

Crab Apple

Malus spp.

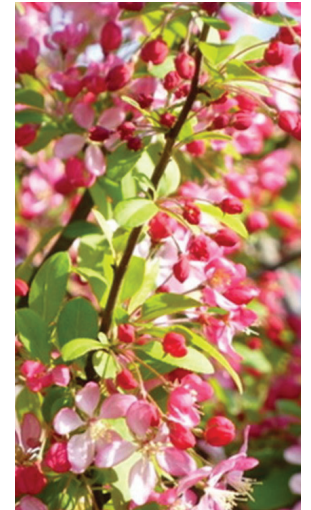

Small Tree

Deciduous

Flowering: Yes

Colour

Hardy and easily grown trees tolerating a wide variety of growing conditions.

Producing bright spring blossom, many feature edible fruits; whilst others feature wonderful autumn tones and highly-coloured ornamental fruits.

These small colourful trees vary in size, it is best to research which one is desired for your garden. Suitable varieties include:

Upright Crab Apple (*Malus tschonoskii*)

Japanese Crab Apple (*Malus floribunda*)

'Gorgeous' (*Malus atrosanguinea*)

'Wychwood Ruby' (*Malus yunnanensis*)
