducting
C	B02030	9514	8" AC Axial Blower w/ Canister, 15' Ducting

### D - Venturi Blowers

Compressed air or saturated steam is the power source for our Venturi Blower line. Small volumes of high velocity air (from the compressed air source) run through the casting and out the nozzle jets, creating a venturi action or pulling action that creates large volumes of air through the venturi and out the air diffuser.

A 1/2" hose with a "crows foot" connection is recommended from your air supply source to the side inlet connection. The compressor size required can be determined by checking the chart on air consumed at various inlet pressures. Operate this Venturi Blower on air or steam lines limited to 140 psi.

KEY	SKU	MFG#	DESCRIPTION
D	B02033	9518-03S	Venturi Blower, 16.75" L, 1/2" NPT Inlet
D	B02032	9518-03	Venturi Blower, 30.5" L, 1/2" NPT Inlet
D	B02034	9518-06	Venturi Blower, 44.25" L, 1" NPT Inlet

## VENTURI BLOWERS

## CARPET DRYER BLOWER

### E - 3 Speed Carpet Dryer Blower

For speed drying of wet carpets, pads, floors and walls, this blower is powerful, durable and lightweight. Three speed model offers four angle operating positions. Balanced carry handle makes it easy to transport. Stackable for convenient storage. UL approved, thermally protected motor with safety circuit breaker and 25' water resistant cord. CSA approved.

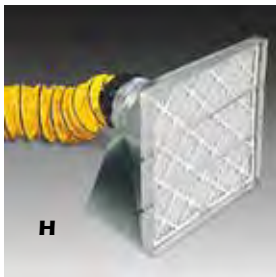

- 20" h X 20" w X 17" d, 28 lbs
- 1/2 horsepower electric motor
- 115V/60hz/1/2hp; 1780 (low), 1837 (med), 1888 (high)

KEY	SKU	MFG#	DESCRIPTION

## BLOWER ACCESSORIES

### A - Blower Ducting

Made of durable vinyl polyester in 8", 12" or 16" diameters and designed for rugged use. It is constructed with vulcanized external strips, steel reinforced wire hoop, and cuffed with an attachment belt.

### B - Lay Flat Ducting

Lightweight air ventilation tubing (similar to a plastic bag) manufactured from durable clear polyethylene, has been engineered for maximum elasticity, flexibility, toughness, and resistance to splitting and tearing. Most commonly used for transferring large volumes of forced air to confined areas, such as water restoration projects, building renovations or other temporary applications. Not designed for permanent installations. Collapses when airflow stops. Unaffected by moisture and most chemicals. Resistant to bacterial and fungal growth (suitable for use in food preparation areas). 41° F to 150° F (5° C to 65° C) temperature range. 22" diameter (not inflated). Length: 500'.

### C - Duct Storage Bag

For easy storage and transportation. Polyester bag with cylinder shape for tight controlled fit will hold 8", 12", 16" or 20" duct, up to 25'. Features double zipper for ease of access, reinforced carry handle and shoulder strap.

### D - 8" Plastic Storage Duct Canister

Constructed from Linear Low Density Polyethylene (LLDPE), this canister is lightweight and holds 25' of 8" ducting. The molded handle makes it easy for transport. Lid is secured with strap and side release plastic buckle.

### E - Duct to Duct Connector

Allowing safe connection of additional ducting, this connector is constructed of galvanized steel with a raised lip to hold ducting in place.

### F - Blower Port Adaptor Reducer

Our lightweight yellow and black soft nylon adapter reducer is rugged enough to stand up to any working condition and is designed for most air handling capabilities. It's flexible and collapsible design allows for easy storage when not in use. The reducer is available in three models and includes a duct-to-duct connector. Note: 16" reducers can NOT be used with 9516 and 9515-50EX blowers.

### G - 8" Manhole Ventilation Passthru (MVP) *Special Order*

Allegro's MVP is the first manhole system that combines the low profile manhole air vent, 90° elbow and built in mounting all in one unit. This unit comes with a collapsible duct, for easy entry, stored in a small storage bag that can be dropped down into the manhole with a quick release of the drawstring. The Collapsible duct springs back into shape once worker is down into the manhole. The ducting is vinyl and polyester with PVC coating and heat resistant up to 180° F. The manhole cover fits into a flat channel corner for stabilization. Compact, lightweight and made from Linear Low Density Polyethylene (LLDPE), this unit is easy to store and ships in one small carton. Recyclable.

### H - Blower Filter Box

Hook up your existing blower with 8" ducting to the back of Allegro's Filter Box. It filters the ambient air from or to the blower through the Filter Box. Can be attached on either inlet or outlet side of blower for positive or negative filtration. Filters particulates and dust. Made of galvanized sheet metal. Operates with up to two filters inserted at once. One filter included. Dimensions are 24" L x 24" W. Weighs 13 lbs.

## MANHOLE SUPPORT EQUIPMENT

### A - Manhole Guard Rail

Protects an area 33" x 33", this 42" high guard rail collapses to only 44" square x 4" for easy storage. Simple one-piece construction offers easy, no-tools assembly. Rail locks open and two hooking chains provide protected entry and exit. For safety, the rail accommodates signs, flags or lights, and for convenience, it can be used with a guard rail tent, umbrellas or winch.

### B - High Impact Polymer Manhole Shield

Constructed of rugged, lightweight Polyethylene with bright yellow material that resists fading. Will fit 28" (71.1cm), 30" (76.2cm) and 32" (81.2cm) diameter manholes with an inflatable seal that ensures a watertight seal. Designed with 4-outtrigger support gussets that stabilize the shield and is 12" (30.4cm) tall to keep water and mud out of manhole as you work.

### C - Guard Rail Winch *Special Order*

Used for lowering equipment only into confined space. 300 lb. capacity, it is lightweight and portable, allowing easy mounting on guard rails. Constructed to resist weather and wear. Two independent ratchet systems, and a double-disc automatic brake offer load control and security. The 1/2" x 35' Nylon braided rope is strong and durable. Guard rail not included.

### D - Deluxe Umbrella *Special Order*

This 84" diameter umbrella offers low cost protection from sun and rain. It features heavy duty vinyl in safety yellow with a sturdy, 92" two-part metal pole that tilts for convenience. It can be pushed into the ground or strapped to the manhole guard rail. For easy storage, it collapses to 4" x 6" diameter.

### E - Magnetic Manhole Lid Lifter

Lift heavy manhole lids alone. Minimizes stress and strain on back and body. Collapsible for easy storage and transport. Can access uneven textured surface found on manhole covers with dual position lifting points to provide the power to break loose the most stubborn covers. Eliminates the use of pry bars. For safety the magnet must be in contact with manhole cover to be engaged. Moves covers up to 36".

### F - Manhole Lid Chain Lifter

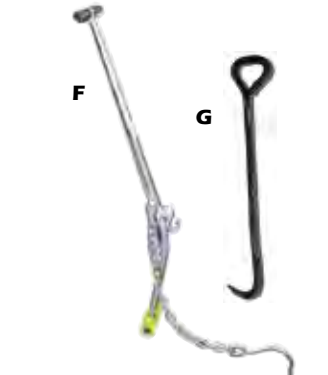

Heavy manhole covers are removed easily by "walking" the cover off. Tubular steel, zinc plated. Chain & hook assembly are easily adjustable to create the needed tension and angle of leverage. Rubber grips on footing and handles prevent slips and injuries. 40" long. Wales & Associates.

### G - SCI Grate Hook

The SCI Grate Hook is a heavy duty steel hook that fits all grates and protects hands from injury. 31" x 5". 4lbs.

### H - Manhole Sign

Meeting OSHA's confined space warning requirements by reminding workers to follow proper confined space procedures, these high impact polycarbonate signs fit under the manhole cover. The design allows air to pass through the ventilation holes while also letting water to drain in.

## GAS MONITORS

# Dräger

**GASCO**

### A - Dräger Pac® 3500 H2S Single Gas Monitor

Dräger Pac® 3500 Single Gas Detector, Hydrogen Sulfide, 100 ppm. Dräger Pac 3500's impact-resistant housing features a protective rubber coating and is impervious to corrosive chemicals. Dräger Pac 3500 meets the requirements of IP 65 to ensure operation even when splashed with water. A crocodile clip securely fastens the instrument to the user's clothing and can be adjusted to allow for individual preferences.

### B - Dräger Pac® 7000 H2S LC Single Gas Monitor

The Draeger Pac® 7000 provides a constant readout of low concentrations of hydrogen sulfide (H2S). This simple-to-use, single-gas monitor provides reliable constant readings with a resolution down to 0.1 ppm and a range of 0-100 ppm. The Pac 7000 is a lifetime monitor, meaning it has no fixed lifespan and easily replaced sensor and battery. The sensor in this monitor has a 2-year warranty and is easy to calibrate and configure. The bump test mode, sensitivity calibration, and fresh air calibration can all be utilized through secure password-protected technology. A communication module allows easy access of data logged information.

### C - Dräger X-am® 2500 Ex Multi-Gas Monitor

Dräger's X-am 2500® accurately detects O2, CO, NO2, SO2 and H2S and is the only 1-4 gas monitor you need for a wide range of applications. The X-am® 2500 combines reliable sensor technology with long battery life and intuitive operation in an instrument that defines safety.

The Dräger X-am 2500 has Ex approval for zone 0 for user safety in areas subject to explosion hazard. Additionally, it is not sensitive to electromagnetic radiation, e.g. from wireless devices and is water and dust resistant in accordance with protection class IP 67.

The X-am 2500 is compatible with Dräger's X-dock testing and calibration station. X-dock is Dräger's new solution for efficient maintenance and comprehensive equipment management. Used for functional testing and complete documentation, X-dock can complete bump tests in 8 to 15 seconds with more than 40 % less gas consumption than competitive instruments. The X-am 2500 is also compatible with the Dräger Bump Test Station.

### D - Dräger X-am® 5000 Multi-Gas Monitor

The Dräger X-am® 5000 belongs to a generation of gas detectors, developed especially for personal monitoring applications. This 1- to 5-gas detector reliably measures combustible gases and vapors as well as O2 and harmful concentrations of toxic gases, organic vapors, Odorant and Amine.

In combination with the Dräger X-zone® 5000 the gas detector can be used for various area monitoring applications. Up to 25 Dräger X-zone 5000 units can be automatically interconnected to form a wireless fence. This interconnection of the area monitoring devices allows for the fast securing of larger areas, e.g. pipelines or industrial tanks – even within the scope of industrial shutdowns.

**NEW  
ON THE MARKET  
Dräger**

**X-AM® 8000**

This 1 to 7 gas detector detects toxic and flammable gases as well as vapours and oxygen all at once – either in pump or diffusion mode. Innovative signalling design and handy assistant functions ensure complete safety throughout the process. Available by special order. Call us today at 808-847-4017 for more information.

**A, B, C - Dräger X-dock® 5300 & 6300**

Automatic bump tests, calibration, reduced test gas consumption, short testing times and comprehensive documentation come standard in this new device from Dräger, the experts in gas detection.

The X-dock's engineered advantage all starts with intuitive touchscreen operation at the master controller station where up to three test routines can be configured. Testing is as simple as inserting your Dräger gas detection instrument and closing the lid. The X-dock immediately detects all sensor combinations and automatically tests and adjusts when all of the required test gases are connected. All generated data is documented in the database.

The Dräger X-dock comes in multiple configurations to allow for flexibility depending on the type of detection instrumentation being used. The X-dock 5300 includes a master controller with a module for a single gas detection instrument in the X-am 1/2/5000 or Pac family of products. The X-dock 6300 and version can be configured freely. It consists of a master controller and can be expanded with up to 10 modules for X-am 1/2/5000 and/or Pac single gas detection instruments.

**Dräger**

	B03194	...8324250	.....Pressure Regulator for Dräger X-dock

**DRAGER TUBES AND CMS**

**D - CMS - Chip Measurement System**

For spot gas measurements, it combines an electronic based analyzer with substance specific chips. The 10 capillaries on each chip are filled with a reagent system based on Draegers 60+ years experience in colometric chemistry. More than 55 gas-specific chips are available. The results of 50 measurements can be stored in a DataRecorder integrated in the analyzer, together with relevant data, i.e. measurement substance, concentration, date, time and site of measurement. CMS Electric Analyzer available by special order.

KEY	SKU	MFG#	DESCRIPTION
D	B03077	...6406290	.....CMS Chip, Training
D	B03068	...6406020	.....CMS Chip, Ammonia, 10-150 ppm
D	B03069	...6406030	.....CMS Chip, Benzene, 0.20 - 10.0 ppm
D	B03211	...6406150	.....CMS Chip, Hydrogen Sulfide, 20 - 500 ppm
D	B03075	...6406190	.....CMS Chip, Carbon Dioxide, 200-3000 ppm
D	B03076	...6406200	.....CMS Chip, Petroleum Hydrocarbons, 20-500 ppm
D	B03079	...6406520	.....CMS Chip, Hydrogen Sulfide, 0.2-5 ppm

**E - Accuro Pump Deluxe Kit**

The Accuro gas detector pump is a manually operated bellows pump that draws a calibrated 100 milliliter sample through the short-term Dräger-Tubes.

Contains: Pump, tube opener, extension hose, spare parts kit, screwdriver, rubber caps, perm marker, carry case.

KEY	SKU	MFG#	DESCRIPTION
E	B03025	...4056443	.....Accuro Pump Deluxe Kit
E	B03060	...6400000	.....Manual Pump
E	B03062	...6400049	.....Nozzle
E	B03063	...6400076	.....Extension Hose Adapter
E	B03064	...6400077	.....Extension Hose, 3 Meters

**F - Short Term Tubes**

For short-term measurements more than 160 Dräger-Tubes are available to measure the so-called spot concentrations of specific gases. A wide range of different gases and vapours can be detected and measured, e.g.: Determining and measuring concentration peaks, Measuring personal exposure in the inhalation area, Detecting leaks in pipelines, gas installations etc., and air analysis in sewers, shafts and confined spaces.

KEY	SKU	MFG#	DESCRIPTION
F	B03146	...CH23501	.....Short Term Tube, Carbon Dioxide 0.1/a, 0.1-6 Vol. %
F	B03112	...8101831	.....Short Term Tube, Hydrogen Sulfide 1/d, 1-200 ppm, 10 ppm
F	B03095	...6733051	.....Short Term Tube, Carbon Monoxide, 2-60 ppm
F	B03113	...8101841	.....Short Term Tube, Benzene, 0.5-10 ppm
F	B03116	...8103581	.....Short Term Tube, Hydrocarbons, 2-24 MG/L
F	B03149	...CH29501	.....Short Term Tube, Hydrochloric Acid, 1-10 ppm
F	B03151	...CH29901	.....Short Term Tube, Carbon Monoxide, 0.3-7% vol.
F	B03144	...CH16631	.....Rubber Cap For Tubes

## KENWOOD COMMUNICATIONS

### A - TK-3360ISK Intrinsically Safe UHF 5-Watt Radio

Kenwood TK-3360ISK Intrinsically Safe 5-Watt Portable Radio with Explosion Proof Li-Ion Battery. Has 16 UHF Channels, QT/DQT, Single Priority/Normal Scan, Orange Emergency/AUX Key, 4-Color LED, 3 PF Keys, Companded Audio (Per CH), VOX Ready, Emergency Call Features, Two-Tone Decode, Single/Two Tone Encode, DTMF Encode/Decode, Voice Channel # Announcement, FleetSync, MDC-1200. Meets MIL SPEC 810 C/D/E/F/ and IP-54/55. Includes Battery, Charger, Manual and Two Year Warranty.

KEY	SKU	MFG#	DESCRIPTION
A	J12955	TK-3360ISK	TK-3360ISK Intrinsically Safe UHF 5-Watt Radio
	J12965	KNB-40LCV	Explosion Proof Battery for TK-3360ISK Radio

## SOUND, LIGHT & WIND METERS

### B - Extech Econo Digital Sound Meter

Measures from 40 to 130dB with an accuracy of 2dB. The digital display offers a 0.1dB resolution and features a fast responding analog bar graph. User can choose A or C weighting. Max Hold captures highest reading. Includes microphone wind screen and four AAA batteries.

### C - Extech EA31 EasyView™ Light Meter

Multiple wide measuring ranges: 20,000Fc in 4 ranges and 20,000Lux in 4. Data hold freezes reading on display Min/Max readings. Complete with built-in stand, remote sensor with protective cover, protective rubber holster and 6 AAA batteries.

### D - Extech SL355 Personal Noise Dosimeter/Datalogger

A compact, lightweight dosimeter designed to test noise exposure and provide noise surveys for compliance with OSHA, MSHA, DOD, ACGIH, and ISO standards. Featuring a USB interface and Windows-compatible software to control setup and retrieve stored events or analyze measurements, this dosimeter provides adjustable Criterion Level, Exchange Rate, and Threshold, and can measure frequency weighted noise exposure and peak sound level simultaneously. Comes with belt clip and clip-on 0.5 in. microphone with 2.6 ft. (0.8-meter) cable, 3 AAA batteries, mini screwdriver and carrying case, PC software, USB cable, user manual.

### E - Extech EN300 5-in-1 Environmental Meter

Measures Humidity, Temperature, Air Velocity, Light and Sound. Rugged 5-in-1 environmental meter with tripod mount and RS-232 PC interface. Data Hold, Min/Max, Auto power off, Low Battery/Overrange indication. Built-in low friction vane wheel improves accuracy of air velocity in ft/min, MPH, m/s, km/h, and Knots. Built-in precision thin-film capacitance humidity sensor for fast response. Built-in thermistor for ambient temperature measurements. Type K input measures temperature to 2372° (1300°C). Utilizes precision photo diode and correction filter for Cosine and color corrected light measurements. Sound Level measurement meets IEC 61672 class 2 using A frequency weighting and fast response time. Complete with Type K thermocouple probe, pouch case, and six 1.5V AAA batteries.

### F - Extech 407744 94dB Sound Calibrator

This 1kHz, 94dB professional sound calibrator for 0.5" or 1.0" microphones calibrates and verifies sound level meter operation. Battery test position with battery status LED indicates if battery is good. Durable die-cast aluminum housing generates a 1kHz sine wave at 94dB to an accuracy of 5% (frequency) and ±0.5dB (94dB). Meets IEC standard 60942 1997-11. Complete with two 9V batteries, carrying case, and screwdriver.

### H - Kestrel 1000 Pocket Wind Meter

Measures wind speed, max wind gust and average wind speed. Pocket wind meter features current wind speed, max wind gust and average wind speed.

KEY	SKU	MFG#	DESCRIPTION
H	B03012	10382-09	Kestrel 1000 Pocket Wind Meter

## Make a Spill Response Plan

Every company where liquids are stored and/or used in significant quantities should have an effective spill response plan to prevent accidents from becoming disasters. The consequences of an incident taking place without a proper plan range from personal injury to operational shut-down to environmental damage to fines. Stocking the appropriate spill response equipment and providing the proper training for all employees is important before a spill response plan can be implemented.

## When Spills Happen

Although Spill response plans are specific to a facility, here are 8 steps that will help you respond effectively:

### 1. Survey the Site

Survey the site focusing on the area. Where they enter, where they are stored, handled and where they leave the site. Note the size of containers being handled, the surfaces, drains and topography, and the type of hazmat being handled (aqueous, oil-based, caustic etc). From this survey, you will be able to determine the size, type and location of spill kits needed.

### 2. Assess the Risk

The moment a spill occurs and throughout the response, risks that may affect human health, environment and property need to be determined. Spill material can be identified from the container label or the Safety Data Sheet (SDS). Responders will need to identify how much has been spilled and the dangers posed to the them and the environment. Once the risks are understood, measures may need to be taken to isolate the spill area (e.g., setting up exclusion zones).

### 3. Select Appropriate PPE

It is crucial that the appropriate PPE is chosen. Consulting the SDS, Chemical Manufacturer's literature or the PPE Manufacturers literature can aid in choosing. If the danger is uncertain and the material is unknown, the worst should be assumed and the highest level of protection used. Many spill kits have the appropriate PPE included but not all do. Be prepared by included PPE in your kits otherwise PPE can be recommended following consultation so that the appropriate protection is chosen.

### 4. Confine the Spill

It's important to make sure that the correct absorbents and size of spill kit are available for the liquids that have been spilled. Universal Absorbents absorb oils, coolants, solvents and water; Oil-Only Absorbents soak up oil not water; Chemical absorbents absorb most acids, caustics or unknown liquids. Spill Kits come in a variety of sizes to accommodate both large and small spills.

Once the correct absorbents or kits have been chosen, limit the spill area by blocking, diverting, or confining the spill. Non-absorbent barriers such as drain guards and spill barriers may be needed to stop the flow before it has a chance to contaminate a water source. Make sure the barrier is placed far enough away from the spill to ensure you can complete the setup but also far away from sensitive areas, such as drains and waterways.

### 5. Stop the Source

This could simply involve turning a container upright or plugging a leak from a damaged drum or container. Once the leak has been stopped the liquids should be transferred from the damaged container to a new one.

### 6. Evaluate and Implement Cleanup

Now it's time to reassess the incident and develop a plan of action for cleanup. Make sure you have enough spill response supplies to deal with the incident. Enough pillows and pads should be used to quickly absorb the spill and should be placed throughout the confined spill area. Once the absorbents are saturated, they may be considered hazardous waste and should be disposed of properly. Make sure you have the appropriate containers available.

### 7. Decontaminate

The site, personnel, and equipment should be decontaminated by removing or neutralizing the hazardous materials that have accumulated during the spill. This may involve removing and disposing of contaminated media, such as soil, that was exposed during the spill incident. PPE may be able to be reused after inspection and cleanup. An effective decontamination area should also be created to ensure the health and safety of emergency responders.

### 8. Complete Required Reports

As soon as possible after the spill, all spill notifications and reports required by local and national guidelines should be completed. Failure to do so can result in severe penalties. Typical reports include medical reports, local council or district reports, Environment Agency reports and company safety reports.

The steps above are simply a guide for companies to follow when responding to spills. They do not constitute a spill response plan in themselves, but together they provide a framework for companies to build a customized plan. Taking these steps will help companies be more prepared and able to respond effectively to unexpected spills.

## 3M CHEMICAL SORBENTS

3M Chemical Sorbents are suitable for absorbing a very wide range of liquids – even aggressive acids and alkalis. They have a high absorption capacity which minimizes the amount of waste for disposal.

### A - Chemical Sorbent 3.5 Gallon Spill Response Pack

Encased in a box for easy storage. Designed to be easily identifiable. Includes 3 mini-booms, ten 11" X 13" pads and disposal bag. Box can be used as a warning sign.

### B - Chemical Sorbent 5 Gallon Folded Spill Kit

This spill kit can be used for containing and sorbing most hazardous chemical spills of up to 5 gallons. It is conformable, making it an excellent solution for storage where space is limited. Compact for easy storage, and ideal for rapid response.

### C - Chemical Sorbent 31 Gallon Folded Spill Kit

Yellow color for easy identification. Handles are molded for easy transportation. Packed in an element-resistant 20 gallon drum with 2 rolls of folded sorbent, 30 pads, 3 disposal bags and ties.

### D - Chemical Sorbent Mini-Boom

Ideal for placing around hazardous liquid spills to help prevent spreading. They work quickly, providing time to ensure proper cleanup while minimizing employee exposure.

### E - Chemical Sorbent Pads

Packaged in convenient dispenser boxes, for storage in confined spaces or mounting on a wall near where spills may occur. May also be used on a work surface in anticipation of a spill or as a wipe.

### F - Chemical Sorbent High Capacity Rolls

Used to cover and sorb large spills or in areas where spills may occur. Can be cut to the desired length and are the most economical way to purchase sorbent.

F	001004	...C-RL38150DD	Chemical Sorbent High Capacity Roll, 76 gal, 38" X 150'

## 3M MAINTENANCE SORBENTS

For leaks and drips of non aggressive liquids which do not require the use of personal protective equipment including oils, coolants, fuels, cutting fluids, aqueous-based liquids and other industrial fluids.

### F - Maintenance Sorbent Pads

This conveniently sized pad allows the user to quickly spread sorbent on and in the path of a spill. It can also be used on a work surface in anticipation of a spill or as a wipe.

### G - Maintenance Sorbent Folded

This high capacity sorbent has a scrim on one side to increase strength and help eliminate linting. It is dispensed from a carrying/dispenser box in the form of a continuous roll with perforations every 16 inches.

### H - Maintenance Sorbent Rolls

Used to cover and sorb large spills or in areas where spills may occur. Can be cut to the desired length and are the most economical way to purchase sorbent.

### I - Maintenance Sorbent Rugs

Ideal for use in walkways near leaky machines, the 3M™ Maintenance Sorbent Rugs are highly durable and tear resistant, withstanding heavy foot-traffic and soaking up liquids without breaking up.

KEY	SKU	MFG#	DESCRIPTION

## 3M PETROLEUM SORBENTS

3M™ Oil Sorbents are hydrophobic (repels water) and are ideal for absorbing oil from areas where water may also be present – exterior locations for example. 3M Oil Sorbents will not disintegrate or sink, even when saturated with oil, and are very easy to dispose of.

### A - Petroleum Sorbent 3.5 Gallon Spill Response Pack

Encased in a box for easy storage. Designed to be easily identifiable, and includes both mini-booms and pad styled sorbents. Ideal for use in laboratories, shipping docks or other areas where hazardous chemicals are shipped, stored or transferred.

Absorbs 3.5 gal of petroleum based liquids. 3 mini-booms, ten 11" X 13" pads and disposal bag. Box can be used as a warning sign.

### B - Petroleum Sorbent 5 Gallon Folded Spill Kit

Compact for easy storage, and ideal for rapid response. Can be squeezed/molded into confined areas such as behind truck seats and in the trunks of cars. Each kit contains 1-petro roll, 5" x 26' and one temporary disposal bag

### C - Petroleum Sorbent 31 Gallon Folded Spill Kit

Can be stored in various locations throughout a facility. Yellow color for easy identification. Handles are molded for easy transportation. Packed in an element-resistant 20 gallon drum with 2 rolls of folded sorbent, 30 pads, 3 disposal bags and ties.

### D - Petroleum Sorbent Pads

Ideal for cleaning up small spills and wiping down contaminated areas. Can be placed directly on machinery or tucking in and around machines to catch and contain leaking lubricants. They can also be used to wipe up contaminated surfaces.

### E - Petroleum Sorbent Mini-Pillow

Pillows are designed with a scrim that encases particulate sorbent material. Pillows are used in areas where more capacity is desired than can easily be achieved using a sorbent pad.

### F - Petroleum Sorbent Boom

For long-term water containment and sorbing of petroleum spills. Unlike non-sorbent containment booms, these booms absorb oil and they contain it. Built-in attachment clips at each end allow booms to be linked together, overlapping and preventing seepage between segments.

### G - Petroleum Sorbent Mini-Boom

Mini-booms are used to encircle spills and to contain leaks. Tube-like shape ideal for placing around equipment for petroleum leaks and to prevent leaks from spreading to adjacent work area.

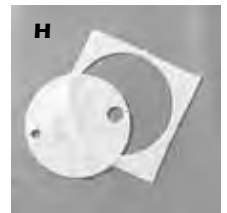

### H - Petroleum Sorbent Rolls

Cover large surfaces or place in tight areas. Can be laid on open waters, shorelines, or discharge streams. Great for lining drawers, covering work benches, under leaking machines inside plants and can be placed on docks and in boats.

### I - Petroleum Sorbent Folded

Four sorbents in one. It can be used as a boom, pillow, pad, or roll, which means fewer products need to be stocked to meet your sorbent needs. The folded sorbent is perforated every 16 inches to allow you to select the length required, so there is less waste.

## SPILLTECH SORBENTS

### Oil-Only Sorbents

Absorbs and holds oils and petroleum based liquids while repelling water.

#### A - Oil-Only Responder™ Pads

Our MeltBlown Pads are a must-have for any on-the-water oil spills. Our mat starts wicking on contact to save time in critical situations. Works equally well on land or water — it even floats when fully saturated.

#### B, C - Oil-Only Commander™ Pads

This mat grips the floor with top and bottom layers of FineFiber. A middle layer of MeltBlown polypropylene ensures high absorbency for even your toughest spills. Perforations allow you to tear pads into different sizes based on your application.

#### D - Oil-Only Commander™ Roll

Rolls are ideal for covering large areas. This mat grips the floor with top and bottom layers of FineFiber. A middle layer of MeltBlown polypropylene ensures high absorbency for even your toughest spills. Perforations allow you to tear pads into different sizes based on your application.

#### E - Oil-Only Socks & Booms

Strong mesh outer sleeve encases a poly sock skin filled with highly-sorbent polypropylene. Filler won't shed and Booms won't sink, even when saturated with oil. A nylon rope and sturdy hardware ensure long-lasting durability and easy retrieval (booms only).

#### F - Oil-Only Protector™ Folded Sweep

Attach a Folded Sweep to your sorbent boom to catch any oily sheen that lingers behind. Folded Sweep floats on water to absorb oily spills and even surface sheen. Sturdy nylon strap securely attaches durable Oil-Only MultiLaminate Mat to your sorbent boom for a complete waterborne cleanup.

### Universal Sorbents

Rapidly absorbs and holds industrial liquids including oils, common chemical liquids and water.

#### G, H - Universal Commander™ Pads

This mat grips the floor with top and bottom layers of FineFiber. A middle layer of MeltBlown polypropylene ensures high absorbency for even your toughest spills.

#### I - Universal Commander™ Roll

Durable FineFiber mat performs all around the workplace. Best used around machinery, in production areas and under assembly lines and conveyors, and in areas with moderate foot traffic. Rolls are ideal for covering large areas.

#### J - Universal Transformer™ Roll

Features a SpunBond top layer that wicks liquids away into the MeltBlown core where it is trapped to keep floors safe and dry. The bottom layer is built of tough strands of FineFiber enabling the Mat to grip floors for safer walking. Perforations allow you to tear pads into different sizes.

#### K - Universal Sock/Net Boom

Strong mesh outer sleeve encases a poly sock skin filled with highly-sorbent polypropylene. Filler won't shed and Booms won't sink, even when saturated with oil. A nylon rope and sturdy hardware ensure long-lasting durability and easy retrieval.

#### L - Universal DrumTop Pads

Absorb drips from leaking pumps and help keep drum storage areas looking good. Pre-cut bung holes make for easy access to drum.

## SPILLTECH SORBENTS

### A - HazMat Commander™ Pads

Durable, quick and efficient response to spills of hazardous or unknown liquids. 3-ply, low-lint construction won't fall apart when responding to spill emergencies. Used most often for aggressive liquid control in chemical or pharmaceutical plants. Color-coded in cautionary yellow for quick identification. 100% polypropylene mat is chemically compatible to most liquids. Perforations allow you to tear pads into different sizes based on your application.

KEY SKU	MFG#	DESCRIPTION
<b>HazMat Commander™ Pads</b>		
A.....	001316...YPF100H.....	Heavy weight, 15"X19", 100/pack, absorbs up to 26.3 gal per pack

### B - Gran-sorb™ Loose Cellulose Absorbent

Recycled Gran-sorb™ Loose Cellulose Absorbent soaks up oils, coolants, solvents, water, fuels and antifreeze. This environmentally friendly, universal absorbent is made of 100% recycled post-consumer paper waste and absorbs its own weight in liquid.

### C - Universal CornCob Loose Absorbent

CornCob is a great all-purpose "workhorse" sorbent that soaks up a variety of fluids. Universal absorbency — takes in oils, coolants, solvents and water. Made from all-natural coarse corn cob — much lighter than clay. Approved by the U.S. Department of Agriculture's (USDA) BioPreferred program, a federal purchasing program for biobased products.

### D, E - Acid Neutralizing Sorbent

Visible color change signifies complete neutralization of acids; absorbs and solidifies liquids. Environmentally friendly. Handy 2-pound shaker or 5 gallon pail makes it easy to transport and dispense Sorbent. Not for use with hydrofluoric acid.

### F - Universal Neutralizing Sorbent

UNS (Universal Neutralizing Sorbent) is the most efficient method to clean up battery acids and bases, even hydrofluoric acid (HF)! Ideal for use on unknown liquids. pH color indicator shows when a safe pH has been achieved. Solidifiers totally encapsulate the liquids preventing further mitigation or reacting with other liquids. Buffered formula prevents "over-dosing" to another hazardous pH level. Non-toxic to humans, animals, marine and plant life. Amphoteric molecules power UNS to neutralize everything.

KEY SKU	MFG#	DESCRIPTION
B.....	001098...CELL30.....	Gran-sorb™ Loose Cellulose Absorbent, 30 lb. bag
C.....	001099...COB40.....	Universal CornCob Loose, 40 lb. bag
D.....	001349...ANS1.....	Acid Neutralizing Sorbent, 32 oz., absorbs up to .2 gal
E.....	001350...ANS5.....	Acid Neutralizing Sorbent, 5 gallon, absorbs up to 2.5 gal
F.....	001351...UNS1.....	Universal Neutralizing Sorbent, 48 oz., absorbs up to .75 gal

### G - ENSORB Super Absorbent

ENSORB is a highly efficient granular absorbent that is lightweight, environmentally friendly, and landfill safe. These properties result in lower shipping and disposal costs, and save you time when trying to clean up a spill. This 1.5 cubic foot bag is surprisingly lightweight making it easy to carry wherever a spill might occur, yet large enough to handle big spills. Absorbs almost any liquid, including water. Not compatible with hydrofluoric acid.

KEY SKU	MFG#	DESCRIPTION
G.....	001179...ENPD225.....	ENSORB Super Absorbent, 1.5 Cubic Ft Bag

## SPILLTECH SPILL KITS

### SpillTech® Oil-Only Spill Kits

Quick Response is Key- Spills happen no matter how hard you try to avoid them. Forklifts knock over drums, tanks are punctured and transporters leak and drip. It is important to have the right sorbents on-hand when these spills occur to eliminate the slip-and-fall hazard. A quick response is the first order of business — and your best weapon — in the fight against spills. SpillTech® Spill Kits are packed with quality SpillTech® Products to help you clean up fast and comply with regulations.

### A-D - Oil-Only Vehicle and Fleet Spill Kits

The Sorbents You Need Are All Inside - Includes a variety of sorbents to handle small spills of oil and other petroleum-based fluids — while repelling water — when on the road; pre-packed in a sturdy bag for security on the go. Self-contained, compact Kit stores sorbent products for easy access as needed for spill control; saves time when quick response is necessary. Small size is ideal for use in fleet vehicles. Soft-sided bag is ideal for grab-and-go convenience. Zipper provides secure closure to protect sorbents from dirt and damage.

### E-I - Oil-Only Spill Kits

The Sorbents You Need Are All Inside- Includes a variety of sorbents to handle spills of oil and other petroleum-based fluids — while repelling water; pre-packed in an X-rated DOT-approved OverPack. Self-contained Kit stores sorbent products for easy access as needed for spill control; saves time when quick response is necessary. Twist-on, double-wall lid with closed-cell gasket provides sealed and secure closure to protect sorbents from moisture, dirt and damage. Rust- and corrosion-free 100% polyethylene is durable to withstand rough handling.

## SPILLTECH SPILL KITS

### A-D - Universal Vehicle and Fleet Spill Kits

The Sorbents You Need Are All Inside - Includes a variety of sorbents to handle smaller spills of oils, coolants, solvents or water that truckers encounter on a regular basis; pre-packed in a handy bag. Self-contained, compact Kit stores sorbent products for easy access as needed for spill control; saves time when quick response is necessary. Small size; easily fits behind the seat of a truck.

### E-K - Universal Spill Kits

The Sorbents You Need Are All Inside- Includes a variety of sorbents to handle spills of oils, coolants, solvents or water; pre-packed in an X-rated DOT-approved OverPack. Self-contained Kit stores sorbent products for easy access as needed for spill control; saves time when quick response is necessary. Twist-on, double-wall lid with closed-cell gasket provides sealed and secure closure to protect sorbents from moisture, dirt and damage. Rust- and corrosion-free 100% polyethylene is durable to withstand rough handling. Easy-to-move Kit can be transported via standard material handling equipment.

### L - HazMat Spill Kit

Includes a variety of sorbents to handle nearly any type of caustic, hazardous or unknown spill — including acids, bases, solvents and chemicals; pre-packed in a UN- and DOT-approved container. Self-contained Kit stores sorbent products for easy access as needed for spill control; saves time when quick response is necessary. Screw-top lid with gasket and built-in torque handle provides sealed and secure closure to protect sorbents from moisture, dirt and damage. Rust- and corrosion-free 100% polyethylene is durable to withstand rough handling.

## SECONDARY CONTAINMENT

### A, B - Ultra-Spill Trays®

Versatile secondary containment for small containers and packages. Countertop spill containment tray safely stores bottles, beakers and other labware. Features built-in pouring spout to conveniently remove spills. Designed for use in research, laboratory, medical, and industrial facilities. All polyethylene construction provides excellent chemical compatibility. Removable grating makes clean up quick and easy.

KEY SKU	MFG#	DESCRIPTION
A.....	O03084 ... 1060	Spill Tray P2, 17" x 12" x 4" (13-1/8" x 8-1/2" usable surface), 5 lbs., 1.8 gallons containment capacity
B.....	O03085 ... 1061	Spill Tray P4, 21" x 17" x 4" (17-1/8" x 13-1/8" usable surface), 9 lbs., 2.9 gallons containment capacity

### C, D, E - Ultra-Spill Decks - Standard

Ultra-Spill Decks are available in 1, 2 and 4-drum modules. Modules are easily connected together with bulkhead fittings to allow a virtually unlimited number of customized configurations. The bulkhead fittings not only "lock" connected modules together, but allow spilled liquid to flow from one module to the next. Ultra-Spill Deck Containment Systems meet EPA and Uniform Fire Code Spill Containment Regulations when assembled in configurations of six (6) drums or more. Meets SPCC and EPA Container Storage Regulation 40 CFR 264.175 Spill Containment Regulations.

KEY SKU	MFG#	DESCRIPTION
C.....	O01044 ... 1321	Ultra-Spill Deck P1 Module, 25-7/8" x 25-7/8" x 5-3/4", 23 lbs., 11 gallons containment capacity, 1,500 lbs. load capacity
D.....	O02014 ... 1086	Ultra-Spill Deck P2 Module, 52" x 25-7/8" x 5-3/4", 40 lbs., 22 gallons containment capacity, 3,000 lbs. load capacity
E.....	O02011 ... 1072	Ultra-Spill Deck P4 Module, 52" x 52" x 5-3/4", 70 lbs., 44 gallons containment capacity, 6,000 lbs. load capacity

### F - Ultra-Spill Decks - Bladder Systems

Same as the Ultra-Spill Deck Standard but with the addition of a 66-gallon bladder system remain to bring into compliance with the EPA and SPCC spill containment regulations.

KEY SKU	MFG#	DESCRIPTION
F.....	O01043 ... 1320	Ultra-Spill Deck P1 Module with bladder, 25-7/8" x 30-1/2" x 5-3/4", 27 lbs., 77 gallons containment capacity, 1,500 lbs. load capacity

### G, H - Ultra-Spill Pallets Economy Models®

- 2-drum and 4-drum spill pallet models available.
- Applications for the all-polyethylene units include satellite waste collection and storage of virgin chemicals.
- Black color helps hide dirt and grime.
- Removable grating - makes clean-up quick and easy.
- Meets SPCC, EPA Container Storage Regulation 40 CFR 264.175 and UFC Spill Containment Regulations.
- THE FIRST RECYCLED SPILL PALLET ON THE MARKET

KEY SKU	MFG#	DESCRIPTION
G.....	O03107 ... 2504	2-Drum Spill Pallet w/o drain, 53" x 29" x 16-1/2", 63 lbs., 66 gallons containment capacity, 1,500 lbs. load capacity
G.....	O02012 ... 2505	2-Drum Spill Pallet with drain, 53" x 29" x 16-1/2", 63 lbs., 66 gallons containment capacity, 1,500 lbs. load capacity
H.....	O02013 ... 1113	4-Drum Spill Pallet with drain, 53" x 53" x 11-3/4", 85 lbs., 66 gallons containment capacity, 3,000 lbs. load capacity

### I - Ultra-Spill Pallet P4®

- Large 66-gallon sump captures leaks and spills from steel or poly drums (4 drum capacity).
- Nestable design allows multiple spill pallets to be shipped (or stored) in a minimal amount of space.
- 100% polyethylene construction – compatible with a broad range of chemicals including acids and corrosives.
- Low-profile (10" height) makes drum handling safer and easier.
- 2-Way forkliftable – provides easy positioning and relocation.
- Meets SPCC, EPA Container Storage Regulation 40 CFR 264.175 and UFC Spill Containment Regulations.

KEY SKU	MFG#	DESCRIPTION
I.....	O02010 ... 1231	4-Drum Spill Pallet with drain, 51" x 51" x 10", 80 lbs., 66 gallons containment capacity, 6,000 lbs. load capacity

Safety Systems is not responsible for errors or omissions. Pictures may not represent advertised item. Check current pricing, availability and promotions at SafetySystemsHawaii.com.

## SECONDARY CONTAINMENT

### A, B - Black Diamond Low Profile Spill Pallet

Black Diamond Low-Profile Pallets keep factory floors spill and worry free. Easy-loading, low-profile construction allows for stand-alone use, or each unit can quickly be connected with others for a complete, customized work area.

Forkliftable, won't rust or corrode, removable grates for easy cleaning & sump access. Attach multiple units with Link Locks. Easy use ramp available. Holds up to two 55-gallon drums.

KEY	SKU	MFG#	DESCRIPTION
A	002020	5117-BD	Black Diamond 2 Drum Low Profile Spill Pallet, 53.5" x 28.5" x 6", 33 lbs., 22 gal containment capacity, 1,000 lbs. load capacity
B	002021	5116-BD	Black Diamond 4 Drum Low Profile Spill Pallet, 53.5" x 53.5" x 6", 61 lbs., 41 gal containment capacity, 2,000 lbs. load capacity

### C - Black Diamond 2 Drum Economy Spill Pallet

The nestable 2-drum spill pallet will minimize storage space while optimizing your work zone, without compromising on quality containment. Unit provides chemical, UV, rust, and corrosion resistance while the textured removable grate keeps drums from sliding and provides an unrestricted, hassle-free sump. Can be stored/shipped with a minimal amount of space loss with a 4" nest height that gives you over 3X more space than the competition!

### D - Black Diamond 4 Drum Economy Spill Pallet

The Black Diamond four drum economy spill pallet is the best secondary spill containment pallet for the price. Molded from chemically compatible polyethylene, this four drum spill pallet is suitable for a variety of secondary spill containment applications.

KEY	SKU	MFG#	DESCRIPTION
C	002022	5222-BD-D	Black Diamond 2 Drum Econo Spill Pallet w/ drain, 51" x 25.75" x 21.5", 38 lbs., 66 gal containment capacity, 1,000 lbs. load capacity
D	002023	5400-BD-D	Black Diamond 4 Drum Econo Spill Pallet w/ drain, 54" x 54" x 11.25", 67 lbs., 66 gal containment capacity, 2,000 lbs. load capacity

### E - 2 Drum Poly-SpillPallet - Nestable

This next generation design was built on the success of the original Poly-Spillpallet 2000, improving upon many of the great features users have experienced for years. The newest iteration provides containment, while the textured, removable grate provides a secure surface for drums to sit on. These pallets also "link" together to form a cohesive, unobtrusive containment area when multiple units are required.

KEY	SKU	MFG#	DESCRIPTION
E	002024	5222-YE-D	2 Drum Poly-SpillPallet w/ drain - Nestable, 51" x 25.75" x 21.5", 53.5 lbs., 66 gal containment capacity, 2,000 lbs. load capacity

### F - 4 Drum Poly-Slim-Line 6000

Four drum spill pallets are the most popular containment solution, so why not choose the most popular model on the market? The Poly-Slim-Line has a low-profile sidewall for easy access to drums, as well as removable grates to easily clean the sump in case of a spill. It meets or exceeds all regulatory requirements and is tough enough to be an outdoor storage solution.

KEY	SKU	MFG#	DESCRIPTION
F	002025	5400-YE-D	4 Drum Poly-Slim-Line 6000 w/ drain, 54" x 54" x 11.25", 84 lbs., 66 gal containment capacity, 6,000 lbs. load capacity

## SECONDARY CONTAINMENT

### A - Ultra-Spill Collector

The Ultra-Spill Collector is a simple yet effective spill containment unit for 55-gallon drums that also provides means for transporting the drums.

- Applications include satellite waste collection, general storage of chemical drums and portable drum pumping stations.
- Rugged design allows Flat Bottom Model and Pallet Jack
- Model 1041 to be safely handled by forklift under top flange.
- 66 gallon containment capacity.

KEY SKU	MFG#	DESCRIPTION
A.....	003081 ...1041	SpillCollector, pallet jack bottom

### B - Pop Up Pools

Pop Up Pools Instantly Expand To Capture Leaks From Saddle Tanks, Pipes, Hydraulic Lines And Many Other Industrial Incidents

- Unique, Patented Design — foam ring rises with level of liquid to raise sidewalls.
- Compact folded size stores efficiently inside spill kits; handles on storage bag can also be used to hang on a wall wear needed.
- Excellent chemical resistance, including diesel fuel, antifreeze, acids, caustics and corrosives.
- Helps minimize environmental damage and related clean-up costs.
- Excellent for response to damaged saddle tanks and cross-over lines, hazmat spills, leaking containers, machinery and piping.
- Other applications include use as a decontamination pool and collection pool for soiled sorbents.

KEY SKU	MFG#	DESCRIPTION
B.....	003117 ...8022	Pop-Up Pool, 20 gallon capacity
B.....	003118 ...8068	Pop-Up Pool, 66 gallon capacity
B.....	003119 ...8102	Pop-Up Pool, 100 gallon capacity
B.....	003120 ...8153	Pop-Up Pool, 150 gallon capacity

### C - Duck Pond

For a convenient, portable drip and leak protection, the Duck Pond is your solution. With 4" foam sidewalls, this unit can handle vehicle traffic, yet is light enough to carry around. It features handles and tie-down straps so that it can be secured to your truck with little effort and placed underneath to catch incidental spills when you aren't in motion.

KEY SKU	MFG#	DESCRIPTION
C.....	002030 ...5622-YE	Duck Pond, 2' x 2' x 4", 7 lbs., 10 gal containment capacity
C.....	002031 ...5644-YE	Duck Pond, 4' x 4' x 4", 14 lbs., 40 gal containment capacity
C.....	002032 ...5656-YE	Duck Pond, 5' x 6' x 4", 22 lbs., 74 gal containment capacity

### D, E - Spill Scooter

Dispensing and collection activities are some of the most susceptible scenarios for a spill to occur. Protect your plant from incidental drips and leaks while retaining your mobility with the ENPAC Spill Scooter. Four caster wheels easily support the drum while making maneuverability a breeze. It also includes a molded pour spout for easy draining.

KEY SKU	MFG#	DESCRIPTION
D.....	003210 ...5205-YE	Spill Scooter, 35" x 35" x 8.75", 22 lbs., 11 gal containment capacity, 500 lbs. load capacity
E.....	003025 ...5206-BK	Spill Scooter T-handle, black

## SECONDARY CONTAINMENT

### Overpacks

Ideal for the storage, transportation, clean up and spill containment of small containers (5 gallons or less). Constructed of 100% blow-molded high density polyethylene with UV inhibitors for superior strength and chemical resistance. Lightweight, nestable and HDPE incinerates completely.

#### A - 20-Gallon Lab Pack w/ Screw-Top Lid

Meets UN Rating HM-181 1H2/X57/S, performance requirements of DOT 49 CFR 173.12(b), and can be used with packing groups I, II, & III of hazardous materials.

CAPACITY: 20 gallons  
WEIGHT: 13 lbs.  
DIMENSIONS: 20.5" x 21.25"  
UN MARKING: 1H2/X57/S

#### B - 65-Gallon Overpack w/ Screw Top Lid

Meets UN Rating HM-181 1H2/X300/S, performance requirements of DOT 49 CFR 173.25, and can be used with packing groups I, II, & III of hazardous materials.

CAPACITY: 65 gallons  
WEIGHT: 45 lbs.  
DIMENSIONS: 31" x 33.5"  
UN MARKING: 1H2/X300/S

#### C - 95-Gallon Overpack w/ Screw Top Lid

Meets UN Rating HM-181 1H2/X300/S, performance requirements of DOT 49 CFR 173.25, and can be used with packing groups I, II, & III of hazardous materials.

CAPACITY: 95 gallons  
WEIGHT: 50 lbs.  
DIMENSIONS: 31" x 41.5"  
UN MARKING: 1H2/X300/S

KEY	SKU	MFG#	DESCRIPTION
A	001112	25-1650	20 gallon Lab Pack w/ screw top lid, yellow
B	001115	25-1661	65 gallon Overpack w/ screw top lid, yellow
C	001116	25-1690	95 gallon Overpack w/ screw top lid, yellow

#### D - Cylinder Storage Cabinet

Tamper proof steel cabinets are painted safety yellow for high visibility and stenciled to indicate flammable storage.

13 gauge expanded metal sides with solid 12 gauge steel top. Padlock latch assembly. Foot plates punched for securing the unit to the floor. Conforms to OSHA Subpart 1910.110 and NFPA 58-79.

KEY	SKU	MFG#	DESCRIPTION
D	003056	CSC4H-KD	Cylinder Storage Cab, 37" h X 32.5" w X 39" D, fits 4
D	003057	CSC8H-KD	Cylinder Storage Cab, 70" h X 32.5" w X 39" D, fits 8
D	003055	CSC2V-KD	Cylinder Storage Cab, 70" h X 65" w X 39" D, vertical

M

N

Q

R

### A-F - Steel Drums

Black steel drums meet UN specifications for storage and shipping. Drum interiors are coated with a corrosion inhibitor for longer life. Open head drums have removable tops with 12-gauge bolt ring closure, sponge rubber gasket, and plated bolt and nut. Tight head (closed head) drums have 2" X .75" bungs.

KEY	SKU	MFG#	DESCRIPTION
<b>Open Head Steel Drums</b>			
A	003002	...64-1001	..... 10 gallon, UN Rating Solid: 1A2/X100/S. Liquid: UN1A2/Y1.2/100
B	003003	...64-2001	..... 20 gallon, UN Rating Solid: 1A2/X187/S. Liquid: UN1A2/Y1.4/100
C	003005	...64-3011	..... 30 gallon, UN Rating Solid: 1A2/X255/S. Liquid: UN1A2/Y1.5/150
D	003007	...64-5A58	..... 55 gallon, UN Rating Liquid: 1A1/X1.2/250

### Closed Head Steel Drums

E	003004	...64-3001	..... 30 gallon, UN Rating Liquid: 1A1/I1.2/280
F	003006	...64-5571	..... 55 gallon, UN Rating Liquid: 1A1/X1.2/250

### G - Manual Drum Pump

Double-action piston manual drum / barrel pumps are self priming, delivering on both the forward and the back stroke. It takes less than 5 cycles to yield a gallon. Fits the 2" bung on 55 or 30 gallon steel drums.

### H - Drum Sling

Lift 55 gallon drums (1000 lbs capacity) from the horizontal position. The 3" X 6" steel lifting ring is designed to handle hooks of all standard overhead lifting systems. Lifting ring also accommodates 4" forklift tines. For use with steel drums only.

### I - Drum Lifter

Drum Lifter is a tong-style lifter which grips the drum chime, allowing a 55-gallon steel drum to be lifted and moved with a forklift truck.

### J - Drum Cradle

Drum Cradle allows for easy moving and secure setup of a 55-gallon drum weighing up to 600 lbs. Loading bar grips drum chime and permits smooth shifting of drum into horizontal position.

### K - Brass Vertical Vent For Petroleum Drums

Provide emergency pressure venting in the event of a fire to avoid drum failure and catastrophic consequences. All safety drum vents automatically relieve pressure between 3 and 8 psi and include a flame arrester to absorb and safely dissipate heat. FM Approved.

### L - Brass Safety Drum Faucet

Features an internal flame arrester that prevents flashback of fire into the drum. Brass construction with a polytetrafluoroethylene (PTFE) seal ensures excellent chemical resistance. FM Approved.

### M - Drum Bung Wrench

Rugged, nonsparking corrosive resistant tool fits any of seven alternate 2" or .75" styles commonly used on drums.

### N - Antistatic Wire

Antistatic Wires prevent sparks from static electricity. Bonding between containers during liquid transfer, and connecting drums to an earth ground are required under Federal and Local Codes.

### O - Drum Cover With Fusible Link

Self-closing Drum Cover turns a drum into a fire-safe receptacle for combustible waste. Simply use a screwdriver and wrench to attach the cover to a drum. For added safety, a replaceable fusible-link assembly melts at 165°F (74°C) to automatically allow spring-loaded cover to slam shut if there is a fire in the drum. Durable steel construction with powder-coat finish provides excellent chemical resistance.

### P - Drum Cover with Vent & Gasket

Complies with NESAM by offering a gasketed, manual latching lid to seal the drum, thereby preventing vapor release. A vent is installed which relieves pressure buildup between 3 and 5 psig at elevated temperatures. Durable steel construction with powder-coat finish provides excellent chemical resistance.

### Q, R - Universal Poly-Drum™ Funnel

Features a wide mouth to prevent drips, leaks, and splashes. Just set the unit on top of a drum and let the unique scallop design do all of the work. Fits both closed-head and open-head 55-gallon drums, 30-gallon drums.

KEY	SKU	MFG#	DESCRIPTION

## STORMWATER MANAGEMENT

### A - Dandy Curb

Protect curb inlets from sludge-filled rainwater. The Dandy Curb is made especially for curb inlets and median inlets without grates. It's designed to handle the worst that sludge-filled rainwater has to offer, filtering out the slowed flow that is easily captured by the Dandy Curb prior to entering the inlet. Specially designed to quickly conform to the shape of the curb.

### B - Ultra-Curb Guards®

Protect curb inlets from sediment-laden stormwater runoff. Quick and easy installation. Modular design — build to any length. Units can be quickly and easily connected to form longer lengths. Wedge-shaped, heavy-duty foam secures unit in curb inlet and woven, polypropylene material provides high flow rate — will not cause ponding or flooding.

### C - Ultra-Spill Berm®

Temporary spill berm seals off spills from the environment, nearby drains and doorways. Standard 10 foot sections can be cut to various lengths. Unique, urethane material “weeps” into small cracks and crevices to seal off liquid flow. Spill Berm is non-absorbing and is easily cleaned for repeated use.

### D - Ultra-Drain Guard®

Stormwater pollution has become a major concern both locally and on a national level. Ultra-Drain Guards remove waste from stormwater before it can become a problem in the water system.

**Oil & Sediment Model** — removes up to .87 gallons of hydrocarbons as well as dirt, sand and other contaminants.

**Oil & Sediment Plus Model** — increases oil and grease absorption by .51 gallons, offering a total capacity of 1.38 gallons of hydrocarbon removal.

**Trash & Debris Model** — designed to catch larger items and floatables like leaves, cigarette butts and paper goods.

### E - Ultra-Drain Seals®

Stop spills from going down the drain. Reinforced mesh is “sandwiched” between layers of polyurethane - increases durability and resistance to tearing. Unique, urethane construction allows the pad to deform and seal off most drains — temporarily “seals” to any smooth surface. Resists oil, water and most aggressive chemicals, cleans with soap and water.

Due to the nature of softer urethane, the physical properties of these products may change with exposure to certain environmental conditions like temperature, humidity and UV radiation. Regular inspection of the stored product should be done to ensure it is in a usable state.

### F - Ultra-Pipe Socks®

Control the flow of sediment and oil out of headwall and other types of pipes. Also use in pond applications where vertical pipes extend above the water surface, and preventing sediment in-flow during high water events is required.

KEY	SKU	MFG#	DESCRIPTION

Safety Systems is not responsible for errors or omissions. Pictures may not represent advertised item. Check current pricing, availability and promotions at SafetySystemsHawaii.com.

## STORMWATER, SEDIMENT & EROSION CONTROL

### A - Ultra-Gravel Bags®

Heavy-duty bags provide quick and easy sediment and erosion control.

- Gravel bags are a basic BMP (Best Management Practice) used to meet regulatory requirements for stormwater and erosion control.
- The sizes are industry standard and allow the user to fill them up with as much or as little gravel (not included) as the application requires.
- Rugged material and construction can, in most instances, withstand being driven-over, a typical problem with lesser bags.

KEY SKU	MFG#	DESCRIPTION
A ..... 004050	...9782	.....Ultra-Gravel Bag, 11"X48", green
A ..... 004061	...9783	.....Ultra-Gravel Bag, 11"X96", green

### B-E - Sandbags

Used as safe weights on barricades and other equipment or to redirect storm and debris flows away from property and equipment.

1. Sandbags will not seal out water.
2. Sandbags deteriorate when exposed for several months to continued wetting and drying. If placed too early, they may not be effective when needed.

KEY SKU	MFG#	DESCRIPTION
B ..... 004017	...1426TMS	.....Sandbag, burlap empty sandbag w/ cord, tan, 14" x 26"

### F - Filtrex® EnviroSoxx® Sediment Control

Our Sox<sup>TM</sup> technology can use natural additives to remove pollutants that hurt the environment. EnviroSoxx<sup>®</sup> is a three dimensional tubular device designed for stormwater management, sediment & erosion control just like other Sox<sup>x</sup> products, but it also incorporates a diverse portfolio of natural additives for pollutant removal applications. Whether it is bacteria, hydrocarbons, heavy metals, nutrients or suspended solids, our engineering team can create the optimal Sox<sup>x</sup> configuration to guarantee the success of your project. Contact our team for detailed information about pollutant removal performance and testing results.

- 50% more design capacity and flow through than silt fence.
- NO Trenching, NO Soil Disturbance.
- Easy removal and little disposal costs.
- 8x less maintenance than silt fence (USEPA).
- Exceeds federal standards.
- Reduced ecological footprint: recycled, biobased, locally manufactured, indigenous materials, carbon neutral.
- Can be Installed by trained, certified professionals.

KEY SKU	MFG#	DESCRIPTION

F ..... 004116	.....	.....Filtrex Sediment Control, 8" x 160'

### Filtrex Federal and State Approvals

Filtrex products meet or exceed all specifications. In fact, Filtrex research was used to develop most of the specifications for compost filter sock used by Federal, State and local agencies.

#### FEDERAL APPROVALS

Environmental Protection Agency

American Association of State Highway & Transportation Officials

The U.S. Army Corps of Engineers

Natural Resources Conservation Service

#### STATE APPROVALS

HAWAII

HDOT: Approved

## STORMWATER, SEDIMENT & EROSION CONTROL

### A - Straw Wattles

Straw Wattles are tubular products consisting of the finest available straw fibers encased in durable netting. The straw fibers are certified weed seed free. SCI Straw Wattles are dense by nature, thus they pool water. Wattles may be placed across channel bottoms, but their primary use is on hill slopes to break up slope lengths and slow overland flow. Straw Wattles can also be used as a replacement for silt fence.

When installed, Straw Wattles prevent off-site sediment runoff from construction areas, reduce slope length on hill sides, protect storm drain inlets, function as an alternative to silt fence for perimeter sediment control and also help promote vegetation after forest fires. SCI Straw Wattles don't impede wildlife movement and are aesthetically pleasing. They also install more easily and are more adaptable to slope applications and contour installations.

KEY	SKU	MFG#	DESCRIPTION
A	001104	530009120	Straw Wattle, 9" X 12'

### B - Textile Silt Fence & Dust Screens

Nonwoven construction fabrics are an ideal solution for use in the construction industry. For example, lightweight nonwovens may be used in asphalt overlay applications. When correctly installed, using paving fabric between the old asphalt and the new overlay extends the life of the asphalt by reducing cracking. A moisture barrier is also created resulting in subgrade protection from water intrusion.

This fabric is also used as a silt fence or dust screen around construction sites, to lessen flying dust and dirt when the ground is disturbed by heavy equipment. It reduces noise transmitted to neighboring properties, and blocks unsightly views.

## TESTING & HAZMAT ABATEMENT

### A - Foster® 32-22 Protektor® Sealant

Penetrates deeply into the asbestos containing materials, and then dries to form a firm, lightweight, damage-resistant surface. Foster® Protektor® Sealant has been extensively tested by Battelle Columbus Laboratories and is on the list of products deemed acceptable by the U.S. Environmental Protection Agency. Foster® Protektor® Sealant is produced under the classification and follow-up service of Underwriters Laboratories, Inc. It meets NFPA 90A and 90B 25/50 requirements

### B - ABC Fiberspray Encapsulant

Asbestos Binding Compound (ABC) encapsulant in a CFC-free "airless-spray" minimizes asbestos fiber release and is applied in any position, even upside down inside glovebags. Encapsulate small hard-to-access areas quickly and easily without bulky spray equipment.

### C - Tac Spray Adhesive

For hanging construction polyethylene to create safe work areas in building enclosures.

### D - Heavy Duty Adhesive Zipper

7' self adhesive zipper. Makes an easy doorway through plastic barriers. 3" wide all-cloth construction for maximum durability. Includes: 2 seven foot Zippers, 2 Flap Hooks and our patented Zipper Knife™ sheeting cutter.

### F, G - Disposal Bags

Polyethylene disposal bags are used for asbestos and lead abatement. Bags available with printed warning or plain for use with warning labels.

### H - Clear Polyethylene Sheeting

Polyethylene sheeting for drop cloths, floor covering, tarps, and to seal off rooms where remediation is taking place. Has high-resistance to tearing. Resistant to acids, alkalis and most chemicals. Full compliance with both VA and FHA specifications

## SAFETY CANS

### A-H - Type I Safety Cans

Compliant and economical Justrite Type I safety cans reduce fire risks and make everyday use of flammables easier and safer. Protection features include a 3.5" (88mm) long chemical resistant stainless steel flame arrester that stops flashback ignition, provides faster liquid flow, and offers exceptional durability. The self-venting, self-closing leakproof lid prevents ruptures from pressure build-up and controls vapors and spills. Warning label includes an extra large ID zone for user labeling of contents to avoid misuse, reduce the potential for incompatible mixtures, or may be used to designate department or individual owner. Made of galvanized steel with a tough powder paint finish, can capacities 1 gallon (4L) and above have ample headspace to accommodate oil additives.

100% leak tested. 10 year warranty. Meets OSHA and NFPA. FM approved, UL/ULC listed, Carb compliant, TÜV certified.

KEY	SKU	MFG#	DESCRIPTION

H	008027	7150200	Type I Safety Can, yellow, no hose, 5 gallon

### I-M - Type II AccuFlow Safety Cans

AccuFlow™ Type II Safety Cans provide fast, precision pouring when handling flammable liquids. Patented, innovative manifold automatically vents for smooth, slug-free liquid flow, while the comfortable Safe-Squeeze® trigger offers maximum control when pouring. A 9" (229mm) flexible metal hose ensures offers targeted pouring into small openings. Fill port with ergonomically designed handle makes filling easier than ever.

Features include a long lasting, stainless steel flame arrester that dissipates heat to prevent flashback ignition and a gasketed, self-closing leak tight lid that automatically vents to guard against rupture or explosion. Warning label with extra large ID zone permits user to identify contents, department location, or individual user name. All can sizes have extra capacity for mixing in additives for two cycle engines.

100% leak tested. 10 year warranty. Meets OSHA and NFPA. FM approved, UL/ULC listed, Carb compliant, TÜV certified.

### N-O - D.O.T. Compliant AccuFlow™ Safety Cans

Compliant with Department of Transportation regulations for over-the-road transport of flammables. To prevent vapor release and spills during transport, a hold-down bracket is tethered to the spout and equipped with a big, easy-to-grasp tightening screw. When used for the transport of fuel, the fusible link bracket is easy to engage and guards against content spillage and vapor release as required by D.O.T. The fusible link melts at 165°F (74°C) to prevent dangerous pressure build-up at elevated temperatures. AccuFlow's™ exclusive Safe-Squeeze® trigger mechanism opens the piston actuated spout and vacuum release valve for accurate pouring. A release of the handle instantly closes the valve to guard against spills.

Built-in safety features include internal flame arresters to dissipate heat and prevent flashback ignition; leak tight, self-closing lid; automatic venting between 3 and 5 psig (0.2 and 0.35 bar); and heavy roll bars to protect the spout.

Meets D.O.T. and HM-181 requirements. United Nations Approved... UN Marking: 1A1/Y1.2/100. Accepted container under CARB.

## SAFETY CONTAINERS AND STORAGE

### A - Oily Waste Cans

OSHA Compliant Oily Waste Cans for rags and cloths soaked with solvents, thinners, linseed oil, combustible adhesives and other flammable liquids present a serious fire risk when improperly discarded. The specially designed lid opens no more than 60 degrees and stays closed when not in use, isolating contents from fire sources and limiting oxygen so spontaneous combustion risk is virtually eliminated. Round construction and elevated bottom encourage circulation of air around can to disperse heat and reduce moisture buildup and rusting.

### B - Drip Can

Drip Can catches up to one gallon of liquid and top removes for quick cleaning. Made of 24-gauge premium coated steel with a durable powder coat paint finish, can is easily portable with handy side handles.

### C, D, E - Smoker Cease-Fire™ Cigarette Butt Receptacles

Smokers Cease-Fire innovative self-extinguishing design safely collects unsightly cigarette butts and reduces the risk of fire. Made of flame-retardant, sturdy polyethylene, this low maintenance smoker's friend won't rust, dent, or crack. Tie-down notches offer security and greater stability under severe weather conditions. In high humidity environments, unique "drip-lip" internal construction prevents tar condensation from escaping. Factory Mutual fire tested and approved!

KEY SKU	MFG#	DESCRIPTION

### F-K - Sure-Grip® Safety Cabinets

Protect workers, reduce fire risks, and improve productivity by storing flammable fuels and chemicals in code-compliant safety cabinets. Designed to meet OSHA and NFPA standards, Sure-Grip® EX cabinets are constructed of sturdy 18-gauge (1-mm) thick double-wall, welded steel with 1-1/2" (38-mm) of insulating air space for fire resistance. High-performance, self-latching doors close easily and securely for maximum protection under fire conditions. Fail-safe closing mechanism ensures three-point stainless steel bullet latching system works every time.

For added security, U-Loc™ handle comes with a cylinder lock and key set or accepts an optional padlock. Haz-Alert™ reflective warning labels are highly visible under fire conditions or during power outages when illuminated with a flashlight

The Uniform Fire Code 79.201 is mandatory in the State of Hawaii, and Justrite cabinets also meet these requirements. They shut and latch automatically when a fusible link melts at 165°F under fire conditions. Unique, concealed closing mechanism offers "obstruction-free" access to contents.

# Master Lock®

### A - ProSeries® 6230KA Solid Body Padlock

- ProSeries® Padlocks are designed for Commercial/Industrial applications.
- 2-1/2" (64mm) round wide solid steel body
  - Chrome rustproofing provides longer life
  - 1-1/8" (29mm) tall, 7/16" (11mm) hardened boron alloy shackle for superior cut resistance
  - Dual ball bearing locking mechanism resists pulling and prying
  - High security, rekeyable 5-pin cylinder with spool pins is virtually impossible to pick

### B - ProSeries® 6270 Hidden Shackle Padlock

- ProSeries® Padlocks are designed for Commercial/Industrial applications.
- Lock body conceals shackle - defeats attempts to pry and cut
  - 2-7/8" (73mm) wide hardened solid steel body withstands forcible attacks
  - 3/8" (9mm) diameter boron alloy shackle
  - High security, rekeyable 6-pin cylinder with spool pins is virtually impossible to pick

### C - ProSeries® 6321 Shrouded Padlock

- ProSeries® Padlocks are designed for Commercial/Industrial applications.
- Iron shroud protects shackle from bolt cutters
  - 2-1/8" (54mm) heavy steel body withstands physical attack
  - 3/4" (19mm) tall, 5/16" (8mm) diameter hardened boron alloy shackle for superior cut resistance
  - Dual ball locking mechanism resists pulling and prying
  - High security, rekeyable 5-pin cylinder with spool pins is virtually impossible to pick

### D, E, F - ProSeries® Resettable Combination Locks

ProSeries® resettable combination locks are designed for Commercial/Industrial applications. Set-your-own 4-digit combination for convenience and security; 10,000 possible combinations, no reset tool required. Large ergonomic dials with exclusive blind feature permit operation with gloves, in low light or complete darkness. Deadlocking mechanism protects against prying, shimmying and rap attacks. Shackle seal and dial dust cover protect internal components and dials for trouble-free operation.

KEY	SKU	MFG#	DESCRIPTION

F	L01013	1178D	Pro Series Resettable Combination Lock, die cast body, 1-1/16" clearance

### G - Laminated Padlock No. 7

- 1-1/8" (29mm) wide laminated steel body for superior strength
- 9/16" (14mm) tall, 3/16" (5mm) diameter standard steel shackle
- Dual locking levers provide pry resistance
- Non-rekeyable, 4-pin W7 cylinder helps prevent picking

### H-L - Commercial Grade Laminated Padlocks

Commercial grade padlock features superior protection from drilling and prying. Dual locking levers provide extra pry resistance. Non-rekeyable.

#### H - Style No. 1

- 1-3/4" (44mm) wide laminated steel body for superior strength
- 15/16" (24mm) tall, 5/16" (8mm) diameter hardened steel shackle for superior cut resistance
- Non-rekeyable, 4-pin W1 cylinder helps prevent picking

#### I - Style No. 3

- 1-9/16" (40mm) wide laminated steel body for superior strength
- 3/4" (19mm) tall, 9/32" (7mm) diameter hardened steel shackle for superior cut resistance
- Non-rekeyable, 4-pin W1 cylinder helps prevent picking

#### J - Style No. 5

- 2" (51mm) wide laminated steel body for superior strength
- 1" (25mm) tall, 3/8" (10mm) diameter hardened steel shackle for superior cut resistance
- Non-rekeyable, 4-pin W1 cylinder helps prevent picking. Also available keyed alike

#### K - Style No. 15

- 2-1/2" (64mm) wide laminated steel body for superior strength
- 1-1/4" (32mm) hardened boron alloy shackle for superior cut resistance
- Non-rekeyable, 5-pin W15 cylinder helps prevent picking

#### L - Style No. 17

- 2" (51mm) wide laminated steel body for superior strength
- 1" (25mm) tall, 7/16" (11mm) diameter hardened boron alloy shackle for superior cut resistance
- Non-rekeyable, 5-pin W17 cylinder helps prevent picking

Safety Systems is not responsible for errors or omissions. Pictures may not represent advertised item. Check current pricing, availability and promotions at SafetySystemsHawaii.com.

**Keyed Alike Option** - All padlock cylinders keyed to same key. One key opens all locks in set.

**Keyed Different Option** - All padlock cylinders keyed to different keys.

**Master Keyed Option** - Each cylinder is operated by a unique key, as well as a key which opens the entire group (by Special Order).

## Master Lock

### A - Wide Resettable Combination Brass Padlock

The Master Lock set-your-own 4-digit combination padlock provides convenience and security. Reset to any of 10,000 personalized combination. 2in (51mm) wide solid brass case for strength and weatherability. 1in (25mm) tall, 5/16in (8mm) diameter hardened steel shackle for superior cut resistance.

### B, C - Aluminum Safety Padlock

1-9/16" wide red aluminum body, 1/4" shackle w/ 1-1/16" or 3" clearance. Baked on powder-coated finish stays bright. Ideal for corrosive and tough environments. High visibility color plus high security. Keyed different 5-pin tumbler cylinder.

### D, E - Steel Safety Padlock

Master Lock No. 3 reinforced laminated steel padlock with red bumper. Ideal when locks may be subjected to physical abuse. 1-9/16" wide lock body 9/32" shackle with 3/4" or 2" high clearance. Keyed different 4-pin tumbler cylinder.

### F, G - Zenex™ Safety Padlock

1-1/2" wide 1-3/4" tall thermoplastic Zenex™ red body, shackle w/ 1-1/2" or 3" clearance. Designed by Master Lock exclusively for Lockout/Tagout applications. Durable, lightweight, non-conductive Zenex lock body. Customize with permanent, write-on labels. Compliance with OSHA "one employee, one lock, one key" directive. High security, reserved for safety cylinder. Key retaining-ensures that padlock is not left unlocked. Keyed different 6-pin tumbler cylinder.

### H-M - Anodized Aluminum Safety Locks

Safety Lock-Out system for the industrial environment. American Lock solid body aluminum padlocks have an anodized finish for durability. The lightweight, corrosion & spark resistant padlock bodies have case-hardened, triple-plated, chrome shackles and cover plates, and double ball locking mechanisms.

Series 1106/1107 have 1.5"X.75" body, .25" diameter shackle, and a 5-pin lock mechanism & two keys.

### N - Solid Steel Rekeyable Pin Tumbler Padlock

Features a 2in (51mm) wide hardened, chrome plated solid steel body to resist cutting, sawing and corrosion and a 2in (51mm) tall, 3/8in (10mm) diameter hardened boron alloy shackle for superior cut resistance. Easy to service with a 5-pin APTC12 rekeyable cylinder, this padlock is ideal for securing gates, sheds, truck/van doors and industrial machinery.

### O - Python Adjustable Locking Cables

Patented locking mechanism holds the cable tight at any position for infinite locking positions. Interchangeable cables for application flexibility. Rekeyable cylinders for keyed alike convenience. 100% steel braided cable. Weather tough and rust resistant lock body and cable. Vinyl sleeve and lock body bumper prevents scratching.

### P, Q - Lock Lubricant

Keep your locks operating like new in any environment – snow, rain, freezing temperatures, marine, extreme heat. Ideal for padlocks, door hardware, automotive, marine, and multipurpose applications. Provides a long lasting protective shield against dust, dirt, salt, and moisture to prevent rust, corrosion, and loosens stuck parts.

## F - Latch Tight™ Portable Group Lock Box

Master Lock Latch Tight™ Portable Red Group Lock Box features a durable powder-coated red finish with an easy-to-grip, ergonomic handle. Accommodates up to 12 workers, or more with use of lockout hasps, lock box secures each lockout point on a piece of equipment with just one designated lock. Box captures keys from those lockout points by placing them in the lock box. Each authorized employee locks one personal safety lock onto the box and removes them only when their work is complete. Exclusive Latch Tight™ feature ensures that keys cannot be accessed until the last lock is removed.

KEY SKU	MFG#	DESCRIPTION

A

### A - Electrical Lockout Station S1850E410

The Master Lock No. S1850E410 Lockout Station, Electrical, is a large capacity station with a durable construction to ensure long life in manufacturing facilities. Designed for departmental lockout needs, the station includes 8 hanger clips that each hold 2 safety padlocks or lockout hasps, and holes along the bottom made for optional peg hook hangers to hang bulky devices. The station includes a cover to keep out dust and grime. It can be locked using a combination padlock to limit access to authorized employees.

The station measures 23.5 in wide x 15.5 in tall x 4.5 in deep (596mm x 393mm x 114mm) and comes equipped with (6) 410RED Zenex™ Thermoplastic Padlocks, (1) 420 Steel Safety Hasp, (1) 427 Snap-On Safety Hasp, (1) S2005 Compact Plug Prong Lockout, (1) 488 Plug Cover, (2) 491B Circuit Breaker Lockouts, (2) 493B Circuit Breaker Lockouts, (2) 496B Wall Switch Covers, and (2) 497A (12-pack) Tags.

B

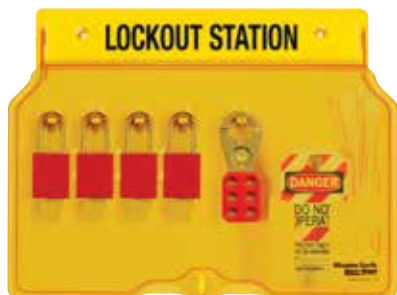

### B - 10-Lock Padlock Station 1483BP1106

The Master Lock No. 1483BP1106 Safety Lockout Covered Padlock Station includes ten American Lock No. A1106RED anodized aluminum keyed different padlocks. Padlock station features integrated, one-piece molded construction to eliminate loose parts and resilient polycarbonate material to provide twice the heat resistance and quadruple the impact strength of typical stations. The exclusive translucent cover protects contents and is lockable to prevent loss of valuable products.

The station measures 15-1/2in high x 22in wide x 1-3/4in deep (393mm x 558mm x 44mm) and comes equipped with (10) A1106RED keyed different aluminum padlocks, (2) 420 hasps, and (2) bags (12/pack) of 497A Danger Do Not Operate lockout tags.

C

### B - 4-Lock Padlock Station 1482BP1106

The Master Lock No. 1482BP1106 Safety Lockout Covered Padlock Station includes four American Lock No. A1106RED anodized aluminum keyed different padlocks. Padlock station features integrated, one-piece molded construction to eliminate loose parts and resilient polycarbonate material to provide twice the heat resistance and quadruple the impact strength of typical stations. The exclusive translucent cover protects contents and is lockable to prevent loss of valuable products.

The station measures 12-1/4in high x 16in wide x 1-3/4in deep (311mm x 406mm x 44mm) and comes equipped with (4) A1106RED keyed different aluminum padlocks, (2) 420 hasps, and (1) bag (12/pack) of 497A Danger Do Not Operate lockout tags.

D

### D - Personal Lockout Kit 1457E410KA

The Master Lock No. 1457E410KA Personal Lockout Kit, Electrical, features an upgraded safety lockout toolbox to keep important lockout devices and padlocks together. Ideal for individual workers. Padlocks are supplied keyed alike for added worker convenience.

Personal Lockout Kit contains (1) S1017 ultra-durable safety carry case containing, (3) 410RED Zenex™ padlocks, keyed alike, (1) 7C5RED circuit breaker padlock, (1) 420 lockout hasp, (1) 427 labeled snap-on red lockout hasp, (2) 491B Grip Tight™ circuit breaker lockout devices for tall or wide toggles, (3) 493B Grip Tight™ circuit breaker lockout devices for standard single and double size toggles, (1) 496B universal wall switch lockout device, and (1) Bag (12/Pack) of 497A Danger Do Not Operate lockout tags.

## Professional Lockout Services

Expert guidance and industry-leading experience to help facilities meet safety goals.

# Master Lock

## Professional Lockout Services

*Master Lock Professional Lockout Services can take a holistic approach to build a customized, best-in-class lockout management system or focus on the select elements that will make significant improvements in a facility's safety program*

### Assessment

Our safety experts conduct in-depth, on-site assessments to evaluate the current state of a lockout/tagout program and identify methods of improvement. The recommendations from the assessment can be used to design a best-in-class lockout/tagout program that achieves heightened safety, practicality and efficiency for personnel. Some of the on-site assessments include:

- Alternative Methods to Lockout — Keep workers safe, when full lockout is not practical
- Confined Space Hazards — Pre-plan for confined space entries
- Machine Guarding — Establish frontline protection to keep employees safe
- Rapid Access to Lockout Equipment — Minimize wasted time by maximizing access to lockout equipment

### Written Program

A team of safety consultants will develop a company-wide written lockout program that takes an efficient approach to meet and exceed compliance requirements.

### Written Procedures

Our technicians complete an in-depth analysis of equipment and energy sources to create detailed lockout isolation procedures.

### Tiered Training

We empower organizations to create a safer work environment. Achieving a compliant lockout management system requires ongoing training. Our safety certified staff will come on-site and lead all or any of the hands-on courses requested. We offer the following training courses:

- Authorized Personnel
- Affected Personnel
- Lockout Procedure Creation
- Lockout Practitioner Certification
- Lockout Leadership
- Alternative Methods to Lockout
- Confined Space Hazards
- Rapid Access to Lockout Equipment

### Proper Equipment

Our safety experts can provide recommendations on the necessary safety padlocks, lockout devices, and identification tags for a best-in-class lockout management system.

### Access

Experience has shown it should take less than 15 seconds to access lockout equipment. Keeping the necessary equipment close and easily accessible by authorized personnel saves time, eliminates excuses, and helps prevent damages and injuries. We provide the assessment and training to improve access to lockout equipment within a facility.

### Audits

Our safety experts offer on-site review of lockout procedures and programs to help ensure compliance requirements are met. We deliver a summary report which includes best-practice recommendations and corrective actions.

Estimates for services will be provided once the scope of work has been identified.

**For more information about Master Lock Professional Lockout Services, speak with a Master Lock Sales Representative or visit [www.masterlock.com/PLoS](http://www.masterlock.com/PLoS).**

**Call us here at Safety Systems and Signs Hawaii at 808-847-4017 for more information and/or to schedule a consultation.**

### A - Lockout Center Stand-Out Sign

Our Stand-Out Signs are constructed of .125 acrylic and project from the wall to allow full 180 degree visibility. Measures 7.75"H x 14.875"W x 6.25" projection.

### B - Lockout Procedures Wall Chart

Lockout Procedures Wall Chart with 10 steps to Lockout Compliance. Size is 22" x 26", made of .020 tear-resistant vinyl.

## Master Lock

### A - Universal Wall Switch Lockout 496B

Locks out both toggle and Decora paddle wall switches. Hinges open for unobstructed normal operation of switch. Includes English/Spanish and English/French labels.

### B - Grip Tight™ Circuit Breaker Lockout

Grips tight with simple thumb turn and clamping handle, offers superior holding power. Master Locks exclusive, patent pending design accommodates a wide range of circuit breaker designs. Accepts all Master Lock and American Lock safety padlocks and all lockout hasp diameters

### C - Universal Miniature Circuit Breaker Lockout

Locks out virtually all miniature ISO/DIN circuit breakers throughout the world. Fits on breakers toggle and can be tightened using screwdriver. Works with all Master Lock and American Lock safety padlocks and hasps.

### D - 120/277V Clamp-On Breaker Lockout

Clamp-on breaker lockouts are easy to install using patented thumbscrew design - no screwdrivers needed! Simply tighten lockout securely onto switch tongue, pull cover over thumbscrew and lock cover to prevent clamp from being loosened. Accepts lock shackles up to 9/32" in diameter. Made of rugged polypropylene and impact modified nylon. Cleats are included (#65404) for use with breakers with long, sliding switch throws.

### E - 120V Snap-On Breaker Lockout

Designed for 120V breakers that have holes in the switch tongue, our snap-on breaker lockout is a "snap" to install! Dual cavities accommodate different size switch tongues and device accepts lock shackles up to 9/32" in diameter.

### F - Universal Multi-Pole Breaker Lockouts

Universal multi-pole breaker lockout is made of durable impact-modified nylon and is compatible with most two or three pole breakers with a tie-bar such as GE ITE, Sylvania, Challenger, Bryant, Westinghouse and General Switch Company. Simply tighten thumbscrew to clamp lockout securely over tie bar, then insert lock to prevent clamp from being loosened.

### G - C-SAFE® Circuit Breaker Single Pole Lockout CB-01

Rigid plastic C-Safe circuit breaker single pole lockout for a switch breaker with a recessed hole.

### I - Rotating Electrical Plug Lockouts

Device surrounds the electrical plug and protect against accidental reconnection. The unique, patented rotating design allows for easier installation in confined space applications. The tough, lightweight Zenex™ Thermoplastic body withstands chemicals and performs effectively in extreme conditions. Includes high-visibility permanent safety labels. For 120 volt plugs and many 240 volt plugs.

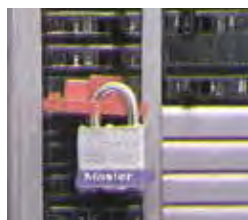

### J - Oversized Plug & Hoist Control Cover 453L

Large nylon Oversized Plug & Control Cover features a 7in (178mm) diameter x 17in (432mm) tall flexible and durable rip-stop nylon bag that fits easily in safety tool boxes. Effectively locks out odd size and large electrical connectors and hoist controls and accepts up to 6 padlocks or hasps. Insert PVC tubing to block access to hoist control buttons.

## Honeywell NORTH

### H - Compact Plug Prong Lockout

Compact Plug Prong Lockout features a compact design to lock out smaller plugs easily and effectively. Patented plug lockout grips prongs of 110-120 volt plugs and fits two prong plugs with and without ground. Accepts 3/16in (5mm), 1/4in (6mm) and 9/32in (7mm) shackle diameters to use with your existing lockout padlocks or lockout hasps.

Safety Systems is not responsible for errors or omissions. Pictures may not represent advertised item. Check current pricing, availability and promotions at SafetySystemsHawaii.com.

## Master Lock

### A-F - Rotating Gate Valve Lockouts

These gate valve lockout devices feature outward/inward rotation to allow for easier installation and storage and the body surrounds the valve operating handle to protect against accidental valve opening. The unique, patented rotating design allows for easier installation in confined space applications. Tough, lightweight, dielectric Zenex™ Thermoplastic body withstands chemicals and performs effectively in extreme conditions. Includes high-visibility permanent safety labels.

### G - Seal Tight™ Handle-Off Ball Valve Lockout

The Master Lock No. 468L Seal Tight™ Handle-Off Ball Valve Lockout Device features a universal fit to effectively lock out all valves from 3/8in (10mm) to 4in (102mm). The patented innovative design eliminates the risk of valve reactivation with removal of the handle and works in virtually all valve installations, including insulated pipes. Constructed of durable PVC polyester fabric and HDPE plastic, the lightweight, flexible material makes device easy to carry and compact storage in safety toolboxes.

KEY	SKU	MFG#	DESCRIPTION

A, B, C, D, E, F

### H - Steering Wheel Lockout Covers

Provides visual deterrence during vehicle maintenance. The cover can be locked in place with a 421 hasp and safety padlock. For added security, use the S806 adjustable locking cable around steering wheel and foot pedals. Trilingual warning (English, French and Spanish) notifies employees not to start or move vehicle.

### I - Steering Wheel Lock 238DAT

Features a 4 hook design. Easy to Install and fits steering wheels up to 13-1/2" in diameter. Multiple steering wheel cuts cannot defeat.

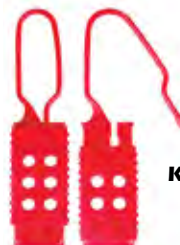

### J - Aluminum Lockout Hasp

Ideal for lockout by multiple workers at each lockout point, the hasp keeps equipment inoperative while repairs or adjustments are made. Control cannot be turned on until last worker's padlock is removed from hasp. Can hold up to six padlocks.

### K - Nylon Non-Conductive Lockout Hasp

Features spark proof, nylon material and can accommodate up to six padlocks. Ideal for lockout by multiple workers at each lockout point. Control cannot be turned on until last worker's padlock is removed from hasp.

## VOLTAGE DETECTION & ACCESSORIES

# Honeywell

## SALISBURY

### A - Voltage Detector Kit - Self Testing Audio/Visual

Self-Testing Voltage Detectors are used to verify live or de-energized conductors. These testers may be used with rubber insulating gloves or hot sticks using the splined universal end fitting. Testers indicate the presence of voltage with an extra bright LED light and a distinctive audible signal. It is recommended that the tester be moved closer to the conductor until a warning is indicated, or it touches the conductor, apparatus, or elbow test point. Each tester requires three "C" batteries. Includes voltage detector, case, shotgun adapter and batteries.

### B - NEMA Pads and Pothead Stud

Offset NEMA Pad Short, Tin-Plated Copper Alloy, OAL: 5.14, Shank:1, Grade: 5

### C - Ball and Socket Grounding System

Socket Clamp, made from bronze alloy, has a socket size of 1" (25.4mm) and a threaded bore boss of 5/8"- 11 UNC. The socket clamp has an integral cable support with strain relief sleeve.

### D - Basic Electrician Roll Insulated Tool Kit

9 Pcs. Includes:

- Slotted Screwdrivers: 3/16 X 4", 3/16 X 6", 1/4 X 6"
- Phillips Screwdrivers: #1 X 3", #2 X 4"
- 7" Needle Nose Plier
- 7-1/2" Diagonal Cutting Plier
- 9" Lin Esman's Plier
- Combination Stripper / Crimper Plier
- In A Roll

### E - Insulated 6' Rescue Hook

Salisbury Insulated Rescue Hook is an invaluable tool for any workplace used to withdraw an injured worker out of a hazardous area. Confined spaces, in vaults, or just near electrical cabinets and switch gear are some of the places where this tool is a must. Featuring a foam filled, fiberglass reinforced handle for superior electrical insulation and a coated heat treated body hook with an 18" opening. Other lengths are available as a special order. Contact us with your requirements. Handle meets the requirements of ASTM F711.

### F - SALCOR Straight Line Hose

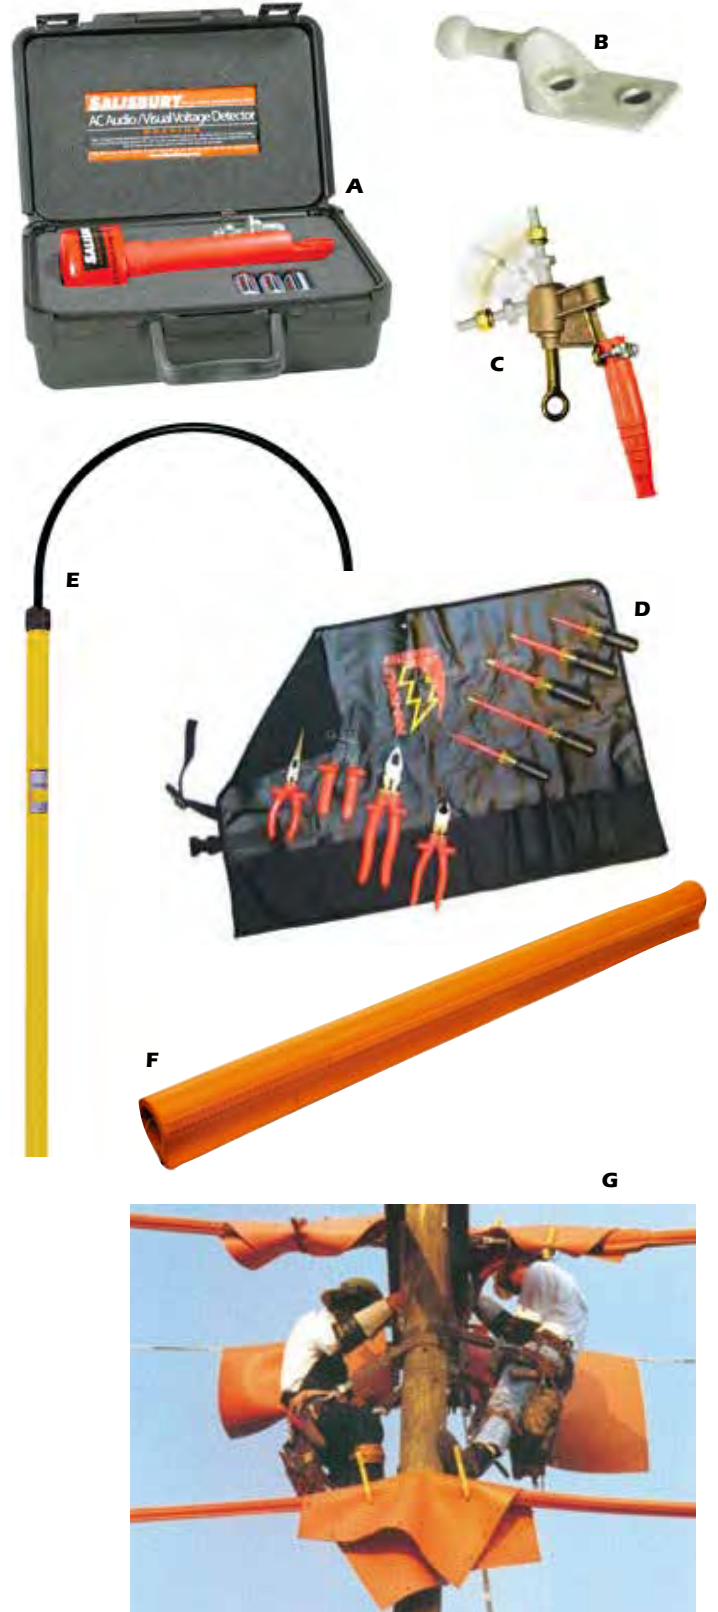

Straight Style SALCOR line hose is available in orange Type II SALCOR®. SALCOR remains flexible even in cold weather and it is not damaged by ozone or ultraviolet rays. Each line hose has Salisbury's RIB-GRIP Locking System. Rated at 26.5kV, Class 3.1.5" I.D. rated at 26.5kV, Class 3. ASTM Class 3, Type II, 1.5" x 6", 9.5 lbs.

### G - Type II SALCOR® Blanket

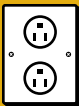

Salisbury's Type II SALCOR® Blankets are of the highest quality available today. They will hold their color and flexibility, and will maintain physical properties and dielectric strength, required by ASTM standard, in the field longer than any other blanket on the market.

The Orange SALCOR is manufactured from a well researched blend of prime EPDM, which is naturally resistant to Ozone. This blend of Prime EPDM offers superb flexibility; similar to that of a Type I natural rubber blanket. This ensures the Salisbury Type II SALCOR blanket will pass the ASTM D 1048 Ozone Tests both, Method A and Method B.

## ELECTRICAL TESTERS

### G, H - AC Testing Sensor

Use model 3115 for determining the presence or absence of 50-1000 volts AC in insulated wires, wall receptacles, fuses, junction boxes, switches, and any other voltage carrying electrical systems. CAT III (UL #28YF) and CAT IV (TUV). "AAA" alkaline batteries included. Lifetime Warranty. Manufactured and packaged in the USA.

Use model 3215 for determining the presence or absence of 24-90 volts AC in an electrical or electronic systems such as irrigation systems, industrial control wiring, HVAC low voltage wiring, yard lighting, other low AC systems.

KEY	SKU	MFG#	DESCRIPTION
G.....	E04005	3115	.....AC Testing Sensor, detects 50-1000 volts AC
H.....	E04006	3215	.....Low AC Locator, detects 24-90 volts AC

### A - Extech DV25: Dual-Range AC Voltage Detector with Flashlight

Pocket size Non-Contact Voltage Detector with two selectable ranges. Model DV25 is a dual range NCV detector that combines two models into one. Low range measures down to 24 Volt and the high range measures up to 1000 Volt. Audible and visual indication, rugged double molded housing, and a bright built-in LED flashlight. Complete with 2 x AAA batteries.

### B - Extech ET10: GFCI Receptacle Tester

Works with GFCI circuits. Tests for faulty wiring in 3-wire receptacles: Correct, Open Ground, Open Neutral, Open Hot, Hot/Ground Reverse, Hot/Neutral Reverse. Lights indicate circuit condition. Standard North American 3-prong plug.

### C - Extech CT70: GFCI and AC Circuit Analyzer

Circuit and wiring issues can introduce shock hazards (from grounding issues) and can compromise performance of machinery and equipment (from poor ground impedance, lack of sufficient voltage under load and/or high ground-to-neutral voltage). The CT70 is a GFCI and AC Circuit Analyzer which covers outlet load handling and outlet tester functions. Complete with AC test cord (standard North American 3-prong plug).

### D - Extech EX210T: TrueRMS Digital Multimeter with IR

The EX210T is a TrueRMS Digital Multimeter with IR. The meter auto ranges and has a 2000 count large LCD display. Measures AC/DC voltage and Current, Resistance and Temperature (IR). Its True RMS measurements make this meter more accurate and reliable when measuring distorted waveforms and its built in IR thermometer has a 4:1 distance to target ratio, visually aided by the built in laser pointer. This meter has a CAT III 600V safety rating and is complete with a year warranty, test leads and a 9V battery.

### E - Extech MA410T: 400A AC True RMS Clamp Meter + NCV

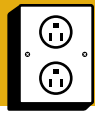

The Extech MA410T is a 400 amp True RMS AC clamp meter capable of safely and efficiently measuring current without test leads. True RMS provides more accurate AC readings when measuring distorted waveforms. The integrated NCV detector enables users to quickly check for the presence of live wires before testing. Digital multimeter functions on the MA410T include: AC/DC voltage (600 volts); resistance (40 MΩ); capacitance (100 μF); frequency (10 kHz); temperature (-4 to 1400 degrees F/-20 to 760 degrees C); duty cycle; diode; and continuity. The MA410T also provides a 1.2-inch (30mm) jaw opening size for conductors up to 350 MCM; 4000 count backlit display; and data hold; relative mode; and auto power off functions. Comes with test leads, general purpose Type K bead wire temperature probe, two AAA batteries, carrying case, and user manual.

### F - FLIR VP50: Non-Contact Voltage Detector + Worklight

The FLIR VP50 is a tough, CAT IV-rated Non-Contact Voltage Detector featuring a combination of alerts - tactile vibration and red LED alarms, a powerful LED flashlight, and versatile voltage sensitivities. The VP50 can reliably detect voltage in the latest tamper proof safety outlets, electrical systems in large industrial facilities, residential low voltage installations, and systems located behind obstructions. The low-profile probe tip gets the sensor closer to electrical sources.

### Temporary Electrical Power- Keeping it Safe and Time Effective!

To insure a safe and time efficient worksite, the following simple rules should be considered:

- Use tested and certified temporary power components that have been designed, built, and tested to established construction and safety standards.
- Use only tested and certified flexible cordsets of appropriate gauge and length.
- Use only single length cordsets; do not daisy chain cords.
- Avoid the use of multiple circuit power taps if possible. Power taps increase the likelihood of overloaded circuits and create excessive cord tangles and clutter.
- Once a day or once per shift, manually test each GFCI circuit breaker or receptacle to insure the proper function of this circuit protective device.
- Route flexible temporary power cordsets around or away from areas of high foot traffic or where equipment is being moved frequently to prevent tripping of worksite personnel or physical damage to the flexible cordsets. Where cordsets must cross these areas, cable protectors are recommended.

### A - XG2 Series In-Line GFCI *Special Order*

Indoor/outdoor use: provides increased resistance to impact, heat, UV exposure, and is water tight. New and improved TEST and RESET buttons are easier to operate and provide enhanced tactile feel and audible feedback. Redesigned circuit conforms to the NEW UL 943 standard for safety governing GFCIs. A more stringent voltage surge test ensures the GFCI can handle higher surge current. Corrosion test ensures greater immunity to damp, corrosive environments. Enhanced immunity to conducted radio frequency noise reduces nuisance trips.

## GFCI'S AND CORD SETS

### A, B - Inline GFCI Cord Adapters

OSHA Compliant, Jobsite Tested. Here's your solution for GFCI protection in tight areas. All In-line GFCI units have rain-proof protection. Units have test/reset buttons and are U.L. Listed as Class A personal protection.

### C - Duplex GFCI Extension Cords

OSHA Compliant, Jobsite Tested. Attachable GFCI Plugs can be attached to any power tool or cord set up to 12/3 wire to make it meet OSHA specs for GFCI protection.

### D - Right Angle Plug Style GFCI

OSHA Compliant, Jobsite Tested. Attachable GFCI Plugs can be attached to any power tool or cord set up to 12/3 wire to make it meet OSHA specs for GFCI protection.

### E-H - Adapters, Extension Cords

Heavy-Duty Rubber, Industrial Duty. Cordsets have federal specification (WC596) grade plug and connectors. Excellent resistance to oil and moisture. High flexibility, excellent abrasion resistance.

### I - Power Flex U-Ground Extension Cords

Power Flex Cords have a temperature rating of -31°. Water resistant, low Profile, tapered, snag-free ends. Added webbed strain relief to prevent cracking and separations.

### J - Glow Flex U-Ground Extension Cords

Cords have a clear molded connector with indicator light to confirm your cord has power. Glow Flex Cords have a temperature rating of -31°. Water resistant, low Profile, tapered, snag-free ends. Added webbed strain relief to prevent cracking and separations.

### K - Power Flew Twist Lock Extension Cord

Power Flex Cords have a temperature rating of -31°. Water resistant, low Profile, tapered, snag-free ends. Added webbed strain relief to prevent cracking and separations.

### L - Heavy-Duty Rubber Extension Cords

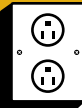

Heavy-Duty Rubber, Industrial Duty Extension Cord. Cordsets have federal specification (WC596) grade plug and connectors. Excellent resistance to oil and moisture. High flexibility, excellent abrasion resistance.

### M - Professional Power Strips

14/3 SJWT metal power strip w/ on/off switch, 15amp breaker and 1050 joules of surge protection.

## A,B - U-Ground Wiring Device

Straight blade plug or connector, 15 amperes, 125 volts, NEMA Configuration 5-15P, Marenco models.

## C, D - Twist Lock Wiring Device

Locking plug or connector, 20 amperes, 125 volts, single-phase, 2-pole, 3-wire, configuration NEMA L5-20P, Marenco model 205P.

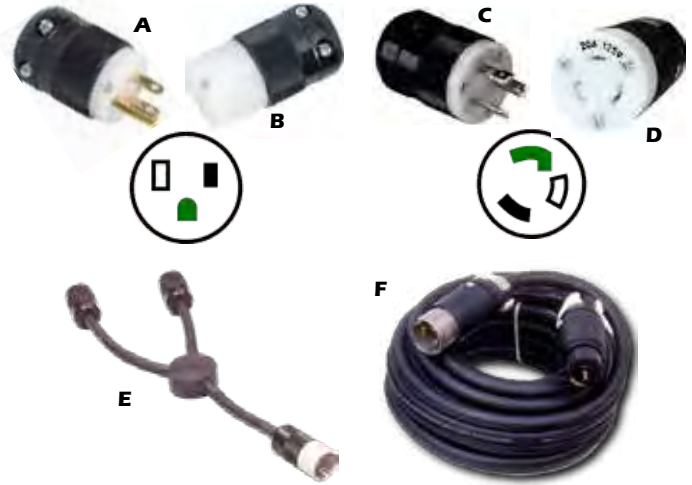

## E - Temporary Power Y Adapter Cord

This Y adapter is used to split a single line into two different directions utilizing the same power source. 50Amp, 4-wire, 6 guage, SOW rubber jacket, (1) 6365H Hubbell plug, (2) 6364H Hubbell connectors.

## F - Temporary Power Cords

These 6/3 – 8/1 guage type wire cords w/ Hubbell devices have a STOW rubber style jacket and are used as a transition cord from the primary power source into single phase and 3-phase power distribution units.

## G - Temporary Power Box

CEP's Portable Power Distribution Centers (Temp Power Boxes) have been engineered utilizing the latest in GFCI technology, providing the user with the highest level of electrical safety. These power distribution centers are protected by a GFCI module giving the user not only ground fault protection, but also open neutral and reverse phasing protection. They are listed to UL1640 standards for portable power distribution and designed to stand up to the toughest of jobsite conditions. Each unit has been carefully assembled to provide the ultimate in electrical safety as well as meeting current OSHA standards.

**Model 6506GU** - Outlet Description: 6 Outlet U-Ground; Input: 50A 125V/250V (CS6375); Output: 50A 125V/250V (CS6369) Feedthrough; Receptacles: 1 ea. L6-30R, 6ea. 5-20R GFCI; Volts: 125/250V; Powder Coated 16 ga. Steel Construction.

## H - "Barricade" Wall Mount Temporary Power Box

*Special Order Item*

Engineered using the latest in GFCI Technology, providing the user with the highest level of Electrical Safety! They are UL Listed for Outdoor Use and designed to mount off the floor away from the water, dust, mud and other harmful environmental elements.

**6 Outlet Wall Mount TL Box w/ Frame.** Heavy –Duty Impact and Flame Resistance. GFCI Protection – Open Neutral, Reverse Phasing, & 240V Shut-Off technology with indicator light. Meets the current OSHA standards for Electrical Safety, and can help meet their latest standard to reduce tripping hazards.

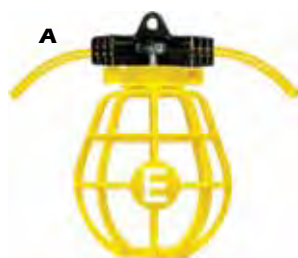

**Model 8806GUF** - Outlet Description: 6 Outlet U-Ground; Input: 50A 125V/250V (CS6375); Output: 50A 125V/250V (CS6369); Receptacles: 6ea. 20A 125V (L5-20R), 1 ea. 30A 250V (L6-30R); 16 ga. Powder Coated and Painted Steel.

**Model 8806GF** - Outlet Description: 6 Outlet Twist Lock; Input: 50A 125V/250V (CS6375); Output: 50A 125V/250V (CS6369); Receptacles: 6ea. 20A 125V (L5-20R), 1 ea. 30A 250V (L6-30R); 16 ga. Powder Coated and Painted Steel.

## TEMPORARY LIGHTING

### A - Construct-O-Lite®

2-wire contractor grade code compliant molded construction lights. Comply with UL, OSHA, NEC and Canadian Code C22.2 regulations with these molded construction grade 2 wire string lighting sets. cUL Listed ( 14/2 awg model for US - 12/2 awg model for Canada). Designed for applications that require rapid set-up/tear-down in an economy Construction lighting. 100 ft. Special Order.

KEY SKU	MFG#	DESCRIPTION
A..... E02004.....	142100	Construct-O-Lite, 14/2 SJTW cord, 10 lamps, 100 ft

### B - Standard String Lights

Pre assembled plastic guards with sockets spaced 10 feet apart. Rated for 150 watt bulbs. Molded sockets, plugs & connectors to protect against moisture and outdoor approved for wet locations. High impact resistant for easy transportation & storage.

KEY SKU	MFG#	DESCRIPTION
B..... E03020.....	96122	100' 12/3 SJTW 20A 125V Twist Lock Light String w/ Plastic Guards
B..... E03029.....	95122	100' 12/3 STW 20A 125V Twist Lock Light String w/ Plastic Guards
B..... E03045.....	9501	Plastic Light Guard Replacement for Standard String Lights, 1/ea

### C - 10-Watt LED Work Light

This Work Light utilizes a high-powered Epistar LED for 10-watts of bright light to get the job done. Stands alone or can be mounted on the optional #8715 Metal Stand. Recharges so it can be placed where ever it is needed. Weatherproof.

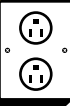

- Rechargeable lithium ion battery
- 1 10-watt Epistar LED
- Angle adjustable light
- Weather resistant
- IP65 Rated
- On/Off switch
- Optional Metal Stand holds up to 2 Work Lights

Includes: 120V AC wall charger, 12V DC vehicle charger, Stand-alone base

### D - Work Light Metal Stand

The Metal Stand is made from durable aluminum with a collapsible tripod base and telescoping height adjustment from 2 to 5 feet. The mounting bracket will accommodate up to 2 Work Lights (#8711 or #8712). All connectors and adjustments can be made without tools.

KEY SKU	MFG#	DESCRIPTION
C..... E09032.....	8711	10-Watt LED Work Light
D..... E09033.....	8715	Work Light Metal Stand

## TEMPORARY LIGHTING

### A, B - Wobblelight® 36" & Wobblelight Jr®

The self righting, portable construction/industrial light is virtually indestructible and ideal for applications requiring temporary high-output lighting.

Features:

- Counter-weighted self-righting design
- Floating shock system protects bulb from impact
- Low heat output, no hot surfaces that can cause burns
- Convenience receptacle on 36" models for connecting units in series
- 360° lighting adjustable to 180° with optional reflector
- High-impact thermoplastic housing and lens
- No set-up — plugs into 120VAC supply

KEY	SKU	MFG#	DESCRIPTION
A	E03010	111203	Wobblelight Jr 27" 85W fluorescent, 5,000 lumens, 15-25 ft. light range
A	E03030	111908	85W fluorescent replacement bulb
B	E03044	111302	Wobblelight 36" 500W halogen, 8,000 lumens, 15-25 ft. light range, special order
B	E03046	111904	500W halogen replacement bulb
B	E03009	111102	Wobblelight 36" 175W metal halide, 15,000 lumens, 25-45 ft. light range
B	E03031	111901	175W metal halide replacement bulb
B	E03008	111104	Wobblelight 36" 400W metal halide, 40,000 lumens, 50-110 ft. light range
B	E03032	111903	400W metal halide replacement bulb

### C - Hang-A-Light®

Portable, bright and durable, the Hang-A-Light® is a ceiling-mounted light that utilizes pulse start technology which meets the new guidelines for metal halide energy efficiency.

- Modifiable for 120 / 208 / 240 / 277V
- Heavy-gauge steel construction
- Spring-loaded steel safety hook for fast installation
- Welded wire safety cage with bottom guard
- Lights 60-foot radius when mounted 15 feet above work area
- NEC / OSHA compliant
- Integrated power cord

KEY	SKU	MFG#	DESCRIPTION
C	E03013	111400PS	400W Hang-A-Light, 42,000 lumens, 50-100 ft. light range, special order

### D - Hang-A-Light® LED

The LED re-usable temporary task light emits more light and uses less energy than the traditional string lights. Now you can "go green" with durability and performance. These high-output temporary lighting fixture produce 360° of light with low-cost operation. The integrated 5 foot power cord and spring loaded, steel safety hook make for fast installation. The heavy gauge steel safety case has an added bottom guard for protection and durability. With a built in electrical receptacle and no heavy external ballast, the Hang-A-Light® LED series takes portability and ease of use to a new level.

KEY	SKU	MFG#	DESCRIPTION
D	E03054	111080LED	80W LED Hang-A-Light, 8,600 lumens, 40 ft. light range

### E - Magnetic Hang-A-Light®

The Hang-A-Light 84 watt Fluorescent Magnetic Light is an all-around utility light that is energy efficient and waterproof. Extremely durable and light weight, this light can be moved easily and is cool to the touch. The heavy-duty, earth magnet on the back makes this light ideal for mounting in industrial workshops, tanks or to anything metal. The attached eye hooks make hanging this light simple. Excellent for confined spaces. cUL Listed for wet locations.

KEY	SKU	MFG#	DESCRIPTION
E	E03011	111084	84W fluorescent, 6,400 lumens, 20-30 ft. lighting range

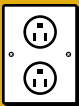

### F - NightSearcher® Galaxy Pro

The Galaxy Pro is a high-powered LED delivering 3,500 lumens on high and 1,750 lumens on low. Featuring a 90° pivoting head allowing for a bright white floodlight beam and an even spread of light, an on/off switch, three modes: high, low and dimming as well as optional magnetic feet. The Galaxy Pro can also be mounted to an optional tripod for optimal light positioning. The Lithium-Ion battery provides power for 4 hours on high and 8 hours on low and requires no maintenance

KEY	SKU	MFG#	DESCRIPTION
F	E03055	514100	20W LED Galaxy Pro, 3,500 lumens, 49 ft. light range

Safety Systems is not responsible for errors or omissions. Pictures may not represent advertised item. Check current pricing, availability and promotions at SafetySystemsHawaii.com.

### A, B - LED Stubby Lights

High Intensity LED Work Light on a stubby base. Utilizes 50 watt LED diode and reflectors to broaden the light beam.

### C, D - LED Portable Work Lights

51 watt LED panel light, 3 panel design with rotating wings for 360 degree directional lighting. Low heat output and very low energy consumption, draws 0.47 amps on a 120 volt circuit. Impact resistant. ETL and CETL Listed for outdoor use. No additional guard required for wet location work. Impact Resistant for durability in harsh environments. 180 degree tilt to provide illumination on various levels. Very low heat output allows for use in tight work areas.

### E, F - High Output LED Light

50W High Output LED Light head with heavy-duty all steel construction - no plastic parts. 5,500 lumens per light head. Very low heat draw .47 amp draw per light lead. 50,000hr rated diodes. ETL Listed for wet locations.

### G - Economy Quartz Work Light

3-stage mast extends 6'. U-Ground cord, convenient cord wrap, includes rough service quartz halogen bulb. Fully weatherproof and UL Listed for use in wet locations.

### H, I - Metal Halide Portable Light

125 volt, 10,000 hour metal halide bulb, elliptical shaped 1000W metal halide fixture mounted in a heavy duty steel yoke. 1-1/4" 12 guage steel tube frames, powder coated safety yellow. Head assemblies are easily removable.

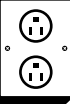

KEY SKU	MFG#	DESCRIPTION
A.....E03016	5250	LED Stubby Light, 50W, 3,800 Lumens H.D.

## REMOTE AREA LIGHTING SYSTEMS

### A - 9440 RALS with Bluetooth

The 9440 now offers Bluetooth® remote activation with variable light control, three pre-set power levels, battery level indication and comes equipped with a lithium ion rechargeable battery. The 9440 moves fast to light up ravines, confined spaces, riverbanks, anyplace generator lights can't go. Deployed, the mast extends 7 feet (2.1 meters) high, shining light over low obstructions encountered by traditional lantern style lights. With a 125 degree beam spread and up to 5300 lumens, your entire work area will have the light you need for a safe and efficient operation. The 9440 is able to run directly from wall power if needed and can be left on charge indefinitely which makes for an invaluable emergency preparedness tool.

The 9440 is maintenance free, using super tough LED lamp modules and a lithium ion battery for up to 8 hours of continuous light. Adjustable carrying strap included. RoHS and CE Compliant.

### B - 9490 RALS with Bluetooth

Built Pelican tough. Maintenance free LED array with 50,000 hour life expectancy. Full time battery level indication with low level flashing indicator. Deployable mast with 340 degree rotation. Multiple deployment positions. Convenient shoulder strap. Quick release / Hot swappable battery design with 12 volt power supply. Free Bluetooth iPhone™ App Controls Multiple Units. Up to 6,000 lumens (calculated). Up to 24 hrs of run time. Intelligent Control (allows or various light output levels).

### C, D - 9430 RALS

The 9430 Remote Area Lighting System is the perfect unit for hard to reach places. At just 22 lbs., the 9430 is easily transported up stairs or ladders. Its compact size and fully extendable mast with 360 degree rotating light head make tight spaces easily accessible. Dual power outputs illuminate a second optional head making the 9430 an adaptable and expandable illumination solution. 3000 lumens of brightness, up to 15 hours of burntime and maintenance free LED Array with life expectancy of 50,000 hours.

### E - 9410L LED Lantern, Rechargeable

At less than 3 pounds and 1203 lumens, the new 9410L LED Lantern packs the power without the weight. Four LEDs, powered by the latest generation Lithium-Ion batteries illuminate a distance of 475 yards (435 meters). And it's loaded with innovative technology and features. Approved to NFPA (National Fire Protection Association) 1901.

## PELICAN LED FLASHLIGHTS

### LIMITED LIFETIME WARRANTY

Pelican Products, Inc. ("Pelican") guarantees its flashlights and headlamps for a lifetime against breakage or defects in workmanship. This guarantee does not cover the lamp or batteries.

Pelican will either repair or replace any defective product, at our sole option. Certain products are available for a limited time only. If a claim is made involving one of these products, Pelican reserves the right to replace a broken or defective product with a standard Pelican product of comparable size and quality if no comparable limited edition product is available at the time of a claim. TO THE EXTENT PERMITTED BY LAW, THIS SHALL BE THE SOLE AND EXCLUSIVE REMEDY OF THE PURCHASER.

Give us a call at 808-847-4017 for more information.

### A - 2220 VB3™ LED Flashlight

The VB3 2220 LED Flashlight has dual super bright white LEDs that may never need replacing and provide over 100 hours of battery burn time. Light turns on when the head is flipped up. It also pivots to a full 180° for aiming light where you need it. The built-in clip attaches to surfaces up to 1/2" thick. 2 CR2032 3V Lithium coin cells are included.

CERTIFICATIONS: Class I, Division 1 / IECEx ib

### B - 1930 L1™ LED Flashlight

The polycarbonate body is resistant to chemicals, water and corrosion. The convenient tail switch for constant on/momentary is easy to operate. The L1 is perfect for close quarter use. Packaged with 4 LR 44 1.5V alkaline coin cells, a break-a-way safety lanyard, and colored lens discs to preserve night vision. This handy flashlight offers a lot for its size.

CERTIFICATIONS: Class I, Division 1 / Class I, Division 2 / Class II, Division 2 / IECEx ia

### C - 1830 L4™ LED Flashlight

The L4 is a handy, unbelievably bright LED flashlight that's powered by 3 AAAA alkaline cells (included). A tail button switch provides quick on/off or momentary activation. The clip is virtually unbreakable because it is molded to the Xenoy body as one unit. And because it is molded out of polycarbonate resin, it won't cause sparks and is safe to use in electrical environments.

CERTIFICATIONS: Class I, Division 1 / Class I, Division 2

### D - 1910 Small Light LED Flashlight

The ultra compact aluminum 1910 flashlight is designed with style and function in mind. Using only a single AAA battery, this bright LED light creates a clean white beam. The high and low light output modes make for an efficient lighting tool; the perfect personal light.

KEY SKU	MFG#	DESCRIPTION
A ..... E07080.....	2220C BLK.....	2220 VB3 LED Flashlight, black, 9 lumens
B ..... E07069.....	1930C BLK.....	1930 L1 LED Flashlight, black, 12 lumens

D ..... E07242.....	1910-RED.....	1910 Small LED Flashlight, red, 106 lumens

### E - 1920 Small Light LED Flashlight

The very compact aluminum 1920 flashlight is designed with size and extreme performance in mind. Using readily available AAA batteries, this bright LED light creates a clean white beam. Long run times combined with high and low light output modes, make for an efficient lighting tool; the perfect personal light.

### F - 2010 SabreLite™ Recoil LED Flashlight

Recoil LED Technology produces a white collimated beam that's as bright as an incandescent flashlight and provides 10,000 hours of lamp life and extended battery burn time. The rugged, light weight ABS resin body is submersible and a twist on/off lens shroud eliminates accidental discharge. It is powered by 3 C alkaline cells.

CERTIFICATIONS: Class I, Division 1 / Class II, Division 1 / Class III, Division 1 / IECEx ia

### G - 2410 StealthLite™ LED Flashlight

Same features as the StealthLite™ 2400 Flashlight, but with the LED module that produces a true, bright collimated LED beam. The 2410 is corrosion proof, resistant to extreme temperatures, and submersible. It is powered by 4 AA alkaline cells (included). For hands-free operation, attach it to your hard hat with our optional helmet light holder.

CERTIFICATIONS: Class I, Division 1 / Class II, Division 1 / Class III, Division 1 / IECEx ia

### H - 3330 PM6™ LED Flashlight

The PM6 3330 LED is made of light weight Xenoy polymer that's corrosion proof, resistant to extreme temperatures, and extremely strong. It uses a 1 watt LED and is powered by 2 CR123 lithium cells (included). A black oxide coated steel clip is built in and the one-handed tail switch activates the 3330 on, for constant light or momentary blink.

## HEADLAMPS

### A - 2720 Headlamp with Gesture Activation Control

Gesture Activation Control, Variable Light Output, Dual Red LED Night Vision. Gloved hands, wet hands or oily hands are not an issue when using the 2720 with Gesture Activation Control technology. Turn on the light with a wave of a hand. Additional features include: Low level red light that preserves night vision, for nighttime applications. Signaling red (S.O.S) beacon light. Optical 4x magnification allows for a wide or penetrating beam. Including a variable light output from 100%-10%.

### B - 2740 Headlamp

Compact, reliable headlight for harsh conditions - the 2740 LED Headlamp features 3 LEDs, two white and one red. The red LED is very useful for preserving your night vision and the dual white LEDs produce up to 66 lumens of brilliant white light. A low level mode provides extended run time of 21 hours. Designed with weather resistant casings which also allows for fast and easy battery change.

### C - 2750 Headlamp

Bright, compact headlamp for harsh conditions with a night vision friendly red LED - the high output 2750 LED Headlight provides up to 193 lumens of illumination, flashing, and low light modes. The 2750 also preserves night vision with the use of a red LED. Designed with weather resistant casings which also allows for fast and easy battery change.

### D - 2760 Headlamp

It's the one headlamp that does it all. Tough, lightweight, super bright and loaded with multiple lighting features that include high, medium, low, flashing, downcast, and night vision red LED modes. With all these options you can light up distant trails or the map in your hands. Designed for fast and easy battery changing with a weather resistant casing (full-time battery level indicator included).

### E - 2780 Headlamp

Own the night with Main, Downcast, Flashing, and Main/Downcast Combo LED Modes. The Main LED illuminates everything in front, the Downcast LED illuminates everything below and, for an expanded view, switch to Main/Downcast Combo LED Mode. With 430 lumens of bright LED light, you'll conquer technical terrain without stumbling over dark, unseen obstacles. Plus, the flashing mode can be used as a beacon.

- 4 AA Batteries Included
- 430 High Intensity Lumens
- Downcast LED Technology
- Includes 3 interchangeable Covers (Black, White, Photoluminescent)
- IPX7 Waterproof
- Pivoting Head For Directional Beam (60°)

## SAFETY HEADLAMPS

A

B

C

E

D

### A - 2745 Headlamp

Pelican™ safety approved headlamps are designed for use in hazardous environments. It is not only Class I Div 1 approved but also is ultra compact and lightweight. Equipped with three LEDs, it produces up to 33 lumens and provides up to 40 hours of run time and offers multiple modes (high, low, flashing).

CERTIFICATIONS: Class I, Division 1 / IECEx ia

### B - 2765 Headlamp

Equipped with three uniquely positioned LEDs, It produces up to 105 lumens and provides up to 9 hours and 30 minutes of run time. The Pelican 2765 offers multiple modes (high, low, downcast, flashing). Additionally, the Pelican 2765 offers a full time battery level indicator. You will now be able to monitor your battery level throughout the life of the batteries.

CERTIFICATIONS: Class I, Division 1 / IECEx ia

### C - HeadsUp Lite™ 2610 LED Headlamp

A dual mode button activates all 3 LEDs for full brightness, or just 1 to extend battery life. The adjustable cloth strap fits comfortably and securely on your head, while the rubber strap grips tightly to hard hats and helmets. Both are included, as well as 3 AAA alkaline cells.

CERTIFICATIONS: Class I, Division 1 / IECEx ia

### D - HeadsUp Lite™ 2620 Headlamp

A hybrid LED/Xenon hands-free flashlight. The 2620 gives you the option of using the Xenon lamp for intense bright light or 3 LEDs to conserve battery life. The multi-angle pivoting head allows you to aim light where you need it. A rubber strap for hard hat use and adjustable cloth strap for bare head use are both included. Powered by 3 AAA alkaline cells (included)

CERTIFICATIONS: Class I, Division 1

### E - HeadsUp Lite™ 2690 LED Headlamp

With 74 lumens of LED light, 11 hours of battery run time and weighing in at 4.1 ounces, it's brighter, more efficient, compact and lighter than other headlamps in its class. It's abundant safety approvals (Class I II III Division 1) allow for use in some of the most volatile of environments. The no-nonsense rotary bezel switch is easy to operate, even when wearing bulky gloves. The 2690 is made of impact and chemical resistant ABS and it's water resistant for all-weather use. It comes with an adjustable and comfortable cloth strap, as well as a heavy duty rubber strap.

CERTIFICATIONS: Class I, Division 1 / Class II, Division 1 / Class III, Division 1 / IECEx ia

## PELICAN SPECIALTY LIGHTS

A

B

C

D

### A - 3310ELS Emergency Lighting Station

A self-contained glowing beacon and flashlight that's easy to locate in the dark. Housed in a clear tamper-proof case, the Pelican™ 3310 ELS mounts to the wall making it available during any power outage. Ingress Protected IPX8 Submersible. Great for emergency preparedness and signaling mode for search and rescue scenarios.

### B - 3310PL Photoluminescent Light

The 3310PL LED incorporates photoluminescent technology which emits a bright glow making it highly visible in pitch black environments and with a run time of 202 hours (low) making it invaluable in emergency situations.

### C - 3315 Medium Light

The lightweight compact design houses 3AA batteries that power a single LED for 160 lumens of super bright LED light. Safety approved for the most volatile work environments, the 3315 LED flashlight is one of the most efficient flashlights on the market today.

### D - 7060 LED Tactical Flashlight

The Pelican 7060 LED light employs a revolutionary dual switch technology that allows the light to be activated by either a body-mounted patrol switch or a tail-mounted tactical switch. The dual switches, which include a momentary mode and high/strobe/medium/low beams, allows the user to grip the light in several positions and still control activation. In addition, the 7060 is self programmable. This allows the individual user to custom tailor the various modes to their liking. The light incorporates a rechargeable Lithium-Ion battery for maximum brightness and is also lightweight compared to standard batteries.

## A, B - INOVA® T2® & T3® Tactical LED Flashlights

These compact hand-held tactical high performance flashlights are small enough to fit in a pocket or glove box. Powered by 123A lithium batteries (included), the T2 and T3 has a patented optical system that provides thermal management, while harnessing and projecting a powerfully bright uniform focused spot with flood beam. Engineered with the professional in mind, they have a patented tactical push button end-cap switch that activates constant and momentary high, medium, low, strobe, and lockout modes. With a precision machined, aluminum body from solid tubular stock with a military-spec Type III hard coat anodized black finish and an aggressive knurling pattern for positive grip, plus a PVD coated stainless steel clip for secure attachment to a pocket or waistbelt. Easy to carry and handle, it's an invaluable asset for those who depend on reliable, brilliant light to navigate threatening situations.

## C - INOVA® T4R® Rechargeable Tactical LED Flashlight

Precision engineered to meet the serious technical and functional needs of security professionals everywhere, the INOVA T-Series LED Tactical Flashlights offer powerful illumination, handling responsiveness, and tactical grade durability. The INOVA T4R is a best-in-class USB rechargeable LED flashlight. Its high powered, 850 Lumen LED projects a powerful uniform focused spot and flood beam pattern up to 840 feet providing the high quality illumination needed for tactical use. Engineered with the professional in mind, the T4R has a mid body tactical switch that activates constant and momentary high, low, strobe, and variable dim modes for the ultimate in versatility and performance. The T4R features a rechargeable Lithium Ion battery that can be recharged anytime without waiting for the battery to be fully discharged, and will recharge hundreds of times. It has a precision machined, aluminum body from solid tubular stock with a military-spec Type III hard coat anodized black finish and an aggressive knurling pattern for positive grip. Designed for mission-critical use, the T4R is engineered to withstand the rigors of tough duty and extreme conditions.

### D - Sportsman Outdoor® 2D LED Virtually Indestructible Flashlight

Toughness where it counts. The Virtually Indestructible Outdoor Flashlight is made of an impact-resistant aluminum body with shock-absorbing rubber casings on the head and tail cap. High-performance LEDs emit 320 Lumens and a beam distance of 302 Meters in normal mode and 75 Lumens and a beam distance of 148 Meters in Energy Saver Mode, with up to 16 Hours of runtime on fresh D batteries (2 included). Keep one in your vehicle, your toolbox, and around the house—this light always comes in handy.

### E - Sportsman Outdoor® 3AA LED Virtually Indestructible Flashlight

Designed for maximum durability + simplicity. High-performance LEDs emit 330 lumens in normal mode with a beam distance of 271 meters and 25 lumens in Energy Saving Mode with a beam distance of 71 meters. Battery run time (alkaline batteries incl.): 3 Hours in normal mode and 70 Hours Energy Saver Mode. IPX4 Water Resistant.

### F - Sportsman Outdoor® 3D LED Virtually Indestructible Lantern

Tested for distance and durability, the 3-D Outdoor Lantern from Rayovac craves the outdoor lifestyle. Featuring ANSI IPX7 water submersible technology, camping enthusiasts can toss this light in the water with no worries. 3 light modes: High, Medium & Low. High performance LEDs and 3 modes: 400 Lumens (46 Energy Saver Mode). Battery run time (alkaline batteries incl.): 42 Hours (280 Hours Energy Saver Mode).

### G - Sportsman Outdoor® 6AA LED Virtually Indestructible Spotlight

Tested for distance and durability, the 6-AA Spotlight from Rayovac craves the outdoor lifestyle. Featuring ANSI IPX7 water submersible technology, spotlight enthusiasts can toss this light in the water with no worries. 3 light modes: High, Medium & Low. High performance LEDs and 3 modes 670 Lumens, (80 Energy Saver Mode). Battery run time (alkaline batteries incl.): 8 Hours (40 Hours Energy Saver Mode). Beam distance: 440 Meters, (164 Energy Saver Mode).

### H - Rayovac KFL Industrial Grade 6V Powerful Krypton Bulb Lantern

Super-bright, powerful krypton bulb provides 75 lumens with an extra-long beam distance of 191 meters. This toolbox tough lantern is designed with a large handle opening to accommodate gloved hands. Includes attached, non-slip, pivoting stand for use in many applications and a spare bulb holder. Water-resistant body floats and withstands up to 3' drops. Run time of 7 hours with 6 V 944R heavy-duty lantern battery or 11 hours with (4) D alkaline batteries (not included). Lifetime warranty.

## DORCY LIGHTS

### A - Dorcy 190 Lumen LED Flashlight

Features a true spot reflector system, which provides a 276 meter beam of light. The super bright, high flux LED produce 190 lumens and lasts for 5 hours of continuous use. Uses the highest strength materials for the lens and housing, making it incredibly durable, withstanding even a 3 meter drop test. Comes complete with 4 AA cell batteries and a nylon lanyard.

### B - Dorcy LED Headlight

This 115 Lumen LED Headlight features an intense beam of light that projects over 100 meters and has an easy to operate push button switch mounted on the side of the headlight. An attached ratcheting device allows for the headlight to be adjusted to the appropriate angle. Contains a comfortable and adjustable elastic strap that allows for hands-free use. Comes complete with 3 AAA cell batteries.

### C - Dorcy 400 Lumen LED Twin Globe Lantern

The Dorcy 400 Lumen 4D Twin Globe LED Lantern is the first battery operated lantern to approximate the illumination characteristics of traditional gas / mantel lanterns. Its design allows it to radiate 360° of light with 400 lumens of output. The durable body construction allows the lantern to float and makes it completely waterproof, with an IPX7 rating. The Twin Globe Lantern features two brightness settings, high and low, as well as an amber night light. The highest LED setting allows for 100 hours of continuous use, with the lowest giving 200 hours. The amber LED setting allows for 1000 hours of continuous use. The lantern is topped off with a sturdy handle featuring a pop-out hanger hook for hands free use.

### D - Dorcy LED Dynamo Lantern with USB Charging

A full charge allows this lantern to run 6 LEDs for up to 3.5 hours and 3 LEDs for 7 hours. But if there is no charge or a low charge, simply rotate the handle clockwise for 2 minutes at 160 r.p.m. (rotations per minute) and 6 LEDs will operate for up to 50 minutes. On the lower brightness level, 3 LEDs will operate for almost two hours. The lantern can also be charged via USB (Cord Included).

## TRAFFIC DIRECTION LIGHTS

### A - LED Signal Wand Multi-Function

The Signal Wand Light contains 5 super bright LEDs and a 5 LED tip light for added functionality. Features include extremely durable, heavy duty plastic construction, a long 400 hour run time, 1 mile (1600 meters) of visibility, and weather resistance. The light has an easy to use side mounted, sealed push button switch and comes with a convenient nylon wrist strap lanyard. The 3C - 12" Signal Wand Light requires 3 C cell batteries to operate.

### B - Traffic Master Glow Baton™

Glow Steady - Flashing - Strobe - 3 Red LEDs and 2 Green LEDs. Made of durable industrial grade plastic that possesses excellent strength and optical qualities. Economical, no bulbs to replace, LEDs last for over 100,000+ hours and are break resistant. 2 AA alkaline batteries provide 25 hours in glow mode and 45 hours in flash mode. Slip Resistant Rubber Hand Grip, with Tough, High Impact and Water Resistant Tube, included is a lanyard that slips securely around your wrist.

### C - Economy Industrial Flashlight

Crush resistant thermoplastic polymer case, unbreakable Tufflexx® lens, ring hanger. High visibility yellow, non-conductive. Accommodates SP-052 wands. 2 D-cell batteries.

### D - FlashLight Wands

For use with Economy Industrial Flashlight. Workers are more visible and safer, with better traffic direction. Return flashlight to normal duty by removing wand and replacing regular lens.

## MULTIFUNCTION EMERGENCY LIGHTS

### E - SolaDyne Solar Waterproof Flashlight

Solar powered waterproof and submersible flashlight. Leave in the sun to charge or wind it up - no batteries to replace.

- Submersible to 33 feet
- 3 LEDs operate on high (3 LEDs) low (1 LED) or all 3 flashing
- Full solar charge in 6 hours
- Charge by dynamo hand crank for up to 1 hour of use

### F - SolaDyne Emergency Alert Radio & Flashlight

This multi-charge emergency hand crank alert radio and flashlight is a great tool during an emergency situation. Helps you stay informed during severe weather emergencies and any other emergency broadcasts on the NOAA weather band and alert. Self-powered dynamo hand crank or solar panel charge. This emergency alert radio/flashlight features 3 LED lights, clock, USB cell phone charger, and an ear phone jack.

### G - Snap Light

The Snap Light is a compact, rechargeable, multifunction light and USB power source. Expands from a flashlight to a lantern with a snap! The base snaps open to expose the USB power ports for charging 5V devices, such as cell phones, tablets and other devices operating on 5V DC. It will also operate as a flashing red emergency flashlight or lantern. Includes a multifunction USB cable with a standard USB tip, micro USB tip, iPhone® Lightning tip and iPhone® 32-pin tip.

## SAFETY LIGHTS

### A - LED Marker Band

Here's the perfect way for early morning/nighttime pedestrians to stay safe and seen in the dark. The Nite Ize LED Marker Band is a surprisingly thin, durable polymer strip encased in sturdy nylon fabric, decorated with a reflective pattern for extra visibility. Its fully adjustable elastic band and quick release buckle allow you to wear it snugly and comfortably around your upper arm, and its efficient (100,000 hour) LED makes you clearly visible by other commuters for up to a mile away. Long-lasting, weather-resistant, and durable, the bright red LED has two modes to choose from - steady glow or continuous flash. Powered by one easily replaceable 2032 battery (included).

A

### B - Personal Safety Lite

Increase visibility when walking, jogging, or bicycling during low light or dark conditions! Increase safety on the jobsite for construction workers and road crews, traffic control personnel, or for anyone who needs to be seen in low light or no light conditions.

B

C

### C - Hard Hat Safety Lite

The Hard Hat Lite Kit bracket is designed exclusively for use on hard hats to increase worker visibility and safety while working in low light or no light conditions. The light can be easily detached from the mounting bracket to charge batteries or attach to clothing, belts, or equipment with built-in clip.

KEY	SKU	MFG#	DESCRIPTION

## FACILITY LIGHTS

F

### F - IMR High Output MR16 Emergency Light

The Isolite IMR series is a decorative, high output MR16 emergency light. The IMR is engineered for high performance and maintenance-free reliability with Super-Bright MR16 halogen lamps and snap fit assembly for fast and simple installation. 6 volt, 11 Watt maintenance-free sealed lead calcium batteries and two adjustable 6-Volt 5.4-Watt super bright MR16 halogen lamp heads standard. 12 1/8" x 5 1/2" x 3 3/4".

Approvals: Listed by Underwriters Laboratories to UL 924 Standard.

## BEACON WARNING LIGHTS

### A - Firebolt® LED Beacon

The Firebolt LED beacon produces a superior warning signal to promote work zone safety and is ideal for a variety of applications including snow plows, forklifts, utility trucks and construction vehicles. The LED technology in the Firebolt LED allows for a minimal Amp draw of less than 0.5 Amps which helps reduce the pull on the vehicle electrical systems.

The Firebolt Class 2 LED model offers (14) selectable flash patterns through Federal Signal's patented Power Select™ feature. The Power Select allows users to scroll through flash patterns by simply following a sequence of applying power to the unit 3 times in a row which will put the beacon into programming mode. The shatterproof, polycarbonate dome and base includes an o-ring to help protect against moisture.

### B - FireBolt Plus® Strobe Beacon

Dependability at an affordable price for forklifts, electric vehicles, industrial trucks and equipment. Works in multi-voltages, from 12 to 72 VDC, without modifications or adjustments. A vibration-resistant circuit board, strobe tube, and a modular power supply protect against voltage spikes and reverse polarity. Impact resistant polycarbonate lens and base. UL AU 1995. Comes with an enclosed base and mounting hardware. Firebolt Plus is available in a 2-joule (single flash) version and features a replaceable flash tube. The modular construction allows the flash tube to be easily replaced without the use of tools.

B..... E11245	.....220208-02	..... Firebolt Plus Strobe Beacon, magnetic mount, 12-72 VDC, amber

### C - Renegade® Strobe Beacon

The Renegade® strobe features a rugged, impactresistant polycarbonate dome and base. Model 462121 enables mounting via the permanent base using the trim ring (supplied), or by integrating a 1/2 inch pipe mount. Model 462141 utilizes a magnetic mount and comes with a cigarette lighter plug.

For effective long-term operation, the Renegade has a powerful replacement strobe tube and vibration-resistant circuit board. The 2.2 joule, double-flash power supply automatically adjusts to function at any voltage from 12 to 48 VDC. This strobe has exceptional optics and meets SAE J1318 Class 3 specifications.

Renegade strobes are designed for reliable performance in the toughest environments. Applications include volunteer fire, police applications, utility, and command vehicles. All models are supplied with an enclosed base and all necessary mounting hardware.

### D - UltraStar® LED Beacon

The Federal Signal UltraStar LED beacon utilizes a Federal Signal patent-pending emitter design that features the latest LED technology coupled with an innovative PCB design and layout. The emitter design provides a superior Class 1 warning signal that promotes work zone safety.

The UltraStar LED also offers (14) selectable flash patterns that can be selected by the user through Federal Signal's patented Power Select feature. Designed to meet the demands of a variety of work zones including DOT, construction, snow plows and utility vehicles; the UltraStar LED is potted so electrical components are protected against vibration.

### E - UltraStar® Strobe Beacon

The UltraStar® line of strobe beacons are designed specifically for rugged applications. The strobe tube is housed in a vibration-resistant silicone, which absorbs vibrations and protects the bulb from moisture. The polycarbonate dome and alloy base are impact and corrosion-resistant which helps extend the life of the strobe tube. The superior design of the UltraStar's Fresnel lens focuses light for maximum visibility and complete 360° light output. All models are multi-volt with high-and low – profile versions available. UltraStar strobe beacons are built to last with exceptional reliability.

### F - Pulsator® LED Beacon

The Pulsator LED beacon produces a superior warning signal to promote work zone safety and is ideal for a variety of applications including DOT, municipal, utility and construction vehicles. The LED technology in the Pulsator LED allows for a minimal Amp draw of less than 1 Amp drawing minimal pull on vehicles electrical systems.

The Pulsator LED also offers (14) selectable flash patterns through Federal Signal's patented Power Select™ feature. The Power Select allows users to scroll through flash patterns by simply following a sequence of applying power to the unit 3 times in a row which will put the beacon into programming mode.

### G - LP800 LED Dual Level Beacon

The LP800 warning light, with Solaris® LED reflector technology, provides superior results as a priority light for emergency and work truck applications. The LP800 beacon is equipped with two layers of Solaris reflectors and (15) powerful LEDs. The combination of the Solaris LED reflector technology and lens design maximizes the light beam distribution to avoid dark spots.

The LP800 LED also offers (14) selectable flash patterns. When used as a pair, LP800 LED beacons meet NFPA Rear Zone C Upper standards. Red and Amber models meet JAEJ845 Class 1 standards.

KEY SKU	MFG#	DESCRIPTION
G..... E11334	.....LP800-A	..... LP800 LED Beacon, permanent mount, 12-24 VDC, amber

## LIGHT BARS & PERIMETER LIGHTS

### A - HighLighter™ LED Plus Mini-Light Bar

Measuring a mere 2.7-inch high (permanent mount), the HighLighter™ LED Plus mini-lightbar features Federal Signal's patented Solaris™ LED reflector technology to re-direct light for substantially improved off-axis warning. Solaris reflectors provide 360-degree of light output, while virtually eliminating dark spots.

HighLighter LED Plus units incorporate Federal Signal's ROC (Reliable Onboard Circuitry™) technology, which eliminates 85% of potential failure points. The end result: Dependable and continuous visual warning with fewer repairs and a lot more time on the job. Incorporated into the top of the LED dome is Federal Signal's innovative MagnetSelect™ feature (patent pending) that enables users to quickly and easily select from more than 19 flash patterns using a simple magnet key chain (included).

### B - Work Truck Legend® LPX Discrete LED Light Bar

Legend® LPX Discrete light bars feature Federal Signal's distinctive technologies—Solaris® LED reflector technology and ROC (Reliable Onboard Circuitry™)—at an economical price. The LPX Discrete light bar has a traditional 9-conductor and is an all-LED light bar that can be custom configured with features including stop/turn/tail, alley, takedown and work lights. The light bar comes equipped with (2) flashing modes with (8) selectable patterns, and the front and rear of the bar can be independently controlled. Additionally, the Legend LPX Discrete light bar offers superior light output that meets SAE Class 1 J845 approval that helps to increase work zone safety.

### C - MicroPulse® Ultra LED Perimeter Mount Lights

The MicroPulse® Ultra models have a low-profile design that offers a wider range of mounting options to fit various applications. The advanced high-output LED light head can be programmed to operate as a single unit or in synchronization with multiple MicroPulse light heads. Built-in flash patterns enable multiple vehicle perimeter lights to be either synchronized in the same pattern or in opposite sequence.

Suitable for external and/or internal mounting applications, the MicroPulse Ultra comes in many colors, including Amber, Blue, Red and White, as well as split-color combinations. Models come standard with a black bezel and are also available with an optional chrome or white bezel. 12-24 VDC.

KEY SKU	MFG#	DESCRIPTION
C ..... E11340	...MPS300U-A	.....MicroPlus Ultra, 3-LED light head, 3 amber

C ..... E11344	...MPS1220U-AW	.....MicroPlus Ultra, dual color 24-LED light head, 12 white 12 amber

### D - MicroPulse® Wide Angle LED Perimeter Mount Light

MicroPulse® Wide Angle's curve design and powerful LEDs provide an impressive 180-degree light spread. These perimeter lights are ideal for mounting on push bumpers, rub rails, side mirrors and spoilers of first responder and work truck vehicles. MicroPulse Wide Angle models are available in Red, Blue, White and Amber, as well as split-color and dual-color combinations.

KEY SKU	MFG#	DESCRIPTION
D ..... E11345	...MPSW9-A	.....MicroPlus Wide Angle, 9-LED light head, amber

### E - Corner LED Perimeter Mount Light

Corner LEDs are made to stand the most punishing conditions while providing an impressive light output. Each light head is completely sealed to prevent any water ingress, and the system comes with a built-in flasher that is detachable with a weatherproof connector.

To accommodate multiple mounting applications, both 416900 and 416910 lightheads come with a bezel that conceals the mounting hardware for an appealing look for surface mounting and a gasket that allows for a head lamp installation. They come with 19 selectable flash patterns and can be programmed to operate independently or sync with multiple light heads.

KEY SKU	MFG#	DESCRIPTION
E ..... E11346	...416910-W	.....Corner LED, single color with in-line flasher, amber
E ..... E11347	...416900-AW	.....Corner LED, dual color with in-line flasher, amber/white

### F, G - Commander® Series Work Lights

Federal Signal's Commander® 750 and 1200 series work lights are built to go the distance, enduring a work truck's harshest conditions. Ideal for tractors, tow and recovery, off-road, and personal vehicles, these work lights are made with a heavy-duty powder coated die-cast aluminum and vibration resistant construction. Includes a stainless steel hardware kit and u-bracket allowing the user to adjust the work light horizontally and vertically to put light wherever it is needed.

KEY SKU	MFG#	DESCRIPTION
F ..... E11348	...COM1200-SQ	...Commander 1200, square, 1200 lumen, 12-24 VDC
G ..... E11349	...COM750-RND	...Commander 750, round, 750 lumen, 12-24 VDC

## A - Extech 407730: Digital Sound Level Meter

The 407730 sound level meter measures from 40 to 130dB with an accuracy of 2dB. The digital display offers a 0.1dB resolution and features a fast responding analog bar graph. User can choose A or C weighting. Max Hold captures highest reading. Includes microphone wind screen and four AAA batteries.

## B - Extech EA31: EasyView™ Light Meter

The EA31 EasyView Light Meter sports a compact and rugged design that features a large display. Multiple wide measuring ranges: 20,000Fc in 4 ranges and 20,000Lux in 4. Data hold freezes reading on display Min/Max readings. Zero function Cosine and color corrected measurements. Auto power off to save battery life. Meter utilizes precision silicon photo-diode sensor with 3ft coiled cable for easy storage. Complete with built-in stand, remote sensor with protective cover, protective rubber holster and 6 AAA batteries.

## C - Extech 45118: Mini Thermo-Anemometer

The 45118 is a Waterproof pocket sized Thermo-Anemometer for Air Velocity, Temperature and Wind-chill measurements. Simultaneously display Air Velocity and Temperature or Wind-chill on the LCD screen. Selectable averaging function of 5, 10, or 13 second intervals. Fold up protective housing extends to 9 in. (229mm) for a better reach. Tripod mountable. Features Data Hold with Auto power off functions. Complete with battery and 43 in. lanyard.

## D - Extech 407744: 94dB Sound Calibrator

This 1kHz, 94dB professional sound calibrator for 0.5" or 1.0" microphones calibrates and verifies sound level meter operation. Battery test position with battery status LED indicates if battery is good. Durable die-cast aluminum housing generates a 1kHz sine wave at 94dB to an accuracy of 5% (frequency) and ±0.5dB (94dB). Meets IEC standard 60942 1997-11. Complete with two 9V batteries, carrying case, and screwdriver.

## E - Extech SL355: Personal Noise Dosimeter/Datalogger

The SL355 is a compact, lightweight dosimeter designed to test noise exposure and provide noise surveys for compliance with OSHA, MSHA, DOD, ACGIH, and ISO standards. Featuring a USB interface and Windows-compatible software to control setup and retrieve stored events or analyze measurements, this dosimeter provides adjustable Criterion Level, Exchange Rate, and Threshold, and can measure frequency weighted noise exposure and peak sound level simultaneously. Comes with belt clip and clip-on 0.5 in. microphone with 2.6 ft. (0.8-meter) cable, 3 AAA batteries, mini screwdriver and carrying case, PC software, USB cable, user manual.

## F - Extech HW30: HeatWatch™ Humidity/Temperature Stopwatch

This HW30 multi-function stopwatch displays a digital up/down timer, temperature, humidity and heat index. The heat index measurement shows how hot it feels when humidity is combined with the actual temperature. Ideal for use in hot weather conditions. Additional features include a 12/24-hour clock, stopwatch, 30 lap/split memory and programmable alarm. HW30 Humidity/Temperature HeatWatch comes with lanyard, battery, and operating instructions.

## G, H - Extech PH50: Waterproof pH Pen

The Extech PH50 Waterproof pH Pen has a pH range of 2 to 12pH with a LCD display that shows the pH readings. It makes it easy to calibrate a single CAL key with the automatic pH buffer recognition (4, 7, and 10pH). The user has a choice of a 3 point calibration for better accuracy. This pen features the data hold which freezes the readings on the display and a low battery indicator. Product also features auto power off to help conserve the battery life. The Extech PH50 Waterproof pH Pen comes complete with a built in electrode, a sensor cap, an inner pH electrode protection cap, and four LR44 button batteries.

## A - Extech IR400: Mini IR Thermometer

The IR400 is a compact thermometer capable of measurements up to 630-Degrees F (332-Degrees C) with the built-in laser pointer that identifies target area and improves aim. Backlighting illuminates display for taking measurements at night or in areas with low background light levels. Fixed 0.95 emissivity covers 90-percent of surface applications. Complete with 9-Volt battery and case.

## B - Extech BR80: Video Borescope Inspection Camera

The BR80 video borescope camera features a compact handheld design that makes it easier to detect, diagnose, and solve inspection problems. The BR80 features a lightweight, waterproof (IP67) 17 mm camera diameter camera head with a 39 in. (1-meter) flexible goose neck cable which retains its configured shape. 2 bright LED lamps with dimmer help to illuminate viewed objects. Comes with 17 mm camera probe with cable, 4 AA batteries, extension tools (mirror, hook, and magnet), and user manual.

## C - Extech BR250: Video Borescope/Wireless Inspection Camera

BR250 is a Video Borescope Inspection Camera with 9 mm camera diameter and 3.5 inch color TFT LCD Monitor. Ideal for Home Inspection (Inspect in walls for mold, insect infestation, electrical wire or water pipe location); HVAC (Inspect inside ducts, behind motors and compressors); Automotive (View inside or around engines and transmissions); Industrial (Inspect weld integrity, process equipment, gears, molding machines); Aerospace (Aircraft inspections for contamination, debris, cracks or other damage), and Government (Safety and security inspections) applications. Glare-free close-up field of view. Detachable wireless color display can be viewed from a remote location up to 32 feet from measurement point. Complete with 4 x AA batteries, micro SD memory card with SD adapter, USB cable, extension tools (mirror, hook, magnet), video cable, AC Adapter (100-240V, 50/60Hz), magnetic base stand, and hard case.

## D - Extech DT300: Laser Distance Meter

The easy-to-use DT300 Laser Distance Meter accurately measures from 2" to 164' and can calculate area and volume. The integrated Pythagoras theorem also allows for the user to take indirect measurements. Other features include continuous measurement function with Min/Max distance tracking updates every 0.5 seconds, addition/subtraction, and front or rear edge reference. The DT300 has a double molded housing (IP54), low battery indicator, auto power-off function and comes complete with a carrying case and 2 AAA batteries.

KEY SKU	MFG#	DESCRIPTION

## E - Kestrel 1000 Pocket Wind Meter

This convenient handheld meter will measure wind speed and other weather parameters with field selectable units including Knots (KT), Meters per second (M/S), Kilometers per hour (KM/H), Miles per hour (MPH), Feet per minute (FPM), and Beaufort force("B").

- Measure air velocity and other weather parameters accurately and easily
- Wide range of field selectable units
- Large easy-to-read display
- Waterproof IP67-rated casing

Kestrel 1000 - Pocket Wind Meter Features:

- Current Wind Speed
- Max Wind Gust
- Average Wind Speed

Slip-on protective cover, neck lanyard, and CR2032 battery included. 5 year warranty. Made in the USA.

## MEGAPHONES

### A, B - ER-1215 and ER-1215S Handheld Megaphones

- Power Output: 15W Rated / 23W Max.
- 6 C batteries (14 hrs)
- Range: 315m (speech)
- Anti-bacterial treatment for all models (mouthpiece/microphone and handle)
- High durability ABS or ASA resin construction
- Compact and lightweight
- Wide frequency range for enhanced audio
- Neodymium magnets and Polyimide speaker diaphragms
- Five year warranty

### C - ER-2215W Shoulder Model Megaphone

- Detachable Hand-held Microphone with volume control and On/Off switch
- Power Output: 15W Rated / 23W Max.
- 6 C batteries (9 hrs)
- Range: 400m (speech) / 500m (whistle)
- Anti-bacterial treatment for all models (mouthpiece/microphone and handle)
- High durability ABS or ASA resin construction
- Compact and lightweight
- Wide frequency range for enhanced audio
- Neodymium magnets and Polyimide speaker diaphragms
- Five year warranty

### D, E - ER-520W and ER-520S Compact Megaphones

- Power Output: 6W Rated / 10W Max.
- 8 AA batteries (8 hrs)
- Range: 250m (speech) / 315m (siren)
- Anti-bacterial treatment for all models (mouthpiece/microphone and handle)
- High durability ABS or ASA resin construction
- Compact and lightweight
- Wide frequency range for enhanced audio
- Neodymium magnets and Polyimide speaker diaphragms
- Five year warranty

#### KEY SKU MFG# DESCRIPTION

A	E13001	ER-1215	Megaphone with siren, 15W, 1000' range, white/gray
B	E13002	ER-1215S	Megaphone with siren, 15W, 1000' range, red
C	E13003	ER-2215W	Shoulder Model Megaphone w/ whistle, 23W, 1200' range, white/gray
D	E13004	ER-520S	Megaphone with siren, 6W, 113db, 1030' range, white/gray
E	E13005	ER-520W	Megaphone with siren, 6W, 113db, 1030' range, red

### F - Air Horn

Air horn powered by a 8oz. cartridge. Use for signaling, emergencies, camping, boating and sporting events. Non flammable, ozone safe. Can be heard up to a mile.

#### KEY SKU MFG# DESCRIPTION

F	T08001	65808-23	Big Air Horn, 8 oz.
F	T08032	20008-21	8 oz. replacement canister for Big Air Horn
F	T08070	2911223	Compact Safety Sport Horn, 1.8 oz.

I	N03521	GHS-2HHAZ	GHS Hazcom Label - Health Hazard Symbol

### J - Mini GHS Pictogram Labels

Use the label sheet of 9 vinyl, pictogram labels and Warning or Danger signal words to complete the GHS Product Identifier Tags. GHS Mini Labels use the GHS pictograms to depict the recommended measures that should be taken to minimize or prevent adverse effects resulting from exposure to a hazardous product. The mini hazcom labels also instruct users how to minimize improper storage or handling of a hazardous product.

KEY	SKU	MFG#	DESCRIPTION
J	N03512	GHISMLC	Mini GHS Pictogram Labels, 8 1/2" x 11" Sheet

### K - GHS Jumbo Tag, Product Identifier

Fill in your chemical name and hazard statement on these 3 7/8" x 8 1/2" blank tags. Use the label sheet of 9 vinyl, pictogram labels and Warning or Danger signal words to complete the tag.

Made of pulp-free cardstock, tags are tear-resistant and waterproof, and ideal for short-term, indoor use. Scuff-resistant matte surface is easy to write on, and the 10-mil, polyolefin-based jumbo tags feature a 3/8" plain hole. Sold in packs of 5 jumbo tags.

KEY	SKU	MFG#	DESCRIPTION
K	N03508	HTHS401CTM	GHS Jumbo Tag, Product Identifier, (5) Pack

## VEHICLE PLACARDS & MARKINGS

### Placards

Placards are required by 49 CFR 172.500 when transporting dangerous goods. These durable, reliable DOT placards stand up to the elements as they're printed with long-life UV inks that resist peeling, chipping and fading. Placard holders, seals and other accessories to help keep your shipments compliant also are available. Rest assured that once your Dangerous Goods hit the road, you've taken the necessary steps to keep them and your business in full compliance. 10.75" x 10.75".

### Tagboards

Made of durable, high-quality tagboard, this DOT placard is ideal for short-term use or when the placard will not be used on the return trip. The tagboard material is protected with a tough polycoating that offers exceptional resistance to buckling and blowouts in all weather conditions.

### Removable Vinyl Decals

Made of highly durable vinyl and feature weather-resistant adhesive backing that permits easy application and easy removal with little or no residue.

### Class 1 - Explosives

Hazard Class 1 Placards used for transportation of explosives include ammunition, fireworks, flares, primers, ignitors and air bag inflators.

## PLACARD HOLDERS

### A - Slidemaster® Placard Holder

Slidemaster Placard Holder for Trucks meets Labelmaster's exacting standards for top quality construction. This slide-in placard holder features Easy-Off Ramp, an innovative device that glides placards over the retaining clip, so they slide in or out without a hitch. Built with rugged riveted assembly, drain hole and stainless steel clip, Slidemaster holders accommodate metal placards and non-adhesive placards in polycoated tagboard and 20-mil rigid vinyl.

KEY SKU	MFG#	DESCRIPTION
A ..... N03472	...80SM97	..... Slidemaster Placard Holder, anodized aluminum
A ..... N03473	...80SST97	..... Slidemaster Placard Holder, stainless steel

### B - 4 Legend Duo-Flip System

Basic duo-flip system with 5 placard panels in a single frame. Meets DOT specs for transporting hazardous materials in bulk. Corrosion-resistant, formed rigid aluminum. Panels lock with four stainless steel pressure fasteners. The numerals flip easily to give any combination of 4-digit numbers. Includes combustible, flammable, corrosive, poison and blank panel.

KEY SKU	MFG#	DESCRIPTION
B ..... N03483	...126CT	..... 4 Legend Duo-Flip System

### C, D - Spacemaster® Metal Placards

Changing DOT placards when your load changes is as easy as the flip of a panel. Spacemaster eliminates the hassle and expense of replacing placards, so DOT compliance is virtually at your fingertips.

Spacemaster frames are constructed of corrosion-resistant, fully formed rigid aluminum that provides superior durability, even under the toughest road conditions. Self-contained placard panels are constructed of aluminum alloy. Panels lock in place with 4 double-riveted stainless steel pressure fasteners. Legends are silkscreened with UV inks to retard fading, chipping or peeling. Placards meet DOT specifications for transporting hazardous materials.

### 17 Legend Flip Placard System

This Full Frame Spacemaster System includes 17 placard panels in a single frame: Dangerous, Flammable Gas 2, Poison 6, Non-Flammable Gas 2, Corrosive 8, Flammable Liquid 3, Oxidizer 5.1, Organic Peroxide 5.2, Explosive 1.4, Spontaneously Combustible 4, Flammable Solid 4, Inhalation 6, Dangerous When Wet 4, Blasting Agents 1.5D, Miscellaneous 9, PG III, Inhalation 2 and Blank.

### 7 Legend Flip Placard System

This Full Frame Spacemaster System includes 7 placard panels in a single frame: Explosive 1.1, Explosive 1.2, Explosive 1.3, Explosive 1.4, Explosive 1.5, Explosive 1.6, Dangerous and Blank.

KEY SKU	MFG#	DESCRIPTION

## Hazmat Labels

Hazard Labels meet the design and durability standards of 49 CFR, ICAO and other international air regulations. These labels can help you stay in compliance with standards set forth by the DOT. Hazmat labels are printed with light-fast inks for high durability, and adhesives are formulated for use in various climates and environments. Once affixed, Hazmat Labels won't fade or fall off and have outstanding chemical and abrasion resistance; feature strong adhesion to corrugated boxes; and help to keep you in regulatory compliance per the 49 CFR. 4" x 4". 500/roll.

## Class 4 Flammable Solids

## Class 1 Explosives

## Class 5 Oxidizers

## Class 2 Gases

## Class 6 Toxic & Poisonous

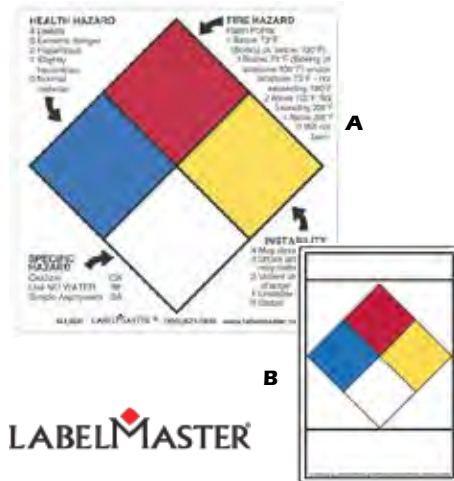

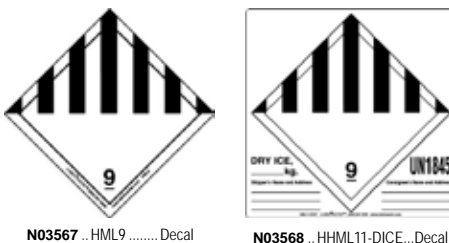

## Class 8 Corrosives

## Class 3 Flammable Liquids

## Class 9 Misc. Dangerous Goods

## A, B - NFPA® Labels & Signs

NFPA® (National Fire Protection Association) standard pressure-sensitive labels are designed for easy identification of chemical hazards by firefighters and emergency responders who are concerned with burning, spilled or exploding materials. These safety labels meet the NFPA 704 standard. NFPA® labels are printed with numerical ratings for health hazards, fire hazards, instability and specific hazards associated with a chemical under emergency fire or spill conditions.

KEY SKU	MFG#	DESCRIPTION
A	N03578	H-L97R Label, paper, 2" x 2", 500/roll

A	S05309	H-NFPAMRR Sign, Metal, 15" x 15"
B	N03580	H-L93VT Label, Vinyl, 4" x 6", 500/roll

## C - Hazcom (THIS®) Labels

These Standard Hazcom (THIS®-The Hazcom Identification System) Labels are part of a comprehensive hazard communication program developed by Labelmaster® to help you comply with OSHA's Hazard Communication Standard. Our hazcom labels use an easy-to-understand rating system to inform employees about the potential hazards of chemicals they might encounter in their workplace. Fill in these high-gloss, weather-resistant, vinyl right to know labels with the Chemical Identity; the Health, Flammability, Reactivity hazard ratings; and the Personal Protection letter code for chemicals you use regularly.

## BIOHAZARD PACKAGING

### A - HMS-67060-A Four 1 Gallon Shipping Box

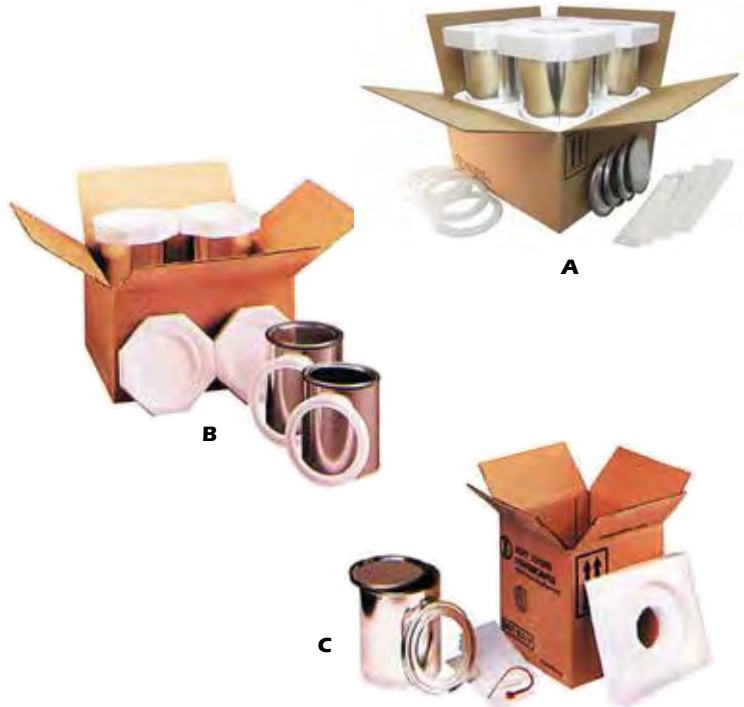

Dangerous Goods paint can packaging for four 1 gallon unlined paint cans, unassembled. Metal cans not included.

KEY SKU	MFG#	DESCRIPTION
A.....	N06003	...HMS-67060 .....HMS-67060-A Four 1 Gallon Shipping Box

### B, C - UN Paint Shipping Boxes

These shipping packages are designed, tested, and certified for shipping a variety of Packing Group II and III Hazardous Materials with One Gallon Paint Cans as the Primary containers. 4G packages include a carton with UN markings, EPS foam end caps, a bag for each can, and a plastic overcap ring. The rings ensure each can meets the pressure requirements for air shipments. Tested for Packing Groups II and III. Approved for air, ground, boat and rail. Metal cans not included.

KEY SKU	MFG#	DESCRIPTION
B.....	N06001	...HMS-67040 .... UN Paint Shipping Box, 1 gallon 4G box with endcaps, bag and overcap ring. UN: 4G / Y 7.8 / S
C.....	N06002	...HMS-67050..... UN Paint Shipping Box, 2 gallon 4G box for 2 cans end caps, 2 bags and 2 overcap rings. UN rating 4G / Y 16.8 / S

### E - Non-Hazardous Waste Manifest

The Non-Hazardous Waste Manifest form minimizes the likelihood that non-hazardous waste will be mistaken for hazardous waste. The Non-Hazardous Waste Manifest form helps ensure that non-hazardous materials are not classified as hazardous materials when both are contained in the same shipment. The Non-Hazardous Waste Manifest comes in a snap-out format. The snap-out forms are available in 8 1/2" x 11".

### F - Shipper's Declaration for Dangerous Goods Form

The Shipper's Declaration for Dangerous Goods form is required for all international shipments of dangerous goods/hazardous materials by air. This hazmat shipping form includes air certification and an area for the 24 hour emergency response phone number. This hazardous materials shipping form includes the basic description sequence (UN number, proper shipping name, hazard class, packing group), as well as the declaration statement for air eligibility. This Shipper's Declaration for Dangerous Goods snap-out form is available in an 8 1/2" x 11", 4-part carbonless with columns format.

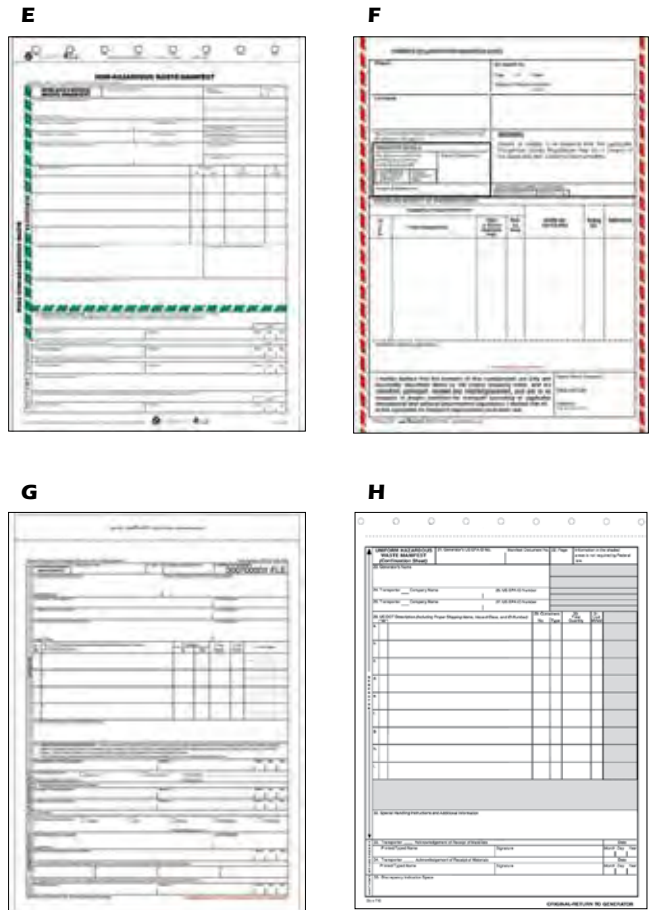

### G, H - Uniform Hazardous Waste Manifest

The revised Uniform Hazardous Waste Manifest is a hazmat shipping form prepared by all generators who transport, or offer for transport, hazardous waste for off-site treatment, recycling, storage, or disposal. Currently, the manifest is a paper document containing multiple copies of a single form. When completed, it contains information on the type and quantity of the waste being transported, instructions for handling the waste, and signature lines for all parties involved in the disposal process. The manifest is required by both DOT and EPA. The Uniform Hazardous Waste Manifest is a 8 1/2" x 11", 6-part, snap-out form.

The continuation form can be utilized to ship more than four Hazwaste products per shipment.

KEY SKU	MFG#	DESCRIPTION

## SHIPPING FORMS

## PIPE MARKERS

### White Indoor/Outdoor HandiMark® Tape

Brady's indoor/outdoor grade vinyl tape adheres well to pipes, walls, equipment, windows - most clean, dry surfaces. Conforms well to irregular, curved or rough surfaces - it even stands up to grease, oil and most industrial chemicals. Five year average outdoor durability in temperatures from 180°F to -40° F (82°C to -40°C), can be applied as low as 0° F (-18°C).

### Black HandiMark® Ribbon

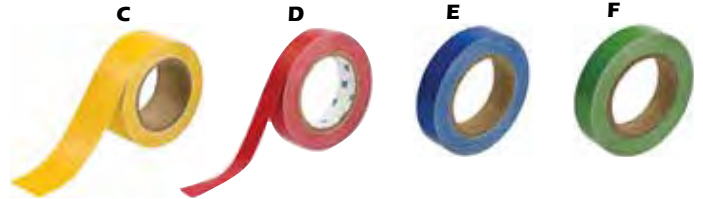

Brady's super-tough, smear-proof ribbons ensure your printed text lasts for years outdoors and in demanding environments. One size ribbon fits all tape widths.

KEY	SKU	MFG#	DESCRIPTION
A	N07009	262-142271	White Indoor/Outdoor HandiMark Tape, 2" X 50'
A	N07013	262-142283	Blue Indoor/Outdoor HandiMark Tape, 2" X 50'
B	N07006	262-42011	Black HandiMark® Ribbon, 2" X 75'
B	N07007	262-42012	White HandiMark® Ribbon, 2" X 75'

### Solid Color Banding Tape

Solid color pipe banding tape helps improve pipe visibility in 360 degrees. This tape is available in a range of sizes to fit a variety of pipe diameters and conforms to the color ASME (ANSI) color standards. Solid color pipe banding tape is made of a durable, non-printable, vinyl that will withstand outdoor and indoor environments.

KEY	SKU	MFG#	DESCRIPTION

## PIPE MARKERS

Style A: One 2.25" x 9" marker per card.

Style B: Four 1-1/8" x 4-1/8" markers per card.

Style C: Eighteen 1/2" x 2-1/4" markers per card.

## Conduit and Voltage Markers

Conduit and voltage markers quickly identify high voltage and electrical hazards, as well as conduits, busways, circuit breakers, switches, fuse boxes, power and distribution panels and other electrical components. They allow you to alert employees to potentially dangerous machinery or energized equipment. These bright orange voltage markers also allow you to identify the voltage and energy source. These labels meet ASME (ANSI) Standard ZG3.22 and come in a wide array of stock legends.

## BARRICADE TAPE

A

## Barricade Tape

Manufactured for durability and resistance to the elements, Presco Barricade Tape is recognized worldwide as the preferred co-extruded polyethylene tape for marking danger areas and special instructions. Among its many satisfied customers are professionals in the fields of law enforcement, safety, construction, painting, mining, hardware and utilities. Meets OSHA 1910.144 for marking physical hazards.

## UNDERGROUND WARNING TAPE

### Detectable Underground Warning Tape

Detectable Underground Warning Tape is used for accurately locating and preventing damage to valuable underground utility installations. It has an aluminum backing to make underground assets easy to find using a non-ferrous locator. Properly installed, this tape helps avoid catastrophically inaccurate digging when locating utilities such as electrical lines, gas pipes and communication cables. Custom detectable, non-detectable and barricade tapes available. Call 808-847-4017 for details.

SKU	MFG#	DESCRIPTION

### Non-Detectable Underground Warning Tape

Non-Detectable Underground Warning Tape prevents damage to underground utility lines during excavation. Following code parameters, bury this tape above electrical lines, gas pipes, communication cables and other utility installations. Resistant to underground elements, this heavy metal-free, co-extruded polyethylene tape serves as a highly visible proximity device that will not turn black over time. Custom detectable, non-detectable and barricade tapes available. Call 808-847-4017 for details.

The Magnetomatic Pipe and Cable Locator is a highly sensitive instrument designed to locate the following pipes and cables underground or underwater:

Iron or Steel Pipe, Plastic Pipe (PVC) with or without magnetic tracers, Electrical Cables, Telephone Cables, Fiber Optic Cables, Conduit, Ceramic Pipe, Transit Pipe, Concrete Pipe, Asbestos Cement Pipe.

The Magnetomatic Pipe Locator has been designed, engineered and field tested to ensure reliability and accuracy. It is sold worldwide and is being used successfully by municipal water and sewer departments, contractors, excavators, telephone companies, plumbers, Rent-All shops, rural water systems and many others.

### O-Z - Flagging Tape

Roll Flagging / Surveyors tape for marking hazards, trees, danger areas, survey markers & boundaries. Non-adhesive PVC material.

Standard color rolls are 1.25" X 300'

Fluorescent rolls are 1.25" X 150'

KEY SKU	MFG#	DESCRIPTION
<b>Fluorescent Flagging Tape</b>		
O.....	W08157...TFGL-686	.....Flagging Tape, fluorescent lime, 1.25" x 150'
P.....	W08158...TFOG-686	.....Flagging Tape, fluorescent orange, 1.25" x 150'
Q.....	W08159...TFPG-686	.....Flagging Tape, fluorescent pink, 1.25" x 150'

### Non-Fluorescent Flagging Tape

R.....	W08155...TFB-686	.....Flagging Tape, blue, 1.25" x 300'
S.....	W08156...TFG-686	.....Flagging Tape, green, 1.25" x 300'

## REFLECTORS AND OBJECT MARKERS

### A, B - Post-Mounted Reflectors

High intensity sheeting mounted on aluminum blanks are useful for driveways, loading docks, mailboxes, lava rock walls, any obstruction you wish to protect. Meet MUTCD standards. Meets State of Hawaii specs.

KEY	SKU	MFG#	DESCRIPTION
A	.....	W07010	.....RM1A.....RM1 amber reflector, 3" x 4" x .063, 1 hole
A	.....	W07012	.....RM1R.....RM1 red reflector, 3" x 4" x .063, 1 hole
A	.....	W07013	.....RM1W.....RM1 white reflector, 3" x 4" x .063, 1 hole
B	.....	W07016	.....RM2R.....RM2 red reflector, 3" x 8" x .063, 2 holes
B	.....	W07019	.....RM2W.....RM2 white reflector 3" x 8" x .063, 2 holes

### C, D, E - Round Reflectors

Hazard delineators feature Cortina Brand cube corner reflectors for unmatched brilliance. Prismatic reflective faces are molded of tough acrylic plastic for longer life, 3-3/8 inch diameter. Multiplies the standard vertical delineation for identifying curves and other hazardous road conditions.

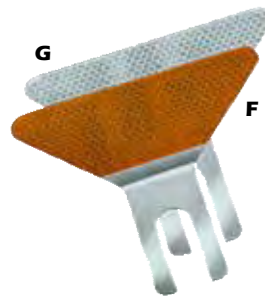

KEY	SKU	MFG#	DESCRIPTION
C	.....	W07040	.....13-099-32.....Round Reflector, red, plastic back, 3-3/8" diameter
D	.....	W07042	.....13-099-35.....Round Reflector, amber, plastic back, 3-3/8" diameter
E	.....	W07041	.....13-099-41.....Round Reflector, white, plastic back, 3-3/8" diameter
.....	.....	W07043	.....13-099-38.....Round Reflector, blue, plastic back, 3-3/8" diameter

### F, G - Butterfly Guardrail Reflectors *Special Order Only*

Butterfly Bolt-on - traditional bolt-on trapezoidal reflector mounts inside W-beam rail. UV-stabilized polymers for long life in both work zone and permanent installations.

KEY	SKU	MFG#	DESCRIPTION
F	.....	T02099	.....800BTB0160.....Butterfly Guardrail Reflector, amber 1-sided, 5-1/8"W x 2-5/8"H
G	.....	T02100	.....800BTB0200.....Butterfly Guardrail Reflector, white 1-sided, 5-1/8"W x 2-5/8"H

### H - Barrier Delineator *Special Order Only*

KEY	SKU	MFG#	DESCRIPTION
H	.....	T02101	.....8004228160.....Amber reflexite reflector, 90° bend, 1 sided, 3" X 12"
H	.....	T02102	.....RM3A90-1S.....Amber reflexite reflector, 90° bend, 1 sided, 3" X 8"
H	.....	T02103	.....8004228165.....Amber reflexite reflector, 90° bend, 2 sided, 3" X 12"
H	.....	T02104	.....RM3W90-1S.....White reflexite reflector, 90° bend, 1 sided, 3" X 12"

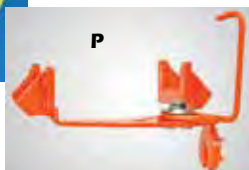

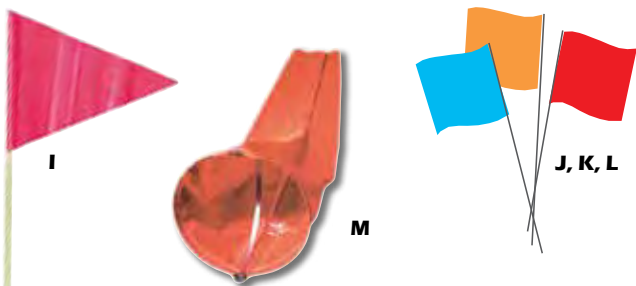

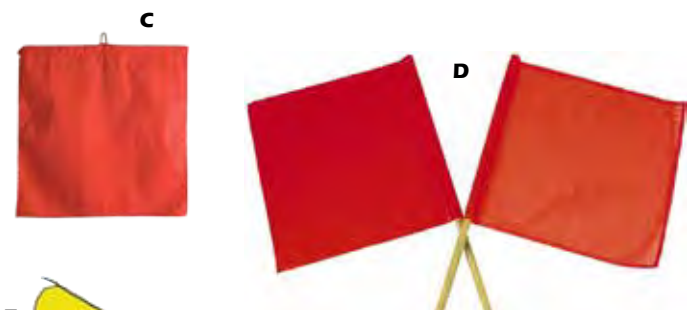

### I - 3M™ Flexible Prismatic Conspicuity Tape

3M™ Flexible Prismatic Conspicuity Markings Series 963 are highly retroreflective flexible microprismatic markings designed for rugged outdoor use on the sides and rear of trucks, trailers, and automobiles. Series 963 provides the visibility needed to oncoming motorists which results in improved safety.

This reflective marking is backed with an aggressive, pressure-sensitive adhesive. Meets and exceeds NHTSA conspicuity regulations for conspicuity tape.

KEY	SKU	MFG#	DESCRIPTION
I	.....	W05030	.....963.....3M Flexible Prismatic Conspicuity Tape, red/white, 2" x 18"
I	.....	W05031	.....963-32.....3M Flexible Prismatic Conspicuity Tape, red/white, 2" x 50 yds
I	.....	W05032	.....963-10.....3M Flexible Prismatic Conspicuity Tape, white, 2" x 50 yds
I	.....	W05034	.....963-32.....3M Flexible Prismatic Conspicuity Tape, red/white, 3" x 50 yds

## WARNING BANNERS & FLAGS

### A, B - Warning Banners

Required by many states when transporting wide loads such as construction equipment, boats, modular homes, etc.

KEY SKU	MFG#	DESCRIPTION
A.....	S05224	8762-4CDS.....OVERSIZE LOAD 18" x 72" Vinyl
A.....	S05228	8701-4CDS.....WIDE LOAD 18" x 96" Vinyl

### C - Overhanging Truckers Flag

18" X 18" red lightweight cotton fabric - 12 gauge wire hanger

KEY SKU	MFG#	DESCRIPTION
B.....	W08277	CI-5971.....Overhanging Truckers Flag, cotton, 18" x 18"

### D - Traffic Warning Flags

Bright red/orange vinyl flags with heat sealed hems and reinforced sewing for flag staff. Available with or without staff.

KEY SKU	MFG#	DESCRIPTION
D.....	W08099	SF-24.....Traffic Warning Flag, 24" fluorescent red, no staff
D.....	W08100	03-229-3408.....Traffic Warning Flag, 24" fluorescent red, 30" wood staff
D.....	W08102	03-229-3418.....Traffic Warning Flag, 24" fluorescent red, 36" wood staff
D.....	W08101	GFW2436-TR.....Traffic Warning Flag, 24" true red, 36" wood staff, weighted edge
D.....	W08103	3007528.....Traffic Warning Flag, 24" red/red, 36" wood staff
D.....	W08107	03-229-3456.....Traffic Warning Flag, 24" true red w/ reflective stripe, 36" wood staff, weighted edge

### E-H - Pennant Flag Perimeter Markers

Advertise special events, announce sales, keep crowds under control, use for start & end point of races with a 60 foot rope of colorful pennants.

KEY SKU	MFG#	DESCRIPTION
E.....	W08111	PF91260M-686.....Pennant Flag Perimeter Marker, multi-colored pennants
F.....	W08112	PF91260R-686.....Pennant Flag Perimeter Marker, red pennants
G.....	W08113	PF91260RW-457.....Pennant Flag Perimeter Marker, red & white pennants
H.....	W08114	03-405-60.....Pennant Flag Perimeter Marker, yellow pennants
H.....	W08115	03-405.....Pennant Flag Perimeter Marker, yellow pennants, 100'

### I - Airport Windsock

- Vinyl coated nylon fabric in day-glow orange
- Reinforced extra stitching
- Hardware kit (sold separately) includes hemi-rings, bolts, nuts, machinery screws, and half ring

KEY SKU	MFG#	DESCRIPTION
I.....	W09002	WS 18.....Airport Windsock, 18" x 8" x 96"
.....	W09008	WS18HW.....Hardware kit for Airport Windsock

### J, K, L - Surveyors' Flags

Plastic surveyor flag on 30" wire staff. Re-usable or disposable.

KEY SKU	MFG#	DESCRIPTION
J.....	W08116	2330R-686.....Surveyors Flag, red, 2.5" x 3.5" with 30" wire staff
K.....	W08117	2330B-686.....Surveyors Flag, blue, 2.5" x 3.5" with 30" wire staff
L.....	W08118	4530O-686.....Surveyors Flag, orange, 4" x 5" with 30" wire staff

### M - Miscellaneous Flags

KEY SKU	MFG#	DESCRIPTION
M.....	W08104	SF-6.....Triangular snow flag on 6' fiberglass pole
.....	W08094	GFT13.....13" GloFlag, fluorescent orange

### N, O - SpanMark Power Line Warning Flags

SpanMark power line warning flags make it quick, easy, and affordable to mark low hanging hot power lines near utility facilities, construction sites, or anywhere tall equipment or helicopters might strike a line. Choose either bright orange or yellow with either a universal symbol for a live line or "Danger High Voltage" lettering. SpanMark flags are 13.375" x 11.5" and made from a durable, flexible vinyl material. Each flag comes with a patented SnapFast Clamp for simple, sure installation by hand or hot stick.

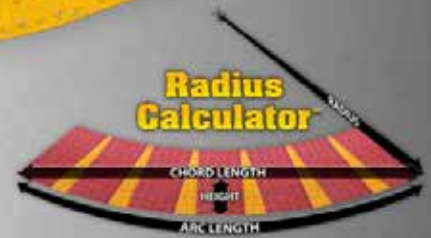

KEY SKU	MFG#	DESCRIPTION
N.....	W08184	USEKSW703-OR.....PL Warning Flag, "Symbol", orange
O.....	W08185	USEKSW702-YE.....PL Warning Flag, "Danger High Voltage", yellow
P.....	W08186	.....SnapFast Clamp Installation Tool

# The Smartest Radius Solution

- Convenient radius calculator & draw app
- Fast, easy & compliant radius installations
- Covers 8' - 70' radii with no cutting
- Consistent dome spacing every time

### TufTile ADA Polymer Tiles

TufTile's Polymer Tiles are replaceable high-impact detectable warning tiles designed for years of use on municipal (public) and private sidewalks, pedestrian ramps and platforms.

TufTile Polymer Tiles are made of advanced proprietary polymers and are engineered with molded in-line truncated domes which are in full compliance with ADA guidelines and provide superior impact and slip resistance. TufTiles are also highly resistant to UV rays, weather, and a wide variety of chemicals.

- ADA compliant for wet and dry, slip-resistant surface
- Easy and fast installation, bilingual step-by-step installation instructions
- Beveled edges meets "trip hazard" requirements
- Replaceable
- Long term durability
- Recyclable
- Made in USA

### A - Polymer Wet-Set Tiles

Polymer Wet-Set Tiles utilize a factory installed umbrella style anchor system with stainless steel, tamper resistant fasteners for easy installation into wet concrete applications.

KEY	SKU	MFG#	DESCRIPTION
A	.....	<b>M01208</b>	...TT2436-WS-YEL..... Polymer Wet-Set Tile, 2' x 3' mat, yellow
A	.....	<b>M01209</b>	...TT2448-WS-YEL..... Polymer Wet-Set Tile, 2' x 4' mat, yellow
A	.....	<b>M01210</b>	...TT2460-WS-YEL..... Polymer Wet-Set Tile, 2' x 5' mat, yellow
A	.....	<b>M01215</b>	...TT-ANCHOR-WS ..... Anchor for Wet-Set Tile
A	.....	<b>M01216</b>	...TT-SCREW-SQD..... 1-1/2" tamper-resistant stainless steel, #14 screw

### B - Polymer Surface Applied Tiles

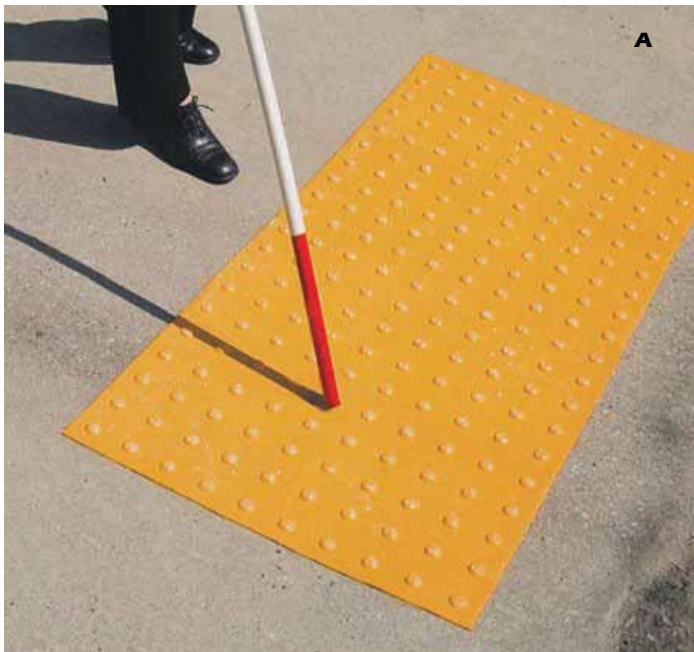

Polymer Surface Applied anchors hold tight to stainless steel, tamper resistant fasteners and are easily installed into existing concrete or retrofitting installations. Alternatively, drive pins can be used in most installations.

KEY	SKU	MFG#	DESCRIPTION
B	.....	<b>M01205</b>	...TT2436-SA-YEL..... Polymer Surface Applied Tile, 2' x 3' mat, yellow
B	.....	<b>M01206</b>	...TT2448-SA-YEL..... Polymer Surface Applied Tile, 2' x 4' mat, yellow
B	.....	<b>M01207</b>	...TT2460-SA-YEL..... Polymer Surface Applied Tile, 2' x 5' mat, yellow
B	.....	<b>M01217</b>	...TT-SEALANT..... Weather Resistant Sealant for SA Tiles
B	.....	<b>M01218</b>	...D-PIN-1.5 ..... Hammer Nail Drive Anchor for SA Tiles

## ADA WARNING MATS

# TopMark®

by Ennis-Flint

## TopMark® Preformed Thermoplastic Detectable Warnings

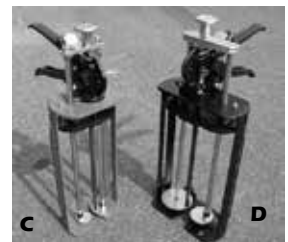

For the visually impaired, there is no margin for error when recognizing the boundary between vehicular and pedestrian areas. That's why Flint has developed TopMark® preformed thermoplastic detectable warnings. The truncated domes on the surface of TopMark® are easily detectable by cane and underfoot.

TopMark® is engineered for retrofit and newly-applied concrete and asphalt applications. TopMark® is supplied in a convenient kit that contains the preformed thermoplastic materials and sealer needed to complete four typical 4 ft. x 2 ft. ramps (or 32 square feet of total application area). Each sheet of the truncated dome material and adhesive is 1 ft. x 2 ft. TopMark® is bonded to a concrete or asphalt surface by simply using the Flint 2000EX propane heat torch and is ready for pedestrian traffic just 20 minutes after application is complete.

The flexible construction of TopMark® allows it to conform to irregular surfaces for use on curb ramps, blended transitions, mass transit rail platforms, and public loading areas. In fact, TopMark® can easily be cut to fit special curves and angles. TopMark® is available in yellow, white, black, blue and brick red colors.

Once installed, TopMark® provides a long-lasting, easily detectable surface that is slip-resistant and wheelchair friendly. TopMark® is compliant with the current Public Rights-of-Way Accessibility Guidelines as published by the U.S. Access Board and the ADA/ABA-AG (formerly ADAAG).

KEY	SKU	MFG#	DESCRIPTION
A	M01016	TMK4116040	TopMark® Detectable Warning 32sq ft kit w/ [4] 2' x 4' mats, sealer and boulder, yellow

## THERMOPLASTIC PAVEMENT MARKINGS

### HotTape™ Preformed Thermoplastic

On highways and streets, in office complexes, malls, campuses, and parking lots, HotTape™ preformed thermoplastic pavement markings are your traffic control solution. HotTape™ is known for its flexibility, durability and ability to withstand cracking. Uniform pre-beading allows for ease in handling and installation.

HotTape™ is pre-beaded and incorporates intermixed beads in the product, which provides both high initial and excellent long term retroreflectivity. HotTape™ is formulated with the highest quality color pigments, resulting in vibrant colors offering excellent daytime visibility.

HotTape™ is extremely durable and provides excellent long term performance in critical ADT areas requiring transverse markings. Superior long term color retention, retroreflectivity and adhesion versus other common pavement marking materials. Impervious to vehicle oil and grease.

HotTape™ installs easily and quickly on clean, dry surfaces. Ensure moisture is removed by utilizing the Magnum Torch or similar heat source to pre-heat the pavement surface to 300 ° F. Can be applied in temperatures as low as 32° F. HotTape™ does not require any sealers or primers and its flexibility and uniform pre-beading allows for ease in handling and installation.

HotTape™ contains and requires no VOC's or hazardous chemicals and is safe for worker handling, installation and removal.

### PreMark® High Performance Retroreflective Preformed Thermoplastic

PreMark® high performance retroreflective preformed thermoplastic pavement markings are engineered for enhanced visibility, durability and flexibility which greatly increases the life of the pavement marking program. PreMark® contains uniformly distributed glass beads throughout the material so that, as the marking wears, new beads are exposed. PreMark® has no minimum road or air temperature requirements and is designed for use in heavy traffic locations where maximum wear and tear is present. PreMark® does not require preheating of the pavement to a specific temperature prior to application.

## A - Pavemark® Hot-Applied Thermoplastic

Formulated to meet AASHTO as well as many state specifications Pavemark is the workhorse line of hot-applied thermoplastic. User-friendly Pavemark® is formulated for fast melting and easy application allowing for maximum production while in the field.

- Formulated to meet AASHTO and many state specs
- Typically applied in 60 to 120 mils with single or double drop glass bead application
- User-friendly formulation for fast melting
- Excellent performance in wide range of application conditions
- Applied by conventional extrusion, ribbon extrusion, or spray

KEY SKU	MFG#	DESCRIPTION
A..... M07016	...885560	.....Pavemark® Hot-Applied Thermoplastic, white, 50lb. bag
A..... M07017	...885575-CA	.....Pavemark® Hot-Applied Thermoplastic, yellow, 50lb. bag
A..... M07015	...985200	.....Pavemark® Hot-Applied Thermoplastic, primer, 5 gallon

## B - Flex-O-Line™ FOL200 Construction Grade Tape

Flex-O-Line brand pavement striping tapes are conformable and highly reflective films which are designed to provide excellent nighttime delineation during either dry or light-to-moderate rainfall. Flex-O-Line™ tapes are weather resistant and provide excellent color retention. Experience has shown that the highly reflective "Wet Reflective" and "Construction Grade" tapes are generally more durable than conventional high quality paint, and will show no appreciable fading, lifting, shrinking or chipping when applied according to manufacturer's instructions. Adhesive foil backing. Meets all state and federal requirements where applicable, and when remov-ability is not a priority.

B..... M11002	...3131	.....Flex-O-Line™ FOL200 CG Tape, yellow, 4" x 100 yds

## RAISED PAVEMENT MARKERS

C

D

E

## C - MS-100 Series LED SolarMarker

The Miracle SolarMarker solar-rechargeable, L.E.D. illuminated raised pavement marker is a low cost, maintenance-free and effective alternative to overhead street lighting. Powered by a very efficient and long lasting "Super Capacitor", SolarMarker MS-Series markers provide superior road/path visibility while avoiding the problems associated with battery-powered markers.

For night or fog use, electronics in the markers monitor ambient light levels, activating the LEDs when ambient light drops below factory preset levels. The markers maintain a charge adequate for full duty cycle. They are re-charged by sunlight, lower level light, and from other light sources such as vehicle headlights.

KEY SKU	MFG#	DESCRIPTION

## E - 3M™ Raised Pavement Markers Series 290 PSA

Series 290 PSA are durable, lightweight thermoplastic markers with pressure sensitive adhesive that provide highly effective, long-life visibility, particularly at night and in wet weather. Markers may be applied to asphalt and concrete road surfaces in non-snowplow regions. The markers are impact resistant and increase awareness with an added rumble effect.

## PAVEMENT MARKERS & ADHESIVES

### A - Dome Button Ceramic Markers

Easy installation, minimal maintenance. Glaze wears like steel. Round marker is shock, abrasion, temperature and chemically resistant. Reduces lane changing, rumble effect provides warning device, does not affect steering. Self-cleans dirt, rubber, oils & grease. Optically proven curves for max reflection. Oval markers are used on golf courses, along walkways, private property. Made in USA.

### B - Non-Reflective Plastic Pavement Markers

Markers are manufactured per ASTM specifications. The bottom of these markers are configured to produce an excellent structural bond with the pavement, while their strong yet lightweight construction allows for easy installation.

### C - Temporary Overlay Markers

Provides short-term temporary pavement markings day and night, are simple to place and easy to remove. TOMs are durable enough for use on any road, from low volume to interstate highways. Manufactured with virgin engineering resins and the best retro-reflective tapes and adhesives. They are built tough to stand up to the demands of construction work zones.

### D - ID Locator

Replaces costly surveying and marking, prevents post-paving searching procedures and avoids damage to covers and caps.

### E - PreMark® Bundy® Adhesive

Bundy® is specifically designed to adhere Raised Pavement Markers (RPMs) to the road surface and provide a bond that will last throughout the marker's lifetime. Easy removal without damage to the road surface makes Bundy® ideal for use in work zones. Simply heat the Bundy® and push a shovel underneath the RPM to lift it.

### F - FTC Traffic Marker Adhesive

FTC Traffic Marker Adhesive is a two part epoxy standard set adhesive system specially designed for the bonding of traffic buttons and other lane markers. This product meets the requirements of the American Public Works Association specification 44-2.02 B 4. 18M000 EAS-06 is also excellent for bonding wood to concrete and concrete to concrete and asphalt.

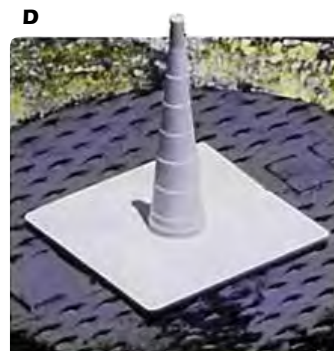

### G - Dot STICK™ Bituminous Marker Adhesive

Henry HE193 - Dot Stick™ is a hot melt asphalt adhesive, which securely bonds pavement markers to asphalt concrete and portland cement concrete. ASTM D-4280, Type I. This adhesive comes in 35 pound segmented boxes (3 blocks/box).

### H - FIRMMarker® Traffic Marker Adhesive

FIRMMarker is an AASHTO M237 certified two part epoxy standard set adhesive system. It was specifically designed for the bonding of traffic markers and indicators, as well as, safety posts. FIRMMarker is also excellent for bonding wood to concrete and concrete to concrete. FIRMMarker cartridges fit in a steel caulking gun that applies parts A and B at a ratio of 1:1 for a total of 20 oz. There is a quick release mixing applicator that dispenses and mixes exactly what you need for the application. Unused product can be stored for future use.

## GRACO<sup>®</sup> LINE STRIPERS

A

B

C

### A - LineLazer ES 1000 *Special Order*

The industry's first electric striper, the LineLazer ES 1000 is powered by a high-output battery allowing it to be used safely indoors while having the power and performance needed for outdoor jobs. "Go Green" with this quiet, fume-free striper! Includes: Flex Plus™ Stripping Gun, LineLazer RAC® 5 SwitchTip™ and Guard and 1/4 in x 50 ft (6.4 mm x 15 m) BlueMax™ II Airless Hose.

- No Engine Noise—Do any job anytime without disruptive engine noise.
- No Engine Vibration—Allows for perfect lines on all surfaces and reduces user fatigue.
- No Engine Fumes—Enables you to stripe indoors without production shut downs or disruptions.
- Deep Cycle 100AH AGM Battery—Maintenance-free sealed battery design for striping up to 20 gallons per charge. Adding a second battery connected in parallel increases capacity, reducing voltage drop while under load, and triples run time allowing you to stripe up to 60 gallons per charge.
- On-board 12V Charger—Simply plug in, no need for battery removal.

### B - LineLazer 130HS *Special Order*

The LineLazer 130HS is the ultimate hydraulic airless striping unit that contractors rely on for their most challenging striping jobs. Professional striping contractors wanting hydraulic performance and proven power cannot go wrong with the LineLazer 130HS. As the preferred hydraulic striper for everyday jobs, it consistently delivers solid performance day in and day out.

- EasyMark Gun Adjustment System—Simple guide mark and gun placement system allows for perfect gun set up every time.
- High-capacity Cooling System—Keeps the system running cool.
- Storage Compartment—Storage area for tips, guards and miscellaneous items.
- DualComfort Handle Bar System—Fits all users and is easy to adjust.
- EZ Align Front Wheel System—Intuitive design keeps unit tracking straight.
- QuickSelect Gun Selector—Chrome gun lever for ease of use and dependable operation.
- Honda Engine—Excellent power and proven reliability.
- Endurance Paint Pump—Industry best performance and proven design with 25 years of success.

### C - LineLazer 3400 *Special Order*

The LineLazer 3400 is the proven performer for your restripe jobs. As the preferred choice for 1-gun professional performance, the LineLazer 3400 is perfect for small parking lots, mini malls, seal coating contractors, schools and park and recreation departments.

- New Frame—3 inches longer than the previous version for greater stability and straighter lines. Now accepts the 15-gallon hopper and the EZ Bead system.
- EasyMark Gun Adjustment System—"G" clamp system allows for quick movement of gun and guide marks for perfect gun alignment every time.
- Handle Bar System—Adjustable design, allows for optimal ergonomics and reduced vibration for all-day striping comfort with less fatigue.
- Rear Mount Hose Wrap—Provides easy on and off for stenciling applications.
- Easy Reach Controls—Operator controls are located on the handle bars allowing adjustments to be made without stopping.
- Honda Engine—Contractor preferred, excellent power and proven reliability.
- Endurance Pump—Industry-best pump performance in this field-proven design.
- Advantage Drive—With hardened steel gears, this is the longest lasting drive in the industry.
- EasyOut Pump Filter—Large filtering area reduces tip clogs and ensures paint quality.

## A - LineLazer V 3900 - HP Automatic Series *Special Order*

The LineLazer V 3900 is the airless line striping choice for professional striping contractors who want the industry's best striping unit. When it's time for 2-gun performance, no one does it better than Graco. Designed to deliver the most precise and consistent lines in the industry, it is the perfect choice for new lot layouts, medium to large parking lots, small city jobs and even big malls. With the option to add a LineDriver, the performance of the LineLazer V 3900 is unmatched.

HP Automatic Series Features:

- EasyMark Gun Adjustment System—Simple guide mark system, Easy gun on/off, front/back, Perfect gun set up every time.
- EZ Align Front Wheel System—Keeps unit tracking straight.
- DualComfort Handle Bar System—Fits all users, Easy to adjust, Solid 4-bolt design.
- LiveLook Display with SmartControl—Tracks all aspects of the job, Real-time information.
- Automatic Guns—Push button control for accurate stripes every time.
- Auto-Layout II—Cuts layout time in half, Exclusive Green Laser Guidance (country dependant).
- Data Logging with J-Log System—On-board job information for proof of completion.
- On-Board Power—12V battery for all your accessory items.

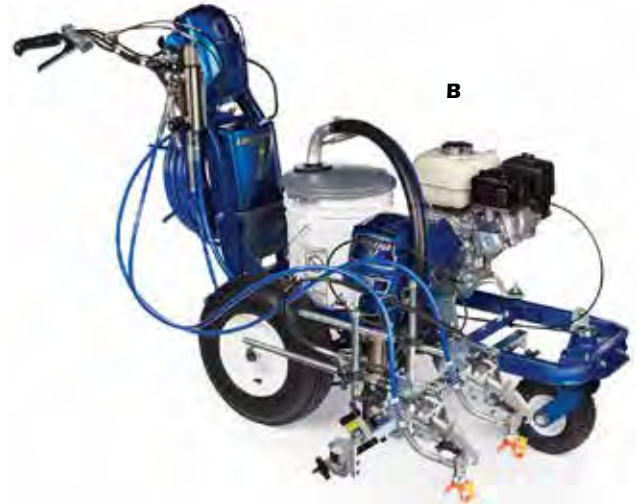

A

## B - LineLazer V 5900 - HP Automatic Series *Special Order*

The LineLazer V 5900 continues to be the mid to heavy-duty striping solution for professional contractors who recognize the increased productivity this leader delivers. With it's ability to use 1 or 2-gun airless paint guns there are no jobs too big or small for the LineLazer V 5900 – large parking lots, city streets and everything in between. Known for years by professional contractors for its productivity, the innovations of this new generation positions the 5900 to again exceed all expectations.

HP Automatic Series Features:

- EasyMark Gun Adjustment System—Simple guide mark system, Easy gun on/off, front/back, Perfect gun set up every time.
- EZ Align Front Wheel System—Keeps unit tracking straight.
- DualComfort Handle Bar System—Fits all users, Easy to adjust, Solid 4-bolt design.
- LiveLook Display with SmartControl—Tracks all aspects of the job, Real-time information.
- Automatic Guns—Push button control for accurate stripes every time.
- Auto-Layout II—Cuts layout time in half, Exclusive Green Laser Guidance (country dependant).
- Data Logging with J-Log System—On-board job information for proof of completion.
- On-Board Power—12V battery for all your accessory items.

B

## C - LineLazer V 200HS - HP Reflective Series *Special Order*

The LineLazer V 200HS is the high performance hydraulic striping you'll want for your most demanding jobs. It's proven history of innovative features has made it the striping of choice for contractors demanding a true workhorse. The LineLazer V 200HS is the perfect unit for large parking lot jobs, airports, and city jobs that not only require precise line but also demand reflective beads. With high production features such as automatic and semi-automatic paint guns along with the EZ Bead pressurized bead system, this unit has no equal.

HP Reflective Series Includes All HP Automatic Series Features PLUS:

- EZ Bead Pressurized System
  - Innovative bead tank with unmatched performance
  - Provides perfect bead embedment
  - Air valves to dial in starts and stops
  - Installed and ready to go

A

### A - ThermoLazer ProMelt w/ 4" SmartDie *Special Order*

Introducing the world's first fast melt, on-board handliner – ThermoLazer ProMelt System by Graco. Now, for the first time, it's possible to melt up to 300 pounds of thermoplastic material (6-50 lb bags) in a handliner in less than one hour! No one else can do this and we're proud to say that this patent pending system will soon become the new industry standard for years to come. SmartDies available up to 12".

- QuadMelt System - Four chamber system can melt 300 lbs of material in less than 1 hour.
- ControlFlow System - Precise material flow control with a squeeze of a lever.
- SplitBead Hopper - Holds over 90 lbs (40 kg) of reflective glass beads.
- SmartDie II System - Now use with or without heat for all weather conditions. Floats with the surface.
- EasyGlide System - First thermoplastic line striper with dual rear wheels and Fat Track Front Swivel for smooth LineLazer-like handling.
- SmoothRide Tires - High-load pneumatic tires provide excellent maneuverability and less rolling resistance.
- Optional Double-Bead Drop System Kit: installs in minutes for superior retroreflectivity.

B

### B - ThermoLazer 200TC *Special Order*

The Graco ThermoLazer 200TC Thermoplastic Handliner incorporates the same proven technology found in Graco's larger ThermoLazer but in a smaller unit that's ideal for contractors who are looking to grow their business or are just getting into thermoplastic striping. SmartDies available up to 12".

- FlexDie - Delivers excellent line quality with exclusive deep-die, all steel construction and a no-tools change out design.
- 200 lb/90 kg Material Kettle - Easy-to-fill cylindrical kettle allows for precise heating of thermoplastic material, and its no-tool change-out design lets you switch colors fast.
- 40 lb/18 kg Bead Hopper - Perfectly matched to the material kettle with a superior flow design.
- Direct Heat System - Direct flames and an on-board hand torch deliver maximum heat, resulting in maximum material flow.
- Tri-Wheel System - Dual solid front and single solid rear wheels provide smooth, quiet operation.
- Adjustable Operator Handle - Handle easily adjusts to multiple heights.
- Adjustable Front Pointer - Easily adjusts for all size dies for following all marks and creating straight lines.
- Bead Dispenser - up to 12.5-in /30 cm dispenser, and 1-inch /2.5 cm increments allow you to "dial-in" the bead drop rate.

C

### C - GrindLazer 270 *Special Order*

The GrindLazer 270 is the ideal scarifier for removing parking lot lines and smoothing uneven surfaces. It's EasyGlide Wheel Mount System makes it as easy to use as a LineLazer and its rugged, innovative design means you can count on it to perform for a lifetime of use.

- EasyGlide Wheel Mount System - Front mounted caster along with dual rear pneumatic air-filled tires makes handling safe and easy.
- TriBelt Drive System - 3-cog belt design optimizes power transfer and maximum load handling to virtually eliminate costly downtime.
- Heavy-Duty ProStart System - Centrifugal clutch allows easy starting and shut off of cutters. Also makes it easy to start in cold weather, eliminates broken recoils and provides longer belt life.
- Fat Track Front Swivel Wheel - Proven front caster wheel system makes turning fast and easy, maneuver curves better, no need to "muscle" it while moving.

## GRACO<sup>®</sup> ACCESSORIES

### A - LineLazer RAC 5 SwitchTips (yellow handle)

- Creates clean, laser-sharp lines with no fuzzy edges or thin spots
- Designed specifically for parking lots, roads, warehouse floors, crosswalks and athletic fields
- Sprays heavy water-base to thin alkyd traffic paints
- Ensures consistent paint thickness, from edge to edge, less overspray and long-lasting lines

### B - RAC 5 Switchtip (black handle)

- Used for residential and commercial applications
- Includes OneSeal for most common coatings
- Sprays lacquers to mastics latex paints
- Easy to identify laser stamped tip sizes
- Solvent seal available when using extremely hot solvents

### C - Tip Guards

Used for a variety of applications.

C.....M08026	243281	RAC 5 OneSeal Tip Gasket, 5 Pack, For Use Only with RAC 5 SwitchTip and Guard, Model 243161

### D - Graco Flex Plus Gun

This is the most popular gun that is used on Graco's LineLazer striper, and is included with virtually all Graco striper purchases. Includes LL5319 RAC 5 LineLazer Tip & RAC 5 HandTite Guard

The sprayer hose connects directly to the gun through a spring guard mount on the handle base to protect the ends of the hose. Additionally, unlike most sprayer guns (with the exception of the Silver Plus), there is no in-handle filter, so it is able to handle heavier materials.

### E - Pump Armor™ Fluid

Protects pump for storage and freeze proof to - 30° F (-34.4° C). Fill pump with Pump Armor fluid and leave it in until you use it again.

### F - TSL™ Throat Seal Liquid

Prevents paint and coatings from drying onto the displacement rod and packings. Extends pump life.

## TRAFFIC PAINT

### A - Line-PRO™ 1000 Series Standard Dry Traffic and Parking Lot Paint

- Water-base acrylic paint that is ready to use and easy to apply.
- Non-flammable and cleans up with water.
- Available in white, yellow (non-leaded), black, blue, green and red.
- Durable and performs equally well on concrete or asphalt surfaces.
- Can be used for roadway, parking lot striping, and airport runway and tarmac marking or legends.
- Can be applied using conventional or airless spray equipment.
- Meets SCAQMD Rule 1113 requirements

### B - Line-PRO™ 2000 Series Fast Dry Airport Runway Striping & Marking Paint

- Waterborne, 100% acrylic based traffic paint that is ready to use with no thinning required.
- Will perform equally well on concrete or asphalt surfaces and can be used for roadway, airport tarmac and runway, or parking lot striping, marking or legends.
- Durable and demonstrates excellent bead retention.
- Can be applied using conventional or airless spray equipment.
- Meets Federal Specification TTP-1952E

KEY SKU	MFG#	DESCRIPTION
B..... M06339	...2301 5G	.....Line-PRO 2000 Series Paint, Black, 5 Gallon
B..... M06359	...2101 5G	.....Line-PRO 2000 Series Paint, White, 5 Gallon
B..... M06360	...2201 5G	.....Line-PRO 2000 Series Paint, Yellow, 5 Gallon

### C - Line-PRO™ 4000 Solvent-Based Traffic and Legend Marking Paint

- Modified acrylic, low VOC, solvent-based traffic paint.
- Ready for use, one-component paint that is easy to apply. No thinning required.
- Durable and performs equally well on concrete or asphalt surfaces.
- Fast drying, even at low temperatures, allowing highways to be marked at temperatures too low for waterborne traffic paint application.
- Offers excellent glass bead retention.
- Can be applied using conventional or airless spray equipment.
- Meets CALTRANS PT-150VOC Acetone-Based/VOC-Compliant, Traffic Line paint requirements for pavement delineation and highway construction and maintenance.

KEY SKU	MFG#	DESCRIPTION
C..... M06662	...4611 5G	.....Line-PRO 4000 Series Paint, Bike Lane Green, 5 Gallon

### D - Line-PRO™ 5000 Series High Build Durable Striping & Marking Paint

- 100% acrylic rapid-dry, high-build water-base traffic paint that contains no heavy metals.
- Will perform equally well on concrete or asphalt surfaces and can be used for roadway, airport tarmac and runway, or parking lot striping, marking or legends.
- Durable and demonstrates excellent bead retention.
- Can be applied using conventional or airless spray equipment.
- Meets CALTRANS PTWB-01R2 and Federal TT-P-1952E Type III specifications

KEY SKU	MFG#	DESCRIPTION
D..... M06655	...5110 5G	.....Line-PRO 5000 Series Paint, White, 5 Gallon

### D - Line-PRO™ 5901/5902 Premix HDOT Striping & Marking Paint

Durable, long-lasting and ideal for concrete and asphalt surfaces. Is pre-mixed, already contains glass beads and is ready to be applied. Intermixed beads will maintain excellent reflective quality throughout the lifecycle of the paint. Meets Hawaii Department of Transportation (HDOT) requirements section 755.01 for pavement marking materials.

KEY SKU	MFG#	DESCRIPTION
D..... M06631	...5901 5G	.....Line-PRO 5900 Series Paint, White, 5 Gallon
D..... M06632	...5902 5G	.....Line-PRO 5900 Series Paint, Yellow, 5 Gallon

### E - Fast Drying High VOC Alkyd Traffic Paint

A user friendly, fast drying, high voc solvent based traffic paint suitable for application by airless or air atomized equipment. May be used to stripe roadways, airports and parking lots with or without pressure applied glass beads. It offers all of the benefits of a high VOC alkyd resin solvent based paint, and quickly dries to a no track condition.

Product Advantages:

- Performs equally well on both asphalt and concrete
- Paint demonstrates excellent bead retention
- Keeps traffic control to a minimum when striping
- Can be used for symbols, legends and lane marking

KEY SKU	MFG#	DESCRIPTION
E..... M06164	...985671 5G	.....Fast Drying High VOC Alkyd Traffic Paint, White, 5 gal
E..... M06165	...985672 5G 5G	.....Fast Drying High VOC Alkyd Traffic Paint, Yellow, 5 gal

### F - Fast Drying Low VOC Solvent Based Traffic Paint

A user friendly, fast drying, low voc solvent based traffic paint suitable for application by airless or air atomized equipment. May be used to stripe roadways, airports and parking lots with or without pressure applied glass beads. It offers all of the benefits of a high VOC alkyd resin solvent based paint, and quickly dries to a no track condition. The product conforms to Federal Specification A-A-2886B.

Product Advantages:

- Low VOC - - -100 grams per liter maximum
- Performs equally well on both asphalt and concrete
- Paint demonstrates excellent bead retention
- Keeps traffic control to a minimum when striping
- Can be used for symbols, legends and lane marking

KEY SKU	MFG#	DESCRIPTION
F..... M06340	...985153 5G	.....Fast Drying Low VOC Solvent Based Traffic Paint, Black, 5 gal

### G - Pavement Marking Beads

Glass beads provide reflection, reduce drying time and subsequent tracking, and increase the effective life of the line up to 50% because the bead surface resists traffic abrasion.

A molecular film prevents "clumping" before and during bead application and also helps maintain reflectivity during wet weather. The coating keeps the binder from crawling up the sides of the beads, so they float to one-half their diameter in the binder rather than sinking completely into the line so a greater percentage are immediately reflective.

KEY SKU	MFG#	DESCRIPTION
G..... M05013	...9000	.....Type1, glass beads meets hawaii specs, 50 lbs/bag
G..... M05001	...TTB1325D	.....Type3, glass beads meets airport specs, 50 lbs/bag

## MARKING PAINTS

### A - Athletic Stripping Paint - Water Based

A highly pigmented formulation that will not cause leaf yellowing, root damage, or burn grass on athletic surfaces.

Fast drying - 15 minutes to touch, high-visibility colors, will not crack tennis court sealant, VOC compliant and lead-free, non-clogging spray tip, excellent resistance to traffic, oil and gasoline. Applications: grass or dirt for line striping playgrounds and athletic fields. May also be applied on concrete, cement and other hard surfaces.

KEY SKU	MFG#	DESCRIPTION
A ..... M09134 ...790		Athletic Stripping Paint, Water Based, White, 18 oz.
A ..... M09041 ...791		Athletic Stripping Paint, Water Based, Yellow, 18 oz.

### B - Aervoe Marking Chalk

A blend of raw materials that are safe on all surfaces for temporary marking. Mark will disappear in 10 to 20 days when exposed to water, traffic and other abrasions. It can also be removed with a pressure washer. Safe for turf surfaces, Easy clean up with soap and water within 10 min of application, lead free, non-clogging can empties contents completely, Adheres to pavement, gravel, soil, and grass.

### C - Aervoe Survey Marking Paint

Aervoe Survey Marking Paint is a superior upside down marking paint with excellent visibility and durability. Regular colors are visible for up to 6 months depending on traffic and exposure. Fluorescent colors last 3 to 6 months. Use with Spot Marker gun, Marking Stick, or by hand. Adheres to almost any surface, including wood, concrete, asphalt, brick, and gravel.

### D - Striping Paint - Solvent Based

Solvent-based striping paint adheres to a variety of surfaces, including asphalt and concrete. Not recommended for turf surfaces.

Fast drying - 5 minutes to touch, Durable, long-lasting stripe, high-visibility colors, VOC compliant and lead-free, non-clogging spray tip, excellent resistance to traffic, oil and gasoline. One case of aerosol paint will yield a 4-inch stripe approximately 700 linear feet. Applications: parking lots, warehouse aisles, school yards, tennis courts, and factory safety aisles.

### E - Spot Marker

Well balanced 10" gun-style spray can holder/dispenser is precise, and easy to control. Can be used with or without removing cap.

### F - Marking Stick

A hand held, rolling inverted marking paint applicator. Includes a flag holder and flag insert spike. Simply remove the wheel and insert the spike for quick flag placement. 32" long.

### G - Striping Stick

For stenciling and touch-up striped lines. Approximately 36" long. Use with Aervoe Striping Paints only.

### H - Vers-A-Striper® - Pavement

A lightweight, yet heavy-duty aerosol striping paint applicator for use on hard surfaces such as asphalt and concrete. Stripe widths up to 4". Includes a striping alignment guide.

### I - Vers-A-Striper® - Turf and Dirt

A lightweight, yet heavy-duty aerosol striping paint applicator for use on turf and dirt surfaces. 10" diameter wheels for use on uneven ground and turf. Stripe widths up to 4". Includes a striping alignment guide.

## A - Poly Stencils

1/8" gauge Polyvinyl stencils will withstand heavy use. Stencils are all designed to meet D.O.T. specs nationwide. Layout and designs follow through to the smallest stencil, allowing you to create more visible and proportioned markings. Stencils are easy to transport, lighter than wood or metal and clean up easily. Stencils roll up easily for quick UPS shipping or delivery. Stencils will always lay flat, yet will flex to conform to any surface—smooth or rough. Apply paint with brush, roller or spray equipment. When paint dries, it simply flakes off. Unlike wood, aluminum or other stencils, our stencils will not break, bend, crease, warp or load up with paint. Designed for heavy use, with minimum care our stencils will last a lifetime.

## ROLL-UP SIGNS AND STANDS

### DuraLatch® Roll-Up Signs

The patented DuraLatch® Roll-Up Sign has pliable EPDM rubber straps on each corner with military-style lift-the-dot fasteners that are made of heavy-duty, zinc-plated steel. The fasteners attach to solid-tip steel posts in DuraLatch® Crossbracing (crossbracing sold separately) and hold firmly, even in backwinds. The straps expand and contract as needed, allowing for more give-and-take in varying weather conditions, keeping sign taut and readable. DuraLatch® signs can be used with all WindMaster® Sign Stands.

## ROLL-UP SIGNS AND STANDS

### A - TrafficMaster® 3612DLK Sign Stand

The TrafficMaster® Sign Stand is designed to accommodate all 36" and 48" MDI Compact® signs. It features a dual-spring base design with strong initial tension that resists twisting and turning of the sign in high wind gusts. The Drop & Lock upright features a molded cap that helps to channel the MDI crossbrace into the upright and a spring-loaded pin automatically locks the sign in place. Store as one with the MDI Compact® sign for fast and easy deployment. Adjustable legs for stability on curbs and uneven terrain.

### B - Economy WindMaster® 5018 Sign Stand

The Economy WindMaster® 5018 is designed to accommodate roll-up, aluminum, plywood, plastic and aluminum laminate signs (sign mounting brackets are required and are sold separately). The 5018 has a dual-spring base design with strong initial tension that resists twisting and turning of the sign in high wind gusts. It features our patented BreakAway® System which allows vertical upright to break away from the sign stand upon impact. The legs are equipped with kick-release buttons for easy set-up and take down and they are adjustable to accommodate uneven terrain. The 5018 comes with a flag holder bracket that holds three wooden dowel flags (flags sold separately).

### C - Econo WindMaster® 5012NS Sign Stand *Special Order*

The Economy WindMaster® 5012NS takes up only 1-cubic foot of storage space and is designed for use with roll-up signs. Roll-up signs attach to the 5012NS with a screw-lock sign bracket (included). Simply slide the vertical crossbrace into the bracket channel and secure the signface by turning the screw handle until the crossbrace fits tightly against the pressure plate. The 5012NS features a springless base design and adjustable, telescoping legs with kick-release buttons.

### D - WindMaster® 4814DLK Sign Stand

The WindMaster® 4814DLK takes up only 1-cubic foot of storage space and is designed to accommodate all MDI roll-up signs. 4814@DLK has a dual-spring base for wind resistance, kick-release legs for easy set-up and take down and adjustable, telescoping legs for stability. The Drop & Lock upright features a molded cap that helps to channel the MDI crossbrace into the upright and the spring-loaded pin automatically locks sign in place.

### E - WindMaster® 4818K Sign Stand

The WindMaster® 4818@K is designed to accommodate roll-up, aluminum, plywood, plastic and aluminum laminate signs (sign mounting brackets are required and are sold separately). The 4818@K has dual-springs for wind resistance. The legs are equipped with kick-release buttons for easy set-up and take down and are adjustable to accommodate uneven terrain. It features our patented BreakAway® system, which allows vertical upright to break away from the stand on impact. The 4818@K comes with a flag holder bracket that holds three wooden dowel flags (flags sold separately).

### F - Median Barrier 4818NL Sign Stand with Springs

The Median Barrier Sign Stand with Springs Model 4818NL is equipped with WindMaster® dual springs and telescoping upright. It is used with MDI's Median Barrier Bracket (Model SA-10436 or SA-28305). Sign stand attaches easily to bracket with just two bolts. The Median Barrier Sign Stand with Springs accommodates a 36" or 48" roll-up or rigid sign. It comes with two Universal Rigid Sign Brackets (for signs up to 3/4" thick), a set of Universal Roll-Up Sign Brackets and one Flag Holder Bracket (holds up to 3 wooden dowel flags -- flags sold separately).

## ROLL-UP SIGNS AND STANDS

### A - Sign Storage Bags for Roll-up Signs

Sign Storage Bags accommodates roll-up signs and/or sign stands and is constructed of heavy-duty nylon. It loads from the top and has a flap with hook and loop closures. There is a reinforced handle which allows bag to be carried horizontally.

### B - TrafficMaster® Sign Stand Storage Box

Molded Storage Box holds two folded TrafficMaster® Sign Stands, side by side. Box can be mounted on the inside or outside of truck and is equipped with drainage holes to prevent water accumulation.

### C - Rigid Sign Mounting Bracket SA-01729

The Rigid Sign Mounting Bracket Model SA-01729 allows WindMaster® sign stands Model 4818K, 4860K, 4884K and 5018 to display a rigid sign up to 3/4" thick. Brackets are sold separately and two are required per signface. Brackets are held in place by screw clamps that attach to sign stand upright. Note: Two brackets are required.

### D - Roll Up Sign Mounting Bracket SA-10001

The Roll-Up Sign Mounting Bracket Model SA-10001 is a 2-piece set that accommodates any roll-up signface with standard 1.25" wide fiberglass crossbracing, including all MDI roll-up signfaces. It is constructed of durable, rigid plastic 3/16" thick. The brackets fit over top of sign stand upright and slide down over detent buttons.

### E - Median Barrier Bracket SA-10436

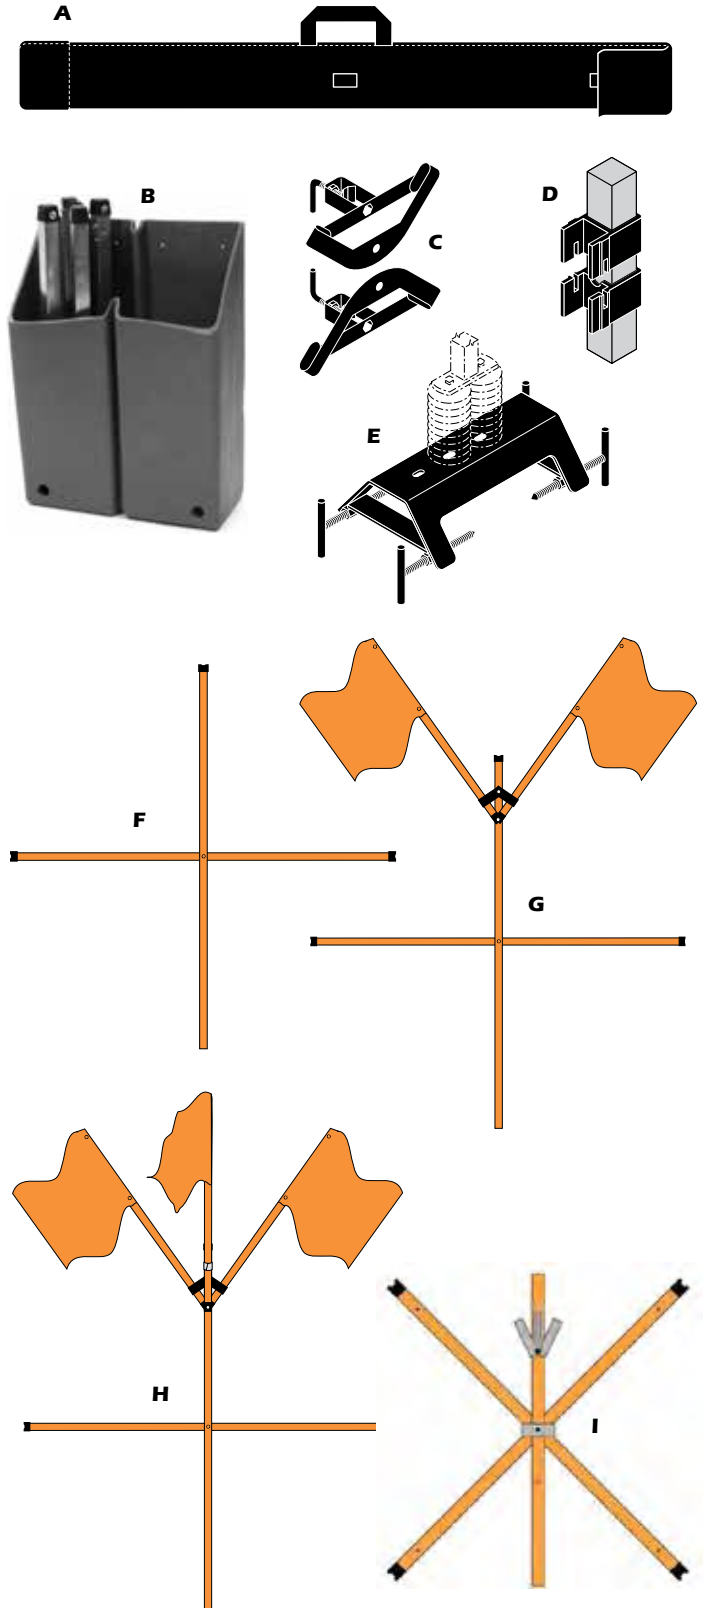

The Median Barrier Bracket Model SA-10436 attaches to concrete median barriers that are 5"-11" wide. It is used with MDI's Median Barrier Sign Stand with Springs Model 4818NL. The springs on the sign stand are fastened to the bracket with just two bolts. The bracket and sign stand assembly attach firmly to median barrier with four, screw-in T-handle spikes.

### F, G, H - DuraLatch® Crossbracing for Diamond Signs

DuraLatch® Crossbracing holds any 36" x 46" diamond-shaped DuraLatch® Roll-Up Sign. It has three heavy-duty, solid-tip steel posts that the Lift-The-Dot fasteners on the sign straps snap on to. The posts hold sign securely while the straps allow it to expand and contract to stay taut. For storing, crossbracing pivots to form one piece that the roll-up sign wraps around. For use with all WindMaster® Sign Stands.

### I - DuraLatch® Crossbracing for Rectangular Signs

DuraLatch® Crossbracing holds rectangular DuraLatch® Roll-Up Signs. It has four heavy-duty, solid-tip steel posts that the Lift-The-Dot fasteners on the sign straps snap on to. The posts hold sign securely while the straps allow it to expand and contract to stay taut. The Flag Bracket holds 3 wooden dowel flags (flags sold separately). For storing, crossbracing pivots to form one piece that the roll-up sign wraps around. For use with all WindMaster® Sign Stands Models 4815RBK, 4818@K, 4850RBK, 4860@K, 4884KET and 5018.

## SAFETY SYSTEMS AND SIGNS HAWAII TRAFFIC CONTROL SERVICES

When planning a construction job, street repairs, heavy equipment movement, a parade, block party, utility work, a race, etc. on any public street, a Traffic Plan in conformance with the Manual of Uniform Traffic Control Devices (MUTCD) is mandatory to receive a permit from DOT and/or the building department. Failure to have traffic control plans on file can delay projects, or result in fines.

Safety Systems and Signs Hawaii has a full crew of ATSSA (American Traffic Safety Services Association) certified worksite traffic supervisors to examine your jobsite or drawings to create a traffic control plan to keep traffic moving as safely and efficiently as possible around your work zone or disruption.

We provide rental or sale signs, cones, barricades, flags, signs and signstands, message and arrowboards for your use.

If you prefer, we will set up, monitor, maintain and remove detour equipment if you do not have trained employees available with you.

### Choose your require service:

**Traffic Planning:** Certified traffic plans (mandatory to receive a permit from DOT and/or building department). Plans show location of each piece of equipment and signage.

**Delivery/Pickup:** We deliver your traffic control cones, barricades, signs, etc. to one location at your yard or job site. We pick up the same from one site when you call, or at a pre-determined time scheduled by you.

**Delivery/Setup:** We program the messages on the message boards, check the batteries and lights on the barricades, refuel work flood lights, and make sure your signs and equipment are in good working order and compliance for the duration of your job. We set up the equipment according to your instructions on the job site.

**Detour services:** We deliver and set up all signs, cones and other devices each day of the job, and remove or reposition them for the evening.

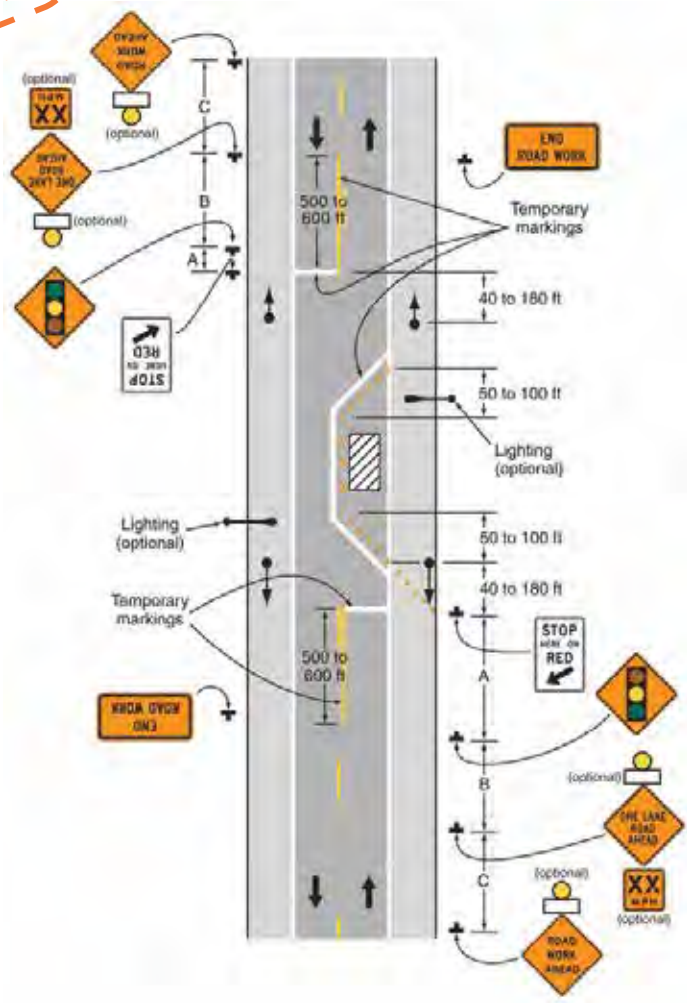

**Maintaining a Mobile Job Site:** We stay on site during the job hours, and move the lane closures to keep a secure work site as your crew travels down the road while paving, striping or performing utility work.

Call us at 847-4017 for more information or to schedule a consultation.

SERVICE

## ROADSIDE FLARES & EMERGENCY KITS

### A, B - LED Baton Road Flare & Kit

The Aervoe LED Baton Road Flare is a rechargeable multipurpose signaling device used as an emergency road flare or a handheld safety wand. Made of durable polycarbonate plastic, this 15-LED flare is a safe alternative to incendiary flares. It is crushproof with an impact resistant rubber housing and waterproof to a depth of 50 feet. Also includes an N35 magnet to attach it to any ferrous metal surface. Features 5 flash patterns, including S.O.S. rescue morse code, and is visible up to 1/2 mile.

#### A - The Single Pack

The single pack models come with a 120V wall charger, a 12V vehicle charger, a USB charger, and a storage bag.

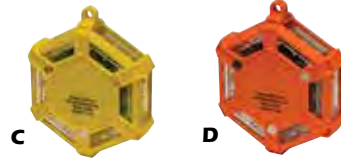

#### B - The Kit

The kit models come with a total of 3 LED Baton Road Flares, a hard plastic storage case that also operates as the charging center, a 120V wall charger, a 12V vehicle charger, and two #1159 Flex Fit Tripods.

### C, D - Classic Road Flare Yellow

An 18-LED flare that is a safe alternative to incendiary flares. Crushproof, waterproof and floats for marine applications. 7 Flash patterns and visible up to 1 mile. Magnet to attach to any magnetic surface. Requires 2 AA replaceable batteries (included).

KEY	SKU	MFG#	DESCRIPTION
A	T09032	1155	LED Baton Road Flare, single, safety orange w/ red LED's
A	T09034	1154	LED Baton Road Flare, single, yellow w/ amber LED's
B	T09033	1158	LED Baton Road Flare, 3-pack kit, safety orange w/ red LED's
B	T09004	1157	LED Baton Road Flare, 3-pack kit, yellow w/ amber LED's
C	T09072	1145	Classic Road Flare, 18 LED's, yellow with amber LED's
D	T09073	1146	Classic Road Flare, 18 LED's, red with red LED's

### E - Deluxe Roadside Emergency Kit

Includes [3] 20 minute flares, [1] folding reflective triangle, [1] flashlight, [2] DD heavy duty batteries, [1] 6 inch green lightstick, [1] thermal blanket, [1] bright orange vest, [1] rain poncho, [1] shop cloth, jumper cables (10 gauge 8 feet), [1] multi tool and [1] first aid packet (4 towelettes, 35 bandages, 1 large wound pad, 1 cold pack, 1 pair latex gloves, 2 first aid creams, 6 alcohol wipes, 6 antiseptic towelettes, 4 sting wipes). A total of 79 pieces.

KEY	SKU	MFG#	DESCRIPTION
F	T09049	8901	Deluxe Roadside Emergency Kit

### F - Fleet Safety Kit

This best value safety kit offers the following safety products:

- Three (3) triangle warning flares
- One (1) 2 3/4lb. 10BC fire extinguisher
- Three (3) 30-minute Cyalume® Lightsticks
- One (1) heavy duty plastic carrying case with handle

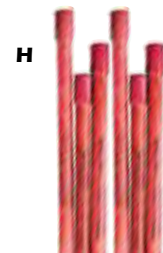

### G - Triangle Reflector Flare Warning Kit

MiroFlare Triangular reflective flares are safe to handle and can be used repeatedly for highway emergency situations. The black flare bottom is sand filled to provide proper ballast. Flares fold for easy storage, 3/set.

### H - 30 Minute Emergency Flare

Traditional capped flare, ignited by removing plastic cap and scraping against a scratch surface for fast positive starting without matches. Minimum full burning time of 30 minutes.

KEY	SKU	MFG#	DESCRIPTION
F	T09036	95-04-09	Fleet Safety Kit
G	T09007	95-03-010	Triangular plastic flare, red reflectors, kit of 3 in case
H	T09031	0730	30 Minute Emergency Flare, single

## TRAFFIC CONES

A

### A - RS Series Traffic Cone

Features 3M 3840 hi-intensity reflective cone collars, complementing the high quality of the Revolution series. By pre-applying 3M 3840 collars on all JBC night cones, we have created a cone with outstanding durability and superior night-time safety.

The Revolution series is quality manufactured using premium grade PVC Injection molding technology, resulting in the most durable traffic cones available in the U.S. market. Our patented process gives you the best of both worlds—high quality products, at a very attractive price.

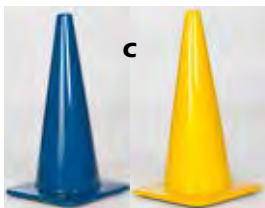

B

### B - Traffic Cones

All vinyl construction assures durability and flexibility in all weather conditions. Long lasting brilliant fluorescent color provides high visibility protection. Ultraviolet stabilized color provides maximum resistance to fading. High density base creates low center of gravity for maximum stability. Engineered to meet MUTCD specifications.

### C - Colored Safety Cones

Same features as the Traffic Cones but available in blue and yellow.

C

### D - Colored Sport Cones

For warehouses, stores, janitorial staff, pedestrian control, driver's education, track and sporting events. Flow molded, dayglow fluorescent lime PVC with white inner liner differentiates work zone for added measure of safety.

D

### E - 28" Safety Cone - Collapsible Kit 3-Pack

28" collapsible safety cone kit is compact and stores easily. Features a 2.5 lb. weighted base, 2 Reflective stripes, blinking red LED beacon and storage case that holds the cone and light. Meets MUTCD specifications and NFPA 1901 Standards; Section 6.7.3 Miscellaneous Equipment. Requires 2 AAA batteries (not included). Set of 3 cones included in kit.

Applications: roadside safety, construction sites, warehouse/retail hazard identification, emergency services personnel, tow trucks, and personal automotive safety.

### F - 3M™ Flexible Prismatic Cone Sheeting Series 3340

Cone sleeves made from 3M™ Flexible Prismatic Sheeting Series 3340 are highly conformable and come with pre-coated, pressure sensitive adhesive for easy application. Thin, flexible and durable, the sheeting delivers superior performance and brightness throughout its life.

## TRAFFIC CONES ACCESSORIES

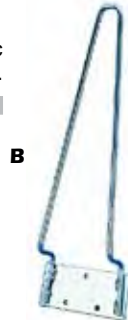

### A - Retractable Cone-Bar

Retractable cone bar is designed to work with traffic cones or N-Top delineators. The Cone-Bar is extremely versatile for road trench or utility works use, construction sites, parking lots, pedestrian areas, and more. Effectiveness Compared to warning tape, the Cone-Bar is highly effective in terms of both cost and functionality. The Cone-Bars is reusable, highly reflective at night, and it creates true work-site traffic control.

### B - Cone Holder

Holds approximately (10) 18" cones or (5) 28" cones, For 18" and 28" cones only. Mounting plate is 6.75" wide. Height of unit = 22" from bottom of mounting plate to top of holder.

### C - Barricade Tape Clip

For attaching tape to traffic cones and posts. Fits all manufacturers traffic cones. Provides a quick, easy set up visual barrier around hazardous areas.

KEY	SKU	MFG#	DESCRIPTION
A	T01079	RCB6YB	Retractable Cone-Bar, Yellow/Black, Adjusts 3.35' - 6.6'
A	T01080	RCB10YB	Retractable Cone-Bar, Yellow/Black, Adjusts 6' - 10.5'

## MONSTER<sup>TM</sup> MOTION SAFETY

## BARRICADE LIGHTS

### D, E - Economy Barricade Lights

Value priced economy light. Light intensity is up to 4 effective candelas. 3-Way Operation: Steady On, Flashing, or Off. Only operates at night, and automatically turns off during daytime. Extended battery life of up to 4 months in steady mode. Efficient LED optic lens produces 30% more light output. Meets ITE specs and is NCHRP-350 approved.

### F - Solar Barricade Light, Type A/C 3-way

Most durable & efficient barricade light on the market. Light intensity is up to 4 effective candelas. 3-Way Operation: Steady On, Flashing, or Off. Only operates at night, and automatically turns off during daytime. Extended battery life of up to 5 years in steady mode. Battery rapidly recharges in one hour and lasts up to 2 weeks with no sunlight. Efficient LED optic lens produces 30% more light output.

### G - Solar Barricade Light, Type B 1-way Special Order

Most durable & efficient barricade light on the market. Light intensity is up to 35 effective candelas. 2-Way Operation: Flashing, or Off. Operates 24-hours a day, and dims 50% at night to extend battery life. Extended battery life of up to 5 years in steady mode. Battery rapidly recharges in one hour and lasts up to 2 weeks with no sunlight. Efficient LED optic lens produces 30% more light output. D-Cell, 6-volt lights with 10 LEDs.

### H - Type D Warning Light

The Type D light provides 360 degree visibility. Eliminates alignment problems of twisted drums. Exceeds I.T.E. purchase specification for Type D light. Takes two 6V batteries.

KEY	SKU	MFG#	DESCRIPTION
D	T04028	BC6.AC.P3.YA	Economy Barricade Light, 6-volt, type A/C, takes two 6V

## BARRICADES

Traffix  
Devices Inc.

### A, B - Type I & II Barricades

The 35000 Series barricades, feature metal legs with High Impact (blow molded) panels. Now you can combine the strength of impact resistant plastic panels with traditional metal legs. These barricade components come together to form a more durable folding barricade. 24 inch wide.

#### Features

- NCHRP 350 accepted with standard or "D" cell barricade lights
- Meets MUTCD standards
- Durable impact resistant plastic panels
- Panels are recessed to protect reflective sheeting
- Reinforced panels to increase stiffness and reduce bending or warping

### C - TD3000 Works A-Frame Barricade

Lightweight features allows for ease of handling. Withstands the strongest of impacts. Manufactured from a specially formulated plastic compound utilizing polymer protection UV stabilizer. A-Frame legs with rails inserted are angled 15° for greater stability. Top rail is 36.5" above ground to conform to MUTCD standards. Can be used as a Type I or Type II barricade or as a sign stand.

### D - Low Profile Airport Barricade

10"H x 96"L x 10"W, 19 lbs. empty, 270 lbs. full, .20" thick high density polyethylene wall, 84" interconnected length.

### E, F - Plasticade® Barricade

Will not damage impacting vehicles and are reusable up to 17 impacts and drive-overs, minimizing insurance costs and liability exposure.

Molded handles for mounting flashers. Hollow units hold 10 lbs of sand at the pavement. When ballasted, Plasticade weighs about 24 lbs, the same as a steel barricade – except most of the weight is at the bottom, so Plasticade is designed to go under a car upon impact, lessening possible damage to both vehicle and barricade. A bar on the bottom holds a sand bag in case more weight is needed. NCHRP-350 Accepted, Meets MUTCD Standards. 25"w x 45"h.

### G - Narrowcade®

Holds 12"W x 24"H Sign Legend. Regressed sign area helps to protect sign faces. Features "click lock" hinges for a positive interlock in the open position. Can be internally ballasted with sand. Stacking lugs facilitate handling by keeping stacked units from sliding and damaging sign faces.

### H - Minicade®

All Plastic Sign Frame, holds two, 12"W x 24"H signs. Regressed sign area helps to protect sign faces. Features "click lock" hinges for a positive interlock in the open position. Sign face can receive vinyl sheeting (with surface preparation), metal, Coroplast™, or acrylic sign blanks. Can be internally ballasted with sand. Stacking lugs facilitate handling by keeping stacked units from sliding and damaging sign faces.

## PADDLES AND WARNING FLAGS

### A, B - BlinkerPaddles® Special Order

#### Flashing LED paddles deliver a BRIGHT warning!

Brilliant Technology. TAPCO has applied the BlinkerSign® technology to their STOP and SLOW paddles. Eight super bright LEDs on each face flash a warning in unison, dramatically increasing the paddles conspicuity.

Federally Compliant. TAPCO BlinkerPaddles® conform to MUTCD specifications. The LEDs match the sign's background color and shape, allowing drivers to react sooner. The LEDs flash in unison, sixty times per minute. BlinkerPaddles can flash their warning all day long, and they are especially effective in rain, fog, snow and during low light conditions.

Light Weight. The 18" BlinkerPaddle® weighs less than 2 lbs., reducing arm stress while maximizing safety. A conveniently placed thumb switch allows you to switch either face (or both faces) on or off easily and instantly. Additionally, a gravity switch allows you to simply lower the BlinkerPaddle® to turn it off, then raise it to turn back on, saving effort and prolonging battery life.

### C - Roll-Up Stop/Slow Paddle Kit

Roll-Up stop/slow paddles offer full size paddles in a compact, lightweight, and easy to store design. Available in 18" and 24" octagons and in a variety of reflective and non-reflective materials, these kits come complete with double sided roll-up sign face, handle, and storage bag. Meets all MUTCD specifications.

### D - Stop/Slow Paddles

Lightweight double-sided plexi paddles are ideal for controlling traffic in construction work sites, school crosswalks, parking lots, any other area where traffic and pedestrian are in close proximity.

### E - Traffic Warning Flags

Bright red/orange vinyl with heat sealed hems and reinforced sewing for flag staff. Available with or without staff.

KEY	SKU	MFG#	DESCRIPTION

## DELINEATORS & CHANNELIZERS

### F - Traffix Channelizer Drum™ 18000 Series *Special Order*

Minimum of 18" wide throughout its 36" height, regardless of orientation. Tapered design allows stacking with or without barricade lights for easy handling and storage. Drum and base remain "snapped together" until impacted or separated for transportation and storage. Built-in carrying and dragging handle. Two mounting holes for optional barricade lights. UV inhibitors minimize fading. NTEPEP tested-meets or exceeds MUTCD specifications. "D" shaped design minimizes rolling after impact and separation from base. 100% recycled rubber base for increased durability and "gription" which resists movement from passing vehicles. SPECIAL ORDER ONLY. Call for availability and pricing.

### G - Traffix Tire Ring Base *Special Order*

Made from truck tire sidewall sections. Easy to use and provides all the ballast you'll need to hold a drum in place, even in the windiest conditions. The tire ring eliminates the need for sandbags that tear or break leaving messy sand on the roadway. The rubber tire ring "grips the road" and minimizes drum movement and rotation. SPECIAL ORDER ONLY. Call for availability and pricing.

KEY SKU	MFG#	DESCRIPTION
<b>Traffix Channelizer Drum 18000 Series</b>		
F..... T02671	18044-TB-HIP-NB	Channelizer Drum, 4" high reflective bands, base not included
G..... T02672	18020-TRB	Tire Ring Base, 25 lbs.

### A - Traffix Grabber® II Delineator Tubes

The stem of the Grabber-Tube II is made of flexible yet durable fluorescent low density polyethylene material, with UV inhibitors to minimize fading. The NEW Grabber Handle fits your hand better and makes movement and placement a breeze and the NEW Grabber Hole in the stem provides convenient carrying handle for movement and deployment, even off the bed of a work truck. The recessed areas on the stem protect the reflective bands, minimizing rips and scratches. The extra large flange at the bottom of the stem allows the rubber base to hold it firmly in place. Bases are made from 100% Recycled Rubber, and come in 12 and 18 pound varieties. All Recycled Rubber Bases are designed with easy grip handles, and stacking rings for easy storage and transportation. Meets Federal MUTCD standards.

### B - FG 300 Model PE Delineator

Constructed of low-density polyethylene (LDPE), the Model PE is ideal for applications with average impact frequency. This popular post enjoys wide use from freeways to shopping malls to school crosswalks. Our most economical post, available in a wide variety of colors, is the right choice for various applications.

### C - FlexStake HD® Soil Anchor Delineator

FlexStake HD is a ground mounted delineator that can take up to 100 vehicular impacts at 55 mph. The post is a color impregnated, UV stabilized polycarbonate extrusion - impact-resistant to 80 mph. The hinge is hi-density, all-weather polymer, mechanically fastened to a patented barbed anchor that really stays in the ground. The anchor is a hi-density polymer that is unaffected by adverse soil conditions. Reflectors can be added.

### D - FlexStake Surface Mount SM

The FlexStake Surface Mount SM uses the same color impregnated polycarbonate extrusion and flexible hinge as the virtually indestructible FlexStake HD surface mounted SM's are still standing after 8 years of hard road use. Reflectors can be added.

FlexStake's SM's outlast every other surface mounted delineator on the market by an incredible margin. SM's are easy to assemble and quick to install. They can be mounted to concrete, asphalt, wood and other hard surfaces using lag bolts, butyl rubber, epoxy and nails.

## TRAFFIC BARRIERS

### ArmorGuard™

#### DESIGNED FOR SAFE, FAST, & EASY BARRIER DEPLOYMENT

The ArmorGuard Movable Steel Barrier is designed for short term - short duration work zones where maximum portability and low deflection is needed. Each ArmorGuard Section is 8.5 m (28') long. The ArmorGuard System can be quickly and easily opened and positioned without electricity or heavy equipment. ArmorGuard Sections are easily raised and lowered manually or with optional compressed air. Sections can be moved laterally with a forklift / front loader, pickup truck or by hand. Barrier can be moved Longitudinally with a pickup truck. Sections can also be attached or joined in combination with Portable Concrete Barrier to create controlled access gates.

#### FEATURES:

- Quick and easy deployment
- Can be moved laterally or longitudinally to optimize traffic flow and work zone space
- High mobility provides flexibility
- Low deflection premium mobile steel barrier
- Pneumatic option for wheel activation available
- Rubber pads and wheels protect road surface during moves
- No special equipment required at work site
- No electrical / control systems required to operate

#### WHERE TO USE:

Short term work zones and bridge repair projects where barrier deployments and lane movements are frequent.

#### ARMORGUARD MOVABLE BARRIER SPECIFICATIONS:

- Classification - Longitudinal Barrier
- Length - 8 m / 26'
- Width - 710 mm / 28"
- Height - 840 mm / 33"
- Unanchored TL-3 Deflection - 1.9 m / 76"
- Test Level - NCHRP 350 TL 2 / 3

### ArmorGuard™ Gate

#### SAFELY SHIELDS MEDIAN OPENINGS

The ArmorGuard Steel Barrier Gate is a heavily reinforced gate designed for emergency openings, contraflow applications and workzone access. The steel barrier gate system can be safely opened or closed in under 2 minutes using only manual power. Optional pneumatic jacks can be added to make opening the gate even faster. The System is easy to maneuver on steeper gradients with the use of a built-in navigation and braking till. The ArmorGuard Steel Barrier Gate has been performance tested on all road surface types including gravel. The ArmorGuard Steel Barrier Gate is available in 8, 12 or 16 m (26', 39' or 52') sections.

#### FEATURES:

- 160 mm (6") Permanent Deflection, 8 m (26') System tested
- Can be deployed on gradients up to 8%
- Robust transition design
- Easily installed on bridge decks and viaducts
- Available as a 8, 12 or 16 m (26, 39 or 52') System
- Easily opens without electricity
- Performance tested to open and close in under 2 minutes.
- Pneumatic option available
- Ideally suited for rerouting traffic and for emergency access

#### WHERE TO USE:

In center permanent and temporary medians to create a gate between concrete barrier or guardrail. Can also be used on a side of road or as a transition to a different concrete barrier profile.

#### ARMORGUARD GATE SPECIFICATIONS:

- Classification - Longitudinal Barrier Gate
- Length - 8, 12, 16 m / 26, 39, 52'
- Width - 710 mm / 28"
- Height - 840 mm / 33"
- 8 m (26') System Weight - 2507 kg / 5527 lb.
- Perm. Deflection - 160 mm / 6"

**E**

### A - Sentry™ Water-Cable Barrier Wall

The Sentry Water-Cable Barrier has been tested and accepted for all TL-1, TL-2, and TL-3 lightweight 1,807 lbs (820 kg) and heavyweight 4,409 lbs (2,000 kg) vehicle impacts at 45 mph (7-kph) and 62.5 mph (100 kph) impacts. Sentry can do any job, without the addition of external steel or extra parts, where water barrier is specified.

Sentry Water-Cable Barrier allows for the creation of a free standing continuous longitudinal water-cable barrier. Each Sentry wall section has four integrally molded corrosion resistant steel cables and either bushings connection the barrier sections to prevent vehicle breaching. Weighing 2,000 lbs (907 kg) when filled, the Sentry Water-Cable Barrier softly absorbs the impacting vehicles energy progressively using water, and the steel cables to capture the vehicle without redirection, avoiding a secondary incident. SPECIAL ORDER ONLY. Call for availability and pricing.

### B, C - Sentry Longitudinal Energy Dissipater (SLED) *Special Order*

The Sentry Longitudinal Energy Dissipater or SLED for short, is a narrow, non-redirective gating crash cushion for treating the end of concrete barriers or the Sentry Water Cable Barrier used in construction work zones

KEY SKU	MFG#	DESCRIPTION
A.....T07561.....	45043-O.....	Sentry™ Water-Cable Barrier Wall, Orange, 72"L x 42"H x 22.5"W
A.....T07562.....	45043-W.....	Sentry™ Water-Cable Barrier Wall, White, 72"L x 42"H x 22.5"W

A.....T07682.....	45043-CPGALV.....	Steel Connection T-Pin for Sentry™ Water-Cable Barrier
A.....T07659.....	45043-WWF.....	Chain Link Fence Panel for Sentry™ Water-Cable Barrier
B.....T07681.....	45044-Y-CIS.....	SLED End Treatment for Sentry Water Barrier
C.....T07693.....	45044-T.....	Transition Concrete Barrier Attachment for SLED configurations

### D - TrafFix Water-Wall™

- Durable polyethylene plastic minimizes cracking and breaking.
- Molded through holes eliminate bowing when filled with water.
- Double wall knuckle design minimizes breakage at hinge points.
- Hinge design allows for a 30-degree pivot between sections.
- Large 8" fill hole speeds filling process, includes twist-lock plastic cap.
- New tamper resistant, corner offset drain plug with coarse buttress thread - screws in or out in only 2 1/2 turns.
- Includes one steel connection pin that allows sections to be locked together.
- Forklift/Pallet Jack slots at bottom allow for easy movement and transport.
- Standard colors are orange/red or white - additional colors available upon request.
- Will accept plastic or chain-link fence (with extended connection pins).

NCHRP 350 Approved As:

- TL-1 Longitudinal Barrier – HSA-10/B-130.
- TL-2 Longitudinal Barricade – HSA-10/WZ-224.
- TL-3 Barricade – HSA-10/WZ-224.

KEY SKU	MFG#	DESCRIPTION

### E - TrafFix Water-Wall Fence™ *Special Order*

Keep an area or construction zone secure. Easily retrofits to the TrafFix Water-Wall to create an imposing and secure barrier to unwanted entries. Water Wall Fence is made of 11 gauge galvanized steel mesh providing security and visibility. Fence sections interlink with TrafFix Water-Wall to provide better overall stability and allows for changes in ground height. TrafFix Water-Wall and WWF can rotate up to 30° for easy layout and encircling of job sites. Additional hole provided at the upper end of T-Pin for security bolt to enhance security. No need to remove fence to fill TrafFix Water-Wall. Fill caps are easily accessible with fence installed. 6' Single or 12' Double Gate provides a secure entrance for workers or work vehicles. SPECIAL ORDER ONLY. Call for availability and pricing.

MASH (Manual for Assessing Safety Hardware) presents uniform guidelines for crash testing permanent and temporary highway safety features and recommends evaluation criteria to assess test results.

MASH updates and replaces NCHRP Report 350. This manual is recommended for highway design engineers, bridge engineers, safety engineers, researchers, hardware developers, crash test laboratories, and others concerned with safety features used in the highway environment. Products addressed in MASH include longitudinal barriers, transitions, end terminals, crash cushions, breakaway supports, truck mounted attenuators, and work zone traffic control devices. The crash performance is judged on structural adequacy, occupant risk, and vehicle trajectory.

### Key Points

- All new testing will be done following MASH evaluation techniques.
- Hardware accepted under NCHRP Report 350 is appropriate for replacement and new installation. Retesting is not required.
- As of January 1, 2011, all new products must be tested using MASH crash test criteria for use on the National Highway System (NHS).

### NCHRP 350 Sunset

On November 12, 2015, FHWA issued a memorandum indicating that all modifications to NCHRP 350-tested devices will require testing under MASH in order to receive a Federal-aid eligibility letter from FHWA. In addition, a Federal Register Notice was also issued regarding this action. This has provided a significant step toward the implementation of MASH.

- December 31, 2017** W-Beam Barriers and cast-in-place Concrete Barriers.
- June 30, 2018** W-Beam Terminals
- December 31, 2018** Cable Barriers, Cable Barrier Terminals, and Crash Cushions
- December 31, 2019** Bridge Rails, Transitions, All other Longitudinal Barriers (including portable barriers install permanently), all other Terminals, Sign Supports, and all other breakaway hardware

### Significant Changes between NCHRP 350 and MASH

Topic	NCHRP 350	MASH
Small car test vehicle	820C vehicle (1,800 lbs.)	1100C vehicle (2,420 lbs.)
Small car impact angle	20°	25°
Light truck test vehicle	2000P (4,400 lbs.)	2270P (5,000 lbs.)
Gating terminals and crash cushion impact angle	15°	5° - 15°
Variable message signs and arrow board trailers	No mention	Added to TMA crash test matrix
Support structure and work zone traffic control device testing	Only small car tested	Small car and light truck tested
Windshield damage criteria	Subjective/Qualitative	Objective/Quantitative
Vehicle rebound in crash cushion tests	None	Required

### SentryII™ Water-Cable Barrier Wall

### Big Sandy® Sand Barrels

### SLED™ Sentry Longitudinal Energy Dissipater

### Water-Cable Barrier Wall

### Scorpion II® Trailer & Truck Mounted Attenuators

## IMPACT ATTENUATORS

TraFix  
Devices Inc.

### Big Sandy® Sand Barrels

The TraFix Devices "Big Sandy" is an Impact Attenuator Sand Barrel that is easy to move and provides external verification of the barrels correct weight of sand. This Impact Attenuator/Crash Cushion Sand Barrel has been tested and certified to meet the crash worthy requirements of NCHRP 350. "Big Sandy" Sand Barrels go above and beyond these requirement to provide the best in highway safety.

Features:

- Different barrel configurations are used to create all of the weights used in current standard array geometries (200, 400, 700, 1400, and 2100 lbs)
- External sand weight verification is easy - use the right barrel configuration barrel to obtain the correct weight
- Each "Big Sandy" Barrel is a made from a single piece of Polyethylene Plastic to eliminate sand leakages - No Edge Seals
- No cone inserts for easy shipping, storing, and installation

TraFix  
Devices Inc.

### Scorpion® Truck Mounted Attenuator

The Scorpion consists of strut and cartridge sections that are linked together on a support frame. The curved side rails are made from corrosion resistant aluminum tubes, which offer full width impact protection along the entire length of the unit. The side rails were designed to re-direct errant vehicles away from the rear of the truck (coffin corner). Other manufacturers Crash Attenuator models have little or no side-angle impact protection.

The aluminum boxes are filled with a moisture proof, aluminum honeycomb material. The boxes, together with the curved side rails, absorb the energy from an impacting vehicle. The aluminum boxes are painted with a bright yellow powder-coated finish, for lasting durability.

*Call for availability and pricing.*

TraFix  
Devices Inc.

### Scorpion® Trailer Attenuator

The Scorpion Trailer Attenuator attaches directly to a trucks pintle hook. It does not require additional installation, or truck modification, beyond standard factory installed pintle hook and 1/2" steel frame plate. Upon impact, two heavy duty anti-rotation arms are driven against the frame plate, preventing angular rotation of the Scorpion Trailer during an accident.

- NCHRP 350 tested and approved for all mandatory and optional offset and angled impacts
- Single point attachment to standard 20 Ton (minimum) rated pintle hook is quick and easy
- Telescoping Anti-Rotational System (TARS™) minimizes Scorpion Trailer rotation during angled impacts and prevents trailer separation from host vehicle
- The Scorpion's proven modular design crushes in progressive states allowing quick and economical replacement of damaged parts
- The unique curved design gives full width protection to the back of the host vehicle and protects the "coffin corners" of the truck
- Rear axle placement improves trailer stability and prevents the tail from "bottoming out" on driveways or uneven surfaces
- Integrated electric brake system comes standard on Scorpion Trailer - brakes are automatically activated in the event of trailer separation or hitch failure
- Available in a shorter (12' 7") lower speed TL-2 (45 mph) model, which is ideal for congested city streets or where posted speeds are 45 mph or less
- Optional Arrow or Message Board can easily be attached to the Scorpion Trailer Attenuator

*Call for availability and pricing.*

# IMPACT ATTENUATORS

## Absorb 350 Crash Cushion

### NARROW ANCHORLESS WATER FILLED CRASH CUSHION

No ground anchoring, the largest selection of transitions and modular technology allow the ABSORB 350 Anchorless Crash Cushion to be used in multiple speed conditions. The ABSORB 350 Anchorless Crash Cushion is ideal for contractors due to the ease of maintenance after an impact and quick and easy deployment. At 610 mm (24") wide, this impact attenuator is ideally suited for narrow areas in work zones where road and workspace is limited. The ABSORB 350 Anchorless Crash Cushion is easy to restore after an impact because the Attenuator uses standardized modules. The use of standardized modules also helps to reduce inventory costs.

#### FEATURES:

- Designed for easy transition to multiple portable concrete barrier widths and shapes
- Can be deployed on almost any road surface
- No ground anchoring required
- Approved for use at permanent or work zone locations
- Meets NCHRP 350 TL-1, TL-2, TL-3 test criteria
- Fast & Easy deployment and retrieval
- Nose and transition can be reused after most design impacts
- Narrow footprint allows placement in front of hazards close to a travel lane

*Call for availability and pricing.*

## Universal TAU-II® Family of Crash Cushions

### A COMPLETE FAMILY OF REDIRECTIVE, NON-GATING CRASH CUSHIONS TO SHIELD ALMOST ANY HAZARD

The Redirective, Non-Gating, Universal TAU-II Crash Cushion Family consists of a full line of Impact Attenuators designed to meet the requirements of NCHRP Report 350, TL-2 & TL-3. This family of crash cushions are available in lengths and capacities for both low and high speed applications from 50-113 km/h (30-70 mph). The TAU-II Family of Crash Cushions can shield hazards with widths up to 2.6 m (102").

TAU-II Non-Gating Redirective Systems are ideally suited for roadway hazards such as the ends of rigid concrete barriers, steel barrier, bridge piers, signs, etc.

Ease of installation, low profile foundation and numerous transition options make the TAU-II Family of Crash Cushions ideal to shield most roadside hazards.

#### FEATURES:

- Minimum number of anchors needed to secure system
- Can be installed over expansion joints
- Low profile foundation ideal for deployment on bridge decks
- Numerous transition options
- Reusable nose standard
- Uses standard, non-proprietary transitions

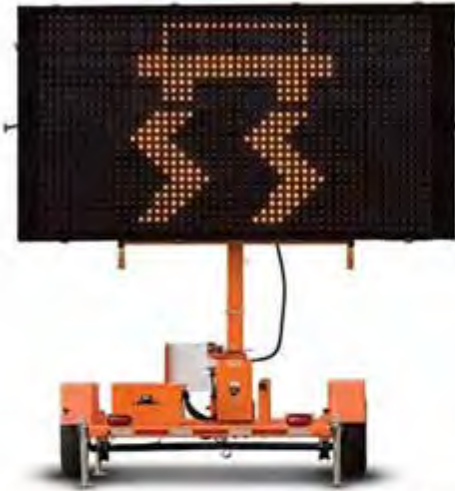

#### WHERE TO USE:

To shield concrete barrier or guardrail ends in medians, side of road or gore areas in asphalt or on concrete roads. Can be installed as a permanent or temporary attenuator.

## MESSAGE BOARDS

Solar Full Matrix Message Boards

Mini Three-Line Message Board

Vehicle Mount Message Board

### Wanco Solar Full Matrix Message Board

Full-size, full-matrix Wanco Variable Message Signs are the ideal choice when you need to get information to the public. The full matrix allows the greatest flexibility for displaying any type of message large or small letters, graphics and symbols. Perfect for a wide variety of applications, a multitude of functions and options make these signs extremely versatile.

### Wanco Solar Full Matrix 5-Color Message Board

Wanco Color Message Signs let you create messages like you never could before. Using Wanco computer software, you can create and combine graphic symbols with text to make bright, colorful messages that stand out. Design your own symbols, import your corporate logo and more. Add text, make multiple message screens and even create simple animations.

### Wanco Solar 3-Line Full Size Message Board

The Wanco Three-Line Message Sign is capable of displaying three rows of alphanumeric characters. When you need to get information to the public, the Three-Lines highly legible, ultra-bright LEDs display your message clearly. Unsurpassed quality, engineering and value, paired with a multitude of functions and options, make this sign perfect for a wide variety of applications.

### Wanco Vehicle Mount Message Boards

Truck-Mount Message Signs offer the advantages of our full-matrix signs packed into a smaller unit. Two models allow for mounting over the cab of a work truck with an integral electrically operated tilt-frame. Signs include preprogrammed messages, graphics, and extra-bold arrow patterns. Wanco's new touchscreen controller is included.

*Call for availability and pricing.*

### Wanco Mini Full Matrix Message Board

The Wanco Mini Matrix Message Sign is a compact version of our full-size variable message signs. Like our full-size signs, the Mini displays a full-matrix of bright, highly visible LEDs. About 30% smaller, the Mini trailer is highly maneuverable and easy to deploy. Use the full-matrix display to present message text and symbols in almost any application for traffic safety, emergency response, and special events.

### Wanco Mini Three-Line Message Boards

The Wanco Mini Three-Line Message Sign is a compact version of our full-size Three-Line Sign. About 30% smaller, the Mini is highly maneuverable and easy to deploy. Capable of displaying three rows of alphanumeric characters, when you need to get information to the public, the Three-Lines highly legible, ultra-bright LEDs display your message clearly.

### Wanco Metro Compact Message Board

Wanco's new Metro Variable Message Sign is our most compact portable message sign, designed for use in metropolitan areas. The Metro VMS features a full matrix of high-efficiency LEDs for outstanding legibility with reduced energy consumption and superior performance.

## ARROW BOARDS

### Wanco W|ECO® Solar Arrow Boards

The new generation of W|ECO® arrowboards is even more power-efficient. Innovative engineering employs a unique power system that uses small, eco-friendly batteries. The result is a remarkable technology that benefits the environment without sacrificing performance. W|ECO Arrowboards set the highest standards of quality and performance in the industry.

- Maintenance-free batteries
- Consumes 80% less power than traditional solar arrow boards
- Smaller batteries have 80% less lead content
- Sealed batteries will not leak or spill
- Decreased charging time saves energy and downtime
- Manufacturing process emits near-zero VOCs
- Nearly every component can be recycled

*Call for availability and pricing.*

### Wanco Vehicle Mounted Arrow Boards

Vehicle-mount arrow boards provide an obvious solution for convoys, crash-cushion (TMA) trucks and emergency repair crews. Available in four sizes, with the same features as our trailer-mount models, Wanco's proprietary LED design provides wide angularity and superior visibility. Wanco also has the largest selection of mounting options available for vehicle mount arrow boards.

- Easy to operate and maintain
- High-output LEDs provide superior visibility
- 25 lamps
- 12 arrow display modes
- Positive-drive voltage system applies power to lamps only when lit
- Optional automatic dimming
- Flash rate of 3040 per minute
- Numerous sizes and mounting options
- Durable finish resists the elements
- Meets MUTCD

*Call for availability and pricing.*

### Wanco Radar Speed Director

The new Wanco radar-speed trailer with full-matrix display features the largest portable speed sign available today. Visible over a standard Jersey barrier traffic divider, the giant display shows motorists speed in 26-inch characters, warning motorists to slow down by flashing their excessive speed.

- Extra-large full-matrix display
- Optical lenses and sun shades over 26-inch LED characters
- Selectable speed-limit setting
- Clearly displays speed in mph (one or two digits)
- Software-controlled selection of speed units, mph or km/h
- 24x30-inch regulatory speed-limit sign included, other sizes available
- Regulatory sign has changeable speed-limit numbers
- Compact and easily portable, 5-minute setup
- Under 900 pounds (400kg), can be towed by most vehicles
- Standard 2-inch ball coupler tow-hitch
- Battery powered & solar charging
- Locking control box and battery compartment

*Call for availability and pricing.*

V-Touch Controller

PCMS-548

PCMS-320

PCMS-320RT

Wireless V-Touch Controller

ST-4825

## ST-4825 Trailer Mounted Arrowboard

Ver-Mac's ST-4825 trailer-mounted arrowboard features 25 lights, single-mast design, wireless V-Touch controller, Stealth Technology and Opti Power lens. Unit combines energy-efficient design and high-quality construction to provide the most reliable and cost-effective arrowboards on the market.

### Wireless V-Touch Controller for ST-4825

- Easy-to-read – 3.75-inch pressure-sensitive black and white display screen
- Wireless – eliminates wire harness reducing maintenance and repair costs
- Simple to operate – the intuitive point-n-go icons allow you to quickly select arrow patterns/mode
- Additional functionalities – lamp diagnostics, settings, battery voltage level, and much more

### Smart Arrowboard

Make your arrowboard part of a Smart Work Zone by adding a Speed-Mac from Ver-Mac. Our innovative Speed-Mac is a portable radar sensor that includes a doppler radar and a modem with GPS. Attaching the Speed-Mac to your arrowboard is a really smart way to get a low-cost speed gathering system and to quickly set up a Smart Work Zone.

### Stealth Technology

Ver-Mac's innovative Stealth Technology design will help you significantly reduce your battery maintenance and repair costs. This technology combines two great innovations:

- Cleverly hidden battery compartment – deter thieves from stealing batteries
- Long-lasting sealed batteries – no maintenance required

## PCMS-548 & PCMS-320 Portable Changeable Message Signs (PCMS)

Ver-Mac's PCMS-548 mini full-matrix trailer-mounted portable changeable message sign and the PCMS-320 mid-size full-matrix trailer-mounted portable changeable message sign feature the NTCIP compliant V-Touch controller, Tilt-and-Rotate solar panels, JamLogic fleet management software (modem required) and optional Stealth Technology. These units combine energy-efficient design and high-quality construction to provide the most reliable and cost-effective message sign on the market. PCMS-548 is perfect for lower speed roadways and urban areas. PCMS-320 has a compact design which makes it perfect to use on highway construction projects where space is limited and in urban areas.

### V-Touch Controller for PCMS-548 & PCMS-320

Ver-Mac's PCMS-548 and PCMS-320 comes with our innovative V-Touch controller, the industry's most functional and easy-to-use controller!

- Easy-to-read – 7-inch color LCD pressure-sensitive display screen
- Time-saving – create your own library of messages
- Simple to operate – the intuitive point-n-go icons ensure quick and easy commands to display or edit messages
- Additional functionalities – scheduling, sign diagnostics, pin-protected security, and much more

### Jamlogic Fleet Management Software

Equip the PCMS-548 & PCMS-320 with Ver-Mac's high-speed modem with GPS and maximize your productivity, efficiency and profitability all remotely from your office or home! The JamLogic software is FREE and you get all the updates at no charge!

- Monitor, maintain & manage your signs from a PC, laptop, tablet or smartphone
- View a list and a GPS map of your equipment
- Change a message on one or more signs simultaneously with a simple click
- View your messages and battery voltages
- Receive e-mail or text alerts – optional (low battery, cellular failure, etc.)

## PCMS-320RT with Rainbow Technology

Ver-Mac's PCMS-320RT is a mid-size full-matrix trailer-mounted portable changeable message sign that comes with the RGB COLOUR RAINBOW TECHNOLOGY. It's the industry's first PCMS with over 16,000 colors to design or create your special color message on the sign. PCMS-320RT also features the NTCIP compliant V-Touch controller, Tilt-and-Rotate solar panels and JamLogic fleet management software. This unit is built with high-quality construction to provide the most reliable color message sign on the market. PCMS-320RT is the perfect model to use in special events and portable advertising.

## GROUND PROTECTION MATS

### A - TuffTrak® AlturnaMat®

AlturnaMat® is a high load capacity mat boasting an aggressive diamond plate tread design and a high load capacity ideal for use over soft or sensitive ground conditions in the construction, civil engineering, groundwork, and events industries.

These rugged mats are made of 12.7 mm (0.5") thick polyethylene making them virtually indestructible. AlturnaMat(r) can withstand loads of up to 120 tons\*, and its flexible construction means that these mats will follow the contours of the ground to deliver a highly effective access solution over undulating or sloping ground conditions.

Weighing just 85.9 lbs. at its maximum size and just 21.4 lbs. at its smallest, AlturnaMat® can be easily deployed and maneuvered without any specialist equipment with the added optional convenience of strategically positioned hand holes.

AlturnaMat® can be connected together using Turn-A-Links connectors to create a secure trackway or work pad.

\*Load bearing capacity is subject to ground conditions. Sizing is subject to a manufacturing variance of +/- 5%.

### B, C, D - TuffTrak® AlturnaMAT® Turn-A-Links

Turn-A-Links are a convenient way to turn AlturnaMats into a semi-permanent yet still portable roadway system. Single links connect two mats together end-to-end or side-to-side. Double links connect four mats together at the common corner. Turn-A-Links are especially useful when working in harsh site conditions, or when you spend more than one day at a job site. Special order.

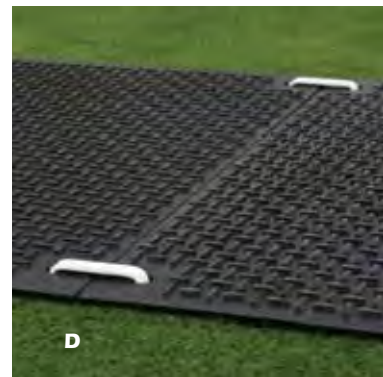

### E - TuffTrak® SafetyTech Outrigger Pads

SafetyTech is a high load capacity outrigger crane pad manufactured from a highly durable proprietary engineered thermoplastic material and has a vertical load bearing capacity of up to 140,000lbs\* for our largest size. It is designed to fully support vehicles and cranes without warping, splintering or bending and the pad features a safety textured tread surface to further improve grip and stability.

SafetyTech features high visibility safety orange patented TuffGrip(r) handles ensuring optimum maneuverability, will return to normal after bending retaining its original shape. It is non-conductive, non-magnetic, and resistant to temperature, chemicals, water, and oil.

\*Load bearing capacity is subject to ground conditions. Sizing is subject to a manufacturing variance of +/- 5%.

## STEEL PLATES

### Steel Plate Sales

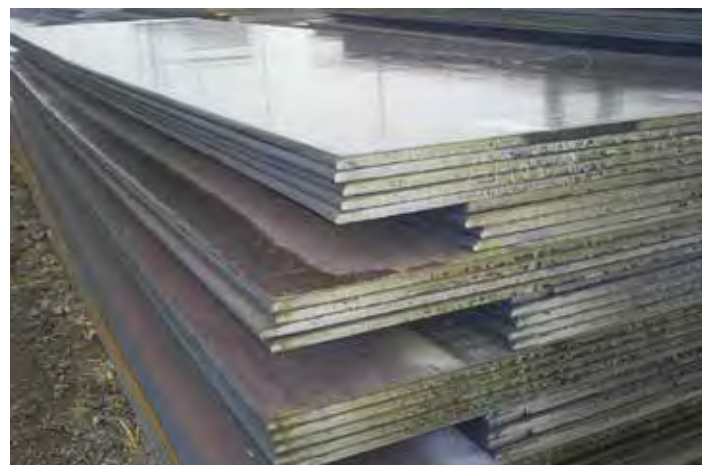

Steel plates with or without keyhole for purchase. Call for availability and/or shipping schedule.

### Steel Plate Rentals

When renting steel plate there is an hourly charge for delivery, unloading, loading, and pickup of plates. If possible, have a forklift, hoist or other equipment on standby at job site to save time and cost. If you do not have such equipment, please tell us when you place the order, so we can load our boom truck.

If your job requires a non-skid rental plate, please order 24 hours in advance to give us time to coat the plate. Non-skid application charged separately.

KEY	SKU	MFG#	DESCRIPTION
	B06012	LIFTING HOOK	4-7/8" X 2-1/4" flatbar with hook to lift steelplates
	J05001	6"	Railroad track spike for steel plate, 5/8" x 5/8" x 6"

## SAFETY CONES & FLOOR SIGNS

### A-D - Lamba Safety Floor Signs

- 11" x 25" bright yellow plastic signs stand up and stay up when needed
- Folds up quickly to space saving 1-1/2" thickness
- Message displayed clearly on all four sides provides clear warning from every angle
- Innovative Locki-n'Arm™ lets you place sign quickly and easily, locks solidly into place to prevent collapsing
- Made in the USA

KEY SKU	MFG#	DESCRIPTION
A.....	S06049....03-600-34	Floor Sign, CAUTION WET FLOOR, Yellow
B.....	S06050....03-600-35	Floor Sign, CAUTION WET FLOOR, WALK RIGHT/LEFT, Yellow
C.....	S06051....03-600-37	Floor Sign, NO ENTRY, RESTROOM CLOSED, Yellow
D.....	S06052....03-600-38	Floor Sign, CAUTION WATCH YOUR STEP, Yellow

### E-P - Lamba Safety Cones

Lamba Safety Cones are aggressively visible! Molded in bright yellow and international orange, 36" high. The contrasting color safety warnings printed on all four sides can be seen from all directions. And the 144 square inch base makes them very stable.

They can cordon off restricted areas...direct pedestrian traffic...be positioned on stairways and escalators...and be stacked in just one square foot of floor space.

Lock-In Sign Frames lock securely into the slot on top of the cone. Frame holds one 8"X8" message on each side. Additional messages used on lamba cone lock-in sign frames are made with adhesive backed vinyl.

Colored plastic chain fits into slots on the sides of cone and black Ring Weight fits over the top of the cone and rests securely on the base, adding extra stability.

KEY SKU	MFG#	DESCRIPTION

V.....	T01046....9140W	TriVu@ Weight Ring, 6 lb.

### W-Y - Handy Cone™ Floor Sign

These signs are housed in a gray compact plastic tube. Pulling the sign out activates the spring-loaded ribs to immediately pop open and expand the three-sided pyramid sign. Set out the sign to be seen from all directions. Message and symbol are screen-printed on 18" x 18" nylon fabric with reinforced vinyl corners attached to the fiberglass ribs. Durable yet lightweight, these signs can withstand repeated use.

KEY SKU	MFG#	DESCRIPTION
W.....	T01131....17176I	Handy Cone Floor Sign, CAUTION - WET FLOOR, yellow
X.....	T01132....17178I	Handy Cone Floor Sign, WARNING - PEOPLE WORKING, orange
Y.....	T01133....17184	Handy Cone Floor Sign, DO NOT ENTER - RESTROOM CLOSED FOR CLEANING, yellow

### A-O - Plastic Chain

Formulated to be free of heavy metals and phthalates. It is strong and durable with a UV protectant to resist fading and protect the integrity of the material whether it is used indoors or outside. In fact, we guarantee that our chain will not fade for five years.

Performs as a visual warning barrier for construction sites, industrial aisles, loading docks, etc. It is a cost effective tool for crowd control, creating an effective, high visibility barrier and for designating safe work zones. Complies with OSHA warning line systems as a visual warning system.

### P-Q - 2.5" Crowd Control Stanchion

It can be used with Mr. Chain's 1", 1.5", 2", and 2" H.D. size chain. They make a sturdy crowd control barrier indoors or out, designate parking areas, and work well as a safety walkway. They are useful as a temporary barricade around work areas, and the base can be filled with sand for added stability. An added plus for this stanchion is it can be ordered with a choice of two solar ball tops if desired. Stanchions come complete with regular ball tops, bases, poles, and c-hooks.

### R-S - 3" Crowd Control Stanchion

With 3" poles this stanchion is able to hold Mr. Chain's 3" chain for a hefty, secure looking crowd control tool. Indoors or out this stanchion works well for designating parking areas, work area barricades, safety walkways, or wherever traffic control is necessary. Stanchions come complete with ball tops, bases, poles, and c-hooks.

### T-W - Stanchion Sign Adapters

The Sign Adapter is designed for use with our 2.5" and 3" stanchions and ground poles. It replaces the ball top, fits securely into the pole and locks into place. It can hold signs up to 1/16" in thickness and makes an effective safety or instructional aid.

KEY	SKU	MFG#	DESCRIPTION

## ACCESS CONTROL

### A, B - TensabARRIER® SFT Safety Post

High visibility post with attention grabbing belt. Bright, safety yellow steel tube with black base and head. Black ABS scuff guard base. Modular cassette design offering four-point anti-tamper connection. Patented Tensator centrifugal braking system. Accommodates a full range of accessories.

### C, D - TensabARRIER® 890 Slimline

A standard stanchion with a difference. This stanchion has a very contemporary look. It is more "designed" than a regular stanchion, so can add a little style to an otherwise standard line.

Mild steel post with a cast iron slim profile base complete with a pressed steel cover. 36° displacement angle, preventing the post from easily toppling over. Modular cassette design offering four-point anti-tamper connection. Accommodates a full range of accessories. Patented Tensator centrifugal braking system.

### E - High Capacity Wall Mounted Barrier

Plastic wall unit with a 24' belt extension. The plastic body of the unit comes as standard in black. All webbing messages are printed on both sides of the webbing. Price includes standard webbing tape end, standard mounting option and a wall clip for attaching the retractable barrier. Perfect for situations where you want a flexible retractable barrier without taking up any floor space. Patented Tensator centrifugal braking system.

KEY SKU	MFG#	DESCRIPTION

### F - Blockader® Crowd Control Barrier

AMERICA'S MOST POPULAR STEEL BARRIER FOR OVER 25 YEARS.

The industry standard for quality since 1978. Wide variety of lengths and styles, with all popular hooks and bases. In use nationwide.

Features:

- Compatibility with other barriers – all hooks will align.
- Bolt-on replaceable bases – bridge base or flat base styles.
- Hot dip galvanization for corrosion protection.
- Uprights fully inserted into the frame before welding.

Blockader® Steel Barriers have been used at these major events:

- The Democratic and Republican National Conventions.
- Presidential inaugurations of President Bush.
- The funeral of President Reagan.
- The Boston Marathon.
- Salt Lake 2002 and Atlanta 1996 Olympics.
- NFL and NCAA football games.

G

H

### G - Blockader® Traditional Bridge Bases

Provides best resistance to push by crowds at events such as parades. Maximum stability on uneven surfaces. Each individual barrier has one large base and one small base. This allows all four points of the base to dig in and remain in constant contact with the ground. Accommodates placement of barriers in both a straight line and at various angles.

### H - Blockader® Flat Base *Special Order*

Ideal for use as portable pedestrian railing in situations where crowds will be walking parallel to barriers. Used by New York City Department of Transportation to divert pedestrians around construction sites. Rubber inserts provide additional friction and reduce sliding. Features holes for semi-permanent anchoring.

## A-E - Versa Guard Safety Barricade

VERSA-GUARD is a portable, free-standing, expanding barricade system providing effective safety, security and work zone identification. VERSA-GUARD is available in several standard sizes and colors, but can be custom made to your size and color specifications.

- Reduces exposure to public liability claims and worker injuries
- Presents an imposing barricade that is difficult to circumvent
- Provides an effective and attractive visual warning
- Compliments safety and risk reduction programs
- Expands to over 11 feet long
- High gloss powder coated finish
- OSHA, DOT, and NRC safety colors
- Compact frame design
- Interconnect without tools
- Mobile

### D - Brief Relief™ Disposable Urinal Bag

The Brief Relief Disposable Urinal Bag provides a safe and convenient alternative when nature calls. The bags can be used by both men and women. Our proprietary blend of naturally bioactive polymers and enzymes instantly transforms urine into a deodorized gel. The funnel design and one-way valve prevent accidental spills. Designed with military standards in mind, Brief Relief even comes complete with a high quality antibacterial towelette for clean up after use. Safe for disposal in any trash receptacle.

### E - Disposa-John™ Portable Restroom

Triple barrier bag and liner for liquid and solid waste. Includes toilet paper and antimicrobial wipes. Safely dispose of solid waste. Heavy-duty liner with polymer/ enzyme packet. Easy to use and virtually odor free. Comes complete with toilet paper and sanitary towelette. Spill-proof, leak-proof, non-toxic and designed to work with the commode.

### F - Brief Relief™ Daily Restroom Kit

Restroom supplies for 1 person for 1 day. Contains two (2) BR608 and one (1) BR500.

### G - Porta Quick Packs

The Commode sets up instantly as a sturdy 5 gallon base with a full size soft foam toilet seat that fits firmly on top. Each Commode contains a supply of Brief Relief Daily Restroom Packs to safely dispose of either liquid or solid human waste. Perfect for everyday use or in emergency situations.

### H - Privacy Shelter

Provides complete personal privacy at any outside worksite. Fast and easy set up with integrated spring locking poles, allows for simple use by any member of your work force. Folds away into a small carrying bag. Free standing structure that comes with ropes and anchors for added stability. Weighs only 6.5 pounds and opens up to a 4' x 4' x 6' size. Water repellent, non-conductive and flame resistant.

## A - Quick Support Tool

The Quick Support Tool provides extra support when working alone as designed to support drywall, ceiling panels, fixtures, etc. for proper positioning during installation. This tool supports up to 110 pounds and is adjustable from 3.75' to 10'. The quick support tool can also act as a cargo load stabilizer or used to construct a dust barrier.

## B - Heavy Duty Fixed Roof Bracket

Providing a complete range of roof brackets, Qualcraft offers fixed and adjustable roof brackets for all roof pitches and materials including slate. Durable, easy-to-install and remove and designed to protect all roof surfaces, Qualcraft is the only name you'll need to remember for professional roofing tools. Capacity is one worker plus forty pounds (40 lbs.) per eight foot (8') staging. Maximum of eight feet (8') of spacing between brackets. For use on any roofs pitches of 4/12 to 6/12.

## C - Classic Shingle Remover

Our Classic Shingle Remover possesses an ergonomic design with vinyl grip handles, rugged steel construction, and a hot tempered work edge. This product is lightweight and versatile. This particular model of shingle remover is a general purpose shingle remover that pulls up to 16D nails with a fifty-four inch (54") long steel handle with ten teeth.

## D - Magnetic Sweeper with Wheels

The Magnetic Sweeper picks up any ferrous metal such as tools, bolts, and nails. This product is the ideal job site/workshop companion as it quickly removes debris and has a magnetic release for easy debris disposal. Features: Extra-wide sweep head for quick clean up, Ideal for carpets - even grass, One-pull release quickly clears debris from sweeper, Handle extends from 30" to 44 1/2", Pull Force: 30-50 lb.

## E - Leak Diverter

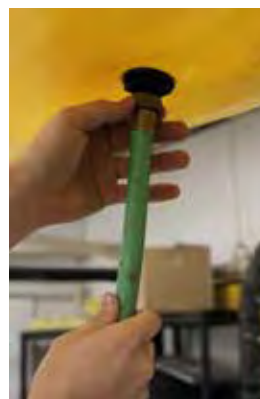

Slip and fall accidents caused by drips and leaks can be just as costly as a containment violation. Protect your plant and employees with a Drip Dam Leak Diverter. This product comes complete with a standard 3/4" drain to divert liquids to a safe spot. Hose not included.

- Bungee cords for securing in place included
- Edges have grommets for proper positioning
- High chemical resistance and durable design

## SCAFFOLD & WORK PLATFORMS

### A - ALU Series Baker™ 6' Mobile Scaffold

- Assembled Dimensions: 73.8" W x 30.7" D x 74.5" H
- Weight: 85 lbs.
- Load Capacity: 700 lb. (combined weight of user + materials)
- Working Heights: from 26.75" to 72.9" w/ 2" increment adjustable heights
- Reach: 12 ft stackable up to 3 units high for 24 ft reach
- Finish: Anodized Aluminum
- Casters: 5" Double Locking Heavy-Duty
- Structure: 1.5in square tube aircraft aluminum alloy 6063
- Platform: Anti-slip aircraft grade aluminum alloy 6063
- Guardrail System Optional
- Standards: ANSI, CSA and OSHA

### B - Outriggers w/ Casters for ALU Series Baker™

- Assembled Dimensions: 15.75" W x 2.5" D x 24" H
- Weight: 32 lbs.
- Casters: 5" Double Locking Heavy-Duty
- Includes: 4 Outriggers, 4 Casters, 4 Locking Pins
- Standards: ANSI, CSA and OSHA

### C - Guardrail System for ALU Series Baker™

- Assembled Dimensions: 69.5" W x 30" D x 41.5" H
- Weight: 13 lbs.
- Structure: 1in, 16 gauge
- Includes: 2 Guardrails with Gates, 4 Toggle Pins
- Standards: ANSI, CSA and OSHA

### Heavy Duty Step, Platform & Extension Ladders

**A-L-3016 Series** - A non-conductive fiberglass stepladder meant for heavy duty use capable of supporting 300lbs. Equipped with a molded top with handyman tool slots and aluminum angle slip resistant rubber feet.

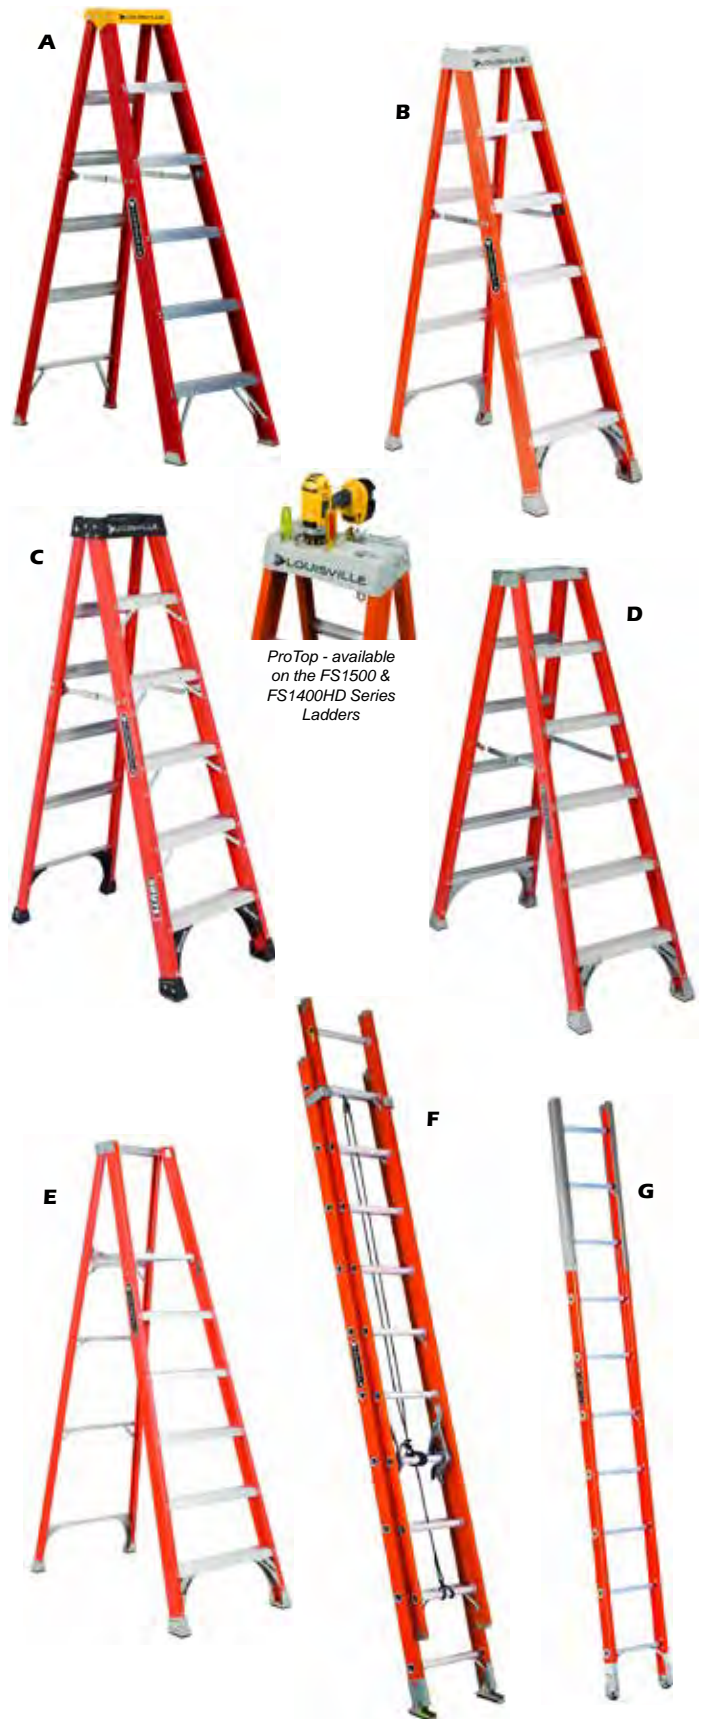

**B-FS1500 Series & C-FS1400HD Series** - A non-conductive fiberglass step ladder extra-heavy duty with the FS1500 Series capable of supporting 300lbs and the FS1400HD supporting 375lbs. Equipped with Da Boot for slip resistant footing, SHOX system and the ProTop, a non-conductive structural molded top with hardware tray, paint can holder, handyman's tool slots, pipe holder, curved front of top provides leg comfort and convenient magnet to secure small steel parts.

**D-FM1500 Series** - A non-conductive Fiberglass twin front ladder with an extra-heavy duty rating capable of supporting up to 300lbs. Equipped with Da Boot for slip resistant footing, the SHOX and heavy steel hinges and inside spreader braces.

**E-FP1500 Series** - A non-conductive fiberglass platform ladder capable of supporting 300 lb. Equipped with DaBoot, SHOX, top rail guard and slip resistant platform.

**F-FE3200 Series** - A non-conductive fiberglass industrial extension ladder with 300lbs. duty rating. The ladders features outside slide guides, D-shape rungs fully serrated for slip resistant surface, non marring rail end caps, QuickLatch rung lock for better secure operation and swivel safety shoes to be use as tread down or in spike position.

**G-FE8800 Series** - A narrow fiberglass straight ladder especially designed for use in manholes, with a 300 lb. duty rating. All sizes are 14" wide. Nonconductive full channel fiberglass side rails.

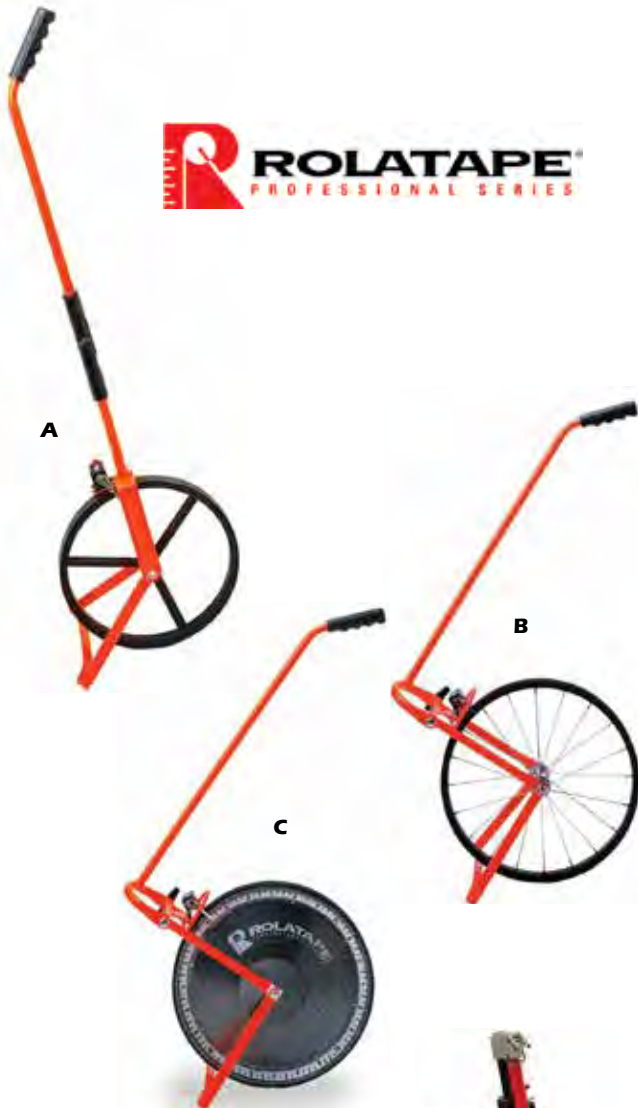

*ProTop - available on the FS1500 & FS1400HD Series Ladders*

## ROLATAPE MEASURING WHEELS

### A - Rolatape® 300 Professional Series

Features / Benefits: All steel construction - heavy-duty strength and durability, 5-digit ratchet counter - measures up to 100,000 feet, yards or meters with convenient reset knob, calibrated wide rubber wheel - accurately measures a wide variety of terrain including paved and unpaved surfaces, safety-glo color - easy to find in a vehicle and on job site, insert-and-lock handle - transport and storage is easy with the unique, insert-and-lock handle.

Technical Data:

- UOM - Feet
- Circumference - 3'
- Handle Type - Insert-and-Lock
- Extended Dimensions - 40 1/4"
- Warranty - 5 Years
- Counter Type - Single
- Diameter - 11 1/4"
- Collapsed Dimension - 22 1/4"
- Weight - 5lbs

### B - Rolatape® 400 Professional Series

Features / Benefits: All steel construction heavy duty strength and durability, 5-digit counter records up to 100,000 feet or meters with convenient reset knob (dual counters available), 4-foot circumference wheel - easier to measure accurately on rough terrain, wheel stand - keeps wheel upright when not in use, wheel brake - transport to second site without losing existing measurement.

Technical Data:

- UOM - Feet
- Circumference - 4'
- Collapsed Dimension - 17"
- Weight - 8lbs
- Counter Type -Single
- Diameter - 15 1/2"
- Extended Dimensions - 45 3/4"
- Warranty - 5 Years

### C - Rolatape® 415 Professional Series

Like the 400 except the 415 features a 15.25" solid disk wheel for measuring in the roughest terrain. Tall grass and brush won't get caught in this heavy-duty measuring wheel. Automatic brake/mud scraper ensures accurate measurements.

### D - Rolatape® 401 Professional Series

Features / Benefits: Automatic belt drive for 1in. accuracy and years of reliable use. Steel construction-durable and built to last. Easy to read large magnified counter. Wheel brake for more accurate measuring. Folding handle with restraint for compact storage and transport.

Technical Data:

- UOM - Inches
- Circumference - 4'
- Collapsed Dimension - 23-1/2"
- Weight - 7.5lbs
- Counter Type -Single
- Diameter - 15 1/2"
- Extended Dimensions - 47"
- Warranty - 5 Years

## A - Rolatape® 400PM ProMarker® w/ Paint Wand

Features / Benefits: All steel construction, 4-foot circumference wheel, molded polycarbonate 5 digit counter records up to 10,000 feet with push button rest, marking stand with (patent) - mark as you measure, stand keeps unit upright.

Technical Data:

- UOM - Feet
- Counter Type - Single
- Circumference - 4'
- Diameter - 15-1/2"
- Handle Type - Trigger
- Weight - 9.4lbs
- Warranty - 5 years

## B, C - Rolatape® RT104 RT & RT204

Features / Benefits: Comfortable rubber handle grip, lightweight and compact, wide, precision molded tire provides accurate measurements on any smooth surface, counter with reset switch reads to 1in increments, 3-section aluminum telescopic handle quickly collapses with twist motion.

Technical Data:

- UOM - Feet, inches
- Counter Type - Single
- Circumference - 1'
- Diameter - 4"
- Handle Type - 3-Section Telescoping
- Collapsed Dimension - 18"
- Extended Dimensions - 36-1/2"
- Weight - 2lbs
- Warranty - 1 year

## D - Rolatape® RT312

Features / Benefits: Comfortable, ergonomic pistol grip, lightweight and compact. Precision molded tire on an aluminum spoke for accurate measuring and increased durability. Counter with reset switch reads to 1in increments. 3-section aluminum telescopic handle with quick clamps for easy storage.

Technical Data:

- UOM - Feet, inches
- Counter Type - Single
- Circumference - 3.4'
- Diameter - 1'
- Handle Type - 3-Section Telescoping
- Collapsed Dimension - 24"
- Extended Dimensions - 42-1/2"
- Weight - 5lbs
- Warranty - 1 year

## E - Rolatape® RT412D

Features / Benefits: Ergonomic handle with backlit digital display, digital display measures to 1", 1/100th, and/or 1cm increments, memory stores up to four measurement values that user can quickly recall, digital brake stops wheel measurement with a push of a button, 3-section aluminum telescopic handle with quick clamps for easy storage, auto shut-off saves battery life by turning unit off after three minutes of suspended operation. Batteries provides up to 30hrs of intermittent use.

Technical Data:

- UOM - Feet, inches / Feet, 100ths / Metric, cm
- Counter Type - Digital
- Circumference - 3.4 ft.
- Diameter - 1'
- Handle Type - 3-Section Telescoping
- Collapsed Dimension - 26.5"
- Extended Dimensions - 40"
- Weight - 3.5lbs
- Warranty - 1 year

## A - Hi-Viz® Orange P1000 Series Tape Measure

Hi-Viz® orange case - easy to find on the job. Rubber cushion case exterior protects tape from impact and improves grip. Tape line stands out up to 9 foot for longer reach and efficient measuring. Bright yellow blade has clear easy-to-read numerals. Toggle lock positioned for convenient operation, holds blade securely. Cushioned blade return and removable belt clip.

## B - P2000 Series Tape Measure

Case designed to fit perfectly in the hand. Lightweight, high strength chrome finished case. Fits easily into most tape holsters. Bright yellow blade has clear easy-to-read numerals. Toggle lock positioned for convenient operation, holds blade securely. Cushioned blade return and removable belt clip.

## C - 700 Series Magnetic End Hook Tape Measure

Magnetic end hook is a time-saver for framers, HVAC installers, and more. Use for one-man measurements of steel framing and drop ceiling grids. Powerful dual magnets can also serve as a pick-up tool. Non-slip co-molded rubber grip. Durable ABS case stands up to the toughest work site. Non-slip rubber blade lock button.

## D - Hi-Viz® Orange Universal Lightweight Long Steel Tape Measure

High impact polystyrene case. Yellow clad blade .005"/0.13Mm thick. Easy wind nylon drum. Easy-to-read black and red markings. Hook ring is retained neatly in the contoured mouth of the case. Removable belt clip.

## E - Engineer's Scale Wood Rule Red End®

Graduated in feet, 1/10ths and 1/100ths of feet. Red foot figures. Regular outside markings in feet, inches and 1/16ths. Decimal points on engineer's scale prevent reading errors.

## F, G - Bargard™ Covers

Bargard Covers provide protection from protruding rebar and are intended for at grade applications. Not intended for impalement protection. Brilliant lime color for higher visibility.

## H - Carnie Cap

These unique rebar caps hold a 2x4 or 2x6 suspended above a line of rebar, eliminating the need to cap each rebar in a line. The lumber acts as the actual impalement protection. Can be used in horizontal, vertical and incline applications. The caps are Cal-OSHA approved, Maine OSHA approved and National OSHA compliant. 90% biodegradable and 100% recyclable.

## I - Steel Plated Rebar Safety Caps

Provide protection from protruding rebar and are intended for at grade applications. Single piece unit molded in "concave shaped" steel plate. Reusable and fits a range of rebar #3-#11. OSHA approved.

## LIFTING SLINGS

### Nylon Webbing Lifting Slings

Nylon is the most widely used general purpose synthetic web sling and are unaffected by grease and oil. It has good chemical resistance to aldehydes, ethers and strong alkalis; but not suitable for use with acids and bleaching agents or at temperatures in excess of 194 degrees F. Stretch at rated capacity is approximately 8-10%. Slings have a heavy duty, hot branded leather tag designed to stay attached for the life of the sling. In addition, all slings have attached caution labels and printed warning sheets that include care, inspection and removal criteria.

## SAFEGWAY SLINGS

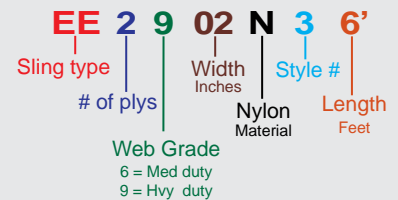

Nylon is the most widely used general purpose synthetic web sling, unaffected by grease and oil. It has good chemical resistance to aldehydes, ethers and strong alkalis; but is not suitable for use with acids and bleaching agents or at temperatures in excess of 194°F. Stretch at rated capacity is approximately 8-10%.

If you need a sling for use outside these parameters, consider a special order sling of polyester, wire rope or chain. Call us for specs.

### Nylon Chemical Ratings

Acid.....	No	Hydrocarbons.....	OK
Alcohol.....	OK	Ketones.....	OK
Aldehydes.....	OK	Oil, Crude.....	OK
Strong Alkalies.....	OK	Oil, Lubricating.....	OK
Bleaching Agents.....	No	Soaps, Detergents.....	OK
Dry Cleaning Agents.....	OK	Water, Seawater.....	OK
Ethers.....	OK	Weak Alkalies.....	OK

### Understanding our codes:

### Sling Types:

Type	Code		
Type 1	TC1	Triangle/Choker	Metal hardware
Type 2	TT2	Triangle/Triangle	Metal hardware
Type 3	EE	Eye/Eye	Flat eyes
Type 4	EE	Eye/Eye	Twisted eyes
	EE	Eye/Eye	Tapered Eye
Type 5	EN	Endless	Endless
Type 6	RE	Reverse Eye	Eyes 90° to sling, coated
Type 7	FE	Flat Eye	Flat eyes, coated sling
Type 8	WB	Wide body	Basket hitch, heavy duty
Type 9	LB	Light Basket	Cargo basket, light duty
	SR	Endless Round	Endless round sling
	SREE	Eye/Eye Round	Eye & eye round sling
	ML1	Master Link	Single leg bridles
	ML2	Master Link	Double leg bridles
	ML4	Master Link	Four leg bridles
		Towing Strap	Vehicle recovery strap

### Grade of Webbing:

- 6 Medium Duty Standard Web
- 7 Medium Cordura® Jacket Web
- 9 Heavy Duty Standard Web
- 12 Heavy Cordura® Jacket Web

**Red Core Safety Yarns** Safeway slings shown in this catalog have red core yarns that become visible when outer layers are worn, providing a signal to remove the sling from service

**ID Tags & Certification:** All Safeway slings are tagged with capacity and warning labels in accordance with ANSI. Documents available: ANSI B30.9 compliance, and Certificate of Proof Tests.

## SAFETY HOOKS, TIE DOWNS AND STRAPS

### A - Tow Strap with Loop Ends

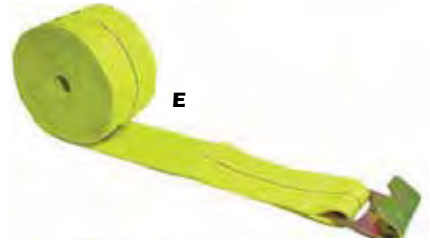

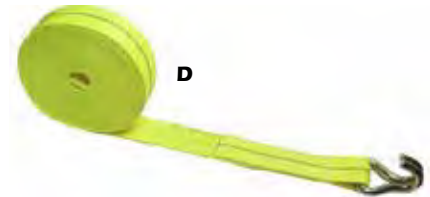

A valuable tool to get out of immobilizing situations. The loop sewn at each end allows the strap to be slipped easily onto a tow hook.

### B, C - Tie Downs

Our 1 Inch Tie Down is used primarily for light duty jobs around the house and workplace. 1 inch straps are made from high quality, strength tested polyester for maximum durability.

Vinyl coated hooks on model 66062 protect car and truck paint. Use on trucks, car trunks, motorcycles, mowers, loading docks pallets, etc.

### D, E, F - Winch Straps

Made from premium, tested polyester webbing for maximum durability. Winch straps are to be used with truck winches. Our winch straps are assembled in the USA and conform to Web Sling and Tie Down Association, Federal Department of Transportation (D.O.T.), and California Highway Patrol (CHP) standards.

### G, H - Stretch Cargo Nets

Organize and secure bulky cargo in your car, pickup, truck or loading dock pallet. Permanently attached strong plastic hooks helps net to install easily and hold under all weather elements. Compact when not in use.

### I - Heavy Duty Bungee Cords

Each bottle contains: (2) 18 inch, (2) 24 inch, (1) 32 inch, and (1) 40 inch.

Elastic Cords are probably the most inexpensive method of securing items during transit for light loads. Our Elastic Cords are made from premium rubber. Please be aware that Elastic Cords are meant for light duty applications only such as securing bikes to a rack, holding down cargo on the roof of your vehicle, or holding your trunk down when transporting oversize items.

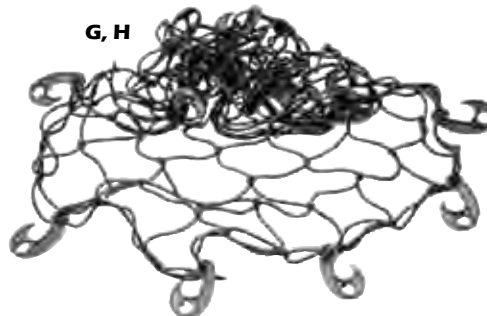

### J, K - Polyrope

Ropes are a valuable tool with multiple uses from holding an object secure, pulling something, up or even pulling someone to safety. They are made from 100% polyester for minimal stretch, increased abrasion resistance, and best durability and handling.

### L - Quick Link Hook

Quick Link Hook, (1/4", 6mm)

KEY	SKU	MFG#	DESCRIPTION

L	J11012	FH124-14	Quick Link Hook (1/4", 6mm)

## A - CamJam® Tie Down Strap

Features a high density weave polypropylene 1" wide strap that is securely attached with 4 bar tack stitches for high strength to a sturdy cast zinc alloy cam mechanism with an integrated protective pad underneath.

## B - Gear Tie® Reusable Rubber Twist Tie™

Made of bendable wire interior with a durable, soft rubber exterior, the 6" Gear Tie is the perfect solution for containing and organizing medium to long cords and cables. Waterproof and safe for use in fresh or salt water without damage. Reusable.

## C - Standard Cable Ties

Nylon standard cable ties. Bundle and secure wire, cable, hoses, tubing and more. -40°F (-40°C) to 185°F (85°C) temp rating. Made in USA.

## D - Colored Cable Ties

Can be used for identification and marking, or to match product colors. Made in USA.

## E - Clamp Cable Ties

Uniquely designed head allows for complete circular mount of 360°.

## F - Low Profile Cable Ties

Low profile cable ties reduce head height compared to standard cable ties.

## TOOL BAGS & BUCKETS

### A - Arsenal® Electrician's Tool Pouch

Specially designed synthetic pouch for Electrician's tools and fasteners. 1680D Ballistic Polyester with 2 large main pockets, 5 smaller pockets, 6 large screwdriver slots, electrical tape chain and tool spring clip, nickel-plated hardware and tape measure clip and patented screened nickel-plated Storm Drains.

KEY SKU	MFG#	DESCRIPTION
A ..... J13039	..... 13648	..... Arsenal® 5548 Electrician's Tool Pouch, 9.5" L x 3.5" W x 12.5" H

### B - Arsenal® Topped Tool Pouch

Easily attaches to any belt while keeping tools and fasteners secure. 1680D ballistic Polyester with 16-pockets for tools and fasteners, top cover flap with hook and loop closure, four nickel-plated D-rings for tool lanyard attachment and patented Storm Drains. Abrasion-resistant reinforced pouch bases. Tools not included.

KEY SKU	MFG#	DESCRIPTION
B ..... J13300	..... 13642	..... Arsenal® 5518 Topped Tool Pouch, 11" L x 4.5" W x 11" H

### C, D - Arsenal® Topped Parts Pouch

Topped Parts Pouch has a hands-free, self-closing trap door closure that prevents small parts, hardware, and tools from falling when working at heights. Trap door closure for safety and security, patented nickel-plated storm drain 2 exterior tool loops, 2 exterior nickel-plated D-rings for tool lanyard. Tools not included.

KEY SKU	MFG#	DESCRIPTION
C ..... J13301	..... 13628	..... Arsenal® 5528 Topped Parts Pouch, 20oz water resistant canvas
D ..... J13302	..... 13638	..... Arsenal® 5538 Topped Parts Pouch, waterproof tarpaulin

### E - Arsenal® Topped Bolt Bag

Topped Bolt Bag with Loop Design: Wide body and one-handed cinch-up top for keeping gear safe and secure. 16oz canvas, one-handed closure for safety, nickel-plated rivets, 2 exterior tool loops and a patented nickel-plated storm drain.

KEY SKU	MFG#	DESCRIPTION
E ..... J13303	..... 14425	..... Arsenal® 5725 Topped Bolt Bag, 10" L x 5" W x 9" H

### F - Arsenal® Synthetic Buckets

Durable nylon material, high wall, heavy duty bucket for strength and durability. Patent pending web handle with d-ring connection on top for hoisting and two anchoring d-rings on rim of bucket for tool tethering. 840D nylon main material, molded plastic base, molded plastic top ring to maintain wide opening for viewing and accessing contents, high tensile strength web handle with leather reinforcement, zinc plated alloy steel d-ring on handle for hoisting, zinc plated alloy steel d-rings built into handle ends for anchoring lanyards, heavy-gauge nylon stitching and interior pocket. Patented design.

KEY SKU	MFG#	DESCRIPTION
F ..... J13400	..... 14650	..... Arsenal® 5650 Synthetic Leather Bottom Bucket, 150lb. capacity

### A - Clip Pock-Its XL Holster

Designed with multiple interior pockets that hold pens, credit cards, and IDs, the Clip Pock-Its XL also has front pockets that fit full size flashlights and multi-tools of almost every make, as well as an expandable pocket for accessories, keys, and batteries. Its super-strong "over and under" clip attaches securely to belts and waistbands.

KEY SKU	MFG#	DESCRIPTION
A.....E07139	.....NPXL-03-01	.....Clip Pock-Its XL Holster, Black

### B - Tool Holster Stretch™ Universal Holster

Made of ballistic nylon, molded EVA foam insulation, and featuring elastic side panels that expand to fit thin-to-thick multi-tools or pocket knives. Its super-strong "over and under" flex clip attaches to belts, waistbands and straps up to 2 3/8" wide. It also rotates a full 360 degrees and locks in eight different positions, making it convenient to carry and access your tools from all angles. And speaking of convenience, sewn into the back of the Tool Holster is a sleeve for storing small accessories and components. Flap lid fastens with a secure snap closure.

KEY SKU	MFG#	DESCRIPTION
B.....J13249	.....FAMT-03-01	.....Tool Holster Stretch™ Universal Holster, Black

### C - Clip Case Cargo™ Universal Rugged Holster

Made of extremely durable ballistic polypropylene, this tough cell phone case absorbs shocks and shields from the elements. Its patented flex-clip attaches securely over and under your belt, fully rotates for access at any angle, and even locks in eight different positions. Featuring internal pockets and an integrated pen loop, this ultra-functional mobile device case also holds your smaller items like ID, cash, and credit cards for extra convenience. And to top it all off, we've added our Tooth Ferry® feature to keep your wireless headset or headphones safe and available.

KEY SKU	MFG#	DESCRIPTION
C.....J13250	.....CCCXL-01-R3	.....Clip Case Cargo™ Universal Rugged Holster, Black

### D - Clip Case Hardshell™ Universal Rugged Holster

This rugged case keeps your smartphone both accessible at your side and protected from the elements. The body of the Clip Case Hardshell Holster is constructed of high density EVA foam to provide protection from bumps and shocks with ballistic nylon providing additional rugged protection. Has elastic panels on each side to fit a variety smartphone models, with or without a protective case. Its lid, featuring a strong hook & loop closure, shields your device from impacts and the elements, and the fixed-position rugged clip attaches securely to your waistband or belt. There's also an internal pocket to hold credit cards, ID, or cash.

KEY SKU	MFG#	DESCRIPTION
D.....J13251	.....HSHXL-01-R3	.....Clip Case Hardshell™ Universal Rugged Holster, Black

### E - Headband™ Flashlight Holder

Constructed of 1" webbing, this lightweight, adjustable headpiece fits almost any AAA, AA, or L123 flashlight, and instantly turns it into a versatile headlamp. Designed to illuminate the area in your direct line of sight, it's excellent for working in tight spaces, camping, mechanical work, or fishing trips. The Headband is fully adjustable to fit any size, and, like all of our Nite Ize products, made of high quality materials and built to last.

KEY SKU	MFG#	DESCRIPTION
E.....E07134	.....NPO-03-01	.....Headband™ Flashlight Holder, Black

### F - Lite Holster Stretch™ Flashlight Holster

With its sturdy construction, molded foam insulation, and high-quality elastic side panels, our Lite Holster Stretch keeps flashlights of nearly every size safe at your side. In its relaxed state, a mini AAA flashlight is snug and secure, and the panels expand to provide a close fit for larger flashlights up to and including wide D cell models. Because its "over and under" clip rotates 360 degrees and locks in eight different positions, our Lite Holster Stretch also doubles as a useful hands-free device - angle up to see, read, or work with both hands on anything above waist level, or downward to illuminate your footpath in dim light. Open-ended design allows easy access to the flashlight's tail cap switch.

KEY SKU	MFG#	DESCRIPTION
F.....E07227	.....LHS-03	.....Lite Holster Stretch™ Flashlight Holster, Black

B

## EQUIPMENT CASES

### A, B - Pelican Medium Protector Cases

Mobility with room for protecting gear or multiple instruments and accessories. Interior options are available for extra protection. Select models meet carry-on luggage specifications.

KEY SKU	MFG#	DESCRIPTION
A	G02010 ...1500B	Pelican 1500B Case, Black, Int. Dimensions: 16.75" x 11.18" x 6.12" (42.5 x 28.4 x 15.5 cm)
B	G02011 ...1550	Pelican 1550 Case, Black, 2 level Pick N Pluck Int. Dimensions: 18.43" x 14.00" x 7.62" (46.8 x 35.5 x 19.3 cm)

### C-H - Pelican Large Protector Cases

Designed for extreme protection during transport and storage. Customizable interiors allow for extra protection and inventory control. Select models feature retractable handles, extra wide grips and sturdy casters for efficient mobility.

KEY SKU	MFG#	DESCRIPTION
C	G02012 ...1600B	Pelican 1600B Case, Black, 2 level Pick N Pluck Int Dimensions: 21.43" x 16.50" x 7.87" (54.4 x 41.9 x 20 cm)
D	G02014 ...1610	Pelican 1610 Case, Black, 3 level Pick N Pluck, retractable ext. handle Int. Dimensions: 21.78" x 16.69" x 10.62" (55.3 x 42.4 x 27 cm)
E	G02015 ...1620	Pelican 1620 Case, Black, 4 level Pick N Pluck, retractable ext. handle Int. Dimensions: 21.48" x 16.42" x 12.54" (54.6 x 41.7 x 31.9 cm)
F	G02016 ...1650	Pelican 1650 Case, Black, 2 level Pick N Pluck, retractable ext. handle Int. Dimensions: 28.57" x 17.52" x 10.65" (72.6 x 44.5 x 27.1 cm)
G	G02017 ...1660	Pelican 1660 Case, Black, 3 level Pick N Pluck, retractable ext. handle, 4 strong polyurethane wheels with stainless steel bearings Int. Dimensions: 28.20" x 19.66" x 17.63" (71.6 x 49.9 x 44.8 cm)
H	G02018 ...1700B	Pelican 1700B Long Gun Case, Black, 3-piece foam set, Strong polyurethane wheels with stainless steel bearings Int. Dimensions: 35.75" x 13.50" x 5.25" (90.8 x 34.3 x 13.3 cm)

### Pelican Equipment Protector Cases

No-nonsense protection coverage for on-the-job situations, the hazards of transportation, handling and site conditions.

- Watertight, crushproof, and dust proof
- Easy open Double Throw latches
- Open cell core with solid wall design - strong, light weight
- O-ring seal
- Automatic Pressure Equalization Valve
- Stainless steel hardware
- Lifetime Guarantee of Excellence

Pelican Protector Cases are available in sizes to suit every need. They meet or exceed the highest standards of industrial, airline, military and commercial applications. Originally designed for and currently used in numerous abusive applications by the U.S. Armed Forces and NATO.

## ANTI-SLIP TREADS

A

### WOOSTER PRODUCTS

#### A - Stairmaster® Safety Renovation Tread

A heat-treated, corrosion resistant, extruded aluminum base with satin/lacquered finish. The use of diamond-hard aluminum oxide in the filler assures long tread life under heavy pedestrian traffic. Designed for inside or outside use. They are designed for the modernization and restoration of all types of stairs, while also providing excellent anti-slip protection.

KEY	SKU	MFG#	DESCRIPTION
A	G03058	...500	Stairmaster Renovation Tread, 9" x 12" x 1.125", black grip

B

#### B - Supergrit® Safety Tread

A heat-treated, corrosion resistant, extruded aluminum base with satin/lacquered finish. Diamond-hard aluminum oxide in the filler assures long tread life under heavy pedestrian traffic use, indoors and outdoors. For improved appearance, the nose is designed to cover the radius created when forming sheet metal/steel pan. 4" side, 1/4" thick.

KEY	SKU	MFG#	DESCRIPTION
B	G03056	...241BF	Supergrit Safety Tread, 4" x 12' black

#### C, D - Safety Track® Hazard Striped Message Tread

Safety Track® hazard striped non-skid message tape is the preferred product line when visual warning is required to mark potential slip and fall hazards. This nonslip product line was developed with maximum visual warning characteristics in mind. The Yellow/Black stripes with "Caution" or "Watch Your Step" message provides the best visual cues to meet your requirements.

C

D

- Durable high traction grit surface
- Aggressive adhesive system for product longevity
- Fuel, water and fluid resistant
- NFSI - National Flooring Safety Institute certified for "high traction"

KEY	SKU	MFG#	DESCRIPTION
C	G03009	...TPSG-CAU	Safety Track, 6" X 24" non-skid strip, "CAUTION"
D	G03010	...TPSG-WYS	Safety Track, 6" X 24" non-skid strip, "WATCH YOUR STEP"

### KELLY TECHNICAL COATINGS

#### E - Convoy II

Convoy II is an economical non-slip floor and deck coating that is based on a single component, durable acrylic polymer. USDA accepted Convoy II is a waterborne coating that is non-flammable and releases no solvent vapors into the air. This non-slip coating is designed to perform superbly in areas which receive normal foot traffic and intermittent vehicular traffic. It is suggested for use where exposure to chemicals and acids is mild.

Convoy II provides protection on concrete, wood, and metal surfaces while offering the advantage of being water thinned. Convoy II dries quickly and can be used in areas which cannot be closed off for long periods of time. This product also performs well when applied over damp surfaces and has excellent life expectancy. If necessary, Convoy II can easily be "touched up" or recoated.

KEY	SKU	MFG#	DESCRIPTION
E	G03037	...330	Convoy II 330G, white, 1 gallon
E	G03038	...331	Convoy II 331G, grey, 1 gallon
E	G03039	...335	Convoy II 335G, tile red, 1 gallon
E	G03040	...336	Convoy II 336G, black, 1 gallon
E	G03041	...338	Convoy II 338G, orange, 1 gallon
E	G03099	...333	Convoy II 333G, yellow, 1 gallon

## ANTI-SLIP TREADS

### 3M SAFETY WALK™

#### A - General Purpose Safety Walk

This mineral-coated, slip-resistant material features a highly durable surface. Low-profile design reduces trip hazard. For use on smooth, flat surfaces. Pressure sensitive adhesive, covered by a removable protective liner is easy to apply.

For heavy traffic work areas, ladders, ramps, loading docks, on heavy equipment and vehicles. May be applied to concrete (painted or primed), metal, and porous surfaces if primed.

#### B - Medium Resilient Safety-Walk

Features a resilient, non-mineral, slip-resistant material. Soft surface is suitable for bare feet. For locker rooms and recreational/athletic equipment, boats and docks, interior stairwells, entryways and lobbies. Available in custom sizes and colors, and with custom adhesives.

#### C - Conformable Safety-Walk

Ideal for use on diamond grade safety plates., steps and other irregular surfaces. Mineral coated, slip-resistant with aluminum foil backing. Conforms to irregular surfaces and around edges.

#### D - Fine Grade Resilient Safety-Walk

High-friction, fine-resilient textured, slip-resistant material. Reverse side coated with pressure-sensitive adhesive protected by a removable liner. Designed for wet, barefoot traffic areas.

#### E - Edge Sealing Compound

For sealing Safety-Walk edges exposed for extended periods to water, grease, or oil. 5 oz tube yields 75-100 linear feet.

#### F - Safety Walk Primer

Primes porous surfaces prior to Safety-Walk applications and for all applications exposed for extended periods to water, grease, or oil.

## ANTI-SLIP & ANTI-FATIGUE FLOOR MATS

**WEARWELL**

**E**

**F**

**G**

### A - Modular WorkSafe® Light

This lightweight, 3' x 3' modular drainage mat is ideal for single work areas or to cover large spaces. Designed for comfort and ease of use, Modular WorkSafe Light has a unique, hidden interlocking system that requires no additional bevels or attachment devices. Lightweight and easy to handle, Modular WorkSafe Light is great in areas that require regular maintenance.

### B - UltraTred ArmorCote

Ultra-Tred ArmorCote combines the comfort of a soft, PVC sponge with a more chemically resistant surface. A tremendously versatile, yet affordable mat, its double thick urethane coating offers more abrasion resistance than comparable sponge products. Ideal for laboratories and medium traffic areas.

### C - Diamond-Plate SpongeCote®

Diamond-Plate SpongeCote is the most popular anti fatigue mat and matting in the industry because no other offers such a complete package of exceptional comfort, long life, and a high-tech, industrial image. Its exceptionally resilient Nitricell® sponge base defines the mat by providing true comfort, enhancing productivity, and reviving morale all while relieving fatigue throughout the day. Diamond-Plate's safety-engineered surface adds traction and durability to the mat, and lends itself to heavily trafficked areas.

### D - Electrically Conductive Anti-Fatigue Diamond-Plate

The Electrically Conductive Anti-Fatigue Vinyl Diamond-Plate surface quickly drains static electricity from workers before it can be passed on to sensitive equipment such as computers, cash registers or any product with a computer chip. Designed to dramatically reduce standing worker fatigue, Electrically Conductive Anti-Fatigue has a Nitricell® "Supreme Comfort" sponge base. Overall 9/16" thick. For maximum effectiveness, ground the mat and keep the surface clean.

### E, F - Tuf Sponge

Tuf Sponge is the best choice for practical and economical comfort. This blown-vinyl sponge is ergonomically designed to reduce floor hardness by up to 50%. Available in workstation mats and rolls, Tuf Sponge can easily be cut to "custom" fit your work areas. Offered in two thickness and three color options, Tuf Sponge is a very versatile choice.

### G - Extreme Standing Mats

This new concept in static standing relief has been created in response to customer demand. An incredible amount of evidence indicated that the stability of flat firm surfaces that man has chosen to live on may result in atrophy of many muscles. We use them or lose them.

- Designed for extreme standing at fixed workstations
- Strengthens the muscles that keep us upright and balanced
- Keeps body in gentle motion to improve circulation and joint lubrication
- Eliminates high frequency vibrations
- Yellow safety caution bars alert 1" height

KEY SKU	MFG#	DESCRIPTION

## A, B - Carpet Shield®

It is a clear, self-adhering protective film for most types of carpeting and with a special blend of polyethylene, is highly resistant to tears or punctures and won't shift once applied. Ideal during remodeling, painting and moving, it minimizes clean up and damage claims.

## C - Clean Mat

To prevent dust and dirt from spreading while building or remodeling, Surface Shields® offers the Clean Mat. Each mat contains 30 tabbed sheets for easy removal of each layer. These effective mats are commonly placed outside dust / lead containment areas or used as a door mat when entering a building.

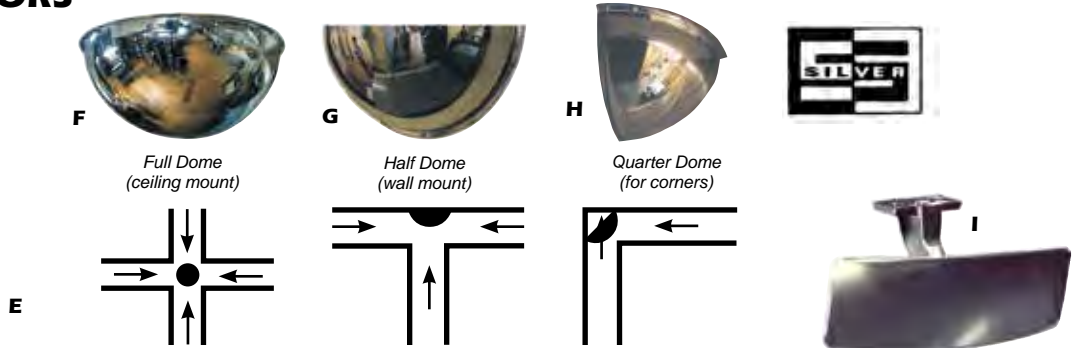

## D - Builder Board™

Roll out fast and flat to protect surfaces with Builder Board™ and make jobsite protection even easier. This product replaces the need for bulky sheets of Masonite and with the use of Liquid Shield™ technology, Builder Board™ is spill proof. It defends against water, paint, mud and more. Builder Board™ is also 100% recyclable and available with custom color printing to promote your business.

## SECURITY MIRRORS

### E - Convex Mirrors

160° viewing for corner and overview use. Ideal for retail, warehouse, offices, loading docks, garage and driveways. Can be wall or ceiling mounted. Galvanized metal back. Mounting hardware included.

Glass: Easy to clean, wet or dry. Excellent clarity. Will not scratch easily. Unaffected by most cleaning chemicals.

Acrylic: Shatter resistant, meets OSHA specs. Excellent clarity. Easy to clean with wet cleaners.

KEY SKU	MFG#	DESCRIPTION
<b>Glass Convex Mirror</b>

## WHEEL CHOCKS

**MONSTER™**  
MOTION SAFETY

### A - AC6800 Aviation Wheel Chock

Designed for large to over-sized aircraft and aviation equipment. They are manufactured with highly durable, lightweight polyurethane, which lasts longer than wooden chocks, never needs painting and eliminates Foreign Object Damage threats for aircraft. These chocks are ideal for business, commercial, cargo and military aircraft.

### B - RC5500 Series Aviation Wheel Chocks

Features a triangular design that is used by the aviation industry worldwide. They are composed of durable rubber that make them strong and safe in industrial applications. These chocks are resistant to damage from UV, moisture, salt, and oils. Their horizontal traction ribs grips the tire and road and will not cause tire or pavement damage. The chock design also allows either side to be positioned against tire. RC5500 Wheel Chocks are built to suit a variety of applications in the construction, utility, and other commercial industries.

### C - Goodyear Rubber Wheel Chock

Dual use Goodyear Wheel Chocks are manufactured with highly durable, rubber construction. These chocks are ideal for use with over-the-road trucks, trailers, pickups and utility vehicles. Features two different angles to accommodate a variety of tire diameters, up to 32" and molded tread to increase tire traction.

KEY SKU	MFG#	DESCRIPTION
A .....	G11151...AC6820-LR-H...	AC6800 Aviation Wheel Chock, hi-vis yellow, 20"L x 8"W x 6"H
B .....	G14012 ...RC5512-S.....	RC5500 Aviation Wheel Chock, single, black, 12"L x 5"W x 4.33"H
B .....	G14013 ...RC5512-P.....	RC5500 Aviation Wheel Chock, pair, black, 12"L x 5"W x 4.33"H
C .....	G12015 ...GYRC-45-P .....	Goodyear Rubber Wheel Chock, black, 4"L x 5.5"W x 4"H

### D,E - RC450 Series Wheel Chock

RC450 General Purpose Wheel Chocks are the standard of the utility industry and are composed of durable rubber that make them strong and safe in industrial applications. These chocks are resistant to damage from UV, moisture, salt, and oils. Their traction design grips the tire and road and will not cause tire or pavement damage. The chock design also allows either side to be positioned against tire. RC450 Wheel Chocks are built to suit a variety of applications in the construction, utility, and other commercial industries.

### F - RC815 Series Wheel Chock

Designed for "over the road" trucks and trailers, and loading dock facilities. They are composed of durable rubber that make them strong and safe in industrial applications. These chocks are resistant to damage from UV, moisture, salt, and oils. Their ribbed pyramid design grips the tire and road and will not cause tire or pavement damage. The chock design also allows either side to be positioned against tire. RC815 Wheel Chocks are built to suit a variety of applications in the construction, utility, and other commercial industries.

### G - Urethane Wheel Chock 1700 Series

1700 Series Urethane Wheel Chocks are specifically designed for smaller vehicles like pick-ups, automobiles, trailers and small utility trucks. They are strong, safe and lightweight. Impact absorbing chocks grip tire and road, will not cause tire or pavement damage and are oil and chemical resistant. For added safety and convenience, these urethane wheel chocks feature a high visibility orange color and "How to Use" guidelines molded into each chock.

KEY SKU	MFG#	DESCRIPTION
D .....	G14010 ...RC-450 .....	RC450 Series Wheel Chock, open bottom, black, 10"L x 8"W x 5.5"H
E .....	G14011 ...RC-450-S .....	RC450 Series Wheel Chock, solid bottom, black, 10"L x 8"W x 5.5"H
F .....	G14022 ...RC815 .....	RC815 Series Wheel Chock, black, 10"L x 8"W x 6"H
G .....	G12013 ...UC1700 .....	Urethane Wheel Chock 1700 Series, orange, 8.5"L x 7.5"W x 6.25"H

## SPEED BUMPS & WHEEL STOPS

### H - Solid Speed Bumps

100% recycled plastic speed bumps. Will not chip or crack under heavy loads. Resists attack from gas, oil, salt, sunlight, and chemicals. Never needs painting.

*Install on asphalt or concrete with lag bolt/butyl tar hardware. Install on asphalt or wood with steel spikes or rebar w/butyl tape. Where no drilling is permitted, use anchor plate epoxy method.*

### I - Solid Wheel Stops

100% recycled plastic car parking stops will not chip or crack and resists attack from gas, oil, salt, sunlight, rot, termites, chemicals and graffiti. Molded in solid colors and never needs painting. Consistent air-pockets throughout each piece allowed the Parking Blocks to "Breathe" when exposed to extreme temperature changes.

### J - Concrete Wheel Stops

Concrete wheel stops, 6" high and 8.5" wide in 42" and 72". Install with rebar pins or spikes.

KEY SKU	MFG#	DESCRIPTION
H .....	G11086 ...SB6D .....	Solid Speed Bump, 4 holes, no hardware, yellow, 6' x 10' x 2"
H .....	G11088 ...SB9S .....	Solid Speed Bump, 5 holes, no hardware, yellow, 9' x 10' x 2"

## SPEED BUMPS & WHEEL STOPS

### A - Easy-Rider™ Reflective Speed Bump

Easy Rider™ speed bumps are made from 100% recycled tire rubber. Yellow reflective stripes are glass-beaded polyurethane paint. Inset “cat eye” reflectors for maximum visibility (1000’ at night). 3 year warranty. Channeled bottom (two 1.25” channels) for cables or pipes and drainage. Flexible to the contour of virtually any road surface.

### B - Safety-Rider™ Mini Hump

The Safety Rider® is constructed from 100% recycled tires. Unlike asphalt humps, our mini humps are preformed for a uniform and consistent profile and a smooth, safe ride. The mini humps are simple to install and do not require road closures. Plastic shields are inserted into pre-drilled holes and the units are bolted down to keep from shifting. The Safety Rider® can be easily removed for storage or relocation. Molded highly reflective tape provides optimal visibility even on a dark night, alerting drivers well in advance. Safety Rider® mini humps are covered by a 3 year warranty.

Mini speed humps are ideal for slowing traffic in school parking lots and crossings, playground areas, hospitals, parking facilities, and anywhere a slow traffic flow is required. Heavy load bearing truck traffic is ideally facilitated by the Safety Rider® mini hump.

### C - Park-It™ Reflective Parking Curb

The rubber Park-It® parking curb is used to effectively guide cars when pulling into a parking stall. It is profiled at 4” high, safeguarding potential damage to today’s low, front end car designs. They are more resistant than concrete or plastic curbs.

Unlike concrete or plastic, which necessitate frequent replacements, recycled rubber car stops are safer and more durable. In-molded highway reflective tape (available in yellow or white) ensures visibility and pedestrian safety. The GNR Park-It® parking curb is constructed of 100% recycled rubber.

### D - Home Park It Parking Curb

The Home Park It® provides guidance to help residents park with confidence in limited space. This unique home parking solution protects valuables and prevents damage in and around the garage or parking area. Constructed of recycled rubber and molded with GNR’s highly reflective highway tape, the Home Park It® is highly visible and extremely durable. The Home Park It® is covered by a 3 year warranty.

## ASPHALT PATCH

# AQUAPHALT

### A - AQUAPHALT Asphalt Patch

Aquaphalt is the first pre-mixed, permanent repair material that is enduring, high-performing and 100% environmentally friendly. Aquaphalt's proprietary "green" binder reacts and hardens with solely water—unlike other asphalt patching products available on the market today containing toxic petroleum-based solvents with volatile organic compounds. And Aquaphalt can be laid directly from its container, so no repeat repairs or overhead costs are required.

Aquaphalt sets-up fast and permanently for superior results. From potholes to manholes and utility cuts to driveways and tennis courts, in the world of asphalt and concrete, we've learned that stable base materials plus enduring binders equal unlimited potential for all of our customers.

- Eco-friendly binder reacts and hardens with only water—no toxic solvents
- Aquaphalt is laid directly from its container—no need to mobilize large crews and equipment
- Minimizes roadway disruption with no need for special preparations
- Pre-mixed and permanent Aquaphalt is a one-time fix

KEY SKU	MFG#	DESCRIPTION
A ..... G23001	...AQUAPHALT 6.0 55# BUCKET	.....AQUAPHALT 6.0 used for repairs 1"+ deep, 55 lb.
A ..... G23002	...AQUAPHALT 4.0 55# BUCKET	.....AQUAPHALT 4.0 used for repairs .5"-1" deep, 55 lb.

B

### B - EZ Street Premium Cold Asphalt

EZ Street is a polymer-modified cold asphalt guaranteed to permanently repair potholes, utility cuts, overlays, and edge repairs in asphalt or concrete. EZ Street is currently being used by State DOT's across the country in bulk and bag form. Not only does EZ Street work in ALL weather conditions, it even works in water.

EZ Street cold patch asphalt is easy to apply and requires no mixing or tack coat. Simply sweep the area, fill the area with EZ Street cold patch asphalt and compact with a shovel or car tire. It really is EZ!

KEY SKU	MFG#	DESCRIPTION
B ..... M02187	...EZSTREET50	.....EZ Street Premium Cold Asphalt, 50 lb. bag

## CABLE PROTECTORS

# LINEBACKER

CABLE MANAGEMENT

C

### C-G - Linebacker® Heavy Duty Cable Protector

Protect valuable electrical cables, cords and hose lines from damage and abuse while ensuring a method of safe passage for vehicles and pedestrian traffic. Ideal for heavy trucks in industrial environments, such as construction sites and for heavy trucks and forklifts in industrial areas.

KEY SKU	MFG#	DESCRIPTION
C ..... G12001	...CP2X325-Y/O	.....Linebacker Heavy Duty 2 Channel Cable Protector for hoses up to 3.25" diameter, yellow lid, orange ramp, 36" x 22" x 4.13", 10,880 lbs/tire (21,760 lbs/axle) load capacity
D ..... G12003	...CP3X225-Y/O	.....Linebacker Heavy Duty 3 Channel Cable Protector for hoses up to 2.25" diameter, yellow lid, orange ramp, 36" x 20" x 3.05", 14,210 lbs/tire (28,420 lbs/axle) load capacity
E ..... G12006	...CP5X125-Y/O	.....Linebacker Heavy Duty 5 Channel Cable Protector for hoses up to 1.25" diameter, yellow lid, orange ramp, 36" x 20" x 2.31", 20,150 lbs/tire (40,300 lbs/axle) load capacity
F ..... G12004	...CPEC3X225-O	.....Linebacker® Extra Heavy Duty 3 Channel Cable Protectors End Caps
G ..... G12008	...CPEC5X125	.....Linebacker® Extra Heavy Duty 5 Channel Cable Protectors End Caps
..... G12009	...CP4/5LID	.....Lid Cover for 5 Channel Cable Protectors

### H - General Purpose Drop Over Linebacker®

Offers a quick solution to protect minimal runs of hose and cable lines. These models provide solutions for heavy duty, high load bearing operations as well as lighter duty, general purpose needs for cables up to 3" tall and 2.25" wide. 8,500 lbs/tire (17,000 lbs/axle) load capacity.

KEY SKU	MFG#	DESCRIPTION
H ..... G11149	...CP1X225-GP-DO/ORANGE	...1-Channel, orange, 36" x 14.25" x 3"

### I - Fastlane® Drop-Over Protector

Patented L-Connectors to extend to any length. For lightweight vehicles and pedestrian traffic. Patented 5-bar tread surface for maximum traction. Universal safety colors (UV stabilized). Modular interlocking design for easy setup. 10,050 lbs/tire (21,000 lbs/axle) load capacity.

KEY SKU	MFG#	DESCRIPTION
I ..... G12014	...FL1X1.5-B	.....1-Channel, black, protects up to .5" dia, 36" x 5.25" x .75"
I ..... G11150	...FL2X1.75/BLACK	.....2-Channel, protects up to 1.0" dia, 36" x 10.75" x 1.5",

## BUMPER GUARDS

### A - Bumper Guard

Type A - Corner Protection, Black/Yellow, Self-adhesive, 39-3/8" x 1-9/16"

KEY	SKU	MFG#	DESCRIPTION
A	G13001	82-0910	Bumper Guard - TYPE A - Black/Yellow

### B - Corner Guard

Wide variety of uses in industrial and commercial applications to withstand abrasion and jolts. Provides maximum protection in storage spaces, parking garages and loading docks. Mount vertically or horizontally along corners of walls or beams to prevent damage. Made of rubber. Installed with adhesive or mechanical fasteners. 24"X4"X4".7/8" thick at corner.

KEY	SKU	MFG#	DESCRIPTION
B	G13002	CG-2	Corner Guard, Rubber, Black, 24" x 4" x 4"

### C - Bollard Covers

Reduce the need for paint and future maintenance costs. Ideal Shield's Bollard Covers are easily installed with our patented tape, sliding over steel pipe bollards for quick and permanent installation. Bollard sleeves fit 4" and 6" pipes. Bollard covers are manufactured from recyclable plastic and produced in the USA. 1/8" Bollard Covers are ideal for areas where eliminating the need to paint and enhancing your facility's appearance is a priority.

KEY	SKU	MFG#	DESCRIPTION
C	G13020	PPP-YL-04-052-S	Bollard Cover, Yellow, 4" x 59"
C	G13021	PPP-YL-06-052-S	Bollard Cover, Yellow, 6" x 59"

### D, E - Welding Screens

Wilson Stur-D-Screen free-standing curtains offer strength, sturdiness and safety for welding areas, machine shop chip control, spray booths, printing/washing booths, room dividers, grinding, draft control and similar applications.

#### Single-Panel Stur-D-Screen Frame

- Square 19-gauge steel tubing, bolted corner clamps, platform "T" legs
- Black powder-coat finish
- Pre-drilled for caster installation
- Includes square steel frame, brackets, platform "T" legs, lacing ties
- Safety curtain NOT included

#### 14-mil Orange See-Thru Welding Curtain

Heavy-duty vinyl designed to filter far/near ultraviolet radiation and blue light. Grommetted and ready to hang.

KEY	SKU	MFG#	DESCRIPTION
D	J12359	36335	Single-Panel Stur-D-Screen Frame, 6' x 4', curtain not included
D	J12360	36336	Single-Panel Stur-D-Screen Frame, 6' x 6', curtain not included
D	J12361	36338	Single-Panel Stur-D-Screen Frame, 6' x 8', curtain not included
D	J12362	36333	Single-Panel Stur-D-Screen Frame, 6' x 10', curtain not included
E	J12711	37601	14-mil Orange See-Thru Welding Curtain, Amber, 5' x 4'
E	J12713	36256	14-mil Orange See-Thru Welding Curtain, Amber, 5' x 8'
E	J12714	36193	14-mil Orange See-Thru Welding Curtain, Amber, 5' x 10'
	J12336	SDSH02	Hinges for Stur-D-Screen Frame, 2/ea.
	P02027	CAS-1	Casters for Stur-D-Screen Frame

### F - Weld-O-Glass Blankets

Wilson Weld-O-Glass fabrics are used to protect equipment and personnel near hazardous operations, such as welding, flame cutting, grinding or spraying. The Weld-O-Glass family of fabrics is made up of fiberglass and silica materials with working temperatures ranging from 600° to 2000° F. These fabrics can be made into blankets, hanging curtains or are available in roll goods.

KEY	SKU	MFG#	DESCRIPTION
F	J12331	36302	Weld-O-Glass Blanket, 24 oz. fiberglass, vermiculite coated, good spark and spatter protection. Medium to heavy duty welding blanket, 6' x 6'

## WELDING EQUIPMENT

## BROOMS

### A - Flo-Pac® Heavy Polypropylene Street Sweep

- Durable, tough, long-wearing crimped bristles
- Perfect for street crews, construction, and other demanding work sites
- BPA free
- All handles are sold separately

### B - Flo-Pac® Industrial Strength Juno Sweep

- Bolt-on handle system for secure handle attachment
- Orange colored bristles add safety to the workplace
- Great for use in high traffic areas
- Great for industrial applications; sweep can be reversed for longer life
- BPA free

### C - Flo-Pac® Juno Style Polypro Sweep w/ Wire Center

- Wire center loosens tough debris
- Perfect for all around commercial applications
- BPA free
- Hardwood Block

### D - Flo-Pac® Tapered Wood Handle

Standard threaded handle made of lacquered hardwood for consistent dependability.

### E - Replacement Juno Wood Handle

Bolt-on handle is used with Juno style blocks only. Metal end increases durability and handle life.

### F - Wood Handle with Metal Threads

Metal thread handles have a heavy duty tip to provide extra strength.

### G - HazMat Heavy Duty Broom - Stiff

This heavy duty polypropylene broom has long, thick bristles, which makes it ideal for sweeping heavy debris. This brush is also suitable for use in wet and external areas. Ideal for spill kits and environmental and industrial cleanup.

### H - HazMat Handles

Hazmat handles are an essential element of a low-cost, total solution to chemical clean-up tasks. Stiff but lightweight, they feature honeycomb construction with smooth, chemically resistant gel-coat surfaces.

## TRASH BAGS

### I - Contractor Clean-Up Bags

3-mil, 42 gallon, extra heavy duty contractor clean-up bags.

KEY SKU	MFG#	DESCRIPTION
I.....	G16008 ...CL32.....	Contractor Clean-Up Bags, 32 bags/box

## BRUSHES & LONG HANDLE TOOLS

### A - Cold Water Coater Paint Brush - Tampico Bristle

For applying foundation waterproofing, cold water paints, kalsomine and cement coatings to concrete block walls or fences.

### B - Steel Wire Brush Scraper

10" Steel wire brush scraper with rows of carbon steel bristles and a 1-1/2" scraper. Perfect for removing residue, metal filings, coatings, paint, and varnish.

### C - Utility Scrub With Tampico Bristles

Grips and bristles are designed to work in the most comfortable position and provide the most efficient cleaning. Lightweight plastic handles are break-resistant, soak-proof, sanitary and economical.

### D - The Gripper™ Pick Up Tool

- Get out-of-reach objects and pick up litter easily with just a squeeze of your hand and without getting your hands soiled
- Grasps objects from high or low places; repositions items or handles hygiene-sensitive materials
- Perfect for supermarkets, health care facilities, stadiums, parks, streets and rest room maintenance
- Recommended for use in spill kits to allow responders to pick up sorbents that have been soaked in hazardous liquids for disposal.

KEY	SKU	MFG#	DESCRIPTION
A	G07008	...367159TC00	.....Cold Water Coater Paint Brush - Tampico Bristle
B	G07007	...4577700	.....Steel Wire Brush Scraper, 10"
C	G07074	...36509L00	.....Utility Scrub With Tampico Bristles, 20"
D	G07014	...36374400	.....The Gripper Pick Up Tool with squeeze handle, 28" long

## SHOVELS

### E - Emergency Blade Shovel

This compact shovel is ideal for spill kit applications, as well as a wide variety of other uses. Constructed of injection-molded ABS plastic, it will not damage tires or truck beds. It is non-sparking, chemical and corrosion resistant, making it an excellent addition to spill kits. It collapses for easy storage in commercial trucks or vehicles—or even your family car.

### F - Hygienic One Piece Shovel

Remco one-piece polypropylene shovels are tough, lightweight and hygienic. Molded from FDA-compliant polypropylene, it is a workhorse for moving bulk materials and an integral part of any professional cross-contamination containment, food safety or HACCP program. Initially developed over 30 years ago, our one-piece shovel doesn't just meet the standard, it sets the standard. This shovel is popular for meat, dairy, seafood, and poultry processing, as well as commercial fishing and other food handling applications.

KEY	SKU	MFG#	DESCRIPTION
E	G08118	...6880EBO	.....Emergency Blade Shovel, orange, 11" x 13" blade, 36" length
F	G08012	...6981-5	.....Hygienic One Piece Shovel, white, 11" x 14" blade, 38" length
F	G08013	...6982-5	.....Hygienic One Piece Shovel, white, 14" x 17" blade, 42" length

### G - Toter® Tilt Trucks

Toter tilt trucks feature a rugged rim that provides superior durability in critical wear areas, standard fork pockets, quick-disconnect wheels for easy cleaning and maintenance, powder-coated frames prevent rusting and flaking, pneumatic tire and caster models increase mobility over rough terrain, including construction sites and factory settings, compatible with automated and manual transportation systems. Tilt trucks are ideal for general waste, material handling, manufacturing waste, food waste and recycling.

KEY	SKU	MFG#	DESCRIPTION

## OIL & GREASE CLEAN-UP

### A - Micro-Blaze® Emergency Liquid Spill Control

Micro-Blaze products contain a proprietary blend of surfactants, nutrients and several strains of safe, non-pathogenic Bacillus bacteria. When applied to a hydrocarbon-based or organic spill or contaminant, the surfactant begins emulsifying (breaking down) the contaminants into smaller molecules for more efficient degradation by the microbes into harmless byproducts like carbon dioxide, water and trace salts.

Micro Blaze eliminates flammability of hydrocarbons, it breaks down, degrades and digests the waste. Using this product in various can reduce costs of spill treatment, minimize or eliminate any "dig and haul" charges and minimize or eliminate "cradle-to-grave" liability many times associated with spill / waste remediation.

KEY SKU	MFG#	DESCRIPTION
A ..... 001123	...MBELSC 1G	.....Micro-Blaze Emergency Liquid Spill Control, 1 gallon
A ..... 001096	...MBELSC 5G	.....Micro-Blaze Emergency Liquid Spill Control, 5 gallon

### B - Micro-Blaze® F•O•G

Micro-Blaze F•O•G for treatment of Fats, Oils, & Grease, is a non-toxic formulation of biological activators and selected non-pathogenic microbes that solves restaurant drainage line problems caused by a buildup of fats, oils, and grease in commercial kitchens and drain lines. It eliminates odors and prevents grease buildup in grease traps. It keeps septic systems operating at their optimum.

Micro-Blaze® F•O•G is also used in municipal collection lines, lift stations, and wastewater treatment plants to keep lines free flowing, reduce odors, and make wastewater treatment plants more efficient and effective by treating the waste before it gets to the plant.

KEY SKU	MFG#	DESCRIPTION
B ..... 001125	...MBFOG 1G	.....Micro-Blaze F•O•G, 1 gallon
B ..... 001097	...MBFOG 5G	.....Micro-Blaze F•O•G, 5 gallon

### C - Micro-Blaze® CSR Concrete Stain Removal

Micro-Blaze® CSR contains a blend of non-toxic microbes in a concentrated liquid that breaks down oily compounds, such as mixtures of automotive or maintenance products, on concrete surfaces.

Uses include parking lots & garages, drive-thru lanes, decks, patios, factory floors, factory/warehouse equipment, sports complexes & recreation centers, and animal care facilities.

Advantages:

- Maintains a cleaner, healthier facility.
- Instills confidence in your customers with a clean drive-thru, garage, or other facility.
- All-in-one cleaning agent for applications, including cleaning concrete floors, fixtures, tools, and other equipment.
- Eliminates odors.
- Will not kill grass or other plant life.
- Non-toxic, non-irritating, and non-flammable formulation for a safer product for both the user and the environment.

KEY SKU	MFG#	DESCRIPTION

## MAINTENANCE & CLEANING SUPPLIES

### A - Electrical Contact Cleaner Spray

Featuring patented Smart Straw® technology, blasts away oil, dirt, flux residue and condensation from sensitive electronics and electrical equipment with pinpoint precision. It dries quickly, leaves no residue and removes more soil than leading competitors, making it the best at cleaning electrical contacts. Safe to use and 50-state VOC compliant, it's ideal for use on printed circuit boards, controls, switches, precision instruments and electric panels.

### B - Machine & Engine Degreaser Foaming Spray

Makes equipment run smoother, last longer and look like new. With deep foaming penetrating action and a powerful stream that sprays up to five feet, it quickly removes grease, oil, dirt and grime. It's 50-state VOC compliant and is an ideal engine cleaner and industrial degreaser.

### C - Water Resistant Silicone Lubricant

Safely lubricates, waterproofs and protects metal and non-metal surfaces, including rubber, plastic and vinyl better than leading competitors. Our silicone spray dries fast and leaves a clear, non-staining film that doesn't stick or make a mess, so it won't attract dirt. Effective in a temperature range from -100°F to 500°F and is 50-state VOC compliant.

### D - Protective White Lithium Grease

Ideal for metal-to-metal applications that require heavy-duty lubrication and protection against rust and corrosion. Our white lithium grease sprays on evenly as a liquid and sets dry for a thick, protective coating that won't run off. Effective in a temperature range from 0° F to 300° F and it's also excellent for lubricating equipment before placing in storage, and is 50-state VOC compliant.

### E - Rust Release Penetrant

Penetrates deep into crevices, threads and seams to break the bonds that hold stuck parts together and leaves behind a protective layer and helps prevent rust and corrosion from re-forming. Containing Blu Torch™ Technology, a proprietary blend of synthetic additives, our rust remover spray quickly goes to work on rusted nuts, bolts, threads, locks and chains. WD-40 Specialist Rust Release Penetrant Spray frees rusted parts 50% faster than the leading competitor. It is 50-state VOC compliant and safe to use on plastics, rubber and metal.

### F - Long-Term Corrosion Inhibitor

Protects metal parts, blocking rust and corrosion for up to one year outdoors and two years indoors. Our anti-rust spray is ideal for both preventative maintenance and use in extreme environments such as high humidity. Safe to use and 50-state VOC compliant, it provides non-drying protection that stays where you spray it.

### G - Rust Remover Soak

Dissolves rust quickly without harming surrounding parts, trim, gaskets or paint. Our rust dissolver restores surfaces to bare metal without scraping, chipping or scrubbing. For light rust, leave parts in 1-3 hours and for heavy rust, leave parts in the rust removal solution overnight. This non-toxic and biodegradable formula is effective on small or large items that can be soaked.

### H - Dirt & Dust Resistant Dry Lube PTFE Spray

Lubricates and provides superior long-lasting corrosion protection with no oily residue. It dries quickly and resists dirt, dust and oil. Reduces friction and wear on blades and bits, door and window tracks, slides, conveyor belts, rollers, hinges, power tools and equipment. Our dry lubricant is also ideal for releasing molded parts, and it's 50-state VOC compliant.

### I - Spray & Stay Gel Lubricant No-Drip Formula

Offers long-lasting lubrication that won't run, drip or make a mess. Unlike standard lubricants, this unique gel stays where you spray it, making it ideal for use on vertical surfaces and moving parts like chains, cables, gears, rollers and bearings. Safe on multiple surfaces including metal, plastic and rubber. Withstands temperature ranges from -100F to 500F. VOC compliant in all 50 states.

### J - Industrial-Strength Cleaner & Degreaser

A powerful solvent-based degreaser that quickly cleans machinery, engines and equipment to look like new and run smooth. Contains WD-40® PowerSolve Technology™, a proprietary solvent that quickly breaks down grease yet unlike other harsh degreaser solvents is safe on most surfaces including metals, plastics, rubber, glass, aluminum and more. Safe on skin.

### K-O - WD-40

THE FIVE BASIC FUNCTIONS: WD-40® protects metal from rust and corrosion; penetrates stuck parts; displaces moisture; removes grease, grime, rust, and other marks from most surfaces; and lubricates just about anything. Known as "the can with thousands of uses".

## CLEANING & MAINTENANCE SUPPLIES

A

B

C

### A - Lava HD Hand Cleaner

Originally developed in 1893, Lava® is one of the best-known heavy-duty hand cleaners in the world. Whether you're a master mechanic or a weekend gardener, you're going to want to get your hands on Lava. The power of pumice is the key to its effectiveness. Grease, grime, oil, tar, ink, paint, glue, resins, adhesives, caulk -- Lava cleans it all!

KEY SKU	MFG#	DESCRIPTION
A..... G18023 ... 10085		Lava HD Hand Cleaning Bar, 5.75 oz

### B - 3-IN-ONE® Multi-Purpose Oil with Telescoping Marksman Spout

Easily fits into hard-to-reach places and delivers oil precisely where it's needed - and nowhere else. While it still holds the same trusted 3-IN-ONE formula, the new ergonomically shaped bottle is easier to use, its on and off twist tip will help you avoid unwanted spilling and its clear product fill indicator will tell you when you're running low - all to help you lubricate, clean and protect your tools and equipment better.

KEY SKU	MFG#	DESCRIPTION
B..... G18022 ... 10070		3-IN-ONE® Multi-Purpose Oil w/ Telescoping Spout, 4 oz

### C - 3-IN-ONE® Lock Dry Lube

Use 3-IN-ONE® Lock Dry Lube to loosen, lubricate and protect home and commercial locks. Easily reach into narrow lock mechanism with the attachable straw or use the wider spray pattern to refurbish and protect the entire lock. 3-IN-ONE® Lock Dry Lube dries clear to the touch within minutes and is safe to use on metal, wood and most plastic surfaces.

KEY SKU	MFG#	DESCRIPTION
C..... G18027 ... 120077		3-IN-ONE® Lock Dry Lube, 2.5 oz

## GRAFFITI MANAGEMENT

### PROFESSIONALS CHOICE

#### F - Elephant Snot® Graffiti Remover

If it is a "porous" surface, then Elephant Snot Graffiti Remover is the right choice for the job. Elephant Snot is the workhorse for the most difficult of porous surface removal requirements - ELEPHANT SNOT penetrates deeply into concrete, cement, brick, grout, stone, virtually anything porous to dissolve and loosen all types of tags, and in many circumstances, simple water hose pressure will do the job.

Recommended for Removal On: Brick, mortar, masonry, cement, concrete, stucco, terrazzo, pavers, porous tile. Natural stone surfaces such as granite, marble, sandstone, rocks, both porous/rough or polished. Also effective on: glass, ceramic, porcelain, glazed tiles, grout.

#### G - Shadow Max® Graffiti Remover

"Shadow Max" Graffiti Shadow remover is one of the "Graffiti Max" products, each custom formulated for specific Graffiti removal needs. If you are removing shadows or "ghosting" from any porous surface SHADOW MAX is the right choice for the job.

Recommended for Removing On: Brick, mortar, masonry, cement, concrete, stucco, terrazzo pavers, fieldstone, porous tile. Natural stone surfaces such as granite, marble, sandstone, rocks, both porous/rough or polished. Porcelain, glazed or ceramic tiles, grout.

#### H - Max Swipes® Towelettes

This Graffiti remover is one of the "Graffiti Max" products, each custom formulated for specific Graffiti removal needs. If it's smooth and durable, MAX SWIPES towelette is the right choice for the job.

Recommended for Removal On: metals, glass, durable painted and durable plastics.

KEY SKU	MFG#	DESCRIPTION

G..... G15007 ... SHADOWMAX		Shadow Max® Graffiti Remover, 1 Quart
G..... G15006 ... SHADOWMAX		Shadow Max® Graffiti Remover, 1 Gallon
H..... G15005 ... MAX WIPES		Max Swipes® Towelettes

### TRADEWINDS INTERNATIONAL

#### D - KrystalKote™ CalTrans Formula

KrystalKote™ CTF is CalTrans-Approved and specified as a Graffiti-Resistant clearcoat for traffic signs & soundwalls, and has outstanding resistance to harsh environmental conditions; graffiti; mold, mildew & microbe growth; caustic chemicals; abrasion; impact; and flexing. cleans efficiently with approved graffiti removers, such as GT-1000.

#### E - GT-1000 Graffiti Remover

Effective gel-type graffiti remover and paint stripper, thickened for use on vertical surfaces. Apply to any surface (brick, concrete, glass, metal, plastic, wood, trees, etc.) with spray bottle, roller, cloth, sponge, garden or power pressure sprayer. Immediately begins to re-liquify and encapsulate paint, permanent marker, crayon, grease pencil, white out, ink, soot, cosmetics, oil, tire marks, etc., which can then be wiped or washed off. GT-1000™ is instantly neutralized and dissipated by plain water. Perfect for painted vehicles and surfaces protected by KrystalKote.

KEY SKU	MFG#	DESCRIPTION
D..... G15008 ...KK-CTF		KrystalKote CalTrans Formula, 1 gallon
E..... G15009 ...GT-1000 P		GT-1000 Graffiti Remover, non-toxic, 1 pint

## MAINTENANCE PAINTS & COATINGS

### A - Rust Proof Any-Way Spray Paint

A high-quality, rust proofing, industrial maintenance enamel coating formulated for light to moderate interior/exterior exposures. Sprays in any direction and adheres to any surface. (Formerly Rust Proofing Solvent-Based Paint).

- 360° application, adheres to any surface
- Lasting protection against corrosion, light abrasion, weathering, and mild chemical fumes
- VOC and MIR compliant
- High gloss, high-hide coverage, lead-free
- Can be applied over sound rusted areas
- Primer not required but recommended over bare steel

Applications: non-galvanized metal, steel, masonry, wood, machinery, motors, tools, cabinets, toolboxes, steel bars, pipelines, drums, conduit, ducts, furniture, and ideal for marking hazard areas.

### B - Rebar Green Coating

A high-performance, single system epoxy coating that is specially designed for touch-up or as an initial coating of rebar.

- Prevents rust and the resulting stains when applied to rebar before setting in concrete
- Meets ASTM D3963 specifications
- Tough, durable finish and excellent color retention
- Very good resistance to corrosion, chemicals, gasoline, and abrasion
- Prevents oxidation with touch-up or sheared ends, cuts and other exposed areas
- Performs at temperatures up to 300°F (149°C)

Applications: rebar, metal, steel, and metal support reinforcement beams.

### C - Cold Galvanize Coating 93% Zinc Rich

Leader in the industry in corrosion prevention. Can be easily sprayed, brushed, or dipped onto any metal surface. Its zinc-rich formula is designed for permanent protection.

- 93% pure zinc in dry film
- Meets performance requirements of MIL-P-46105(MR), MIL-P-21035B, and DOD-P-21035A
- Withstands 2000 hours of 5% salt spray testing (ASTM B-117)
- Light gray, matte finish
- Zinc sacrifices itself to protect the base metal surface
- Provides protection equal to or better than hot-dipped galvanizing
- Outstanding weld-through primer

Applications: industrial type applications such as aviation, marine, manufacturing, etc.

### D - Brite Galvanize Coating 65% Zinc Rich

A restorative coating fortified with zinc for preventing rust and corrosion on ferrous metal surfaces with one coat application.

- A glistening coating with 65% pure zinc in dry film
- Stops rust and corrosion on any iron or steel surface for protection equal to or better than hot-dipped galvanizing
- Restores galvanized surfaces to the bright look of hot-dipped galvanizing
- Meets performance requirements of ASTM A-780
- Good film integrity after 500 hours salt spray (ASTM B-117)

Applications: repair of welds, handrails, rims, guardrails, metal chain fences, pipes, corrugated metal building, or anywhere the bright look of hot-dipped surfaces is desired.

### E - Zynolyte Multipurpose Primer

High quality, non-lifting primer ensures good adhesion with the top coat finish.

- Fast drying - to touch in 10 minutes
- Tough, sealing primer
- Bonds extremely well to bare metal surfaces
- Fills in grain and surface imperfections on wood surfaces
- Prevents rust and corrosion
- Enhances the quality of any finish

Applications: metal, wood, rigid plastic, machinery, motors, shelving, bicycles, appliances, furniture, and automotive body parts.

## DUCT TAPE

### A - Black Gorilla Tape

Black Gorilla Tape offers over the top results with its heavy-duty, double-thick duct tape. It is made to stick to rough, uneven, unforgiving surfaces like wood, stone, stucco, plaster, brick and more.

Features:

- DOUBLE-THICK ADHESIVE - grips smooth, rough and uneven surfaces
- HEAVY-DUTY CLOTH BACKING - for added strength and heft
- RUGGED OUTER SHELL - withstands moisture, UV rays and temperature extremes better than other tapes

### B - White Gorilla Tape

White Gorilla Tape offers over the top results with its triple layer strength and outstanding versatility. It is perfect for both indoor and outdoor use with its superior UV resistance and ability to grip to rough, uneven, unforgiving surfaces like wood, stone, stucco, plaster, brick and more.

Features:

- TRIPLE LAYER STRENGTH - Toughest White Tape available; sticks to smooth, rough, and uneven surfaces
- WEATHER RESISTANT - Ideal for indoor and outdoor applications
- BRILLIANT WHITE COLOR WITH UV RESISTANCE - Camouflages repairs on white surfaces; won't yellow outdoors

KEY SKU	MFG#	DESCRIPTION

### C - Polyken 225FR Premium Flame Retardant Duct Tape

A superior flame retardant polyethylene coated waterproof tape with an exceptionally aggressive adhesive to a variety of substrates including steel and plastic. Used in areas where flame retardancy is required. For sealing duct work, fiberglass insulation, and wire harness insulation and building applications. Cargo pit applications for freight-carrying aircraft.

### D - Polyken 231 Military Grade Duct Tape

High performance, polyethylene coated, waterproof packaging and sealing duct tape for military packaging and demanding applications. Manufactured to conform to Federal Specification PPP-T-60E, Type IV, Class I.

### E, F - Nashua 2280 General Purpose Duct Tape

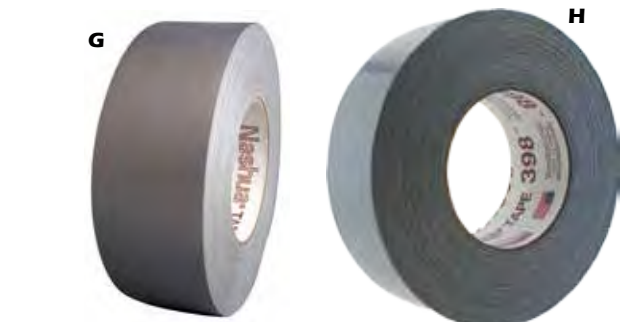

High-tack adhesive bonds well to a wide variety of smooth and rough surfaces. Flexible PE backing conforms well to irregular surfaces and shapes. Smooth, consistent unwind provides ease of use in manual applications. Easy-tear cloth provides clean, consistent tear by hand.

### G - Nashua 307 Utility Grade Duct Tape

Conformable & hand-tearable. Resists twisting & curling. Bonds well to most surfaces. Use for maintenance & general repair, bundling, patching and mending, joint sealing & pipe wrapping and heavy-duty box sealing.

### H - Nashua 398 Industrial Grade Duct Tape

High quality polyethylene coated cloth tape. Conforms well to irregular surfaces. Adheres to a wide variety of surfaces. Tears straight, hangs straight, curl resistant. Easy unwind. Use for HVAC industry for duct and equipment applications. High quality maintenance tape in a variety of manufacturing environments. Broad range of applications in the construction industry. Asbestos removal and polyethylene hanging.

## ADHESIVES

### A - Gorilla Glue

The product that started it all, Gorilla Glue, is known for its industrial holding power and versatility, regardless of the substrate. Easily bonds wood, stone, metal, ceramic, foam, glass and more!

Features:

- 100% WATERPROOF – does not break down when exposed the elements
- VERSATILE – ideal for most household fixes, indoors or out
- TEMPERATURE RESISTANT – once dry, Gorilla Glue is unaffected by extreme heat or cold
- FOAM EXPANSION – expands 3-4 times the application amount, penetrating the glued surface for a superior bond
- SANDABLE, PAINTABLE, STAINABLE – the invisible glue line makes for easy finishing

### B - Gorilla Glue, Dries White

The same serious strength you expect from Gorilla Glue, in a Dries White, 2X Faster formula. Whether indoors or out, Gorilla Glue easily bonds foam, wood, metal, ceramic, stone and much more!

Features:

- 100% WATERPROOF – does not break down when exposed the elements
- VERSATILE – ideal for most household fixes, indoors or out
- TEMPERATURE RESISTANT – once dry, Gorilla Glue is unaffected by extreme heat or cold
- SANDABLE, PAINTABLE, STAINABLE – the invisible glue line makes for easy finishing

### C - Gorilla Wood Glue

Gorilla Wood Glue is the adhesive that woodworkers, carpenters and hobbyists trust for their woodworking projects. Gorilla Wood Glue, a PVA glue, offers the benefits of an easy-to use water based adhesive, with the holding power Gorilla is known for.

Features:

- VERSATILE – ideal for use on hardwoods, softwoods, and natural wood composites.
- DRIES NATURAL COLOR – offering a natural bond line. Say goodbye to the “orange after-glow” from yellow glues.
- EASY TO USE – it’s a non-toxic, water-based, solvent free polyvinyl acetate (PVA). Compliant with FDA standards for indirect food contact.
- EASY CLEAN UP WITH WATER

### D - Gorilla Epoxy

Gorilla Epoxy brings a strong, long-lasting bond for household and automotive repairs, alike. The two-part, gap-filling formula easily bonds steel, aluminum, wood, ceramic, tile and much more

Features:

- GORILLA STRONG – incredible performance for the toughest jobs
- DRIES CRYSTAL CLEAR – ideal for clean, easy finishing
- 5-MINUTE SET – plenty of repositioning time for the perfect fit
- SOLVENT RESISTANT – will not break down from exposure to common solvents

### E - Gorilla Super Glue

Developed for long-lasting repairs in an instant, Gorilla Super Glue is formulated with tiny rubber particles for increased impact resistance. We call it Impact-Tough® because it stands up to wear and tear unlike any other instant glue.

Features:

- RUBBER TOUGHENED - Bond line doesn't crack under pressure
- ANTI-CLOG CAP – Keeps glue from drying out, use after use
- VERSATILE – Bonds metal, wood, paper, ceramics, leather, most plastics and more
- EASY TO USE – Dries in 10-30 seconds, no clamping required

### F - Gorilla Super Glue Gel

Gorilla Super Glue Gel is an easy-to-use, thicker and more controlled formula great for multiple surfaces and vertical applications. In addition to its high performance formula, we've added an anti-clog cap with a metal pin in the cap to ensure an air-tight seal for maximum reusability. It's Gorilla Tough, Every Time.

Features:

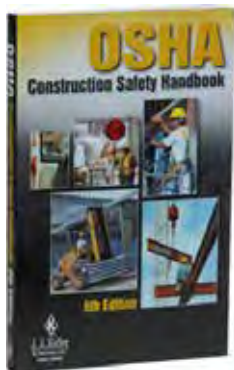

- NO RUN - Control Gel Formula
- ANTI-CLOG CAP – Keeps glue fresh use after use
- IMPACT TOUGH – Formulated to absorb drops, impacts and shocks

## BOOKS & PUBLICATIONS

A

B

### A - OSHA Construction Safety Handbook

Multi-topic training covers 22 construction safety issues. Provides immediate access to key OSHA regulations, information on jobsite hazards, and practical safety tips.

New 6th edition reflects OSHA's final rule addressing cranes and derricks in construction (effective Nov. 8, 2010), as well as the new Hazard Communication Standard (effective May 25, 2012).

### B - OSHA Safety Training Handbook

Gives your employees vital safety advice on 25 of OSHA's hottest topics. Reviews key worker safety and health topics and identifies common workplace hazards to help prevent accidents and injuries. Includes chapter quizzes to test employee understanding of topics, and a removable employee receipt page for easy documentation.

KEY	SKU	MFG#	DESCRIPTION
A	.....	G20032	...201ORS-B.....OSHA Construction Safety Handbook, Softbound, 320 pages
B	.....	G20033	...200ORS-D.....OSHA Safety Training Handbook

E

### E - OSHA Compliance Manual

Offers plain-English explanations of workplace safety regulations and answers to OSHA compliance questions. Provides an introduction to OSHA and covers the agency's recordkeeping and training requirements. Includes helpful extras like samples forms, written plans, and compliance checklists.

Covers key workplace safety topics such as ...

- Lockout/tagout.
- Emergency response.
- Labels, signs, and markings.
- Inspections.
- Material handling and storage.
- Air contaminants.
- Personal protective equipment (PPE).
- Confined spaces.

D

### C - 29 CFR 1926 OSHA Construction Industry Regulations

Inside 29 CFR 1926 OSHA Construction Regulations you will find all the information necessary for full compliance. In addition to a complete collection of Part 1926 regulations for the construction industry, the book also contains Part 1903 on Inspections, Citations, and Penalties; Part 1904 concerning Recording and Reporting Occupational Illnesses and Injuries; and relevant selections from Part 1910 for General Industry.

This edition of 29 CFR 1926 OSHA Construction Industry Regulations even includes the revised Hazard Communication Standard aligned with the United Nations' Globally Harmonized System of Classification and Labeling of Chemicals (GHS).

### D - CFR Title 49, DOT Hazmat, Parts 100-185

The Code of Federal Regulations, CFR Title 49 DOT, Transportation, outlines the regulations pertaining to transportation. Whether by air, rail, water or ground transport, the DOT Title 49 CFR outlines the regulations for transport in all modes of transportation.

Hazardous materials regulations including requirements for markings, labels, placards, shipping papers, training, emergency response and performance-oriented packaging standards are found in parts 100-185. Domestic transportation regulations for highway, rail, air and water are included. These regulations are a must if you handle hazardous material or hazardous waste, or if you are a shipper, carrier or freight forwarder.

F

### F - NIOSH Pocket Guide to Chemical Hazards

Save time and money protecting your workers' health, preventing overexposure to chemicals, and responding to emergencies. Presents key information and data in abbreviated tabular form for chemicals or substance groupings (e.g. cyanides, fluorides, manganese compounds) commonly found in the work environment. Find info on chemical structures or formulas, exposure limits, chemical and physical properties, synonyms, respirator selections, signs and symptoms of exposure, etc. for 677 chemicals regulated at the federal level.

### K - Forklift Safety Poster, 10 Steps to Forklift Safety

Laminated forklift safety posters serve as a daily reminder to employees who operate forklifts or other powered industrial trucks on crucial safety steps that can save lives and prevent damage to materials being transported. This safety poster covers safe driving, safe loading, safe maintenance and battery changing, operator and personnel safety, and general safe operations. 18" x 24" laminated poster.

KEY SKU	MFG#	DESCRIPTION
K.....	G20050 ... R512038	Forklift Safety Poster, 10 Steps to Forklift Safety, 18" x 24"

### L - Accident Free Scoreboard

Help create a positive atmosphere in your workplace with these highly visible records of accident-free days. The changeable hand dials eliminate the mess of markers, grease pencils and erasers, which are easily lost. Scoreboards are 28" high x 20" wide, and made of durable high-impact styrene furnished with six perimeter grommets for secure mounting.

KEY SKU	MFG#	DESCRIPTION
L.....	G20053 ... LTA-C	Accident Free Scoreboard, green/white, 28" h x 20" w

### M - Federal Labor Law Poster with FMLA Notice

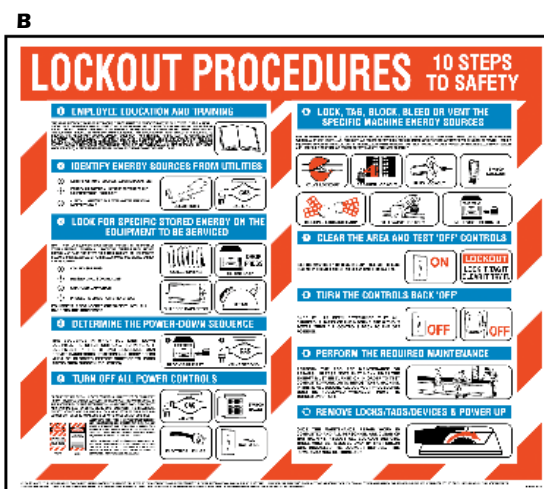

Meet federal posting requirements with this durable labor law poster. Includes the following postings: Minimum Wage (FLSA) Job Safety and Health "It's the Law!" (OSHA 3165) Employee Polygraph Protection Act (EPPA) Family and Medical Leave Act (FMLA) Equal Employment Opportunity Is The Law (EEO) Uniformed Services Employment and Reemployment Rights Act (USERRA). 24" x 18".

KEY SKU	MFG#	DESCRIPTION
M.....	G20029 ... R512015	Federal Labor Law Poster with FMLA Notice, 24" x 18"

### N - Hawaii Labor Law Poster

Easily comply with Hawaii labor law postings. Printed with poster compliance date, statute codes and revision dates (when applicable). Laminated with industry-best 2mm thick coating to last longer in high-traffic areas. 24" x 18".

KEY SKU	MFG#	DESCRIPTION
N.....	G20030 ... R513HISE	Hawaii Law Poster Set

### A - Globally Harmonized System (GHS) Chart

As of June 1, 2015 all hazardous chemical labels will be required to conform to the Globally Harmonized System, or GHS. Our GHS poster details the changes needed in order to be compliant with the new regulations. The poster, with its sample label and pictograms, is designed as a quick reference for employees to learn of the new label specifications. Size is 22" x 26", made of .020 tear-resistant vinyl.

KEY	SKU	MFG#	DESCRIPTION
A.....	G20113	...GHS-2226	.....Globally Harmonized System (GHS) Chart

### B, C - Lockout Procedures Wall Chart

Lockout Procedures Wall Chart with 10 steps to Lockout Compliance. Size is 22" x 26", made of .020 tear-resistant vinyl.

KEY	SKU	MFG#	DESCRIPTION
B.....	L02005	...LOCK-2226	.....Lockout Procedures Wall Chart
C.....	L02006	...SOLO	.....V-shaped stand-out sign for lockout/tagout wall station, plastic

### D - SDS Standout Sign

Constructed of .125 acrylic and project from the wall to allow full 180 degree visibility. 5.75" x 8.75".

KEY	SKU	MFG#	DESCRIPTION
D.....	N03511	...SOSDS-W	.....SDS Standout Sign

### E - SDS Station

Safety Data Sheets are easily accessible to employees and inspectors when kept in one station. 24" x 30".

KEY	SKU	MFG#	DESCRIPTION
E.....	N03509	...C-SDS-5	.....SDS Standout Sign, 24" x 30"

### F - GHS Training Poster

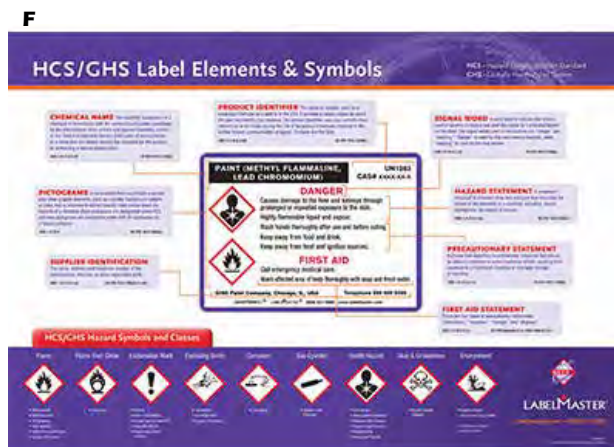

This large, 28" x 20" GHS Wall Poster gives your employees a quick reference to understand the new GHS labeling standards. The poster features an explanation of all parts of the new labels in an easy-to-understand format. The GHS Wall Poster is printed on heavyweight coated paper and on laminated paper for longer lasting use.

KEY	SKU	MFG#	DESCRIPTION
F.....	N03513	...GHISTRNPST	.....GHS Training Poster

### G - Mini GHS Pictogram Labels

The GHS Mini Labels use the GHS pictograms to depict the recommended measures that should be taken to minimize or prevent adverse effects resulting from exposure to a hazardous product. The mini hazcom labels also instruct users how to minimize improper storage or handling of a hazardous product. 8.5" x 11".

KEY	SKU	MFG#	DESCRIPTION

## ADA RESTROOM SIGNS

ADA Bathroom Signs show where accessible restrooms are in your facility. Signs are composed of acrylic plastic and contain ADA-compliant Braille.

- These signs are best used to identify restroom location and gender
- Signs play a critical role in making your facility accessible
- Place these signs on an outside wall adjacent to the restroom door, preferably on the right side
- With raised pictograms and Braille, our designs fully comply with ADA regulations
- Any commercial or private business should use these signs to meet federal ADA guidelines
- Tough, lightweight and easy to install

Additional ADA compliant facility signs available by special order. Give us a call for more information.

KEY	SKU	DESCRIPTION
T	S07137	Unisex Restroom Sign with ADA Compliant Braille, 6" X 8" Acrylic, White on Blue

Use this when there is a hazardous situation which may result in minor or moderate injury. CAUTION should not be used when there is the possibility of death or severe injury.

Use this when you want to indicate a statement of company policy as the message relates directly or indirectly to the safety of personnel or protection of property. NOTICE should not be used in place of DANGER, WARNING, or CAUTION.

These should indicate general instructions relative to safe work practices, reminders of proper safety procedures and location of safety equipment.

### Reliance Thermoplastic LED Exit Sign

UV stabilized, UL94V-O flame retardant ABS injection-molded thermoplastic with 6" high; 3/4" stroke letters and two NFPA universal field-selectable chevrons.

Listed by Underwriters Laboratories to UL 924 Standard and meets or exceeds all performance standards as required by NFPA 70, NFPA 101, EPA Energy Star, and OSHA

#### Features:

- Zero current low voltage disconnect
- Line-latch prevents unnecessary discharge of battery during installation
- Nickel Cadmium battery that provides 3 hours of emergency operation
- Brownout protection
- 120 or 277 VAC field-selectable inputs
- Quick-connect components
- LED AC present

## Snap-On Traffic Signs

For Traffic Cones, Barrels and Delineators. These directional reinforcement devices give supplemental standard warnings and directions creating SAFER TRAFFIC CONTROL in the work zone.

- Easy to install - fits like a paper clip
- Durable, all-weather ABS recycled plastic with UV
- Used by over 2,900 cities and utility companies
- All standard legends in stock
- Custom & Reflectorized signs available

## A - BlinkerSign® Flashing LED Pedestrian Crossing and School Zone Crossing (Symbol) Signs

TAPCO's BlinkerSign® Signs combine flashing LEDs and 3M DG<sup>3</sup> reflective sheeting, resulting in the most visible signage available. Powered by an eco-friendly solar panel, BlinkerSign® LED signs deliver their message day and night. Ideal for high-incident areas or where new traffic conditions exist. The TAPCO patented AutoBright circuitry measures the available light and adjusts the LED flash brightness accordingly. Every BlinkerSign® is backed by a three year warranty (extended warranty available). Installs easily into new or existing signpost.

- Can be integrated into an ITS (Intelligent Transportation System)
- Optional programming available: around-the-clock operation, off time clocks, push buttons and/or vehicle motion detectors, multiple activation methods available
- Multiple signs can be synchronized
- Heightens driver awareness
- Anti-graffiti film overlay
- Proprietary AutoBright™ circuitry

*Special Order. Call for more details and pricing.*

## B - Rectangular Rapid Flash Beacon

TAPCO's pedestrian activated RRFB systems have produced 80% to 90% driver compliance in yielding to pedestrians at high-risk uncontrolled crossings. When activated, the LED arrays flash an FHWA specified, alternating 'wig-wag' pattern. Side-mounted LED arrays flash concurrently to advise pedestrians that the units are flashing. This is the highest yielding rate of all devices not featuring a red display, and up to 4 times greater than standard round beacons. RRFBs cost less than other devices with similar vehicular yield rates. Systems can be Custom Configured per Customer Request.

*Special Order. Call for more details and pricing.*

## C - Radar Speed Display Sign

This radar speed display sign has your pole mount traffic calming needs covered with our Fast-275 pole mount radar speed signs. Mounted permanently or semi-permanently, these high intensity LED displays get the attention of oncoming drivers. The speed radar signs can be directly hard-wired to your electric service or optionally powered by a solar panel power system.

Each of these designs feature a full matrix high intensity LED display with 12" characters. The 12" character is appropriate for slower speeds (sub 35 MPH) and is readable to 750 feet. In addition to the standard flashing digit Violator Alert, several additional Violator Alerts are available including an embedded "SLOW" message and our flashing Red/Blue bars, particularly effective at night.

*Special Order. Call for more details and pricing.*

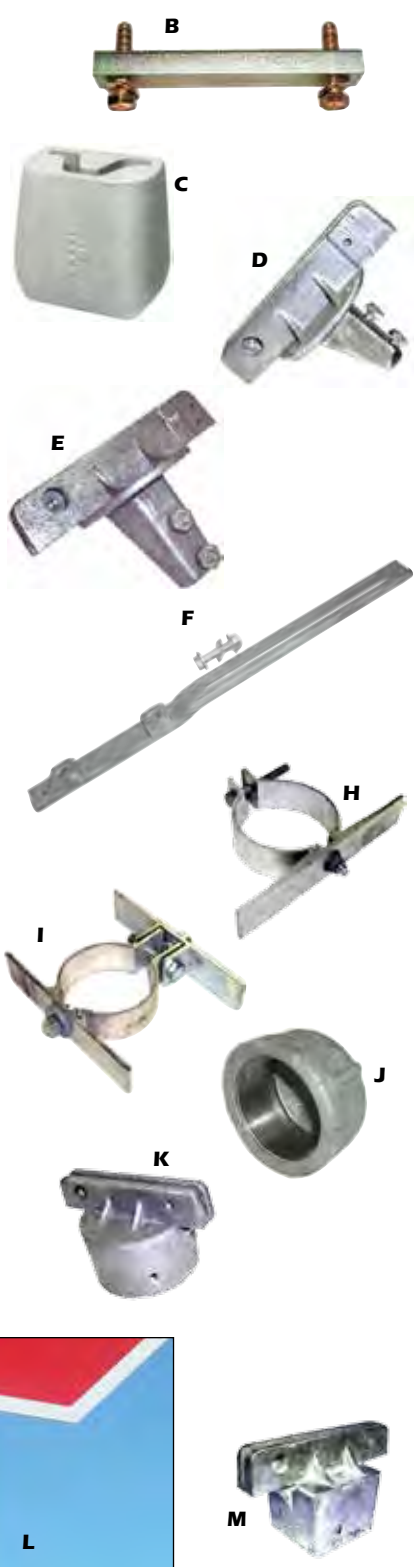

## D - BlinkerBeacon™ Solar Flashing LED Beacon

For decades beacons have used as an enhancement or warning for busy crossings and heavy traffic areas. Recent LED improvement, new regulations for 12" lenses, and solar power have made this timeless device even more effective and more versatile. TAPCO's new BlinkerBeacon LED beacon incorporates these new features at a low cost-effective price. Available in single head or dual mount heads with various lens colors and bracket mounts. This system comes standard with 24/7 flashing operation. Beacons can be programmed multiple ways including timeclocks, pushbuttons and vehicle motion detectors. Multiple beacons can be synchronized in horizontal or vertical configurations.

*Special Order. Call for more details and pricing.*

## SIGN POSTS & HARDWARE

### A- U-Channel Sign Posts

Designed to give you an easy-to-install ground mounted, bolted base breakaway system for RIB-BAK U-channel. Patented design features a ribbed back and flange to strengthen posts at crucial load-bearing points to handle larger signs.

#### 1.12 LB U-Channel Galvanized Post

KEY	SKU	DESCRIPTION
.....	S09517	Post only, UCHAN-6' 1.12LB
.....	S09518	Post only, UCHAN-7' 1.12LB
.....	S09519	Post only, UCHAN-8' 1.12LB

#### 2.5 LB Lap Splice U-Channel Post

KEY	SKU	DESCRIPTION

## SIGN POSTS & HARDWARE

### A - Square Pedestal Base

Square Baseplate, 12" x 10" x 10" w/ insert wedge. Square plate for flush mount bolting square or Nex post on concrete. Bolt into asphalt, concrete or wood, or use without bolts for temporary or movable signs.

### B - Round Pedestal Base

Round Pedestal Base, 15" diameter. Aluminum free standing round sign pedestal base for U-channel, round, and square post.

### C - SNAP'n SAFE™ Breakaway Device

The SNAP'n SAFE™ Breakaway Device is made of cast gray iron, and withstands winds of 120 mph. Reduces the risk of occupant injury, the sign post will no longer strike and penetrate the windshield or roof of a vehicle during a collision. Simply bolt the breakaway base to concrete. No need to bore out concrete for new square sign post installations or when repairing damaged sign posts.

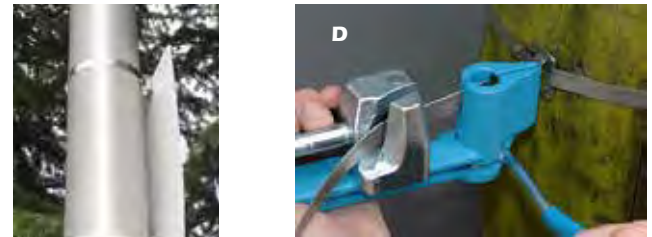

KEY	SKU	MODEL / SIZE

**RENTALS AVAILABLE**

### Steel Plates

#### Steel Plate Sales

Steel plates with or without keyhole for purchase. Call for availability and/or shipping schedule.

#### Steel Plate Rentals

When renting steel plates there is an hourly charge for delivery, unloading, loading, and pickup of plates. If possible, have a forklift, hoptoe or other equipment on standby at job site to save time and cost. If you do not have such equipment, please let us know when placing your order and we'll make arrangements for you.

If your job requires a non-skid rental plate, please order 24 hours in advance to give us time to coat the plate. Non-skid application charged separately.

Standard rental sizes:

- 12'L x 6'W x 3/4"      12'L x 8'W x 1"
- 12'L x 6'W x 1"      16'L x 8'W x 1"
- 12'L x 8'W x 3/4"      20'L x 8'W x 1"

Custom sizes are also available. Please call for more info.

### End Shores

Although developed to shore the open back wall of trench shields used in boring applications, Speed Shore's End Shore has a wide variety of uses in most soil conditions. The shear wall at the abrupt end of trench is just as dangerous as the side walls of the excavation. Aluminum hydraulic cylinders encased in heavy-duty steel Speed Struts provide not only for shoring protection of the sidewalls of the trench, but also provide the strength so ending loading can be accomplished thus preventing cave-ins.

- Single End Shores are designed to support the end faces of trenches and the side wall faces of trenches adjacent to the end face, and are to be used at the end of trenches.
- Single End Shores may be used with Vertical Shores, Waler Systems, Shoring Shields or Trench Shields.
- End Shore sizes include: 26-40", 32-50", 38-59" and 56-92"
- Rail sizes include: 5', 6' and 8' high
- Available for sale or rental.

## ALUMINUM HYDRAULIC SHORING

### Vertical Shores

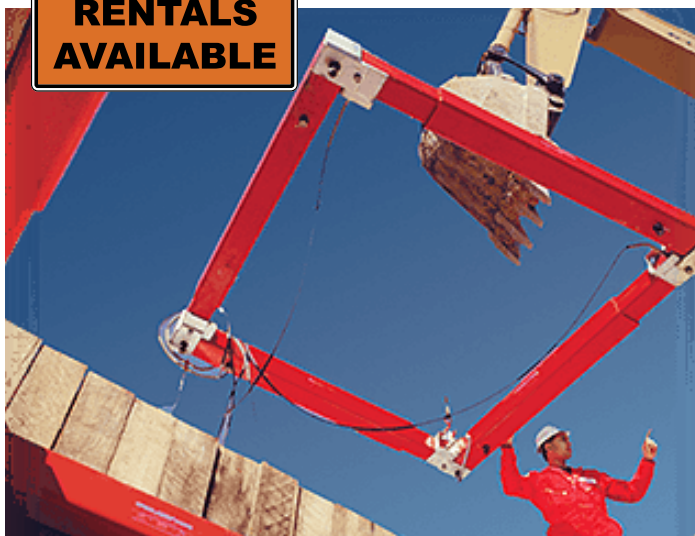

Speed Shore's aluminum hydraulic Vertical Shores are the safest, most versatile means of shoring an excavation. Typically, one worker can safely shore a trench as quickly as it is excavated, allowing the excavator to operate at full digging capacity. Active pre-loading of trench walls maintains vertical trench sides, preventing soil movement and optimizing work space. Excavation requirements are minimized, thus reducing fill and compaction needs, and dramatically lowering cost per foot of trench.

Designed to shore vertical trenches as well as less uniform excavations, Vertical Shores offer optimum versatility when restrictions are imposed by parallel or crossing utilities. In more stable soils, Vertical Shores may be used directly against the trench face. When conditions indicate trench face sloughing or local raveling, plywood or similar sheeting may be used in conjunction with Vertical Shores.

Single Shores (Vertical Shores with one cylinder connected to short rails) are especially applicable in excavations with limited work area, or where spot-bracing is necessary. They are also commonly used in conjunction with other trench shoring systems to provide support around crossing utilities.

- 100% Above-Ground Installation eliminates worker exposure to dangerous trench collapses.
- Aluminum Alloy Construction for lightweight, extremely portable systems of exceptional strength.
- One-man installation and removal. Safety bleed-off ports eliminate over extension of cylinders while gauge-regulated pumps insure even loading.
- Hinged, Flat Cylinder Pads insure even load distribution to rails with no load-bearing on critical connecting pins.
- Available for sale or rental. Standard sizes include: 17-27", 22-36", 28-46", 34-55", 40-64", 52-88", 76-112", 94-130", 108-144", 144-180".

### Manhole Braces

Speed Shore's Manhole Braces are a unique 4-way hydraulic shoring system specifically designed to shore excavations for manholes, vaults, bore pits, and tank installations. They are constructed of aircraft-grade aluminum hydraulic cylinders enclosed within rugged telescoping steel sleeves. Each Manhole Brace ring consists of four hydraulic legs that work in conjunction with one another to form an active shoring system. Available in two and three-inch cylinder versions, Speed Shore's Manhole Braces have an effective stroke of 36" in all directions and is capable of covering spans of up to 30 feet by 30 feet.

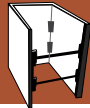

Manhole Braces, used in conjunction with appropriate sheeting, provide the active support necessary to secure safe excavations in less stable soils. Available in a wide variety of sizes and capacities. Each leg of the system is independent for ease of transport and assembles on-site in a matter of minutes. The system features non-rigid corner brackets, heavy-duty lifting eyes, and quick-connect pins and keepers to form one of the most versatile shoring systems in the industry.

- 4-Way hydraulic support with high strength, telescoping steel tubing over-sleeves.
- Individual legs for on site assembly and easy transportation.
- Quick connect pins and keepers.
- Flexibility to fit square or rectangular excavations.
- 4-Way hose bridal for simultaneous cylinder pressurization or multiple pumps may be used.
- 4-corner lifting eye for installation and removal.
- HVP-2000 high volume hand pump or HP-200 electric pump.
- Easy to use release tools.
- Available for sale or rental. Standard sizes include: 9' x 9' with 3" stroke, 14' x 14' with 3" stroke.

## ALUMINUM HYDRAULIC SHORING

### Shoring Shields

Speed Shore's innovative, patented Shoring Shields combine the benefits of aluminum hydraulic shoring with the solid-wall security of a static shield. Constructed of high-strength aluminum alloys, Shoring Shields are ideal for municipal maintenance and repair, cable splices, pipeline bell holes, vault placements, trenchless technology pits and light utility installations. The solid-sheeted exterior provides for optimum personnel protection while their lightweight design insures ease of handling with a rubber-tired backhoe.

Shoring Shields feature the exclusive Speed Struts®, which incorporate hydraulic cylinders and return springs within rugged telescoping steel sleeves. They allow for 3 and 4-sided trench support, while providing increased protection to critical components. Quick-connect pins and hydraulic fittings permit rapid assembly/disassembly, and changeover to larger or smaller Speed Struts.

An exclusive patented hydraulic manifold enables control of all cylinders from a single point outside the excavation, permitting precise regulation of cylinder pre-load in irregular, non-uniform excavations. Shoring Shields are available in either a lightweight corrugated sheeting or the exclusive smooth-wall aluminum panel exterior.

- 100% above-ground installation allows complete installation and removal safely from outside the trench.
- High-yield aluminum alloy construction for exceptional strength and lightweight portability.
- Patented hydraulic manifold assures precise control of all cylinders.
- Heavy-gauge sheeting caps and skids for protection of sheeting sidewalls.
- Certification plate on all shields denotes P.E. Certified capacity and operating guidelines.

**RENTALS AVAILABLE**

Available sizes:

2'H x 3'L, 36 lbs.  
2'H x 4'L, 49 lbs.  
2'H x 6'L, 76 lbs.  
2'H x 8'L, 102 lbs.  
2'H x 10'L, 129 lbs.  
2'H x 12'L, 155 lbs.  
2'H x 14'L, 180 lbs.  
2'H x 16'L, 205 lbs.

## ALUMINUM TRENCH SHIELDING

### Modular Aluminum Panel Systems (MAPS)

Speed Shore's Modular Aluminum Panel System (MAPS) trench shield system is engineered for high strength, ultra-low weight, and ease of handling. Modular panels, end-members, and adjustable spreaders are light enough for transport by pickup, and can be quickly configured for 2, 3 or 4-sided applications. A two-man crew can readily assemble the system by hand for rapid placement in the trench by a rubber-tired backhoe.

The foam-filled, double-wall aluminum panels are available in a full range of standard sizes to 16 feet in length. Extruded end-members, available in lengths from 2 to 10 feet, allow easy pin-and-keeper connection of panels and spreaders in various combinations, forming the exact configuration required at the work site. Various spreader options are available, to include adjustable telescoping steel spreaders and hydraulic cylinders.

The MAP shield system is ideal for utility maintenance and repair, cable splice pits, plumbing repairs, gas, sewer and water taps, and other light utility installations—including trenchless technology entry and exit pits. Speed Shore's Modular Aluminum Panel system is the preferred choice for municipalities, contractors and utilities seeking an extremely versatile, lightweight trench safety system.

- Aluminum Alloy Construction for extremely high strength-to-weight ratios and superior corrosion resistance.
- Narrow Double-Wall Panels minimize excavation width while maximizing interior work space.
- Lightweight Modular Components afford easy handling and options of 2, 3, or 4-sided shield configurations.
- Dual-Purpose End Members connect both panels and spreaders in multiple configurations.
- Adjustable Spreaders allow for rapid field modification of shield width.
- Foam-Filled Smooth Walls prevent accumulation of water, dirt and debris.
- Tongue & Groove Panel Design aids in assembly and helps secure panels in place.
- Pin and Keeper System allows for rapid assembly and disassembly by hand, with no need for special tools.

## STEEL TRENCH SHIELDS

### Trench Shields

Speed Shore offers the most advanced line of trench shielding products available. Built to last, these shields are designed and certified by Registered Professional Engineers to optimize strength-to-weight ratios while maintaining minimal sidewall thickness.

Standard shields are available with 4" to 6" thick walls in a full array of heights and lengths. The comprehensive line of trench shields includes economical Single-Wall Shields for less extreme lateral pressures, specially designed Manhole Shields, and the popular heavy-duty Double-Wall Shields. Complete custom capabilities are also available to analyze and optimize shields to your specific needs.

Unique Speed Shore features include: replaceable push blocks to protect the integrity of the structure, high-tensile steel reinforcement plates for added strength in critical spreader socket areas, and a variety of industry options that are included as Speed Shore standard features. Such features make Speed Shore trench shields the preferred choice for maximum productivity and safety in the trenches.

- Replaceable Push Blocks protect your structure when pushing the shield to grade. Damaged sections are readily replaced with no modification to shield structure.
- 1/2" Steel Reinforcement Plates for added strength and puncture resistance in critical spreader socket areas.
- 5 Spreader Sockets (standard on most Double-Wall Shields) for optimum versatility in spreader placement.
- Thru-Wall Spreader Sockets penetrate end vertical supports for added strength and durability.
- Easy-Access Lifting Pockets for ease of handling.
- Certification Plate for quick reference to shield size, serial number and P.E.—Certified capacity.

### Manguards

Speed Shore's Manguard safety shields are one of the most versatile excavation safety systems in the industry. Manguards are specifically designed for personnel protection during manhole installations, line taps, vault placements and point repairs. Their cylindrical construction incorporates high-strength corrugated steel walls welded securely to rigid steel collars, with lifting eyes, stacking sockets and adjustable legs. Replaceable or permanent cut-outs are available to accommodate clearance of incoming services.

Manguards are light enough for installation with a rubber-tired backhoe and may be easily stacked in multiples for deeper applications. Standard models are available in 8.5' and 10' diameters in both 4' and 8' heights. Custom units are also available for unique applications and site-specific needs. Speed Shore Manguards . . . a solid investment in safety and productivity.

- High-Strength Corrugated Steel Construction assures the user of high capacity shielding in a rugged, field-proven product.
- Adjustable Leg Supports allow rapid adjustment of bottom clearance for incoming utilities. Legs may also be abandoned for poured-in-place slabs and structures.
- Quick-Connect Pins & Keepers provide for rapid interlock of stacked Manguards, and adjustment of leg heights.
- Flat Mating Surfaces (top & bottom) accommodate stacking and precise alignment of sockets.
- Optional Cut-Outs (three sides) allow flexibility to clear incoming services while maintaining maximum protection in the hole. Cut-outs may be ordered with replaceable bolt-on covers.

Now available for rental.

### Manhole Shields

Designed for manhole installations with optional cutouts for incoming utilities. Available in single-wall configurations to match the depth and capacities of your particular job requirement.

Now available for rental. Standard size includes: 12'L x 12'W x 8'H

**RENTALS  
AVAILABLE**

Available sizes:

4'H x 10'L, 2780 lbs.
4'H x 12'L, 3150 lbs.
4'H x 16'L, 3730 lbs.
4'H x 20'L, 4420 lbs.
4'H x 24'L, 5450 lbs.
8'H x 10'L, 4435 lbs.
8'H x 12'L, 5200 lbs.
8'H x 16'L, 7350 lbs.
8'H x 20'L, 9550 lbs.
8'H x 24'L, 11,260 lbs.

## SPECIALTY PRODUCTS

### Bedding Boxes

Speed Shore Bedding Boxes eliminate the waste of expensive bedding material while maximizing equipment efficiency at the jobsite. The loader operator remains productive, with no wasted time waiting to load and place bedding material in the trench. The loader is free to perform other jobsite tasks while occasionally restocking the Bedding Box.

Utilizing a Speed Shore Bedding Box behind the excavator allows material to be easily retrieved and placed efficiently in the trench, precisely when and where needed. With a clear view into the trench, the excavator operator places the bedding material quickly, with no waste. The excavator can also easily reposition the Bedding Box as work progresses; a task made easier with the standard lifting/walking bar.

Speed Shore's heavy-duty Bedding Boxes are manufactured with high tensile steel to assure long service life. High-strength tubular construction, combined with half-inch plating on bottom and ends minimizes routine wear and tear from bucket contact. Full-length skid bottom reduces damage caused by dragging, while the unique "radius-pipe skid bar" prevents material accumulation (plowing effect) as the box is pushed forward. Lifting/Pulling lugs are standard, and optional Drag Bars can be ordered to optimize handling.

- High-Tensile Steel Construction for extra-long service life.
- Half-Inch Steel Bottoms and Ends minimizes routine bucket-contact wear and tear.
- High-Strength Tubular Frame for durability and structural integrity.
- Skid Bottoms (standard) reduce wear from dragging and walking movement.
- Radius-Pipe Skid Bar reduces material accumulation (plowing effect) while pushing forward.
- Lifting/Pulling Lugs (standard) for easy sling attachment and box movement.
- Sloped Ends for efficient bucket access and retrieval of bedding material.
- Lift/Walk Bars (standard) for added mobility and ease of handling with the excavator.

Special order item. Not available for rental.

### Trench Rescue Shoring

Trench Rescue Shoring from Speed Shore is the fastest, safest, most versatile means of rescuing victim strapped in excavation cave-ins. Trained rescue crews can now rely on the world's most preferred technology in excavation safety...Speed Shores trench rescue hydraulic shoring.

There is a 500 to 1 chance of secondary cave-ins when one has already occurred within a trench. With a cubic yard of earth weighing approximately 3,000 pounds, your rescue team needs protection. Speed Shore's Trench Rescue Shoring Kits feature customized Rescue Shores designed specifically for use in rescue applications. The equipment included with each kit is lightweight, portable, and reusable.

Trained rescue personnel can install and remove Speed Shore's Trench Rescue Shoring from a safe position outside the excavation within minutes of arrival at the accident site.

The system may also be utilized for vertical support applications (roof collapses, etc.) with minimal modifications.

Color coded extensions to increase cylinder's range snap on the shores quickly and easily and all shores have a slip proof pad to further insure the safety of the rescue team.

Special order item. Not available for rental.
