Their Story

Brooklyn Cured makes artisanal charcuterie using sustainable meat and fine-dining technique. Their product line includes salami, dry-cured meats, sausages, hot dogs, and deli meats using pasture-raised meat with **no antibiotics**.

Their diverse flavor profiles are inspired by the multitude of culinary traditions in their home borough of Brooklyn, New York.

Their Mission

Their mission is to create a larger market for sustainably raised meat by making delicious charcuterie that people enjoy and share with friends and family. They source heritage meats raised by farmers that practice regenerative agriculture.

This cracker has EVERYTHING. A balance of familiar tastes and worldly flavors. From the familiar SESAME, GARLIC and POPPY to the classic ROSEMARY & THYME, it is all in there!

Brewer's Sea Salt Flatbreads is their way of saying "crunch on". With a healthy amount of whole grains and the perfect amount of sea salt. They pair perfectly with cheese, soup, salad or just to snack on.

Brewer's makes their chips using Up-Cycled brewery grains, a valuable byproduct from the beer making process. When making beer, brewers steep super high-quality grains, like barley, in water. They then strain this mixture, keeping the liquid to make beer and discard the "spent" grains. Turns out, these grains are still incredibly flavorful and nutritious.
