# LED LENSER
## OPTOELECTRONICS

## Product Catalogue

# Contents

**Power Transformation Technology (PTT) -** uses a microprocessor to digitally increase the voltage supplied to the LED. This gives you the power of a 3 C-cell flashlight with a single AA battery.

## LED Lenser – the Industry Leader

LED Lenser is the leader in technologically advanced, high quality LED flashlights. These hand-held lights use state-of-the-art engineering and a variety of patent pending reflector systems to create the brightest, most energy-efficient LED lights available. Incredibly compact, LED Lenser lights provide up to 200 hours of light from one set of batteries and up to 100,000 hours of light from the LED light chip. With their sleek, metal casings and only the highest quality LEDs, LED Lenser's revolutionary LED lights are the new benchmark in the hand-held light industry.

LED Lenser lights are engineered by Zweibrüder Optoelectronics in Solingen, Germany. Ledco Ltd is the exclusive distributor of LED Lensers in the UK and works closely with Zweibrüder on aspects of design for the unique LED Lenser line of products.

## State-of-the-Art Manufacturing

LED Lensers are manufactured in Germany and a new wholly owned 200,000 sq. ft production facility in Yang Jiang, China. The new facility is one of the most technologically advanced in China and doubles the previous output. In addition, the new facility provides the ability to produce items such as LED desk lamps, table lamps and home lighting systems.

In addition to the manufacturing facilities, the building also includes a 5000 square foot research and development centre, including a laboratory and darkroom for testing lights. The on-site laboratory and testing centre allows for a level of quality control that is unsurpassed by any other manufacturer.

## Brighter, more powerful, more durable

Patented LED Lenser technology brings you the world's most advanced hand-held lights.

## The LED Advantage

You already know LEDs offer all the advantages over conventional incandescent bulbs:

■ Incredibly energy efficient
■ Longer lasting
■ More compact
■ More durable

## LED Lenser Advantage

■ **Reflector Systems –** LED Lenser flashlights feature advanced technology that 'pumps up' the light produced by the LED. The result is a broader, deeper, and more powerful beam of light.

■ **More energy efficiency –** Our patented technology enables us to create more useful light with fewer LED's than comparable flashlights.

■ **PTT -** Power Transformation Technology uses a microprocessor to digitally increase the voltage supplied to the LED and regulate the current at the same time.

■ **24 carat gold contacts -** Gold is a superior energy conductor, minimizes energy lost at the contact points, and maximizes the energy for light production.

■ **Solid metal casings -** Most competitors only have a plastic casing. LED Lensers are manufactured from aircraft aluminium or solid brass with a nickel-alloy coating and rated 54 on the Rockwell Hardness Scale.

■ **Patented, higher quality, higher wattage LEDs -** LEDs come in a variety of wattages and quality but LED Lenser uses only patented Nichia and LumilLED LEDs, carefully matching the LED configuration to each light's use.

## LED Lenser Optical Technology for a Superior Beam

LED Lenser uses a variety of reflector systems to enhance the light output of our lights. Look for the circular symbols below to tell you which system each light employs.
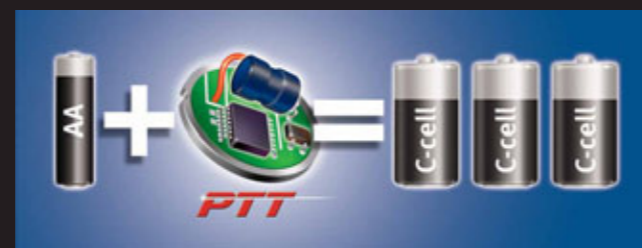

**LED Lenser Cloverleaf Reflector System**

**LED Lenser Crystal Reflector Tube System**

**LED Lenser Cloverleaf Multi-Reflector System**

# Professional Torches

LED Lenser Professional range combines our most advanced optical and digital technology with tactical style and technical designs for Police, military and extreme outdoor situations.

## V² Tactical Light

**Product Features**
- Prism Reflector system
- High intensity 1.25 watt LED
- Lightweight aircraft aluminium casing
- Rear tailcap switch - Constant beam or flash signal mode
- Durable nylon pouch and lanyard included

**Burn Time**
Up to 12 hours

**Dimensions**
105mm x 22mm

**Weight**
68gms

**Power Supply**
1 x AA alkaline battery included

*NEW*

| | |
|---|---|
| **7847 -** V² Tactical Light Black | |
| **7848 -** V² Tactical Light Silver | |

## V² Aviator

**Product Features**
- Cloverleaf 6-Reflector system
- 5 high quality white LED's
- 1 high quality red LED's
- Lightweight aircraft aluminium casing
- Dual switch system
- Durable nylon pouch and lanyard included

**Burn Time**
Up to 50 hours

**Dimensions**
95mm x 25mm

**Weight**
98gms

**Power Supply**
3 x AAA alkaline batteries included

| | |
|---|---|
| **7736RD -** V² Aviator Silver | |

## V2 Focus

**Product Features**
- The World's first focusing LED torch
- Prism reflector system
- High intensity 1.25 watt LED
- Spot to flood focus, simply by twisting the head of the torch
- Beam strength equivalent to a D cell torch
- Durable nylon pouch and lanyard included

**Burn Time**
Up to 50 hours

**Dimensions**
156mm x 30mm

**Weight**
134gms

**Power Supply**
2 x AA alkaline batteries included

*NEW*

| | |
|---|---|
| **7845 -** V2 Focus Black | |
| **7846 -** V2 Focus Silver | |

## Police Tech 1 Rechargeable

**Product Features**
- Prism reflector system
- High intensity 3 watt LED
- Spot to flood focus, simply by twisting the head of the torch
- Maximum intensity - 79 Lumens
- Aircraft aluminium casing
- Rechargeable up to 1000 times

**Burn Time**
Up to 3 hours per charge

**Dimensions**
245mm x 47mm

**Weight**
527gms

**Power Supply**
2600mAh 4.8V

*NEW*

| | |
|---|---|
| **7862 -** Police Tech 1 Rechargable Black | |

## V² Laser Light

**Product Features**
- Cloverleaf 6-Reflector system
- 5 high quality white LED's
- 1 high quality red LED's
- Lightweight aircraft aluminium casing
- Dual switch system
- Durable nylon pouch and lanyard included

**Burn Time**
Up to 50 hours

**Dimensions**
98mm x 25mm

**Weight**
98gms

**Power Supply**
3 x AAA alkaline batteries included

*NEW*

| | |
|---|---|
| **7736DL -** Laser Light Black | |

## V² Professional

**Product Features**
- Prism Reflector system
- High Intensity 1.25 watt LED
- Lightweight aircraft aluminium casing
- Rear tailcap switch - Constant beam or flash signal mode
- Durable nylon pouch and lanyard included

**Burn Time**
Up to 50 hours

**Dimensions**
115mm x 25mm

**Weight**
120gms

**Power Supply**
3 x AAA alkaline batteries included

| | |
|---|---|
| **7736 -** V² Professional Black | |
| **7636TP -** V² Professional Black | |
| **7737 -** V² Professional Silver | |
| **7637TP -** V² Professional Silver | |

## Police Tech Focus

**Product Features**
- Prism reflector system
- High intensity 1.25 watt LED
- Spot to flood focus, simply by twisting the head of the torch
- Maximum intensity - 60 Lumens
- Aircraft aluminium casing
- Rear tail cap switch - Constant beam or flash signal mode
- Durable nylon pouchand lanyard included

**Burn Time**
Up to 50 hours

**Dimensions**
130mm x 32mm

**Weight**
144gms

**Power Supply**
3 x AAA alkaline batteries included

*NEW*

| | |
|---|---|
| **7438 -** Police Tech Focus Black | |

## Police Tech 3

**Product Features**
- Prism reflector system
- High intensity 1.25 watt LED
- Aircraft aluminium casing
- Rear tail cap switch - Constant beam or flash signal mode

**Burn Time**
Up to 50 hours

**Dimensions**
180mm x 35mm

**Weight**
340gms

**Power Supply**
2 x C cell alkaline batteries included

| | |
|---|---|
| **7448 -** Police Tech 3 Black | |
| **7678TP -** Police Tech 3 Black | |
| **7449 -** Police Tech 3 Silver | |
| **7679TP -** Police Tech 3 Silver | |

# Professional Torches

# Head Torches

## V² Tactical Light Rechargeable

**Product Features**
- Prism reflector system
- High intensity 1.25 watt LED
- Spot to flood focus, simply by twisting the head of the torch
- Maximum intensity - 67 Lumens
- Aircraft aluminium casing
- Rechargeable up to 1000 times
- Rear tailcap switch - Constant beam of flash signal mode

**Burn Time**
Up to 3 hours per charge

**Dimensions**
118mm x 25mm

**Weight**
68gms

**Power Supply**
700mAh 3.7V

*NEW*

| | 7853 - V² Tactical Light Rechargeable Black |
|---|---|

## V2 TL-Tactical Light

**Product Features**
- Prism reflector system
- High intensity 3 watt LED
- Aircraft aluminium casing
- Durable nylon pouch included

**Burn Time**
Up to 50 hours

**Dimensions**
270mm x 46mm

**Weight**
540gms

**Power Supply**
3 x C cell alkaline batteries included

| | 7446 - V2 TL-Tactical Light Black |
|---|---|
| | 7447 - V2 TL-Tactical Light Silver |

## Head Fire Triplex

**Product Features**
- Cloverleaf reflector system
- 3 high quality LED's
- Lamp head can be swivelled within an angle of 90°
- Fully adjustable straps
- Beam visible up to 2000 metres

**Burn Time**
Up to 50 hours

**Weight**
120gms

**Power Supply**
3 x AAA alkaline batteries included

| | 7454 - Head Fire Triplex |
|---|---|
| Test It | 7654TP - Head Fire Triplex |

## Head Fire Power Chip

**Product Features**
- Prism reflector system
- High intensity 1.25 watt LED
- Lamp head can be swivelled within an angle of 90°
- Fully adjustable straps
- Beam visible up to 3000 metres

**Burn Time**
Up to 50 hours

**Weight**
160gms

**Power Supply**
3 x AAA alkaline batteries included

| | 7455 - Head Fire Power Chip |
|---|---|
| Test It | 7655TP - Head Fire Power Chip |

## V² Professional Camouflage

**Product Features**
- Prism reflector system
- High intensity 1.25 watt LED
- Aircraft aluminium casing with Mossy Oak camouflage
- Rear tail cap switch - Constant beam or flash signal mode
- Durable nylon pouch and lanyard included

**Burn Time**
Up to 50 hours

**Dimensions**
115mm x 25mm

**Weight**
120gms

**Power Supply**
3 x AAA alkaline batteries included

*NEW*

| | 7736CA - V² Professional Camouflage |
|---|---|

## V2 Triplex Camouflage

**Product Features**
- Cloverleaf reflector system
- 3 high quality LED's
- Solid metal casing with Mossy Oak camouflage
- Durable nylon pouch and lanyard included

**Burn Time**
Up to 12 hours

**Dimensions**
141mm x 37mm

**Weight**
160gms

**Power Supply**
1 x AA alkaline battery included

*NEW*

| | 7547CA - V2 Triplex Camouflage |
|---|---|

## Head Fire Revolution

**Product Features**
- Prism reflector system
- High intensity 1.25 watt LED
- Integrated dimmer switch - Hi-Low beam facility
- Lamp head can be swivelled within an angle of 90°
- Fully adjustable straps
- Beam visible up to 3000 metres

**Burn Time**
Up to 50 hours

**Weight**
116gms

**Power Supply**
3 x AAA alkaline batteries included

*NEW*

| Test It | 7868TP - Head Fire Revolution |
|---|---|

## Head Fire Duplex

**Product Features**
- High intensity 1.25 watt LED
- Lower intensity beam for short range activities
- Dual switch system
- Lamp head can be swivelled within an angle of 90°
- Fully adjustable straps
- Beam visible up to 3000 metres

**Burn Time**
Up to 50 hours

**Weight**
180gms

**Power Supply**
3 x AAA alkaline batteries included

| | 7450 - Head Fire Duplex |
|---|---|

*NEW*

### Head Fire Duplex Night Vision
Product features as above except the barrels are black and the lower intensity beam is a red chip for night vision activities

| | 7450R - Head Fire Duplex Night Vision |
|---|---|

# DiveTorches

Professional divers know that conventional torches don't allow good vision when under water. Reflection rules out long range. LED Lenser have developed a range of dive torches that due to an axial collimator provide a strength of beam that up to now has been considered impossible.

## Micro Frogman Triplex

**Product Features**
- Cloverleaf reflector system
- 3 high quality LED's
- Neon colour makes torch easy to see in marine conditions
- Watertight construction - 60 metres depth rating
- Twist on/off switch
- Lanyard included

**Burn Time**
Up to 50 hours

**Dimensions**
125mm x 32mm

**Weight**
109gms

**Power Supply**
4 x AAA alkaline batteries included

*NEW*

| | 7484 - Micro Frogman Triplex Neon |
|---|---|

## Micro Frogman Power Chip

**Product Features**
- Prism reflector system
- High intensity 1.25 watt LED
- Neon colour makes torch easy to see in marine conditions
- Watertight construction - 60 metres depth rating
- Twist on/off switch
- Lanyard included

**Burn Time**
Up to 50 hours

**Dimensions**
125mm x 32mm

**Weight**
109gms

**Power Supply**
4 x AAA alkaline batteries included

*NEW*

| | 7486 - Micro Frogman Power Chip Neon |
|---|---|

## Frogman

**Product Features**
- Prism reflector system
- High intensity 1.25 watt LED
- Neon colour makes torch easy to see in marine conditions
- Watertight construction - 60 metres depth rating
- Twist on/off switch
- Lanyard included

**Burn Time**
Up to 50 hours

**Dimensions**
160mm x 41mm

**Weight**
226gms

**Power Supply**
4 x AA alkaline batteries included

| | 7456 - Frogman Power Chip Neon |
|---|---|
| | 7457 - Frogman Power Chip Black |

## Red Signal Cone for Frogman

**Product Features**
- Red cone for signal function
- Once fitted allows the torch to float

**Dimensions**
205mm x 48mm

**Dimensions**
38gms

*NEW*

| | 7482 - Red Signal Cone for Frogman |
|---|---|

# Design LedTorches

LED Lenser have developed a range of torches that have won numerous design awards. Combined with the highest quality Nichia™ LED's they produce the brightest, most energy efficient torches available today.

## V2 Mini Moon

**Product Features**
- Crystal reflector tube system
- High quality LED
- Includes durable nylon pouch & lanyard
- Solid metal casing - Satin stainless finish

**Burn Time**
Up to 30 hours

**Dimensions**
110mm x 21mm

**Weight**
80gms

**Power Supply**
1 x AAA alkaline battery included

| | 7463 - V2 Mini Moon Silver |
|---|---|
| | 7663CP - V2 Mini Moon Silver |

## V2 Moon Lenser

**Product Features**
- Crystal reflector tube system
- High quality LED
- Includes durable nylon pouch & lanyard
- Solid metal casing - Satin stainless finish

**Burn Time**
Up to 100 hours

**Dimensions**
141mm x 26mm

**Weight**
169gms

**Power Supply**
3 x LR1 alkaline batteries included

| | 7549 - V2 Moon Lenser Silver |
|---|---|
| | 7649CP - V2 Moon Lenser Silver |

## V2 Triplex

**Product Features**
- Cloverleaf reflector system
- 3 high quality LED's
- Includes durable nylon pouch & lanyard
- Solid metal casing - Satin stainless finish

**Burn Time**
Up to 100 hours

**Dimensions**
141mm x 26mm

**Weight**
160gms

**Power Supply**
3 x LR1 alkaline batteries included

| | 7547 - V2 Triplex Silver |
|---|---|
| | 7647TP - V2 Triplex Silver |

## V2 Power Chip

**Product Features**
- Prism reflector system
- High intensity 1.25 watt LED
- Includes durable nylon pouch & lanyard
- Solid metal casing - Satin stainless finish

**Burn Time**
Up to 100 hours

**Dimensions**
141mm x 26mm

**Weight**
160gms

**Power Supply**
3 x LR1 alkaline batteries included

| | 7461 - V2 Power Chip Silver |

## V6 6 Chip

**Product Features**
• Cloverleaf 6 reflector system
• 6 high quality LED's
• Solid stainless steel casing
• Includes durable nylon pouch

**Burn Time**
Up to 50 hours

**Dimensions**
92mm x 25mm

**Weight**
135gms

**Power Supply**
3 x AAA alkaline batteries included

**7732 -** V6 6 Chip Silver

## V6 Power Chip

**Product Features**
• Prism reflector system
• High intensity1.25 watt LED
• Solid stainless steel casing
• Includes durable nylon pouch

**Burn Time**
Up to 50 hours

**Dimensions**
105mm x 25mm

**Weight**
150gms

**Power Supply**
3 x AAA alkaline batteries included

**7730 -** V6 Power Chip Silver

## V10 Power Chip

**Product Features**
• Prism reflector system
• High intensity 1.25 watt LED
• Solid stainless steel casing
• Includes durable nylon pouch
• Twist on/off

**Burn Time**
Up to 50 hours

**Dimensions**
75mm x 24mm

**Weight**
89gms

**Power Supply**
3 x AAAA LR61 batteries included

**7734 -** V10 Power Chip Silver

## V10 Triplex

**Product Features**
• Cloverleaf reflector system
• 3 high quality LED's
• Solid stainless steel casing
• Includes durable nylon pouch
• Twist on/off

**Burn Time**
Up to 50 hours

**Dimensions**
75mm x 24mm

**Weight**
89gms

**Power Supply**
3 x AAAA LR61 batteries included

**7735 -** V10 Triplex Silver

## V2 16 Chips

**Product Features**
• Cloverleaf 16 reflector system
• 16 high quality LED's
• Solid stainless steel casing
• Includes durable nylon pouch

**Burn Time**
Up to 50 hours

**Dimensions**
265mm x 45mm

**Weight**
780gms

**Power Supply**
3 x C cell alkaline batteries included

**7460 -** V2 16 Chip Silver

## V2 Giga Chip Rechargeable

**Product Features**
• Prism reflector system
• High intensity 5 watt LED
• Solid stainless steel casing
• Includes durable nylon pouch and charger unit
• Rechargeable up to 500 times

**Burn Time**
Up to 3 hours per charge

**Dimensions**
267mm x 45mm

**Weight**
746gms

**Power Supply**
Ni-MH 6 x 1/2C 7.2V

**7459 -** V2 Giga Chip Rechargeable Silver

## V² Nano

**Product Features**
- Crystal reflector tube system
- High quality LED
- 24 carat gold contacts
- Aircraft aluminium casing
- Rear tail capswitch - Constant beam or flash signal mode

**Burn Time**
Up to 100 hours

**Dimensions**
61mm x 11mm

**Weight**
17gms

**Power Supply**
4 x AG5 batteries included

| |
|---|
| **7839 -** V² Nano Silver |

## V9 Micro Lenser

**Product Features**
- Crystal reflector tube system
- High quality LED
- Solid metal casing - Satin stainless finish

**Burn Time**
Up to 100 hours

**Dimensions**
50mm x 9mm

**Weight**
18gms

**Power Supply**
4 x AG3 batteries included

# FlexLights

Another example of LED Lenser innovation. These flex lights will illuminate those difficult to reach places.

## Car Lenser

**Product Features**
• Crystal reflector tube system
• High quality LED
• 250mm flexible neck

**Burn Time**
Up to 100,000 hours

**Dimensions**
325mm x 20mm

**Weight**
40gms

**Power Supply**
Runs off cigarette lighter

| | |
|---|---|
| **7750 –** Car Lenser Silver | |

## 360° Flex Light Small

**Product Features**
• Crystal reflector tube system
• High quality LED
• 88mm flexible neck length

**Burn Time**
Up to 100 hours

**Dimensions**
160mm x 14mm

**Weight**
45gms

**Power Supply**
4 x AG13 batteries included

| | |
|---|---|
| **7582 –** 360° Flex Light Small Silver | |
| **7682CP –** 360° Flex Light Small Silver | |

## 360° Flex Light Medium

**Product Features**
• Crystal reflector tube system
• High quality LED
• 92mm flexible neck length

**Burn Time**
Up to 25 hours

**Dimensions**
200mm x 14mm

**Weight**
66gms

**Power Supply**
1 x AAA alkaline battery included

| | |
|---|---|
| **7583 –** 360° Flex Light Medium Silver | |
| **7683CP –** 360° Flex Light Medium Silver | |

## 360° Flex Light Large

**Product Features**
• Crystal reflector tube system
• High quality LED
• 480mm flexible neck length

**Burn Time**
Up to 25 hours

**Dimensions**
480mm x 16mm

**Weight**
180gms

**Power Supply**
1 x AA alkaline battery included

| | |
|---|---|
| **7584 –** 360° Flex Light Large Silver | |

# Laser&Penlights

Make your point with these stylish hi-tech laser pointers and penlights. Manufactured using the latest state of the art technology.

## V9 Laser Pointer

**Product Features**
• High quality red laser LED
• Solid metal casing - Satin stainless finish
• Keyring lanyard attachment

**Burn Time**
Up to 100 hours

**Dimensions**
55mm x 10mm

**Weight**
20gms

**Power Supply**
3 x AG5 batteries included

| | |
|---|---|
| **7300 –** V9 Laser Pointer Silver | |

## V9 Extended Life Laser Pointer

**Product Features**
• High quality red laser LED
• Solid metal casing - Satin stainless finish
• Keyring lanyard attachment

**Burn Time**
Up to 100 hours

**Dimensions**
80mm x 10mm

**Weight**
29gms

**Power Supply**
4 x AAAA batteries included

| | |
|---|---|
| **7304 –** V9 Extended Life Laser Pointer | |

## V² Laser Light

**Product Features**
• Cloverleaf 6 reflector system
• 5 high quality white LED's
• 1 high quality red LED
