

Super Arrow-Flex® Sheath Introducer

Flexibility you can see. Strength you can feel.

Complete Vascular Access Without Kinking Or Collapsing

The Flexible, Kink-Resistant Super Arrow-Flex® Sheath Introducer

The Super Arrow-Flex® Sheath Introducer gives you flexible vascular access, thanks to its innovative design and construction. From its easy insertion and handling to its highly visible radiopaque tip,* the Super Arrow-Flex® Sheath Introducer is designed to deliver exceptional performance from start to finish. With a wide range of sheath sizes and lengths. The Super Arrow-Flex® Sheath Introducer gives you flexibility in choices for multiple vascular applications.

Ideal Solutions Even in the Most Challenging Cases

- Exclusive coil-wire design allows the sheath to flex at any point in any direction without kinking or losing support
- Excellent steerability helps navigate tortuous anatomies
- Tapered dilator provides exceptional pushability to the contralateral leg and Superficial Femoral Artery (SFA)

Easy Placement and Insertion

- Radiopaque tip marker enhances visualization during insertion and enables precise deployment of a catheter just beyond the sheath tip*
- Highly radiopaque sheath, yet spacing between coils enables visualization through the sheath
- Smooth transition between the sheath and dilator helps to prevent peel-back
- Hydrophilic surface helps facilitate smooth insertion
- Valve lubrication eases passage of catheters and other devices through the sheath

Range of Products for Interventional Procedures

- Specific designs suitable for renal, carotid and transseptal procedures
- Wide range of products for crossover, TIPS and antegrade brachial procedures
- Variety of product options from 5 Fr. to 11 Fr. and 7.5 cm to 100 cm
- Sheath available with and without guide wire
- Color-coded for convenience

Flexibility and Confidence

- Ability to be used as a guiding sheath may eliminate the need for a guiding catheter (includes obturator cap)
- Tri-cusped hemostasis valve facilitates catheter manipulation with minimal bleed-back
- Sheath and dilator together to enable simultaneous, secure insertion

*In all 35 cm and longer except 5 Fr.

Each CP Set Includes:

- One Super Arrow-Flex® Sheath with integral side port/ haemostasis valve and attached 3-way stopcock
- One 17 3/4" (45 cm) long dual purpose "J" tip spring-wire guide in holder with tip straightener. Short-length sheath set (P) has .021 dia. and all others have .035" dia. wire guide
- One vessel dilator with SnapLock™ Feature
- One Obturator Cap

Each CL Set Includes:

- One Super Arrow-Flex® Sheath with integral side port/ hemostasis valve and attached 3-way stopcock
- One Vessel Dilator with SnapLock™ Feature
- One obturator cap
