ABOUT US

FROM PACKAGING TO BUILDING BRANDS

Knowledge and experience combined with innovative ideas are the cornerstones of success. All of this is available at STENQVIST!

STENQVIST was established in 1894 in Kvidinge in the south of Sweden. We are now one of the largest packaging manufacturers in the Nordic countries. Our factories give us the flexibility and capacity to meet your needs. We do our own extrusion, lamination, flexoprint and rotogravure in-house to ensure top quality paper and plastic products.

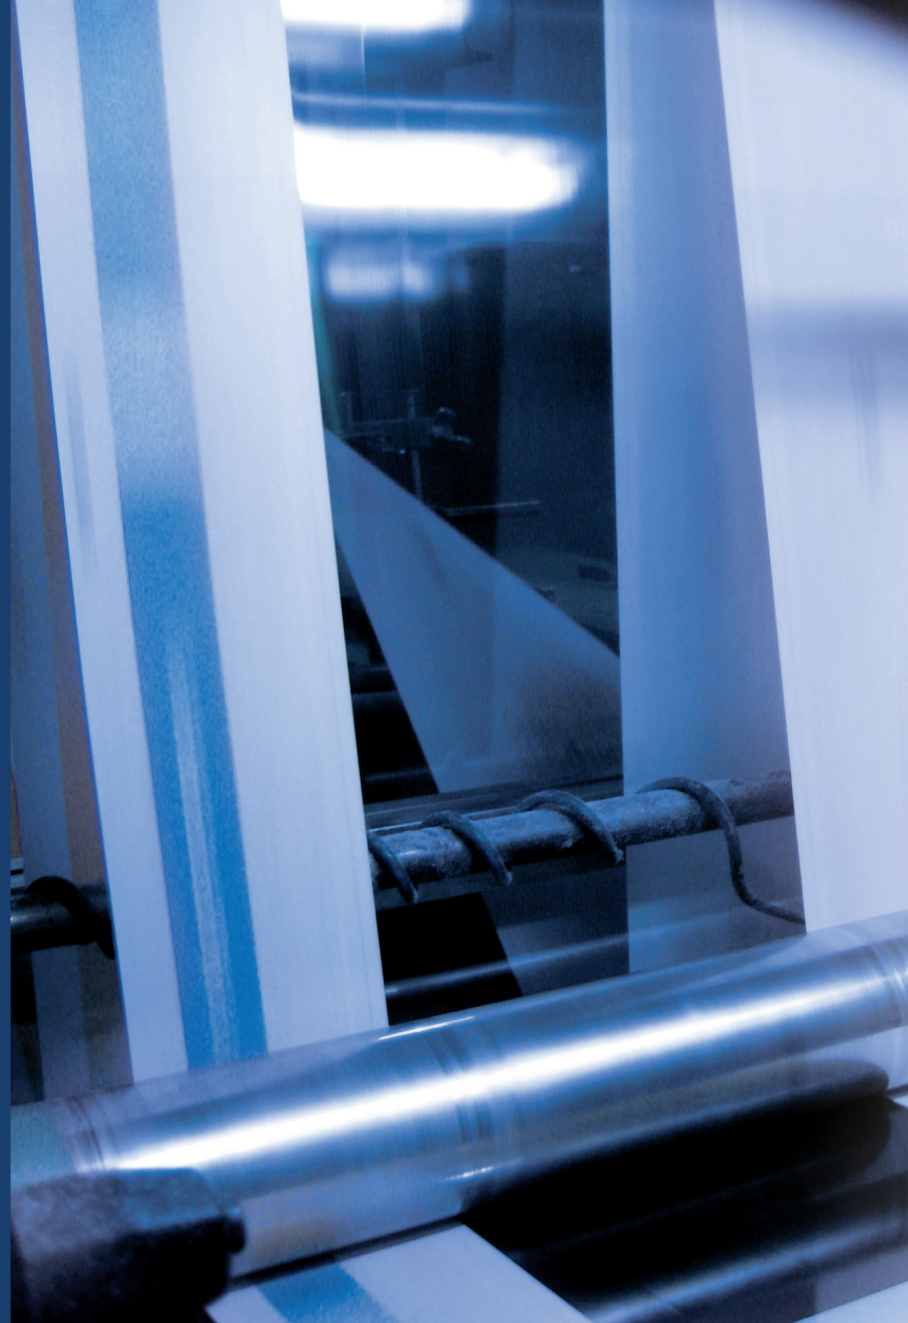

Our state-of-the art warehousing and logistics system guarantees you fast and reliable delivery. We believe in dialogue and brainstorming - discussing your particular needs with you to reach an optimal solution. Our focus always has been and always will be on long-term close relations with our customers.

STENQVIST shares its knowledge and experience. Two important factors when it comes to winning new market shares. With us as a partner, you will have strong packaging solutions backed up by modern production engineering and capacity to strengthen your brand.

QUALITY

WE MAKE QUALITY THAT SHOWS

Quality that shows through the correct position of your logotype, your brand, your message and accurate manufacturing of your packaging. Every component of work is monitored by STENQVIST's own quality system, which is subject to continuous review. We have ISO 9001 certification (quality) and BRC IoP (hygiene).

STENQVIST's solid experience guarantees top quality. The proof of this is our long-term collaboration with many customers, who appreciate the benefits of a competent partner.

Our experience saves you time and money.

ENVIRONMENT

WHAT WE DO FOR THE ENVIRONMENT

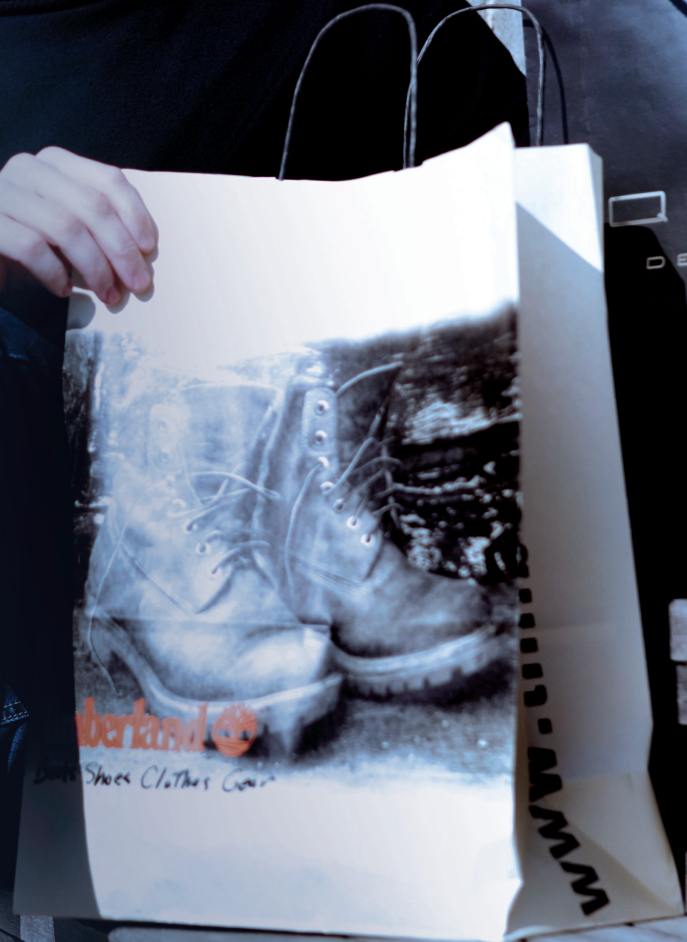

STENQVIST shall always offer the most environmentally friendly solution bearing in mind the customer's needs and wishes. In practice, this means that we offer packaging solutions based on modern, environmentally friendly technologies as well as biologically degradable or recycled material. We work continuously with development of energy-efficient and recyclable products. By using less material while retaining or even improving the strength of the material, we reduce weight and also our customers' warehousing and logistics costs. Moreover, we save valuable raw materials.

SPECIALISED RETAIL TRADE

TRENDY AND TIMELESS

It takes intuition to choose modern, functional packaging with advertising in different kinds of material from the simple to the exclusive. Our in-depth expertise in this field ensures deliveries of all types of bags and luxury carrier bags, durable carrier bags, plastic bags, boxes, wrapping paper and silver paper.

We have the knowledge, the quality and the prices to support our customers and create unique opportunities for professional marketing of our customers' message.

HOTELS, RESTAURANTS & CATERING

TASTEFUL DISPLAYS

Stenqvist offers a broad range of packaging solutions for HORECA and we are recognised for our high quality film, foil, bags and carrier bags.

We have an extensive range of products including stocks of take away bags manufactured in-house as well as products from carefully selected partners. We supply consumable materials in the form of lunch and salad boxes, mugs, serving dishes as well as cleaning articles such as refuse bags, sanitary bags, travel sickness bags etc. Always with the focus on our customers' needs.

THE GROCERY TRADE

MARKETING THAT CARRIES A MESSAGE

Stenqvist offers a broad product programme for the grocery trade with high reliability of delivery, modern manufacturing facilities and skilled personnel. We have great experience of supplying products with the right price and quality.

We are specialists in manufacturing paper carrier bags and bags with an advertising message. We also supply high-class plastic bags and plastic carrier bags, films, trays, salad and lunch boxes, deli sheets, prawn bags, grill bags and various consumable items. In other words, we have everything a grocery store needs. Among our customers are some of the most important brands in the market such as ICA, Axfood, Coop and Rema.

BREAD, BAKERIES & CAKE SHOPS

KEEP THE FRESHLY BAKED FEELING

We supply a comprehensive range of products for the bakery industry. We specialise in all types of wicket, flat bottom and cake bags and also manufacture rolls for the industry. We also sell complementary products such as cake boxes, mats etc. Our packaging preserves and extends the lifetime of bread, pastry and cakes. We work with material which is suitable for all types of packaging, and have great knowledge of rolls with different protective barriers, for example, aroma-proof, UV protection, air permeable for horizontal and vertical flow packaging machines. We work together with customers in the long term to create high-class packaging solutions and create the desired brand values with flexoprint or rotogravure.

REFRIGERATED & FROZEN FOODS

COMPLIES WITH HIGH DEMANDS FOR THROUGHPUT

Stenqvist has long experience of developing and supplying the optimal packaging for our customers in the food industry. We know what is needed for the end product to be packaged and delivered in the right way. We have market leading customers in all segments such as ICA, Axfood, Coop, Familjen Dagård. Together with our customers and packaging machine manufacturers, we have produced durable material suitable for all types of packaging. Stenqvist creates smart packaging solutions that reinforce the product and brand message. We manufacture packaging with flexoprint or rotogravure with up to eight colours.

CONFECTIONERY, SNACKS & CHOCOLATE

BAGS TO FEAST YOUR EYES ON

We have everything from the classic sweet bag with or without windows, cross-bottom bags, flat bottom bags, SOS bags, and also rolls with different protective barriers for industrial packaging. We have the best solutions for packaging sweets, crisps, nuts etc. All material is available with flexoprint or rotogravure and we have all kinds of goods in stock when required. Among our customers are Laholms Crisps and Svenska Lantchips.

POWDER & DRY PRODUCTS

THE AROMA IS EVERYTHING

Through long-term collaboration with customers and machine suppliers, we have developed a successful concept with packaging solutions with or without protective barriers adapted to powder and dry products such as flour, muesli, tea, coffee and instant products. We manufacture rolls, ready-to-eat products, with unique customer printing in flexoprint or rotogravure and ready-to-deliver goods in stock.

POTATOES, FRUIT & VEGETABLES

HARD-WEARING MATERIAL FOR DOWN-TO-EARTH PRODUCTS

Stenqvist offers a broad range for potatoes, fruit and vegetables. We specialise in bags of wet-strength paper with and without windows and handles, perforated plastic bags, laminated and net material. Our customers are leading in their fields such as ICA, Axfood, Coop, Svegro, Bama and the Nybloms Group.

By working closely with machine manufacturers in the industry, we have produced durable material which is very suitable for all kinds of packaging. We are very familiar with different protective barrier such as fat-resistant, aroma-proof, UV protection, air permeable and biomaterial for horizontal and vertical flow packaging machines.

Our strength is our broad range with customised printing and goods in stock for faster delivery.

FLOWERS & CULTIVATING

STYLISH PROTECTION FOR YOUR FLOWERS.

We have produced carrier bags, bags and other packaging solutions of all shapes and colours – with or without lining and handles – for a long time which has made us very familiar with customer requirements. We have goods in stock with short delivery times as well as products with more exclusive designs and manufacture packaging solutions for industrial packaging with flexoprint or rotogravure. We have a broad range of products, all of high class design, performance and quality.

WASTE MANAGEMENT

PAPER – THE OBVIOUS CHOICE

The paper bag is an obvious choice for sorting of organic waste as it is a renewable raw material which functions very well in biogas plants. It complies with the requirements for KRAV labelled compost soil and reduces consumption as the bags are not used for any other than the intended purpose.

The bags are made of WR paper, i.e. paper which lets through water vapour but not water drops. The waste bags are approved in compliance with EN 13432. They can be equipped with optional printing and in varying batch sizes, either in plastic or with strapex strapping.

Professional warehousing in combination with reliable and fast deliveries have made Stenqvist the leading supplier in the Scandinavian market.

NON-FOOD

FUNCTION AS REQUIRED

There are many different products in the Non-Food area with greatly differing requirements for performance and needs, relating to manual and industrial packaging, volumes, price, design and delivery time.

We are the complete supplier of a number of packaging solutions, such as wipes, feedstuff, cat litter, char coal, and various materials for the construction industry. We also manufacture shrink and wrap-round labels.

SEMIMANUFACTURES

ROLLS THAT CAN STAND PRESSURE

We supply various combinations of unprinted semimanufactures for industrial packaging – paper, PE, aluminium foil and coated paper. We do our own extrusion and lamination.
