TERRAILLON, AN HISTORIC BRAND LOOKING TO THE FUTURE

In line with the founding avant-garde spirit of the brand, Terraillon designs and manufactures appliances that have exceeded consumer expectations in the areas of health and well-being for over sixty years. Today Terraillon creates smart and connected health-focused devices which have a real benefit on the healthy lifestyles of users, through the «My Terraillon» mobile app for your smartphone.

An integral part of our daily lives, the cutting-edge devices designed by Terraillon are not just for your physical activities, they also have a place in all the rooms of your house, from the kitchen to the bathroom. Always at your disposal, their unique know-how and design enliven all those moments when you take the time to enjoy looking after yourself or the ones you love.

TERRAILLON,  
AN INTERNATIONAL BRAND

**A group on the international stage.**

Terraillon exports to over 80 countries in 5 continents, and is one of the European leaders in the kitchen and bathroom scale markets. The international reputation of the group relies on two well-known brands, Terraillon and Hanson.

Based in Croissy sur Seine in the department of Yvelines in France, Terraillon's global headquarters is made up of international teams who work in collaboration with different research and development teams across the world. We also have offices in London, England, and Hong-Kong in China.

**Our mission**

To support you every day with useful and innovative solutions which make your life easier and help you to take care of yourself and your loved ones. Our motto, Precisely Well-being, is a pledge of this mission and our values.

**Our values**

**Creativity** through design and technological innovation

**The consumer experience** with efficient devices that are useful every day

**Excellence** through the consistent quality and reliability of our products

TERRAILLON,  
A WELL-KNOWN AWARD-WINNING BRAND

**Unique design**

Because the aesthetics of the objects that make up your daily life are very important, right from the design stage Terraillon strives to create products in shapes and colours that really make you want to use them. Our Design and Research and Development teams based in France strive to create products with a unique design that employ technology that offers real value to the user. Terraillon products have achieved international recognition for their design, which is proved by the numerous international awards we have received, and the fact that our products have been exhibited at the Museum of Modern Art in New York.

## Connected Well-Being with Terraillon®

- 1 Keep your data in the long-term – backup your history
- 2 Set your goals
- 3 Follow your progress week after week
- 4 Improve your performance and results
- 5 Share your measurements on social networks or by e-mail

### Results that are simpler to read

The MyTerraillon app was designed to make reading your results easy and effective. Each category has its own colour (Weight, Blood Pressure, Physical Activity and Sleep). In each category, colour coding provides a clear display of your progress, your position in relation to your targets and how you compare to various BMI, blood pressure and physical activity goals.

### Sharing and accessibility facility

All your results can be shared on social networks (Facebook and Twitter), so your friends and family can encourage and congratulate you. Your data can also be shared by e-mail, which is a great way for your health professional to monitor your blood pressure. All data is saved to the Cloud, in a space that is both private and secure. You can access your data anywhere, from your Smartphone or tablet, or recover all your results if you get a new Smartphone.

### Bluetooth Smart connectivity

Terraillon connected products use the latest generation of connectivity, Bluetooth Smart. In addition to being very quick to transfer the data, its low energy consumption ensures a longer battery life.
