

# **Trees for Canterbury**

## Te Waonui o Tane Ki Waitaha

A project of the Green Effect Trust

The 'whats good now' List

All plants shown are subject to availability at time of ordering.

This is our retail price list. For bulk purchases please ask for a quote.

TC = recycled 1L milk carton or .7L pot. LBP = 10cm pot.

Pb3/5 will be either PB3 or PB5. These may also be in hard pots.

PB12/18 will also mean either PB12 or PB18.

We also stock a wide range of natives that we do not grow ourselves. These do not on this list. Examples do appear at the bottom of this list. Please ask staff for more information.

Prices include GST

We are at 42 Charlesworth St, Ferrymead Christchurch. Ph/Fax 03 9821028. Email: info@treesforcanterbury.org.nz

#### **Groundcovers**

| Acaena unserinifolia  Groundcover or on walls. Fruit dec to feb White flowers oct to dec Acaena buchananii  Dessely matted creeping plant Forms patches up to 50cm or more Prefers light shade and not too dry Racena buchananii var Picta  Dessely matted creeping plant forms patches up to 50cm or more Prefers light shade and not too dry Racena buchananii var Picta  Dessely matted creeping plant forms patches up to 50cm or more Prefers light shade and not too dry with slightly rey/bronze colouring. | A hardy and easy to grow plant, growing to 20cm tall x 60cm wide with small white flowers in summer. Great for rock gardens.   PB3   \$13.50   An attractive low spreading plant. Small white flowers cover the plant late   PB3   \$13.50   An ideal plant for rock-gardens or as a border along pathways. An annual pruning keeps it compact. It grows to 50cm tall, keeping a well rounded shape and white flowers form October-January. Suitable for areas of heavy frost, sun/semi-shade, moist/wet and exposed sites.   PB3   \$13.50   Attractive grey foliage and blue/purple flowers in summer. It grows to 45cm high x 75cm wide. It is best grown in full sun, dryer conditions with good airflow.   PB3   \$13.50   An attractive plant that can fall over and become decumbent with age. Great for rock gardens. It has a Violet-blue flower in summer. Hebe pinguafolia   TC   \$5.50   PB5   \$13.50   This plant grows to 45cm then becomes decumbant and sprawling. It is frost hardy, enjoys full sun and well drained sites.   PB5   \$13.50   This plant grows to 45cm then becomes decumbant and sprawling. It is frost hardy, enjoys full sun and well drained sites.   PB5   \$13.50   The grows to 90cm tall and has spikes of white flowers in summer. It needs no pruning and likes a sunny, well drained site. It is good for small gardens.   PB5   \$13.50   The glant grows to 45cm then becomes decumbant and sprawling. It is frost hardy, enjoys full sun and well drained sites.   PB5   \$13.50   The grows to 90cm tall and has spikes of white flowers in summer. It needs no pruning and likes a sunny, well drained site. It is good for small gardens.   PB5   \$13.50   The grows to 90cm tall and has spikes of white flower spikes and it should be pruned after flowering to keep neat. It is quite hardy but prefers good airflow.   PB5   \$13.50   The plant for rock-gardens in the pruning to keep neat. It is quite hardy. Good airflow is essential so it is suited to an exposed site. |      |
|--|------|
| An attractive low spreading plant. Small white flowers cover the plant late Spring early Summer. Best in free-draining soil in full sun. Hardy. 30x90cm wide.  Hebe pauciramosa  An ideal plant for rock-gardens or as a border along pathways. An annual pruning keeps it compact. It grows to 50cm tall, keeping a well rounded shape and white flowers form October-January. Suitable for areas of heavy frost, sun/semi-shade, moist/wet and exposed sites.  Hebe pimelioides "Quicksilver"  Attractive grey foliage and blue/purple flowers in summer. It grows to 45cm high x 75cm wide. It is best grown in full sun, dryer conditions with good airflow.  Hebe pimelioides var glauca  An attractive plant that can fall over and become decumbent with age. Great for rock gardens. It has a Violet-blue flower in summer.  Hebe pinguafolia  TC  \$5.50  PB5  \$13.50  FB5  \$13.50  This plant grows to 45cm then becomes decumbant and sprawling. It is frosts hardy, enjoys full sun and well drained sites.
