

UIO

Universal I/O

Maximized I/O Expandability & Flexibility

- Up to 3 or 7 Add-on Cards for 1U or 2U respectively
- Flexible I/O Configurations
- Up to 90%+ High Efficiency Power
- 3+ PCI-Express x8 Bandwidth in 1U or 2U Configurations
- Simplify Your Inventory Control

More than 20 choices: SAS RAID, 10Gb Ethernet, InfiniBand, 4-port Gigabit UIO Cards ...

Giving you the freedom to build exactly what you need!

The UIO (Universal I/O) Solutions

What is UIO?

Supermicro's **Universal I/O** technology allows users to select from a wide range of I/O options to provide the ultimate flexibility in storage and networking. When a Supermicro UIO card is installed in a UIO slot, it becomes a part of the serverboard, while still allowing the server to retain all of its PCI-Express and PCI-X slots for expansion cards.

Without a Supermicro UIO card installed, the server functions as a complete and optimized server. Installing a UIO card provides easy and cost effective upgrades for:

- **SAS/SATA RAID 5 & 6**
- **4-Port 1 Gbit Ethernet**
- **2-Port 10 Gbit Ethernet**
- **Infiniband™**

Future upgrades are easy – just replace the Supermicro UIO card with any one of the multiple expansion cards available. Supermicro UIO cards minimize the complexity of your server configurations, provide cost advantages over standard expansion cards, and protect your server investment.

UIO Advantages

- ✓ **Supports up to 3 add-on cards in 1U and 7 add-on cards in 2U**
- ✓ **Multiple card options for the latest in storage and networking technologies**
- ✓ **Easy and cost-effective upgrades to servers that support UIO technology**
- ✓ **Simplifies inventory control and server configurations**

Easy As 1, 2, 3 . . .

- 1** Choose a UIO card to insert in the UIO slot indicated in Blue

®

- 2** Install the UIO card in the UIO slot

- 3** As needed, install 2 other expansion cards in 1U servers or up to 7 additional cards in 2U

Supermicro UIO Servers in combination with riser cards and a UIO card, can provide numerous server configurations to accommodate the needs of your application. Our various riser cards for 1U and 2U chassis allow you to customize Supermicro UIO solutions that meet your storage and networking requirements. With the Supermicro UIO solution, you can customize high-performance, high density and fault tolerant storage solutions with Supermicro UIO SAS RAID card products. Leveraging a variety of UIO Gigabit Ethernet Adapters, the UIO system improves network throughput as well as application performance. All Supermicro UIO solutions can be utilized without occupying existing PCI slots, leaving those slots free for additional expansion cards.

Riser Cards

(RSC-R2UU-UA3E8 shown)

Supermicro riser cards allow you to extend the onboard slot(s) into a variety of expansion PCI slots, depending on your application needs. The UIO (blue) slot on the riser card is for the UIO card.

SAS UIO Cards

(AOC-USASLP-S8i shown)

The Supermicro UIO SAS RAID card product line addresses the need for both internal and external storage configurations with flexible solutions to meet the complex demands of today's ever-increasing storage requirements. Compared to the regular SAS controller adapter, the Supermicro UIO card offers high-performance, yet is the most cost-effective solution, which seamlessly works with Supermicro UIO motherboards.

Networking Cards

(AOC-UTG-i2 shown)

Supermicro Ethernet adapters help you maximize I/O bandwidth and ensure priority performance on each port without bus-sharing. They can significantly improve the I/O throughput of your database server, appliance server, and storage platform. With the advance off-loading technology, overall server performance can be dramatically scaled.

Recommended Chassis Solutions

SC812L-U Series

- 3 internal drive bays
- Cost-effective design
- High density slim 1U rackmount
- 520W/280W high-efficiency power supply
- Supports 2FH/FL+1LP expansion cards

SC815-U Series

- 4 hot-swap drive bays
- High density slim 1U rackmount
- 560W high-efficiency power supply
- 650W/450W redundant high-efficiency power supply available

SC823MTQ-R700UB

- Redundant 700W Power Supply
- 3 x 3.5" Hot-swap SAS / SATA Drive Bays
- 4 x 40mm x 56mm Counter Rotating Fan
- 4FH + 3LP I/O Expansion Slot
- Power Switch & 6 LED Indicators

SC825-U Series

- 8 hot-swap drive bays
- Supports 4FH/FL+3LP expansion cards with UIO
- 700W redundant power supply with I²C management
- High-efficiency power

Recommended Chassis Solutions

SC823MTQ-R700UB

- 700W redundant power supply
- 3 x 3.5" hot-swap SAS / SATA drive bays
- 4 x 40mm x 56mm counter rotating fan
- 4FH + 3LP I/O Expansion Slot
- Power switch & 6 LED indicators

SC835TQ-R800B

- 8 hot-swap drive bays
- 100% cooling redundancy
- 800W redundant power supply w/I²C
- High-efficiency power
- 3U x 25.5"

SC936A/E1/E2-R900B

- 7x full-height full-length expansion slots
- 100% cooling redundancy
- 16x hot-swap hard drive bays
- 900W (1+1) high-efficiency redundant power supply
- 3U x 25.5"

SC743 Series

- 8 hot-swap drive bays
- 6 hot-swap fans for 100% cooling redundancy
- 7 tool-less expansion slots
- 90-degree rotatable drive bay module
- 865W/645W power supply
- 4U/Tower x 25.5"

SC745 Series

- 8 hot-swap drive bays
- Tower/4U rackmount server chassis
- 7 tool-less expansion slots.
- 90-degree rotatable drive bay module
- 100% cooling redundancy
- 800W redundant power supply with I²C management
- High-efficiency power

Chassis	MB	X7DWN+	X7DWA-N	X7DBN	X7DAL-E/E+	Fan Setting
2U SC825 Series		SC825TQ-R700LP • 8 hot-swap drive bays • High-efficiency power supply • 700W redundant • Air shroud MCP-310-82502-ON* • Passive heatsink: SNK-P0025P*		SC825TQ-R700LPV SC825TQ-560LPV • 8 hot-swap drive bays • High-efficiency power supply • 700W redundant/560W power supply • Passive heatsink: SNK-P0025P*		3-pin Server
2U SC823 Series				SC823TQ-R550LP*/R500LP* SC823T-550LP*/R500RC* SC823-550LP* • 6 hot-swap drive bays • 550W/500W redundant power supply • Passive heatsink: SNK-P0025P* • Riser card: CSE-RR2UE-AX*/ RSC-R2UE-A3E8* (for SC823TQ/SC823T/SC823I-R500RC)		3-pin Server
3U SC836 Series				SC836TQ-R800B • 100% cooling redundancy • 16 hot-swap drive bays • High-efficiency power supply • 800W redundant power supply w/ I ² C • Controller card required for 16 drives • Passive heatsink: SNK-P0025P*		3-pin Server
3U SC835 Series				SC835TQ-R800B • 100% cooling redundancy • 8 hot-swap drive bays • 800W redundant power supply w/ I ² C • Passive heatsink: SNK-P0025P*		3-pin Server
3U SC936 Series				SC936TQ/A/E2/E1-R900B • 100% cooling redundancy • 16 hot-swap drive bays • 900W redundant power supply w/ I ² C • Controller card required for 16 drives • Passive heatsink: SNK-P0025P*		3-pin Server
4U/Tower SC743 Series			SC743TQ-865B/SC743T-645 • 8 hot-swap drive bays • 865W/645W power supply • Power supply w/low-noise control • Passive heatsink: SNK-P0025P* • Exhaust fan: FAN-0091L*	SC743T-R760/650 SC743TQ-R760 SC743I-R760/650 • 100% cooling redundancy • 8 hot-swap drive bays (SC743TQ/SC743T) • 8 fixed drive bays (SC743I) • 760W triple redundant/650W power supply • Passive heatsink: SNK-P0025P*	SC743T-645 / SC743I-645 • 8 hot-swap drive bays (SC743T) • 8 fixed drive bays (SC743I) • 645W low-noise power supply • Active heatsink: SNK-P0020A4* • Exhaust fan FAN-0091L required*	3-pin Server or 4-pin PWM Workstation
4U/Tower SC745 Series		SC745TQ-R800 • 100% cooling redundancy • 8 hot-swap drive bays • High-efficiency power supply • 800W redundant w/ I ² C management • Passive heatsink: SNK-P0025P*		SC745TQ-R800/800 • 100% cooling redundancy • 8 hot-swap drive bays • High-efficiency power supply • 800W redundant/800W power supply w/ I ² C management • Passive heatsink: SNK-P0025P*		3-pin Server
Mid-Tower SC733					SC733TQ-645/465 SC733T/SC733I-645 SC733E-465 • 4 hot-swap drive bays (SC733T/SC733TQ) • 4 fixed drive bays (SC733I/SC733E) • 645W low-noise power supply • 465W low-noise power supply • Active heatsink: SNK-P0020A4	4-pin Workstation

* Supports CPUs less than 100W
* Sold separately

Recommended Chassis Solutions

SC812L-U Series

- 3 internal drive bays
- Cost-effective design
- High density slim 1U rackmount
- 520W/280W high-efficiency power supply
- Supports 2FH/FL+1LP expansion cards

SC815-U Series

- 4 hot-swap drive bays
- High density slim 1U rackmount
- 560W high-efficiency power supply
- 650W/450W redundant high-efficiency power supply available

SC825-U Series

- 8 hot-swap drive bays
- Supports 4FH/FL+2LP expansion cards with UIO
- 700W redundant high-efficiency power supply with I²C management

SC515-U

- 1 x 3.5" or 2 x 2.5" fixed HDDs (optional)
- 280W high-efficiency power supply
- Supports 2FH expansion cards
- Compact 1U chassis (18" depth)
- Front access I/O

SC823MTQ-R700U

- 3 hot-swap drive bays (rear)
- Supports 4FH+2LP expansion cards
- 700W redundant power supply
- Compact 2U chassis
- Front access I/O

SC825MTQ-R700U

- 3 hot-swap drive bays
- Supports 4FH+2LP expansion cards
- 700W redundant power supply
- Compact 2U chassis

- ✓ Core 2[®] Duo/Pentium[®] D processors supported
- ✓ 2 full-height PCI/PCI-X/PCI-E
- ✓ 280W high-efficiency power supply
- ✓ 3 counter-rotating fans with optimal fan speed control & air shroud

Specifications

Form Factor	1U chassis support for max. motherboard size - 12" x 13" UIO MB		
CPU support	Pentium D [®] , Core 2 [®]		
Expansion	2 full-height & full-length expansion slots		
Drive Bays	1x 3.5" fixed HDD or 2 x 2.5" fixed HDDs (optional)		
Power Supply	280W high-efficiency power supply		
Cooling System	3x 40x56mm counter-rotating fans		
Front Panel LEDs	Power LED, hard drive activity LED, 2 network activity LEDs & fan fail / overheat LED		
Front Panel Buttons	Power on/off button, system reset button		
Dimensions	W x H x D: 17.2" (437mm) x 1.7" (43mm) x 18" (650mm) Packing: 24" x 8" x 26.7"

UIO SAS RAID Cards

Featuring Universal I/O SAS RAID Cards

The SAS RAID card delivers industry leading RAID performance at an unprecedented performance-to-price ratio. For companies running popular applications like web services or file/email servers, the UIO SAS RAID card opens the world of professional RAID performance and combines it with cost-effective SAS and SATA drive compatibility for the ultimate external storage solutions. Now customers can use one platform instead of two to support both drive types to satisfy all three application segments (reference data, transaction data, throughput data). With an optional battery backup unit and the cached data protection feature allows system builders to protect cached data even from the most catastrophic system failures.

AOC-USAS-L8i

- LSI SAS 1068E SAS controller
- 8-port (internal) 3Gb/s per port
- Supports 122 HDD with IT mode (HBA mode)
- Power management support
- Supports 1.5 and 3.0 Gb/s SAS and SATA data transfer rates
- Port independent auto-negotiation
- Supports SSP, SMP, STP and SATA protocols
- OS Support: Windows 2000/XP/2003, RedHat Enterprise and SUSE Linux

AOC-USAS-L4i(R)

- LSI SAS 1068E SAS controller
- 8-port (4 internal and 4 external), 3Gb/s per port
- RAID 0, 1, 10
- RAID 5 option with iButton (AOC-USAS-L4iR)
- MegaRAID Storage Manager Software (AOC-USAS-L4iR)
- Automatically negotiates PCI-E link widths
- Power management support
- 1.5 and 3.0 Gb/s SAS and SATA data transfer rates
- Port independent auto-negotiation
- SSP, SMP, STP and SATA protocols
- OS Support: Windows 2000/XP/2003, RedHat Enterprise and SUSE Linux

AOC-USAS-H8iR

- LSI SAS 1078 RAID on chip
- 8-port (8 internal) 3Gb/s per port
- RAID 0, 1, 5, 6, 10, 50, 60
- Hardware RAID with onboard hardware IO processor
- 256MB 667MHz DDR2 on-card cache
- Advanced array configuration and management utilities
- Power management support
- 1.5 and 3.0 Gb/s SAS and SATA data transfer rates
- Port independent auto-negotiation
- SSP, SMP, STP and SATA protocols
- Optional battery backup unit for cached data protection
- OS Support: Windows 2000/XP/2003, RedHat Enterprise and SUSE Linux

UIO SAS RAID Cards

AOC-USAS-H4iR

- LSI SAS 1078 RAID on chip
- 240 physical devices cascaded with expander
- 4-port (internal) and 4-port (external) 3Gb/s per port
- RAID 0, 1, 5, 6, 10, 50, 60
- Hardware RAID with onboard hardware IO processor
- 256MB 667MHz DDR2 on-card cache
- Advanced array configuration and management utilities
- Power management support
- 1.5 and 3.0 Gb/s SAS and SATA data transfer rates
- Port independent auto-negotiation
- SSP, SMP, STP and SATA protocols
- Optional battery backup unit for cached data protection
- OS Support: Windows 2000/XP/2003, RedHat Enterprise and SUSE Linux

AOC-USAS-S8i(R)

- High-performance RAID card with Intel® IOP348 processor
- 8-port (internal) 3Gb/s per port
- RAID 0, 1, 10
- RAID 5 & 6 with iButton (AOC-USAS-S8iR)
- Onboard hardware IO processor
- 256 or 128MB 533MHz DDR2 on-card cache
- Power management support
- 1.5 and 3.0 Gb/s SAS and SATA data transfer rates
- Port independent auto-negotiation
- SSP, SMP, STP and SATA protocols
- Optional Battery Backup Unit for cached data protection (AOC-USAS-S8iR)
- OS Support: Windows 2000/XP/2003, RedHat Enterprise and SUSE Linux

AOC-USASLP-S8i(R)

- High-performance RAID card with Intel® IOP348 processor
- 8-port (internal) 3Gb/s per port
- RAID 0, 1, 10
- RAID 5 and 6 with iButton (AOC-USASLP-S8iR)
- Onboard hardware IO processor
- 256 or 128MB 533MHz DDR2 on-card cache
- Power management support
- 1.5 and 3.0 Gb/s SAS and SATA data transfer rates
- Port independent auto-negotiation
- SSP, SMP, STP and SATA protocols
- Optional battery backup unit for cached data protection (AOC-USASLP-S8iR)
- OS Support: Windows 2000/XP/2003, RedHat Enterprise and SUSE Linux

UIO Riser Cards

Rackmounted servers often need extra slots to expand the number of I/O cards that can be used in the system. UIO riser card operate as extensions to the onboard PCI slots, which allows this expansion by providing a method of mounting add-in cards parallel to the UIO board rather than the traditional vertical mount as in full-size systems. This design will help to achieve smaller foot print solutions for a cost-effective approach.

Ethernet Adapters

Faster Networks for Maximizing Computing Demands

Supermicro's Ethernet Adapters can help improve network throughput as well as application performance through features that help you maximize the use of your network bandwidth and offload CPU resources. Maximum performance means eliminating bottlenecks between the CPU, end-user applications, and network access. A solution characterized simply as end-to-end throughput computing, Ethernet Adapters interface with the Supermicro UIO motherboard through a PCI Express UIO slot. This maximizes the I/O bandwidth of the multiple ports Ethernet connectivity. The dedicated input/output connections of the PCI-E ensure priority performance on each port without bus-sharing.

Features

- Business Financial
- Customer Management Solutions
- Decision Support Data Warehouse
- Enterprise Resource Planning
- Web Infrastructure

Key Industries

- Aerospace
- Automotive
- Education
- Energy
- Financial Services
- Global Government
- Healthcare
- Life Sciences
- Manufacturing
- Media, Entertainment & Internet Services
- Retail

The UIO (Universal I/O) Solutions

**More than 20 choices: SAS RAID, 10GbE, InfiniBand, UIO Cards . . .
Giving you the freedom to build exactly what you need!**

UIO Up to 3 Add-on Cards High-Efficiency Power Supply

SUPERSERVER 6015W-URB

X7DWU Serverboard + SC815TQ-R650UB Chassis

The **SuperServer 6015W-URB** is a well-gear'd high-end enterprise server with the versatility of adapting to various I/O setup depending on customer's needs. Powered by Quad-Core/Dual-Core 1600FSB 45nm 5400/5300 series Xeon[®] processors, this flexible 1U server is also capable of supporting up to three add-on cards (including one UIO card) and four hot-swap SAS/SATA 3.5" hard drive bays. Supermicro's unique UIO architecture enables easy upgrades to multiple internal and external SAS options with RAID5 option, dual-port 10 Gigabit Ethernet and 4-port Gigabit Ethernet. To maximize uptime, the SuperServer 6015W-URB features redundant high-efficiency 650W power supplies and high-performance counter-rotating fans with optimal fan speed control, ideal for HPC environments.

The UIO (Universal I/O) Solutions

2U

Up to 4 FH/FL & 2 LP Add-on Cards

700W Redundant High-Efficiency Power Supply

Left slot:

1 Universal I/O (UIO) slot &
3 PCI-E x8 or 3 PCI-X 133 (optional)

1600 FSB Quad-Core/Dual-Core Xeon
5400/5300LV/5200/5100LV
Sequence support

Supermicro SAS RAID 5
UIO card (optional)

6 SATA (3 Gbps);
RAID 0, 1, 5, 10

IPMI 2.0 with
virtual media over LAN &
KVM-over-LAN (optional)

3 heavy-duty fans
with optimal fan speed
control & air shroud

1 slim DVD-ROM drive, 1 COM & 2 USB ports

8 x 3.5" hot-swap drive bays

Power switch, reset & 6 LED indicators

Right slot: 2 PCI-E x8

64GB 800MHz
1.5V or 1.8V ECC FBD
DDR2 SDRAM

SUPERSERVER 6025W-URB

X7DWU Serverboard + SC825TQ-R700UB Chassis

The **SuperServer 6025W-URB** is a high performance server optimized in a compact 2U formfactor. This expertly designed system leverages an exceptional thermal control architecture to provide abundant cooling power for two Quad-Core/Dual-Core 1600FSB 45nm 5400/5300 series Xeon® processors. The UIO feature provides the ultimate in storage and networking customization with up to 6 add-on cards. Maximizing on performance, reliability and cost-effectiveness, it features up to 64GB FBD memory support, redundant high efficiency 700W power supply, and up to eight hot-swappable SAS/SATA drives. Sophisticated management options such as IPMI 2.0 and SuperDoctor® III are included to ensure that the SuperServer 6025W-URB is simple to configure, deploy and manage on a day-to-day basis to guarantee continual performance and maximum data availability.

We Keep IT Green

UIO (Universal I/O)
3 Add-on Cards in 1U
