*REQUEST FOR
PROPOSALS*
for
DRAWING STUDIO AND PRODUCTION SERVICES

**Identified HUB Vendors by CMBL Class
and Commodity Description**

CMBL/HUB DIRECTORY INSTRUCTIONS AND HUB VENDOR REFERENCE LISTS

The attached HUB vendor reference lists were generated using the Comptroller of Public Accounts (CPA) Central Master Bidders List (CMBL) and HUB Directory. The lists are provided as a resource to assist Proposers in preparing and submitting a HUB Subcontracting Plan (HSP).

As part of the good faith effort process, Bidders/Proposers are responsible for utilizing the Centralized Master Bidders List (CMBL) and HUB Directory to identify potential HUB subcontractors and/or to verify the HUB status of all vendors who are listed/notified in their HSP. The Texas Lottery Commission does not endorse, recommend or attest to the capabilities of any company or individual listed.

The databases may be accessed via the internet:

CMBL: www2.cpa.state.tx.us/cmb/cmbhub.html

HUB Directory: www2.cpa.state.tx.us/cmb/hubonly.html

The CMBL and HUB Directory are “live” databases that are updated on a continuous basis. **Note that currently active certified HUBs have a HUB status code of “A.” All other HUB status codes indicate that a vendor is either inactive or not a HUB. Be sure to list or solicit only HUB vendors who are currently active at the time that you are preparing the HSP.**

In order to meet the requirement to notify two or more minority/women trade organizations or business development centers, if applicable, access the following list on the CPA website:

www.window.state.tx.us/procurement/prog/hub/mwb-links-1/

These entities have expressed their willingness to accept notices of subcontracting opportunities from vendors to distribute to their minority and woman-owned business members.

The following pages contain general information to assist Bidders/Proposers in using the CPA databases.

Using the Comptroller of Public Accounts Databases to Locate Historically Underutilized Businesses (HUBs)

I. Introduction

This guide is designed to assist you in accessing and using the Comptroller of Public Accounts (CPA) databases to locate HUB vendors who can provide specific goods or services and/or to verify HUB status. The databases consist of the Centralized Master Bidders List (CMBL) and the HUB Directory. Note that you can view “Help” information by clicking on the yellow question marks displayed on the CMBL search screen.

II. Access to the CMBL via the internet:

www2.cpa.state.tx.us/cmb/cmbhub.html

III. CMBL Search Screen

The CMBL search screen provides options for generating the appropriate vendor list. The screen includes "Search," "Sort by", "Output as", and “Results” options.

“Search” Option	Search Results
CMBL Only	Vendors who are listed on the CMBL; includes both HUB and non-HUB vendors.
HUBs on CMBL	Active HUBs who are <u>also</u> listed on the CMBL.
HUBs not on CMBL	Active HUBs who are <u>not</u> listed on the CMBL, but are still searchable by commodity codes.
HUB Mentor Protégé	Vendors participating in HUB Mentor Protégé agreements.
All Vendors	Vendors who are listed on <u>either</u> the CMBL or in the HUB Directory; includes active HUBs, inactive HUBs, and non-HUB vendors.
HUB Directory	Active HUBs who are <u>not</u> listed on the CMBL and are <u>not</u> searchable by commodity codes (these HUBs can be located by searching on general categories only).

“Sort by” Options

User can sort by Vendor Name, Vendor ID, City, Zip Code, Ethnicity/Gender, or HUB Status, by selecting the appropriate option from the drop down menu next to the words “Sort by” at the bottom of the search screen.

“Output as” Options

User can determine output format by selecting the appropriate option from the drop down menu located next to the words “Output as” at the bottom of the search screen.

Detail List	User can select specific output fields from a menu. Default fields have been pre-selected, but can be customized.
All Contact Information	Produces a list of complete contact information for each vendor, including address, phone, fax, contact name, and business description.
User Defined Output	Plain text information for use with word processing programs, databases or spreadsheets.

“Results” Options

User can determine the types of results returned by selecting the appropriate option from the drop down menu located next to the word “Results” at the bottom of the search screen. Choices are to return all matches, or to return only a portion of the list (i.e., first 20, 50, 100 matches, etc.). The option to “only return count” can be used to see the number of vendors who are on a given list.

IV. Locating HUB Vendors

HUB vendors can be located by:

- Selecting the “HUBs on the CMBL” search option on the CMBL search screen;
- Selecting the “HUBs not on the CMBL” search option on the CMBL search screen;
- Using the HUB Directory.

Commodity codes can be used to search both “HUBs on the CMBL” and “HUBs not on the CMBL.” However, the “HUB Directory” search screen only allows a search by general categories.

Searching by Commodity Codes

The following table outlines procedures for locating HUB Vendors who are listed by commodity class and item codes. For more information about locating Commodity Codes, please refer to Section V of this document.

Step	Action
1.	Select a search option. You may use select either “HUBs on the CMBL” or “HUBs not on the CMBL.”
2.	Select the desired output for the list.
3.	Select the desired sort option for the list.
4.	In the field labeled “Selection 1,” enter the appropriate class and item codes. You may enter up to three sets of codes for a consolidated list. NOTE: You may view the Commodity Code List by using either the “Class Code” or “Item Code” blue hot keys.
5.	If you choose to limit the list by district, enter the district number. NOTE: You may view District Information by using the “District” blue hot key.
6.	If you choose to limit the list by County, City or Zip Code, enter the appropriate information. If you have already limited by district, this additional information is not necessary.
7.	Press the “Search” button in the bottom left hand corner of the screen.

Searching the HUB Directory

Access to the HUB Directory is available via the internet at:
www.window.state.tx.us/procurement/cmb/hubonly.html

Vendors listed in this database are HUBs who are not on the CMBL, and are listed by general categories only. This database cannot be searched by using commodity codes.

Step	Action
1.	From the CMBL screen, you may use the blue hot key on the right side of the screen to access the "HUB Directory".
2.	Select the desired output for the list (from this screen you may choose "Detail List, "All Contact Information," "Mailing labels," or "as tab delimited.")
3.	Select the desired sort option for the list. (Sort options for this database differ from the CMBL. They include Name, City, Ethnicity/Gender and Status.) NOTE: The detail list will appear in a format that includes Vendor Name, HUB Status, Phone Number, and Business Description.
4.	Enter a category number in the "Categories" field. NOTE: To view a descriptive list of the category numbers, use the "07, 08" blue hot key.
5.	If you choose to limit the list by County, City or Zip Code, enter the appropriate information. From this database, there is no option to limit the list by district.
6.	Press the "Submit Search" button in the bottom left hand corner of the screen.

Tips for Using the HUB Directory

The "HUB Only" search generates a more general list than the other searches. It requires you to scroll through the list in order to locate appropriate vendors or to do a key word search using "Control F." Once a vendor is located, you can view their complete information by using the vendor hot key from the on-line list.

Viewing Information by Vendor

In all databases, you may view complete individual vendor information by choosing "All Contact Information" as the search output, then entering the specific vendor name, vendor ID, or 5-digit vendor number, and submitting the search.

CMBL and HUB Codes

CMBL and HUB codes may be viewed on-line by clicking on the “HUB Status” and “Reason Off CMBL” hot keys. **NOTE: Currently active vendors have a status of “A.” All other HUB status codes indicate that a vendor is either inactive or not a HUB.**

V. Using the Commodity Code Book

List by Numeric Class Code

This list includes a “hot key” for each class code. By clicking on the hot key, you can view the particular class with a sub-listing of individual item codes and descriptions. Classes are general headings, so if you can’t locate an item, try using the alphabetic index. Access at: www2.cpa.state.tx.us/com_book/index.html

Alphabetic Index

The index alphabetically lists items with both class and item code. Use the index to locate the class in which an item is located. No hot keys are available on this list. Access at: www2.cpa.state.tx.us/com_book/alpha_index.html

Whole Commodity Book

This option lists each class (numerically) with a breakdown of all individual item numbers. No hot keys are available on this list. Access at: www2.cpa.state.tx.us/com_book/commall.html

Note: All class codes of 900 and above are for services.

Commodity Class 204: Computer Hardware and Peripherals for Microcomputers

Item Number and Commodity Description

53 - Microcomputers, Desktop or Towerbased

60 - Monitors, Color and Monochrome (CGA, VGA, SVGA, etc.)

76 - Printers, Inkjet

Suppliers from the CMBL identified for the services or commodities above:
