Catalogue 2021 - 2022

Discover the best

At Pentel we pride ourselves on quality, innovation and reliability, which is reflected throughout our entire range. In the following pages you will find all your favourite products, together with new and exciting items, giving you the performance you expect from Pentel.

From the quick-drying, smudge-reducing EnerGel, to unique Hybrid Dual Metallic pens, to the colourful and convenient Pentel Arts collection, there's something to inspire everyone to be creative.

Our Recycology range reflects our commitment to manufacturing products that are better for the environment. The collection includes display books and presentation files that are all made from at least 50% recycled materials, without compromising quality.

For trade customers, to complement our range of products we offer a variety of merchandising

solutions and displays. For more information see page 64.

Pentel have a company-wide total quality management programme and many of our factories are registered to ISO standards. We recognise the importance of developing products that benefit consumers and the environment by using low-odour inks and recycled materials where possible.

For more information on any of our products please contact your local representative or call our customer services team on **00 44 (0) 1793 823333**.

WHAT'S NEW

When it comes to innovation and excellent performance, fresh thinking and outstanding new ideas you'll find our 2021-2022 catalogue full of exciting products and initiatives.

It's estimated that over two-thirds of the writing instruments technology we take for granted in the world today has been inspired by Pentel innovation. And it's thanks to the efforts and close collaboration of our research and development and production teams that we continue to create products that are not only fit for purpose, but inspiring.

Our fantastic EnerGel range, which has just celebrated its 20th anniversary, continues to grow. We're adding more beautiful colours to the EnerGel Xm Retractable family, offering consumers an extensive range of 20 colours to choose from. New to the family is EnerGel Noir; its slim matt barrel and lightly grooved finger grip make it a pleasure to write with.

The latest additions to our popular gel pen range continue to amaze: with seven new sparkling colours, Hybrid Dual Metallic pens are truly incredible. Infused with two colours of glitter into the dye ink the effect is like a hologram. Remaining unique to Pentel, the stunning range of Hybrid Dual Metallic pens now have 15 shimmering colours available and are perfect for use on cards, decorations and drawings.

The bright, modern iZee (easy) makes a fabulous addition to the ballpoint pen range. Designed in France, iZee is available in an array of

vibrant colours and a choice of retractable or cap style versions, making it perfect for everyday writing. A twist on the original Superb pen sees the introduction of Superb Anti-Bacterial. Its barrel is treated with anti-bacterial formula to help prevent the spread of germs and reduce the risk of infection. Ideal for use in educational, medical, food and cosmetic industry environments.

Our Graphgear pencil family is renowned for its quality, reliability and performance and the latest additions are no exception. The fresh new colours of Graphgear 300 not only look fantastic but are available in four lead sizes to suit all needs.

A broad tip has also been introduced to the Maxiflo range offering the usual benefits of Maxiflo ink technology while producing vivid, dense and solid lines making messages and charts stand out.

Our Pentel Arts range, which is ideal for artists, students and craft enthusiasts, continues to offer new and exciting products. In addition to the wide variety of high-quality art materials already available, we've introduced a further 12 beautiful colours to the Brush Sign Pen family. Its flexible brush-like tip makes it ideal for modern lettering, calligraphy, illustrations and journaling. Draw, sketch and write with the new Pointliner, which contains ISO-certified water and fade-resistant pigment ink which can be used with watercolours and dye ink products. It's available in five tip sizes and is ideal for creating the most intricate details or bold lines and shading.

Our product ranges are updated during the life of this catalogue, so for the latest information please visit our website www.pentel.co.uk

CORPORATE PARTNERSHIPS

Pentel is proud to be a corporate partner of Breast Cancer Now and Prostate Cancer UK. Thanks to your support we continue to raise thousands of pounds to help fund vital projects in the UK and Ireland to improve the lives of those who suffer from these diseases.

We've supported Breast Cancer Now since 2006 and have raised over **£1.4 million** for the charity to date. Our relationship with Prostate Cancer UK began in 2009 and donations to the charity are in excess of **£628,000**.

Our special edition products are available from many customers, plus our own online store. We make a donation to the respective charity for every pen sold through these channels.

Find out more about our partnerships with Breast Cancer Now and Prostate Cancer UK and help us raise more money to support the work of these important charities.

Breast Cancer Now is the charity that's steered by world-class research and powered by life-changing care. They're here for anyone affected by breast cancer, the whole way through, providing support for today and hope for the future.

They believe that if we all act now, we can change the future of breast cancer and make sure that, by 2050, everyone diagnosed with the disease lives – and is supported to live well.

Visit www.breastcancernow.org for more information

See page 13 for product details.

Prostate Cancer UK is leading the fight against prostate cancer. They're here for the millions of families concerned

or affected by prostate cancer wherever they live in the UK. They support men and their families living with the impact of prostate cancer now, fund research to protect men in the future and campaigns to raise awareness and drive change.

Visit www.prostatecanceruk.org for more information

See page 13 for product details.

RECYCOLOGY

PENTEL AND THE ENVIRONMENT

Our commitment to the three Rs – **reduce, reuse, recycle** – is encapsulated in one word: **Recycology**.

It's how we describe the efforts we make to use natural resources sensitively and responsibly throughout our business. It's also about how Pentel can help you choose products that have a **reduced impact on the environment**.

We offer you a wide range of writing instruments, filing products and display books made using a minimum of 50% recycled material. Plus, many of our pens, and all our pencils, are refillable.

ACTING RESPONSIBLY WITH RECYCOLOGY

At every level of our business we're working hard to help preserve and protect the environment, whether that's by using recycled plastic in our pens or introducing new cardboard packaging for our customers.

This isn't new for us. Our parent company in Tokyo has a dedicated environmental management framework based on its Environmental Principles programme that was established in the mid-1990s. This framework informs, develops and

operates environmental management systems to make Pentel activities at factories and offices more effective in terms of sustainability and protection of the environment. Pentel's factories in Japan, Taiwan, Thailand and Mexico are all accredited to ISO 14001 for environmental management systems.

In product development Pentel factories have a duty to use recycled materials wherever possible. And it's always been our goal to make products that last a long time or can be refilled, to reduce the need to throw away perfectly usable products.

And what could be more responsible than a refillable pencil? Pentel have been designing and manufacturing mechanical pencils for more than 50 years. Each time you choose a Pentel mechanical Pentel you're helping to reduce the requirement for thousands of trees that are chopped down every year to make traditional wood-case pencils.

LOCAL ACTION

In the UK we want to encourage everyone who buys a Pentel product that can be refilled to do just that. So that's why we've developed our message, **'If You Love It, Refill It'**, to help identify those items that can be used over and again. When you view our catalogue, you'll see this logo next to certain products and you'll find the refills listed, to make it easy to select the right one.

We're all aware of the need to reduce or eradicate single-use plastic in packaging and it's no different at Pentel. Boxes of Pentel loose pens, pencils and markers are made using recycled board, and we're introducing many new wallet sets made from board, not plastic.

Where we continue to use recycled polypropylene for best protection of products, we encourage you to keep your Pentel products together in these sets, or to recycle the plastic appropriately. In addition, many of our most popular blister packs now also include a reminder that you can recycle the card and plastic separately.

RECYCOLOGY DISPLAY BOOKS AND PRESENTATION FILES

Nearly 15 years ago Pentel launched a range of display books, presentation files and folders, **all made using 50% recycled materials***. Recycology filing products use fewer valuable resources than non-recycled equivalents, without compromising quality. Ideal for projects, presentations, recipe collections or hobbies, the Recycology range is ideal for office, school or home and helps you keep precious documents and photos protected and organised.

RECYCOLOGY WRITING INSTRUMENTS

Where you see the Recycology logo next to a Pentel product this denotes that the item contains a minimum of **50% recycled material***. Where practical, our factories try to manufacture as many products using recycled material as possible. We're proud to say that two thirds of our quick-drying EnerGel range is classified under the Recycology umbrella, including our hugely popular EnerGel X retractable rollerball, which is made using a minimum of 84% recycled material (and it's refillable).

And don't forget to refill your Pentel pen or mechanical pencil. Over 40% of the products in our entire UK range can be refilled, even including our Roll 'n' Glue and Brush Glue bottles.

So, there's really no need to throw away a perfectly re-usable Pentel product.

REDUCE, REUSE AND RECYCLE

*Percentage based on total weight of product excluding consumable elements.

ENERGEL

With its revolutionary low viscosity liquid gel ink, the EnerGel formula is **quicker drying** and smoother flowing than ordinary gel ink, giving a similar sensation to liquid ink. Because the ink dries super quickly it's appreciated by right and left-handed writers alike, as it reduces smudging on paper or hands.

Unlike liquid ink products, though, EnerGel doesn't need a regulator to control its flow – the ink is delivered directly from the reservoir or refill to the tip in one smooth transition. That's why the family of EnerGel products gives you the ultimate, yet affordable, writing experience. The majority of the EnerGel range is made from a minimum of 50% recycled material.

GEL PENS AND CLASSIC ROLLERBALLS

Pentel's gel is a pigment-based ink which is especially rich in colour. Perfect for creative use or everyday writing, the ink flows smoothly to the last drop. There are many products and styles to choose from within the popular range, with stunning colours and a variety of tip sizes.

All Pentel gel rollers are acid-free. The Hybrid Dual Metallic is Pentel's latest innovation - and what a sensation it is! With its sparkling iridescent gel ink, it looks different on dark or light paper: try it and you'll see that Hybrid Dual Metallic is unlike any other gel pen. Our seven new colours are our best yet!

Our classic rollerball is the world-famous Ball Pentel, with its smooth flowing, water-based ink and iconic green barrel.

BALLPOINT PENS

Our range of ballpoint pens provides an excellent choice of different designs, from the comfortable Kachiri to the popular everyday Superb.

Each ballpoint pen has its own unique style, contains oil-based ink and delivers smooth, stress-free writing. Our low-viscosity ballpoints provide the smoothest of writing experiences.

The latest addition is the new iZee collection, available in a choice of cap style or retractable - both in 8 vibrant colours and offering amazing value for money - and they're both refillable.

Whether you're looking for a range of colours, or an everyday writing product, there's a choice to suit your requirements here.

PLASTIC/FIBRE TIP PENS

Pentel developed the very first fibre tipped pen - the world famous Sign Pen - over 50 years ago. This product, along with others such as the Ultra Fine Pen, helped establish our reputation for performance and innovation. Half a century on, Sign Pen and Ultra Fine are still firm favourites in the studio, office, college and home, complemented by new members of the family and, of course, our famous delta-nibbed fountain pen range.

MARKERS

When it comes to markers, Pentel products offer unparalleled quality, reliability and performance. Our extensive range provides a product for virtually every purpose, from tough, durable permanent markers for a variety of surfaces, to dry wipe markers for presentations and meetings, liquid chalk markers for everyday signs and notices and highlighters for colour-coding, underlining or ear-marking key passages of text or figures.

The N50 name has been synonymous with quality and performance for decades - and now the family includes other tip sizes.

It's no wonder we've been a leader of marker technology for many years.

N50/N60 Bullet Point & Chisel Tip

- The UK's favourite permanent markers

SMW26 has a reversible bullet tip and chisel tip

Heavy duty permanent marker ink may 'bleed' through light paper. Always test suitability before extensive use.

Permanent markers are not recommended for use by young children.

● Test first to avoid bleed through

MECHANICAL PENCILS & LEADS

Fine lead mechanical pencil technology has been a Pentel speciality for over 50 years. Our wide range of products offers an exceptional choice of pencils for professional, commercial and domestic use. The range is complemented by Pentel refill leads, which are stronger and longer-lasting than ordinary graphite leads. Our AIN STEIN range is our stongest ever refill lead, with ultimate resistance to breakage and superb density of colour.

CORRECTION PENS & TAPE

Pentel developed the very first valve-controlled correction pen for neat, accurate cover-ups. We went one better with Micro Correct, a metal-tipped correction pen, which puts you in control of your correcting, with no mess, no waste and no fuss!

Our latest innovation, Correct Express, dries quickly and evenly to give a smooth, flat surface for writing over, with no lumps and bumps.

Pentel's correction range encompasses liquid products and a correction tape for covering pen ink, plus low-debris erasers for mistakes made in pencil. Excellent performance and long lasting value are the hallmarks of our range.

Correct Express

- Super quick and even drying, creates a flat surface for neat and tidy re-writing
- Fine metal tip and valve-controlled flow provides accurate application
- A built-in agitator keeps Correct Express fresh and always free-flowing
- Opaque low-odour white fluid provides excellent first-time coverage

Display available - see page 67

ZLE52
Contains 7ml of fluid

MICRO CORRECT

- The original metal-tipped correction pen
- Dispenses fluid exactly where needed
- Valve-controlled flow makes corrections neat and accurate
- Every last drop of fluid can be used
- Low-odour, trichloroethane-free formula
- Long-lasting size
- Made from a minimum of 50% recycled material*

*Percentage based on the total weight of the product excluding the fluid

Display available - see page 67

ZL31
Contains 12ml of fluid

CORRECTION TAPE

- Easy to use correction tape
- Ergonomic side-action for more natural correcting position
- Clean cut off for neat results
- Made from a minimum of 73% recycled material*

*Percentage based on the total weight of the product excluding the tape

XZTN14

BRING YOUR CREATIONS TO LIFE

ART MATERIALS

Artists, students and craft enthusiasts can choose from a variety of wonderful Pentel Arts products, made from quality materials and available in brilliant colours. Perfect for painting, drawing, decorating or designing, let your creativity flourish with Pentel Arts.

Our oil pastels collection offers a range of up to 49 colours, with lovely blending properties, while our water brushes can be used with many media to create beautiful effects.

We also offer great quality colour pencils for sketching and drawing, and our pen collection includes acid-free gel ink pens, and new colours in our Brush Sign Pen range, which are ideal for hand lettering.

Fabric Fun Pastel Dye Sticks

- Fun, easy way to transform natural absorbent fabrics with unique designs
- Apply pastels directly onto fabric
- Cover completed design with a clean sheet of paper or cloth, and press over it with a hot iron to set the dyes
- Once set, design is permanent (If you're not happy with your design, don't iron it, but wash it out in cold water and start again)
- Works best on natural, absorbent light-coloured fabrics such as cotton, linen or silk
- Sets of 7 or 15 or holiday activity set with 1 pack of PTS-15, t-shirt, templates, fabric gel roller and project book

N.B. Even if the dyes haven't been fixed using an iron, Pentel can't guarantee that the colours will be completely removed after washing.

Some fading may occur after repeated washing of fabrics/garments

**PTS-7 & 15
PTS15/BN15-SET**

Oil Pastels

- Brilliant, fade-resistant colours
- Creamy softness makes pastels easy to lay down
- Slow drying time means you can work on a piece for several weeks
- Ideal for most types of paper (including pastel, water colour, cartridge, craft etc.) as well as canvas, oil and acrylic boards
- Great to use in conjunction with watercolours, oil paints and soft pastels
- Superb range of up to 49 colours
- Plus! Class packs of 36 sets of PHN4-12 and 12 sets of PHN4-12

PHN4-12, 16, 25, 36, 50, PHN4-12CP & PHN4-12/CPNEW

RECYCOLOGY

Recycology from Pentel is a range of filing products and display books, plus writing and drawing instruments which help to make the world's resources go further. Made from more than 50% recycled materials the products use fewer valuable virgin resources than standard equivalents, without compromising quality. Many products in the range are long-lasting, refillable and/or reusable.

Inspired by the concept of the 3Rs – Reduce, Reuse, Recycle – Recycology products also incorporate the style and performance associated with Pentel. So, now you can enhance your environment, as well as help to protect it.

Recycology writing instruments are shown within their product families. Look for the Recycology logo throughout this catalogue.

Percentage of recycled material based on the total weight of the product excluding consumable elements
