FOREWORD

The Registers of Attorneys and Agents Registered to Practice Before the United States Patent Office are official records of the Patent Office comprising the name, address, business or firm affiliation, if any, enrollment classification, registration number, and bar membership, if any, of each individual admitted to practice before the Patent Office. The Registers are maintained current with changes recorded upon receipt of notices of change from registrants and upon direction of the Committee on Enrollment, and are open to public inspection in the Patent Office in Washington, D.C.

The publication is an extract of the official Registers containing the names and addresses of all individuals and firms as recorded in the Patent Office in December 1965.

Registrants who are officers or employees of the U.S. Government cannot, otherwise than in the discharge of their official duties, represent inventors before the Patent Office (18 U.S.C. 203, 205). Further, some registrants have indicated that, because of their employment by corporations or for other reasons, they are not available to accept new clients. An asterisk (*) appears in the listings beside the name of each registrant who is not available to accept new clients.

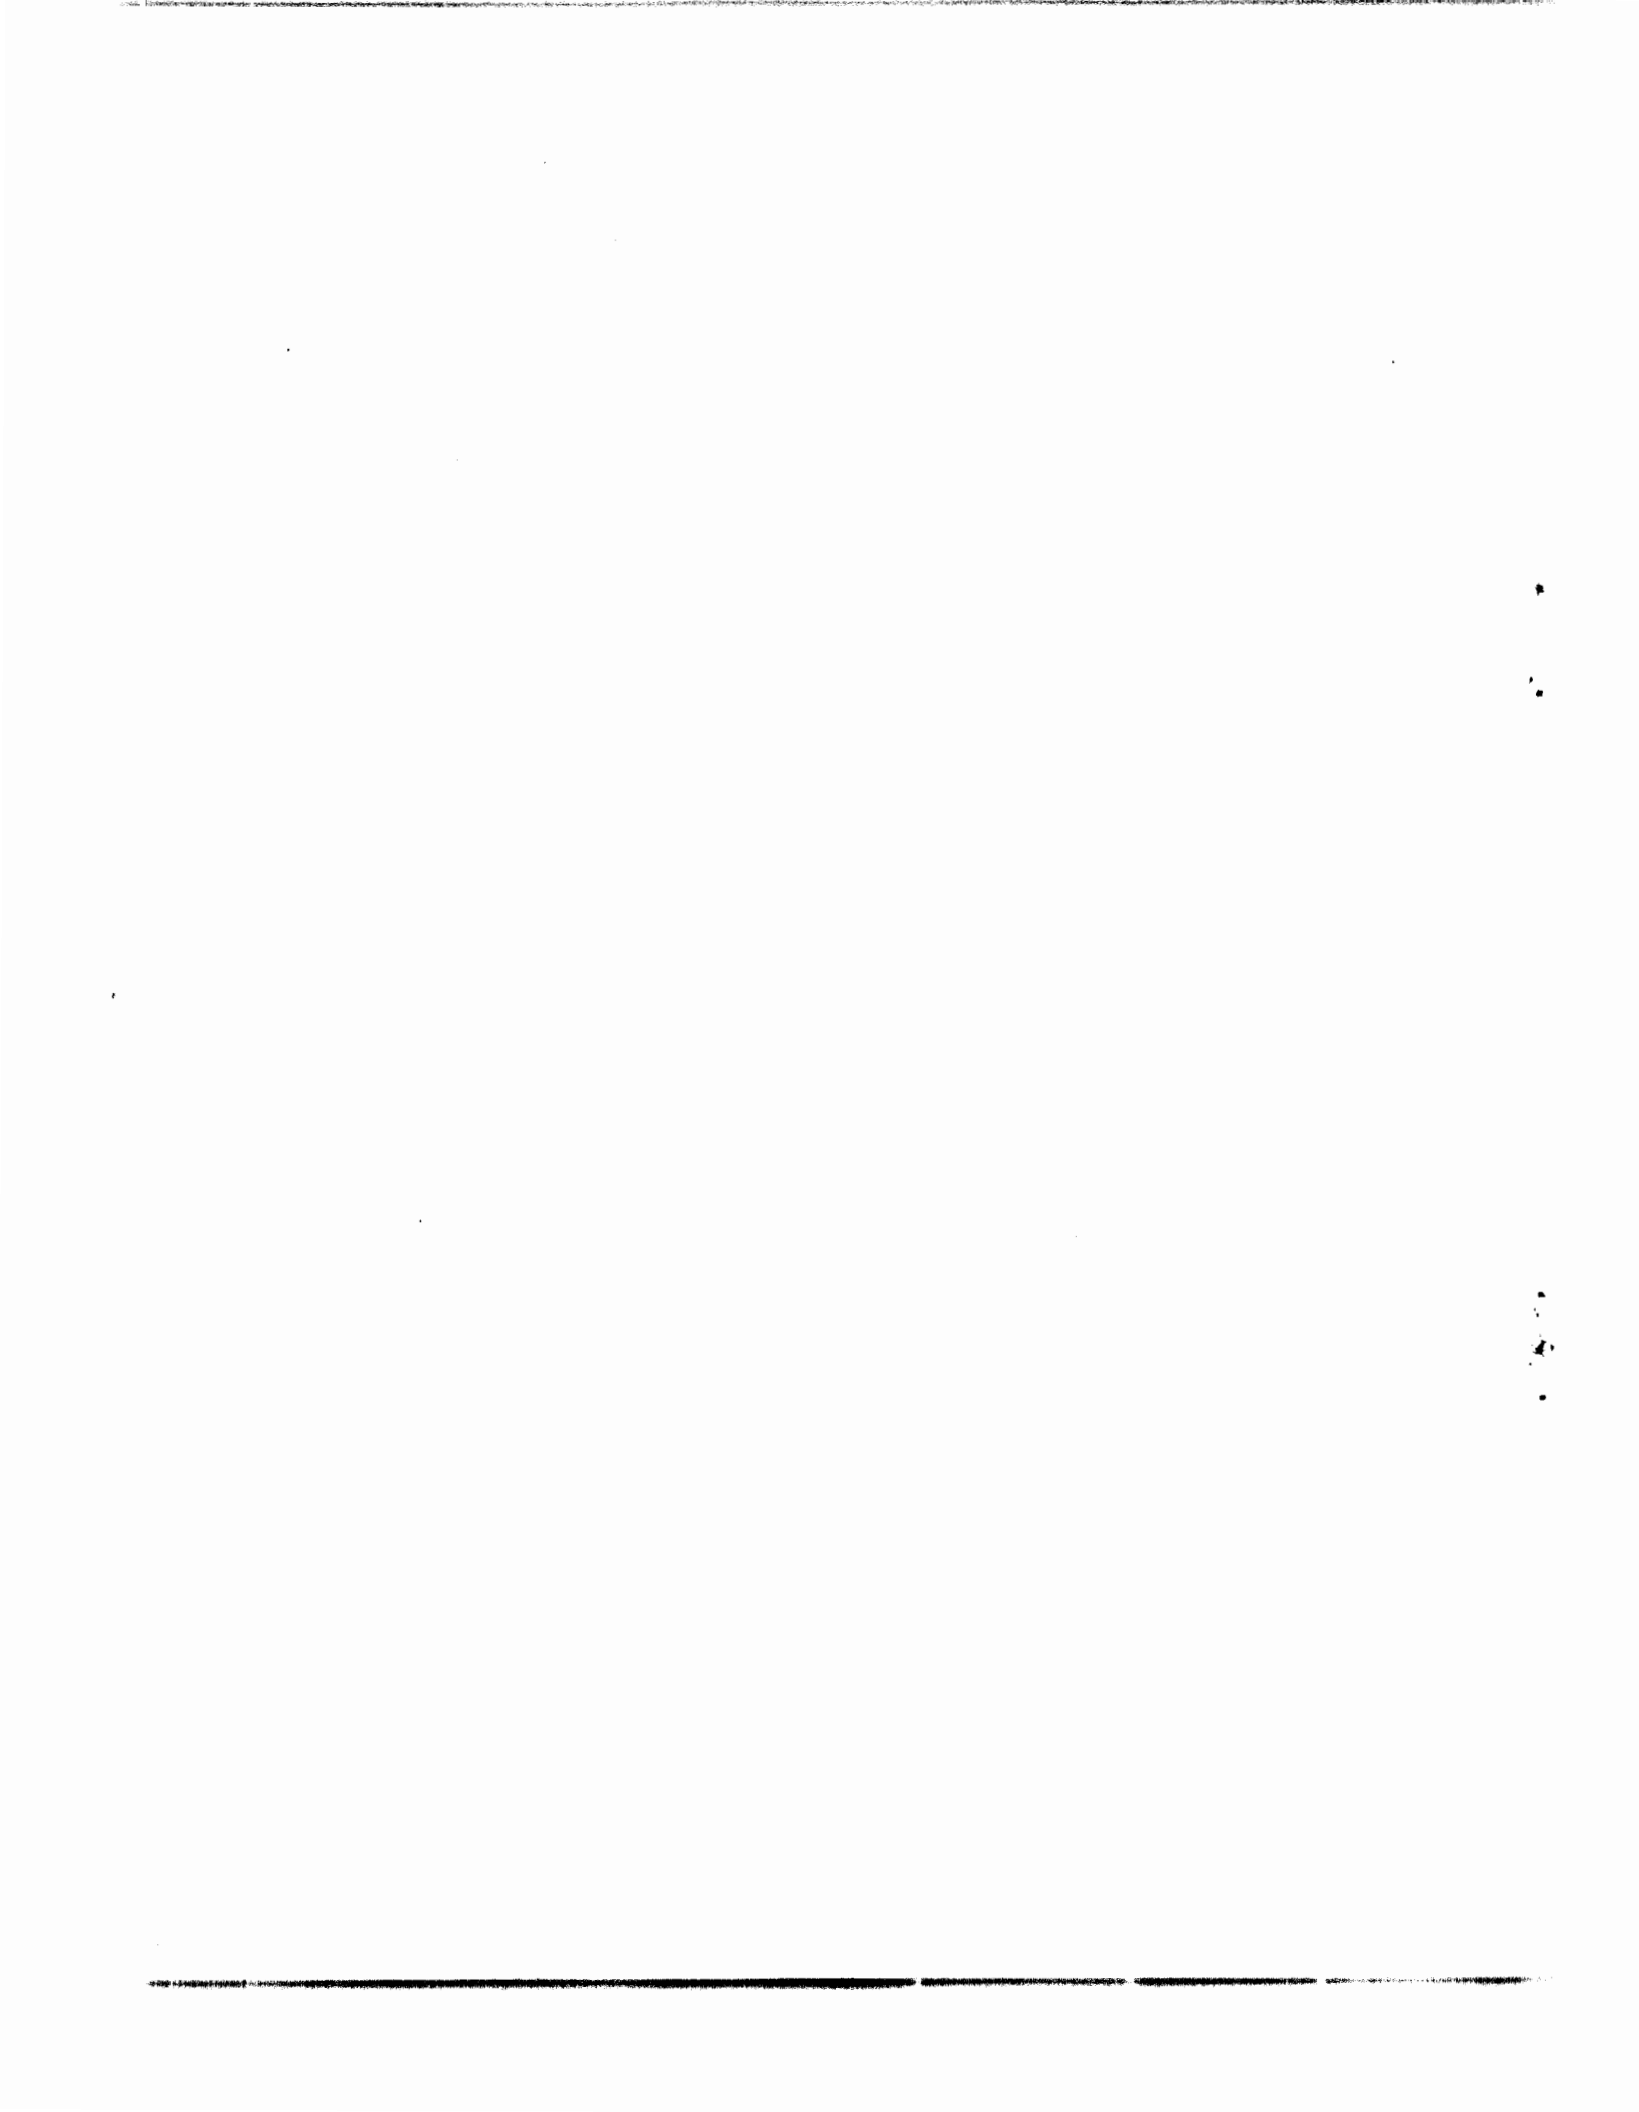

The publication is composed of two sections as follows:

Individuals in the United States and foreign countries.

Firms in the United States and foreign countries.

The listing of registrants is alphabetical by surname. Firms are listed alphabetically by the first surname in the firm name.

EDWARD J. BRENNER,
Commissioner of Patents.
