

Zebra's QuikCard ID Solution™

Everything you need to print professional-quality cards

Set up your card-printing system and begin producing photo IDs in minutes with the Zebra® QuikCard ID Solution – no software expertise necessary. It includes everything you need to make professional-quality identification, security and commerce-related cards quickly, easily and cost-effectively.

Easy and complete solution

The feature- and value-packed kit includes:

- Full-colour, single- or double-sided ZXP Series 3™ card printer, available with or without magnetic-stripe encoding
- Exclusive Zebra ZMotif™ Card Studio™ Standard Edition design software with templates for exceptionally easy and fast custom creation of various types of card including company ID and visitor cards, personalised retail loyalty and membership cards, and much more
- A USB digital webcam for capturing photo ID pictures
- A genuine Zebra supplies starter kit (one ribbon, 200 PVC cards)
- Two-year limited warranty

Ideal for:

- Corporate and institutional security ID cards
- Loyalty, membership and retail cards
- Student and faculty ID and library cards

Zebra QuikCard ID Solution

ZXP Series 3 printer

- **Full-colour single-sided or double-sided card printer**
- **Magnetic encoding and bar-code support:**
Enhance the security and functionality of your cards with magnetic-stripe encoding and bar-code printing, ideal for access control, time-clock applications and more
- **Load-N-Go™ ribbon cartridge:**
Easy to load, no need to feed or wind the ribbon. Also features a patent-pending, built-in cleaning roller to clean every card for improved reliability
- **True Colours® ix Series™ high-performance ribbon:**
Automatically configures printer for optimised imaging and includes a ribbon-low warning indicator for convenience
- **LCD screen:**
Easy-to-read 16-digit LCD provides operational and routine cleaning information
- **Small footprint:**
Weighing just over 5.5kg and consuming minimal desk space, the ZXP Series 3 printer fits into any environment
- **Translucent cover:**
Allows users to keep an eye on card supply without interrupting printing
- **Colour-coded touch points:**
Blue touch points clearly show users which parts of the printer are safe to touch and help to simplify routine maintenance procedures

Note: Refer to the Zebra ZXP Series 3 card-printer datasheet for more detailed information and specifications.

ZMotif CardStudio software

- **Zebra card-design templates:**
Easy-to-use template designs quickly allow creation of customised cards while avoiding the learning curve normally associated with card design software
- **Zebra Template Designer:**
Collection of standard card design backgrounds, logos and design elements (with associated datafiles) for quickly creating custom card designs by editing text, data and graphics of pre-designed cards – or create your own unique card design
- **Languages supported:**
English, German, French, Italian, Spanish and Portuguese
- **Support for Excel® and CSV data import:**
Connect your database to seamlessly import data for multiple card-production applications
- **Software features include:**
Full-colour design capabilities (single- and double-sided cards); image acquisition (VFW, TWAIN, WIA, DS, File); printing variables (date/time, counters, concatenation and keyboard input); 1-D bar codes – complete library; magnetic encoding (ISO, JIS)
- **Professional software upgrade available:**
Want even more design flexibility, database connectivity and security features? Instantly upgrade to Professional for multi-card layout, Microsoft® Access® support, role-based, password-protected logins for multiple users and other advanced card design features

USB digital webcam

- **Logitech® webcam:**
Capture quality images with the user-friendly webcam. Just insert camera USB cable into a computer USB port for plug-and-play connection
- Specifications:**
- High-quality VGA video (640x480 pixels) and still image capture
 - High-speed USB 2.0
 - USB cable (1.8m)
 - Universal clip fits notebooks, LCD or CRT monitors

System requirements

- CD-ROM 8x drive
- Three powered USB 2.0 ports (powered USB 2.0 hub required if using external USB ports)
- Internet connection (for software registration – optional)
- Windows® XP, Windows Vista® or Windows 7

Genuine Zebra supplies

- Two hundred 30 mil (0.762mm) PVC cards (blank or with magnetic stripe depending on model ordered)
- One ix Series full-colour Load-N-Go ribbon cartridge (depending on model ordered)
- Genuine Zebra supplies meet stringent quality standards and are tested for optimum performance with Zebra card printers
- Additional ribbons and cards can be ordered from your usual card printer and media supplier.
The QuikCard ID Solution software supports all Zebra ZXP Series 3 ix Series ribbons and card media
